## ENUMERATION AREA REFERENCE LIST

### GENERAL INTRODUCTION

This is one of a series of geographic reference lists prepared by Statistics Canada as an aid to users of data from the 1976 Census of Canada. In it, the linkages amongst the various geographic areas of data collection and presentation, or "geostatistical areas", are established. The lists may be used to access census data compiled on standard geostatistical areas, to order reference maps of these areas, or to create special-interest areas for which census data are required.

The enumeration area is the basic geographic unit of census data collection (see definition below). All standard geostatistical areas are composed of one or more complete enumeration areas, as indicated on these reference lists. Moreover, outside of those centres where block-face geocoding is in effect, all special-interest areas are built from complete enumeration areas.

Linkages also exist amongst other geostatistical areas. Census divisions are composed of several complete census subdivisions, census metropolitan areas are composed of several complete census tracts, and so on. These linkages are indicated on the appropriate reference lists.

All codes required to access the various geostatistical areas, along with instructions for their use, are included in the reference lists.

Reference maps of the various geostatistical areas may be obtained through the Data Dissemination Division, Census and Household Surveys Field, Statistics Canada.

## LISTE DE RÉFÉRENCE DES SECTEURS DE DÉNOMBREMENT

### INTRODUCTION GÉNÉRALE

La présente fait partie d'une série de listes de référence géographiques dressées par Statistique Canada en vue d'aider les utilisateurs des données du recensement du Canada de 1976. Dans cette liste, on a établi les liens qui existent entre les diverses unités géographiques de collecte et de présentation des données, ou "unités géostatistiques". Les listes peuvent être utilisées pour obtenir l'accès aux données du recensement rassemblées sur des unités géostatistiques normalisées, pour commander des cartes de référence de ces unités, ou pour créer des secteurs d'intérêt spécial pour lesquels des données du recensement sont requises.

Le secteur de dénombrement constitue l'unité géographique de base de la collecte des données du recensement (voir définition ci-dessous). Toutes les unités géostatistiques normalisées sont composées d'un ou de plusieurs secteurs de dénombrement complets, comme il est indiqué sur ces listes de référence. En outre, à l'extérieur de ces centres où le géocodage à côté d'ilot est appliqué, tous les secteurs d'intérêt spécial sont construits à partir de secteurs de dénombrement entiers.

Il existe également des liens entre d'autres unités géostatistiques. Les divisions de recensement se composent de plusieurs subdivisions de recensement entières, les régions métropolitaines de recensement regroupent plusieurs secteurs de recensement entiers, et ainsi de suite. Ces liens sont indiqués sur les listes de référence appropriées.

Tous les codes requis pour obtenir les diverses unités géostatistiques de même que des instructions pour les utiliser sont inclus dans les listes de référence.

On peut se procurer des cartes de référence des diverses unités géostatistiques par l'entremise de la Division de la diffusion des données, Secteur du recensement et des enquêtes ménages, Statistique Canada.

#### ENUMERATION AREA (EA)

The spatial unit canvassed by one Census Representative. It is defined according to the following criteria: (1) Population - An enumeration area may include as many as 375 households, depending on its location; (2) Number of Farms - An enumeration area always includes fewer than 100 farms; (3) Limits - An enumeration area, being the building-block of all geo-statistical areas, never cuts across any area recognized by the census. Moreover, enumeration area boundaries are such that the Census Representative will be able to locate them without difficulty as, for example, streets, roads, railways, rivers and lakes. Enumeration areas are normally the smallest geographic units for which census data are available.

#### SECTEUR DE DÉNOMBREMENT (SD)

L'unité spatiale recensée par un représentant du recensement. Elle est définie suivant les critères suivants: (1) Population - Un secteur de dénombrement peut comprendre jusqu'à 375 ménages, selon sa localisation; (2) Nombre de fermes - Un secteur de dénombrement comprend toujours moins de 100 fermes; (3) Limites - Un secteur de dénombrement, étant l'unité de base de toutes les unités géostatistiques, ne déborde jamais une région reconnue par le recensement. Par ailleurs, les limites des secteurs de dénombrement sont telles que le représentant du recensement est en mesure de les localiser sans difficulté, par exemple, rues, chemins, voies ferrées, rivières et lacs. Les secteurs de dénombrement constituent normalement les plus petites unités géographiques pour lesquelles on peut obtenir des données de recensement.

ENUMERATION AREA REFERENCE LIST

URBAN AREAS BY CENSUS DIVISION

URBAN AREA (UA)

Area having a population concentration of 1,000 or more and a population density of 1,000 or more per square mile (386 per square kilometre).

PRESENTATION

Urban areas are presented in hierarchical fashion, as follows:

- (1) by province in geographical order from east to west and, within each province,
- (2) by census division (CD) in alphabetical order and, within each CD,
- (3) by urban area (UA) in alphabetical order.

Enumeration areas making up each urban area are also presented in hierarchical fashion, as follows:

- (1) by census subdivision (CSD) in alphabetical order and, within each CSD,
- (2) by federal electoral district (FED) in numerical order and, within each FED,
- (3) by enumeration area (EA) in numerical order.

TABLE LAYOUT

The table is laid out as follows:

- (A) At the head of the table:
- (1) Province/territory code
  - (2) Province/territory name
- (B) Within the body of the table, from left to right:
- (1) Census division code ("CD")

LISTE DE RÉFÉRENCE DES SECTEURS DE DÉNOMBREMENT

RÉGIONS URBAINES PAR DIVISION DE RECENSEMENT

REGION URBAINE (RU)

Région dont la concentration démographique est de 1,000 habitants ou plus et dont la densité de population est de 1,000 habitants ou plus au mille carré (386 au kilomètre carré).

PRÉSENTATION

Les régions urbaines sont présentées de façon hiérarchique, comme suit:

- (1) par province en ordre géographique d'est en ouest et, à l'intérieur de chaque province,
- (2) par division de recensement (DR) en ordre alphabétique et, à l'intérieur de chaque DR,
- (3) par région urbaine (RU) en ordre alphabétique.

Les secteurs de dénombrement compris dans chaque région urbaine sont également présentés de façon hiérarchique, comme suit:

- (1) par subdivision de recensement (SDR) en ordre alphabétique et, à l'intérieur de chaque SDR,
- (2) par circonscription électorale fédérale (CEF) en ordre numérique et, à l'intérieur de chaque CEF,
- (3) par secteur de dénombrement (SD) en ordre numérique.

DISPOSITION DU TABLEAU

Le tableau est disposé comme suit:

- A) En haut du tableau:
- (1) code de la province/territoire
  - (2) nom de la province/territoire
- B) À l'intérieur du tableau, de gauche à droite:
- (1) code de la division de recensement ("DR")

- |  |   |
|--|---|
| (2) Urban area code ("UA")   | (2) code de la région urbaine ("RU")  |
| (3) Census division name, urban area name (indented two spaces) and census subdivision name (indented four spaces) | (3) nom de la division de recensement, nom de la région urbaine (en retrait de deux espaces), nom de la subdivision de recensement (en retrait de quatre espaces) |
| (4) Census subdivision type  | (4) catégorie de subdivision de recensement ("TYPE")  |
| (5) Census subdivision code ("CSD")  | (5) code de la subdivision de recensement ("SDR")   |
| (6) Federal electoral district code ("FED")  | (6) code de la circonscription électorale fédérale ("CEF")  |
| (7) Enumeration area codes   | (7) codes des secteurs de dénombrement  |

#### CODING REQUIREMENTS

The codes mentioned above are those used to access the standard geostatistical areas. There follows the coding requirements to uniquely identify within Canada these areas:

Province/Territory  
Province/territory code (2 digits)

Census Division  
Province/territory code  
(2 digits) +  
Census division code (2 digits)

Urban Area  
Urban area code (4 digits)

Census Subdivision  
Province/territory code  
(2 digits) +  
Census subdivision code (4 digits)

Federal Electoral District  
Province/territory code  
(2 digits) +  
Federal electoral district code  
(3 digits)

Enumeration Area  
Province/territory code  
(2 digits) +  
Federal electoral district code  
(3 digits) +  
Enumeration area code (3 digits)

#### EXIGENCES DE CODAGE

Les codes susmentionnés sont ceux utilisés pour obtenir les unités géostatistiques normalisées. Voici les exigences de codage servant à identifier une seule fois ces unités à l'intérieur du Canada:

Province/territoire  
Code de la province/territoire  
(2 chiffres)

Division de recensement  
Code de la province/territoire  
(2 chiffres) +  
Code de la division de recensement  
(2 chiffres)

Région urbaine  
Code de la région urbaine  
(4 chiffres)

Subdivision de recensement  
Code de la province/territoire  
(2 chiffres) +  
Code de la subdivision de recensement  
(4 chiffres)

Circonscription électorale fédérale  
Code de la province/territoire  
(2 chiffres) +  
Code de la circonscription électorale fédérale (3 chiffres)

#### Secteur de dénombrement

Code de la province/territoire  
(2 chiffres) +  
Code de la circonscription électorale fédérale (3 chiffres) +  
Code du secteur de dénombrement  
(3 chiffres)

## INDEX

Following the table, an index is provided which may be used to locate urban areas within their respective province(s) and census division(s). The urban areas are presented in alphabetical order. The index is laid out, from left to right, as follows:

- (1) Urban area name
- (2) Province name(s)
- (3) Census division name(s)

## NOTES

The boundaries of the urban areas correspond to those of enumeration areas but not necessarily to those of provinces, census divisions and census subdivisions. The table therefore gives the name(s) of the census subdivision(s) which is (are) partly or totally included in the urban area, and only the urban enumeration areas are shown.

If a census subdivision includes several urban areas, the name of each urban area is indicated in parentheses under the name of the subdivision in which it is located.

## DEFINITIONS

### PROVINCE

Major political division of Canada. From a statistical point of view, it is a basic unit for which data are tabulated and cross-classified. There are ten provinces which are divided into federal electoral districts, census divisions, census subdivisions, etc. In census publications, provincial tables include the Yukon and Northwest Territories.

### CENSUS DIVISION (CD)

General term applying to counties, regional districts, regional municipalities, etc. In Newfoundland, Manitoba, Saskatchewan and Alberta, the term describes geostatistical areas that have been created by Statistics Canada in co-operation with the provinces as an equivalent for counties.

## INDEX

Après le tableau, on trouve un index permettant de localiser les régions urbaines dans leur(s) province(s) et leur(s) division(s) de recensement respective(s). Les régions urbaines sont présentées en ordre alphabétique. L'index est disposé, de gauche à droite, comme suit:

- (1) nom de la région urbaine
- (2) nom de la(des) province(s)
- (3) nom de la(des) division(s) de recensement

## NOTES

Les limites des régions urbaines respectent les limites des secteurs de dénombrement mais pas nécessairement celles des provinces, des divisions de recensement et des subdivisions de recensement. Ainsi, le tableau indique le nom de la (des) subdivision(s) de recensement comprise(s) en totalité ou en partie dans la région urbaine, et seulement les secteurs de dénombrement urbains sont inscrits.

Lorsqu'à l'intérieur d'une subdivision de recensement se trouvent plusieurs régions urbaines, le nom de chaque région urbaine paraît entre parenthèses, sous celui de la subdivision qui l'inclut.

## DEFINITIONS

### PROVINCE

Principale division politique du Canada. Du point de vue statistique, c'est une unité de base pour laquelle toutes les données sont totalisées et recoupées. Il y a dix provinces, divisées en circonscriptions électorales fédérales, en divisions de recensement, en subdivisions de recensement, etc. Dans les publications du recensement, les tableaux relatifs aux provinces comprennent le Yukon et les Territoires du Nord-Ouest.

### DIVISION DE RECENSEMENT (DR)

Terme générique qui désigne les comtés, les districts régionaux, les municipalités régionales, etc. À Terre-Neuve, au Manitoba, en Saskatchewan et en Alberta, l'expression désigne les unités géostatistiques créées comme équivalent des comtés et délimitées par Statistique Canada en collaboration avec les provinces.

#### CENSUS SUBDIVISION (CSD)

General term applying to municipalities, Indian Reserves, unorganized territories and subdivisions. In Newfoundland, Nova Scotia and British Columbia, the term also describes geostatistical areas that have been created by Statistics Canada in co-operation with the province as an equivalent for municipalities. It should be noted that the parts of Flin Flon falling in Manitoba and Saskatchewan, and the parts of Lloydminster falling in Saskatchewan and Alberta are treated as separate CSD s.

#### CENSUS SUBDIVISION TYPE

Census subdivisions (CSD s) are classified into various types, according to official designations adopted by provincial or federal authorities. With the exception of unorganized territories and Indian Reserves, the type indicates the municipal status of a CSD. The following list indicates the abbreviations used for the most common CSD types:

|     |  |
|-----|--|
| BOR | Borough  |
| C   | City - Cité  |
| DM  | District Municipality - Municipalité de district                                 |
| HAM | Hamlet - Hameau  |
| ID  | Improvement District - District d'amélioration                                   |
| IR  | Indian Reserve - Réserve indienne  |
| IS  | Indian Settlement - Colonie indienne   |
| LGC | Local Government Community - Centre d'administration locale                      |
| LGD | Local Government District - District d'administration locale                     |
| LID | Local Improvement District - District d'amélioration locale                      |
| MD  | Municipal District - District municipal  |
| MUN | Municipality - Municipalité  |
| NR  | Indian (no reserves) - Indiens (pas de réserve)                                  |
| PAR | Parish - Paroisse  |
| RD  | Rural District - District rural  |
| RM  | Rural Municipality - Municipalité rurale   |
| SCM | Subdivision (of County Municipality) - Subdivision (d'une municipalité de comté) |
| SRD | Subdivision (of Regional District) - Subdivision (d'un district régional)        |
| SUN | Subdivision (of Unorganized) - Subdivision (d'un territoire non municipalisé)    |
| SV  | Summer Village - Village d'été   |
| TM  | Township Municipality - Municipalité de township                                 |
| T-V | Town - Ville   |
| V/C | Ville/Cité   |
| VL  | Village  |

#### FEDERAL ELECTORAL DISTRICT (FED)

Any territorial unit entitled to return a member to serve in the House of Commons. There are 264 FED s in Canada, based on the 1966 Representation Order.

#### SUBDIVISION DE RECENSEMENT (SDR)

Terme générique désignant les municipalités, les réserves indiennes, les territoires non municipalisés et les subdivisions de recensement. À Terre-Neuve, en Nouvelle-Ecosse et en Colombie-Britannique, l'expression désigne également des unités géostatistiques créées comme équivalent des municipalités et délimitées par Statistique Canada en collaboration avec la province. Il est à noter que les parties de Flin Flon qui se trouvent au Manitoba et en Saskatchewan, et celles de Lloydminster qui se trouvent en Saskatchewan et en Alberta sont considérées comme des SDR distinctes.

#### CATEGORIE DE SUBDIVISION DE RECENSEMENT

Les subdivisions de recensement (SDR) sont classées en diverses catégories selon les appellations adoptées par les autorités provinciales ou fédérales. À l'exception des territoires non municipalisés et des réserves indiennes, la catégorie indique le statut d'une SDR. Voici la liste des abréviations des catégories de SDR les plus courantes:

#### CIRCONSCRIPTION ÉLECTORALE FÉDÉRALE (CEF)

Toute division territoriale élisant un député à la Chambre des communes. Il y a 264 CEF au Canada selon l'Ordonnance de représentation de 1966.
