CAT - A120-16E-PDF

Aussi offert en français sous le titre : *Programme d'Agri-stabilité 2018 : guide d'information des nouveaux participants et des participants réinscrits.*

Participate in 2018 AgriStability in four easy steps

Step 1: Complete the New and rejoining participant information form

To enrol in AgriStability for the 2018 program year:

- ▶ Return the New and rejoining participant information form to us by April 30, 2018 or 30 days from the date we issued this package, whichever is later.

Send your completed forms to:

AgriStability Administration
PO Box 3200 Station Main
Winnipeg MB R3C 5R7

Or fax your form toll-free to: 1-877-949-4885

Step 2: Enrol in AgriStability and pay your fee

We will send you an Enrolment Notice showing your program fee.

- ▶ Pay your fee by the deadline on your Enrolment Notice.
- ▶ If you decide not to participate, you must indicate this on the tear-off portion and return it to us by the deadline. Otherwise we will automatically enrol you for AgriStability for 2018, and you will owe your fee and a 20% late penalty.
- ▶ The final deadline to pay your fee with a 20% late penalty is December 31, 2018 unless your Enrolment Notice shows a different date.

Step 3: File your 2018 AgriStability form by the deadline

- ▶ The initial deadline to file your form without penalty is September 30, 2019.
- ▶ The final deadline with penalty is December 31, 2019.

You can download a copy of the form at agr.gc.ca/agristability.

Step 4: File an income tax return by the deadline

- ▶ File a 2018 income tax return reporting farming income (loss) to the Canada Revenue Agency by December 31, 2019.

If you need assistance, call us toll-free at: 1-866-367-8506.

Confidential information and participant consent

The information you submit on this form is collected under the authority of Section 4 of the *Farm Income Protection Act* (FIPA) and will be used for the purpose of calculating an Enrolment Notice. Your Enrolment Notice will show your contribution reference margin and the program fee you must pay in order to participate in AgriStability.

The *Privacy Act* protects information given on this form which is kept in personal information bank number AAFC PPU 183.

By submitting the form, you:

- ▶ are requesting to enrol in the AgriStability program;
- ▶ understand that once we issue you an Enrolment Notice, you will be enrolled in AgriStability. Understand that if you decide not to participate in AgriStability, you must indicate this on the tear-off portion of the Enrolment Notice and return it to us by the deadline shown on your Enrolment Notice. Otherwise, you will be required to pay the fee and any outstanding penalty;
- ▶ agree to pay your fee by the final deadline or you will not be eligible for 2018 AgriStability benefits and your outstanding fee and penalty will be recovered from future program benefits;
- ▶ understand you must complete and file a final 2018 AgriStability and AgriInvest form by the final filing deadline;
- ▶ understand you must file a 2018 income tax return reporting farming income (loss) by the final filing deadline (except Status Indians and Band farms farming on a reserve in Canada who are exempt from filing an income tax return);
- ▶ certify that the information provided is complete and correct;
- ▶ consent to third parties and other government programs disclosing to the Administration, upon its request, any information pertaining to you and your financial affairs which the Administration considers necessary for the purpose of verifying the AgriStability benefit or the information provided on this form; and
- ▶ consent to the Canada Revenue Agency disclosing to the Administration, upon its request, any information pertaining to you and your financial affairs which the Administration considers necessary for the purpose of verifying the AgriStability benefit or the information provided on this form (except Status Indians and Band farms farming on a reserve in Canada who are exempt from filing an income tax return).

Once you are enrolled in AgriStability, you:

- consent to the use and disclosure of the information contained in this form to officials from Agriculture and Agri-Food Canada and the provincial/territorial department responsible for agriculture for:
 - administering your participation in AgriStability;
 - determining your eligibility for benefits;
 - verifying the information submitted; and
 - for purposes of audit, analysis, and evaluation.

Before you start

Use this guide to complete the form you need to enrol in the 2018 AgriStability Program.

This guide is for you if you did not participate in the program in the past two program years (i.e., the 2017 and 2016 program years).

If you received a Calculation of Program Benefits for either the 2017 or 2016 program year, we will automatically send you an Enrolment Notice or an invitation to participate.

Review this guide to make sure you fill out your form correctly. Providing correct information on your form helps us to calculate your fee accurately.

Once we receive your completed form, we will send you an Enrolment Notice showing your fee and fee deadline.

If you decide not to participate after you receive an Enrolment Notice, you must notify us by the deadline on your notice. Otherwise, we will automatically enrol you for AgriStability 2018 and you will owe the fee and a 20% penalty.

AgriStability overview

AgriStability is a voluntary program that provides support when you experience larger income losses.

AgriStability is cost shared by the federal and provincial/territorial governments on a 60/40 basis.

AgriStability is based on margins:

Program margin - your allowable income minus your allowable expenses in the current year adjusted for changes in purchased inputs, receivables, payables and inventory.

Reference margin – an average of your historical program margins with adjustments made to reflect significant changes to the size or structure of your farm.

Reference margin limit – your average allowable expenses for the three years used to calculate your reference margin.

Generally, you will receive an AgriStability payment when your program margin in the current year falls below 70% of either your reference margin or your reference margin limit, whichever is lower. However, your reference margin limit cannot reduce your reference margin by more than 30%.

Example

If your reference margin is \$100,000, your reference margin limit cannot reduce your reference margin below \$70,000 (\$100,000 - \$30,000).

2018 Reference margins will be calculated as follows:

- If you participated in the program in any of the past four years, we will calculate your reference margin using the program margins for the previous five years. The highest and lowest program margins are dropped and the remaining three years are averaged. This is called an Olympic average.
- If you did not participate in the program for the past four years, we will calculate your reference margin using an average of the three previous program year margins. We will continue to calculate your reference margin using the three previous program year margins until you have five years of historical information on file.
- If you did not have farming activity in one or more of the five previous years, your reference margin will be calculated using an average of the three previous program year margins. If you did not have farming activity in any of the three previous years, we will create margins for any missing years using industry averages.

We will request the information required to calculate your reference margin after we send you an Enrolment Notice showing your fee and fee deadline.

Participation overview

Participants include:

- individual producers
- landlords in a crop or livestock share joint venture*
- partners in a partnership
- corporations
- co-operatives
- communal organizations
- estates
- trusts
- limited partnerships
- Status Indians and Band farms farming on a reserve

2018 AgriStability Information guide for new and rejoining participants

*If you farm as a landlord you are eligible only if you are in a joint venture with the tenant and your share of the allowable expenses is reasonable for your share of the allowable income.

To participate in AgriStability, each year you must:

- pay an enrolment fee
- submit a form
- file an income tax return reporting farming income (loss) by the final deadline for the program year

Generally, you are eligible for AgriStability if you earn income from the primary production of agricultural commodities and you:

- farm in Canada
- file an income tax return reporting farming income (loss), unless you are exempt from filing income tax
- complete six months of farming activity (we may waive this requirement if you experienced a disaster)
- complete a production cycle (for example, growing and harvesting a crop, rearing livestock)
- submit all necessary information by the required deadlines

If you are Status Indian farming on a reserve and you are not required to file an income tax return, send us your farming income (loss) information you would have otherwise reported for income tax. We will assume you have a December 31st fiscal year end.

For complete program rules, see the AgriStability Program Guidelines at agr.gc.ca/agristability.

Important deadlines

April 30, 2018

- deadline to return your completed 2018 New and rejoining participant information form or 30 days from the date we issued this package, whichever is later.
- non-penalty deadline to pay your 2018 AgriStability fee (unless your Enrolment Notice shows a different date)

December 31, 2018

- final deadline to pay your 2018 AgriStability fee with a 20% penalty (unless your Enrolment Notice shows a different date)

September 30, 2019

- initial deadline to file your 2018 AgriStability form without a late filing penalty

December 31, 2019

- final deadline to file your 2018 income tax return reporting farming income (loss)
- final deadline to file your 2018 AgriStability form with a late filing penalty

We will reduce your benefit by \$500 for each month (or part of a month) you submit your form between the initial and final deadline.

If a deadline falls on a Saturday, Sunday, or statutory holiday, you have until the next business day to send the information.

Where to send your completed form

Mail your completed form to:

AgriStability Administration
PO Box 3200 Station Main
Winnipeg MB R3C 5R7

Or fax your form toll-free to: 1-877-949-4885.

We suggest using registered mail or keeping your fax transmittal slip to show that you sent your form on time.

Completing your form

To participate in AgriStability, we must assign you a Participant Identification Number (PIN).

The PIN uniquely identifies your farm operation and protects the privacy of your information.

If you previously participated in AgriStability, you have a PIN. If not, we will assign one to you. Keep the number handy as you will need it for future contact and participation.

New and rejoining participant information

Participant identification

Participant name and address

Enter your first and last name, or business name (if applicable), address, telephone number and email address.

Enter your Participant Identification Number (PIN) if you have one. If you do not have a PIN, leave this field blank.

If you are an individual producer, provide your Social Insurance Number.

If the operation is a corporation or a co-operative, provide the Business Tax Number.

If the operation is a trust or communal organization, provide the Trust Taxation Number.

Farm type

Check the box that best describes your farming business.

If you are a Status Indian Band Farm, provide your Band number.

Main farmstead location

Enter the province/territory where all or the majority of the gross farming income was earned over the previous 5 years.

You can find a list of provincial/territorial jurisdictions (Rural Municipalities, Counties, Districts, etc.) in the [Regional code list](#) on page 13.

Language of preference

Enter your language of preference.

Partnership information

Complete this section if you are a partner in a partnership.

Enter your percentage share of the partnership.

Enter the PIN, name and percentage share for each partner involved in the partnership.

Corporation information

Complete this section if you are a shareholder in a corporation.

Report the name and PIN of the shareholder/members or group of related shareholders/members who have controlling interest in the corporation.

Indicate if a shareholder previously participated in AgriStability as an individual and transferred land or inventory to the corporation under Section 85 of the *Income Tax Act*. Attach a copy of the documents showing that a legal transfer to the corporation has taken place:

- signed documentation confirming the transfer of property has legally taken place under the *Income Tax Act*; or

- a signed declaration the shareholder filed an election under Section 85 of the *Income Tax Act* (Form T2057 or T2058); or
- a copy of the original signed contract between the shareholder and the corporation.

If you have paid your fee as an individual we will transfer it to your corporation once the signed documents are received. Your fee must also be paid by your Enrolment Notice deadline.

If the signed documents are not available when you send the form, send them when available.

If a corporation is a shareholder, report the names and PINs of the shareholders or group of related shareholders who have controlling interest in that corporation. Attach a separate sheet if necessary.

Productive units for new and rejoining participants

We will use this information to calculate your contribution reference margin for your Enrolment Notice.

Operation Number (#)

If you have more than one farming operation:

- complete a form for each operation (contact us to request additional forms, or submit a copy of page 2 for each operation)
- number each operation
- send all forms together

2018 Crop productive capacity

Fiscal period

Enter the fiscal period for this operation. Report the beginning and end of the farming operation's business year by the year, month and day.

How to complete the columns

Code and crop description

Use the [Productive capacity code list](#) on page 7 to report all crops by code and description that you:

- produced or expected to produce
- planned to produce but could not because your land was too wet or too dry to seed

2018 AgriStability Information guide for new and rejoining participants

If your crop is not listed, leave the code blank and provide a detailed crop description.

Acres

Report the number of acres you produced or expect to produce in the program year.

For commodities not measured by acres, use the standard unit of measurement for that commodity.

Example

Greenhouse and nursery operations (including floriculture) report in square metres.

Maple syrup operations report in hundreds of taps producing. If you have 350 taps producing, report 3.5 (350/100).

Crop share

If you are a tenant in a crop share, or a landlord in a joint venture crop share, report only your share of the acres.

Example

You rent 300 acres in a crop share agreement. You receive 2/3 of the crop and pay 2/3 of the allowable expenses. Your landlord receives the remaining 1/3 of the crop and pays 1/3 of the allowable expenses.

You report your 2/3 share of the acreage:

- 200 acres

Your landlord reports his 1/3 share of the acreage:

- 100 acres

Multi-stage crops

If you grew or plan to grow a multi-stage crop that takes more than one year to reach full production, use the code that reflects the stage of production for the commodity.

Multi stage crops include:

- high bush blueberries
- grapes
- sod
- Christmas trees
- echinacea
- ginseng

In New Brunswick and Nova Scotia, multi-stage crops also include:

- low bush blueberries
- cranberries

Highbush blueberries and grapes

Start reporting your acres in the year you plant.

Lowbush blueberries

Start reporting your acres when you have cleared the land and started nurturing the plants.

Echinacea and ginseng

Report acres in the establishment stage until the year of harvest.

Cranberries

Report acres in the establishment stage until production starts.

Christmas trees

There are two types of Christmas tree farming operations:

- tree farms
- managed natural tree stand

Tree farms plant their seedlings in a greenhouse, garden or tree farm and maintain them until harvested.

Report your total acres of trees based on their stage of growth or expected stage of growth at the end of your fiscal period.

To report your trees, use:

- nursery codes for the seedlings you grow in your greenhouse or garden prior to transplanting to your tree farm
- code 6960 for the seedlings or trees you planted on your tree farm the first year (establishment stage)
- codes 6961, 6962, 6963 or 6964 to report your seedlings or trees based on their stage of growth or expected stage of growth

Managed natural tree stand operations select trees from existing forest and actively maintain them until harvest.

Report the acres of trees that you actively maintained as either pre-harvested (in the ground) or harvested (removed from the ground). Base the number of acres you report on 1000 trees per acre.

Example

You have or expect to have 9,500 pre-harvested trees at the end of your fiscal year, report 9.5 acres (9,500/1000).

Unseedable acres

Report all acres that you planned to seed in the program year but could not because your land was too wet or too dry to seed.

Example

At the beginning of the year you intended to grow canola on 300 acres. However, you only seeded 200 acres because of flooding. Report 200 for the number of acres and 100 as unseedable acres.

Other acres

Report your summerfallow, pasture or wasteland acres on the designated lines.

2018 Livestock productive capacity

Enter the total units for each category of livestock that you have owned, rented or leased.

Livestock lease agreements

If you lease animals but do not take 100% of the revenue from the animal, report only your share of the agreement.

Example

If you lease 100 cows but only keep 60% of the calf crop, report 60 cows (100 x 60% = 60).

Code 104 - Cattle

Do not include calves that were born or you expect to be born in the program year.

If you held your calves over to your next fiscal period, report them as feeder cattle next year if they have an appreciable gain in that fiscal period.

Codes 123 and 145 – Hogs

Report the number of sows in the breeding herd that farrowed or you expect to farrow.

Calculate the average number of breeding sows by dividing the births or expected births by your average birth rate per sow.

Example

$$\begin{array}{r} 10,000 \text{ births} \\ \div \quad 23 \text{ average birth rate per sow} \\ = 435 \text{ average number of breeding sows} \end{array}$$

If your hog operation produced for only part of the year, make sure your average number of breeding sows is lower to reflect your reduced production.

Codes 105 and 106 - Number of feeder livestock - Cattle

Report only the animals that had or you expect will have an appreciable gain in your program year (a 90 kg (200 lb) weight gain or a minimum of 60 days on feed).

Do not include the following animals in this section:

- breeding animals
- culls
- animals that have not been weaned
- animals born within the operation in the program year

Codes 125 and 124 - Number of feeder livestock – Hogs

Do not include the following animals on these lines:

- breeding animals
- culls
- animals that have not been weaned or you expect will not be weaned
- animals born or you expect to be born within the program year
- animals previously reported in a farrow to finish operation

Code 141 (cattle) and 142 (hogs)

Report the number of animal feed days you had or expect to have. Animal feed days are the number of animals x number of days each animal was fed or will be fed.

Example

100	animals fed
<u>X 90</u>	days
= 9,000	animal feed days

Supply managed commodities

Report the amount of quota or contract you have or expect to have.

Ranch fur operators

Report the number of females that birthed or you expect to birth.

Other

Use the [Productive capacity code list](#) on page 11 to find the codes and units needed to report your livestock not listed on the form. If the commodity is not listed, enter a description and leave the code blank.

Productive capacity code list

- Use the commodity code in your province unless stated otherwise.
- Report the total acres for all crops included in a commodity basket that you produced or expect to produce.

Crop basket (excluding organic)
