# How We Helped GRAIN FARMERS

## MARKETING FREEDOM FOR GRAIN FARMERS ACT

More choice and more flexibility for farmers

Western Canadian grain farmers have the freedom to market their wheat and barley to the buyer of their choice

The vast majority of agri-businesses (81%) were **positively impacted** by marketing freedom

We're opening new markets for grain farmers and eliminating tariffs on Canadian grains

Grain and oilseeds crop and products generate **\$23 billion in exports** = almost half of all of Canada's agriculture and food exports

**1** out of every  
**2** bushels of grain

IS EXPORTED

**The Fair Rail  
for Grain  
Farmers Act  
is ensuring  
Canadian  
grain**

**reaches the  
market in a  
predictable  
and timely way,  
following  
a record  
crop year for  
Canadian  
farmers**

Modern. Innovative. Growing.
