# SCHOOL FACILITIES\* INVENTORY

## INTRODUCTION

The School Facilities File is a national listing of all on-reserve School Facilities by site and is directly linked to the Capital Asset Inventory System (CAIS) Asset File.

Information is provided on:

- Number, size and use of the asset
- Number of registered students (Nominal Roll) in a particular school
- Number of classrooms per school
- Number of special purpose rooms (i.e., gymnasiums, libraries, etc.) per school

\* *Facility: A facility is defined as a building (coded A3A - Building/Institutional/School) that makes up part of the school complex. These would include the main building, portable classrooms and any specialty buildings used for education purposes (e.g., a school complex consisting of a main building, three portable classrooms and a specialty building would be counted as one school comprised of five facilities).*

## HIGHLIGHTS

- The School Facilities File contains 402 Band and Federal school complexes, comprised of 884 education facilities.
- These facilities include:
  - 494 Kindergarten classrooms
  - 2144 Elementary classrooms
  - 713 Secondary classrooms
- Of the ~~892~~<sup>834</sup> education facilities:
  - 0% are "closed"
  - 3.4% are considered to be in poor condition
  - 20.8% are considered to be in fair condition
  - 41.7% are considered to be in good condition
  - 17.0% are new
  - 17.1% have never been inspected
- 20.3% of existing education facilities are considered temporary.
- 98.3% of the education facilities are band administered by First Nations.
- Of the First Nations bands with schools:
  - 53.5% of schools have gymnasiums
  - 59.7% of schools have libraries
- 60.5% of the education space was constructed since 1980.
- Average school enrolment is 153 students.

## INTRODUCTION

In March 1996, the regions were asked to update their data on Joint School Agreements. The file lists all of the capital agreements (from 1950 to the present) between Bands and Provincial School Boards for the purchase of Provincial school spaces for on-reserve children.

The 1996 Joint School Agreements Report is a compilation of the data submitted by the regions. Although the data has been validated by the regions, there may be inconsistencies. The report will permit regions to assess and evaluate the accuracy of their data as well as their performance.

## HIGHLIGHTS

- There are 187 Bands with 420 Joint School Agreements.
- 42.6% or 14,953 of the original 35,084 spaces purchased are currently occupied.
- The Original Department Contribution toward these agreements is approximately \$85,156,000.
- The Depreciated Value is \$14,495,000.

## FIELD DEFINITIONS

The number of student spaces utilized in the agreement as of the last update.

**PERCENTAGE OF  
SPACE UTILIZED**

The percentage of space utilized is calculated automatically by the system using the Current Spaces Purchased and Current Year Enrolment of the agreement.

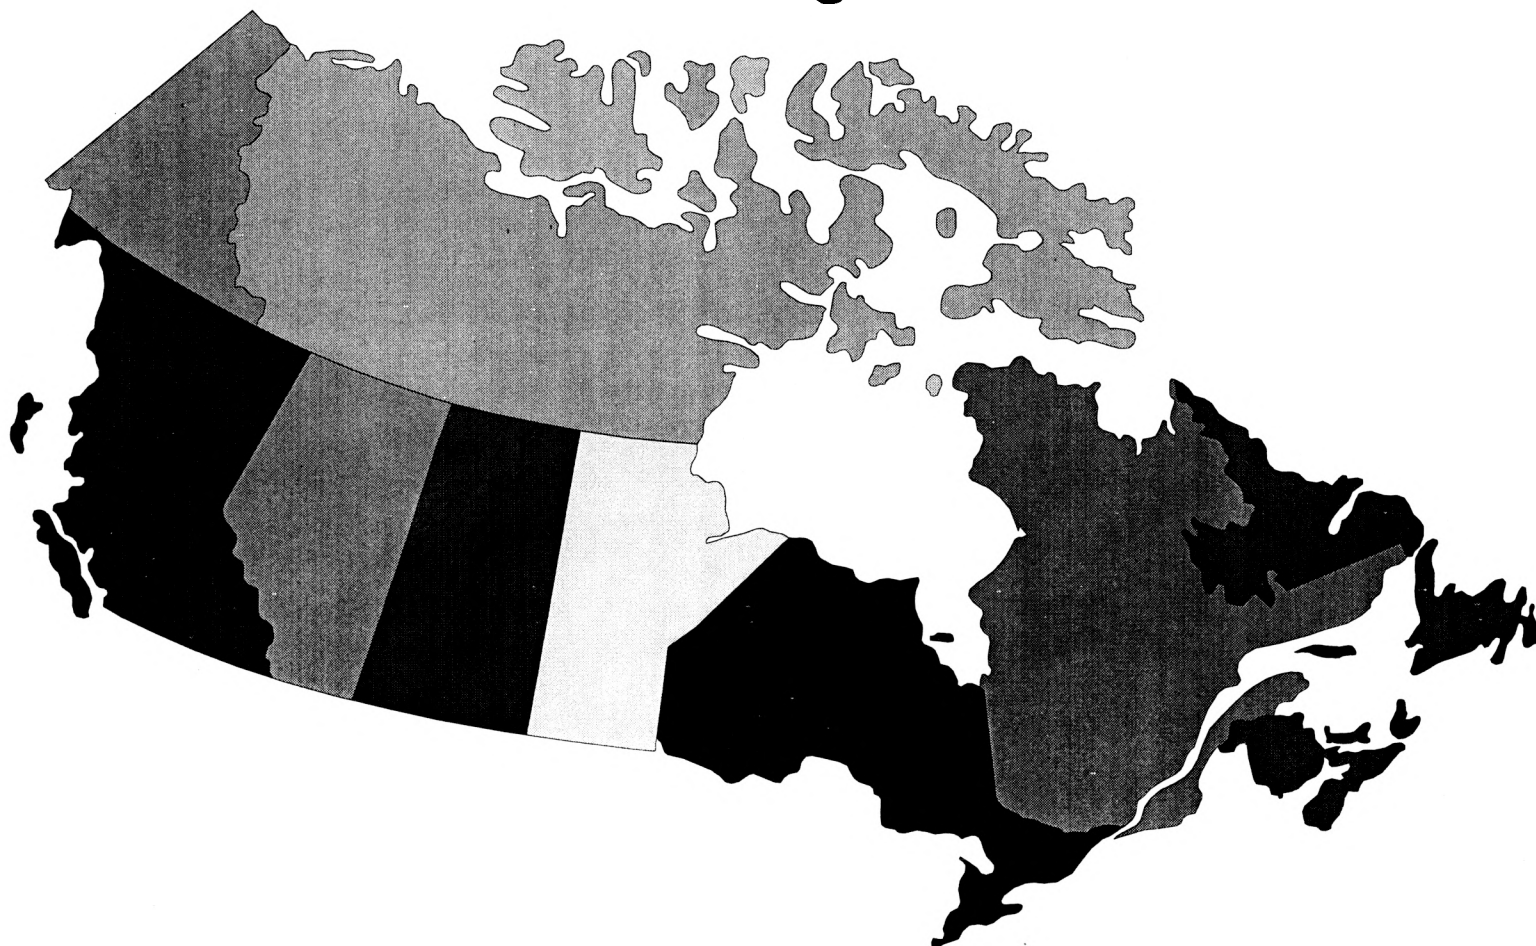

**DEPRECIATED VALUE**

The depreciated value is calculated automatically by using the Effective Date, 25 year Duration Time, System Date and original Department Contribution figures.
