

03

## TAKE ACTION

---

- ✓ Use tweezers to immediately remove attached ticks by slowly pulling them straight out.
- ✓ Wash the bite area with soap and water or alcohol-based sanitizer.
- ✓ Contact your health provider if you're not feeling well or if you are concerned after being bitten by a tick.
- ✓ Keep the tick in a closed container and bring it with you if you go see your health care provider.

# ENJOY THE OUTDOORS, WITHOUT A TICK

---

**Lyme disease** is spread by the bite of infected blacklegged ticks. These ticks are often found in and near areas with trees, shrubs, tall grass or piles of leaves.

Canada

01

## PREVENT

---

- Use bug spray with DEET or icaridin (always follow directions).
- Wear closed-toe shoes, long sleeves and pants.
- Tuck your shirt into your pants, and your pants into your socks.
- Walk on paths.

02

## CHECK

---

- Do a daily full body tick check on yourself, your children, your pets and your gear.
- Shower or bathe within two hours of being outdoors.
- Put your clothes in a dryer on high heat for at least 10 minutes.
