

Migratory Birds Hunting Regulations, 2018–2019

Summary

The information presented here is a summary of the law. If there is a discrepancy between the law and this summary, the law prevails. For complete information on fines, general prohibitions, permitted hunting methods and equipment, the requirement to have adequate means to retrieve birds immediately, restrictions on the use of bait, the description of hunting zones, and other restrictions on hunting, please refer to the *Migratory Birds Convention Act, 1994* and *Migratory Birds Regulations*. These, along with other useful information for hunters, can be found on the Government of Canada website (www.canada.ca), or you may contact:

Environment and Climate Change Canada

You are required to possess a valid federal Migratory Game Bird Hunting Permit with a Canadian Wildlife Habitat Conservation Stamp to hunt migratory birds in Canada. This permit and stamp are valid in all provinces and territories. Most provinces and territories have additional licence requirements for hunting migratory birds and/or carry firearms. To know what you require, and if there are further restrictions for hunting migratory birds, please verify the applicable regulations for the province/territory where you will be hunting. Note that all required permits and licences must be in your possession while you are hunting.

The Migratory Game Bird Hunting Permit is now available online on the Government of Canada website (www.canada.ca). Purchase and print your permit from the comfort of home.

Consultation Process and Migratory Birds Regulatory Reports

The hunting provisions of the *Migratory Birds Regulations* are reviewed by Environment and Climate Change Canada, with input from the provinces and territories, and a range of other interested stakeholders. Environment and Climate Change Canada has developed a consultation process for establishing hunting regulations for migratory birds, and publishes the Migratory Birds Regulatory Report Series that can be found on the Government of Canada website (www.canada.ca).

Enforcement Tool, Fine Regime, and Sentencing Provisions

In June 2017, the *Environmental Violations Administrative Monetary Penalties Regulations* came into force and administrative monetary penalties (AMPs) are now available to game officers to enforce designated violations of the *Migratory Birds Convention Act, 1994* (MBCA) and its associated regulations. In addition, amendments to the fine regime and sentencing provisions of the MBCA and the regulations necessary to complete the fine regime, the *Designation of Regulatory Provisions for the Purposes of Enforcement (Migratory Birds Convention Act, 1994) Regulations*, came into force on July 12, 2017. The amendments aim to ensure that court-imposed fines more accurately reflect the seriousness of environmental offenses. The new fine regime will be applied by courts following a conviction pursuant to the MBCA or its associated regulations. Under the new fine regime, when a contravention of a designated provision occurs, the offender upon conviction, is subject to minimum and higher maximum fines. For more information on AMPs and the new fine regime, please visit <https://www.canada.ca/en/environment-climate-change/services/environmental-enforcement/acts-regulations/about-act.html>.

Waterfowler Heritage Days provide young hunters who are minors (under 18 years of age) with the opportunity to practise hunting and outdoor skills, learn about wildlife conservation, and reinforce safety training in a structured, supervised environment before the season opens for other hunters. Licensed adult hunters who serve as mentors have an opportunity to pass on their considerable skills and knowledge by offering guidance and advice to younger hunters. The following rules are in effect:

- to participate, young hunters do not require the federal Migratory Game Bird Hunting Permit or the Canadian Wildlife Habitat Conservation Stamp;
- young participants must comply with all existing safety and licensing requirements found in the *Firearms Act* and provincial hunting regulations;
- participants must be accompanied by a licensed mentor (who is not a minor);
- mentors may not hunt or carry a firearm, and may accompany no more than two young hunters; and
- only young hunters may hunt when Waterfowler Heritage Days fall outside of the regular open seasons.

As per subsections 15.1(1) and 15.1(2) of the *Migratory Birds Regulations*, in Quebec, **non-toxic shot must be used to hunt all migratory game birds**, except for woodcock. **Non-toxic shot must also be used to hunt Mourning Dove**. Within National Wildlife Areas, the possession of lead shot is prohibited for all hunting, including the hunting of migratory birds and upland game birds. For those birds still hunted with lead shot, remove the lead shot before cooking to reduce your exposure to contaminants. As well, remove the skin and fat from fish-eating birds before cooking them.

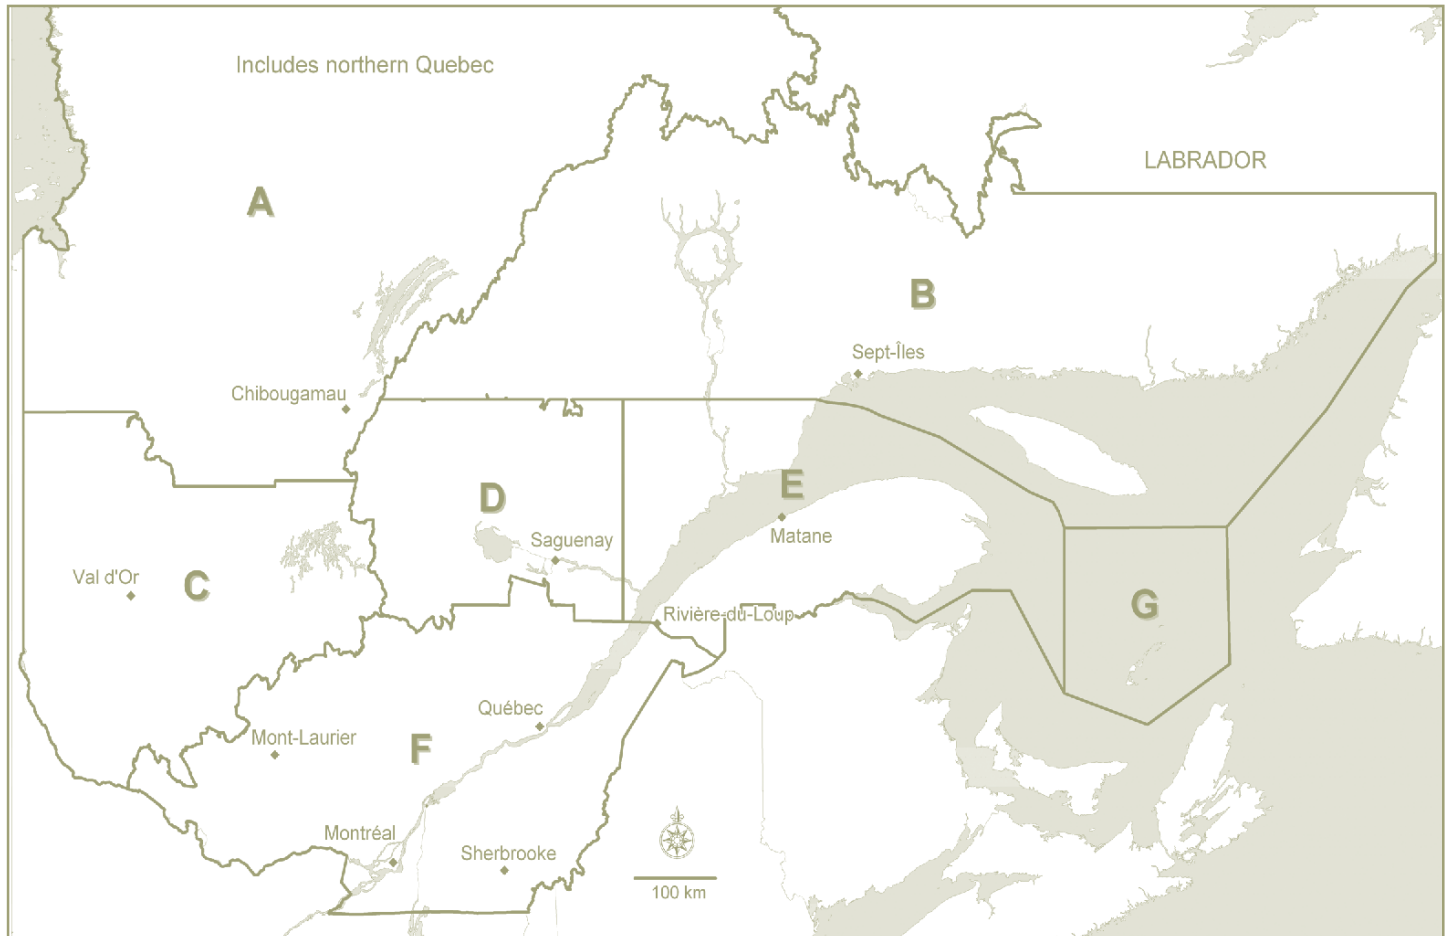

Barrow's Goldeneye is listed in the *Species at Risk Act* as a species of special concern, and the **bag and possession limit of 1** remains in place.

OPEN SEASONS AND WATERFOWLER HERITAGE DAYS IN QUEBEC (No open season for Harlequin Ducks or rails)

Area	Waterfowler Heritage	Open Seasons
