Trade-marks Journal

2018-10-24 — Vol. 65 No. 3339

Trade-marks Journal

Vol. 65 No. 3339

General Information

The *Trade-marks Journal* is published every week in compliance with [Rule 15 of the Trade-marks Regulations](#). The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (<http://cipo.gc.ca>). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see [section 38 of the *Trade-marks Act*](#) for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Goods

Class 09

Downloadable online electronic publications, namely articles, manuals, brochures and presentations in the fields of software development, mobile application development and website development; software for accessing, sending, and receiving information, namely software code, crash reports, use logs and performance analytics of computer software and mobile applications, on a global computer network; computer software for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information, namely software code, crash reports, use logs and performance analytics of computer software and mobile applications; software and software applications to enable transmission, access, organization, and management of text messaging, instant messaging, online blog journals, text, weblinks, audio, video and images via the internet and other communications networks; software for facilitating communication between users in the field of social networking; software to facilitate online advertising, business

promotion, and the connection of social network users with businesses and providing strategy, insight, and marketing all by allowing the development and deployment of software-based services to users of computer hardware, tablets and mobile phones; software for real-time delivery of data, messages, location, photographs, links, audio, video, images, text and other data related thereto; database management software; electronic mail and messaging software; computer software for accessing, browsing and searching online databases; data synchronization software; computer games; interactive video games; application development software allowing the development and deployment of software-based services; computer software used to enhance the capabilities and features of other software and non-downloadable online software; application programming interface (API) allowing the development and deployment of software-based services for third-party software; computer software development tools allowing the development and deployment of software-based services; application programming interface (API) software for allowing data retrieval, upload, access and management; API software for use in building software applications of all types that function to allow the development and deployment of software-based services; computer software, namely, software development tools for the creation of mobile applications, computer applications, web-based applications, and client interfaces; website development software; computer software for computer system and application development, deployment and management.

SERVICES

Class 35

(1) Advertising the goods and services of others; business management; business administration; providing office functions to others, namely the copying of documents for others, data processing and electronic mail services and systemization of information into computer databases; developing marketing strategies for others; developing promotional campaigns for others; online advertising the goods and services of others; promoting the goods and services of others via computer and electronic communication networks; market research services and collection and provision of market research information; online business networking services, namely operation of a business networking website; dissemination of advertising for others via an online electronic communications network on the Internet; business data analysis; providing statistical information in the fields of software development, mobile application development and website development; business information services, all provided via an online electronic database on a global computer network; online services for connecting social network users with businesses; business monitoring and consulting services, namely, providing strategy, insight and marketing guidance, and for analyzing and understanding consumer behavior and motivations, and market trends; computerized database management services; providing access to non-downloadable software that can be used by third parties for searching and retrieving information, websites, and online resources located on computer networks for others; data processing in the field of electronic payments; providing a searchable online business database featuring business information, advertising information and market research information; compiling information into computer databases; providing a website featuring information and consumer reviews on third party products; online retail store services; retail and online retail services featuring software, downloadable software, software development tools, computer software applications, mobile applications, internet applications, application programming interfaces (APIs), and software development kits; mobile retail store services featuring software, downloadable software, software development tools, computer software applications, mobile applications, internet applications, application programming interfaces (APIs), and software development kits; retail and online retail store services featuring computer software provided via the internet and other computer and

electronic communication networks; retail and online retail store services featuring computer software for use on handheld mobile digital electronic devices and other consumer electronics

(4) Advertising the goods and services of others; business management; business administration services; providing office functions to others, namely the copying of documents for others, data processing and electronic mail services and systemization of information into computer databases; developing marketing strategies for others; developing promotional campaigns for others; online advertising the goods and services of others; promoting the goods and services of others via computer and electronic communication networks; market research services and collection and provision of market research information; online business networking services, namely operation of a business networking website; dissemination of advertising for others via an online electronic communications network on the Internet; business data analysis; providing statistical information in the fields of software development, mobile application development and website development; business information services, all provided via an online electronic database on a global computer network; online services for connecting social network users with businesses for the purpose of matching consumers with providers of goods and services; business monitoring and consulting services, namely, providing strategy, insight and marketing guidance, and for analyzing and understanding consumer behavior and motivations, and market trends; computerized database management services; providing access to non-downloadable software that can be used by third parties for searching and retrieving information, websites, and online resources located on computer networks for others; providing a searchable online business database featuring business information, advertising information and market research information; compiling information into computer databases; providing a website featuring information and consumer reviews on third party products; online retail store services featuring software, downloadable software, software development tools, computer software applications, mobile applications, internet applications, application programming interfaces (APIs), and software development kits; mobile retail store services featuring software, downloadable software, software development tools, computer software applications, mobile applications, internet applications, application programming interfaces (APIs), and software development kits; retail store and online retail store services featuring computer software provided via the internet and other computer and electronic communication networks; online retail store services featuring computer software for use on handheld mobile digital electronic devices and other consumer electronics

Class 38

(2) Telecommunication services, namely, providing online and telecommunication facilities for real-time interaction between and among users of computers, mobile and handheld computers, and wired and wireless communication devices; providing access to telecommunication networks, namely internet access services; data transmission services namely the transmission of original data, third party user-generated and user-selected data via the internet, global computer networks, wireless networks and electronic communication networks; electronic transmission of data via the internet, global computer networks, wireless networks and electronic communication networks; providing access to global computer networks, wireless networks and electronic communications networks for transmission or receipt of data; electronic mail services; instant messaging services, web messaging services, and text messaging services; electronic communication services; webcasting services, namely online broadcasting of video clips, audio clips, music, movies, and television programs via the internet, global computer networks, wireless networks and electronic communication networks; transmission of text, audio and video via a global computer network and other computer and communications networks; telecommunication services, namely, enabling individuals to send and receive messages, text, audio, and video via email, SMS, mobile application, instant messaging or a website; providing online forums, chat rooms, journals and

blogs, and electronic bulletin boards for the transmission of messages, comments, information, text, audio, video and multimedia content among users; wireless digital messaging services; electronic mail sending, receiving and forwarding provided via wired and wireless access; providing online chat rooms for social networking; electronic transmission of user-generated and user-selected streamed audio and video files, namely video clips, audio clips, music, movies, and television programs via computer and communications networks; electronic transmission of downloadable software; providing access to non-downloadable software for use in software development, mobile application development and website development; providing access to databases in the field of software development, mobile application development and website development; providing access to software for use in software development, mobile application development and website development, downloadable via the internet and other communications networks; telecommunications services, namely, providing access to an interactive database for transmission of messages among computer users and subscribers concerning product reviews and purchase information on the internet

(5) Telecommunication services, namely, providing online and telecommunication facilities for real-time interaction between and among users of computers, mobile and handheld computers, and wired and wireless communication devices; providing access to telecommunication networks, namely internet access services; data transmission services namely the transmission of original data, third party user-generated and user-selected data via the internet, global computer networks, wireless networks and electronic communication networks; electronic transmission of data via the internet, global computer networks, wireless networks and electronic communication networks; providing access to global computer networks, wireless networks and electronic communications networks for transmission or receipt of data; electronic mail services; instant messaging services, web messaging services, and text messaging services; electronic communication services; transmission of text, audio and video via a global computer network and other computer and electronic communications networks; telecommunication services, namely, enabling individuals to send and receive messages, text, audio, and video via email, SMS, mobile application, instant messaging or a website; wireless digital messaging services; electronic mail sending, receiving and forwarding provided via wired and wireless access; providing online chat rooms for social networking; electronic transmission of user-generated and user-selected streamed audio and video files, namely video clips, audio clips, music, movies, and television programs via computer and electronic communications networks; electronic transmission of downloadable software; providing access to non-downloadable software for use in software development, mobile application development and website development; providing access to databases in the field of software development, mobile application development and website development; providing access to software for use in software development, mobile application development and website development, downloadable via the internet and other communications networks; telecommunications services, namely, providing access to an interactive database for transmission of messages among computer users and subscribers concerning product reviews and purchase information on the internet

Class 42

(3) Design and development of computer hardware and software; application service provider (ASP), namely, hosting computer software applications of others; providing online non-downloadable software tools for use in software development, mobile application development and website development; providing a website featuring non-downloadable software for use in software development, mobile application development and website development; providing temporary use of online non-downloadable software; computer services, namely remote hosting of operating systems and computer applications for others; hosting operating systems and computer

applications for others through the internet; constructing an internet platform for electronic commerce; computer services, namely, providing search engines for locating information, resources, and the websites of others on a global computer network; providing search engines for obtaining data via the internet, a global computer network, computer networks and electronic communications networks; providing temporary use of non-downloadable computer software and online facilities to enable users to access and download computer software; maintenance, repair and updating of computer software; providing a website featuring technical information relating to computer software provided; computer software consulting services; technical support services, namely, troubleshooting in the nature of diagnosing and repairing computer software problems; hosting multimedia content, namely online blog journals, text, weblinks, audio, video and images for others; hosting of digital content, namely online blog journals, text, weblinks, audio, video and images online; creating and maintaining websites for others; web design services; application service provider (ASP) featuring application programming interface (API) software for software development, mobile application development and website development; software as a service (SAAS) services, featuring software for use by others for computer software development, mobile application development, and website development; application service provider (ASP) featuring software for use in computer software development, mobile application development and website development; providing temporary use of online non-downloadable third party software tools to be used for the development and distribution of third party software applications; providing non-downloadable software for developing computer applications; computer software development in the field of mobile applications; software as a service (SAAS) services, namely, hosting software for use by others for use in communications between people and organizations, using wireless and wired networks, through computers and mobile devices; providing temporary use of non-downloadable computer software for creating, designing, editing and organizing text, images, audio and video files; providing a platform featuring non-downloadable software for mobile device communications, namely, for facilitating the transmission of text, audio and video content; computer services, namely, providing a platform featuring technology that enables internet users to post, upload, view, and share data, information and multimedia content; hosting an interactive website and online non-downloadable software for real-time delivery of data, messages, location, photographs, links, text, audio, video and other data; providing a website that allows users to review text, audio and video material and provide commentary; computer services, namely creating an online community for users to participate in discussions and engage in social networking

(6) Design and development of computer software; application service provider (ASP), namely, hosting computer software applications of others; providing online non-downloadable software tools for use in software development, mobile application development and website development; providing a website featuring non-downloadable software for use in software development, mobile application development and website development; providing temporary use of online non-downloadable software for use in software development, mobile application development and website development; computer services, namely remote hosting of operating systems and computer applications for others; hosting operating systems and computer applications for others through the internet; computer programming services, namely, constructing an internet platform for electronic commerce; computer services, namely, providing search engines for locating information, resources, and the websites of others on a global computer network; providing search engines for obtaining data via the internet, a global computer network, computer networks and electronic communications networks; providing temporary use of non-downloadable computer software and online facilities to enable users to access and download computer software; maintenance, repair and updating of computer software; providing a website featuring technical information relating to the design, development, installation, updating and maintenance of provided

computer software; computer software consulting services; technical support services, namely, troubleshooting in the nature of diagnosing and repairing computer software problems; hosting multimedia content, namely online blog journals, text, weblinks, audio, video and images for others; hosting of digital content, namely online blog journals, text, weblinks, audio, video and images online; creating and maintaining websites for others; web design services; application service provider (ASP) featuring application programming interface (API) software for software development, mobile application development and website development; software as a service (SAAS) services, featuring software for use by others for computer software development, mobile application development, and website development; application service provider (ASP) featuring software for use in computer software development, mobile application development and website development; providing temporary use of online non-downloadable third party software tools to be used for the development and distribution of third party software applications; providing online non-downloadable software for developing computer applications; computer software development in the field of mobile applications; software as a service (SAAS) services, namely, hosting software for use by others for use in communications between people and organizations, using wireless and wired networks, through computers and mobile devices; providing temporary use of non-downloadable computer software for creating, designing, editing and organizing text, images, audio and video files; providing a platform featuring non-downloadable software for mobile device communications, namely, for facilitating the transmission of text, audio and video content; computer services, namely, providing a platform featuring technology that enables internet users to post, upload, view, and share data, information and multimedia content; hosting an interactive website and online non-downloadable software for real-time delivery of data, messages, location, photographs, links, text, audio, video and other data; providing a website featuring technology that allows users to review text, audio and video material and provide commentary; computer services, namely creating an online community for users to participate in discussions and engage in social networking

GARDNER BENDER

Goods

Class 07

(1) conduit fishing equipment, namely, power operated blowers for installing a pull line for use in electrical wiring and circuitry, machine tools for inserting lines or wires in conduits, pipes, or adaptor plugs, all the aforesaid goods excluding motor-activated tools and machines for connecting electrical conductor wires to terminals by mechanical wrapping; electric powered conduit benders, all the aforesaid goods excluding motor-activated tools and machines for connecting electrical conductor wires to terminals by mechanical wrapping; pneumatic tool for propelling a line through a conduit and parts therefor, all the aforesaid goods excluding motor-activated tools and machines for connecting electrical conductor wires to terminals by mechanical wrapping; conduit bending machines, all the aforesaid goods excluding motor-activated tools and machines for connecting electrical conductor wires to terminals by mechanical wrapping; hydraulic punches, all the aforesaid goods excluding motor-activated tools and machines for connecting electrical conductor wires to terminals by mechanical wrapping; hydraulic knockout punch tool for punching hole in metal enclosures, all the aforesaid goods excluding motor-activated tools and machines for connecting electrical conductor wires to terminals by mechanical wrapping; hydraulic pumps, all the aforesaid goods excluding motor-activated tools and machines for connecting electrical conductor wires to terminals by mechanical wrapping; machine parts, namely, cylinders for conduit fishing machines; parts of conduit fishing machines, namely, line carriers for installing pull line in electrical conduit by loading one end of the conduit with air or gas for use in electrical wiring and circuitry, all the aforesaid goods excluding motor-activated tools and machines for connecting electrical conductor wires to terminals by mechanical wrapping

Class 08

(2) wire strippers and cutters; cable strippers and cutters; hand tools, namely, cutters for cutting PVC conduit; hand-operated electrical crimping tools; hand tools, namely, conduit benders for use in installing and maintaining electrical wiring; screwdrivers; hand tools, namely, fish tapes and reels; cable and wire knives; pliers; hand tools, namely, stud punches; hand tools, namely, cable benders and pullers for installing and maintaining electrical wiring; manually operated staple guns; industrial wiring kits comprising hand tools, namely, wire strippers, crimpers, cable cutters, cable clamps and screwdrivers, and comprising electrical equipment and parts, namely, test clips, insulated clips, electrical charging clips, electrical power connectors, wire joints for use in electrical

wiring, wire splices, electrical cables, electrical ties, voltage regulators, circuit testers, ground clips, cable clamps of metal, electricity conduct fittings, electrical wire splices, electrical preinsulator grommets and electrical tape, all sold as a unit and all for use in electrical wiring

Class 09

(3) electrical connectors, namely, electrical plugs, electrical outlets, adapter plugs; wire connectors; wire connectors, namely, crimp connectors for use in electrical wiring; electrical connectors, namely, set screw connectors, pigtail connectors, terminal and splice connectors, bullet connectors and split bolt connectors; electrical equipment and parts, namely, test clips for use in electrical wiring, insulated clips for use in electrical wiring, electrical charging clips for use in electrical wiring, electrical connectors for use in electrical wiring, electrical wire joints for use in electrical wiring, fuses for electric currents holders, line taps for use in electrical wiring, wire splices, electric cables, electric cable ties, box connectors, electrical sockets, voltage regulators, ground clips for electrical wiring, ground clamps for electrical wiring, conduit fittings, wire, relays; preinsulated terminals for electrical wiring, splices for electrical wiring, rings for electrical wiring, electrical spade connectors for electrical wiring and fused disconnect switches for electrical wiring; power switches, electric switch plates and electric control panels; alligator clips; splices for electrical wires; electrical connectors, namely, crimp sleeves; voltage testers; voltage continuity testers; telephone line testers; battery testers; electrical outlet testers, namely, test units to verify proper outlet wiring and ground fault circuit operation; battery-powered wall stud finders; battery-powered circuit breaker finders; battery-powered non-contact volt sensors; multi-scanners, namely, battery-powered scanners to locate wall studs, metal behind walls, and electrical wires behind walls; battery-powered tracers for tracing of non-energized wiring; battery-powered meters and clamp meters for measuring AC and DC voltage and current; multi-meters and clamp multi-meters, namely, battery-powered meters and clamp meters for testing AC and DC voltage, AC and DC amps, frequency, capacitance, resistance, diode test, continuity, temperature, duty cycle, transistor gain; meters that measure voltage frequency to verify proper wiring and connection in 3-phased motor applications; battery-powered analog earth resistance testers; digital insulation continuity testers, namely, battery-powered testers to verify the integrity of wire insulation and connectivity of electrical wiring; analog insulation testers, namely, battery-powered testers to test the continuity and wire insulation of electrical wiring; battery-powered infrared thermometers; circuit breakers and testers; protective electrical, temperature and environmental detection apparatus, namely, ground fault integrity tester, electromagnetic field detectors, microwave leakage monitors, circuit searcher breaker locator, ground fault interrupters, surge protector tester; conduit measuring tapes; protractors; battery accessories, namely, battery boxes, charging posts for automotive batteries, battery analyzers for automotive batteries, automotive battery chargers, battery testers; automotive battery charging clips; automotive battery clamps; fuses, fuse blocks and electrical fuse holders and taps

Image Description (Vienna)

- More than two lines or two bands
- Vertical lines or bands
- Horizontal lines or bands
- Lines or bands forming an angle -- Note: Including chevrons and arrowheads formed by lines or bands.
- Squares
- Other irregular parallelograms, trapezia and quadrilaterals, quadrilaterals containing one or more rounded corners
- One quadrilateral
- Quadrilaterals containing one or more other geometrical figures -- Note: Including quadrilaterals containing bent or straight lines (except 26.4.11).
- Quadrilaterals containing one or more letters
- Inscriptions in Chinese, Japanese or Korean characters
- Blue
- White, grey, silver
- Black

Colour Claim

Colour is claimed as a feature of the trade-mark. The mark consists of a BLUE square within which are 3 WHITE horizontal lines in the upper right quadrant; 3 WHITE vertical lines in the lower left quadrant and two WHITE interwoven sideways 'Us' in the lower right quadrant; the letters CKGSB and their Chinese character equivalents in BLACK.

Foreign Character Translation/Transliteration

The translation of the Chinese characters appearing in the mark: the first character means 'long', second character means 'river', third character means 'business', fourth character means 'study' and fifth character means 'institute'. The transliteration of the first two Chinese characters is

'CHEUNG KONG' and the last three Chinese characters means 'GRADUATE SCHOOL OF BUSINESS'. The five Chinese characters together can be translated as 'CHEUNG KONG GRADUATE SCHOOL OF BUSINESS'.
