

If you see tail, fin or spray – Stay far enough away.

Keeping a minimum of
100 metres away from
most whales, porpoises
and dolphins is the law.

Killer Whales in B.C.

Belugas in the St. Lawrence Estuary

Certain whales, like Killer Whales in B.C. and the St. Lawrence Estuary Beluga in Quebec need **more distance** because of threats they already face. There are also other approach distances which are tailored to particular circumstances. For more information visit:
