Return to an Order of the House of the 23rd April, 1917, for a copy of all letters, telegrams, petitions and all other papers concerning the substitution of the name of Luceville given to the Intercolonial Railway Station of Ste. Luce, County of Rimouski, Quebec. Presented April 30, 1917.—*Mr. Lemieux.* *Not printed.*

119. Return to an Order of the House of the 31st January, 1917, for a copy of all vouchers, correspondence, etc., in connection with the repairs to Beaver Harbour Wharf, Halifax County, within the last four years. Presented April 30, 1917.—*Mr. McLean (Halifax).* *Not printed.*

120. Return to an Order of the House of the 31st January, 1917, for a copy of all correspondence, vouchers, etc., in connection with the repairs to Harrigan Cove Wharf, Halifax County, in 1914-15, under the foremanship of James McDonald. Presented April 30, 1917.—*Mr. McLean (Halifax).* *Not printed.*

121. Supplementary return to an Order of the House of the 16th February, 1916, for a return showing:—1. The amounts expended in Railway Subsidies in Canada during the years 1912, 1913, 1914 and 1915. 2. The amounts by provinces, and the names of the lines to which granted. 3. Amounts expended on the construction of Government-owned railways in Canada during the above years. 4. The amount expended in each province, and the name of the line of railway on which such expenditure was made. 5. Amounts expended on harbour and river improvements in Canada during the above years. 6. The amounts by provinces and the particular places where expended. 7. Amounts expended on the building of public wharves, public breakwaters, and public dredging in North Cape Breton and Victoria during the years 1905 to 1911, inclusive, including the expenditure on Government railways. 8. Amounts expended for like purposes in the said county, during the years 1912, 1913, 1914 and 1915. Presented April 30, 1917.—*Mr. McKenzie.* *Not printed.*

122. Return to an Order of the House of the 19th April, 1916, for a copy of all letters, petitions, correspondence and telegrams exchanged between the Government, its district engineer,

CONTENTS OF VOLUME 21—*Continued.*

and all other persons, concerning either the construction or repairing or purchase of the wharves at the following places: Ile Perrot Sud, the Church in the Village of Ile Perrot, the Village of Vaudreuil, Pointe Cavagnal, Hudson, Rigaud, Graham, Pointe Fortune, and Ile Perrot Nord. Also, a copy of all specifications and reports already brought down at my request in relation to the documents prior to and since 1904, and a statement of the amounts that have been paid for such construction or repairs, and to whom they were paid. Presented April 30, 1917.—*Mr. Boyer*.*Not printed.*

- 122*a.* Return to an Order of the House of the 16th February, 1916, for a copy of all letters, petitions, correspondence, telegrams and reports, exchanged between the Government, the engineers residing in the district, and all other persons, concerning the construction and repairing done to the wharves mentioned below, since 1904, and of all data and reports already produced at my request and relating to documents prior to 1904; also the amounts of money paid for such construction and repairing, and to whom paid:—The wharf at Ile Perrot North, South, and at the Church; of the Village of Vaudreuil; of Pointe Cavagnal; of Hudson; of Graham; of Rigaud, and of Pointe Fortune. Presented April 30, 1917.—*Mr. Boyer*.*Not printed.*

- 122*b.* Return to an Order of the House of the 20th April, 1917, for a copy of all letters, petitions, correspondence, telegrams and reports exchanged between the Government, the resident engineer and all other persons, concerning the construction and repairing done to the wharves at Ile Perrot North, South and at the Church; Village of Vaudreuil, Pointe Cavagnal, Hudson, Graham, Rigaud and Point Fortune since 1904. Also, a copy of all data and reports regarding above already produced at my request relating to documents prior to 1904, showing the amounts of money paid for such construction and repairing, and to whom paid. And also, return to an Order of the House of the 20th April, 1917, for a copy of all letters, petitions, correspondence and telegrams exchanged between the Government, the district engineer, and any other persons concerning either the construction, repairing or purchase of the wharves at Ile Perrot South, the Church in the Village of Ile Perrot, Village of Vaudreuil, Pointe Cavagnal, Hudson, Rigaud, Graham, Pointe Fortune and Ile Perrot North, since 1904. Also a copy of all specifications and reports already brought down at my request in relation to above prior to, and since 1904, giving a statement of the amounts that have been paid for such construction or repairs, showing to whom they were paid. Presented August 13, 1917.—*Mr. Boyer*.*Not printed.*

123. Return to an Order of the House of the 19th April, 1916, for a copy of all letters, petitions, correspondence and telegrams exchanged between the Government, its resident engineer, and all other persons, concerning the dredging work done at the following places:—Ste. Anne de Bellevue, Pointe Fortune, Ottawa River Channel between Ile au Foin and Ile à l'Aquin, Graham channel, Rigaud channel, Hudson Heights channel, Hudson, Como, Pointe Cavagnal, channel at Vaudreuil Village, Dorion Bay channel, Ile Perrot Church, Ile Perrot Sud Wharf, and Ile Perrot Nord Wharf. Also, a statement of the amounts paid to different persons, companies, etc., for such work, the dates, etc., and a copy of the estimates already brought down at my request, the whole since 1904. Presented April 30, 1917.—*Mr. Boyer*.*Not printed.*

- 123*a.* Return to an Order of the House of the 16th February, 1916, for a copy of all letters, petitions, correspondence, telegrams and reports exchanged between the Government, the resident engineer of the district, and all other persons, concerning the dredging work done at the places below named, and the amount of money paid to divers, persons companies, etc., for such work, as well as the statements already presented at any request, the whole since 1904:—At the wharf of Ile Perrot, North, South and at the Church; in Dorion Bay channel; at Vaudreuil Village channel; at Pointe Cavagnal; at Como; at Hudson; at Hudson Heights channel; at Graham channel; in the Rigaud River channel; in the Ottawa river; Ile aux Poires channel; at Pointe Fortune, and at Ste-Anne de Bellevue channel. Presented April 30, 1917.—*Mr. Boyer*.*Not printed.*

124. Return to an Order of the House of the 3rd May, 1916, for a copy of all letters, telegrams, bills, vouchers and memoranda in connection with the repairs to the wharf at Upper Prospect, Halifax County, N.S., in 1915. Presented April 30, 1917.—*Mr. McLean (Halifax)*.*Not printed.*

CONTENTS OF VOLUME 21—Continued.

125. Return to an Order of the House of the 3rd May, 1916, for a copy of all letters, telegrams, bills, vouchers and memoranda in connection with the repairs to the wharf at Shad Bay, Halifax County, N.S., in 1915. Presented April 30, 1917.—*Mr. McLean (Halifax)*Not printed.
126. Return to an Order of the House of the 1st February, 1917, for a copy of all correspondence in the possession of the Department of Public Works bearing date after September, 1911, relating to the expenditure of money voted last session for harbour improvements at Tracadie, in the County of Antigonish, including copies of all letters relating to the same written by Mr. G. A. R. Rollings to the said Minister of Public Works or to any other member of the Government. Presented April 30, 1917.—*Mr. Sinclair*Not printed.
127. Return to an Order of the House of the 3rd February, 1917, for a copy of all letters, telegrams, reports and other documents received by the Government during the years 1915 and 1916, relative to the repairs required on the breakwater at Souris, P.E.I. Presented April 30, 1917.—*Mr. Hughes (Kings, P.E.I.)*Not printed.
128. Return to an Order of the House of the 1st February, 1917, for a copy of all correspondence in the possession of the Department of Public Works bearing date after September, 1911, relating to the extension of a breakwater at Green's Point, in the County of Antigonish. Presented April 30, 1917.—*Mr. Sinclair*Not printed.
129. Return to an Order of the House of the 31st January, 1917, for a copy of all correspondence, vouchers, etc., in connection with the construction of the Mushaboom Harbour Wharf, Halifax County, in 1913. Presented April 30, 1917.—*Mr. McLean (Halifax)*Not printed.
130. Return to an Order of the House of the 31st January, 1917, for a return showing all expenditures made since March 31, 1916, by the Public Works Department in the several provinces of Canada, specifying the name of the work, the amount already spent thereon, and the estimated total expenditure in each case. Presented April 30, 1917.—*Mr. McLean (Halifax)*Not printed.
131. Return to an Order of the House of the 31st January, 1917, for a copy of all correspondence, vouchers, etc., in connection with the construction of the Port Dufferin West Wharf, Halifax County, in 1913-14. Presented April 30, 1917.—*Mr. McLean (Halifax)*Not printed.
132. Return to an Order of the House of the 31st January, 1917, for a copy of all correspondence, vouchers, etc., in connection with the repairs to the Port Dufferin East Wharf, Halifax County, in 1915. Presented April 30, 1917.—*Mr. McLean (Halifax)*Not printed.
133. Return to an Order of the House of the 31st January, 1917, for a copy of all correspondence, vouchers, etc., in connection with the construction of a wharf at Ecum Secum West, Halifax County. Presented April 30, 1917.—*Mr. McLean (Halifax)*Not printed.
134. Return to an Order of the House of the 27th March, 1916, for a copy of all correspondence, letters, telegrams, etc., in any way referring to the dredging at Margaree Harbour, Inverness County, N.S., during 1913, 1914, 1915 and 1916. Presented April 30, 1917.—*Mr. Chisholm*Not printed.
135. Copy of Order in Council, P.C. 1142, dated the 24th day of April, 1917, under the provisions of the War Measures Act, 1914, containing regulations under which British ships registered in Canada, or under construction for neutral owners, may until further order be requisitioned by His Majesty for the carriage of foodstuffs, etc., or for any purpose whatsoever; and cancelling Orders in Council, P.C. 2923, dated the 24th day of November 1916, and P.C. 1915, dated the 31st day of March, 1917, in respect thereto. Also certified copy of a report of the Committee of the Privy Council, approved by His Excellency the Governor General on the 30th day of January, 1917, respecting the exercise of the requisitioning power by His Majesty's Government in the case of Canadian vessels. Presented by Hon. Mr. Reid, April 30, 1917.Not printed.

CONTENTS OF VOLUME 21—Continued.

253. Return to an Order of the House of the 14th May, 1917, for a copy of all letters, telegrams and reports between the Department of the Naval Service of the Department of Marine and Fisheries, and any and all persons in connection with the seizure of certain fishery boats, fishing tackle and equipment being used in the illegal fishing of lobsters in the Straits of Northumberland in the fall of 1916, together with a copy of the evidence taken before one M. G. Teed, Esquire, acting as a commissioner to inquire into this matter, and his report and finding thereon. Presented August 16, 1917.—*Mr. Copp*.
Not printed.
254. Return to an Order of the House of the 30th July, 1917, for a copy of all correspondence between the Department of Militia and Defence of Canada, the War Purchasing Commission of Canada, and the British War Office, concerning a target practice rod or the use of same by the Canadian Expeditionary Force. Presented August 20, 1917.—*Mr. Maclean (Halifax)* *Not printed.*
255. Return to an Order of the House of the 7th June, 1917, for a return showing:—1. Whether the Department of Agriculture supply thoroughbred bulls for improvement of stock to applicants for the same. 2. If so, if any such bulls have been sent into the County of Dorchester, Quebec, and when. 3. At whose request these bulls were sent, and if they belonged to the Department of Agriculture. 4. If so, on what condition they were supplied. 5. From whom the department purchased the animals referred to. 6. The price paid. 7. If any official of the Department of Agriculture has made an investigation as to where these bulls are at the present time. 8. If so, the substance of their report. 9. Whether the said bulls are being used for the purpose for which they were intended. Presented August 21, 1917.—*Mr. Lanctôt* *Not printed.*
256. Return to an Order of the House of the 1st August, 1917, for a return showing the amount which has been paid to the *Sydney Daily Post*, newspaper, by all the departments of the Government for printing and advertising, since the 1st of November, 1911. Presented August 21, 1917.—*Mr. Kyte* *Not printed.*
257. Return to an Order of the House of the 1st August, 1917, for a return showing the gross amount paid to the *Halifax Herald*, the *Evening Mail*, *Halifax*, and the Royal Print and Lithographing Company, *Halifax*, by all the departments of the Government for printing, advertising and all other services since November 1, 1911. Presented August 21, 1917.—*Mr. Sinclair* *Not printed.*

 CONTENTS OF VOLUME 21—*Continued.*

- 258.** Return to an Order of the House of the 18th June, 1917, for a copy of all accounts, papers, claims and correspondence regarding demands put forward by all persons who have claimed to have sustained loss or damage by the fire in the Parliament Buildings in February, 1916. Presented August 21, 1917.—*Mr. Lanctôt*.*Not printed.*
- 259.** Return to an Order of the House of the 14th May, 1917, for a copy of all communications, letters, reports, petitions and other documents on behalf of the Physicians and Medical Associations of this country, asking for the repeal of The Proprietary or Patent Medicine Act and the presentation of a new Act on the matter in order to render more efficient the control of these medicine preparations, and to add on the prohibition list such drugs or medicines as are generally dangerous to health and conducive to certain criminal practices. Presented August 21, 1917.—*Mr. Lapointe (Kamouraska)*.
Not printed.
- 260.** Copy of correspondence between the Honourable Robert Rogers and the Right Honourable Sir Robert Borden, Prime Minister, with reference to the resignation of the former as Minister of Public Works of Canada.—(*The Senate*).*Not printed.*
- 261.** Return to an Order of the Senate dated the 11th day of July, 1917, for a Statement showing the number of officers and men of the Canadian Expeditionary Force who have been classed as unfit for military service; whether the military authorities have given consideration to the possibility of utilizing the services of those men in a secondary capacity; whether those who have been classed as unfit continue to draw military pay; the number who have deserted from the various units between 1st October, 1914, and 1st June, 1917; and the number discharged from the various units since 1st October, 1914.—(*The Senate*).*Not printed.*
- 262.** Return to an Order of the Senate, dated 7th June last, for a return showing:—1. The name and rank of each person who at the outbreak of the war in August, 1914, was an officer, commissioned or provisional, of the 78th Regiment (Highlanders), of Pictou County, Nova Scotia. 2. The length of time each of such persons was attached to said regiment. 3. (a) The name of each of said officers who joined the Canadian Overseas Forces. (b) The unit to which he was attached. (c) The rank with which he was attached. (d) The date at which he was attached. 4. The name of each person who since the outbreak of war became attached as provisional officers to said 78th Regiment and the date at which such person became attached and his rank. 5. (a) The name of each of the officers referred to in paragraph 4 who joined the Canadian overseas forces. (b) The unit to which he was attached. (c) The rank with which he was attached. (d) The date at which he was attached. 6. The name of each of the officers referred to in each of the foregoing paragraphs who were in active service at the fighting front, the units with which they served, and the length of time they served. 7. Particulars as to each of the said officers showing where each one was on May 1, 1917, to what unit he was attached, and what his rank was at that time. 8. If any of these officers have gone to the fighting front since May 1, state name, unit, rank and date.—(*The Senate*).
Not printed.
- 263.** Part return to an humble Address of the Senate to His Excellency the Governor General, dated the 8th instant, showing all the correspondence between the Department of Militia and Defence and Clarence J. McCuaig; also, between the same and the first Purchasing Committee appointed by Sir Robert Borden, of which the Honourable Robert Rogers was Chairman, and between the said Clarence J. McCuaig and the Committee of which the Honourable Sir Edward Kemp is or was Chairman, or with any of the members of the said committee.—(*The Senate*).*Not printed.*
- 264.** Eighth Annual Report of the Commission of Conservation for the fiscal year ending 31st March, 1917. Presented by Hon. Mr. Burrell, September 1, 1917.*Not printed.*
- 265.** Return to an Order of the House of the 30th August, 1917, for a return showing:—1. The number of additional buildings and offices that have been rented by the various departments of the Government in the City of Ottawa during the calendar years, 1914, 1915, 1916 and 1917. 2. The names of the lessors, the length of the lease and the respective rentals of said buildings. 3. What department in each case is occupying said premises. Presented September 3, 1917.—*Mr. Sinclair*.*Not printed.*

 CONTENTS OF VOLUME 21—*Continued.*

- 266.** Return to an Order of the House of the 11th July, 1917, for a copy of all correspondence and other documents relating to the granting to beam trawlers registered in the United States the privilege of using ports in the Province of Nova Scotia for the purchasing of supplies, the shipping of men, etc., without license therefor as required under the *modus videndi*. Presented September 3, 1917.—*Mr. Kytch*. *Not printed.*
- 267.** Copy of contract dated 8th March, 1917, between His Majesty the King and Wallace Shipyards, Limited, for the construction and delivery of one wooden auxiliary sailing ship. Also,—Copy of contract dated 1st June, 1917, between His Majesty the King and Lamond and Harrison for the construction and delivery of one wooden auxiliary sailing ship. Presented by Hon. Mr. Cochrane, September 3, 1917. *Not printed.*
- 268.** Return to an Order of the Senate, dated the 15th day of June last, for a return made to an Order of the House of Commons, of the 7th February, 1916, for a copy of all correspondence and reports on the claims of Sealers of British Columbia under the last treaty with the American Republic, and all papers connected therewith.—(*The Senate.*)
Not printed.
- 269.** Copy of Order in Council, P.C. 2245, dated 3rd September, 1917, appointing the Deputy Minister of Justice, Oliver Mowat Biggar, of the City of Edmonton, John H. Moss, of the City of Toronto, Louis Loranger, of the City of Montreal, and Lt.-Col. H. A. C. Machin, of the Town of Kenora, Ont., a council to advise and assist in the administration and enforcement of the Military Service Act, 1917, to be known as the Military Service Council. Presented by Sir Robert Borden, September 4, 1917. . . . *Not printed.*
- 270.** Return to an Order of the House of the 21st May, 1917, for a copy of all reports, letters, telegrams, correspondence and any other papers in connection with the question of locating the 210th Battalion at Regina and Moosejaw respectively during the winter of 1916-17. Presented September 6, 1917.—*Mr. Knowles*. *Not printed.*
- 271.** Return to an Order of the House of the 14th May, 1917, for a copy of all letters, correspondence, telegrams and reports received by the Government since September, 1911, to the present day, in any way referring to the appointment of a man in charge of the storm signals at Grand Etang and Margaree Harbour. Presented September 6, 1917.—*Mr. Chisholm*. *Not printed.*
- 272.** Return to an Order of the House of the 7th May, 1917, for a return showing the different rural mail routes established in the constituency of Qu'Appelle since the 1st day of January, 1916, showing their location and date of establishment. Also, a list of all rural mail routes now being established or under consideration at the present time in the same constituency. Presented September 7, 1917.—*Mr. Thomson (Qu'Appelle)*.
Not printed.
- 273.** Return to an Order of the House of the 6th March, 1916, for a copy of all telegrams, letters, petitions and documents of all kinds in any way referring to the change in the Inverness-Margaree mail route from the west to the east of the Margaree river, from a point at Margaree Forks to Chapel Bridge. Presented September 7, 1917.—*Mr. Chisholm*. *Not printed.*
- 274.** Copy of Order in Council, P.C. 2199, dated 10th August, 1917: Rules and Regulations enacted in lieu of the Classification, Rules and Regulations contained in Order in Council, P.C. 1296, of the 15th May, 1917, in respect to War badges for members of the Canadian Expeditionary Force. Presented by Sir Edward Kemp, September 13, 1917.
Not printed.
- 275.** Copy of Order in Council, P.C. 2552, dated 13th September, 1917, recommending that Certificates of Naturalization may be issued under the Naturalization Act, 1914, to alien enemies who have resided for many years in Canada, on its being shown that they are clearly in sympathy with the United Kingdom and its allies in the present war, and that they have no pro-German or other alien enemy affiliations or connections. Presented by Sir Robert Borden, September 14, 1917. *Not printed.*

 CONTENTS OF VOLUME 21—*Concluded.*

276. Copy of *Canada Gazette* dated 12th September, 1917, containing a list and location of Local Tribunals established to hear and decide applications for certificates of exemption from Military Service. Presented by Hon. Mr. Doherty, September 14, 1917.
Not printed.
277. Copies of Orders in Council, dated 15th September and 17th September, 1917, respectively, appointing Registrars for the Provinces of British Columbia, New Brunswick, Quebec, Saskatchewan, Manitoba, Ontario, Alberta and Prince Edward Island, under the provisions and for the purposes of the Military Service Act, 1917. Presented by Sir Robert Borden, September 17, 1917.*Not printed.*
278. Return to an Address to His Excellency the Governor General of the 2nd May, 1917, for a copy of all Orders in Council, letters, telegrams, etc., to or from any employee of the Government in reference to the improvement and equipment of the life-saving station at Whitehead, Guysborough County, N.S. Presented September 17, 1917.—*Mr. Maclean (Halifax)*.*Not printed.*
279. Return to an Order of the House of the 14th May, 1917, for a copy of all letters, petitions, correspondence, telegrams and reports received by the Government since September, 1911, to the present day, in any way referring to the dredging and building of piers at Mabou Harbour. Presented September 19, 1917.—*Mr. Maclean (Halifax)*.
Not printed.
280. Return to an Order of the House of the 13th August, 1917, for a return showing:—1. The different amounts paid for commissions and expenses in connection with the flotation of the different loans made by Canada since 1914. 2. The respective amounts paid in connection with each loan. Presented September 19, 1917.—*Mr. Macdonald*.
Not printed.
281. Return to an Order of the House of the 5th September, 1917, for a copy of all correspondence, letters, telegrams, petitions, etc., in any way referring to an application for a public wharf at Chimney Corners, Inverness County, N.S. Presented September 19, 1917.—*Mr. Chisholm*.*Not printed.*
282. Return to an Order of the House of the 29th August, 1917, for a return showing copies of all accounts, memoranda, vouchers, telegrams, letters, etc., in reference to payments to George H. Boyce, of Windsor, N.S., District Foreman of Public Works Department, since his appointment to office. Presented September 19, 1917.—*Mr. Maclean (Halifax)*.
Not printed.
283. Return to an Order of the Senate dated the 1st day of March, 1916, showing a copy of all correspondence between the Government and the British Columbia Boards of Trade, and also between the Government and the Canadian Manufacturers' Association, in reference to the request made by the British Columbia Boards of Trade for the appointment of a Dominion Customs Officer at the Port of New York.—(*Senate*).
Not printed.
284. Part return to an humble Address of the Senate, dated the 14th of August, 1917, to His Excellency the Governor General, for a return showing the name of every judge of the Supreme, District and County Courts in all the provinces of Canada, for the year 1916, together with a statement of the moneys paid to each of such judges for that year for (a) salaries; (b) travelling expenses; (c) allowances of all kinds; (d) for services as Commissioners; (e) and any other payments; and also, showing the names of judges who have performed services as Commissioners, or in any other public capacity without compensation.—(*Senate*).*Not printed.*
285. Return to an humble Address of the Senate, dated the 9th August, 1917, to His Excellency the Governor General, showing all the documents relating to the purchase by the Militia Department of "Bonnie Bel Air" from W. T. Rodden, Esq., a part of number nine (9) on the official plan and book of reference of the Parish of Lachine and specially the report of the lawyers who examined the titles.—(*Senate*)*Not printed.*

FORTY-NINTH ANNUAL REPORT
OF THE
DEPARTMENT OF MARINE
AND FISHERIES

FOR THE FISCAL YEAR 1915-16

MARINE

PRINTED BY ORDER OF PARLIAMENT

OTTAWA

PRINTED BY J. DE L. TACHÉ
PRINTER TO THE KING'S MOST EXCELLENT MAJESTY

1916

*To Field Marshal, His Royal Highness Prince Arthur William Patrick Albert,

REPORT

OF THE

Deputy Minister of Marine and Fisheries

To the Honourable J. D. HAZEN,
Minister of Marine and Fisheries.

SIR,—I have the honour to submit herewith my report for the fiscal year ending March 31, 1916.

It has been my aim in the preparation of this report to include such information respecting the various services entrusted to the care of the department as may prove not only useful and instructive, but generally interesting. As the result of conditions that have developed during the twenty months that the war has already continued, the question of shipping has become of far-reaching importance. Therefore it is that particular pains have been taken to assemble as concisely as possible available statistics in reference to the subject.

On March 31, 1916, the total number of vessels on the Canadian register was 8,631, measuring 1,215,021 gross tons.

In former years it was the custom to value the shipping on the Canadian register at \$30 per net ton. This figure was of course an arbitrary one, but having regard to averages it fairly approximated real values. At the present time values are abnormal and actual sales are common at prices ranging from \$75 per ton, deadweight capacity, to upwards of \$100. Freight rates, governed as they always have been by the law of supply and demand, have enormously increased during the past year. The very large number of British registered vessels withdrawn from the commercial trades since the commencement of the war, to engage in the transport of troops and munitions, accounts almost altogether for the abnormal increase in freight rates and the value of ships.

Throughout the year there has been much discussion in the press and by various public bodies as to the expediency of taking such ships as would insure the early development of a purely Canadian Mercantile Marine, not only for our inland and coasting trade, but for foreign trade as well. In the development of any scheme that may be adopted for this purpose it is to be hoped that, in so far at least as foreign trade is concerned, it will be taken for granted that the day of the small carrier has gone by.

It will be generally admitted that, conditions being normal, the construction of ships for the foreign trade of a gross tonnage of less than 3,000 tons should be discouraged. In the prosecution of that trade it will be conceded that the most economical and, therefore, the most efficient vessel is one whose carrying capacity ranges from 7,000 tons to 10,000 tons. From Lloyds' register

7 GEORGE V, A. 1917

for the year ending June 30, 1915,—the last issued—a compilation has been made showing the number of ocean steamers over 3,000 gross tons, under various flags, as follows:—

Flag.	Over 10,000 tons.	7,000 to 10,000.	5,000 to 7,000.	4,000 to 5,000.	3,000 to 4,000.	Total.
British.....	140	280	558	933	1,152	3,063
American.....	14	23	104	67	97	305
French.....	16	19	86	48	59	228
Japanese.....	8	15	55	41	106	225
Italian.....	3	19	35	52	102	211
Dutch.....	8	19	61	30	71	189
Norwegian.....	2	5	20	47	42	116
German.....	42	71	159	150	122	544
Total.....	233	451	1,078	1,368	1,751	4,881

From the same issue there has been compiled a statement giving the speed of ocean-going steamers of 3,000 gross tons or over, as follows:—

Flag.	20 knots or over.	19 knots.	18 knots.	17 knots.	16 knots.	15 knots.	14 knots.	13 knots.	12 knots.	Total.
British.....	10	6	35	41	53	71	155	266	392	1,029

Total.....	36	11	50	60	95	177	273	420	597	1,719

While on the subject of aiding the shipbuilding industry, and thus helping to establish a Canadian Mercantile Marine, it may be of interest to note what has been done in the same direction by other countries.

For the compilation of the statement which follows, outlining the methods adopted by various countries for the encouragement of shipbuilding, the department is indebted to Mr. Thomas Robb, of Montreal, manager and secretary of the Shipping Federation of Canada:—

REPORTS ON BOUNTIES AND SUBSIDIES IN RESPECT OF SHIP-BUILDING IN VARIOUS COUNTRIES.

ARGENTINE REPUBLIC.

No direct bounties have as yet been granted, but the coasting trade all towing, lighterage and salvage operations are reserved to Argentine vessels. In order for a vessel to be considered an Argentine vessel, she must fly the

SESSIONAL PAPER No. 21

Argentine flag and be registered in the republic; (b) to have an Argentine proprietary title inscribed in the proper register; (c) to be commanded by a master who is either a natural-born or naturalized subject, and (d) to be manned by a crew of whom at least one-third (in the case of vessels of over 200 tons burden) are Argentine citizens.

AUSTRIA-HUNGARY.

Shipbuilding subsidies are granted when at least 50 per cent of home-produced material is ordered—the amounts are:—

(1) In the case of steamships of iron and steel (a) for the hull, 40 kronen (\$8.10) for every gross ton; (b) for new ship-engines, new boilers, new pipes, or tubes and supplementary engines of every kind, 8 kronen (\$1.62) for every 100 kilos.

(2) In case of sailing ship of iron and steel, for the hull, when more than half the material employed is of home production, the bounty is increased by 1 per cent of its amount for every 1 per cent of such material in excess of 50 per cent.

(3) In the case of sailing ships of wood or mixed construction, for the hull, 10 kronen (\$2.02) for every ton gross.

The construction subsidy is allowed also, under certain conditions, when less than 50 per cent of home material is used, but in this case the bounty is diminished by $\frac{1}{2}$ per cent of its amount for every 1 per cent under 50 per cent.

BELGIUM.

Free entry of shipbuilding materials. In virtue of the Budget Law of December 29, 1899, materials (not otherwise duty free) to be used for the construction, equipment, fitting out or furnishing of vessels and boats, are exempted from duty, on importation into Belgium.

BRAZIL.

A government premium of 50 milreis (\$16.22) is offered per ton for steam vessels of over 80 tons built in Brazil, but has never been earned.

DENMARK.

As regards shipbuilding, the tariff law of 1908 provides for the refund of customs duties on imported materials used for the construction of new ships, subject to the limitation that the refund must not exceed in amount 2 per cent of the contract sale price.

FRANCE.

By the law enacted in 1906 the construction bounty for steamships was fixed at a maximum of 172 francs 50 centimes (\$33.58), to cover both hull and machinery, and to diminish gradually for ten years. The amount was to be divided as follows:—

For hulls 145 francs (\$28.22) per ton, with an annual decrease of $4\frac{1}{2}$ francs (\$0.87) per ton for ten years; and for machinery, 27 francs 50 centimes— $1\frac{1}{2}$

centimes per 100 kilos (\$2.71) per cwt., with an annual decrease of 75 centimes per 100 kilos (\$0.08) per cwt. for ten years.

The construction bounty for sailing ships of 150 tons and over, was fixed at 40 francs (\$7.78) per ton, and of less than 150 tons at 30 francs per ton (\$5.84).

Only seven-tenths of the bounties are payable in respect of vessels built in foreign ports, the remaining three-tenths are payable in addition, to vessels sailing under the French flag, two-tenths one year after registration and the remaining one-tenth at the end of the second year.

So long as the law of 1902 is in force, these bounties may not be paid in respect of more than 50,000 tons of steam vessels, and 15,000 tons of sailing vessels per annum.

Further, the law of 1906 provided for equipment bounties to be accorded to steamships on the French register (wherever built), at the rate of 4 centimes (\$0.01 per ton, up to 3,000 tons, and 3 centimes (\$0.006 per ton, from 3,000 to 6,000 tons. For sailing vessels the rates are: Up to 500 tons, 3 centimes (\$0.006) per ton; 500 to 1,000 tons, 2 centimes (\$0.004); above 1,000 tons, 1 centime. These equipment bounties are subject to certain conditions as to average daily distance traversed, to quantity of cargo carried, the average speed (the minimum being 9 knots per hour). This equipment bounty is payable in respect of vessels abroad, if not less than two years old, when transferred to the French flag.

Vessels built for subsidized mail services are entitled only to a building bounty of 65 francs (\$12.65) per ton for hulls and 15 francs per 100 kilos (\$1.46) per ton for machinery.

The law is to be in force for 12 years.

GERMAN EMPIRE.

Construction bounties:—These bounties do not take the form of a premium on the construction of ships, but consist of:—

(1) Special customs facilities for goods destined for use in shipbuilding yards.

(2) Preferential railway rates.

(1) Subsection 12 of section 6 of the German Customs tariff law of the 25th December, 1902, exempts from payment of customs duty materials used for construction, repairing or fitting out seagoing or river vessels, except cabin and kitchen furniture. Pleasure boats for rivers and lakes are excluded from the enjoyment of these privileges.

In accordance with the regulations issued in accordance with Bundesrath to give effect to the foregoing provision of the law, the exemption from duty extends to raw materials, as well as to partly manufactured and wholly manufactured articles which are used for the construction (original construction or alteration), the repair or the equipment of seagoing vessels (defined as vessels provided with a fixed seaworthy deck entirely or chiefly destined for traffic on the sea, or its bays, harbours and shallows) as also of lake and river vessels to be used commercially for passenger traffic, for the conveyance of goods, for the in-

SESSIONAL PAPER No. 21

dustrial pursuit of fishing, tugging and dredging, for river works, docks and dock and inspection services, and other public services, also all the auxiliary boats of all the foregoing lake and river craft, but not floating dredges even if they be provided with means of self-propulsion.

Goods for fitting out cabins and kitchens, including even articles which are to be permanently fixed to the body of the vessel, as also articles intended to be used in the manufacture of such goods, are not accorded exemption from duty.

The articles of ships equipment and the materials for shipbuilding, as in respect of which freedom from duty may be claimed, are specified in lists annexed to the regulations, which lists may be supplemented as occasion requires, by decision of the Bundesrath. It is laid down that all articles destined for the artillery and armament of ships of the Imperial navy are to be regarded as articles of equipment whilst in the case of ships of war building in Germany for foreign countries the chief finance officials will decide in every case as to the application of this rule.

The regulations further deal fully with the system of bookkeeping and inspection by which the customs officials are to assume that all the materials and goods thus admitted duty free are actually used for the purpose indicated:

(2) Preferential railway rates are in force on German state railways for certain raw materials and partly manufactured articles used for the construction of German shipping. The railway rates of October, 1905, allowed a preference rate of 1.7 pfennig (\$0.004), plus 12 pfennig (\$0.028), booking free per ton per kilometre, in lieu of the ordinary rate 4.5 pfennig (\$0.01) to 3.5 pfennig (\$0.008), plus 12 pfennig (\$0.028) on the materials in question "in order to assist German iron industry and shipbuilding." The same preferential rate also applies to the following list of articles of the "special tariff for iron and steel": rivets, nails, screws, screw and rivet plates, nuts, wire, files, ships' chains, ships' frames, anchors, and all other articles contained in tariff III used in shipbuilding.

ITALY.

Provision is made by a law which came into operation in July, 1911, for bounties in the form of navigation premiums, construction and repair bounties, and remissions of customs duties, during a period of 15 years. The following are the main provisions of the law:—

The construction bounties are:—

On merchant vessels dredgers, and bridged tugs, with iron and steel hulls, 55 lire (\$10.70), 50 lire (\$9.73), and 45 lire (\$8.75) per gross ton, if launched within 5, 10, 15 years, respectively, from the date of promulgation of the law.

On wooden vessels, 10 lire (\$1.94) per gross ton.

For steam motors and auxiliary apparatus forming an integral part thereof, 15 lire (\$2.92) per indicated horse-power.

For turbine machinery, 17 lire (\$3.30) per shaft.

For boilers and auxiliary apparatus considered as accessories thereof, 12 lire (\$2.31), 220.5 lbs.

For other auxiliary apparatus, 13.5 lire (\$2.61) per 220.5 lbs.

For motor apparatus, 27 lire (\$5.24) per horse-power on shaft.

The law provides that the bounties at the above rates may not be paid in any one year in respect of more than 40,000 gross tons in the case of steamships, and 1,600 gross tons in the case of sailing vessels of iron and steel; 8,000 tons in the case of wooden sailing vessels, 40,000 indicated horse-power, in the case of engines, 2,500 tons of boilers; and 800 tons of auxiliary apparatus. The repair bounties are fixed at a maximum of \$42,836.08 per annum.

Remission of Customs duties:—The law further provides that ship constructors in Italy may import free of duty one-quarter of the metallic material necessary for the construction of the hulls of merchant ships, dredgers and bridged tugs built at the order of Italians and intended for sea, lake, lagoon or river use and provided that this quarter does not exceed 120 kilograms per ton of the gross tonnage. A quarter of the metallic materials necessary for the transformation of vessels, resulting in an increase of the gross tonnage, may also be imported duty free, provided that such quarter does not exceed 120 kilogrammes for each ton added to the vessel.

The law also allows temporary duty free admission in respect of (a) foreign metallic materials employed in the construction of the hulls, machinery boilers and auxiliary apparatus of merchant vessels ordered by foreigners, or in the construction of iron and steel craft destined for exportation, or of war or other vessels ordered by foreign governments from Italian shipyards; (b) articles of equipment or armament for the above-mentioned vessels; (c) their machinery and boilers or parts thereof, and (d) foreign metallic materials, machinery and boilers, complete, or separate parts thereof, to be employed in the repair or transformation in Italy, of war or other vessels belonging to foreign governments.

Italian shipbuilders may claim this privilege of temporary admission in respect of materials for vessels ordered by Italians if they renounce the other customs and construction bounties accorded by the law.

The quantities in respect of which the remission of customs duties may be made in any one year are limited by the law, and the maximum annual total of construction bounties (including the loss of customs revenue other than by temporary admission) is fixed at \$934,270.40. This with the navigation premiums, repair bounties, and a small sum for the expenses of administering the law, make a total authorized expenditure of \$1,206,916.80.

JAPAN.

The bounty payable on tonnage constructed locally is regulated by the provisions of the law for the encouragement of shipbuilding which came into force on January 1, 1910.

By the provisions of this law, only those ships are eligible to receive a bounty which are constructed by Japanese subjects, or by firms which have only Japanese subjects as members or shareholders.

Vessels receiving bounties must be built of steel and be of 1,000 tons or more, gross tonnage. They must be constructed under supervision in accordance with the shipbuilding regulations drawn up by the Minister of Communications.

The rates are within the limits of yen 11.00 (\$5.46) and yen 22.00 (\$10.93) per ton of the gross tonnage of the hull.

Class A. Ships with sleeping accommodation for 50 or more 1st or 2nd class passengers, or having accommodation for one or more 1st or 2nd class passengers per 100 tons of gross tonnage.

Grade 1. Ships coming under grade 1 of the shipbuilding and survey regulations, with the proper equipment for ocean voyages.

Grade 2.	Ship's coming under grade	2	Ship's coming
Grade 3.	"	3	"

Grade 3.	3	
Grade 4.	4	"

	Grade 1.	Grade 2.	Grade 3.	Grade 4.
	Yen. ¹	Yen.	Yen.	Yen.
Class A.....	22	21	19	14
“ B.....	19	18	16	11

If the engines are built with the vessel, or provided the sanction of the Minister of Communications has been obtained before hand—at any other works in Japan, a further bounty of yen 5.00 per actual horse-power is to be granted.

In constructing the hull or machinery for a vessel which is to receive the subsidy, foreign made materials may not be used except for the following parts:—

- (1) Stem, sternpost, rudder and rudder tiller, rudder post quadrant, rudder pintles used for vessels of 3,000 tons or more.
- (2) Triple screw shaft bearing.
- (3) All stanchions not less than 7" in diameter.
- (4) All kinds of springs.
- (5) Corrugated and plain or flanged furnaces.
- (6) Rotor (wheel, spindle or shaft, blades and bracket of turbine engine).

The following articles used in the equipment of a vessel which is to enjoy the subsidy must not be foreign made: Hemp and manila rope, articles made of canvas, windlass, cargo winches, steering engine and gear, anchor chains, wire

7 GEORGE V, A. 1917

ropes, hawsers, etc., centrifugal pumps, hand bilge pumps, fire pumps, boat davits and other davits, boat and lifesaving gear; sky-lights and cabin ports, ventilators, electric apparatus, auxiliary condensers; steam pumps, ash ejectors, dynamos, and valves and cocks.

There is a similar proviso to the one above mentioned with regard to foreign patented articles or those of new design.

NORWAY.

The shipbuilding bounties which are granted in respect of tonnage constructed in Norway on Norwegian or foreign account, are intended to cover only the amount of customs duty on imported materials used in the construction of vessels, and are fixed by customs law at the following rates.

(a) For steamships with main engines and boilers fitted in Norwegian workshops, of iron or steel, 2s. 3d. (54c.) per gross register ton; of wood, 1s. 8d. per gross register ton.

(b) For steamships, without main engines and boilers, but otherwise completely fitted, and for sailing vessels, of iron and steel, 1s. 8d. (40c.) per gross register ton, of wood, 1s. 1½d. (26c.) per gross register ton.

RUMANIA.

Materials for shipbuilding are admitted free of customs duty.

RUSSIA.

The estimates of the department of mercantile marine included for 1909 and subsequent years a sum of \$51,428.52 "Measures for the encouragement of shipbuilding." Formerly no bounties on tonnage whether constructed locally or purchased abroad, had been granted to Russian shipping. In June, 1912, a special law was enacted for the granting of bounties for the construction and repair of mercantile vessels. The bounties are granted to shipbuilding firms situated within the Russian Empire (but not in England or areas in which there is duty-free importation of materials and machinery for the construction and equipment of vessels) for every merchant vessel constructed of metal and intended for use in foreign waters or on the Danube and tributaries, upon registry of such a vessel at a Russian port, and provided that it was laid down subsequent to the promulgation of the law. The following table shows the rates of bounty.

RATE OF BOUNTY PER GROSS TON.

Gross Tonnage.	Vessels mechanically propelled.	Sailing vessels with auxiliary mechanical propulsion.
	£ s. d. \$ cts.	£ s. d.
Up to 125 tons.....	11 1 6 (53 90)	8 17 4
126 to 300 tons.....	10 11 0 (51 33)	8 8 11
301 to 500 tons.....	10 0 6 (48 78)	8 0 6
501 to 725 tons.....	9 10 0 (46 23)	7 12 0
726 to 1,000 tons.....	8 19 6 (43 67)	7 3 7
1,001 to 1,400 tons.....	8 9 0 (41 12)	6 15 1
1,401 to 2,000 tons.....	7 18 6 (38 40½)	6 6 8
2,001 to 3,000 tons.....	7 8 0 (36 00)	5 18 3
Over 3,000 tons.....	6 17 6 (33 45)	5 9 9

SESSIONAL PAPER No. 21

Further bounties at the rate of £3 14s. 0d. per indicated horsepower are to be granted in respect of the installation of new main or auxiliary machinery in the vessels for which construction bounties are accorded.

In the case of repairs the bounties to be paid are for new boilers, etc., 3s. 2d. per 36 lbs. of metal used; for new main or auxiliary machinery 11s. 7d. per 36 lbs.

After 10 years have lapsed from the promulgation of the law, all the above-mentioned bounties are to be reduced by 6 per cent annually.

Regulations issued under this law provide that the use of foreign materials in the construction of the hull or machinery of vessels does not deprive the builders of their claim to the bounties; but the special bounties for new machinery or auxiliary engines are to be granted only, if the machinery be of Russian manufacture, though the use of such as are not manufactured in Russia (and are so specified in a list published by the Ministry of Commerce) is permitted.

It is understood that the sum of £73,889 is to be included in the 1913 budget for the bounties under the provision of this law.

SPAIN.

Spanish shipbuilders pay the full customs duties on material imported, but receive the following bounties:—

- (1) Per ton gross of all wooden ships constructed to navigate without motive power of their own, 80 pesetas (£3.4.0.).
- (2) Per ton gross of wooden ships constructed to navigate with their own power, 100 pesetas (£3.19.3 $\frac{3}{4}$).
- (3) Per gross ton of iron or steel ships without motive power (dredges, floating cranes, hoppers, etc.) 120 pesetas (£4.16.0.).
- (4) Per ton gross of iron or steel cargo boats, 160 pesetas (£6.8.0.). The same bounty is paid on the construction of iron or steel fishing boats.
- (5) Per ton gross of iron or steel vessels constructed to carry both cargo and passengers, 170 pesetas (£7.16.0.).
- (6) Per gross ton of iron or steel vessels constructed for passenger traffic 185 pesetas (£7.8.0.). An additional 10 per cent is paid on every knot in excess of 14 attained, in trials undergone by the vessel when carrying half her maximum cargo.

The above scales of bounties have been established in 1909; the following year was the first in which payments were made to shipbuilders. They amounted on that year to a total of 738,432 pesetas (£29,537) = \$143,746.73.

SWEDEN.

Materials required for use in Swedish shipbuilding yards for the construction or repair of ships of over 40 tons for use in the Swedish Mercantile Marine, or of ships under 40 tons for immediate sale abroad, may be admitted free of customs duty.

URUGUAY.

Under a law of 1905, which was to be in force for 25 years, shipbuilding yards and workshops, shipways and drydocks may import free of customs duties, all materials requisite for their erection, equipment or working.

7 GEORGE V, A. 1917

UNITED STATES.

By section 19 of the United States Tariff Act of 1909, all materials of foreign origin intended for the construction of vessels in the United States may be imported free of customs duty. But vessels which have so benefited in construction, may not engage in the General Coastwise trade for six months in each year, though they may engage in the trade between Atlantic and Pacific ports of the United States.

SHIPPING DESTROYED SINCE THE OUTBREAK OF WAR.

Statistics dealing with the matter of shipping during the year just ended would be altogether incomplete without a reference to the number of vessels lost and destroyed as the result of coming in contact with mines or by enemy submarines.

A statement prepared by Admiral Sir Cyprian Bridge on Merchant shipping losses up to the 30th March, 1916, is as follows:—

STEAMSHIPS.		
Nationality.	No.	Tonnage.
British.....	379	1,320,000
French.....	41	140,000
Belgium.....	10	30,000
Russian.....	27	42,000

SESSIONAL PAPER No. 21

From the foregoing it is observed that the loss to British shipping is less than 4 per cent of the total number of vessels under the British flag and slightly over 6 per cent of their total tonnage. The construction of new vessels in Great Britain and France during the period since the war began reveals the comforting fact that war losses have been virtually made good.

During the year 1915, Great Britain added 88 steam vessels of a tonnage of 344,000 tons to her register. In the same period Russia and Italy show an increase while France was short only 12,500 tons. While the losses have been great, it would be incorrect to ascribe the shortage of tonnage to the action of enemy mines and submarines. Rather is it due to the very great requirements of the Naval and Military forces. Less than one month ago, it was estimated that no fewer than 3,300 merchant vessels were thus engaged.

LICENSING OF SHIPS.

In order to better conserve and control available ships, the Board of Trade as far back as December 1, 1915, took the necessary steps to provide by Order in Council, that no British registered steamers of upwards of 500 gross tons should engage in the carrying of cargo from one foreign port to another foreign port unless the owners or charterers of such vessel should be granted a license to so trade.

The Order in Council alluded to authorized and directed the President of the Board of Trade to appoint persons to carry out and give effect to the provisions of the Order and to grant licenses when and where desirable. The said Order in Council was supplemented on the 15th February last by a further Order in Council prohibiting as from the first day of March last, all British registered steamers in excess of 500 gross tons, except those engaged in the coasting trade of Great Britain, from proceeding on any voyage without first obtaining a license.

There were at that time on the Canadian register upwards of 300 steamers the gross tonnage of each exceeding 500 tons. These or any number of them, were free to engage without interference in any trade between one foreign port and another foreign port, or between any foreign port and any port in Canada and *vice versa*. Having regard to the conditions then and now existing, it was considered undesirable that Canadian registered vessels of upwards of 500 gross tons should be permitted to engage in any foreign trade without the knowledge or consent of the government. It was therefore provided by Order in Council of the 11th March, 1916, that as from the first day of April, 1916, all Canadian registered steamers whose gross tonnage exceeds 500 tons be prohibited from proceeding on any voyage excepting voyages from a port in Canada to another port in Canada and from a port in Canada to a port in the United States and *vice versa*, unless a license to do so has been granted to, or in favour of the owners or charterers of such steamships.

By the terms of the Order in Council referred to, the Minister of Marine and Fisheries was authorized and directed to appoint a committee with power to issue licenses. The Minister in accordance with this authorization and direction, appointed the Deputy Minister of Marine and Fisheries, the Deputy Minister

of the Naval Service, the Commissioner of Customs and the Deputy Minister of Trade and Commerce a Committee to carry out the purposes of the Order in Council.

VESSELS TRANSFERRED FROM CANADIAN REGISTRY DURING THE YEAR.

The total tonnage transferred from the Canadian Register during the twelve months ending March 31, 1916, was 25,834. The number of vessels representing the aggregate tonnage was 42. Fifteen vessels of an aggregate tonnage of 4,780 gross tons were transferred to foreign registers—fourteen to the United States and one to Russia. Twenty-seven vessels representing 20,964 gross tons were transferred to British registry outside of Canada as follows:—

United Kingdom.....	4	8,069 gross tons.
Newfoundland.....	12	4,338 “
Barbadoes.....	9	2,845 “
New Zealand.....	1	1,496 “
Shanghai.....	1	4,216 “

It will be observed that the transfers of Newfoundland and Barbadoes registers constitute the principal changes during the year. It is generally understood that a large proportion of these transfers was made with the sole purpose in view of securing immunity from some of the provisions of the Canada Shipping Act, Chapter 113, R.S.C. Section 95 of said Act provides that no ship registered in Canada over one hundred tons shall go to sea from any port or place in Canada on any voyage not being a coasting voyage, unless the master and first mate or only mate thereof, possesses valid certificates. And section 96 requires that no sailing ship registered in Canada over one hundred tons, and no steamship registered in Canada, shall go from any port or place in Canada on any coasting voyage or be licensed or allowed to ply on any Canadian water unless the master thereof possesses a valid certificate. Section 5 of Chapter 65 of the Acts of 1908 amends the above requirement to the extent that sailing vessels under one hundred and fifty tons do not require to carry a certificated master.

In Newfoundland and Barbadoes there is no legislation of the nature referred to, with the result that vessels registered there may engage in trade from any Canadian port without being obliged to secure the services of certificated masters and mates. It does not appear reasonable that vessels on the Canadian register and their owners should be thus discriminated against, and it is submitted that the matter should engage the attention of Parliament at its next session.

It may be pointed out in further reference to this question that while steamships registered in Canada engaged in foreign, coasting or inland trade are obliged to carry certificated masters (vide sections 95 and 96, Chapter 113, R.S.C.) steamships registered in the United Kingdom may engage in all these trades without any obligation to employ certificated masters. Both the Merchant Shipping Act and the Canada Shipping Act appear to be defective in this respect. Section 92 of the Merchant Shipping Act, 1894, provides that every British

SESSIONAL PAPER No. 21

foreign-going ship when going to sea, *from any port in the United Kingdom*, shall be provided with officers duly certificated. When, however, that ship reaches a Canadian port and undertakes to clear for a foreign, coasting or inland voyage, it is under no obligation to employ duly certificated officers. In the revision and consolidation of the Canada Shipping Act undertaken by this Department two years ago, the result of which is embodied in the Bill entitled "An Act to Consolidate and Amend the Canada Shipping Act," introduced by the Minister of Marine and Fisheries during the session of 1914-15, provision was made to overcome this difficulty and remove what is in reality a discrimination against steamships on the Canadian register. The past two sessions of Parliament have been so occupied with matters and measures relating to the war, that the Government has found it inexpedient to take up consideration of the Bill. Its importance necessarily involves somewhat lengthy consideration by Parliament, but it is hoped that during the next session opportunity will be found to fully deal with it

COASTING VOYAGES.

The fact that the legislation of Barbadoes does not provide that ships registered in that colony must carry certificated masters and mates, has given rise to a considerable demand in Canada for the enlargement of the area for which coasting certificates are issued. So insistent has this demand become that both during the last and present sessions of Parliament, a Bill was introduced by Mr. John Sinclair, M.P. for Guysboro, Nova Scotia, making provision for the extension of the present limits of a coasting voyage from five degrees north latitude to forty degrees south latitude.

During the parliamentary session of 1898, a Bill was passed extending the limits of a coasting voyage from Cape Hatteras to the present limit—five degrees north latitude. The technical officers of the Department at that time opposed the extension chiefly on the ground that the standard of qualifications required for "coasting certificates" was not sufficiently high to insure that applicants for certificates would have the knowledge requisite for the safe navigation of vessels in the area proposed to be included. Notwithstanding this opposition, the measure became law.

As regards the measure now before Parliament, the Departmental view remains the same and the same objections are being urged.

NOTE.—The Bill referred to has in the meantime been passed by both Houses of Parliament and is now law. It provides as follows:—

"Section three of chapter sixty-five of the Acts of 1908 is repealed and the following is substituted therefor:—

"Coasting voyage" means a voyage between any port or place in Canada, and any other port or place in Canada, or in Newfoundland, Labrador, or St. Pierre or Miquelon, or any port or place in the United States of America or Mexico or Central America or in the West Indies, or on the eastern coast of South America not further south than forty degrees south latitude; or on the coast of the Territory of Alaska or of the western coast of South America not further than forty degrees south latitude.

7 GEORGE V, A. 1917

*Canada included in British.

SESSIONAL PAPER No. 21

PRIVATE SHIPBUILDING PLANTS OPERATED IN CANADA.

The principal private shipbuilding plants operated in Canada are: Polson Iron Works (Ltd.), Toronto, Ont.; Canadian Vickers (Ltd.), Montreal, P.Q.; Geo. Davie & Son (Ltd.), Quebec, P.Q.; Collingwood Shipbuilding Co., Collingwood, Ont.; Kingston Shipbuilding Co., Kingston, Ont.; Western Dry Dock and Shipbuilding Co. (Ltd.), Port Arthur, Ont.

WESTERN DRY DOCK AND SHIPBUILDING CO., LTD., PORT ARTHUR, ONT.

This plant comprises structural iron shop or punch shop with mould loft, machine shop, boiler shop, blacksmith shop, joiner shop, electrical shop, pipe shop and pattern shop, and is a complete and up-to-date shipyard, capable of building the largest bulk freighters, and the shops are equipped as well to build machinery, steel tanks, boilers and structural iron and steel work of any description.

During last year, owing to business conditions, no new tonnage was built, but repairs were made to 25 vessels in the "dry dock," which is 700 feet by 100 feet, and hoisting engines and traction machinery were manufactured.

The amount of capital invested in this plant is approximately \$1,500,000.

COLLINGWOOD SHIPBUILDING CO., LTD., COLLINGWOOD, ONT.

This shipbuilding plant comprises a large punch shed, boiler shop, machine shop, foundry, blacksmith shop, joiner house, mould loft, carpenter and pattern shop and drawing office.

There are in operation two stone dry docks and six building berths, with room for further extension, capable at present of handling on the slips vessels up to 550 feet in length.

The present valuation of the plant is \$2,000,000.

During the 12 months ending March 31, 1916, the company made repairs to 14 vessels in their docks and completed the construction of a hopper barge 744 tons gross and an oil tank steamer 250 feet by 43 feet by 18 feet of 2,051 gross tons.

The company is at present building 4 oil tank steamers similar to the one completed and a vessel 550 feet by 58 feet by 31 feet of 7,988 gross tons.

In addition to their shipbuilding activities, the company is engaged in the manufacture of 18-pounder shrapnel and 4.5-inch high explosive shell.

THE CANADIAN VICKERS LTD., MONTREAL, P.Q.

This shipbuilding plant includes the floating ship dock the *Duke of Connaught*, 600 feet by 100 feet, with a lifting capacity of 25,000 tons. A covered-in shipbuilding berth 500 feet by 132 feet, fitted with overhead cranes, with a capacity of 4 berths for shipbuilding.

7 GEORGE V, A. 1917

There is an iron worker's shed, equipped for handling all classes of iron work, 500 feet by 150 feet, engine and boiler shop 370 feet by 155 feet, and a joiner shop and mould loft 150 feet by 100 feet, besides a number of auxiliary work shops for building and repairing ships.

The total capital invested in the plant amounts to \$7,000,000.

In May last the new Government icebreaker *J. D. Hazen* was launched, length B.P. 275 feet, breadth 57.6, depth 32 feet, tonnage displacement 5,000. Cost \$998,583 (this vessel has since been sold to the Russian Government), and in August, there will be completed a Government elevator dredge, length 284 feet B.P., breadth 48 feet, depth 20.6 inches, dredging capacity 1,500 tons per hour, dredging depth 57 feet. Cost \$883,700.

Besides this new construction, 24 vessels were docked and repaired in the *Duke of Connaught* dock and 32 in other basins in the harbour.

KINGSTON SHIPBUILDING COMPANY, KINGSTON, ONT.

This shipbuilding and repairing plant was established at a cost of \$92,000 and is used in connection with the Government dry dock at Kingston, of which they are the lessees.

During last year no new construction work was carried on, the operations being confined to repair work.

The present plant is equipped for the construction of steel hulls, but not for the building of boilers and engines.

POLSON IRON WORKS, LIMITED, TORONTO, ONT.

The Polson Iron Works, Ltd., have facilities and plant for building the largest sized steamers, as instanced in the *Ontario No. 2* with a gross tonnage of 5,568 tons, but outside of the Lake Ontario service are restricted to canal size steamers.

The valuation of the property and plant is approximately \$2,000,000, and included in the plant are machine and boiler shops.

During the twelve months ending March 31, 1916, the firm completed the following contracts:—

C.G.S. *Grenville*, for Dominion Government, gross tonnage 497.32, length B.P. 155 feet, breadth 30 feet, depth 13 feet.

Hydraulic Dredge *Tornado*, for Canadian Stewart Co., gross tonnage 1,120.

SS. *Ontario No. 2*, car ferry and passenger steamer for Ontario Car Ferry, Ltd., Montreal, gross tonnage 5,568.

MONTREAL HARBOUR COMMISSION.

The Harbour Commissioners of Montreal who control and carry out harbour improvements and expenditure and revenue are the same as last year, W. G. Ross, Esq., President, Farquhar Robertson, Esq., and Brig-Gen. E. Labelle, Secretary Treasurer, Major David Seath and Chief Engineer, F. W. Cowie, M. Inst. C.E.

SESSIONAL PAPER No. 21

The trade conditions in Montreal harbour were in many ways similar to the experience of 1914 owing to the war in Europe. The steamers known as regular liners before the outbreak of the war, were employed as transports, and other ships, in many instances, replaced the liners. It was difficult to procure tramp vessels for carrying grain and other agricultural products.

The harbour was open for navigation on the 11th of April, 1915, when the *Longueil* arrived at her pier from her winter quarters. The first transatlantic steamer to arrive was the *Cascapedia*; Captain Jones her commander received a token of the event in accordance with the custom of previous years. The last vessel bound overseas to leave was the *Port Dalhousie*. Her departure occurred on the 11th of December and later than any sea-going vessel was known to depart.

The effect of requisitioning sea-going vessels by the Admiralty for transportation purposes was more marked in 1915 than in 1914. During the season of 1914, the sea-going vessels that arrived in the port of Montreal numbered 916, with a tonnage of 2,755,518; in the season of 1915, the number was 815, and the tonnage 2,261,374.

Notwithstanding the willingness of shipowners to accommodate shippers by carrying cargo to the full capacity of the different ships, the scarcity of tonnage very materially interfered with the trade of the port. Large quantities of grain and other products of the kind, usually shipped from Montreal, were not shipped to overseas countries from the port, because a sufficient number of vessels was not available.

The quantity of grain handled in the elevators was 37,064,002 bushels, about 25,000,000 less than in 1914. The facilities for receiving commodities and shipping were greater owing to improvements of the harbour and equipment.

The Head Line Company began a new service between Montreal in the year 1915, by establishing a line in the transatlantic carrying trade to Avonmouth, G.B. The special trade mainly consisted in carrying provisions and cheese for which suitable equipment had been provided.

Shipping of nitrate of soda from Chili, by way of Montreal to United States western ports, was also, a new feature in the trade of the port. One transshipment only was necessary in a circuit of 10,500 miles.

Considering the changed conditions, due to the war in Europe, the entire business of the port was far from discouraging. The arrival of sea-going vessels in the St. Lawrence from British and other ports, can, in a large measure, be attributed to the protection of the British navy.

Of the total net tonnage of vessels of all classes arriving in the port of Montreal, during the season of navigation, the tonnage of the transatlantic vessels was 1,657,728; from the Maritime Provinces and other seaports, 603,546 tons, and from Inland ports 4,222,426, total 6,483,700.

Insurance rates have for many years been a matter of concern to shipowners making Montreal the transatlantic port on this side of the ocean. The Minister of Marine and Fisheries, for the time being, and the harbour commissioners have repeatedly made representations to underwriters in Great Britain with a view to having the rates on hulls and cargoes charged vessels

7 GEORGE V, A. 1917

using the St. Lawrence route reduced to approximate the rates prevailing in voyages to more southerly ports.

Tramp steamers are more especially at a disadvantage when taking the North Atlantic route. For some reason for which no definite explanation has been given by underwriters, discriminating rates have been charged upon cargoes and hulls to Canadian ports. The harbour commissioners have pointed this out again in preparing their report and have resolved to make further representations to the underwriters in Great Britain. All really dangerous factors of former years have been gradually removed from the St. Lawrence route. The sheltered nature of the route and the unsurpassed character and complete system of aids to navigation have been frequently and explicitly pointed out, but without the desired effect. The large expenditure of about 70,000,000 dollars for improvements along the route of the gulf and river St. Lawrence and the terminals has made this waterway one of great security in navigation. The harbour of Montreal is equipped with all essential facilities for handling freight and has in this respect no equal on this continent. The piers, sheds, grain conveyers for simultaneous loading of a number of ships from the grain elevators, and the elevators themselves, are unique in their perfection.

The ship channel of the St. Lawrence river for 220 miles below Montreal has been continuously undergoing improvement; lighthouses, lighted buoys, semaphores, wireless telegraph, signal stations, pilotage arrangements have been established and are maintained at great cost. A large floating dock capable of receiving large transatlantic liners, with workshops is conveniently located at Montreal; another, 160 miles downstream at Quebec is under construction and at this point also is a capacious wet dock for repairs.

Among the important precautions arising from the changed conditions after outbreak of the war, was the organization of an effective harbour police force. The force rendered good service in 1914 and a more perfect system was put in operation in 1915.

The railway traffic department shows in its statement, a large increase in the number of cars employed in conveying freight, compared with any previous year since the establishment of the system. In 1907, the number of cars used was 70,850 and in 1915, 157,480. This increase in the handling was brought about by the addition of new cars and the employment of the line in conveying soldiers being mobilized, from one railway company line to another and to steamers. The compression of hay in three of the sheds during the winter months contributed to the traffic, the increase in the conveyance of chilled meat and other perishable products was a new factor, and the facilities for this kind of traffic were highly spoken of by shippers and steamship owners and agents. No delays occurred in the passenger or freight conveyance.

The traffic railroad has now in use 45 miles of track, an increase over last year of several miles. Local trade, it is expected will increase the traffic between the railway terminals and the delivery of freight at the steamships.

Still further extension of the tracks is contemplated keeping in view accommodation for manufacturing plants now on the harbour front and others that in future seem more than probable.

SESSIONAL PAPER No. 21

Extensive alterations to locomotives and cars were carried out in the shops of the railway traffic department and a building was erected for the office of this department and residence of the yardmaster. The use of electricity in place of steam for motive power has been the subject of much thought and the conclusion has been formed that electricity has great advantages over steam in many respects. The smoke nuisance would be abolished, the absence of acid effects on steel and galvanized plant, instant application of power in the working of railway and perhaps economy are among the advantages claimed for electricity. An expert has been employed to enter into all details of the subject and report.

Construction of warehouses at convenient points on the harbour property is a subject that has also received attention recently. High level tracks and roadways now enable the handling of freight in winter as well as summer along the harbour front. Goods, therefore, can be stored for future delivery to all points and enable importers to take advantage of the cheaper rates of freight which are generally charged in midsummer.

The main object of building such a warehouse is to supply a want frequently pointed out by importers who have complained of the deficiency. Plans have been prepared for building an eight story warehouse in a central place on the harbour front with railway spurs and other connections.

A board of commissioners composed of Mr. Eugene Haskell, W. J. Stewart and Fredk. Wm. Cowie was as appointed to make an examination and report upon the effect of certain dredging in the harbour on depth of water and currents.

The engineering department under control of Mr. F. W. Cowie, Chief Engineer, has carried out the work of improving the harbour and usual maintenance and upkeep of the working plant and work previously constructed.

The following outline shows the progress in certain improvements during the year.

The improvement and extension of the harbour railway tracks.

The continuance of the construction of the new Victoria pier and Market basin.

The continuation of work on the bulkhead high level wharves on the river front eastward of Victoria pier.

General dredging of, widening and deepening of basins and berths.

Dredging of channels for relieving St. Mary current.

Paving and laying railway tracks on wharves.

Completion of work near floating dock basin and site for Canadian Vickers shipyard and repair works.

Progress made in harbour facilities in connection with hoists, flood gates, bridges, subways and freight yards.

Additions made to harbour commissioners construction plant.

The rebuilding in concrete of the quay wall opposite shed No. 13.

The construction of a second industrial wharf at Pointe aux Trembles.

The construction of the Longueuil-St. Lambert highway.

The commencement of the construction of the west extension to grain elevator No. 1.

The diversion of the Elgin basin sewer outlet and the mooring of the wharf office building.

The operating of the floating derrick, hoists and other appliances.

The elevators have been enlarged from year to year since 1910 and the work on the west extension of No. 1 it is expected will be completed by the opening of navigation in 1916. The capacity for storage of elevator No. 1 will be 4,000,000 bushels; of No. 2, 2,622,000 and of the Grand Trunk elevator, 2,150,000 bushels; total capacity, 8,772,000 bushels.

The elevators are constructed of re-inforced concrete on the most modern plan and with modern equipment. In order to prevent congestion as far as possible in unloading vessels, special attention has been given to building marine towers. Two of these are connected with the west extension now under construction, having a capacity of 20,000 bushels each per hour, making an addition to the towers and legs already attached to the elevators. Twelve elevator legs of 15,000 bushels capacity each per hour form part of the equipment of No. 1 elevator, each leg tributary to two garnerers.

The traffic railway along the harbour front is now 7 miles in length. The total miles of tracks, including spurs, sidings and yard track is 44, of which 5.5 miles were constructed in 1915.

The accommodation for the river and ferry steamers was largely increased by dredging and construction of quay.

Several river steamer berths were added to the number in use.

The site of the dry dock, consisting of 30 acres in area, was increased by an addition of 6 acres of right of way and road tracks. Protection work on the outer slopes was carried out to a total length of 3,000 feet of rip-rap.

During 1915 great activity prevailed in docking and repairing vessels, showing the importance of the dry dock. About 25 vessels were docked, examined, cleaned and repaired, from opening to closing of navigation in 1915.

Reconstruction of Jacques Cartier pier and Laurier pier opposite Maison-neuve formed part of the necessary engineering work; the material used in rebuilding consisted of cribwork and concrete.

During the year the new tug *David Seath* was added to the harbour fleet, a scow machinery for new derrick was added to the harbour construction plant.

The statement of receipts and disbursements for the year on Revenue account show an expenditure of \$1,436,533.85 and receipts of \$1,348,241.65.

The expenditure on Capital account was \$1,850,001.40, advances from Dominion Government and balances from 1914 \$1,955,081.69, receipts on Capital account \$1,955,081.69.

QUEBEC HARBOUR COMMISSION.

Work was carried on in constructing new dock frontage on the north face of the Louise Embankment, which, when completed, will accommodate vessels drawing 35 feet of water, fireproof landing sheds, grain loading galleries, electric wharf cranes, and other modern appliances will be installed on this frontage which will be thoroughly up-to-date and complete in every respect.

On the river St. Charles front six foundation blocks for the bulkhead wall were sunk and filled ready for superstructure—total length 1,162 feet. Total length of substructure of this wall now completed is 2,843 feet, of superstructure

SESSIONAL PAPER No. 21

2,387 feet. Some 969,728 cubic yards of dredging filling have been deposited between the old and the new north walls of the Louise embankment, bringing this portion up to the general level.

At Indian cove substructure blocks for the bulkhead wall have been completed for a length of 1,010 feet.

A set of ways has been laid down on the beach to the west of Long wharf to facilitate painting and repairing of Commissioner's dump and deck scows, and a pipe line connected with the mill pump for fire protection. From the Victoria cove quarry 63,000 cubic yards of stone were taken during the season for bulkhead walls.

Electric lights have been installed on the floating grain elevator, and an elevator to handle salvage grain in connection with the drier house.

Twenty "Western" dump cars and one spreader have been added to the commissioners' plant.

A railway line has been built along the west dock front from the cross-wall to the marine tower of elevator No. 2, and 4 railway lines serving the Q.H.C. elevator No. 2 have been connected with the embankment railway system.

The total expenditure amounted to \$263,514.76 and the receipts on Revenue account to \$251,872.77, leaving a deficit in the year's operations of \$11,641.99.

On June 8 the Duke of Connaught visited the docks and on July 19 the Lieutenant-Governor of Quebec made a tour of the harbour and paid a visit to the harbour commissioners' offices.

The first vessel to leave harbour was the C.G.S. *Druid* on March 23rd to place buoys below Quebec, and the last on the 16th December, the ss. *Lady of Gaspé*, bound for Halifax.

The harbour and river were open for general navigation by the middle of April.

TORONTO HARBOUR COMMISSION.

Toronto harbour, York county, Ontario, is situated on the north side of lake Ontario, about thirty miles from its western end.

The harbour is formed by a low sandy island on the south side. The ten foot contour from the centre of the island is about a half mile distant from the beach. A twenty foot contour is about $\frac{2}{10}$ of a mile. The water increases in depth from forty to fifty feet about one and a half miles in the lake opposite the centre of the island. On the western side of the island and part of the lake shore is Humber bay; on the eastern side of the island and on the lake shore is Scarboro beach.

There are two entrances to the harbour, the one called the Eastern channel and the other the Western channel. The Eastern channel is between two parallel piers constructed of concrete. The approach to this channel has been dredged to sixteen feet in depth with a splayed width of about 1,000 feet. The distance between the piers is 375 feet and the depth 16 feet at 245 feet above New York sea level. The eastern pier of this channel has a boat landing near the centre.

The new Western channel, also between concrete piers, is 400 feet between the piers and the depth of water is about 17 feet. The piers of this channel are, one on the south side 2,535 feet long and one on the north side 2,235 feet long.

There is also the old Western channel, north of the new channel, close to the city front and mariners are warned not to use this entrance before consulting the harbour master of this port.

The shore of the harbour is curved along the south of island side and straight on the northern or city front. The area of the harbour is six and a quarter square miles and the depths vary from 14 to 25 feet.

A channel has been dredged to the wharves at Hanlan's point for ferry boats, and small passenger boats ply between the city and the following: Ward's island, Centre island, Sick Children's hospital and Hanlan's point. A channel has been dredged 1,750 feet in length by 100 feet in width with a depth of water at the present time of 9 feet, and approaching the wharves at Hanlan's point the width is 250 feet for a distance of 500 feet. This channel is used by steamers plying between the city wharves and Hanlan's point.

The wharves at present used by shipping are located on the city side of the harbour. The face frontage of the wharves measures about one mile and the wharves are separated by slips of various widths. At the inner end of these wharves are 25 railway tracks with sidings leading to the various coal and warehouse wharves. The depth of water at the wharves varies from 14 to 22 feet. There is berthing room at some of the wharves for vessels from 300 to 400 feet in length. There are four wharves where coal for Toronto is discharged and stored in large sheds, but the principal coal for Toronto is supplied by rail.

The storehouses on the wharves of Toronto at the present time are the Canada Steamship Co. storehouse with a capacity of 4,000 tons; the two sheds of the Harbour Commissioners, Harbour Square dock, with a capacity of 4,500 tons each; the three sheds on the Harbour Commissioners dock with a capacity of 3,000 tons and the Canada Steamship shed with a capacity of 2,000 tons. There are cold stores having a capacity of about 500,000 cubic feet.

The quantity of coal imported into Toronto harbour by vessel is as follows:

Anthracite.....	109,072 tons.
Bituminous coal and screenings.....	37,468 "

The quantity of coal imported into Toronto by rail and vessel is as follows:

Anthracite.....	842,111 tons.
Bituminous coal and screenings.....	974,984 "

1,817,095

The number of vessels arriving at this port for the year was 2,508.

Total tonnage entering this port for the year was 2,682,893.

Total number of vessels wintering at Toronto Harbour including Tugs, Propellers, Ferries and Passenger Steamers was 108.

LIGHTS: The lights and fog alarms under control of the Department of Marine and Fisheries on Toronto island on the lake shore are as follows:

SESSIONAL PAPER No. 21

One on Gibraltar point, S.E. side of Point $1\frac{3}{4}$ miles south of Toronto, latitude N. 43-37-0, longitude W. 79-22-55, white revolving.

One at east entrance, outer tower, 100 feet from outer end of east pier, latitude N. 43-37-48, longitude W. 79-20-20, red occulting. Inner tower on inner end of east pier 2,400 feet and 320 degrees from outer light.

Diaphone fog alarm on beach just east of pier, 1,630 feet inside of outer light. Fog bell on platform on north side of inner lighthouse.

Lights on western entrance are:—One on south pier near its outer end, latitude N. 43-37-46, longitude W. 79-23-50 red fixed. One on south pier near its inner end, 2,423 feet, 55 degrees, 30, from front. Fog bell on roof of front lighthouse.

Steamboats of the different lines are piloted by the officers on board each steamer.

The total tonnage entered and departed during the fiscal year 1915, was 2,682,893 tons.

The Harbour Commissioners operate a public dock at the foot of Yonge street at which vessels may dock, the only charge being for the handling of freight through the freight sheds on the dock.

All vessels entering the harbour are subject to harbour dues on goods landed. These dues are very light, the schedule being as follows.—

Merchandise, etc., Government Stores and all unenumerated articles as per bill of lading 3 cents per ton of 2,000 lbs.

Coal.....	3	“	“	
Wood.....	3	“	“	cord.
Stone.....	5	“	“	toise.
Unwrought building stone.....	1	“	“	ton.
Ice.....	1	“	“	“
Moulding sand.....	1	“	“	“
Fruit and vegetables, baskets, 15 lbs. and under $\frac{1}{16}$		“	“	each.
Fruit and vegetables, baskets up to 30 lbs. $\frac{1}{8}$		“	“	
Fruit, crates and boxes over 30 lbs. and up to 55 lbs.....	$\frac{1}{4}$	“	“	
Fruit and vegetables over 55 lbs.....	$\frac{1}{2}$	“	“	
Fruit, bags all sizes.....	$\frac{1}{2}$	“	“	
Fruit, barrels, all sizes.....	$\frac{1}{2}$	“	“	
Fire and scoria brick.....	5	“	per 1,000.	
Common brick.....	3	“	“	
Shingles in bundles.....	1	“	“	
Laths and hoops.....	1	“	“	
Lumber, sawed or square.....	3	“	“	ft. b.m.
All grain and pulse.....	5	“	“	1,000 bu.
Sheep, pigs or calves.....	2	“	each, in carcass.	
“ “	1	“	“ alive.	
Carriages, carts, or sleighs, horses and horned cattle.....	10	“	each.	

LEGISLATION.

New legislation has been enacted as follows:—

An Act to amend the Canada Shipping Act.

Section four hundred and forty-two, four hundred and forty-three and four hundred and forty-four of the Canada Shipping Act, Revised Statutes of Canada, 1906, chapter one hundred and thirteen, with the heading immediately preceding section four hundred and forty-two, are repealed and the following sections and heading are substituted therefor:—

“442. The number of pilots for the pilotage district of Quebec shall not exceed one hundred and twenty-five.

“443. Whenever the period of apprenticeship of any apprentice under the Quebec Pilotage Authority has been interrupted by sickness, involuntary absence, or other legitimate cause, such apprentice subject to such regulations as may be made by the Pilotage Authority may be allowed to serve an additional period equal to the time lost by such interruption, and if found otherwise qualified and entitled to a license as a pilot he may be granted such license after he has completed a full period of service of seven years including the said additional period.”

Section six hundred and twenty-nine is amended by adding the following sub-section thereto:—

“2. Subject to such regulations as may be made by the Minister, this section shall not apply to any passenger ship not exceeding sixty-five feet registered length propelled by an internal combustion engine or by a steam engine with a flash boiler, or by electricity.”

The following section is inserted immediately after section six hundred and forty:—

“640A. The Minister may issue certificates authorizing persons found qualified by the Chairman of the Board of Steamboat Inspection to take charge of the machinery of vessels propelled by internal combustion engines or by steam engines with flash boilers or by electricity, and may prescribe by regulations a classification for such certificates, the qualifications necessary for obtaining the several classes respectively, the limits of the authority and power conferred by the several classes of certificates, and the fees payable for such certificates, and may also provide for the examination of those desiring to obtain certificates.”

“2. The provisions of section six hundred and twenty-eight should apply to the certificates granted under this section.”

SESSIONAL PAPER No. 21

An Act to Amend the Canada Shipping Act.

Section three of Chapter sixty-five of the Act of 1908 is repealed, and the following is substituted therefor:—

“(f) ‘Coasting Voyage’ means a voyage between any port or place in Canada and any other port or place in Canada or in Newfoundland, Labrador, or St. Pierre or Miquelon, or any port or place in the United States of America or Mexico or Central America or in the West Indies, or on the eastern coast of South America not further south than forty degrees south latitude; or on the coast of the territory of Alaska or of the western coast of South America not further south than forty degrees south latitude.”

An Act to amend the Vancouver Harbour Commissioners' Act.

Paragraph (t) of section nineteen of the Vancouver Harbour Commissioners' Act, chapter fifty-four of the Statutes of 1913, is repealed and the following is substituted therefor:—

“(t) The imposition of tolls, rates, fees and dues on vessels entering or lying within the harbour, other than pilotage dues, sick mariners' dues, and steamboat inspection fees.”

EXPENDITURE AND REVENUE.

The Parliamentary appropriation for the fiscal year 1915-16 was \$6,797,835.98, the total expenditure \$5,621,610.88, leaving an unexpended balance of \$1,176,225.10. The net revenue was \$461,456.83.

CORRESPONDENCE.

The total number of letters received during the fiscal year 1915-16 was 50,694 as against 51,832 in 1914-15 and 39,792 letters were sent as against 36,592 in 1914-15.

SEASON OF NAVIGATION.

The river St. Lawrence was clear of ice at the port of Montreal and buoys laid down for navigation to the sea on the 15th of April, ten days earlier than last season, and on the 20th of April the schooners *Honourable Hector Langevin* and *Grace Darling* put out to sea. On December 11th the steamship *Port Dalhousie* passed through Montreal harbour for Pictou, N.S., being the last outward bound vessel to leave the port. The fall was remarkably fine and open.

At the port of Quebec the harbour and river were open for general navigation by the middle of April and remained open until the 16th of December.

SESSIONAL PAPER No. 21

STEAMBOAT INSPECTION.

The report of the Chairman of the Board of Steamboat Inspection, in full detail, is published as a supplement to the Annual Report.

A. JOHNSTON,
Deputy Minister of Marine and Fisheries.

APPENDIX No. 1.

ANNUAL REPORT OF THE CHIEF ENGINEER OF THE
DEPARTMENT OF MARINE.

The Deputy Minister of Marine and Fisheries,
Ottawa.

SIR,—I have the honour to submit the following report of the work done in the several services under the supervision of this office during the twelve months ended March 31, 1916.

There have been no changes in the duties pertaining to this branch during the past year; they remain as enumerated in previous reports.

STAFF.

The following changes have been made in my office staff during the fiscal year: Miss Edith Mason was temporarily employed as a typist from the 2nd June, 1915, to 25th February, 1916, when she was transferred to the Naval Service Department. Mr. T. L. O'Hara's term of temporary employment expired on 25th June, 1915. Mr. Robert G. Airey was appointed to a third-class clerkship on 25th June, 1915.

The following members of my staff have been granted leave of absence for the purpose of joining the overseas Canadian forces:—

Mr. F. E. Calderon, draughtsman, private in the machine gun section of the 2nd Battalion, from the 17th August, 1914.

Mr. John Henderson, assistant engineer, private in the 7th Brigade, C.F. Artillery from the 31st July, 1915.

Mr. Paul L. Kuhring, draughtsman, to take the officers' training course at Kingston, from the 20th March, 1916.

Mr. A. C. Andresen, draughtsman, to take the officers' training course at Kingston, from the 27th March, 1916.

I am pleased with the way in which the staff has worked throughout the year.

OFFICE WORK.

The largest part of the work done by the general staff of the branch consists in the construction, repair, and improvement of light-buildings, fog-alarms, beacons, and other aids to navigation, the supply of new or improved illuminating apparatus, etc., the payment of expenditures for these services being made out of the vote of \$750,000 for construction of aids to navigation. Full details of the work done in this connection during the past year are contained in a separate report in tabular form attached hereto, which gives a complete statement of all expenditure charged to the vote in question. (Inclosure A.)

In addition to the work of this branch done under the above vote, the staff has been called upon to perform work of varied description for other branches of the department, and which may be summed up as follows:—

For the Meteorological Service Branch—Erection of storm signal masts at the following places: Scatari, N.S., Port Hope, Ont., and repairs to observatory at St. John, N.B. and to the time-ball frame at the citadel, Quebec.

SESSIONAL PAPER No. 21

For the Naval Department.—Repairs to boathouse and construction of new slipway at Blanche, N.S.

Except in a few instances where lighthouse and fog alarm stations are located at very remote and outlying places, the titles to all properties owned by this department have been completed.

In addition to this work, the titles to the sites of all public wharves under the maintenance and control of this department, numbering about 1,000, are being investigated and copies of all deeds and other documents affecting the same are being procured for our title records, so that eventually it is hoped to obtain a complete record of all these public lands.

During the past year, 321 deeds and other title documents have been added to our records, and in the prosecution of this work, 120 plans of survey, etc., have been made in this office.

In the case of all new properties acquired, expropriation plans and descriptions have been prepared and recorded in the county registry offices, in addition to the usual notarial deeds, as an extra precaution.

This branch has also undertaken to make a complete record of the limits of all public harbours established in Canada, and these limits are plotted on plans which are constantly being added to and will eventually comprise a set covering the shore-line of the whole of the Dominion. This work is now under way, and considerable progress has been made during the past year.

The work in connection with applications for water lots has continued heavy, as will be seen by reference to the draughting-room statistics.

Progress has been made in the establishment of headlines in some of the principal public harbours, based on joint action by this department and the Department of Public Works. It is hoped that such establishments will tend to the improvement both in appearance and convenience of the water-fronts affected. During the past year headlines have been established by Order in Council in the following harbours: Victoria, B.C. (partial amendment to established headline); Ford, Ont.; Toronto, Ont. (partial amendment to established headline); Halifax, N.S.; Pictou, N.S.

The following table indicates the work done in the draughting office during the twelve months ended March 31, 1916.—

Notices to Mariners issued (comprising 483 subjects).....	135	- 23

PUBLICATIONS.

The work of preparing and issuing notices to mariners continues to be heavy and urgent. During the past twelve months, 135 notices, covering 483 subjects, have been published.

Amongst miscellaneous notices to mariners the following may be especially noted:—

A large number, required for the publication of warnings or regulations necessitated by the European war, including the following:—

Halifax, N.S.—Alterations in traffic regulations; prohibited anchorage; closing of channel westward of George island;

Canada (generally).—Reporting of suspicious craft;

England.—Restriction of navigation in the approach to Portland and caution respecting the target practice; restriction of navigation in the river Dee, also later, withdrawal of restrictions; prohibited anchorage in East Swale entrance; boom defence in the Tyne; and traffic regulations and signals; examination anchorages in Sunderland harbour and river Humber;

Scotland.—Passage through Seapa Flow prohibited; special instructions with regard to traffic in the Firth of Clyde; alteration of Clyde examination anchorage; general traffic regulation of the Clyde; Stornoway harbour closed at night;

Ireland.—Special regulations respecting Queenstown traffic;

British ports and shipping generally.—Caution when approaching; distinguishing flag of King's Harbour Master at dockyard ports; requirements for signalling and signalling-lamps for British ships;

France—Adriatic Sea.—Traffic regulations for the Pas de Calais, and amendment of same later; declaration of blockade of Austrian and Albanian ports;

Russia, Asia Minor.—Regulations respecting the White sea; blockade of coast declared.

Improvements of channels by dredging, principally done by the Department of Public Works, were described at North Arm, Fraser river, B.C.; Newcastle, Ont.; South Ingonish, N.S.; Port Darlington, Ont.; Shippigan Gully, N.B.; Doucet Landing, Que.; Pitt river mouth, B.C.; Bongard wharf, bay of Quinte, Ont.; Little Detroit, Ont.; Lorembec harbour, N.S.; mouth of Kaministiquia river, Ont.; Fraser river, B.C.; Goderich, Ont.; Little Current, Ont.; Rocky point ferry, Charlottetown, P.E.I.; Murray bay, Que.; Port Arthur, Ont.; Batiscan, Que.; Bruce Mines, Ont.; Richards Landing, Ont.; Whycomagh, N.S.

Uncharted dangers were reported and described at Beware passage, B.C.; Elliot passage, B.C.; Drury inlet, B.C.; False Detour channel, Ont.; Key inlet, Ont.; Wells pass, B.C.; Middle bay, gulf of St. Lawrence, Que.; south of Great Mekattina island, Que.; Lockeport, N.S.; off Negro head, N.B.; off Cape Tatnam, Hudson bay; off Lyell island, Q.C.I., B.C.

Changes in buoyage, including the establishment of new buoys, in some cases involving the publication of a complete list of buoys, were recorded at

SESSIONAL PAPER No. 21

Toronto, Ont.; on wreck of *Christine* above St. Jean, Que., at foot of Ile aux Foins, Que.; Little Current, Ont. (3 notices); South Ingonish, N.S.; Shoal lake, Ont.; channels northwest of Grenadier island, and north of Howe island, Ont.; Thousand islands middle channel, Ont.; Chance harbour, N.B. Bathurst harbour entrance, N.B.; Rose bay, N.S.; Eskasoni, N.S.; Goderich, Ont.; Mabou, N.S.; light-draught channel north of Ile de Grace, Que.; Rocky point; Charlottetown, P.E.I.; Telegraph narrows, Ont.; Port Arthur, Ont.; Batiscan, Que.; Byng inlet, Ont.; Bruce Mines, Ont.; Ste. Ann, N.S.; Mary Ward ledges, Ont.; Port Arthur, Ont.; Restigouche river, Que.; Lockeport, N.S.; Shad bay, N.S.; Inhabitants bay, N.S.; Trenton, Ont.; Cassilis, N.B.; Maheux road examination anchorage, Que.; Pointe aux Anglais, Que.; St. Patrick channel, N.S..

Day beacons were described as erected at Shark spit, B.C.; North Arm, Fraser river, B.C.; Roberts island, Ont.; entrance channel to Petite Yamachiche river, Que.; Thousand islands middle channel, Ont.; Half-tide rock, Hecate passage, B.C.—Sister rocks and rock southward of Halkett island, Selkirk Water, B.C.; Dog rock, Sandy ledge and Simpson ledge, bay of Fundy, N.B.; Ste Emmelie, Que.; Gull island ledge, N.B.; Cyril rock, Texada island, B.C.; Clarke rock, B.C.; Hegan point and DeHorsey island, Skeena river, B.C.; Edgewood and Cariboo points, Columbia river, B.C.; Grandes Piles to La Tuque, St. Maurice river, Que.

The following wrecks were located and reported; *Christine* at St. Jean d'Orleans, Que.; derelicts in the north Atlantic, (two separate wrecks); Dall patch, B.C.

Hydrographic notes were published dealing with the following localities: Toronto, Ont.; Port Weller, Ont.; Masset harbour, B.C.; Nass bay, B.C.; Alice and Hastings arms, B.C.; Thousand islands middle channel, Ont.; Fraser river, B.C.; Milbank sound, B.C.; Beauport, Que.; light-draught channel north of Ile de Grace, Que.; Victoria time signal, B.C.

Mariners were cautioned against interference with the waterworks intake pipe at Port Arthur, Ont.; and against approach to the rifle ranges at Long Branch and Niagara, Ont.

Lights on the swing bridge of the C.P.R. over the Lachine canal, Que., and marking the Quebec bridge, Quebec, were described, and many miscellaneous items of maritime interest were included in the published notices.

During the past twelve months notices relating to waters outside of Canada were issued, covering eleven items relating to Newfoundland, three items relating to the Atlantic, fourteen to the inland, twenty-three to the Pacific waters of the United States, two items relating to the Panama canal, one item relating to Lower California, and two items relating to South America, as well as five notices relating to transatlantic, and one notice relating to transpacific subjects.

A new edition of the "List of Buoys, Beacons, and Day Marks" on the Pacific coast of the Dominion of Canada was prepared and published, thoroughly revised and corrected by the undersigned personally, to the first of June, 1915.

A first edition of a "List of Buoys, Beacons, and Day Marks" on the Ottawa river, prepared by the undersigned personally and corrected to the first of June, 1915, has been published.

The annual edition of the "List of Lights and Fog Signals" was prepared and published in three separate volumes, one for the Atlantic coast and the river St. Lawrence to the head of ocean navigation, one for the inland waters of Canada, and the third for the Pacific coast.

PERSONAL INSPECTION.

As in previous years both the chief engineer and the assistant chief engineer made frequent trips of inspection, especially of works under construction. The

assistant chief engineer gave particular attention on his visits to improving the organization and running of the workshops and depots at the several agency headquarters, particularly Prescott, Quebec, St. John, and Halifax.

The chief engineer accompanied the Deputy Minister to British Columbia on a trip extending from 23rd April to 28th May, 1915. They made a general inspection of aids to navigation on the Pacific coast, going out by Grand Trunk Pacific railway and paying special attention to the departmental depots of Prince Rupert and Victoria. Several days were spent in Vancouver learning conditions affecting the important harbours and harbour-development schemes on the Fraser river and Burrard inlet. The return trip was by way of Arrow lakes to Nelson, thence to Spokane and by the Chicago, Milwaukee and St. Paul railway to Sault Ste. Marie, whence the steamer *Simcoe* conveyed them across Georgian bay to Midland, lights and channels being inspected en route.

From August 10 to 20 the chief engineer accompanied the Minister on an inspection of aids to navigation in the gulf of St. Lawrence. Unfortunately the weather was unusually rough, making it impossible to land at several stations.

The chief engineer is impressed with the necessity of a more frequent and more thorough inspection by departmental officials of all the coasts of the Dominion, to deal not only with existing aids to navigation, but also with applications for new aids, and to investigate conditions affecting the handling of ships in the several harbours.

LIGHTING OF HUDSON BAY ROUTE.

In pursuance of the policy inaugurated last year of establishing aids to navigation to assist the Department of Railways and Canals in communicating with Port Nelson, the C.G.S. *Minto* was despatched as early as possible after the opening of navigation in 1915 in Hudson bay and strait, to place in operation the unwatched gas lights erected in 1914.

The beacons in the strait were found in good condition, were overhauled and were all in operation by 23rd August.

A wooden tower to carry an Aga gas beacon was erected on Nelson shoal on the west coast of Hudson bay by the Department of Railways and Canals for this department, and the light was established on it on 5th August, 1915, by a departmental foreman.

The unwatched beacon at Tatnam, near Port Nelson, was inspected and recharged by 15th August.

A steel skeleton unlighted day beacon was supplied by the department for erection at Marsh point, near Port Nelson, to replace a wooden beacon originally erected by the Hudson's Bay Company, which had blown down. The Hudson's Bay Company has undertaken to erect the steel beacon, the department providing the materials, but the work has not yet been completed.

The total expenditure in connection with the maintenance, supply, and erection of aids to navigation in Hudson bay and strait during the last fiscal year was \$9,006.06.

DEPARTMENTAL DEPOTS.

At the Victoria, B.C., depot, the location and grade at Johnston street having been settled, the department was able to prepare plans for the improvement of the property. During the coming fiscal year, all necessary sheds and equipment will be supplied, and the depot will be fully used.

The St. John wharf has been completed and is now in use by the department. A buoy shed has been erected, a derrick installed, and the erection of additional buildings is contemplated during the coming season.

SESSIONAL PAPER No. 21

The work of improvements at the Dartmouth depot, referred to in last year's report, has been practically completed.

The Prescott depot has been operated as usual during the past fiscal year, but the work has been less extensive than formerly owing to the curtailing of construction. Good success has been reached in the manufacture of reflectors, and small light-house clocks, and the vapour burner in use in the service has been standardized and materially improved. Goods amounting to \$129,807 have been transferred out of the stores. The general up-keep of the Prescott depot is estimated at approximately \$60,000 per year, of which about two-thirds is covered by the earnings of the depot, the other third being considered a fair charge for the maintenance of a buoy and supply depot, a yard, and in fact a sub-agency of the department. During the past fiscal year the actual cost of operation was \$56,604, and the actual earnings slightly under \$30,000, making the net cost of up-keep about \$27,000, or about \$7,000 more than estimated. This is due to the comparatively small amount of work done owing to war conditions.

REMOVAL OF OBSTRUCTIONS.

During the past twelve months the following work has been done under the annual appropriation for the removal of wrecks and obstructions to navigation:—

Belliveau cove, N.S.	Wreck <i>Maria Pearson</i> removed under contract by F. J. Belliveau.	\$ 49 00
Chenal Ecarte, Ont.	The hulk of the <i>Maine</i> removed by day labour.	241 08
Sydney Mines, N.S.	The schooner <i>Jennie B. Hodgson</i> capsized and sank near Sydney Mines, N.S. The masts, which were an obstruction to navigation, were removed by J. Salter and Son.
Summerside, P.E.I.	A number of waterlogged and submerged logs in the harbour were removed by C. G. S. Brant.
St. Clair river, Ont.	The str. <i>Tampa</i> , wrecked in St. Clair river subsequently removed by the Reid Wrecking Co.
Chenal Ecarte, Ont.	The barge <i>Belknap</i> owned by W. H. Biden, which was wrecked at Johnson's bend, Chenal Ecarte, near Wallaceburg, Ont., was removed by the owner.
A number of small expenditures such as buoying wrecks, advertising and incidental expenses were incurred.		818 69
Total amount expended this year under this vote.		\$ 1,108 77

MAINTENANCE AND REPAIRS TO WHARVES.

Wharves owned by the Government are usually built by the Department of Public Works of Canada, and on completion come under this department for maintenance (see R.S.C. cap. 112 and amending Acts). We have had formally transferred to our control 388 public wharves, but there are probably twice that number, of the completion of which we have not been officially notified, and where wharfingers have not yet been appointed.

This branch attends to minor repairs. Large repairs are undertaken by the Department of Public Works. During the past year, \$8,241.21 has been expended in repairs to wharves. The following is a list by provinces of the amount expended:

	\$	cts.		\$	cts.
Nova Scotia.	270	25	Montreal District.	1,167	55
New Brunswick.	3,506	37	Ontario.	655	23
Prince Edward Island.	156	95	Quebec.	2,232	82
General acct.	249	14	British Columbia.	2	90

ICE-BREAKING.

1. A three-year contract with the Canadian Towing and Wrecking Company, Limited, of Port Arthur, to keep the harbours at the head of lake Superior open for navigation until the 17th December in each year, and to open them in the spring, as soon as the canal at Sault Ste. Marie is open for navigation, is still in force, and under this contract the harbours of Port Arthur, Fort William, and West Fort William were opened in the spring of 1915 in good time. Last autumn the open season continued very late, but some ice was broken as early as the 1st December. It was not found necessary to extend the operations of the ice-breaking fleet later than the 17th December. No complaints were received in the department with regard to the ice-breaking operations during the past season.

2. The contract with S. Shipman, of Sault Ste. Marie, Ont., to keep free from ice the channel between Kensington point, on the north shore of St. Joseph channel, and a convenient landing on St. Joseph island or Campement d'Ours island, was renewed for another year, the work beginning in the autumn of 1915 and continuing until the ice had formed to sufficient thickness to permit teams of horses to cross in safety. The work also included the breaking of a channel in the spring before the ice became dangerous, and keeping the channel free until general navigation was resumed. The cost for the year is \$500.

3. The usual contribution of \$300 was made towards keeping open the St. Croix river in the vicinity of St. Stephen. The annual cost of this work is in the neighbourhood of \$1,000 and the department of late years has contributed \$300 a year towards this, the remainder being made up locally.

TELEGRAPH OR TELEPHONE CONNECTIONS WITH LIGHTSTATIONS.

The list of lightstations and other aids to navigation connected by telephone or telegraph with the commercial and government trunk systems, which was printed last year in very incomplete condition, has been revised and completed, and is now reproduced, as enclosure B, appended to this report.

The policy of the department has been to restrict telephonic connections to stations of prime importance, where shipping interests would be benefited by the prompt transmission of ships' movements, or where shipwreck attended by danger to life was to be apprehended, and where early notice of a disaster might bring aid more promptly.

In preparing the list it has been found that a great many lightstations not included in it are in close proximity to commercial telephone or telegraph stations, and it may be stated in general terms that there remain few portions of the coast line of Canada that are not within easy access to telegraph or telephone establishments, either of commercial companies or of the government system, the latter being chiefly restricted to districts that would not be commercially profitable.

Respectfully submitted,

WM. P. ANDERSON, M. INST. C.E.

Chief Engineer.

CHIEF ENGINEER'S OFFICE,
DEPARTMENT OF MARINE,
OTTAWA, April 1, 1916.

SESSIONAL PAPER No. 21

INCLOSURE "A".—Detailed report of the chief engineer of the Department of Marine on construction, establishment and improvement of lighthouses and other aids to navigation, up to March 31, 1916.

To the Deputy Minister,
Department of Marine,
Ottawa.

SIR,—I have the honour to submit detailed a report on work done in the construction and establishment of aids to navigation, for the twelve months ending March 31, 1916.

This statement is put in tabular form, and includes every item of expenditure incurred during the year against the vote of seven hundred and fifty thousand dollars for construction, etc., but no work done chargeable to other votes.

SESSIONAL PAPER No. 21

APPENDIX No. 2.

REPORT OF THE COMMISSIONER OF LIGHTS.

To the Deputy Minister of Marine and Fisheries,
Ottawa.

SIR,—I have the honour to submit the thirteenth annual report of this branch. The principal work performed has been an extension of the buoy and beacon services, together with the maintenance of lights and other aids to navigation throughout the Dominion, and the maintenance and inspection of public wharves under the control of the Department of Marine and Fisheries. The operations of this branch are set forth in tabular form in the following two inclosures, namely:—

Inclosure No. 1.—Statement, by districts, showing the number of lights of the several orders, gas beacons, lightships, lightboats, lightkeepers, fog signals, gas and signal buoys, submarine bells, lighted spar buoys, floats and dolphins, unlighted buoys, stakes, bushes, dolphins, spindles and beacons during the fiscal year ended 31st March, 1916.

Inclosure No. 2.—Statement, by localities, giving the number of unlighted buoys, stakes, bushes, dolphins, spindles and beacons maintained during the fiscal year ended 31st March, 1916.

In former reports it had been my habit to add further inclosures showing the names of lightstations and lightkeepers; a complete list of stations at which gas buoys were maintained; new establishments of gas and signal buoys; withdrawals; and statement giving complete list of stations at which submarine bells were maintained. As this information is already contained in other government publications, it is not repeated here.

In conclusion, I desire to express and record my appreciation of the able assistance rendered by my staff, and the untiring application to duty exhibited by each member. It would not have been possible to carry out the large and increasing amount of work which devolves upon this branch without the co-operation of all the officers connected with it.

I have the honour to be, sir,

Your obedient servant,

J. G. MACPHAIL,

Commissioner.

Office of the Commissioner of Lights,
Department of Marine and Fisheries,
Ottawa, 31st March, 1916.

7 GEORGE V, A. 1917

INCLOSURE No. 1.—Statement, by districts, showing the number of lights of the several orders, lightships, lightboats, lightkeepers, fog-signals, buoys, submarine bells, etc.

SESSIONAL PAPER No. 21

APPENDIX No. 3.

River St. Lawrence Ship Channel.

REPORT OF SUPERINTENDENT.

OTTAWA, July 27, 1916.

The Deputy Minister of Marine,
Ottawa, Ont.

SIR,—I have the honour to present the following annual report on the operations for the improvements of the river St. Lawrence ship channel and Signal service, during the fiscal year ending March 31, 1916, also on the ice-breaking operations during the winter of 1915-16.

I have the honour to be, sir,

Yours obediently,

V. W. FORNERET, B.A.Sc.,

Superintending Engineer.

HISTORY OF THE RIVER ST. LAWRENCE SHIP CHANNEL.

MONTREAL TO QUEBEC.

The St. Lawrence, owing to its situation, is the natural route from the Atlantic to the northern and northwestern half of the North American continent. The possibility of converting Montreal into a deep-water seaport was first suggested in the year 1825, when the Lachine canal was completed and connected Montreal with the Great Lakes, establishing the route commercially.

Light-draught sailing vessels could then reach Montreal without trouble except during a few weeks in the autumn, when they resorted to lightering. Surveys were made with the object of increasing the depth of water in the waterway. After these were completed, the question, of which channel to adopt through lake St. Peter was hotly discussed, some favouring the "natural" or old ship channel, and others the "straight channel" through the St. Francis bank. Finally it was decided to proceed with the work of deepening the "straight channel," the aim being to obtain a channel 150 feet in width and to a depth of 14 feet at the lowest water, instead of only 10 feet 6 inches at lowest water, as existed in the old ship channel which governed the available depth for navigation between Quebec and Montreal.

The "Board of Works" of Canada were entrusted with the task and began operations in the spring of 1844, and continued till the month of June, 1846, when the work was suspended; the management was changed, and the execution of the work transferred from the Board of Works to the control of the Commissioners of Public Works. The dredging was again resumed in the month of September of the same year. Owing to continued opposition, the work of cutting the "straight channel" was finally suspended on the 16th of September, 1847, and subsequently abandoned. After sixty years, it is now considered that

the "straight channel" as commenced, would have been preferable. Nothing more was done on lake St. Peter by the Commissioners of Public Works for three years. The Harbour Commissioners of Montreal then came forward and offered to complete the project expeditiously and economically. The proposal was accepted and an Act was passed in August, 1850, transferring the work of improving the ship channel from the Commissioners of Public Works to the Harbour Commissioners of Montreal, who were empowered to charge a tonnage duty sufficient to pay 8 per cent interest upon the outlay with a 2 per cent contribution to the sinking fund.

16-foot Channel.—The Harbour Commissioners, after examination and the best advice obtainable, adopted the present channel with five tangents instead of two long straight courses, as at first commenced in the "straight channel". Operations were begun in June, 1851, to dredge this channel to 16 feet at low water. Most of the dredging required to attain this depth was in lake St. Peter, but some small shoals had to be removed at Ile Delorier and Lavaltrie channel, and after steady work it was all completed in 1854 to a depth of 16½ feet at low water, and with a width of from 250 to 300 feet.

20-foot Channel.—The work of deepening the channel to attain a depth of 20 feet at low water with a width of 300 feet was continued by the Harbour Commissioners and accomplished in November, 1865. Dredging was necessary at Pointe-aux-Trembles (en haut) channel and lake St. Peter to obtain this depth. Several obstructions had also to be removed in order to maintain a more direct channel between Cap St. Michel and Lavaltrie, and in Lavaltrie channel. The "south" or Verchères channel had been selected for improvement instead of the old channel or "north channel" by way of Repentigny and St. Sulpice.

The operations of 1866-9 were of limited extent, and consisted chiefly in cleaning up and improving the 20-foot channel which was obtained in 1865.

The completion of the 20-foot channel marked an important era in the history of the St. Lawrence route. The success of the work simply demonstrated that the St. Lawrence could be made available up to Montreal for navigation by the largest class of ocean merchant ships, and the extraordinary increase of Canadian commerce that attended the improvement of the channel showed how imperatively it was demanded by the trade of Canada. No sooner was the new channel fairly in use than the rapid increase of ocean traffic suggested a further deepening, and a vigorous agitation was commenced for a 24-foot channel at low water.

25-foot Channel.—It was then resolved to deepen the channel to 25 feet, which was accomplished in the fall of 1882. A new channel on the south side of the river, opposite Contrecoeur and parallel to the Lavaltrie channel was adopted for this channel, as it was wide and deep and required very little dredging. It was called the Contrecoeur channel. This gave a clear depth of 25 feet at low water at all points above Cap à la Roche, but at that point and Cap Charles an average tide was necessary to pass with the full depth available elsewhere. In the straight parts of the channel the minimum width was 300 feet and at the bends 325 to 450 feet.

27½-foot Channel.—Owing to the growth of trade, it was seen that still further improvement of the channel was required, and the Harbour Commissioners of Montreal obtained permission, by an Order in Council passed the 14th of June, 1883, to proceed with a further deepening to 27½ feet at low water. The work was vigorously pushed forward, and by 1888 the channel was completed to this depth from Montreal to Cap à la Roche, a distance of 107½ miles, from which point to Quebec the tide was necessary to obtain that depth. The channel was 300 feet wide in the straight portions, and 450 feet at the bends.

SESSIONAL PAPER No. 21

At this juncture the Federal Government, realizing that the tonnage charges upon the ship channel were detrimental to the mercantile expansion of Montreal, passed an Act in 1888, making the ship channel a national and not a local work, and relieved the Harbour Commissioners of their indebtedness with respect to the ship channel, and transferred the work, plant, etc., to the Department of Public Works.

The tonnage dues were abolished accordingly, so that, since the work came under federal control, the river St. Lawrence ship channel has been free to the commerce of the world.

The Harbour Commissioners carried on the operations for the Department of Public Works till the end of the season of 1888, when the official connection of the commissioners with the ship channel ceased, after having continued for over thirty-eight years.

In January, 1889, the control and management of the work was assumed by the Department of Public Works. During the winter, extensive repairs were made to the dredging plant, which, on the opening of navigation, was set to work at Cap à la Roche, Poullier Rayer, and Cap Charles in deepening the channel at those points to $27\frac{1}{2}$ feet at low water, spring tides.

From this date to 1898, the Department of Public Works continued operations, and completed the difficult rock work at Cap à la Roche and Cap Charles to $27\frac{1}{2}$ feet at low water. In addition, many portions of the channel were cleaned up, straightened, and several curves and narrow places widened. Surveys were made and channels were dredged through several shoals between cap Charles and Quebec to avoid the necessity of waiting for the tide.

30-foot Channel.—The unusually low water of 1895 and 1897, and the increased size of vessels, urgently called for a wider and deeper channel, and larger and more powerful dredges and plant were required.

In 1899 the dredging plant was in a condition to warrant a more extensive plan of operations.

The low water of 1897, the lowest on record, except the short period of unusually low water of 1895, was adopted as the new datum for the 30-foot channel, and is nearly $1\frac{1}{2}$ to 2 feet lower than the ordinary low water plane of the $27\frac{1}{2}$ -foot channel. The object, therefore, was to realize in the shortest possible time, a channel 450 feet wide on the tangents and from 500 to 750 feet wide at the curves. An anchorage 800 feet wide was also to be provided at White Buoy curve in lake St. Peter. The work also included much straightening of the channel.

The ship channel continued under the control of the Department of Public Works until 1904, when an Order in Council was passed on March 11, transferring the management and control of the river St. Lawrence ship channel, together with the dredging and shipbuilding plant to the Department of Marine and Fisheries, so as to place the supervision of the improvements to navigation on the St. Lawrence route under the department directly responsible for the pilotage and aids to navigation.

Under this department, the work was vigorously continued, so that the season of 1907 saw the completion of the channel from Montreal to Batiscan to 30 feet depth at the extreme low water of 1897, a distance of 101 miles. From that point to Quebec, the tide could be used to obtain the same depth. There still remained, however, some widening in lake St. Peter. By the end of the season of 1910, the dredging was all completed to 30 feet to the head of Cap à la Roche curve, 6 miles below Batiscan, including all the widening between Montreal and that point. The completion of this work allowed more dredges to be placed in the Cap à la Roche district, where the dredging operations are the most difficult, the current being strong and the material to be removed mostly hard shale rock.

The dredging operations were then carried on with renewed energy and, considering the difficulty of working in this locality, good progress has been made, so that, at the close of the season of 1914, only about half a mile of deepening in the Cap à la Roche district was required, to give a depth of 30 feet at extreme low water. This is $4\frac{1}{2}$ feet greater depth than in the $27\frac{1}{2}$ -foot channel, as the low water plane adopted for the 30-foot project here is 2 feet lower than that of the $27\frac{1}{2}$ -foot channel. The widening is nearly completed.

The Cap à la Roche channel was widened from 300 feet to 450 and 550 feet, and the Cap Charles channel from 300 feet to 450 feet with 600 feet at the curve, and completed last season.

Grondines channel was also completed last season to a depth of 30 feet, with a width of 450 feet.

Both the Cap Charles and Grondines channels were opened for navigation during the season of 1915.

The only place that now requires dredging to obtain 30 feet between Cap à la Roche and Quebec, is at St. Augustin bar, 14 miles above the latter place. Advantage must still be taken of the tide, by deep-draught vessels, to pass this place. The range of tide being $16\frac{1}{2}$ at springs and 11 at neaps.

35-foot Channel.—In 1910 the question of further deepening was considered because the rapid increase in the size of vessels was likely to find the 30-foot channel too shallow. The Government therefore resolved to proceed immediately with the deepening of the ship channel to 35 feet at extreme low water of 1897, and in 1910 work started in lake St. Peter. Owing to the undulating character of the river-bed, dredging is not required throughout the whole length of the channel between Montreal and Quebec, as at some points the natural depth is more than sufficient to secure 35 feet at extreme low water.

Out of a total distance of 160 miles, 82.24 miles will require dredging. This work is now in active progress, and at the end of the season of 1915, 28.62 miles had been dredged to 35 feet, leaving 53.62 miles unfinished.

SHIP CHANNEL BELOW QUEBEC.

In the spring of 1901 the shipping interests of Montreal brought to the attention of the Honourable the Minister of Public Works, the fact that deep-draught vessels had to wait for the tide to pass St. Thomas and Crane Island shoals, which caused these vessels to lose a great deal of valuable time. The officers of the Marine and Fisheries Department at Quebec, who had an intimate knowledge of this part of the river, strongly recommended improving the north channel, commencing below the island of Orleans, as being much better, more easily navigated, and having less ice in winter than the south channel. Orders were given to the Ship Channel staff which was then under the Department of Public Works to make a survey and examination of the north channel with a view to reporting on the practicability and cost of improving that route and adopting it for navigation.

In 1902, a similar survey was made of the south channel, to ascertain what improvements would be required to make a 30-foot channel on the line of the existing route.

A comprehensive report was made on February 24, 1903, by Mr. F. W. Cowie, C.E., who was then superintending engineer to the acting chief engineer of the Public Works Department, on the question of the proposed improvements below Quebec.

The report did not recommend the adoption of either route, but advised that the choice should meet with the approval of the underwriters, the shipping interests, and the pilots.

SESSIONAL PAPER No. 21

The Transportation Commission visited the locality, going over each channel and taking evidence on the subject. It was finally decided to improve the south channel by dredging it to 30 feet at extreme low tide, and to a width of 1,000 feet.

The parliamentary appropriation, to enable the commencement of improving the south channel below Quebec, became available only late in the autumn of 1905. The ship channel dredging operations had been transferred to the Department of Marine and Fisheries in 1904. Arrangements were made to have a powerful steel twin-screw hopper hydraulic dredge, constructed at the government shipyard at Sorel. It was estimated that it would take a year and a half to build and equip this powerful machine, which was carefully designed for that special work.

In March, 1906, the Department of Marine and Fisheries received very strong representations that these improvements could not be delayed, and that to wait till 1907 to make a commencement would seriously menace the proposed plans for a largely improved steamship service. The nature of the work below Quebec, the exposed position, want of shelter, etc., made the ordinary American type of dredge out of the question.

The self-propelling sea-going hopper type, as almost altogether used in Great Britain being required, inquiries were made from the dredge builders in Great Britain and ship agents for a dredge immediately available, suitable for this work.

The builders had none on hand, and the only suitable ones offered were in Australia and South Africa. Messrs. Ferguson Bros., one of the largest firms building dredging and harbour plant, wrote, stating that there was not a hopper dredger of the capacity mentioned to be bought in England. Messrs. Simons & Co., also large and successful dredge builders, wrote that all their large dredges were fully employed, and that they did not think there was a possibility at that time of procuring a second-hand hopper dredger, either hydraulic or bucket ladder type.

A Dutch pump dredge, at New Orleans, was offered by Messrs. H. E. Moss & Co., of Liverpool, England, for £34,000. The price being very reasonable, on authority of Council the Minister ordered an examination with a view to purchase. The only objection to this dredge was that it had no cutter and therefore was not suitable for dredging anything but sand or soft silt. After examination it was decided to purchase it, as Messrs. Moss & Co. had reduced their offer to £30,000.

The dredge was purchased on April 20, 1906, at that price, or \$146,000, with interest to date of payment. The vessel was docked and made ready for the long voyage, and all expenses of repairs, wages, provisions, stores, etc., until the dredge reached Quebec, amounted to \$10,942.14 and \$4,574.17 insurance.

The dredge *Galveston* arrived at Quebec from New Orleans under her own steam, having been twenty-nine days on the voyage. She continued up to Sorel to be thoroughly overhauled and fitted out, additional quarters for the crew being also provided.

South Channel (30 feet at E.L.W.)—The Government having decided to first improve the south channel, preparations were made to start the work. The project had in view a channel 30 feet in depth, at extreme low tide at Beaujeu bank and St. Thomas' flats, with a width of 1,000 feet.

The changes and improvements on the dredge *Galveston* being completed, she left Sorel for Beaujeu bank, off Crane island, on August 11, 1906, and began operations on August 13. The material consisted of coarse sand and gravel, with some layers of soft blue clay. The new hopper hydraulic dredge *Beaujeu* was launched at the government shipyard at Sorel on December 2, 1906, and completed on November 1, 1907. She was then taken down to commence opera-

7 GEORGE V, A. 1917

tions on the channel through St. Thomas flats, the material to be dredged being soft clay, sand, and some stones.

With these two powerful dredges, good progress was made with the work. The Beaujeu Bank channel was completed in 1909 to 30 feet at extreme low tide, and the widening finished in 1910. The channel was then opened to navigation.

The St. Thomas channel was completed to a depth of 30 feet at extreme low tide and to a width of 1,000 feet during the season of 1912. The channel was then marked out with gas buoys and opened to navigation. This was considered a great improvement as deep-draught vessels were not obliged to anchor to wait for the tide to pass Beaujeu bank or St. Thomas flats, thereby saving much valuable time.

North Channel (35 feet at E.L.T.)—The south channel being now completed the powerful hydraulic dredge *No. 8 (Beaujeu)* was enabled to be placed at work on the north channel where dredge *No. 9 (Galveston)* had already been operating for a season, as the Government had decided to dredge the north channel between St. Jean, island of Orleans, and Goose cape, to a depth of 35 feet at extreme low tide, and to a width of 1,000 feet.

The two powerful sea-going hydraulic dredges *No. 8* and *No. 9* have since then been at work in that channel, the material to be dredged being sand and gravel.

Although these two dredges have made good progress, there still remains 6,928,805 cubic yards to be removed.

 Owing to requests made by the shipping interests to complete the channel as soon as possible, the Government gave a contract in October, 1914, to the Canadian Vickers, Ltd., of Montreal, to build one of the largest sea-going elevator dredges in the world. It is expected to have this dredge completed by September, 1916. With this addition to the dredging fleet below Quebec, the completion of the north channel will be greatly expedited.

BETWEEN MONTREAL AND FATHER POINT—ACCIDENTS DURING SEASON 1915.

MONTREAL TO QUEBEC.

Steamer Quebec—July 6. Canadian Lévis steamer *Quebec* was stranded 5 miles above Three Rivers. Gale drove vessel ashore on south side. Got off with no damage of any consequence.

SS. Rosemount.—July 9. Montreal transportation steamer *Rosemount* was stranded on the south shore about 2 miles above Richelieu rapids; ship apparently caught by current and carried to this position; got off with not much damage.

Steamer Prefontaine.—August 3. Steamer *Prefontaine* stranded about 1,000 feet from shore opposite the Jacques Cartier river; foggy weather; got off with only one propeller broken.

SS. Keyvive.—August 5. The Keystone Transportation Company's steamer *Keyvive* was stranded at about one and a half miles below Champlain, Que., but got off with slight damage.

C.G.S. De Lévis and M.H.C. steamer Sir Hugh Allan.—August 21. The Canadian Government steamer *De Lévis* and the Montreal Harbour Commissioners' steamer *Sir Hugh Allan* collided just above Champlain river, outside the ship channel on the north bank, with no damage to the *Sir Hugh Allan*, but the *De Lévis* was sunk; no lives lost. Collision due to default of master of each vessel to carry out article 28 of the Rules of the Road. The *De Lévis* was raised, repaired, and placed into commission again.

SESSIONAL PAPER No. 21

SS. Cascapedia.—September 15. The Quebec Steamship Company's steamer *Cascapedia* was stranded on south bank at head of lake St. Peter during dense fog; came off without any damage.

SS. Indore.—September 22. The steamer *Indore*, outward bound, when coming to anchor at the anchorage ground below Pointe Citrouille, grounded slightly on the south bank, but came off without assistance or damage.

SS. Lady of Gaspé.—October 13. The steamer *Lady of Gaspé*, owned by the Gaspé Steamship Company stranded at about one-third or half a mile east of the Quebec bridge, on the north shore of the river St. Lawrence, during fog. Bottom was damaged. Stranding was due to lack of prudence and to bad navigation on part of master.

SS. Harmatris.—November 6. The steamer *Harmatris*, loaded with supplies for the British Government, outward bound, went ashore at the upper end of Cap à la Roche channel, on the south side. The steamer came off at high tide with the assistance of a tug, slightly damaged. Accident caused by steering gear not working properly.

SS. Saint Cecilia.—November 13. The steamer *Saint Cecilia*, loaded with supplies for the British Government, outward bound, went ashore in Montreal harbour, opposite Vickers floating dock, on south side of channel. After unloading part of cargo the steamer was pulled off undamaged next day. The accident was due to the steering gear not working properly.

Most of the accidents mentioned above are of a minor nature, and none can be attributed to any fault of the ship channel.

QUEBEC TO FATHER POINT.

SS. Christine and *H.I.*.—May 18. The examination steamer *Christine* collided with the *H.I.*, bound for Montreal, resulting in the sinking of the former vessel, and the loss of six members of her crew and one signalman on board, at 7.55 p.m. at a place about half-a-mile west of the St. Jean wharf, island of Orleans. The *H.I.* was only slightly damaged. The finding of the wreck Commissioners' court was that the captain of the *Christine* was chiefly to be blamed for the accident.

SS. Strathcona.—May 29. The steam barge *Strathcona*, of the Canada Steamship Lines, stranded at White island. Got off with slight damage, and proceeded to unload part of her cargo at Riviere-du-Loup.

SS. Haddington.—June 4. The Canadian Steamship Lines' steamer *Haddington* went aground on the Eastern reef of Red island. Came off at flood tide, with partial damage to her bottom. Accident was due to the sailing master in charge not exercising proper seamanship and good judgment.

SS. Henry B. Hall.—June 10. The steam barge *Henry B. Hall* stranded one-and-a-half miles southeast of the Stone Pillars light. Smoky weather. Came off without any damage. The accident was due to carelessness and neglect on the part of the pilot.

Barge A.D..—June 23. The barge *A.D.* became water-logged in a heavy sea at Crane island owing to steam pumps getting out of order, and the hand pumps being unable to keep her afloat. The heavy gale raging at the time caused her to founder.

SS. Romney.—June 24. The steamer *Romney*, inward bound, went aground on Green island reef; was floated the same day at high water and pro-

7 GEORGE V, A. 1917

ceeded up to Quebec. Her bottom was damaged. The accident was due to lack of attention to duty on part of pilot, who mistook Green Island light for Red Island light.

Steamer Tadoussac.—June 28. The Canadian Steamship Lines' steamer *Tadoussac* was stranded near Ste. Irenée wharf during fog. Was got off with small damage.

SS. Bengore Head and *ss. Batiscan*.—August 1. The steamer *Batiscan*, inward bound, and steamer *Bengore Head*, outward bound, collided off cape Salmon during fog. The *Bengore Head* had to be beached on Hare Island reef. The *Batiscan* also received damage, but was able to proceed on her way up. The finding of the Wreck Commissioner's court was that the *ss. Batiscan* was entirely to blame for the accident.

SS. Romera.—August 15. The steamer *Romera*, owned by the Glasgow United Shipping Company touched bottom on shoal on the north shore between cape Dogs and cape Salmon during fog. Small damage. The finding of the Wreck Commissioner's court was that the pilot was to blame for the accident.

SS. Pretorian and *ss. Kansan*.—September 15. The steamship *Pretorian* of the Allan Line collided with the steamship *Kansan*, inward bound, of the American Hawaiian Steamship Company, whilst former was at anchor at a place about a mile east of the White Island lightship during thick fog. Both steamers received some damage. The finding of the Wreck Commissioner's court was that the accident was due to lack of prudence and bad navigation on the part of the pilot.

Barque Sosteen.—September 26. The Danish barque *Sosteen* was stranded on the north side of Barnaby island about one mile from west end, the anchor cable having parted and the ship drifted ashore. Received considerable damage.

None of the above accidents which occurred between Quebec and Father Point can be attributed to the ship channel.

MARINE SIGNAL SERVICE.

Signal stations have been established for the purpose of maintaining communication between ship and shore by means of flag signals.

This system of stations extends from St. John, N.B., Halifax, N.S., Cape Race, Nfld., and Bell Isle up the gulf and river St. Lawrence and through the Great Lakes to Sault Ste. Marie, Ont.

Following is a complete list of stations:—

EAST OF QUEBEC.

Name of Station.	Location.	Nautical Miles from	Means of Communication.
Quebec.....	Custom House.....	0	Telephone.
St. Jean d'Orleans.....	Shore end of wharf.....	14	"
Crane Island.....	Lighthouse.....	32	"
L'Islet.....	100 yards east of church.....	40	Telegraph.
Cape Salmon.....	Lighthouse.....	81	Telephone and Telegraph

7 GEORGE V, A. 1917

Stations marked thus "R" are reporting stations only and are not equipped for signalling purposes. Station marked "X" closed during the period of the war.

BRIEF SUMMARY OF WORK PERFORMED.

1. Stations report movements of vessels to Montreal, Quebec, Sydney, Halifax, or St. John.

2. Stations report weather conditions daily to Montreal, Quebec, Sydney, Halifax, or St. John.

3. Montreal, Quebec, and St. John publish daily bulletins giving weather and ice conditions and movements of vessels.

4. Montreal and Quebec publish daily bulletins showing the depth of water at various points in the river St. Lawrence ship channel.

5. The Signal Service offices at Montreal, Quebec, and St. John are open day and night for the purpose of furnishing the public with information of shipping matters.

6. The telegraph system of the Department of Public Works on the north shore of the gulf of St. Lawrence report the movements of vessels engaged in the coasting trade to the signal service at Quebec.

7. The collectors of Customs at all the seaports in the river and gulf of St. Lawrence, on the Atlantic coast and in the bay of Fundy report the arrival and departure of vessels engaged in the overseas trade.

8. Lloyd's agents at Quebec are furnished daily with full information of the movements of vessels engaged in the overseas trade to and from ports in the province of Quebec.

9. Lloyd's agents at St. John are furnished daily with full information of the movements of vessels engaged in the overseas trade to and from ports in the Maritime Provinces.

IMPROVEMENTS CARRIED OUT AND CONTEMPLATED.

The signal service at Halifax, St. John, North Sydney, and Quebec, in the river and gulf of St. Lawrence and on the Great Lakes, and the telephonic and reporting service between Quebec and Montreal were combined on the 1st April, 1914, under the heading of Signal Service, with headquarters at Quebec. This consolidation has greatly facilitated the work and has led to many improvements.

An arrangement was made with the Department of Railways and Canals whereby their officials at the Lachine, Soulanges, Cornwall, Galops, Welland, and Sault Ste. Marie canals, report several times daily to the Signal Service at Montreal, giving movements of vessels bound to Montreal and points east of that port. In this connection a private telephone line has been established between the Signal Service office, Montreal and the canal office at Lachine. This service has proved itself to be very useful, especially to the shipping interests of the port of Montreal, and will be extended from time to time as conditions may warrant.

A new signal station was established at Cap St. Michel and put in operation on the 27th July, 1915, and another just below Bellmouth curve, on the south shore; this one, however, was not ready to commence operations before the end of the season, therefore it was decided to continue the Verchères signal station for the balance of the season and then close it up for good and open the new

SESSIONAL PAPER No. 21

Bellmouth station the following spring. The old signal station building at Batiscan was towed up on a scow and utilized for the Bellmouth station, after certain alterations and repairs were made. 

The signal station at Verchères was closed on the 15th December, 1915.

These new stations will improve the service considerably, giving it better facilities for showing weather conditions on the river and for reporting the movements of vessels.

The signal stations at Point Tupper, C.B., N.S., and Scatari island, N.S., are to be put in operation on the 1st April, 1916.

It has also been decided to establish a reporting station in the Mainadieu lighthouse. This station, with the one at point Tupper and at Scatari island will improve the service, enabling the weather conditions and movements of vessels to be reported in territory not previously covered by the signal service.

All the various signal stations were kept in good repair and painting done where required.

QUEBEC, Que., May 1, 1916.

ICE-BREAKING, WINTER 1915-16.

SIR,—I have the honour to submit the following report on the work of the ice-breaking steamers *Lady Grey* and *Montcalm* during the winter of 1915-16:—

On the 30th of November, 1915, the C.G.S. *Lady Grey* was sent to Three Rivers to be on hand to assist any vessels through the ice, should it be found necessary. The *Lady Grey* remained there until December 11, when she accompanied the ss. *Port Dalhousie* to Quebec, this being the last steamer out.

The *Lady Grey* then commenced her usual trips to Cap Rouge and St. Nicholas, to observe the ice conditions at these points.

The ice-breaker *Montcalm* returned from her trip to Gaspé, Anticosti island, and north shore points on January 4, 1916, and immediately was overhauled for her ice-breaking operations, and then took her turn with the *Lady Grey* to observe ice conditions at the bridge and above, when it was found advisable.

The weather was comparatively mild all through December, January, and the beginning of February. This gave very little work for the ice-breakers during this period, as they had only to occasionally widen the channel at Cap Rouge and slice off at Beauport batture.

The ice-bridge formed at Port St. Francis on December 20, and a few days afterwards it had formed solid from that point to Montreal.

A serious ice-jam occurred at Cap Rouge on February 13, the ice having stopped between the Quebec bridge piers at 10.45 a.m., and had also stopped in Quebec harbour. The ice-breakers were kept at work opposite Indian cove, in order to keep the lower part of the harbour clear of ice. Next day at 6 a.m. they began to work upwards, and by 1 p.m. had cut their way for a distance of 2 miles in broken ice, of 4 to 5 inches thickness, and piled up to a depth of 10 to 12 feet.

Owing to the tide conditions, the ice-breakers had to stop work, and at the time they stopped work the end of the ice above could not be seen. During the following night the jam gave away, and most of it passed down, and by 8.30 a.m. the remainder moved out. This jam was caused by the very severe weather which occurred at neap tides when the current was less strong. A strong north-east wind also helped to retard the ice.

A jam occurred at Quebec harbour on February 26, and another on the 27th, caused by a large piece of batture ice coming from Les Ecurcils bank, jamming at the bridge. Both these jams were easily broken up by the ice-breakers.

On December 21 the *Lady Grey* made a trip to Grosse Isle with passengers and freight, and on January 21 she went down to Red island to rescue the crew of the ferry boat *Pilot* which was aground.

The *Lady Grey* made several trips during the winter to Portneuf to slice off the batture ice, and give a wider channel, to allow the ice to move down freely. The channel was kept open all winter up to Three Rivers.

It had been decided to begin breaking the ice above Three Rivers on March 20, but owing to the *Montcalm* being required to assist the ferry boat C.G.S. *Champlain* between Murray bay and Rivière Ouelle, on the 23rd, as the ice was too heavy for the *Champlain*, the *Lady Grey* only began work on the 24th, about a mile and a half above Three Rivers.

The *Montcalm* remained at Quebec in case the batture ice at Les Ecureuils and bay St. Croix might break away with the spring tides and jam at Cap Rouge.

As the ice was found very thick and progress slow, with the *Lady Grey* working alone, the *Montcalm* was ordered up on the 27th to help the *Lady Grey*, and with both vessels working together, more rapid progress was made.

From Three Rivers down to Quebec, the river was practically clear of ice from shore to shore, the only points where there was any shore-ice were at Les Ecureuils and bay Ste. Croix.

Above Three Rivers, from the point where the *Lady Grey* commenced, up to the foot of lake St. Peter, the ice was 24 to 36 inches thick, and very slow progress was made, and it was only by April 1 that this part was clear of ice up to Nicolet traverse.

The cutting of the channel and widening was pushed ahead to a short distance above curve No. 2. It was then decided not to go up farther on account of a crack in the ice about a half mile above Yamachiche bend, which went right across the lake, and it was expected that the whole of the ice below this might move bodily at any time. If this had happened there was great danger of one of the ice-breakers being caught above this point for some days.

The ice on lake St. Peter started to move on April 15 and, assisted by the constant work of the ice-breakers, the whole lake was practically clear of ice by the 19th.

Both ships proceeded next day and broke up a jam abreast of Ste. Anne de Sorel, and then worked till the 22nd breaking up a very heavy one in the vicinity of Sorel point. When this was accomplished, the river was clear of ice from Montreal to the gulf.

Owing to a very heavy formation of frazil ice at the foot of Soulanges canal, the Department of Railways and Canals applied to the Department of Marine for the services of the C.G.S. *Lady Grey* to clear the channel in order to allow vessels to pass.

The *Lady Grey* left Sorel on April 24, 1916, for Montreal, and left for lake St. Louis early next morning. The commencement of the ice was abreast of the church on Ile Perrot; the ice-breaker worked all that day and the next. On the 26th a large piece of batture ice broke away and grounded below Windmill point, blocking the channel; the *Lady Grey* worked two days breaking this up. On the 27th the *Lady Grey* had to return to Lachine for coal, which she took during the night. Next morning she returned to her work opposite Cascades island, and succeeded in clearing the channel to the foot of Soulanges canal at 4.30 p.m. that day, thereby allowing free passage to vessels.

SESSIONAL PAPER No. 21

The *Lady Grey* then proceeded down on her way to Montreal, but was detained several days at the entrance of the Lachine canal owing to repairs in the canal.

I have the honour to be, sir,

Your obedient servant,

ALPHONSE LAFLECHE,

Acting Resident Engineer.

V. W. FORNERET, Esq., C.E.,
Superintending Engineer, River St. Lawrence Ship Channel,
Department of Marine,
Ottawa, Ont.

GENERAL INFORMATION.

The New Steamboat channel for light-draught vessels and tows, through the islands opposite Sorel to lake St. Peter by way of the Grand Chenal, was completed to a depth of 15 feet at extreme low water of 1897, and to a minimum width of 400 feet.

As soon as the three lighthouses to mark the different courses are completed in the spring of 1916, the channel will be buoyed out and opened for navigation.

All light-draught vessels and tows will have to use this channel, and keep out of the ship channel. This will relieve the ship channel of these vessels and prevent them being in the way of the ocean steamers in the bends between Sorel and lake St. Peter. This new channel is practically a continuation of the Repentigny Steamboat channel. With this addition, there will be a distance of over 50 miles, between lake St. Peter and Montreal, where tows and light-draught vessels can keep out of the ship channel.

Considerable progress was made in the deepening of the ship channel to 35 feet at extreme low water of 1897 between Three Rivers and Montreal; 8 miles in length was dredged during the season.

The dredging of the 35-foot channel through lake St. Peter is nearly completed; there remains only He au Raisin traverse and about half a mile in Nicolet traverse to be done, which will be completed next season.

The Cap Charles Channel, at Cap à la Roche, was completed to 30 feet at extreme low water of 1897, and widened from 300 to 450 feet in the straight portion and 650 feet at the curve. A new range of lights was constructed to mark the new centre line, and permanent beacons erected to mark the bank lines. The channel was then buoyed to give the increased width, and opened to navigation.

The *Grondines Channel* was also completed to 30 feet at extreme low water and widened from 300 to 450 feet. A new range of lights was constructed to mark the new centre line. This channel was also buoyed to give the increased width and opened for navigation.

The widening of Cap à la Roche curve is almost completed, but there remains considerable deepening and cleaning up to be done yet. A large area of rock was also broken by the rock cutter in readiness for next season's work.

Good progress was made with the widening of the ship channel through Montreal harbour at St. Mary current and Longueuil shoal; the curve at the latter point is to be widened from 700 to 800 feet.

The dredging operations in the north channel below Quebec have been carried on vigorously, two large sea-going suction dredges being kept at work during the whole season. They removed 2,197,568 cubic yards, and there still remains 6,928,805 cubic yards to be dredged. This channel is to be 1,000 feet in width and 35 feet in depth at extreme low tide. Where there was only 7 feet

7 GEORGE V, A. 1917

at low tide, there is now a depth of 26 feet. With the addition of the new dredge now building at Canadian Vickers, Limited, Montreal, much greater progress will be made.

The length of the 30-foot channel actually completed at the close of the season of navigation 1915, equals 66.30 statute miles. The total length requiring dredging is 70.00 miles, leaving 3.70 miles yet to be done.

The total length of the 35-foot channel completed at the end of the season of navigation 1915 equals 29.37 statute miles. The total length requiring dredging being 90.38 miles; there remains to be dredged, 61.01 miles.

A commencement was made on the construction of the compensation dams, as recommended by the commission appointed to investigate and report upon the water levels of the river St. Lawrence at and below Montreal.

In order to lessen the cost, it was decided to utilize, as much as possible, the dredging material taken from the ship channel and deposit it on the sites of the proposed dams.

Dredged material was dumped on the following sites: Repentigny (between Ile à Bague and Ile Bellegarde); Chenal Corbeaux (between Ile de Grace and Stone island); Chenal des Barques (between Ile aux Barques and Ile du Moine); Pointe du Lac, at foot of lake St. Peter.

During the season the usual sweeping of the ship channel was done, and no obstruction of a serious nature was found.

The Cap a la Roche semaphore at Deschaillons, Que., which gives the depth of water in the dredged channel was put in operation on May 1st, 1915, and St. Nicholas semaphore showing the available depth over the undredged St. Augustin bar was started on the same day.

The total cost from 1851 to the end of the fiscal year, March 31, 1916, of the ship channel, including plant, shops surveys, etc., is as follows:—

Dredging	\$12,518,963 84
Plant, shops, surveys, etc.....	7,533,387 40
	<hr/> \$20,052,351 24

The number of cubic yards dredged amounted to 105,989,842, the material varying from very hard shale rock to soft blue clay.

Average depth for each month in the 27½ foot channel (27½ feet at ordinary low water) from Sorel Gauge during each year, May to November.

DREDGES.

Elevator Dredge No. 1 (Laval).—This is the oldest dredge belonging to the ship channel fleet. The hull is of wood, and was constructed at Ottawa in 1894. The buckets are cast steel, designed for work in rock or other hard material.

During the winter of 1914-15, general repairs to the hull were made. The machinery was given a general overhauling and put in good condition for the next season's work. The details of the operations of this dredge for the fiscal year beginning April, 1915, were as follows:—

Dredge No. 1 left Sorel for Montreal on May 4, where she was laid out in St. Mary current, Montreal harbour, to widen and deepen the ship channel to 30 feet at extreme low water of 1897.

The progress was slow owing to the large number of boulders that had to be lifted out of the dredge's cut, necessitating the frequent use of a stone-lifter. The material to be removed consisted of stones, gravel, and many boulders.

No. 1 was kept working in St. Mary current until November 22, when she was taken down to Sorel to go into winter quarters.

She was at work for a total of 169 days, and her machinery was in operation 67 per cent of the full working time.

The total number of cubic yards removed amounted to 79,472, at a total cost of \$62,431.45 or 78.56 cents per cubic yard.

Elevator Dredge No. 2.—The hull of this dredge is of wood and was constructed at the government shipyard, Sorel, Que., in 1897.

Dredge No. 2 is equipped with a set of cast-steel buckets specially designed for rock and other hard material.

During the winter of 1914-15, the following repairs were made: One new upper tumbler and one new lower tumbler shaft and bush, and two new rollers on ladder frame were supplied; the bottoms of chutes were renewed; general repairs made to deck and deck houses, hull and deck work; outside and inside were painted; and other sundry repairs made. The main engine and deck winches were overhauled, etc., also general overhauling of dynamo and electric installation. The boilers had a few minor repairs done to them.

The details of the operations of this dredge for the fiscal year beginning April 1, 1915, are as follows:—

Dredge No. 2 left Sorel on April 19, 1915, for Varennes curve to commence the season's work, where she was laid out to deepen the channel to 35 feet at E.L.W. No. 2 remained in operation at this point until June 11, when she was towed down to be laid out to work in the ship channel at Stone island to dredge to 35 feet at E.L.W. On July 2, the dredge was towed down to Grondines, where she was laid out to clean up lumps found in the channel by the sweeping scow, after the dredges had completed dredging it to 30 feet at E.L.W.

This work was finished on October 4, the dredge was then moved up to do more cleaning up in the Cap Charles channel to 30 feet at E.L.W. This was very slow work owing to the numerous boulders which had to be lifted with a stone-lifter. No. 2 continued cleaning up in Cap Charles channel until November 2, when she was towed up to Pointe aux Trembles channel to dredge to 35 feet at E.L.W., and remained there in operation till November 25, when the dredge was taken down to Sorel to go into winter quarters.

In a total of 187 days during which No. 2 was at work, her machinery was in operation, 58 per cent of the full working time. The total number of cubic yards removed amounted to 169,596, at a cost of \$52,641.90, or 31.04 cents per cubic yard.

SESSIONAL PAPER No. 21

Elevator Dredge No. 3 (Aberdeen).—The hull of this dredge is of steel, the complete vessel having been constructed at the Sorel shipyard in 1900. The buckets are of cast-steel and designed for rock or any other hard material.

During the winter of 1914-15 a general overhauling of her hull and machinery was made; a new upper tumbler was installed, two smokestacks renewed, and four O'Neil's patent boiler furnace doors fitted.

The details of the operations of this dredge for the fiscal year beginning April 1, 1915, were as follows:—

Dredge *No. 3* left Sorel on April 20 for Pointe aux Trembles channel where she was laid out to work at different points in this channel till July 16, deepening the channel to 35 feet at E.L.W., the material removed being clay and stone. The dredge was then moved up and laid out on the upper end of Longue Pointe Traverse to clean up some lumps found with the testing scow, and at the same time deepening the channel to 35 feet at E.L.W.

On September 9, *No. 3* left Longue Pointe for Nicolet Traverse where she was laid out at the lower end to widen the channel and deepen it to 35 feet at E.L.W., the material dredged being clay. The dredge continued working there until October 21, when she was towed up to Pointe aux Trembles and laid out to dredge the portion of the channel that had been left in order to allow the King Edward Park Company time to lift the electric power cable which crossed the channel a short distance above Pointe aux Trembles village.

On November 25, having finished her cut, *No. 3* was taken down to Sorel to go into winter quarters.

The working time of dredge *No. 3* was 180 days, the dredge being in actual operation 64 per cent of the full working time.

The total number of cubic yards removed amounted to 155,453 at a cost of \$58,182.72 or 37.43 cents per cubic yard.

Elevator Dredge No. 4 (Minto).—This dredge is of the same type and design as *No. 3* and was constructed at the Sorel shipyard in 1900. *No. 4* is also provided with cast-steel buckets for dredging in rock or other hard material.

During the winter of 1914-15, this dredge received repairs and general overhauling to her hull and machinery. A new top tumbler was installed and four O'Neil's patent boiler furnace doors fitted. The details of the operations of this dredge for the fiscal year beginning April 1, 1915, were as follows:—

On April 20, 1915, *No. 4* left Sorel for Pointe aux Trembles (*en haut*), where she was laid out to deepen the channel to 35 feet at E.L.W., the material removed being clay. She continued working here until August 17, when the dredge was towed down to Stone island and laid out opposite the site of the old lighthouse to deepen the channel to 35 feet at E.L.W., the material, which consisted of clay, was deposited on the line of the proposed dam between Ile du Moine and Ile de Barque.

No. 4 worked at Stone island until November 26, when she was taken to Sorel to go into winter quarters.

The number of days that this dredge was in operation was 185, and the percentage of time of actual work, 69.

The total number of cubic yards removed amounted to 389,800 at a cost of \$56,742.23 or 14.55 cents per cubic yard.

Elevator Dredge No. 5 (Lafontaine).—This dredge was also constructed at the Sorel shipyard, and was completed in 1901. She was fitted out with cast-steel buckets for rock and other hard material. The hull is of wood.

During the winter of 1914-15 a general overhauling was given the hull and machinery in order to put the dredge in first-class condition for next season's work.

7 GEORGE V, A. 1917

The details of the operations of this dredge for the fiscal year beginning April 1, 1915, were as follows:—

On April 19, dredge *No. 5* was towed up to Varennes curve and laid out to deepen the channel to 35 feet at E.L.W., the material dredged being clay. *No. 5* remained working at this point until June 5, when she was taken down to work at Cap à la Roche, being placed in position on June 7 to widen and deepen the curve to 30 feet at E.L.W., the material being solid shale rock, with numerous boulders; these had to be removed with the aid of a stone-lifter, which was slow work. Dredge *No. 5* continued working at Cap à la Roche until November 3, when she was towed up to Varennes and laid out on the curve where she had left off in the spring.

On November 25 the dredge was taken down to Sorel to go into winter quarters.

The working time of dredge *No. 5* was 186 days. She was in actual operation 49 per cent of the full working time.

The total number of cubic yards removed amounted to 184,152 at a total cost of \$64,177.89, or 34.85 cents per cubic yard.

Elevator Dredge No. 6 (Baldwin).—This dredge was built at the Sorel shipyard in 1902, the hull being of wood. *No. 6* is provided with large built-up buckets for working in soft material, but with sufficient teeth to enable the dredge to work in hard clay if necessary.

During the winter of 1914-15 considerable repairs were made to the hull, and general overhauling.

The machinery was given a general overhauling and both boilers were repaired. One complete set of New England roller grates was installed on board.

The details of the operations of this dredge for the fiscal year beginning April 1, 1915, were as follows:—

Dredge *No. 6* left Sorel on April 27, and was laid out to work at the upper entrance of the new steamboat channel through the Grand Chenal, dredging to 15 feet at extreme low water of 1897, and widening to 400 feet, the material being soft clay. *No. 6* finished cut on May 14. On May 17 she was towed up to Montreal harbour and laid out to work on the south side of the channel at Longueuil shoal, widening and deepening to 30 feet at E.L.W., the material being hard clay and stones. The dredge continued working at this point until June 29, when she was taken down to Champlain and started to clean up sand bars found in the Champlain channel by the sounding scow. This work was completed on September 21.

Dredge *No. 6* was then towed up to Ile au Raisin traverse, lake St. Peter, and laid out to clean up sand bars found by the sounding scow. She commenced work on the 24th and continued there until October 15, she was then taken up to Sorel for repairs to the upper tumbler.

On October 20, the repairs being completed, *No. 6* was taken up to Varennes and laid out to work on the upper end of the curve, deepening the channel to 35 feet at E.L.W., the material being clay.

The cut being finished on November 5, the dredge was moved up to finish the season at the lower end of Pointe aux Trembles channel, on the south half, deepening to 35 feet at E.L.W., the material removed being clay and stones. On November 16, having finished her cut, dredge *No. 6* was taken down to Sorel on the 17th to go into winter quarters.

During the season of 1915, out of a possible number of 167 days, the dredge was in actual operation 46 per cent of that time. The total number of cubic yards removed amounted to 160,675 at a cost of \$56,264.46, or 35.02 cents per cubic yard.

SESSIONAL PAPER No. 21

Hydraulic Dredge No. 7 (J. Israel Tarte).—Dredge No. 7 was constructed in 1902 by the Polson Iron-works Company of Toronto, Canada. The hull is of steel, of the same type and general design as the steel hulls of elevator dredges No. 3 and No. 4.

During the winter of 1914-15, general overhauling was given to the hull, overhauling and repairs to main hoisting winch were made, breasting and bow winches, cutter-head engine, and inside sheathing and cover of main centrifugal pump renewed. Alteration of the piping of the forced-draught fans, repairs and electric welding on furnaces of boilers, repairs to smoke-boxes, and installation of one new smokestack. General overhauling of electric wires and dynamo done, and syphons overhauled and increased in number.

The details of the operations of this dredge for the fiscal year beginning April 1, 1915, were as follows:—

On April 29, dredge No. 7 left Sorel in tow for curve No. 2, lake St. Peter, where she was laid out at the lower end of the curve to deepen the channel to 35 feet at E.L.W. of 1897, and continued working on curve No. 2, until July 27, when the dredge finished her cut at the upper end of the curve, where the deepening to 35 feet between curve No. 2 and No. 1 commenced.

The dredge lost considerable time due to lack of steam, and the question of renewing her boilers will soon have to be taken up as they are getting into very bad condition.

As dredge No. 7 was in need of certain repairs to her hull, and new sea-cocks to be put in, it was decided to take her up to Montreal and place her in the Canadian Vickers floating dock, before laying No. 7 out again at Contrecoeur, in the Contrecoeur course, where it was now the intention to put her at work.

After the pontoons and discharge pipe had been disconnected and placed in Chenal au Corbeaux for safety, No. 7 left for Montreal in tow of tugs *Frontenac* and *Lotbiniere* on July 29. The dredge entered the floating dock on July 30 and came out on August 5, and was immediately towed down to Contrecoeur, and placed in position on August 6 at the lower end of Contrecoeur course to deepen the channel to 35 feet at E.L.W. of 1897.

The pontoons and discharge pipe were brought up and all connections were completed, the dredge was ready to commence operations on August 9.

Dredge No. 7 worked until September 13, when the cutter-head shaft broke, necessitating the stopping of the dredge for several days, while it was being repaired at the Sorel shipyard shops.

The repairs being completed, No. 7 began dredging again on September 22 and continued until November 20, when, owing to the boilers leaking so badly, it was decided to stop operations and clean up before taking the dredge to Sorel to go into winter quarters. On November 25, No. 7 was towed down to Sorel.

In a total of 156 days during which this dredge was at work, her machinery was in actual operation 54 per cent of the full working time.

The total number of cubic yards removed amounted to 1,590,805 at a cost of \$118,221.08, or 7.43 cents per cubic yard.

Hopper Sea-going Hydraulic Dredge No. 8 (Beaujeu).—Steel hull, twin screw. This dredge was built at the Sorel shipyard in 1906.

During the winter of 1914-15 the wooden fenders on ship's side were partially removed, upper deck repaired and caulked and inside repainted, and sundry repairs made.

The machinery was given a good overhauling; the large gear-wheel of windlass was renewed. The turbine shell plates inside were welded by electricity, the turbine shaft, leg bush, thrust collars and turbine suction-pipe were all overhauled and repaired. one new cutter-head shaft was supplied, and new plates fitted to cutter-head. Alterations were also made to the operating levers of

the gate valves. Centre furnace of both boilers was repaired and welded, stay bolts and combustion chamber made water-tight, and a few tubes packed. Also air, feed, and hydraulic pumps repaired. General overhauling of auxiliaries and of electric wiring and dynamo.

The details of the operations of this dredge for the fiscal year beginning April 1, 1915, were as follows:—

Dredge No. 8 left Sorel for Quebec on April 19, arriving there the same day. Had to go into outside basin, to get boilers covered with asbestos and have repairs done to the rudder. When the work was done No. 8 left Quebec on April 23 and began dredging at West Sand, north channel, the same day, where she continued working on the north channel to obtain a depth of 35 feet at extreme low tide, and a width of 1,000 feet.

On July 14 the dredge left for Montreal to enter Canadian Vickers floating dock, to get repairs done to her dumping doors, as some of the shafts were bent. No. 8 had to be assisted by the C.G.S. *Lady Grey*, as her steering gear was out of order. The dredge entered the floating dock on the 16th. On the 20th, the repairs being completed, No. 8 came out of dock and after taking coal continued down to West Sand, north channel, below Quebec, where she had left off, reaching there at 2 a.m. next day.

The dredge worked at West Sand until July 22, and then moved down to east narrows, north channel. On the 24th, No. 8 had to be beached at St. Michel, to repair one of the dumping doors. The repairs being finished, the dredge left St. Michel on the 26th, and returned to her work at east narrows.

She continued working until August 25, when it was necessary to take the dredge to Quebec, to have the turbine discharge chutes repaired, the cutter-head shaft being renewed at the same time.

The repairs being done, No. 8 left Quebec on August 27, for east narrows. On September 13 a bad break occurred to the cutter-head hoisting engine. No. 8 went up to Quebec and tied up at the King's wharf while the broken pieces were sent to the Sorel shops to be repaired. Machinists and boilermakers from the Quebec agency worked on board during this time making repairs. Repairs being finished, No. 8 left for east narrows on September 19.

On Saturday, October 9, the dredge had to go again to St. Michel to be beached for repairs to her dumping doors, but was back at work on Monday the 11th.

The new self-propelling hopper barge No. 2 was brought down on October 13 and loaded from No. 8 to test her hopper doors.

Dredge No. 8 continued working at east narrows until November 24, and left for Sorel to go into winter quarters next day, reaching Sorel on the 27th.

In a total of 173 days during which this dredge was at work, her machinery was in actual operation 85 per cent of the full working time.

The total number of cubic yards removed amounted to 1,515,568 at a cost of \$84,230.11, or 5.56 cents per cubic yard.

Sea-going Suction Hopper Dredge No. 9 (Galveston).—Steel hull, twin screw. This dredge was purchased from Messrs. H. E. Moss & Company, of Liverpool, England, in 1906.

During the winter of 1914-15 the *Galveston* wintered in the drydock at St. Joseph, de Levis, where extensive repairs were made to her hull and dumping doors. The bow winch was given a general overhauling and the supports strengthened. Apart from the above, the following were supplied by the Sorel shipyard: new tail shafts fitted, new bushes, turbine wheels made with blades cast solid, front and cover of condenser 4-foot diameter renewed, and eccentric shafts of main engine re-babbitted with metal supplied by the shipyard. Two

SESSIONAL PAPER No. 21

intermediate slide valves and seats were renewed, and one cast-iron left-hand propeller supplied.

The details of the operations of this dredge for the fiscal year beginning April 1, 1915, were as follows:—

Repairs being all finished, dredge No. 9 left St. Joseph de Levis on April 23 to commence dredging operations at West Sand, north channel, where she continued working until August 10, the material removed being sand, gravel, and stones. No. 9 then moved down to east narrows and worked there.

On September 10 the main engines were found to be so much out of order that it was decided, in order to save time, to send the dredge to the Sorel shipyard for the necessary repairs. She left at 1.30 p.m. for Sorel, assisted by the C.G.S. *Bellechasse*, reaching Sorel at 4.45 p.m. next day. The repairs to the main engines being finished at 6 p.m., October 1, the dredge left for east narrows at 4 a.m. next day, arriving there at 11 p.m. that same day.

Owing to a break in the suction pipe on October 12, it was found necessary to proceed up to Quebec to have the repairs done. These being completed the dredge returned to east narrows on the 13th.

No. 9 was beached at St. Michel on October 14 as the slide of the suction pipe was damaged and would not work. Left St. Michel on October 17 for St. Patrick hole to take coal from coal barge No. 5 and returned to the dredging station that afternoon.

On November 19, on account of strong northeast gale, No. 9 went up to anchor at St. Patrick hole to wait till the storm moderated in order to beach the dredge at St. Michel to plug up the suction pipe hole on the starboard side of the dredge, as she was going into winter quarters. This was done on the 20th, and the dredge then proceeded to Sorel, reaching there next day.

The working time of dredge No. 9 was 158 days; she was in actual operation 73 per cent of the full working time.

The total number of cubic yards removed amounted to 682,000 at a cost of \$69,396.55, or 10.17 cents per cubic yard.

Dipper Dredge No. 10.—Steel hull. This dredge was constructed at the government shipyard at Sorel, Que., and completed in 1910.

During the winter of 1914-15 the fenders of hull, the boiler tubes, and doors were repaired; one new smokestack was installed; repairs to piston rods and links of main engines were made, new plates with fibre for compression-box of dipper arm, all other auxiliaries, such as capstan, engine, swinging engine, etc., were overhauled and repaired, hull and deck work outside and inside repainted and sundry repair-work done.

The details of the operations of this dredge for the fiscal year beginning April 1, 1915, were as follows:—

Dredge No. 10 began working in Sorel harbour, May 3, cleaning up in front of the government shipyard docks. On May 20, having completed the work, No. 10 was towed up to Pointe aux Trembles to assist in lifting large dumping scow, belonging to dredge No. 13, which was sunk last autumn. On June 10, the work of lifting the scow being completed, the dredge was taken down and laid out to widen the Repentigny Traverse channel at Ile à la Bague, deepening to 15 feet at E.L.W. of 1897, and widening from 300 feet to 450 feet.

On June 25, the lower sheave of port bow spud broke, and it was necessary to bring down the floating crane from Montreal to lift the spud and place it on a scow, to be taken down to Sorel for repairs. Repairs being completed, the floating crane was again brought down to put back the spud. The dredge began work again on July 7, and continued working in this locality till August 18, when the cut was finished. On August 26, No. 10 was moved to the head of

7 GEORGE V, A. 1917

Ile Deslauriers to commence straightening Cap St. Michel curve on the north bank.

In the interval between the above dates, the time was occupied in changing the short for the long dipper arm and other repairs.

On August 27, the dipper arm was broken and had to be replaced by the short one, the long one being taken down to Sorel for repairs.

The large gear-wheel of the main engine broke on September 30, and it was October 9 before it was in order again. Lost time during the month with the stern spud hoisting wire breaking a couple of times.

On November 1 the services of the floating crane were required again, to lift the stern spud out to put in a new sheave, so it was decided to take *No. 10* up to Racine pier and get the work done there in order to save time. The repairs being completed on *No. 10*, the dredge was taken down to work again where she left off at Ile Deslauriers. One of the bow spud keepers broke on the 10th.

On November 13 it was decided to take the dredge to Sorel to go into winter quarters. During the season of 1915 the working time of *drédge No. 10* was 110 days. She was in actual operation 60 per cent of the full working time.

The number of cubic yards removed amounted to 295,500 at a cost of \$52,998.89, or 17.93 cents per cubic yard.

Dipper Dredge No. 11.—This dredge was constructed at the Government shipyard at Sorel, Que., and completed in 1911. Steel hull.

During the winter of 1914-15 the main hoisting swinging engines were overhauled and repaired, the capstan winch, main friction and hand brake, bands on hoisting drum were repaired, all valves and pistons readjusted, upper were re-riveted, and a ventilator fitted over galley. Two new high-pressure pistons were renewed, condensers had six tubes removed and plugged, main stop valve on boiler repaired. General overhauling of auxiliaries, engine, boiler, and electric wiring, and repairs to hull, fenders, etc., and the hull and deck, outside and inside, repainted.

The details of the operations of this dredge during the fiscal year beginning April 1, 1915, are as follows:—

Dredge No. 11 left Sorel on May 4, towed by the C.G.S. *Frontenac* and tug *Deschaillons*, arriving at Montreal the same day.

No. 11 was placed in position next day and the dredge got ready for work; she was laid out to widen the Longueuil curve on the north side of the channel. It is proposed to widen this channel to 800 feet, the material being hard-pan and stones. Lost considerable time waiting for scows, as the derricks were not able to empty the flat scows fast enough, and also on account of the long distance the dumping scows had to be towed to the dumping ground.

Dredge No. 11 was in operation till August 28, when the stern spud hoisting wire broke, which necessitated the services of the harbour floating crane. The repairs being completed on the 1st September, the dredge continued operations until November 23, when she was prepared to be towed to Sorel to go into winter quarters.

Left Montreal for Sorel on November 24, towed by the C.G.S. *Frontenac* and tug *Deschaillons*. Arrived at Sorel at 5.15 p.m.

The working time of *dredge No. 11* was 171 days, the dredge being in actual operation 52 per cent of the full working time.

The total number of cubic yards removed amounted to 410,900 at a cost of \$61,842.08, or 15.05 cents per cubic yard.

Elevator Dredge No. 12.—This dredge was constructed at the Sorel shipyard and was completed in 1912. Her hull is of steel.

SESSIONAL PAPER No. 21

No. 12 is fitted out with large cast-steel buckets for rock work, and can dredge to a depth of 52 feet. The breasting winches are similar to those on elevator dredge *No. 5*, using wire cables instead of chains.

During the winter of 1914-15 the bottom of the dredge chute was sheathed with cast-steel slabs. The awning over the upper deck was replaced by wooden panels, the railings and derrick were repaired.

Repairs to the tumbler shafts were made, and general overhauling of main engines and winches was made; hull and deck outside and inside painted, and sundry other repairs carried out.

The details of the operations for the fiscal year beginning April 1, 1915, are as follows:—

Dredge *No. 12* left Sorel April 22 for Pointe aux Trembles, and was laid out next day to deepen the channel to 35 feet at E.L.W. Lost considerable time replacing bad links in bucket chain.

On May 27 the dredge was taken down to Sorel to have repairs done to her bucket chain. These being completed on June 3, *No. 12* was taken down to the foot of Ile de Grace channel and laid out to deepen the channel to 35 feet at E.L.W. and continued dredging in this locality till June 14, when *No. 12* was towed down to Cap à la Roche and laid out next day at the foot of Cap Charles channel on south side, dredging to 30 feet at E.L.W. of 1897, material being solid shale rock. Having finished her cut on July 21 the dredge was dropped back to clean up obstructions found with the testing scow. A great deal of stoning with a stone-lifter had to be done while cleaning up, which made progress slow.

On October 12, *No. 12* having completed cleaning up, she was taken up to St. Ours traverse, Contrecoeur channel, and laid out at the lower end of the curve to widen, and deepen to 35 feet at E.L.W., the material being clay and small stones.

She continued working there until taken to Sorel on November 24 to go into winter quarters.

The working time of dredge *No. 12* was 153 days, the dredge being in actual operation 62 per cent of the full working time.

The total number of cubic yards removed amounted to 198,786 at a cost of \$56,745.01, or 28.54 cents per cubic yard.

Elevator Dredge No. 13.—This dredge was constructed at the government shipyard at Sorel, Que., and was completed in 1913. Her hull is of steel.

No. 13 is fitted out with large cast-steel buckets for rock work, and can dredge to a depth of 52 feet. The breasting winches are similar to those on elevator dredge *No. 12*, using wire cables instead of chains.

During the winter of 1914-15 the ladder frame mud guards were repaired. Top plates of frame under rollers were cut with the electric machine; rooms aft repaired and put in good order; cotton deck awning on upper deck replaced by wooden panels; three valves of reversing engines repaired; one broken gear renewed in bow winch and the bucket frame winch had a wheel renewed and all auxiliary machines were overhauled.

The boilers had the butt straps caulked, and doors repaired, and four cross-bars renewed. The derrick on main deck was repaired. The hull and deck work outside and inside was repainted and sundry repair work carried out.

The details of the operations of this dredge for the fiscal year beginning April 1, 1915, were as follows:—

Dredge *No. 13* left Sorel on April 22 and was laid out to work on Ste. Anne Traverse to deepen the channel to 35 feet at E.L.W. of 1897. Having finished her cut on June 17, the dredge was moved down to work on the north half of Ile de Grace channel to dredge to 35 feet at E.L.W., the material being soft

7 GEORGE V, A. 1917

clay. The dredged material was utilized in making the foundation of the compensation dams in Ile du Moine channel and Chenal Corbeaux. Having completed her cut on October 19, *No. 13* was moved to the lower end of Ile de Grace channel, where *No. 12* had left off in the spring.

Dredge *No. 13* continued working here until November 26, when she was taken to Sorel to go into winter quarters.

The working time of dredge *No. 13* was 186 days, during which the dredge was in actual operation 60 per cent of the full working time.

The total number of cubic yards removed amounted to 791,450 at a cost of \$61,898.27, or 7.82 cents per cubic yard.

Self-propelling Elevator Dredge No. 14.—Steel hull; single-screw; length between perpendiculars, 215 feet 0 inches; breadth, moulded, 37 feet 5 inches; depth, moulded, 14 feet, 0 inches; mean draught, 9 feet 8 inches; speed, 8 knots; greatest working depth, 55 feet; built by the Collingwood Shipbuilding Co. in 1914. Steel buckets 1 cubic yard capacity; working capacity, per hour in clay, 800 cubic yards.

During the winter of 1914-15 the bucket frame had holes cut in the plates under the rollers in order to prevent stones jamming. One of the chutes was strengthened by doubling plates and channels.

The upper deck aft was caulked all over. The lower tumbler-bush was repaired and put in good order.

The main throttle-valve and the thrust of bucket frame winch were repaired. New frictions to bow breasting-winch, both bilge pumps repaired, valve seat and rings renewed, new brasses to lower tumbler were supplied. One large skylight was made on each side of engine room casing. Alterations to heating system in bath-room and officers' quarters were made. General overhauling of piping and drains and other auxiliaries. The hull and deck-work were repainted, and sundry repairs were carried out. Some of the rivets were renewed on the boilers, and some caulking done.

The details of the operations of this dredge for the fiscal year beginning April 1, 1915, were as follows:—

Dredge *No. 14* left Sorel on April 28, and was taken up to St. Ours traverse (Contrecoeur channel) and was laid out to work in the channel to deepen to 35 feet at E.L.W. Having finished her cut on June 15, *No. 14* steamed down to Sorel to get repairs done to her lower tumbler, and change a cracked bucket. She returned to St. Ours traverse on June 21, and was laid out to work on the south half of the channel. *No. 14* continued to work on the south half of Bell-mouth curve after the south half of St. Ours traverse was finished, but was obliged to stop on August 19, owing to the lack of water on the banks to lay out the breasting anchors.

No. 14 went down that same day and was laid out on the south side to widen the curve at the foot of St. Ours traverse, the material being clay and small stones. She continued in operation here until September 20, when she went down to Sorel for repairs to the upper tumbler.

The repairs being finished, *No. 14* left Sorel on September 22, and went up to Verchères and was laid out to work on the north half of the channel between Verchères and Cap St. Michel at the lower end, to dredge to 35 feet at E.L.W., the material being clay. Considerable time was lost during the season owing to trouble with the dumping scows. On November 20, dredge *No. 14* picked up her anchors and went down to Sorel to go into winter quarters.

The working time of dredge *No. 14* was 168 days, the dredge being in actual operation 66 per cent of the full working time.

The total number of cubic yards removed amounted to 884,400 at a cost of \$63,614.38, or 7.19 cents per cubic yard.

SESSIONAL PAPER No. 21

Self-propelling Elevator Dredge No. 15.—Steel hull; single screw; length between perpendiculars, 215 feet 0 inches; breadth, moulded, 37 feet 5 inches; depth, moulded, 14 feet 0 inches; mean draught, 9 feet 8 inches; speed, 8 knots; greatest working depth, 55 feet; built by the Collingwood Shipbuilding Company in 1914; steel buckets, 1 cubic yard capacity; working capacity per hour in clay, 800 cubic yards.

During the winter of 1914-15, the bridge deck opposite wheel-house was cut and the telegraph shifted to give clearance to the buckets. One large skylight was installed on each side of the engine-room casing.

The thrust of the ladder-frame winch was strengthened. The bearing of the upper main shaft was repaired; one breasting winch frame repaired, and a general overhauling of dynamo engine and repairs to armature. Also new brass rings to feed pump pistons, renewal of glands of rods, and piston rods of main engine.

Alterations were made to the heating system in bath room and officers' quarters. General overhauling of piping and drains, and other auxiliaries.

The hull and deck-work was repainted and sundry repairs carried out.

The details of this dredge's operations during the fiscal year beginning April 1, 1915, were as follows:—

Dredge *No. 15* left Sorel on April 27 for St. Ours traverse (Contrecoeur channel), and was laid out to deepen the channel to 35 feet at extreme low water of 1897. She continued working there until the dredge cut was finished. On September 4, work on repairs to the upper tumbler was begun, but it was found that it would be a saving of time to take the dredge to Sorel, so *No. 15* went down on the 8th. The necessary repairs being completed on September 14, *No. 15* left Sorel for Verchères and was laid out to work on the north half of the channel between Verchères and Cap St. Michel, deepening to 35 feet at E.L.W., of 1897.

Considerable time was lost during the season owing to trouble with the dumping scows. Dredge *No. 15* continued in operation here until November 23, and then steamed down to Sorel to go into winter quarters.

The working time of dredge *No. 15* was 172 days, the dredge being in actual operation 57 per cent of the full working time.

The total number of cubic yards removed amounted to 954,400 at a cost of \$57,235.01, or 5.99 cents per cubic yard.

The total number of cubic yards removed by the dredging fleet in the ship channel between Montreal and Quebec during the fiscal year ending March 31, 1916, amounted to 6,265,389 at a total cost of \$822,995.37, or 13.14 cents per cubic yard.

The total number of cubic yards removed by dredges *No. 8* (Beaujeu) and *No. 9* (Galveston) in the ship channel below Quebec, during the fiscal year ending March 31, 1916, amounted to 2,197,568, at a total cost of \$153,626.66, or 6.99 cents per cubic yard.

The total number of cubic yards removed by the whole of the dredging fleet during the fiscal year ending March 31, 1916, amounted to 8,462,957, at a total cost of \$976,622.03, or 11.54 cents per cubic yard.

SESSIONAL PAPER No. 21

RIVER ST. LAWRENCE SHIP CHANNEL DREDGING FLEET.

The following is a description of the dredging plant at the end of the season 1915, owned and operated by the Department of Marine in connection with the River St. Lawrence Ship Channel, between Montreal and Father Point:—

DREDGES.

The Elevator Dredge "Laval" (No. 1), wooden hull.—Length over all, 150 feet; breadth of beam, 30 feet; depth of hold, 14 feet; average draught, 11 ft; greatest working depth, 42 feet; hull built in Ottawa, in 1894; steel buckets; working capacity per day in hard material, 1,000 to 2,000 cubic yards.

The Elevator Dredge "Lawrier" (No. 2), wooden hull.—Length over all, 163 feet; breadth of beam, 32 feet; depth of hold, 14 feet; average draught, 10 feet; greatest working depth 45 feet; built in Sorel shipyard in 1897; steel buckets, working capacity per day in hard material, 1,000 to 2,000 cubic yards.

The Elevator Dredge "Lady Aberdeen" (No. 3), steel hull.—Length over all, 148 feet; breadth of beam, 32 feet; depth of hold, 13 feet; average draught, 8.5 feet; greatest working depth, 42.5 feet; built at Sorel shipyard in 1900; steel buckets; greatest working capacity per day in hard material, 1,000 to 2,000 cubic yards.

The Elevator Dredge "Lady Minto" (No. 4), steel hull.—Length over all, 148 feet; breadth of beam, 32 feet; depth of hold, 13 feet; average draught, 8.5 feet; greatest working depth, 42.5 feet; built at Sorel shipyard in 1900; steel buckets; working capacity per day in hard material, 1,000 to 2,000 cubic yards.

The Elevator Dredge "Lafontaine" (No. 5), wooden hull.—Length over all, 168 feet; breadth of beam, 32 feet; depth of hold, 14 feet; average draught, 9 feet; greatest working depth, 45 feet; built at Sorel shipyard in 1901; steel buckets; working capacity per day in hard material, 1,000 to 2,000 cubic yards.

The Elevator Dredge "Baldwin" (No. 6), wooden hull.—Length over all, 165 feet; breadth of beam, 34 feet; depth of hold, 14 feet; average draught, 8 feet; greatest working depth, 40 feet; built at Sorel shipyard in 1902; one cubic yard buckets strengthened for fairly hard material; working capacity per day in medium material, 2,500 to 3,500 cubic yards.

The hydraulic Dredge "J. Israel Tarte" (No. 7), steel hull.—Length over all, 160 feet; breadth of beam, 42 feet; depth of hold, 12.5 feet; average draught, 6 feet; length of suction pipe, 80 feet; greatest working depth, 47 feet; built at Polson Ironworks, Toronto, 1902; working capacity per day in soft material, 12,000 to 20,000 cubic yards.

Discharge Pipe and pontoons of Dredge "J. I. Tarte" (No. 7).—Twenty-seven lengths of pipe, 36 inches diameter by 100 feet long; one length of pipe, 36 inches diameter by 35 feet long; twenty-seven pairs of pontoons for floating pipes, 42 inches diameter by 90 feet long.

Pontoon Anchor Scow for Dredge "No. 7."—Wooden hull; length over all, 74 feet 7 inches; breadth of beam (outside plank), 27 feet 6 inches; depth at side, 7 feet 0 inches; built at Sorel shipyard, 1909.

7 GEORGE V. A. 1917

Winch Scow for Dredge "J. I. Tarte" (No. 7).—Wooden hull; length over all, 60 feet 8 inches; breadth of beam (outside plank), 21 feet 0 inches; depth at side, 7 feet 6 inches; built at Sorel shipyard, 1902.

The Sea-going Suction Hopper Dredge "Beaujeu" (No. 8).—Steel hull; twin screw; length between perpendiculars, 264 feet; breadth of beam, 45 feet; depth of hold, 20 feet; capacity of hoppers, 2,000 cubic yards in 45 minutes; greatest working depth, 65 feet; draught when loaded, 15 feet; ordinary speed, 9 statute miles; built at Sorel shipyard in 1907.

The Suction Hopper Dredge "Galveston" (No. 9).—Steel hull; twin screw; length over all, 233 feet; breadth of beam, 39 feet; depth of hold, 15.5 feet; draught when loaded with 1,800 tons, 14 feet 9 inches aft, and 13 feet; 1 inch forward; greatest working depth, 55 feet; built in Germany, 1904; two suction pumps, Dutch type; 8.5 feet outside diameter; working capacity, 1,350 cubic yards in 45 minutes; hopper capacity, 1,500 cubic yards.

Dipper Dredge "No. 10," steel hull.—Length moulded, 132.5 feet; breadth moulded, 42 feet; depth at bow, 11.5 feet; depth at stern, 9.7 feet; length of spuds, 74 feet; bucket capacity, one 11-yard for soft material, one 9-yard for hard material; capable of dredging to 50 feet; built at Sorel shipyard in 1910.

The Dipper Dredge "No. 11," steel hulls.—Length moulded, 132.5 feet; breadth moulded, 42 feet; depth at bow, 11.8 feet; depth at stern, 13.5 feet; length of spuds, 74 feet; bucket capacity, one 11-yard for soft material, one 9-yard for hard material; capable of dredging to 50 feet; built at Sorel shipyard in 1911.

The Elevator Dredge "No. 12," steel hull.—Length over all, 180 feet; breadth of beam, 40 feet; depth of hold, 12.8 feet; average draught, 9 feet; greatest working depth, 52 feet; built at Sorel shipyard in 1912; steel buckets; working capacity per day in hard material, 2,000 to 4,000 cubic yards.

The Elevator Dredge "No. 13," steel hull.—Length over all, 180 feet; breadth of beam, 40 feet; depth of hold, 12.8 feet; average draught, 9 feet; greatest working depth, 52 feet; built at Sorel shipyard in 1913; steel buckets; working capacity per day in hard material, 2,000 to 4,000 cubic yards.

— *Self-propelling Elevator Dredge "No. 14."*—Steel hull; single screw; length between perpendiculars, 215 feet 0 inches; breadth moulded, 37 feet 5 inches; depth moulded, 14 feet 0 inches; mean draught, 9 feet 8 inches; speed, 8 knots; greatest working depth, 55 feet; built by the Collingwood Shipbuilding Company in 1914; steel buckets, one cubic yard capacity, manganese steel lip; working capacity per hour in clay, 800 cubic yards; Lloyd's 100 A.I. dredge class.

Self-propelling Elevator Dredge "No. 15."—Steel hull; single screw; length between perpendiculars, 215 feet 0 inches; breadth moulded, 37 feet 5 inches; depth moulded, 14 feet 0 inches; mean draught, 9 feet 8 inches; speed, 8 knots; greatest working depth, 55 feet; built by the Collingwood Shipbuilding Company in 1914; steel buckets 1 cubic yard capacity—manganese steel lip; working capacity per hour in clay, 800 cubic yards; Lloyd's 100 A.I. dredge class.

SESSIONAL PAPER No. 21

ROCK CUTTER.

Rock Cutter No. 1, steel hull.—Length over all, 100 feet; breadth of beam, 36 feet; depth of hold, 9.3 feet; weight of ram, 25 tons; hull and machinery built by the Lobnitz Company, Renfrew, Scotland, and re-erected at Sorel shipyard in 1912.

STONE LIFTERS.

Stone Lifter No. 3, wooden hull.—Length over all, 108 feet; breadth of beam, 34 feet; depth of hold, 14 feet; built at Sorel shipyard in 1903.

Stone Lifter No. 4, steel hull.—Length over all, 100 feet; breadth of beam, 32 feet; depth of hold, 12 feet; built at Sorel shipyard in 1910.

Stone Lifter No. 5, steel hull.—Length over all, 100 feet; breadth moulded, 36 feet; depth of hold, 8 feet 7 inches; depth moulded, 9 feet 10 inches; lifting capacity, 60 tons; built at Sorel shipyard in 1914.

FLOATING SHOP.

Floating Shop, wooden hull.—Length over all, 91 feet 0 inches; breadth of beam, 27 feet 7 inches; depth at side, 7 feet 0 inches; one forge; one scraper; one emery wheel; one drill; one lathe; one 6-horsepower Foss gasoline engine; living quarters for four men; built at Sorel shipyard in 1906.

SELF-PROPELLING HOPPER BARGES.

The Self-propelling Hopper Barge No. 1.—Steel hull; single screw; length between perpendiculars, 180 feet; breadth moulded, 32 feet; depth moulded, 14 feet 6 inches; draught (loaded), 12 feet; depth of rubbing keel, 5 inches; total draught, 12 feet 5 inches; deadweight on above draught, 785 tons; indicated horse-power, 500; net capacity of hopper, 530 cubic yards; built by Messrs. Geo. T. Davie & Sons, Lévis, Que., in 1913.

The Self-propelling Hopper Barge No. 2.—Steel hull; single screw; length between perpendiculars, 180 feet; breadth moulded, 32 feet; depth moulded, 14 feet 6 inches; draught (loaded), 12 feet 7 inches; depth of rubbing keel, 5 inches; total draught, 13 feet; deadweight on above draught, 800 tons; indicated horse-power, 700; net capacity of hopper, 530 cubic yards; built by Collingwood Shipbuilding Co., Collingwood, Ont., in 1915.

TUGS.

The Ice-breaking and Emergency Tug "Lady Grey."—Steel hull; twin screw; length between perpendiculars, 172 feet; length over all, 183 feet 6 inches; breadth moulded, 32 feet; breadth extreme, 32 feet 3 inches; depth moulded, 18 feet; draught mean to bottom of flat plate keel (normal), 12 feet; draught when ice-breaking, about 13 feet; displacement in tons at 12-foot draught, 1,070; mean speed, at 12-foot draught on 6 runs over measured mile base, 14 knots; built by Vickers Sons & Maxim, Barrow-in-Furness, England, 1906.

The Tug "Bellechasse," steel hull, twin screw.—Length between perpendiculars, 130 feet; breadth moulded, 27 feet; draught aft, 10 feet 3 inches; draught forward, 8 feet 9 inches; indicated horse-power, 1,000; built by the Kingston Shipbuilding Co., Kingston, Ont., in 1913.

7 GEORGE V. A. 1917

The Tug "Frontenac," composite hull, twin screw.—Length over all, 113 feet; breadth of beam, 23 feet; depth of hold, 10 feet; average draught, 9 feet; built at Sorel shipyard in 1902.

The Tug "De Levis," wooden hull, twin screw.—Length over all, 104 feet; breadth of beam, 20 feet; depth of hold, 10 feet; average draught, 8 feet; built at Sorel shipyard in 1902.

The Tug "James Howden," wooden hull, twin screw.—Length over all, 100 feet; breadth of beam, 21 feet; depth of hold, 10 feet; average draught, 7.5 feet; built at Sorel shipyard in 1903.

The Tug "Iberville," steel hull, single screw.—Length over all, 90 feet; breadth of beam, 18 feet; depth of hold, 12 feet; average draught, 10 feet; built at Sorel shipyard in 1897.

The Tug "Lac St. Pierre," wooden hull, twin screw.—Length over all, 100 feet; breadth of beam, 21 feet; depth of hold, 10 feet; average draught, 7.6 feet; built at Sorel shipyard in 1901.

The Tug "Portneuf," wooden hull, single screw.—Length over all, 85 feet; breadth of beam, 17.3 feet; depth of hold, 9.8 feet; average draught, 8 feet; built at Sorel shipyard in 1905.

The Tug "Chambly," wooden hull, single screw.—Length over all, 84 feet; breadth of beam, 18 feet; depth of hold, 9.5 feet; average draught, 9 feet; built at Sorel Shipyard in 1893.

The Tug "Emilia," wooden hull, single screw.—Length over all, 84 feet; breadth of beam, 17 feet; depth of hold, 9 feet; average draught, 8 feet; built at Sorel shipyard in 1898.

The Tug "Lanoraie," wooden hull, single screw.—Length over all, 84 feet; breadth of beam, 17 feet; depth of hold, 9 feet; average draught, 8 feet; built at Sorel shipyard in 1901.

The Tug "Jessie Hume," wooden hull, single screw.—Length over all, 72 feet; breadth of beam, 17.2 feet; depth of hold, 10 feet; average draught, 8.5 feet; built at St. Catharines, Ont., in 1876.

The Tug "Lotbinière," wooden hull, twin screw.—Length over all, 80 feet; breadth of beam, 23 feet; depth of hold, 8 feet; average draught, 7 feet; built at Sorel shipyard in 1903.

The Tug "Carmelia," wooden hull, single screw.—Length over all, 84 feet; breadth of beam, 17 feet; depth of hold, 9 feet; average draught, 8 feet; purchased in 1904.

The Tug "Contrecoeur," wooden hull, twin screw.—Length over all, 90 feet; breadth of beam, 22.7 feet; depth of hold, 9 feet; average draught, 7 feet; built at Sorel shipyard in 1910.

The Tug "Varennnes," wooden hull, twin screw.—Length over all, 96 feet; breadth of beam, 22 feet; depth of hold, 9 feet; average draught, 7 feet; built at Sorel shipyard in 1911.

SESSIONAL PAPER No. 21

The Tug "Laviolette," steel hull, twin screw.—Length over all, 92 feet; breadth of beam, 22 feet; depth of hold, 9.3 feet; average draught, 7 feet; built at Sorel shipyard in 1912.

The Tug "Lavaltrie," steel hull, twin screw.—Length over all, 92 feet; breadth moulded, 22 feet; depth moulded, 10 feet; average draught, 6 feet 6 in.; built at Sorel shipyard in 1913.

The Tug "Becaneour," steel hull, twin screw.—Length over all, 100 feet; breadth moulded, 22 feet 6 inches; depth of hold, 9 feet; average draught, 7 feet; capacity of fire pumps, 1,200 gallons (U.S.) per minute; built at Sorel shipyard in 1914.

The Tug "Deschaillons," steel hull, twin screw.—Length over all, 100 feet; breadth moulded, 22 feet 6 inches; depth moulded, 10 feet; depth of hold, 9 feet; average draught, 7 feet; fire pumps similar to those on "Becaneour" to be installed; built at Sorel shipyard in 1914.

COAL BARGES.

Coal Barge No. 1, wooden hull.—Length over all, 120 feet; breadth of beam, 24 feet; depth of hold, 10 feet; capacity, 360 tons; built at Sorel shipyard in 1898.

Coal Barge No. 2, wooden hull.—Length over all, 125 feet; breadth of beam, 25 feet; depth of hold, 11 feet; capacity, 400 tons; built at Sorel shipyard in 1900.

Coal Barge No. 3, wooden hull.—Length over all, 98 feet; breadth of beam, 28 feet; depth of hold, 12 feet; capacity, 370 tons; built at Sorel shipyard in 1902.

Coal Barge No. 4, wooden hull.—Length over all, 98 feet; breadth of beam, 28 feet; depth of hold, 12 feet; capacity, 360 tons; built at Sorel shipyard in 1903.

Coal Barge No. 5, steel hull.—Length over all, 127 feet; breadth of beam, 32 feet; depth of hold, 10 feet; capacity, 360 tons; built at Sorel shipyard in 1911.

SOUNDING SCOWS.

Sounding Scow No. 1, wooden hull.—Length over all, 64 feet 0 inches; breadth of beam (outside plank), 26 feet 6 inches; depth at side, 6 feet; built at Sorel shipyard in 1896.

Sounding Scow No. 2, wooden hull.—Length over all, 95 feet 6 inches; breadth of beam (outside plank), 37 feet 9 inches; depth at side, 4 feet 6 inches; transferred from Prescott Agency in 1907, re-modeled and improved in Sorel shipyard.

Sounding Scow No. 3, wooden hull.—Length over all, 77 feet 6 inches; breadth of beam (outside plank), 33 feet 8 inches; depth at side, 7 feet 0 inches; built at Sorel shipyard in 1913.

WINCH SCOWS.

No. 1.—Winch scow used for fleet in general.—Length over all, 61 feet 6 inches; breadth of beam (outside plank), 18 feet 8 inches; depth at side, 6 feet 0 inches; built at Sorel shipyard in 1908.

No. 2.—*Winch scow used for fleet in general.*—Length over all, 57 feet 8 inches; breadth of beam (outside plank), 18 feet 6 inches; depth at side, 5 feet 0 inches; built at Sorel shipyard in 1908.

DERRICK SCOW.

Derrick Scow used at Sorel Shipyard in connection with construction and repairs to dredging fleet.—Length over all, 61 feet 6 inches; breadth of beam (outside plank), 28 feet 10 inches; depth at side, 6 feet 6 inches; equipped with a derrick of 5 tons lifting capacity.

HOPPER DUMPING SCOWS WITH HYDRAULIC POWER FOR CLOSING GATES.

No. 1.—*Wooden hull, with hydraulic power for closing gates.*—Length over all, 84 feet 6 inches; breadth of beam (outside plank), 20 feet 8 inches; depth at side, 8 feet 6 inches; capacity, 150 cubic yards; built at Sorel shipyard in 1897.

No. 2.—*Wooden hull, with hydraulic power for closing gates.*—Length over all, 84 feet 0 inches; breadth of beam (outside plank), 21 feet 0 inches; depth at side, 8 feet 6 inches; capacity, 150 cubic yards; built at Sorel shipyard in 1897.

No. 3.—*Wooden hull, with hydraulic power for closing gates.*—Length over all, 91 feet 6 inches; breadth of beam (outside plank), 23 feet 10 inches; depth at side, 8 feet 6 inches; capacity, 200 cubic yards; built at Sorel shipyard in 1898.

No. 4.—*Wooden hull, with hydraulic power for closing gates.*—Length over all, 95 feet 0 inches; breadth of beam (outside plank), 25 feet 0 inches; depth at side, 9 feet 6 inches; capacity, 200 cubic yards; built at Sorel shipyard in 1898.

Nos. 5 and 6.—*Wooden hulls, with hydraulic power for closing gates.*—Length over all, 98 feet 0 inches; breadth of beam (outside plank), 25 feet 6 inches; depth at side, 9 feet 6 inches; capacity, 200 cubic yards; built at Sorel shipyard in 1899.

No. 7.—*Wooden hull, with hydraulic power for closing gates.*—Length over all, 99 feet 0 inches; breadth of beam (outside plank), 25 feet 6 inches; depth at side, 9 feet 6 inches; capacity, 200 cubic yards; built at Sorel shipyard in 1901.

No. 8.—*Wooden hull, with hydraulic power for closing gates.*—Length over all, 98 feet 0 inches; breadth of beam (outside plank), 25 feet 6 inches; depth at side, 9 feet 6 inches; capacity, 200 cubic yards; built at Sorel shipyard in 1901.

No. 9.—*Wooden hull, with hydraulic power for closing gates.*—Length over all, 101 feet 0 inches; breadth of beam (outside plank), 27 feet 0 inches; depth at side, 9 feet 6 inches; capacity, 300 cubic yards; built at Sorel shipyard 1901.

Nos. 10 and 11.—*Wooden hulls, with hydraulic power for closing gates.*—Length over all, 93 feet 0 inches; breadth of beam (outside plank), 27 feet 6 inches; depth at side, 8 feet 6 inches; capacity, 250 cubic yards; built at Sorel shipyard 1913.

Nos. 12 and 13.—*Wooden hulls with hydraulic power for closing gates.*—Length over all, 100 feet 0 inches; breadth of beam (outside plank), 27 feet 0 inches; depth at side, 10 feet 6 inches; capacity, 300 cubic yards; built at Sorel shipyard 1902.

SESSIONAL PAPER No. 21

No. 14.—Wooden hull, with hydraulic power for closing gates.—Length over all, 92 feet 8 inches; breadth of beam (outside plank), 25 feet 0 inches; depth at side, 8 feet 6 inches; capacity, 200 cubic yards; built at Sorel shipyard 1905.

No. 15.—Wooden hull, with hydraulic power for closing gates.—Length over all, 93 feet 0 inches; breadth of beam (outside plank), 25 feet 0 inches; depth at side, 9 feet 0 inches; capacity, 200 cubic yards; built at Sorel shipyard 1905.

No. 16.—Wooden hull, with hydraulic power for closing gates.—Length over all, 93 feet 6 inches; breadth of beam (outside plank), 25 feet 0 inches; depth at side, 8 feet 6 inches; capacity, 200 cubic yards; built at Sorel shipyard 1909.

No. 17.—Wooden hull, with hydraulic power for closing gates.—Length over all, 94 feet 6 inches; breadth of beam (outside plank), 25 feet 6 inches; depth at side, 8 feet 6 inches; capacity, 200 cubic yards; built at Sorel shipyard 1909.

Nos. 18 and 19.—Wooden hulls, with hydraulic power for closing gates.—Length over all, 93 feet 0 inches; breadth of beam (outside plank), 27 feet 6 inches; depth at side, 8 feet 6 inches; capacity, 250 cubic yards; built at Sorel shipyard 1911.

No. 20.—Wooden hull, with hydraulic power for closing gates.—Length over all, 93 feet 6 inches; breadth of beam (outside plank), 27 feet 6 inches; depth at side, 8 feet 6 inches; capacity, 250 cubic yards; built at Sorel shipyard 1912.

No. 21.—Wooden hull, with hydraulic power for closing gates.—Length over all, 93 feet 9 inches; breadth of beam (outside plank), 27 feet 9 inches; depth at side, 8 feet 6 inches; capacity, 250 cubic yards; built at Sorel shipyard 1912.

No. 22.—Steel hull, hydraulic power, fitted with valves instead of gates for carrying sand.—Length over all, 108 feet 0 inches; breadth of beam (outside plank), 21 feet 0 inches; depth at side, 12 feet 0 inches; capacity, 200 cubic yards built at Sorel shipyard 1912.

Nos. 23 and 24.—Steel hulls, with hydraulic power for closing gates.—Length over all, 100 feet 0 inches; breadth of beam (outside plank), 29 feet 0 inches; depth at side, 10 feet 3 inches; capacity, 250 cubic yards; built at Sorel shipyard 1915 and 1916.

Nos. 25 and 26.—Steel hulls, with hydraulic power for closing gates.—Length over all, 100 feet 0 inches; breadth of beam (outside plank), 29 feet 0 inches; depth at side, 9 feet 3 inches; capacity, 235 cubic yards; built at Sorel shipyard 1913.

Nos. 27, 28, 29 and 30.—Steel hulls, with hydraulic power for closing gates.—Length over all, 140 feet 0 inches; breadth of beam (outside plank), 30 feet 0 inches; depth at side, 11 feet 9 inches; capacity, 450 cubic yards; built at Sorel shipyard 1914.

Nos. 31 and 32.—Steel hulls, with hydraulic power for closing gates.—Length over all, 100 feet 0 inches; breadth of beam (outside plank), 29 feet 0 inches; depth at side, 10 feet 3 inches; capacity, 250 cubic yards; built at Sorel shipyard 1915.

FLAT SCOWS.

Flat Scow No. 1, wooden hull.—Length over all, 99 feet 0 inches; breadth of beam (outside plank), 27 feet 0 inches; depth at side, 10 feet 8 inches; built at Sorel shipyard 1901.

Flat Scow No. 2, wooden hull.—Length over all, 100 feet 0 inches; breadth of beam (outside plank), 27 feet 0 inches; depth at side, 10 feet 10 inches; built at Sorel shipyard 1902.

Flat Scow No. 3, wooden hull.—Length over all, 62 feet 0 inches; breadth of beam (outside plank), 18 feet 8 inches; depth at side, 6 feet 6 inches; built at Sorel shipyard 1908.

SESSIONAL PAPER No. 21

APPENDIX No. 4.

SOREL SHIPYARD.

SOREL, June 7, 1916.

The Deputy Minister of Marine,
Ottawa, Ont.

SIR,— I have the honour to submit the following annual report of work done at Sorel shipyard during the fiscal year ending 31st March, 1916.

At the begining of the year, 1st April, 1915, the winter repairs and renewals and outfitting of the vessels of the St. Lawrence Ship Channel fleet were practically all completed and the crews being taken on for the coming season's work.

The Richelieu river was clear of ice on the 3rd April, 1915, and the St. Lawrence river, at Sorel, on the 5th April, 1915. The first dredge of the fleet left Sorel to go into commission on the 5th May.

During the season the vessels were all maintained in a good and serviceable condition and the necessary operating repairs carried out.

Fifteen dredges were put and kept in working condition during the season, and seventeen tugs of the St. Lawrence Ship Channel fleet were overhauled, repaired, and painted during the winter months, and minor repairs effected during the summer months.

Five coal barges, twenty-six dumping scows, and four flat scows, stone lifters and rock cutter were also repaired and kept in serviceable condition.

The floating shop was fitted with a steam engine, the former gas engine not having proved satisfactory, and the fenders and deck were repaired.

REPAIRS TO DOMINION STEAMERS.

Lady Grey (Ice breaker).—This vessel is an ice-breaker, and the repairs are done during the fall. The repairs were as follows during the season:—

General overhauling of deck equipment; repairs to engine and auxiliaries. The machinery was overhauled and heavy repairs made to boilers, that is, additional stay-bolts in back of the four boilers; sixty-two tubes were renewed in the two forward boilers. Installation of one new sanitary pump. The vessel was painted and varnished where required.

C.G.S. Frontenac.—Summer repairs: This steamer was hauled out on October 29 to renew *lignum vite* in bushes. Some caulking to hull and deck was made at the same time. Engine: had just the ordinary repairs during summer.

Winter repairs: Repairs to deck-houses and wooden rail, bulwark, stanchion, combing, fenders, and to deck. Engine: pistons of main engine were repaired, and machinery overhauled.

A coat of paint was applied inside and outside of vessel as usual in spring.

C.G.S. Dollard.—Summer repairs (hull): During the summer the upper deck was caulked once, and the vessel was painted.

Machinery: Some caulking was done to the boiler besides the ordinary winter repairs.

Winter repairs: This vessel was prepared for sea-going, which necessitated the stiffening of hatches, building of breakwater, etc. The oil-heating system of the boiler was changed into the coal-heating system. The oil tanks in the bunkers had to be cut in pieces and removed.

Wood sheathing was placed on the bunker floor, deck hatches installed, and also grate bars to furnaces.

7 GEORGE V, A. 1917

The general repair and overhauling of machinery record reads as follows: Overhauling of fresh water pump with new set of valves; new bracket for reverse engine rod; repairs to reducing valves; overhauling of two condensers; general overhauling of windlass, winches, pumps, dynamo, steam pipes, and electric light system, and recharging of storage batteries.

Steamer *Bellechasse*.—This vessel, working below Quebec, had only a few pieces of machinery supplied by the shipyard and shipped per R. & O. boat. She came to the shipyard a couple of times during the summer for light repairs to her boiler and engine.

Winter repairs: Were done at Quebec, the vessel being under steam early this spring.

REPAIRS TO VESSELS OF PUBLIC WORKS DEPARTMENT.

C.G.S. *W. S. Fielding*.—This vessel had four cast steel bucket rollers and one top tumbler and shaft prepared at the shipyard.

CONSTRUCTION OF LIGHTS DEPARTMENT.

A good deal of work was done for this department, and all necessary equipment was supplied for the construction of lights and maintenance of buoys, such as cleats, bolts, chisels, fairleads, deck plugs, buoy forgings, rings, rods, etc.

Barge *Acetylene*.—The summer repairs on this vessel were made by the Construction of Lights Department, except a few small ones as below: galley stove, and piston rings for capstan were supplied by the shipyard.

This vessel was hauled out on the 29th April to repair the iron sheathing of her hull and for painting.

Winter repairs: Had just the absolutely necessary repairs to deck houses, deck, and railings.

Steamer *Verchères*.—Was hauled out on May 24 for fitting a new propeller wheel, and also for repairs to stern bush.

Winter repairs: New davits for a larger life-boat; repairs to combing. Paint was applied inside and outside in early spring.

Boiler: Tubes renewed, electric welding in furnaces.

Engine: Repairs to piston of main engine, to injector, drains of engine, to steam connections and speaking tubes.

C.G.S. *Reserve*.—This vessel was hauled out on June 19, 1915, for repairs to hull, steel sheathing, and to stern tube.

Winter repairs (hull): Repairs to main deck, fenders, rails, and deck-houses.

General overhauling of machinery and heavy repairs to boiler, that is tubes renewed, repairs to piping, electric welding and brickwork in furnaces. A coat of paint was given inside and outside of this vessel in spring.

Steamer *Shamrock*.—Summer repairs: repairs to feed pump, throttle valve and derrick.

This vessel was hauled out on April 20, 1915, for repairs to rudder and to renew propeller wheel; the hull was painted under water line.

Winter repairs: Had five wooden stanchions renewed; also repairs to floor in engine room; deck was canvassed and repaired. Had a coat of paint given in spring, outside only.

Engine: One set of brass valves in sanitary pump. General overhauling and repairs to engine and steam pipes; one new port hole for houses, new rod for steering gear.

Boiler: Caulking of stays in combustion chamber and electric welding inside of furnaces. The bulwark in the boiler had to be removed.

SESSIONAL PAPER No. 21

Scow *Quebec*.—This vessel was hauled out on May 20, 1915, for caulking and repairs to her hull, which was sheathed for protection against ice. Other repairs on this vessel were made in Construction of Lights Department shop.

Launch *Margot*.—The gasoline launch *Margot*, belonging to the shipyard, but on loan to this department, had repairs to her hull and engine. A few repairs to their operating plant were also made, such as overhauling of electric wires, etc.

The pile driver belonging to this Department was kept in good order and had the operating repairs done at the shipyard.

Buoys.—One hundred steel spar buoys to replace the wooden buoys formerly used in the channel, were made for this department. Incidental repairs to winter buoys have also been made. Six "Aga" buoys were also reconstructed during the season.

NEW CONSTRUCTIONS.

No. 54.—This vessel, named *Bradbury*, is a twin-screw steel wood-sheathed steamer for the Department of Naval Service, for fisheries patrol on lake Winnipeg, of the following dimensions:—Length, B.P., 151 feet 0 inches; length O. A., 160 feet 6 inches; breadth moulded, 26 feet 6 inches; depth, 13 feet 6 inches; draught, 7 feet 6 inches.

Work on this vessel was continued at Selkirk, and she was successfully launched on May 19, 1915; was then completed, and trial trip made on Aug. 6, when a maximum speed of 11.6 knots was obtained with slightly over 1,000 I.H.P. The vessel is fitted with two Scotch marine boilers 11 feet 0 inches diameter by 11 feet 6 inches long, with a working pressure of 150 pounds per square inch; these were made in the shipyard and are fitted with Howden's draught.

The engines are twin-screw triple expansion, jet-condensing, having cylinders 11 inches, 18 inches, and 30 inches diameter by 20-inch stroke, and were supplied by Polsons Ltd., Toronto.

The gasoline launch, which was built in the shipyard and fitted with a 25-horse-power engine, was tried before delivery to Selkirk, and a mean speed of $11\frac{1}{2}$ miles per hour was obtained.

From all reports received, this vessel has given great satisfaction.

No: 57.—This vessel, named *Detector*, is a twin-screw steel steamer fitted for sounding and testing purposes in the St. Lawrence ship channel, of the following dimensions:—Length, B. P., 140 feet 0 inches; length O. A., 147 feet 0 inches; breadth moulded, 35 feet 0 inches; depth, moulded 15 feet 0 inches; draught, loaded, 10 feet 0 inches.

This vessel was launched on May 24, 1915, and completed sufficiently for trials, which took place on the 10th, 13th, and 27th November, 1915.

The main speed of 10.183 knots was obtained with an indicated horsepower of about 600.

On the third day a trial of the sounding apparatus was made and found to be satisfactory, the vessel steering well with the boom on the bottom at a speed of 4 miles per hour, which is about her working speed.

The vessel is fitted with twin-screw compound surface-condensing engines made by the New Burrell Johnson Co., of Yarmouth, N.S., having cylinders 14 inches and 18 inches diameter by 21-inch stroke.

The boiler is of the Scotch marine type, 15 feet diameter by 11 feet long, with a working pressure of 130 pounds per square inch, and was made in the shipyard.

The vessel carries a gasoline launch, one lifeboat, and one dinghy, built in the shipyard.

The necessary work to put the vessel in commission, and which was done owing to the approach of winter, will be completed at the beginning of the new fiscal year.

No. 59.—This vessel, named *Berthier*, is a twin-screw steel tug for staff purposes on the St. Lawrence ship channel service below Quebec, of the following dimensions:—Length B.P., 120 feet 0 inches; length O.A., 130 feet 0 inches; breadth moulded 24 feet 0 inches; depth, moulded 12 feet 0 inches; draught, mean, 8 feet 0 inches.

This vessel has been arranged with good accommodation for the staff engineers and also for the officers and crew.

The machinery consists of twin-screw compound surface-condensing engines having cylinders 14 inches and 28 inches diameter by 21-inch stroke, built by the New Burrell Johnson Co., of Yarmouth, N.S., supplied with steam from a Scotch marine boiler 15 feet 0 inches diameter by 11 feet 0 inches long, with a working pressure of 130 pounds per square inch. The boiler has been built by the shipyard. This vessel will be launched in early summer, 1916.

No. 60.—This vessel, named *Argenteuil*, is a single-screw steel steamer for buoy service on the Ottawa river, and is of the following dimensions:—Length O.A., 100 feet; breadth moulded, 21 feet; depth moulded, 9 feet; draught, loaded, 5½ feet.

This vessel was originally intended to be composite-built, but it was found to be possible on the designed draught to have a complete steel hull with a sheathing of British Columbia fir on bottom and bilges as a protection against boulders in the shallow waters where she will be sometimes working.

The steel was taken from the shipyard stock, and work was commenced on the hull in July, 1915, which will be ready to launch early in the summer of 1916.

The machinery consists of one set of compound jet-condensing engines supplied by Polsons Ltd., Toronto, having cylinders 10 inches and 20 inches diameter by 14-inch stroke, supplied with steam from a Scotch marine boiler 9 feet 6 inches diameter by 10 feet 0 inches long, having a working pressure of 130 pounds per square inch, which has been made in the shipyard. A derrick and winch for handling buoys up to 6 tons weight will be fitted.

No. 62.—This vessel is a composite, single-screw steamer for the Department of Naval Service for use of the oyster fisheries, of the following dimensions: Length B.P., 77 feet 0 inches; length, O.A., 85 feet 0 inches; breadth moulded, 18 feet 0 inches; depth, moulded 7 feet 0 inches; draught, 4 feet 9 inches.

This vessel is constructed with steel framing and plank of rock elm, oak, and British Columbia fir.

There is accommodation for a crew of six, and the vessel is fitted with a steam trawl winch and gear for use in the oyster fisheries.

Work was begun towards the end of January, 1916, and the vessel should be ready to launch by the beginning of June.

The machinery consists of one set of compound surface-condensing engines, having cylinders 10 inches and 20 inches diameter, by 12-inch stroke, built by John Inglis Co., Toronto. The boiler is 8 feet 6 inches diameter by 8 feet 9 inches long, with a working pressure of 120 pounds per square inch, and will be built in the shipyard.

The vessel would have been ready by the end of May, 1916, but owing to delays in delivery of materials owing to the present war conditions, delivery will be a little later.

No. 63.—This vessel, named *Coal Barge No. 6*, is a single-screw, steel coal barge for use on the St. Lawrence Ship channel, of the following dimensions: Length, B.P., 165 feet 0 inches; length O.A., 172 feet 0 inches; breadth moulded, 32 feet 0 inches; depth moulded, 13 feet 0 inches; draught, loaded, 10 feet 8½ inches; dead-weight, 750 tons.

The vessel has been built with five watertight bulkheads, double bottom in engine room to act as a reserve feed tank, having a capacity of 11 tons, and

SESSIONAL PAPER No. 21

a trimming tank forward. A fresh-water tank is fitted in the hold with a capacity of 5 tons.

There are two holds with large hatches and a revolving steam crane with a clam fitted between the hatches for handling coal, with a travelling shoot on each side of the vessel for the rapid coaling of the dredges.

The crane is also arranged for lifting weights up to 6 tons, so that the vessel can be used for buoy service in spring and fall if required.

The vessel was launched November 18, 1915; the engines and boilers put on board, and will be completed ready for service in May, 1916.

Nos. 64 to 67.—These constructions are four steel dumping scows of the following dimensions:—Length O.A., 100 feet 0 inches; breadth moulded, 29 feet 0 inches; depth moulded, 10 feet 3 inches; capacity, 250 cubic yards.

They are fitted with hydraulic machinery similar to that fitted on the other steel scows. The first three were launched in the fall of 1915; the last one will be launched in the early summer, 1916.

During the winter the whole fleet of the ship channel has been overhauled as to navigation lights and brought up to the latest regulations in every respect.

The question of life-saving appliances was also looked into. All life-buoys and belts being tested, and replaced where found defective. The dimensions of the small boats are being looked into at the time of writing this report.

In addition to other work, the making of steel buoys for the Chief Engineer's department has been commenced during this year, and up to March 31, 1916, the following have been practically completed:—Four automatic whistling buoys, six bell buoy floats, 7 large gas and whistling buoys, one hundred steel spar buoys to replace wooden ones in use. These buoys were for various harbours on the Atlantic and Pacific coasts.

GENERAL.

Owing to war conditions, every economy possible was exercised in the carrying out of the work in the shipyard. No expensive alterations or improvements were made to the machinery or buildings.

The painting throughout the yard was also delayed for one season. The foundations of the office building and one or two others where necessary were overhauled and put in good order.

The shipyard launches *Margot*, *Buffalo*, and *Bronx* were maintained in good order and painted. The *Margot* has been employed by the Lights Department all season, and has done very good work for them.

All the fences were repaired where necessary, and whitewashed during the season.

The shipyard hauling-out ways were extensively repaired and otherwise kept in good order.

The force employed during the fiscal year varied from 1,075 in September, 1915, to 650 in March, 1916. The daily average being about 850.

On March 2 last, the shipyard carpenter shop, a wooden structure about 220 feet by 35 feet, one story high, was destroyed by fire. The cause of the fire is unknown. Work on the foundations for a new building was begun during end of fiscal year.

The financial statement shows the total amount expended on the shipyard and ship channel to have been \$1,530,642.10.

I have the honour to be, sir,

Yout obedient servant,

W. S. JACKSON,

Superintendent of Shipyard.

APPENDIX No. 6.

METEOROLOGICAL SERVICE

TORONTO, May 25, 1916.

The Deputy Minister of Marine,
Ottawa, Ont.

SIR:—I have the honour to submit the forty-fifth Annual Report of the Meteorological Service for the fiscal year ended March 31, 1916.

Meteorological returns have been received at the central office from 532 stations, including telegraph reporting stations and climatological stations, but not including storm signal stations which are 112 in number.

For various duties in connection with the service 370 persons, chiefly observers, have been in receipt of pay, and of this number thirty-four were employed in the central office.

During the year the number of observing stations has increased in the aggregate by forty-two; sixty-eight new stations having been opened, while twenty-six were closed.

The closing of stations is always to be regretted, as the longer the record at a place the more valuable it is. In the early days of the service nearly all stations were established on a wholly voluntary basis, but as years passed it was found that in order to obtain observers in outlying localities such as Hudson bay posts in the north, and at places away from populous centres, it was necessary to pay small stipends, and thus quite a number of stations ere long had an annual allowance ranging between \$18 and \$100.

Subsequently, it was recognised that while at some places the same voluntary observer continued observing through a long term of years, at the majority of the stations, the work was of a desultory character, and the observing duties were turned over from one to another and there were long breaks which vitiated the value of the station's records.

With the advent of electrical power came a great demand from engineers for information regarding the rainfall over water sheds of our southward flowing rivers, and the information desired was the average value of the rainfall, the average periodic variations, the secular change, and the average non-periodic variability. Accurate information with these details cannot yet be fully supplied.

Again, with the movement towards forest conservation and the establishment of the great pulp industries came numerous applications for the same information as the electrical engineer had asked for.

Then again, the Government and Railway departments dealing with the problems of irrigation in the western provinces, found the same information was essential to the economic conduct of their work, and lastly Government commissions have found exact meteorological data necessary in connection with the Waterways Treaty between Canada and the United States.

The Superintendent of Irrigation wrote me in March, 1915, as follows:—

“In connection with the division of the water of St. Mary and Milk rivers between Canada and the United States, under the provisions of article vi of the Waterways Treaty, this branch has for several years been

collecting stream flow data on these two rivers and their tributaries in Canada. Similar work has been carried on by the Geological Survey in the state of Montana. It is a question, however, whether the measured flow is a true indication of the total volume of water falling on this watershed. Possibly a computation based upon precipitation records and computed runoff in the different portions of the watershed might produce a very different total volume of water to be divided between the two countries."

"Will you be kind enough to let me know whether the records of Canada and the United States will permit you to divide this watershed into belts or zones and to state, more or less definitely, the amount of the annual precipitation and runoff in each such zone. If this can be done with a reasonable degree of accuracy, and if the number of years' observations upon which each statement is based can be given, the result may be very useful in the preparation of the Canadian case."

In view of these various urgent demands for rainfall data, it became necessary for the Meteorological Service, under which the Climatological Survey has been placed, to take such action as would insure continuous observations of rainfall at numerous stations well distributed over the Dominion.

It has then been well proved that to ensure continuous accurate observations, small salaries must be allowed to make it worth the while of the busy man to attend with regularity to the work required of him. It has been this consideration which has led to my asking for the establishment of numerous rainfall stations with the small annual stipend of \$48 attached to each of them—and our experience to the present time indicates beyond peradventure, that the system is a good one, and will alone provide for a satisfactory network of homogeneous stations, and lessen the number which will be closed annually.

The following is a list of the new stations and the names of the observers:—

Station.	Class.	Agent.
Coronation, B.C.	II	Wm. Haylmore.
North Bend, B.C.	II	H. Gowan.
Alvaston, B.C.	II	M. P. Williams.
Kleena Kleena, B.C.	II	S. H. Colwell.
Metehosin, B.C.	II	W. Fisher.
Parksville, B.C.	III	G. M. Bernard.
Summerland Exp. Farm, B.C.	II	B. A. Blair.
Vanderhoof, B.C.	II	R. M. Belt.
Wabasca, Alta.	II	Rev. Alfred S. White.
Brooks, Alta.	II	F. W. Gibson.
Langdon, Alta.	II	A. McKinnon.
Milk River, Alta.	II	W. M. Kinder.
Manyberries, Alta.	II	M. Mickleson.
Jenner, Alta.	II	Jerry Fisher.
Foremost, Alta.	II	T. H. Frankish.
Nordegg, Alta.	II	Wm. Stevenson.
Rocky Mountain House, Alta.	II	Wm. Austin.
Monitor, Alta.	III	Chas. Connah.
Caboi, Sask.	II	F. W. Abraham.
Assiniboia, Sask.	II	Percy Warren.
Shaunavon, Sask.	II	Neil McLean.
Prelate, Sask.	II	W. Huxtable.
Crane Lake, Sask.	III	H. R. Wilkinson.
Gull Lake, Sask.	II	E. H. Thomas.
Saskatoon, Sask.	I	J. L. Hogg.
Indian Bay, Man.	II	A. C. D. Blanchard.
Port Nelson, Man.	I	A. Sutherland.
Pinawa, Man.	II	H. E. Phillips.
Goodlands, Man.	II	Thos. C. B. Boon.
Sprague, Man.	II	A. E. Powell.

SESSIONAL PAPER No. 21

Station.	Class.	Agent.
Morris, Man.	II	D. M. Ure.
Giroux, Man.	II	Jas. E. Green.
Grand Rapids, Man.	II	J. Fletcher.
Quorn, Ont.	II	A. W. Fanning.
Sellwood Junction, Ont.	III	R. J. Waldbrook.
Healy Falls, Ont.	III	G. A. Vandervoort.
North Bay, Ont.	II	J. H. Metcalf.
Meaford, Ont.	II	J. Magor.
Brockville, Ont.	II	G. G. Grothier.
Mount Forest, Ont.	II	John Hanna.

Nipissing, Ont.	III	W. H. Smith.
Gore Bay, Ont.	II	J. F. Metcalf.
Vankleek, Ont.	III	E. H. Elvidge.
Clontarf, Ont.	II	Chas. Giernan.
Rosspoint, Ont.	II	E. J. McKenna.
Pictou, Ont.	III	F. D. Hawkins.
Kirkland Lake, Ont.	III	E. M. Monteith.
Trout Lake, Ont.	I	John Gregg.
Hornepayne, Ont.	II	J. A. Mullin.
Lambton, Que.	II	Alfred Rousseau.
Seven Falls, Que.	II	S. W. Ross.
Fort George, Que.	II	Owen Griffith.
St. Joseph D'Alma, Que.	II	P. A. Guay.
Gaspé, Que.	II	Chas. T. Davis.
Baddeck, N.S.	II	Rev. Jno. McKinnon.
Upper Stewiacke, N.S.	II	Marie Fulton.
Lochaber, N.S.	II	Jno. T. Keating.
Stillwater, N.S.	I	Henry A. McLane.
Cape Dorset, Baffin Land	I	Stephen J. Stewart.

CENTRAL OFFICE.

Since my last report Mr. Basil Cody has resigned from the staff of the central office and W. D. Allan, Lt.-Col., 2nd Battalion, C.E.F., is still on active service, and there have been no new appointments.

FORECAST BRANCH.

As it happens, both the above named assistants were attached to the forecast branch which is in consequence under-manned, and most of the work is being done by the director and assistant director, who with one assistant take equal turns of night duty. Of the daily forecasts issued during the year, 85.6 per cent were verified and of the storm warnings, 87.4. Forecasts and storm warnings have also been issued with the same regularity for Newfoundland as for Canada, and with a marked degree of success, but no acknowledgment of the work performed has been received from that country either of a financial character or as a letter of thanks.

Fewer gales than frequently occur during a like period were experienced in Ontario, Quebec, and the Maritime Provinces during the season of navigation in the fiscal year from April, 1915, to March 31, 1916, inclusive. There were, however, several quite remarkable summer storms, the most notable being the severe gales in the St. Lawrence valley, on the 22nd of June and the 9th July,

and the one in the lower lake region on the 3rd of August. There was also a violent early autumn gale in the gulf of St. Lawrence and the Maritime Provinces on the 26th of September which caused several disastrous wrecks, besides much other damage. November, as is usually the case, was responsible for many gales on the Great Lakes, three out of the seven being fresh to heavy, whereas February and March were marked by a succession of heavy gales in the Maritime Provinces.

The gale on the 22nd of June was not warned; the fresh gale in the maritime provinces on the 28th of January was also missed, and a warning issued to the lower lake region on the 20th of August in advance of a West India hurricane which had caused great damage in the gulf of Mexico and the Gulf States was not verified. The remains of the storm actually passed directly over lake Ontario on the 21st but with so much diminished energy that strong winds only prevailed, attended by heavy rains. With the few exceptions mentioned, all the gales were predicted and in nearly every case in advance of the beginning of the storm, the percentage of verification for the heavy gales being as high as 90 per cent.

PUBLICATION BRANCH.

The results obtained from the returns received from the numerous meteorological stations have been used in the preparation of the various regular publications of the service, including the Annual Climatological Report, the Monthly Weather Review, the Monthly Map and the Report of the Toronto Observatory. In addition to these regular publications the service has issued a booklet on the "Temperature and Precipitation of British Columbia" which gives in detail the climatic features of that province. Similar booklets for the other provinces are to follow, and the whole will subsequently be bound together. There has also been issued a small brochure on the "Climate of Canada."

STATIONS INSPECTED DURING THE YEAR 1915-16.

Sarnia, Cottam, London, Port Stanley, Port Burwell, Port Dover, Port Colborne, Oakville, Woodstock, Southampton, Warton, Owen Sound, Meaford, Collingwood, Qualicum Beach, Nanoose Bay, Nicola, Stonecliffe, Cochrane, North Bay, Haileybury, Sault Ste Marie, Montreal, Quebec, St. John, Halifax, Yarmouth, Sydney, Flat Point, Little Glace Bay, North Sydney, Charlottetown, Tignish, Summerside, Perce, l'Anse au Beaufils, Corner of the Beach, Barabois de Malbaie, Point St. Peter, Gaspé, Cape Cove, Grand River, Ste. Adelaide de Pabos, Father Point, Huntingdon, Shawbridge, Brome, Sherbrooke, Lennoxville, Megantic, Murray Bay, Chicoutimi, Maniwaki, Brockville, Parrsboro, Truro, Wolfville, Port Arthur, Fort William, Winnipeg, Minnedosa, The Pas, Prince Albert, Battleford, Edmonton, Calgary, Medicine Hat, Swift Current, Moosejaw, Qu'Appelle, White River, Oshawa, Peterboro, Lakefield and Beeton.

PHYSICS BRANCH.

Upper Air.—Throughout 1915 the international balloon work was completely disorganized, but for 1916, as many of the nations are continuing the work during the war, a list of international days has been arranged and is being followed in Canada. In 1915 one balloon a month was sent up, except in June, when three were dispatched, the dates corresponding with those selected in Britain.

The recoveries during the year were not good, and only 11 out of 16 have been found up to the present. Previous to 1915, all meteorographs recovered

SESSIONAL PAPER No. 21

had usable records, but during the year two of those recovered had no records on them, and another was spoiled. The following table gives the particulars of the ascents:—

Date.	Greatest Height.	Temperature at Greatest Height.	Height of Stratosphere.	Temperature at base of Stratosphere.	Remarks.
1915.					
April 10.....	11.3 Mls.	-70 F.	7.3 Mls.	-73 F.	Found in Lake Huron. Found in Lake Erie.
June 2.....	6.6 Mls.	-62 F.	Not reached	
June 3.....	7.3 Mls.	-68 F.	"	
Nov. 11.....	9.6 Mls.	-82 F.	7.5 Mls.	-88 F.	
1916.					
Feb. 29.....	7.6 Mls.	-54 F.	5.9 Mls.	-72 F.	

The ascent of June 2, is very interesting as showing the height to which the southeasterly current extended; it is the third occasion on which a balloon was found west of the starting point.

The results of all the ascents up to May, 1915, have been worked out in ordinary and absolute units according to the request of the International Meteorological Committee, and published in a paper on Upper Air Investigation in Canada, Part 1, M.S. 51

Part 2 of the Investigation will contain an account of the kite work and is now in the press. A number of records of the pilot balloons sent up in the Arctic have been received and from those worked out it is anticipated very valuable information will be obtained in regard to the air currents in the Arctic.

Radiation.—The comparison of the Angstrom pyrheliometer with the Callendar Sunshine Receiver has been completed, and the results obtained suggest the possibility of designing a new form of sunshine receiver that will eliminate some of the defects of the present form.

The Callendar sunshine receiver has been in operation throughout the year, and whenever opportunity occurred the measurement of the amount of heat received on a surface exposed perpendicular to the sun's rays has been measured by the Angstrom pyrheliometer.

The results to date for both instruments have been reduced, and the mean is given in the following table for each month.

Instrument.	Jan.	Feb.	Mar.	Apr.	May.	June.	July.	Aug.	Sept.	Oct.	Nov.	Dec.	Year.
Callendar—Gram. Calories per day on a horizontal surface of 1 sq. cm.	90	203	270	280	401	446	389	339	261	198	107	83	
Angstrom—Gram. Calories per min. per sq. cm.	1.185	1.209	1.239	1.292	1.180	1.216	1.079	1.119	1.221	1.110	1.188	1.091	1.167

Anemometer Comparison.—The anemometer in use at Canadian stations has never been compared with those in use in other countries; it is designed

on the assumption that the distance travelled by the wind is three times the distance travelled by the centre of the anemometer cups in the same time. This factor has been found to be too high in other countries, and for the standard anemometer at Kew, the factor 2.2 instead of 3 has been found to be correct. The Dines pressure tube anemometer has been very carefully compared on a whirling machine and with the Kew standard; for this reason a pressure tube anemometer was erected on the same tower as the Canadian cup anemometer four years ago, and the records given by the two instruments have been compared. The mean of all velocities gives the cup anemometer readings 1.357 time those of the pressure tube. If however, the factor 2.2 instead of 3 is used, the cup anemometer and pressure tube would be practically identical.

Electric Potential of the Air.—The self recording electrometer for measuring the potential of the air has been in operation throughout the year, and the results to date will be published shortly.

Evaporation.—Observations on evaporation have been made at the central office for some years, and during the past two years the observations have been continued during the winter by weighing a pan of water or ice, and from the loss in weight from day to day, the amount of evaporation has been calculated. Owing to the increasing requests for evaporation data, it is proposed to extend the observations this year and establish evaporation stations at about seven places in the Dominion.

Earth temperature.—Mr Patterson has designed a special commutator for use with resistance thermometers by means of which it will be possible to get continuous records of earth temperatures at various depths on one instrument, and it is hoped to get it installed during the year.

Barograph and Thermograph.—The barograph and thermograph obtained for recording the pressure and temperature on the top of Sulphur mountain at Banff has been overhauled in the office, and they will now work about a month without requiring attention. Mr. Patterson has substituted a mercurial barometer for the aneroid on the barograph and by means of a float arranged to compensate for temperature changes, he has converted the barograph into a compensated mercurial barograph recording at a distant station.

TERRESTRIAL MAGNETISM.

The photographic magnetic instruments have been kept in operation throughout the year without any material loss of record. The value of the base line for declination was determined from weekly observations with the absolute declinometer. The observations were usually made on Monday and comprise four sets of eight pointings on the magnet taken in conjunction with eye readings of the photographic instrument. For horizontal force the base line was determined twice a month as before. In the case of the vertical force, it was found necessary to increase the number of absolute observations to four per week in order to reduce the probable error to ± 27 .

The westerly declination has increased from $6^{\circ} 27' .2$ in March, 1915, to $6^{\circ} 32' .2$ in March, 1916, an annual change of $5' .0$. The horizontal force has decreased during the same period from 0.16039 dynes to 0.15983, an annual change of 0.00056 dynes, whilst the vertical force has decreased from 0.58673 dynes to 0.58553. This change in horizontal and vertical force is equivalent to a change in the inclination from $74^{\circ} 42' .7$ to $74^{\circ} 43' .9$.

Magnetic disturbances were of very frequent occurrence during the year, the month of February, 1916, being the only month during which no large disturbance was recorded. The greatest storm was on June 17, which was remarkable both for its duration, the magnitude of the disturbing forces and the rapidity with which the forces changed. The extreme values of declination

SESSIONAL PAPER No. 21

during this storm were $5^{\circ} 6.2$ W. and $8^{\circ} 21.7$ W. The horizontal force ranged from 0.5586 dynes to 0.16418 dynes and the vertical force from 0.58040 dynes to 0.59152 dynes.

Other disturbances worthy of note were recorded on August 25, October 15, and November 5 and 6 of 1915 and on March 17, 1916, but neither in amplitude nor duration are any of these comparable to that of June 17, 1915.

The mean diurnal range obtained from the hourly measures varied in declination from a maximum of $14' .4$ in August, 1915, to a minimum of $6' .5$ in December, 1915, in horizontal force from a maximum of 0.00052 dynes in August to a minimum of 0.00028 dynes in December, and in vertical force from a maximum of 0.00032 dynes in November, 1915, to a minimum of 0.00006 dynes in December, 1915, and February, 1916.

In November, at the request of Dr. L. A. Bauer, Director of the Department of Terrestrial Magnetism of the Carnegie Institution of Washington, Mr. Jackson of the Observatory staff was sent to Washington in order to make a series of comparisons between the Agincourt magnetic instruments and the International magnetic standard as determined by Dr. Bauer. The results of these comparisons are as follows:—

I.M.S.—Agincourt (Standard Declinometer) = $-0'.93$

I.M.S.—Agincourt (Elliott Magnetometer 98) = $\div 0.00033$ H

I.M.S.—Agincourt (Toepfer Inductor No. 89) = $-0'.15$

Commencing January, 1916, all Agincourt data will be reduced to international magnetic standard.

During the year 129 comparisons attached to surveyors' transits, were adjusted and compared with the Agincourt standard declinometer, and the index corrections resulting therefrom were supplied to the Surveyor General. Assistance was given to Messrs. Purser, Wight and Robinson, of the Department of the Interior, in standardizing their total force magnetic instruments both before and after their field work.

Mr. French of the Dominion Observatory was also given assistance in comparing his magnetometer with the Agincourt standards both before and after his field work.

TIME SERVICE.

During the year, fifty-nine determinations for time have been made by transit of stars in the meridian with the 3-inch Troughton and Simms transit instrument. Cloudiness during part of November and February prevented frequent observations for time. The positions of the stars have been taken mostly from the American Ephemeris and British Nautical Almanac.

The collimation error of the transit instrument, as in former years, has been chiefly determined by reversal on Polaris and occasionally in conjunction with that of the instrumental azimuth error as determined by star transits in reverse position of the axis using the method of least squares in their computation.

Time has been given over the telegraph and telephone lines to all inquirers as also the sidereal time which has been frequently called for.

The performance of the clocks has been very satisfactory. The new Magneta clock with its system of secondary clocks has been running a year without a failure since installment. The automatic synchronizer by which it is made to synchronize with the mean time master clock has also done the same perfect work.

The pier of the transit clock still shows a slight progressive sinking towards the East but is of small amount.

The time exchanges between Toronto and Quebec, Montreal and St. John, N.B., have been made as usual, being recorded on the chronographs at Toronto,

7 GEORGE V, A. 1917

Montreal and St. John. The errors of the clocks have been computed from the latest observations.

The usual 11.55 a.m. signal on the fire alarm system has been continued throughout the year. Time has been given weekly to the magnetic observatory at Agincourt and daily to the Canadian Northern Railway out of Toronto.

The following table will show the differences between the times at the several observatories and that at Toronto. The sign + indicates slow of Toronto:—

Date.	Montreal.	Quebec.	St. John, N.B.
1915	Seconds.	Seconds.	Seconds.
April 9.....	-0.25	+0.59	+0.38
April 16.....	-0.91	+0.26	+0.06
May 14.....	No exchange	-0.30	-0.31
May 28.....	+0.40	+0.66	-0.30
June 11.....	-0.17	+0.52	-0.14
July 9.....	-0.64	+1.25	-0.11
August 13.....	-1.11	+0.47	-0.40
September 17.....	-0.75	+0.23	-0.55
October 8.....	Wire trouble	+0.65	No exchange
October 29.....	-0.10	+0.03	+0.10
November 26.....	+1.64	+1.39	No exchange
December 22.....	-0.30	-0.43	+0.25
1916			
January 14.....	-0.13	+0.18	No exchange.
January 28.....	-0.08	+1.23	-0.51
February 11.....	+0.10	+0.25	+0.49
February 25.....	-1.12	-0.17	-0.88
March 24.....	-1.05	-1.64	-0.99

SUN SPOTS, 1915-16.

During the year April 1, 1915, to April 1, 1916, the sun's surface was examined with the 6-inch equatorial telescope on 149 days, and maps showing the relative positions of spots on 145 of those days were made. The N., S., E., and W. points were defined and also the sun's axis and equator. During the progress of the solar eclipse of February 3, 1915, several good photographs were secured as well as sketches. Owing to cloudiness the time of beginning and ending of the eclipse could not be determined by observation.

On April 3 a large spot, followed by several medium sized and small spots, extending easterly for a considerable distance, was observed in northeastern quadrant of sun, disappearing over western limb on April 11. On the 20th April a group of small penumbral spots with very small ones rather suddenly developed in southeastern quadrant disappearing over western limb on 26th. Two scattered groups of small spots, equidistant north and south of equator, traversed the sun's disk April 27 to May 8. No spots were seen on May 11, 15, 17, and 18. May 25 to June 2 a small northerly group with one medium sized penumbral spot passed over the sun's disk. From June 14 to 29 numerous scattered groups, both north and south of equator, were observed. On July 6 a large group came over southeastern limb disappearing over southwestern limb July 16. On 29th another very large group came over southeastern limb, developing into a magnificent display of small penumbral spots followed by an immense area of very small spots. This group presented a fine spectacle and covered an enormous area extending in a northwesterly direction south of the

SESSIONAL PAPER No. 21

equator. After this display nothing of note occurred except the passage of occasional small groups north and south of the equator until September 21, when a small group about 10 degrees north of the equator traversed the sun's surface going over the western limb on September 30. This condensed group was remarkable for its very beautiful large penumbral spot.

Between October 4, 1915, and March 2, 1916, several not very prominent groups appeared both north and south of the equator. Two moderately large spots with attending smaller ones passed across the sun's disk, equidistant north and south of the equator from March 2 to 13. A fairly-large sized group was observed on March 23 and 25 north of the equator, but cloudiness prevented continual observation of this group. At the end of the year March 31, the sun's surface was occupied by four small groups north of the equator and a disturbed area in southeast quadrant.

SEISMOLOGY.

The Milne seismographs at Toronto and Victoria have yielded some very interesting records. A seismograph for registering the vertical component, recording on smoked paper, has recently been installed at Victoria, and is working very satisfactorily. During the year the total number of disturbances recorded at Toronto was 123. Of this number three were very large. Fourteen were of a more moderate character, and the remainder show trace amplitude ranging from 0.1 to 2 mm. Not only was the total number greater than that which we usually record, but from May, there was a marked increase in the intensity of the disturbances. The most important of the series occurred on September 7, October 3, and January 1. The latter disturbance was one of the largest we ever recorded at Toronto. The earthquake centres were located respectively in Guatemala, Nevada and in the South Pacific, the latter being submarine; possibly in the vicinity of the New Hebrides. The more moderate disturbances were recorded on May 1, June 1, July 31, October 11, November 1, and 21, December 12 and 31, January 13 and 19, February 1, 6, 20 and 27. The majority were of submarine origin, the earthquake centre being in the vicinity of the Kurile islands, Alaska, and off the coast of Central America.

Seismologists at present are chiefly investigating the question of the true velocity of earthquake waves through the various depths of the earth. The present Milne instrument fails at times to register the P. and S. waves. The British Association is desirous of introducing a perfect modification of the present Milne instrument, by increasing the magnification of the record and applying a certain amount of damping of the boom which will shew the preliminary waves more distinctly and give a truer representation of the earth movements. It is to be hoped that both our stations will be equipped with the type of instrument which they adopt. It would also be advisable to introduce at Toronto an instrument for registering on smoked paper, as very often the press seek information regarding some earthquake that has just been reported, and as it takes some time to cut off the film of the present Milne instrument and develop it, it is some little time before the required information can be furnished. Monthly tabulations of all seismic disturbances are forwarded to the Central Seismological Observatory of the British Association and to various other countries and an increased demand for copies of our observations from scientific institutions all over the world point to the importance attached to our records.

PHENOLOGICAL OBSERVATIONS.

The collection and tabulation of phenological statistics, which are in charge of Mr. F. F. Payne, were not quite as extensive as in past years, but a few reports

7 GEORGE V, A. 1917

giving the dates of flowering plants, the arrival of birds, the sowing and reaping of grain, etc., were received from each province, and they agree very fairly with the meteorological conditions. Valuable reports giving average dates of similar phenomena recorded throughout the province of Nova Scotia were kindly supplied as usual by the superintendent of education for that province, and others from school teachers have also been supplied by the Department of Education for Saskatchewan which is now using this as a means for nature study in the schools.

OUTSIDE STATIONS.

Appendices A, B, and C are the separate reports of the observatories at the chief stations at Quebec, St. John, N.B., and Victoria. Others of the more important stations where there is certain special work performed beyond the daily duty of observing, are as follows:—

1. *Vancouver*.—At this station the observer, Mr. T. S. H. Shearmen, has an office in the public building, where he rates chronometers for shipmasters, fires the gun by means of an electrical contact and supervises the manifolding and distribution of weather bulletins.

2. *Banff*.—In addition to the observing station in the village, observer Sanson has charge of the observatory on Sulphur mountain and deserves much credit for his unremitting energy in visiting the upper station.

3. *Edmonton*.—The chief observer and assistant observer are still away on military service, and the work is being performed by Mrs. Owen, who, however, does little beyond the mere observing. The full duties of this provincial chief station are in abeyance until after the war.

4. *Moosejaw*.—The chief station in Saskatchewan is in regular working order and within the past year the observer has occupied a suite of rooms in the new Dominion building.

5. *Port Arthur*.—Observer Cooke now occupies a room in the new public building where he answers inquiries regarding the weather and climate.

6. *Montreal*.—At this observatory Prof. C. H. McLeod, in addition to superintending the meteorological observations at McGill University, directs the operations of a well equipped time observatory from which the time signals are given to the various railways and to shipping and many parts of Montreal.

Respectfully submitted,

R. F. STUPART,
Director.

APPENDIX A.

QUEBEC, April 1, 1916.

The Director, Meteorological Service,
Toronto.

SIR,—I have the honour to transmit my annual report for the year 1915-16.

In addition to the usual meteorological observations which were recorded without interruption, special reports were furnished daily to the public through the newspapers and otherwise, and the number of inquiries at this observatory has increased considerably.

SESSIONAL PAPER No. 21

Statements and extracts from the records of the observatory were prepared for engineers and other persons interested in industrial corporations, also for the court in many cases.

The weather bulletin published by the Meteorological Service at Toronto has been posted regularly at the public buildings, and inquiries by farmers and tourists respecting the weather conditions and probabilities were very numerous especially during the summer months.

Several barometers and thermometers were compared with our standards, and readings of the meteorological instruments were furnished daily to several of the militia quarters and forts in Quebec and surroundings.

The correct time was given to the shipping by means of the time-ball during the navigation season, and by telephone to the watchmakers and to a very large number of people in and outside the city, the noon gun having been discontinued since the beginning of the war.

Owing to the ever increasing number of inquiries concerning the time, I take the liberty of suggesting that some means of distribution throughout the city be organized as exist elsewhere in centres of some importance.

The whole respectfully submitted.

ARTHUR SMITH,
Director, Quebec Observatory.

APPENDIX B.

OBSERVATORY, ST. JOHN, N.B., May 22, 1916.

R. F. STUPART, Esq., F.R.S.C.,
Director, Meteorological Service,
Toronto, Ont.

SIR,—I have the honour to present the following report of this Observatory for the fiscal year ending 31st March, 1916.

METEOROLOGICAL SERVICE.

The tri-daily observations have been continued without interruption at 9 a.m., 3 p.m., and 9 p.m., Atlantic standard time. The first- and last-mentioned are immediately telegraphed to the central office for use on the synoptic chart. An additional reading is made at noon to accompany the daily report furnished the evening newspapers. In addition to eye-readings of the various instruments, hourly tabulations and monthly abstracts are made from the automatic records of the barometric pressure, temperature, rainfall, humidity and direction and velocity of the wind. Anemograph records from the Point Lepreau wind station sent here weekly are tabulated for every hour and a monthly analysis made. The data from this station give most useful information of outside conditions in the bay of Fundy. During periods of abnormal, extreme, or stormy weather the press is furnished with any special information which may be of value or interest to their readers. Solar and terrestrial radiation thermometers have been installed since my previous report and daily observations from these instruments are taken.

The morning weather bulletin is now printed at the observatory on a rotary duplicating machine which ensures a more prompt issue after receipt of the telegraphic message from Toronto, which is immediately telephoned from the Western Union to the observatory office. The bulletin is distributed through the

7 GEORGE V, A. 1917

mail, posted in public places and published by every evening newspaper. The synopsis, giving movement of important changes throughout the continent, as well as prevailing weather conditions at the different adjacent stations, together with the forecasts for following days is of utmost importance to mariners, shippers of perishable goods and various other commercial and personal interests.

On receipt of the warning from Toronto, storm signals are displayed from the signal mast on Customs building here and the warning repeated by telephone to the storm warning agents at Quaco lighthouse and Point Lepreau.

On the morning opening of the telephone offices throughout this province the New Brunswick Telephone Company send your forecasts and have them displayed on forms supplied by the Meteorological Service. This most expansive distribution is made gratuitously and the courtesy greatly appreciated by residents of the various localities. The forenoon forecast as heretofore is telephoned the exchange at St. Martins.

The monthly returns received from all stations in the Maritime Provinces are checked and where necessary sums and mean values computed. After abstracting the required statistical and climatological records the returns are forwarded to the central office at Toronto. This has largely increased the data which we are frequently asked to promptly furnish shippers, commercial houses, transportation companies, contractors and others, both locally and from the adjacent provinces. It has also caused a considerable increase in our clerical work.

TIME SERVICE.

Observations for time with the transit telescope have been made as often as practicable to determine the errors and rates of the standard sidereal clocks. The Riefler sidereal which is used as the primary standard has given most satisfactory results. This clock, as in the past, has been run under constant temperature and pressure. So favorable are the conditions in the new clock-room that the pressure inside the case has not been observed to vary more than two millimeters during the past twelve months. The Kullberg sidereal has been used as the observing clock, comparisons being made on the chronograph about the middle of the group of stars observed. Comparison of the mean time transmitting clock is also made on the chronograph and any small outstanding error corrected by the apparatus formerly described.

The daily time signal has been regularly transmitted by telegraph to nearly all parts of the maritime provinces and is the standard of time for this section of the Dominion. As heretofore special signals are frequently transmitted, both by telegraph and telephone to mariners, chronometer raters and others.

The time-balls at St. John and Halifax have been dropped each week day at 1 p.m., standard time of the 60th meridian. The outside clocks connected by wire with the observatory have been hourly synchronized throughout the year. The various electrical appliances connected with our time service have been maintained in good condition and are giving the best possible satisfaction. The electric clock in Halifax is daily synchronized by our standard transmitting clock, and return signals from Halifax indicate but slight error in the daily rate of that clock.

The principal chronometer and watch adjusters in Halifax have sounders on their premises connected by wire with the Western Union office there and receive our 10 a.m. time signals daily. Some installations of electric clocks in Halifax use this signal to automatically synchronize their master clocks. In St. John the system of hourly synchronizing tower, street and office clocks, continues to give most satisfactory and useful results. A special wire from the observatory to the local telephone office operates the various clock line relays.

SESSIONAL PAPER No. 21

The telephone company make a nominal charge for this wire service which is well taken care of.

The new switch-board has been fitted, wired and connections made with main-line wires, chronograph, clocks and time-desk, replacing the temporary arrangements consequent upon removal to the new observatory building.

During the past season permanent walks have been laid, the ground seeded and sodded, and the front wall completed. The spacious lawn is now in good condition and gives a most desirable exposure for the outside instruments.

D. L. HUTCHINSON,
Director, St. John Observatory.

APPENDIX C.

VICTORIA OBSERVATORY,
MAY 25, 1916.

The Director, Meteorological Service,
Toronto, Ont.

SIR,—I have the honour to submit the following report upon this observatory for the fiscal year ending March 31, 1916. During the past year the regular tri-daily meteorological observations have been taken and weather forecasts derived from the telegraphic reports received from the western portion of this continent, have been issued daily except on Sundays and certain holidays, both morning and evening. These are published in the daily press both here and on the lower mainland, and each morning at 9 o'clock over thirty special bulletins are posted throughout this city and others in Vancouver.

Storm warnings have been issued throughout the year; these are greatly appreciated by mariners and particularly by towing companies and fishermen.

Several thousand telephone inquiries have been answered respecting the weather during the stormy months; some of these were from the builders of the new government breakwater and ocean docks.

Apart from the regular weather forecasts, special forecasts were furnished the Provincial Government Forestry Department during the summer months. These have proved of even greater value to that department this year than last, in the matter of warning the approach of great heat or hot dry winds in the interior of the province when forest fires are likely to occur and bring destruction if not checked in time. This branch of our work was gratefully acknowledged by a letter of thanks received at the close of the season from the above department.

The weekly and monthly weather reports derived from all our British Columbia telegraph stations are regularly published in the press of Vancouver island and the lower mainland and copies are mailed to certain fruit growers in the interior of the province.

The seismological instruments mentioned in last year's report, have proved most satisfactory, and during this year 108 earthquakes have been recorded here, while in many cases the records were so clear that the distances to their points of origin could be measured, and also the vertical movement these earth-waves caused locally.

The daily slow movements of both the East-West and North-South horizontal pendulums have been carefully measured, and interesting abnormal results have been obtained, which may have some practical bearing upon certain other phenomena. The minute oscillations of the vertical seismograph called

7 GEORGE V, A. 1917

"microseisms" have not been so pronounced this year as during last. These do not occur when gales prevail here but some times when great storms are reported on the west coast of Vancouver island.

THE TIME SERVICE.

Upon the 24th of May, 1915, the time ball which is installed upon the mast rising above the roof of the highest city building near the harbour, was dropped for the first time, and with only one or two failures due to faulty electric connections, this service has been continuous, and has proved of great value not only to shipping interests, but to the public, and for regulating clocks, factory whistles, and the military noon-gun.

The time for this service is obtained from star observations taken nearly every clear evening by means of the transit telescope, which is well mounted in a special room upon a massive concrete pier which rises from the solid rock. The adjustments for collimation and azimuth have been carefully made and a fine fixed mark for checking these has been established on a government building at a distance of two miles.

The level variations here are small even during the winter months, probably due to local climatic conditions.

It is possible by means of these observations to keep the time accurate to within one or two-tenths of a second.

The time-ball which is a distance from the observatory, about two miles, is controlled by a telegraph key here, in the following manner: At 12.30 p.m. each day (including Sundays) the C.P.R. Telegraph Co. connects our line with the time-ball circuit; at 12.45 p.m. a signal of two taps given from here, notifies the man in charge of the time-ball to hoist it to half-mast at 12.55 p.m., three taps notifies the man to hoist the ball to top and to set the electric trigger. At one-half second to the exact 1 p.m., I press the key here and the ball drops on the true time. This operation is checked daily by watching the ball through a telescope here.

I am pleased to state that all the mechanism in connection with the time-ball was made locally under my supervision and has proved very satisfactory, and particularly the electric trigger, and automatic brake which stops the descent of the ball at the base of the mast.

The true time is also furnished to the Naval authorities when required.

Owing to the war, visitors are not admitted here, but a hearty welcome has always been accorded all our soldiers and their friends, and over 400 have visited this institution.

During the past winter I have given a course of six illustrated lectures, some bearing upon the work of this institution and under the auspices of the Royal Astronomical Society.

In conclusion, I would respectfully urge that, in order to make this institution more efficient, a good Sidereal clock and chronograph be added to our time service, and that the delicate seismographs ordered in Europe before the war be constructed here under my supervision.

F. NAPIER DENISON,

Director, Victoria Observatory

SESSIONAL PAPER No. 21

APPENDIX D.

METEOROLOGICAL OFFICE, TORONTO, April 7, 1916.

R. F. STUPART, Esq., F.R.S.C.,
Director of the Meteorological Service,
Toronto, Ont.

SIR,—I beg to furnish, herewith, a report on the work of the agricultural section for the fiscal year 1915-16.

In October, 1915, my report to you (published in the Annual Report of the Department of Marine for 1914-15, pages 353-6) showed that preliminary studies in 1914 crystallized into definite field experimentation. It appears that in this, supplemented by laboratory investigations under controlled conditions, lies the promise of solving the great problems of agricultural meteorology.

Forms on which to record detailed crop notes for spring wheat were mailed to 14 Dominion experimental stations early in 1915. A copy of this form is enclosed.

Commencing with March, 1915, charts were prepared, representing on one sheet of squared paper the daily maximum, minimum and mean temperatures, the 24-hour precipitation and the total number of hours of bright sunshine. These charts make the weather figures "speak": they show almost at a glance the meteorological conditions at each station for the whole crop season; and they remove in a large degree the complexity of lengthy weather records.

The 14 stations were visited in July and August, 1915.

After harvest of the wheat, the forms were returned to the agricultural section and the crop and weather data were correlated. The average height of the wheat every seven days was shown on the charts, and also periods of development were shown, bounded by such plant activities as appearance above ground, stooling, heading, blossoming, milk stage and maturity.

In concise tables the crop notes were presented in such a form that the facts from the different stations could be easily compared. Also an analysis of the weather was made in tables for the periods of development, no particular emphasis being placed on the calendar date but rather on the stage of plant development; the meteorological conditions at the fourteen stations were thus readily compared on one double page. From the charts and tables notes were prepared on the "wheat and weather" for the entire season at each station. And it should be feasible to publish through some suitable medium enough of the results and methods to be of interest to agriculturists and to reveal the advance of the work.

The use of all these analytical methods was made possible by adapting them from translations of Russian publications, which have been setting forth the results of field experimentation in agricultural meteorology in Russia for the past fifteen years or more.

By a co-operative agreement with the office of experiment stations of the United States, the translation of many of the most valuable Russian publications has proceeded simultaneously at Washington and at Toronto. Copies of all translations are exchanged. Also, Dr. T. K. Doherty, Canadian Commissioner of the International Institute of Agriculture, has translated from the French several articles by Prof. P. Broounoff, Chief of the Russian Bureau of Agricultural Meteorology. Through the kindness of Dr. Doherty these articles, together with the best of those in Russian, will likely become available to Canadians in the Bulletin of Foreign Agricultural Intelligence published by the Dominion Department of Agriculture. And these translated articles should serve to educate and to awaken public interest.

The reference library of this section has grown steadily. Every effort is made to keep in touch with what other workers are doing, and the current publications in agricultural meteorology are recorded on a classified card index. This index has become a bibliography of recent progress in plant physiology, ecology, investigation of plant diseases and of soils, etc., and has been of service in giving to inquirers a list of the literature of that phase of agricultural meteorology in which they may be interested.

Inquiries by letter are increasing in frequency and correspondence is steadily growing. One branch of the latter is the writing of occasional letters to co-workers in science and especially to experimenting botanists with a view to co-operating in laboratory investigations on important farm plants.

It is proposed in 1916 to continue the experimental work of 1915. Observer's forms and instructions have been forwarded to the same stations through Dr. Shutt, Assistant Director of the Dominion Experimental Farms' system. Acknowledgment is due to Dr. Shutt and to Dr. C. E. Saunders, Dominion Cerealists, for their courteous assistance in the development of the field experiments. The writer is to spend the whole growing season of 1916 at the Central Experimental Farm at Ottawa, in order to be in closest contact with the agriculture and biology of the subject.

At the proper time in the future it is hoped to present a plan for increasing the equipment of instruments and perfecting the experimental methods until approach is made to the remarkable organization of Russia in agricultural meteorology.

Respectfully submitted,

R. W. MILLS,
In charge of agricultural section.

APPENDIX No. 7.

ANNUAL REPORT OF THE MEDICAL SUPERINTENDENT OF THE
MARINE HOSPITAL SERVICE FOR THE FISCAL YEAR 1915-16.

SICK AND DISTRESSED MARINERS.

Under the provisions of the Canada Shipping Act, chapter 113, part. 5, s. 338, R.S., dues of $1\frac{1}{2}$ cent per ton, registered tonnage, are levied on every vessel entering any port of the province of Quebec, Nova Scotia, New Brunswick, Prince Edward Island, and British Columbia. The money thus collected forms the sick mariners' fund. Vessels of the burden of 100 tons and less, pay duty once in each calendar year, and vessels of more than 100 tons, registered tonnage, three times in each year.

The officers and seamen of all fishing vessels not registered in Canada do not pay sick mariners' dues nor participate in the benefits accruing therefrom; but such vessels registered in Canada may pay dues and participate in the benefits; and if of more than 100 tons, only for the voyage at the beginning of which payment has been made; such vessels shall enjoy the same rights and benefits as are enjoyed by vessels which pay dues and are not engaged in fishing.

The Act, chapter 113, Canadian Shipping, does not apply to the province of Ontario, so no dues are collected from vessels in that province.

PROVINCE OF QUEBEC.

At the port of Quebec, sick mariners are cared for at the Jeffrey Hale and Hotel Dieu hospitals, at a per diem allowance of \$1.50 for each seaman, including medical attendance and board.

At the port of Montreal, sick mariners are cared for at the General and Notre Dame hospitals, the charges at each institution being \$1.50 a day, including board and medical attendance. Infectious and contagious diseases are attended at the Alexandra and St. Paul hospitals.

At the port of Three Rivers, sick mariners are cared for at the St. Joseph's hospital, per diem rate, 90 cents for each seaman. The medical officer receives \$350 per annum for his services.

At the port of Chicoutimi, sick mariners are cared for at the St. Valier hospital; rate, \$1.20 a day for each seaman, including treatment and board.

At the port of St. Johns, the mariners are attended at the St. Johns hospital; rate, 90 cents a day. The medical officer receives a salary of \$600 a year.

At the ports of Rimouski, Montmagny, Sorel and River-du-Loup, sick mariners are attended at the local hospitals, and the medical services are rendered by the port physician.

PROVINCE OF NOVA SCOTIA.

Marine hospitals are maintained at Louisburg, Lunenburg, Sydney, and Yarmouth.

At the port of Halifax, sick mariners are cared for at Victoria General hospital; rate, \$1.50 a day, including board and treatment. Contagious cases are treated at the City Isolation hospital.

7 GEORGE V, A. 1917

At Pictou, sick mariners are taken to the Pictou Cottage hospital; rate, \$1 a day. The medical officer is paid a yearly salary of \$400.

At North Sydney, sick mariners are attended at the Hamilton Memorial hospital; rate, \$1 a day. The medical officer receives a salary of \$750 a year, including drugs supplied.

At Windsor, sick mariners are treated at the Payzant Memorial hospital; rate, \$1 a day. The medical officer receives a salary of \$120 a year.

At Amherst, sick mariners are treated at the Highland View hospital; rate, \$4.50 a week. The medical and surgical services are rendered by the port physician.

At Parrsboro and vicinity, sick mariners are taken to the Cottage hospital at Springhill; rate, \$1.50 a day, including all costs.

At the port of Digby, sick mariners are treated in a designated hospital; rate, \$3 a week, besides a salary of \$50 for the caretaker. The medical officer receives a salary of \$250 a year.

PROVINCE OF BRITISH COLUMBIA.

At Victoria, sick mariners are treated at the St. Joseph's hospital; rate, \$1.50 a day.

At Vancouver, sick mariners are treated at the St. Paul hospital; rate, \$1.50 a day, including all costs.

At Nanaimo, seamen are treated at the Nanaimo hospital; rate, \$1 a day. The medical officer receives a salary of \$600 a year.

At New Westminster, sick mariners are taken to the St. Mary's hospital; rate, \$1.50 a day, including all costs.

At Chemainus and Ladysmith, sick mariners are treated in the local hospitals at the rate of \$1 a day, besides medical and surgical services.

At Prince Rupert, sick mariners are treated in the Prince Rupert General hospital; rate, \$2 a day. The port physician receives a salary of \$500 a year.

PROVINCE OF NEW BRUNSWICK.

A marine hospital is operated and maintained at Douglastown for sick mariners arriving at Chatham, Newcastle, and vicinity. The medical officer receives a salary of \$450 a year, and the keeper \$250 a year.

At St. John, sick mariners are treated in the General Public Commissioners' hospital; rate, \$1.50 a day, including all costs.

At Campbellton, treatment is given at Hotel Dieu hospital; rate, \$5 a week. The medical officer receives a salary of \$350 per annum.

At Moncton, sick mariners are treated at the Moncton hospital; rate, \$4 a week. The medical officer receives a salary of \$200 a year.

PROVINCE OF PRINCE EDWARD ISLAND.

At Charlottetown, sick mariners are treated in the Charlottetown and Prince Edward Island hospitals; rate, \$1.50 a day, including all costs.

At Summerside, sick mariners are treated at the Prince County hospital, rate, \$1 a day. The port physician receives a salary of \$250 a year.

Where no hospital is maintained in any port of the maritime provinces, Quebec, or British Columbia, the collectors of customs are authorized to care for sick mariners entitled to receive the benefits of the fund.

SESSIONAL PAPER No. 21

Statement of receipts and expenditure on account of "Sick and Distressed Seamen" from the fiscal year 1906 to 1915, both inclusive:—

	Receipts.	Expenditure.
	\$ cts.	\$ cts.
1906.....	60,183 90	50,120 42
1907.....	44,704 59	34,362 11
1908.....	69,364 45	59,957 92
1909.....	53,732 31	66,349 26
1910.....	55,567 41	54,859 50
1911.....	60,637 11	54,779 27
1912.....	63,663 41	52,172 75
1913.....	70,540 52	54,294 71
1914.....	72,602 43	65,397 85
1915.....	72,663 80	64,950 36

Total amount of salaries paid to medical officers and keepers during the year 1915-16 was \$15,894.84.

Number of seamen treated was 3,261, compared with 3,030 in the preceding year, while the number of days of hospital treatment was 30,321.

Number of vessels which paid sick mariners dues during the year 1915-16 was 3,068, and the number of men employed on these vessels, 63,552.

TABLE showing Expenditure for Treatment, Board, Supplies, Etc., by Provinces:

	Nova Scotia.	New Brunswick.	P. E. I.	Quebec.	British Columbia.	General Account.
	\$ cts.	\$ cts.	\$ cts.	\$ cts.	\$ cts.	\$ cts.
Board in hospitals and private houses.....	11,612 08	5,530 74	939 47	11,907 01	5,999 25

SESSIONAL PAPER No. 21

APPENDIX No. 8.

REPORT OF WRECK COMMISSIONER.

OTTAWA, June 1, 1916.

A. JOHNSTON, Esq.,
Deputy Minister of Marine,
Ottawa.

Sir:—I have the honour to submit my annual report of investigations and inquiries held during the fiscal year 1915-16, into the causes of wrecks and casualties as well as statements of wrecks and casualties reported as having occurred to British, Canadian and foreign vessels in Canadian waters, and to Canadian vessels in other waters, from January 1, 1915, to December 31, 1915, and of those reported as having occurred in Inland waters during the same period:—

Formal investigations during the year.....	34
Preliminary inquiries during the year.....	5
Departmental inquiries during the year.....	1
Total.....	40

During the calendar year 1915 there were 280 casualties reported to the Department, the reported tonnage of same being 234,036, and the damage is approximately estimated at \$1,459,012, while sixty-three lives were lost.

Of this total number of casualties 217 were to coasting and seagoing vessels, the tonnage of same being 181,790, the damage to which is approximately estimated at \$1,084,957, and fifty-three lives were lost; while sixty-three of the casualties were to inland vessels, the tonnage of which was 52,246, the damage to same being estimated at \$374,055, and ten lives being lost.

In 110 cases of casualties to coasting and seagoing vessels, and thirty-seven cases of casualties to inland vessels, the amount of damage is not stated.

Seventy-seven of the casualties to coasting and seagoing vessels, made up of thirty-three steam and forty-four sailing vessels, resulted in total losses, and of this number sixty-one were Canadian, eight British and eight foreign vessels.

Nine of the casualties to inland vessels resulted in total losses, which were all Canadian steam vessels.

I am, sir, your obedient servant,

L. A. DEMERS,
Dominion Wreck Commissioner.

7 GEORGE V, A. 1917

STATEMENT of investigations into wrecks and casualties which occurred to Canadian, British and Foreign vessels, held in Canada during the fiscal year 1915-16.

Name of Ship. Official No.	Registered Port.	Remarks.
A. W. Perry... 106075.	Halifax.....	On June 8 stranded and lost on Chebucto head, Halifax harbour. Formal investigation was held at Halifax on June 17 before Capt. L. A. Demers, Dominion Wreck Commissioner, assisted by Capt. John Fleming and D. C. Stuart, acting as nautical assessors. <i>Finding.</i> —Accident was due to negligence and carelessness on part of master, Alfred Ellis, whose certificate was suspended for six months.
Alexandria..... 85768.	Pictou, Ont....	On August 3 stranded and lost on Searboro bluff, lake Ontario. Formal investigation was held at Toronto on August 30, before Capt. L. A. Demers, Dominion Wreck Commissioner, assisted by Capts. James McLaugh and John Williams, acting as nautical assessors. <i>Finding.</i> —No one to blame. Master, William Bloomfield, had to beach vessel owing to fury of gale.
Bengore Head... 90101, and Batiscan... 131314.	Belfast.... Liverpool..	On August 1 collided off cape Salmon, river St. Lawrence. Formal investigation was held at Quebec on August 13, 14 and 16, before Capt. L. A. Demers, assisted by Capt. Francis Nash and Capt. James Murray, acting as nautical assessors. <i>Finding.</i> — <i>Batiscan</i> is entirely to blame for collision. Master's certificate of Capt. G. Gardner Green is suspended for two years. Pilot Jules Lachance partly to blame for bad seamanship, and is fined \$300. Pilot of <i>Bengore Head</i> , Alfred Raymond had his license cancelled for having deserted his post immediately after collision.
Christine..... 86714, and H 1.	Ottawa....	On May 18 collided at about half a mile west of St. Jean wharf, isle of Orleans. <i>Christine</i> was sunk and six lives were lost. Formal investigation was held at Montreal on May 26, 27, 28 and June 2, and at Quebec on June 1, before Capt. L. A. Demers, assisted by Capt. Francis Nash and Capt. Montague Yates, acting as nautical assessors. <i>Finding.</i> —Captain of <i>Christine</i> , Walter S. Kennedy is chiefly to blame for accident, and his certificate was suspended for one year. Captain of <i>H 1</i> , S. R. Smith, is reprimanded for not exercising proper judgment when risk of collision appeared imminent; but court has no jurisdiction over his certificate as he is an American citizen with a license from United States Government.
Capilano..... 100203.	Vancouver..	On April 7 second officer, Johnston Gilchrist, received injuries on board which subsequently resulted in his death. Formal investigation was held at Vancouver before Capt. John D. Macpherson, assisted by Capt. Cecil W. Wearmouth and Capt. Alex. N. Dick, acting as nautical assessors, on June 3. <i>Finding.</i> —No one is to blame. Mr. Gilchrist met death through an inevitable and unavoidable accident while performing duties assigned to him.
Cheltonian... 132649.	London.....	On May 23 stranded off cape Ray, Newfoundland. Preliminary inquiry was held at Sydney on June 5, before Mr. Vincent Mullins, and a formal investigation held at Halifax on June 18 before Capt. L. A. Demers, assisted by Capt. John Fleming and Capt. D. C. Stuart, acting as nautical assessors. <i>Finding.</i> —Capt. R. Jones is censured for not having taken frequent soundings, and not having ascertained the exact position of his vessel, when Bird rock was not seen, nor the whistle heard; but

SESSIONAL PAPER No. 24

STATEMENT of investigations into wrecks and casualties which occurred to Canadian, British and Foreign vessels, held in Canada during the fiscal year 1915-16—*Continued.*

Name of Ship. Official No.	Registered Port.	Remarks.
Cabot 125988.	Montreal	he is complimented for his subsequent action in saving the ship and bringing her to Sydney, and subsequently to Halifax for repairs. On June 24 foundered in Northumberland strait, about 13 or 14 miles south of East point, Prince Edward Island. Formal investigation was held at Sydney on July 14, before Capt. L. A. Demers, assisted by Capt. R. MacDonald and Capt. A. G. Morrison, acting as nautical assessors. <i>Finding.</i> —Accident was caused by ship leaving port without tanks being filled, whilst vessel had a cargo. Certificate of master, James Lintlop, is suspended for three months.
H.M.S. Carnarvon... and Scotsman 116114.	Halifax ..	On September 16 collided in Halifax harbour. Formal investigation was held at Halifax on September 27 and October 5, before Capt. F. N. Malcolm, assisted by Capt. John Fleming and Capt. D. C. Stuart, acting as nautical assessors. <i>Finding.</i> —Captain of <i>Carnarvon</i> , Hugh Thomas Hibberts, solely to blame, as he violated art. 28 of Rules of Road by not taking precautions required by ordinary practice of seamanship. Master Gordon Innis, and crew of <i>Scotsman</i> , exonerated from all blame. One assessor, Capt. Fleming, disagreed, and finds master of <i>Scotsman</i> alone to blame.
Catchas. 110586.	Liverpool..	On October 9 stranded off point Wilson, Puget sound, B.C. Formal investigation was held at Victoria on November 2, before Capt. John D. Macpherson, assisted by Capt. A. M. Davis and Capt. F. Anderson, acting as nautical assessors. <i>Finding.</i> —No one was to blame. Stranding due to abnormal drift of ebb tide setting vessel off her course during dense fog, and fog alarm on point Wilson working improperly.
Capilano..... 100203.	Vancouver ..	On October 1 foundered off Mipplemac island, B.C. Formal investigation was held at Vancouver on October 22, before Capt. John D. Macpherson, assisted by Commander C. Unwin and Capt. James Abernethy, acting as nautical assessors. <i>Finding.</i> —Foundering was directly due to striking some submerged obstruction. Master, Samuel Nelson, is severely censured for not being on bridge under existing condition of weather—dark and thick smoke—but on account of his good record his certificate was not dealt with. Acting second-mate, Fletcher Hemmonds, blamed for not having called the master under circumstances; but as he possesses no certificate court cannot deal with him.
Constance... 94899.	Vancouver...	On October 3 foundered in the gulf of Georgia. Formal investigation was held at Vancouver on November 17 and 18, before Capt. John D. Macpherson, assisted by Commander C. Unwin and Capt. R. C. Procter, acting as nautical assessors. <i>Finding.</i> —Loss of vessel solely due to lack of judgment and prudence of master, and being improperly loaded. Certificate of master, Harry Smith, suspended for three months.
Camosun .. 121204.	Vancouver...	On March 10 stranded on Digby island, Prince Rupert, B.C. Formal investigation was held at Victoria on March 28, before Capt. John D. Macpherson, assisted by Capt. Robinson Ridley and Capt. Henry Parsons, acting as nautical assessors. <i>Finding.</i> —No one to blame. Stranding due to abnormal current.

STATEMENT of investigations into wrecks and casualties which occurred to Canadian, British and Foreign vessels, held in Canada during the fiscal year 1915-16—*Continued.*

Name of Ship. Official No.	Registered Port.	Remarks.
Charmer..... 100793, and Quadra..... 96899.	Victoria..... Ottawa.	On February 26, collided at entrance of Nanaimo harbour, and <i>Quadra</i> was sunk. Formal investigation was held at Nanaimo on March 6 before Capt. John D. Macpherson, assisted by Capt. W. E. Gardner and Capt. R. Ridley, acting as nautical assessors. <i>Finding.</i> —Master of <i>Quadra</i> , E. Leblanc, solely to blame for collision, not observing the Rules of the Road. He is severely reprimanded; but his certificate is not dealt with. One assessor, Captain Gardner, dissented, holding that <i>Charmer</i> contributed to collision.
Frankier..... 122850.	London.....	On December 10 stranded 4 miles south of Cranberry island, N.S. Formal investigation was held at Halifax on March 2, before Capt. L. A. Demers, assisted by Capt. John Fleming and Capt. D. C. Stuart, acting as nautical assessors. <i>Finding.</i> —Master, John Trattles, showed indifference in navigating his ship, and his certificate was suspended for three months. Mate, Thomas George, failed in his duty in not calling master and meanwhile adopting means of safety. His certificate was suspended for two months.
Georgeina Roop..... 112604	Annapolis Royal.....	On April 5 stranded at Bon Portage, N.S. Preliminary inquiry was held at Yarmouth on April 8, before Capt. John E. Murphy. The decision arrived at was that the vessel dragged her anchor on account of bad weather and treacherous nature of holding ground.
Gleamont..... 122408.	Montreal.....	On April 30 stranded off shoal, Round island, river St. Lawrence. Formal investigation was held at Kingston on May 7 before Capt. L. A. Demers, assisted by Capt. Thomas O'Connor and Capt. James Murray acting as nautical assessors. <i>Finding.</i> —Pilot Frank Patenaude is held to blame for carelessly navigating ship; but as he is not a licensed pilot his certificate cannot be dealt with. Second officer Lewis Dicks is censured for having left bridge. Master exonerated.
Gopher..... 131308, Picket boat of H.M.S. Levithan.	Liverpool.....	On September 7 collided in Bedford basin, Halifax harbour, and three lives lost. Formal investigation was held at Halifax on September 15, 16 and 17, before Capt. F. N. Malcolm, assisted by Capt. John Fleming and Capt. D. C. Stuart, acting as nautical assessors. <i>Finding.</i> —Picket boat of <i>Levithan</i> was entirely in fault. Officer in charge did not display sufficient knowledge of good seamanship as regards Rules of the Road.
Goliath..... 75819, and Bon Ton..... 131211.	Halifax..... Sydney.	On August 4 collided in Halifax harbour. Formal investigation was held at Halifax on October 6, 7, 8, and 9, before Capt. F. N. Malcolm, assisted by Capt. John Fleming and Capt. D. C. Stuart acting as nautical assessors. <i>Finding.</i> —Captain of <i>Bon Ton</i> , Banks Rudderham, is solely to blame for collision and his certificate is suspended for three months. Master of <i>Goliath</i> , Ernest Wells, is exonerated from all blame.
Haddington..... 14367.	Toronto.....	On June 2 stranded on Red island reef, river St. Lawrence. Preliminary inquiry was held at Quebec on June 5 before Mr. H. S. McGreevy, and a formal investigation held at Kingston on July 8, before Capt. L. A. Demers, assisted by Capt. Thomas O'Connor and Capt. James Murray, acting as nautical assessors.

SESSIONAL PAPER No. 21

STATEMENT of investigations into wrecks and casualties which occurred to Canadian, British and Foreign vessels, held in Canada during the fiscal year 1915-16—*Continued.*

Name of Ship. Official No.	Registered Port.	Remarks.
Henry B. Hall... 100278.	Ogdensburg.....	<i>Finding.</i> —Master R. J. Wilson, and first officer, Ernest Shannon, exonerated from blame. Proper seamanship and good judgment were not exercised by sailing master, Joseph Blais, who was in full command of ship at the time of the accident, and his certificate is suspended for four months, and an additional two months for contempt of court. On June 10 stranded near Stone Pillars light, river St. Lawrence. Formal investigation was held at Montreal on June 23 before Capt. L. A. Demers, assisted by Capt. Francis Nash and Capt. J. C. Cain, acting as nautical assessors.
Harmatris..... 135169.	London.....	<i>Finding.</i> —Stranding was due to carelessness and neglect on part of pilot Lucien Lachance, whose license is suspended for one year. On November 6 stranded near Cap a la Roche, river St. Lawrence. Formal investigation was held at Quebec on November 20 before Capt. L. A. Demers, assisted by Capt. James A. Murray and Capt. Charles Koenig, acting as nautical assessors.
Kaasan..... and Pretorian..... 113969.	American..... Glasgow.	<i>Finding.</i> —Accident caused by mistake on part of donkeyman, Charles Campbell, in shutting off wrong steam valve. Master, pilot and chief engineer exonerated. On September 10 collided off White Island lightship, river St. Lawrence. Formal investigation was held at Montreal on September 27, 28 and 29, before Capt. L. A. Demers, assisted by Capt. Francis Nash and Capt. J. O. Grey, acting as nautical assessors.
Kenkon Maru No. 3.....	Japanese.....	<i>Finding.</i> —Captain, officers and pilot of <i>Pretorian</i> were exonerated from all blame. Pilot W. Langlois of <i>Kaasan</i> did not use all prudence required of him; but owing to his previous good record is only fined \$100. Master and officers are to blame, not being strangers in these waters they relied upon the pilot. On January 12 stranded on Bell Chain reef, Saturnia island, gulf of Georgia. Formal investigation was held at Mayne island, B.C., on April 10 and 11, 1916, before Capt. John D. Macpherson, assisted by Capt. Robinson Ridley and Capt. Henry Parsons, acting as nautical assessors.
Lady of Gaspe..... 78554.	Quebec.....	<i>Finding.</i> —Stranding was due to action of Nanaimo pilot, James Edgar Butler, who was fined the cost of investigation, \$230. On October 13 stranded $1\frac{1}{2}$ miles below Quebec bridge. Formal investigation was held at Quebec on October 20, before Capt. L. A. Demers, assisted by Capt. Charles Koenig and Capt. L. R. Demers, acting as nautical assessors.
Leona..... 122951.	Goole.....	<i>Finding.</i> —Stranding was due to lack of prudence and to bad navigation on part of master, J. R. Deslauriers, and his certificate is suspended for one year; but court recommends that a mate's certificate be granted to him from April 1 to expiration of his suspension. On October 30, foundered near Active pass, gulf of Georgia, and six lives were lost. Formal investigation was held at Victoria, on November 29 and 30, before Capt. John D. Macpherson, assisted by Capt. W. Wingate and Capt. R. N. Walker, acting as nautical assessors.
		<i>Finding.</i> —Foundering was due solely to the fact that vessel was loaded with cargo of a most dangerous nature which owing to an excessive percentage

Name of Ship. Official No.	Registered Port.	Remarks.
Matatua 114599.	Southampton.	of moisture, and vibration of vessel, shifted, causing vessel to take heavy list and allowing water to find its way, not only into vessel's hold but also into ballast tanks. On March 11 damaged by fire in St. John harbour, and master lost his life. Formal investigation was held at St. John, on March 20 and 21, and April 4, before Capt. L. A. Demers, assisted by Capt. T. J. Mulcahy and Capt. D. L. Kenny, acting as nautical assessors. <i>Finding.</i> —Origin of fire is unknown. Master's death was accidental. Second officer, Bolan Ellison, was censured for breach of discipline.
Point Hope and Launches.		On June 9 collided at Point Ellis boathouse, B.C. Departmental inquiry was held at Victoria on June 25, before Capt. G. E. L. Robertson. Decision arrived at was that no one was to blame. Accident was inevitable and caused by some temporary defect in machinery which failed to respond at the right moment.
Potomac 102798.	London.	On February 19 stranded at Holy Stone rock, entrance to Halifax harbour. Formal investigation was held at Halifax on February 28, before Capt. L. A. Demers, assisted by Capt. John Fleming and Capt. D. C. Stuart, acting as nautical assessors. <i>Finding.</i> —Master, Ernest Charles Tudway, was severely reprimanded for his timidity and lack of prudence and judgment.
Pilot. 88303.	Quebec	On January 19 stranded on Red island, St. Lawrence river. Formal investigation was held at Quebec on March 24, before Capt. L. A. Demers, assisted by Capt. Charles Koenig and Capt. L. R. Demers, acting as nautical assessors. <i>Finding.</i> —Stranding was due to error of judgment on part of master, Arthur Deschenes, who is reprimanded and cautioned to exercise better judgment in future. Court is also of opinion that mate, Joseph Deschenes, had not sufficient knowledge to assist master.
Romney . . . 110532.	Liverpool	On June 24 stranded near Green Island lighthouse, river St. Lawrence. Formal investigation was held at Quebec on June 29, before Capt. L. A. Demers, assisted by Capt. Francis Nash and Capt. James Murray, acting as nautical assessors. <i>Finding.</i> —Master, Thomas Moss, was exonerated from blame. Pilot Jules Lachance's license was suspended for six months for his lack of attention to duty, mistaking Green Island light for Red Island light. Second officer, A. G. Cooper, severely reprimanded for his indifference in navigating ship and cautioned to be more careful in future.
Romera 129424.	Glasgow	On August 16 stranded near cape Dog, river St. Lawrence. Formal investigation was held at Montreal on August 27, before Capt. L. A. Demers, assisted by Capt. Francis Nash and Capt. J. Black, acting as nautical assessors. <i>Finding.</i> —Pilot, Arthur Lachance, alone is to blame, and he is fined \$100. His certificate is not dealt with on account of his good record and long period of service.
Sir Hugh Allan. 130534, and De Levis . . . 126842.	Montreal. Quebec.	On August 21 collided one mile above Point Citrouille light, river St. Lawrence. Formal investigation was held at Montreal on September 30 and October 8, before Capt. L. A. Demers, assisted by Capt. J. O. Grey and Capt. Charles Lapierre, acting as nautical assessors.

SESSIONAL PAPER No. 21

STATEMENT of investigations into wrecks and casualties which occurred to Canadian, British and Foreign vessels, held in Canada during the fiscal year 1915-16—*Concluded.*

Name of Ship. Official No.	Registered Port.	Remarks.
Silver Wings..... 118498.	London..	<p><i>Finding.</i>—Collision is due to default of master of each vessel failing to carry out Art. 28 of Rules of Road. Master of <i>Sir Hugh Allan</i> Raphael Chevrrier's certificate was suspended for one year. Certificate of master of <i>De Lewis</i>, J. B. Blais, was cancelled, and certificate of second engineer of <i>De Lewis</i>, Leon Crepeau, was also cancelled, for having abandoned his post to flee on deck of other boat after collision.</p> <p>On August 18 stranded on Sable island. Preliminary inquiry was held at Halifax on August 24, before Capt. F. N. Malcolm, and a formal investigation held at Halifax on August 27 and 28, before Lieut. Graham C. Holloway, assisted by Capt. Neil Hall and Capt. D. C. Stuart, acting as nautical assessors.</p> <p><i>Finding.</i>—Master, Edward O'Toole, is at fault for not having used lead, and for reckless navigation, and his certificate is suspended for one year. Mate, Thomas Jones, is found to have kept log in a very slack manner, taking no interest in the navigation of his ship, and he is also found at fault for not realizing responsibility of his position as mate, and his certificate is suspended for three months.</p>
H.M.S. Sydney..... and Dartmouth..... 90889.	Halifax.	<p>On August 25 collided in Halifax harbour. Formal investigation was held at Halifax on September 11, 13 and 14, before Capt. F. N. Malcolm, assisted by Capt. D. C. Stuart and Capt. John Fleming, acting as nautical assessors.</p> <p><i>Finding.</i>—No one is to blame, accident unavoidable.</p>
Senlac..... 112239.	St. John.....	<p>On December 14 burnt in Sydney harbour. Preliminary inquiry was held at Sydney, N.S., on December 28, by Mr. Vincent Mullins. Origin of fire unknown.</p>
Wahcondah..... 102577, and Choctaw.....	Hamilton..... American.	<p>On July 12 collided in lake Huron. Formal investigation was held at Kingston on July 28, before Capt. L. A. Demers, assisted by Capt. James Murray and Capt. William Murphy, acting as nautical assessors.</p> <p><i>Finding.</i>—Master and mate of <i>Wahcondah</i>, Cornelius Dineen and David Chambers, respectively, contributed to collision, Master for not being at his post in thick weather, and for allowing his vessel to go full speed in fog; the mate for not stopping ship when hearing signal from <i>Choctaw</i>, and not calling captain sooner. Master's certificate suspended for a year, and mate's certificate suspended for same period.</p>
Wakena..... and Venture..... 129475.	American. Victoria.	<p>On February 25 collided in First narrows, Burrard inlet. Formal investigation was held at Vancouver on March 17, before Capt. John D. Macpherson, assisted by Commander Charles Unwin and Capt. H. G. Hilton, acting as nautical assessors.</p> <p><i>Finding.</i>—<i>Wakena</i> alone is to blame. Master lost his bearings in thick fog, and while endeavouring to put his vessel in mid-channel collided with <i>Venture</i>.</p>

APPENDIX No. 9.

ANNUAL REPORT OF THE MASTERS, SEAMEN AND PILOTAGE
BRANCH.

To the Deputy Minister of Marine and Fisheries,
Ottawa.

SIR,—I have the honour to submit the 1915-16 annual report of this branch.

GOVERNMENT NAVIGATION SCHOOLS.

During the twelve months ended March 31, 1916, navigation schools were in operation for longer or shorter periods, at St. John, N.B., Halifax, Yarmouth and North Sydney, N.S., Quebec, P.Q., Kingston and Collingwood, Ont., and at Vancouver, B.C.

At St. John, Capt. Rufus C. Cole, instructor, the school was in operation 312 days; average attendance three, maximum attendance eight.

At Halifax, Capt. John Simmons, instructor, the school was open every day except Sundays and holidays; average attendance thirteen, maximum attendance thirty-one.

At Yarmouth, Capt. John E. Murphy, instructor, twenty-eight sessions were held; average attendance four, maximum attendance nine.

At North Sydney, Capt. Jas. Sutherland, instructor, thirty-two sessions were held; average attendance five, maximum attendance nine.

At Quebec, Capt. Napoleon Lachance, instructor, the school was in operation eighty-one days; average attendance fourteen; maximum attendance twenty-two.

At Kingston, Capt. Steeves, instructor, the school was in operation six weeks and sixteen pupils were in attendance.

At Collingwood, Capt. Geo. C. Coles, instructor, thirty-two sessions were held; average attendance ten, maximum attendance nineteen.

At Vancouver, Capt. Chas. Eddie, instructor, twenty-four sessions were held; average attendance eight, maximum attendance fourteen.

The total expenditure on account of navigation schools during the above period was \$4,067.97.

MASTERS AND MATES.

EASTERN DIVISION.

At Halifax, N.S., Capt. F. N. Malcolm, examiner, eighty-two candidates were examined: nine for masters, six for mate and ten for second mate, sea-going; twenty-six for master, and twenty-nine for mate, coasting; and two for master, minor waters. Seven persons underwent the sight tests.

At Yarmouth, N.S., Capt. J. E. Murphy, examiner, twenty-six candidates were examined: three for master, six for mate and six for second mate, sea-going; and six for master and five for mate, coasting. One candidate failed for second mate, sea-going.

SESSIONAL PAPER No. 21

At North Sydney, N.S., Capt. Jas. Sutherland, examiner, six candidates were examined: one for master and three for mate, coasting; and two for master, minor waters. Two candidates failed: one for mate, coasting, and one for master, minor waters. Two persons underwent the sight tests, one failed.

At St. John, N.B., Capt. W. R. Bennett, examiner, twenty-one candidates were examined: one for master, two for mate and one for second mate, sea-going; six for master and four for mate, coasting; and four for master and three for mate, minor waters. One candidate failed for mate, coasting. Three persons underwent the sight tests, one failed.

At Charlottetown, P.E.I., Capt. Alex. Cameron, examiner, five candidates were examined: four for master and one for mate, coasting.

At Quebec, P.Q., Capt. P. L. Lachance, examiner, fifty-seven candidates were examined: one for second mate, sea-going; four for master and twelve for mate, coasting; one for master, inland waters; twenty-eight for master and five for mate, minor waters; and six for master's temporary certificates. Eleven candidates failed: one for second mate, sea-going; one for master and four for mate, coasting; and five for master, minor waters. Four persons underwent the sight tests, all failed.

WESTERN DIVISION.

At Vancouver, B.C., Capt. Chas. Eddie, examiner, thirty-eight candidates were examined: one for master and two for mate, sea-going; sixteen for master and fourteen for mate, coasting; one for master and two for mate, minor waters; and two for master's temporary certificates. Six candidates failed: two for master and four for mate, coasting; one person underwent the sight tests.

At Victoria, B.C., Capt. J. D. Macpherson, examiner, thirty-eight candidates were examined: four for master, four for mate and five for second mate, sea-going; fourteen for master and eight for mate, coasting; one for master, minor waters; and two for master's temporary certificates. Two candidates failed: one for mate, sea-going, and one for mate, coasting.

At Prince Rupert, B.C., Capt. A. M. Davies, examiner, four candidates were examined: one for master and two for mate, coasting; and one for a master's temporary certificate. One candidate failed for mate, coasting.

At Edmonton, Alta., Capt. A. D. Grant, examiner, no candidates were examined.

INLAND WATERS DIVISION.

At Toronto, Ont., Capt. H. W. King, examiner, 139 candidates were examined: twenty-two for master and twenty-six for mate, coasting; thirty-one for master and twenty-seven for mate, inland waters; nine for master and five for mate, minor waters; and nineteen for master's temporary certificates. Sixteen candidates failed: three for master and one for mate, coasting; two for master and one for mate, inland waters; five for master and two for mate, minor waters; and two for master's temporary certificates. Five persons underwent the sight tests, one failed.

At Collingwood, Ont., Capt. Geo. C. Coles, examiner, thirty-one candidates were examined: three for master and four for mate, coasting; five for master and twelve for mate, inland waters; three for master, minor waters; and four for master's temporary certificates. Five candidates failed: one for master and one for mate, coasting; one for master and one for mate, inland waters; and one for master, minor waters.

At Kenora, Ont., Capt. Geo. P. Phillips, examiner, four candidates were examined for master's temporary certificates.

7 GEORGE V, A. 1917

At West Selkirk, Man., Capt. M. Thordarson, examiner, one candidate was examined for master, inland waters.

CERTIFICATES ISSUED.

During the year the following numbers and grades of certificates have been issued to masters and mates: eighteen masters', nineteen mates' and twenty-one second mates' sea-going certificates of competency; ninety-six masters' and ninety-four mates' coasting certificates of competency; thirty-five masters' and thirty-seven mates' inland waters certificates of competency; thirty-eight masters' and thirteen mates' minor waters certificates of competency; and thirty-six masters' temporary certificates. A complete list of masters' and mates' certificates issued during the year follows.

RECEIPTS AND EXPENDITURE.

The total amount collected in the way of examination fees for certificates during the twelve months ended March 31, 1916, was \$4,857.73, and the amount expended on account of this service was \$13,828.13, an excess of expenditure over receipts of \$8,970.40.

The following statement shows the total receipts and expenditure on account of masters and mates during the last ten years:—

	Expenditure.	Receipts.

PILOTAGE.

The Minister of Marine and Fisheries is the Pilotage Authority in the pilotage districts of Montreal and Quebec, and all matters of pilotage in those districts are controlled by the Minister through a general superintendent at Quebec.

In the pilotage district of Montreal there are fifty-one pilots and seventeen apprentices and in the pilotage district of Quebec there are sixty-four pilots and twenty-one apprentices. Pilots in these two districts receive all their earnings less five per cent in the Montreal district and seven per cent in the Quebec district which is paid into their respective Decayed Pilots' Funds. The total gross earnings of the Montreal pilots for the twelve months ended December 31, 1915, amounted to \$109,306.74, and the total gross earnings of the Quebec pilots during the same period amounted to \$132,806.59. All expenses of these services are paid out of public funds, and during the twelve months ended March 31, 1916, amounted to \$41,580.29.

SESSIONAL PAPER No. 21

Retired pilots of the Montreal and Quebec districts are regularly paid a yearly pension of \$300 each out of their respective Decayed Pilots' Funds, and retired pilots of the Quebec district are paid in addition a yearly Government pension of \$300, those Government pensions for the twelve months ended March 31, 1916, amounting to \$8,558.33.

Extracts from the annual (1915) returns of the general superintendent form an appendix to this report.

Of the thirty-nine other pilotage authorities constituted under the authority of the Governor in Council in pursuance of the provisions of the Canada Shipping Act, twenty-nine have sent in returns for 1915, extracts from which also form an appendix to this report.

I have the honour to be, sir,

Your obedient servant,

B. F. BURNETT,
*Officer in Charge, Masters and Seamen
Branch.*

7 GEORGE V, A. 1917

APPENDIX A.

List of Sea-going Certificates of Competency issued to Masters, Mates and Second Mates, during the twelve months ended March 31, 1916.

7 GEORGE V, A. 1917

PILOTAGE DISTRICT OF VANCOUVER, B.C.—*Concluded.**Pilotage Rates.*

For vessels entering into or clearing from the ports of Vancouver, Howe Sound and Powell River the rates of Pilotage shall be as follows:—

(a) For vessels under sail \$2 per foot draught of water and one cent per net registered ton.

(b) For vessels in tow of a steamer, \$1 per foot draught of water and one cent per net registered ton.

(c) For steamers, \$1 per foot draught of water, and one cent per net registered ton, and \$1 (one dollar) per foot draught from the Vancouver Pilotage limits to the Powell River Pilotage limits (provided that vessels calling at English Bay, bound for Howe Sound or Powell River shall not be liable for inward pilotage for port of Vancouver).

Any portion of a foot not exceeding six inches shall be paid as half a foot; any fraction exceeding six inches shall be paid for as one foot.

The Pilotage from Cape Flattery or Royal Roads to a line drawn from Point Atkinson to the Nun buoy on Spanish bank, or the limits of Howe Sound as hereinbefore described, and vice versa, is not compulsory, but if the services of a pilot are required he shall be paid the following rates, viz.:—

	Per foot.
From Cape Flattery.....	\$6 00
From Callum Bay.....	5 00
From Beachy Head.....	4 00
From Race Rocks or Royal Roads.....	3 00

And for vessels under steam or in tow of a steamer the following rates shall be paid:—

	Per foot.
From Cape Flattery.....	\$3 00
From Callum Bay.....	2 50
From Beachy Head.....	2 00
From Race Rocks or Royal Roads, vessels under steam...	1 00
From Race Rocks or Royal Roads, vessels in tow of a steamer.	1 50

(d) Point Atkinson pilot station to be the boarding or speaking point for all ports in existence, or to be made on the mainland up to the 51st parallel of north latitude, until otherwise ordered by the pilotage authority.

The payment of pilotage dues is compulsory in the pilotage district of Vancouver.

C. G. MAJOR,
Chairman.

C. GARDNER JOHNSON,
Secretary.

7 GEORGE V, A. 1917

PILOTAGE DISTRICT OF VICTORIA AND ESQUIMALT, B.C.—*Continued.**Pilotage Rates.*

(a) Vessels bound to other ports and coming to an anchor in Royal Roads, the pilotage shall be free, except the services of a pilot are employed, when pilotage according to the following graduated scale shall be payable:—

From inside or North of Race rocks to Royal bay or vice versa, 50 per cent of the prescribed rates under Clause (b).

	Per foot.
From Beechy Head to Royal Roads or vice versa	\$1 00
From Pillar Point to Royal Roads or vice versa	3 00.
From Cape Flattery to Royal roads or vice versa	6 00

(b) For vessels entering into or clearing from the ports of Victoria and Esquimalt, the rates of pilotage shall be as follows:—

(1) For regular ocean steamers, 50 cents per foot draught of water and $\frac{1}{2}$ cent per net registered ton up to a maximum of 3,500 tons on the inward voyage subject to a discount of 20 per cent, and 50 per cent of the above rates on the outward voyage.

(a) Regular ocean steamers are those which have in their printed schedule Victoria or Esquimalt as a regular port of call, and call both inwards and outwards.

(b) Any regular vessel calling inwards and not outwards, or vice versa, will not be entitled to the 20 per cent discount.

(2) For irregular ocean steamers, \$1 per foot draught of water and $\frac{1}{2}$ per cent net registered ton.

(3) For regular steamers in the coasting trade between San Francisco and Lynn canal inclusive, the rate shall be the same as for regular ocean steamers, as rate 1 in Clause 1.

(4) For vessels under sail, \$2 per foot draught of water and 1 cent per net registered ton.

(5) For sailing vessels in tow, \$1.50 per foot draught of water and 1 cent per net registered ton.

(6) For all vessels entering into or clearing from William's Head quarantine station, the rates shall be 50 per cent of the prescribed rates of any class of vessel for Victoria and Esquimalt, subject to exemptions in Sec. 17, Clause 7; provided, however, that all coasters between San Francisco and Lynn canal inclusive, when compelled by special instructions from the Dominion Government, to call at William Head quarantine station, shall be exempt from pilotage dues unless the services of a pilot are requested.

(7) For all vessels of 500 tons and under, 75 cents per foot draught of water.

(c) *Gulf Pilotage.*—For all vessels from the limits of the Ports of Victoria and Esquimalt to the limits of all ports on Puget sound and gulf of Georgia and vice versa, the rate of pilotage shall be \$1 per foot draught of water.

(d) Vessels proceeding from Victoria to Esquimalt, and vice versa, and having discharged or received a portion of their cargo in either harbour, and having paid full pilotage into either harbour, if proceeding with the assistance of steam shall pay \$1 per foot.

(e) Any fraction of a foot not exceeding six inches shall be paid for as half a foot, and any fraction of a foot exceeding six inches shall be paid for as a foot.

(f) Pilots shall, when called upon to do so, remove vessels from one part of either harbour to another part of the same harbour for the specific charge of \$10 for each and every removal.

(g) The Pilotage Authority, subject to the approval of the Governor in Council, shall have power under this By-law, to make such arrangements from time to time concerning the pilotage of vessels making regular trips between Victoria and Puget Sound, as to them may appear necessary or expedient in the interests of trade and commerce.

(h) Compulsory payment of pilotage dues is not chargeable against vessels while in Royal roads, unless such vessels shall enter either or both the harbours of Victoria and Esquimalt.

(i) When a vessel is bound to or from any other port in the province, either laden or in ballast, and does not discharge or receive any cargo, passengers or mails, but simply enters it as harbour of refuge, such vessel shall be exempt from pilotage in and out of Esquimalt, excepting in cases where a pilot is actually engaged by the master for such services.

SESSIONAL PAPER No. 21

PILOTAGE DISTRICTS OF VICTORIA AND ESQUIMALT, B.C.—*Concluded.*

(j) Steamers making regular trips to Victoria and Esquimalt and having paid the prescribed rates under Clause (b) on the inward voyage and returning again to either of said harbours within a period of twenty days, shall only pay one-half the inward rates.

The payment of pilotage dues is compulsory in the pilotage district of Victoria and Esquimalt, B.C.

JOSHUA KINGHAM,
Secretary-Treasurer.

Pilotage Rates.

The rates for all vessels entering into or clearing from any port within the pilotage district of Nanaimo both outward and inward, shall be as follows:—

(a) For vessels under sail, \$2 per foot draught of water and one cent per net registered ton.

(b) For vessels in tow of a steamer, \$1 per foot draught of water, and one cent per net registered ton.

(c) For steamers, \$1 per foot draught of water, and one cent per net registered ton.

Any portion of a foot not exceeding six inches shall be paid as half a foot, any fraction exceeding six inches shall be paid for as one foot.

Gulf of Georgia and Straits Navigation.

Vessels accepting the services of a duly licensed pilot in the straits of Juan de Fuca, Hare straits or gulf of Georgia, and bound to any ports or harbours within the jurisdiction of the Pilotage Authority of Nanaimo, shall pay for such service both inward and outward the sum of \$10 per day or fraction of a day of 24 hours, in addition to the regular port pilotage.

SESSIONAL PAPER No. 21

PILOTAGE DISTRICT OF NANAIMO, B.C.—*Concluded.*

Any vessel arriving at any port within the pilotage district of Nanaimo, without having been spoken inwards by a pilot shall not be exempt from paying outward pilotage, and masters of vessels requiring a pilot outwards, must make application to the Pilotage Authority or their agents who shall supply him with the first available pilot who may be disengaged.

The payment of pilotage dues is compulsory in the pilotage district of Nanaimo, B.C.

E. G. CAVALSKY,
Secretary.

PILOTAGE DISTRICT OF NEW WESTMINSTER, B.C.

Pilot Commissioners.		Date of Appointment.	
Geo. S. Blakeley.....		Jan. 9, 1914	
Alfred E. White.....		Jan. 9, 1914.	
Fredk. J. Coulthan.....		Jan. 9, 1914	

Pilot.	Date of Appointment.	Age.	Amount paid per month.
L. H. Ford.....	Oct. 15, 1915..	58	\$ cts. 150 00

Foreign steam vessels.....	110	7,599	774 02
	127	24,612	1,403 28

Receipts and Expenditure.

The receipts of the district not being sufficient to support a pilot, the City of New Westminster pays the pilot's salary of \$150 per month.

Ninety per cent of all receipts is paid to the city of New Westminster, and 10 per cent retained for pilot's and office expenses.

Pilotage Rates.

For vessels entering into or clearing from the port of New Westminster the rate of pilotage shall be as follows:—

From the light-ship on the Fraser sand-heads to New Westminster:—

(a) For vessels under sail \$2 per foot draught of water and one cent per net registered ton.

7 GEORGE V, A. 1917

PILOTAGE DISTRICT OF NEW WESTMINSTER, B.C.—*Concluded.*

(b) For vessels in tow of a steamer \$1 per foot draught and one cent per net registered ton.

(c) For steamers \$1 per foot draught of water and one cent per net registered ton.

And fraction of a foot not exceeding six inches shall be paid for as half a foot, and any fraction of a foot exceeding six inches shall be paid for as a foot.

The payment of pilotage dues is compulsory in the pilotage district of New Westminster, B.C.

D. H. MacGORRAN,
Secretary.

STEAMERS.

In addition to the rates paid by sailing vessels, steamers shall pay one cent per register or net ton inwards or outwards, but shall not be required to pay the additional fee both ways; and in event of a change of pilots, going outwards, this additional fee shall be divided equally between the pilots concerned.

If any ship or vessel shall come to anchor at ballast ground or outer loading berth without having been spoken by a pilot, such ship or vessel having had her signal for a pilot displayed from the time she entered the pilotage district, until she came to anchor, shall be exempt from inward pilotage.

The fees for moving a vessel, whether sail or steam, will be as follows:—

From the ballast ground to loading berth outside Bar.....	\$4 00
From one loading berth to another inside the harbour.....	4 00

From the ballast ground to inside the harbour above the usual loading ground outside the Bar, half the inward pilotage of \$1.40 per foot.

The ballast ground, so far as it relates to pilotage matters, shall be understood to be anywhere outside the ballast buoy, in not more than twelve fathoms

SESSIONAL *PAPER No. 21

APPENDIX No. 11.

SABLE ISLAND

SABLE ISLAND, February 25, 1916.

Agent, Marine and Fisheries,
Dartmouth, N.S.

SIR,—I beg to submit to you my annual report for 1915, which is as follows:—
Boats on hand, similar to last season. Stock: horses 45, horn cattle 60, hogs 4. People on Island 50, including 5 at the wireless station. Number of times did rounds, a.m. 79, p.m. 50, total 129.

Repairs to buildings at main station: shingled part of cow barn and new doors to it; shingled part of wagon house; new doors to horse barn; shingled and thoroughly repaired boat-house at No. 3 station; shingled roof and other repairs to horse barn.

Crops, potatoes, almost a failure; other vegetables, good crops about the average; hay exceedingly good, well above average.

Cattle killed, two weighing 1,100 pounds; pigs, four weighing 1,260 pounds.

Wrecks during the year, two, ss. *Silverwings*, of London, Eng., stranded August 17, near West light, and became a total wreck. Her cargo consisted of various war materials of which little or nothing was saved. She has since disappeared from view. On the morning of September 10, the auxiliary barque *Lota* of Norway ran ashore on the detached bar off east end of the island. The fog was dense, and did not clear sufficiently to sight her by the patrolmen, or from the stations, until the evening of the 11th, when a boat was dispatched as soon as possible. At noon on the 12th the crew was landed at No. 4 station. She, too, became a total wreck. Her cargo contained 7,000 or 8,000 barrels of lubricating oil, of which the greater part was lost. Some 2,000 barrels landed along the shore of the island, and we have hauled them up at various places between the east and west ends of the island. The *Lota* has also disappeared during the winter.

The crews of the two vessels, *Silverwings*, 25, and *Lota*, 19, 44 in all, were safely landed and cared for until transported to Halifax by your orders.

J. U. BLAKENEY,
Superintendent, Sable Island.

APPENDIX No. 12.

DOMINION STEAMERS.

NOVA SCOTIA DISTRICT.

Lady Laurier.

1915.—During the months of April, May and June this vessel was engaged in the lighthouse-supply service and buoy service on the eastern and western shores. In July she made a trip to lightship No. 15 with supplies. In August made lighthouse-supply trips to the eastern shore and Sable island, and cape Race and cape Freels, Newfoundland.

From September 1 to October 18 placed war buoys in war channel and on east shore and made trip to lightship No. 15. On October 18 the boiler was blown down for repairs and the vessel laid up till the end of November. During December she was engaged in eastern supply trip with Superintendent of Lights on board on trip of inspection.

1916.—January.—Employed bringing in buoys from east and west shores. February.—Engaged in buoy work and trip to lightship with supplies. March.—Engaged in buoy work east and west and in supplying lights and fog alarms.

Aranmore.

1915.—During the months of April and May this vessel was laid up for repairs. The repairs being completed and compasses adjusted, on June 26 she proceeded on a supply trip to Sable island.

From July 6 to November 25 the vessel was transferred to the Quebec Agency and employed in the lighthouse-supply and buoy service. During December she made a trip to Sable island with passengers and supplies and changed war channel buoys.

1916.—During January she supplied lighthouses on western shore until the 28th, then laid up for repairs and was under repair during February and March.

NEW BRUNSWICK DISTRICT.

Lansdowne.

On the 4th April the ship was inspected at St. John, N.B., and on the 5th, lighthouse supplies, buoys, moorings, etc., were taken on board. The steamer was employed in lighthouse-supply and buoy service throughout the spring and summer months until September 28. On that date, in trying to avoid a collision with a large motor-boat in St. John harbour, she struck the Marine wharf, damaging her bow badly. On October 2, while the *Lansdowne* was at her berth at No. 7 pier, she was run into by the SS. *Shenandoah*, and planking and rails were damaged. Cargo and coal were landed, and the ship got ready to be placed on Hilyard's blocks, at St. John, for repairs. On October 11, ship was towed to Hilyard's blocks. Remained on blocks until November 9, undergoing repairs and shipping new smokestack. On that date, ship was

7 GEORGE V. A. 1917

towed to pier No. 7, West St. John. From the 9th to 17th November the time was employed in refitting and painting the ship and taking on supplies. On the 17th she proceeded to sea and adjusted compasses, was employed in usual lighthouse and buoy service until January 2, when the tug *Sin-mac* collided with the *Lansdowne* at pier No. 6, St. John. From the 2nd till the 6th of January the vessel remained at St. John undergoing repairs. From the 7th of January till the end of March she was employed in the usual services.

Aberdeen.

This vessel is employed in the lighthouse and buoy service under the St. John Agency.

On May 14, Frank Christopher, A.B., while going ashore at Pettingill's wharf, St. John, fell off the ladder and was drowned. A very strong freshet was running at the time and all efforts to save him were unavailing.

On August 6, while at Lower Cove slip, St. John, for repairs, a slight fire occurred in the boatswain's locker, which was quickly put out without any damage. The ship remained at Lower Cove slip undergoing repairs from August 1 till September 16, when she again went to sea.

On January 5 stood by the steamer *Marina* ashore on Foul Ground and wired for assistance. A tug succeeded in getting the *Marina* off.

On February 16, while lowering a surf-boat with two men in it (Frank Foley and Clayton Atkins), they were thrown into the water. Lifebuoys were cast and boats lowered, but Foley sank and Atkins was rescued. Up to the close of the fiscal year work proceeded as usual.

PRINCE EDWARD ISLAND DISTRICT.

Minto.

The *Minto* was on the Georgetown-Pictou route at the beginning of the fiscal year. Left Pictou on the 5th April, but could not cross owing to heavy ice, returned to Pictou, left on the 6th and arrived at Georgetown on the 7th, made a single trip on the 8th, left Pictou on the 9th, arrived at Georgetown on the 10th, made single trips from the 11th to 13th, left Pictou on the 14th, and reached Charlottetown on the same day, and made single daily trips till the 8th May, and on the following day sailed from Pictou to assist the ss. *Ramus*, reported blocked in ice off Magdalen islands; but the *Ramus* having reached open water, the *Minto* returned to Pictou on the 10th, and made single trips between Pictou and Charlottetown from the 10th to the 12th, then sailed to Glace bay to render assistance to four steamers, and on the 14th returned to Pictou, and made daily trips on the Charlottetown-Pictou route until the 26th May when the winter service closed. After landing winter gear at Charlottetown, she sailed for Pictou on the 28th May, went on the slip for repairs, returned to Charlottetown on the 7th July, where she underwent repairs until the 23rd when she sailed for Halifax, and on the 5th August sailed from Sydney to Hudson bay, returned on the 29th August, and till the end of September was in Halifax undergoing repairs.

She sailed for Charlottetown on October 1, where she went under repairs at the Marine wharf until the 16th November, when she sailed to Halifax on her way to Russia having been bought by the Russian Government.

SESSIONAL PAPER No. 21

The *Minto* made forty-two single trips, carried 6,720,973 pounds of freight, 85,996 pounds expressage, 1,004 passengers, provided 548 meals and 225 berths to passengers.

She earned from freight.....	\$ 5,105 36

	<hr/>
	\$ 6,940 46

NOTE.—The meals were provided by the steward, who paid the above amount to the ship for the privilege.

Prince Edward Island.

The icebreaker *Prince Edward Island* was transferred from the Department of Railways and Canals to the Marine Department on the 10th December, arrived at Charlottetown on the 12th, remained at the Marine wharf undergoing necessary repairs, sailed for Pictou on the 21st, and returned to Charlottetown on the 25th, began the winter service on the 3rd January making one round trip, and single trips daily, from the 4th of January to the 21st February, between Charlottetown and Pictou.

She left Pictou on the 22nd, reached Charlottetown on the 23rd and left at 9.30 a.m., arrived at Pictou 7 a.m. of the 24th and returned. From the 25th February till the 3rd March, she made single trips daily on the same route, and again from March 6th till the 22nd, remaining at Pictou till the 23rd owing to a northeast snowstorm.

She sailed from Pictou at 7 a.m. of the 24th, and arrived at Charlottetown at 5.30 p.m. of the 25th, left Charlottetown 7 a.m. of the 26th and arrived at Pictou at 11.30 of April 1st, being delayed by heavy ice rafted off Pictou island.

The *Prince Edward Island* made seventy-three single trips, carried 13,035,330 pounds of freight, 332,456 pounds expressage, 2,835 passengers, provided 1,280 meals and ten berths to passengers.

She earned from freight.....	\$ 9,283 14
“ expressage.....	665 01
“ passengers.....	3,783 60
“ meals.....	232 40
“ berths.....	10 00
	<hr/>
	\$ 13,974 15

NOTE.—The meals were provided by the steward, who paid the ship the above amount for the privilege.

Stanley.

The *Stanley* was on the Georgetown-Pictou route at the beginning of the fiscal year and sailed on the Georgetown-Pictou route, April 15, when she arrived at Charlottetown and plied on that route until the 22nd May, when she ceased that service and made preparations for placing Prince Edward Island gas buoys.

7 GEORGE V, A. 1917

After completing the buoy service she left for the Halifax agency under which she served until October 30, when she arrived at Charlottetown to fit out for the winter service.

She began lifting gas buoys on the 6th December, sailed for Bryon island on the 12th to assist the vessel *Arrango* wrecked there; and after taking the captain and crew off, she sailed for Charlottetown, lifting buoys en route. After lifting the Magdalen island buoys she fitted up for the winter service, which she began from Summerside to cape Tormentine on the 29th December making round trips daily until the 10th January, 1916, when she sailed for Pictou, thence to Charlottetown, arrived at Pictou on the 12th, made single trips to Georgetown from the 13th to the 15th. Left Pictou for Charlottetown on the 17th. Went to Georgetown on the 19th, on which route she made single trips daily from the 20th January till the 12th February. She remained on the Georgetown-Pictou route until the close of the fiscal year.

She failed to cross on March 8 owing to ice conditions.

The *Stanley* made 113 single trips, carried 9,519,536 pounds of freight, 307,226 pounds expressage, 2,199 passengers, provided 1,225 meals and 531 berths to passengers.

She earned from freight.....	\$ 6,108 99
“ expressage.....	619 01
“ passengers.....	2,896 25
“ meals.....	122 50
“ berths.....	531 00
	<hr/>
	\$ 10,277 75

NOTE.—The meals were provided by the steward, who paid the above amount for the privilege.

Besides the above, the Dominion steamers carried from Charlottetown and Georgetown to Pictou, 165 horses, six sheep, ten hogs and 112 cattle from January 1 to April 30.

Brant.

The *Brant* was in charge of the Naval Service at Halifax at the beginning of the fiscal year, and remained there until the 7th May, after which she was employed in the lighthouse and buoy service of the Prince Edward Island agency until the 31st December, when the crew was paid off and she was laid up for the balance of the fiscal year.

She earned \$85 towing a D.P.W. dredge.

BRITISH COLUMBIA DISTRICT.

Estevan.

The *Estevan* was employed in the lighthouse and buoy service under the British Columbia agency.

She left for Estevan point on the 3rd April, left to attend to aids to navigation in the inner channel between Victoria and the gulf of Georgia. Was recalled to Victoria and sailed to Prince Rupert on the 26th to take the Deputy Minister and Chief Engineer on an inspection trip, returned on the 4th May, sailed for Point Grey gas buoy on the following day, put it in position, then returned and had boilers blown down for annual inspection.

SESSIONAL PAPER No. 21

She sailed to attend to all aids to navigation from Prince Rupert to Queen Charlotte sound and island waters. Returned to Victoria on the 23rd July. From then till the 31st was at Victoria; and after relieving San Juan buoy was turned over to the Victoria machinery depot for annual overhauling.

She left the Victoria machinery depot on the 28th August, began her usual work on the 1st September and took supplies for wireless telegraph stations, on the 29th September, continued the routine work till February 5th, 1916, when she sailed for Dixon entrance to search for the steamer *Onward Ho*, and to attend to other work. She was hauled out for cleaning, painting and minor repairs, began work on the 16th March and continued until the close of the fiscal year.

Quadra.

The *Quadra* sailed for Alaska boundary, Queen Charlotte island, and west coast of Vancouver island, to change the characteristics of acetylene lights, make surveys of all lighthouse and beacon sites, and attend to other sundry works en route. She returned to Victoria on June 5, and left with supplies for the west coast lightstations, as far as Estevan point and to attend to aids to navigation as far as Hesquait.

She sailed on the 28th June for the east coast of Vancouver island and from cape Mudge to Egg island, to Triangle island, on the west coast, and erected an aerial tramway at Egg island for landing supplies, and on the 13th November was placed with Yarrows, Limited, for annual overhaul and repairs.

On the 7th October she began to recharge acetylene lights and look after other aids to navigation from Victoria to Houston straits, and on the 8th November began to recharge the acetylene lights from Millbank sound to Alaska boundary, attend to stations north end of Queen Charlotte islands and land supplies and attend to other routine work.

She returned to Victoria on the 24th December, was used as a standby ship during the holidays, and sailed on the 10th January, 1916, for Triangle island with new lightkeeper, and for Queen Charlotte sound, doing work en route.

She was hauled on the "Ways" at Victoria machinery depot on the 5th February, had hull painted and broken propeller blades renewed. Sailed on the 11th with supplies for the gulf stations, erected a beacon at Drew harbour and a concrete day beacon on Clarke rocks.

On her way to Nanaimo for supplies, she was rammed by the C.P.R. steamer *Charmer*, was beached to prevent foundering, and was eventually sold by tender to the Vancouver Salvage and Dredging Company.

Leebro.

The *Leebro*, a chartered steamer, was on duty at the beginning of the fiscal year, carrying construction materials to cape Mudge where a light tower was in course of erection, and a diaphone for Scarlet Point fog alarm. She collected the necessary sand and gravel en route and on the 15th May sailed to remove the Sand Head lightship and overhaul submarine bell buoys at point Grey and Gossip reef. She was on supply trips until the 6th July, when she sailed for cape Mudge station to bring back heavy construction machinery, and afterwards took supplies and construction material for the range lightstation in course of erection at Comox bar.

On the 21st July she sailed with machinery and construction supplies for the new fog-alarm station at Scarlet point, landed supplies at stations in northern British Columbia waters, and took large scow to Prince Rupert sub-agency.

She sailed with machinery and construction materials for the new fog-alarm station at Entrance island, and from the 4th October to the 24th November was carrying construction and other supplies in the gulf, then carried materials for the concrete day beacons being erected at north point of Texada island and Clarke rock, in the gulf of Georgia; and after doing other work in the same waters returned to Victoria on the 24th December for stores and provisions, returned to finish work at those stations and left for Prince Rupert on the 12th February with supplies for lightstations; en route erected an automatic beacon on Idol point, Seaforth channel. She repaired bridges at Ivory island lightstation attended to other work near Prince Rupert, and returned to Victoria on the 30th March, 1916, recharging acetylene lights on the way.

Newington.

The *Newington* was employed by the Naval Department during the entire fiscal year.

QUEBEC DISTRICT.

QUEBEC AGENCY.

Montcalm.

The *Montcalm* was employed in the lighthouse service during the summer and in icebreaking during the winter, is under the command of Capt. Edgar Pelletier, and carries a crew of seventy men.

From the beginning of the fiscal year until the 3rd May she was in Cabot straits reporting the ice conditions to incoming vessels. She was then put into dry dock where she was overhauled, boilers and machinery repaired and hull painted.

She was taken out of dry dock on the 19th June, and after loading with lighthouse supplies, sailed to Gaspe, strait of Belle Isle and Magdalen island, and returned on the 10th August, went to the assistance of the ss. *Hendonhall* which was ashore at point Desmonts, again sailed with supplies for the north shore stations, returned on the 5th October, sailed for Gaspe, Newfoundland, Magdalen islands and Anticosti on the 19th and returned on the 2nd November. The *Montcalm* was then employed in the buoy service until the 14th December, when she was sent up the Saguenay river to assist vessels to reach the St. Lawrence river in safety, sailed on the 27th December for the Gaspe coast with freight and returned on the 4th January, 1916, when she was placed under the direction of the superintending engineer of the St. Lawrence Ship Channel for icebreaking operations. The ship was at Point Carcé wharf the greater part of January undergoing minor repairs, cleaning and painting, and left Quebec on the 5th February to cut the ice on Beauport batture, and returned to Quebec. She made several trips on succeeding days to view ice conditions, started cutting heavy ice at the Bridge and Beauport batture on the 15th February, and from that date until the end of February was either watching ice conditions or cutting ice at different parts of the river. On the 17th March, she again cleared the ice at Beauport batture, sailed to Murray bay on the 23rd through closely packed ice, transferred passengers and coal to the *Champlain*, cleared track across the river for the *Champlain*, and after placing No. 67 B spar buoy in position returned to Quebec, and went into Louise basin to have her boilers repaired.

SESSIONAL PAPER No. 21

Champlain.

The *Champlain* is an icebreaker used in the ferry service between Murray Bay, Cape-a-l'Aigle and St. Irène on the north shore of the St. Lawrence river, and Rivière-Ouelle wharf on the south shore, which is connected with the Canadian Government railways at Rivière-Ouelle junction.

From the 19th June till the 11th September, she made two daily round trips except on Sunday when she made one round trip. Besides these she made four special trips.

During the rest of the year she made one round trip daily when not prevented by weather or ice conditions. She made one special trip to St. Siméon with provisions on the 19th February. She made sixteen round trips in January, seven in February, and eleven in March, there being large quantities of ice in the river.

She transported 9,228 passengers, 2,346,800 pounds of freight, 5,227 bags of mail matter weighing 11,704 pounds, furnished 1,567 meals to passengers and earned \$7,507.37.

The *Champlain* was replaced by the *Lady Evelyn* from July 26th to August 2nd while she was undergoing repairs at Quebec, and by the *Rouville* from the 4th October to the 15th November while undergoing repairs for winter service.

Druid.

The *Druid* is employed in the lighthouse and buoy service from Platon to Father Point, a distance of 185 miles, and is in command of Capt. Michael Gagnon, and carries a crew of 35 men. She was continuously employed placing and keeping buoys in position, looking after gas buoys, maintaining beacons and day-marks, towing lightships to their respective stations in the spring towing them back to Quebec in the fall, delivering lighthouse and buoy supplies, and transporting workmen to and from different stations.

The *Druid* went into commission on the 1st April and left Traverse on the 5th, began laying buoys from Platon down on the 18th and completed this work on the 25th, after which she placed the lightships in position, and was kept under steam and employed in this district during the season of navigation.

She sailed 12,341 nautical miles and consumed 2,051 tons of coal during the season.

Rouville.

The *Rouville* was employed in lighthouse and buoy supply and construction service during the season of navigation. Was in command of Capt. Cyprien Bossé, and carried a crew of twenty-three men. She arrived in Quebec, from Halifax, on the 14th May, left on construction trips on the 31st May and 17th June, returned on the 29th, and sailed on a construction trip to Lower Traverse on the 29th June, and to Upper Traverse on the 22nd July. With construction materials she sailed for the gulf of St. Lawrence, Magdalen islands and strait of Belle Isle on the 2nd August, and on a supply trip on the 4th September, returning on the 12th, and on the 20th and 23rd sailed for Upper Traverse pier with construction materials.

She replaced the *Champlain* on the ferry service from the 4th October till the 15th November, and sailed for Halifax, N.S., on the 26th with the *Barrington* lightship in tow.

The *Rouville* arrived at Halifax at the end of November, and during the months of December, January, February and March, was engaged under the Halifax agency in the lighthouse and buoy service.

7 GEORGE V. A. 1917

Eureka.

The *Eureka* was engaged as usual in the pilot service at Father Point during the season of navigation, she was in charge of Capt. A. P. Ross, and carried a crew of twenty-one men.

She left Quebec early in the spring, and attended to the embarkation and disembarkation of pilots up to the very last vessel passing her station. She returned to winter quarters at Louise Basin on the 19th December, and underwent needed alterations and repairs preparatory to next season's operations.

MONTREAL AGENCY.

Acetylene.

This scow was used in connection with general construction work and when necessary, for the buoy service, no regular crew being kept on board.

Dollard.

This vessel was employed in laying and maintaining the buoys in the St. Lawrence Ship channel and in patrolling the ship channel at least once a week from Montreal to Point Platon. She did excellent service.

Maggie May.

This chartered tug was used in connection with the derrick scow *Lenore*, and was employed in buoy service in the Ottawa river and lake St. Louis throughout the season. She also made a regular trip through the Rideau river and lakes district putting in order all the lights in that stretch of water. Among her crew were two seamen carpenters who rendered valuable aid in effecting repairs. The crew of the *Maggie May* was employed in painting the different lights in this district, putting up and taking down beacons, and carrying out repairs to lightstations. The steamer was also used for necessary construction work, delivered all the supplies on the Ottawa river and lake St. Louis and laid the buoys between Sorel and Rouse's Point.

Shamrock.

In the beginning and end of the season this vessel was employed in the work of laying and picking up the buoys, and during the middle of the season the crew was employed in painting the high lights throughout the district. The *Shamrock* also delivered supplies to the different stations on the St. Lawrence river between Montreal and Point Platon.

Vercheres.

This boat was employed on the different construction works on the St. Lawrence river, and was used when necessary, in conjunction with the scow *Acetylene*, for buoy service work on lake St. Louis, particularly in the spring.

She was also used to a considerable extent as an inspection boat.

SESSIONAL PAPER No. 21

ONTARIO DISTRICT.

Reserve.

The *Reserve* was principally employed as a tug to handle the scow *Parry Sound* in the maintenance of lights between Valleyfield on the east to Presqu'île on the west.

After undergoing repairs, she went into commission on the 13th April, 1915, and assisted by the *Scout*, placed the buoys in position from Prescott to Valleyfield.

On the 16th June she was transferred to the Montreal agency for employment in lighthouse-supply and buoy service and the scow *Parry Sound* was transferred to the Parry Sound agency on the 6th July, 1915.

Scout.

The *Scout* went into commission on the 9th April, 1915, and began placing buoys between Valleyfield and Presqu'île.

There are in this district thirty-six automatic gas buoys, one Blangas buoy, fifteen compressed gas lighthouses unattended by keepers, two Wigham lights, 110 spar, eighteen can and conical buoys and fifty-four other aids to navigation, attended to by Government steamers.

The *Scout* finished her work on the 18th December, was placed in winter quarters, and began making necessary repairs to hull and machinery preparatory to next season's operations.

Grenville.

A description of this new vessel was given in the 1914-15 Annual Report. She was transferred to the Montreal agency on June 6.

She was placed in commission on June 5 and carried out for the balance of the season all necessary lighthouse and buoy work west of Prescott as far as Niagara river. While at dock in Toronto harbour she was struck by the tug *J. & C. Stewart* and injured on the port quarter. Repairs were made at the expense of the owners of the tug, during the winter, and the vessel was ready for next season's work.

Lambton.

The *Lambton* was employed in the lighthouse and buoy service work on the Great Lakes and Georgian bay during the season of navigation.

She wintered at Parry Sound where she was repaired and fitted out for next season's operations.

APPENDIX No. 13.

HARBOUR COMMISSIONERS' REPORTS OF THREE RIVERS,
PICTOU, BELLEVILLE AND VANCOUVER.

The reports of the Harbour Commissioners of Montreal, Quebec and Toronto, published in previous annual reports of the Marine Department have been omitted as they are published in pamphlet form by the commissioners for general distribution.

REPORT OF HARBOUR COMMISSIONERS AT THREE RIVERS.

THREE RIVERS, P.Q., Jan. 26, 1916.

Hon. J. D. HAZEN,
Minister of Marine and Fisheries,
Ottawa.

SIR,—I have the honour to transmit the report of the operations of the Harbour Commission of Three Rivers for the year 1915. This report does not show the same prosperity as that for the year 1914, but it does not indicate any lack of equilibrium in the finances of the commission. In fact, the commissioners have spent \$28,746.50 for urgent repairs to their wharves without going into debt, and at the same time that this work was executed during the crisis caused by the war, they permitted a certain portion of the working class who were begging work, to obtain it.

The depression in the traffic of the harbour is not surprising as it has been the same throughout the country.

The requisitioning of a large number of vessels by the Imperial Government for the requirements of the war, has made transportation vessels scarcer and has naturally placed the freight rates out of reach.

To this should be added the accidents which happened in our harbour to the government coal wharves. The spring freshets caused subterranean currents to form which undermined the earth and several excavations from 20 to 25 feet deep under the wharves resulted.

This prevented the Dominion Coal Company from installing, in the right time, its discharging plant for the unloading of vessels and this company was unable to send a spring fleet to Three Rivers. For the same reason the Canadian Pacific Company had to wait until the waters had receded to erect at these wharves branch lines connecting with its principal railway line, in order to remove the coal and other merchandise from the wharves and ship the same to its destination.

On this account an important part of the season of navigation was lost and no less than one hundred thousand tons of coal, as well as other merchandise, could not be unloaded at Three Rivers.

The Honourable the Minister of Public Works was informed of these accidents,—but as Parliament did not make any appropriation for that purpose, the wharves remain as they were.

SESSIONAL PAPER No. 21

If, however, foreign imports and the shipment of coal suffered, it may be said that the remainder of the traffic in general, and that with the United States, was very active.

The exportation of sawed timber which was of little account at the beginning of the season increased considerably after the seas became clear of German submarines.

The dredging of the channel by the Government in our river, between our city and the Grand Trunk landing at Sainte-Angèle-de-Laval, was a great boon to our harbour, and has shown us that in the near future, if not in the course of the present year, the Grand Trunk Company will carry on a ferry service for the purpose of unloading its cars on our wharves and for taking the cars of railway lines from the northern part of the river and carrying them over to the southern part.

During the course of December last the Three Rivers Traction Co. inaugurated a tramway service in our city which runs along our wharves and will extend to the parishes situated on the river, to the great centres and to their railway stations. It would not, therefore, be deceiving oneself, under the circumstances, to expect our port to derive advantages in this way.

On the other hand, the Pulp Company of Grand Mere has completed a dam on the St. Maurice river, which was begun two years ago, and as this dam will raise the level of the river by 30 feet it will insure the navigability of the river between the city and Grand Mere, for boats of a pretty large tonnage.

The Minister of Roads, Mr. Tessier, who is the member for our city, is now taking steps with his government to establish a macadamized road between our city, Shawinigan and Grand Mere, which clearly indicates that the commerce of the whole region of the St. Maurice is rapidly making its way towards the port of Three Rivers.

In expectation of the above, which may soon happen, the commissioners, during last season, went to great expense to place their wharves in perfect working condition, and they urgently request that the government will not be backward in having carried out next spring the repairs to the large wharves at Moulin-à-Vent, in order that they may not remain useless during next season.

As early as the 29th April, 1914, the commissioners requested the government to amend their charter to extend the limits of the harbour and arrange to have the commissioners remunerated out of the revenues from the harbour, in return for their duties, basing their action on the fact that no unpaid services given to an important institution can yield as many advantages as if carried on along the lines of business methods.

The commissioners beg to submit in connection with the above that it is urgent that the changes to their charter be effected and they trust that the Government will take the first opportunity of meeting their wishes.

I have the honour to be, sir,

Your obedient servant,

ALFRED DESILETS,

Secretary.

7 GEORGE V, A. 1917

REPORT OF VANCOUVER HARBOUR COMMISSIONERS FOR THE YEAR ENDING MARCH 31, 1916.

APRIL 15, 1916.

The Hon. J. D. HAZEN, K.C.,
Minister of Marine and Fisheries,
Ottawa.

SIR,—In Compliance with section 36, chapter 54, 3-4 George V, the harbour commissioners herewith respectfully submit a report for the year ending March 31, 1916, including a statement of all moneys received and disbursed.

During the year much time and effort have been devoted to the development of an extensive scheme of railway and water terminal facilities, announced by the commissioners in a former report.

The working out of such a project, if it is to be sufficiently comprehensive to serve the harbour and city for years to come, involves many difficulties that have to be overcome, revisions and adjustments that have to be made and much tedious negotiation with the various interests affected. So far, however, the attitude of corporations and parties interested has been that of approval, very substantial progress has been made and it is expected that all necessary negotiations will have been completed and another section of practical work entered upon in the course of the coming year.

The first unit of this project, namely, the reclamation of approximately forty acres of the Granville street mud flats will be completed, it is estimated, in about two or three months. The main viaduct approach will be on the south side of False creek but, for convenience, access also from Granville Street bridge has, with the consent of the city, been provided by means of a stairway. Industries located on this area will have the advantage of trackage connecting with the transcontinental railways and a channel 20 feet deep at low water and 350 feet wide right from False creek to the sea. Thus by an expenditure of about \$300,000, what has been in past years an unsightly waste and a menace to health in the centre of population will be made to assist in supplying Vancouver's greatest need, namely, economical industrial sites. It should here be mentioned that the plans of the commissioners provide for the application of other suitably situated areas for the purpose of attracting and encouraging industries.

Conspicuous features of the harbour now are the new government wharf at the foot of Salisbury drive which was completed at the end of November, and the new grain elevator.

The wharf—a handsome concrete structure affording 1,900 feet of berthage space—is a welcome addition to the equipment of the harbour and only waits the construction of sheds, for which tenders have been called, to make it ready for commercial use, while the grain elevator which is virtually complete, with storage capacity of 1,250,000 bushels, will, it is hoped, be of early service in connection with the abnormal exportation of grain for the use of the allies of Britain in the European war.

On the 14th June it was the privilege of the commissioners to have an interview concerning harbour matters with the deputy minister and chief engineer of the department during their visit to Vancouver and to accompany them on a tour of the entire harbour on the following day. Situated as this

SESSIONAL PAPER No. 21

harbour is, so far away from Ottawa, such opportunities of conferring with representatives of the department are of great assistance and it is a matter of regret to the commissioners that circumstances prevent them being more frequent.

From the Customs returns for the year ending 31st March, 1916, the classification of shipping entered inwards and outwards at this port is as follows:—

Foreign going inwards	1481	vessels	tonnage	1,863,619
“ outwards	1312	“	“	1,566,220
Coastwise going inwards	7746	“	“	3,061,846
“ outwards	8055	“	“	3,451,587

In conclusion, the commissioners have pleasure in reporting that the various members of the staff have been diligent and loyal in the discharge of their duties.

F. CARTER-COTTON,	<i>President.</i>
JAS. A. FULLERTON,	<i>Commissioner.</i>
S. McCLAY,	<i>Commissioner.</i>

PORT WARDENS REPORTS FOR THE YEAR ENDING
DECEMBER 31, 1915.

Returns of fees collected were received from eighteen port wardens during the year, nine from Nova Scotia, two from New Brunswick, two from Quebec, four from British Columbia and one from Ontario.

The total amount of fees collected by port wardens for surveys of hulls, hatches and cargoes, and for granting certificates of seaworthiness was \$24,766.08.

The fees range from \$8 to \$20 according to the time and number of assistants employed in the surveys.

REPORT OF THE PORT WARDEN OF MONTREAL.

MONTREAL, January 6, 1916.

Deputy Minister of Marine,
Ottawa.

SIR,—I have the honour by direction of the council of this board and in compliance with section 31 of the Act governing the Port Warden office, 45 Vic., chap. 45, to transmit herewith documents as follows:—

1. Port Warden annual report for the year 1915.
2. Audited statement of receipts and expenditures of the Port Warden office for the year ending December 31, 1915.
3. Statement of investments of Port Warden surplus funds.

I have the honour to be, sir,

Your obedient servant,

GEO. HADRILL,

Secretary.

7 GEORGE V, A. 1917

MONTREAL, December 29, 1915.

To the President and Council
of the Montreal Board of Trade.

GENTLEMEN,—I have the honour to submit the annual report of the business of the Port Warden's office, with the statement of the exports, receipts and expenditure for the year 1915.

The river St. Lawrence was clear of ice, and the buoys being laid for navigation to the sea on the 15th April, ten days earlier than last season.

On the 19th April, water was let into the Lachine canal and the river steamers arrived, ready to resume the season's traffic.

The season of navigation opened by the departure of the schooners *Honorable Hector Langevin* and *Grace Darling* for sea on the 20th April; these vessels had wintered in the port.

The first cargo of wheat arrived from the west on the 22nd April, by the steamer *W. H. Dwyer*.

The first ocean steamer to arrive was the admiralty transport *E. 18*, ss. *Thespis*; this vessel came in ballast from St. John, N.B., arriving here 30th April, having encountered very little ice in the gulf or river.

The ss. *Jacona* of the Thomson line of steamships was the first vessel to enter the river St. Lawrence by the straits of Belle Isle, on the 4th July, the straits were very little used this season, the reports of the Signal Service were suppressed and no record was kept of the movement of the vessels by the straits.

The continuance of the war has disorganized the shipping to this port, the movements of the steamships of the lines becoming irregular and uncertain, the Imperial Government commandeering the vessels as required.

The only accidents which have occurred this season between Quebec and this port were the grounding of the ss. *Harmatris*, near cap La Roche owing to the jamming of the steering gear, she was floated off at high water, and repaired at Quebec; the stranding of the ss. *Lady of Gaspe* near Quebec bridge, and the grounding of the ss. *St. Cecilia* at the lower part of the harbour. She was floated after lightering and proceeded.

Owing to the scarcity of vessels and the shortage of tonnage for the overseas trade, a number of lake vessels have been engaged in the overseas and coastwise trade.

The water in the river has again been low, the lowest recorded being 28 feet, 8 inches on the 18th November.

The last oversea regular line steamship to sail hence was the ss. *Torr Head*, which left port at 7 a.m. 29th November.

The gas buoys were lifted the same day.

The Canada Steamship Lines, Ltd., ss. *Winona* left port with a full cargo of grain for Sunderland, England, at 10.30 a.m. 3rd December.

On Saturday, 11th December, the lake steamship *Port Dalhousie*, with cargo from lake port for Pictou, N.S., passed through the harbour direct for sea; this was the last vessel outward for the season of navigation, 1915.

This has been a remarkably fine and open fall, there being no ice in the harbour on the 10th December.

Four hundred and eighty-nine foreign going steamships reported at this office this season, with a tonnage of 1,662,686 tons, against 560 vessels of 2,063,517 tons last season a decrease of seventy-one vessels, 400,831 tons.

The business to the lower ports this season consisted of, entered 321 vessels of all classes with a tonnage of 591,529 tons, against 362 vessels of all classes with a tonnage 688,284 tons, a decrease of forty-one vessels and 96,755 tons.

SESSIONAL PAPER No. 21

Clearances of vessels loaded for the lower ports this season were sixty-seven vessels of all classes with a tonnage of 49,055 tons, against 107 vessels of all classes, with a tonnage of 65,759 tons, a decrease of forty vessels and 16,704 tons.

The shipments of various kinds for the past season, manifested and filed at this office up to the 15th December, as per attached statement.

By notice from the Customs Department, manifests of vessels loading at this port were not lodged at this office till thirty days after departure of the vessel.

All of which is respectfully submitted,

ARCHIBALD REID,
Port Warden.

SESSIONAL PAPER No. 21

APPENDIX No. 15.

REPORTS OF SUBSIDIZED WRECKING COMPANIES.

SALVAGE SERVICES RENDERED BY THE QUEBEC SALVAGE AND WRECKING COMPANY FROM THE 31st MARCH, 1915, TO 31st. MARCH, 1916.

1915.

- May 3.—SS. *Lord Strathcona* arrived at Quebec after having laid up at our station at St. John, N.B., for the winter months.
- June 7.—Went to assistance in the Louise basin of the Canadian steamer *Huddington*, which steamer struck off Red island, and temporarily repaired her bottom while afloat so that this steamer could proceed on her voyage.
- June 28.—Went to the assistance of the British steamer *Romney*, which steamer ran ashore off Green island; this steamer came off without any extra assistance, but we accompanied her to Quebec.
- August 1-11.—Went to the assistance of the British steamer *Bengore Head*, which steamer was beached on the north side of Hare island after being in collision with the British steamer *Batiscan*. Found forward compartments full of water, and an open hole in her side 30 feet by 10 feet. Made temporary side in way of hole and otherwise supplied her with necessary salvage gear, saved her and brought her to Quebec.
- August 23-27.—Went to the assistance of the British steamer *Hendonhall*, which steamer ran ashore off point des Monts, and towed her to Quebec.
- September 15.—Went to the assistance of the ss. *Pretorian* of the Allan Line, which steamer was run into, while lying at anchor off White island owing to fog, by an American steamer. Met the *Pretorian* off Lower traverse, on her way to Quebec.
- October 7-8.—Towed six motor-boats from Quebec to Montreal for the Overseas Transport Company.
- November 1-21.—Went to the assistance of the Canadian steamer *Lady of Gaspe*, which steamer sank alongside pointe-a-Carey pontoon in such a manner that while the ship sank, she took a list outward and thereby slid the bottom under the pontoon so that the pontoon was resting on the ship's side and considerable damage was caused to the pontoon. Owing to the extraordinary situation, the salvage operation was conducted with the greatest difficulty, but we succeeded in raising the steamer without any further damage to her or to the pontoon.
- November 19-December 4.—The *Lord Strathcona* was chartered by the Department of Naval Service and took the "Q.H.C. floating crane" from Sorel successfully to Halifax.

The *Lord Strathcona* schooner "*G.T.D.*," properly manned, and all other salvage gear have been kept in commission during the season of navigation to proceed to any accidents or mishaps to ships at very short notice.

QUEBEC SALVAGE & WRECKING CO. LTD., OF MONTREAL.

LEVIS, May 17, 1916.

21—18

HAAKON KJERLAND,
Superintendent.

REPORT OF SALVAGE OPERATIONS OF THE B. C. SALVAGE COMPANY, LIMITED, FOR THE YEAR ENDING MARCH 31, 1916.

October 8.—November 18, 1915.—To wreck of ss. *Mariposa* at Bella Bella.

December 8—December 24, 1915.—To raising the hopper barge *Sir J. J. No. 28*, sunk at Albert head.

January 12—March 31, 1916.—To salving cargo of ss. *Kenkon Maru No. 3* on Bell Chain reef off Saturna island.

February 1—February 3, 1916.—To ss. *Princess Maquinna* ashore at Menzies bay.

February 27—February 28, 1916.—To G.G.S. *Quadra* sunk in Nanaimo harbour making survey of position and condition.

March 9—March 21, 1916.—To floating ss. *Camosun*, ashore on Digby island, B.C.

VICTORIA, B.C., May 26, 1916.

(OFFICIAL COPY.)

SUPPLEMENT TO LIST OF VESSELS, 1916.

LISTS OF SHIPS (distinguishing STEAM AND SAILING SHIPS) belonging to the Dominion of Canada, reported to the Department of Marine and Fisheries in respect of their Registry while the List was in course of preparation.

- A.—Ships for which Registers were opened.
- B.—Ships whose Registers were closed in consequence of their having been wrecked, etc.
- C.—Ships whose names have been changed.

NOTE.—Names of Motor Vessels are printed in *italics*.

A. JOHNSTON,
Deputy Minister of Marine and Fisheries.

(COPIE OFFICIELLE.)

SUPPLÉMENT À LA LISTE DES NAVIRES, 1916.

LISTE des navires (les VOILIERS sont indiqués indépendamment des VAPEURS) appartenant à la Puissance du Canada, et signalés pour fins d'enregistrement au Ministère de la Marine, pendant que l'on préparait la liste.

- A.—Navires ayant été enregistrés.
- B.—Navires ayant été biffés à la suite de naufrages, etc.
- C.—Navires dont les noms ont été changés.

NOTE.—Les bateaux à moteur sont indiqués en *italiques*.

A. JOHNSTON,
Sous-ministre de la Marine et des Pêcheries.

OTTAWA, October, 1916.

Hon. J. D. HAZEN,

Minister of Marine and Fisheries.

SIR.—I have the honour to submit the Supplement to the Forty-ninth Annual Report of the Department of Marine and Fisheries (Marine Branch) for the fiscal year 1915-16, being the Report of the Chairman of the Board of Steamboat Inspectors.

I have the honour to be, sir,

Your obedient servant,

A. JOHNSTON.

Deputy Minister of Marine and Fisheries.

OTTAWA, octobre 1916

Hon. J. D. HAZEN,

Ministre de la Marine et des Pêcheries.

MONSIEUR,—J'ai l'honneur de vous soumettre le rapport du président du Bureau d'inspection des bateaux à vapeur, publié en supplément au quarante-neuvième rapport annuel du ministère de la Marine et des Pêcheries (Direction de la Marine marchande) pour l'exercice financier 1915-16.

J'ai l'honneur d'être, monsieur,

Votre obéissant serviteur,

A. JOHNSTON,

Sous-ministre de la Marine et des Pêcheries.

BOARD OF STEAMBOAT INSPECTION.

OTTAWA, October 30, 1916.

To the Deputy Minister of
Marine and Fisheries,
Ottawa, Ont.

SIR,—I have the honour to submit, as follows, the annual report of the Steamboat Inspection Service, for the fiscal year ending March 31, 1916.

STAFF.

Mr. William Laurie, inspector of boilers and machinery, at Montreal, having died on the 12th November, 1914, as recorded in the last report, the position left vacant was filled by the appointment, after examination, of Mr. John T. Gardham, by Order in Council dated May 10, 1915.

Mr. J. H. Fontaine, inspector of boilers and machinery, at Quebec, resigned his position on the 26th April, 1915, and the vacancy was filled by the appointment, after examination, of Mr. J. A. Samson, by Order in Council dated November 3, 1915.

I regret to report the death of Mr. F. F. Pickard, inspector of hulls and equipment, at Victoria, who had volunteered for active service and was on his way to take up military duties in Mesopotamia under orders from the India Office. Mr. Pickard was a passenger on the ss. *Persia*, and went down with that ship when she was torpedoed on December 30, 1915. The Steamship Inspection Service has sustained a severe loss through Mr. Pickard's death, he having proved, during the short period he held office, a most efficient inspector, and having gained the confidence both of the department and the public.

I have also to report that Mr. J. M. Martin, tackle inspector, St. John, and Mr. Ernest Cay, clerk in the office of the steamship inspectors at Toronto have enlisted for overseas service. Mr. Martin's position has been filled temporarily by the appointment of Mr. Eugene Dewey Ring, his appointment taking effect on the 21st December, 1915.

APPLICATION OF NEW LIFE SAVING APPLIANCES RULES.

The above rules, which were approved by Order in Council dated November 6, 1914, came into force on the 1st April, 1915. The application of these rules has proved their suitability for governing life-saving equipment in steamships, as they have been found a considerable improvement over the rules in force prior to their issue.

BOARD MEETINGS.

During the year various Board meetings have been held to discuss questions arising out of the administration of the Steamboat Inspection Service, these being principally in connection with the application of the above mentioned rules, and the issuing of circulars which have been found to be necessary as a consequence of their application.

7 GEORGE V, A. 1917

CASUALTIES.

The following are the casualties reported from the several divisions during the year ending March 31, 1916.

NOVA SCOTIA DIVISION.

On May 26, 1915, the ss. *Morwenna*, of Montreal, left Sydney for the United Kingdom with a cargo of rails. This steamer was torpedoed off Cardiff, Wales, one sailor being killed.

On June 8, the ss. *A. W. Perry*, of Halifax, N.S., left Boston for Halifax with passengers and freight struck on Chebueto head, Halifax, in fog, and became a total loss. No lives lost.

On June 25, the ss. *Cabot*, of Montreal, left Charlottetown for Sydney in ballast, turned over off East point, Prince Edward Island, and became a total loss. No lives lost.

On June 24, the ss. *Easington*, of East Hartlepool, G.B., left Sydney, C.B., for St. John, N.B., with a cargo of coal, and has not since been heard of. Crew of twenty lost.

On June 24, the ss. *Kronprinz Olav*, of Sandjford, left Sydney, C.B., with a cargo of coal for Montreal, Que., and has not since been heard of. Crew of twenty-three lost.

On December 14, the ss. *Senlae*, of St. John, N.B., was burnt in North Sydney at 2 a.m., becoming a total loss. No lives lost.

On February 29, 1916, the ss. *Sindbad*, formerly of Montreal, Que., sold to parties in Great Britain, her name being changed to *Southport*, was torpedoed in the English Channel. No lives lost.

NEW BRUNSWICK DIVISION.

On February 4, 1916, the ss. *Victoria* was burned at No. 2 wharf, Milford, on the St. John River, and sank, the cause of the fire being unknown.

On December 2, 1915, the dredge *Edmund Hall* was burned at Rocky Point, Charlottetown harbour, and sank, the cause of fire being unknown.

QUEBEC DIVISION.

On May 18, 1915, the ss. *Christine* of Quebec was sunk off Orleans island by colliding with another craft. Seven lives lost.

On October 13, 1915, the ss. *Lady of Gaspe* of Quebec while on her way from Montreal to Quebec during a dense fog ran ashore about one mile below the Quebec bridge. She was refloated on the 23rd of the same month and towed into Quebec harbour where she sank owing to failure of the pumps to keep her afloat. The ship was refloated on November 12, 1915, and has since been raised and dry docked.

On January 18, 1916, the ss. *Pilot* of Quebec while on a voyage from Riviere-du-Loup to Tadoussac was caught by drifting ice and carried on the Red Island reefs. No lives lost.

SOREL DIVISION.

On August 21, 1915, the ss. *De Lewis* came into collision with the ss. *Sir Hugh Allan* near Point a Citrouille and sank in 25 feet of water. The steamer was afterwards raised and taken to the government shipyard at Sorel for repairs.

SESSIONAL PAPER No. 23

MONTREAL DIVISION.

On November 11, 1915, the ss. *Aileen* of Kingston left Haileybury for North Timiskaming with a light cargo and one passenger. She failed to reach the latter port, and no trace of the steamer was found, the crew of three and the passenger being drowned.

KINGSTON DIVISION.

On August 23, 1915, the ss. *Fairmount* of Montreal stranded at some point in the West Indies. No lives lost.

On December 18, 1915, the ss. *Northmount* of Montreal while on a voyage from the West Indies to New York, foundered about 100 miles east of Newport News. No lives lost.

On August 3, 1915, the ss. *Alexandra* of Picton stranded on the north shore of lake Ontario during a gale, and became a total loss. No lives lost.

On October 7, 1915, the ss. *Rosemount* of Montreal while on a trip between Fort William and Montreal grounded off Knapps point, east of Kingston. The ship was afterwards released and placed in dry dock for repairs. No lives lost.

On May 1, 1915, the ss. *Jeska* of Kingston while on a trip from Fairhaven to Trenton ran aground at North Port, bay of Quinte, sustaining considerable damage to her hull. The ship was afterwards released and placed in dry dock for repairs. No lives lost.

On September 26, 1915, the ss. *Arabian* of Hamilton was driven ashore at Wilson, N.Y., on lake Ontario. The ship was afterwards released and taken to Buffalo, N.Y., for repairs. No lives lost.

On June 3, 1915, the ss. *Haddington* of Toronto struck rocks on the north side of Red Cloud. The ship was docked and extensive repairs made to her hull. No lives lost.

On December 10, 1915, the ss. *Stormount* while on a trip from Chicoutimi to Port Hastings off the Gaspé Coast had the cover of the water shut-off valve on the port boiler blown off. After repairs had been made the vessel proceeded on her voyage. No lives lost.

TORONTO DIVISION.

On May 12, 1915, the ss. *New Minko* was partially destroyed by fire at Port Carling, Ont. Cause of fire unknown.

On May 13, 1915, the ss. *Valcartier* collided with the United States steamer *F. M. Osborne* near the lower end of lake Huron. The *F. M. Osborne* sank, and the *Valcartier* was taken to Collingwood for repairs.

On June 13, 1915, the ss. *Evelyn* sprang a leak in Georgian bay, near Byng inlet, and foundered.

On July 12, 1915, the ss. *Necipawah* collided with the United States steamer *Choctaw* near Presqu'île, lake Huron. The *Choctaw* sank and the *Necipawah* was taken to Kingston for repairs.

On August 4, 1915 the ss. *Midland Queen* was sunk by a submarine near Fastnet, G.B. Sometime in November, 1915, the ss. *Dunelm* of Sunderland, G.B., was lost at sea somewhere in the Atlantic ocean.

On December 1915 the ss. *Majestic* was totally destroyed by fire at Sarnia; cause of fire unknown.

On February 27, 1916, the ss. *Empress of Fort William* of Newcastle, G.B., struck a mine near Dover, G.B., and foundered.

7 GEORGE V. A. 1917

COLLINGWOOD DIVISION.

On March 17, 1916, the ss. *City of Midland* was burned at her dock, Collingwood harbour, becoming a total loss. Cause of fire unknown. No lives lost.

On August 30, 1915, the ss. *Henry Pedwell* of Owen Sound was burned at Wiarton harbour. No lives lost.

On September 17, 1915, the ss. *Cynthia* of Collingwood stranded on a reef off Point aux Baril, Georgian bay, and broke up. No lives lost.

On December 13, 1915, the ss. *C. M. Bowman* of Saugeen and *Maud L* of Toronto were burned while lying together off Vails point, Georgian bay. No lives lost.

PORT ARTHUR DIVISION.

Nil.

KENORA DIVISION.

Nil.

EDMONTON DIVISION.

Nil.

VANCOUVER DIVISION.

On April 1, 1915, the tug *Kitsap* of New Westminster caught fire when on the Fraser river above New Westminster, and became a total loss. The crew got away safely.

On August 29, 1915, the tug *Georgia* of Vancouver, when proceeding from Butedale to Gardner canal, caught fire in the galley and burned to the water's edge. The crew landed safely without injury.

On Friday October 1, 1915, at 3 a.m. the ss. *Capilano* of Vancouver foundered when midway between Savary island and cape Mudge after striking some obstruction, supposed to have been a floating log.

The crew landed on Savary island without loss of life.

On Saturday October 2, 1915, the ss. *Constance* of Vancouver bound for Turnbull cove laden with supplies for a logging camp, and having in tow the gasoline launch *Munro*, encountered heavy weather and foundered at 4.30 a.m. off Sechelt.

There were 6 men on the tug in addition to the crew of five; also seven men in the launch *Munro*, all of whom were landed safely at Sechelt.

On January 6, 1916, the fishing steamer *Onward Ho* registered at Hull, Eng., left Steveston, B.C., for the fishing banks off the coast of Alaska; she was last spoken by the steamer *Alaska* on 18th January, since which time no further news has been received of the vessel.

It is believed that the *Onward Ho* foundered at sea during the terrific weather and severe cold which were reported at that time by incoming vessels. There were thirty seven persons on board the steamer.

On March 7, 1916, the steamer *Camosun* of Vancouver stranded on the south end of Digby island, in a snowstorm, when proceeding to Prince Rupert. Passengers and crew were landed safely without loss of life. The *Camosun* was afterwards floated and brought to Vancouver for repairs.

SESSIONAL PAPER No. 23

VICTORIA DIVISION.

On September 13, 1915, the ss. *Daisy* grounded on a rock in Victoria harbour on a falling tide, afterwards being submerged. The vessel was salvaged later, and is now undergoing repairs, considerable damage having been done to the vessel's superstructure.

On September 13, 1915, the ss. *Princess Charlotte*, while on a voyage from Seattle to Vancouver, stranded on the southern entrance of Active pass. The vessel backed off immediately, and on examination it was found that No. 4 tank was leaking slightly, with no other apparent damage, and the vessel proceeded on her voyage. Repairs were subsequently carried out at Esquimalt.

On October 1, 1915, the ss. *Capilano* foundered about 5 miles WSW. of Harwood island, and is regarded as a total loss. All hands were saved.

On October 9, 1915, the ss. *Otter*, while on a voyage from Victoria to Boat harbour, stranded on Dot rock about 18 miles from Victoria, afterwards listing heavily, submerging her decks and houses. The vessel was subsequently salvaged and brought to Victoria, and is now undergoing extensive repairs.

On October 30, 1915, the ss. *Leona*, while on a voyage from Britannia Beach to Tacoma, foundered in the gulf of Georgia, seven lives being lost.

On February 1, 1916, the ss. *Princess Maquinna*, while on a voyage from Alert Bay to Vancouver, struck a point of rock while steaming through Seymour narrows, Discovery passage. The vessel was beached, and on examination, it was found that only minor damage was incurred, and she was towed off and proceeded to Vancouver. The vessel was docked and repaired at that port.

On February 26, 1916, the C.G.S. *Quadra* when entering Nanaimo harbour was rammed by the outward bound ss. *Charmer*. The *Quadra* was struck amidships on the starboard side and shortly afterwards began to settle. She was taken in tow, but finally settled by the stern and sank. The *Charmer* which was only very slightly damaged above the water line forward, proceeded on her voyage to Vancouver. No lives were lost.

Attached to this report will be found a statement showing the total number of inspections made, fees collected, etc.; the various tables giving particulars of steamers inspected, not inspected, added to the Dominion, lost or broken up; the number of inspections of ships' tackle made; and lists of engineer certificates issued.

I have the honour to be, sir,

Your obedient servant,

T. R. FERGUSON,

Chairman.

7 GEORGE V, A. 1917

RAPPORT DU PRÉSIDENT DU BUREAU D'INSPECTION DES BATEAUX À VAPEUR.

OTTAWA, le 30 octobre 1916.

Au sous-ministre de la Marine et des Pêcheries,
Ottawa.

MONSIEUR,—Ci-après, j'ai l'honneur de vous soumettre le rapport annuel sur le service qui s'occupe de l'inspection des bateaux à vapeur, rapport qui a été dressé pour l'année financière qui s'est terminée le 31 mars 1916.

PERSONNEL.

M. William Laurie, inspecteur des chaudières et machines à Montréal, étant décédé le 12 novembre 1914, ainsi qu'il a été dit dans le dernier rapport, la position qui était rendue vacante par suite de la mort de cet inspecteur, fut remplie par la nomination de M. John T. Gardham, qui subit un examen préalable. Ladite nomination ayant été faite par ordre en conseil daté du 10 mai 1915.

M. J. H. Fontaine, inspecteur des chaudières et machines à Québec, ayant donné sa démission le 26 avril 1915, M. J. A. Samson, après avoir subi un examen, fut nommé à sa place par ordre en conseil daté du 3 novembre 1915.

J'ai le regret de signaler la mort de M. F. F. Pickard, inspecteur des coques et équipements à Victoria, qui s'était enrôlé dans l'armée active, et qui perdit la vie alors qu'étant passager sur la vapeur *Persia*, ce navire fut coulé par une torpille ennemie le 30 décembre 1915. A ce moment M. Pickard était sous les ordres du gouvernement de l'Inde et se rendait à son poste militaire en Mésopotamie. La mort de M. Pickard est une perte sensible pour le service d'inspection des bateaux à vapeur, attendu que durant le peu de temps que le défunt fut à l'emploi du dit service, il fit part des meilleures qualités que doit posséder un inspecteur, ce qui lui valut et la confiance du département et celle du public.

Il me faut aussi signaler M. J. M. Martin, inspecteur des agrès, palans, etc., à St-Jean et M. Ernest Cay, commis dans le bureau des inspecteurs de bateaux à vapeur à Toronto, qui se sont enrôlés dans l'armée faisant campagne d'outre-mer. La position de M. Martin a été remplie provisoirement par la nomination de M. Eugène Dewey Ring, laquelle a pris effet le 21 décembre 1915.

APPLICATION DES NOUVEAUX RÈGLEMENTS CONCERNANT LE SAUVETAGE DE LA VIE HUMAINE.

Les règlements susdits qui furent approuvés par un ordre en conseil, daté le 6 novembre 1914, ont été mis en vigueur le 1er avril 1915. L'application de ces règlements a prouvé qu'ils conviennent quant à l'équipement de sauvetage de la vie humaine dont disposent les vapeurs; et l'on s'est rendu compte qu'ils marquent une amélioration considérable lorsqu'on les compare aux règlements qui étaient en vigueur avant leur établissement.

SESSIONAL PAPER No. 23

ASSEMBLÉES DU BUREAU D'INSPECTION DES BATEAUX À VAPEUR.

Durant l'année les membres du bureau d'inspection des bateaux à vapeur ont tenu plusieurs assemblées, afin de discuter certaines questions soulevées à propos de l'administration du service d'inspection des bateaux à vapeur. Ces questions eurent trait principalement à l'application des règlements susdits et à la publication des circulaires dont la nécessité s'est fait sentir lorsqu'il s'est agi d'appliquer ces règlements.

ACCIDENTS.

Ci-après, nous signalons les accidents survenus et dont ont fait rapport le personnel des multiples divisions que comporte notre service, au cours de l'année terminée le 31 mars 1916.

DIVISION DE LA NOUVELLE-ÉCOSSE.

Le 26 mai 1915, le vapeur *Morwenna* de Montréal, quitta Sydney à destination du Royaume-Uni, emportant une cargaison de rails. Ce vapeur fut torpillé au large de Cardiff, pays de Galles. Un matelot fut tué.

Le 8 juin, le vapeur *A. W. Perry* d'Halifax, N.-E., quitta Boston à destination d'Halifax, transportant des passagers et du fret. Ce vapeur s'échoua sur la pointe Chebucto, Halifax, par temps de brume et fut complètement perdu. Aucune perte de vie.

Le 25 juin, le vapeur *Cabot* de Montréal, quitta Charlottetown, sur lest, à destination de Sydney. Il chavira au large de la pointe est, I.-P.-E., et fut complètement perdu. Aucune perte de vie.

Le 24 juin, le vapeur *Easington* de East Hartlepool, G.-B., quitta Sydney, C.-B., à destination de St-Jean, N.-B. Il emportait une cargaison de charbon. Depuis on n'en a plus entendu parler. Perte totale de l'équipage se composant de 20 personnes.

Le 24 juin, le vapeur *Kronprinz Olav*, de Sandjord, quitta Sydney à destination de Montréal, P.Q., emportant une cargaison de charbon. Depuis on n'en a plus entendu parler. Perte totale de l'équipage se composant de 23 personnes.

Le 14 décembre, le vapeur *Senlac* de St-Jean, N.-B., prit feu et brûla complètement à Nord Sydney à 2 heures du matin. Perte totale du bâtiment. Aucune perte de vie.

Le 29 février 1916, le vapeur *Sindbad* naguère de Montréal, P.Q., qui avait été vendu à des particuliers de la Grande-Bretagne, son nom ayant été changé en celui de *Southport*, fut torpillé dans le détroit de la Manche. Aucune perte de vie.

DIVISION DU NOUVEAU-BRUNSWICK.

Le 4 février 1916, le vapeur *Victoria* fut détruit par le feu, au quai No. 2 de Milford, sur la rivière St-Jean. L'épave de ce bâtiment coula à pic. Origine de l'incendie: inconnue.

Le 2 décembre 1915, la drague *Edmund Hall* fut détruite par le feu à la Pointe Rocky, havre de Charlottetown et coula à pic. Origine de l'incendie: inconnue.

7 GEORGE V, A. 1917

DIVISION DE QUÉBEC.

Le 18 mai 1915, le vapeur *Christine* de Québec, coula à pic en face de l'île d'Orléans, après être entré en collision avec un autre bâtiment. Sept pertes de vies.

Le 13 octobre 1915, le vapeur *Lady of Gaspé* de Québec, qui se rendait de Montréal à Québec s'échoua par temps très brumeux à un mille environ en aval du pont de Québec. Ce bâtiment fut renfloué le 23 du même mois et remorqué dans le havre de Québec, où il coula de nouveau, les pompes qui contribuaient à le maintenir à flot, ayant cessé de fonctionner à la suite d'un accident. Le *Lady of Gaspé* fut renfloué de nouveau le 12 novembre 1915 et mis par la suite en cale-sèche.

Le 18 janvier 1916, le vapeur *Pilot* de Québec, pendant qu'il se rendait de la Rivière-du-Loup à Tadoussac, fut abordé par des glaces en dérive qui le jetèrent sur les récifs de l'île Rouge.

DIVISION DE SOREL.

Le 21 août 1915, le vapeur *De Lévis* entra en collision avec le vapeur *Sir Hugh Allan* près de la pointe Citrouille et coula par un fond de 25 pieds d'eau. Par la suite ce vapeur a été renfloué et conduit au chantier de construction du gouvernement à Sorel, pour y être réparé.

DIVISION DE MONTRÉAL.

Le 11 novembre 1915, le vapeur *Aileen* de Kingston, quitta Haileybury à destination de Nord Témiscamingue, emportant une petite cargaison et un passager. Ce bateau n'atteignit jamais sa destination; on n'en a trouvé aucune trace. Evidemment les trois membres de l'équipage et le passager se noyèrent.

DIVISION DE KINGSTON.

Le 23 août 1915, le vapeur *Fairmount* de Montréal, s'échoua sur un point de la côte des Antilles. Aucune perte de vie.

Le 18 décembre 1915, le vapeur *Northmount* de Montréal, coula à pic à environ 100 milles à l'est de Newport-News, pendant qu'il se rendait de New-York aux Antilles. Aucune perte de vie.

Le 3 août 1915, le vapeur *Alexandra* de Picton, s'échoua par forte bourrasque sur la rive nord du lac Ontario. Perte totale du navire; aucune perte de vie.

Le 7 octobre 1915, le vapeur *Rosemount* de Montréal, s'échoua en face de la pointe Knapps, à l'est de Kingston, pendant qu'il se rendait de Fort-William à Montréal. Ce navire fut renfloué par la suite et mis en cale-sèche pour y être réparé. Aucune perte de vie.

Le 1er mai 1915, le vapeur *Jeska* de Kingston, s'échoua à Norfolk, baie de Quinté, pendant qu'il se rendait de Fairhaven à Trenton. La coque subit des avaries considérables. Par la suite ce navire fut mis en cale-sèche pour y être réparé. Aucune perte de vie.

Le 26 septembre 1915, le vapeur *Arabian* de Hamilton, fut jeté à la côte, à Wilson, N.-Y., sur le bord du lac Ontario. Par la suite ce navire fut renfloué et emmené à Buffalo, N.-Y., pour y être réparé. Aucune perte de vie.

Le 3 juin 1915, le vapeur *Haddington* de Toronto, frappa des roches sur le côté nord de Red-Cloud. Ce bâtiment fut par la suite mis en cale-sèche et sa coque subit des réparations considérables. Aucune perte de vie.

SESSIONAL PAPER No. 23

Le 10 décembre 1915, le vapeur *Stormount* subit un accident pendant qu'il se rendait de Chicoutimi à Port-Hastings vis-à-vis de la côte de Gaspé, attendu que le couvercle de sa valve de prise d'eau de la chaudière de babord, fut arraché par une explosion. Après que des réparations eurent été faites, ce navire put continuer son voyage. Aucune perte de vie.

DIVISION DE TORONTO.

Le 26 mai 1915, le vapeur *New-Minko* fut partiellement détruit par le feu à Port-Carling, Ont. Origine du feu: inconnue.

Le 13 mai 1915, le vapeur *Valcartier* entra en collision avec le vapeur des Etats-Unis, *F. M. Osborne* près de l'extrémité inférieure du lac Huron. Le *F. M. Osborne* sombra et le *Valcartier* fut conduit à Collingwood pour y être réparé.

Le 13 juin 1915, le vapeur *Evelyn* commença à faire eau dans la baie Georgienne près de Byng-Inlet et sombra.

Le 12 juillet 1915, le vapeur *Neepawah* entra en collision avec le vapeur des Etats-Unis *Choctow* près de Presqu'île, lac Huron. Le *Choctow* sombra et le *Neepawah* fut emmené à Kingston pour y être réparé.

Le 4 août 1915, le vapeur *Midland-Queen* fut coulé par un sous-marin près de Fastenet, G.-B. En novembre 1915, le vapeur *Dunelm* de Sunderland, G.-B., fut perdu en mer dans l'océan Atlantique.

En décembre 1915, le vapeur *Majestic* fut complètement détruit par le feu à Sarnia. Origine du feu: inconnue.

Le 25 février 1916, le vapeur *Empress of Fort-William* de Newcastle, G.-B., toucha une mine près de Douvres, G.-B., et sombra.

DIVISION DE COLLINGWOOD.

Le 17 mars 1916, le vapeur *City of Midland* brûla à son quai dans le havre de Collingwood. Perte totale du bâtiment. Origine du feu: inconnue. Aucune perte de vie.

Le 30 août 1915, le vapeur *Henry Pedwell* d'Owen-Sound, fut détruit par le feu dans le havre de Wyarton. Aucune perte de vie.

Le 17 septembre 1915, le vapeur *Cynthia* de Collingwood s'échoua sur un récif en face de la pointe aux Barils, baie Georgienne et brisa sa coque. Aucune perte de vie.

Le 13 décembre 1915, les vapeurs *C. M. Bowman* de Saugeen et *Maud L.* de Toronto, furent détruits par le feu pendant qu'ils étaient mouillés ensemble en-face de la pointe Vails, baie Georgienne. Aucune perte de vie.

DIVISION DE PORT-ARTHUR.

Rien à signaler.

DIVISION DE KENORA.

Rien à signaler.

DIVISION D'EDMONTON.

Rien à signaler.

DIVISION DE VANCOUVER.

Le 1er avril 1915, le remorqueur *Kitsap* de New-Westminster, prit feu sur le fleuve Fraser en amont de New-Westminster. Perte totale du navire, dont l'équipage put se sauver.

Le 29 août 1915, le remorqueur *Georgia* de Vancouver, qui se rendait de Butedale au canal Gardner, prit feu et brûla jusqu'à sa ligne de flottaison, l'incendie s'étant déclaré dans sa cuisine. L'équipage put gagner la terre sans avoir eu à souffrir aucunement de l'incendie.

Le vendredi, 1er octobre 1915, à 3 heures du matin, le vapeur *Capilano* de Vancouver, sombra lorsqu'il se trouvait à mi-chemin entre l'île Savary et le cap Mudge. On suppose que ce navire frappa un billot flottant.

L'équipage débarqua sur l'île Savary. Aucune perte de vie.

Le samedi, 2 octobre 1915, le vapeur *Constance* de Vancouver, sombra par gros temps à 4.30 heures du matin en face de Sechelt, pendant qu'il se rendait à l'anse Turnbull, transportant des provisions destinées à un camp de bûcherons et cependant qu'il remorquait la chaloupe à gazoline *Munro*.

Sur le remorqueur, il y avait six hommes plus cinq hommes d'équipage et dans la chaloupe à gazoline *Munro*, 7 hommes. Tous débarquèrent sans encombre à Sechelt.

Le 6 janvier 1916, le vapeur de pêche *Onward-Ho*, enregistré à Hull, Angleterre, quitta Steveston, C.-B., à destination des banes de pêche situés au large de la côte de l'Alaska.

Le 18 janvier, le vapeur *Alaska* fut le dernier qui parla que l'on sache, au dit navire de pêche, dont depuis on n'a plus eu de nouvelles.

On présume que le *Onward-Ho* sombra en mer durant la terrible tempête et le froid intense qui furent signalés à l'époque, par les navires qui entrèrent dans le port. Il y avait 37 personnes à bord du navire disparu.

Le 7 mars 1916, le vapeur *Camosun* de Vancouver, s'échoua sur l'extrémité sud de l'île Digby, par tempête de neige pendant qu'il se rendait à Prince-Rupert.

Les passagers et l'équipage du dit navire purent être débarqués en sécurité sans qu'il y eut aucune perte de vie.

Par la suite, le *Camosun* fut renfloué et emmené à Vancouver pour y être réparé.

DIVISION DE VICTORIA.

Le 15 septembre 1915, le vapeur *Daisy* s'échoua sur une roche dans le havre de Victoria, à marée descendante; et par la suite il se trouva submergé. Plus tard on renfloua ce navire, qui subit maintenant des réparations, sa superstructure ayant beaucoup souffert au cours de cet accident.

Le 15 septembre 1915, le vapeur *Princess-Charlotte* s'échoua à l'entrée sud du passage Active, pendant qu'il se rendait de Seattle à Vancouver. On fit immédiatement machine en arrière, et on s'aperçut que le réservoir n° 4 perdait quelque peu d'eau, sans cependant pouvoir constater d'autres avaries apparentes. Aussi le navire continua-t-il son voyage. Par la suite, il subit des réparations à Esquimalt.

Le 1er octobre 1915, le vapeur *Capilano* sombra à environ 5 milles W.S.W. de l'île Harwood. On considère sa perte comme étant totale. Aucune perte de vie.

Le 7 octobre 1915, le vapeur *Otter* s'échoua sur la roche Dot à environ 18 milles de Victoria, pendant qu'il se rendait de Victoria au havre Boat. Après avoir beaucoup donné de la bande au cours de l'accident, le pont et les roufs du navire se trouvèrent submergés. Par la suite ce vapeur fut renfloué et emmené à Victoria, où en ce moment il subit des réparations.

SESSIONAL PAPER No. 23

Le 30 octobre 1915, le vapeur *Leona* sombra dans le golfe de Georgie, pendant qu'il se rendait de Britannia-Beach à Tacoma. Il y eut sept pertes de vies.

Le 1er février 1916, le vapeur *Princess-Maquinna* frappa une roche lorsqu'il suivait Seymour-Narrows du passage Discovery, alors qu'il se rendait de la baie Albert à Vancouver. Ce navire fut jeté à la côte et en l'examinant, on s'aperçut qu'il n'avait subi que de petites avaries. En conséquence, il fut remorqué en eau profonde et il put se rendre à Vancouver, où il fut mis en cale-sèche et réparé.

Le 26 février 1916, le vapeur *Quadra* du gouvernement canadien fut abordé pendant qu'il entrait dans le havre de Nanaimo, par le vapeur *Charmer* qui en sortait. Le *Quadra* fut frappé en son milieu sur tribord et peu après, il commença à donner de la bande. Il fut pris en remorque, mais, finalement, il commença à disparaître par l'arrière et coula à pic. Le *Charmer* qui n'avait été que légèrement avarié à son avant au-dessous de la ligne de flottaison, put continuer son voyage et atteindre Vancouver. Aucune perte de vie.

À ce rapport on a annexé un état qui indique le nombre total des inspections qui ont été faites, les montants des droits perçus, etc. On y a aussi annexé plusieurs tableaux qui donnent des détails: sur les vapeurs inspectés; sur ceux non inspectés; sur ceux ajoutés à la flotte de la Puissance; sur les bâtiments perdus et démolis; sur le nombre des inspections des appareils de levage et agrès des navires; plus des listes ayant trait aux certificats et brevets délivrés aux mécaniciens.

J'ai l'honneur d'être, monsieur,

votre obéissant serviteur,

T. R. FERGUSON,

Président.

7 GEORGE V, A. 1917

PERSONNEL employé par le gouvernement de la Puissance du Canada, pour l'inspection des bateaux à vapeur, au cours de l'exercice financier terminé le 31 mars 1916.
