## Appendix B.

General Business Statements not printed with Canadian Statements............................... 6. . . .

# Departuent of Insurance, <br> Ottawa, Oct. 1, 1921. 

## To the Honourable Sir Henry Drayton, Minister of Finance.

Sir,-I have the honour herewith to submit the statements in detail of Life Insurance Companies for the year 1920, together with such an abstract and analysis of them as appear proper to exhibit the progress of the business and the condition of the companies.

## LIFE INSURANCE, 1920.

The business of life insurance was transacted by forty-four active companies-twenty-five Canadian, eight British and eleven Foreign.

In addition to these active companies there were three British companies and one Foreign company licensed to transact life insurance but which had ceased to write new insurance, their business being confined to the policies already on their books, while eight companies (four British and four Foreign) were authorized under the Act to transact business in connection with policies written prior to March 31, 1878.

During the year 1920 the life insurance companies may be said to have resumed normal experience so far as death claims are concerned, the effect of the war and of influenza having practically disappeared with the year 1919. The volume of business written, however, continued to increase during the year 1920, a considerable amount of this increase being due to the growth in group insurance which was authorized in Canada in the year 1919. During that year the amount written was comparatively small, but during the year 1920 the net amount in force in Canada reached the total of $\$ 76,925,486$.

The returns furnished by the life insurance companies show that the gross new business issued and paid for in cash in Canada amounted to $\$ 641,778,095$, as compared with $\$ 524,543,629$ in 1919. The net death claims incurred amounted to $\$ 18,025,849$.

On pages lxxii to lxxx is given a statement of the several funds of Canadian life insurance companies which are paying dividends to either shareholders or policyholders, and also a statement of the revenue and expenditure in the participating, non-participating and shareholders' accounts respectively during the year 1920. On pages lxxxi to lxxxvii is given a summary statement of the principles and methods employed by these companies in the separation of funds.

A statement of net business in force subject to disability benefits is givenon pages lxviii to lxxi.

## Insurance Effected during the Year.

The following summary shows the total amount of policies issued and paid for in cash in Canada during the year 1920, together with the increases in the amount so issued during the years 1919 and 1920 :-

| Canadian companies | Gross issued and paid for in cash, 1920 | $\begin{aligned} & \text { Increase, } 1920 \\ & \text { over } 1919 \end{aligned}$ |  |
| :---: | :---: | :---: | :---: |
| Canadian companies | \$397,553,184 | \$ 77,402,479 | \$140,721,390 |
| British companies. | 15,967,383 | 4,702,989 | 5,295,381 |
| Foreign companics | 228,257,528 | 35,128,998 | 65,275,302 |
| Total. | \$ 641,778,095 | \$ 117,234,466 | \$ 211,292,073 |

## Life Insurance in Force at the end of the Year.

The net amount of insurance in force in Canada at the date of the statements and the increase over that of the previous year are shown in the following table:-

| Canadian companies | s | Net amount in force. |  | ncrease 1920 <br> over 1919. <br> 301,717,043 |
| :---: | :---: | :---: | :---: | :---: |
| British companies. |  | -76,883,090 |  | 3,975,026 |
| Foreign companies |  | 915,793,798 |  | 157,496,107 |
| Total. |  | 2,657,025,493 |  | 469,188,176 |

The tables on pages xxxyi and xxxvii show the progress of the total business year by year, begimning with 1875 , both as regards the amount of insurance effected and the total amount in force.

## Amount of Inserance Terminated during the Year.

The gross amount of insurance terminated in Canada in natural course, namely, by death, maturity, expiry, or disability, and the gross amount terminated by surrender and lapse are shown by the summary following, also the respective increases over the previous year. The total termination from these causes is about 30 per cent. of the gross anount of new policies issued.

|  |  | Naturally. | Increase 1920 over 1919 |  | By surrender and lapse. |  | Increase 1920 over 1919 |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

## Canadian Policies, New and in Force (Gross).

The following table shows the number, gross total amount and gross average amount of ordinary and industrial polieies in Canada, both new and in force, divided among the various classes of companies.

SESSIONAL PAPER No. 8

## Death Rate in Canada.

In the calculation of the death rate this year, as in previous years, the mean number of policies in force plus one-half the number terminated by death and the number of policies terminated by death during the year have been admitted as approximations to the mean number of lives exposed to risk of death and the number of deaths during the year, respectively. It is belicved that the results arrived at represent the actual mortality per 1,000 among insured lives in Canada as accurately as can be gathered from the returns of the companies.

|  | Number of policies exposed to Risk of Termination by Death in 1920. | No. Terminated by Death in 1920 | Rate of Termination by Death. |  |  |  |  |  |

Premitum Income.
A table showing the premium income in Canada for Canadian, British and Foreign companies, separately, for each year beginning with 1875 , is given on page xxxvii.

Disbursements in Respect of Assurance and Annuity Contracts.
Including the business done out of Canada by the Canadian companies, and the Canadian business of the British and Foreign companies, the total amount of disbursements in respect of assurance and annuity contracts during 1920, was as follows:-

| Death claims (including bonus a | \$ 22,143,449 |
| :---: | :---: |
| Disability claims..... | 28,272 |
| Matured endowments (including bonus additions) | 9,286,948 |
| Annuities. | 2,041,800 |
| Surrender values. | 9,817,056 |
| Dividends. | 10,120,531 |
| Total. | \$ 53,438,056 |

The disbursements by the different companies are given on pages liv and lv.
Including the business done out of Canada by the Canadian companies, a table showing the total premium income and disbursements in respect of assurance and annuity contracts of all companies, other than assessment companies and fraternal societies, doing life insurance business in Canada, for the last forty-two years, and also the rate of such disbursements per cent of premiums received, is given on page xxxviii.

This table shows that for every $\$ 100$ premiums received during the year the disbursements in respect of assurance and annuity contracts were $\$ 46 \cdot 94$, leaving $\$ 53 \cdot 06$ to be carried to reserve, expense and profits, and also that these disbursements for the forty-two years were 53.38 per cent of the premium income for the same period.

## Canadian Companies.

(Business in and out of Canada.)
The assets and liabilities, income and disbursements of the Canadian life companies are given under their respective headings on pages xl, xlii, 1 and lvi. The tables of mortality employed by the various companies in the calculation of their net reserve are indicated on page xliv.

The tables on pages 1 and lvi referred to above show that the income of the Canadian life companies was $\$ 104,639, \$ 53$, and their disbursements $\$ 64,608,790$. Out of every $\$ 100$ income there was expended in disbursements in respect of assurance and annuity contracts, $\$ 35.35$; in gencral expenses, $\$ 23.50$; in taxes, $\$ 1.24$; and in dividends to shareholders, $\$ 0.91$; otherwise, $\$ 0.82$; leaving $\$ 38.18$ to be carried to reserve.

The table at page xl shows that the total assets at December 31, 1920, of the Canadian life companies other than fraternal benefit societies (including $\$ 20,387,246$ outstanding and deferred premiums and interest and rents due and acerued which have not yet gone into income) amount to $\$ 420,01 \$, 399$, an increase over the corresponding amount at the end of the year 1919 of $\$ 43,414,349$.

The net amount of risks in force has increased during the year from $\$ 1,712,062,023$ to $\$ 2,0 \$ 3,037,5 \$ 4$, a gain of $\$ 370,975,561$ and the reserves have increased from $\$ 321,027,592$ in 1919 to $\$ 359,54 \$, 337$ in 1920, an increase of $\$ 38,520,745$.

A table showing the premium and other income of the Canadian companies other than fraternal benefit societies, during the past forty-two years and also disbursements in respect of assurance and annuity contracts, disbursements for general expenses and dividends paid to shareholders during the same period is given on page xxxix.

## Valuation of Life Policies in Canada.

The following are the results of the valuation of the policies of life insurance companies and fraternal benefit socicties completed by the Department since the issue of the last report. Assurances were valued on the basis of the British Offices Om (5) Table of Mortality, with $3 \frac{1}{2}$ per cent interest and life annuities were valued according to the British Offices Life Annuity Tables (1893) with interest at $3 \frac{1}{2}$ per cent, except as noted.

## SESSIONAL PAPER No. 8

## LEGAL DECISIONS

## Life Insurance

(a) Default in Payment of Premium-Lapse of Policy-Reinstatement upon Written Application and Payment of Arrears-Untrue Answers to Questions in Application-Findings of Jury-Absence of Fraud-Answers Written by Agent of Company-Provision for Reinstatement Contained in Pohoy-Condition-Fulfilment-Insurance Act of Canada, 1910, secs. 84, 85, 95 (d), (j)-Authority of Agent-Whether Agent of Insured-Reopening of Question Whether Evidence upon which Reinstatement Granted Satisfactory.

A policy of insurance issued by the defendants on the life of B., in favour of his wife, the plaintiff, as beneficiary, having lapsed by reason of the non-payment of the half-yearly premium due in February, 1918, L., the defencants' agent, called upon B. and the plaintiff in April, 1918, and received payment of the overdue premium, and at the same time obtained from $\mathbf{B}$. an application for the reinstatement of the policy. The application was approved by the defendants and the policy reinstated. The premiums were duly paid thereafter, and on the 10th February, 1919, B. died. The defendants refused to pay, alleging that in the application signed by B. three questions were answered falsely, namely: " 4 . What illnesses, if any, have you had since the date of the above policy? A. None." " 6 . What physicians have treated you or have you consulted since the date of the above policy? A. No." "7. Are you now in sound health? A. Yes." It appeared that B. had been and was at the time of the application being treated by a physician for the disease from which he died; that he disclosed the facts to L. ; but that L. wrote the answers to the question in the application form, and B. signed it without reading it. In an action upon the policy, the jury found that the answers to questions 4 and 7 were not in fact untrue and were not material, but that the answer to question 6 was untrue and was material, and that all three answers were acted upon by the defendants. They also found that B. disclosed to L. all the information necessary to enable L. to write truthful answers; that L. obtained from B. full knowledge of all material facts for the purpose of the reinstatement application before B. signed it ; that B. did not make to $\mathcal{L}$. any statement which he (B.) knew to be false; that B. was net guilty of any fraud; that B. was induced by the statements or representations of L. to sign the application in the form in which he did sign it; that he so signed it without knowing or understanding its full meaning and effect; and that his failure to know and understand was due to the statements and representations of L. :-

Held, that the application for reinstatement and its acceptance by the defendants did not constitute a new contract or policy of insurance.

Sections 84 and 95 (d) and ( $j$ ) of the Insurance Act of Canada, 1910, 9 and 10 Edward VII, ch. 32. considered.

The provision in the policy for reinstatement was in reality a condition, to the effect that written application should he made by the insured; that evidence of insurability satisfactory to the company should be presented; and that any loan interest due and all arrears of premiums with 5 per cent interest should be paid.

This condition was in fact complied with; fraud on the part of B. had been negatived by the jury; the defendants had reinstated the policy upon evidence which they considered satisfactory; and they could not, in the absence of fraud, be permitted to reopen the question and say that the evidence upor, which they acted was unsatisfactory.

The findings of the jury absolved B. from all real responsibility for the truth or otherwise of the written answers.

Even if L. exceeded his real authority in writing untruthful answers, that did not make him B's agent. Apart from sec. 85 of the Insurance Act, L., acting with real authority to obtain from B. the application for reinstatement, must be deemed to have been clothed with full authority, short of fraud on B's part, for everything that he (L.) did.

Great Northern Insurance Co. v. Whitney (1918), 57 Can. S.C.R. 543, and similar earlier cases, applied.

The finding of the jury that the answer to question 6 was untrue and was material and was acted upon by the defendants, did not, in view of the other findings, stand in the way of the plaintiff.

May 7, 1920.-Ontario High Court-Bird v. New York Life Insurance Company.-XLVII Ontario Law Reports, 510.
(b) Cession judiciaire de biens-Mari et femme-Assurance du mari en faveur de sa femme-Bilan-Créanciers-C. proc., art 834, 864, 863.

1. Le produit d'une police d'assurance de $\$ 3,000$ prise par un mari en faveur de sa femme n'est pas le gage des creanciers de ce dernier. Il s'ensuit que la femme qui, après le décès de son mari, a continué le commerce de ce dernier, et fait une cession judicaire de ses biens, n'est pas tenue d'entrer dans son bilan ce moritant qu'elle a retiré.
2. Même sí cette somme appartenait aux créanciers du mari, il n'y aurait pas lieu à mépris de 'Cour si elle refusait de remettre les $\$ 3,000$.

(f) Certificate of Friendly Society-Change of Bencficiary-Issue of New Certificate-Assignment or Surrcudcr-Ontario Insurance $A c t$, R.S.O. 191\%, ch. 183, scc. 181 (2).

By a " life insurance certificate," issuec" in 1903 , a "mortuary benefit" was payable " to the beneficiary or beneficiaries designated hereon." The insured, by endorsement, named his wife as beneficiary. In 1906 , the insured, by a writing endorsed on the policy, changed the beneficiary to his stepson; his wife signed a memorandum agreeing to the change; the certificate was then delivered to the Society, ard a riew certificate was issued, payable to the stepson, who undertook to pay the premiums. The new certificate was on a different plan. The wife died in 1913 , and the insured in 1919.-

Held, that what was done amounted to an assignment or a surrender of the certificate, within the meaning of sec. 181 (2) of the Ontario Insurance Act, R.S.O. 1914, ch. 183, and the stepson was entitled to the insurance moneys.

December 15. 1919.-Ontario High Court-Re Knibbs ant Royal Templars of TcmperanceXLVI, Ontario Law Reports, 410.
(g) Alberta Insurance Act, S. \& - Effect of Statutory Protision Making Moncys under Policy Payable uithin Province-Provision in Policy that Foreign Law Govcrns.- Application and Effect of Ontario Law-Beneficiary under Policy Proidccoasing issured-Effect of Will.

The provision in sec. 43 of The Alberta Insurance Act, ch. 8 of 1915 , that the moneys payable under policy of life insurance sha!l "be payable in the province, when the assured is or dies domiciled therein, notwithstanding anything contained in any policy or the fact that the head office of the insurance corporation is not within the province," does not purport to do more than declare that the situs of the debt shall be in the province, and does not make the law of Alberta apply in determining the construction of the contract when the assured died domiciled in Alberta, especially where the policy provides that in all cases of claims under it the law of another province shall govern.

The life insurance law of Ontario was held applicable in the distribution of moneys under policies, so as to give the entire procecds of one policy to a surviving preferred beneficiary. and the proceeds of another policy to surviving children of the assured not designated as beneficiaries in the policy (the designated bencficiary having been the deceased's wife who predeceascd him) ; and the assured's will which made no general or specific reference to the policies was held not to affect the disposition of the monevs.

## SESSIONAL PAPER No. 8

(h) Contract Made and Partics Domiciled and Insurance Moneys Payable in Province of Quebec-Contest as to Disposition of Insurance Moneys-Agrcement of all Persons Interested that Decision be according to Law of Ontario-Validity-Claim of Creditors -Representation of Creditors-Rule $\boldsymbol{\text { R-P-Policy Payable to Wife by Name or in Event }}$ of Her Death to Heirs, Executors, Administrators, or Assigis--Death to WifeRemariage of Assured-Rights of Secoud Wife-Will-"My Insurances"-Declaration under Ontario Insurance Act-Secs. 163 (I), 1\%I (3), 178, 179. (1) Amending Act, 6, Geo. $\boldsymbol{T}$, ch. 36, sec. 5,-Rights of Widow as agoinst Children.

In January, $1905, \mathrm{~N}$. , then domiciled in the province of Quebec, procured a policy of assurance upon his life from an insurance company whose head office was in that province. By the policy the sum assured was made payable at the company's head office to the wife of N., whose full name was set out in the policy, or, in the event of her death, to the heirs, exe;cutors. administrators, or assigns of $N$. The wife named in the policy and two children were then alive; but the wife died in 1906 ; in 1907 N . married again ; and his second wife and his two children survived him. In 1911, he became domiciled in Ontario, where he died in 1119. having first made and published a will, dated the 28th April, 1919, by which he gave certain personal property to his son, and to his wife, naming her, "my insurances, my furniture and all my other properties, real and personal." He had two life insurance policies, one being that mentioned above; the moneys payable under that policy were the subject of an application to the Court, upon which a creditor of $\mathbf{N}$. appeared.

An order was made directing that the creditor before the Court should represent all creditors. Rule 75

The contract having been made in Quelsec between parties there domiciled and the money being payable in that province, semble, that the law of that province should goverm.

All parties, however, desired that the case be decided on the law of the Province of Ontario, and had signed an agreement to that effect-

Held, that the agreement was valid-there being no third parties whose rights were derogated from, no infant concerned, no statutory direction violated, and no public interest injuriously affected.

The creditors contended that the insurance moneys formed part of the estate of N., available for the payment of debts :-

Held, applying the law of Ontario, that the bequest of "my insurances" was a sufficient declaration in favour of $N$.'s second wife, as a member of the preferred class of beneficiaries, to entitle her to payment of the insurance moneys.

Sections 163 (1), 171 (3), 178 , and 179 (1) of the Ontario Insurance Act, R.S.O. 1914, ch. 183, considered.

Re Baeder and Canadian Order of Chosen Friends (1916), 36 O.I.R. 30, and re IIonkman and Canadian Order of Chosen Friends (1918), 42 O.L.R. 263, followed.

Re Wrighton (1904), 8 O.L.R. 630, distinguished. And, therefore, the creditors could take nothing.

Hcld. also, that if sub-sec. 4 of sec. 178 of the Act, as enacted by the amending Act of 1916 , 6 Geo. V. ch. 36 , sec. 5 , was applicable to this pre-existing policy, it did not affect the rights of the widow as against the children.

October 20, 1919.-Ontario High Court-Re Veubert.-NLVI Ontario Law Reports, 210.
(i) Presumption of Death of Insured--Insurance Act, R.S.O. 1914 ch. 183, sec. 165 (4), (5)— Evidence-Disposition of Insurance Money-Administration Dispensed with.
Motion by the association. under the Insurance Act, P.S.O. 1914, ch. 183, sec. 165 (4) and (5), for a declaration as to the presumption of death of George F. Blamey, a person whose life was insured by the association, and for a direction as to the payment of the insurance money.

Lennox, J., in a written judgment, said that there was ample evidence to support a presumption of the death, under the terms of the statute, and the money or benefit secured by certificate No. 18909 was immediately payable. There was also good ground for believing that Blamey died intestate, unmarried, and without lawful issue. The parties should not be put to the expense of administration, and payment into Court was unnecessary. There should be an order declaring that the presumption of death had arisen, directing the payment of the money, less the association's costs of the motion, to the next of kin of Blamey mentioned in the affidavits, and exonerating the association from further liability.

August 16, 1920.-Ontario High Court Division-Re Oddfellows' Relief Association and Blamey.-19, Ontario Weekly Notes, 49.

## (j).Association de bienfaisanee-Bénéfice-Intérèt assurable-Fianeé-Stipulation pour autrui-Révocation-C. civ., art. 1029. 2474, 2475.

1. Pour qu'un contrat d'assurance soit valide, il n'est pas nécessaire que la bénéficiarie de la police ait un intérêt dans la vie de l'assuré ; l'intérêt qu'a l'assuré dans sa propre vie suffit à rendre le contrat valide
2. Lorsque les reglements d'une association de bienfaisance permettent axx membres qui en font partie de constituer comme bénéficiaire de leur dotation soit un parent, soit le fiancé ou la fiancée, dans ce dernier cas, la personne désignée ne cesse pas d'être bénéficiarie parce qu'elle cesse d'être fiancée, si l'attribution de bénéfice n'est pas modifiée conformément aux règlements de l'association.
3. La révocation de la stipulation pour autrui et du bénéfice d'une assurance ne peut plus avoir lieu quand le bénéficiaire les a acceptés.

(i) Untruc Answers of Assured upon Application-Materiality of Answers-Fraucl-Unsatisfactory Findings of Jury—Judgment of Appellatc Court upon the Evidence, Disregarding the Findings-Judicature Act, scc. 27.
Appeal by the defendants from the judgment of Orde, J., upon the findings of a jury, in favour of the plaintiff, for the recovery of $\$ 3,318.49$ and costs, in an action upon a policy of insurance upon the life of the plaintiff's husband, Joseph Selick, who died on the 30th March, 1918.

At the first trial certain ruestions as to the materlality of untrue answers as to previous illnesses given by the insured in his application were submitted to the jury. The jury found that the answers were untrue but were not material.

It was held that the findings of the jury that the answers were not material and that there Was no fraud must be set aside as unsatisfactory. The casc was one in which the Court should exercise the powers conferred by Section 27 of the Judicature Act and pronounce final judgment instead of directing a new trial. The appeal should be allorved with costs and the action be dismissed with costs.

December 20, 1920.-Ontario Appeal Court-Setuch v. New Yor\% Life Insurance Company19, Ontario Weekly Notes, 260.
(7) Contract-Misreprescntation not Inducing other foriy-Life Insurance Policy Assigned Collateral to Land Mortgage-Puchasers of Lund assuming Mortgage and Policy -Assured redecming part of Policy from Purchasers-Misstatement of Assured's Age causing Reduction of Policy Moneys on his Death-Burden of Loss not on Assured's Estate because Purchasers not induced to Contract by Amount of Policy.
F. as collateral security for payment of a mortgage of $\$ 50,000$ assigned to the mortgagee a policy of insurance on his life for the same sum, the mortgaged land being charged with layment of the premiums. Subsequently in an agreement between $F$. and certain purchasers of the land who assumed payment of the mortgage, $F$. assigned said policy to purchasers subject to payment of premiums and the rights of the mortgagee. Provision was made for F. redeeming the policy or part thereof by paying to the purchasers a proportion of its cash surrender value as they paid the mortgage instalments. If $F$. should die before the due date of the mortgage (which event occurred) the purchasers on receiving the insurance moneys were to pay to $F$.'s estate the amount of any instalments in respect of which $F$. had paid them the cash surrender value. Before $F^{\prime}$ s death the purchasers paid an instalment of $\$ 5,000$ on account of the mortgage and $F$. paid to them one-tenth of the then cash surrender value of the policy. It was discovered when proof of death was made that $F$. 'had made a mistake in stating his age and therefore the policy only stood good for $\$ 47,500$ instead of $\$ 50,000$.

Held F"s estate was entitled to be paid by the curchasers one-tenth the face of the policy and should not bear the full burden of the $\$ 2,506$ reduction in the policy; for the evidence showed that the purchasers regarded the policy as a burden rather than as an advantage; had the correct age of assured been known the mortgagee might have reguired further insurance with further premiums and therefore the policy would have been regarded as a further burden; and therefore one of the essentials for relief on the ground of misrepresentation, viz., that the misrepresentation induced the act of the other party to whom it was made, did not exist.

The policy moneys' were "received" by the purchasers' within the meaning of the agreement when they were applied to the payment of the mortgage.

In above respect the judgment of Stuart, J., reported at (1919) 3 W .W.R. 3s7 was reversed On other questions his judgment as there reported was sustained.

February 4, 1920.-Alberta Supreme Court Appellate Divistion-The Standard Trusts Company v. Canada Life Assurance Company et al-1920 Vol. 1, W.W.R., 516.
(m) Contrat de mariage-Donation-Police d'assurance-Transfert-Enregistrement-Hériticrs -Intérêt-Ropport-Partage-C. civ., art. $\quad 12,804$ à 808, 1292, 1298, 1,22, 2118.

1. La clause suivante dans un contrat de mariage, savoir: "Le futur époux promet et s'engage de faire mettre au nom de la future épouse la police d'assurance qu'il a actuellement sur sa vie," crée une obligation et un lien de droit parfait entre le futur époux et la future épouse, mais non entre cette dernière et la compagnie d'assurance qui a assure l'époux, vu qu'elle ne contient qu'une simple promesse de transfert futur qui ne s'est pas réalisée.
2. Les époux, ayant s'tipulé, dans leur contrat de mariage, la séparation de biens, c'était a l'épouse, la donatrice, qu'incombait l'obligation de faire enrigestrer la donation et non à son époux, et, pour cette raison, les héritiers de l'époux ont droit de se prévaloir du défaut d'enregistrement.
3. Cette promesse faite dans le contrat de mariage est une donation qui n'ayant pas été enregistrée, ne peut être opposée aux héritiers.
4. Une épouse, donataire de son époux d'une somme d'argent par son contrat de mariage, et qui est, en même temps, un de ses héritiers, n'a pas d'intêrêt à faire valoir cette donation, si elle n'a pas renoncé sa succession, vu qu'elle serait tenue de rapporter le montant a la masse.
5. Lorsque dans une action en réclamation, a titre de donataire d'une somme d'argent qui, en réalité, appartient à la succession dont la donataire est un héritier, si les autres héritiers interviennent pour réclamer chacun leur part, la Cour, au lieu de rejeter l'action, ordonnera un partage selon les droits de chacun.

SESSIONAL PAPER No. 8
LEGISLATION RESPECTING LIFE INSURANCE AND LIFE INSURANCE COMPANIES.
For other legislation, see Volume $I$.

## 1. Dominion Legislation

There was no general legislation amending the Insurance Act passed at the session of Parliament held in 1920. The following private Acts were passed:-
(1) An Act to incorporate Armour Life Assurance Company. (Assented to May 11, 1920.),

This Act incorporates the Company with power to transact the business of life insurance, and is in the model form. The head office of the Ccmpany will be in Edmonton, Alberta.
(2) An Act to incorporate The T. Eaton Life Assurance Company. (Assented to May 11, 1920.)

This Act is in the model form and incorporates the Company to transact the business of life insurance. The head office of the Company will be in the City of Toronto.

## 2. British Columbia Legislation

(1) An Act to amend the "Life-insurance Policies Act." (Assented to 17th April, 1920.)

His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of British Columbia, enacts as follows:-

1. This Act may be cited as the "Life-insurance Policies Act Amendment Act, 1920."
2. The "Life-insurance Policies Act," being chapter 115 of the "Revised Statutes of British Columbia, 1911," is amended by adding the following as sections $13 \mathrm{~A}, 13 \mathrm{~B}$, and $13 \mathrm{C}:-$

## " POLICIES ON THE LIVES OF INFANTS"

"13A. A minor over the age of sixteen years may effect contracts of insurance on his life, and may do in respect of any such contract whatever under this Act a person of full age may lawfully do, and the like rules of construction shall prevail.
"13B. No contract of insurance effected by a parent upon the life of his child shall be invalid by reason only of want of pecuniary interest in the life of the child.
"13C. (1) No contract of insurance shall be effected on the life of a child unless the child is at least one year old.
" (2) Where a contract of insurance is effected on the life of a child under ten years of age, the insurance money payable on the maturity of the policy shall not exceed the following amounts:-
"Thirty-two dollars if the ohild dies under the age of two years:
"Forty dollars if the child dies under the age of three years:
"Forty-eight dollars if the child dies under the age of four years:
"Fifty-six dollars if the child dies under the age of five years:
"Eighty-three dollars if the child dies under the age of six years:
"One hundred and twenty dollars if the child dies under the age of seven years:
"One hundred and sixty dollars if the child dies under the age of eight years:
"Two hundred dollars if the child dies under the age of nine years:
"Two hundred and sixty dollars if the child dies under the age of ten years.
"(3) If an insurer enters into a contract on the life of a child under ten years of age, and the insurance money payable thereunder exceeds the amount fixed by subsection (2), the premiums paid may be recovered from the insurer by the person making the payments, together with compound interest thereon at the rate of seven per cent per annum.
" (4) Except as provided by subsection (5), this section shall not apply to a contract of insurance effected:-
" (a) Before the enactment of this section; or
"(b) On the life of a child of any age, if the person effecting the insurance has a pecuniary interest in the life of the child; or
" (c) On the life of a child under ten years but not less than one year of age, if the insurance money payable on the death of the child is limited to the premiums paid with interest.
" (5) The provisions of this section shall be printed in conspicuous type on every contract of insurance hereafter effected on the life of a child under ten years of age and on every circular relating to or application for any such contract, or a copy of such provisions printed in conspicuous type shall be firmly attached to every such contract, circular, or application, and any person who contravenes this subsection shall be liable, on summary conviction, to a penalty of two hundred dollars."
3. The amendments to said chapter 115 enacted by section 2 of this Act shall, except as therein expressly provided, apply to all contracts of insurance, whether effected before or after the date on which this Act comes into force.

## 3. Manitoba Legislation

(1) An Act to amend "The Life Insurance Act". (Assented to March 27, 1920)

His Majesty, by and with the adivice and consent of the Legislative Assembly of Manitoba, enaots as follows:-

1. Section 8 of "The Life Insurance Act," being chapter 99 of the Revised Statutes of Manitoba, 1913, is hereby amended by adding at the end thereof the following words: "but the assured shall not, except as provided by seotion 9 of this Act, revoke or alter any disposition made under the provisions of this Act in favour of any one or more of the preferred classes set out in section 7 of this Act except in favour of some one or more persons within the preferred class, so long as any of the jel"sons of the preferred class in whose favour the contract or declaration is made are living."
2. Section 15 of the said Act is herely repealed and the following substituted therefor:
3. If in case of a policy of insurance heretofore or hereafter effected by a man or woman, it is expressed on its face to be for the benefit of, or has been heretofore or shall be hereafter under this Act appropriated for the benefit of any person or persons other than his wife or her husband, or his wife and children, or her husband and children, or his or her children or any of them, then the insured may, by an instrument in writing attached to or endorsed on the policy or identifying the same by its number or otherwise, absolutely revoke the benefit or declaration or appropriation previously made and apportion the insurance money, or by like instrument from time to time reapportion the same, or alter or revoke the benefits, or add or substitute new beneficiaries, or divert the insurance money wholly or in part to himself or his estate, provided that the insured shall not alter or revoke or divert the benefit of any person who is a beneficiary for value.
4. The repeal of said section 15 shall apply to all policies of insurance existing or future, but shall not affect any payments which have already been made by any insurance oompany in accordance with any revocation, appropriation, reapportionment or diversion of the moneys as permitted by said section 15 before its repeal.
5. Section 25 of the said Act is hereby amended by adding thereto the following subsections:
(2) Where a contract of insurance is made or declared to be for the benefit of one or more preferred beneficiaries and all of them are of full age, they and the assured may surrender the contract or may assign or dispose of the same either absolutely or by way of security.
(3) Where such preferred beneficiaries include ahildren it shall be sufficient so far as their interests are concerned if all then living are of full age and join in the surrender or assignment or disposal, as the case may be.
(4) Where a person is entitled to a benefit only in the event of the death of another person named as a beneficiary it shall be sufficient for the purposes of this section if such lastmentioned person joins in the surrender, assignment or disposal.
6. This Act shall come into force on the day it is assented to.

## 4.-New Brunswick Legislation

The only legislation affecting insurance companies is that contained in "An Act respecting the imposition of certain taxes on certain Incorporated Companies and Associations", passed April 24, 1920. The provisions of this Act respecting insurance or insurance companies are here given:-

Be it enacted by the Lieutenant-Governor and Legislative Assembly, as follows:-

1. This ict may be cited as "The Corporations Tax Act, 1920."
2. In this part, unless the context otherwise requires:-
(a) The expression "Extra Provincial Oorporation" means a corporation created otherwise than by or under the authority of an Act of the Legislature of New Brunswick.
(b) The expression "Company" when used with reference to insurance, includes any company, corporation, association, underwriters' agency, firm, partnership or individual underwriter of any association of underwriters formed upon the plan known as Lloyd's.
(c) The expression "Insurance Company" shall include life, industrial, fire, inland transit, accident, automobile, bond, burglary, guarantee, explosion, plate glass, sickness, steam boiler, tornado and sprinkler leakage companies which transact business or aocept risks within the province, wherever the head office may be situated.
(d) The expression "Policy" includes any policy or interim receipt, or any receipt or paper in renewal thereof, issued against loss or damage by fire on property in this province and includes a certificate of membership relating in any way to life insurance and any other written contract contained in one or more documents, providing for insurance on life or property.
( $f$ ) The expression "Premium" means any sum payable as a consideration for insurance and includes the first premium payable upon a policy of insurance and the annual or other premiums thereafter payable thereon whether for renewals or otherwise.
3. In order to provide for the exigencies of the public service there shall be and are hereby imposed upon the companies and associations hereinafter mentioned, the taxes hereinafter specifically named, which taxes, each of such incorporated companies and associations respectively shall annually pay to the Provincial Secretary Treasurer for the use of the Province.

## INSURANCE COMPANIES

4. (1) U'pon all companies accepting risks for carrying on the business of insurance and which hold a license, under the Insurance Act of the Dominion of Canada to do business throughout the Dominion, taxes are hereby imposed as follows:-
(a) Upon all companies accepting risks for carrying on the business of insurance agalnst fire, two per centum of the net premiums received by each of the said companies aforesaid; provided, however, that in no case shall the annual tax be less than one hundred dollars on any one company.
(b) Upon all insurance companies or associations of any kind having agencies or accepting risks upon the lives of persons within the Province and transacting the business of life endowment or industrial insurance, an annual tax of one hundred dollars and in addition thereto one and one-half por centum of the net premiums received by each of the companies aforesaid.
(c) Upon all companies accepting risks or carrying on insurance other than life or fire, two per centum of the net premiums received by each of the said companies aforesaid; provided, however, that in no case shall the annual tax be less than Twenty-five Dollars upon any company.

## SESSIONAL PAPER No. 8

(2) Upon any company incorporated under the laws of any Province in Canada for the purpose af carrying on the business of insurance hereinafter referred to as a Provincial Company which does not hold a license under the Insurance Act of the Dominion of Canada and whioh receives a permit from the Provincial Secretary-Treasurer to carry on business within the Province, a tax of two per centum of the net premiums received by the company aforesaid provided in no case shall the tax be less than Twenty-five Dollars.
(3) Upon any person, partnership, firm, association or corporation within the province accepting insurance in any company not taxed by the foregoing subsections of this section. there is hereby imposed a tax of two per centum of the net premiums paid by any such irsured in respect to any insurance policy issued by suah company within the Province, provided, that this tax shall not be imposed with respect to renewal premiums upon all life policies issued prior to the passing of this Act.
(4) In the construction of Section 4 of this Act the words "net premiums" are hereby declared to mean the gross premiums received by each of said companies upon its business within the Province for the year preceding the first day of May of the year in which the tax is paid less any amount paid for reinsurance within the province, or upon the cancellation of any of its policies, provided, however, that in the case of a mutual company "net premiums" shall mean the gross permium deposited less the unabsorbed portion of the premium actually returned or credited to the policy holder, but shall include interest at a legal rate upon such unabsorbed premium during the time it is deposited.
13. On or before the first day of May in each year every company doing the business of insurance within the province shall, without awaiting any notice or demand to that effect from the Provincial Secretary-Treasurer, forward to him a detailed statement in which shall be set forth the gross amount of the premiums for the then last financial year, showing also in the case of insurance companies the amounts paid by each such company for reinsurance within the province or on the cancellation of any of its policies, and if a mutual company, the amount of net premiums as hereinbefore defined. Every person, partnership, firm, association or corporation taxed under sub-section (3) of Section 4, shall make return of the amount of net premiums taxable under this Act. At the same date in each year every incorporated bank or banking company doing business within the province shall make a report to the Provincial Secretary-Treasurer of the number and situation of its offices and agencies and of its volume of business, as required by section 5 of this Act, and every telephone and telegraph company, shall, through its manager, agent or qualified official, make a true statement in writing under oath to the Provincial Secretary-Treasurer showing the entire gross receipts within the province upon which each company is taxed by this Act, and in the case of insuranice and express companies doing business within the province, each of such companies shall annually, at the same date in each year, make a report to the Provincial Secretary-Treasurer of the number and situation of its agencies and of the names of its agents at each agency; which report and return by this section required shall, in all cases, be verified under oath by the manager or general agent of such corporation within the province, or if there be no manager or general agent within the province then by the agent at the principal agency within the province.
14. Every corporation or association whose duty it is to furnish a statement or report to the Provincial Secretary-Treasurer, as in the last preceding section required, neglecting or refusing to make such statement or report or making an incomplete or incorrect statement or report shall, ipso facto, be liable to a fine of ten dollars per day for each day during which such neglect or refusal continues, counting from the day when such return should have been made as required by the preceding section until such report or statement is forwarded to the Provincial Secretary-Treasurer. An incorrect or incomplete statement shall be deemed not to be a report or statement within the requirements of this Act.
15. In the case of a company, corporation, association, firm, partnership, individual underwriter, underwriters' agency, or association of underwriters formed upon the plan known as Lloyd's whose principal office or organization is not within the Province, and which does not hold a license under the Insurance Act of the Dominion of Canada to carry on business of insurance throughout the Dominion, such annual tax and all fines imposed shall be recoverable in like manner from or against any agent or broker by or through whom any application for insurance by such company, corporation, association, firm, partnership, individual underwriter, underwriters' agency or association of underwriters formed upon the plan known as Lloyd's was solicited, written, accepted or forwarded, or by or through whom any policy, interim or renewal receipt of such unlicensed company, corporation, association, firm, partnership, individual underwriter, underwriters' agency or association of underwriters, formed upon the plan known as Lloyd's was issued, signed, countersigned or delivered, or from or against any adjuster or appraiser acting on behalf of such company, corporation, association, firm, partnership, individual underwriter, underwriters' agency or association of underwriters formed upon the plan known as Lloyd's.
18. If any company, firm, broker, agent or other person, shall, as a representative or agent of, or acting in any other capacity hereinbefore mentioned without paying the taxes hereinbefore as provided for, carry on any of its business in New Brunswick, said company, firm, broker, agent, or other person shall incur a penalty of twenty dollars for every day upon which it, he, or they, so carry on such business.
20. Any Provincial Insurance Company which does not hold a license under the Insurance Act of the Dominion of Canada desirous of carrying on the business of insurance within the province must first make application to the Lieutenant-Governor-in-Council for permission so to do, and shall furnish such information and make such deposit as the Lieutenant-Governor-inCouncil may require. Any provincial company receiving permission or license under this section shall be subject to all the requirements of this Act. No insurance company which does
not hold a license under the Insurance Act of the Dominion of Canada or which does not reccive permission or a license as hereinbefore provided, shall carry on any of its business within the Province. Provided, however, that this section shall not prohibit or prevent any person, partnership, firm, association or corporation from effecting insurance in an unlicensed company in accordance with section 129 of the Dominion Act $7-8$ George V, Chapter 29, entitled "An Act respecting Insurance." On an insurance company paying to the Provincial SceretaryTreasurer taxes hereby imposed and complying with the conditions of this and of other Acts respecting insurance companies, upon the said taxes being accepted by the Provincial SecretaryTreasurer, such companies shall be considered as having authority to transact business uf insurance within the province up to and including the thirty-first day of May next thereafter. Such authority shall cease on the first day of June in each year unless renewed by the Provincial Secretary-Treasurer accepting the said taxes for another year.
21. Any company unauthorized to transact business of insurance in this province as provided by this Act, which shall issue any policy or agreement for insurance shall, on conviction, be subject to a penalty of not less than five hundred dollars, and not more than one thousand dollars for each policy so issued.
22. Evey insurance company shall file with the Provincial Secretary-Treasurer the name of its general agent through whom all its business in the province is written or reported, and who alone shall be authorized by that company to sign or countersign policies, or if a company has no general agent in this province, the names of all agents having authority to sign or countersign policies for such company; all such agents or general agents to be residents of the province; a company may cancel the appointment of its agent or agents and appoint another agent or other agents, when and as it sees fit, provided notice of such change is given to the Provincial Secretary-Treasurer, provided, however, that in case of Life Insurance Companies holding a license under the Insurance Act of the Dominion of Canada to do business within this province or under the provisions of section 20 of this Act, the policy need not be signed by any provincial agent; and further provided that this section shall not apply to a policy issued by an unlicensed company in accordance with section 129 of the Dominion Act 7-8 George V, Chapter 29, entitled "An Act Respecting Insurance," and the policy holder of which has been taxed under sub-section (3) of section 4 of this Act.
23. Any company which issues a policy not signed or countersigned by a resident of this province named as agent under section 22 , shall be liable to a penalty of not less than two hundred dollars and not more than five hundred dollars for each policy so issued.
24. Every company through its manager holding jurisdiction in the province or its general agents or other qualified representative residing within the province, shall, annually, if required to do so, on or before the first day of April, make a return to the Provincial Secretary Treasurer of the net premiums as defined by subsection (4) of section 4 of this Act, on all business transacted by such company during the year ending the thirty-first day of December then last preceding, and all books, papers and accounts of such company shall be open to the inspection of the Provincial Secretary-Treasurer or any person named by him at any time to enable him to verify statements and transactions aforesald, but only such agents shall de subject to this provision as are not required to make returns to any other agent in this province for premiums received.
25. Any person who adjusts or appraises a loss other than life for or on behalf of any company under a policy not signed or countersigned by a resident of this province, shall be liable to a penalty of not less than One Hundred Dollars and not more than Two Hundred Dollars for each offence, but this section shall not apply to a policy issued under section 129 of the Dominion Act 7-8: George V., Chapter 29, entitled "An Act Respecting Insurance," where the tax imposed upon any person, partnership, firm, association or corporation under sub-section (3) of section 4 of this Act has been paid.
26. There shall be, and there is hereby imposed upon all special or travelling agents or brokers, soliciting insurance within the province for, or on behalf of any company, corporation. association, firm, partnership, individual underwriter, underwriters' agency or association of underwriters formed upon the plan known as Lloyd's, an annual tax of one hundred dollars to be paid to the Provincial Secretary-Treasurer, prior to such person engaging in such business; provided, however, that no person who is a resident of the province, at the time of the passing of this Act and continues to have a residence therein at the time of, and during his employment as such agent, and during such employment has an office or fixed place of business in the province, nor any person employed after the passing of this Act who shall have resided within the province twelve months prior to such employment, and who has during such employment an office, or fixed place of business as aforesaid, shall be subject to the said tax.
27. Any person liable to the tax imposed by section 26 of this Act who shall engage in the business of soliciting applications for insurance within the province, for or on behalf of any company, corporation, association, firm, partnership, individual underwriter, underwriters' agency, or association of underwriters, formed upon the plan known as Lloyd's as aforesaid, without having first paid to the Provincial Secretary-Treasurer the amount of the said tax. shall be liable to a penalty of one hundred dollars, and ten dollars additional for every day he so engages in said business.
28. Any agent or person paying the tax aforesaid shall receive a certificate under the hand of the Provincial Secretary-Treasurer, of the payment of the said tax, and upon such payment, and the issue of such certificate, notice thereof shall be published in the Royal Gazette. The payment of such tax and issuing of such certificate shall entitle the person named therein to prosecute the said business for one year from the date of said certificate but no longer.
29. On the hearing of any information under this Act, proof of the fact of the person charged having solicited insurance as aforesaid, shall be prima facie evidence of his guilt, and the onus shall be on him of proving the payment of the said tax, or that he comes within the exception mentioned in section 26 of this Act. The production of the certificate of the Provincial Secretary-Treasurer shall be evidence of payment of such tax.

SESSIONAL PAPER No. 8

5.-Ñova Scotia Legislation.

An Act to Amend Chapter 14 of the Acts of 1919, entitled, "An Act Respecting Insurance Agents."

(Passed May 22, 1920.)
Be it enacted by the Governor, Council, and Assembly, as follows:-

1. Section 4 of said Act is amended by adding thereto the following:-
(c) No person, firm, company, or corporation duly licensed under this Act shall pay, allow or give or offer to pay, allow or give to any unlicensed person, firm, company, or corporation, any commission or compensation of any kind, either directly or indirectly, in connection with services received or rendered in the placing of any policy or of application for life insurance;
(d) No life insurance company carrying on business in Nova Scotia shall pay or allow any commission or compensation to any of its agents on any application or policy of insurance on the life of said agent or on the life of any member of the family of said agent until said agent luas within twelve calendar months paid and settled for at least three policies on the lives of persons other than said agent or any member of his family.
2. Section 7 of said Act is amended by adding thereto immediately after subsection 2 , the following:-

On and after the first day of June and before the first day of the following month of October the fees payable for the issue of a Certificate of Authority shall be one-half the foregoing fees.
3. Section 8 of said Act is hereby repealed, and the following substituted therefor:-
"Any person, firm, company or corporation violating any of the provisions of this Act shall be liable to a penalty of not less than $\$ 25$ nor more than $\$ 200$, and may be disqualified from obtaining a Certificate of Authority within one year from the date of conviction."

## 6. Ontario Legislation

(1) The following portions of the Act to amend The Corporation Tax Act, assented to May 19, 1920, refer to insurance companies and the business of insurance:-
2. The clause lettered $e$ in section 2 of The Corporations Tax Act as amended by section 2 of The Corporations Tax Act, 1915, is repealed, and the following substituted therefor:-
(e) "Insurance company" shall include life, fire, ocean, or inland marine, inland transit, accident, plate glass, automobile, steam boiler and burglary insurance companies and guarantee, surety or casualty companies which transact business or undertake risks on lives or property in Ontario, wherever such companies may be inconporated, whether the head office is situated in Ontario or elsewhere, but shall not include purely mutual fire insurance companies or mutual live stock and weather insurance companies licensed or registered under The Ontario Insurance Act, or friendly societies lawfully transacting insurance business in Ontario under the said Act.
5. Subsection 3 of section 4 of The Corporations Tax Act, as enacted by section 2 of The Corporations Tax Act, 1914, and amended by section 4 of The Corporations Tax Act, 1915, is repealed, and the following substituted therefor:-
3. (a) Every life insurance company shall pay a tax of one and one-quarter per cent on all gross premiums less the cash value of dividends to policy holders, and every other insurance company of one per cent, calculated on the gross premiums received by the company in respect of the business transacted in Ontario ;
(b) In the case of mutual fire insurance companies which receive premiums in cash the tax shall be calculated on the gross premiums received in cash in respect of the insurance transacted on the cash plan in Ontario;
(c) In the case of reinsurance by an insurance company the company reinsured shall be exempt from the tax imposed on the portion of the premium paid to the reinsuring company, but the reinsuring company shall be liable for the tax in respect thereof as part of its gross premiums. Where the reinsuring company does not transact business in Ontario and has no principal or head office therein, the company reinsured shall retain in its hands so much of the premium for reinsurance as is equivalent to the tax imposed in respect of such premium, and shall be liable for the tax and for the payment thereof to the Treasurer ;
(d) Where any country or any state of any country imposes a tax or license fee which has the effect of discriminating against insurance companies or against any classes of insurance companies organized under the laws of Canada or of Ontario, and having their principal offices in Ontario, and of imposing a tax or license fee higher or greater than the tax or license fee which home companies in such state or country are required to pay, the Lieutenant-Governor in Council may direct that any insurance company which is organized in or under the laws of any such country or state, or has its head or principal office therein, and which transacts insurance business in Ontario, shall pay in addition to the tax imposed by clauses ( $a$ ) and ( $b$ ) of this subsection, a tax calculated on the gross premiums received by the company or in respect of the business transacted in Ontario during the preceding year, but so that such increase shall not exceed the equivalent of the extra tax or license fee or both imposed in such country or state;
（c）In estinating the amount of the tax payable under this Act by an insurance company every premium which
i．Is by the terms of the policy or renewal thereof or otherwise payable in Ontario；or ii．is paid in Ontario；or
iii．is payable upon or in respect of a risk undertaken in Ontario；or
iv．is payable in respect of insurance of a person or property resident or situate in Ontario at the time of payment，whether such premium is earned wholly or partly in Ontario or elsewhere，and whether the business is transacted in respect of such policy or the payment of such premium is made wholly or partly within Ontario or elsewhere，shall be deemed to be a premium in respect of business transacted in Ontario；
（f）The chief agent in Ontario under The Ontario Insurance Act of an extra－provincial insurance company and every other insurance company shall keep a separate book or set of books in which shall be entered the premiums mentioned in clause（ $e$ ）of this subsection，and all other income of the company in respect of business transacted in Ontario，and in default the company shall incur a penalty equal in the case of a life insurance company，to one and one－quarter per cent，and in the case of every other insurance comnany to one per cent，on the total gross premiums and other gross income of the company．
（2）An Act to amend The Ontario Insurance Act
（Assented to June i，192？（1．）
His Majesty，by and with the advice and consent of the Legislative Assembly of the Province of Ontario，enacts as follows：－

1．This Act may be cited as The Ontario Insurance Amendment Act， 1920.
2．The clause lettered $b$ in section 40 of The Ontario Insurance Act is amended by striking out the words＂not exceeding six dollars per week＂and substituting therefor the words＂not exceeding ten dollars per week．＂

3．Sections 69 and 70 of the said Act are amended by striking out figures＂ 1910 ＂wherever they appear in the name＂The Insurance Act， 1910 （Canada）．＂

4．Section 99 a of the said Act，as enacted by section $\overline{5}$ of The Ontario Insurance Amend－ ment Act，1914，is hereby amended as follows：－
（a）By＂striking out the words＂firm or corporation＂in the third line of subsection 1 ；
（b）By repealing subsection 2 of the said section and substituting the following therefor：－
（2）No agent shall act for any company in Ontario unless he has fully complied with the provisions of this section and has procured an agent＇s certificate of authority from the Superintendent of Insurance to do the class of insurance which that company is licensed or registered to do in the province；
（c）By adding the following subsection 2a：－
（2a）An agent＇s certificate of authority may be issued for any one or more of the following divisions of insurance business，viz：（a）life insurance；（b）fire insurance；（c）casualty insurance．The Superintendent may make regulations specifying the classes of insurance which may be included in these divisions and may include any class of insurance in two or more of the said divisions if in his opinion the character of the business so requires：
（d）By repealing subsection 5 and substituting the following therefor：－
（5）An agent having recelved a certificate of authority may act during the term of such certificate as agent for any company licensed or registered in Ontario to do the class of business to which the said certificate of authority applies．
5．Subsection 1 of section 163 of the said Act is hereby amended by striking out the word ＂or＂in the second line thereon and by inserting after the words＂lawful heirs＂in the second line thereof the woids＂or next of kin．＂

6．The said Act is amended by inserting therein the following section ：－
$78 j$（1）A friendly society incorporated and registered under the law of Ontario shall not reinsure or amalgamate with or accept the transfer of membership or funds of any other society registered according to the provisions of this Act unless such reinsurance， amalgamation or transfer is evidenced by a contract in writing setting out in full the terms and conditions of such reinsurance，amalgamation or transfer，and such contract is filed with the Superintendent together with a sworn statement of the financial condition of each of such societies by its principal officers and a certificate of such officers duly verified under oath that such reinsurance，amalgamation or transfer has been approved by a vote of two－thirds of the members present or duly represented at a meeting of the supreme legislative or governing body of each of said societies regularly called．
（2）The Superintendent may require such additional actuarial or other reports as he may deem necessary，which reports shall be prepared at the expense of the societies．

## SESSIONAL PAPER No. 8

(3) If, in his opinion such financial statements are correct and reports satisfactory and the contract in conformity with the provisions of this subsection and such reinsurance, amalgamation or transfer is just and equitable to the members of the societies and that the interests of such members are properly protected by the contract, he may approve such reinsurance, amalgamation or transfer and issue his certificate to that effect and thereupon such contract shall be of full force and effect and binding upon the societies which are parties thereto and upon all members thereof.
(4) If one of the contracting societies is a friendly society not incorporated under the law of Ontario, the Superintendent shall not issue his certificate until it has been established to his satisfaction that such society has fully complied with the requirements of the law of the legislative authority under which the society was incorporated; provided that a certificate of the supervising insurance official appointed by such legislative authority that such society has fully complied with the requirements of the law of the said authority shall be sufficient evidence to the Superintendent of that fact.
(3) An Act respecting Payment of Insurance on Lives of Soldiers
(Assented to June is 1920).
His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:-

1. Notwithstanding the provisions of section 33 of The Statute Law Amendment Act, 1919, any municipal corporation may pay to the parents, widows, children, brothers or sisters, or to any one acting in loco parentis, insurance effected under the Act passed in the 5th year of His Majesty's reign, chapter 37, or any amendments thereto, upon the lives of officers and men resldent in the municipality at the time of enlistment, who during the great European War were on active service with the naval or military forces of the British Empire or Great Britain's allies, where such officers and men have died before discharge from such forces or within such time thereafter as may be fixed by the council of such municipality.

## INVESTIGATION OF AGENCY PRACTICES.

During the year 1920 there were laid before the Department certain charges of estimating and twisting by life insurance agents, the former of which is an offence under the Insurance Act and the latter is a practice properly discountenanced by the best companies. The charges were so strongly supported that the Department considered that it was desirable to have them investigated, and for the purpose of this investigation, the Canadian Life Insurance Officers Association and the Life Underwriters Association of Canada were good enough to co-operate with the Department. The former Association named Mr. George B. Woods, then President of the Association as its representative, and the latter Association named Mr. J. B. Hall of Toronto to represent the Association. Mr. A. N. MacTavish, Actuarial Examiner of the Department acted as the representative of the Department. This Committee took evidence on the charges made and filed with the Department a report of their conclusions. On the question of twisting, which is not one sufficiently understood, the comments of the Commissioners are particularly worthy of reproduction.
"In the selling of life insurance, we believe that first consideration must always be given to the interests of the policyholder and of the beneficiary. It is not in the interests of either if anything is done or said which tends to unsettle the policyholder and cause him to lose faith in the institution of life insurance. We feel that even where a wrong has been done by another agent and a policy sold under misrepresentation, it is possible to right the wrong by properly explaining the contract he holds, without condoning the wrong done, and at the same time firmly establish the faith of the policyholder in life insurance. If such is not done, it too often happens that the policyholder lapses his policy and the beneficiary loses the protection it affords. Such a result is to be much deplored and the wrong is not righted, but rather a worse offence committed, if the agent who unsettles the policyholder secures his application for a policy in his own company. Such an act is called "twisting" or "switching". The fact that the original agent did misrepresent does not condone the switching of business, nor does the fact that the policyholder, approached and unsettled, fails to lapse his policy and replace it in the Company of the second agent, make the act of such second agent any less an act of "switching". It is quite possible to clear up any misunderstandings which may exist in the mind of a policyholder as to the kind of policy he has purchased without in any way unsettling his mind. It depends on the tact used and the method followed, but most of all upon the motive of the agent involved."

As to the functions of the Life Underwriters Association the following is the opinion of the Commissioners:-
" Unfortunately, in the. .. .. .. ..Association, there seems to exist too strongly the belief that The Life Underwriter's Association is merely an organization for the investigation of charges and counter charges. It is true that this organization can perform such a function when the occasion justifies it, but it has been fairly well proven in other centres that wrong practices and unethical methods of conducting business can best be eliminated, not by making of The Life Underwriters Association a veritable Police Court, but by making of it an organization where good fellowship, brotherhood, and friendly co-operation are to be found. Where it is made possible for fellow-underwriters to become friends and co-workers in the common cause, where the Golden Rule is adhered to in the conduct of business, and where
the ethies of the profession of life underwriting are taught and practiced, recrimination and petty squabbles such as this investigation has unearthed soon become a thing of the past."

The Commissioners' remarks on the relationship which should exist between agents and Head Oflices are commended to all engaged in the business:-
"What is true in regard to the relationships which should exist between field men is also true in regard to the relations between Head Oflice officials. Head Office officials should lead and show an example to their field forces. The larger vision should be theirs. The honour and good name of the business is at stake, and the fullest and most frank co-operation should exist throughout the Life Officers Association. There is enough business for all Companies and no one need seek to profit at the expense of another. If this Gospel of service to the public and the fullest co-operation among all engaged in this great business, field men and Head Office officials alike, is encouraged and practiced, then the life insurance institutions of this country will justify their existence. All are engaged in a common cause. The cause is bigger than any one individual, than any one Company. The day of little things is past: the larger vision must be ours if we are to function as we should.
"If this investigation and the one preceding it shall result in this broader vision, in closer co-operation, and in a larger charity, then we, your Commissioners, shall feel well repaid."

The Department is glad to be assured that the investigations made have been productive of good, and that as a result, the agents concerned and indirectly the entire agency forces have a better conception of their duty to their policyholders and to each other. I wish to record the Department's appreciation of the services of the members of the Commission who gave freely of their valuable time for the purpose of the investigations.

## FRATERNAL BENEFIT SOCIETIES.

The amendment to the Insurance Act respecting fraternal benefit societies came into force on January 1, 1920, and as a result thereof it became necessary for all foreign fraternal societies then transacting business in Canada under provincial licenses to obtain licenses under the Act in order that they might be permitted to continue to issue new insurance in Canada, Of the sixteen such societies then transacting business ten received the necessary licenses.

These societies are as follows:-
The Ladies' Catholic Benevolent Association.
The Maccabees.
Royal Arcanum.
Woman's Benefit Association of the Maccabees.
Catholic Order of Foresters.
The Workmen's Circle.
Knights of Columbus.
Association Canado-Americaine.
Western Mutual Life Association, and the
Knights of Pythias.
The most of these societies have obtained licenses under Section 108 , such licenses being renewable only until March 31, 1925 unless before that date the societies have attained to complete actuarial solvency. In the meantime new members admitted in Canada are protected by a deposit made under the provisions of the Act.

## DEPARTMENTAL STAFF.

I have to record with regret the retirement from the Department's staff of Mr. A. N. MacTavish, B. A., A.I.A. who for a period of over thirteen years rendered to the Department the most faithful and efficient service. There have been added to the staff of the Department during the present year two Examiners of Companies, Mr. A. D. Jamieson, B.A., and Mr. T. B. Holmes, B.A., LL.B. Both of these officers will be engaged in the examination of companies and in actuarial work.

I have the honour to be, sir,
Your obedient servant,

[^8]SESSIONAL PAPER No. 8

# STATEMENT OF THE PRINCIPLES AND METHODS FOLLOWED IN THE SEPARATION OF ACCOUNTS AND IN MAKING TRANSFERS FROM ONE ACCOUNT TO ANOTHER. 

The Canada Life Assurance Company.

The methods followed in compiling this schedule depend naturally on the methods followed by the Company in maintaining and carrying forward from year to year its various Assurance and Ammuity funds. For its own purposes the Company maintains three With Profits funds and two Without Profit funds. Under each of these funds the income from premiums and considerations for annuities is obtained from the corresponding accounts in the ledger, and this applies also to such items of outgo as surrender values, annuities paid and surrendered, dividends to policyholders, disability claims, and endowments matured. There are other items of income and outgo which cannot be definitely assigned to any particular fund, and have to be divided amongst the funds in accordance with some equitable method. The items referred to are death clains, expenses, and interest. With the exception of those arising in the Deferred Dividend fund, the loss arising from death claims is distributed amongst the funds in proportion to the expected mortality on a "Select" basis. As regards expenses, they are assigned to the various funds under the following headings :-

1. Commissions, being taken direct from the ledger accounts.
2. Investment expense, taken as a proportion of the average funds invested during the year.
3. Expense of settling death claims, taken as $1 \%$ of the amount of the claims.
4. Premium tax, being the tax paid on premiums during the year.
5. Expenses in regard to paid-up policies, free policies and bonus additions, being taken at rates of $\$ 2.00$ per thousand, $\$ 3.00$ per thousand, and $\$ 5.00$ per thousand respectively.
6. Expense attributable to new business alone, including such items as medical fees, inspection of risks, twenty per cent of agency salaries, fifty per cent of travelling expenses, and fifty per cent of advertising, being distributed amongst the Company's funds in proportion to new sums assured.
7. Balance of expenses distributed over the various funds in proportion to the total premium paying sums assured in force.
As regards interest, this was distributed amongst the Company's funds in proportion to the average funds for the ycar. Profit on sale of securities and decrease in assets due to revaluation were similarly distributed.

In the foregoing divisions the shareholders' account is debited with its share of the investment expenses and credited with its share of the interest income. Expenses charged directly to the shareholders' account do not enter into the division of expenses above.

The same general principles were followed in dividing the death claims reported but not paid, the provision for unreported claims, interest due and accrued, and interest paid in advance.

In completing the Separation of Accounts. Schedule the various items were arrived at by combining the figures of all the Participating funds for the Participating section of the schedule, and the corresponding figures of the Non-participating funds for the Non-participating section of the schedule, and hence the schedule as completed, directly represents the status of these accounts for the year.

## Confederation Life Association.

The participating and non-participating accounts were prepared on a strict revenue basis, and, as far as possible, separate ledger accounts were opened for the purpose of apportioning the various items to the two accounts.

1. Ledger Accounts.-Separate ledger accounts were opened for assurance premiums, first year and renewal ; consideration for annuities ; consideration for supplementary contracts; amounts left on deposit; death claims; matured endowments; cash surrender values; annuity payments; dividends to policyholders; payments on supplementary contracts; commissions to agents, first year and renewal; and medical fees.
2. Interest Income.-The net interest earned, after deducting investment expenses and the interest allotted to shareholders' accounts, was divided between the two funds in proportion to the respective funds at the beginning of the year, after adding one-half the income for the year, disregarding interest, and deducting one-half the outgo. The profit on sale of securities was divided in proportion to the reserve in the respective funds at the end of the year.
3. Expenses.-Where expenses could be definitely apportioned to either branch, separate accounts were opened in the general ledger, otherwise they were distributed on the following assumptions:-

Agents' salaries, expenses and advances were distributed in the proportion that the actual commissions paid in the participating branch bore to those paid in the non-participating branch.

Taxes were distributed proportionally to the total premiums earned in each branch.
The ordinary medical fees were distributed through separate ledger accounts according to the nature of the application, but the miscellaneous medical expenses were distributed in proportion to the amounts in the two medical accounts.

$$
8-\mathrm{F}^{*}
$$

## Confederation Life Assoctation--Concluded.

'The remainder of the expenses, after dedueting commissions, agents' expenses, medieal expenses, investment expenses, and taxes, was distributed in forportion to the premium income on the usual 10 to 1 basis.

Onr-fifth of the amount set aside as provision for umeported death claims was apportioned to the non-participating branch on the assmoption that the business in the non-participating branch wats approximately one-fifth of the total business of the issoriatiom.

The reserve and the funds held on deposit with interest were determined by artual calculation.

## Tine Continental Life Insurance Company.

The principles followed in completing the schedules for the separation of accounts were as follows:-Such items as were definitely apportionable to the different funds were so distributed. The other items, which were not definitely apportionable were distributed as follows:-

Increase or decrease in assets due to revaluation,-according to the amount of the funds at the beginning of the year.
Profit on sale of securitice-according to the reserves at the end of the year.
Interest to shareholders' fund at the net rate "arned, and the balance of the interest in proportion to the participating and non-participating funds at the beginning of the year.
Taxes,-according to the amount of the net premiums received during the year.
Expenses not definitely apportionable,-according to the number of the policies at the end of the year.

## The Crown Life Insurance Company.

Separate accounts are kept in respect of items definitely apportionable between the several fund.. In respect of other items the apportionment was made as follows:

The aggregate of the items: (a) Interest, dividends and rents earned (less investment expenses), (b) Increase in assets due to revaluation, ( $c$ Loss on investments, and ( $d$ ) Decrease in assets due to revaluation, were divided among the participating, the non-participating, and the $A+B-I$, shareholders' funds by the formula $\frac{-I}{2 I}$ where A represents the net ledger assets at the beginning of the year, $B$ the net ledger assets at the end of the year, and I the sum of gross interest and net rents.

Profit and loss on sale of securities was divided between the participating fund and the non-participating fund in proportion to the mean of the reserves at the beginning and at the end of the year.

Expenses not definitely apportionable to the respective funds (excluding investment expenses) were divided into three groups and apportioned as follows: (a) Agents' adrances, salaries and travelling expenses, and advertising, - in proportion to the first year commissions (revenue); (b) Head Office salaries and travelling expenses, rents, furniture, printing, stationery, ete.,-one-half in proportion to the first year premiums (revenue), and one-half in proportion to renewal premiums (revenue); (c) Directors' fees, medical fees, postage, telegransa, agency eashiers' salaries, legal expenses, guarantce bond premiums, ete., -in proportion to the total premiums (revenue).

## The Dominion Life Assurance Company.

(1) Separate accounts of all items of revenue and expenditure, with the exception of medical fees, which could be definitely attributed to one branch of the company's business, were kept and the amounts of these various items were credited or charged to the proper accounts.
(2) All other iterns of revenue and expenditure were divided in the following manner:-
(a) Taxes, excluding taxes on investments, - in proportion to total premium revenue.
(b) Medical fees,-in proportion to number of applications received.
(c) Loss on securities and increase in assets due to revaluation,-in proportion to the mean of reserves at the beginning and at the end of the year.
(d) Advertising,--in proportion to total premiums on revenue basis.
(e) Agents' advances, agents' salaries, and all agency expenses with the exception of commissions as follows: Participating and non-participating renewal premiums were each assessed with an expense charge of 5 per cent and the balance, after deducting the amount of expense so assesed, was divided in proportion to first year premiums.
(f) Head office salaries, directors' fees, auditors' fees, travelling expenses, and all other expenses excluding the above, and after cleducting the amount which it was considered proper to charge to investment expenses, as follows: $25 \%$ in proportion to number of new policies issued and $75 \%$ in proportion to total number of policies in force at the end of the year.
(g) Interest, after deducting investment expenses as shown in the statement, was divided amongst participating, non-participating, shareholders' and contingent funds in proportion to the mean amount of those funds, and the amount so eredited to the contingent fund was then transferred to the participating fund.

## The Excelsior Life Insurance Company.

A. Income Items.-Premiums reccived less premiums paid for minsurance are added to the participating fund or the non-participating fund according as the ledger accounts show that they have been received on account of participating or non-participating policies.

Income reccived from interest and rents is divided among participating, non-participating and shareholders' funds in proportion to the balance to the credit of these funds at the beginning of the year of account.

Profits reatized on the sale of securities and increase in assets due to revaluation are divided between participating and non-participating funds in proportion to the net reserves on participating and non-participating business at the end of the year of account.
B. Disbursement Items.-Amounts of death claims, matured endownents, surender values, life anmuities, dividends, and payments on supplementary contracts are allocated to participating or non-participating accounts according as they oceur in connection with participating or nonparticipating policies.

Commissions, medical fees and risk inspections are separated in ledger aecounts, medical fees and risk inspections being apportioncd entirely to first year expense.

Legal expenses and taxes are separated into participating and non-participating in the ledger accounts. They are divided between first year and renewal expense in proportion to total revenue premiums less reinsurance premiums.

Advances to agents which have been lost or written off are apportioned to first year expence and divided between participating and non-participating accounts in proportion to first year commissions paid.

Agents' salaries, agents' travelling expenses, agents' sundry expenses, agents' special advances and amounts paid for advertising are charged to first year expense and divided between participating and non-participating accounts in proportion to first year premium revenue less reinsurance premiums.

Directors' and auditors' fees, express, telegrams and telephones, postage and exchange are divided in proportion to total premium revenue less reinsurance premiums.

Head office salaries, head office travelling expenses, stationery and printing, rent, light, and sundry expenses are apportioned by charging one dollar per thousand insurance in force, one-half of the balance in proportion to revenue first year premiums and the remaining one-half in proportion to revenue renewal premiums.

Transfer of amounts to investment reserve, loss on sale of securities, and investment expenses are apportioned to participating, non-participating, and shareholders' accounts, in proportion to the funds to the credit of these accounts at the beginning of the year".

Tife Great-West Life Assitrance Company.
A net rate of interest was determined by the use of the formula

$$
2 \mathrm{I}
$$

$$
\mathrm{A}+\mathrm{B}-\mathrm{I}
$$

where I represents the interest income on the revenue basis (after deducting investment expenses), and $A$ and $B$ represent the total of all funds on which the Company is required to earn interest as at December 31st, 1919 and Deeember 31st, 1920 respeetively. On the basis of the rate so determined the net interest earned was apportioned to capital, participating and non-participating funds.

Profit on sale of securities and assets written up were divided between participating and non-participating accounts in the same proportion as the interest.

The total insurance expenses were apportioned between the two funds in proportion to the premium income on the revenue basis by the ten to one method. Expenses not definiteiy apportionable to either fund were ascertained by deducting from the total insurance expenses so apportioned the specific expenses for which separate aceounts were kept during the year.

All other items were obtained directly from the ledger accounts and adjusted to the revenue basis.

## The Impertal Life Assurance Company of Canada.

From the total interest, dividends and rents earned, adjusted for due and accrued, there was deducted the total investment expenses and the proportion of net earnings credited to the shareholders' account. The balance was divided between the participating and non-participating funds in the proportion which the non-participating mean fund for the year 1920 bore to the total mean gross assets, first deducting from the assets the total interest, the shareholders' fund and amounts owing.

Profits on the sale of securities were divided between the participating and non-participating funds in the proportion that the mean reserve on non-participating policies and annuities bore to the mean reserve on participating policies and annuities.

The following expense accounts (less the portion charged as investment expenses) were divided in the proportion that the non-participating gross premium income bore to the participating gross premium income.-Advertising; Insurance Books and Papers; Exchange; Express

The Impermal Jife Assurance Company of Canada-Concluded.
and Freight: 'Telegrams and Telephones; Legal Expenses; Office Furniture; Printing, Sitationery and Supplies; Rent. Fuel, Light and Caretaking; General Expenses; Alterations and Repairs; Premimms on Guarantee Bonds; Insurance Society Fees.

The following aceounts (less the portion charged as investment expenses) were divided in the proportion which the non-participating first year gross premium income bore to the particibating first year gross premimm income.-Agents' salaries, travelling expenses, commission advances, bonus and sundry agency expenses.

The following accounts (less the portion charged as investment expenses) were divided in the proportion which the number of non-participating policies bore to the number of participating policies.-Postage, inspection of risks, photographic supplies, war taxes, officers', directors' and auditors' salaries and expenses.

Taxes, licenses and fees were divided in the proportion which the non-participating gross premium income bore to the participating gross premium income.

Rescrve of $\$ 8.00$ on policies changed from participating to non-participating woas transferred from the participating fund to the non-participating fund; rescrve of $\$ 879.00$ on policies changed from non-participating to participating was transferred from the non-participating fund to the participating fund.

Dividends received on reinsured non-participating policies were credited to the non-participating fund.

There was transferred from the contingency reserve fund to the participating fund, $\$ 24,015.36$

## The London Life Insurance Company.

Initial Separation.-When separation of accounts was first required, the funds of the Company were apportioned to the participating and non-participating branches insofar as these amounts were definitely ascertainable as, for example, the Rescrve and Accruing and Accumulating Profits.

The Investment Reserve was apportioned on the basis of the total funds at the credit of the two accounts.

The unapportioned surplus was divided in the proportion of $\$ 10$ per $\$ 1,000$ participating business to $\$ 5$ per $\$ 1,000$ non-participating business. In other words, the amount of surplus allocated to the participating business was twice as great, proportionately, as that allocated to the non-participating section.

Annual Treatment of Accounts.-From year to year thereafter the accounts were debited and credited with their share of the Receipts and Disbursements and increase or decrease of funds on the various bases outlined below. Each year, however, an adjustment of the Surplus Fund was made so as to maintain that fund in the ratio of two to one for the respective volumes of participating and non-participating business, transfer from the non-participating section being made for this purpose as required.

Receipts.-The accounts were credited with their respective premium payments, and the interest receipts, less interest earned on shareholders' funds and less the Investment Expenses, were divided in the proportion of the mean amount of funds of the respective branches as at beginning and end of period.

Profit on sale of securities and miscellaneous profits were apportioned on the basis of the mean of the reserves at the beginning and end of the period.

Miscellaneous revenue was apportioned on the basis of the total funds at date of statement.
Disbursements.-In apportioning the payments where these could not be definitely separated, the following bases were used:-

Commission to Agents.-The total amount not definitely scparated in 1920 was $\$ 69,096.80$. This sum was apportioned as between New and Renewal on the basis of 10 to 1 and each of these divisions on the basis of the amount of participating and non-participating New and Renewal net Cash Premiums received.

Taxes, Liecnses and Fees.-Were divided on the basis of the net Cash Premium Income of the year.

Other expenses not definitely apportionable were divided as follows:-
On Basis of Net Cash Premium Income.-Head office salaries, directors' fees, auditors' fees, head office travelling expenses, books and periodicals, express, telegraph and telephone, legal expenses, office furniture and fittings, bank collection charges.

On Basis of Net Insurance in Force at end of Year.-Postage, printing and stationery, rent, fuel and light, head office building maint enance, sundry expenses.

On Basis of Gross New Issued Business.-Agency travelling expenses, advertising, conventions and outings.

Transferred to Shareholders' Account.-For the years 1918, 1919 and 1920, the profits credited to sharcholders' account, other than the interest earned on the Sharcholders' Capital and funds, were $5 \%$ of the total profits paid or eredited to policyholders, the total profit on the non-participating business being used for the general betterment of the Company's position.

Reserve for Unreported Claints.-Divided on basis of Net Insurance in Force at end of period.

The Manufacturers Life Insurance Company:
A strict revenue account of the Company's operations for the year ending December 31st, 1920, was prepared. The various items entering into the account were then divided as follows:-

Separate Accounts as between participating and non-participating insurance were maintained in the general ledgers of the company for the following items:-(1) Premiums (2) Death Claims (3) Matured Endowments (4) Surrenders (5) Supplementary Contracts (6) Disability Claims (7) Agents' Commissions.

The Expenses of the Company.-From the revenue expenses of the year were deducted the investment expenses and all expenses charged against the shareholders' funds. The balance was divided as follows:-
(A) Agents' commissions according to the ledger accounts. (B) Medical fees in proportion to the number of policies in the two sections. (C) Agents' salaries, travelling expenses and taxes in proportion to the total premiums. (D) Advertising in proportion to the first year premiums. (E) Head office salaries, directors' fees, auditors' fees and general expenses in proportion to the number of policies in the two sections.

Interest.-To the revenue interest of the year was added the profit from exchange and sale of securities and the increase in the value of the assets on revaluation. From this was deducted the amount written off the ledger assets, the investment expenses and the interest allotted to the shareholders' funds, the balance being the amount to be divided between the participating and nonparticipating funds. To the funds at the beginning of the year was added one-half the net revenue of the year, excluding the interest. This amount was then divided into the amount to be distributed and a factor for distribution obtained. Using this factor a distribution was then made to the two funds.

Funds at the beginning and the end of the year are determined by the yearly valuation of the Company's liability in the two sections and the separate items of income and expenditure for the year. The provision for unreported death claims was divided between the two sections in proportion to the outstanding claims at the end of the respective years.

## The Mutual Life Assurance Company of Canada.

Separate accounts are kept for all items definitely apportionable between the participating and the non-participating funds.

All other items were apportioned as follows:-
Interest, dividends and rents (less investment expenses). -In proportion to the mean of the funds at the beginning and end of the year.

Profit on sale of securities, and increase in assets due to revaluation.-In proportion to the funds at the beginning of the year.

Taxes, licenses and fees.-In proportion to the cash premium income, the unpaid of the previous year being divided in proportion to the cash premium income of that year.

Medical fees.-In proportion to the number of participating and non-participating policies issued in the year

Expenses incurred not definitely apportionable to the respective funds (excluding investment expenses). -In proportion to the number of participating and non-participating policies in force at the end of the year.

Re division of Expenses into Assurance and Investment.-Head office salaries and travelling expenses, agents' salaries and travelling expenses, and commissions on loans were obtained directly from the ledger. Taxes on investments were obtained accurately by collecting the correct items from the general accounts. Legal fees were obtained by separating those items in the general account which could be definitely allocated, and dividing the remainder nine parts to assurance and one part to investments. Investment rents were found by taking certain proportions of the rental for offices which include an investment section.

The balance of these accounts, as well as the medical fees, agents' commissions and advertising expenses are definitely allotted to assurance expenses. The remaining expenses such as directors' fees, auditors' fees, postage, printing, office furnishings, light, fuel, etc. were divided in the proportion of three parts to assurance expenses, and one part to investment expenses.

## The National Life Assurance Company of Canada.

As regards the different items of revenue :-
The participating and non-participating accounts are prepared on a revenue basis and separate ledger accounts are kept for the purpose of apportioning the various items to the two accounts.
(1) Assurance premiums, first year and renewals, are separated into participating and nus.* participating in the accounts throughout the year as they are paid.
(2) Consideration for supplementary contracts is divided into participating and nonparticipating in accordance with the plan of the original policies from which the supplementary contracts arose.

## The N゙athonal Life Asarrance Company of Canada-Conclueded.

(3) Amoments loft on deposit are also divided in aceordance with the plan of the original coutract from which the deposits arose.
(4) Interest and rents. -The net interest carned on a revenue basis, after dedueting investment expenses and the interest allotted to shareholders' accounts, was divided between the two funds in the proportion of the respective funds at the beginning of the year after adding onelialf of the income for the year, discegarding interest, and deducting one-half the outgo. The profit on securities was divided in the proportion of the participating and non-participating reserves at the end of the year.

As regards the different items of disbursements:-
(1) Clams by death and by maturity are kept separate throughout the year as to participating and non-participating so that the exact amount of each is known.
(2) Dividends to policyholders will all be participating as they arise from participating policies.
(3) Payments on supplementary contracts are divided in accordance with the plan of the original policy.
(4) Commissions to agents, both first year and renewal, are kept separate in the company 's accounts throughout the year so that the exact amounts belonging to participating and nonparticipating accounts are known.
(5) Taxes are separated throughout the year and the exact amounts belonging to participating and non-participating accounts are known.
(6) Mcdical fees are kept separate throughout the year in accordance with the plan of the original application and thus the exact amount is known for cach of the participating and nonparticipating accounts.
( $\overline{1}$ ) Head office expenses including salaries, directors' fees, auditors' feds and travelling expenses, are divided in proportion to the number of policies in force at the end of the year in the participating and non-participating sections.
(8) All other expenses, excluding investment expenses, are divided in proportion to the premium income.

## North American Life Assurance Company.

For the "Scparation of Accounts" Schedule, an exact record was kept of those items of income and outgo which may be accurately apportioned to their respective funds. These items were: First year and renewal premiums, payments to policyholders, commissions to agents, medical fees and payments for inspection of risks.

The remaining items of expenditure, after deducting the investment expenses, were then apportioned between the participating and non-participating funds as follows: Taxes were divided in proportion to the gross premium revenue, less reinsurance premiums, of the two funds; other miscellaneous items of expenses in proportion to the premium revenue of each fund, on a ten to one basis as between first year and renewal expenses.

Profits on exchange, sale of securities and interest income were divided in proportion to the mean funds.

Of the non-participating surplus, $\$ 10,000$ was taken for the Staff Pension Fund, and $\$ 3,098.67$ was transferred to the sharcholders' surplus account.

## The Northern Life Assurance Company of Canada.

All accounts which can be definitely divided between the participating and non-participating funds are carried in separate accounts in the Company's books. The other accounts are treated specially and the following memoranda apply.

The commissions paid agents consist of two parts-first, the commissions actually paid in cash for business closed; and second, the advances made to agents against commissions accruing. This latter item was divided in proportion to the commissions earned for the year, that is, in proportion to the amounts actually paid plus the eredits in the advance accounts.

The amounts paid for taxes, etc., were divided between the two funds in proportion to the net amount of premiums paid during the year.

The gencral expenses after deducting the investment items were divided into four groups as follows:-

Group A-75\% agency salaries and expenses; $75 \%$, telegrams, express, ete.; advertising; divided in proportion to new premiums (net).

Group $13 .-25 \%$ agency salaries and expenses; $25 \%$ telegrams, express, ofe.; divided in proportion to renewal premiums(net).

Group C.-Head office salaries and travelling expenses; directors' fees; abutitors' fres; rlivided in proportion to reserves (net).

Group D.-Books and periodicals; exchange; office furniture; posiage, printing and stationery; legal and collection fees; rents and sundries; divided in proportion to insurance in foree 31 st. December, 1920.

## La siauvegarde Life Insurance Company.

The following accounts are kept separately in respect of participating and non-participating business:-Premiums, claims by death and maturity, surrender values, dividends, commissions and medical fees:

Interest, dividends and rents earned (less investment expenses) are divided in proportion to the mean funds.

Profit on sale of securities-Division was made in proportion to the mean funds at the end of the year.

Miscellaneous rerenue (Not definitely apportionable to the respective funds). - Division was made in proportion to the mean functs of the year.

Taxes, licenses and fees.-Divided in proportion to the total of premium revenue less reinsured.

Decrase in assets due to revaluation.-Divided in proportion to the mean funds.
Agents' expenses.-Divided in proportion to the first year premium revenue less reinsured.
Hoad office sularies and general expenses.-Divided in proportion to the revenue for each branch.

The Sovereign Life Assurance Company of Canada.
Interest and rents, taxes and license fees, investment cxpenses. - The revenue under each of the above heads was diviled between the three accounts in proportion to the mean funds for the year.

Profit from sale of securities was first divided between participating and non-participating eombined, on the one hand, and shareholders, on the other, in proportion to mean funds. The portion thus assigned to participating and non-participating together was then divided between them in proportion to their respective net policy reserves at the end of the year, as shown in the statement of actuarial liabilities.

Balance of agency, head office and miscelloneous expense, $\$ 111,396.07$, was then apportioned to participating and non-participating accounts on the basis of mean volume of assurances in force in each branch (approximately 83 per cent and 17 per cent, respectively).

All other items were definitely apportionable and have been dealt with accordingly.
Sun Life Assurince Company of Canada.
Methods used in apportioning items not definitely apportionublc.

1. Income from interest and rents was distributed between the various branches in proportion to the mean funds, and investment expenses were taken at $5 \%$ of the interest and rents credited to the branch.
2. Profit or loss from sale of securities and loss on investments were distributed in proportion to the mean of the reserves at beginning and end of the year.
3. Increase or decrease in assets due to revaluation was distributed in proportion to the funds at the end of the year.
4. Expense Items.-Assurance Branches.

Tares on premiums were distributed in proportion to the total premiums (New and Renewal). Inspection of risks in proportion to the number of new policies written. Agents advances, telegrams, cables, etc., in proportion to the new premiums. Batance of agency expenses in proportion to New and Renewal premiums on the 10 to 1 basis. Balance of Head Office expenses in proportion to New and Renewal premiums on the 5 to 1 basis. The premiums used in the above calculations were the net premiums received after deduction of re-insurance premiums paid.
5. Annuity Branch.

In addition to the expense items definitely ascertained and charged to this branch such as commissions, medical fees, etc., it was charged with $1 \frac{1}{2} \%$ of the New premium income from Annuities to cover the cost of acquisition of New Business and $\frac{1}{2} \%$ of the Annuity payments as provision for handling the Old Business.

## MISCELLANEOUS STATEMENT.

1. Calculation of the ressere in the "Statement of Actuarinl Liabilitics."
(1) Valuation is made by groups arranged according to years and ages at issue and plans of insurance. Age aceording to the nearest anniversary of birth at time of issue except that the age at issue is never lower than the age used in fixing the premium, or consideration in the contracts. Valuation on the net level premium reserve system and of the incan reserve for the poliey year ending 1921. American Experience Table at $3 \frac{1}{2}$ per cent on entire Non-Participating class and on Partieipating class issued prior to 1901 American Experience Table at 3 per cent on Participating class issued in 1901 and subsequently. For Annuities, MeClintoek's Annuitants $3 \frac{2}{2}$ per eent and American Experience $3 \frac{1}{2}$ per eent.

Spacial Classes-
(a) Have no policies issued on lives resident in tropical or sub-tropieal countries.
(b) Policies issued at premiums corresponding to ages higher than the true ages are valued at the higher age.
(c) Have no policies providing for payment at death during certain periods of an amount less than the full amount of insurance, being policies subject to liens.
(d) No special reserve for policies issued at, or subsequently subject to an extra premium was included in the valuation of Canadian business.
(e) Policies are issued to sub-standard lives according to (b) given above.
(f) For policies providing for disability benefits, (a) before the occurrence of disability the reserve consists, under Disability No. $1^{*}$, of twenty-five cents per annum per $\$ 1,000$ of life insurance, sueh charge being accumulated at $3 \frac{1}{2}$ per cent aud 3 per cent interest; and under Disability No. 2* net premiums and reserves are based upon rates of disability graduated from recent experience among members of the United Order of Forresters and upon Arthur Hunter's table of mortality among disabled lives, slightly modified, with interest at $3 \frac{1}{2}$ per cent and 3 per eent; (b) Thereafter under Disability No. 1 present value of future benefits on basis of $3 \frac{1}{2}$ per cent interest and of the Combined Experience table of mortality; and under Disability No. 2, reserve is based on Arthur Hunter's table of mortality among disabled lives, modified.
(g) Have no aunuities issued to lives classed as under-average.
*For explanation see foot-note to Ntatrment of Actuarial Liabilitics.

## Atina Life-Continucd.

## MISCELLANEOUS STATEMENT-Concluded.

(2) Items of special reserve-
(a) No rescrve is held under limited and single premium policies on account of prepaid or limited loadings. Under such policies the surplus interest earned over and above 3 per cent or $3 \frac{1}{2}$ per cent, the rate of interest required to maintain the reserve, is assessed one-quarter of one per cent, annually for expenses. No additional reserve made under immediate annuities to cover future expenses.
(b) Have no policies with guaranteed benefits which exceed in value the net premium reserve on the basis of valuation employed.
(c) No special reserve is held, pending possible future re-instatement against policies having previously defaulted in premium payment and not entitled on the date of the valuation, to either cash value or extended insurance.
(d) No reserve is maintained to cover the option of renewal under term policies.
(c) No reserve is maintained to cover the option of conversion either during a fixed term or at the end thercof into higher premium policies.
(f) Special reserve under Non-Participating contracts of Group Insurance is represented by present value of future deficiencies of gross premium as compared with net premium, Am. Ex., $3 \frac{1}{2}$ per cent, taken for period covered by each contract. This special reserve is added by reason of requirements in certain states which may be waived in near future.
II-Have no tropical or sub-tropical policies.
III. The average rate of interest earned during the year on the mean net ledger assets of the company as a whole was $5 \cdot 64$ per cent.
IV. The distribution of surplus-
(a) The Participating class of business is kept separate and distinct from the Non-Participating (or shareholder's) class. Each class pays its own expenses, commissions, medical fees, ete., and the general expense account is divided between the two classes in proportion to the premium receipts.
(b) General basis of distribution.

## Explanation showing Methods for Annual Dividends declared in 1920.

Expense assessment of 72.5 per cent of loading leaving 27.5 per cent, with $4 \cdot 35$ per cent interest, for distribution, except for issue of $1917,1914,1911$ and 1908 , where an extra charge of fifty cents per $\$ 1,000$ is made.

Interest earnings of $4-35$ per cent leaving the difference between this rate less the rate employed in the calculation of reserves for distribution, taken on the initial reserve.

Distribution from favourable mortality experience equivalent to the following rates per cent on the cost of insurance, 25 per cent for the first year of duration gradually decreasing to a minimum of 10 per cent for the sixteenth and subsequent years of duration, also gradually decreasing with advancing age, to a minimum of 5 per cent for ages attained 77 and over.

## Explanation showing Methods for Fivc-Year Dividends derlared in 1920.

This class includes the issue of 1905 and comprises the five policy years from the anniversary in 1915 to the anniversary in 1920. The annual profits arising in such policy years were determined on the basis employed by the compans, during each policy year, for its annual distribution. The profits so determined were increased by interest at the rate then employed and by additions for intermediate terminations calculated according to kinds and ages.

Under Participating contracts issued in 1907 and subsequently dividends may be applied at net rates to purchase paid-up insurance. Under certain Participating contracts issued prior to 1901 and all Participating contracts issued 1901 and subsequently the dividends left with the Company to accumulate at interest together with the reserve or cash value of the policy may be applied as a net single premium to make policy full-paid or when such aceumulated dividends plus the reserve or cash value equal the face amount of the contract then the policy may mature as an endowment.
(c) Original annuities are all Non-Participating.

On annuities with instalments certain arising out of certain Participating Life Insurance contracts first issued in 1907, the dividends equal the difference between $3 \frac{1}{2}$ per cent and the rate for distribution (for 1920 it is 4.35 per cent less 3.50 per cent equals 0.85 per cent) applied to the present value at $3 \frac{1}{2}$ per cent of future instalments certain. (Have none in force in Canada.)

SESSIONAL PAPER No. 8
The Canada Life-Contiruted.
SUMMARY OF RESERVE

## MISCELLANEOUS STATEMENT

1. The calculation of the "Reserve" in the "Statement of Acturial Liabilities"-
(1) The valuation of Assurances was made on the basis of the Hm Table of Mortality with interest at 3 per cent for all participating assurances issued since 1899 and at $3 \frac{1}{2}$ per cent for all other assurances and bonus additions. The valuation of annuities was made on the $O$ [af] and $O$ [am] $3 \frac{1}{2}$ per cent basis. Policies were valued in groups and annuities individually. All policies issued in the same year were grouped according to system, plan and age at entry, and endowment assurance and term policies in addition were combined for groups of ages taken as at the central age of each group, namely, $25,32,37,42,47$; ages after 50 not being combined into age groups. The valuation was made from tables of ' $m$ mid year'" values calculated on the net premium method, the age at entry for valuation purposes being the age used in determining the office premiuma and the duration $N+\frac{1}{2}$ where $N$ is the difference between the year of issue and 1920. Annuities were valued at attained age, taken as the age nearest birthday on December 31, 1920, except reversionary and deferred annuities with annual premiums, which were valued by the same method as assurances.

Special classes:-
(a) The few policies issued on lives resident in tropical or sub-tropical countries were valued on the same basis as policies issued at regular Canadian rates.
(b) Policies issued at premiums corresponding to ages higher than the true ages were valued at the rated up ages.
(c) Policies providing for payment at death during certain periods of an amount less than the full amount of assurance, being policies subject to liens, were valued as if the full amount were payable without any deduction.
(d) No extra reserve is held for policies issued at or subsequently subject to an extra premium whether payable in one sum or annually. The normal reserve only is held.
(e) Except as above, no policies are issued on sub-standard lives.
(f) In the case of policies providing for disability benefits (1) before occurrence of disability, the reserve held is one-half the gross premiums accumulated at valuation rate of interest; (2) after occurrence of disability, the reserve held for waiver of premium benefit is the present value of the future premiums payable on the basis of Hunter's table of annuities of disabled lives (T.A.S.A. Vol. XII, page 44) and the reserve held for instalment benefit is the present value of the unpaid instalments.
(g) Annuities issued on lives classed as under-average were valued at the rated-up age.
(2) Items of special reserve:-
(a) No extra reserve is held under limited and single premium policies on account of prepaid or limited loadings and no additionnal reserve is made under immediate annuities to cover future expenses.
(b) Where the value of the guaranteed benefits in a policy is in excess of the normal net premium reserve, the excess of such value over the normal reserve was valued as a pure endowment and the reserves thus obtained were added to the normal policy reserves.
(c) No reserve, in excess of the cash surrender value is held on account of lapsed policies not continued in force under the automatic non-forfeiture provisions, but being subject to reinstatement.
(d) The company does not issue term policies that contain option of renewal.
(e) No reserve is maintained to cover the option of conversion under convertible term policies.
II. Under the special class policies referred to in 1 (1) (a) to (f) the only modifications or limitations regarding guaranteed values are that in (a) such values are the same as for policies issued at Home rates, in (b) guaranteed values are granted at the rated-up age and in (c) the amount of paid-up insurance and of extended insurance is subject to a lien.
III. The average rate of interest earned during the year on the mean net ledger assets was $6 \cdot 10$ per cent.
IV. The distribution of surplus:-
(a) The distribution of surplus as between shareholders and policyholders was made on basis of 10 per cent to the shareholders and 90 per cent to the policyholders.

The Cavidat Life:-C'oulinued.

## MISCELLANEOUS STATEMFNT-Concluded.

## Disthibution of phofits to policyholders

## QU'INQUEENNIAL DIVIDENDS

The surplus belonging to quinquennial and annual dividend policies is kept distinct from the surplus of the deferred dividend policies. It is further subdivided into two sections, (1) that arising from quinquennial policies issued prior to January 1, 1900, and (2) that arising from quinquennial and annual dividend policies issued since that date. In section (1) the method of distribution is what is termed the simple uniform reversionary bonus method. At last declaration at 31st December 1919, life and endowment assurances were allotted a reversionary bonus of $1 \frac{1}{2}$ fer cent per annum.

In section (2) for quinquennial policies a two-factor contribution method has been adopted using the factors (a) gain from interest (b) gain from loading on the following basis:-

The interest surplus was taken as $1 \frac{1}{2}$ per cent of the mean reserve for each policy year. The loading surplus for each policy year was obtained by applying the loading factor to the loading after deducting $7 \frac{1}{2}$ per rent of the gross premium. The loading factors were $0.95,1.025,1.05$ and 1.075 for the first, second, third and fourth quinquenniums, respectively. The sum of the two elements was accumulated to the end of the quinquennium at $4 \frac{1}{2}$ per cent and 90 per cent of this accumulation was allotted to the respective policies. Cash dividends were converted into paid-up insurance or premium reductions on the basis of net $\mathrm{Hm} 3 \frac{1}{2}$ per cent.

Bonus additions may be surrendered at any time, the cash value being the net $\mathrm{Hm} 3 \frac{1}{2}$ per cent value.

## ANNTAL DIVIDENTDS

The distribution of surplus to annual dividend policies was made on the same basis as for quinquennial policies, except as regards the loading factor. The loading factors for the first six years were $0.91,0.92$, $0.93,0.94,0.95$ and 0.96 respectively.

## DEFERRED DIVIDENDS

The deferred dividend policies are kept entirely distinct from the other classes of policies. The Assurance Fund for Deferred Dividend policies is credited with all premiums of that class and also with its share of the interest income, and it benefits by the lapses and surrenders of policies in that class while on the other hand, it is charged with the claims and surrender values arising under this class of policies and also with its share of the Company's expenses. A seperate valuation of these policies shows the liabilities of this section. Thus the accumulations of the Deferred Dividend policies are kept strictly separate from the other funds. Furthermore, within the Deferred Di-idend Fund the various years of issue are treated similarly so that each year of issue is in reality a separate fund in itself. The Assetsand Liabilities being determined separately for each year of issue the resultant surplus after deduction of 10 per cent gives for each year of issue the amount contingently apportioned to Deferred Dividend policies issued prior to the 1st January, 1911, and the amounts absolutely apportioned to Deferred Dividend policies issued since the first of January, 1911. This method is followed from year to year and when the end of a dividend period is reached the surplus is distributed in accordance with a modification of the contribution method, and policyholders have several options at their disposal as to the application of their share of accumurated surplus.

The method used in computing the dividends shown in schedule for those policies whose deferred dividend periods matured in 1920 is given herewith:-

Dividend Period
Reserve basis......
Net interest rate assumed.
Interest Surplus factor.
Loading Basis.
Loading Surplus factor.

| 10 years | 15 years | 20 yea |
| :---: | :---: | :---: |
| $\mathrm{Hm} 3{ }_{6}$ | $\mathrm{Hm} 3 \%$ | $\mathrm{Hm} 3 \%$ |
| $4 \frac{1}{2} \%$ | $4 \frac{1}{2} \%$ | 4 |
| $1{ }_{2}^{110}$ | $1 \frac{1}{2} \mathrm{CO}$ |  |
| (m) 30 | O (m) $3 \%$ | m) 3 c |
| 75\% | $90 \%$ | $115^{\circ}$ |

A two factor method was employed. The interest factor was applied to the mean reserve for each year, The loading surplus factor was applied to the loading after $7 \frac{1}{2}$ per cent of the gross premium was Jeducted. Combining the two elements and accumulating the end of the dividend period gave total surplus 90 per cent of which was allotted to policyholders.
(c) All annuities are non-particıpating.

I. The calculation of the "Rescrre" in the "Statcment of Actuarial Liabilities"-
(1) All policy contracts were valued individually from tables of Medial Rescrves ( Om ( ${ }^{5}$ ) $3 \frac{1}{2} \%$ ).

Special claswes-
(a) No policies issued outside of Canada.
(b) Policies issued at premiums corresponding to ages higher than the true age were valued at true age.
(c) Policies issued subject to liens were valued for the full amount issued.
(d) Policies issued with extra premiums were valued as ordinary lives.
(e) N゙o sul)-standard lives are treated otherwise than as stated in (c) and (d).
(f) Policies providing for disability benefits were valued by adding half the net disability benefit premium to the ordinary reserve.
(g) Noo annuities have been issued to lives classed as under-average.
(2) Items of spreial reserve-
(a) No additional reserve is held under limited or single premium policies on account of prepaid or limited loadings.
(b) Cash value of benefits guarantecd in the contracts in excess of the net premium reserve on the valuation basis were reserved for as pure endowments.
(c) No reserve in excess of cash value is held on account of lapsed policies subject to reinstatement.
(d) No term policies have been issued with the option of renewal.
(e) No reserve is maintained to cover the option of conversion of any policy into higher premium plans.
(f) No other items of special reserve have been made.
II. There are no modifications or limitations made under the special class policies referred to in I (1) (a) to $(f)$ above in respect of guaranteed values.
III. The average rate of interest earned during the year on the mean net ledger assets was $6.32 \%$.
IV. No profits have yet been distributed.

[^20]The first mentioned security is the balance of a purchase of $\$ 200,000$ of these securities made May 12 , 1919, the purchase price, $\$ 199,187.50$, being provided by means of a loan in New York secured by the deposit and pledge of, the securities themselves. This loan was repaid in May, 1920, partly by the sale of $\$ 100,000$ of the securities at a price of $\$ 83,601.25$ and partly by the remittance of the balance to New York at a cost due to exchange of $\$ 13,165.05$. The unsold balance of $\$ 100,000$ of the securities was thereafter, until sold, carried in the comp any's books at a book value of $\$ 111,122.16$.

## The Commercial Life-Concluded.

 SUMMARY OF RESERVE.

## MISCELLANEOUS STATEMENT.

I. The calculation of the "Rescrve" in the "Statement of Actuarial Liabilities."-
(1) Policies were valued individually from the tables of mid-year reserves, calculated according to the net premium method on the $\mathrm{Om}\left({ }^{5}\right)$ table, with interest at $31 / 2$ p.c. The valuation age was taken as the age at next birthday at entry.

No annuities have been issued.
There are no special classes of policies or items of special reserve.
II. No policies have been issued on lives resident in tropical or sub-tropical countries.
III. The ṛate of interest earned on the mean net ledger assets was 9.07 per cent.

## MISCELLANEOUS STATEMENTT.

I. The calculation of the "Reserve" in the "Statement of Actuarial Liabilities."
(1) The policies were valued individually. The valuation age is the nearest integral age at 31st December, 1920. The net premiums are based on the age at entry to which the office premium corresponds. Up to 1905 this was the age next birthday at entry, while after that date allowance is made for quarter years of age. The valuation basis was Om (5) $31 / 2$ per cent.

Special classes:-
(a) No reseryes were made in respect of extra premiums for climate or occupation.
(b) Policies issued at premiums corresponding to ages higher than the true ages have been valued at the higher ages.
(c) No policies subject to lien have been issued by the Company in Canada.
(d) See (a).
(e) $(f)$ and ( $g$ ) No policies or annuities providing for disability benefits have been issued by the Company in Canada.
(2) Items of special reserve:-
(a) No additional reserves were made on account of limited loading.
(b) The only guaranteed benefits in excess of the net premium reserve arise in the case of policies with Guaranteed Bonuses, and the reserve made in respect of these policies includes the full value of the Guaranteed Bonuses.
(c) (d) (e) and (f) None.
II. No additional surrender values are allowed in respect of extra premiums paid for climate risks. In the case of policies issued at premiums corresponding to ages higher than the true ages, the calculations for surrender values and paid-up insurance are based on the true ages.
III. The average rate of interest earned in 1920 on the Life Fund of the Company was 4.27 per cent after deduction of Income Tax.
IV. The distribution of surrlus:-
(a) Nine-tenths of the divisible surplus is alloted to policies entitled to share in profits and one-tenth to the Shareholders.
(b) The principles adopted at the last Distribution of Profits as at 31 st December 1912 provided:-
(1) That the Cash Bonus allotted to policies sharing for the first time, or with all previous bonuses surrendered, should be in proportion tothe ordinary whole term annual premiums paid, or assumed paid, during the Quinquennium excluding extra premiums for foreign residence, occupation or other special risks.
(2) That in the case of Reversionary Bonuses at a previous valuation and remaining attached to policy each such bonus should be treated as though it were a fresh Assurance effected at such valuation by a hypothetical annual premium, and such hypothetical annual premium should for purposes of participation be added to the ordinary whole term annual premium for the Sum Assured, the Cash Bonus alloted being in proportion to the combined ordinary and hypothetical annual premiums assumed paid during the Quinquennium.
The following are the bases for conversion of the Cash Bonuses:-

|  | Rate of Interest | Mortality Tabl |
| :---: | :---: | :---: |
| Reduction of premiums | $3 \frac{1}{2} \%$ | Om |
| Paid-up Assurances.. | $3 \%$ | Ом 5 ( |
| Reduction of number of premiums p | $3 \frac{1}{2} \%$ | Om |
| Reduction of Endowment period. | $3 \frac{1}{2} \%$ | Om |

(c) There are no participating annuities.

## Confederation hife-Conlinued.

## MISCELLANEOU'S S'TATEMENT.

## I. The ealculation of the "Reserve" in the "Statement of Actuarial Liabilities."

(1) The "reserve" in the "Statement of Actuarial Liabilities" was calculated upon what is known as the "Ňet I'remium Basis." The net premiums under the various classes of assurance are determined according to the Table of Mortality and the rate of interest employed in making the calcuftion; the net reserve of each policy being the excess of the present value of the assurance over the present value of the future net premiums receivable.

Assurance policies are grouped according to plan, year of issue, and age at entry, and are valued by means of previously prepared tables of policy reserves. It is assumed that the average date of issue is the middle of the year, and the valuation age is that for which the premium is charged. All policies with northern rates were issued at "age next birthday" prior to the first of December, 1914, but subsequently at "age nearest birthday." All policies with tropical or semi-tropical premiums were issued at "age nearest birthday."

Annuity policies are valued individually for exact clurations, and the age is taken "age last birthday" at the date of the last annuity payment, increased by one-half if date of payment is six months or more after birthday.

In calculating the reserve under insurance policies issued at ordinary rates, the British Offices' Om (${ }^{\text {b }}$ ) Table of Mortality, 1893, was employed with interest at 4 per centum for participating policies issued prior to January 1, 1896, and 32 $\frac{1}{2}$ per centum for participating policies issued during the years 1896 to 1899 inclusive, and 3 per centum for participating policies issued during the years 1900 to 1920 inclusive, and $3 \frac{1}{2}$ per centum for non-participating policies for all years of issuc. For all tropical and semi-tropical business the American Tropical Experience Table was employed with interest at 3 per centum for participating policies and $3 \frac{1}{2}$ per centum for non-participating policies. For annuities the British Offices' Select Life Annuity Tables, 1893 , with interest at $3 \frac{1}{2}$ per centum were used.

Sperial C'lasses-
(a) Policies issued on lives resident in tropical or semi-tropical countries were valued upon the net premium basis according to the American Tropical Experience Table with 3 per centum interest for participating policies and $3 \frac{1}{2}$ per centum for non-participating policies.
(b) Policies issued at premiums corresponding to ages higher than the true age were valued at the higher age.
(c) Policies providing payment at death, during certain periods, of an amount less than the full amount of insurance, being policies subject to liens, were valued for the full amount.
(d) Policies issued at or subsequently subject to a fixed extra premium, whether payable in one sum or annually, were valued on the same basis as policies issued at the regular rate of premium.
(e) Policies otherwise issued on lives classed as sub-standard for the plan of contract issued, or on special elass lives, were valued on the same basis as policies on standard lives.
( $f$ ) Under policies providing for disability benefits, whether (1) for the waiver of premium only,
(2) for the waiver of premium and payment of the sum insured in instalments, or (3) for the waiver of premium together with the payment of a disability annuity, without deduction from the sum insured, an extra reserve on account of the disability benefits is held before the occurrence of disability, amount ing to one-half of the total gross premiums received. The only disability claims outstanding are two providing for the waiver of the premium, and the reserve held is the nomal reserve for fully paid-up policies.
(g) Annuities issued to lives classed as "under average" were sold on the basis of a higher age than the true one, and were valued at the higher age.
(2) Items of special reserve-
(a) No extra reserve is held under limited and single premium policies on account of prepaid or limited Joadings.
(b) The excess of the guaranteed cash value over the net premium reserve employed being very small, and arising under accumulated dividend policies only, at the end of the dividend period is treated as part of the surplus funds held at the credit of the policies with accumulated dividends.
(c) No reserve is held on account of lapsed policies not continued in force under automatic nonforfeiture provisions not having a surrender value, but being subject to reinstatement.
(d) The Association does not issue renewable term policies.
(e) Under all convertible term policies, the amount of the gross premium charged, in excess of the rate for an ordinary term, accumulated at $5 \frac{1}{2}$ per centum, is held in addition to the regular net premium reserve.
II. Under the special class policies referred to in 1. (1), (a) to (f), the modifications or limitations regarding guaranteed values are: (1), in (a),-The non-forfeiture values under tropical and semi-tropical policies have been calculated on the same general principles as those granted under policies issued at northern rates, except that the American Tropical Experience Table has been used when calculating any life contingency involyed. (2), in (1) ,-The non-forfeiture values are those for the rated-up age except that special provision is made in the automatic extended insurance for the increased mortality. (3), in (c), (d) and (e), the non-forfeiture values are the same as those for standard policies, except that under the automatic extended insurance benefit special provision is made for the extrat mortality likely to be experienced.
III. The average rate of interest carned on the mean net ledger assets was 5.81 per centum.
IV. The Distribution of Surplus
(a) Distribution of Surplus between Policyholders and Sharcholders-

In accordance with the provisions of Section 104 of the Insurance Act, 1917, shareholders are credited with (1) interest earned upon the paid-up capital stock and shareholders' funds at the average net rate earned for the year; (2) the profits earned in the non-participating branch of the business; and (3) a sum not exceeding ten per centun of the profits earned in the participating branch of the business. For the years 1918, 1919 and 1920 no portion of profits earned in the participating branch has been transferred to the sharcholders' account, and the average transferred since 1887 has been only about $4 \%$.
(b) Distribution of Profits to holders of participating policies-

## Confederation Life-Continued.

## MISCELLANEOUS STATEMENT-Concluded.

## Annual Dividends.

Dividends were computed by means of a Model Dividend Scale, calculated on what is known as the "Three-Factor Method." This annual dividend, which commences in the second year, consists of three parts, viz.: (1) Interest earned upon the reserve value of the policy at a rate equal to the difference between the rate employed in making the valuation and the net rate earned, viz., five per centum; (2) the saving in mortality, being the difference between the tabular rate charged and the rate assumed to have been experienced, viz., sixty per centum of the $\mathrm{Om}_{\mathrm{m}}$ (5) Table for ages 40 and under, increasing thereafter by one per centum for each year's increase in age up to a maximum of ninety per centum at age 70; (3) the portion of the premium loading not required for expenses. The expense charge varies slightly with the age at issue and plan of insurance, being the difference between the gross premium charged and the net premium, calculated with three per centum interest upon the $\mathrm{Om}(5)$ Table of Mortality loaded five per centum. The annual dividends declared in any year are taken as a percentage of those of the Model Dividend Scale

## Quinquennial Dividends.

The annual dividend forms the basis for the quinquenuial dividend. The annual dividends are improved with interest at the net rate earned, up to the end of the quinquennial period. Annual dividends earned under policies in the quinquennial class, which fail to complete their dividend periods are reapportioned amongst the policies of the same class, which are in force at the expiry of the quinquennial period.

## Deferred Dividends.

To the deferred dividend policies, dividends are allotted at the end of each five-year period, and are improved with interest at the net rate earned, up to the end of the deferred dividend period. Dividends allotted to policies which fail to complete their deferred dividend periods are reapportioned amongst the policies of the same class which are in force at the expiry of the deferred dividend periods.

## Bonus Additions and Temporary Reductions.

The dividends are used to purchase; (a) bonus additions on the basis of the OM (5) 4 per centum net premium; and (b) temporary premium reductions on the basis of the Hm 5 per centum net premium.

Semi-Tropical and Tropical Dividends.
The dividends to tropical and semi-tropical policies are allotted upon the same general principles as those allotted to policies issued at ordinary rates, due regard being given to the extra rate of mortality etc., which may be expected under these policies.
(c) Distribution of Profits to Annuitants-

The Association has issued participating annuities only upon the deferred annuity plan payable by annual premiums.

Dividends are computed on what is known as the "Two Factor Method." The annual dividend, which commences in the first year, consists of two parts, viz., (1) Interest earned at a rate equal to the difference between the rate assumed when calculating the premium, viz., three and one-half per centum and the net rate earned, viz., five per centum, and (2) the portion of the premium loading not required for expenses. The expense charge is seven and one-half per centum of the premium.

The Association had no participating annuities ranking for profits in 1920.

## MISCELLANEOUS STATEMENT.

## 1. The calculation of the "Reserve" in the "Statement of Actuarial Liabilities"-

(1) Policies issued in the same year of the same class and plan were grouped as to age nearest birthday or next birthday at entry, following the method used in fixing the age for determining the premium in the policy; and valued from tables of "mid-year" reserves, $\mathrm{Om}_{\text {m }}(5) 31 / 2$ per cent basis, calculated according to the net premium method.

Special classes:-
(a) There are no tropical or subtropical risks.
(b) Policies issued at a rated-up age were valued at that rated-up age.
(c) The full usual reserve was held on liened policies.
(d) No extra reserve was held where an extra premium, either annual or single was charged.
(e) Other than as above, no policies were issued to substandard lives.
( $f$ ) For the disability benefit-waiver of premium, and disability annuity without reduction in the sum assured- a reserve was held of one-half of the premiums paid for such benefits. For other forms of disability no reserve was held. For disability claims, that have emerged, a reserve is held for the disability annuity; and for the policy itself, the reserve as for a fully paid-up poliey.
$(g)$ No annuities on under-average lives have been issued.
(2) Items of special reserve:-
(a) No additional amount was held for loadings, in the case of single or limited premium policies or annuities.
(b) Where the guaranteed value exceeded the OM (5) $31 / 2$ per cent tabular value, an addition to the reserve was made so that the amount held at the end of the fifteenth year would be equal to that guarantee.
(c) For lapsed policies, not automatically continued, no reserve was held to cover the possibility of reinstatement; but only the balance of the cash value, if any, to which the assured might be entitled.
(d) No reserve was held to cover the option of renewal under term policies.
(c) Nor for the option of conversion (where one exists) to a higher premium policy.
(f) No special reserves other than the above were held.
II. No modifications are made in the guaranteed surrender value of any of the special plans dealt with in 1, (2), above.
III. The average rate of interest earned during the year, on the mean net ledger assets, was $5 \cdot 56$ per cent.

## SESSIONAL PAPER No. 8

## The Continental Life-Continued.

## MISCELLANEOUS STATEMENT-Concluded.

IV. The distribution of surplus:-
(a) The surplus arising from participating policies is allotted on the basis of 90 per cent to the policyholders, and 10 per cent to the shareholders.
(b) Typical policies were selected and the fund belonging to each calculated by employing interest, mortality and expense factors. The interest rate was taken as 5 per cent; the mortality as 50 per cent of the Om (5) experience, for all ages at issue up to and including 35, for the first year; 60 per cent for the second year; 65,70 and 75 in the three following years. During the second quinquennium the rate was taken as 80 per cent; for the third, 85 per cent; for the fourth 90 per cent. All these rates were increased by onehalf per cent for each year over 35; up to 90 per cent, but not beyond. The rates of first-year and renewal expense varied according to the plan of insurance in the case of premium-paying policies. The reserve held by the Company was then deducted and 90 per cent of the remainder set aside as the policyholders' dividends. The dividend scales were then completed by interpolation and these scales were reduced by a fixed level amount. Instead of withdrawing the cash dividend, the policyholder has the option of taking paid-up insurance or an annuity, both being calculated on the $\mathrm{H}_{\mathrm{m}} 31 \frac{1}{2}$ per cent basis. The paid-up option is subject to satisfactory evidence of insurability if the dividend period is greater than five years.
(c) No participating annuities have been issued.

## DEFERRED DIVIDEND POLICIES.

Issued prior to January 1, 1911. No profits have yet been contingently apportioned thereto

Issued on and after January 1, 1911. No profits have yet been credited thereto.

## The Crown Life-Conlinued.

## MISCELLANEOUS STATEMENT.

## I. The calculation of the "Rescrve" in the "Statement of Actuarial Liabilities"-

(1) Assurances were valued by the net premium method employing tables of mid-year reserves based on the $\mathrm{Om}_{\mathrm{m}}(5)$ mortality table with $3 \frac{1}{2} \%$ interest. The assurances were grouped according to calendar year of issue, age at entry, plan of insurance, and dividend provisions. The age at entry for valuation was the same as the age used in fixing the premium being the age next birthday for policies issued before Jan. 1st, 1916, and the age nearest birthday for policies issued subsequently. Annuities were valued by the British Óffices Annuity Tables at $3 \frac{1}{2} \%$ interest and the valuation age was the age last birthday at issue. In fixing the duration of all contracts it was assumed that they were issued on the average in the middle of the calendar year of issue.

## Special classes-

(a) The few policies issued on lives resident in tropical or sulb-tropical countries at rates of premium greater than the regular Canadian rates were valued the same as policies at Canadian rates.
(b) Policies issued at premiums corresponding to ages higher than the true ages were valued the same as other policies issued at the higher ages.
(c) All policies providing for payment at death during certain periods of an amount less than the full amount of insurance were valued as if the full amount were payable throughout.
(d) Policies issued at a fixed extra annual premium were valued the same as polieies without any extra premium. No policies have been issued with an extra premium payable in one sum.
(e) The only policies issued on lives recognized as sub-standard were those issued at premiums corresponding to ages higher than the true ages, or subject to a lien, or subject to an extra annual premium as above mentioned.
$(f)$ In the valuation of policies providing for disability benefits:
(1.) Before the oceurrence of disability an extra reserve was held equal to the disability gross premium for one year.
(2). After occurrence of disability the reserve held for a waiver of premium benefit was the present value of the future premiums on the basis of Hunter's Table of Annuities on Disabled Lives (T.A. S.A. Vol. 12, page 44): no claims are current under the Instalment Disability Clause.
(g) No annuities have been issued to lives classed as under average.
(2) Items of special reserve-
(a) No additional reserve is held under limited and single premium policies on account of prepaid or limited loadings, nor is any additional reserve held under immediate annuities to cover future expenses.
(b) A special pure endowment reserve is held in excess of the ordinary net premium reserve to provide for cash guarantees in excess of the net premium reserve.
(c) No reserve in excess of the cash surrender value is held to cover the option of reinstatement under lapsed policies.
(d) Option of renewal is allowed only during the first five years under Ten-year Term policies. The regular Ten-year Term reserve is held for these policies.
(e) Policies issued on the majority of plans grant the option of conversion within the first five years into any other plan of insurance requiring a higher premium, the premium on the new policy being fixed as at the original age at entry and payment of arrears being required. During the first five years under Ten-year Term Policies conversion is allowed, the new policy dating from the date of ehange and the premium charged being the full published rate for the insured's then age. No extra reserve is maintained on account of these conversion options.
$(f)$ A few special policies have been issued at rates of premium less than $102 \frac{1}{2} \%$ of the $\mathrm{Ox}(5) 3 \frac{1}{2} \%$ net premium, and the Company is holding an extra reserve equal to the value of an annuity of such deficiencies of premiums.
II. The guaranteed surrender values for policies mentioned in 1 (1) (a) to ( $f$ ) above are the same as the guaranteed surrender values for standard policies at the same age on which the reserve is calculated.
III. The average rate of interest earned during the year on the mean net ledger assets was 6 per cent.
IV. The distribution of surplus- (a) Surplus is distributed between shareholders and policyholders in accordance with the provisions of the Company's charter which provides that the policyholders shall receive not less than 30 per cent of the total surplus derived from participating policies.
(b) Computation of dividends on participating policies was effected as follows: Typical policies were selected and the fund belonging to each was calculated by employing interest, mortality and expense factors; The interest rate was taken as 5 per cent and the mortality rate as 80 per cent of the British Offices' Select Experience. The rates of first-year and renewal expenses varied according to the plan of insurance in the ease of premium paying policies. On paid-up policies the expense charge was $\frac{1}{2}$ per cent of the fund annually. The reserve keld by the Company was then deducted and 90 per cent of the remainder was set aside as the policyholders' dividends. The dividend scales were then completed by interpolation, Instead of withdrawing the cash dividend, the policyholder has the option of taking paid-up insurance or an annuity. These options are calculated on the $H_{m} 3 \frac{1}{2}$ per cent basis. The paid-up option is subject to satisfactory evidence of insurability if the dividend period is greater than five years.
(c) No participating annuities have been issued.

SESSIONAL PAPER No. 8
The Dominion Life-Continued.

## MISCELLANEOUS STATEMENT.

## 1. The calculation of the "Reserve" in the "Statement of Actuarial Liabilities":-

(1) Assurance and annuities were valued from tables of net premium reserves. The valuation age for assurances was age next birthday at date of issue, on business up to December 31st, 1914, and age nearest birthday subsequẹnt to that date. Mean duration was used. The valuation was by individual policies in the case of policies issued up to the end of 1912. For the year of issue 1913 and onwards, assurances were grouped as follows: Life plans at individual ages; Endowment plans in quinquennial age groups up to and including age 44, and at individual ages above age 44. Annuities were valued at ages attained at last birthday, mean values being used. The valuation bases were: For assurance contracts issued prior to January 1, $1910, \mathrm{Hm} 3 \frac{1}{2} \%$; for all other assurance contracts, Om (5) $3 \%$; for annuities, $\mathrm{Hm} 3 \frac{1}{2} \%$. Special Classes-
(a) No policies have been issued on lives resident in tropical or sub-tropical countries.
(b) Policies issued with premiums corresponding to ages higher than true ages were valued at rated up ages.
(c) There was no modification made in the valuation of policies providing for the payment at death during certain periods, of an amount less than the full amount of insurance.
(d) There is no extra reserve maintained for policies issued at an extra premium.
(e) No additional reserve is made for other sub-standard classes.
(f) (1) For the ordinary disability benefit calling for the waiver of premiums only, or the payment of a claim in ten annual instalments, no extra reserve is employed. For the special disability benefit calling for waiver of premiums and for the payment of a monthly income of $\$ 10.00$ per thousand of assurance during total disability, an extra reserve is taken equal to onc-half the sum of all disability premiums that have been received.
(f) (2) After disability, if premiums are waived, the policy is valued as a paid-up policy on Hunter's Table of disabled lives, and in addition, if a monthly income during disability is guaranteed, a reserve equal to the present value of this income according to the same table, is set aside.
(g) No annuities have been issued to lives classed as under-average.
(2) Items of Special Rescrve-
(a) There was no reserve held under limited and single premium policies on account of prepaid or limited loadings, and none required by the Company's method of surplus distribution.
(b) Where guaranteed values are in excess of the net premium reserve according to the Company's basis of valuation, provision is made for the payment of these values by valuing the amount of the excess as a pure endowment.
(c) It has not been felt necessary to allow for any reserve on account of lapsed policies.
(d) Term policies do not include the option of renewal.
(e) No reserve is maintained to cover the options of conversion into a higher premium policy.
(f) The Company has established a special reserve fund of $\$ 100,000.00$ to meet any contingencies.
II. The only modification made in respect to guarantees in connection with Special Class policies, referred to in I (1) (a) to $(f)$ is in case of a policy issued at a premium corresponding to an age higher than the true age, the guarantees being as at the rated up age.
III. The rate of interest earned during the year on the mean net ledger assets was $6 \cdot 64$ per cent.
IV. The distribution of surplus-
(a) The general principles and methods used in the distribution of surplus as between shareholders and policyholders.

An individual account is kept in respect of each policy, and the account in each policy year is credited with all payments made by the policyholder and with the credit balance at the end of the preceding year, and interest is allowed at the net rate earned by the Company during the year. The account is charged each year with its share of expenses, death losses, and with the reserve at the end of the year. All policyholders were, during the policy year ending 1920, credited with interest at $6 \%$, and in respect to mortality charges, policies in the participating class were charged $60 \%$ of the HM tabular rate, these percentages being found from actual experience.

The expense factors were as follows:-In the first year, each policy was charged with $100 \%$ of the Whole Life premium plus $\$ 4.00$ per $\$ 1,000.00$ of insurance; in succeeding years $8 \%$ of the gross premium was charged for commission and taxes, and $8 \%$ of the Whole Life premium plus $\$ 1.75$ per $\$ 1,000$ assurance was charged on account of general expenses. The policyholders' account is carried forward from year to year until the termination of the policy.. Ten per cent of the surplus standing to the credit of deferred, dividend policies on completion of their deferred dividend periods, is transferred to the shareholders' account; and in the case of quinquennial dividend policies where the dividends are paid in cash, $10 \%$ of the surplus to be distributed at the end of the quinquennial period is transferred to the shareholders. In the case of bonus addition and reduction of premium policies, $10 \%$ of the cash value of the bonus addition and reduction of premium is transferred to Shareholders' Account.

A shareholders' account is kept showing dividends paid to shareholders, and amounts transferred to their credit being their share of the participating and non-participating profits. The total amount to their credit is increased in any year by interest at the net rate earned by the Company, and by the profits transferred to them, and is diminished by the dividends paid to them.
(b) Distribution of Profits to Policyholders.

Quinquennial Dividends.-An individual account is kept in respect of each policy in the manner described above. The quinquennial profits under any policy are distributed in one of three ways, according to the choice of the assured, viz.: in cash, in reduction of premiums, or as a paid-up addition to the sum assured. In arriving at the amount of these distributions, the shareholders' $10 \%$ is deducted and a small allowance in the nature of a safety-margin, is retained. The balance in the case of "Cash" policies was distributed to the assured. In the case of reduction of Premium policies the cash surplus was used as a single premium to purchase a temporary annuity for five years on the $\mathrm{Hm} 3 \frac{1}{2} \%$ basis for business issued prior to 1910 . For business issued since December 31st, 1909, the Om (5) $3 \frac{1}{2} \%$ basis was used at the end to the first quinquennium to purchase the reduction, and the Om (5) $3 \%$ basis was used at the end of the second quinquennium. In the case of "Bonus Addition" policies the bonus was purchased on the basis

## The Dominion Life-Continued.

## MSCELLANEOUS STATEMENT-Concluded.

0. Im $3 \frac{1}{2} \frac{10}{2 \pi}$ net premium loaded $10 \%$ on business issued prior to 1910 and for business since December 31st, 1909, the Om (5) $3 \frac{1}{2} \%$ net premium has been used to purchase the Bonus at end of first quinquennium, ind the $O_{m}$ (5) $3 \%$ net premium plus $10 \%$ to purchase the Bonus at the end of the second quinquennium.

Deferred Dividend l'olicies.-An individual account is kept in respect of these policies, in the same way as with the Quinquennial Distribution policies. At the completion of the dividend period of any policy, the assured is also given his share of the "tontine" fund or forfeited surplus of those members in the same class and year of issue whose policies have terminated before the completion of the dividend period, by death, surrender, or lapse.
(c) The Company has issued no participating annuities.

## DEFERRED DIVIDEND POLICIES.

Issued prior to January 1, 1911, and Amount of Profits contingently apportioned thereto.

## ACC'UMULATIVE DIVIDEN゙D POLICIES.

Issued subsequent to January 1, 1911, and Amount of Profits credited thereto.

| Totals. | 13 | 17,964,000 00 | 56500 |

| SUMMARY OF RESERVE. <br> Total reserve on the Company's (statutory) basis of valuation... Deduction therefrom permitted under Section 43 (3), Insurance Act, 1917 (none made) | 8 | Without Profits. 56500 (224 63) |
| :---: | :---: | :---: |
| Net reserve carried in the liabilities | \$ | 56500 |

## MISCELLANEOUS STATEMENT.

I. The Calculation of the "Reserve" in the "Statement of Actuarial Liabilities":-
(1) The full net premium on the statutory basis was reserved. The age employed was the age at nearest birthday which is the age at which the premium is charged.
Special Classes:-
(a) No policies were issued at tropical or sub-tropical rates.
(b) The policies issued at premiums higher than the true ages were valued at the rated-up age.
(c) No policies were issued providing for payment at death during certain periods of an amount less than the full amount of the assurance.
(d) In the case of policies issued where an annual extra premium was payable, the extra annual premium was disregarded. No policies were issued where the extra premium was payable in one sum.
(e) No policies were issucd where the applicant was limited to a special class.
(f) The full disability premium was reserved under policies providing for disability benefits. Noo disability claims have as yet occurred.
(g) No annuities have been issued.
(2) Items of Spocial reserve-
(a) No reserve is held for pre-paid loadings under limited payment and single premium policies.
(b) No policies have been issued with guaranteed benefits excceding the net premium reserve on the sta utory basis.
(c) The full reserve is maintained for a period of approximately six months after lapse on account of lapsed policies subject to reinstatement.
(d) No term policies are issued in the ordinary Branch.
(e) Under group policies the individual insured has the right to convert to standard plans, both life and endowment, on leaving the employ of the T. Eaton Co. Ltd. No additional reserve is maintained therefor.
$(f)$ No other special reserves are held.
II. The guaranteed values on a policy issued at "rated-up" age are those for the age at which premiums are charged.

Where an extra premium is charged the regular guaranteed values are granted; where premium payments are waived under the total and permanent disability clausc the guaranteed value is increased in the same manner as though the premium had been paid in cash.
III. The average rate of interest earned on the mean ledger assets wa $: 4.37 \%$.
IV. The distribution of surplus-

No with-profit policies are issucd.

# The Equitable Life－Conlinued． 

## SUMMARY OF RESERVE．

## MISCELLANEOUS STATEMENT．

## I．The calculation of the＂Reserve＂in the＂Statement of Actuarial Liabilities．＂－

（1）All policies of the same class，percentage，year of issue，kind，and age，were grouped together in the valuation，single premium annuities being grouped by age attained in 1920．The amounts of insur－ ance for each age group were then multiplied by the mid－year reserves for the corresponding group．The age at entry for assurances for valuation purposes is computed on the same basis as used in calculating the office premium，being the age nearest birthday at the date of issue．The valuation net premium is based on the same age．For annuities the age at entry is obtained by determining the integral age attained in the year of entry．However，in calculating considerations for immediate and deferred annuities the latest age attained，taking into account the quarter ages，was used．In determining the office premium for the deferred Income Bond the age at nearest birthday was used．

The attained age for assurances for valuation purposes is obtained by adding the difference between the year of valuation and the year of issue to the age at issue and adding one half year；for annuities the attained age is obtained by adding the difference between the year of valuation and the year of issue to the integral age attained in the year of issue and adding one half year．

The reserves are computed on the basis used by the Society covering its total business．The bases of valuation and rates of interest are shown below．The reserve as so obtained was then adjusted and increased as shown in the＂Statement of Actuarial Liabilities＂to bring it to the Canadian statutory basis．

Basis，Ordinary Assurance Contracts：－
（1）Premium based on 4\％interest，1859－1899 inclusive，Actuaries＇4\％；（2）Premiums based on $3 \% 1895$ and after，or $3 \frac{1}{2} \%$ 1898－1906 inclusive，and $3 \frac{1}{2} \%$ Convertible policies 1914 and after（including all the insurance issued since December 31st，1899），American 3\％or American 31⿳亠丷厂⿱丶万⿱⿰㇒一乂，$\%$ ．Exceptions：－ Child＇s Endowments：（1）prior to 1898，Carlisle 4\％；（2）1898－1906 inclusive，（a）by annual premiums， Carlisle $3 \frac{1}{2} \%$ ，（b）by single promiums，Hm． $3 \frac{1}{2} \%$ ；Joint Life：（1）prior to 1898 ，American 4\％；（2） 1898－1906 inclusive，Hm．3\％；（c）Survivorship Assurances，prior to 1898，Carlisle 4\％；（d）Sub－Standard business， 1915 and after when premiums were based on $125 \%$ to $150 \%$ American mortality，also for policies with flat extras of $\$ 2.50$ to $\$ 5.00$ per thousand per annum（also $\$ 7.50$ for forms other than endowments），Sesqui American $3 \%$ ．（e）Sub－Standard policies when premiums were based on over $150 \%$ ，American mortality，also on those policies issued with a flat extra of over $\$ 7.50$ per thousand （ $\$ 7.50$ or over for endowments），Double American 3\％．（f）Reversionary additions same as above． Note：－All non－participating policies（excepting Term）1898－1906 inclusive，debenture bonds，continuous
instalment，and minimum rate policies，1898－1902 inclusive with premiums based on $3 \frac{1}{2} \%$ ；all paid up policies 1900－1906 inclusive when premiums of original policy were based on $3 \frac{1}{2} \%$ or $4 \%$ ；and all policies
issued after 1899 with premiums based on $4 \%$ ；bases of valuation，American $3 \frac{1}{2} \%$ ，exceptions above． All other policies since 1899 not above specified，American 3\％．
Annuities：－Issued prior to 1898 and $4 \%$ annuities issued in 1898，ordinary and deferred，Actuaries＇4\％， two lives，Hm．4\％；Survivorship，Carlisle 4\％．Issued subsequent to 1898 and $3 \frac{1}{2} \%$ annuities of 1898 ； regular single life，1898－1906 inclusive，American 312\％．All others，McClintock＇s Table 31 $\frac{1}{2} \%$ ．Exceptions： Annual dividend survivorship annuities， 1913 and after，McClintock＇s Table $3 \%$ ．Annuities arising out of assurance contracts were valued by American 3\％，or American 3 $\frac{1}{2} \%$ ，according as the premiums on original contracts were based on $3 \%$ or $3 \frac{1}{2} \%$ ．Premium reductions valued on same table and at same rate of interest as original policy．

Disability Benefits were valued by Hunter＇s Disability Table using $3 \%$ interest．
Special Clesses：－
（a）The valuation included only policies taken out on the lives of residents of Canada．
（b）Where policies were issued and premiums were charged at ages higher than the true ages，the reserves were computed at those higher ages．
（c）In case of policies subject to liens the reserve for a decreasing insurance was deducted from the reserve of the regular policy．
（d）In case of policies issued at fixed extra premiums payable
（1）in a lump sum；None issued．
（2）Annually；in respect to sub－standard policies see above under I for basis used in comput－
ing the reserve．
（e）In respect to policies otherwise issued to sub－standard lives see above under I for basis used in computing the reserve．
（f）（1）Before the occurrence of disability：An extra disability reserve to cover waiver of premium instalment benefits was computed，being calculated upon the amount of insurance for each year， kind，and age，using Hunter＇s Disability Tables；
（2）After the occurrence of disability：An extra reserve was computed on disabled lives（a）in the case of waiver of premium benefit equal to the present value of future net premiums（b）in the case
of the instalment benefit equal to the present value of future loss of interest，both on Hunter＇s Dis－ abled Life Table．
（g）No distinction was made as to premiuns or reserves between average and under average annuitants．

The Equitable Life－C＇ontimued．

## MISCELLANEOUS STATEMENT－Continued．

（2）Items of special rescric：－
（a）No specifie reserve is held under limited payment and single premiun policies，nor under immediate annuities on account of prepaid or limited loadings．
（i）An estimated extra reserve has been held representing the accunnulation of the maximum net annual extra pure endowment premium required to provide the difference between Om （5） $3 \frac{1}{2} \%$ reserve and the guaranteed surrender values．
（c）No specific reserve is held on account of lapsed policies not continued in force under automatic uon－forfeiture provisions but being subject to reinstatement．
（d）No specific reserve is held to cover the option of renewal under term policies．
（e）No specific reserve is maintained to cover the option of conversion either during a fixed period or at the end thereof，into higher premium policies．
$(f)$ All items under which a special rescrve is held are stated above．
II．Under tropical or sub－tropical policies the following surrender values are allowed：－On issues prior to 1910，same values as on northern policies；on issues 1910 and after cash and paid up on the same basis as northern policies issued in 1907 but extended insurance obtained by using same percentages of Double American or Sesqui Anerican 3\％（applied on these latter tables），as was used for northern policies issued in 1907.

III．The average rate of interest earned during the year on the mean net ledger assets was $4 \cdot 63$ per cent．

IV．The distribution of surplus：－
（a）After setting aside from the surplus earned during the year the sum of $\$ 7,000$ for the payment of the authorized dividend upon the capital stock，the remainder is held in the interest of or paid to the policyholders．
（b）Anveal Dividends－
The following is the rule for the computation of annual dividends payable in 1920：－
From the ordianry premium due in 1919，taken on the annual basis，deduct the expense charge beginning at $18 \%$ of the mean between the gross annual premium and the net ordinary life annual premium at the same age for the first policy year．The expense charge decreases by $3 \%$ of the initial amount each year for 15 years，then by $2 \%$ each year for the next 10 years and then by $1 \%$ each year for the next 10 years to $25 \%$ for the 36 th year，remaining uniform thereafter at $25 \%$ of the initial amount but ceasing in any case when the policy becomes paid up．

The expense charge is，however，in no case to exceed the loading included in the office premium． Add the balance of the premium to the terminal reserve in 1919 and to the sum add interest at $4 \cdot 3 \%$ for one year．From the total deduct the cost of insurance according to the American Experience table and the terminal reserve at the anniversary in 1920．The balance is the cash dividend for 1920 except that no dividend is to be declared at the end of the first policy year on other than Single Pre－ mium policies．

## Deferred Dividends－

On policies in the Deferred Dividend classes，a special account is kept of income and disburse－ ments，so that the amount of the deferred dividend fund，that is，the amount of assets derived from policies in the deferred dividend classes，can be ascertained for the end of every year．The deferred dividend fund is credited with all premiums received on deferred dividend policies，is charged with a proper proportion of the expenses，receives credit for interest on accumulations proportionate to that earned on the total funds of the Society，and is charged with losses by death on Deferred Dividend policies，and the values of such policies as reach the end of their dividend periods，or are surrendered previous to that time．At the end of every year，the total amount of the deferred dividend fund， and the total amount of reserve and other liabilitics on deferred dividend policies are calculated and the difference between these amounts is the surplus derived from deferred dividend contracts．

As deferred dividend policies，after completing their periods cannot participate in future divisions of deferred dividend surplus，careful computations are made of the amounts to be apportioned to policies at the end of their dividend periods．It would apparently have simplified the calculations to have made separate classes for every year of issue of policies with the same features and condi－ tions，so that there would have been no mingling of claims of policies leaving a class with claims of policies remaining in the class；but an insuperable objection to this plan is that in small numbers，and even in numbers of considerable magnitude，irregularities will arise which would be troublesome in practice， and would cause grave suspicion of unfairness，while it is desirable in all life insurance calculations to take advantage of the largest average attainable．

It was deeided therefore，that all policies with similar conditions，no matter in what year issued， should be classified together for the purpose of determining the proper amounts of dividend to be apportioned，and the following plan adopted：－Rates of interest，mortality，expense，lapse and sur－ render，were assumed based upon past experience．On the bases of these rates，calculations of the amount of surplus which would be realized on policies taken at cvery age，and of every kind，at the end of their dividend periods，were made，and estimated surpluses were computed for the issues of every year at the end of every policy year during their periods．By simply uniting these computations， we can readily ascertain in any year the expected，or estimated surplus，on the entire amount of the deferred dividend policies included in the various classes．The total expeeted surplus，when compared with the total actual surplus，which is ascertained as deseribed above，gives a ratio which is applied to the estimated surplus on policies at the end of their periods，and in this manner we obtain the actual surplus which is apportioned to such policies．

The annual cash dividends may be applied on the basis of the net American $3 \%$ table，to the purchase of dividend additions without medical examination．

The deferred dividends may be applied on the basis of the net American 3\％Table to the purchase of（a）dividend additions subject to evidence of insurability；（b）premium reductious，the full pre－ miun due，if any，being first deducted out of the dividend．

## The Equitable Life-Continued.

## MISCELLA NEOUS STATEMENT--Concludrd.

The five year dividends may be applied on the basis of the net American 3\% Table, to the purchase of (1) dividend additions without medical examination; (2) premium reduction due covering five years.

Deferred dividend tropical and semi-tropical policies receive dividends based upon the experience of such policies; annual dividends same as uorthern.
(c) The following is the rule for the computation of annual dividends payable in 1920 on Income Bonds:-

From the ordinary premium due in 1919, taken on the aunual basis, deduct an expense charge beginning at $18 \%$ of the mean between the gross annual premium and the net ordinary life annual premium for the maximum amount of return in case of death at the same age for the first policy year. The expense charge decreases by $3 \%$ of the initial amount each year for 15 years, then by $2 \%$ each year for the next 10 years and then by $1 \%$ each year for the next 10 years to $25 \%$ for the 36 th year, remaining uniform thereafter at $25 \%$ of the initial amount. The expense charge is, however, in no ease to exceed the loading included in the office premium. Add the balance of the premium to the terminal reserve in 1919 and to the sum add interest at $4.3 \%$ for one year. From the total deduct the cost of insurance according to the American Experience Table and the terminal reserve at the anniversary in 1920. The balance is the cash dividend for 1920 except that no dividend is to be dedeclared at the end of the first policy year on other than Single Premium policics.

## DEFERRED DIVIDEND POLICIES (Including Quinquennial)

Issued prior to January 1, 1911. No profits have as yet been contingently apportioned thereto.

## MISCELLANEOUS STATEMENT.

1. The calculation of the "Reserve" in the "Statement of Actuarial Liabilities."-
(1) General principles:-

The valuation was based on the $\mathrm{Hm} .3 \frac{1}{2} \%$ table; in addition, for those policies (issued from 1910 inclusive) which guarantee at the end of 20 years a surrender value equal to the $\mathrm{Hm} .3 \%$ reserve a special reserve is held sufficient to provide for those guarantees valued as pure endowments.

Assurances were grouped according to years of issue and by office age at issue for each plan of insurance. The office age at entry is at present "age nearest birthday". but prior to April 1st, 1915, the office age was "age next birthday."

Annuities were valued individually.
The valuation age for assurances was taken as office age at date of issue, duration $n+\frac{1}{2}$ where $n$ equals the difference between the valuation year and the year of issue. The valuation was made from tables of "mid-year" reserves calculated according to the "net premium" method.

## Special classes:-

(a) Policies issued on lives resident in tropical or sub-tropical countries at rates of premium greater than the regular Canadian rates were valued as though issued at ordinary rates.
(b) Policies issued at premiums corresponding to ages higher than the true ages were valued as at the higher ages.
(c) Policies providing for payment at death during certain periods of an amount less than the full amount of assurance were valued for the full sum assured.
(d) Policies issued at, or subsequently subject to an extra premium whether payable in one sum or annually, were valued as though issued at ordinary rates.
(e) Policies otherwise issued on substandard lives are valued as though issued at regular rates or on standard plans.

$$
8-8 \frac{1}{2} *
$$

## The Excelsion Lafe-Continued.

## MISCELLANEOUS STATEMENT-Concluded.

I $\Omega$ The Company has three forms of total and permanent disability contracts numbered I, II, and III, giving various bencfits in case of the disability occurring before age 60. No. I, which provides for waiver of premium only is no longer issued; No. II provides for waiver of premium, and if it is so desired, the payment of the face of the policy in ten equal annual instalments; No. III provides for waiver of premium and the payment of instalments of ten dollars per month till death or maturity for each one thousand rlollars insured.

Before the occurrence of disability, for disability I and II a reserve equal to the total annual premiums received for such disability benefits is maintained, while for disability III there is held a reserve equal to one-half the total disability premiums received since issue.

After the occurrence of disalility, policies are treated as paid-up with respect to reserve held.
(g) The Company has issued no annuities on lives classed as under average.
(2) It(ms of Special Reserve:-
(a) No reserve is held under limited and single premium policies on account of prepaid or limited loadings, and no additional reserve is made under immediate annuities to cover future expenses.
(b) Where the guaranteed benefit erceeds the net premium reserve, the excess is treated as a pure endowment and a sufficient additional reserve maintained to provide therefor.
(c) No extra reserve in excess of the cash surrender value is held on account of lapsed policies, not continued in force under automatic non-forfeiture provisions, but being subject to reinstatement.
(d) No extra reserve is carricd to cover the option of renewal under term policies.
(c) No extra reserve is carried to cover the option of conversion, cither during a fixed term or at the end thereof, into higher premiun policies, the premium on the new policy being fixed (1) as at original age at entry (2) as at age attained at date of conversion.
(f) No other special reserves are held.
II. Guaranteed values given in special classes of policies. I. (1) (a) to (f) above.
I. (1) (a) and (d) are treated as if issued at ordinary rates;
I. (I) (b) Values given for age at which policy issued;
I. (1) (c) Values given are the same as those in policies without liens;
I. (1) (e) The regular values are given for the age and plan. Where policyholder is required to take the cash or annuity option at the end of a certain period, extended term insurance is not granted. I. (1) (f) (1) Before occurrence of disability regular surrender values given.
I. (1) (f) (2) After occurrence of disability, in case of total disability benefit No. II where face of policy is paid in instalments, surrender values are reduced in accordance with the amount of the instalments paid. In case of total disability I and III, there is no reduction in surrender valiues.
III. The average rate of interest earned during the year on the mean net ledger assets was 6.87 per cent.
IV. Distribution of Surplus.-
(a) Division of Surples between Polictholders and Shareholders.

The Shareholders' Fund at the beginning of the year is credited with interest at the net rate earned and also with 10 per cent of the profits to be distributed during the year (the remaining 90 per cent belonging to the poliey holders). At the option of the Directors any profits on non-participating business may also be transferred to the Shareholders' Fund. The Fund is charged with all payments to shareholders, with any losses on non-participating business, and its proportion of any losses which may be sustained on investments.
(b)

Distributiox of Profits to Policyholders.

## Quinquennial Dividends.

The dividends for the first, second and third quenquennial periods were computed in the same manner as deferred dividends. The quinquennial dividends for other periods were computed by a compound reversionary bonus system now discontinued.

## Deferred Diridends.

The deferred dividends were computed by a modified "asset share" method by which a certain percentage of the premium was deducted for expenses, the percentage varying with the plan and, except for endowments of specified terms, with the age also. On the Ordinary Life Plan the percentage decreased regularly from 25 per cent at age 20 to 11 per cent at age 90 . In the ease of Endowment policies the perrentages for all ages increased regularly from 13 to 21 per cent, being 13 per cent for all Ten-Year Endowment policies and 21 per cent for all Fifty-Year Endowment policies. For Limited Payment Life policies the percentage taken was the mean between the Ordinary Life rate at the same age and the rate for an Endowment Assurance of the same premium paying period. From age 20 to age 49 the mortality allowed was 75 per cent of the expected; from age 50 the percentage was graded to reach 90 per cent of the expected at age 69. Interest was computed at 5 per cent throughout. A valuation of the Deferred Dividend policies was then made on the basis of these "standard asset shares," the total compared with the actual funds at the credit of these policies, and by this means the fund at the credit of each individual policy was ascertained.

Conversion into premium reduction, paid up insurance, reduction of premium term, reduction of endowment period, etc., is effected on a net $\mathrm{Hm} .3 \frac{3}{\frac{3}{2}}$ per cent basis.
(c) Participating annuities are not issued.

## SUMMARY OF RESERVE.

## MSCELLAN゙EOUS STATEMENT.

I. The calculation of the "Reserve" in the "Statement of Actuarial Liabilities"-
(1) Policies were valued in groups. Annuities were valued individually. All policies alike in respect to age at entry, plan, and year of issue formed a group. Age at entry for valuation purposes is the same as age used in determining premiums. Assurances were valued using tables of mid-year policy values by full net level premium method. Annuities were valued as at nearest attained age. In calculation of the reserve the following tables of mortality and rates of interest were used:

1. Life Annuities: The British Offices' Select Life Annuity Table, 1893, $3 \frac{1}{2}$ per cent interest.
2. Deferred Dividend Policies amounting to $\$ 57,407,770$ : The Om (5) Table with 3 per cent interest.
3. Quinquennial and Annual Dividend Policies amounting to $\$ 9,705,253$, with guarantees based on the American 3 per cent table; The Am 3 per cent table.
4. All other Insurances: The Om (5) table with $3 \frac{1}{2}$ per cent interest. special Classes-
(a) No tropical or sub-tropical business transacted.
(b) No policies issued at premiums for ages higher than the true ages.
(c) Liens were disregarded in valuation.
(d) Extra premiums were disregarded in valuation.
(e) No policies issued to sub-standard lives except those subject to lien or extra premium.
(f) For policies providing for waiver of premiums or payinent of amount insured in instalments on occurrence of disability the following additional reserves per $\$ 1,000$ were held (before occurrence of disability):15 conts for durations $\frac{1}{2}$ and $1 \frac{1}{2}, 20$ cents for durations $2 \frac{1}{2}, 3 \frac{1}{2}$, and $4 \frac{1}{2} ; 25$ cents for durations $5 \frac{1}{2}, 6 \frac{1}{2}$, and $7 \frac{1}{3}$; and 30 cents for durations $8 \frac{1}{2}$ and $9 \frac{1}{2}$ years. After disability policies were valued on the same basis as though they had become paid-up through the completion of premium payments in the ordinary way. For policies providing waiver of premiums and a monthly income on occurrence of disability with payment of amount insured at death, an average reserve of $\$ 1$ per $\$ 1,000$ for duration $\frac{1}{2} ; \$ 1.50$ for duration $1 \frac{1}{2}$, and $\$ 2.25$ for duration $2 \frac{1}{2}$ was held on all plans and for all ages before occurrence of disability.
(g) No annuities were issued to lives classed as under average.
(2) Items of Special Reserve-
(a) Reliance is placed upon the larger margin between the actual and assumed rates of interest as a substitute for a reserve on account of prepaid or limited loadings on insurances and annuities.

## SESSIONAL PAPER No. 8

## The Great-West Life-Continued. <br> MISCELLANEOUS STATEMENT-Concluded.

(b) No excess guarantees assumed to exist except in respect to a small group where special reserves (on pure Endowment basis) were held.
(c) No reserve considered necessary to cover the option of reinstatement since it is safe to assume that a larger number of policies will lapse in the ensuing year than will be reinstated.
(d) and (e) No special reserve held to cover the option of renewal under renewable term policies nor of conversions into higher premium plans.
II. No adjustments were made in guaranteed values on account of liens or extra premiums.
III. The average rate of interest earned during the year on the mean net ledger assets was $7 \cdot 2$ per cent. IV. The Distribution of Surplus-
(a) Shareholders receive one-tenth of profits set aside for distribution; policyholders the balance.
(b) In the distribution of profits the Company uses a table of annual dividends in the form of pure endowments maturing on the profit due dates and computed by a contribution formula involving four factors, viz.:-Interest, Mortality, Loading and Withdrawals. For Interest a net rate of 6 per cent is assumed. For Mortality it is assumed that 75 per cent of the $\mathrm{O}(\mathrm{m})$ mortality applies for all ages less than 36; after age 35 the percentage increases one point for each additional age until a maximum of 100 per cent is attained at age 60. For Loading an expense rate of 10 per cent is assumed for all renewal premiums. For first year premiums the expense rate varies with each plan and age. For example for ages 25 to 51 the rate for ordinary life varies from 122 per cent to 88 per cent; for 20 Payment Life from 105 per cent to 84 per cent; and for 20 Year Endowment from 88 per cent to 80 per cent. The Withdrawal factor is assumed to apply only during the first seven years of the policy, the rates assumed varying with the duration from 18 per cent to 1 per cent for all ages up to 47 , after which they decrease slightly.

These pure endowments are set aside annually and added to the previous allotments similarly made. In the case of annual and quinquennial policies, the table of pure endowments, for the first ten years duration, is not based upon the exact earnings of each year, but upon a graduation of the total earnings of the ten year period. Cash dividends are converted into paid-up insurances or premium reduction by the Hm $3 \frac{1}{2}$ per cent table or if retained by the Company are accumulated at the net rate of interest earned.
(c) No participating annuities issued.

SUMMARY OF RESERVE.

## The Gresham Lafe-Concluded.

## MISCELLANEOUS STATEMENT.

I. The calculation of the "Reservc" in the "Statement of Actuarial Liabilitics"-
(1) Policies were valued individually from tables of mid-year reserves calculated accordin to the net premium method, the age at entry for valuation purposes being the same as that in the policy contract, that is, next half-age or integral age at time of issue. The valuation basis was Om (5) $3 \frac{1}{2}$ p.c. throughout.

Special Classcs-
(b) Policies issued at premiums corresponding to ages higher than the true age were valued at the rated up age.
(e) Policies subject to liens were valued as though there was no lien.
(d) Policies subject to extra premiums were valued as ordinary policies.
(e) Policies subject to disability were valued as ordinary policies.
(2) Items of special reserve-
(a) No additional reserve was made on account of preraid or limited loadirgs in single and limited payment policies.
(b) The guaranteed benefits in no case exceed the net premium reserve on the valuation basis anployed.
(c) No additional reserve was made in excess of the cash value for policies continuing in force under automatic non-forfeiture provisions being subject to reinstatement.
(d) No reserve is maintained to cover the option of renewal under term policies.
(e) No reserve is maintained to cover the option of conversion into the higher premium plans.
( $)$ ) No other items of special reserve are maintained.
III. The average rate of interest earned during the last five years on the mean life insurance fund of the company as a whole was 425 per cent after deduction of Income Tax.
IV. The distribution of surplus-
(a) In accordance with clause 95 of the laws and regulations of the Society the directors determine what portion of the valuation surplus, after setting aside the sum required to provide interest upon the shareholders' capital during the forthcoming quinquennium, shall be divided as profits.

One-tenth of this sum is allocated to the shareholders and is divided among them in proportion to the number of shares held irrespective of the amounts paid up thereon; the remaining nine-tenths is distribut ed among the holders of participating policies.

## MISCELLANEOUS STATEMENT.

I. The calculation of the "Reserve" in the "Statement of Actuarial Liabilities"-
(1) Assurances are valued individually according to the net premium method. The valuation age is taken as age nearest birthday at date of issue and the duration as $n+\frac{1}{2}$ where $n$ equals the valuation year less year of issue. The valuation age is the same as that used in determining the premium. There are no annuities in force in Canada.
All policies issued prior to January 1, 1910 except policies issued through the Home Department subsequent to December 31, 1901 and prior to January 1, 1907 and 5\% Gold Bond Policies were valued on the American Experience Table at $3 \frac{1}{2}$ per cent.
Reversionary additions to the above policies were valued on the same basis. All policies issued subsequent to December 31, 1909 and policies included in the exceptions above were valued on the American Experience Table at 3 per cent. Reversionary additions to the above policies were valued on the same basis.
Special Classes-
(a) No policies issued on lives resident in tropical or sub-tropical countries are included in this statement;
(b) No policies have been issued in Canada at premiums corresponding to ages higher than the true age;
(c) No policies with a lien have been issued in Canada;
(d) Policies issued with a fixed extra annual premium are valued in the same way as policies issued without extra premiums. No policies have been issued with a fixed extra premium payable in one sum;
(e) No policies have been issued in Canada on lives classed as substandard.

## MISCELLANEOUS STATEMENT-Concluded.

Special Classis-Concluded-
(f) The disability benefits are valued before the occurrence of disability on Hunter's Disability Benefit Table; after disability, by setting aside a sum as a liability equal to the present value of the future gross premiums and disability annuity payments, on the basis of the same table. These reserves are held in addition to the regular reserve on the policy without the disability benefit;
(g) No annuities have been issued on lives classed as under-average.
(2) Items of special reserve-
(a) No additional reserve is held for future expenses under limited paynent and single premium policies nor in the case of immediate annuities;
(b) No policies have been issucd that provide for guaranteed cash values in excess of the net premium reserve on the basis of valuation employed;
(c) No reserve is held on account of lapsed policies not continued in force under automatic nonforfeiture provisions nor having a surrender value, but being subject to reinstatement.
(d) No rescrve is maintained to cover the option of renewal under term policies.
(e) No reserve is maintained to cover the option of conversion either during a fixed term or at the end thereof into higher premium policies, the premium on the new policy being fixed (1) as at original age of entry, or (2) as at age attained at date of conversion.
(f) No special reserve is held on account of Canadian policies.
II. No policies issued on lives resident in tropical or sub-tropical countries are included in this statement.
III. The average rate of interest earned during the year on the mean ledger assets of the comrany as a whole, was $5 \cdot 47$ per cent.
IV. The distribution of surplus-
(a) From the sum set aside each year to be distributed among shareholders and policyholders, there is paid to the shareholders, $7 \%$ interest and $5 \%$ dividend on the capital stock; the remainder is paid to the policyholders.
(b) Surplus earnings for the declaration of dividends to policyholders are assumed to be derived from two sources, viz.:
a. Interest earnings in excess of reserve requirements;
b. Savings from loading on the net premiums.

The factors used for the year 1920 were respectively as follows:-
Policies issued prior to January 1st, 1910:-
$8 / 10$ of $1 \%$ of the initial reserve on the American Experience Table of Mortality with $3 \frac{1}{2} \%$ interest. $52 \frac{1}{2} \%$ of the loading on the same basis.
Policies issued since January 1st, 1910:-
$13 / 10 \%$ of the initial reserve on the American Experience Table of Mortality with $3 \%$ interest. $52 \frac{1}{2} \%$ of the loading on the same basis.
The sum of these two items is herein referred to as "Standard Dividend."
At a meeting held by the Board of Directors on the fourth Wednesday of October in each year dividends are declared for distribution during the ensuing calendar year among Participating Policies in force at least one year on the anniversary dates of issue in such year.
A balance sheet is submitted in said meeting showing the exact condition of the Company on the preceding 30 th day of September.
On the basis of such balance sheet and a statement showing the total amount of Standard Dividends for all insurances entitled to participate in the distribution of surplus in the following calendar year, a sum is set aside for apportionment in such year. Sueh sum is either equal to the aforesaid total amount or to such a percentage thereof as present conditions and future requirements seem to warrant.
Cash dividends for $1920-70 \%$ of the Standard Dividend.
Cash dividends, annual, quinquennial or deferred, are converted into paid-up insurance on the basis of the net American 3\% table. The policies do not provide for conversion of the eash dividends into premium reduction, reduction of premium term or reduction of endowment period.
(c) No annuities are in force in Canada.

## MSCELLANEOUS STMTEMENT.

## 1. The calculation of the "Reserve" in the "Statement of Actuarial Liahilities"-

(1) Participating policies issued on Ordinary plans under age 51 were grouped according to year of issue, age at issue and plan of assurance. All other policies and annuities were valued individually. Participating Endowment policies were further arranged in groups containing five ages, namely 20-24: $25-29$, and so on, and these groups were valued as at age 22, 27. etc., respectively, For assuranees other than sub-tropical and tropical the basis of valuation was the Institute of Actuaries' Hm table of mortality, with interest at 3 per cent. Annuities were valued upon the British Offices' Life Annuity Table. with interest at 3 per cent. Supplementary contracts were valued on a 3 per cent interest basis, except those cases in which the commutation of instalments had been on a three and one-half per cent or four per cent interest basis, in which eases they were valued on a $3 \frac{1}{2}$ per cent interest basis.

Assurances other than tropical and sub-tropical were valued at age next birthday for polieies issued prior to the 1st of December, 1914, and age nearest birthday for those isued on and after the said date. Annuities were valued at age last birthday. The valuation was made from tables of "imid-year." reserves calculater according to the net premium method.

## Sperial Classes-

(a) Assurances on lives resident in tropieal or sub-tropieal countries were valued at age next birthday on the basis of the American Tropical Table of Mortality, with interest at 3 per cent.
(b) Polieies issued at premiums corresponding to ages higher than the true ages were valued at those higher ages.
(c) Policies subject to liens were valued for the full sum assured, no account being taken of the lien.
(d) Polieies issued subject to an extra premium: The extra is payable annually and half the extra for the year is added to the ordinary reserve.
(e) The above include all forms in whieh policies on sub-standard lives are issued by the Company.
(f) The Disability Benefits provided up to the end of 1920 were: (a) The waiver of premium on total and permanent disability and the option of receiving the sum assured in twenty yearly instalments; (b) The waiver of premiums on total and permanent disability and the payments of a monthly income for the duration of the poliey, and the sum assured at maturity; (c) The waiver of premiums on total and permanent disability.
(1) Before occurence of disability, a special reserve fund is maintained of one-half of all disability premiums remaining after the losses incurred under this benefit have been deducted.
(2) After occurence of disability, where future premiums are waived, the poliey is yalued as a paid-up contrart: where policy is payable in instalments, the commuted value of unpaid instalments is treated as a liability; in ease of a disability elaim under class (b) above, the sum assured is valued iss a paid-up eontract and the monthly ineome is valued on Hunter's Disability Tables with $3 \%$ interest.
(g) No annuities exist on lives classed as "under average".
(2) 1 tems of Special Reserve-
(a) Noadditional reserve is held under limited and single premium policies on aceount of prepaid or limited loadings or on aecount of future expenses under annuit ies.
(b) Polieies contain no benefits which exceed in value the Hm 3 . reserve, which is the basis of valuation employed.
(c) Except for the general contingeney reserve fund no reserve is maintained in exeess of the eash value on lapsed policies, not automatically continued, subject to reinstatement.
(d) To eover the option of renewal under term policies a reserve is accumulated during the period in which the poliey may be renewed equal to 15 per eent of the office premiums paid.
(e) To cover the option of conversion a reserve is accumulated during the period in which the poliey may be converted either as at the original age at entry or as at age attained at date of conversion equal to 15 per eent of the office premiums paid.
( $f$ ) Apart from the above special reserve there is maintainel a general contingency reserve fund.
II. No distinction is made between the surrender values on the Special Clats policies above and those issued at Canadian rates.
III. The average rate of interest earned during the year on the mean net ledger assets was 6.33 per cent.

The Imperial Life-Continued.

## MISCELLANEOUS STATEMENT-Concluded.

IV. The distribution of surplus:-
(a) Division between policyholders and shareholders.

The shareholders' account is credited quarterly with interest on the balance of the account and on the paid-up capital stock at the net rate for the year (adiusted for due and accrued and decreased by investment expenses) and debited with the dividends paid shareholders. The balance which results at the end of the year is increased by the surplus derived in the year from non-participating policies and by 10 per cent of the surplus derived from participating policies.

Profits realized from the sale of securities are divided between shareholders and participating policyholders in accordance with the Insurance Act, namely, that proportion which the reserve on participating policies bears to the reserve on non-participating policies and losses incurred in the sale of securities are charged in the same proportion.
(b) In computing dividends to policyholders four factors were employed, namely interest, mortality, loading and withdrawal. Assumed factors were used to prepare tables of total yearly surplus earnings for each age, duration and form of policy. Each policy entitled to surplus in the year has credited to it additional surplus in that year, found by taking such proportion of the respective yearly surplus of the tables as the total additional surplus actually set aside for distribution in the year is to the total additional surplus for the year on all such policies, as given by the tables. The amounts thus credited are accumulated from year to year. The factors assumed in preparing the tnbles were: Interest Surplus $1.25 \%$ of $\mathrm{Hm} 3 \frac{1}{2} \%$ reserve; Mortality Surplus $20 \%$ of the cost of insurance ( $\mathrm{H} \mathrm{m} 3 \frac{1}{2} \%$ ) to attained age 50 , thereafter decreasing by $.5 \%$ for each higher age; Loading Surplus $75 \%$ of the balance of loading on the $\mathrm{Hm} 3 \frac{1}{2} \%$ basis after deducting $5 \%$ of the office premiums and $\cdot 2 \%$ of the sum assured: Withdrawal Surplus $2 \frac{1}{4} \%$ of the surplus which was earried forward from the preceding year; Interest Accumulation Factor $4.75 \%$. For the year 1920 the additional surplus apportioned to each policy was $75 \%$ of the respective additional yearly surplus shown in the tables. The basis on which the dividends are converted are as follows: Temporary Premium Reduc-tion-Hm $3_{2}^{1} \%$ Select; Permanent Premium Reduction-British Offices $3 \frac{1}{2} \rho_{0}^{7}$ Select; Paid-up Insur-ance- Hm (5) $3 \frac{10}{2} \%$; Reduction of Premium Term-Hm $3 \frac{1}{2} \%$; Reduction of Endowment Term- Hm $3 \frac{1}{2} \%$.
(c) Only two participating annuities exist. The dividends consist of $2.38 \%$ of the present value of the annuities.

## MISCELLANEOUS STATEMENT.

1. The calculation of the "Reservc" in the "Statement of Actuarial Liabilities."-
(1) Policies were valued individually except for Whole Life Paid-up Policies, Reversionary Bonuses and one section of Endowment Assurances payable at maturity ages which were valued in groups.

The Government Valuation basis was used, namely Om (5) Table of Mortality at $3 \frac{1}{2} \%$ rate of interest.
The valuation was made by tables of medial values prepared by the Net Premium method. In cases of policies valued individually the nearest age at entry was adopted and the duration was taken as $\mathrm{n}+\frac{1}{2}$ where n is the curtate duration.

For grouped policies, the nearest attained age at date of valuation was adopted for the Life Paid-up Policies, and for Reversionary Bonuses; and the nearest quinquennial maturity age with the corresponding equivalent age at entry was adopted for the Endowment Assurances grouped section.

For Life Annuities the statutory basis of O (a) m or $\mathrm{f} 3 \frac{1}{2} \%$ table and interest rate was employed.
Special Classes:-
(a) Tropical and sub-tropical business is not written by the Canadian Branch.
(b) Policies issued at premiums corresponding to ages higher than the true ages were valued at their rated-up ages.
(c) Policies providing for payment at death, during certain periods, of an amount less than the full amount of the assurance were valued for full amount assured.
(d) For policies issued at, or subsequently bearing, a fixed extra premium, an additional reserve over and above the normal reserve was made of half of such extra premium, annual or single.
(c) There are no sub-standard lives other than those classified above in (b), (c) or (d).
(f) Re Disability Benefits-The Company has two plans:
i. Waiver of Premiums in event of temp rary or permanent disability; $50 \%$ of the disability premium is reserved for future lial ility. ii. Waiver of Premiums and Disability Annuity for the remainder of the curr ney of the policy without reduction in the sum assured which latter becomes payable in full at death or maturity according to the terms of the poliey. At present $75 \%$ of the disability premiun is reserved for future liability. There are no clains to be dealt with as yet.
(g) There are no under-average annuity lives on the Canadian Registers.
(2) Items of special Reserve.-
(a) No extra reserve is held under Limited and Single Premium policies on account of prepaid or limited loadings or under the few Annuities on the Canadian Books.
(b) Full additional reserves are made to cover any guaranteed benefits which : re in excess of the reserve under the valuation basis employed.
(c) An additional amount of $10 \%$ above the Cash Surrender Value elaimable is included in the Lidbility under lapsed policies subject to re-instatement.
(d) A proportion of the additional remium charged to cover the option of renewal under Renewable Term Policies is reserved.
(c) A proportion of the additional premium charged to cover the option of Conversion under Convertible Term Policies is reserved.
(f) Policies under which the sums assured are payable in instalments are valued as ordinary policies in their own class for the equivalent Commuted Values of such instalments. Policies issued under the Return Premium Plan have additional reserves made covering the additional amounts at risk under each of such policies.
II The guaranteed values under special class polieies are the same as under ordinary policies except as follows -
(b) When policies are issued at rated-up ages, values are allowed for the true ages.
(c) Where policies are issued with liens, the Extended Term Assurance is su ject to such liens, and the paid-up insurance to a pro rata proportion thereof.
III The average rate of i.terest earned on the Lite Assurance Fund of the Comany as a whole was $4 \cdot 14$ fer cent.
IV The distribution of surplus-
Division of Surplus between Shareholders and Policyholders.
(a) Under the provisions of the Company's Memorandum and Articles of Incorporation the shareholders are entitled to receive out of the Life Assurance Profits, accumulative dividend of five per cent per annum on the Paid-up Capital for the quinquennium. Nine-tenths of the balance of such profits are apportioned among the policy-holders entitled to participate. The balance of such one-tenth belongs to the hareholders.
(b) Ordinary participating policies.

The dividends on these policies are allotted quinquennially as simple Reversionary Bonuses on the Sum Assured, according to the number of full years' premiums paid during the quinquennium, the bonuses so allotted only vest when policies have been three full years in force. The Cash Values of the resulting Reversionary Bonuses are obtained by discounting the Reversionary amounts by the $\mathrm{Hm} 5 \%$ Table for Whole Life and Limited Payment Life Policies and by the Hm $4 \frac{1}{2} \%$ Table for Endowment Assurances.

Deferred Dividend Policies-
Policies issued on the Deferred Dividend Plan since 1907 receive quinquennial allotments on the same footing as policies subject to ordinary quinquennial distributions, except that the dividends allocated are converted into equivalent larger Deferved Bonuses, vesting as Reversionary Bonuses only on the expiration of the Deferred Bonus period selected. In arriving at such inereased contingent bonuses, the only elements taken into account are Mortality and Interest.

Polieies issued on the Deferred Dividend Plan up to the end of 1907 have been included in one homogeneous series, and treated as a separate and distinet section of the Company's business.

The Assurance Fund for this closed series is credited with the premiums received and with its proportionate share of Interest Income, and is charged with Claims, Matured Endowments, and Surrender Values, and with an estimated proportion of Expense. A separate actuarial valuation of this series is made quinquennially, showing the liabilities and diselosing the surplus belonging to the series. The available surplus is carried to a Bonus Reserve Fund which is contingently and actuarially distributed to the policies in the series. The total Contingent Reversionary Bonus Reserve Fund of this series (Canadian Section) as at 31 st December, 1920, was $\$ 62,581.90$, as the result of the valuation and contingent allotment made.
(c) With refit Annuity Business is not written.

London and Scottisn-Continued.

## MISCELLANEOU'S STATEMENT.

## 1. The calculation of the "Reserve" in the "Statement of Actuarial Liabilities"-

(1) Ordinary Branch.-The valuation of policies was made by grouping the business by plan, year of issue and age, for the more usual plans. In all other cases the policies were valued individually. Valuation ages were taken at nearest birthday for years of issue 1915-1920, inclusive, and age next birthday for business issued previously. Tables of mid-year reserves prepared on the Net Premium basis were used. The valuation bases were Hm . $3 \frac{1}{2}$ per cent for business issued prior to 1 st January, 1907, and Om. (5) 3 per cent for business issued subsequently.

Weekly Premium Branch.-Age next birthday was used throughout, with full Net Weekly Premium mid-year valuation for all plans other than Whole Life and Endowment at 80. For the latter plans the valuation was made on a Terminal Basis. Policies were grouped according to plan, year of issuc and age at issuc. The valuation bases were, Combined Experience Table, $3 \frac{1}{3}$ per cent for business issued prior to 1st January, 1900. Farr's No. 3, 31 $\frac{1}{2}$ per cent for business issued in the years 1900-1915, and Farr's No. 3, 3 per cent for business issued in the years 1916-1920.

Annuities.-Annuities were valued according to the British Offices Select Life Annuity Tables with 3 per cent interest.

## The London Life-Continued.

## MISCELLANEOUS STATEMENT-Concluded.

Special Classes.-
(a) An extra reserve equal to one-half of the extra premium was set up for tropical risks.
(b) Policies issued on rated-up lives were treated as being on lives actually of the rated-up age.
(c) Policies subject to liens were valued in the same manner as if no lien were imposed.
(d) No account was taken in the valuation of extra premiums payable throughout the whole term of the policy. In the case of limited payment policies subject to extra premiums the corresponding equalized extra throughout the whole term of the policy was found as at date of issue and a special reserve made equal to the difference between the present value of the equalized extra and the present value of the full extra payable during the premium period, the basis used incalculating the equalized extra and the special reserve being the Om. (5) Table and 3 per cent interest. There are no policies in force issued subject to a single extra premium.
(e) All policies issued on sub-standard lives are advanced in age, are subjected to a lien, or call for an extra premium.
(f) (1) Before the occurrence of Disability-

Sixty per cent of the premiums paid for disability was set up for the disability reserve.
(2) After the occurrence of Disability-

The only claims were on policies with waiver of premiums benefit. Future premiums waived were valued by disability annuities. In addition the regular reserve on the policy was held.
(g) There are no Annuities on lives classed as under average.
(2) Items of Special Reserve.-
(a) No additional reserve is held under limited premium policies for prepaid loadings.
(b) There are no benefits guaranteed which exceed in value the Net Premium Reserve on the basis of valuation employed.
(c) No special reserve is held on account of lapsed policies but in a general way the Contingent Funds held provide for re-instatement of lapsed policies not coming under the Automatic Premium Loan Provision.
(d) No definite reserve is maintained to cover the option of renewal under Term Policies.
(e) No definite reserve is maintained to cover the option of conversion to a higher premium policy either (1) at the original age of entry or (2) at the age attained at date of conversion.
(f) Reserve for profits accruing on quinquennial dividend policies.................... \& Reserve for profits accruing on Reserve-Dividend Policies issued prior to 1st January, 1911.

53,15600
 220,027 00 Insurance Commissions accruing...

20,000 00
Special Reserve for War and other Claims unreported.
10,00000
II. Where policies are issued at ages higher than the true age the guaranteed values correspond to those at the rated-up age. In case of policies with liens the values are the same as for policies without liens. In the case of policies issued at an extra premium, the values are the same as under the regular premium, except that the extended insurance term is reduced. In the case of policies with Disability Benefits the guaranteed values are the same as for policies without Disability Bencfits.
III. The average rate of interest earned during the year on the mean net ledger assets was $6 \cdot 61$ per cent.
IV. The Distribution of Surplus-
(a) Prior to 1st January, 1911, when the provisions of the New Insurance Act became operative, the Sharcholders of the Company were entitled to a 7 per cent dividend on the Capital Stock Paid-up and 5 per cent of the total profits but not exceeding one-half of one per cent of the subscribed and uncalled Capital The effect of this provision was to make the maximum dividend 9 per cent.

The present by-laws of the Company provide for a continuance of the former regulations so far as the business issued previous to 1st January, 1911, is concerned, and for the years 1911 to 1917, inclusive, only 5 per cent of the share of the profits pertaining to business issued prior to 1st January, 1911, and 10 per cent of the share of the profits pertaining to the business subsequent to that date have been apportioned to the Shareholders' Account, but for the years 1918. 1919 and 1920 only 5 per cent of the total profits distributed was credited to Shareholders' Account.
(b) In the computation of profits distributable to Policyholders, three factors are introduced, Interest Mortality and Loading. Two per cent of the amount of Initial Reserve is the profit allowed on account of Interest. For Mortality the policy is charged with 45 per cent of the Hm rate for the first year, 50 per cent the second, 55 per cent the third, 60 per cent the fourth and 65 per cent for the fifth and subsequent years up to age attained 46, where one per cent is added to the Mortality charge. For each year of age attained greater than 46 one per cent further is added until a 90 per cent charge is reached, which charge remains stationary. For Loading an expense charge on the Gross Premium is made for the first five years ranging from $12 \frac{1}{2} \%+\$ 1.50$ per thousand on the 10 Year Endowment Plan to $15 \%+\$ 1.50$ on the Life Plans. For the second quinquennial period these charges run from $10 \%+\$ 1.00$ to $12 \frac{1}{2} \%+\$ 1.00$. For the third quinquennium, from $9 \%+\$ 1.00$ to $10 \%+\$ 1.00$. After the 15 th year a uniform charge on the Gross Premium of $7 \frac{1}{2} \%+\$ 1.00$ is made for expenses. The difference between the balance of the Gross Premiums after making the above charges and the net $3 \frac{1}{2}$ per cent rate is added to or deducted from the other sources of profit.

For married female risks under 50, an additional charge is made of from $\$ 2.00$ to $\$ 1.00$ per annum per thousand dollars at risk, depending on duration of policy where marriage took place before issue of policy, except for policies issued with lien, when the profit factors are the same as for men.

There is no tontine business on the Company's books except business re-insured. The only policies of such a nature issued are of a special class under which a portion of the ordinary surplus is set aside as additional reserve. The total amount of such reserve converted from surplus is $\$ 920,410$. The factors entering into the computation of profits on Reserve-Dividend Policies are exactly the same as under Quinquennial Distribution policies, suitable factors for terminations by death or otherwise for accumulation between quinquenniums being introduced.

Cash dividends are converted into other forms of benefit on the basis of the net Hm . $3 \frac{1}{2}$ per cent Table.
(c) The Company does not issue Participating Annuities.
$8-12 \frac{1}{2}^{*}$

The Manufacturers Life-Conlinued.

## MISCELLANEOLS STATEMENT.

I. The calculation of the "Reserve" in the "Statement of Actuarial Liabilities"-
(1) Policies have been valued according to the net premium method of valuation. For the purpose of valuation, policies have been brought together in groups according to plan, age at entry, and duration. Age at entry for fixing the premiums and valuation for assurance was age next birthday except for business in Canada after February 8, 1915, in Cuba after January 16, 1912, and all business in the United States where age nearest birthday was taken. For annuities, age at entry was age last birthday. All policies and Annuities were assumed to have been issued in the middle of the calendar year of entry.

Tables of Mortality used in the valuation are as follows:-
For Annuities the British Office Select Life Annuity Table (1893).
For policies on lives resident in temperate countries the Institute of Actuaries Hm Table.
Special C'lasses-
(a) For policies on lives resident in tropical countries the American Tropical Table. For policies on lives resident in Sub-Tropical countries a table based on the mean of the Institute of Actuaries Hm Table and the American Tropical Table. The rate of interest assumed is $3 \frac{1}{2} \%_{\%}$. On account of the Company guaranteeing on certain Policies a surrender value at the end of fifteen years from date of issue equal to the $\mathrm{Hm} 3 \%$ reserve, an additional reserve which is sufficient to provide for the difference between the $\mathrm{Hm} 3 \%_{\%}$ and the $\mathrm{Hm} 3 \frac{1}{2} \%$ reserve at the end of fifteen years has been set aside. Policies coming under this provision consist of all Whole Life and Limited Payment Life Policies at Northern Rates since January 1, 1904.
(b) Policies issued at premiums corresponding to ages higher than the true ages were valued according to the actual age of the Insured for all Policies issued prior to the 11th September, 1918. Such policies issued after that date were valued according to the Rated-Up age.
(c) Policies providing for payment at death during certain periods of an amount less than the full amount of insurance were valued for the full amount of insurance.
(d) In the valuation of policies issued at, or subsequently subject to an extra premium, whether payable (a) in one sum or (b) annually, a reserve equal to one-half of the extra premium was set aside.
(e) Policies are not issued to sub-standard lives except at a rated up age or subiect to a lien.
(f) Policies providing for Disabliity Benefits (1) before occurrence of disability $50 \%$ of the gross premiunus received since the commencement was held as a reserve Liability, (2) After disability has occurred, the Policy is valued as a Paid-Up Policy. The only claims as yet experienced by the Company under the Disability Benefits are those providing for the waiver of premiums only.
(g) No Annuities were issued to lives classed as under average.
(2) Items of Special Reserve-
(a) No extra reserves were maintained under Limited and Single Premium Policies on account of prepaid or limited loadings, nor under immediate annuities to cover future expenses.
(b) All Life and Limited Payment Life Policies issued at Northern Rates since January 1, 1904, guaranteed a Surrender Value at the end of fifteen years equal to the $\mathrm{Hm} 3 \%$ reserve. An additional reserve sufficient to provide for the difference between the $\mathrm{Hm} 3 \%$ and the $\mathrm{Hm} 3 \frac{1}{2} \%$ reserve at the end of fifteen years has been set aside.
(c) No reserve in excess of the eash surrender value is held on account of lapsed Policies not continued in force under Automatic Non-Forfeiture provision but subject to reinstatement.
(d) No reserve is maintained to cover the option of Renewal under Term Policies. The Company's regular Term Policies do not contain the option of renewal.
(e) No reserve is maintained to cover the option of conversion into a higher premium policy: Each case is treated independently as it arises.
( $f$ ) An additional reserve as required by Section 103 (3) of the Insurance Act 1917 was held on all business issued since January 1, 1911, with premium less than $102.5 \%$ of the Om (5) $3 \frac{1}{2} \%$ net premium.
II. Tropical and Sub-Tropical Policies have the same surrender Values as Policies at Temperate Rates. Since the 11th of September, 1918, Policies issued at a higher age than the true age have guaranteed values at the higher age.
III. The average rate of interest earned on the mean net ledger assets was $6 \cdot 62{ }_{c}^{c}$.
IV. The Distribution of Surplus-
(a) The distribution of surplus as between shareholders and policyholders is in accordance with the Company's eharter which provides that the holders of participating policies shall be entitled to share to the extent of not less than $90 \%$ in that partion of the profits set apart for distribution which has been distinguished as having been derived from partieipating policies.
(b) Dividends were calculated by accumulating asset shares by policy years using factors closely approximating the actual experience of the Company. The actual surplus paid or apportioned to policyholders was a determined proportion of the surplus ascertained by deducting the appropriate reserves from the asset shares so determined. In the ease of policies issued at Temperate Rates the following factors were used in computing these asset shares:-Interest 5 per cent; mortality, from 65 to $100 \%$, depending on the age and section under consideration, of the Hm Table of Mortality; and an expense allowance of the difference between the gross premiums and on life plans, 1.075 times the $\mathrm{H}_{\mathrm{m}} 3 \frac{1}{2} \%$ net rate with provision for $3 \%$ at the end of fifteen years; on endowment plans, 1.075 times the $\mathrm{Hm} 3 \frac{1}{2} \%$ net rate.
On Tropical and Sub-Tropical Policies the same bonuses were declared as in the home sections and the cash dividends were the cash values of these bonuses according to the Tropical and Sub-Tropical Table.

The various options were calculated from the cash dividends according to the following tables:-
Policies at Temperate rates, the $\mathrm{Hm} 3 \frac{1}{2} \%$ Table.
"" Tropical rates, the American Tropical $3 \frac{1}{3} \%$ Table.

## MISCELLANEOUS STATEMENT.

I. The Calculation of the "Reserve" in the "Statement of Actuarial Liabilities".
(1) Policies were valued in groups, except certain policies assumed from other companies and special contracts, which were valued seriatim. Premium-paying policies issued in the same year on the same plan of insurance were grouped as to age at issue. Paid-up policies and extended insurance of the same plan and year of expiration or maturity were grouped according to attained age (except as stated below) and valued by applying the proper net single premium for each age. Annuities were valued seriatim by applying the net present value for the attained age. The reserve on group insurance on the one year term plan was taken as one-half of the premium payable (annually, monthly, etc.), hence no age classification was necessary.

Ordinary policies were valued according to "age nearest birthday", at entry, and Industrial policies according to "Age next birthday" at entry. The duration for premium-paying policies was based on calendar years, mean reserves being generally used, so that a policy issued in 1914 was given the seventh year's mean reserve at the end of 1920 ; but Industrial Whole Life policies issued prior to 1907 and certain Industrial term policies assumed from other companies were given terminal reserves, with duration one-half year less than if mean reserves had been used.

Industrial Infantile Whole Life policies issued prior to 1907 were valued as One Year Renewable Term policies during the infantile period, subsequent issues being valued as level premium policies from the date of issue. The larger portion of the reserve on Industrial paid-up policies and extended insurance in force in Canada at the end of 1920 was approximated by grouping such policies by year of maturity or expiry and applying average valuation factors derived from the valuation of the Company's entire business of like character.

The tables of mortality and rates of interest used for valuing the various classes of policies were:
Policies issued prior to 1901 -Combined Experience...........4\% except as follows:
Policies issued after Dec. 31, 1900-American Experience.....3娄\% $\%$
Special class policies issued prior to Jan. 1, 1901, Combined Experience doubled..... $4 \%$
Special class policies issued Jan. 1, 1901-Dec. 31, 1906, American Exp. doubled. $3 \frac{1}{2} \frac{\mathrm{~m}}{\mathrm{~L}} \mathrm{o}$
Special class policies issued after Dec. 31, 1906, Special Class Tables...
Intermediate policies issued after Dec. 31, 1906, Intermediate Tables.................... $3 \frac{1}{2} \%$
Certain Assumed Ordinary pols. issued 1896-1900 inc., American Experience Table... $3 \frac{1}{2} \%$
Certain Ordinary policies assumed or accepted for reinsurance, issued 1895-1920, inc., American Experience Table. $\qquad$
Standard Industrial pols. issued after Dec. 31, 1903, Standard Industrial Table...... $3 \frac{1}{2} \%$
Sub-Standard Industrial pols. issued after Dec. 31, 1906, Sub-Standard Industrial Table $\qquad$
Annuities issued after Dec. 31, 1906, McClintock's Table............................. $3 \frac{1}{2} \%$ \& $4 \%$
Group Insurance valued by applying one-half of gross premiums payable.

## Metropolitan Life-Conlinued.

## MISCELLANEOUS STATEMENT-Continued.

Special Classes-
(b) There were no policies issued at premiums corresponding to ages higher than the true ages, with the possible exception of a few scattering Industrial contracts issued in the carlier years of the Company, or assumed from other companics. It has been the Company's custom to value such policies at the higher age.
(c) Policies issued subject to liens (i.e. "Special Class" policies, on sub-standard lives, issued prior to 1907) were valued for the net amount of insurance, an additional reserve being calculated equal to the single premium for the reductions in liens on account of dividends. Policies assumed from the Pittsburgh Life and Trust Company subject to assumption liens were valued on the basis of the full face of the policy, and an extra reserve was caleulated to cover payment in full of death claims to May 7, 1922.
(d) There were no policies in Canada subject to a fixed extra premium except under group insurance contracts.
(e) For policies issued on sub-standard lives prior to 1907, see (c), above. On those issued subsequent to Jan. 1, 1907, the method of valuation is similar to that used for standard lives, but on tables of mortality based upon sub-standard experience.
(f) Contingent waiver of premium benefits were valued, before occurrence of disability, at the rate of 25 cents per $\$ 1,000$ insurance, which method has been approved by the New York Insurance Department as giving results approximating the value according to Hunter's Disability Table with 3 per cent interest. After occurrence of disability, an actual valuation is made according to Hunter's Table with 3 per cent interest.

Disability benefits consisting of waiver of premium and a disability annuity without reduction of the sum insured, if insured be disabled before age 60, or charge of premiums against policy as a non-interestbearing lien, if disability occur after 60 , were valued according to Hunter's Disability Table with $3 \frac{1}{2}$ per cent. interest. Disability benefits under reinsurances accepted were valued by Hunter's Table with 3 per cont interest.

Group policies on the one-year term plan contain a disability benefit consisting of waiver of premiums and payment of the sum insured by instalments for a term certain. Valuation of group insurance by applying one-half of the gross premiums covers the disability as well as the death benefit: After disability, remaining instalments are valued at $3 \frac{1}{2}$ per cent.

Industrial policies provide, in event of loss of both hands, both feet, one hand and one foot, or blindness, for payment of one-half of the amount of the policy in cash and issuance of paid-up insurance for the halance. For this liability the Company set up a reserve to cover one-half the estimated cost for 1921, based on the experience of 1920 .
(g) No annuities were issued to lives classed as under average.
(2) Items of Special Reserve-
(a) No special reserve is maintained under limited payment and single premium policies on account of prepaid or limited loadings, nor under immediate annuities to cover future expenses.
(b) There are no guaranteed benefits under the Company's contracts which exceed in value the net premium reserve.
(c) No special reserve is held to cover the option of reinstatement under lapsed policies not continued in force under automatic non-forfeiture provisions, but being subject to reinstatement.
(d) No reserve is maintained to cover the option of renewal under term policies.
(e) No additional rescrve is maintained to cover the option of conversion into higher premium policies.
( $f$ ) There are no other items of special reserve, other than those above specified, except the additional reserve required under Sec. 103 (3) of the Canadian Insurance Act, 1917, on the Company's Ordinary Whole Life policies.
I I. Guaranteed Values under Special Classes of policies described in I (1).
(b) The guaranteed values under policies formerly issued at premiums corresponding to ages higher than the truc ages are the same as in policies regularly issued at the higher age.
(c) In "Special Class" policies on sul-standard lives issued prior to 1907, subject to liens, the values are calculated upon the net amount of insurance, i.e., face of policy less amount of lien outstanding. In policies assumed from the Pittsburgh Life and Trust Company subject to assumption liens, the lien is deducted from the cash surrender value when cash values, paid-up insurance and extended insurance are granted.
(e) For policies issued on sub-standard lives prior to 1907, see (c), above. For those issucd subsequent to January 1, 1907, the method of calculating the guaranteed values is similar to that used for standard lives, but tables of mortality based upon sub-standard experience are used.
(f) Where total and permanent disability occurs under policies with contingent waiver of premium benefits, or waiver of premiums and a disability annuity without reduction of the sum insured, the guaranteed values apply exactly as if disability had not occurred. Under certain reinsurance accepted, where disability instalments are deducted from the sum insured, the guarantced values are reduced proportionately.
Paid-up insurances issued under the total and permanent disability concession in Industrial policies are allowed the same values as similar paid-up policies granted under non-forfeiture provisions.
III. The average rate of interest earned during the year on the mean net ledger assets of the company as a whole was $5 \cdot 05$ per cent.
IV. The IDistribution of Surplus-
(a) The Company is purely mutual and there are therefore no dividends to sharcholders.
(b) Dividends for 1920 were calculated as follows:

## SESSIONAL PAPER No. 8

## Metropolitan Life-Continued.

## MISCELLANEOUS STATEMENT-Concluded.

## Ordinary Policies-

Annual dividend of 1920, on premium-paying Whole Life policies issued from May 1, 1909, to December 31. 1915, inclusive, consisted of the following two parts:
(1) A refund to the insured of part of the premium paid in the preceding year from the savings which the Company had made during the policy year and (2) excess of interest on the reserve.
The refund of premium was the difference, adjusted to provide for the contingency reserve, between the stipulated annual premium and the annual premium required according to the Company's own mortality experience.
The rate of interest used was 4.25 per cent so the excess was 0.75 per cent.
On Whole Life policies issued from July 1, 1916, to December 31, 1918 inclusive, dividends were paid to equalize the premiums on corresponding policies issued prior to July 1, 1916.

Intermediate Policies (issued in units of \$500)-
The annual dividend of 1920 , paid on premium-paying policies issued from 1896 to 1906 inclusive; was calculated by a method similar to that used for Ordinary Whole Life policies issued from May 1, 1909 to December 31, 1915, above described. The excess interest was 0.25 per cent. for 4 per cent reserve policies and 0.75 per cent for $3 \frac{1}{2}$ per cent reserve policies. On paid-up policies the annual dividends consisted solely of the excess interest on the reserve.
"Special Class" policies (issued on Sub-Standard risks)-
Annual dividends of 1920 on Special Class Intermediate policies issued from June 1, 1899 to December 31, 1905, were the same as on regular Intermediate policies of the same class and duration.
A special dividend was paid in 1920 on Special Class Intermediate policies issued from 1899 to 1905 equal to the difference between the dividends paid in 1919 and the dividends that would have been paid had the 1920 scale been in effect.
Annual dividends on Special Class Ordinary policies issued from June 1, 1899, to December 31, 1906, were principally on the basis of caucelling the lien within twenty years.
No dividends were paid in 1919 on Special Class Ordinary policies issued from June 1, 1899 to December 31, 1906 (except on a few Optional Life or Endowment policies issued in 1899, and calling for a settlement during the year 1919) and a special dividend was paid in 1920 equal to the dividends that would have been paid in 1919 had the 1920 scale been in effect.

## Covenant Mutual and Vermont Life Policies-

These are assumed policies, and special methods were adopted in the calculation of dividends. There are very few of these policies in Canada.

## Mortuary and Maturity Dividends-

On Ordinary and "Special Class"' policies on which not less than six years' premiums had been paid, maturing in 1920 as death claims or endowments, an additional dividend was paid, based on the contingency reserve. A similar dividend was paid on Intermediate policies maturing as death claims or endowments, on which not less than nine years' premiums had been paid.

## Application of Dividends to Paid-up Insurance, etc.-

When paid-up insurance was allowed, the amount was such as the cash dividend would purchase, based on the standards adopted by the Company for use in the particular branch. The dividends were not applied toward the reduction of the premium-paying term or toward the shortening of the endowment period.
(c) Annuities-

Annuities are non-participating.

SUMMARY OF RESERVE.

## The Monarch Life--Continued.

## MISCELLANEOUS STATEMENT.

1. The calculation of the "Reservc" in the "Statement of Actuarial Liabilities."
(1) Policies were valued individually from tables of net premiums and terminal reserves. For each policy there were entered the net premium and the terminal reserves for durations $n$ and ( $n+1$ ) years where $n$ is found by subtracting the year of issue from the year of valuation. The mean reserve was calculated from totals of the above items. The age used in fixing the premium was taken as the age next birthday, for all policies issued prior to August 1914, and the age nearest birthday for policies issued after that date. All business, both participating and non-participating, was valued on the Om (5) table with $3 \frac{1}{2} \%$ interest.
special Classes-
(a) No policies have been issued on lives resident in tropical or sub-tropical countries.
(b) Policies issued at premiums corresponding to ages higher than the true ages were valued at the age used in determining the premium.
(c) Policies subject to a lien were valued on same basis as if there had been no lien.
(d) In valuation of policies subject to an extra premium, the extra premiums were disregarded.
(e) All other policies issued on sub-standard lives were valued as policies on standard lives.
(f) In the valuation of policies providing for total disability benefit (waiver of premium or sum assured payable in instalments) additional reserves were included before occurrence of disability, being on the basis of $17 \frac{1}{2}$ c. per thousand; and for disability benefit providing waiver of premium and an annuity without reduction of sum assured, a reserye was included equal to one-half of the annual premiums charged. The Company has had no claims under disability benefits.
(g) The Company has issued no annuities to under-average lives.
(2) Items of Special Reserve-
(a) No reserve is held under limited or single premium policies on account of prepaid or limited loadings.
(b) Additional reserves were provided for the excess of guaranteed benefits over the net premium reserve on the basis of the valuation employed.
(c) No reserve is held on account of lapsed policies subject to reinstatement.
(d) and (e) No reserve is maintained to cover the option of renewal or conversion under term policies.
(f) There are no other items of special reserve.
II. Policies issued at premiums corresponding to ages higher than true ages have guaranteed values corresponding to age at which premium is calculated. For other special classes the values are same as under ordinary contracts.
III. The average rate of interest earned during the year on the mean net ledger assets was 7.60 per cent. IV. The matter of distribution of surplus is being dealt with at the present time.

## DEFERRED DIVIDEND POLICIES.

Issued prior to January 1, 1911. No profits have as yet been contingently apportioned thereto.

Issued on and after January 1, 1911. No profits have as yet been credited thereto.

## SESSIONAL PAPER No. 8

# The Mutual Life of Canada-Continued. 

## SUMMARY OF RESERVE.

## MISCELLANEOUS STATEMENT

I. The calculation of the "Reserve" in the "Statement of Actuarial Liabilities"-
(1) Annuities were valued individually, the valuation age being the office age at entry plus the exact duration. The basis of valuation is $\mathrm{O}(\mathrm{am})$ and $\mathrm{O}(\mathrm{af})$ at $3 \frac{1}{2} \%$ prior to Jan. 1, 1903 and at $3 \%$ thereafter. Policies of assurance issued in the same year at the same age and on the same plan were grouped, and the value was taken as the tabulated net premium reserve at duration $n+\frac{1}{2}$, where $n$ is equal to the difference between the calendar years of valuation and issue, the age being taken as the office age at entry. The office age at entry is at present "age nearest birthday," but prior to June 1914 the office age was "age next birthday" unless the application was completed within two months after a birthday, in which case the age at such birthday was used. The basis of valuation is Om (5) $3 \frac{1}{2}$ C/c prior to Jan. 1, 1903 and Om (5) $3 \%$ thereafter.
Special Classes-
(a) Policies issued on lives resident in tropical or sub-tropical countries were valued on the same basis as ordinary policies.
(b) Policies issued at premiums corresponding to ages higher than the true ages were valued at the higher ages.
(c) Policies providing for payment at death during certain periods of an amount less than the fulf amount of insurance, being policies subject to liens, were valued for the full face value, just as if no lien had been imposerl.
(d) No extra reserve was held on policies under which an extra premium, either single or annual, is payable.
(e) Policies issued on plans different from that applied for were, of course, valued on the plan issued.
(f) On policies providing for disability benefit an extra reserve was held, as follows:
(a) Before occurrence of disability-

An extra reserve was held equal to the amount held at the end of 1918 plus one year's interest at
$3 \%$ and plus the extra premiums (less commissions) received in 1920, less the reserve transferred for cases which became disability claims in the year.
(b) After occurrence of disability-
(1) Waiver of premium-

Extra reserve held equal to the present value of the gross premium by Hunter's Disability Table 3\%.
(2) Instalment payments-

One twentieth of face amount each year. Total reserve equal to present value of the instalments at $3 \%$.
(3) Instalment payments reducing sum assured-

The full amount at risk was held as a liability in the reserves.
(4) Waiver of premiums and monthly annuity-

Extra reserve held equal to the present value of the gross premium and the annuity payments by Hunter's Disability Table $3 \%$.
(g) No annuities are issued to lives classed as under-average.
(2) Items of Special Reserve-
(a) No extra reserve is held under limited or single premium policies on account of prepaid or limited loadings, nor under immediate annuities to cover future expenses.
(b) The only cases where the guaranteed values exceed the net premium reserve held are where the Hm reserve exceeds the On (5) reserve, and in such cases no extra is held.
(c) On lapsed policies issued prior to the adoption of the nonforfeiture privilege and which are subject to reinstalment, the full Om (5) $3 \frac{1}{2} \%$ reserve is held as at the current policy year, less any balance of unpaid premium for such year. On lapsed policies containing the nonforfeiture privilege but which have not been three years in force no reserve is held at end of year.
(d) No renewable term policies in force.
(e) No extra reserve is held to cover the option of conversion into higher premium policies either as from original age or at attained age.
( $f$ ) On Contingent Additions and Pure Endowments the full net premium reserve is held, based on the same tables as for policies of assurance referred to in I (1).

## Tife Mutual Life of Canada-Continued.

## MISCELLANEOUS STATEMENT-Concludd.

II. The Guaranteed Values in the classes referred to in 1 above were granted as follows:
(1) (a) Same eash and paid-up values as for ordinary policies, but no extended assurance.
(1) (b) Same cash and paid-up values as for a policy at the rated up age, also the same extended assurance values where this feature is not eliminated.
(1) (c) Same values as for regular policies except that the extended assurance is usually deleted.
(1) (d) Same values as for regular policies but extended assurance is usually deleted.
(1) (e) Regular values on restricted plan but rarely is the extended assurance feature granted.
(1) ( $f$ ) No extra values on account of the disability benefit.
(1) (g) None in force.
III. The average rate of interest earned during the year on the mean net ledger assets was 6.41 per cent.
IV. The Distribution of Surplus-
(a) The surplus all belongs to the policyholders.
(b) (1) Annual Dividends-

On business prior to 1891 these were determined from the three factors, mortality, interest and loading, the factors being respectively $15 \%$ of the cost of insurance on the Om (5) $3 \frac{1}{2} \%$ table, $\cdot 75 \%$ of the initial reserve by the said table, and $20 \%$ of the excess of the gross premium over the net premium by the said table.

On annual business subsequent to January 1, 1911, the same formula was used but the reserve basis used was $3 \%$ and therefore the cost of insurance and the loading were based on this table and the interest factor was changed from $\cdot 75 \%$ to $1 \%$.

These dividends were converted into paid-up assurance by using a single premium at the attained age taken from the $\mathrm{Om}(5)$ table on which the reserves were held, loaded by dividing by 98 .

In the reduction of the premium term the annual dividends are accumulated until this accumulation, with the reserve held by the Company on such policy is equal to the net single premium at the attained age of the assured according to the table upon which the said reserves are based; or if the said accumulation, with the reserve, equals the face of the policy, the sum assured is paid in eash as an Endowment.
(2) Quinquennial Dividends-

For business after January 1, 1903, the annual dividends as per previous paragraph were accumulated at $5 \%$ interest. For business prior to 1903 the accumulation was at the same rate, but, in obtaining the annual dividends the 0 m (5) $3 \frac{1}{2} \%$ table was used, and the interest factor was reduced to $.75 \%$ of the initial reserve, while the loading and mortality factors remained constant but applied to the $3 \frac{1}{2} \%$ table.

Quinquennial dividends were converted into a reduction of premiums for the ensuing five years by dividing the full dividend, as obtained above, by a 5 year temporary annuity due at the attained age of the assured and according to the Om (5) table with interest at $3 \frac{1}{2} \%$ or $3 \%$, according as the policy was issued prior or subsequent to January 1,1903 ; to obtain the bonus addition the quinquennial dividends were divided by the single premium at the attained age by the same table as was used to obtain the premium reduction, loaded by dividing by $\cdot 98$.
(3) Deferred Dividends-

Prior to 1914 the dividends were allotted quinquennially and were accumulated at $5 \%$ interest with benefit of survivorship. Since 1914 the allotment has been made on an annual basis, beginning from the date of the last full quinquennial dividend allotment prior to 1914, and the accumulation has been at $5 \%$ as before with benefit of survivorship.

The Survivorship Distribution dividends were converted into paid-up assurance on the same basis as referred to in 4 (b) (2), and into Life Annuities at our present rates.
(4) The eash value of Bonus Additions is the full reserve on the Company's basis.
(5) Policies on lives resident in Tropical or Sub-tropical countries and policies with extra premiums get the same dividends as policies issued at ordinary rates.
(c) Annuity contracts are non-participating.

## The Mutual Life and Citizens'-Continued.

## MISCELLANEOUS STATEMENT

I. The calculation of the Reserve in the "Statement of Actuarial Liabilities":-
(1) Ordinary Branch policies of the same plan were grouped at individual ages, except for infantile policies (deferred assurance and deferred endowment assurances for children under ten years old) where all were grouped and valued at one age. Industrial policies were grouped in quinquennial or decennial age groups at issue.

The rate of interest used was $3 \frac{1}{2}$ per cent, and the table of mortality Om (5).
The valuation age follows the age next birthday, the duration being $N+\frac{1}{2}$ where $N$ is the curtate duration. Bonus additions were valued at nearest attained age.

A few Industrial policies of a special class issued outside and transferred to Canada, were valued by accumulation of the premiums.
Special Classes:-
(a) There is one policy on the life of a resident of Cuba for which an extra reserve has been made equal to the difference between the rate charged and the tabular rate.
(b) Policies issued at premiums corresponding to ages higher than the true ages were valued at the higher ages.
(c) Policies subject to liens were accorded full reserve.
(d) The option of paying an extra premium was allowed on certain policies issued to men liable to military service, but in no case was the option exercised, so no extra reserve was made for those cases.
(e) A few applicants for whole-life policies were offered and accepted double endowment policies. Valued as other double endowments.
(f) Policies with disability benefits in the Industrial Branch were given the usual full reserve. There are none in the Ordinary Branch.
(g) There are no annuities.
(2) Items of Special Reserve-No special reserves are maintained.
II. No special modifications have been made in the guaranteed values of "special class" policies.
III. The average rate of interest earned during the year on the mean life insurance fund of the Company as a whole, was 4.813 per cent.
IV. The Distribution of Surplus:-
(a) Eighty per cent of the Ordinary Branch profits distributed is apportioned to participating policies, and twenty per cent to shareholders. The Industrial Branch is non-participating.
(b) Dividends to policyholders are alloted as reversionary bonuses by way of a percentage on the sum assured varying with class and duration. For policies not more than four years in force the present scale of bonus addition is $\$ 13$ per thousand for each year on life and limited payment life policies and $\$ 11$ per thousand for each year on endowment policies. After the policy is three years in force the reversionary bonuses may be surrendered for cash by being discounted by the Hm. reversion at four per cent interest. There are no deferred dividend policies.
(c) There are no annuitants in Canada.

The Mutual Life of New York-Continued.

## MISCELLANEOUS STATEMENT.

I. The calculation of the "Reserve" in the "Statement of Actuarial Liabilities"-
(1) Both policies and annuities were valued in groups on the following bases: Insurance:
American table with interest at $3 \frac{1}{2} \%$ for policies issued prior to January 1, 1907.
Anerican table with interest at $3 \%$ for policies issued after December 31, 1906.
Annuities:
MeClintock table with interest at $3 \frac{1}{2} \%$ for annuities issued prior to January 1, 1907.
MeClintock table with interest at $3 \%$ for annuities issued after December 31, 1906.
Additional reserve for Waiver of Premium and Income in Event of Permanent Disability Oceurring
Prior to Age 60; Hunter's Disability Table with interest at $3 \%$.
Policies were grouped by year of issue and sub-divided according to kind of policy and age at issue.
The amount of insurance on each group was valued by a mean reserve table; in other words, the value of the sum insured and the value of the future net premiums were not calculated separately.

Annuities were grouped according to year of birth.
Special C'lasses-
(a) No Canadian policies were issued on lives resident in tropical or semi-tropical countries. The Company at one time issued policies in Mexico and Cuba at semi-tropical and tropical rates.
The reserves for policies issued at semi-tropical rates are calculated by the Sesqui American Table of Mortality, and the reserves for policies issued at tropical rates are calculated aceording to the Double American Table of Mortality, unless in either case normal reserves are greater.
(b) No policies were issued at rated up ages.
(c) No policies were issued with liens.
(d) Reserves for policies issued with a fixed extra premium payable annually were calculated as if such extra net premium were not payable; in other words, the extra net premium was considered as being required to cover the extra risk run in the year. No policies were issued with fixed extra premium payable in one sum.
(e) The Company does not issue policies except at standard rates.
(f) The Company issues policies providing for a Waiver of Premium only, and other policies providing for Waiver of Premium and an income during disability. The reserves for all such policies are calculated according to the Hunter Disability Table with interest at $3 \%$. (a) Before oceurrence of disability the reserve held is the normal reserve by said table. (b) Thereafter, the reserve is increased to the reserve for the immediate benefit granted-all according to said table and rate of interest.
(g) No annuities were issued to lives elassed as under-average.
(2) Items of special reserve-
(a) No additional reserve is held under limited Payment or Single Premium policies. No additional reserve is held under immediate annuities to cover future expenses. The net reserves only are held.
(b) In the years 1898 to 1906 , both inclusive, certain policies were issued with cash values in exeess of the tabular American $3 \frac{1}{2} \%$ Reserves. Additional reserves are held to enable the Company to pay such cash values.
(c) No reserves are held on account of lapsed policies.
(d) The only renewable term policy issued by the Company is the Yearly Renewable Term policy. No additional reserve is maintained to cover the right to renew.
(e) No reserves are maintained to cover the option of conversion into higher premium policies. The right to change from original date is granted only where the difference of premium with interest thereon will make good the reserve.
II. No policies are issued in Canada at tropical or semi-tropical rates. As stated in answer 1-(a), at one time the Company issued policies at semi-tropical and tropical rates in Mexico and Cuba. The Cash and Paid-up values of such policies most recently granted were the same as the cash and paid-up values of similar policies issued in the United States and Canada. The extended term insurance was for a shorter period, allowance being made in the calculation thercof for the higher semi-tropical and tropical rates, etc.
III. The average rate of interest earned by the Company as a whole was $4.481 \%$.
IV. The distribution of surplus-
(a) No shareholders; all surplus belongs to polieyholders.
(b) Dividends are not applied in reduction of all future premiums. (This statement pertains both to "premium reduction" and "reduction of premium term"). Paid-up insurance is purchased on" net American $3 \%$ basis. Dividends are not applied to reduce the endowment period.
Annual Dividends: Annual dividends are payable on policy anniversaries commeneing at the end of first policy-year (allotment of dividend at end of first policy-year is contingent upon payment of second year premium), and consist of two parts; (1) excess interest on initial reserve for the policy-year, the reserve being the American $4 \%, 3 \frac{1}{2} \%$, or $3 \%$ reserve, according to whether the policy was issued prior to Jan. 1, 1898, in one of the years 1898 to 1906 , inclusive, or after 31st December ,1906, and (2) a refund to the insured of that part of the premium, paid one year earlier, which the Company has been able to save during the policy-year, the refund being calculated as a percentage of the loading contained in the "tabular annual premium", the percentage used for dividends payable 1920 being $58 \%$ for policies issued in the years 1919 to 1907 , inclusive, $(53 \%$ in the case of Term policies) $62.5 \%$ for those issued in $1906,64 \%$ for those issued in $1905,65 \cdot 5 \%$ for those issued in $1904,67 \%$ for those issued in $1903,68.5 \%$ for those issued in $1902,70 \%$ for those issued in $1901,71.5 \%$ for those issued in $1900,73 \%$ for those issued in $1899,74.5 \%$ for those issued in $1898,87 \%$ for those issued in 1897 , and increasing $2 \%$ for each year's earlier issue.
The rate of interest used in the dividend calculations of 1920 was $4 \cdot 2 \%$, the exeess being $0.2 \%$ for $4 \%$ eserve policies, $0.7 \%$ for $3 \frac{1}{2} \%$ policies, and $1.2 \%$ for $3^{\%}$ c policies.

## SESSIONAL PAPER No. 8

## The Mutual Life of New York-Continued.

## MISCELLANEOUS STATEMENT-Concluded.

Deferred Dividends for $5,10,15$ and 20 year periods are computed as follows:-(1) the annual dividends which the policy would have received had it been an annual dividend policy are taken, (2) these annual dividends are accumulated at compound interest, at the various rates used in the dividend calculations each year, up to the end of the dividend period, (3) the accumulated amount of these annual dividends is increased by a percentage, varying with the age of the insured, to recompense the policyholder for the risk he has run, and which he would not have run had the policy been an annual dividend policy, of losing surplus through death, discontinuance or otherwise, and (4) in the case of those 15 -year distribution policies issued in the year 1905, and 20-year distribution policies issued in the year 1900 where the policy guarantees a cash value at and after the end of the distribution period in excess of the tabular American $3 \frac{1}{2} \%$ reserve, the amount so found is reduced by the excess of such cash value over such reserve.
Subject to evidence of insurability satisfactory to the Company and to an agreement on behalf of the policyholder to a corresponding reduction in the policy guarantees at and after the end of the distribution period, the holder of each such 15 and 20-year distribution policy referred to in (4) was given an additional dividend in 1920 equal to the reduction already made in calculating the dividend. (See Dividend Schedule).
All deferred dividends are payable on the policy anniversary at the end of the deferred period if the. policy is then in force, but not otherwise.
(c) This Company does not issue participating annuities.

## SUMMARY OF RESERVE.

## MISCELLANEOUS STATEMENT.

I. The calculation of the "Reserve" in the "Statement of Actuarial Liabilities"-
(1) Assurances were valued according to the full net level premium method of valuation, tables of mid-year Policy values being used. For the purpose of valuation the Policies have been grouped according to plan, year of issue and age at entry. The age at entry for valuation purposes is the same as the age used in determining the Premium. The valuation of policies was based upon the British Offices Om (5) table of Mortality with interest at $3 \frac{1}{2}$ per cent for participating Policies and the Hm Tables of Mortality with interest at $3 \frac{1}{2}$ per cent for Non-participatirg Folicies. There is coly ore annuity and it was valued at age last birthday at date of Valuation. The Table used was the British Offices' Select Life Annuity Table, 1893, with interest at $3 \frac{1}{2}$ per cent.
Special Classes-
(a) Policies issued on lives resident in tropical or sub-tropical countries at rates of premium greater than the regular Canadian rates have a reserve respectively: $1 \frac{1}{2}$ times and $1 \frac{1}{4}$ times the ordinary Om (5) Reserve Values. If rates are same as regular rates then the usual reserve is used.
(b) Policies issued at premiums corresponding to ages higher than the true age were valued at the rated up age.
(c) Policies issued subject to liens were valued for full amount of insurance.
(d) Policies issued at a fixed extra premium were valued as though issued at ordinary rates.
(e) Policies issued in any other way to substandard lives were valued as though issued on regular plan.
(f) On policies providing for disability benefits an extra reserve was held as follows:
(1) Before occurrence of disability:-
(a) Where the benefit was the waiver of premiums only, no extra reserve was held.
(b) Where the benefit was the waiver of premiums and an annuity during disability-without reduction of sum assured, if disability occurs before age 60, an extra reserve was held equal to 50 per cent of the disability premiums.
(2) After occurrence of disability:-
(a) Where the benefit is waiver of premiums only-Policy is valued as a paid-up contract.
(g) No annuities have been issued to lives classed as under-average.
(2) Items of Special Reserve-
(a) No extra reserve is held under limited and single premium policies on account of prepaid or limited loadings.

## The National Life of Canada-Continued.

## MISCELLANEOUS STATEMENT-Coneluded.

(b) The difference between the guaranteed surrender value and the net premium reserve is treated as a pure endowment, and a sufficient additional reserve is maintained to provide therefor.
(c) No reserve is held to cover the option of reinstatement under lapsed policies not continued in force under Automatic Non-forfeiture provisions.
(d) No extra reserve is maintained to cover the option of renewal under renewable term policies.
(e) An extra reserve of $\$ 2$ per thousand per year is maintained to cover the option of renewal at the end of five years under Five Year Combined Option Policies which are renewable on life and endowment plans at the attained age at date of conversion.
II. Cash Surrender Value, Paid-up Insurance, Extended Term Insurance and Automatic Non-forfeiture in respect of "special class" policies are the same as for ordinary policies except as follows:-
(b) Under folicies issued at ages higher than the true age, the values are those corresponding to the rated up age.
III. The average rate of interest earned during the year, on the mean net ledger assets was $5 \cdot 79$ per cent. IV. The Distribution of Surplus-
(a) The Policy-holders receive $90 \%$ of the surplus earned on participating policies, and the shareholders $10 \%$. The Shareholders are entitled to the full surplus derived from the Non-participating Policies.
(b) For Quinquennial dividend policies a two-factor contribution method has been adopted, using (1) excess interest earned upon the reserve value of the Policy of $1 \%$ for the first Policy year and $1 \frac{1}{4} \%$ for subsequent years, and (2) the balance of loading, after deducting an expense charge varying from $12 \%$ to $17 \frac{1}{2} \%$ (according to age) on the life plans, and on the twenty year endowment plan an expense charge of $14 \frac{1}{4} \%$ for all ages, for the second and subsequent policy years. The surplus at the credit of the policy at the beginning of the year was accumulated during the year at a rate of interest of $5 \%$.
For Deferred Dividend policies the dividends were computed by a modified "asset share" method, by which a certain percentage of the premium was deducted for expenses, the percentage varying with the plan and except for endowments of specified terms, with the age also. On the Ordinary Life plan the percentage decreased from 32 per cent at age 20, to 27 per cent at age 55 . For Limited Payment Life policies the percentage was taken constant for all ages, being $21 \frac{1}{2} \%$ for Ten Payment Life, $22 \%$ for Fifteen Payment Life and $26 \%$ for Twenty Payment Life. In the case of Endowment Policies $16 \%$ was used for Ten Year Endowments at all ages; for Fifteen Year Endowment the expense charge varied from $20 \%$ at age twenty to $21 \frac{1}{2} \%$ at age fifty-five, and for Twenty Year Endowment the rate varied from $25 \%$ at age twenty to $26 \%$ at age fifty-five. The Mlortality allowed in every case was 80 per cent of the Om (5) Tables, for ages 20 to 50 inclusive, and an increase of $1 \%$ for each age up to 90 per cent at age 60 and over. Interest was computed at 5 per cent throughout. A Valuation of the Deferred Dividend Policies was then made on the basis of these "Standard Asset Shares", the total compared with the actual funds at the credit of the Policies, and by this means the fund at the credit of individual policies was ascertained.
In the case of Five Year Dividend and Deferred Dividend Policies, the bonus addition is the amount of paid-up insurance which the cash profits will purchase according to the $\mathrm{Hm} 3 \frac{1}{2} \%$ Tables of net premiums and the temporary reduction of Five Year Dividend policies is the annuity which the cash profits will purchase according to the Om (5) Table with $3 \%$ interest.

## MISCELLANEOUS STATEMENT.

I. The calculation of the "Reserve" in the "Statement of Actuarial Liabilities"-
(1) The reserves on policy and annuity contracts are calculated in groups. The grouping covers the year of issue, the age at issue, and the plan of insurance in a way that forms groups which are homogeneous. The age at which the net valuation premium is taken is the age at the nearest birthday at entry for assurances and the age at the last birthday for annuities. The duration is the number of full years having elapsed between the year of issue and the year when the reserve is computed, plus a half year. The method of valuation is the same for all classes.
Special Classes-
(a) Policies issued at the "Semi-Tropical" and "Tropical" scales of premium were valued by hypothetical tables of mortality representing at each age one and one-half times and twice the American rate of mortality respectively. These tables are known as "Sesqui American" and "Double American".
(b) Policies issued at premiums corresponding to ages higher than the true ages were valued at the higher age.
(c) The reserve used on policies providing for payment at death during certain periods of an amount less than the full amount of insurance, being policies subject to lien is that for a policy with a lien equal to the Company's published single premium for life assurance at the insured's age at issue, such lien decreasing each year by the annual premium paid. The basis of the reserve is the Double American Mortality Table and $3 \%$ interest. No policies with lien have been issued by the Company since December 31, 1906.
(d) For policies issued in 1920 with a single extra premium an extra reserve of one-half the premium is held. For prior issues the Company does not carry a specific reserve, as the additional hazard is covered by the Contingency Reserve and as the extra hazard generally lasts for one year only. For policies issued with an annual extra premium one-half the net extra premium for the current year is reserved. In certain countries, however, including Canada, where a war risk extra is charged, the excess of the war extra premium over death losses due to warfare is returnable; the reserve carried is such extra premiums less war losses, but not less than one-half the extra premium for the current year.
(e) Policies issued on sub-standard lives and placed in the Adjustable Accumulation Class are for the most part valued on the Double American Table of Mortality with $3 \%$ interest. A few of those issued prior to 1904 and all policies in the Intermediate Accumulation Class are valued on the Sesqui American Table of Mortality with $3 \%$ interest.
$(f)$ Under policies providing for disability benefits (waiver of premium and other benefits), the benefits are valued before the occurrence of disability at the standard adopted, by the Insurance Department of the State of New York, viz.: "Hunter's Disability Tables" at 3\% interest. After disability the additional liability incurred is valued by the same tables.
(g) The Company charges the same scale of premiums to all annuitants and does not grant special rates to lives classed as under average.
(2) Items of special reserve-
(a) A reserve of $\$ 870,000$ is carried for future expenses on paid-up annual dividend policies and on single premium policies. As the basis of the considerations for annuities is $3 \%$ interest, the excess of interest earnings over $3 \%$ provides for the expenses after the first year.
(b) The guaranteed benefits do not exceed in value the net premium reserve on the basis of valuation employed.
(c) A reserve of $\$ 517,943.70$ is held on account of policies cancelled, upon which a surrender value or reinstatement may be demanded as follows: (1) $\$ 174,800.70$ on account of policies in foreign countries surrendered ior their cash surrender values and awaiting Government action before payment. (2) $\$ 93,143$ on account of cancelled policies issued many years ago, where claims may arise on account of the deaths of the insured. (3) $\$ 150,000$ on account of lapsed policies which may be reinstated. (4) $\$ 100,000$ on account of policies issued in the Baltic States and certain Polish policies not restored The amounts under (2) and (3) are based on the Company's experience.
(d) No renewable term policies have been issued since 1909. On policies issued prior a deduction is made from the dividend to provide for the option of renewal and the amount of such deductions is carried in the contingency reserve.
(c) The privilege of conversion to higher-priced plans has not been given where selection can be practised against the Company by poor risks, hence a reserve to cover the option of conversion is not necessary.
(f) The Company has also set aside a special reserve of $\$ 2,250,000$ for net death losses incurred but unreported; a Security Fluctuation and General Contingency Fund of $\$ 47,262,456.96$; Annual Dividend Equalization Funds of $\$ 1,969,937$, and a reserve of $\$ 5,753,193$ for Nylic contracts to cover future payments to agents under certain contracts.

## New York Life-Continued.

## MISCELLANEOUS STATEMENT—Continued

II. (a) There is substantially no difference between the cash surrender and paid-up values for tropical and sub-tropical policies and for correspording insurance under domestic policies. Under tropical policies the term extension values are about one-half and under sub-tropical policies about threefourths of the term extension under corresponding domestic policies.
(b) The eash surrender, paid-up, and term extension values under policies issued at premiums corresponding to ages higher than the true age are calculated at the higher age.
(c) No policies providing for payment at death during certain periods of an amount less than the full amount of insurance, being policies subject to lien, have been issued by the Company since 1906 . There is substantially no difference between the cash surrender and paid-up values now available under such polices and those available on corresponding insurance in the standard class.
(d) The eash surrender, paid-up and term extension values on policies issued at, or subsequently subject to, an extra premium are the same as for similar policies where no extra premium is charged.
(e) The eash surrender and paid-up values now available on Intermediate Accumulation Policies and on Adjustable Accumulation Policies without lien do not differ materially from those of similar policics in the Standard class. The term extension values of Intermediate Accumulation Policies are about three-fourths and of Adjustable Accumulation Policies without lien about one-half the term extension of similar policies in the Standard class.
(f) The cash surrender, paid-up and term extension values for policies providing for disability benefits are the same as for corresponding insurance without disability benefits.
III. The average rate of interest earned during the year on the Company's ledger assets was $4.781 \%$.
IV. The distribution of surplus-
(a) There are no shareholders. The Company is purely mutual.
(b) Synopsis of Methods of Calculating Dividends.
(1) Contribution Annual Dividend Policies.

The Company's rule of apportionment is in accordance with the principles and methods described in a paper by Rufus W. Weeks, entitled "A Practical Rule for Calculating Annual Dividends", and published in the Transactions of the Actuarial Society of America. On policies completing their first insurance year in 1920 , no dividend was earned or was apportioned by the Company as payable in 1920. On policies completing their second or subsequent insurance year in 1920 , the dividend declared was $90 \%$ of the "Normal Renewal Surplus". The "Normal Renewal Surplus" consists of two parts, (1) the year's saving from loading, being the excess of the loading over the expense charge for the year ( $11 \cdot 25 \%$ ), increased by a year's interest, and (2) the year's profit from interest, obtained by applying the excess of the net effective rate of interest for the year ( $4 \cdot 2 \%$ ) over $3 \%$ to the mean reserve.

The Company's experience with Contribution Annual Dividend policies has developed certain minor sources of surplus in addition to the two main sources included in the regular dividends. These minor sources of surplus include economy in acquisition expenses combined with surplus arising from discontinuances and from favorable mortality.

Extra dividends, payable in 1920, were accordingly declared, as follows: (a) $10 \%$ of the premium at the Domestic Annual Rate on Contribution Annual Dividend Policies, dated 1915, on which five years' premiums have been paid; (b) $\$ 8$ per $\$ 1,000$ of insurance on Contribution Annual Dividend Policies, dated 1910, remaining in force at the end of the 10th policy year, provided that in any country engaged in war death losses due to war be charged against such extra dividends applicable to policyholders in that country.
(2) Seven-Year Equalization Policies with Yearly Distribution.
"General" Class Policies.
The annual dividend declared in 1920 was $85 \%$ of the "Normal Renewal Surplus" based on an interest rate of $4 \cdot 2 \%$ and a renewal expense ratio of $11 \cdot 25 \%$

## "Select" Class Policies.

The annual dividend was that of the "General" Class increased by $15 \%$ of the net cost of insurance.
At the end of the second seven-year period of both General and Select class policies issued in 1906 an amount corresponding to the foregoing annual dividends declared and paid in 1920 was declared and 'paid in 1920 as additional profits apportioned as a seven-year bonus, based on the accumulated excess of the surplus earned over the annual dividend declared from year to year during the seven-year period.

## (3) Five-Year Dividend Policies.

The dividend declared in 1920 was equal to the annual dividends for each of the five years that would have been declared had the policies been annual dividend policies accumulated with compound interest at $4 \%$ and with benefit of survivorship.

## (4) Fifteen-Year and Twenty-Year Deferred Dividend Period Policies.

The dividends declared in 1920 were the excess of $95.0 \%$ of the "Standard Cash Value" of 1920 over the eash value guaranteed in the policy. The reserve so deducted, under the rule, was at American $3 \%$.

The tables of "Standard Cash Values" were constructed according to the principles and methods more fully described in a pamphlet published in 1905 and entitled "True Accounting with 'Deferred Dividends'" by Rufus W. Weeks. A model account is constructed of an assumed valuation group

## SESSIONAL PAPER No. 8

## New York Life-Continued.

## MISCELLANEOUS STATEMENT-Concluded.

consisting of 10,000 policies issued at the same age and on the same plan. By applying the mortality rate and the discontinuance rate for each policy year, the number paying premiums in each year is ascertained. By applying average expense rates for each policy year the effective premiums received in the group are ascertained. The effective premiums accumulated to the end of the period represent the "credits" of the group. The death losses paid and the surrender allowances paid (the latter based upon average rates of surrender allowance for each policy year) are also accumulated to the end of the period and represent the "debits". The balance of "credits" over "debits" is divided by the number of survivors, and the share of each survivor, adjusted in the case of policies that may be continued beyond the period for the cost of this option, is the "standard Cash Value".

## Methods of Applying Dividends.

An annual dividend may be at the option of the insured,
(a) taken in cash;
(b) applied toward the payment of any premium or premiums;
(c) applied to the purchase of a participating paid-up addition to the sum insured on the basis of the American Table of Mortality, $3 \%$ interest, with a loading equal to the value of an annuity of $\$ 2$ per thousand of paid-up addition.
(d) left to accumulate to the credit of the policy with interest at a rate never less than three per cent

Under Accelerative Endowment policies the insured may elect to apply all dividends to mature the policy as an endowment at a gradually diminishing age of the insured. The dividends are used for this purpose on the basis of the American Table of Mortality and 3\% interest.

Deferred Dividends may, at the option of the insured, if the policy so provides, be converted into
(a) a reduction of subsequent premiums on the basis of the Company's published table of annuity rates.
(b) non-participating paid-up insurance on the basis of the American Table of Mortality and $3 \frac{1}{2} \%$ interest.
The Cash Value of bonus additions is the full reserve on the American Table of Mortality and $3 \%$ interest.
(c) All annuity policies issued by the Company are on a non-participating basis.

## North American Life-Continued. SUMMARY OF RESERVE.

(1) Policies of the same year of issue, plan and age were grouped for the purpose of valuation. Reserve was computed according to the Institute of Actuaries ${ }^{\prime}$ H.M. table with interest at $3 \frac{1}{2}$ per cent; the valuation age being based on the age at which the premium was charged, excepting in the case of Endowment Policies, which were grouped in five year age groups. The duration was taken as year of valuation less year of issue plus $\frac{1}{2}$ year. Annuities were valued according to the B.O.L.A. table with interest at $3 \frac{1}{2}$ per cent.

Special Classes-
(a) Policies issued at tropical rates were valued by the American Tropical Table with interest at 3 per cent; Policies issued at sub-tropical rates by a table based upon the mean of qx by the Hm. table and the American Tropical table with interest at 3 per cent.
(b) Policies issued at premiums corresponding to ages higher than the true ages were valued at the "rated up" age.
(c) Policies providing for payment at death during certain periods of an amount less than the full amount of insurance, being folicies subject to liens, were valued as if the full amount were payable without any deductions.
(d) An additional reserve was held of one-half the extra premiums paid under policies issued at or subsequently subject to an extra premium payable annually. Polieies are rarely issued with extra premiums payable in one sum.
(e) In a few eases applicants were limited to special plans and on such policies the ordinary reserve is held.
$(f)$ A reserve of one-half the annual disability premium is held under rolicies providing for waiver of premiums in case of disability, and a reserve of one-half total premiums received is held under rolicies providing for waiver of premiums and disability annuity.
(g) Special rates are not quoted for annuities on lives classed as under-average.
(2) Items of Special Reserve-
(a) No reserve is held for pre paid loadings under limited and single premium rolicies nor under immediate annuities.
(b) An additional reserve on the $\mathrm{Hm} .3 \frac{1}{2} \%$ basis is held in respect to guaranteed benefits which exceed in value the net premium reserve on the basis of valuation employed.
(c) The full reserve is maintained for a period estimated to average six months after lapsing on account of lapsed policies not continued in force under Automatic Non-forfeiture provisions, but being subject to reinstatement.
(d) No reserve is held to cover the option of renewal under Term Policies.
(e) (a) Where a policy is changed to one on a higher premium plan after five years from original date of issue, consideration is given to difference in reserve, and therefore a special reserve is regarded as unnecessary. (b) No reserve is held to provide for the option of changing at the attained age.
(f) No other special reserves are held.
II. Tropical and sub-tropical Policies are subject to the same guaranteed surrender values as are granted under Policies issued to persons resident in Canada.
The guaranteed values under policies issued at a "rated-up" age are those for the age for which the premium is charged. Where an extra premium is charged the regular guaranteed values are granted. In the ease of policies subject to a lien the paid-up insurance values and amount for which the insurance may be extended are reduced proportionately, the eash surrender values remaining unchanged. Where premium payments are waived under the Total and Permanent Disability Benefit the guaranteed values increase in the same manner as though the premium had been paid in cash.
III. The average rate of interest earned during the year on the mean net ledger assets was $6.07 \%$.
IV. The distribution of surplus-
(a) Shareholders or Guarantors are not entitled to participate proportionately with Policyholders, but are limited as to dividend rate, Guarantors receiving $\$ 6,000$ or $10 \%$ of guarantee fund.
(b) Deferred Dividends.

The actual surplus paid or apportioned was a determined proportion of the surplus ascertained by deducting the appropriate Reserve from an amount brought out by a Modified Asset share table. In this table, the rate of interest used was $4 \cdot 65$; the expense charge for the first year was $20 \%$ of the premium plu $\$ \$ 5.00$ per $\$ 1,000$, also the Statutory First Year Reserve Deduction, which is refunded out of the Mortality Savings; The Renewal Expense charge was $7 \frac{1}{2} \%$ of the premiums. Appropriate discontinuance factors were used.
(Additional Mortality Savings are not specifically apportioned but are used as an offiset against expenses in excess of the aggregate for which the above factors make provision.)

Quinquennial Dividends.
Similar methods as for Deferred Dividends, providing, however, for slightly altered expense incidence.
Cash dividends were converted into premium reductions or reversionary bonus additions on the
Hm . $3 \frac{1}{2} \%$ basis.
Annuitants do not share in surplus.

## SUMMARY OF RESERVE.

## MISCELLANEOUS STATEMENT.

1. The calculation of the "Reserve" in the "Statement of Actuarial Liabilities"-
(1) The Actuarial Liabilities are ascertained by taking the difference between the present value of the Sums Assured and existing Bonuses, and the present value of the future net premiums, computed from the Tables of Mortality, and at the rate of Interest mentioned below.

Whole Life Policies by premiums payable throughout life, and Endowment Assurance Policies were valued in groups, the former being grouped according to year of birth, and the latter according to year of maturity.

Policies in the remaining classes, and annuities, were valued individually.
The age at which the net valuation premium was taken, is the age at entry at which the office premium was calculated. The valuation age was determined by subtracting the year of birth from 1920 , and adding half a year to the result, the assumption being that the lives were born on the average on July 1.

The Tables of Mortality used in the Valuation are:-
First-For Assurances, the British Offices Om Tables.
Second-For Annuities, the British Offices Life Annuity Tables 1893, with a loading of 3 per cent for expenses.
The rate of Interest used in the Valuation both for Assurances and Annuities, is 3 per cent. Special Classes-
(a) Under Policies subject to annual extra premiums for climatic risk an additional Reserve equa to one year's extra premium has been made.
(b) Policies issued at premiums corresponding to ages higher than the true ages were valued as if they had been effected at the rated up ages.
(c) Policies providing for payment at death during certain periods of an amount less than the full amount of Insurance were valued as if the full Sum Assured were payable throughout.
(d) None of the Canadian Policies in force at December 31, 1920 have been issued, or have become subject to a fixed extra premium other than for climatic risk.
(c) Policies are not as a rule issued to substandard lives otherwise than at premiums for ages higher than the true ages. In some exceptional cases the assured is given the option of a policy at the premium for the true age, such policy being issued subject to a lien by the Company for a fixed term.
(f) Under Policies providing Disability Benefits the whole of the additional premiums received therefor has been reserved. There are no cases where Disability has occurred.
(g) No Annuities have been issued in Canada on lives classed as Under Average.
(2) Items of ispecial Reserve-
(a) The reserve held under limited, and single premium polieies on account of prepaid or limited loadings is $\$ 15,286.20$.
(b) In no case is the guaranteed cash value of a policy in excess of the net premium reserve on the basis of Valuation employed.
(c) A full reserve is held on account of lapsed policies which have an option of reinstatement.
(d) No Term policies carrying an option of renewal were current on December 31, 1920.
(e) The reserve for the option of conversion under Convertible Term policies, the premium under the new policy being that for the age attained at conversion, is the amount of the premiums received in excess of that for the ordinary term risk.
11. No modifications or limitations are made under the special classes referred to in I. (1) (a) to ( $f$ ) above in respect of Guaranteed Values, except that in the ease of policies issued at premiums corresponding to ages higher than the true ages the guaranteed values allowed are those calculated for the true age.

## SESSIONAL PAPER No. 8

## North British and Mercantile-Contimued.

## Miscellaneous statement-Concluded.

III. For the year ending in May 1920, the rate of interest earned on the mean net letger assets was 4.91 per cent before deduction of Income Tax.
IV. The Distribution of Surplus-

Life polieyholders paying the participating rates of premium share in the divisible profits of the Life Assurance Branch as ascertained at the quinquennial valuation to the extent of nine tenths, the remaining one tenth being payable to the shareholders. The respective shares of the profits allocated to the policies are calculated on the Sum Assured, and all previous Bonuses existing at date of Valuation, multiplied, in all cases, by the number of years the premium has been paid since the last division of profits.

On Paid up Policies the bonus is allocated in the same way as it would have been allocated if the policies had been renewable by annual premium.

The profits of the Annuity business belong to the Shareholders only.

## MISCELLANEOUS STATEMENT.

I. The Calculation of the "Reserve" in the "Statement of Actuarial Liabilities" -
(1) Policy Contracts are valued individually, being listed in order of Policy Numbers by plan and year of issue. The valuation schedules show the terminal reserves preceding and following the valuation date as well as the net premiums and death strains. This permits of the balancing of each page and ensures the accuracy of the valuation. The mean reserves are deduced for individual plans only, and for the whole business from the totals of the above-mentioned items.

The age at entry is the age nearest birthday and the duration in each case is $\mathrm{N}+\frac{1}{2}$, where N is the difference between the calendar years of issue and valuation.

The Annuity Contracts are valued individually.
The Insurance Contracts were valued by the Om (5) Table of Mortality with $3 \frac{1}{2} \%$ interest, and the Annuity Contracts by the British Offices Select Annuity Tables with $3 \frac{1}{2} \%$ interest.
Special Classes-
(a) The Company has not issued Policies on lives resident in tropical or sub-tropical countries.
(b) The Company does not issue Policies at premiums corresponding to ages higher than the true ages.
(c) Policies providing for the payment at death during certain periods of amounts less than the full amounts of insurance (being policies subject to liens) are valued as ordinary rolicies without such restrictions.
(d) Policies with extra premiums, either single or annual, are valued as ordinary rolicies without such charges.
(e) In dealing with sub-standard lives the Company uses no method other than to charge an extra premium or place a lien on the policy. Such cases are valued as in (c) and (d) preceding.
(f) Policies issued with the Disability Benefit (Premium Waiver) are valued as ordinary policies without the benefit but 75 per cent of the extra premiums received in respect of the benefit is held as a special reserve.
There are no policies under which the disability benefit has been claimed.
(g) No annuities have been issued to under average lives.
(2) Items of Special Reserve-

No special reserves are maintained except as follows:-
(b) Where surrender values are guaranteed in excess of the reserve on the valuation basis the amount of the excess is treated as a pure endowment and valued accordingly.
(f) Policies carrying guaranteed interest payments have additional reserves attached equal to the amount of the outstanding interest payments.

## The Nortilern Life-Continued.

## MISCELLANEOUS STATEMENT-Concludd.

II. The special class policies referred to in 1 (1) (d) namely, policies issued at or subserfuently subject to an extrat premium are not entitled to the extended term insurance privilege, while subject to surh extra charge.
III. The average rate of interest earned during the year on the mean net ledger assets was 5.97 per cent
IV. Distribution of Nurplus-
(u) In diviting the surplus between the shareholders and poliryholders the shareholders are wiven 10 ef the surplus arising from participating policies and all surplus arising from non-rarticipating policies.
(b) The dividends paid in 1919 were determined on the basis of the loadings only, from which deductions were made for expenses. These deductions were such that $6 \frac{1}{2}$ O, of the premiums was returned in the case of life policies and $5 \%$ in the ease of endownents. Where dividends were applied to reduce future premiums the amount of the reduction was computed by using the net anmuity value on the Om (5) $3 \frac{1}{2} / \mathrm{C}$ basis.

Where dividends were applied to purchase a reversionary bonus addition, the single premium used was that for attained age on the $\left(9 \mathrm{~m}\right.$ ( 5 ) $3 \frac{1}{2} \%$ basis loaded five per cent.

No dividends were applied to shorten the premium paying term or reduce the endowment period.

Surplus has been apportioned to deferred dividend policies issued after January 1, 1911 on same basis.
(c) The rompany issued non-participating annuities only.

## DEFERRED DIVIDEND POLICIES.

Issued prior to lanuary 1, 1911. No profits have as yet been contingently apportioned thereto.

Issued on and after January 1, 1911, and Amount of Profits credited thereto.

## MISCELLANEOUS STATEMENT

I. The calculation of the "Reserve" in the "Statement of Actuarial Liabilities."
(1) The Reserves were calculated on a true net premium method except in a few minor classes where a proportion or accumulation of the premiums paid has been reserved. Policies were grouped according to class and subdivided according to valuation age. The age at entry for the purpose of calculating the net premiums was taken either as the nearest age at entry or the age next birthday at entry. The valuation age was taken as follows:-

For Whole Life Assurances and Annuities: the nearest age at the date of Traluation.
For Endowment Assurances the mean valuation age according to Lidstone's method.
Tables of Mortality and Rates of Interest used:-
British Empire Fund.
For Assurances-British Offices Om (5) Table at $3 \%$.

For Annuities-British Offices Oa. Table at $3 \%$.
Special Classes.
(a)(b) (d) (e)Policies issued at or subsequently made subject to an extra premium were treated as
follows:-
Defective health or family history.
British Empire Fund.-An extra reserve was made of one half year's extra premium.
Company's Life Fund.-Valued at rated up age except in case of Endowment Assurances where one-half year's extra premium was reserved.
Climate or Occupation.-An extra reserve made of one half year's annual extra. In cases of Single Extra premiums each case was treated on its merits.

## Phenix Assurance-Continued

## MISCELLANEOUS STATEMENT-Concluded.

(c) Policies subject to lien were valued for the full sum assured at the true age.
(f) A reserve has been made of the total of the additional premiums paid under policies providing disability benefits.
(g) No Annuities classed as under average.
(2) Items of special reserve:-
(a) Additional Reserves made for single and limited premium policies are shown in Statement o Actuarial Liabilities.
(b) No guarantees are included in policies exceeding in value the net premium reserve on the valuation bases.
(c) Hardly any policies subject to reinstatment, and no special reserve made.
(d) There are no renewable term policies in force.
(e) In the case of Term Policies issued with option of conversion as at age attained at date of conversion inclusive, reserves were made of varying pereentages of the premiums paid. Options of conversion as at original age of entry are not given.
II. There are no polices at present subject to climatic extras but if there were any such policies the surrender values would be the same as under a similar policy without extra.
III. The average rate of interest earned by the whole of the Life Funds of the Company at home and abroad during 1920 was, after deduction of Income Tax, 4•175\%.
IV. The Distribution of surplus:-
(a) Divisible Surplus is distributed as follows:-

British Empire Fund:-All to participating policyholders Comrany's Life Fund.
Company's Life Fund:-
Participating Branch:--All to policyholders.
Non-participating Branch:-All to shareholders.
(b) The divisible surplus represents the value on the valuation basis of Reversionary Bonus additions to participating policies at the rates declared. Such Reversionary Bonus Additions are at present being commuted as follows:-
$\left.\begin{array}{l}\text { Immediate cash payment } \\ \text { Reduction of future premiums }\end{array}\right\}$ On basis of Carlisle Mortality Table at $6 \%$ interest.
Reduction of future premiums
(c) Annuitants do not participate in profits.

GENERAL BUSINESS STATEMENT FOR THE YEAR ENDING DECEMBER 31,1920

## LIFE DEPARTMENT.

During the year 3,622 Life policies were issued, assuring $£ 2,739,361$, with new premiums of $£ 119,602$. Re-assurances were effected with other companies for $£ 225,983$ at premiums of $£ 8,366$. The net new assurances were thus $£ 2,513,378$, and the net new premium income $£ 111,236$, including $£ 10,782$ of single premiums.

Seventy-four immediate annuities were granted for $£ 3,808$ per annum, the consideration money received being $£ 39,740$. Twenty-four deferred annuities for $£ 3,078$ per annum at premiums of $£ 944$ were also granted.

Claims for the aggregate sum of $£ 493,385$ arose by the death of 573 persons assured under 721 policies. The total amount paid was within the normal expectation. A further sum of $£ 198,688$ was paid in respect of endowment assurances matured. Fifty-four annuitants in receipt of $£ 4,332$ per annum died during the year.

## MSCELLANEOUS STATEMENT．

1．The calculation of the＂Reserve＂in the＂Statement of Actuarial Liabilities．＂
（1）In computing the reserve in the＂Statement of Actuarial Liabilities＂the full net level－premium system of valuation has been used throughout，tables of mortality and interest bases being as follows：－ The reserves on Ordinary business have been computed as follows：－

American Experience Table of Mortality with $3 \frac{1}{2} \%$ interest on policies issued prior to January 1st， 1901.

American Experience Table of Mortality with $3 \%$ interest on policies issued after December 31st， 1900，and prior to August 1st， 1907.

American Experience Table of Mortality with 3⿳亠丷厂⿱一土寸$\%$ interest on policies（excluding Intermediate policies and policies with Intermediate and Hazardous rating）issued after July 31st， 1907.

New York Standard Intermediate Table of Mortality with $3 \frac{1}{2} \%$ interest on Intermediate policies and policies with Intermediate and Hazardous rating issued from August 1st， 1907 to June 14th， 1916，inclusive and on Intermediate and Hazardous Rating policies issued after April 14th， 1919.
＂＂1912＂Intermediate Table of Morality with $3 \frac{1}{2} \%$ interest on Intermediate policies and policies with Hazardous rating issued after June 14th，1916，and prior to April 15th， 1919.

Hunter＇s Disability Tables with $3 \frac{1}{2} \%$ interest on Disability provision and on annuities on disabled lives resulting from disability claims．

McClintock＇s Tables with $3 \frac{1}{2} \%$ interest on original Annuities issued after December 31st， 1906.
The reserves on Industrial business have been computed as follows：
American Experience Table of Mortality with 3㱐\％interest on policies issued prior to January 1st， 1901.

American Experience Table of Mortality with $3 \%$ interest on policies issued after December 31st， 1900 ，but prior to January 1st， 1907.

New York Standard Industrial Experience Table of Mortality with $3 \frac{1}{2} \%$ interest on policies issued after December 31st， 1906.

Assurance policies and annuities were valued in groups．
Ages at entry under Ordinary Assurance policies were taken according to the age nearest birth－ day，and under Industrial Assurance policies according to the age next birthday．To determine the duration the policies were grouped according to calendar years of issue，the duration being taken as the difference between the valuation year and the year of issue increased by .5 ，it being assumed in the case of Ordinary policies under which the premium－paying periods have not already expired that premium payments had been made to the end of the policy year terminating in 1921.
＊For terms certain of 26 weeks or less．

## The Prddential-Continued.

## MISCELLANEOUS STATEMENT-Continued.

Industrial Paid-up policies were grouped according to ages attained (age at entry plus duration) at the end of the year of valuation, Paid-up Term and Paid-up Endowment policies being grouped according to calendar years of expiry and maturity, respectively, it being assumed that all such policies expiring or maturing in any given calendar year would, on the average, expire or mature on June 30th of that year, the reserves being calculated accordingly.

Ordinary Paid -up policies were grouped according to the "valuation" year of birth; that is the year of issue of the original policy minus the rated age at entry. With this as a basis reserves were calculated based upon the attained age at the end of the year of valuation, it being assumed under Paid-up Term and Paid-up Endowment policies which were grouped according to calendar years of expiry and maturity, respectively, that the policies would, on the average, expire or mature on June 30th of the year of termination.
Special Classes.
(a) The Prudential does not issue insurance on the lives of person residing in tropical or sub-tropical countries.
(b) Policies issued at premiums corresponding to ages higher than the true ages have been valued according to the higher age.
(c) Policies providing for payment at death during certain periods of an amount less than the full amount of insurance are valued for the full amount at all stages.
(d) (1) The Company has no single premium policies with extra ratings in force on the lives of the residents of Canada.
(2) Where extra premiums are charged to cover extra hazards under annual premium policies, the extra hazard covered by the extra premium has been considered yearly term insurance for the extra hazard, and an additional reserve has been held accordingly, the reserve held being equal to one-half of the annual extra premium so charged.
(e) Policies have not been issued on sub-standard lives other than as noted in (b), (c) or (d.)
(f) (1) The valuation of the disability benefits has been carried out according to the net level premium method on the basis of Hunter's Disability Tables with interest at the rate of $3 \frac{1}{2} \%$ per annum. Where no extra premium is charged for the disability benefits, it is assumed that a sufficient portion of the regular gross premium is set aside to cover the net annual premium cost of the disability benefits. The net premiums for disability benefits are assumed to be payable during the same period as the actual premium payments under the policy; they cease upon the occurrence of disability prior to age 60 , but are payable during any period of disability beginning after age 60 if within the regular premium payment period of the policy. With certain exceptions noted below, the disability benefits for which no extra premium is charged consist of waiver of premiums and payment of amount of insurance in instalments in event of disability prior to age 60 ; if disability occurs subsequent to age 60 , the benefit consists of waiver of premiums with reduction of the amount of insurance by the amount of each gross premium waived. These benefits have been provided for in Ordinary policies issued since January 1, 1916, and the same benefits have been made retroactive to apply to Ordinary policies issued prior to that date, in respect to disability occurring in 1916 or thereafter. In the case of policies issued prior to 1916, it has been assumed in valuation that the disability provisions became effective on the policy anniversary in 1916.

Note.-In the case of Intermediate policies and Special rating policies, the benefit consists only of the waiver of premiums upon the occurrence of disability prior to age 60. Term policies, policies with the Medium or Hazardous rating, policies on the lives of women, and policies with extra premium charge (not including Special rating policies) are not entitled to any form of disability benefit.

In figuring the reserve for the waiver of premium benefit, it is assumed that the amount of premium waived is the net annual premium in the case of policies issued on and after August 1, 1907, and $90 \%$ of the gross annual premium in the case of policies issued prior to August 1, 1907.
(2) After disability has occurred prior to age 60 and the insurance is being paid in instalments, the reserve held consists of the present value of an annuity-certain for the amount of the unpaid intalments. An additional reserve is held in case the policy provides for pure endowment addition, for increase in the amount of insurance or for continuous instalment payments to insured or beneficiary. If the benefit consists only of waiver of premiums, the reserve held on account of disability benefit is equivalent to the present value of premiums to be waived thereafter. This is in addition to the regular reserve on the policy.

After disability has occurred subsequent to age 60 , the reserve held on account of disability benefit is equivalent to the present value of interest losses on gross premiums to be waived thereafter. This is in addition to the regular reserve on the amount of insurance as reduced by the premiums already waived. In cases where the point may eventually be reached when the total premiums already waived and charged against the policy will exceed the amount of insurance, it is assumed that premiums payable thereafter will be lost entirely, and the present value of such premiums is included in the reserve held on account of the disability benefit.

Nore.- After disability has occurred, the present value of premiums to be waived is calculated on the basis of the net premiums in the case of policies issued on and after August 1, 1907, and nonparticipating policies issued prior to that date, and on the basis of $90 \%$ of the gross premiums in the case of participating policies issued prior to August 1, 1907.
(3) From and after January 1, 1919, policies have been issued providing for a monthly disability income of $1 \%$ of the amount of insurance, together with waiver of premium on the policy. As compared with other regular policies, the additional disability benefit consists of the difference between the value of the disability annuity of $1 \%$ of the sum insured and the value of interest on the sum insured from date of disability to date of death or maturity as an endowment, as where the disability annuity is provided the sum insured is not payable till death or maturity. Such policies are valued, first, with regular policies for the disability benefit not specifically charged for and, second, for the extra disability benefit as above described. The additional premium ceases on disability or at age 60 (or at the end of the premium term if prior to age 60) and is so treated in the valuation.
(o) The Prudential does not issue Annuities on lives classed as under average.

## The Pridential－Continued．

## MISCELLANEOUS STATEMENT－Concludrd．

（2）Ittms of special reserve．
（a）No reserve is held under Limited and Single Premium policies on account of prepaid or Jimited londings，nor is any additional reserve held under immediate Annuities to cover future expenses． Reseeves are on the net premium basis throughout．
（b）The Company does not grant any guaranteed benefits which exceed in value the net premium reserve on the basis of the valuation employed except in certain cases of group insurance the gross premiums under which are based on the Medico－Actuarial table of Mortality．As the reserve is held on the American Experience basis an appropriate reserve is held to cover those cases where the rates charged are less than the net rates according to the American Experience table．
（c）The Company does not hold any special reserve under policies lapsed subject to reinstatement．
（d）Term policies do not contain the option of renewal．
（e）No extra reserve is held to cover the option of conversion，either at the original age at entry or at the attained age，under any of our policies containing surh options of conversion．
（f）（1）It was decided by the Board of Directors in December， 1920 in the case of death claims occur－ ring during the year 1921 under Industrial policies in force twenty years or more on the lives of negroes， that the same death benefit will be paid as that paid in the case of similar policies on the lives of white persons，This concession was in the nature of a one－year concession，and accordingly the regular valuation reserve on the policies involved was computed according to the contractual benefits， and in addition a reserve was held representing the net single premium value，based on the valuation table of mortality and interest rate of the extra insurance risk for one year．
（2）All Industrial Whole Life policies under which the insured have fully attained 75 years of age have been made by roncession paid－up for the full amount of insurance and have been valued accordingly． Furthermore，the Board of Directors in December， 1920 resolved that all Industrial Whole Life policies under which the insured may attain age 75 during 1921 be made，as of December 31，1920， Limited Payment policies with premiums ceasing upon the attainment of age 75．The necessary extra reserve has been included in the reserve liability to cover the increase of the Limited Payment Life reserve over the regular Whole Life reserve on the policies subject to this concession．

II．（1）（a）The Prudential does not issue policies on lives resident in tropical or sub－tropical countries．
（b）Guaranteed values granted according to the higher age in rated－up cases．
（c）The ordinary reserve is made for liened policies．
（d）Where extra premiums are charged the ordinary reserve is made．
（e）Prior to 1907 some policies were issued subject to the provision that dividends would be granted based on the experience of that particular class of policies．No extra premiums were charged but the Paid－up and Automatic Extended Insurance ralues were calculated according to the mortality experience on that class of policies．
（f）The Disability provisions contaired in policies have no effect upon the Surrender Values．
（g）The Prudential does not issue Annuities on lives classed as under average．
III．The average rate of interest earned during the year on the mean net ledger assets was 4.86 per cent．

IV．The distribution of surplus－
（a）All the surplus earnings since April 4，1915，accrue to policyholders except for a sum not exceeding ten per cent．per annuin on the capital stock．All of the capital stock except $5.51 \%$ is held by the trustee for the policyholders，and all dividends on capital stock except the above proportion of $5.51 \%$ are returned to policyholders．
（b）The methods by which dividends to policy holders have been computed are set forth below． Paid－up additions are calculated on the basis of net American Experience $3 \frac{1}{2} \%$ single premiums，except for policies issued as participating prior to August，1907，where the Combined $4 \%$（issucs prior to 1901） and American $3 \%$ tables are used，net single premiums being adopted in the case of ten，fifteen or twenty year deferred dividends and single premiuns including a small loading being used for other dividends．

When premiums are paid in advance or reduced for a term of years by the appliction of dividends， interest only enters into the calculation as in event of death of the insured，advance payments are added to the amount of claim．

## Annual Dividends．

For each kind of policy a calculation is macle to ascertain the annual and accumulated earnings in accordance with the Company＇s experience．For this purpose the sums insured in force at the beginning of the calendar year are subdivided into groups according to year of issue and kind of policy，and the corresponding reserves and and accrued surplus of each group are tabulated．Estimates are then made of the expected income from premiums and interest，and the outgo for claims，surrenders，dividends and first－year and renewal expenses，and the estimated total of each of these items is compared with the actual figures，and a ratio derived for correction of the estimate．The estimated reserves at the end of the year， similarly corrected to agree in the aggregate with the actual reserves，are deducted from the funds at the end of the year obtained by adding income to the funds at the beginning of the year and deducting outgo． The surplus so obtained in each group is divided by the estimated sums insured in force at the end of the year，also corrccted to agree in the aggregate with the actual total，the accumulated surplus per $\$ 1,000$ for each year of duration and kind being thus obtained，and by comparison with the corresponding figures for the leginning of the year，the earnings of the year are ascertained．

The surplus so determined represents the carnings at the effective age for the group in question．Cal－ culations are then made of a hypothetical group of 1,000 policies for $\$ 1,000$ each，for each of the entry ages $20,30,40,50$ and 60 ，showing the progress of the fund formed by taking account of income and outgo，and the resulting surplus．Rates of interest，mortality，surrender and expense are derived from the Company＇s experience，and the available dividends so disclosed are made to correspond at the effective age for each group with those obtained as described above．Dividends for intermediate ages are derived by inter－ polation．
c）No dividends have been declared on annuitins．

## MISCELLANEOUS STATEMENT.

1. The calculation of the "Reserve" in the "Statement of Actuarial Liabilities."
(1) Whole Life Assurances by continuous and limited premiums and ordinary Endowment Assurances were valued in groups. The remaining assurances and the Annuities were valued individually.

Whole Life Assurances were grouped according to the ages attained at the date of the valuation. The Endowment Assurances were grouped according to the nearest 31st December to the date of maturity.

For all Assurances and Annuities the age at entry for valuation purposes was taken as the nearest age at entry. This differs from the age used in fixing the premium or consideration in the contracts, which is the following integral or half-year of age in the case of assurances and the last integral or halfyear of age in the case of annuities.

For classes other than ordinary Endowment Assurances the age attained used for valuation purposes was obtained by adding the nearest integral duration to the nearest age at entry.

In the case of Ordinary Endowment Assurances the average Maturity Age was obtained by Lidstone's Method for the policies maturing in each year reckoning from the 1st July to the following 30th June. The valuation age attained was then derived by deducting the nearest integral duration outstanding at the date of the valuation from the Average Maturity age.

All classes of assurances were valued by the Om (5) Table of mortality with interest at $3 \frac{1}{2} \%$; the Om (5) $3 \frac{1}{2} \%$ net premiums being taken credit for in the valuation.

The Deferred Annuities were valued on a compound interest basis up to the ages at which the annuities commence and afterwards by the O (af) Table, with interest at $3 \frac{1}{2} \%$ throughout.

The annuities not involving life contingencies were valued on a compound interest basis of $3 \frac{1}{2} \%$.
No Tables of disability have been used in the valuation.
Special Classes.
(a) There are no policies on lives resident in tropical or sub-tropical countries.
(b) Policies issued at premiums corresponding to ages higher than the true ages have been treated in the valuation as if the rated up age were the true age at entry.
(c) This Company does not issue policies providing for payment at Death during certain
periods of an amount less than the full amount of insurance, being policies subject to liens.
(d) In the case of policies subject to yearly extra premiums an additonal reserye of one year's
extra premium has been made. There are no policies where the future extra premiums have been commuted by a single payment.
(e) There are no policies on substandard lives, otherwise than those dealt with above, included in the Valuation.
(f) Disability Benefit. - In consideration of an extra premium ceasing at age 60, the Company grants the following Disability Benefits provided the assured becomes wholly or permanently disabled before attaining the age of 60 and at least one full annual premium has been paid.
(i) Haiver of premium.
(ii) Annual Income of one-tenth of the sum assured for a period not exceeding 10 years.

In respect of policies included in the valuation providing for Disability Benefits the whole of the additional premiums received has been rescrved. There are no cases where disability has occurred.
(g) There are no annuities issucd to lives classed as under-average included in the valuation.
(2.) Items of Special Reserve.
(a) The reserve held under limited and single premium policies on account of pre-paid or limited loadings amounts to $\$ 75,000$. There are no Life Annuities Proper included in the Valuation, and no special reserve has been made to cover future expenses in the case of the Supplementary Contracts.
(b) There are no guaranteed benefits exceeding in value the net premium reserve on the basis of valuation employed.
(c) No special reserve is made in the valuation in respect of lapsed policies not continued in force under non-forfeiture provisions.
(d) Ordinary term policies lapsed by non-payment of the premiums do not carry the option of renewal.
(e) The special reserve included in the valuation to cover the option of conversion during or at the end of a fixed term into higher premium policies amounts to $\$ 1,983$. At the option of Assured the premium on the new policy may be fixed either (a) as at the original date of entry, on payment of the difference of premiums with interest, or $(b)$ as at the age attained at date of conversion.
$(f)$ There are no items of special reserve other than those specified above.
*Reserve against annual payments of $\$ 4,365$ and future lımp sums aggregating $\$ 26,000$, being payments of death claims by instalments.

## Roval-Contimued.

## MISCELLANEOU゙S STATEMENT- C'oncludid.

II. The speciat class policies referred to in $1(1),(d)$ and ( $f$ ) are entitled to the ordinary surrender values and paid-up assurances. The policies referred to in 1 1) b, are entitlerl to surrender values and paid-up assurances calculated as if the ratel up age were the true age at entry.
III. At the present time it is not possible to ascertain in respent of the year 1920 the net ledger assets at the end of the year and the interest received during the year.
IV. The d:stribution of surplus.
(a) At earh of the Quinquennial Valuations 1575 to 1890 inclu-ive the shareholders received 33 per cent and the poliey-holders 75 per cent of the divisible surplus. Since 1890 the proportion alleeated to Polieyholders has been increased on each succeeding distribution and at the last distribution in 1920 was 80.2 per cent.
(b) The principles upon which the profit or surplus is distributed consist in treating the policies privileged to participate as being entitled to reversionary additions regulated by the amounts assured and the number of premiums paid for which no previous apportionment has been made. These principles are carried into effect by finding in accordance with the Table of Mortality and the rate of Interest assumed in estimating the Company's Life Assurance Liabilities, namely, the British Offices Life Tables Om and Om 5) at 3 per cent. the uniform annual rate of addition to the sums assured which the available surplus will admit of. The Reversionary Bonuses to be allotted are directly ascertained by this process: and the Cash Bonuses, reductions of premiums, and Deferred Contingent Bonuses allowed in other cases are derived from the Reversionary Bonuses by the Oin Table of Mortality at 4 per cent. No variation in the method is made for Tropical and Sub-Tropical policies. (c) The Company does not grant dividends to annuitants.

## The Saskatchewan Life－Concluled．

## MACEMJANEOUS STATEMENT．

1．Thir culculation of the＂Reserec＂in the＂statement of Actuarial Liabilitiex．＂
（1）．（ieneral Principles：－Policics of the same plan and same year of issue were grouped as to age nearest birthday at date of entry for purpose of valuation，heing the same age as used in calrulating pre－ miums．Prepared tables of mid－year policy values on the Om（5） $3 \frac{1}{2}$ per cent lasis were used．No life annuities were issued．

Sperial rlasses－
（a）No tropical or sub－tropical business has been transacted．
（b）No policies have been issued at premiums corresponding to ages higher than the true onc．
（c）In the vatuation of policies any liens were ignored．
（d）Policies subject to extra preminms were valued as ordinary policies．
（e）Any policies issued as substandard were valued as standard．
（f）1．Before Disability－Policies issued with disability benefits consisting of waiver of premium only were valued at 25 c per $\$ 1,00000$ Policies providirg for disability benefits consisting of waiver of premium and payment of monthly income of $\$ 10$ per month per $\$ 1,000$ of insurance during disability were valued by Hunter＇s Disability Tables with interest at 3 per reent．

2．No disability claims have arisen．
（g）．No annuities have been iswed．
（2）．Items of Special Reserve－
（a）No special reserves were made except as follow：－
（b）Guaranted cash values in excess of the net premium reserve on the basis of valuation employed were valued as Pure Endowments．The additional reserve so found being added to the ordinary reserve．
11．No morlifacations or limitations as to guaranteed values are made under policies in sperial clasen 1 （1）（a）to（f）．

III．The average rate of interest earned during the year on the mean net ledger assets was fi．8．5 per cent．
IV．No surplus has get been distributed．

## MISCELLANEOUS STATEMENT.

## I The Calculation of the "Reserve" in the "Statement of Actuarial Liabilitics."

(1). Policies of the same plan and same year of issue were grouped as to age at entry for valuation. There were no annuities. The valuation was made from Tables of mid-year policy values prepared by the Net Premium Method-Annual dividends were valued Om (5) $3 \%$; all other Om (5) $3 \frac{1}{2} \%$. The age for valuation purposes was taken at age next birthday at issue and the duration $\mathrm{N}+\frac{1}{2}$ where N is the curtate duration.

Special classes-
(a) There were no policies in force on lives resident in tropical or sub-tropical countries.
(b) Policies issued at premiums corresponding to ages higher than the true ages were valued at the higher ages.
(c) In the valuation of poljeies subject to liens, the liens were disregarded.
(d) Extra premiums are charged for occupational hazards only and are payable annually. Extra premium is disregarded in valuation.
(e) No policies were issued on Substandard lives except as described in (b) and (c).
(f) On policies issued with disability benefits providing for waiver of premium only, before the occurrence of disability one half of the gross annual extra premium is set aside. No disability has yet arisen. On policies issued providing for waiver of premium and a monthly annuity of $\$ 10$ per $\$ 1,000$ the extra reserve is based on tables formed by combining the Om (5) Table of Mortality with the Table of Disabled Lives. No disability has yet arisen.
(g) There were no annuities.
(2). Items of special reserve -
(a) No special reserve is maintained except as follows:-
(b) An additional reserve is held to provide for guaranteed benefits in excess of the net premium reserve on the basis of valuation employed.
II No modification or limitation is made under the special class of policies referred to in I (1) (a) to ( $f$ ) in respect of cash surrender values, paid-up insurance, extended term or automatic extended term insurance.

III The average rate of interest earned during the year on the mean net ledger assets was 6.07 per cent.
IV Distribution of surplus-
(a) The Shareholders' Fund is credited with interest in proportion to mean funds, (shareholders' fund being capital paid-up) and is charged with its proportion of any losses on investments. The shareholders are also entitled to $10 \%$ of profits arising from Participating Policies and to the entire profits arising from Non-Participating Policies.
(b) Annual dividends were equal to 60 per cent of excess of office premium over net premium on

Om (5) 3 per cent basis.
(c) No annuities.

## SUMMARY OF RESERVE.

## MISCELLANEOUS STATEMENT.

## 1.The Calculation of the "Reserve" in the "Statement of Actuarial Liabilities":-

(1) The Reserves were calculated on the $\mathrm{O}^{\mathrm{m}}$ (5) $3 \frac{1}{2} \%$ basis from Bradshaw \& Moore's Tables. The Company adopts the ages next birthday as the age at entry, and medial reserves were calculated, using this age at entry. Policies were grouped according to plan, year of entry and age at entry.
As the amount of business in force containing disability benefits is small, $75 \%$ of the total pre-- miums paid for these benefits was reserved.
(2) The only item of special reserves was the amount necessary to cover the guarantees contained in the Company's policies over and above the $\mathrm{O}^{\mathrm{m}}$ (5) $3 \frac{1}{2} \%$ reserve.
II. There were no special class policies.
III. The average rate of interest earned during the year on the mean net ledger assets was 6.008 per cent IV. The Company's business is all non-participating.

| Net reserve carried in the liabilities........................... $\$$ | 1,249, 067 | \$ | 179,267 | \$ | 1,428.334 |

## MISCELLANEOUS STATEMENT.

I. The calculation of the "Reserve" in the "Statement of Actuarial Liabilities"-
(1) Actuarial reserves were calculated according to the net premium method on the Om. (5) Table, with interest at 3 per cent for participating, and $3 \frac{1}{2}$ per cent for non-participating assurances. Policies were valued individually. The mean duration was used, all policies issued in any calendar year being assumed to date from the middle of such year. The age for valuation purposes was the age at entry as determined by the premium charged at issue of the policy. There were no annuities.

Special Classes-.
(a) There were no assurances on lives resident in tropical or subtropical countries.
(b) Policies issued at premiums corresponding to ages higher than the true ages were valued at the rated-up ages.
(c) Policies subject to liens were valued as if providing for payment of the full sum assured at death.
(d) No additional reserve was assigned to policies subject to extra premiums, whether payable annually or in one sum.
(e) Policies otherwise issued to sub-standard lives are not assigned any additional reserve.
(f) An additional reserve is carried for policies providing for disability benefits, as follows:-
(1) Before occurrence of disability, a special reserve is maintained of one-half of all disability premiums paid to the Company.
(2) After occurrence of disability, the policy, if payable by instalments, is valued as an annuitycertain at $3 \frac{1}{2}$ per cent; where premiums are waived, the policy is valued as a paid-up assurance at 3 per cent or $3 \frac{1}{2}$ per cent according as it is participating or non-participating.
(2) Items of Spccial Rescrve-

No special reserves are maintained except as follows:-
(b) Guaranteed benefits exceeding in value the net premium reserve on the valuation basis employed are assigned an additional reserve for the amount of such excess, valued as a pure endowment.
II. No modifications or limitations are made under the special class policies referred to in 1 (1) (a) to $(f)$ in respect of guaranteed values.
III. The average rate of interest earned during the year on the mean net ledger assets was $6 \cdot 69$ per cent.

## IV. The Distribution of Surplus.

(a) The Shareholders are entitled to the entire profits arising from non-participating policies, and to one-tenth of the profits arising from participating policies-policyholders being entitled to the remaining nine-tenths. Heretofore, no portion of the profits derived from any class of policies has actually been assigned to shareholders.
(b) Annual Dividends are computed upon the basis of an interest surplus of $1 \frac{1}{2}$ per cent of the initial reserve; a mortality surplus of 20 per cent of the cost of insurance to age 35 , decreasing 0.5 per cent for each year of age to age 45 , thereafter decreasing one per cent for each attained age; and a surplus from loading of 15 per cent of the excess of the office premium over the net premium. (In the case of certain annual dividend policies which were issued at premiums lower than the regular scale, an adjustment in the dividend is made on account of the deficiency in loading).

Quinquennial dividends are allotted on the same basis as annual dividends, the separate annual dividends being accumulated to the end of the quinquennium at $4 \frac{1}{2}$ per cent interest.

Deferred dividends are allotted on the same basis as annual dividends, the separate annual dividends being accumulated to the end of the deferred term at $4 \frac{1}{2}$ per cent interest and with benefit of survivorship equal to one-half of the regular tabular rates.

The Om. (5) 3 per cent Table is the basis uniformly employed in all primary dividend calculations. Cash dividends are converted into premium reductions, reversionary bonus additions, reductions of premium term or of endowment term, and bonus additions are converted into cash surrender values, by the Om (5) $3 \frac{1}{2}$ per cent Table.

## MSCELLAN゙EOL゙S STATEMENT．

I．The calculation of the＂Rescrve＂in the＂Statement of Actuarial Liabilities．＂－
（1）The Mortality Tables employed were the British Offices Tables；the Om Table for Assurance and the $O[a]$ Select Table for Annuities．The rate of interest assumed was 3 per cent except in the case of benefits where the reserves are obtained by accumulating the premiums at interest．In these cases the rate of interest employed was 4 per cent．

The valuation was made on the net premium method，the whole of the loading，i．e．，the difference between the net premium and the premium actually payable，being reserved for future expenses and profits．In the case of Policies effected by a limited number of premiums，Policies under which the premiums have been commuted and Paid－up Policies the value of the whole of the loading which would have been receivable if such Policies had been subject to ordinary annual premiums was reserved．

Whole Life by Whole Term Premiums，Limited Premiums，and Paid－up Policies were grouped under ＂Years of Birth．＂The Valuation Ages were ascertained by deducting the years of birth from the calendar year of Valuation and adding $\frac{3}{8}$ th thereto．

Endownent Assurances were grouped under＂Years of Maturity＂and the Valuation Ages arrived at by application of Lidstone＇s Z method．The net premiums both for Whole Life and Endowment Assurance by Whole Term premiums were taken at age next birthday at entry．

Immediate Annuities（Single Life）were similarly grouped under years of birth and the Valuation age obtained as under Assurances．

Double Endowments，Semi－Endowments and Endowment Assurances with Guaranteed Bonus on survivance were valued in a similar manner as ordinary Endowment Assurances with proper changes in the Valuation factors．

All other special classes of assurances and annuities not coming in any of the above Grouped Classes were valued individually． Spccial Classes－
（a）No policies on lives subject to climatic extras are included in this Statement．Tropical and subtropical policies included in the company＇s General Statement are valued by adding 3 years to the normal age and to the ordinary reserve thus deduced was added to the whole of the correspond－ ing annual extra premium．
（b）Policies issued at premiums corresponding to ages higher than the true age were valued at their normal ages and to the ordinary reserve was added one－half of the corresponding annual extra premiun．
（c）Policies subject to liens were valued as normal assurances．
（d）To the normal reserve of policies subject to an annual extra premium was added the whole of annual extra premium．No policies are included in this statement which were issued at a single extra premium．

## The Standard Life-Continued.

## MISCELLANEOUS STATEMENT-Concludd.

(e) Except as above no substandard or special class policies were issued.
(f) In respect of policies subject to disability benefits the full amount of the premiums paid accumulated at 4 per cent compound interest is held as an extra reserve. Disability has not occurred in any case.
(g) There are no annuities on under average lives.
(2) Items of Special Reserve-
(a) To the ordinary reserve as brought out above was added the value of the whole of the loading which would have been receivable if such policies had been subject to ordinary annual premiums.

As to Annuities the stringent Valuation Basis adopted is considered amply sufficient to justify the omission of any special reserve for expenses.
(b) The Guaranteed Surrender Values do not exceed the Om 3 per cent reserves.
(c) The Cash Surrender Values of those Policies which were subject to re-instatement within 13 months from date of default are held to their credit for a period of 5 years after expiration of which period all liability of the Company ceases.
(d) and (e) One annual premium for the 1 st 5 years-one-fifth of the annual premium for each year after 5 years is reserved to allow for the option of conversion of term policies into higher premium plans.
$(f)$ Special reserve is made on account of the claims being paid immediately on proof of death and title.
II. No distinction is made between ordinary policies and special class policies in the matter of guarantees.
III. The gross rate of interest earned on the Company's Funds for the year ending November 15, 1920, was $5 \cdot 3$ per cent.
IV. The distribution of surplus-
(a) After allowing the Shareholders interest at 5 per cent per annum upon their paid-up capital and upon any balances from time to time standing at the credit of the Shareholders' Account, the divisible profits arising from the Life Assurance business, as determined by the Directors at the close of each investigation period, will, in terms of the Company's Act of Parliament. 1910, be allocated in the proportions of not less than nine-tenths to the Participating Policyholders and not more than one-tenth to the shareholders.
(b) Under the Reserve Bonus Scheme policies are credited with the same reversionary rate of bonus as ordinary policies of the same class of assurance but no declaration is made till the termination of the Reserved Period. This bonus vests and the survivors of each group of entrants share additionally in a pool formed from the cash values (1) of undeclared bonus (which ordinarily would have vested had the policy been under the Immediate Bonus Scheme) of policies which have bcen surrendered or become claims and (2) from the surrender values of policies lapsing between their third and fifth year of assurance.

These accumulations are compounded at $2 \frac{1}{2}$ per cent and thrown into reversion by the Om $3 \frac{1}{2}$ per cent table and the cash value and premium reductions are obtained at age last birthday from these reversionary amounts in the usual manner.

Under the Guaranteed Minimum Bonus Scheme, bonuses are allotted from the outset on the same scale as policies effected under the Company's ordinary with Profit Schemes. For the first four quinquenniums these bonuses are converted into equivalent larger deferred reversionary bonuses vesting at the end of the 20 year period. The Company guarantees that in no event will the total amount of deferred reversionary bonuses be less than $£ 35$ per $£ 100$ sum assured, while they may be greater. After the 20 year period, the policies will participate on the same basis as policies effected under the Company's ordinary with profit schemes.
(c) There are no such dividends to annuitants in this Company.

| Net reserve carried in the liabilities | 304,096 91 |  | 32,734 34 |  | 336,831 25 |
| Reserve maintained by the Company in excess of the reserve. | \& 10,503 61 | § | 1,171 56 | § | 11,675 17 |

## MISCELLANEOUS STATEMENT.

I. The calculation of the "Reserve" in the "Statement of Actuarial Liabilities."
(1) The reserve is calculated by the Group method, the premium rates being based upon the age at nearest birthday. The assumption is, therefore, made that all policies issued in any year were issued at the middle of that year and that the duration is from the middle of the year of issue to the end of the year from which the valuation is made. The $\mathrm{O}^{\mathrm{m}}(5) 3 \frac{1}{2}$ per cent mean reserve tables were used to calculate Canadian liabilities.

## Special Classes-

There are no special class policies except as follows:-
( $f$ ) In addition to the regular mean reserve, an extra reserve based upon Hunter's Disability Table, is calculated for all policies containing disability benefits before occurrence of disability. After occurrence of disability the extra reserve is calculated by forming annuity tables ax and with these annuities is used the present value of the Office premium as an extra reserve.
(g) This Company has no annuities issued to lives classed as under-average.
(2) Items of special reserve-No special reserves are maintained except as follows:-
(b) In all cases where the standard upon which the policy was issued calls for a higher reserve than that of the $\mathrm{O}^{\mathrm{m}}$ (5) $3 \frac{1}{2}$ per cent standard, the excess was entered to make up the item of $\$ 11,675.17$. Premiums and values in all policies issued prior to January 1, 1908, were based upon the American Experience Table of Mortality and 3 per cent interest, full preliminary term method of valuation. Participating policies issued since January 1, 1908, have premiums and values based upon the American Experience Table of Mortality and 3 per cent interest, modified preliminary term, Illinois standard method of valuation. Non-participating policies have premiums and policy values based upon the American Experience Table of Mortality and $3 \frac{1}{2}$ per cent interest, Illinois standard method of valuation.

If. This Company has no policies issued on lives resident in tropical or subtropical countries.
III. The average rate of interest earned during the year was $5 \cdot 95$ per cent.

## IV. The distribution of surplus-

(a) The Company is mutual and has no stockholders.
(b) The contribution formula was used for determining dividends. For the year 1920 excess interest earnings were computed at $2 \frac{1}{\delta}$ per cent of the terminal reserve and mortality savings were graded according to the number of years the policy had been in force. Paid-up insurance, extended insurance, and paid-up endowments are converted on the basis of the net single premium.
(c) The Company has no participating annuity policies..

## Sun Life-Continued.

## MISCELLANEOUS STATEMENT.

1. Calculation of the "Reserve," in the "Statement of Actuarial Liabilities". -

* (1) Assurance policies were classificd for valuation according to mode of participation in profits, and further subdivided into plan, year of issue and age at entry. The age nearest birthday at entrance and medial duration were used in the valuation; prior to October 1st, 1914 the age next birthday was used in determining the premium, but since that date the age nearest birthday has been used. Reserves were based on the Om (5) Table of Mortality with $3 \frac{1}{2}$ per cent interest for all policies issued prior to January 1st, 1903, and 3 per cent for all policies issued on or after that date,

Annuity policies were classified according to plan and attained age at December 31st, 1920. The attained age on this date was ascertained by deducting the year of birth from the current calendar year, and adding six months. The age used in determining the gross premium was the age last birthday, allowance being made for half years of age. The reserves were based on the British Offices Select Life Annuity Tables $O$ (am) and $O$ (af) with $3 \frac{1}{2}$ per cent interest, select annuity values being used when the duration was less than five years.

## Spccial Classes-

(a) Under Tropical Life and Limited Payment Life policies on the Reserve Dividend plan issued since 1900 the reserves held are practically according to the American Tropical Table. Under Endowments and other plans, the ordinary Om (5) reserves are set aside.
(b) Policies issued with premiums corresponding to ages higher than the true ages were valued at the rated up ages.
(c) Policies issued subject to a lien were valued as if the full amount were payable without any deduction.
(d) Extra premiums are charged for occupational hazards only, and are payable annually. The extra is disregarded in valuation.
(e) Policies are issued on substandard lives either subject to an extra premium or at a rated-up age, or subject to a lien.
$(f)$ The benefits under policies providing for disability benefits and issued prior to January 1st, 1918 consist of waiver of premium and payment of the sum assured in 20 equal annual instalments in case of total and permanent disability before attaining age 60. Before occurrence of disability, the additional reserve was taken to be half of the extra premium for the disability benefit. After occurrence of disability, if the waiver of premium benefit has been selected, an extra reserve is set aside of the present value of the future premiums according to a table of disabled lives. (Transactions of the Actuarial Society of America, Volume 12). Where the instalment benefit has been selected the policy is cancelled and the present value of the instalment certain at $3 \frac{1}{2}$ per cent is set aside as a reserve.

Policies issued in Canada and the United States on and after January 1, 1918, provide for waiver of premium and annuity of 10 per cent of the sum assured in case of total and permanent disability before age 60. The extra reserve before occurrence of disability is based on tables formed by combining the Om (5) Table of Mortality with the Table of Disabled Lives. (T.A.S.A. Volume 12). After occurrence of disability, and extra reserve is set aside consisting of the value of the annuity of 10 per cent of the sum assured and of the future premiums waived, according to a table of disabled lives.
(g) Annuities on underaverage lives are valued without reference to the life being underaverage.
(2) Items of Special Rescrve.
(a) No extra reserve is maintained under limited payment and single premium policies or immediate annuities on account of prepaid or limited loadings as the excess of interest earned over the valuation rate is considered ample provision.
(b) Additional reserve is held to provide for cash values in excess of the net premium reserve on the basis of valuation employed.
(c) The Company's automatic non-forfeiture provision takes effect at the end of the second policy year. No reserve is maintained to cover the option of reinstatement of policies which have lapsed before the end of the second policy year.
(d) No reserve is held to cover the option of renewal under Term policies.
(e) No reserve is held to cover the option of conversion under Term policies.
II. With reference to the Special classes in 1. (1) (a) to ( $f$ ) the guaranteed values are the same as those inserted in the corresponding policy without extra premium or lien, but in the case of policies issued at a premium corresponding to an age higher than the true age, the guarantees are those for such higher age.
III. The average rate of interest earned during the year on the net invested ledger assets was $5 \cdot 76$ per cent.
IV. Distribution of Surplus.
(a) Policyholders receive 95 per cent of the distributive share of the surplus derived from participating policies, and the shareholders 5 per cent. The shareholders are entitled to the full surplus derived from the non-participating business.
(b) Method by which the Dividends to Policyholders have been Computed. Policies at Northern Rates.

Annual and Fire Year Dividend Policies.
The methods of allotting profits to Annual and Five Year Dividend policies is a modification of the Contribution plan. The profit derived from interest is distributed in proportion to the reserves on the policies, and the profit from other sources in proportion to the loadings on the net premiums.

The basis on which profits were allotted to policies becoming entitled thereto in the year 1920, was as follows:-

Loading-The excess over the Om (5) $3 \frac{1}{2}$ per cent premiums.
Reserves-Om (5) $3 \frac{3}{2} \%$

## Sun Life-Continued.

## MISCELLANEOUS STATEMENT-Continued.

## Annual Dividend Policies.

Annual Dividend policies issued prior to January 1, 1914, received no profits for the first year, but the first dividend was declared at the end of the second policy year. Policies issued on and after that date received a dividend at the end of the first policy year, taking effect upon the payment of the second year's premium.

Second and subsequent quinquennia 1-24 per cent per annum on the Om (5) $3 \frac{1}{2}$ per cent reserve at the end of the two years previous, i.e. at the end of the 8 th, 13 th, 18 th, etc. years, making 6.2 per cent for a full five year period.

## Policies at Tropical and Subtropical Rates.

The basis on which profits were allotted to these policies in the year 1920 was as follows:-
Loading. The excess over specially calculated premiums based on Tropical and Subtropical tables of mortality, with $3 \frac{1}{2} \%$ interest, with a varying constant according to plan. The Tropical Table used is the Jones American Tropical Table as given in the Transactions of the Actuarial Society of America, Volume 4, and the Subtropical Table has been constructed from the mean $q=$ of the Jones American Tropical Table and the Hm. Table.

Interest Profit-Calculated in the same way as in the case of policies at northern rates.

## Reserve Diridend Policies.

The method adopted for recording the accumulations and distributing the profits to Reserve Dividend policies (with dividend periods of ten years or longer) is as follows:-

Reserve Dividend assurances are treated as a separate group by themselves, or in fact, practically a sub-company within the company. They are credited with all premiums received under Reserve Dividend policies, all interest or profits earned on their accumulations, and are debited with the actual expense connected with their policies, ascertained as accurately as possible, the actual death claims. surrender values and other payments made under such policies. Account is thus kept of the amount of the Company's funds contributed by the Reserve Dividend policies.

In order to ascertain the accumulation of individual policies tables of values designated Standard Asset Shares, have been prepared for the various plans of assurance and ages at entry on a basis corresponding very closely, with the Company's past experience as regards expenses, mortality, lapses, interest, etc. These tables, in other words, show the approximate share of each individual policy in the assets of the Company, according to the length of time it has been in force.

SESSIONAL PAPER No. 8

## Sun Life-Continued.

## MISCELLANEOUS STATEMENT-Concluded.

The sum-total of the Standard Asset Shares for all Reserve Dividend policies is then obtained by multiplying the sums assured as grouped for valuation purposes, by the proper Standard Asset Shares. This total thus represents the amount of funds the Company should have in hand in order to pay its Reserve Dividend Policies the amount which would be coming to them at the end of their respective Reserve Dividend periods, on the basis of the Standard Asset Shares. The total of the actual funds at the credit of Reserve Dividend policies is then compared with the total of the Standard Asset Shares, and this comparison shows whether maturing Reserve Dividend policies should reeeive larger or smaller amounts than the final Standard Asset Shares. By means of this comparison the basis for the settlement of maturing Reserve Dividend policies is decided upon.

The dividends paid in 1920 are in the ease of policies issued prior to the 31st December, 1899, the excess of the total cash settlement over the Om (5) $3 \frac{1}{2}$ p.c. reserve, and in the case of policies issued since that date, over the higher special reserve voluntarily guaranteed and held by the Company against such Deferred Dividend policies. The amount of profits contingently apportioned or credited to Reserve Dividend policies has been arrived at, by following the method given above.

## Conversion of Dividends into Paid-up Assurance, etc.

In the case of Five Year and Annual Dividend policies the reversionary bonus addition is the amount of paid-up assurance which the cash profits will purchase according to the Om (5) table with 3 per cent interest, for policies at northern rates, and according to the tropical or subtropical tables mentioned above with 3 per cent interest where the policies have been issued at tropieal or subtropical rates. The temporary reduction on Five Year Dividend policies is in all cases the annuity which the cash profit will purchase aecording to the Om (5) table with $3 \frac{1}{2}$ per cent interest.

The surrender value allowed for reversionary bonus additions is 95 per cent of the reserve on the Om (5) table, or the equivalent cash profits originally allotted, whiehever is greater. In the case of Reserve Dividend policies at northern rates the bonus addition or premium reduction (for Life or Limited Term) is the amount of paid-up assurance or annuity which the Reserve Dividend profits will purchase according to the $\mathrm{Om}(5)$ table with $3 \frac{1}{2}$ per cent interest. For policies at tropical or subtropical rates, the bonus addition is based on the tropical or subtropical table.

## DEFERRED DIVIDEND POLICIES.

## MISCELLANEOUS STATEMENT.

I. The calculation of the "Reserve" in the "Statement of Actuarial Liabilities":-
(1) The Company values all insurance policies on the net level premium reserve system on the "British Offices Life Tables, 1893, Om (5)" with the rate of interest at $3 \frac{1}{2} \%$ per annum. Insurance policies are valued in groups, as to premium paying policies, by calendar years of issue, each year's issue being sub-divided by plan and age at issue. Paid-up and extended term insurance are grouped loy year of maturity or expiration, each group being sub-divided by calendar year of birth-the valuation being based on the net single premium for the age attained. Insurance contracts other than paid-ups are valued at the age nearest birthday at date of issue, this corresponding with the age on which the gross premium charge is based. The duration is the number of full years clapsed between the calendar ycar of issue and the year when the reserve is calculated, increased by one-half a year; that is, on a policy issucd in the calendar year of 1910 the reserve as of December 31, 1920, would be the eleventh year mean reserve.

Life Annuity contracts are valued individually on the "British Offices Select Life Annuity Tables, 1893 ," male or female, according to the sex of the annuitant, the age at entry being taken as the age at last birthday.
Special Classcs.-
(a) The Company issues no policies on lives resident in tropical or subtropical countries.
(b) The company issues no contracts at premiums correrponding to ages higher than the true ages.
(c) Policies subject to liens; that is, in cases where the payment of an amount less than the full amount of insurance may be made in event of death during certain periods are valued for the full amount of insurance.
(d) Policies issued at a fixed extra premium payable annually are valued as standard insurance the same as if no extra premium were charged. The company issucs no policies providing for the payment of a single extra premium.
(e) Most of the Company's business on sub-standard lives is issued according to certain mortality ratings on the basis of the American Experience table, such as $125 \%, 150 \%, 200 \%$, etc. Such a rate applied to an individual risk means that it is considered that the probability of dying in each year is $125 \%, 150 \%$ or some other per cent, as the case nay be, of the normal probability of dying according to the American Experience table. For valuation purposes, however, all the Company's substandard business is considered as being on a $150 \%$ basis. A special mortality table, commutation columns, net premiums and reserve have been calculated on the basis of $150 \%$ mortality and the Company's substandand business is valued on the basis of this exact reserve.
(f) Waiver of premium disability benefits were valued according to Hunter's Disability tables with $3 \%$ interest. On the Company's later contiacts, which provide for maturity in cent of total permanent disability, valuation was made on the lasis of $2 \frac{1}{4}$ times the reserve for the premium waiver benefit according to Hunter's tables-this ratio having been found upon examination to be sufficient to cover the actual reserve required. The reserve on policies issued with Disability Frovision 1 and with Disability Provision 2 has been taken as $80 \%$ of the gross annual premiums on insurance issued with these provisions dated in 1920 and in force December 31, 1920, and as $135 \%$ of the gross annual premiums of insurance issued with these provisions dated in 1919 and in force December 31,1920 and as $150 \%$ of the gross annual premiums of insurance issued with these provisions dated 1918 and in force Lecember 31, 1920. These percentages were chosen to insure that the resulting reserve would be greater than if it were actually valued on Hunter's table. After disability the present value of premium waiver benefits is calculated according to the Life Annuity values on disabled lives on Hunter's table. Under contracts which have matured at disabillty the present value at $3 \frac{1}{2} \%$ interest of the unpaid instalments is carricd as a liability.
(g) The company has issued only two Life Annuity contracts on lives classed as under arerage and such contracts have been valued as on the age last birthday to which the reduced rate charged corresponds.

SESSIONAL PAPER No. 8

## The Travelers-Continued

## MISCELLANEOUS STATEMENT-Concluded.

(2) Items of special reserve-
(a) No special reserve is beld under limited and single premium policies on account of prepaid or limited loadings and no additional reserve is carried under immediate annuities to cover future expenses.
(b) The only guaranteed benefits which exceed in value the net premium reserve on the basis of valuation employed are pro rata paid-up values, for which additional reserve of 8500 , has been ineluded in Liabilities-"Reserve, Special or Surplus Funds."
'c) No reserve is held in excess of the cash surrender value on aceount of lapsed policies subject to, reinstatement but which have not been continued in foree under automatic non-forfeiture provisions.
(d) No reserve is maintained to cover the option of renewal under term policies..
(e) No reserve is maintained to cover the option of conversion into higher premium policies.
II. Substandard polieies issued with a fixed extra premium have the same cash surrender, paid-up values and extended term insurance values as standard policies. Policies issued on a percentage mortality basis as explained in 1-(1) have all these values worked on the corresponding extra mortality percentage reserve as explained in (1)-(e), the same percentages of reserve being taken to obtain these values as under standard policies.
III. The average gross rate of interest earned during the year 1920 by the Life Dept. was $5 \cdot 35 \%$. The average net rate earned after deducting expenses was $4.88 \%$
IV. The distribution of surplus.-
(a) The participating policyholders' share of the surplus is ascertained as indicated in (b) below. The balance of the surplus is the property of the stockholders.
(b) The dividends paid by the Company in 1920 under its annual dividend contracts were determined as follows;

Profit from loading-Certain percentages to cover expenses. $13 \%$ on the Ordinary Life and 20 Payment Life plans and $12 \%$ on the 20 Year Endowment plan were deducted from the gross premiums charged by the Company. The difference between the resulting rates and the corresponding net premiums, according to the American Experience table with $3 \%$ interest, was accumulated for one year at $4 \frac{1}{2} \%$ interest.

Profit from Mortality-Mortality ranging from $44 \%$ to $85 \%$, varying with the age and form, was used in determining the mortality. The saving in mortality allowed ranges, therefore, from $15 \%$ to $56 \%$ of the net cost of insurance, according to the American Experience table, $3 \%$ interest.

Profit from interest-Interest profit on the initial reserve at $1 \frac{1}{2} \%$ was used.
Summary: The sum of the above three items of profit represents the total dividend which could be taken by the insured in cash or applied in reduction of the current annual premium, or be used to purchase additional paid-up insurance on the basis of the net single premium at the age attained, according to the American Experience Table of Mortality, $3 \%$ interest. The subsequent eash value of these additions was computed on the same basis. The cash dividends cannot be converted into any other benefit.

Deferred dividends: The liability held on account of Deferred Dividend contracts is obtained by aecumulating the annual dividends that would have been paid on these contracts if they had been issued on annual dividend forms, the accumulation being on the basis of the American Experience table with $4 \frac{1}{2} \%$ interest.
(c) All the company's Life Annuity contracts have been issued on the non-participating basis.

## MISCELEANEOUS STATEMENT.

I. The calculation of the "Rescree" in the "Statement of Actuarial Liabitities."
(1) Policies were valued individually according to medial duration and ages at issue. Prior to Oct. 10, 1914, polieies were issued at ages next birthday, unless not more than two months had elapsed since the last birthday prior to date of issue, in which case the age last birthday was taken. Policies issued subsequent to Oet. 10, 1914 were rated at ages at nearest birthday. The basis of valuation was the OM (5) Table of Mortality and $3 \%$ interest for Life Participating Policies issued prior to January 1st 1913, and $32 \%$ interest for all other Policies.

Snecial Classes-
(a) No policies have been issued on lives resident in tropical or subtropical countries.
(b) Where policies were issued at premiums corresponding to ages higher than the true ages, the reserve was taken at the higher ages.
(c) Where policies were issued with liens, the full reserve was maintained.
(d) No additional reserve was set aside on account of extra premiums.
(e) No policies were issued on sub-standard lives, exeept as described in (b), (c) and (d).
(f) An additional reserve equal to the unearned premiums was set aside for policies contiaining disability benefits. (2) Waiver of premjums granted in one case only and full reserve maintained.
(o) No annuities have been issued.
(2) Items of Special Reserve.
(a) No special reserves are maintained except as follows:-
(b) An adequate additional reserve is held in respect to policies providing for guaranteed benefits which exceed in value the net premium reserve on the basis of valuation.
II. No modifications are made in eash surrender or paid up insurance values. In case of sub-standard lives, the extended term insurance is usually omitted.
III. The average rate of interest earned during the year on the mean net ledger assets was $5 \cdot 78$ per eent.
IV. The Distribution of Surplus.-
(a) Up to the present moment the Shareholders, by unanimous consent, have waived their right to participate in the division of profits earned, so that all such profits have been credited to Policyholders account.
(b) The first distribution of dividends was made in the year 1920. $25 \%$ of the previous year's mortality cost and $1 \%$ of the previous year's initial reserve was allocated to all policies which had been in force five years or more. Dividends are converted into premium reduction, reversionary bonus addition etc., on a net premium basis.
(c) No annuities have been issued.

The Travellers Life of Canada-Conclude 1.

## MISCELLANIOUS STATEMENT

I. The calculation of the "Reserve" in the "Statcment of Actuarial Liabilities"-
(1) Policies and Annuities were valued upon the mean basis of valuation on the $\mathrm{O}^{\mathrm{m}}$ (5) Table of Mortality, with interest at $3 \frac{1}{2} \%$, at the nearest age at date of issue figured from the date of birth given in the original application, the office premium for such policies being computed at that age.

Special Classes-
There are no special class policies.
(2) Items of special reserve -

No special reserves are maintained.
II. There are no special class policies.
III. The average rate of interest earned during the year on the mean net ledger assets was 4.74 per cent.
IV. The distribution of surplus-
(a) Purely mutual company. All surplus belongs to policyholders.
(b) To each annual dividend policy issued prior to January 1, 1901, there is apportioned from the surplus of this Company a dividend equal to the aggregate of $2 \frac{1}{2}$ per centum of the loading plus 10 per centum of the tabular mortality for the year, and to all other annual dividend policies a dividend of the same percentage of the loading and tabular mortality plus $33 \frac{1}{3}$ per centum of the tabular interest on the initial reserve, said dividend to be distributed to each policy upon its respective anniversary date in 1920 if the premium then due is paid, unless otherwise provided in said policy; provided however, that upon any of said policies issued prior to January 1, 1909, as may have become paid up and upon which a policy loan may be outstanding on said anniversary date, said dividend shall be distributed only if the interest then due on said loan is paid.

## DEFERRED DIVIDEND POLICIES.

Issued prior to January 1, 1911, No profits have as yet been apportioned thereto except on classes ending their periods.

| Year of Issue. |  | Total Net Amount in Force. | Year of Issue. |  | Total Net Amount in Force. |

## SUMMARY OF RESERVE.

## MASCELLANEOUS STATEMENT.

I. The calculation of the "Reserve" in the "Statement of Actuarial Liabilitics."
(1)Policies and annuities were valued individually, the age at which the net valuation premium was taken being the same age used in determining the premium or consideration in the contract, namely that at birthday nearest date of issue under assurances, and that at last birthday preceding date of issue under annuities, the duration being the difference between valuation year and year of issue plus one-half year. Policies and annuities were all valued on the American Experience Table of Mortality with $3 \frac{1}{2} \%$ interest. To the total thins obtained $1 \%$ was added to make the reserve conform to the Canalian standard.

Special Classes-There are no special class policies except as follows:-
(f) The Company has issued a Canadian policy providing for disability benefits, waiver of premiums only after total and permanent disability after policy has been one year in force and before age 60. Reserve for disability benefit is calculated according to Hunter' table with $3 \%$ interest.
(2) Items of Special Rescrve-There are no items of special reserve.
II. No modification or limitations in respect of guaranteed values-namely, cash surrender value, paid-up insurance, extended term insurance or automatic extended term insurance-are made under the special class policy referred to in I. $1(f)$ above.
III. The average rate of interest carned during the year was $5 \cdot 01$ per cent.
IV. The distribution of surplus-
(a) Subject to a proper contingency fund shareholders may receive $7 \%$ ner annum and policyholders may receive dividends as declared by the Board of Directors.
(b) The method by which the deferred dividends to policy-holders, illustrated in the dividend schedule, have been computed is as follows:-Four and one-half per cent. interest and the share of policies cancelled are added to the annual unit (which for each year is the same as the annual dividend basis on the corresponding plan, namely, twenty-five per cent. of the loading plus a percentage of the reserve equal to the difference between four and one-half per cent. and the assumed rate of interest used in calculating the reserve guaranteed in the policy) and twelve and one-half per cent. of the basis thus derived was taken as the dividend.

No dividends to shareholders have been dechared since 1919 and no dividends to pohicy-holders since April 1920.
(e) Annuity contracts are non-participating.

## DEFERRED DIVIDEND POLICIES.

Issued prior to January 1, 1911. No profits have as yet been contingently apportioned.

## MISCEILANEOL゙S STATEMENT

I. The calculation of the "Rerserve" in the "Stutement of Actuarial Liabilitics."
(1) For valuation purposes, policies of the same plan and same year of issue were grouped as to age at entry, being the age used in fixing the premiums. The age used in fixing the premium was taken as the age next birthday for all policies issued prior to May 1st, 1915, and the age nearest birthday for policies issued after that date. Prepared tables of mid year policy values on the Om (5) $3 \frac{1}{2} \%$ basis were used. No annuities have been issued.

Sperial Classes-
(a) No tropical or sul)-tropical business has been transacted.
(b) No policies have been issued at premiums corresponding to ages higher than the true one.
(c) In the valuation of policies any liens were ignored.
(d) Fxtra premiums were disregarded in valuation.
(e) No policies issued to sub-standard lives except those subject to lien, extra premiums or on short term endowment plans.
(f) Disability benefits consist of waiver of premium only.

Additional reserves for this benefit were held as follows:-
(1) The reserve maintained per $\$ 1,000$ was as follows: 10 c . for duration $\frac{1}{2}$ and inereasing by 5 c . for each full year's increase in the duration up to 55 e . for duration $9 \frac{1}{2}$.
(2) After occurrence of disability, policies were valued as though disability had not occurred.
(2) Items of Special Reserve-

There are no special reserves except as follows:-
(b) Guaranteed cash values in excess of the net premium reserve on the basis of valuation employed were valued as pure Endowments, the additional reserve so found being added to the ordinary reserve. II. No modifieations or limitations are made under the special elass policies referred to in 1. (1) (a) to (f). III. The average rate of interest earned during the year on the mean net ledger assets was $6 \cdot 43$ per cent. IV. No Surplus has yet been distributed.

## MISCELLANEOUS STATEMENT.

I. The Society carries on business in Canada and in the following states of the United States, namely Maine, Rhode Island, and New Hampshire.
II. Members who have resigned or who have been suspended may be reinstated on producing satisfactory evidence of health and on payment of all arrears.
III. Any member insured for not less than five years under Systems No. 1, 2, or 3, may within two years after cessation of membership obtain a paid up certificate for fixed percentages of the contributions as follows: after 5 years membership, $25 \%$; after 10 years, $50 \%$; after 15 years, $75 \%$; after 20 years, $100 \%$.
IV. No distribution of surplus has ever been made, but all members would be entitled to share in any distribution.

## SUMMARY OF THE REPORT OF THE ACTUARY

made in accordance with the requirements of Section 112 of the Insurance Act, 1917 (1919 Ameudment affecting Friendly Societies).

The Report was made by Mr. Mervyn Davis of New York City, Fellow of the Actuarial Society of America, and Associate of the Institute of Actuaries of Great Britain.

The rate of interest earned during 1920 on the benefit funds was $6.77 \%$.

## Mortuary Fund.

Investigations into the mortality experienced for the years 1913 to 1917 and for the year 1920 showed that the actual claims were within the N.F.C. expected.

The plans of insurance are known as Systems numbers 1 to 6 .
Systems 4, 5 and 6 are respectively, ordinary life, limited payment life, and endowment assurances with surrender values based on American Experience Mortality and 4\% interest. Tabular net premium reserves on these bases were used in the valuation. Age next birthday at entry was assumed to be the true age at entry. The reserve to cover the permanent disability benefits was $\$ 2,704$ in all.

Systems 1, 2 and S. System 1 is ordinary life insurance; system 2, term insurance to age 70 with the face amount payable in ten equal annual instalments following age 70, the instalments outstanding at death being then payable in one sum, while in event of total and permanent disability, the premiums are waived, one half the face amount is paid and the balance beromes paid-up for settlement as above described. System 3 is similar to System 2, except read "age 60" for "age 70." These systems provide for paid up values after five years, being a percentage of premiums paid, while Systems 2 and 3 provide for loan values after ten years of $50 \%$ of the premiums paid.

The valuation bases used for Systems 1, 2 and 3 were: For business issued subsequent to 1906, N.F.C. $4 \%$; for earlier issues, N.F.C. $5 \%$.

Valuation Balance Sheet.

The Actuary certifies that in his opinion the assets of the Society applicable to the Mortuary Fund, as at Dec. 31, 1921, together with the premiums to be thereafter received from the members according to the scales in force at the said date, are sufficient to provide for the payment at maturity of all the obligations of the Fund without deduction or abatement.

## Infantile Fund.

The amount of insurance is very small, the fund is undoubtedly solvent, and as an estimate of the reserve liability practically the whole net ledger assets have been entered. Estimated reserve $\$ 750$, surplus $\$ 118.61$.

## Sickness Fund.

Description of certificates. Indemnity accruesfrom the eighth day of disability, period of indemnity limited to 20 weeks in any calendar year and 80 weeks in the aggregate throughout the whole lifetime of any one member. Certificates provide weekly indemnity of $\$ 5.00$. ( $\$ 10.00$ double benefit.)

The valuation bases were Manchester Unity, Whole Society (National Health Insurance, England, "subrlivided" Experience), 4\%. The ratios of actual to expected claims were determined by age groups, and the valuation made by R. P. Hardy's "ages passed through method ".

## SESSIONAL PAPER No. 8

## Alliance Nationale-Concluded.

The premiums payable, less $5 \%$ carried to the expense fund, were valued, negative reserves being excluded.

To allow for the limitation to 80 weeks indemnity throughout life, contracts were all assumed to terminate at age 90 .

Summary of valuation data: Number of certificates, 23,597 ; weekly indemnity in force, $\$ 135,345$; premiums valued, \$129,658.80.

The Actuary certifies that in his opinion the assets of the Society applicable to the Sickness Fund, as at 31st Dec., 1921, together with the premiums to be thereafter received from the members according to the scales in force at the said date, are sufficient to provide for the payment at maturity of all the obligations of the Eund without deduction or abatement.

SUMMARY OF RESERVE.

## SESSIONAL PAPER No. 8

## Ancient Order of Foresters-Continued

## SUMMARY OF THE REPORT OF THE ACTUARY

made in accordance with the requirements of Section 112 of the Insurance Act (1919 Amendment affecting Friendly Societies).
The Report was made by Mr. J. B. MeFiechnie, of Toronto, Fellow of the Institute of Actuaries of Great Britain, and Fellow of the Actuarial Society of America.

## Mortuary Funl.

A complete statement of the Insurance Fund is furnished to the Department of Insurance each year, substantially the same as that furnished by old line companies.

The books and records of the society are in satisfactory form and tests made showed the valuation data to be accurate.
$T$ he rate of interest realized during the year on the mean net ledger assets was $5.4 \%$.
Policies were grouped for valuation according to year of issue, plan and age at issue (next birthday) used in fixing the premium, and the valuation was made from prepared tables of mid-year reserves calculated according to the net premium method on the Om (5) $3 \frac{1}{2} \%$ bases. The full loading in the premiums is reserved for expenses. On discontinuance of premium payment after three years, a member is entitled to a cash value, paid-up insurance, or extended insurance, the value of which in no case exceeds the reserve.

A summary of the valuation is given on page 462.
The Actuary certifies that in his opinion the reserve shown in the said summary together with the premiums, dues and other contributions to be received from members according to the scale in force at the date of valuation is sufficient to provide for the payment at maturity of all the obligations of the Insurance Fund without deduction or abatement.

The net reserve liability shown by the valuation was $\$ 571,413.00$, while the fund available to be set against this liability is $\$ 692,970.13$, giving a surplus of $\$ 121,557.13$. This surplus has largely arisen from interest earned in excess of that assumed in the valuation and from favourable mortality:

In the distribution of surplus, the contribution method was used, the following being the factors:Interest, $5 \%$; Expenses, $5 \%$ of gross premium plus $\$ 3.00$ per $\$ 1,000$ of insurance; Mortality, $40 \%$ of Hm Table.

## Other Funds.

The records of the Sick and Funeral Fund and of the other minor funds were not found to be in such condition as would enable an actuarial investigation to be made. Improvements are being effected, and it is anticipated that valuations can be made as at 31st December, 1921.

## BENEFITS GRANTED UNDER SICKNESS CERTIFICATES.

There is no "waiting period " after admission. A member is entitled to an indemnity during sickness of $\$ 5$ per week ( $\$ 10$ per week, "double benefit system") for, not exceeding 15 weeks in any calendar year. Throughout the whole period of membership, a member is not entitled to more than $\$ 400$ of sickness indemnity ( $\$ 800$, "double benefit system "). A member who, during any calendar year, claims the full fifteen weeks indemnity cannot thereafter claim indemnity for sickness occurring within six months dating from the end of the last week for which indemnity was paid.

## MISCELLANEOUS STATEMENT.

I. The society carries on business in Canada and in the following states of the United States:Massachusetts, Maine, New Hampshire, Michigan, Connecticut, Rhode Island, Vermont, New Lork.
II. Members rnay be reinstated in the mortuary fund at any age under 60 years, subject to passing a satisfactory medical examination, on payment of arrears of premiums with interest at 6 per cent per annum. In the Sick Benefit Fund the limiting age is 55 years.
III. Subject to statutory requirements, a member in good standing, not less than five years in the Society, is entitled on demand, to a paid-up certificate of a reduced amount or for the full amount but for a limited term. The reserve accumulated under the original certificate, less $\$ 25$ per $\$ 1,000$, is applied to purchase the paid up insurance on the Am. $3 \frac{1}{2} \%$ basis. After premiums are in default for 90 days, all rights of membership are forfeited, but, if at date of forfeiture the membership was of five years duration or upwards, the beneficiaries will have the right to claim the amount of reduced paid up insurance available as at date of forfeiture.
IV. If the valuation of an actuary shows a surplus in the mortuary fund in excess of $10 \%$, the surplus or any part thereof may be applied in payment of assessments falling due. One full assessment was thus paid, in the mortuary fund, in each of the years 1915, 1916 and 1917.

## SUMMARY OF•THE REPORT OF THE ACTUARY

made in accordance with the requirements of Section 112 of the Insurance Act, 1917 (1919 Amendment affecting Friendly Societies).

The Report was made by Mr. J. B. Mabon, of Montreal, Fellow of the Actuarial Society of America, and Associate of the Institute of Actuaries of Great Britain.
The rate of interest earned on the mean net ledger assets of the Society during 1920 was $5 \cdot 13$ per cent.

## Mortuary Fund.

The valuation was made throughout on the N.F.C. $4 \%$ basis, with provision for the payment of claims immediately on maturity and for the payment of premiums monthly. The Total and Permanent Disability feature of the certificates provides for the payment on the occurrence of disability of one-half the sum assured, in full satisfaction of all obligations under the certificate. No additional reserve was made for this feature as, on the average, no loss arises thereunder to the Society.

Members admitted as at age next birthday were assumed, on the average, to have attained age next birthday at the end of the calendar year of entry and in the valuation they were assigned the full duration dating from the end of the calendar year of entry. Members admitted at age nearest birthday, and members re-rated in the 1912 readjustment as at age last birthday on 31 December, 1912, were assumed, on the average, to have attained the integral age assigned at entry or at readjustment, as at July Ist in the year of entry or in 1912, respectively; and in the valuation they were assigned the full duration dating from the said July 1st.

Full allowance was made in the valuation for the provision for expenses, and negative values were excluded. The benefits which accrue on discontinuance of membership are less in value than the reserve on the basis of valuation.

## Artisars Canadiens Franģais-Continued.

Summary of Valuation.

| - | Number of Members. | Amount Assured. | Premiums Payable. | Premiums Valued. | Net <br> Liability. | Negative Values Excluded. |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | \$ | \$ cts. | S cts. | § | \$ |
| Whole Life | 44,700 | $34,848,860$ | 638,407 52 | 633,851 90 | 4,325,388 | 27,554 |
| Lim. Pay. Life | 1,359 | 1,318,455 | 29,960 37 | 28,719 76 | 15, 423 | 11,291 |
| Endowment. | 1,831 | 1,412,350 | 61,72736 | 58,685 89 | 39,146 | 9,379 |
| Pension at 70 | 156 | 116,000 | 1,799 38 | 1,779 98 | 6,724 | 148 |
| Paid-up Life. | 1,404 | 173,013 |  |  | 90,560 |  |
| Paid-up Term. |  | 1,000 |  |  | 5 |  |
| Totals. | 49,451 | 37,869,678 | 731,894 63 | 723,037 53 | 4,477,246 | 48,372 |

Valuation Balance Sheet.

| Assets. | Liabilities. |  |  |
| :---: | :---: | :---: | :---: |
| Funds applicable to Mortuary Bene- |  | Present value of benefits... | \$14,610,931 00 |
| fits.......... | \$ 4,826,166 19 | Liabilility on lapsed policies. | 10,000 00 |
| Present value of future contributions. | 10,133,685 00 | Other liabilities. | 59,968 56 |
|  |  | Surplus. | 278,951 63 |
| Total. | \$14,959,851 19 | Total. | §14,959,851 19 |

The Actuary states that in his opinion the reserve shown by the above valuation, together with the premiums to be received according to the scales in force, is sufficient to provide for the payment at maturity of all obligations of the Mortuary Fund, without deduction or abatement.

## Sickness Fund.

The remarks above under "Mortuary Fund" as to ages and durations apply to the Sickness Fund.
The valuations which had previously been made by the Department of Insurance were based on rates of sickness experienced by the Society during the years 1911 to 1916, inclusive. During more recent years, however, the sickness experienced by the Society has been reduced, due, it is believed, to administration of the business centrally rather than through the branches and the consequent more efficient supervision of claims. During the years 1919 and 1920, over $23 \%$ of the claims were on account of influenza. Notwithstanding, however, the total claims were only $86 \%$ of the expected according to the 1911-16 experience. If all the influenza claims had been excluded, the ratio of actual to expected would have been $66 \%$. In these circumstances it was deemed necessary to make valuations on bases more nearly in keeping with recent experience, and in accord with what seems safe to assume for the future. Accordingly rates of sickness were deduced following the general trend of 1911-16 experience but modified to agree with the experience of 1919 and 1920 with the omission of $25 \%$ only of the 1919 influenza claims. The influenza claims thus excluded were $17 \%$ of the total influenza claims and but $4 \%$ of the total claims from all causes.

A valuation was made using the reduced rates of claim and N.F.C. mortality with $5 \%$ interest. Ninety-five per cent of the premiums payable was valued, the remaining five per cent being carried to the General Expense Fund. Negative values of $\$ 88,384$ were excluded and no allowance was made for profit from lapses nor for the limitation of benefits payable to each member throughout life to $\$ 400$. (Double benefit $£ 800$ ). The degree of solvency shown was $89 \cdot 4 \%$.

The Actuary has, however, made up a Valuation Balance Sheet in which credit is taken for less than $20 \%$ of the negative values above referred to, an allowance is made for the profit from lapses to the extent of $\$ 100,000$, and an allowance for the saving by reason of the $\$ 400$ limit to total benefit. The Balance Sheet stands as follows:

Taluation Balance Sheet at $5 \%$.

Other I iabilities.
6, 564

## SESSIONAL PAPER No. 8

## Artisans Canadiens Franģais-Coniinued.

The degree of solvency shown by the above Balance Sheet is $94.8 \%$.
The actuary states that in his opinion the deficiency in the sickness fund, which is almost entirely due to the remission of assessments in former years, will be ravidly reduced under the centralized method of administration and he has therefore not recommended that any change in assessments or benefits be made until further time be given for observing the progress of the Fund.

## Infantile Fund.

With the exception of two contracts valued on the $\mathrm{Hm} .3 \frac{1}{2} \%$ basis, the valuation was made on the Standard Industrial Mortality Table, $3 \frac{1}{2} \%$. The benefits are small per individual membership. The total number of members is 7,192 , the reserve $\$ 11,333$, and the net funds applicable to benefits, $\$ 12,981.07$.

The Actuary is of the opinion that the reserve on the above basis, together with the contributions to be received according to the scale at present in force, is sufficient to provide for the payment at maturity of all the obligations of the Fund without deduction or abatement.

## BENEFITS GRANTED UNDER SICKNESS CERTIFICATES.

A weekly benefit of the sum of $\$ 5.00$ is paid for a period not to exceed fifteen weeks, or $\$ 75$, in any one year. No member can draw, during his membership, more than $\$ 400$, as a sick benefit A member of advanced age, or one physically disabled (the medical director of the Association being the judge as to the member's condition) is allowed to draw $\$ 5.00$ a week for ten weeks in any one year, up to the sum of $\$ 400$ unless he is paying double premiums, when he may draw, $\$ 10.00$ a week for fifteen weeks a year, but not to exceed $\$ 600$.

## MISCELLANEOUS STATEMENT.

I. The society carries on business in Canada and in the following states of the United States:-New Hampshire, Rhode Island, Maine, Michigan, Illinois, Connecticut.
II. A member holding a death benefit certificate, whose policy has lapsed through a failure to pay premiums as due, may, within ninety days from the date of his last mortuary premium payment, pay to the Association the amount for which he is in arrears and be reinstated to good standing. During this ninety day period of suspension the insurance is carried upon the books and the reserve liability against.

## Association Canado-Américaine-Continued.

such policies is eomputed and carried into the regular reserve as reported. After a period of ninety days, he must pass a satisfactory medical examination and be declared in good health, and pay all back premiums.

A member holding a Sick and Aceident certificate, whose policr has lapsed through failure to pay premiums as due, may within ninety days from the date of his last sick and aecident premium payment, pay to the Association the amount for which he is in arrears and be reinstated to good standing. After a period of ninety days, he must pass a satisfactory medical examination and be cleclared in good health and pay all back premiums.
III. Any members of this Association having reached the age of 70 years, and having been a member in gnod standing for a perind of 20 years, can discontinue his regular premium payments, in which event he has a right to draw sick benefits not to exceed the sum of $\$ 400$. (or $\$ 600$ under double benefit contracts). Any member having reached the age of 70 , can discontinue his regular premiums to the Mortuary Fund, and in event of his death, after haring done so, the face of his certificate will be paid to his beneficiaries, less the unpaid premiums, with four per cent interest, from the date of his discontinuing payment to the date of his death. Under readjustment, now being completed, inadequate rate members are brought up to rate at attained age, and their interest in the reserve is used to reduce their rate, by applying each one's share as an annuity for the term of the contract. If a member elects not to continue, he is granted his share of reserve, which would apply as an annuity in reduction of rate, in the form of paid up insurance. All members entitled to this benefit are treated as if they were to continue their insurance, and therefore, their share of reserve is included in the reserve reported, the valuation having been so made.
IV. No class or classes of members are entitled to share in any distribution of the surplus funds of the Association or to benefit by the omission of non-collection of premiums.

Geveral Business Statement for the Iear ending December 31, 1920.

SESSIONAL PAPER No. 8

## Assoctation Canado-Américaine-Continued. <br> LEDGER ASSETS.

## SUMMARY OF THE REPORT OF THE ACTUARY*

made in accordance with section 112 of the Insurance Act (1919 amendment affecting Friendly Societies).

The refort was made by Mr. Sidney H. Pipe, of Toronto, Fellow of the Actuarial Society of America and Associate of the Institute of Actuaries of Great Britain.

Membership is restricted to French-Canadians and French-Americans who are Roman Catholics.
An increase in rates of members admitted prior to 1 st. January, 1904 , affecting $70 \%$ of the whole membership, became effective as at 1st. January, 1921 , and these increased rates were used in the valuation. In lieu of the increase in rates an equivalent lien at $4 \%$ was available to members.

Judging from the mortality which has been experienced in the past and making allowance for the adverse mortality which may be experienced consequent on the readjustment effective 1st. January, 1921, the Ha Table, Text Book Graduation, seems safe and suitable for valuation.

The rate of interest earned during 1920 was $5 \cdot 52 \%$.
In determining upon a suitable rate for valuation purposes weight was given to the following circum-stances:-
(1) Now investments can be made at rates in excess of that being earned, (2) no surrender values are granted, (3) it was decided not to use the lapse factor, and (4) to exclude negative reserves. Therefore it was deemed safe and proper to use a rate of interest approximately equal to that being earned. Accordingly $\mathrm{H}_{\text {m }} 5.5 \%$ was used for the whole life business, the factors being approximately determined from the $5 \%$ and $6 \%$ values. For the other plans N. F. C. $4 \%$ was used. Whole life policies were valued at ages attained. For business issued on and after January 1st, 1914, age attained was taken as age nearest birthday at entry plus $n+\frac{1}{2}$, where n is the curtate duration as at 31 st December, 1920. For business issued prior to 1st. January, 1914, age attained was taken as age nearest birthday 31st December, 1920.

Special provision is made for expenses apart from the benefit premiums valued.

## Association Canado-Américaine-Concluded. <br> Sickness Department.

The sickness bencfits (single) are as follows: (1) In event of sickness or accident, $\$ 5.00$ per week for not more than fifteen weeks in any twelve months; (2) In event of total and permanent invalidity by reason of accident or sickness, $\$ 5.00$ per week for not more than ten weeks in any twelve months; (3) After age 65 , if a member becomes inearable of work by reas $n$ of old age, $\$ 2.50$ per week for not more than ten weeks in any twelve months. (This benefit has since the close of 1920 , been increased to $\$ 5.00$ per week). Dating from January 1, 1914, the aggregate benefit under all three heads above noted which can be paid to any member is $\$ 400$ (for double benefits, $\$ 600$ ).

The monthly rates (ncn-hazardous class) for single benefits are: ages $16-24,35$ c ; 25-34, 40c; 35-40, $45 \mathrm{c} ; 41-50,50 \mathrm{c}$. 5 per cent of these rates may be used for expenses whenever the fund reaches $\$ 3,000$, and, in the valuation, was assumed to be always deducted. (Abrogated since date of valuation).

The sickness experience of the Association was not available for valuation except as indicating a tentative adaptation of the Manchester Unity (1893-97) experience, which was combined with N.F.C. mortality and $5 \%$ interest.

The Actuary certifies that according to the information available the reserve shown by the above valuation together with the premiums to be received from members according to the scale in force at the date of valuation are sufficient to provide for the payment at maturity of all the obligations of the Sick Benefit Fund without deduction or abatement assuming no increase to be made in the scale of benefits.

The mid-year ret level premium reserve on business issued in Canada since date cf license, as at December 31,1920 , was $\$ 425,27$. In respect of the whole Canadian business, the value of benefits was found to be $\$ 239,393.00$, the value of future contributions therefor, $\$ 189,030.00$, and the required reserve, $\$ 50,363.00$.

Note by Department:-The Society first obtained a Dominion License June 23, 1920, and by virtue of the provisions of the Insurance Act maintains a deposit with the Receiver General of Canada in respect of members admitted since that date equal to the N.F.C. $4 \%$ net level premium reserve in respect of certificates in force issued since date of license. The deposit must not, however, in any case be less than $\$ 10,000$. The amount of deposit as at December 31, 1920, was $\$ 15,000$.

## ENHIBIT OF SICKNESS CERTIFICATES.

## SESSIONAL PAPER No. 8

## Catholic Mutual Benefit Association-Continued. SUMMARY OF THE REPORT OF THE ACTUARY.

The Report was made by Dr. Frank Sanderson, Fellow of the Actuarial Society of America, and Fellow of the Faculty of Actuaries in Scotland.

The rate of interest earned during the year on the mean net ledger assets was $4.72 \%$.
The valuation bases used were as follows:-As respects the Mortuary Department:- Whole Life policies with continuous premiums and paid-up policies were valued at ages attained, sums assured and premiums separately, on the N.F.C. $4 \%$ bases, using continuous factors, $A_{x}$ and $a x$. The age attained was advanced to make provision for the possible continuance of extra mortality. Limited payment policies provide for a proportionate paid-up policy in the event of discontinuance of premium payment after five years and were valued on the N.F.C. $4 \%$ bases. Term policies were also valued on the N.F.C. $4 \%$ bases. Negative values were exciuded, and it is believed the liens included in the assets are in every case less than the reserve maintained. No special reserve has been made for the reinstatement of lapsed policies, except that the additional extra mortality reserve inade is deemed adequate to cover all contingencies not directly provided for in the valuation.

As respects the Sickness Department:-The valuation was made at ages attained, benefits and premiums separately, on the bases of the Manchester Unity Experience, as to sickness, combined with N.F.C. mortality and interest at $3 \frac{1}{2} \%$.

The age attained for valuation purposes was the office age plus one-half year.
The whole of the provision for expenses was reserved in the valuation.

## SUMMARY OF THE REPORT OF THE ACTUARY

made in accordance with the requirements of Section 112 of the Insurance Act, 1917 (1919 Amendment affecting Friendly Societies).

The Report was made by Mr. Mervyn Davis, of New York City, Fellow of the Actuarial Society of America, and Associate of the Institute of Actuaries of Great Britain.

## Mortuary Fund.

The rates paid by members up to January 1, 1913, were insufficient to provide the benefits granted. On the said date N.F.C. 4\% rates became effective for new members, but were applied to existing members as at original age at entry. The funds in respect of these two sections of the membership have been separated and are being kept separate. By reason of the low rates paid by members before January 1, 1913, the fund accumulated to their credit shows a large deficiency. This will be referred to more particularly hereinafter.

The mortality experienced since 1913, in comparison with the N.F.C. Table was favourable in respect of the members admitted since that date, notwithstanding the heavy influenza claims; but in respect of earlier entrants it has been unfavourable, being $15 \%$ in excess over the whole period.

The interest earned during 1920 on the mean ledger assets was $5 \cdot 10 \%$.
As above stated, the rates being paid by members admitted since January 1, 1913, are N.F.C. $4 \%$, and in view of the mortality experienced by these members and the rate of interest earned, the said bases are deemed safe and appropriate for valuation.

In respect of the members admitted prior to January 1, 1913, the funds being known to be deficient, it was not thought worth while to attempt to determine accurately the amount of the deficiency on appropriate bases, especially as a scheme for placing this section of the business on a sound footing is being prepared. And therefore, for present purposes, this section of the business was also valued on the N.F.C. 4\% bases.

No benefits are allowed in event of discontinuance of premium payments.
As the premiums valued are the net premiums according to the bases used in valuing the benefits, no negative reserves were disclosed in the valuation. Provision was made for payment of claims immediately on maturity and for payment of premiums monthly.

## Catholic Order of Foresters-Concluded.

Valuation Summary (Whole Socicty) as at December 31, 1920.

## SESSIONAL PAPER No. 8

## The CommercialTravellers Mutual Benefit Society-Continued.

## SUMMARY OF THE REPORT OF THE ACTUARY

made in accordance with the requirements of Section 112 of the Insurance Act. 1917 (1919 Amendment affecting Friendly Societies).

The report was made by Mr: L. In. File of Toronto, Fellow of the Institute of Actuaries of Grea ${ }^{\text {t }}$ Britain, and Fellow of the Actuarial Society of America.

The certificates of the Society provide for payment of the sum assured at death only. No surrender values are given.

The valuation was made at age attained as at December 31, 1920, the sums assured and the premiums applicable to mortuary purposes being valued separately. The valuation bases used were Canada Life Ultimate Table with $4 \frac{1}{2} \%$ interest.

During the year 1920 the rate of interest earned on the mean net ledger assets was $5 \cdot 55 \%$, showing a margin of more than one per cent over the rate used in the valuation.

An investigation was made into the mortality experienced by the Society during the last five years' which shows that there has been a steady and well-marked improvement, resulting in a slight profit in the year 1920 .

The Valuation Balance Sheet prepared by the Actuary is as follows:-

| Assets. |  |  | Liabilities. |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Funds applicable to mortuary benefits... <br> Present value of future contributions applicable to benefits. |  | $\begin{aligned} & 194,79001 \\ & 577,67500 \end{aligned}$ | Present value of mortuary benefits. |  | 763,166 00 |
|  |  | Other liabilities, viz:- |  |  |
|  |  | Death losses not yet settled |  | 4,000 00 |
|  |  | Premiums and assessments paid in advance. |  |  |
|  |  | Borrowed money.. |  | 60000 |
|  |  | Surplus............................. |  | 4,024 48 |
|  | \$ |  | 772,46501 |  | \$ | 772,465 01 |

The Actuary certifies that in his opinion the Funds applicable to Mortuary Benefits as at Dec. 31, 1920, together with the premiums, dues and other contributions to be thereafter received from members in accordance with the scale in force at the said date, are sufficient to provide for the payment at maturity of all the Mortuary obligations of the society without deduction or abatement.

## SESSIONAL PAPER No. 8

## The Independent Order of Foresters-Continued.

## BENEFITS GRANTED UNDER SICKNESS CERTIFICATES.

Regular Beneficiary Members in Sick Benefit Department are entitled to receive three dollars per week for first three weeks' continued illness, and five dollars per week thereafter for twenty-three weeks continued illness.
"Continued illness" shall be taken to mean any two periods of illness from any cause whatsoever for which the members claim benefits when the interval between the last day of one period of illness and the first day of the next reriod of illness shall not exceed twelve months, and no member shall be entitled to claim benefits in this deartment after he shall have received twenty-six weeks' benefits for continued illness until the expiration of at least twelve months from the illness for which he last received benefits.

No funeral benefits now granted.

## MISCELLANEOUS STATEMENT.

I. The Order carries on business in Canada, Great Britain and Ireland, Newfoundland, Ceylon, Denmark, Norway, and in the following states of the United States:-Arizona, California, Colorado, Connecticut, District of Columbia, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New York, North Dakota, Ohio, Oregon, Pennsylvania, Rhode Island, South Dakota, Tenessee, Texas, Utah, Virginia, Vermont, Washington, West Virginia and Wisconsin.
II. Reinstatement of members may be made upon application, with satisfactory medical report, payment of amount due, and approval of Supreme Chief Ranger, or Executive Council. (See Constitution and Laws, See. 140 to 144 inclusive.)
III. In event of discontinuance of premium payment, no benefits are granted.
IV. Pre 1899 members are entitled to Fraternal Grants of $\$ 75$ per thousand of insurance, on payment of elaim, if surplus warrants same.

## SUMMARY OF THE REPORT OF THE ACTUARY

made in accordance with the requirements of Section 112 of the Insurance Act, 1917 (1919 Amendment affecting Friendly Societies.)

The Report was made by the Actuary of the Order, Mr. Sidney H. Pipe, of Toronto, Fellow of the Actuarial Society of America, and Associate of the Institute of Actuaries of Great Britain.

## Mortuary Fund.

The Order's Act of Ineorporation prescribes as the minimum reserve basis, the "Forester's Experience" with 4 per cent interest. This experience takes into account profit from lapses, both in the premium valued and in the valuation faetors.

The Order issues one form of policy providing: (a) The face amount at death before age 70; (b) 70 per eent thereof in event of total and permanent disability before age 70, payable in three annual instalments of 20 per cent, 20 per cent, and 30 per cent; 70 per cent of the face amount assured in one sum as an old age benefit at 70 or later.

No surrender values are given. A few Endowment Assuranees issued years ago are in force.
In accordance with the Constitution and Laws of the Order, provision must first be made for the reserves required to be maintained by the Act of Incorporation, and the expenses are to be met out of any surplus remaining.

An investigation into the mortality experienced during the years 1912 to 1915 inclusive, showed that at early ages the ultimate experience was in close agreement with the "Forester's Experience" which is the minimum reserve basis, but at higher ages heavier mortality was experienced. In addition to the minimum reserves required by the basis of valuation above referred to, the Order maintains $\$ 1,000,000$ speeial reserve. The Actuary states that in his opinion $\$ 750,000$ of this amount should be regarded as a provision for the heavy mortality at the advanced ages above referred to.

The rate of interest earned by the Order during the year on its mean net ledger assets was 4.4 per cent.

## 'Tue Independent Order of Foresters-Continued.

The Actuary certifies that the reserve shown above, together with the net premiums to be received hereafter by the Order, according to the basis laid down in the Order's Act of Incorporation, being the Independent Order of Foresters' Consolidated Act, 2-3 George V. (Canada) Chap. 113 and amenilment thereto, are sufficient to provide for the payment at maturity of all the obligations of the Order under its policy contracts, without deduction or abatement.

## Sickness Fund.

The Order may cancel any sickness contract upon giving thirty days' notice to the member, and, therefore, the Order deems that the accumulated funds less accrued liabilities is in the nature of surplus in this Department. The net surplus funds as at 31 December, 1920, were $\$ 109,285.27$.

## SUMMARY OF THE REPORT OF THE ACTUARY

made in accordance with the requirements of Section 112 of the Insarance Act, 1917 (1919 Amendment affecting Friendly Societies).

The Report was made by Mr. Miles M. Dawson, of New York City, Fellow of the Actuarial Society of America, and Fellow of the Institute of Actuaries of Great Britain.

The rate of interest earned on the mean net ledger assets of the Society during 1920 was $4.32 \%$.
Provision is made for expenses apart from the contributions to the Benefit Funds of the Society.

## Mortuary Fund.

The valuation was made from tables of reserves on the American Experience $4 \%$ modified preliminary term bases, the mean between successive terminal reserves being used. The age at entry is age nearest birthday. The mortality experienced is within the expected by the Table used in valuation.

On discontinuance of premium payment, extended insurance for the full amount or paid up insurance for a reduced amount is granted, but not exceeding in value the reserve made in the valuation.

No provision is made to cover liability to reinstatement of lapsed memberships; reinstatement may only take place with the consent of the Society.

Stmarary of Actuarial Valuation.

## SESSIONAL PAPER No. 8

## Siekness Fund.

In addition to the ordinary weekly sickness benefit payable for not more than 12 weeks in any one year, the Society grants a special tuberculosis benefit. The valuation was based on the sickness (with appropriate adaptations) and mortality experience of the "Workmen's Sick and Death Benefit Fund of New York City," and $4 \%$ interest.

| Indiana | North Carolina | West Virginia |
| Iowa | North Dakota | Wisconsin |
| Kansas | Ohio | Wyoming |
| Kentuky | Oklahoma |  |
| Louisiana | Oregon |  |
| Maine |  |  |

II. Suspended insured members applying for reinstatement within three months of suspension may be reinstated by simply paying amount due. If application for reinstatement is made after expiration of three months from date of suspension, a majority vote of the subordinate council and new medical examination are required in addition. Members suspended more than one year are not allowed to reinstate.
III. Only members on level rates and who have reached age 57 are entitled to benefits upon discontinuance of assessment payments. Such members may secure certificate for reduced amount or for temporary extended insurance. These are granted after payment for at least two years on Regular Level Fifteen Year Plan, or at least three years on other level rates.
IV. The only distribution of surplus funds of the Society is by the waiving of regular death benefit assessments. When an assessment is waived all classes of insurance members are affected. During the last five years the following insurance assessments have been waived: July and December, 1916.
*Includes receipts from Insurance and Non-Insurance, or so-called associate, members.

## ENHIBIT OF CERTIFICATES.

## SUMMARY OF THE REPORT OF THE ACTUARIES

made in accordance with the requirements of Section 112 of the Insurance Act, 1917 (1919 Amendment affecting Friendly Societies).

The Report was made by Messrs. Fackler and Fackler, Consulting Actuaries, New York City.
The Order transacts mortuary business only and issues one form of certificate, namely, five year renewable step rate to age 55 with an extra premium collected and accumulated to provide for a reduction in the level rate for whole life insurance upon attainment of age 55 . On attainment of that age the member has three options: (a) whole life insurance, premiums continuous throughout life; (b) whole life insurance premiums payable for fifteen years; (c) the Economic Flan, premiums payable to age 70, the insurance remaining uniform until age 61 , after which it decreases by $\$ 50.00$ per annum to $\$ 250$ at age 75 and thereafter.

From the nature of the contract the most practical way of valuation is by means of prepared tables of reserves. These tables were based on the Fraternal American Table, 4 per cent, accumulation method, nearest ages being assumed from year to year following entry.

The mortality experienced in 1920 was 76.98 per cent of the expected; for the years 1914 to 1920 (including influenza and war claims), 99.78 per cent. The interest earned during the year 1920 on the mean net ledger assets was $4 \cdot 48$ per cent. The valuation bases used are therefore deemed to be safe and proper.

The following is a summary of the valuation-Whole Society:-

## Description of Certificates.

*Ages attained less than 55 years
Ages attained over 55.
Reduced paid-up and Extended Term (ages over 57 )
Totals

Number Certificates. 190, 298
13,511
44
203, 853

|  | Net |
| :---: | :---: |
| Amount | Reserve |
| Assured. | Liability. |
| \$202, 694, 000 | \$6,469,500 |
| 14, 516, 850 | 2,527,708 |
| 12,660 | 7,196 |
| \$217,223,510 | \$9,004,404 |

Note:-The reserves above are calculated to provide for the payment of the reduced level rates applicable at ages over 55.

No provision is made in the valuation for future expenses, as expenses are provided for by assessments levied on all members of the Society, Associate as well as Insurance members. As at December 31, 1920, there were 202,359 Insured members and 507,930 Associates, making 710,289 in all.

No benefit accrues under membership certificates on discontinuance of premium payment prior to ages 57 or 58 , at which ages reduced paid-up or full extended insurance is granted.

## Valuation Balance Sheet-Mortuary Fund.

## Assets.

Funds applicable to Mortuary
benefits.......................... $\$ 11,592,91606$

Liabilitics.

| Reserve liability | \$ 9,004,404 00 |
| :---: | :---: |
| Accrued claims. | 190,762 86 |
| Surplus. | 2,397,749 20 |
| Total. | \$11,592,916 06 |

*Including also $\$ 105,000$ at attained ages 55 to 59 issued frior to 1915 and still on the step rate plan running to age 60 .

## INights of Columbus-Conchuded.

Liens against certificates are allowable only beyond age 5.5 and then only in payment of assessments falling due and in no case in excess of the reserve maintained. The release of reserves on account of current lapses is more than sufficient to cover the reserves on reinstated certificates, and, therefore, no reserve is necessary to cover the liability to reinstatement.

## Degree of solvency, 126.08 per cent.

The aetuaries certify that in their opinion the reserve shown above, together with the premiums to be received from members according to the scales in force at the date of valuation, is sufficient to provide for the payment at maturity of all obligations of the fund without deduction or abatement.

## Canadian Business.

The Society first commeneed business in the United States in 1882, and in Canada in 1897. The average attained age of Canarlian members must therefore be less than for the whole Society, and the proportion of the business still on the step rate plan, requiring lower average reserves per $\$ 1,000$, must be greater than for the whole Society. The average reserve per $\$ 1,000$ calculated for the whole Society. namely $\$ 41.45$ was assumed to hold also for the whole Canadian business of $\$ 6,101,750$ giving a reserve of \$252,918.

The business issued in Canada since January 1, 1920, was all valued for purposes of deposit although a deposit is required in respect only of business issutd sinee April 15, 1920, the date of license. The valuation was made on the same bases and on the same principles as the valuation of the business of the whole Society, the summary being as follows: number of members, 1,392 ; a mount insured, $\$ 1,741,000$; five-year step rate reserve, $\$ 619$; addlitional accumulation of extra premium to age $55, \$ 3,747$; total reserve, $\$ 4,366$.

Note by Department:-The Society first obtained a Dominion license, April 15, 1920, and by virtue of the provisions of the Insurance Act they maintain a deposit with the Receiver General of Canada in respect of members admitted since that date equal to the net level premium reserve in respect of certificates in force issued since date of license. The deposit must not, however, in any case be less than $\$ 10,000$. The amount of deposit as at December 31, 1920, was $\$ 10,200$.

## DISBURSEMENTS IN CANADA.

## Supreme Lodge Knights of Pythias-Continued. EXHIBIT OF CERTIFICATES.

## MISCELLANEOUS STATEMENT.

I. This Society is licensed in all states of the United States and in Canada and Hawaiian Islands.
II. Members are entitled to reinstatement providing payment is made during the following month for which it is due without other requirements. A medical examination is necessary in addition to the back payments where the lapse extends for more than 90 days.
III. On all forms of certificates, other than the step rate plan, the Am. Experience $3 \frac{1}{2}$ per cent reserve is maintained. In cases where a lapse occurs after 36 months, the reserve is used to purchase "paidup" or "extended" insurance.
IV. An annual accounting of the outstanding insurance in force on December 31st of each year is held and such surplus funds as are found available are distributed to the members entitled thereto by means of waived payments. One payment has been waived each year since 1908 (except in the year 1912), while two payments were waived in the years 1908, 1909 and 1911.
$V$. The rate of interest earned during the year on the mean net ledger assets of the whole Society was slightly in excess of 5 per cent.
VI. An inyestigation of the mortality of the Society was made some years ago which showed that the American Experience Table made ample provision for mortality, and valuations have since been made by the said Table with interest at $3 \frac{1}{2}$ per cent from tables of reserves prepared on the above bases according to the level net premium rescrve method.
VII. The Valuation Balance Sheet of the Mortuary Fund of the Society as a whole, as at 31 December, 1920, is as follows:

Assets.
Admitted assets................ $\$ 12,376,53423$
Total......................... $\overline{\$ 12,376,53423}$

## Liabilities.

| Reserve | \$11,019, 66898 |
| :---: | :---: |
| Accrued liabilities. | 272,348 39 |
| Value of unpaid instalments | 55,103 51 |
| Surplus. | 1,029,213 35 |
| Total. | \$12,376,534 23 |

VIII. The reserve, American Experience $3 \frac{1}{2}$ per cent, on the whole Canadian Business of the Society is $\$ 103,657.80$, and on Canadian Business issued since date of license, $\$ 52.57$.
IX. Mr. Henry Moir, of New York City, Fellow of the Actuarial Socicty of America, Fellow of the Institute of Actuaries of Great Britain, and Fellow of the Faculty of Actuaries of Scotland, certifies to the accuracy of the reserves shown above, to the fitness of the valuation bases used in determining the condition of the Society from year to year, and that the assets of the Society, with the premiums to be received according to the scales in force, are sufficient to mature all the insurance obligations of the Society.
Note by Derartment: The Society first obtained a Domirion License, September 7, 1920, and by virtue of the ; rovisions of the Insurance Act maintains a der osit with the Receiver General of Canada in res, ect of members admitted since that date equal to the American Fx erience $3 \frac{1}{2} \%$ net level premium, reserve in respect of certificates in force issued since date of license. The der osit must not, however in any case be less than $\$ 10,000$. The ame unt of del osit as at 31 Dec. 1920, was $\$ 20,000$.

## SUMMARY OF THE REPORT OF THE ACTUARY

made in accordance with the requirements of Section 112 of the Insurance Act, 1917 (1919 Amendment affecting Friendly Societies).

The Report was made by Mr. Mervyn Davis of New York City, Fellow of the Actuarial Society of America, and Associate of the Institute of Actuaries of Great Britain.

The Society grants death benefits only. No withdrawal equities are allowed. As at August 1, 1917, a new table of rates was adopted for new members and there was established for their protection a Special Surplus Benefit Fund to which is carried annually the amount shown by a valuation to be the required accumulation to maintain the contributions of members level and uniform, and in addition an amount at least equal to 10 per cent of the required accumulation to provide against emergencies. Contributions are first carried to the Expense Fund, and monthly there is carried therefrom to the Mortuary Fund, an amount sufficient to meet maturing claims in respect of new rate members, and annually there is carried to the Special Surplus Benefit Fund amounts ascertained as above. In view of the contemplated readjustment of "Old Rate" business, (prior to August 1, 1917), it was decided, as at the end of 1920, in order to properly preserve the equities of the "New Rate" members to set aside for their benefit an additional Special Emergency Reserve of $\$ 100,000$.

Investigations into the mortality experienced shows that the N.F.C. Table is safe for the valuation of both old and new business. The rate of interest earned during 1920 on the mean net ledger assets was $4.56 \%$. Consequently, the valuation bases used were N.F.C. $4 \%$.

The New Rate business is on the full preliminary term basis, and the valuation was made accordingly from prepared tables of reserves. The mortuary assessments are, however, somewhat in excess of the full preliminary term.

The valuation of the Old Rate business was made by deducting the value of the future premiums from the value of the sums assured.

## Ladies' Catholic Benevolent Assoclation-Concluded

Valuation Balance Sheets, as at 31 December, 1920.
(a) Business issued since 31 July, 1917. (Whole Society).

139,285 73

Total
$\$ 28,187,18116$
Degree of solvency, $46.35 \%$.
Summary of Actuarial Valuation (Whole Society) as at 31 December, 1920.

| Description of Certificates | Amount Assured. | Value of Amount Assured. | $\begin{gathered} \text { Value } \\ \text { of } \\ \text { Premiums. } \end{gathered}$ | Reserve. |
| :---: | :---: | :---: | :---: | :---: |
| "New Rate"- |  |  |  |  |
| Ordinary Life.. | . \$32, 989,750 00 | \$... | \$............ | § * 457,32423 |
| Term to $70 \ldots$ | 57,75000 46,250 |  |  | $* 22291$ $* 7142$ |
|  | \$33,093,750 00 | \$............ |  | § 457,618 56 |
| "Old Rate"Ordinary Life. | 56,923,000 00 | 28,047,895 43 | 8,567,174 75 | 19,480,720 68 |
| Totals. | . $\$ 90,016,75000$ |  |  | \$19,938,339 24 |

Note.-Total 1920 issue, excluded from the valuation under the preliminary term method, $\$ 7,794,750$, making the total assured $\$ 97,811,500$.

The actuary certifies that, in his opinion, the reserve shown by the above valuation summary, together with the premiums, dues and other contributions to be received from the members according to the scales in force at the date of valuation, is sufficient to provide for the payment at maturity of all the obligations of the Mortuary Fund without deduction or abatement.

The net available assets falls short of the required reserve as shown above by $\$ 14,977,981,86$.
A plan for the readjustment of the "Old Rate" business is under consideration.

## Canadian Business.

The Sickness and Accident certificate of the Maccabees provides for benefits for sickness of from one day to eight months in case sickness confines to the house and from one day to twenty-four months for total disability from accident; pays double indemnity if member is injured while riding on passenger conveyance propelled by steam or electricity; monthly benefits for sickness or accident up to $\$ 120.00$ per month according to premium and occupation.

## MISCELLANEOUS STATEMENT.

I. The Society carries on business in Canada and Alaska and in the following states of the United States: Alabama, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Florida, Georgia, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming.
II. Members may reinstate without health certificate within ten days after date of suspension. After this ten days and before the expiration of three months from date of suspension, member may be reinstated by furnishing health certificate. Thereafter he must join the Society as a new member except that if he has extended protection under the 20 Pay or Whole Life Special certificates, he may restore his certificate to good standing any time within the period of extension by furnishing evidence of insurability.
III. On 20 Pay and Whole Life Special forms the laws provide paid-up or extended benefits after three full years of membership if membership be maintained. The amounts and duration are determined by the reserve less $\$ 10.00$ per thousand, being used as a single premium at net rates.
IV. There is no provision for participation.

## SUMMARY OF THE REPORT OF THE ACTUARY

made in accordance with the requirements of Section 112 of the Insurance Act, 1917 (1919 Amendment affecting Friendly Societies).

The report was made by Mr. Mervyn Davis of New York City, Fellow of the Actuarial Society of America, and Associate of the Institute of Actuaries of Great Britain.

The average rate of interest earned during the year on the mean net ledger assets was $5 \cdot 05 \%$.

## Mortuary Fund.

In 1916 the Society began to issue 20 Payment Life and Whole Life Special, with rates and guaranteed surrender values based on the American Experience Table, full preliminary term, 4\%; and in October, 1919, Straight Whole Life with rates based on the Fraternal Combined Experience Table, full preliminary term, $4 \%$, but without surrender values prior to age 70; also term to age 45, based on N.F.C. $4 \%$. These plans are herein designated "New Business"; all other, "Old Business."

A memorandum account has been kept in respect of the "New Business", and it is the intention to segregate the funds of the two classes.

The age at entry is, in all cases, age last birthday, and the valuation age attained was taken as age at entry plus mean duration plus oue.

The mortality of the "New Business" classes was found to be well within that provided for by the tables on which the rates were based, and, therefore, the valuation was made on the same bases as used in calculating the rates. In respect of the "Old Business", it was found that the mortality under the Whole Life Plan and certain short term plans had been within the N.F.C. expected, and the valuation was made on the N.F.C. $4 \%$ bases; while under the balance of business the the mortality was found to be within the American Experience expected, and the valuation was made on the Am $4 \%$ bases.

For the valuation of permanent disability benefits, Hunter's rates of disability were used.
The few cases in which negative reserves arose were excluded.
The benefit payable "in the event of loss by accident within ninety days from date of the accident, of one leg, of one arm, of one foot, of one hand, or complete loss of sight of one eye" was taken at 6 cents per $\$ 100$.

The option to pay one-half of the certificate upon surrender in event of total and permanent disability has been neglected, as this value is in general less than that of the certificate if continued.

The Actuary certifies that, in his opinion, the reserves shown by the above valuation summary, together with the premiums, dues and other contributions to be thereafter received from the members according to the seale in force at the date of valuation, are sufficient to provide for the payment at maturity of all the mortuary benefits without deduction or abatement.
"Old business" members have been offered the privilege of transferring to the "New Business" (solvent) class, and, on transfer, the share of the assets in the "Old Fund", determined to be the equity of the member, is applied to reduce his contributions under his certificate in the "New Fund."

## SESSIONAL PAPER No. 8

The Maccabees-Concluded
Valuation Balance Sheet—"New Business".
Assets.

The "New Business" section is solvent.

## Readjustment of Insolvent-"Old Business".

Against a reserve liability of almost $\$ 64,000,000$ the assets available are about $\$ 18,000,000$. The plan of voluntary transfer of members from the "Old" class to the "New" has been adopted, each member, on transfer, being given in reduction of his future premiums, his equity, if any, in the old funds. This plan is stated to have worked well in some other societies. When the voluntary transfers are all completed, some other method will, it would seem, have to be adopted to place the remaining old business on a sound basis.

## Sick and Accident Fund.

The certificates issued under thls fund are cancellable and subject to monthly premiums payable in advance. Therefore incurred claims are the only liabilities under this business.

## SUMMARY OF THE REPORT OF THE ACTUARY

made in accordance with the requirements of Section 112 of the Insurance Act, 1917 (1919 Amendment affecting Friendly Societies.)

The Report was made by Mr. A. K. Blackadar, Fellow of the Actuarial Society of.America, and Fellow of the Institute of Actuaries of Great Britain.

An investigation of the mortality experienced during the years 1919 and 1920 showed, in comparison with the American Experience Table, $106.58 \%$ and $101.08 \%$ of the expected. It is thought the mortality of the society should improve in the future due to the increase of "new" members and a concurrent decrease of "old" members.

The rate of interest earned on the mean net ledger assets during 1920 was $4.412 \%$.
The bases of valuation used throughout were American Experience 4\%. Provision was made for the payment of premiums monthly in advance, and for the payment of claims at the end of the year of maturity. Two valuations of premiums were made, namely, (a) the net premiums according to the valuation bases and assumptions, (b) the gross premiums payable (exclusive of expense contributions). In both cases all negative reserves were excluded, and liens intexcess of the reserve made were also excluded, from the assets. The ages both as at date of issue and as at date of valuation, are nearest ages.

Disability benefits were valued by Hunter's Disability Tables.
On page 532 is given a Summary of the Valuations made from which it will be seen that the net premium reserve is $\$ 11,786,653$. The Actuary certifies that in his opinion this reserve, together with the premiums, dues and other contributions to be received from members according to the scale in force as at December 31, 1920, is sufficient to provide for the payment at maturity of all the obligations of the Beneficiary Fund without deduction or abatement.

## SESSIONAL PAPER No. 8

# Supreme Council of the Royal Arcanum-Concturtect. Valuation Balance Sheet. Using Am $4 \%$ net premiums. Assets. Luablitiors. 

| Funds applicable to benefits <br> Present value of future contributions applicable to benefits. <br> Deficiency |  | 9, 620, 531 | Present value of benefits Other liabilities | \% | $\begin{array}{r} 106,639,837 \\ 559,543 \end{array}$ |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | $\begin{gathered} 94,853,184 \\ 2,725,665 \end{gathered}$ |  |  |  |  |
|  |  |  |  |  |  |
| Total | \$ | 107, 199,380 | Total. | 8 | 107, 199,350 |

The amount of funds applicable to benefits shown above is arrived at as follows:
Total gross assets..............................................................................733, 378 . 92

Note:-In making up the net assets on the basis of the gross premiun valuation the liens deducted were $\$ 209,427$ greater than shown above, reducing by that amount the net assets.

The Actuary does not advise making any change in assessments or benefits at the present time, being of the opinion that the position of the society should show improvement from year to year. The possible sources of gain to which attention is drawn are, (a) lapses (no withdrawal equities being given), (b) mortality (with the increase of "new" members), (c) excess of assessments payable over assessments valued (over $\$ 70,000$ per annum), (d) liens in excess of reserve excluded, (e) increase in market value of assets, and $(f)$ interest in excess of that assumed in the valuation.

On the other hand attention is drawn to the still unsettled condition of the spourity market and the possibility of adverse selection under certain options available to members.

## Valuation of Canadian Business:-

There were in force in Canada 3741 certificates amounting to $\$ 5,945,845$, and the reserve on the sane bases as used in valuing the whole society, net premiums, was $\$ 378,308$.

Of the above certificates, 167 for $\$ 187,500$ were issued since date of license, the reserve being $\$ 4,807$.
Note by Department.-The Society first obtained a Dominion License January 3, 1920, and by virtue of the provisions of the Insurance Act, they maintain a deposit with the Receiver General of Canada in respect of members admitted since that date equal to the net level premium reserve in respect of certificates in force issued since date of license. The deposit must not, however, in any case, be less than $\$ 10,000$. The amount of deposit as at Dec. 31,1920 , was $\$ 10,000$.

## THE ROYAL, GUARDIANS

## Statement for the Year ending December 31, 1920

President, Johs McDowall-Vice-President, John Hyde-Secretary and Manager, A. T. Patterson - Actuary, Miles M. Dawson-Head Office, Montreal.-Directors, John McDowall, D. J. Hoerner, John Hyde, O. W. G. Dettmers, W. G. Butler, E. C. Lalonde, J. H. MacIntyre, W. H. Bardwell and A. T. Patterson.
(Incorporated 1910 by $0-10$ Ed. vii, cap. 158. Commenced business July 1, 1910.)

Bencfits, siack and Fumeral Fund:- $\$ 3.00$ per week first two weeks illness and 85.00 por wewk for a further $r$ perion of 10 weeks in any one year and $\$ 50.00$ at death of member.

Benefits, Sick Fund:- $\$ 3.00$ for first week illness and $\$ 5.00$ per week for a further period of 11 weeks. For continuance of illness 2 nd year $\$ 3.00$ per week for 12 weeks, 3rd year $\$ 2.00$ per week for 12 weeks after which the momber is not entitled to any benefits on account of such illness.

## MISCELLANEOUS STATEMENT.

1. Business transacted in Dominion of Canada only.
2. Members suspended for non-payment of premiums may be reinstated within 30 days (after expiry of 30 day's grace) by payment of overdue premium, afte: 30 days and within 90 days must in addition furnish personal certificate of good health, after 90 days a medical certificate of health is required.
III. Members on the all life and endowment plans are entitled, after 3 years membership, to a paid up certificate or extended insurance to the extent that $90 \%$ of the accumulated reserve will pay for.
IV. Participating certificate holders are entitled to share any distribution of surplus which may be declared. No distribution has as yet been made.

## SUMMARY OF THE REPORT OF THE ACTUARY

made in accordance with the requirements of Section 112 of the Insurance Act, 1917 (1919 Amend ment affecting Friendly societies).

The Report was made by Mr. Miles M. Dawson, of New York City, Fellow of the Actuarial Society of America, and Fellow of the Institute of Actuaries of Great Britain.

The rate of interest carned during the year on the mean net ledger assets was $6 \cdot 19 \%$.
The valuation bases used were: Ordinary certificates, Mortuary Fund, N.F.C. $4 \%$; Industrial, Mortuary Fund, the Standard Industrial Table, $4 \%$; Sickness certificates, and Sick and Funeral certificates, Manchester Tnity Tables, $4 \%$.

Age at entry is age last birthday and the duration was taken as $n+\frac{1}{2}$ where $n$ is the valuation year less the year of issuc. The age attained, where required, was obtained by adding the duration to the age at entry.

The premiums payable are the net premiums on the valuation bases used, so that negative reserves do not arise. In the valuation provision was made for the payment of premiums monthly throughout life and for the payment of claims at the end of the year of claim.

The benefits upon withdrawal (Mortuary Fund) are extended insurance or paid-up insurance equivalent to $90^{\circ}$ \% of the reserve.

## SESSIONAL PAPER No. 8

## Western Mutual Life Association-Continued <br> MISCELLANEOUS STATEMENT.

I. The Association is licensed and does business in Canada and in the following states of the United States:-California, Idaho, Montana, North Dakota, Arizona, Texas, Kansas, Louisiana, Georgia, Kentueky, Wyoming.
II. Natural Premium or "term" certificates are reinstated when lapsed upon signing a health certificate and paying arrearages. Reserve certificates on policies are reinstated within a reasonable time upon furnishing health certificates and paying arrearages.
III. Extended insurance is given lapsed members of reserve policies. This is extended until the rescrve is exhausted.
IV. Until the year 1917 when this Society adopted adequate rates, assessments for deaths were omitted until surplus was used.

The By-laws provide that the "surplus" that is the assets above liability for rescrve, and any other liability shall not exceed a sum equal to $3 \%$ of the amount of the insurance in force. All above this sum shall be returned annually.

## SUMMARY OF THE REPORT OF THE ACTUARY

made in accordance with the requirements of Section 112 of the Insurance Act, 1917 (1919 Amendment affecting Friendly Societies).

The Report was made by Mr. F. M. Hope, Fellow of the Faculty of Actuaries in Scotland.
The rate of interest realized during 1920 on the mean net ledger assets of the Society as a whole was $3.95 \%$.

No investigation was made into the mortality experience, but risks are medically selected and the mortality appears to be within the expected, American Experience Table.

The valuation bases used were $\operatorname{Am} 3 \frac{1}{2} \%$. Level premium policies were valued on the full preliminary term basis.

The business of the Society is divided into two classes, viz., Renewable Term policies with premiums increasing to age 65 , after which a level whole life premium of $\$ 76$. per $\$ 1,000$ is charged, and ordinary plans with level premiums. A total permanent disability benefit providing waiver of premium and the payment of the sum insured in 20 equal annual instalments is included in all level promium policies.

Provision is made for future expenses in the premium loadings.

## Vallation Balance Sheet. December 31, 1920.

The Actuary certifies, that in his opinion, the reserves shown above, together with the premiums, dues and other contributions to be thereafter received from members according to the scale in force at the date of valuation are sufficient to provide for the payment at maturity of all the certificates and policy obligations of the Society on the Am. $32 \%$ bases, and that the said bases are appropriate as a test of solvency of the Society.

## Canadian Business.

The reserve, as at 31 December 1920, on Canarlian Business issued prior to date of license was $\$ 68,600.63$; and on business issucd since date of license, $\$ 4,111.00$. The amount deposited with the Receiver General was $\$ 86,000$.

# WOMAN'S BENEFIT ASSOCIATION OF THE MACCABEES

## MISCELLANEOUS STATEMENT.

1. The Woman's Benefit Association of the Maccabees issues certificates in Canada, Hawaii, Alaska and in the following states of the United States:-Ohio, New York, Pennsylvania, Illinois, Texas, Missouri, Indiana, Michigan, California, Wisconsin, Colorado, Minnesota, Washington, Iowa, Tennessee, West Virginia, Kansas, Connecticut, Virginia, Montana, Nebraska, Arkansas, Oregon, Kentucky, Oklahoma, Utah, District of Columbia, Alabama, Louisiana, Mississippi, South Dakota, Idaho, New Jersey, Rhode Island, North Dakota, Wyoming, Maryland, Arizona, Maine, Vermont, New Mexico, Georgia, Florida, New Hampshire, North Carolina, Nevada, Delaware.
II. A benefit member who has suspended herself by non-payment of monthly rates or other liabilities as hereinbefore defined, may be reinstated before the first day of the following month by paying all amounts due at the date of her suspension and which may have become due in the meantime.

A benefit member who has suspended herself by non-payment of rates or other liabilities, as hereinbefore defined, may be reinstated within thirty days from the first day of the month following that in which the said monthly rate or other liability became due by furnishing a certificate of good health on the form prescribed, to be subject to approval by the supreme medical examiner, and paying all amounts due at the date of her suspension and which may become due in the meantime.

A benefit member under suspension for non-payment for more than thirty days after the first day of the month following that in which the monthly rate or other liability was due may be reinstated by complying with the following requirements, within six months from the first day of the month following the month in which liability was due:
(1) She shall deposit with the collector the amount of money due at the time of her suspension together with the amount which has become due since that time, such amounts to be held by the collector as a deposit to await the action of the supreme medical examiner.
(2) She shall furnish at her own expense a new satisfactory medical examination from a qualified medical examiner, which medical examination shall be sent to the supreme medical examiner, and shall pay to the collector a fee of twenty-five cents which shall be forwarded to the supreme record keeper as the fee for the supreme medical examiner.
(3) The supreme medical examiner shall notify the collector of the review of the approval or rejection of such medical examination. If the medical examination is approved, the member shall be reinstated without action by the review, and the amount on deposit shall be turned into the proper fund. If the medical examination is disapproved, the collector shall return to the applicant all the money deposited by her, and the suspension shall be permanent. The applicant for reinstatement shall not be entitled to share in the benefit fund, or the privileges of the association, before her medical examination has been approved.
III. The society has in force 1443 certificates on the twenty payment plan now discontinued. A member holding twenty year payment whole life protection or twenty payment whole life and disability protection whose certificate has been in force between five and twenty years, may temporarily discontinue her payment, and shall thereupon be allowed an extension of protection for the full amount of her certificate for a period not greater than her reserve will warrant.
IV. No provision in laws at the present time for distribution of surplus funds.

## SUMMARY OF THE REPORT OF THE ACTUARY

made in accordance with the requirements of Section 112 of the Insurance Act, 1917 (1919 Amendment affecting Friendly Societies).

The report was made by Mr. Miles M. Dawson, of New York City, Fellow of the Actuarial Society of America, and Fellow of the Institute of Actuaries of Great Britain.

The rate of interest earned during the year on the mean net ledger assets was $4.915_{i c}$.

## Mortuary Fund.

Only women are admitted to membership.
As to mortality the valuation was made on the "select" experience (select period, 3 years) of the Society from the beginning up to the year 1913, a period of 20 years. The lapse factor was not used. Annual comparisons of actual with expected mortality show that the table used is a safe one for valuation purposes.

The combined Life and Total and Permanent Disability certificates provide for waiver of premiums in event of disability and an annual payment of one-tenth of the face amount for nine years, the remaining tenth being payable at death.

In the valuation of total and permanent and old age disability, Krupp's Tables based on the indoor or office experience of railroad employees was used.

Throughout, the rate of interest used was 4 per cent.
Most members were admitted at age last birthday; in a few cases age nearest birthday. In all cases the age attained for valuation purposes was taken as $x+n+1$, where $x$ is the age at entry and $n$ the integral number of years elapsed.

The premiums payable were valued by continuous annuities and provision was made for payment of claims at the end of the year of maturity.

The membership is divided into two classes, namely, those admitted since January 1, 1915, paying N.F.C. $4 \%$ rates, designated "class A"; all others, paying somewhat lower rates, designated "class B". Separate funds are, in a sense, maintained, but in the class B Balance Sheet there is included in the assets the value of interest on bonds in possession in excess of $4 \%$ and also the negative reserves shown in the class A valuation. With an increasing class A membership the amount of the negative reserves is increasing, and, therefore, in subsequent valuations the negative reserves disclosed will exceed the amount taken credit for in the present valuation.

Certificates lapsed within two months of the valuation date were included in the valuation.
The By-laws of the Society make provision for expenses as follows: (1) per capita tax, (2) certificate fee, (3) a loading on premiums of 5 c . per month per $\$ 1,000$, and (4) 80 c . per month per $\$ 1,000$ during the first year of membership (saved from favourable mortality) provided the amount paid into the benefit fund shall not be less than required to cover the current mortality costs.

The Actuary's certificate is as follows:-
I herèby certifiy that I have valued the 157,669 certificates carrying $\$ 120,590,904.44$ protection of the Class A or adequate rate class in which all entrants since January 1, 1905 have been placed, and find as follows:

1. That full actuarial reserves for Class $A$ are maintained and that the use of these reserves is confined and safeguarded to the members of this class alone, by the provisions of the laws of the Association.
*Taken to nearest dollar.

## SESSIONAL PAPER No. 8

## Woman's Benefil Association of the Maccabees-Continued.

2. That the rate tables in force for all members of Class A and for all members to be hereafter admitted to the Association are based on the National Fraternal Congress Table or a higher table, and that I consider them adequate for the future experience of the Association.
3. That in my opinion the assets of the Association applicable to the Class A membership, together with the benefit contributions to be hereafter received from the members according to the scale in force at the date of the said valuation are sufficient to provide for the payment at maturity of all the obligations of Class A without deduction or abatement.

I further certify as to Class B which consists of the members on the original rates, which are somewhat lower than those based on the N.F.C. Table.

1. That I have valued the benefit certificates of the 65,370 members of this class as of December 31, 1920, together with the assets of the Association applicable to said class and find the following condition:

Class B originally consisted on January 1, 1905, when the Association was separated into classes, (all members thereafter entering Class A on adequate rates) of 122,432 members carrying $\$ 98,075,491$ protection. On December 31, 1920, as of which date this valuation was taken, it consisted of 65,370 members carrying protection amounting to $\$ 54,166,492.69$ in protection, having lost 14,698 members for $\$ 12,570,233.98$ protection by death and 42,364 members for $\$ 31,338,764.33$ protection by suspension. The valuation of Class B, as of December 31, 1920, shows that this group has present assets accumulated from their own contributions and the interest thereon of $\$ 7,127,381.62$. There has also been contributed to them by favorable mortality, excess interest earnings over the $4 \%$ required by the valuation, and other favoring conditions the amount of $\$ 4,151,510.42$, besides which there is a present worth of excess interest on bonds now actually owned by the Association and netting a higher rate than the $4 \%$ required of $\$ 1,427,372.00$, and the present value of net contributions to be made in future by members of Class A (counting upon no increase of their number and no diminution except by death) is $\$ 1,205,002.30$.
2. That Section 317 of the present laws of the Association makes the following provision for transfer of the Class B members to the adequate rate plan. Provided further that Class B members desiring to change to Class A shall be credited with all reserve accumulated from their payments and rated accordingly * * * . It is provided further that the board of trustees may from time to time submit, in accordance with the provision of the laws of the Association, to all members in Class B desiring to transfer to Class A selective plans which shall enable Class B members to transfer to Class A without impairing. the required reserves of Class A, whenever it shall appear to said board of trustees to be for the interests of this Association so to do.
3. That the officers of the Association have fully in mind the provisions of Sec. 110 of Chapter 57 ,. of $9-10$, Geo. V. and are making plans to meet its requirements by the requisite transfer of Class $B$ to, Class A.
(Signed) Miles M. Dawson,
F.I.A., F.A.S.

## Junior Certificates.

This Fund is entirely separate from the $\mathbf{M}$ ortuary Fund.
There are two Schedules of benefits, Schedule vii, and Schedule viii. Under Schedule viii. the benefit depends on age at death, being $\$ 40$ at age 2 increasing to a maximum of $\$ 400$ at age 15 and thereafter decreasing to $\$ 80$ for ages 60 and over. The net annual premium is $\$ 1.61$.

Under Schedule vii. the benefit consists of increasing temporary insurance to age 18. At age 2 the benefit is $\$ 34$, while at age 18 it is $\$ 600$. The net monthly premium carried to the Fund is 14 c .

The valuation bases were as follows: Schedule vii, English Life Table No. 6, 4\%; Schedule viii, Standard Industrial 4\%.

## Woodmen of the World-Continued.

## SUMMARY OF THE REPORT OF THE ACTUARY

made in accordance with the requirements of Section 112 of the Insurance Act, 1917 (1919 amendment affecting Friendly Societies).

The report was made by Dr. Frank Sanderson, of Toronto, Fellow of the Actuarial Society of A merica, and Fellow of the Faculty of Actuaries in Scotland.

The average rate of interest earned during the year on the mean net ledger assets was $5 \cdot 60 \%$.
The valuation bases were - As respects the Mortuary Department:-Whole Life policies with continuous premiums and paid-up policies were valued on the N.F.C. $4 \%$ basis, the sums assured and premiums applicable to benefits purposes being valued separately at arges attained by the continuous functions $A x$ and ax. Twenty Payment Life policies were also valued upon the N.F. . . $4 \%$ basis. The term policies were valued by approximate methods, the reserve made being not less than the reserve on the N. F.C. $4 \%$ bases.

As respects the Sickness and Funcral Department:-The sickness Certificates were valued at ages attained, the benefits and premiums separately, by tables based on the Manchester-Unity Experience as to sickness combined with N.F.C. mortality and $3 \frac{1}{2} \%$ interest. The funeral benefits were similarly ralued, N.F.C. 4 有.

Ages attained for valuation purposes were the "Office ages attained" plus one-half year.
Provision is made in Whole Life and Twenty Payment Life policies for the issue of paid-up policies for reduced amounts on the discontinuance of premiums after five years. The values of such paid-up policies are within the reserves held. No cash values are given. Except in the case of members who selected the $\$ 100$ monument benefit as at July 1, 1914, the monument benefit is limited to $\$ 50$, and is contingent upon there being a surplus above liabilities. The full reserve, however, has been made throughout for the maximum amount of monument benefit.

The annual dues for expenses have been reserved in the valuation, but until the membership increases the present provision for expenses is inadequate.

Valtatios, Mortcary Fend, as at December 31, 1920.

## EXHIBIT OF CERTIFICATES-Concluded.

## SUMMARY OF THE REPORT OF THE ACTUARY

made in accordance with the requirements of Section 112 of the Insurance Act, 1917 (1919 Amendment affecting Friendly Societies).

The Report was made by Mr. C. W. Jackson of New York City, Fellow of the Actuarial Society of America.

The benefits granted requiring valuation are: Ordinary life insurance in amounts of $\$ 100, \$ 200$ and $\$ 100$; and sickness insurance, including a consumption benefit, being either sanitarium treatment or a single cash benefit of $\$ 200$. No withdrawal benefits are given.

The rate of interest earned during 1920 on the mean net benefit funds was $4.48 \%$.

## Mortuary Fund.

An investigation into the mortality experienced, including influenza claims, during the last three years showed in comparison with the N.F.C. Table favourable results at young ages and unfavourable at advanced ages. In the aggregate for all ages the actual claims were well within the expected.

For the present valuation the bases used were throughout N.F.C. $4 \%$.
Premiums increase at the end of each of the first four calendar years after issue and thereafter remain uniform. Separate provision for expenses is made, and therefore the premiums payable were valued, but all negative values were excluded. Provision was made for payment of claims immediately on maturity, and for payment of premiums continuously, this being on the safe side as premium payment is actually made quarterly. The valuation was made at the average integral age attained.

Valuation summary: number of certificates, 81,576 ; amount assured, $\delta 21,872,400$; value of amount of insurance, $\$ 6,807,487$; value of premiums $\$ 5,765,421$; net liability, $\$ 1,042,066$; negative values excluded,
\$9.373.

Total..........................

## Degree of solvency, $106 \%$.

The Actuary certifies that, in his opinion, the funds of the Society, applicable to the Mortuary Fund, taken at the value accepted by the Superintendent, together with the premiums to be hereafter received from the members according to the scale in force at the date of this valuation, are sufficient to provide for the payment at maturity of all the obligations of the said fund without deduction or abatement.

## Canadian Mortuary Business

Valuation summary of business issued prior to date of license : Number of certificates, 1,392; amount assured, $\$ 336,000$; value of sum assured, $\$ 101,139$; value of premiums, $\$ 90,406$; net liability, $\$ 10,733$; negative reserves excluded, $\$ 17.00$.

Valuation summary of business issued since date of license: Number of certificates, 497; amount assured, $\$ 122,800$; net liability, N.F.C. 4\%, $\$ 641$.

## Sickness Fund (including Consumption benefit).

The condition of this Fund is now receiving consideration with a view to a readjustment of rates which are believed to be insufficient to provide the benefits granted. Tentative valuations were made of which summaries are given below.

Valuation Sumamy, whole society.-Number of certificates, 72,344 ; value of benefits, $\$ 7,509.935$; value of premiums, $£ 5,123,799$; reserve required, $\S 2,386,136$; available funds, $\S 138,742.19$.

Valuation Summary of the whole Canadian business.-Number of certificates, 1,866 ; value of benefits, $\$ 193,520$; value of premiums, $\$ 133,687$; reserve required, $\$ 59,833$.

Valuation Summary of Canadian business issued since date of license.-Number of certificates, 495 : value of benefits, $\$ 51,327$; value of premiums, $\$ 35,685$; reserve required, $\$ 15,6+2$.

Note by Department: The Society first obtained a Dominion license March 13, 1920, and, by virtue of the provisions of the Insurance Act, they maintain a deposit with the Receiver General of Canada, in respect of members admitted since that date, equal to the net level premium reserve in respect of certificates in force issued since date of license. The deposit must not, however, in any case be less than $\$ 10,000$. The amount of deposit as at December 31, 1920, was $\$ 10.200$.

## ABSTRACT OF STATEMENTS

## OF

## INSURANCE COMPANIES IN CANADA

FOR THE YEAR ENDED DECEMBER 31 1920

(For Index See End of Volume)
(SUBJECT TO CORRECTIONS)

PRINTED BY ORDER OF PARLIAVENT

OTTAWA
THOMAS MULVEY
PRINTER TO THE KING'S MOST EXCELLENT MAJESTY 1921
 Min -

Ottafa, April. 1, 1921.

## To the Honourable Sir Henry Drayton, Minister of Finance,

## Ottawa.

Sir.-I have the honour to submit herewith an abstract of the business of insurance in Canada for the year 1920. The abstract has been made from the attested statements returned by the companies but must be considered as subject to correction.

1 shall have the honour to report to you at a subsequent date these statements in full after the usual inspections at the head offices have been made.

The year 1920 saw, in practically all lines of insurance, a continuance of the remarkable increase in volume which characterized the year 1919. The experience in the various classes although differing materially, was on the whole favourable to the companies.

## Fire Insurance.

The outstanding feature of the fire insurance business was the unprecedented increase in the volume of premiums received. In 1919 fire premiums received amounted to $\$ 40,031,474$ while in 1920 this figure was increased to $\$ 50,565,856$ an increase of $26 \cdot 31$ per cent. This increase is probably, in part at least due to the continued increase in replacement values and the better recognition on the part of the public of the resultant need of increased insurance. There were however indications before the end of the year that the rapid increase of premiums had subsided and it is probable that the increase for the current year will be much less than for the year 1920.

The ratio of losses paid to premiums received,'while slightly greater than for the preceding year was highly favourable, being 43.40 per cent. compared with 41.67 per cent. in 1919, 48.22 per cent. for the last five years and 56.96 per cent. for the last fifty-two years. The following schedule shows the distribution of premiums and losses among the different classes of companies:-

If, instead of the cash received for premiums and paid for losses we take account of the premiums written and losses incurred and also of the increase in the unearned premium reserve we have the following:-

The ratios experieneed in one-year business and in the longer term business are separated as follows:-

|  | Ratio of los per cent of earn | es incurred remiuins d | The sam | e 1919 | The sa | 1918 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | One Year or less | All other | $\begin{gathered} \text { One Year or } \\ \text { less } \end{gathered}$ | All other | One Year or less | All sther |
| Canadian Companies <br> British Companies.. <br> Foreign Companies.. | \% 48.85 | \% 50.26 | \% 47.11 | \% 4.11 | \% | \% 44.29 |
|  | 50.40 | - 48.89 | 44.66 | 42.88 | 54.80 | 48.73 |
|  | 56.29 | $50 \cdot 67$ | 43.96 | $42 \cdot 38$ | $57 \cdot 70$ | 54.94 |
| All Companies. | 51.49 | $49 \cdot 65$ | $44 \cdot 72$ | $43 \cdot 35$ | 55.85 | 49.08 |

The rate of premiums charged per cent of risks taken is shown in the following table and the record for the last seven years is also shown.

|  | 1920 | 1919 | 1918 | 1917 | 1916 | 1915 | 1914 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Canadian Companies | $\%$ 1.04 | $\%$ 1.12 | $\%$ 1.09 | $\%$ 1.14 | $\begin{gathered} \% \\ 1 \cdot 19 \end{gathered}$ | $\%$ 1.25 | $\%$ 1.24 |
| British Companies.. | 1.06 | 1.06 | 1.07 | 1.08 | 1.08 | 1.17 | 1.19 |
| Foreign Companies. | 1.04 | 1.02 | 1.03 | 1.03 | 1.04 | 1.09 | 1.09 |
| All Companies. | 1.05 | 1.06 | 1.06 | 1.07 | 1.09 | $1 \cdot 16$ | $1 \cdot 17$ |

Separating the one-year and longer term business the following rates are shown:-

The table of premiums written and losses incurred by Provinces shows as usual a wide difference between the loss ratio experienced in different parts of the country as follows:-

| Province | 1920 |  |  | $\begin{gathered} \text { Ratio } \\ 1919 \end{gathered}$ | Ratio 1918 | Ratio 1917 | Patio 1916 | $\begin{aligned} & \text { Ratio } \\ & \text { 1916-1920 } \\ & \text { Inclusive } \end{aligned}$ |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Premiums written | Losses Incurred | Ratio |  |  |  |  |  |

| Totals. | 34,776,032 | 24,720,850 | $45 \cdot 13$ | $41 \cdot 10$ | $50 \cdot 76$ | $55 \cdot 62$ | $58 \cdot 78$ | 48.91 |

The favourable experience of the year must again, as in 1919, be largely attributed to the favourable moral hazard which prevailed due to the high cost of replacement of property. This is particularly true in the case of buildings as distinguished from contents. The feeling prevails at the present time that building costs will decline during the present year and that there will be a further decline in the values of stocks. The combination of these conditions will produce a hazard which has always been unfavourable to insurance companies, and it will be of interest to

## SESSIONAL PAPER No. 9

note whether the improvement in construction and the attention being paid to fire prevention work will be sufficient to counteract these unfavourable conditions.

One feature of the business of the year deserving of special mention is the increase in the number of licensed companies operating on the mutual or reciprocal plan. In 1917 the Insurance Act was amended to make it clear that licenses could be granted under the Act to persons associated for the purpose of reciprocal insurance, and since that time licenses have been issued to three reciprocal exchanges specializing in the insurance of lumber. There have also been licensed during the year 1920, three mutual companies from the United States specializing in the insurance of retail hardware stores. Another mutual company transacting general business has also during the year received a license for business throughout Canada, its license theretofore being confined to the Province of British Columbia.

These companies are making themselves felt as competitive factors in the fire insurance business. Their plan of operation is, as a rule, fundamentally different from that of the stock insurance companies for the reason that in the event of profits being realized on the year's business a distribution of a portion thereof is made to the policyholders. On the other hand, should extensive losses occur, the policyholders are liable to be called upon to contribute to make up the shortage. This system of insurance carries an undoubted appeal to many property owners who are willing to take the risk of being obliged to contribute in the event of extensive losses for the sake of being guaranteed insurance at cost in the meantime. On the other hand, persons who desire complete indemnity regardless of the experience of the company will be attracted to the ordinary system of insurance. It is to be expected that the influence of the mutual companies will become more and more felt so long as the present favourable experience in the fire insurance business continues.

## Life Insurance.

During the year 1920 the life insurance companics may be said to have resumed normal experience so far as death claims are concerned, the offect of the war and of the influenza having practically disappeared with the year 1919. The volume of busincss written, however, continued to increase during the year 1920, the gross amount of business written and paid for in cash being $\$ 641,778,095$, compared with $\$ 524,543,629$ in 1919 and $\$ 313,251,556$ in 1918. Of this increase a considerable amount is due to the growth in group insurance which was authorized in Canada in the year 1919. During that year the amount written was comparatively small but during the year 1920 the net amount in force reached the total of $\$ 76,925,486$.

The death claims paid during the year amounted to $\$ 22,144,771$ compared with $\$ 24,579,197$ in 1919.

The total amount of business lapsed and surrendered during the year was $\$ 169,804,956$ or $26 \%$ of the new business written. The corresponding figures for 1919 were $\$ 122,325,141$ and $23.32 \%$ respectively.

The total net amount of business in force in Canada at the end of 1920 was $\$ 2,657,037,219$ an increase of $\$ 469,199,902$ over the net amount in force at the end of 1919 .

## Casualty Insurance.

The figures for all classes of casualty insurance for the year are as follows:-

|  | Premiums received | Losses paid |
| :---: | :---: | :---: |
|  | \$ | 8 |
| Aecident. | 2,340,732 | 949, 711 |
| Combined Accident and Sickness | 1, 073,158 | 543,358 |
| Automobile (A). | 2,366,540 | 1,186,655 |
| Automobile (B). | 2,886,941 | 1,506,614 |
| Burglary. | 481,006 | 203,983 |
| Liability | 3,161,377 | 1,535,311 |
| Explosion. | 172,173 | None. |
| Forgery |  | None. |
| Guarantee. | 1,272,462 | 178,085 |
| Hail... | 5, 796, 502 | 2, 377,801 |
| Inland Transportation. | 423,845 | 211,896 |
| Live Stock.. | 111,446 | 49,587 |
| Plate Cilass.. | 690,079 | 409,393 |
| Sickness... | 1,576,317 | 1,073,991 |
| Sprinkler I eakage | 98, 804 | 72,753 |
| Steam Boiler. | 323,485 | 16,130 |
| Title.... | None. | None. |
| Tornado. | $158,321$ | $155,931$ |
| Totals. | 22,933, 824 | 10,471,149 |

A number of applictions have been receiverl for new classes of casualty insuraner including aviation insuranee, rain insurance, crop insurance and forgery insurance. None of these classes of insurance are defined by the Insurance Act. Aviation insurance as now transacted in other countries covers practically the same class of hazard as automobile insurance and might be defined in terms similar to that class of insurance. Rain insurance is properly included in the term 'weather insurance', but as this class has never been defined by the Act, it is desirable that a definition should be drafted broad enough to eover not only damage to property, but loss of profits due to rain and other unfavourable climatic conditions. As, however, loss of property from hail and tornado are now covered under those two classcs of insurance, these hazards should be excluded from the definition of 'weather insurance'.

Crop insurance covers not only insurance against loss or damage from weather conditions, but also from inseets and erop pests. It is questionable whether it is desirable to authorize insurance against this hazard, the loss from which is always more or less under the eontrol of the assured.

Licenses for Forgery insurance are being sought by a number of companies, and it is dresirable that this class should also be defined by the Act.

## Total Insurance in Canada.

The Department has continued the practice of collecting the more important information respecting the business of companies operating under provincial jurisdiction and at summary of this information will be found on pages 95,132 and 193 . The figures have been kindly furnished by the companies in response to a circular letter issued by the Department, and while replies have not at this date been received from all companies the omissions aro not believed to be important.

I have the honour to be, Sir,
Your obedient servant, G. D. FINLAYSON,

Superintendent of Insurance.

## ABSTRACT

OF STATEMENTS MADE BY COMPANIES LICENSED TO TRANSACT BUSINESS OF FIRE INSURANCE IN CANADA FOR THE YEAR 1920 IN ACCORDANCE WITH THE INSURANCE ACT, 1917.

## GENERAL TABLES

Assets of Companies, Fire, etc.
Liabilities of Companies, Fire, etc.
Income and Expenditure of Companies, Fire, etc.
Percentage of Losses to Premiums, etc., etc.

## LEGAL DECLSION゙S

## 1. Fire Insurance

(a) Roinsurance of Risks in another Company-Insolvency of Original Insuring CompanyConditions of Policies-Policy Becoming Void or Ceasing-Right to Recover Unearnerl Portion of Premium Paid to Reinsuring Company-Failure to Cancel Policy-Laches.
Action by liquidator of the American Union Fire Insurance Company to recover a proportion of a premium paid by that company to the defendant company upon a reinsurance policy with respect to certain risks insured by the company in liquidation.

During the currency of the policy the reinsured company was placed in liquidation. The result of this was that those holding policies ranked as creditors in the liquidation for the unearned premium. The theory upon which the action was brought was that this entitled the liquidator to claim against the reinsuring company the unearned pro rata proportion of the reinsurance premium.

It was held that the contract was entire contract to insure for the entire period and no right of apportionment existed unless stipulated for. The reinsuring company had no knowledge of the insolvency of the original company until long after the expiry of the policy. The larhes of the liquidator in making the claim was sufficient to defeat this action if otherwise it could have been maintained.

The right of the liquidator to cancel the policy existed under the terms of the condition, but he refrained from exercising that right until the policy had expired, and the right could no longer be exercised. In this way he treated the policy as an existing one, on which he could assert liability, and he now sought to treat it as non-existing for the purpose of recovering the premium. The reinsurance covered the risk upon the original policy, and was not intended to be a reinsurance against liability to refund premiums.

October 5, 1920.-Ontario High Court Division.-Ambler v. Factories Insurance Company19, Ontario Weekly Notes, 95.
(b) Conditions—Titre absolu à la propriété assurée—Nullité de la police—C. civ., art. 2:ł48, z5\%1, 2576.

1. Celui qui achète une maison avec une clause résolutoire en cas de non-paiement, et qui l'hypothèque en faveur de son vendeur, n'a pas un droit de proprieté absolue. S'il assure cette bâtisse dans une compagnie d'assurance mutuelle avec une clause que "la police seria nulle et de nul effet, si l'intérêt de l'assué dans les biens déorits est autre qu'an droit de propriété absolue et sans condition. . .ou si la propriété est grevée par hypothèque," il ne peut recouvrer en cas d'incendie en vertu de cette police qui est nulle.
2. Lorsqu'une compagnie d'assurance nie sa responsabilité, attaque la valiđité du contrat d'assurance et en demande la nullité, elle ne peut se plaindre que l'assuré n'a pas rempli les conditions préliminaires à sa réclamation comme celles de la preuve de la perte subie et des avis que l'assuré doit donner.
3. Dans une promesse de vente. un renvol en marge qui ajoute une grange dans la description des lots vendus, lequel n'est atteste que par deux des signataires de l'acte et ne porte aucune date, ne peut être prouvé par témoins qu'avec un commengement de preuve par écrit.

October 27, 1919.-Quebec King's Bench.-La Compagnie Equitable d'Assurance Mutuelle Contre le Feu, v. Boulanger.-29, Quebec Reports, 515.
(c) Description-Preuve testimoniale-Annexes-Mandat-C. civ., art. $1233,2569$.

1. Le fait que, dans une action en recouvrement du montant d'une police d'assurance, après l'incendie, la declaration mentionne le numero 251 , rue Notre-Dame, tandis que c'est le numéro 221 qui est décrit dans la police, n'est pas substantiel au contrat et n'affecte pas l'intention des parties.
2. En présence des divergences des prétentions des parties, la preuve testimoniale peut être permise pour établir l'intention des parties au contrat d'assurance et l'étendue des bâtisses assurées.
3. Les annexes d'une manufacture liées à la bâtisse principale par des murs mitoyens, mises en communication avec cette dernière par des portes et des tuyaux conducteurs de la chaleur et de l'énergie motrice, et occupés par des machines et des accessoires nécessaires à la manufacture, forment un bloc constituant les propriétés assurées et ne peuvent être divisées pratiquement au point de vie de l'assurance.
M. le juge Letellier.-Cour superieure.-No 599.-Atwater, Surveyer et Bond, avocats de la demanderesse-Fraser et Rugg. avocats de la défenderesse.
4. La différence entre les numéros en chiffre dans la police et sur le plan de Goad ne peut être soulevée par la compagnie, vu qu'elle est due à la faute de l'agent de la compagnie d'assurance, cette mauvaise description, d'ailleurs, ne pouvant nuire au contrat veritable, puisqu'elle n'a trompé personne.

## SESSIONAL PAPER No. 9

5. Le taux exigé par une compagnie d'assurance, est un elément sûr pour inđiquer l'objet de l'assurance, lorsqu'il s'agit d'une manufacture et de ses annexes.

June 23, 1919.-Quebec Superior Court.-Gélinas \& Frères (Limitée) v. The Stanstead \& Sherbrooke Montreal Fire Assurance.-57, Quebec Reports, 368.
(d) Déclaration frauduleuse-Evaluation exagérée-Nullité de la police-C. civ., art. 2:87.

Les faits suivants sont considérés comme frauduleux et ils sont suffisants pour faire annuler une police d'assurance: 1. un carosse que l'assuré avait payé $\$ 7$, est par lui évalué a $\$ 600$ et assuré pour $\$ 300$; 2. l'assuré déclare qu'il a déjà eu une propriété détruite par le feu, tandis qu'en fait, il avait plusieurs incendies pour lesquels il vait reçu des indemnités.

November, 18, 1919.-Quebec Superior Court.-Gervais v. The Liverpool, London \& Globe Insurance Company-57 Quebec Reports, 407.
(e) Condition-Formalities-Gasoline-Warranties-Interpretation-G.C., arts. 24i8, 2!90.

1. The insured, to obtain the payment of his claim, is not obliged to fulfil the condition stipulated by law and by the policy, when the insurance company formally declared that it will not pay the loss.
2. When the policy contains the following clause: "Il est garanti par l'assuré que pas de gasoline ne sera gardée dans les remises à bateau assurées par cette police, excepté ce qui se trouve dans les réservoirs des yachts," and fire is caused by an explosion of the carburator, before the respondent's representative who had brought with him a can of gasoline of five gallons, had time to fill up with it the tank of the yacht, there is no violation of the above clause, as the respondent did not keep any gasoline in the yacht.

September 19, 1919.—Quebec King's Bench.-General Fire Insurance Company of Paris, France, v. Claprood-29, Quebec Reports, 361.

## (f) Gasoline on Premiscs without Permit-Statutory Condition 14 ( $f$ ).

Plaintiff whose premises were insured in defendant company obtained an endorsement on his policies permitting him to use on the premises a certain gasoline oil distributing systern "subject to permit attached to policy." It did not satisfactorily appear whether or not permils had been attached to the policies but it was the rule to attach thereto a certain form approved by the underwriters' association which contained among other things a warranty by assured that the reservoir and tank should be located outside the building. Under the customary use of the system the tank is not situated inside the building, this being recognized as dangerous. The Court found that the plaintiff knew that the tank should be outside. Plaintiff's premises were burned through the bursting of the tank when situated in the cellar and containing several gallons of gasoline.

Held, even if the form of permit was not attached, statutory condition 14 ( $f$ ) providing amongst other things that not more than a quart of gasoline should be stored, kept or used upon the premises without a permit, applied and defendant was not liable under the policies.

December 31, 1919.-Saskatchewan King's Bench.-Hornstein v. Great American Insurance Company.-1920, Vol. 1, W.W.R., 1019.
(g) Assurance-Résiđence privée-Villégiature-Nullité-C. civ., art. 2485, 2487, 2488, 2569, 2574.

1. Une habitation, occupée pendant l'été seulement en villégiature, n'en est pas moins une résidence privée.
2. Le fait que cette propriété n'est pas occupée durant la saison d’hiver, le propriétaire toutefois demeurant dans le voisinage, l'habitation étant durant ce temps chauffée par les soins d'un gardien, n'est pas un fait matériel que l'assuré, dans une demande d'assurance, dolt faire connaître, et son omission ne constitue pas une réticence ou fausse représentation qui annule la police.

November 28, 1918.-Quebec Superior Court—Mathys v. Strathcona Fire Insurance Company-58, Quebec Reports, 199.
(h) Loss by Fire-Fraud.

An action brought to recover insurance money paid for loss by fire failed as the evidence did not support the claim.

In this case the plaintiff companies charged fraud and supplied the following particulars:-
" (a) The said goods and property so destroyed did not amount in value to the sum of $\$ 14,833.48$, as the defendant well knew.
" $(b)$ The said goods saved far exceeded in value the said sum of $\$ 250$ and amounted in value to the sum of $\$ 3,000$ and upwards, as the defendant well knew.
" $(c)$ The account of the loss as made by the defendant and so delivered to the plaintiff was not just and true but was false and untrue to the knowledge of the said defendant.
"(d) The said defendant did not exhibit to the plaintiff or its officers for their examination all that remained of the property that was covered by the policy buit falsely and fraudulently pretended and represented the goods so shown and exhibited were all that were saved and remaining.
"(e) The defendant fraudulently concealed from the plaintiff a large quantity of said goods which remained and which were saved and which he had caused to be deposited in divers buildings and places in the town of Bathurst and in that vicinity."

May 20, 1919. - New Brunswick Supreme Court-The North British \& Mercantile Insurance Company and Others v. Simon Holden-Graber.-XLVII, New Brunswick Reports, 15 and 17.
(i) Chattel Mortgage-Registration without Affilavit of Exemution-Invaludity as against Creditors of Mortgagor-Bills of Sale and Chattel Mortgage Act, R.S.O. 1914, ch. 135, sces. 5, 7-Covenant to Insure Mortgaged Goods for Benefit of Mortgagec- Loss Payable to Mortgagee in Event of Fire-Equitable Assignment-Talidity as against CreditorsDisposition of Insurance Moneys.
A chattel mortgage, registered without an affidavit of execution. is void as against creditors of the mortgagor: secs. 5 and 7 of the Bills of Sale and Chattel Mortgage Act, R.S.O. 1914, ch. 135.

But an agreoment or covenant by the mortgagor to insure the mortgaged chattels for the benefit of the mortgagee, with loss (if any) payable to the mortgagee, though contained in the chattel mortgage, is an equitable assignment of the insurance moneys payable in the event of a loss by fire, and is not by the statute void as against ereditors of the mortgagor (Meredith, C.J.C.F., dissenting).

Review of the authorities.
In re Isaacson, (1895) 1 Q.B. 333 , specially referred to.
Judgment of Kelly, J., reversed.
August 5, October 31, 1919.-Ontario Appellate Division-Petinato v. Swift Canadian Co., Limited-XLVI, Ontario Law Reports, 247.
(j) Action upon Policy-Insurance upon Contents of Automobile Rcpair-shop-DefencesFire Procured by Assured-Breach of Warranty as to Use of Gasoline-Failure tol comply with Statutory Condition 18 (d)-Separation of Damagca from Undamaged Property-Examination of Remnants of Property-Conduct of Assured-Extent of Loss-Waiver-Ontario Insurance Act, sec. 199-Dismissal of Action.
Action upon a policy of fire insurance.
The defence of the company was

1. That the fire in question was caused through some wilful act or neglect or the procurement, means, or contrivance of the assured.
2. That there had been breach of the plaintiff's warranty; machines were filled outside and that no gasoline was contained in the building except that which was contained in the machines.
3. That statutory condition 1 ' $(d)$ had not been complied with.

It was held that the company defendants were entitled to succeed upon the last two defences, and that it was not needful or expedient to express any opinion upon the defence of arson.

December 21, 1920.-Ontario High Court—Quinn v. North British and Mercantile Insurance Company-19, Ontario Weekly Notes, 304.

## 2. Accident Insurance

(k) Dcath of Assurcd-Action by Beneficiary Named in Policy-Defcnces-Reduction in Amonnt of Insurance by Reason of Representation in Application that Occupation of Assured less Hazardous' than it actually was-Findings of Jury-Classification of Risks-Construction of Poliey-Misrepresentation as to Duties of Assured-Responsibility for Answers in Application-Juru not Directed as to lical Question-New Trial as to Misrepresentatiou only-Terms-Costs.
An appeal by the defendants from the judgment of Logie, J., upon the findings of a jury, in favour of the plaintiff, for the recovery of $\$ 1,029.20$, in an action upon a policy of insurance, dated the 15 th February, 1919, whereby it was provided that in case of the death by accident of Benjamin Gilchrist, the plaintiff's husband, the plaintiff should receive from the defendants $\$ 1,000$, subject to the terms and conditions of the policy. Benjamin Gilchrist was killed, throurh an accident, on the 6th November, 1919.

It was contended for the appellants that the plaintiff was insured as a foreman, bridge and building," his duties in that connection being stated as "supervising only bridge work," and that under the terms of the policy no more than $\$ 100$ was recoverable because the deceased suffered the accident while performing an act outside the scope of his work as stated in his application.

At the first trial the jury had found that the deceased was not at the time of the accident doing an act which pertained to an occupation classified by the appellants as more hazardous than the occupation stated in the policy.

It was held that the issue was completely and finally determined by this finding of the jury and this contention of the appellants could not prevail.

## SESSIONAL PAPER No. 9

It was also contended by the appellants that the policy was void for misrepresentations contained in the application. The jury had found that the deceased did not misrepresent the classification of his occupation in the application. The Appeal Court held that this finding of the jury was correct, but as the Jurors had not been directed to the crucial point where there had been misrepresentation in the deceased's answer to the question respecting the duties of his occupation, the appellants should by so electing within ten days have the privilege of obtaining the answer of the jury to this question. The new trial must be solely on the question of misrepresentation as stated above, and all the answers of the jury at the first trial bther than on the question of misrepresentation must stand.

(q) Conditions of Insurance Policy-Offer made to owner-Election by Company to Repair Car-Refused by Ovoner.
The owner of an automobile cannot succeed in an action on a policy of insurance where his car has been damaged, if the insurance company has already made an offer to repair the damages in accordance with the insurance contract, and such offer has been refused by him.

December 20, 1919.-Nova Scotia Supreme Court-Sure v. The United States Fidelity \& Guaranty Co.-50 Dominion Law Reports, 573.
(r) Construction of Policy-Peculiar Accident not Covered by Terms-Absence of Ambiguity-
"Extended" -Adjuster-Estoppel.
The defendants, by a policy issued to the plantiff, insured him "as respects loss sustained by reason of the ownership or maintenance" of an automobile "covered by endorsement or endorsements attached". Two slips were attached to the policy, one marked "Non-valued endorsement (Fire, Theft and Transit)," in which it was set out that "this policy is extended to cover the insured to an amount not exceeding $\$ 1,700$ on the body, machinery and equipment .........including while in building, on road, or railroad car or other conveyance, ferry or inland steamer ........subject to the conditions above mentioned and as follows:-........ (B) While being transported in any conveyance by land or water-stranding, sinking, collision, burning or derailment of such conveyance, including general average and salvage charges...." The car, in charge of the plaintiff's son-in-law, was put on board a ferry-boat to be carried across a body of water to an island. When the boat reached the island, the man in charge proceeded to drive the car off the boat on to the land. The weight of the car, or the mere aot of propulsion in driving it on to the shore, caused the boat to back away, and the car dropped into the water:-

Held, that the loss was not covered by the policy, not having been caused by the stranding or sinking or collision or burning of the ferry-boat from which the car slipped into the water.

Upon a fair and natural reading of the policy, there was no ambiguity in it.
The provisions of the endorsement were not to be construed as an enlargement of the risks beyond those covered by the general agreement.

The word "extended" did not add anything to the extent or nature of the insurance.
The second part of clause ( $B$ ), the part after the diash. could not be read separately from the first part; the whole claue defined one of the kinds of risks assumed by the defendantsthe other two being respectively fire and theft.

Nothing done by the defendants' adjuster, who investigated the loss and ascertained the amount of the damage, could estop the defendants from setting up the defence that the loss was not covered by the policy.

Atlas Assurance Co. v. Brownell (1899), 29 Can. S.C.R. 537, and Commercial Union Assurance Co. v. Margeson (1899), 29 Can. S.C.R. 601, followed.

June 14, 1920.-Ontario High Court.-Wampler v. British Empire Underwriters Agency. XLVIII, Ontario Law Reports, 13.

## 4. Explosion Insurance.

(s) Statutory Condition as to Explosion-Interpretation-Warranty by Company-Authen-tication-Not within Statute-Construction.
Statutory condition No. 11 of art. 7034, R.S.Q. 1909 , provides that "The (insurance) company shall make mood loss caused by the explosion of gas in a building not forming part of a gasworks, and all other loss caused by any explosion causing a fire and all loss caused by lightning even if it does not set fire".

Held, that this condition only deals with the case of an explosion originating a fire and not with an explosion incidental to a fire, and where loss is caused partly by fire and partly by explosion a policy expressed to be against fire, and contalning the following clause, "Warranted free of claim for loss or damages caused by explosion of any of the material used on the

## SESSIONAL PAPER No. 9

premises," the clause being properly authenticated as required by article 7036 of the statutes, should be given effect to, and an enquiry directed to enquire into the question of what damages are due respectively to fire and explosion.
(Hobbs, etc. v. Northern Ass'ce Co. (1886), 12 Can. S.C.R. 631 ; Stanley v. Western Ins. Co. (1868), L. R. 3 Exch. 71; Hooley Hill Rubber Co. v. Royal Ins. Co., (1920) 1 K.B. 257, 272, referred to ; Guardian Ass'ce. Co. v. Curtis and Harvey Ltd. (1919), 29 Que. K.B. 254, affirmed.)

APPEAL by plaintiff from the judgment of the Court of King's Bench, Quebec (appeal side) (1919), 29 Que. K.B. 254, in an action to recover the full amount of policy insuring their premises against fire. Affirmed.

The judgment of the Board was delivered by Lord Dunedin.
Lord Dunedin: Though this is an important case, both in respect of the amount which is at stake and from the fact that it has given rise to a difference of judicial opinion, yet the facts out of which the question arises are capable of being set forth with great sucoinctness.

The appellants in the first of these appeals are manufacturers of explosives and are the owners of works in which such explosives are made, and in particular, they were engaged in the manufacture of tri-nitro-toluol. They wished to insure their works against fire, and through their brokers they sent to the respondents, the North British \& Meroantile Insurance Company, a slip on which was typewritten their requirements for insurance.

These consisted of a specification of the various buildings wished to be insured, with the addition of terms on which they wished the insurance to be granted. Upon this the respondents issued a policy. The policy consisted of a printed form giving the general words of insurance against fire, leaving a blank for a specification of the premium, and leaving a large blank for the specification of the subject insured. This latter blank was filled up by pasting in a slip or, as it is locally termed, an allonge," which was a typewritten paper exactly echoing the proposal made by the broker. On the back of the form are the printed statutory conditions which, according to the law of Quebec, must be printed on every policy, and to which fuller reference will lbe presently made.

A fire took place in one of the buildings insured in which there was a nitrator, which is a machine employed in one of the stages of the manufaoture of T. N. T. From this building the fire extended to the adjoining building, in which there was some T. N. T. Ten minutes after the inception of the fire, an explosion occurred of the T. N. T. That building was wrecked and burning material blown about. Further fires ensued, and then from time to time further explosions. In the end practically the whole of the insured buildings were, whether by explosions or by fire, totally destroyed.

The appellants sue upon the policy for the whole amount, subject to the adjustment which is necessary in respect of there being other insurance in other policies on the same subject. The respondents admit their liability for damage by fire, but contend that they are not liable for damage attributable to explosion, and aver that the greater part of the damage was in fact so caused. Proof was led in which the facts, which have been summarized were elicited.

It is now necessary to set forth the clauses of the policy on which the question of law depends. The insurance is expressed to be against fire. In the slip or allonge there is the following clause:-
"Warranty free of claim for loss or damage caused by explosion of any of the material used on the premises"
No. 11 of the statutory conditions R.S.Q. 1909, art. 7034 is as follows:-
"11. The Company shall make good loss caused by the explosion of gas in a building not forming part of gasworks, and all other loss caused by any explosion causing a fire and all loss caused by lightning, even if it does not set fire"

The Revised Statutes of Quebec, 1909, enact arts. 7034, 7035 and 7036 :-
Art. 7034. The conditions set forth in this article shall, as against the insurer, be deemed to be part of every contract of fire insurance entered into or renewed on or after the tenth day of February, 1909, in the Provinces, with respect to any property therein, or in transit therefrom or thereto, and shall be printed on every such policy with the heading, "Conditions of the Policy," and no stipulation to the contrary, or providing for any variation, addition, or omission, shall be binding on the Assured unless evidenced in the manner prescribed by Articles 7035 and 7036.

Art. 7035. If the insurer desires to vary the said conditions, or to omit any of them, or to add new conditions, there shall be added to the contract containing the printed statutory conditions, words to the following effect, printed in conspicuous type and in ink of a different colour: "VARIATIONS IN CONDITIONS".

This policy is issued on the above conditions with the following variations and additions. (Set forth the conditions).
"These variations are made by virtue of the Quebec Insunance Act and shall have effect in so far as, by the Court or Judge before whom a question is tried relating thereto, they shall be held to be just and reasonable requirements on the part of the Company".

Art. 7036. No such variation, addition or omission shall, unless the same is distinctly indicated as set forth in Article 7035, be legal and binding on the insured.

The above quoted warranty contained in the allonge is not printed in red ink. There is, however, inserted in red ink the following variation of condition 11 :-
"....Add the following clause as explanatory of the Company's actual liability
under Clause 11. "This Company is not liable for loss caused by explosions of any kind
unless fire ensues, and then for loss or damage by fire only'; nor for loss or damage to any electrical machinery, appliances or equipment, unless fire ensues, and then to include the loss or damage caused by fire only."
The respondents contended that in respect of the clause of warranty above quoted they are not bound to pay for any damage caused by the explosion. The Trial Judge found for the appellants, and held that the warranty clause was bad, first because it was a variation of the statutory conditions not properly authenticated, and second, because in itself it was unreasonable. The Appeal Court reversed that judgment (1919) 29 Que. KB. 254, and ordered enquiry as to how much damage was caused by explosion and how much by fire, the evidence as led not having been directed so as to clear up this point. Appeal has now been taken to this Board.

There are two questions accordingly which fail to be decided. The first is what is the proper construction of the clause of warranty, the second is if on a proper construction of the clause the respondents are not bound to pay any loss caused by explosion, then is the clause binding on the appellantg in respect either $(a)$ that is not properly authenticated or ( $b$ ) that it is in itself unreasonable?

It may be well here to set out what is the state of the decisions on questions which nearly touch the point. In the case of Hobbs, Osborn and Hobbs v. The Northern Assurance Company (1886) 12 Can. S.C.R. 631, the Supreme Court of Canada decided that a policy which insured against fire covered all loss caused by explosion which was an incident of the fire, i.e., When a. fire began without an explosion and an explosion took place during its course and was caused by it. Lord Justice Scrutton in the case of Hooley Hill Rubber and Chemical Company v. Royal Insurance Company (1920), 1 K.B., 257 at page 272 , expressed an opinion to the same effect. Their Lordships agree with the reasoning of the Judges in Hobb's Case. That is an authority on what an insurance against fire covers. The case of Stanley v. The Western Insurance Company (1868) L.R. 3 Ex. 71, was a case which explained an exception. In that policy, which was against fire, the insurer, in terms of the policy, was not to be liable for loss or damage by explosion. This expression was held to cover all loss by explosion, whether the explosion succeeded to or was caused by a fire, or was prior to and caused a fire. Stanley's Case was followed by the English Court of Appeal in the Hooley Hill Rubber Company's Case already cited. These cases are not actually binding on their Lordships, but they agree with them. Stanley's Case was decided by a very strong Court, and had stood as the law of England for many years.

Now were the policy here simply a policy against fire, with the warranty added, the case would be ruled in terms of the decision in Stanley's case. The only distinction that can be drawn is that here the policy is not simply against fire, but that there is adjected the statutory condition No. 11. The primary object of the statutory conditions is to prevent the insurer by means of exceptions skilfully worded and not particularly brought to the notice of the assured, avoiding liability which it is only just and reasonable he should undertake in a fire policy. Their Lordships agree with the arguments of the appellants' counsel that these condtions, if there is doubt, should be held rather as amplifying than as cutting down the insurer's liability. Statutory condition No. 11 may, therefore, be taken to fill up the lacuna left by Hobb's Case; that is, to make it clear that when the original cause of fire is explosion the damage must be made good by the insurer. The question, therefore, resolves itself into this. When the assured said he would be content that the insurer should not be liable for all loss caused by explosion of the material used on the premises, was he contracting to that effect in view of the sum total of the liabilities under the policy, or was he merely contracting as to the additional liability imposed by Clause 11?

It must be remembered that these were T.N.T. works. It is true that T.N.T. may be consumed without being exploded; it may simply burn without its occasioning an explosion in either the popular or scientific sense. As to what is the true meaning of the word "explosion", the parties have been content to leave the Court without any means of judging this from the scientiflc point of view. Their Lordships do not think they are entitled to read in any knowledge which they may as individuals possess on the subject, but are bound to take it that the parties are agreed to take the word in the popular sense, in which sense it has been used in the resume of the facts glven above. But while $T$. N. T. might burn it might also explode, and it seems to their Lordships impossible to come to any conclusion but that the parties must have contemplated the possibility of an explosion either as an incident or as an originator of fire. It is obvious that if the assurer was content to have this possible risk barred, he would secure an insurance on better terms. When, therefore, he used in his proposal and the insurer accepted in the policy, words which are absolutely general, and in no way limited, their Lordships think that the more natural construction is to apply the words of exception to the whole risks in which explosion takes a part rather than to confine them to the one special case provided for by statutory condition 11 , to which no reference is made.

The next question to be decided is whether the construction of the warranty, being as above, it is itself struck at by the provisions of Art. 7036. The judges in the Court below 29 Que. K.B. 254, have held that in respect that Art. 7035 specified the insurer as the person who may be desirlous to vary the condition, the clause does not apply in cases where, as here, the insured proposed the variation. Which was accented by the insurer. Their Lordships are unable to agree with this view of the Statutes. Art. 7036 is quite peremptory in its terms. Their Ifordships think that it is the policy of the Statute to make a hard and fast rule that every fire policy shall have attached to it these statutory conditions, and that they cannot be varied so as to be binding on the insured, unless the variations are authenticated in the prescribed manner. The result will be that, if not varied, they remain in full force, but any other stipulation and covenant which may define or limit the risk can also receive effect in so far as it does not contradict the statutory

## SESSIONAL PAPER No. 9

conditions which are paramount. Applying this view to the question in hand, the insurers are warranted free from explosions of every sort, except such explosion as is provided for by statutory condition 11. Now statutory condition 11, as already stated, only deals with an explosion originating a fire, and does not deal with the case of an explosion inoidental to a fire. It follows that the present case is not touched by statutory condition 11, and the warranty free from explosion can have effect. This leads, though lby a different line of reasoning, to the same result as reached by the Judges of the Court of Appeal, 29 Que. K.B. 254. Their Lordships need only add that they agree with the Court of Appeal, differing from the Trial Judge that the condition is not in itself unreasonable.

Two minor matters forming the material of interlocutory judgments must be mentioned, as they enter into the judgment of the Court of Appeal, though they were not made a matter of argument before their Lordships. Their Lordships consider that the Trial Judge was right in striking out a paragraph which proposed to adduce evidence as to the intentions of parties antecedent to the issue of the policy. The matter of the other interlocutory judgment is somewhat obscure. If, as Maclennan J. thought, it was only a renewal in another form of the motion already dealt with, no more need be said. If, on the other hand, it was a plea which would destroy the contract on the ground of its being ultra vires of the Company, there is, in the view of their Lordships' decision on the merits, no necessity to discuss it. Their Lordships, therefore, think that the judgement of the King's Bench should be varied by striking from out the operative final paragraph such part as deals with the interlocutory judgements, but so far as it directs enquiry into the question of damages due respectively to fire and explosion, should be affirmed, and that the respondents should have the costs of the appeal.

In the second appeal the facts are the same, except that there is no variation whatever of statutory condition 11. The same arguments accordingly apply, and the result must be the same as in the former case.

The respondents on the 11th June, 1920, obtained special leave to cross-appeal in each action, on the ground that the judgments of the Court of King's Bench 29 Que. K.B. 254, should have directed judgment to be entered for them. It follows from this judgment that these orossappeals ought to be dismissed and the appellants are entitled to their costs in respect of them. These costs should be set off against the costs which the appellants are directed to pay to the respondents in the main apeals.

Their Lordships will humbly advise His Majesty to the foregoing effect.
October 19, 1920.-Judicial Committee of the Privy Council-Curtis's and Barvey, Ltd., v. North British and Mercantile Insurance Co. Ltd. Curtis's and Barvey, Ltd. v. Guardian Assurance Co., Ltd.-55 Dominion Law Reports, 95.

## 5. Life Insurance

( $t$ ) Default in Payment of Premium-Lapse of Policy-Reinstatement upon Written Application and Payment of Arrears--Untrue Answers to Questions in Application-Findings of Jury-Absence of Fraud-Answers Written by Agent of Company-Provision for Reinstatement Contained in Policy-Condition-Fulfilment-Insurance Act of Canada, 1910, secs. 84, 85, 95 (d), ( $j$ )-Authority of Agent-Whether Agent of Insured-Reopening of Question Whether Evidence upon which Reinstatement Granted Satisfactory.
A policy of insurance issued by the defendants on the life of B., in favour of his wife, the plaintiff, as beneficiary, having lapsed by reason of the non-payment of the half-yearly premium due in February, 1918, L., the defendants' agent, called upon B. and the plaintiff in Aprll, 1918, and received payment of the overdue premium, and at the same, time obtained from B. an application for the reinstatement of the policy. The application was approved by the defendants and the policy reinstated. The premiums were duly paid thereafter, and on the 10th February, 1919, B. died. The defendants refused to pay, alleging that in the application signed by B. three questions were answered falsely, namely: "4. What illnesses, if any, have you had since the date of the above policy? A. None." "6. What physicians have treated you or have you consulted since the date of the above policy? A. No." "7. Are you now in sound health? A. Yes." It appeared that B. had been and was at the time of the application being treated by a physician for the disease from which he died; that he disclosed the facts to L. ; but that L. wrote the answers to the question in the application form, and B. signed it without reading it. In an action upon the policy, the jury found that the answers to questions 4 and 7 were not in fact untrue and were not material, but that the answer to questions 6 was untrue and was material, and that all three answers were acted upon by the defendants. They also found that $B$. disclosed to L. all the information necessary to enable L. to write truthful answers; that L. obtained from B. full knowledge of all material facts for the purpose of the reinstatement application before B. signed it ; that B. did not make to L . any statement which he (B.) knew to be false; that B. was not guilty of any fraud; that B. was induced by the statements or representations of $L$. to sign the application in the form in which he did sign it; that he so signed it without knowing or understanding its full meaning and effect; and that his failure to know and understand was due to the statements and representations of L.:-

Held, that the application for reinstatement and its acceptance by the defendants did not constitute a new contract or policy of insurance.

Sections 84 and 95 (d) and ( $j$ ) of the Insurance Act of Canada, 1910, 9 and 10 Edward VII, ch. 32, considered.

The provision in the policy for reinstatement was in reality a condition, to the effect that written application should be made by the insured; that evidence of insurability satisfactory

$$
9-21
$$

to the company should be presented; and that any loan interest due and all arrears of premiums with 5 per cent interest should be paid.

This condition was in fact complied with; fraud on the part of B . had been negatived by the jury; the defendants had reinstated the policy upon evidence which they considered satisfactory; and they could not, in the absence of fraud, be permitted to reopen the question and say that the evidence upon which they acted was unsatisfactory.

The findings of the jury absolved $B$. from all real responsibility for the truth or otherwise of the written answers.

Even if L. exceeded his real authority in writing untruthful answers, that did not make him B's agent. Apart from sec. 85 of the Insurance Act, L., acting with real authority to obtain from B . the application for reinstatement, must be deemed to have been clothed with full authority, short of fraud on B's part, for everything that he (L.) did.

Great Northern Insurance Co. v. Whitney (1918), 57 Can. S.C.R. 543, and similar earlier cases, applied.

The finding of the jury that the answer to question 6 was untrue and was material and was acted upon by the defendants, did not, in view of the other findings, stand in the way of the plaintiff.

May 7, 1920.-Ontario High Court-Bird v. New York Life Insurance Company.-XLVII Ontario Law Reports, 510.
(u) Cession judiciaire de biens-Mari et femme-Assurance du mari en faveur de sa femme-Bilan-Créanciers-C. proc., art. 834, 864, 863.

1. Le produit d'une police d'assurance de $\$ 3,000$ prise par un mari en faveur de sa femme n'est pas le gage des créanciers de ce dernier. Il s'ensuit que la femme qui, après le décès de son mari, a continué le commerce de ce dernier, et fait une cession judicaire de ses biens, n'est pas tenue d'entrer dans son bilan ce montant qu'elle a retiré.
2. Méme si cette somme appartenait aux créanciers du mari, il n'y aurait pas lieu à mépris de Cour si elle refusait de remettre les $\$ 3,000$.

October 28, 1919.-Quebec Superior Court-Dame Descotes v. Collette.-57 Quebec Reports, 420.
(v) Benefit of Wife designated by Name-Death before Death of Insured-Remarriage of Husband-Distribution among Surviving Wife and Children-"In Equal Shares"Ontario Insurance Act, sec. 178 (4) (6 Geo. V. ch. 36, sec. 5).
The words of sub-sec. 4 of sec. 178 of the Ontario Insurance Act, R.S.O. 1914, ch. 183, as enacted by the amending Act 6 Geo. V. ch. 36, sec. 5, "such insurance money.........shall be for the benefit in equal shares of the wife living at the maturity of the contract and the children of the assured", do not mean that the wife is entitled to one half and the children to the other half among them-the wife shares with the children, taking the same share as each, so that where there are two children the wife takes one third and each child one third.

(w) Wife named as Beneficiary in Policy-Declaration in Case She Pre-decease InsuredS. 186 (2) of ch. 15 of 1915, Sask.

If a life insurance policy names the insured's wife as the beneficiary he may before her death declare in the policy that in case of her predeceasing him the moneys be payable to his estate, notwithstanding sub-sec. 2 of sec. 186 of cll. 15 of 1915, Sask. Statutes.

June 30, 1920.-King's Bench, Saskatchewan-Executors and Administrators Trust Company v. MacKenzie et al-1920, Vol. 3, W.W.R., 110.
( $x$ ) Policy in favour of Wife-Death of Wife Before Maturity of Contract-BeneficiariesEstate of Insured-Life Insurance Beneficiaries Act (Alta.).
An insurance policy in favour of a wife who dies before the maturity of the contract in the absence of any declaration provided for by sec. 9 (9) of the Life Insurance Beneficiaries Act ( 6 Geo. V., Alta ch. 25), becomes under clause (c) of sub-sec. 9 of the Act one for the benefit of the child or children of the assured and forms no part of the estate of the assured. If the policy is payable to the wife if living and if not then to the insured's executors, administrators or assigns, such insurance goes to the executors of the will of the assured and forms part of his estate.

March 19, 1920.-Alherta Supreme Court-Re Grant-51, Domininn Law Reports, 369.
(y) Certificate of Friendly Society-Change of Beneficinry-Issue of New Certificate-Assignment or Surrender-Ontario Insurance Act, R.S.O. 1914, ch. 18s, sec 181 (2).
By a "life insurance certlficate," issued in 1903. a "mortuary henefit" was payable "to the beneficiary or heneficiaries designated hereon". The insured, by endorsement, named his wife

## SESSIONAL PAPER No. 9

as beneficiary. In 1906, the insured, by a writing endorsed on the policy, ohanged the beneficiary to his stepson; his wife signed a memorandum agreeing to the change; the certificate was then delivered to the Society, and a new certificate was issued, payable to the stepson, who undertook to pay the premiums. The new certificate was on a different plan. The wife died in 1913, and the insured in 1919 :-

Held, that what was done amounted to an assignment or a surrender of the certificate, within the meaning of sec. 181 (2) of the Ontario Insurance Act, R.S.O. 1914, ch. 183, and the stepson was entitled to the insurance moneys.

(z) Alberta Insurance Act, S. 43-Effect of Statutory Provision Making Moneys under Policy Payable within Province-Provision in Policy that Foreign Law Governs.-Application and Effect of Ontario Law-Beneficiary under Policy Predeceasing Assured-Effect of Will.
The provision in sec. 43 of The Alberta Insurance Act, ch. 8 of 1915, that the moneys payable under policy of life insurance shall " be payable in the province, when the assured is or dies domiciled therein, notwithstanding anything contained in any policy or the fact that the head office of the insurance corporation is not within the province," does not purport to do more than declare that the situs of the debt shall be in the province, and does not make the law of Alberta apply in determining the construction of the contract when the assured died domiciled in Alberta, especially where the policy provides that in all cases of claims under it the law of another province shall govern.

The life insurance law of Ontario was held applicable in the distribution of moneys under policies, so as to give the entire proceeds of one policy to a surviving preferred beneficiary, and the proceeds of another policy to surviving children of the assured not designated as beneficiaries in the policy (the designated beneficiary having been the deceased's wife who predeceased him) ; and the assured's will which made no general or specific reference to the policies was held not to affect the disposition of the moneys.

September 7, 1920.—Alberta Supreme Court In re Mellon Estate.—1920, Vol. 3, W.W.R., 413.
(aa) Contract Made and Parties Domiciled and Insurance Moneys Payable in Province of Quebec-Contest as to Disposition of Insurance Moneys-Agreement of all Persons Interested that Decision be according to Law of Ontario-Validity-Claim of Creditors -Representation of Creditors-Rule 75-Policy Payable to Wife by Name or in Event of Her Death to Heirs, Executors, Administrators, or Assigns-Death to WifeRemarriage of Assured-Rights of Second Wife-Will-"My Insurances"-Declaration under Ontario Insurance Act-Secs. 163 (1) 171 (3), 178, 179, (1) Amending Act, 6, Geo. V. ch. 36, sec. 5-Rights of Widow as against Children.

In January, 1905, N., then domiciled in the province of Quebec, procured a policy of assurance upon his life from an insurance company whose head office was in that province. By the policy the sum assured was made payable at the company's head office to the wife of N., whose full name was set out in the policy, or, in the event of her death, to the heirs, executors, administrators, or assigns of $N$. The wife named in the policy and two children were then alive; but the wife died in 1906 ; in 1907 N . married again; and his second wife and his two children survived him. In 1911, he became domiciled in Ontario, where he died in 1919, having first made and published a will, dated the 28th April, 1919, by which he gave certain personal property to his son, and to his wife, naming her, "my insurances, my furniture and all my other properties, real and personal." He had two life insurance policies, one being that mentioned above; the moneys payable under that policy were the subject of an application to the Court, upon which a creditor of N. appeared.

An order was made directing that the creditor before the Court should represent all creditors. Rule 75.

The contract having been made in Quebec between parties there domiciled and the money being payable in that Province, semble, that the law of that Province should govern.

All parties, however, desired that the case be decided on the law of the Province of Ontario, and had signed an agreement to that effect :-

Held, that the agreement was valid-there being no third parties whose rights were derogated from, no infant concerned, no statutory direction violated, and no public interest injuriously affected.

The creditors contended that the insurance moneys formed part of the estate of N., available for the payment of debts:-

Held, applying the law of Ontario, that the bequest of "my insurances" was a sufficient declaration in favour of N's second wife, as a member of the preferred class of beneficiaries, to entitle her to payment of the insurance moneys.

Sections 163 (1), 171, (3) 178, and 179 (1) of the Ontario Insurance Act, R.S.O. 1914, ch. 183, considered.

Re Baeder and Canadian Order of Chosen Friends (1916), 36 O.L.R. 30, and re Monkman and Canadian Order of Chosen Friends (1918), 42 O.L.R. 363, followed.

Re Wrighton (1904), 8 O.L.R. 630, distinguished. And, therefore, the creditors could take nothing.

Held, also, that if sub-sec. 4 of sec. 178 of the Act, as enacted by the amending Act of 1916 , 6 Geo. V. ch. $36, \sec .5$, was applicable to this pre-existing policy, it did not affect the rights of the wldow as against the chlldren.

October 20, 1919.-Ontario High Court-Re Naubert.-XIVI Ontario Law Reports, 210.
(bb) Presumption of Death of Insured-Insurance Act, R.S.O. 1914 ch. 183, sec. 16.5 (4), (5)-Evidence-Disposition of Insurance Money-Administration Dispensed with.
Motion by the association, under the Insurance Act, R.S.O. 1914 ch. 183 , sec. 165 ( $f$ ) and (5), for a declaration as to the presumption of death of George F. Blamey, a person whose life was insured by the association, and for a direction as to the payment of the insurance money.

Lennox, J., in a written judgment, said that there was ample evidence to support a presumption of the death, under the terms of the statute, and the money or benefit secured by certiflcate No. 18909 was immediately payable. There was also good ground for believing that Blamey died intestate, unmarried, and without lawful issue. The parties should not be put to the expense of administration, and payment into Court was unnecessary. There should be an order declaring that the presumption of death had arisen, directing the payment of the money, less the association's costs of the motion, to the next of kin of Blamey mentioned in the affidavits, and exonerating the association from further liability.

August 16, 1920.-Ontario High Court Division-Re Oddfellows' Relief Association and Blamey.-1 19, Ontario Weekly Notes, 49.
(cc) Association de bienfaisance-Bénéfice-Intćrêt assurable-Fiance-Stipulation pour autrui-Révocation-C. civ., art. 1029, 2474, 2475.

1. Pour qu'un contrat d'assurance soit valide, il n'est pas nécessaire que le bénéficiaire de la police ait un intérêt dans la vie de l'assuré; l'intérêt qu'a l'assuré dans sa propre vie suffit à rendre le contrat valide.
2. Lorsque les réglements d'une association de bienfaisance permettent aux membres qui en font partie de constituer comme bénéficiaire de leur dotation soit un parent, soit le fiancé ou la fiancée, dans ce dernier cas, la personne désignée ne cesse pas dêtre bénéficiaire parce qu'elle cesse d'être fiancée, si l'attribution de bénéfice n'est pas modifiée conformément aux règlements de l'association.
3. La révocation de la stipulation pour autrui et du bénéfice d'une assurance ne peut plus avoir lieu quand le bénéficiaire les a acceptés.

June 30, 1920.-Quebec Superior Court-Roy, demandeur v. L'Ordre indépendant des Forestiers, défendeur, et Samson, intervenant-58 Quebec Reports 338.
(dd). Untrue Answers of Assured upon application-Materiality of Answers-Fraud-Unsatisfactory Findings of Jury-Judgment of Appellate Court upon the Evidence, Disregarding the Findings-Judicature Act, sec. 27.
Appeal by the defendants from the judgment of Orde, J., upon the findings of a jury, in favour of the plaintiff, for the recovery of $\$ 3,318.49$ and costs, in an action upon a policy of insurance upon the life of the plaintiff's husband, Joseph Selick, who dies on the 30 th March, 1918.

At the first trial certain questions as to the materiality of untrue answers as to previous illnesses given by the insured in his application were submitted to the jury. The jury found that the answers were untrue but were not material.

It was held that the findings of the jury that the answers were not material and that there was no fraud must be set aside as unsatisfactory. The case was one in which the Court should exercise the powers conferred by Section 27 of the Judicature Act and pronounce final judgment instead of directing a new trial. The appeal should be allowed with costs and the action be dismissed with costs.

December 20, 1920.-Ontario Appeal Court-Șelick v. New York Life Insurance Company19, Ontarlo Weekly Notes, 260.
(ee) Contract-Misrcpresentation not Inducing other Party-Life Insurance Policy Assigned Collateral to Land Mortgage-Purchasers of Land assuming mortgage and Policy -Assured redeeming part of Policy from purchasers-Misstatement of Assured's Age causing Reduction of Policy Moneys on his Death-Burden of Loss not on Assured's Estate because Purchasers not induced to Contract by Amount of Policy.
F. as collateral security for payment of a mortagage of $\$ 50,000$ assigned to the mortgagee a policy of insurance on his life for the same sum, the mortgaged land belng charged with payment of the premiums. Subsequently in an agreement between $F$. and certain purchasers of the land who assumed payment of the mortgage, F. assigned said policy to the purchasers subject to payment of premiums and the rights of the mortgagee. Provision was made for F. redeeming the policy or part thereof by paying to the purchasers a proportlon of its cash surrender value as they paid the mortgage instalments. If $F$. should die before the due date of the mortgage (which event occurred) the purchasers on receiving the insurnace moneys were to pay to F's

## SESSIONAL PAPER No. 9

estate the amount of any instalments in respect of which $F$. had paid them the cash surrender value. Before $F^{\prime \prime}$ s death the purchasers paid an instalment of $\$ 5,000$ on account of the mortgage and $F$. paid to them one-tenth of the then cash surrender value of the policy. It was discovered when proof of death was made that $F$. had made a mistake in stating his age and therefore the policy only stood good. for $\$ 47,500$ instead of $\$ 50,000$.

Held F.'s estate was entitled to be paid by the purchasers one-tenth the face of the policy and should not bear the full burden of the $\$ 2,500$ reduction in the policy; for the evldence showed that the purchasers regarded the policy as a burden rather than as an advantage; had the correct age of assured been known the mortgagee might have required further insurance with further premiums and therefore the policy would have been regarded as a further burden; and therefore one of the essentials for relief on the ground of misrepresentation, viz, that the misrepresentation induced the act of the other party to whom it was made, did not exist.

The policy moneys were "received" by the purchasers within the meaning of the agreement when they were applied to the payment of the mortgage.

In above respect the judgment of Stuart J. reported at (1919) $3 \mathrm{~W} . \mathrm{W} . \mathrm{R} .387$ was reversed. On other questions his judgment as there reported was sustained.

February 4, 1920.-Alberta Supreme Court Appellate Division-The Standard Trusts Company v. Canada Life Assurance Company et al-1920 Vol. 1, W.W.R., 516.
(ff) Contrat de mariage-Donation-Police d'assurance-Transfert-Enregistrement-Héritiers —Intérêt-Rapport-Partage-C. civ., art. 712, 804 à 808, 1292, 1298, 1422, 2113.

1. La clause suivante dans un contrat de mariage, savoir: "Le futur époux promet et s'engage de faire mettre au nom de la future épouse la police d'assurance qu'il a actuellement sur sa vie," crée une obligation et un lien de droit parfait entre le futur époux et la future epouse, mais non entre cette dernière et la compagnie d'assurance qui a assuré l'époux, vu qu'elle ne contient qu'une simple promesse de transfert futur qui ne s'est pas réalisée.
2. Les époux, ayant stipulé, dans leur contrat de mariage, la séparation de biens, c'était à l'épouse, la donatrice, qu'incombait l'obligation de faire enregistrer la donation et non à son époux, et, pour cette raison, les héritiers de l'époux ont droit de se prévaloir du defaut d'enregistrement.
3. Cette promesse faite dans le contrat de mariage est une donation qui n'ayant pas été enregistrée, ne peut être opposée aux héritiers.
4. Une épouse, donataire de son époux d'une somme d'argent par son contrat de mariage, et qui est, en même temps, un de ses héritiers, n'a pas d'intérêt à faire valoir cette donation, si elle n'a pas renoncé à sa succession, vu qu'elle serait tenue de rapporter le montrant à la masse.
5. Lorsque dans une action en réclamation, a titre de donataire d'une somme d'argent qui, en réalité, appartient a la succession dont la donataire est un héritier, si les autres héritiers interviennent pour réclamer chacun leur part, la Cour, au lieu de rejeter l'action, ordonnera un partage selon les droits de chacun.

## LEGISLATION

## 1. Dominion Legislation

There was no general legislation amending the Insurance Act passed at the session of Parliament held in 1920. The following private Acts were passed:-
(1) An Act to incorporate Aberdeen Fire Insurance Company. (Assented to June 16, 1920.)

This Act incorporates the Company with head office in the City of Edmonton, Alberta, with power to transact the business of fire, inland marine, guarantee, accident, inland transportation, plate glass, burglary, sickness and automobile insurance. The Act contains the usual provisions for the minimum amount of capital or capital and surplus as the various classes of business are taken up.
2. An Act to incorporate Armour Life Assurance Company. (Assented to May 11, 1920.)

This Act incorporates the Company with power to transact the business of life insurance, and is in the model form. The head office of the Company will be in Edmonton, Alberta.
(3) An act to amend and consolidate the Acts respecting The British America Assurance Company. (Assented to July 1, 1920.)

This Act consolidates the various Acts respecting the Company and enlarges the insurance powers of the Company to include practically all classes of insurance other than life insurance.
(4) An act to incorporate Canada Security Assurance Company. (Assented to May 11, 1920S)

This Act incorporates the Company with head dffice in the City of Toronto, and with power to take over the whole or any part of the business of Canada Selcurity Assurance Company incorporated by Special Act of the Province of Alberta in 1913. The Company is authorized to undertake the business af fire, automobile, hail, accident, sickness, guarantee, plate glass, burglary, inland transportation and explosion insurance, the usual provisions for increase of capital or capital and surplus on the various classes of business being taken up
being contained in the Act. There is also provision that a license shall not be issued to the Company until the provincial company has ceased, or is about to cease, to transact business.
(5) An Act respecting the Dominion Fire Insurance Company. (Assented to July 1, 1920.)

This Act amends the Company's Act of Incorporation, chapter 73 of the Statutes of 1904, by increasing the insurance powers of the Company to include fire, hail, automobile and marine insurance, and in addition thereto such other kinds of insurance as may be authorized from time to time under the provisions of section 77 of the Insurance Act, 1917.
(6) An Act to incorporate the T. Eaton General Insurance Company. (Assented to May 11, 1920.)

This Company is authorized ;'to transact the business of sickness, accident, guarantpe, burglary, inland transportation, plate glass, automobile, sprinkler leakage, fire and oteam boiler insurance. The usual provision respecting increase in capital and surplus when the additional classes of business are taken up is contained in the Act. The head office of the Company will be in the City of Toronto.
(7) An Act to incorporate The T. Eaton Life Assurance Company. (Assented to May 11, 1920.)

This Act is in the model form and incorporates the Company to transact the business of life insurance. The head office of the Company will be in the City of Toronto.
(8) An Act respecting The Pacific Coast Fire Insurance Company. (Assented to May 11, 1920.)

This Act amends the charter of the Company chapter 143 of the Statutes of 1908, by providing that the directors may by resolution sub-divide its shares intol shares of five dollars each. It also enlarges the insurance powers of the Company to include inland transportation, automobile, tornado, explosion, hail, marine, sprinkler leakage, burglary and accident insurance.
(9:) An Act respecting The Pacific Marine Insurance Company. (Assented to May 11, 1920.)
This Act amends the charter of the Company, chapter 140 of the Statutes of 1906 , by enlarging the insurance powers of the Company to include inland marine, fire, inland transportation and automobile insurance.
(10) An act to incorporate Reliance Insurance Company of Canada. (Assented to July 1 , 1920.)

This Act authorizes the Company to transact the business of fire, accident, automobile, burglary, hail, guarantee, tornado, explosion, inland tnansportation and sprinkler leakage insurance, with the usual provision for increase in capital or capital and surplus at the various classes of business are taken up. The head office of the Company will be in the City of Montreal.
(11) An Act to incorporate Scottish Canadian Assurance Corporation. (Assented to May 11, 1920.)

This Company is authorized to transact the business of fire, acoident, sickness, automobile burglary and hail insurance. The usual provision respecting increase in capital and surplus when the additional classes of business are taken up is contained in the Act. The head office of the Company will be in Toronto.
(12) An Act to incorporate United Canada Fire Insurance Company. (Assented to June 16, 1920.)

This Company is authorized to transsact the business of fire, inland marine, automobile, inland transportation, plate glass, accident, hail, tornado, sprinkler leakage and guarantee insurance. The usual provision respecting increase in capital and surplus when the additional classes of business are taken up is contained in the Act. The head office of the Company will be in the City of Winnipeg.
(13) An Act to amend and consolidate the Acts respecting The Western Assurance Company. (Assented to July 1, 1920.)

This Act consolidates the various Acts respecting the Company and enlarges the insurance powers of the Company to include practically all classes of insurance.

## 2. Alberta Legislation

An Act to amend The Municipal Hail Insurance Act. (Assented to March 19, 1920).
His Majesty, by and with the advice and consent of the Legislative Assembly of the Frovince of Alberta, enacts as follows:

Chapter 20 of the Statutes of Alberta, 1,918, being The Municipal Hail Insurance Act, is hereby amended as follows:

1. Section 2, clause (a): By striking out the word "Elector" in the second line thereof. and the proviso to said clause, and by adding to said clause the following:
"'Elector' shall mean any person on the voters' list of the municipal district, as the owner or occupant of land."
2. Section 5: By adding the following: "Provided, however, that this Act shall not apply to any land that is subdivided into blocks and lots, according to a plan registered in the land titles office for the land registration district within which said land is situated."
3. Section 6: (1) By adding to subsection 1 the following: "The result to be decided by a majority of the electors actually voting."
(2) By inserting in subsection 4 after the word "within" in the first line of subsection 4 thereof the words "or without", and by striking out the words "or without" as they appear after the word "within" in the third line; and by inserting after the word "subject" in the sixth line the words "to the discretion of the board and," and by adding to this subsection the following words: " and it shall be the duty of the municipal council to levy such rates on such owners or occupants as are required by this Act, and to pay the amounts, as collected, to the board, together with any penalties on arrears."

## SESSIONAL PAPER No. 9

4. Section 8: By inserting after the word "electors" in the fourth line the words "actually voting."
5. Section 24: (1) By striking out the words "of or persons occupying" in the first line thereof, and substituting in lieu thereof the words "or occupants of."
(2) By repealing clause (d) and substituting in lieu thereof the following: ", the amount of insurance per acre desired in accordance with the requirements of section 29."
(3) By adding the following clause: "(e) In case any owner or occupant refuses or neglects to make the return in accordance with the requirements of this section, and as a result it kecomes necessary for the secretary-treasurer of the municipal district to otherwise ascertain the facts, in order to make to the secretary of the board the statement provided for in the next succeeding section, any costs or charges that the secretary-treasurer may incur in connection with any particular portion of land, in obtaining such facts, shall become immediately due and payable by the owner or occupant to the secretary-treasurer, and if not paid shall be charged against the said land, when making the ordinary levy under this Act."
6. Section 26, subsection 1: By striking out the words "occupier or person" in the first line, and substituting in lieu thereof the words "or occupant."
(2) By striking out all the words from the word "in" in the seventh line to the first word "land" in the eleventh line, inclusive, and substituting in lieu thereof the following " that in the case of land that is leased it cannot be withdrawn except upon the written request of both the owner or occupant and the lessee."
(3) By adding to this subsection the following, namely: "ard in the case of land that is leased, if the application to be reincluded is made by the lessee, the written consent of the owner or occupant must be obtained; provided that in all cases where crops are insured on lands that are leased, the owner or occupant shall have a first lien upon all crops grown upoln the land, as security for the payment of said tax or such part of such tax as is properly chargeable against the lessee's share of such crops."
7. Section 27: By adding the following subseation:
" (2) If for any reason notice of loss is not given within three days of the date of such damage, the costs of adjustment may in the discretion of the Board be charged against the claimant."
8. Section 29: By repealing the section, and substituting in lieu thereof the following:
" 29. The maximum indemnity to be paid for total loss shall be six, eight or ten dollars per acre, as shown in the return made under section 24 , clause ( $d$ ) of this Act; provider, however, that if no such return has been made until after the insured crop has been damaged by hail, the maximum indemnity for total loss shall be six dollars per acre."
" (2) No liability as to indemnity shall exist-
" (a) With reference to any portion of an insured acreage in which the damage done by hail in such portion is less than 5 per cent of the actual value of the crop on such portion.
"(3) The indemnity herein provided for shall be exempt from garnishment, attachment and execution.'
9. Section 30: (1) By striking out the words "the occupant" in the third line, and substituting in lieu thereof "a lessee."
(2) By striking out the words "owner and occupant" in the fourth and fifth lines, and substituting in lieu thereof the words "lessor and lessee."
(3) By striking out the words "owner and the occupant" in the eighth line, and substituting in lieu therefor "lessor and the lessee."
10. Section 37, subsection 1: (1) By striking out all the words from the word "the" in the eighth line to the first word "board" in the twelfth line, inclusive, and substituting in lieu thereof the following: "moneys received by the board from any municipal district in payment of the assessment as provided for in section 33."
(2) Subsection 3: By striking out all the words after the word "to" in the sixth line, and substituting in lieu thereof the following: "the hail insurance board in payment of the assessment provided for in section 33 and to any person, bank, company or corporation from which the municipal district has borrowed money under this section."

## 3. British Columbia Legislation

(1) An Act to amend the "Life-insurance Policies Act." (Assented to 17th April, 1920.)

His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of British Columbia, enacts as follows:-

1. This Act may be cited as the "Life-insurance Policies Act Amendment Act, 1920."
2. The "Life-insurance Policies Act," being chapter 115 of the "Revised Statutes of British Columbia, 1911," is amended by adding the following as sections $13 \mathrm{~A}, 13 \mathrm{~B}$, and 13C:-
"POLICIES ON THE LIVES OF INFANTS."
"13A. A minor over the age of sixteen years may effect contracts of insurance on his life, and may do in respect of any such contract whatever under this Act a person of full age may lawfully do, and the like rules of construction shall prevail.
" 13 B . No contract of insurance effeated by a parent upon the life of his child shall be invalid by reason only of want of pecuniary interest in the life of the child.
"13C. (1) No contract of insurance shall be effected on the life of a child unless the child is at least one year old.
" (2) Where a contract of insurance is effected on the life of a child under ten years of age, the insurance money payable on the maturity of the policy shall not exceed the following amounts:-
" Thirty-two dollars if the child dies under the age of two years:
"Forty dollars if the child dies under the age of three years:
" Forty-eight dollars if the child dies under the age of four years:
" Fifty-six dollars if the child dies under the age of five years:
" Eighty-three dollars if the child dies under the age of six years:
"One hundred and twenty dollars if the child dies under the age of seven years:
"One hundred and sixty dollars if the child dies under the age of eight years:
"Two hundred dollars if the child dies under the age of nine years:
"Two hundred and sixty dollars if the child dies under the age of ten years.
" (3) If an insurer enters into a contract on the life of a child under ten years of agie, and the insurance money payable thereunder exceeds the amount fixed by subsection (2), the premiums paid may be recovered from the insurer by the person making the payments, together with compound interest thereon at the rate of seven per cent per annum.
"(4) Except as provided by subsection (5), this section shall not apply to a contract of insurance effected:-
" (a) Before the enactment of this section; or
"(b) On the life of a child of any age, if the person effecting the insurance has a pecuniary interest in the life of the child; or
" (c) On the life of a child under ten years but not less than one year of age, if the insurance money payable on the death of the child is limited to the premiums paid with interest.
" (5) The provisions of this section shall be printed in conspicuous type on every contract of insurance hereafter effected on the life of a child under ten years of age and on every circular relating to or application for any such contract, or a copy of such provisions printed in conspicuous type shall be firmly attached to every such contract, circular, or application, and any person who contravenes this subsection shall be liable, on summary conviction, to a penalty of two hundred dollars."
3. The amendments to said chapter 115 enacted by section 2 of this Act shall, except as therein expressly provided, apply to all contracts of insurance, whether effected before or after the date on which this Act comes into force.
(2) An Act to amend the "British Columbia Fire Insurance Act." (Assented to 17th April, 1920)

His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of British Columbia, enacts as follows:-

1. This Act may be cited as the "British Columbia Fire Insurance Act Amendment Act, 1920."
2. Section 5C of the "British Columbia Fire Insurance Act," being chapter 113 of the "Revised Statutes of British Columbia, 1911," as enacted by section 3 of chapter 36 of the Statutes of 1919 , is hereby amended by adding the words "merchandise in" between the words " of " and "mercantile" in the fourth line thereof.

## 4. Manitoba Legislation

(1) An Act to amend "The Manitoba Insurance Act". (Assentcd to February 27, 1920.

His Majesty, by and with the advice and consent of the Legislative Assembly of Manitoba, enacts as follows :-

1. Section 3 of "The Manitoba Insurance Act," being chapter 9 S of the Revised Statutes, 1913, as enacted by section 2 of chapter 46 of 9 George $V$, is repealed and the following substituted therefor:
2. Only sections $2,5,6,8,9,12$ to 20,44 to 47 , subsections (3) (4) and (6) of 51,52 , $53,64,72$ to 95 of this Act shall apply to a company licensed by the Dominion Government.
3. Section 4 B of said Act as enacted by section 6 of chapter 33,5 George V , is amended by striking out the word "five" in the sixth line thereof and by substituting therefor the word "three."
4. Paragraph (d) of section 10 of said Act is amended by adding thereto after the word "vehicle" in the second line thereof the words "other than motor vehicles."
5. Subsection (5) of section 19 of said Act is amended by striking out the words "one and one-third per cent" in the ninth line thereof and substituting therefor the words "two per cent."
6. (1) Subparagraph (i) of paragraph (b) of section 45 of said Act is amended by adding the words " and in the case of a company doing accident, sickness or guarantee and surety' insurance" after the word "Manitoba" in the last line thereof.
(2) Subparagraph (iii) of said paragraph (b) is amended by striking out the words "an accident or guarantee and surety" from the fifth and sixth lines and substituting therefor the words " a plate glass insurance."
7. Subsection (2) added to section 81 of the said Act by section 7 of chapter 46 of 9 George $V$, is hereby repealed and the following substituted therefor:
(2) The certificate of authority issued to a partnership or firm shall include those of the partners not exceeding three who devote all thelr time to the business of the partnership and not more than one employee of the partnership nominated for that purpose in writing by the partnership with the written approval of the Superintendent of Insurance, and the certificate

## SESSIONAL PAPER No. 9

of authority issued to a corporation shall include not more than four officers of such corporation nominated for that purpose by the corporation in writing signed by the president, secretary or manager of the corporation under its corporate seal, provided such nomination shall be approved in writing by the Superintendent of Insurance. Any such nomination may be revoked at any time and the name of another employee or officer substituted, upon the written application of the partnership or corporation to the Superintendent of Insurance and with his approval in writing.
7. Section 91A of said Act as enacted by section 9 of chapter 46,9 George V , is amended by striking out the word "agent" in the ninth line thereof and substituting therefor the word " person."
8. This Act shall come into force on the day it is assented to.
(2) An Act to amend "The Manitoba Insurance Act". (Assented to March 27, 1920)

His Majesty, by and with the advice and consent of the Legislative Assembly of Manitoba, enacts as follows :-

1. Subsection (2) of section 19 of "The Manitoba Insurance Act," being chapter 98 of the Revised Statutes of 1913, is hereby repealed and the following substituted therefor:
(2) In the event of any insurance having been procured under and by virute of the said license, there shall be made, by the special broker, an affidavit which shall be filed in the office of the superintendent within thirty days after the procuring of such insurance. Such affidavit shall have force and effect for one year only from the date thereof and shall set forth that after diligent effort it has been ascertained that insurance. or sufficient insurance, required to protect the property sought to be insured, could not be obtained, or, that such insurance, or sufficient insurance, could not be obtained at ordinary or reasonable rates of premium or on satisfactory terms from insurance companies duly authorized to carry on business in Manitoba. But such special broker shall not be required to file such affidavit if a similar affidavit relative to the same property has been filed within the preceding twelve months by any other special broker.
2. Section 95 of said Act. as enacted by section 11 of chapter 46 of 9 George $V$, is hereby amended by adding the following words: " Provided that this section shall not affect mortgages or agreements held on property situate in the City of Winnipeg."
3. This Act shall come into force the day it is assented to.
(3) An Act to amend "The Life Insurance Act". (Assented to March 27, 1920)

His Majesty, by and with the advice and consent of the Legislative Assembly of Manitoba, enacts as follows :-

1. Section 8 of "The Life Insurance Act," being chapter 99 of the Revised Statutes of Manitoba, 1913, is hereby amended by adding at the end thereof the following words: "but the assured shall not, except as provided by section 9 of this Act, revoke or alter any disposition made under the provisions of this Act in favour of any one or more of the preferred classes set out in section 7 of this Act except in favour of some one or more persons within the preferred class, so long as any of the persons of the preferred class in whose favour the contract or declaration is made are living."
2. Section 15 of the said Act is hereby repealed and the following substituted therefor:
3. If in case of a policy of insurance heretofore or hereafter effected by a man or woman, it is expressed on its face to be for the benefit of, or has been heretofore or shall be hereafter under this Act appropriated for the benefit of any person or persons other than his wife or her husband, or his wife and children, or her husband and children, or his or her children or any of them, then the insured may, by an instrument in writing attached to or endorsed on the policy or identifying the same by its number or otherwise, absolutely revoke the benefit or declaration or appropriation previously made and apportion the insurance money, or by like instrument from time to time reapportion the same, or alter or revoke the benefits, or add or substitute new beneficiaries, or divert the insurance money wholly or in part to himself or his estate, provided that the insured shall not alter or revoke or divert the benefit of any person who is a beneficiary for value.
4. The repeal of said section 15 shall apply to all policies of insurance existing or future, but shall not affect any payments which have already been made by any insurance company in accordance with any revocation, appropriation, reapportionment or diversion of the moneys as permitted by said section 15 before its repeal.
5. Section 25 of the said Act is hereby amended by adding thereto the following subsections:
(2) Where a contract of insurance is made or declared to be for the benefit of one or more preferred beneficiaries and all of them are of full age, they and the assured may surrender the contract or may assign or dispose of the same either absolutely or by way of security.
(3) Where such preferred beneficiaries include children it shall be sufficient so far as their interests are concerned if all then living are of full age and join in the surrender or assignment or disposal, as the case may be.
(4) Where a person is entitled to a benefit only in the event of the death of another person named as a beneficiary it shall be sufficient for the purposes of this section if such lastmentioned person joins in the surrender, assignment or disposal.
6. This Act shall come into force on the day it is assented to.

## (4) An Act respecting District Hail Insurance. (Assented to March 27, 1920)

His Majesty, by and with the advice and consent of the Legislative Assembly of Manitoba, enacts as follows:-

1. Thls Act may be cited as "The Manitoba District Hail Insurance Act."
2. In this Act, unless the context otherwise requires, the expressions-
(a) "council," "councillor," "reeve," " elector," "owner," "tenant," " clerk," and " land," have the same meaning and interpretation as is assigned to them, respectively in "The Municipal Act," and amendments thereto;
(b) "Crop" means wheat, oats, barley, flax, rye, speltz or corn;
(c) "Hail Insurance Board of Manitoba," "Hail Insurance Board" and "Board" means the Hail Insurance Board of Manitoba appointed under this Act;
(d) "The Hail Insurance District" or the district mean the hail insurance district established under the provisions of this Act;
(e) "Representative" means any person appointed by the council of any municipality in the hail insurance district to represent that municipality at the annual and other meetings of the representatives of the hail insurance district;
(f) "Chairman" means the chairman of the Hail Insurance Board of Manitoba appointed under this Act:
( $g$ ) "Member" means a member of the Hail Insurance Board of Manitoba appointed under this Act;
( $h$ ) "Adjuster" means any adjuster appointed under this Act;
(i) "Municipal Commissioner" means the Municipal Commissioner of Manltoba.
(j) "Municipality" means a rural municipality.

## APPLICATION OF ACT

3. This Act shall apply to only that portion of the province which is organized into rural municipalities.

## organization of hail insurance district

4. (1) The council of every rural municipality shall submit to the electors thereof at the first election for councillors to be held after the passing of this Act a by-law, in the form prescribed by the Municipal Commissioner and in accordance with the procedure prescribed by "The Municipal Act" for the voting on debenture by-laws, providing that the municipality shall be brought under the operation of this Act.
(2) The council of any rural municipality whose electors have voted against coming under the operation of this Act at the time of the election referred to in this section and the councll of any rural municipality which may be organized after that date may at any time submit to the electors of such municipality a by-law as hereinbefore provided for the purpose of bringing such municipality under the operation of this Act.
5. Immediately following the voting on the by-law as provided for in section 4 of this Act, the secretary-treasurer of each rural municipality so voting shall forthwith forward to the Municipal Commissioner a statement showing the result of the voting, and in the event of thirty-five or more municipalities electing to come under the operation of this Act, the Municipal Commissioner may, by order, notice of which shall be forwarded to each of the said municipalities and published in The Manitoba Gazette, establish the municipalities so electing "The Hail Insurance District."

## DISORGANIZATION OF DISTRICT

6. At any time after the expiration of five years from the establishment of the hail insurance district any of the municipalities constituting same may, by by-law submitted to be voted on by the electors at any annual election of reeve and councillors and approved by a. majority of the electors in the manner hereinbefore prescribed withdraw from such hail insurance district upon such terms as the TIunicipal Commissioner may deem just and upon such withdrawal the Municipal Commissioner shall have power to settle and adjust the assets and liabilities of the board among the municipalities composing the hall insurance district and, if fewer than twenty-eight municipalities remain in such hail insurance district, to wind un the affairs of the board, and his decision shall be final in regard to all matters connected therewith.

> ORGANIZATION OF BOARD
7. The hail insurance district shall be under the direction of a board of nine members to be known as "The Hail Insurance Board of Manitoba."
(2) The members of this board shall be elected by representatives of the municipalities constituting the hail insurance district, one representative to be appointed by the council of each municipality.
8. (1) The first meeting of the representatives of the municipalities in the hail insurance district shall be called by the Municipal Commissioner; such meeting to be held at a place and on a date to be determined by the Municipal Commissioner.
(2) In each year thereafter a meeting of the representatives of the said municipalities shall be held on the second Wednesday in March for the purpose of receiving the report of the board as to its operations during the preceding year, the election of new members of the board and for any other business arising out of this Act.

## SESSIONAL PAPER No. 9

(3) The board may at any time, should it consider the same necessary or expedient, convene a special meeting of representativs appointed as provided in section 7 hereof.
(4) The board shall, on the receipt of a petition signed by the reeves of at least twenty-five per cent of the municipalities constituting the hail insurance district, convene a meeting of representatives to be appointed as aforesaid.
9. (1) All meetings of representatives after the first meeting shall be convened by the secretary of the board, mailing a notice thereof to the clerk of each municipality constituting the hail insurance district, in the case of annual meetings thirty days, and in the case of special meetings fifteen days, prior to the date fixed for such meetings.
(2) At any meeting of representatives to be convened under the provisions of this Act, the presence of twenty-five per cent of the representatives shall be necessary to constitute a quorum.
10. Representatives shall be remunerated out of the funds of the board at the rate of seven dollars (\$7) for each day or part of a day necessarily occupied by them attending such meetings as may be convened under this Act together with the actual cost of transportation incurred and paid by them.
11. (1) At the first meeting of representatives to be held after this Act comes into force, the meeting shall elect the board of nine members as by this Act provided.
(2) In the event of there being no poll the first three members nominated shall hold office for three years; the next three members nominated shall hold office for two years and the next three members nominated shall hold office for one year.
(3) In the event of more than nine members being nominated and a poll being necessary, the three members receiving the highest numbers of votes shall be declared elected for the term of three years following, the three members receiving the next highest numbers of votes shall be declared elected for the term of two years following; and the three members receiving the next highest numbers of votes shall be declared elected for the term of one year following.
(4) At all annual meetings of representatives held subsequent to the first meeting three members shall be elected who shall hold office for three years.
(5) Retiring members shall be eligible for re-election.
(6) Notwithstanding the duration of office of members herein fixed, at any meeting of representatives properly convened they may on a vote of at least two-thirds of those present at such meeting cancel the appointment of any member or members of the board and elect a substitute or substitutes to fill the vacancy or vacancies so created.

POWERS AND DUTIES OF BOARD
12. The board shall be a corporate body with office in the City of Winnipeg and shall have the following powers:
(a) To carry on the business of hail insurance under the provisions of this Act;
(b) To borrow money for the purpose of carrying out the objects of its incorporation, to hypothecate, pledge and mortgage its property, rights, assets and prospective revenues, and to sign bills, notes, contracts, and other evidences of or securities for money borrowed or to be borrowed for the purposes aforesaid;
(c) To invest any reserve funds or surplus, as the same may from time to time be accumulated, in such manner as may be approved by the Lieutenant-Governor-in-Council.
13. The board may meet together for the despatch of business, adjourn and otherwise regulate their meetings as they think fit and determine the quorum necessary for the transaction of business. Questions arising at any meeting shall be decided by a majority of votes. In case of an equality of votes the chairman shall have a second or casting vote. Any three members may at any time summon a meeting of the board.
14. (1) At the first meeting of the board to be held after the annual meeting of representatives they shall appoint one of their own members as chairman, and shall assign his duties and fix his salary.
(2) If at any meeting of the board the chairman is not present at the time appointed for holding the same, the members present shall choose some one of their number to be chairman of such meeting.
15. In the event of the office of chairman becoming vacant through death, resignation or otherwise the board shall take immediate steps to fill the vacancy.
16. All acts done at any meeting of the board or by any person acting as a member of the board shall notwithstanding that it be afterwards discovered that there was some defect in the appointment of any such member or person acting as aforesaid or that they or any of them were disqualified, be as valid as if every such person had been duly appointed and was qualified to be a member.
17. (1) The board shall appoint a manager who shall be responsible for the management of the iousiness of the board and who shall engage, appoint and dismiss all employees (except the secretary-treasurer and chief adjuster), and assign to them their respective duties.
(2) The board shall also appoint a secretary-treasurer and chief adjuster who shall be under the supervision and control of the manager.
18. (1) No member of the board other than the chairman shall be entitled to occupy any salaried position in connection with the operations of the board under this Act.
(2) Members, other than the chairman, shall be entitled to remuneration for their servlces at the rate of five dollars for each day, or part of a day, occupied by them in attendance at meetings of the board together with the actual cost of transportation and subsistance incurred and paid by them.
19. In the event of the resignation or death, or removal from office of any member of the board, the remaining members may appoint any person to fill the vacant office until the date of the
next meeting of representatives when any vacancies which may have occurred during the year shall be filled:

Provided always that any member of the board elected in substitution for any member who has resigned or died or who has been removed from office under the provisions of sectior: 11 of this Act, shall hold office only for the unexpired term of the member whose place he has taken.
20. The board may from time to time make such by-laws or regulations, not contrary to law or inconsigtent with the provisions of this Act, for the administration or control of its property and business and for the conduct in all particulars of its affairs as may be considered necessary or expedient for the carrying out of the provisions of this Act according to their true intent and meaning.
AUDIT
21. (1) The board shall close its books as at the thirty-first day of January in each year and shall on or before the fifteenth day of May in each year appoint an auditor or auditors who shall on or before the fifteenth day of February following make a full and complete audit of the books, records and accounts of the board for the year ending as at the thirty-first day of January and who shall for the purposes of such audit have access to all the books, records, accounts, vouchers and receipts of the board and shall by the said fifteenth day of February prepare and deliver to the board a full and complete report of the audit. Such auditor os auditors shall not be otherwise employed by the board.
(2) The board shall immediately on receipt of such auditor's report prepare and publish a complete report of its operations during the preceding year and a copy of such report shall be mailed to the Municipal Commissioner and to the reeve and secretary-treasurer of each municipality in hail insurance district at least ten days prior to the date of the annual meeting.
(3) If the board neglects or refuses to make such an audit, the Municipal Commissioner may appoint an auditor or auditors who shall have the same rights and duties as if he or they had been appointed by the board as aforesaid.

## CROP REPORTS

22. All owners of or persons occupying land within the hail insurance district and liable to assessment under this Act, shall on or before the fifteenth day of June in each year forward to the clerk of the municipality within which such land is situated, a return in the form prescribed by the board showing:-
(a) The name and address of the person making the return;
(b) The acreage of the land owned, or occupied by him within the area of the municipality
(c) The nature of the crops sown thereon and the acreage and location of each crop sown:
(d) His intention if desired to reduce the rate of indemnity to six dollars per acre.
23. The clerk of each municipality constituting the hail insurance district shall obtain returns as to all crops grown or growing within his municipality and for that purpose shall furnish all persons requiring the same with the necessary forms to be supplied by the board and shall on or before the first day of July in each year prepare and forward to the secretary of the board a statement, in such form as may be prescribed by the board, showing in detail the names of each owner of or person occupying land within such municipality whether the owner or tenant shall have made the return required by the immediately preceding section or not, and embodying in schedule from such particulars as may be required by the Board.

## WITHDRAWALS

24. (1) Any owner, tenant or person liable to assessment under this Act may, prior to the slxteenth day of June in any year after the coming into force thereof, by written notice to the clerk of the municipality within which the land in question lies, withdraw from the operation of this Act any land in respect of which he is liable to assessment; provided, however, that in the case of a non-resident owner of land liable to assessment desiring to withdraw from the provisions of this Act, he shall first secure the written consent of the tenant, if any, of said land. Any land withdrawn from the operation of this Act as herein provided shall remain so withdrawn until such time as application in writing shall have been made by the owner or tenant thereof to the clerk of the municipality within which the same is situate for the reinclusion of such land within the operation of this Act.
(2) When any crop insured under this Act shall be destroyed from any cause other than hail, the owner or tenant of the land on which such crop was growing, by sending notice by registered letter addressed to the hail insurance board at their office in Winnipeg, not later than the twentieth day of July in any year giving the location of the crop and furnishing proof satisfactory to the board of such destruction, may withdraw such crop from the operation of this Act for the current year and he shall be entitled to a proportionate rebate in respect of the hail insurance tax payable for crop so withdrawn; provided, however, that no rebate shall be granted for any portion of such crop that may be harvested.

## CLAIMS

25. Any person owning a crop or a portion of the crop, or any person having an interest therein, upon lands subject to assessment under this Act, which is damaged by hail between the sixteenth day of June and the fifteenth day of September, both inclusive, or in the case of fall wheat and rye, between the first day of June and the fifteenth day of September, both

## SESSIONAL PAPER No. 9

inclusive, shall within three days from the date on which such damage shall have been sutained, give notice of such damage to the hail insurance board at Winnipeg by registered letter, such notice to be in the form prescribed by the board and shall show in detail:-
(a) The name and address of the claimant;
(b) The nature of the crop and the legal description of the land upon which it was grown ;
(c) The number of acres damaged;
(d) The percentage of damage done;
(e) The nature and amount of the claimant's interest in the crop;
(f) If there be any other person or persons jointly interested with him in the said crop, the nature and amount of their interest therein ;
(g) In case such claimant does not reside within two miles of the location of the crop in respect of which claim is being made, the name of some party resident within two miles of such crop who will act as the agent of such claimant and the section, township and range where such agent resides and such agent shall be recognized by the adjuster making the inspection as representing the claimant for the purposes of the inspection.

## ADJUSTMENT AN゚D AWIARD

26. (1) Upon the receipt of any such claim as aforesaid the board shall, through its proper officer, immediately instruct an adjuster to inspect the crop who shall make every possible effort to see the claimant, or in the absence of the claimant, his agent named as aforesaid and upon the completion of the inspection shall appraise and report upon the claim and shall recommend to the board the indemnity which he thinks should be payable.
(2) The adjuster shall endeavor to secure the written concurrence of the claimant or his agent to the report and recommendation as to compensation made by him and the report and concurrence (if any) shall be forwarded to the board. If the adjuster has been unable to secure such concurrence the reason of his failure to do so shall be stated in the report.
(3) A copy of such report shall be forwarded to the claimant or his agent named as aforesald and if the claimant or his agent is dissatisfied with such report he may within five days of the receipt of such report by him, mail by registered letter addressed to the hail insurance board at its office in Winnipeg, notice of appeal therefrom stating reasons therefor.
(4) The board shall consider the allegations of all persons so appealing as soon as conveniently may be and may call for further evidence which shall be taken by way of statutory declaration or otherwise as the board may direct and shall vary or confirm the report of the adjuster as it may deem proper.
(5) The decision of the board as to the amount of the loss so sustained by any claimant and the indemnity payable therefor shall be final and conclusive, and shall not be questioned by any court on any grounds whatsoever.
27. The maximum indemnity to be paid for total loss shall be eight dollars per acre; provided that any person desiring so to do shall on or before the fifteenth day of June in each year as provided for in section 22 of this Act, reduce the rate of indemnity payable to six dollars per acre and the premium to be paid therefor as hereinafter provided shall be reduced proportionately:
28. In the event of any claim being made for indemnity for damage under the terms of this Act in respect of any land worked by the tenant on "share of crop" basis the amount of the indemnity shall be paid over to the owner and tenant on the same basis as the agreement for the division of the crop unless the terms of the lease or agreement of sale otherwise provide, and in the event of any arrangement between the owner and the tenant, as to the allocation of any indemnity payable under this Act, such arrangement shall form the basis of the division of the indemnity to be followed by the board.

## PAYMENT OF INDEMNITY

29. The board shall, within thirty days of the date of its decision as to the amount of indemnity to be paid as hereinbefore provided, make payment of such sum to the person or persons entitled thereto, but shall deduct therefrom:-
(a) The amount of arrears of hail insurance tax owing by such person or persons to the municipality within which the said damaged crop was situate, which sum shall be paid to the clerk of such municipality to be credited by him upon the arrears so owing by such person or persons, and
(b) A sum representing ten per cent. of the total insurance under this Act carried by such person or persons within the municipality within which the damaged crop, in respect of which such indemnity is payable, was situate, and until such time as the rate of tax payable under this Act for the current year shall have been determined, when the board shall remit to the clerk of such municipality out of the moneys so deducted the amount of tax so payable by such person or persons for the then current year together with the arrears deducted as aforesaid and shall remit to such person or persons direct the balance if any, remaining in their hands.
30. The board shall, subject to the provisions of the immediately preceding section, pay all indemnities awarded under the Act out of the reserve fund, if any, or by means of moneys borrowed by them by virtue of the powers herein contained.

## THE RATE

31. The board shall immediately subsequent to the fifteenth day of September in each year, proceed to fix the rate to be levied upon each acre of crop insured by virtue of this Act and the total assessment shall be sufficlent-
(a) To pay all expenses of administration together with interest and other charges upon money borrowed:
(b) To pay all indemnities awarded by the board during the year;
(c) To create and maintain a reserve fund equal to eight per cent of the total risk during the then current year; no contribution to the reserve fund, shall exceed twenty per cent or be less than ten per cent. of the total indemnities paid for the then current year unless the necesssary reserve can be maintained by a less contribution.
32. Immediately after the rate has been fixed as provided for in section 31 of this Act, the board shall apportion the total amount to be levied among the various municipalities in accordance with the respective acreages under crop and shall on or before the first day of October in every year notify the clerk of each municipality, subject to the provisions of the Act, as to the rate of the tax and the total amount payable by such municipality.
33. Every municipality constituting the hail insurance district shall on or before the thirty-first day of December in the year in respect of which the tax is levied, pay to the board the sum payable by such municipality, and such sum shall be a debt due by such municipality, to the board and shall bear interest at the rate of eight per cent per annum from the time the same became due until paid and may be recovered by action in any court of competent jurisdiction in the Province of Manitoba.
34. Upon receipt of notice from the board as to the rate to be levied the clerk of each municipality shall assess the owners of the land upon which the insured crop is grown with the tax levied by virtue of this Act and the said taxes shall be levied in the same manner, and subject to the same penalties for non-payment as municipal taxes.
35. (1) The board may by resolution authorize its chairman and secretary-treasurer from time to time to lorrow from any person, bank or corporation such sum as the board may deem necessary to carry on the business of the district, and for the payment of unpaid awards, and the sum so borrowed shall be a debt owing by the district, and shall be recoverable as such, and shall be repaid out of, and be a first charge upon the taxes levied by any municipality under this Act for hail insurance purnoses, and upon any moneys borrowed by the council of any municipality under the following sub-section, not paid by the municipality to the board; provided that the board may by such resolution authorize that the sum so borrowed may be further secured by such promissory note or notes, assignment, covenant or agreement of the chairman and secretary-treasurer given under the seal of the board as may be fixed by such resolution.
(2) The council of any municipality may by resolution authorize the reeve and treasurer to borrow from any person, bank or corporation such sums of money as may be required to enable it to pay in full to the hail insurance board the amount of the rates herein provided for during the then current year, and the making of such loan by any municipality for such purpose shall not limit or impair its borrowing powers under any Act or law fixing or limiting the same. Such loan may be secured by promissory note or notes of the reeve and treasurer given under the seal of the municipality and on behalf of the council; and the amount sol borrowed shall be repaid out of and be a first charge upon the taxes which are collected for hail.insurance purposes for the year in which such amount was borrowed.
(3) In every year all taxes collected by any municipality for hail insurance purposes under this Act, and all moneys borrowed under this section shall be kept by the council of such municipality in a separate account and deposited in a chartered bank in a trust fund to be styled, "Hail Tax Trust Fund" and shall only be paid thereout to, or in payment of any sum or sums borrowed by, the hail insurance board.
36. Any person who fails to perform any duty or send in any notice or return required of him by this Act or who makes a return or statement under this Act which is wilfully false or misleading in any particular or who performs any act forbidden herein shall be deemed guilty of an offence and upon summary conviction shall be liable to a penalty of not less than ten dollars nor more than fifty dollars.
37. (1) If anything required to be done by or under this Act at or within a fixed time cannot be or is not so done, the Municipal Commissioner may by order from time to time appoint a further or other time for doing the same, whether the time within which the same ought to have been done has or has not expired.
(2) Anything done within the time prescribed by such order shall be as valid as if it had been done within the time fixed by or under this Act.
38. The Lieutenant-Governor-in-Council shall have power to make regulations not inconsistent with this Act which may be required for the better carrying out of the provisions thereof.
39. The provisions of "The Municipal Hail Insurance Act" and of "The Inter-Municipal Hail Insurance Act" shall not, after the 31st day of December, 1920, apply to any municlpality forming part of the hail insurance district formed under this Act.
40. This Act shall come into force upon the. proclamation of the Lieutenant-Governor-inCouncil.
(5) An Act to amend "The Mutual Hail and Plate Glass Insurance Act.
(Assented to March 27, 1920)
His Majesty, by and with the advice and consent of the Legislative Assembly of Manitoba, enacts as follows:

## SESSIONAL PAPER No. 9

1. Section 10 of chapter 102 of the Revised Statutes of Manitoba, 1913, being "The Mutual Hail and Plate Glass Insurance Act." is hereby amended by striking out the last two lines thereof and substituting therefor the following:
"Provided that the directors shall be residents of the Province of Manitoba and members of the company insured therein for the time they hold office."
2. Section 14 of the said Act is hereby amended by adding thereto the following:
"And the company may provide by by-law that each member of the company shall be entitled to one vote only at said meetings."
3. Sections 18, 41 and 42 of the said Act are hereby repealed.
4. Section 30 of the said Act is hereby amended by adding the following at the end thereof: "Provided, however, that where a company issues policies covering a period of more than one year, the directors may accept in cash the amount of premiums or any part thereof payable upon such policies for any year of such period."
5. Sub-section (2) of section 33 of the said Act is hereby amended by striking out the word "twelve" In the second line thereof and substituting therefor the word "twenty".
6. Section 38 of the said Act is hereby amended by striking out the word "may" in the first line thereof and substituting the word "shall" and by striking out the word "may" in the fifth line thereof and substituting the word "shall" and by adding after the word "assessment" in the fifth line thereof the following: "not less than 20 and."
7. The second paragraph of section 38 of said Act is hereby repealed and the following: substituted therefor:
"Provided that such reserve fund shall be invested either in debentures or other securities of the Dominion of Canada or of this province, or in municipal debentures or in other securities in which trustees may invest trust money or may remain in a chartered bank on deposit at interest, and that twenty-five thousand dollars of such reserve fund or such securities to the extent of that sum shall be deposited with the Provincial Treasurer and shall be held by him to the credit of the company so making the deposit. Such deposit or any part thereof shall be returned to the company to whose credit it stands, by the Provincial Treasurer only on the production of a certificate from the superintendent of insurance that in his opinion such return is necessary for the purpose of enabling the company to meet its losses in any year in which the revenues of the company are not sufficient to meet its liabilities. The company having such deposit to its credit as aforesaid shall be entitled to be credited with interest earned thereon or on any such securities deposited with the Provincial Treasurer and, except in cases with respect to which it may be otherwise provided by the Lieutenant-Governor-in-Council, so long' as any company's deposit is unimpaired and no notice of any final judgment or order to the contrary is served upon the treasurer, the interest upon securities forming the deposit shall be handed over to the company when received by him, and this Act shall be construed as if it had always contained this proviso.
8. Section 44 is hereby amended by striking out the word "Secretary" in the sixth line thereof and substituting the word "Treasurer" therein.
9. Schedule " $B$ " to the said Act is hereby repealed and the following substituted therefor:

> Notice of Assessment.

To Mr.
(Post office address)
You are hereby notified by the note or undertaking given to the said company for $\$$ company that your premium , bumber being the registered number of the por was given, has been assessed under the direction of the board of directors of the said company for the sum of $\$$, being an assessment or call at the rate of per centum on the amount of said premium note or undertaking for losses incurred during the crop season of A.D. and expenses for the year ending the thirty-first day of December, A.D. and for the purpose of providing a reserve fund.
And you are further notified that the said assessment is payable at the head office of the company,
in thirty days after this notice is mailed to you, the date of mailing the same being the date of this notice.
10. This Act shall come into force on the day it is assented to.

## 5.-NET BRUNSWICK LEGISLATION

The only legislation affecting insurance companies is that contained in "An Act respecting the imposition of certain taxes on certain Incorporated Companies and Associations", passed April 24, 1920. The provisions of this Act respecting insurance or insurance companies are here given:-

Be it enacted by the Lieutenant-Governor and Legislative Assembly, as follows:-

1. This Act may be cited as "The Corporations Tax Act, 1920."
2. In this part, unless the context otherwise requires:-
(a) The expression "Extra Provincial Corporation" means a corporation created otherwise than by or under the authority of an Act of the Legislature of New Brunswick.
(b) The expression "Company" when used with reference to insurance, includes any company, corporation, association, underwriters' agency, firm, partnership or individual underwriter of any association of underwriters formed upon the plan known as Lloyd's.
(c) The expression "Insurance Company" shall include life, industrial, fire, inland transit, accident, automobile, bond, burglary, guarantee, explosion, plate glass, sickness, steam
boiler, tornado and sprinkler leakage companies which transact business or accept rlsks within the province, wherever the head office may be situated.
(d) The expression "Policy" includes any policy or interim receipt, or any receipt or paper in renewal thereof, issued against loss or damage by fire on property in this province and includes a certiflcate of membership relating in any way to life insurance and any other written contract contained in one or more documents, providing for insurance on life or property.
( $f$ ) The expression "Premium" means any sum payable as a consideration for insurance and includes the first premium payable upon a policy of insurance and the annual or other premiums thereafter payable thereon whether for renewals or otherwise.
3. In order to provide for the exigencies of the public service there shall be and are hereby imposed upon the companies and associations hereinafter mentioned, the taxes hereinafter specifically named, which taxes, each of such incorporated companies and associations respectively shall annually pay to the Provincial Secretary Treasurer for the use of the Province.

## INSURANCE COMPANIES

4. (1) Upon all companies accepting risks for carrying on the business of insurance and which hold a license under the Insurance Act of the Dominion of Canada to do business throughout the Dominion, taxes are hereby imposed as follows:-
(a) Upon all companies accepting risks for carrying on the business of insurance against fire, two per centum of the net premlums recelved by each of the said companies aforesaid; provided, however, that in no case shall the annual tax be less than one hundred dollars on any one company.
(b) Upon all insurance companies or associations of any kind having agencies or accepting risks upon the lives of persons within the Province and transacting the business of life endowment or industrial insurance, an annual tax of one hundred dollars and in addition thereto one and one-half per centum of the net premiums received by each of the companies aforesaid.
(c) Upon all companies accepting risks or carrying on insurance other than life or fire, two per centum of the net premiums received by each of the said companies aforesaid; provided, however, that in no case shall the annual tax be less than Twenty-five Dollars upon any company.
(2) Upon any company incorporated under the laws of any Province in Canada for the purpose of carrying on the business of insurance hereinafter referred to as a Provincial Company which does not hold a license under the Insurance Act of the Dominion of Canada and which receives a permit from the Provincial Secretary-Treasurer to carry on business within the Province, a tax of two per centum of the net premiums received by the company aforesaid provided in no case shall the tax be less than Twenty-five Dollars.
(3) Upon any person, partnership, firm, association or corporation within the province accepting insurance in any company not taxed by the foregoing subsections of this section, there is hereby imposed a tax of two per centum of the net premiums paid by any such Insured in respect to any insurance policy issued by such company within the Province, provided, that this tax shall not be imposed with respect to renewal premiums upon all life policles issued prior to the passing of this Act.
(4) In the construction of Section 4 of this Act the words "net premiums" are hereby declared to mean the gross premiums received by each of said companies upon its business wlthin the Province for the year preceding the first day of May of the year in which the tax is paid less any amount paid for reinsurance within the province, or upon the cancellation of any of its policies, provided, however, that in the case of a mutual company "net premiums" shall mean the gross premium deposited less the unabsorbed portion of the premium actually returned or credited to the policy holder, but shall include interest at a legal rate upon such unabsorbed premium during the time it is deposited.
5. On or before the first day of May in each year every company doing the business of insurance within the province shall, without awalting any notice or demand to that effect from the Provincial Secretary-Treasurer, forward to him a detailed statement in which shall be set forth the gross amount of the premiums for the then last financial year, showing also in the case of insurance companies the amounts paid by each such company for reinsurance within the province or on the cancellation of any of its policies, and if a mutual company, the amount of net premiums as hereinbefore defined. Every person, partnership, firm, association or corporation taxed under sub-section (3) of Section 4, shall make return of the amount of net premlums taxable under this Act. At the same date in each year every incorporated bank or banking company doing business within the province shall make a report to the Provincial Secretary-Treasurer of the number and situation of its offices and agencies and of Its volume of business, as required hy section 5 of this Act, and every telephone and telegraph company, shall, through its manager, agent or qualified official, make a true statement in writing under oath to the Provincial Secretary-Treasurer showing the entire gross receipts within the province upon which each company is taxed by this Act, and in the case of insurance and express companies doing business within the province, each of such companies shall annually, at the same date in each year, make a report to the provincial Secretary-Treasurer of the number and situation of its agencies and of the names of its agents at each agency; which report and return by this section required shall. in all cases, be verified under oath by the manager or general agent of such corporation within the province, or if there be no manager or generai agent within the province then by the agent at the principal agency within the province.

## SESSIONAL PAPER No. 9

14. Every oorporation or association whose duty it is to furnish a statement or report to the Provincial Secretary-Treasurer, as in the last preceding section required, neglecting or cefusing to make such statement or report or making an incomplete or incorrect statement ol reiort shall, ipso facto, be liable to a fine of ten dollars per day for each day during which such neglect or refusal continues, counting from the day when such return should have been made as required by the preceding section until such report or statement is forwarded to the Provincial Secretary-Treasurer. An incorrect or incomplete statement shall be deemed not to be a report or statement within the requirements of this Act.
15. In the oase of a company, comporation, association, firm, partnership, individual underwriter, underwriters' agency, or association of underwritens formed upon the plan known as Lloyd's, whose principal office or organization is not within the Provinoe, and which does not hold a license under the Insurance Act of the Dominion of Clanada to carry on business of insurance throughout the Dominion, such annual tax and all fines imposed shall be recoverable in like manner from or against any agent or broker by or through whom any application for insurance by such company, corporation, association, firm, partnership, individual underwriter, underwriters' agency or association of underwriters formed upon the plan knows as Lloyd's was solicited, written, accepted or forwarded, or by or through whom any policy, interim or renewal receipt of such unlicensed company, corporation, association, firm, partnership, individual underwriter, underwriters' agency or association of underwriters, formed upon the plan known as Lloyd's was issued. signed, countersigned or delivered, or from or against any adjuster or appraiser acting on behalf of such company, corporation, association, firm, partnership, individual underwriter, underwriters' agency or association of underwriters formed upon the plan known as Lloyd's..
16. If any company, firm, broker, agent or other person, shall, as a representative or lagent of, or acting in any other capadity hereinbefore mentioned without paying the taxes heneinbefore as provided for, carry on any of its business in New Brunswick, sait company, firm, broker, agent, or other person shall imcur a penalty of twenty dollars for every day upon which it, he, or they, so carry on such businesis.
17. Any Provincial Insurance Company which does not hold a license under the Insurance Act of the Dominion of Canada desirous of carrying on the business of insurance within the province must first make application to the Lieutenant-Governor-in-Council for permission so to do, and shall furnish such information and make such deposit as the Lieutenant-Governor-inCouncil may require. Any provincial company receiving permission or license under this saction shall be subject to all the requirements of this Act. No insurance company which does not hold a license under the Insurance Act of the Dominion of Canada or which does not receive permission or a license as hereinbefore provided, shall carry on any of its business within the Province. Provided, however, that this section shall not prohibit or prevent any person, partnership, firm, association or corporation from effecting insuriance in an unlicensed company in accordance with section 129 of the Dominion Act $7-8$ George V, Chapter 29, entitled "An Act respeating Insurance." On an insurance company paying to the Provincial SecretaryTreasurer taxes hereby imposed ant complying with the conditions of this and of other Acts respecting insurance complanies, upon the said taxes being accepted by the Provincial SecretaryTreasurer, suoh companies shall be considered as having authority to transact business of insurance within the province up to and including the thirty-firist day of May next thereafter. Suoh authority shall cease on the first day of June in each year unkess renewed by the Provincial 'Secretary-Treasurer accepting the said taxes for another year.
18. Any company unauthorized to transact business of insurance in this province as provided by this Act, which shall issue any policy or agreement for insurance shall, on conviction, be subject to a penalty of not less than five hundred dollans, and not more than one thousand dollars for each policy so issued.
19. Every insurance company shall file with the Provincial Secretary-Treasurer the name of its general agent through whom all its business in the pnovince is written or reported, and who alone shall be authorized by that company to sign or countersign policies, or if a company has no general agent in this province, tihe names off all agents having authonity to sign for countensign policies for such company; all such agents or general agents to be residents of the province; a company may cancel the appointment of its agent or agents and appoint anotheragent or other agentis, when and as it sees fit, provided notice of such change is given to the Provincial Secretary-Treasurer, provided, however, that in case of Life Insuranoe Companies holding a license under the Insurance Act of the Dominion of Canada to do business within this province or under the provisions of Section 20 of this Act, the prolicy need not be signed by any provincial agent; and further provided that this section shall not apply to a policy issued by an unlicensed company in acocordance with Section 129 of the Dominion Act $7-8$ George V, Chapter" 29, entitled "An Act Relspecting Insurance," and the policy holder of which has been taxed under sulb-section (3) of Section 4 of this Act.
20. Any company which issues a policy not signed or countersigned by a resident of this province named as agent under Section 2i2, shall be liable to a penalty of not less than two hundred dollars and not more than five hundred dollars for each policy so issued.
21. Lvery company through its manager holding jurisdiction in the province or its general agents or other qualified representative residing within the province, shall, annually, if required to do so, on or before the finst day of April, make a return to the Provinoial SecnetaryTreasurer of the net premiums as defined by subseation (4) of Seotion 4 of this Act, on all business transacted by such company during the year ending the thirty-finst day of December then last preceding, and all books, papers and accounits of such company shall be open to the inspection of the Provincial Secretary-Treasurer or any person named by him at any time to enable him to verify statements and transactions aforesaid, but only such agents lahall ble subject to this provision as are not required to make returns to any other agent in this provinoe for premiums received.
$9-22$
22. Any person who adjusits or aplrajees a loss other than life for or on behalf nef any company under a pollcy not signed or countersigned by a resident of this province, shall be liable to a penalty of not less than One Hundted Dollars and not more than Two Hundred Follars for each offence, but this section shall not apply to a policy issued under section 129 of the Dominion Act 7-8 George V., Chapter 29, entitled "An Act Respecting Insurance," wher the tax imposed upon any person, partnership, firm, association or corporation under subsection (3) of Section 4 of this Act has been paid.
23. There shall be, and there is hereby imposed upon all special or travelling agents or brokers, soliciting insurance within the province for, or on behalf of any company, corporation. association, firm, partnership, individual underwriter, underwriters' agency or association of underwriters formed upon the plan known as Lloyd's, an annual tax of one hundred dollars to be paid to the Provincial Secretary-Treasurer, prior to such person engaging in suoh business; provided, however, that no person who is a resident of the province, at the time of the passing of this Act and continues to have a residence therein at the time of, and during his employment as such agent, and during such employment has an office or fixed place of business in the province, nor any person employed after the passing of this Act who shall have resided within the province twelve months prior to such employment, and who has during such employment an office. or fixed place of business as aforesaid, shall be subject to the said tax.
24. Any person liable to the tax imposed by Section 26 of this Act who shall engage in the business of soliciting applications for insurance within the province, for or on behalf of any company, corporation, association, firm, partnership, individual underwriter, underwriters' agency, or association of underwriters, formed upon the plan known as Lloyd's as aforesaid, without having first paid to the Provincial Secretary-Treasurer the amount of the said tax, shall he liable to a penalty of one hundred dollars, and ten dollars additional for every day he so engrages in said business.
25. Any agent or person paying the tax aforesaid shall receive a certificate under the hand of the Provincial Secretary-Treasurer, of the payment of the said tax, and upon such payment, and the issue of such certificate, notice thereof shall be published in the Royal Gazette. The payment of such tax and issuing of such certificate shall entitle the person named therein to prosecute the said business for one year from the date of said certificate but no longer.
26. On the hearing of any information under this Act, proof of the fact of the person charged having solicited insurance as aforesaid, shall be prima facie evidence of his guilt, and the onus shall be on him of proving the payment of the said tax, or that he comes within the exception mentioned in Section 26 of this Act. The production of the certificate of the Provincial Secretary-Treasurer shall be evidence of payment of such tax.

## 6.-Nova Scotia Legislation.

(1) An Act to Amend Chapter 14 of the Acts of 1919, entitled. "An Act Respecting Insuronce Agents."

> (Passed May 22, 1920.)

Be it enacted by the Governor, Council, and Assembly, as follows:-

1. Section 4 of said Act is amended by adding thereto the following:-
(c) No person, firm, company, or corporation duly licensed under this Act shall pay, allow or give or offer to pay, allow or give, to any unlicensed person, firm, company, or corporation, any commission or compensation of any kind, either directly or indirectly, in connection with services received or rendered in the placing of any policy or of application for life insurance:
(d) No life insurance company carrying on business in Nova Scotia shall pay or allow any commission or compensation to any of its agents on any application or policy of insurance on the life of said agent br on the life of any member of the family of said agent until said agent has within twelve calendar months paid and settled for at least three policies on the lives of persons other than said agent or any member of his family.
2. Section 7 of said Act is amended by adding thereto immediately after sub-section 2 , the following:-

On and after the first day of June 'and before the first day of the following month of October the fees payable for the isue of a Certificate of Authority shall be one-half the foregoing fees.
3. Section 8 of said Act is hereby repealed, and the following substituted therefor:-
"Any person, firm, company or corporation violating any of the provisions of this Act shall be liable to a penalty of not less than $\$ 25$ nor more than $\$ 200$ and may be disqualified from obtaining a Certificate of Authority within one year from the date of conviction."

## 2. An Act to Amend Chanter 172, Acts of 1906. entitled "An Act to Consolidate and. Amend the Acts Relating to the Halifax 'Fire Insurance Company."

(Passed May 18, 1920).
(a) This Act increases the authorized capital of the company from four hundred thousand dollars to one million dollars:
(b) enlarges the insurance powers of the company to include all classes of insurance;
(c) amends the investment powers of the company by permitting investment in securities authorized for Canadian companies by the Insurance Act, 1917, chapter 29 of the Statutes of Canada, 1917;
(d) substitutes for the basls of roting prescribed by the company's charter the basis of one vote for earth share held, the transfer books of the company to be closed for such period, not exceeding thirty days prior to any meeting as the directors may fix;

## SESSIONAL PAPER No. 9

(e) changes the date of the annual meeting of the company from the finst Monday in February to the first Tuesday in March ;
( $f$ ) changes the numiber of directors from seven to a number noit less than five nor more than ten;
( $g$ ) confers upon the company the power to sell the undertaking or property of the company or any part thereof.

## 7.-Ontario Legislation

(1) The following portions of the Act to amend The Corporation Tax Act, assented to May 19 th, 1920 refer to insurance companies and the business of insurance:-
2. The clause lettered e in section 2 of The Corporations Tax Act as amended by section 2 of The Corporations Tax Act, 1915, is repealed, and the following substituted therefor:-
(e) "Insurance company" shall include life, fire, ocean, or inland marine, inland transit, accident, plate glass, automobile, steam boiler and burglary insurance companies and guarantee, surety or casualty companies which transact business or undertake risks on lives or property in Ontario, wherever such companies may be incorporated, whether the head office is situated in Ontario or elsewhere, but shall not include purély mutual fire insurance companies or mutual live stock and weather insurance companies licensed or registered under The Ontario Insurance Act, or friendly societies lawfully transacting insurance business in Ontario under the said Act..
5. Suksection 3 of section 4 of The Corporations Tax Act, as enacted by section 2 of The Corporations Tax Act, 1914, and amended by section 4 of The Corporations Tax Act, 1915, is repealed, and the following substituted therefor:-
3. (a) livery life insurance company shall pay a tax of one and one-quarter per cent on all gross premiums less the cash value of dividends to policy holders, and every other insurance company of one per cent. calculated on the gross premiums received by the company in respect of the business transacted in Ontario;
(b) In the case of mutual fire insurance companies which receive premiums in cash the tax shall be calculated on the gross premiums received in cash in respect of the insurance sransacted on the cash plan in Ontario;
(c) In the case of reinsurance by an insurance company the company reinsured shall be exempt from the tax imposed on the portion of the premium paid to the reinsuring company, but the reinsuring company shall be liable for the tax in respect thereof as part of its gross premiums. Where the reinsuring company does not transact business in Ontario and has no principal or head office therein, the company relnsured shall retain in its hands so much of the premium for reinsurance as is equivalent to the tax imposed in respect of such premium, and shall be liable for the tax and for the payment thereof to the Treasurer;
(d) Where any country or any state of any country imposes a tax or license fee which has the effect of discriminating against insurance companies or against any classes of insurance companies organized under the laws of Canada or of Ontario, and having their principal offices in Ontario, and of imposing a tax or license fee higher or greater thar the tax or license fee which home companies in such state or country are jequired to pay, the Lieutenant-Governor in Council may direct that any insurance company which is organized in or under the laws of any such country or state, or has its head or principal office therein, and which transacts insurance business in Ontario, shall pay in addition to the tax imposed by clauses $(a)$ and $(b)$ of this subsection, a tax calculated on the gross premiums received by the company or in respect of the business transacted in Ontario during the preceding year, but so that such increase shall not exceed the equivalent of the extra tax or license fee or both imposed in such country or state;
(e) In estimating the amount of the tax payable under this Act by an insurance company every premium which
i. Is by the terms of the policy or renewal thereof of otherwise nayable in Ontario; or i1. is paid in Ontario ; or
iii. is payable upon or in respect of a risk undertaken in Ontario: or
iv. is payable in respect of insurance of a person or property resident or situate in Ontario at the time of payment. Whether such premium is earned wholly or partly in Ontario or elsewhere, and whether the business is transacted in respect of such policy or the payment of such premium is made wholly or partly within Ontario or elsewhere. shall be deemed to be a premium in respect of business transacted in Ontario;
$(f)$ The chief agent in Ontario under The Ontario Insurance Act of an extra-provincial insurance company and every other insurance company shall keep a separate book or set of books in which shall be entered the premiums mentioned in clause $e$ of this subsection, and all other income of the company in respect of business transacted in Ontario, and in default the company shall incur a penalty equal in the case of a life insurance company, to one and one-quarter per cent., and in the case of every other insurance company to one per cent., on the total gross premiums and other gross income of the company.

11 GEORGE V, A. 1921
(2) An Act to ament The Ontario Insurance Act.
(Assented to June \& 1920).
His Majesty, by and with the advice and consent of the Legislative Assembly of the I'rovince of Ontario, enacts as follows:-

1. This Act may be cited as The Ontario Insurance Amendment Act, 1920.
2. The clause lettered b in section 40 of The Ontario Insunance Act is amended by striking out the words "not exceeding six dollars per week" and substituting therefor the words "not exceeding ten dollars per week."
3. Sections 69 and 70 of the said Act are amended by striking out figures " 1910 " wherever they appear in the name "The Insurance Act, 1910 (Canada)".
4. Section $39 a$ of the said Act as enacted by section 5 of The Ontario Insurance Amendment Act, 1914, is hereby amended as follows:-
(a) By striking out the words "firm or corporation" in the third line of subsection 1 ;
(b) By repealing subsection 2 of the said section and substituting the following therefor:-
(2) Nंo agent shall act for any company in Ontario unless he has fully complied with the provisions of this section and has procured an agent's certificate of authority from the Superintendent of Insurance to do the class of insurance which that company is licensed or registered to do in the province;
(c) By adding the following subsection 2 a :-
(2a) An agent's certificate of authority may be issued for any one or more of the following divisions of Insurance business vis: (a) life insurance; (b) fire insurance; (c) casualty insurance. The Superintendent may make regulations specifying the classes of insurance which may be included in these divisions and may include any class of insurance in two or more of the said divisions if in his opinion the character of the business so requires;
(d) By repealing subsection 5 and substituting the following therefor:-
(5) An agent having received a certificate of authority may act during the term of such certificate as agent for any company licensed or registered in Ontario to do the class of business to which the said certificate of authority applies.
5. Subsection 1 of section 163 of the said Act is hereby amended by striking out the word "or" in the second line thereof and by inserting after the words "lawful heirs" in the second line thereof the words "or next of kin".
6. The said Act is amended by inserting therein the following section:-
$78 j$ (1) A friendly society incorporated and registered under the law of Ontario shall not reinsure or amalgamate with or accept the transfer of membership or funds of any other society registered according to the provisions of this Act unless such reinsurance, amalgamation or transfer is evidenced by a contract in writing setting out in full the terms and conditions of such reinsurance, amalgamation or transfer, and such contract is filed with the Superintendent together with a sworn statement of the financial condition of each of such societies by its principal officers and a certificate of such officers duly verified under oath that such reinsurance, amalgamation or transfer has been approved by a vote of two-thirds of the members present or duly represented at a meeting of the supreme legislative or governing body of each of said societies regularly called.
(2) The Superintendent may require such additional actuarial or other reports as he may deem necessary, which reports shall be prepared at the expense of the societies.
(3) If, in his opinion such financial statements are correct and reports satisfactory and the contract in conformity with the provisions of this subsection and such reinsurance, amalgamation or transfer is just and equitable to the members of the societies and that the interests of such members are properly protected by the contract, he may approve such reinsurance, amalgamation or transfer and issue his certificate to that effect and thereupon such contract shall be of full force and effect and binding upon the societies which are parties thereto and upon all members thereof.
(4) If one of the contracting societies is a friendly society not incorporated under the law of Ontario, the Superintendent shall not issue his certificate until it has been established to his satisfaction that such society has fully complied with the requirements of the law of the legislative authority under which the society was incorporated: provided that a certificate of the supervising insurance official appointed by such legislative authority that such society has fully complied with the requirements of the law of the said authority shall be sufficient evidence to the Superintendent of that fact.
(3) An Act respecting Payment of Insurance on Lives of Soldiers
(Assented to June 4, 1920).
His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows :-
7. Notwithstanding the provisions of section 33 of The Statute Law Amendment Act, 1919 , any municipal corporation may pay to the parents, widows, children, brothers or sisters, or to anyone acting in loco parentis, insurance effected under the Act passed in the 5th year of His Majesty's reign, chapter 37, or any amendments thereto, upon the lives of offices and men resident in the municipality at the time of enlistment, who during the great European War were on active service with the naval or military forces of the British Empire or Great Britain's allies, where such officers and men have died lefore discharge from such forces or within such time thereafter as may be fixed by the council of such municipality.

SESSIONAL PAPER No. 9

## 8. Saskatchewan Legislation

An Act respecting Hail Insurance by Municipalities. (Assented to February 4, 1920.)
His Majesty, by and with the advice and consent of the Legislative Assembly of Saskatchewan, enacts as follows:-

## SHORT TITLE

1. This Act may be cited as "The Municipal Hail Insurance Act, 1920." 1917, c. 15, s. 1, amended.

## INTERPRETATION

2. In this Act, unless the context otherwise requires, the expression :

8. "Municipality" means a rural municipality;
9. "Ratepayer" means a person of the full age of eighteen years whose name appears on the last revised assessment roll of the municipality;
10. "Secretary treasurer" and "reeve" mean respectively the secretary treasurer and reeve of a rural municipality. 1917 , c. 15, s. 2, amended.

## HAIL INSURANCE ASSOCIATION

3. (1) There shall continue to be an association to be called "The Saskatchewan Municipa; Hail Insurance Association," which shall consist of representatives of all the municipalities which exercise the powers provided by section 16 of this Act.
(2) Each municipality shall be represented by one delegate appointed by the council.
(3) Delegates need not necessarily be members of the councils of the respective municipalities which they represent, but they shall be resident electors of such municipalities. 1917, c. 15 , s. 3.
4. The head office of the association shall be at Regina in the province of Saskatchewan. 1917 , c. 15 , s. 4.
5. The association shall be a corporate body and shall have the following powers:
(a) to borrow money for the purpose of carrying out the objects of its incorporation, tc hypothecate, pledge and mortgage its property, rights, assets and prospective revenues, and to sign bills, notes, contracts, and other evidences of or securities for money borrowed or to be borrowed for the purposes aforesaid;
(b) to invest any reserve funds or surplus, as the same may from time to time be aceumulated, in such manner as may be approved by the Lieutenant Governor in Council;
(c) to transact the business of indemnifying against loss occasioned by hail the owners of crops growing within the area of municipalities which exercise the powers conferred by section 16 of this Act. 1917 , c. 15, s. 5 , amended.
6. The association shall hold an annual general meeting of its members for the election of directors, for the presentation and consideration of the reports of the officers of the association and for the transaction of such other business as may come before the meeting under the provisions of this Act. New.
7. (1) There shall be a board of nine directors who shall be paid such remuneration as the association may determine. All directors shall hold office for three years.
(2) Three directors shall retire each year and a sufficient number shall be elected by the association each year to fill the vacancies occurring.
(3) Directors need not be delegates. 1917 , c. 15, s. 8 , amended.

8 . The persons entitled to vote at all general meetings of the association shall be the appointed delegates of the municipalities as provided in section 3 hereof. 1917, c. 15, s. 9 , amended.
9. (1) The directors shall meet immediately after the annual general meeting of the association and organize by electing from their own number a president and vice-president, and appointing a secretary and treasurer who may, or may not, be directors.
(2) One person may be appointed to the joint office of the secretary and treasurer. 1917, c. 15, s. 10 .
10. The directors shall appoint an executive committee, consisting of the president, vicepresident and one other member of the Board, any two of whom shall constitute a quorum. 1917, c. 15, s. 11.
11. The executive committee shall have such powers as may be delegated to it from time to time by the directors. 1917 , c. $15, \mathrm{~s} .12$.
12. The directors may engage and fix the salaries or compensation of all officers, agents and employees of the association, and may define their duties; but may, if it be deemed advisable, delegate such powers to the executive committee or to such offlicer or officers as may be in control of the association's business. 1917, c. 15, s. 13.
13. The directors may fill any vacancy that may occur in the board, and the perer appointed shall hold office until the next general meeting. 1917 , c. $15, \mathrm{~s} .14$,

## BY-I.AWS

14. (1) The association may from time to time make such by-laws, not contrary to law or inconsistent with this Act, as may be deemed expedient, for all or any of the following pu:poses:-
(a) providing for the administration, management and control of its property and business;
(b) requiring reports to be made to the association by municipalities or off rials of municipalities and by persons liable to assessment under this Act, showing the acreage under crop in each municipality exercising the powers provided by section 16 of this Act, or the crop acreage in respect of which the person reporting is assessable $\ln$ each such municipality, the crops growing thereon and the names of the nwners and the situation of each such crop, and providing penalties for failure to comply with the terms of the by-law;
(c) providing for the conduct in all particulars of its affairs as may be considered necessary or expedient for carrying out the provisions of this Act according to their true inlent and meaning.
(2) The directors shall possess all the powers of making by-laws hereinbefore conferred upon the association, but no by-law of the directors shall be contrary to or inconsisteni with an unrepealed by-law of the association, and any by-law made by the directors may be amended or repealed by a by-law duly passed by the association. 1917, c. 15, s. 15 ; 1918-19, c. 41, s. 2; amended.
15. The association shall close its books on or before the last day of February in each year, and immediately thereafter have a full and complete audit made of its books, records and accounts by one or more chartered accountants, and on completion of such audit shall prepare and publish a full and complete report of its operations during its last preceding fiscal year. A copy of such report shall be furnished to the minister and to the reeve and the secretarytreasurer of each municipality under the Act. 1917, c. 15, s. 17.

## POWERS OF MU'NICIPALITY

16. (1) Any municipality may, jointly with other municipalities and subject to the provisions of this Act, undertake the indemnification of owners of crops growing within the area or all such municipalities against loss occasioned by hail.
(2) Every municipality other than those above mentioned may be admitted to the benefit:, and rights conferred by this Act upon such terms as by by-law the association may direct. 1917, c. 15. s. 18.

## PROCEDURE

17. (1) The council of any municipality may, at a regular meeting thereof held between the first day of August and the first day of October in any year, resolve to submit to the electors at the next ensuing annual election a by-law empowering the municipality to engage in the undertaking mentioned ir. the next preceding section.
(2) Such by-law shall be in form A in the schedule to this Act, shall receive its first and second reading on or prior to the first day of October, and shall be submitted and voted upon at the regular annual election then next ensuing.
(3) Upon receipt before the first day of November in any year of a petition to that effect, signed by not less than 25 per centum of the resident ratepayers of the nisioipality, such bylaw shall receive its first and second reading as soon as possible thereafter, a a d the council shall submit same to be voted upon as hereinbefore provided.
(4) Upon receipt, before the first day of November in any year, of a petition to that effect signed by not less than 25 per centum of the resident ratepayers of the municipality the council shall submit to be voted upon at the then next ensuing annual election a bylaw repeaing any bylaw of such municipality passed under the provisions of the first, second and third subsections hereof and of sections 18 to 22 inclusive of this Act.
(5) Such repealing bylaw shall be in form B in the schedule to this Act, and shall receive its first and second reading as soon as possible after the receipt of the petition mentioned in the preceding subsection.
(6) Forthwith after any such bylaw shall have received its second reading, the secretarytreasurer shall notify the minister of such action having been taken.
(7) Forthwith after the second reading of any such bylaw the secretary-treasurer shall cause the same to be published in two successive issues of a newspaper published in or nearest to the centre of such municipality or a newspaper circulating in the municipality, together with la notice according to form C in the schedule to this Act; and such publication shall be completed within a month of the date of such second reading, 1917, c. 15, s. 19.
18. For the purpose of taking the votes the secretary-treasurer shall prepare and prooure ballots according to form $D$ in the said schedule, and shall supply the deputy returning offcer for each polling subdivision within the municipality, when furnishing him with supplies and instructions for such election, with a sufficient number of ballots for all persons who may be entitled to vote upon such bylaw within his polling subdivision, together with three copies of the bylaw, two of whlch it shall be the duty of the deputy returning officer to post up in conspicious places in his polling booth, and one of which shall be kept by him for reference. 1917 , c. 15 , s. 20.

## SESSIONAL PAPER No. 9

19. (1) The deputy returning officer shall, when delivering ballots to voters for the election of municipal officers, hand one to each voter entitled to vote upon the bylaw, and shall record in the polling book for such election in a separate column the fact of having done so and of such ballot having been cast.
(2) The voting upon such ballot and the essentials to the legal sufficiency thereof, the number of votes cast for and against the bylaw and the statement and returns as to same and as to the result of the voting thereon, shall be in accordance mutatis mutandis with the provisions and formalities required with respect to the election of municipal officers at such elections. 1917, c. 15, s. 21.
20. (1) The persons entitled to vote upon such bylaw shall be all ratepayers of the municipality, except those who are qualified only in respect of lands within the limits of a hamlet or lands held under grazing lease from the Dominion of Canada.
(2) In case of a vote on a repealing bylaw no person shall be entitled to vote who has withdrawn his land from the operation of the bylaw for the current year as provided in sections 26,27 and 28 hereof. 1917, c. 15, s. 22 , amended.
21. (1) In the event of any such bylaw receiving the assent of the majority of the voters voting thereon, the council shall, on or before the tenth day of January next after such voting, finally pass the same, land shall cause the secretary-treasurer to prepare, certify and forward to the minister during the same month two copies thereof together with a certified statement by the returning officer of the votes cast for and against.
(2) In case the bylaw fails to receive such assent, the secretary-treasurer shall, nevertheless, forward to the minister such certified statment on or before the date above mentioned. 1917 , c. 15, s. 23.
22. (1) Upon the publication of the minister's 'approval of the bylaw in The Saskatchewan Gazette, and not earlier, it shall come into force and be valid band binding to all intents and purposes.
(2) The Minister shall forthwith cause notification to be given to the association of the publication of his aproval of such bylaw, and, in case of a repealing bylaw, of the withdrawal of the municipality from the benefits of this Act, and thereafter in case of a repealing bylaw no claims or losses arising within such municipality shall be valid or be recognized by the association. 1917 , c. 15, s. 24 , amended.

## ASSESSMENT.

23. (1) Upon publication in The Saskatehewan Gazette of the minister's approval of the bylaw in form $A$, all persons shall become and be liable to be assessed for a rate of four cents per acre, together with such additional rate, if any, as may be imposed under the provisions of section 24 hereof, upon all the lands within the municipality (exclusive of lands within any hamlet therein and lands held under grazing lease from the Dominion of Canada) upon or in respect of any interest in which they are assessable for municipal purposes.
(2) The publication of such approval shall constitute a valid and sufficient notice to. all persons concerned of their liability to assessment under this Act, and the rates levied in each vear thereafter shall be and remain until paid a charge and tax upon such land or upon any interest therein of the party assessed, notwithstanding that the title to such land may be in the Cnown or that the lands themselves are otherwise not liable to assessment.
(3) Where at any time before the passing of this Act the minister's approval of a bylaw was published in "The Saskatchewan Gazette" but the secretary-treasurer of the municipality omitted to publish a notice of such approval, as required by the statute at the time in force, it is hereby declared that, notwithstanding such omission, all persons in the municipality shall be deemed to have become liable to be assessed and to have been, assessed by virtue of such bylaw for the special rate and the additional rate, if any, on the first day of May in the year in which such omission took place, in the same manner and to the same extent in all respects as if the said notice had been duly published. 1917, c. 15, s. $25 ; 1918-19$, c. 41, s. 4 ; amended.
24. The directors shall fix annually a rate per acre in addition to the flat rate of four cents per acre to be levied on all the land of an owner or occupant under crop in excess of forty acres, such rate to be collected in the same manner as the said flat rate. 1918-19, c. 41, s. 1, in part, amended.
25. (1) Every person liable to assessment under this Act shall, on or before the first day of June in each year and subject to the provisions of any bylaw made under clause (b) of subsection (1) of section 14 hereof, make a report to the secretary-treasurer of the municipality, in a form to be prescribed by the association, giving a legal description of the land in the municipality in respect of which he is assessable, together with the number of acres actually under crop or intended to be put under crop in the current year; and he shall be bound for purposes of assessment and in case of loss by hail by the statements contained in such report.
(2) If the assessable person fails to make such report on or before the date mentioned, the secretary-treasurer or such other official or officials as the council may appoint shall certify to the best of his or their knowledge and belief the name of the owner, or occupant, the legal description of the land and the number of acres cropped. The owner or occupant shall be bound by the facts as so certified, and the crop acreage in respect of which he is insured shall be the crop acreage so certified. New.

## WITHDRAWALS.

26. (1) Any owner or occupant of land within the municipality may, prior to the first day of June in any year, by written notice to the secretary of the association, withdraw from
the operation of the bylaw the following lands in respect to which he is liable to assessment, upon satisfying the association and the council that the same are:-
(a) one or more quarter sections completely inclosed by a substantial fence in good repair of not less than two strands of wire on posts not more than thirty-three feet apart and actually used by him for grazing and hay purposes only; or
(b) an unpatented quarter section held by him under homestead, pre-emption or purchased homestead entry from the Dominion of Canada, upon which there are less than forty acres under cultivation ; or
(c) one or more quarter sections with less than forty acres per quarter under cultivation, the remaining portion of which is completely inclosed by a substantial fence in good repair, of not less than two strands of wire on posts not more than thirty-three feet apart, and actually used by him for grazing and hay purposes only.
(2) The owner of land within the municipality not exceeding in area 640 acres may withdraw from the operation of the bylaw by written notice to the secretary of the association, prior to the first day of June in any year, upon satisfying the association and the councll that not less than twenty-five per cent of the said land is under cultivation.
(3) The owner of land within the municipality exceeding in area 640 acres may withdraw from the operation of the bylaw by written notice to the secretary of the association, prior to the first day of June in any year, upon satisfying the assocjation and the council that not less than fifty per cent of the said land is under cultivation. 1917, c. 15, s. 26 , in part amended; and partly new.
27. (1) The secretary of the association shall, immediately after the first day of June, transmit to the secretary-treasurer of the municipality a list of all notices of withdrawal affecting the said municipality together with particulars of same, and the council shall, during the said month of June, consjder each such notice and shall, if satisfied that the land specified therein may properly be withdrawn under the provisions of the next preceding section, approve the withdrawal.
(2) Forthwith after such action of the council and before the first day of July, the secretary-treasurer shall prepare and forward to the association a detailed statement, verified by statutory declaration, of all the lands, the withdrawal of which has not been approved by the council.
(3) All withdrawals shall be subject to review by the board of directors of the association, and, if the board decide that any withdrawal has been improperly made, it may order that the withdrawal be cancelled and that the rate or rates be levied against such land; and, upon receipt by the secretary-treasurer of a notice from the board to that effect, the secretarytreasurer shall cancel the said withdrawal.
(4) Any land withdrawn from the operation of the bylaw under the next preceding section shall remain withdrawn for a period of at least one year and until, upon the written application of the owner or occupant to the secretary of the association, the board directs that such land be again brought under the operation of the bylaw and notifies the secretarytreasurer of the municipality of the terms and conditions upon which the application is granted, which reasonable terms and conditions the board is hereby authorised to impose; and during the period of withdrawal the land shall be exempt from rates levied under this Act. 1917, c. 15, s. 26 , in part, amended; and partly new.
28. When any crop insured under this Act is destroyed in any other manner than by hail, the owner or occupant of the land on which such crop was grown may, by sending notice by registered letter addressed to the secretary of the association at his office in Regina not later than the twentieth day of July, giving the location of the crop and furnishing proof satisfactory to the board of directors of such destruction, withdraw such crop from the operation of the bylaw for the current year, and in that case he shall be entitled to a proportionate rebate in respect of the rates payable for crop so withdrawn as provided in the bylaw of the association in that behalf:

Provided, however, that no rebate shall be granted for any portion of the crop that may be harvested. New.

## COLLECTION OF RATES.

29. (1) The secretary-treasurer of the municipality shall cause to be entered upon the assessment roll of the municipality for the current year, against all lands and interests in lands within the municipality not withdrawn as provided by sections 26,27 and 28 and relieved from assessment, and against the persons to be assessed in respect thereof, the rates for the then current year, for raising a fund to carry out the purposes of the bylaw and the provisions of this Act.
(2) Such rates shall be collected in the same manner as municipal taxes are collected, and shall if unpaid when due be recoverable in all respects as municipal taxes on land are recoverable; and, with respect to the collection thereof, the municipal officers from time to time charged with the collection of the municipal taxes shall have the same powers and be subject to the same duties as with respect to the collection and recovery of municipal taxes within the municipality.
(3) In the event of any such rate remaining unpaid after the thirty-first day of October in the year in which they are levied, there shall be added thereto by way of penalty the sum of one dollar for every quarter-section of land or portion thereof with respect to which such rates then remain unpaid.
(4) In the event of any such rate remajning unpaid after the thirty-first day of December of the year in which the same was levied, there shall be added thereto by way of penalty a sum equal to eight per cent of the arrears; and upon the expiry of each succeeding year during

## SESSIONAL PAPER No. 9

which the whole or any portion of the combined amount of rate and penalty remains unpaid, an additional sum equal to eight per cent of the arrears shall be added thereto.

The provisions of this subsection shall apply retrospectively as of the first day of January, 1920, to all rates not paid on or before the day on which this Act comes into force. 1917, c. 15, s. 27, amended.
3.0. (1) The secretary-treasurer shall on or before the fifteenth day of June in each year in which any rate assessed under the authority of this Act becomes payable, forward to the secretary of the association a statement in the form prescribed, verified by statutory declaration, showing the full area of all lands in any way assessable within such municipality for the purposes of this Act.
(2) The secretary-treasurer shall, on or before the first day of November in each year, remit to the secretary of the association the total amount of such rates according as the same have been or should have been assessed for such year: Provided that, with the written consent of the board previously obtained, the secretary treasurer may withhold from such remittance the total amount of the rates levied upon land titles to which is in doubt or with respect to which the right of the municipality to assess is in dispute.
(3) In case of the punctual payment to the association on or before the said first day of November in any year of the total amount of such rates as assessed for the year, the municipality may retain the full amount of all penalties imposed under this Act; otherwise the same shall be paid over to the association along with the rates or the balance thereof as remitted from time to time. 1917 , c. $15, \mathrm{~s} .28$, amended.
31. In the event of the secretary-treasurer being unable to remit the full amount of such rates as provided by the second subsection of section 30 hereof, he shall immediately after the date fixed for such payment open a separate bank account to be termed "The Hail Insurance Trust Account," to which all hail insurance levies and penalties then collected shall be transferred and into which such levies and penalties thereafter collected shall be paid. He shall also forthwith remit to the secretary of the association all moneys so transferred, and shall, from time to time, remit moneys paid in, as directed by the association. 1917, c. 15, s. 29, amended.
32. The association shall allow to the municipality out of the moneys received from it such remuneration for services rendered as shall be fixed annually by the board of directors. New.
33. In case of rates levied for any year preceding the year in which this Act comes into force, and penalties imposed thereon, remaining unpaid, the municipality in default shall pay to the association interest at the rate of eight ber centum per annum upon the amount of the arrears. 1917 , c. 15, s. 30.

## Claims for Damage.

34. (1) The owner of a crop or portion thereof upon land assessed and liable for rates imposed under this Act who, between the sixteenth day of June and the fifteenth day of September, both days inclusive, in any year in which such land is so assessed, suffers loss through damage by hail to the standing crop on such land, of which he is the owner or tenant or the representative of either, shall, within three days of such damage being sustained, give notice thereof to the secretary of the association by registered letter addressed to him at Regina.
(2) Such notice shall state:-
(a) the number of acres damaged;
(b) the percentage of damage done:
(c) the claimant's interest, if any, in the crop;
(d) the interest, if any, of any other person in the said crop;
(e) the name of the person responsible for payment of the hail insurance rates on the said land;
( $f$ ) the section, township and range in which the claimant resides, and his usual post office address;
and shall be witnessed and verified by a neighbour.
(3) In case such claimant does not reside within two miles of the crop in respect to which the claim is being made, such notice shall contain the name, section, township and range of some person residing within two miles of such crop, who shall be recognized by the inspector as the representative of such claimant for this purpose. 1917, c. 15, s. 31, amended.
35. The secretary of the association upon receipt of any claim of loss, shall deliver or forward the same to an inspector, who shall inquire into such claim, estimate the loss, and transmit a written report to the secretary of the association. 1917, c. 15, s. 32, in part amended.

## PAYMENT OF CLAIM

36. (1) Each claimant shall be entitled to receive out of the said fund indemnity of not more than five cents per acre for every one per centum of damage which the board may decide that he has sustained by hail over or upon his area of injured crop;

Provided that no claimant shall be entitled to indemnity under this Act for any damage less than five per centum of the crop upon such hailed area at the time of damage;

Provided also that damage from hail throughout the same season and upon the same area shall be treated as cumulative.
(2) In all cases where the loss or damage by hail is less than five per cent. of the crop upon such hailed area at the time of damage the cost of inspection shall be paid by the claimant, and the amount of such costs shall be added to the rates imposed under this Act upon request of the secretary of the association. 1917, c. $15, \mathrm{~s} .33 ; 1918-19$, c. 41, s. 5 ; amended.
37. (1) Subject as herein provided all losses of which the association has had legal notice under the provislons of section 34 hereof shall be paid by it before the fifteenth day of December In each year, but in the event of its total actual and estimated revenues not being considered by the association to be sufficient to pay all losses in full, the same shall be pald pro rata.
(2) In the payment of lossess by the association, whether in full or pro rata, priority shall be given to losses arising in municipalitles which have discharged their indebtedness to the association in full on or before November 1 in the then current year, and the association may make such regulations as it deems equitable for the payment of losses arising in other municipalities under the Act.
(3) The secretary of the association, shall, if requested so to do by any municipality, retain out of the moneys so payable the amount owing by way of rates upon each quarter section of land with respect to which such moneys are payable, and shall remit such inoneys so retained to the secretary-treasurer of the municipality to be credited by him upon the said rates. 1917 , c. 15, s. 34 ; $191 \mathrm{~S}-19$, c. 41, s. 6 ; amended.

## GENERAL

38. (1) All moneys to be collected by any municipality under the authority of this Act and of any such bylaw shall be a debt due by such municipality to the association, and may be recovered by it by action in any court of competent jurisdiction in the province.
(2) In case any municipality shall make default in the payment of any. moneys payable by it to the association under the provisions of section 30 hereof, before the date fixed for the final adjustment and payment of losses as aforesaid, the association may apportion, pay out and apply all moneys otherwise received by it hereunder to satisfy and discharge all claims incurred within the limits of the municipalities, other than the municipality so in default, which may be entitled to the benefits of the indemnity herein provided, and may pay such claims in full without regard to claims which may have arisen within the limits of the defaulting municipality. 1917 , c. 15, s. 35.
39. (1) The council of any municipality may borrow from any person, bank or corporation, upon its promissory note, signed by the reeve and the secretary-treasurer and secured by any portion of such rates and any penalties thereon from time to time remaining unpaid, such sums of money as may be required to enable it to pay in full to the association the amount of the rates assessed within such municipality under such bylaw during the then current year, and may renew any such note from time to time.
(2) The securing of any such loan by any municipality shall not limit or impair its borrowing powers under any Act or law fixing or limiting the same. 1917, c. 15, s. 36, amended.
(40) The adjudication of the association upon all claims for indemnity sent to it under thls Act shall be determined upon the report of the inspector thereon; but the association may require such further reports and evidence in considering any such claim as it may see fit and the adjudication of the board upon each such claim and upon its apportionment among claimants shall be final. 1917, c. $15, \mathrm{~s} .37$.
40. The costs and expenses of and in relation to the inspection and adjudication of all claims for indemnity under this Act shall be such as the association may tax and allow, and shall, together with the allowance to and the expenses of the association and its officers, be paid out of the funds in the hands of the association under this Act. 1917, c. $15, \mathrm{~s} .38$.
41. In the event of any municipality being in arrears to the association for an amount equal to two years' assessment, the directors may suspend the operation of sections $23,34,35$ and 36 of this Act with respect to such municipality. Notice of such suspension shall be given to the secretary-treasurer of such municipality and publish in The Saskatchewan Gazette and in the newspaper published nearest to the centre of the municipality on or before the first day of March in such year. 1917 , c. 15, s. $39 ; 1918-19$, c. 41, s. 7 (1) ; in part; amended.
42. Any secretary-treasurer or other officer or person who refuses or wilfully neglects to perform any duty required of him by this Act or any bylaw of the association or who makes a return that is wilfully false or misleading in any particular, or who performs any act forbidden by this Act, shall be guilty of an offence and liable, upon summary conviction, to a fine of not less than $\$ 10$ nor more than $\$ 100$. 1917, c. 15, s. 40 , amended.
43. Any municipality which refuses or neglects to transmit to the association any report on or before the day fixed by bylaw of the association for the transmission thereof, shall, for every such neglect or refusal, be liable to a penalty of $\$ 1$ for every day during which the default continues. Such penalty may be deducted from any remuneration that may be due the municipality under section 32 of this Act. New.
44. (1) If anything required to be done by or under this Act at or within a fixed time cannot be or is not so done, the minister may by order from time to time appoint a further or other time for doing the same, whether the time within which the same ought to have been done has or has not expired.
(2) Anything done with the time prescribed by such order shall be as valid as if it had been done within the time fixed by or under this Act. 1917 , c. 15, s. 41.
45. Moneys due as indemnity to claimants under this Act shall be exempt from garnishment or attachment and incapable of being assigned. 1917, c. 15, s. 42.
46. The right to be indemnified for loss by hail, to which the owner of a crop may be entitled under the provisions of this Act, shall cease when the grain is cut or harvested or wholly destroyed by any agency other than hail. 1918-19, c. 41, s. 8.
47. (1) For the purpose of enabling the association to make full use of its assets in meeting claims accrulng against it in any year, irrespective of the amount of its collections, the Lieutenant Governor in Council may enter into agreements with the association and with

## SESSIONAL PAPER No. 9

persons lending money to it, guaranteeing repayment of the sums advanced, either originally or upon renewal, with interest.
(2) Such advances may be by way of continued and repeated transactions.
(3) The agreements may provide such terms and conditions, with regard to all or any of such advances, including extensions of time to the association and freedom of the lender from responsibility for the securities, as may be set forth in the Orders in Council authorizing the same.
(4) The association may secure the province against loss through a guarantee in such manner and form as the Lieutenant Governor in Council may approve.
(5) Agreements may be signed on belialf of the province by the provincial treasurer or such other officer as may be from time to time designated by the Lieutenant Governor in Council for the purpose; and when an agreement is so signed the province shall become liable for the payment of the principal and interest thereby secured.
(6) Every agreement so signed and purporting to be made hereunder shall be conclusive evidence in favour of the lender as against the Crown and the association that the terms of this Act with respect thereto have been complied with, that the obligations therein set forth are valid and binding obligations of the Crown and the association, and that the terms and conditions therein contained are authorized by this Act. 1917, c. 15, s. 43.
49. The assets of the hail insurance commission constituted by The Hail Insurance Act 1912 , and continued by The Municipal Hail Insurance Act, are hereby vested in and the liabilities of the commission imposed upon, the association. 1917, c. 15, s. 44.
50. The following enactments are hereby repealed:

7 George V, 1917, c. 15.
9 George V, 1918-19, c. 41.

# SCHEDULE <br> FORM A 

(Section 17 (2),
Bylaw No.
No.
A bylaw to authorize this municipality to join with other municipalities to indemnify owners of crops within their limits from loss occasioned by hail.

## DEPARTMENT OF TRADE AND COMMERCE

FOR THE

FISCAL YEAR ENDING MARCH 31, 1920

PRINTED BY ORDER OF PARLIAMENT

OTTAWA
THOMAS MULVEY
PRINTER TO THE KING'S MOST EXCELLENT MAJESTY
1920

$\qquad$
 $21$

To His Excellency the Duke of Devonshire, K.G., P.C., G.C.M.G., G.C.V.O., etc., etc., Governor General and Commander in Chief of the Dominion of Canada.

May it Please Your Excellency, -
The undersigned has the honour to present to Your Excellency the Report of the Department of Trade and Commerce for the fiscal year ended March 31, 1920.

All of which is respectfully submitted.
GEORGE E. FOSTER,
Minister of Trade and Commerce.
Depártment of Trade and Commerce, Ottawa, May 1, 1919.

# Report of the Deputy Minister 

Ottawa, June 1, 1920.

The Rt. Hon. Sir George E. Foster, P.C., G.C.M.G., M.P., Minister of Trade and Commerce, Ottawa.

Sir,-I have the honour to present herewith the Twenty-eighth Annual Report of the Department of Trade and Commerce, that is to say, for the fiscal year ended March 31, 1920.

The volume of the extemal trade of Canada for the fiscal year 1920, excepting the year 1918, was the greatest in the history of the Dominion. The aggregate trade of the imports for consumption and exports of Canadian produce-taking no account of the movements of coin and bullion-was a trifle over two billion three hundred million dollars. The imports for 1920 were greater by 72 per cent than similar imports just prior to the war, whilst the exports of Canadian merchandise exceeded similar exports in 1914 by 187 per cent.

The aggregate trade of Canada-imports for consumption and exports of Canadian merchandise, combined-for the fiscal year 1920 amounted to $\$ 2,304,-$ 008,267 , whilst the value of similar trade in 1914 amounted to $\$ 1,050,045,583$, showing an increase from 1914 to 1920 of $\$ 1,253,962,684$. The imports of merchandise for the fiscal year 1920 were valued at $\$ 1,064,516,169$ and for 1914 at $\$ 618,457,144$, showing an increase in imports from 1914 to 1920 of $\$ 446,059,-$ 025 ; whilst the exports of Canadian merchandise for the fiscal year 1920 were valued at $\$ 1,239,492,098$, and for 1914 at $\$ 431,588,439$, showing a betterment in exports from 1914 to 1920 of $\$ 807,903,659$.

The following is a summary of the trade of Canada for the years 1914 (prewar) 1918, 1919, and 1920:-

|  | Years ended March 31 |  |  |  |
| :---: | :---: | :---: | :---: | :---: |

## Import and Export Trade Values.

While heretofore, under normal conditions, export and import statistics when expressed in values conveyed a fairly accurate indication of the growth of Canada's foreign trade, to-day, one is apt to be considerably misled if values only are considered. One must now make a comparison in the quantities of the various articles exported or imported as compared with the quantities exported or imported in previous years.

## SESSIONAL PAPER No. 10

For example, the value of the exports for the fiscal year ended March 31, 1920, show an enormous increase over the value of exports for the same period ending March 31, 1914 (the last fiscal year prior to the war). In analysing further, however, the export statistics, computing the percentage of increase or decrease by commodities, as compared with the percentage in the increase or decrease in value, a very wide difference will be found.

It will be observed, in the accompanying statement as regards exports, for example, that the percentage in the increase, so far as quantities are concerned, is lower in almost every case, and in many cases very much lower, than the percentage of increase in values; and while a decrease in the percentage is shown in the quantities of some commodities exported yet an increase in the percentage of value is indicated.

The table appended herewith will afford an interesting study.

STATEMENT SHOWING QUANTITY AND VALUE OF CERTAIN CANADIAN PRODUCE EXPORTED FROM CANADA, WITH INCREASE OR DECREASE, 1920, COMPARED WITH 1914.

## SESSIONAL PAPER No. 10

## Dealing Through Foreign Selling Agencies.

!. The only skeleton in Canada's foreign trade closet is the dependence of Canadian firms upon foreign intermediate commission houses and foreign channels. Every possible effort should be made to ship Canadian goods through Canadian channels, from Canadian seaports to foreign markets to which the goods are destined. The great increase of Canada's merchant marine will go a long way in assisting this object. Canadian export trade should be independent. It would assist in building up Canadian seaports and direct overseas connections.

Canada imports every day goods made under foreign flags from Canadian raw material. The Canadian purchaser pays the wages and the profits of foreign manufacture, also the transportation costs of both raw material and finished goods. In resources and variety of raw materials, in sites and power for factories, in transportation and situation with regard to the world's markets, Canada is unrivalled.

Criticism has been offered with respect to the policy adopted heretofore of opening one European agency by Canadian exporters to serve for several countries. While exclusive selling agencies for all Europe in one of the European capitals may have some advantages, yet since the war conditions have changed. Importers, for example in Scandinavian countries, who are ready to pay cash and desire to deal direct, do not appreciate being referred to London or Paris.

Not infrequently cases are brought to the attention of the department of Canadian firms, before whom the department has placed information as to purchases desired abroad, who have referred such inquiries to firms in the United States. In such cases the department has removed the names of such firms from its lists of Canadian export firms so that no further information will be furnished them.

Complaints have also reached the department from foreign buyers that upon their placing an order with certain Canadian manufacturers to purchase goods manufactured by them they have been referred to agencies in the United States and informed that such United States agencies handle all their foreign business. In some cases foreign purchasers have thereupon refused to place the order.

## Foreign Trade.

Exporters generally are too prone to take too much for granted. The foreign buyer has ideas of his own, and though business throughout the world may have a common basis of trading, still the buyer abroad and the trade to which he has to cater have peculiarities which must be studied. The firm, therefore, who has anything to sell must place the foreign importer in possession of all information to the last detail. No shipment should be made until the exporter is certain that the requirements of his foreign customer have been complied with as to credits, transportation, packing qualities and styles of goods, weights, and measures, etc.

Foreign competition for the trade of the world is very intelligent and very fierce, and if a Canadian manufacturer seeks foreign business he has to meet that competition and to meet it adequately. To meet it adequately means the employment of brains and money and the putting forth of conscientious efforts to acquire in some degree at least the purchasers' point of view and a disposition and willingness to meet him at least half-way in his wishes; to try to give him the things he wants and now what the Canadian manufacturer thinks he ought to want. What is more, if our people expect to compete with the Americans, French, and Germans, etc., they must educate the younger generation of business men to understand foreign trade and to speak foreign languages, and to meet foreign methods and demands.

## Canadian Mercuant Marine.

While the department exercises no control over the Canadian Government Merchant Marine, Limited, it is interesting to note, in considering the extension of Canadian trade overscas, the development of the Government Steamship Line. The Canadian Government Merchant Marine, Limited, began its service in March, 1919, with one boat, namely, the Canadian Voyageur, of 4,575 tons deadweight. She sailed for the West Indies; and as indicating the growth of the business of that line, ten boats are now in the service between Canada and those British colonies and Cuba, with a dead weight carrying capacity of nearly 40,000 tons.

Since the commencement of the overseas Government services up to the 31st March last 71 voyages have been performed, viz.:-

Regular services are now established between Canada and London, Liverpool, Glasgow, Barbados, Trinidad, Demerara, Kingston (Jamaica), Havana, Pernambuco, Rio de Janeiro, Santos, Buenos Aires, Sydney, Melbourne, Newcastle (Australia), Auckland and Wellington, as well as a service from Montreal to Charlottetown, P.E.I., and St. John's, Nfld. Services are about to be established also between Montreal and Cardiff and Swansea. Another service is about to be established from Charlottetown, calling at Sydney and Halifax, to Liverpool. The company also has in contemplation a service beginning about the end of August, from Montreal to Karachi, Bombay, Colomba and Java, and from Vancouver to Shanghai, Hong Kong, Singapore and Calcutta. The company is also making straight charters, such as for pulpwood, from Chicoutimi to France.

While the company at present have thirty boats in the service with a deadweight carrying capacity of 155,000 tons, there are several other vessels to be delivered before the end of June, and up to the 30th September next they expect to have forty vessels in commission.

The total value of goods of Canadian origin exported in the vessels of the Canadian Government Merchant Marine up to March 31 was $\$ 30,099,042$, and of American origin, $\$ 1,051,546$.

## Credits.

With the reconstruction of international trade throughout the world it is becoming a sine qua non that long credits are necessary. If, therefore, Canadian exporters desire to take advantages of the markets now open to them in Europe and elsewhere, long-time payments must be allowed.

Practically every country realizes that if Europe is to regain its economic stability, the countries which prospered during the war must assist. Many Canadian factories are now working overtime in manufacturing articles for which Europe is crying, and could well afford, in many directions, to give long credits, thus ensuring for themselves a market for all time. It has been reported by the Overseas Trade Branch of the department in London that scarcely a day passes without some large order being refused beeause the Canadian agent is unable to give the eredit demanded. The Canadian Government, at a time when it was most needed, granted extensive credits and saved the export trade of Canada during the transition period between actual chaos and the time when the first practical steps could be taken toward reconstruction. The Government,

SESSIONAL PAPER No. 10
however, could not continue granting credits indefinitely, and it therefore behooves Canadian firms, many of whom are in a very strong fincanial position, to do their part, with the assistance of the banks, in taking up the responsibility of granting credits abroad.

Mr. Noxon, chairman of the Overseas Trade Branch of the department in London, recently stated that:-
"Considering the fact that nearly all manufactured goods have advanced in price since the war from 100 per cent to 500 per cent, Canada possesses much of the raw material used in production and should be able with cheap power and efficient labour to produce not only sufficient for the home requirements, but should be able to export against any competition.

## Inaccurate Trade Statistics.

It is to be regretted that Canada indirectly suffers from inaccurate trade statistics published in various foreign countries. A considerable amount of Canadian trade, as is well known, passes through the United States, and certain foreign countries are in the habit of crediting importations from the "country of consignment" rather than the "country of origin."

This department is doing its utmost to bring these anomalies to the attention of the authorities of the countries concerned.

India, for example, in the latest statistics of imports received, credits Canada for the fiscal year ended March 31, 1918, with imports amounting to $\$ 245,168$, whereas Canadian exports were, according to Canadian export returns, $\$ 2,955,-$ 630. The question has been taken up with the Indian authorities in the hope that their system of compiling statistical imports might be improved. The matter was also discussed at the recent Imperial Statistical Conference in London.

In this connection it might also be observed that recently the Canadian Trade Commissioner to the Netherlands has brought to the attention of the department similar conditions as regards the Dutch import trade statistics. In reporting upon the subject, he stated in part as follows:-
"In spite of the fact that Canada is specifically included in list of countries of origin the Dominion appears only five times in the monthly statistics.
"It should not be concluded from this fact, however, that the above are the only goods which Canada is exporting to Holland. This office happens to know that among other goods imported into this country from Canada recently, were dried fruit, lumber, seeds, grinding wheels, elastic braces, tobacco, cork, lathes and planers, packing-house products, chemicals, farm implements, provisions, flax, straw, and tools. As above stated, imports when not of great importance are not credited to particular countries, but included in the totals only.
"Information gathered here points to the conclusion that a very great proportion of Canada's exports to this country are credited to the United States, England, or in some instances Belgium, in Dutch official import returns.
"On account of the lack of direct shipping facilities to this country from Canada, Canadian goods usually pass through one of the above three countries en route to this market. The Dutch Bureau of Statistics depends for its information in regard to imports on declarations made by the importers here, and in the ordinary course does not even require invoices, much less certificates of origin. The importer, who, as a rule, has a large number of declarations to make out, simply declares all goods coming via New York, United States goods. A number of prominent
importers here have verified this statement. It should also be noted that in many cases goods passing throngh England and the United States are handled by American and English export-import merchants, who reinvoice the goods on their own billheads, thus unintentionally misleading the importer here as to the origin of the goods, even did he go to the trouble of discriminating between Canadian and American goods, where possible."

While Canadian exports are correctly indicated in Canadian export returns, yet the imports from Canada, as indicated by various foreign countries, convey incorrect information as to the importance of Canada in the commercial affairs of the world.

Comments are made in leading trade publications abroad upon trade statisics as published, and frequently Canada is not mentioned by reason of the absence of statistics indicating imports from Canada. In certain foreign quarters therefore, Canada is unknown as a country which can and does supply large quantities of commodities which the buyer abroad requires. Such foreign comments not infrequently are republished in the United States as an evidence of the very large growth of the export trade of that country.

## Business Correspondence.

In dealing with foreigners, the Canadian business man has always a tendency to forget that the best methods to use are seldom those which produce the best results in Canada. Two cases in point are the character of letters written to prospective customers abroad, and the failure to supply the foreign correspond-ent-when opening negotiations-with proper information about one's financial standing and responsibility. If, when writing to a possible foreign buyer, the Canadian firm will bear in mind that the foreigner is probably unfamiliar with their name and the merits of their line, and that full particulars are much more to be desired than the short, businesslike quotations submitted to a local concern, a great deal of benefit would accrue.

On this subject a business man, himself interested in selling Canadian specialties abroad, recently suggested that Canadian manufacturers and exporters should write an individual letter when sending catalogues, giving full details regarding prices, discounts, mode of payment, and other obvious particulars which are necessary in order to develop business, especially in foreign countries.

Form letters explaining a line, have their advantages if accompanied by a more personal communication referring to the particular inquiry, but more experienced Canadian exporters believe that, as a general rule, their use should not be encouraged.

In commencing correspondence with a foreigner with a view to establishing commercial relations, the Canadian business man should more than ever bear in mind that his correspondent has perhaps never heard of him, and cannot readily learn anything of his financial standing or integrity. Moreover, as it is he who is making the oveture, business courtesy - to say nothing of better business itself-demands that he give sufficient information about himself, rather than expect his correspondent to scarch for it. Instead of this, however, some Canadian firms go so far as to request credit information without first supplying it regarding themselves.

## Honesty in Business.

The undersigned has not infrequently drawn attention to the lack of consideration shown by C'anadian exporters towards foreign importers desiring to purchase Canadian goods not only in negligence in replying to correspondence,
but in filling orders in a way other than desired by the foreign buyer. One of the world's greatest masters of business laid down four rules which he considered essential to success, which it may not be amiss to reproduce here. These four rules for manufacturers are as follows:-

1st. No sharp bargains. Do more, not less, than promised.
2nd. If dispute arises always give the other party the benefit of the doubt. Avoid resort to law; compromise.
3rd. Subject all products to more rigid tests than purchaser requires. A reputation for producing the best is a sure foundation upon which to build.
4th. Should honest, capable contractors need extension of payments from accident or unusual stringency, be lenient, generous, and help them, thus making them friends.

## Go Abroad.

World-wide business offers greater opportunities for the man of big, broad virile imagination than the home market. The man of practical far-sight sees a great new idea while the little man holds back. The foreign markets call for great skill, for intelligent care in planning, for real merchandising judgment, for the best business brains of any country. They invite the man of ideas and courage.

The executive who can go abroad himself will always profit by doing so. Nobody can see just as he does. No subordinate will see the bold opportunity and take it, and then make it go, as he will. No executive can see, through typewritten reports and vague opinions, as he will see when he gets the human touch in a foreign city, sees the way the people live, finds that foreigners feel about things pretty much as he does, and seizes the faith that he can appeal successfully for the trade of foreign population.

In order to make a success in foreign trade, exporters must first grasp the fundamental conditions. The foreign importer should be offered good inducements to push the particular goods. He must be made to see that it is to his, personal advantage to buy your goods. He must be able to resell the goods at profit to himself. Exporters should endeavour to place themselves in the position of the foreign importer, and insure that the latter gets the very last bit of necessary information to enable him to decide as to whether he will buy. This is frequently difficult for the exporter to do without first-hand knowledge of the foreign importers' requirements.

Therefore I may say to executives and principals of exporting firms: "Go abroad yourself." The business which can be picked up over the coffee cups with your prospective customers can scarcely be overestimated. You, alone, or your responsible representatives, are in a position to give definite information as to prices, or make such concession as will insure the business. Big men abroad want to talk to big men, and not to irresponsible representatives. Many instances, too numerous to recite, can be given of lasting business connections having been made by principals themselves going abroad and meeting principals.

Over and over again information has come to the writer as to exclusiveness of the wealthy principals of large foreign commercial houses. They are loath to permit any one to intrude upon their time. They can easily turn a visiting agent over to a subordinate to deal with when they would hesitate to refuse to receive one whom they recognize to be the head of a foreign house.

## Buy Goods Made in Canada.

Buying only goods made in Canada would solve for the Dominion, the war debt problem. The purchases in Canada of only Canadian-made goods should be loyally observed by every man, woman and child in the country. It is true
that better made goods, at times, may be purchased abroad than may be available in Canada, but with a little sacrifice, if home articles are purchased, it is reasonable to suppose that their manufacture will be improved.

If we all, however, followed as a fetish, the slogan "Buy only Goods made in Canada or in the Empire," it would promptly rectify the exchange disadvantage under which we suffer, build up Canadian factories, provide labour for the Canadian workingmen, increase transportation over Canadian railways, and enormously develop Canadian resources. Every dollar spent for an imported article only assists in building up a foreign factory. This having been accomplished, Canadian exporters should get away from the long-standing practice of relying upon foreign commission houses to find a market for their goods.

There is a yawning market in almost every country in the world for Canadian goods, and if Canadian exporters would keep before them at all times the desirability of shipping their goods from Canadian seaports, the increased transportation facilities would result rather than that Canadian goods should assist to congest United States seaports and thus delay their transportation abroad.

Occasionally it is stated that goods not made in Canada are stamped "Made in Canada," and hence buyers endeavouring to purchase only Canadian-made goods are misled. In this connection it may be stated that the Criminal Code provides for such misrepresentations, and under its provisions any one feeling themselves aggrieved, can lay information before a magistrate with a view to prosecuting vendors of foreign-made goods which are falsely marked as being of Canadian manufacture.

## 'Trade Commissioners' Offices.

Criticism is directed occasionally by Canadian travellers abroad, to what is termed, "the alleged inadequate staff and equipment of the Canadian Trade Commissioners' offices." Such travellers may have personal knowledge of one or two offices only, and have no means of judging intelligently of the Trade Commissioners' offices as a whole. Such travellers do not realize that the maintenance of a corps of Trade Commissioners abroad means a heavy expense upon the Canadian Government, and in recent years, with the ever increasing cost of salaries, rentals and equipment, the total expenditure has greatly increased. Nevertheless the service has increased even at a time when the financial condition of the country renders economy in every direction a vital factor in the future success and prosperity of the Dominion.

Foreign consuls have revenues for their offices, while a Trade Commissioner has none. The revenues of some foreign consuls not only pay the entire expense of a well equipped office, but some consuls are able to send a surplus to their home Government every year.

There are yet many fields in which Trade Commissioners could be established, and it is preferable that representation should be established in a larger number of countries, rather that the total expenditure should be concentrated in a few.

The foreign travellers referred to are imbued with much the same impression as are too many Canadian manufacturers. Too much is expected of a Trade Commissioner. He is not an agent nor a broker, nor does he work on a commission basis. He points the way, but manufacturers and exporters must then do their share.

The department has seldom failed in explaining satisfactorily, criticism which has been made without the slightest knowledge of the facts. The department, however, does not resent cirticism nor suggestions, but is ever ready to promptly put into force any system or suggestion, within the limitations necessary in the conduct of such a service, which may appear an improvement in the conduct of the Canadian Trade Commissioners.

## What the Department is Doing.

The Department of Trade and Commerce expends time and money in collecting lists of names of Canadian manufacturers in order to be able to furnish names to British and foreign enquirers who want to buy from Canada. Is there not some obligation resting upon the manufacturer, whether he desires to engage in foreign trade or not, to see that his name and address and particulars of what he manufactures are on file at Ottawa? A corps of Canadian Trade Commissioners in various parts of the world are devoting their whole time to finding markets for Canadian produce. They are doing splendid service. Over and over again their work has met with conspicuous success but not infrequently their efforts are rendered disheartening owing either to the lack of support or the passive indifference of exporters at home.

The department can very properly ask: "What can it do to help your foreign trade? Are you availing yourself of every facility offered you by the Government to-day? Have you ever inquired as to what the Government is doing to assist you?" Would such information be of any interest? If, so why not get it.

Canada has something between eight and nine million people. She has vast productive areas and vast resources of raw material. She has recognized her responsibility to humanity by taking her place on the side of right and justice in this world war.

It is not sufficient for each to think of his own individual welfare in the future. It is the duty of all to work overtime for the advancement of Canada.

The nation that gets down to team play and a scientific study of its problems is the one that will forge ahead in the keen trade competition that will follow this world crisis.

The Department of Trade and Commerce maintains a corps of especially equipped Trade Commissioners in various parts of the world, some of them having been especially trained in the department for their work abroad.. These Trade Commissioners are, at present, established in the following countries:-

Argentine Republic, Australia, Brazil, British West Indies, China, Cuba, France, Holland, India, Italy, Japan, Newfoundland, New Zealand, South Africa, Southeastern Europe, and the United Kingdom.

It is intended that this service will be extended from time to time, thus opening new markets for Canadian exports. These Trade Commissioners, under direct instructions from Ottawa, report frequently to the department, and within a few days these reports are published in the Weelly Bulletin, issued by the department, and distributed widely throughout the whole of Canada, free of charge.

## Commercial Intelligence Branch.

Perhaps the most important feature of the work of the Commercial Intelligence Branch during the past year was the return to Canada of twelve Canadian Trade Commissioners who had been overseas for a number of years. It is the established policy of the Department of Trade and Commerce to bring home the Trade Commissioners from time to time in order that they may not get out of touch with Canadian conditions. Under ordinary circumstances only a few of them would come home each year, but during the war period it was not considered practicable to have the Trade Commissioners return to Canada, and so when the war was over a number of theCommissioners came at the same time.

Mr. H. R. Poussette, formerly Trade Commissioner in Buenos Aires, Argentina, and Mr. Gordon B. Johnson, formerly Trade Commissioner in Yokohama, Japan, secured leave of absence from the Commercial Intelligence Service for active service overseas. When the war was over they returned to Canada. After they had taken trips through the country calling upon manufacturers, Mr.

Johnson was sent to Rio de Janciro, Brazil, as Trade Commissioner, and Mr. H. R. Poussette was sent on an inspection trip to Newfoundland, and afterwards to Japan, China, Vladivostok and India. He is at present in India. Mr. C. F. Just, formerly Canadian Trade Commissioner in Petrograd, and more recently a member of the Canadian Economic Commission (Siberia), after his return to Canada was superannuated at his own request.

The other Trade Commissioners who visited Canada up to April 30 last were:-
D. H. Ross, Canadian Trade Commissioner, Melbourne, Aus.
W. A. Beddoe, Canadian Trade Commissioner, Auckland, N.Z.
J. W. Ross, Canadian Trade Commissioner, Shanghai, China.
W. J. Egan, Canadian Trade Commissioner, Cape Town, S.A.

Harrison Watson, Canadian Trade Commissioner, London, Eng.
J. E. Ray, Canadian Trade Commissioner, Manchester, Eng.
B. S. Webb, Canadain Trade Commissioner, Buenos Aires, Argentine Republic.
E. H. S. Flood, Canadian Trade Commissioner, Barbados, B.W.I.
L. D. Wilgress, formerly Trade Commissioner in Vladivostok, Siberia.
N. D. Johnston, Canadian Trade Commissioner, Bristol, Eng.
J. F. Smith, Liverpool, Eng.

Owing to illness, Mr. E. H. S. Flood, Canadian Trade Commissioner to the British West Indies, was only able to call on a few manufacturers, but each of the other visiting Trade Commissioners called on a large number.

There is no doubt that the visit of these Trade Commissioners to Canada was of great advantage to Canadian trade. They were able to talk face to face with manufacturers with whom they had been corresponding for years as well as with those who have not taken any interest in export trade until recently. Not only could the Trade Commissioners give the manufacturers more information in half an hour's conversation than in several long letters, but the visit created a personal relationship between the manufacturers and the Trade Commissioners which will be very helpful in future correspondence.

The following new Trade Commissioners were appointed during the past year:-

Lieut.-Col. Hercule Barre, Paris, France.
Major Hugh A. Chisholm, Havana, Cuba.
Lieut. J. Vernon McKenzie, Glasgow, Scotland.
Mr. P. W. Ward was appointed Assistant Trade Commissioner for duty in Capetown on the 1st of April of this year. He sailed for South Africa early in May of this year.

Lieut.-Col. Barre will work in co-operation with Mr. Phillippe Roy, Commissioner General of Canada in Paris, France. He has an office in the same building.

Mr. W. McL. Clarke, Canadian Trade Commissioner in Milan, Italy, was sent on a special mission to Spain, and prepared a scries of articles on prospects of Canadian trade in that country which were published in the Weekly Bulletin of the Department of Trade and Commerce. He was afterwards instructed to visit Greece, and his report on conditions in that country is being published in the Weekly Bulletin.

Mr. L. D. Wilgress, who was Trade Commissioner in Siberia and served on the Canadian Economic Commission (Siberia), has been appointed Trade Commissioner for Southeastern Europe. He will investigate trade conditions in Poland, Jugo Slavia, Czecho Slovakia and in south of Russia.

SESSIONAL PAPER No. 10
Many Canadian manufacturers have shown a great interest in export trade since the armistice was signed. The correspondence of the Commercial Intelligence Branch has greatly increased and a number of special investigations have been made on behalf of Canadian firms who wished to have information regarding overseas markets for their products and the various factors affecting their sale in competition with the products of rival manufacturing countries. In making such investigations the Commercial Intelligence Branch not only utilizes the services of Canadian Trade Commissioners but in countries where Canada is not directly represented advantage is taken of the arrangements made by Right Honourable Sir George E. Foster with the British Foreign Office whereby British Consuls co-operate with the Commercial Intelligence Service of Canada, and much valuable information has been secured from British Consuls. The British Trade Commissioner in Calcutta, India, has also answered many letters giving important information, and he issued to British firms in India a special bulletin made up of extracts from the book "Canada, the Country of the Twentieth Century," published by this department.

Great industries have been established in Canada in connection with the war. In some cases the whole output of large plants had been sold to the British Government or the Canadian Govermment during the war period and new outlets had to be found. For instance, Canada has the largest acetic acid plant in the world. The whole of the product was sold to the British Government during war-time and yet since the armistice was signed new markets have been found for the whole of the immense production of this plant.

In a number of cases the sales managers of great Canadian companies have called at the head office of the Commercial Intelligence Branch to express their appreciation of the assistance given in finding new markets for their products overseas.

However, in some cases when inquiries came from abroad for specified quantities of Canadian products for immediate delivery it was difficult to secure supplies from Canadian manufacturers owing to the large Canadian demand, difficulty in securing materials, and labour shortage.

For some time after the ending of hostilities the lack of shipping facilities seriously handicapped Canadian export trade, but the situation in this regard has greatly improved.

The most serious difficulty at the present time as regards export trade to the United Kingdom is the exchange situation.

Export of Canadian manufactured products to France has been to a considerable extent discouraged by the great increases in the French tariff, coupled with the depreciation of the franc as compared with the Canadian dollar. Italy also is determined to protect its own industries against foreign competition in the reconstruction period and many restrictions have been imposed.

More recently the Australian Government proclaimed a new tariff, which came into operation on March 25. The tariff consists of three schedules, that is to say, British Preferential, Intermediate, and General. Canadian exports are subject to the General Tariff.

The British Preferential is extended to imports from the United Kingdom, and excluding an existing limited agreement with British South Africa, no preference is granted by Australia to any dominion; but the Minister of Trade and Customs stated in the Commonwealth Parliament that the Bill provided for reciprocal arrangements with any dominion on the basis of the British Preferential or Intermediate Schedules, in whole or in part. The Canadian Government is now considering an exchange of views with the Australian authorities in the hope that the trade relations between the two countries may be improved.

11 GEORGE V, A. 1921

## Moving Picture Films.

In the Exhibits and Publicity Bureau, there has been increased activity in connection with the preparation and distribution of motion pictures of Canada. The work has been carried on in co-operation with other departments of the Government service, and the following films have been produced and released during the year:-

Building Aeroplanes in Canada.
Prince of Playgrounds.
Harvest of the Sugar Maple Tree.
Salmon Fishing on the Skeena.
The Enemy of the Forest.
A Fish and Bear Tale.
Along the St. John River.
Campfires among the Snowpeaks.
Fish and Fishing for Everybody.
Algonquin Park-Land of a Thousand Lakes.
Along the St. Maurice.
A Bird City.
Peace Hath Her Victories.
Ottawa, the Edinburgh of North America.
In the Valley of the Yoho.
Apple Time in Evangeline's Land.
The Playground of a Continent.
The Last of the Bison.
Where the Moose Run Loose.
A Motor Boat Ramble.
Solving Canada's Fuel Problem.
A City of Sunshine.
The distribution of our motion pictures in Canadian theatres has been continued, one film having been released every second week.

In Canada the films were also exhibited during the summer and fall of 1919 by Mr. D. W. Johnson, Official Lecturer of the Bureau, at the Fairs held at Calgary, Edmonton, Regina, Saskatoon, Brandon, Toronto, Ottawa, Chatham, London and Halifax. It is estimated that approximately 150,000 people saw the pictures and heard the educational talks in connection with these exhibitions.

In August, 1919, a contract was entered into with Sir William F. Jury; one of the foremost film distributors in England, for the distribution of our motion pictures in Great Britain. To the end of March, 1920, 84,000 feet of film had been forwarded to England for this purpose.

Our films have also been distributed in the United States in 6,000 theatres, and it is estimated that they are exhibited to over $3,000,000$ people per week.

In addition to the above, our films are being circulated by our Trade Commissioners in Australia, New Zealand, South Africa, and Newfoundland. They are being distributed in India by the Educational Kinematograph and a series is in course of preparation for circulation in Havana and South America, in which is involved the translation of titles into Spanish and Portuguese.

Still photographs have been secured of practically all the motion-picture views, which have been of use for illustrations in newspapers and magazines and for the making of lantern slides.

## Bureau of Statistics.

The Dominion Bureau of Statistics now carries on its work in ten divisions, not including an"Administration" Division, which controls staff, answers inquiries of the pablic, maintains a central tabulation sarvice for other departments, etc., etc.

SESSIONAL PAPER No. 10
Before giving a brief outline of the work of the above divisions, it may be remarked that a feature of the year was the further completion of the scheme of statistical centralization, which is now the policy of the Government under the Statistics Act and Regulations. The Statistical Branch of the Department of Railways and Canals, dealing with the statistics of railways, street railways, express companies, telegraphs, telephones and canals, was transferred to the bureau during 1919, and reorganized in co-ordination with the work in other fields. Definite arrangements were also made for the taking of an annual census of central electric stations in collaboration with the Dominion Water Power Branch, Department of the Interior, the Hydro-Electric Power Commission of Ontario, The Quebec Streams Commission, and other bodies. Similiarly, by an arrangement with the Forestry Branch, Department of the Interior, the statistics of lumbering, pulp and paper and allied industries are now published under a co-operative agreement.

Demography.-Beginning with January 1, 1920, six provinces send on their monthly collections of the statistics of births and deaths to the bureau for compilation. It is expected that the remaining provinces will be brought within the scheme during the present calendar year. The co-ordination of migration statistics was under discussion with the Department of Immigration. Considerable progress was made in connection with the planning of the census of 1921.

Agriculture.-The usual census of acreages and live stock on farms in June was taken in co-operation with the nine provincial governments. The cropreporting services and other features of this division were maintained in increasing efficiency.

Industrial Production.-Censuses of the production of the fisheries, mines, forests, and manufactures were taken by correspondence during the year.

External Trade.-The monthly report of imports and exports was remodelled, including the adoption of a new classification of articles and an improved arrangement of tables. The practice of issuing advance summaries relating to the statistics of the more important imports and exports was initiated.

Internal Trade.-Further improvements in the presentation of grain statistics were carried out and the preliminary work done on a similar annual treatment of the live stock industry. The work of the bureau on prices was also organized in final form.

Finance.-A co-ordination of the public accounts of the Dominion and of the provinces was carried out, and a beginning made in the systematic collection of municipal statistics.

Criminal Statistics.-The usual annual report on criminal statistics was brought out in somewhat curtailed form.

Education.-A detailed scheme for the presentation of statistics of education was drawn up and was the subject of discussion between the Bureau and the several Provincial Departments of Education, good progress being made in the direction of standardization and the general improvement of educational records.

General.-The Canada Year Book as issued during the past year contains as its leading article a statement entitled "Fifty Years of Canadian Progress," in addition to its usual features.

During the winter of 1920 the Dominion Statistician attended the British Empire Statistical Conference in London, as the representative of Canada.

## Canadian Trade Commission.

While the activities of the Canadian Trade Commission continued unabated during the past year, naturally the work to a certain extent fell off immediately following the signing of the armistice, though many contracts and other work of importance still remained to be dealt with by that commission.

5230-2

During the war, as is well known, many industries in Canada had become converted into shell and munition factories, many new plants had been established for the production of shell components, and large additions had been made for the manufacture of iron and steel. Upon the cessation of hostilities Canada found herself confronted with the problem of unemploymet through the closing down of war work activities. In the reconstruction work that followed, it became increasingly difficult for private trade, for a time at least, to get back into its normal channels, and it beeame necessary therefore that concerted efforts should be made to enable Canada to reap the full benefits abroad where so much trade activity continued to be controlled by various Government bodies.

The Canadian Trade Mission in London was therefore established, and under its auspices credits for certain European countries were arranged, the contracts being carried out at this end by the Canadian Trade Commission, which commission distributed and allocated the contracts amongst the various industries with due respect to the nature of any particular trade requirements and the local conditions appertaining to the same.

The Canadian Trade Commission was appointed by Order in Council, P.C. 3010, dated 6th December, 1918. The personnel of the commission was originally as follows:-

Chairman, Sir Charles Gordon, Montreal; C. B. McNaught, Toronto; H. B. Thomson, Victoria.

Owing to ill health, Mr. C. B. McNaught sent in his resignation, which was accepted by Order in Council, P.C. 1039, dated 19th May, 1919. The vacancy thus caused was filled by Mr. Rhys D. Fairbairn, of Toronto, confirmed by Order in Council, P.C. 1190, dated 23rd of June, 1919.

While this report in reality but covers the fiscal year ended March 31, 1920, for the purposes of record it may be stated that subsequently by Order in Council of the 19th of May, P.C. 1116, the undersigned was appointed chairman of the commission, and Mr. J. H. Wilkie a member, vice Sir Charles Gordon and Mr. Fairbairn, who resigned.

The powers and duties of the Canadian Trade Commission were defined by Order in Council, P.C. 3010, of the 6th December, 1918.

The main work of the commission consisted in functioning, in conjunction with the Canadian Mission in London, the credits which were extended by the Canadian Government to certain European countries whose populations were engaged in reconstruction work after the war. The following are the countries to which eredits were extended:-

| Great Britain, P.C. 3208, 2nd January, 1919- |  |  |  |

SESSIONAL PAPER No. 10
The amount actually expended by the Canadian Government against these orders up to March 31, 1920, were as follows:-

Coal.-The Fuel Controllers' office was closed on October 25, 1919. Almost immediately after a strike occurred in the bituminous coal fields of the United States. To meet this situation, the export of coal from Canada was prohibited except under license. The Fuel Controller, Mr. C. A. Magrath, did not have an organization to handle the situation, so the Canadian Trade Commission undertook the work, at the request of the Government, under the direction of Mr . Magrath.

It was necessary to immediately ascertain what stocks of coal were in the country, the quantity available on wheels on Canadian railroads, and the minimum requirements of central Canada for the remaining months of the coal year.

After investigation of Canada's needs, Mr. Magrath proceeded to Washington and succeeded in inducing the United States authorities to allow Canada a supply of one hundred and twenty-five cars per day, provided that the coal was distributed in accordance with priority ratings, established by the United States Fuel Administration.

He was also required to guarantee payment of any coal supplied under this arrangement.

The procedure adopted in distributing this emergency coal was, that all applicants filed affidavits with their provincial administrator, setting forth the following information:-
(1) The character of the work to carry on which the coal was required.
(2) The quantity of coal on hand.
(3) Daily consumption.
(4) Source from which coal was usually obtained.
(5) Size and grade of coal desired.

If the Provincial Fuel Administrator approved of the application, it was forwarded to the Canadian Trade Commission, the applicant being required to advance a deposit at the rate of $\$ 150$ per car for each car, of coal required.

The arrangements made were quite satisfactory, although Canada never received the 125 cars per day, as promised: such industries, public utilities and institutions as were short of coal receiving sufficient supplies to keep them operating and heated. Fortunately the strike was settled about the middle of December and anxieties in regard to the coal supply for Canada were greatly relieved.

As the Fuel Administration had been set up under the War Measures Act, and the future appearing brighter, an Order in Council was passed, cancelling the order establishing Fuel Control in Canada on the Fifth day of March last.

Sugar.-In regard to sugar, a shortage developed during the preserving season in 1919, and as in the early part of 1919 sugar had been plentiful and the supply more than sufficient to meet the domestic demand, export had been encouraged and allowed. The prevailing world shortage, however, created a condition whereby it was more profitable for the refiners to export sugar than to sell it in the home market, and in order to conserve the necessary supplies for the domestic and manufacturing consumption of Canada all export licenses were cancelled.

The shortage which obtained during 1919 has continued this year, owing in a large measure to the shortage of the Cuban crop and also to the increased demands from European countries.

The underlying principle governing the licensing of exports is that the home demand must be met before any export licenses are granted. Owing to strikes in Cuba and the United States, the movement of raws to Canada was considerably delayed during the early part of the year, and consequently, although the refiners made fair deliveries there has been no surplus for export, and should all the contracts which the refiners have for raw sugars be filled, there would still appear to be a shortage, but as there are still raw sugars for sale, the refiners will doubtless be able to meet the demand, although the price for raws has increased from $61 / 2$ cents a pound in October last to $181 / 2$ cents per pound to-day. It is not expected that the refiners will be able to procure the balance of their requirements at a less figure than the prices now being quoted. Nevertheless, Canada to-day is better supplied with sugar than any other country in the world, and moreover, it is also cheaper.

## Contracts for the Production of Pig-Iron.

When the War Trade Board was dissolved they had on hand two contracts for the production of pig-iron, viz., with the Midland Iron \& Steel Company, Midland, Ont., and the Parry Sound Iron Company, Parry Sound, Ont., for their total production up to August 1, 1920, in the case of the former and September 30, 1920, for the latter. These contracts were based on payments on a sliding scale, the maximum being $\$ 45$ per ton for No. 1 foundry and $\$ 44.50$ for No. 2.

The administration of these contracts was subsequently taken over by this department and placed in direct charge of Mr. H. D. Bayne, Supervisor of Metal and Fibre.

On March 31 1919, very little had been done with the exception of appointing inspectors and chemists at Midland and Parry Sound, furthermore inspecting and analysing the above companies' products previous to February 1st by an outside commercial testing bureau, this amount being approximately 3,500 tons.

In view of the fact that the regular merchant furnaces were at that time in a position to take care of the country's needs, it became a question as to whether or not it would be advisable to continue or cancel the further production of pig-iron. At the request of the Acting Minister; Hon. A. K. Maclean, a physical examination was made and a report on both properties with a view of ascertaining the most equitable manner of adjustment.

Negotiations were then entered into between this Department and the two furnaces, with the result that after many conferences and meetings, the Government offered and the contractors accepted the sum of $\$ 460,000$ in the case of the Midland Iron \& Steel Company and $\$ 200,000$ in the case of the Parry Sound Iron Company for the cancellation of their production on July 31st, 1919, agreeing however to take care of all loading and storage charges until August 31, 1920.

It then became purely a commercial proposition of disposing of the stock on hand in competition with the existing furnaces, which has been vigorously carried out as is shown by the following statement:-

| on and Strel Co. |  |  |
| :---: | :---: | :---: |
| Balance material on hand as on March 31, 1919, produced prior to |  |  |
| that date................................................... | 5,326 G.T. | 4,665 G.T. |
| Produced April 1, 1919, to July 31, 1919 | 5,370 G.T. | 6,905 G.T. |
| Adjustment on re-weighed casts. | 214 G.T. | 190 G.T. |
| Total to account for fiscal year. | 10,910 G.T. | 11,380 G.T. |
| Shipped from April 1, 1919, to March 31, 1920. | 5,177 G.T. | 4,196 G.T |
| Balance material on hand on March 31, 1920 | 5,733 G.T. | 7,184 G.T. |
| Material sold—not shipped.................. | 5,733 G.T. | 1,810 G.T. |
| Balance material on hand-not sold. | Nil. | 5,374 G.T. |

In conclusion I might state that up to the present there has not been a single bad debt, all payments having been met in full, and although no profit has been made, the loss has been considerably less than originally anticipated.

## Board of Grain Commissioners.

Following an extraordinary mild winter a larger acreage was sown in 1919 to wheat, oats, flax and rye than ever before in the history of the Prairie Provinces. An early and very hot summer followed, during which little or no rain fell until harvest time. As a result the average yield per acre in Saskatchewan and Alberta was cut in half. In some sections the drought was so severe that crops were insufficient to provide feed for cattle. In some sections of Manitoba conditions were very similar to those existing in Saskatchewan and Alberta, but in other sections the crops were good and produced a high yield so that, except in the case of barley, the estimated production was about the same as in 1918. Harvesting commenced exceptionally early too, and the larger movement of the new crop in August seemed to indicate a speedy delivery of a large proportion to European buyers before the closing of navigation on the great lakes. Heavy rains set in, however, hindering the harvesting and threshing of the grain. This in turn was followed by a very early setting in of winter, and much grain was snowed under to await the advent of spring.

As long as navigation remained open on the Great Lakes ample tonnage was available to transport all the grain arriving at Fort William and Port Arthur, so that little remained at the close of the season in elevators. The movement by rail during the winter was freer than usual, taking care of the greater part of the grain arriving, and keeping stocks in store low.

During the period between September 1 and March 31, 7,825 more cars were inspected in the Western Grain Inspection Division than for the same period of the crop year 1918-19. The freer movement of oats on account of the record high prices accounted for an increase of 14,217 cars, more than offsetting decreases of 8,284 cars of wheat and 369 cars of flax inspected. In barley also, for the same reason, and in spite of a much smaller crop, an increase of 1,621 cars is noted. Comparative figures are as fellows:-

| Seven months ending: | Wheat. | Oats. | Barley. | Flax. | Rye. | Others. |
| :---: | ---: | ---: | ---: | ---: | ---: | ---: |
| Mareh 31, $1919 \ldots \ldots \ldots \ldots$ | 88,451 | 10,055 | 6,119 | 1,937 | 896 | 412 |
| March 31, $1920 \ldots \ldots \ldots \ldots$ | 80,167 | 24,272 | 7,740 | 1,568 | 1,478 | 470 |

The total receipts of each of these grains at all the Fort William and Port Arthur elevators for the same period reflect the same conditions and are as follows:-

| Whe | 1919-1920.7,183 Bushels |  | 1918-1919. <br> 87, 128, 768 Bushels |  |
| :---: | :---: | :---: | :---: | :---: |
| Oats. | 18,024,567 |  | 6, 074,490 |  |
| Barley. | 6,361,620 | " | 5, 074, 925 | " |
| Flax | 929,592 |  | 1,540,353 | * |
| Rye | 888,263 |  | 732,912 |  |

The total grain handled by country elevators during the crop year 1918-19 showed a marked falling-off as compared with the previous year on account of the smaller crops of 1918:-

The total amount of principal grains handled by the Government interior terminal elevators at Calgary, Moosejaw, Saskatoon and Vancouver, during the crop year 1918-19, as compared with the previous crop year, is as follows:-

| Receipts. |  | $\begin{aligned} & \text { 1918-1919. } \\ & \text { 4,404,326 Bushels } \end{aligned}$ |  | $\begin{aligned} & \text { 1917-1918. } \\ & \text { 7,311,780 IBushels } \end{aligned}$ |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Oats. |  |  |  | 8,968,600 |  |
| Barley. |  | 751,268 | " | 316,888 |  |
| Flax |  | 36,128 | " | 108,911 | " |
| Rye. |  | 41,280 | " | 40,939 | " |

Of the wheat in 1918-19, 349,034 bushels were Australian wheat.
The total amount of principal grains handled by the Government elevator at Port Arthur, during the crop year 1918-19, as compared with the previous year, is as follows:-

| Whe | Receipts. | $\begin{gathered} \text { 1918-1919. } \\ \text { 3,678, +19 Bushels } \end{gathered}$ |  | 1917-1918. <br> 8,911, 239 Bushels |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Oats. |  | -825,669 |  | 1,438,719 |  |
| Barley. |  | 436,791 | " | 307,851 | " |
| Flax. |  | 354, 174 | " | 469,905 | " |
| Rye. |  | 46,758 | " | 12,135 |  |

Owing to the light crop a large number of country elevators in the affected areas were not opened during the season, resulting in a decrease in the number of licenses issued of 180 as compared to 1918-19, and 442 as compared to 1917-18. The following statement shows the number of each class of license issued during the last three crop years:-

## SESSIONAL PAPER No. 10

## Board of Grain Supervisors.

The Board of Supervisors was created by Order in Council under the War Measures Act, on the 11th June, 1917. The members were as follows:-

Dr. R. Magill, Chairman; J. C. Gage, W. Bawlf, W. A. Matheson J., Stewart, T. A. Crerar, A. Wood, Best, Ainee, Clark.

The board marketed Canadian wheat during the critical years of the war, and it was dissolved on the 31st of January, 1920.

It marketed the balance of the wheat crop of 1916, and the whole of the wheat crops of 1917 and 1918, making a total of about $350,000,000$ bushels of wheat.

The board was created because international trading in wheat by commercial methods had become impossible. Ocean tonnage, international money rates, price levels, credit facilities-all these conditions of international trading had been so profoundly disturbed by the war that only the Government could carry the burden of marketing the wheat.

The board fixed the basis price of wheat in store at Fort William and Port Arthur, then in parity with the basis price, the price at every elevator in the interior and at the seaboard. In fixing the basis price the board acted in close communication with the corresponding authority in the United States, with the result that the price of wheat of the same variety and gracte and in the same relative position was identical in Canada and the United States.

The board distributed the wheat as between Canada and the Allied countries, and in so far as the domestic consumption was concerned, they distributed the wheat amongst Canadian millers.

The closing of navigation on the Great Lakes presses the problem of the carrying charges on wheat during the winter months. These charges include storage, interest and insurance. The price of wheat at any one point being identical during the twelve months, those carrying charges were paid by the Board out of the fund created for the purpose.

In handling the wheat the method adopted by the board and operated during the whole period of its existence was to fix the price of each grade and variety and at each geographical point, to fix all commissions and brokerages. to fix quantities to be delivered and the terms and conditions of delivery, to embody all these decisions in orders, and to utilize the existing grain and trade organizations to execute these orders. Close supervision was maintained, but throughout the war period producers, grain dealers and millers in Canada co-operated cordially with the board, and although the operations were so extensive and so complicated no friction resulted.

The fund created by the board for the payment of carrying charges was the result of an assessment of 4 cents per bushel on all wheat sold in 1917, and 3 cents per bushel on all wheat sold in 1918. Disbursements for carrying charges were
made regularly to all elevators and mills, but there were balances left from day to day in the banks to the eredit of the board. The interest on these unused balances amounted to a total of $\$ 149,193.37$, and the total administrative expenses of the board for all purposes were $\$ 146,621.65$. The interest, therefore, paid the total administrative expenses of the board, and out of the carrying charge fund there was when the board was dissolved, an unused surplus of about $\$ 400,000$, which surplus was handed over to the Dominion Government.

## Electricity and Gas Inspection.

The work of inspection of these services continues to expand. The number of electric meters verified during the fiscal year was 182,214 and gas meters 83,954 , making a total of 266,168 . This indicates an increase of over 50,000 meters for the year. Add to this the number of tests made in the standardizing laboratories at Ottawa, Winnipeg and Vancouver, and the total will reach approximately 500,000 tests. Some difficulty has been experienced in maintaining the inspection staff up to a condition adequate to meet the increase in the amount of work, due largely to the fact that better salaries are being paid by the electric lighting and power companies outside the service.

The completion of the work of equipment of the Winnipeg electrical standardizing laboratory has been delayed somewhat by the non-delivery of switchboard material, but the work of checking the working standards of the division has been carried on under improvised conditions and no very serious inconvenience has been experienced. It is expected that the equipment of the laboratory will be completed within the next few months and the standards available for the comparison of instruments from the electric companies and industries generally.

There are eleven hydro-electric companies at present engaged in the export of electrical energy to the United States under conditions as to quantities and terms similar to those obtained that prior to the war. With regard to the demand made by certain of the municipalities of Ontario that the export of power be reduced in order that an increased supply be made available for Canadian users, it may be stated that on former occasions when the cutting off of the export of electric power has been raised interested parties in the United States have pointed out that should the export be discontinued by Canada the question of the export of coal from the United States to Canada would also have to be considered, and the discontinuance in one case would no doubt be followed by similar action in the other.

During the year 1919 Canada imported approximately $21,000,000$ tons of coal from the United States and exported $2,000,000$ kilowatt hours of electrical energy, equivalent to approximately $3,000,000$ tons of coal. It will thus be seen that in the matter of power Canada receives from the United States about seven times more than she gives her.

Under the circumstances the question becomes one of international importance between the two countries.

The reports and statistics as to the work done under the Electricity and Gas Inspection Acts will appear as usual in part 2, departmentąl report, for the fiscal year.

## Weights and Measures.

The return for the year jữst closed, for the Weights and Measures service, which is in charge of Mr. E. O. Way, Chief Inspector, compare favourable with any preceding year, in spite of the advanced prices which this service has had to meet in travelling, freight, cartage, livery and board.

The number of weights, measures and machines inspected have increased by 39,408 - the grand total being 427,408 , as against 388,338 for the previous year.

SESSIONAL PAPER No. 10
The revenue collected also shows the creditable increase of $\$ 12,975.63$-the grand total being $\$ 149,473.43$, as against $\$ 136,497.80$ last year.

The figures for expenditure are not quite complete at this time of writingbut the total within a few dollars (exact figures will be given in the Weights and Measures and Gas and Electricity separate report), show an increase of $\$ 36,-$. 601.45 over last year, the grand total being verly closely $\$ 266,487.34$, as against $\$ 229,885.89$ for the previous year. Of this adverse advance, $\$ 30,332.54$ is made up of increases in salary, $\$ 10,495.89$, and increased bonus, $\$ 19,836.65$-limiting the actual increase in working expenses to $\$ 6,268.91$, which is more than covered by the $\$ 12,9: 5.63$ increase in revenue.

There are only 134 inspecting officers for the Dominion, and the total on account of salaries is-

| Salaries. | \$ | 131,015 84 |
| :---: | :---: | :---: |
| Provisional allowance (part of the year only) |  | 3,821 77 |
| Bonus. |  | 45,663 54 |
|  | 8 | 181,501 15 |

That is, salaries average less than $\$ 1,000$ per man, whereas the classification fixes the minimum for a new man at $\$ 1,200$.

During the year 209 seizures have been made of false and incorrect scales, etc. but only eighteen prosecutions have been instituted, since a great many of the offenders are little traders and very often of foreign extraction, unable to read either English or French.

Considerable investigation and supervision has been exercised over short weight under section 61a, chapter 75, an Act to amend the Weights and Measures Act. Short weight is an insidious evil and its significance is not fully realized. For these reasons a great many shortages are due to pure carelessness and indifference; but to the purchasing public, short weight at current high prices by carelessness is as great a loss as short weight by fraud. As a new departure., the service has not resorted to prosecution except in very bad cases-in fact only five proceedings were taken during the year-but there is plenty of evidence to show that our missionary campaign against this feature in trade by weight and measure has been excellent and beneficial results to the great benefit of the public.

## Metric System.

A determined campaign by mail, directed from San Fransisco, U.S.A., to bring about the compulsory introduction of the Metric System has engaged the close attention of the chief inspector during the past year. Some 225 cards have been received bearing printed resolutions for the early introduction of the Metric-litre-gram System. It is, however, instructive to note that only nine (9) of these resolutions have been signed by those engaged in any productive business or industry, all the rest being signed by doctors, dentists, lecturers, clergymen, and barristers.

It would be a very serious thing to force this new system of weights and measures upon agriculture and industry, where the unit of measure-and weight are the basis of production, upon the demand of theorists, or because the chemist and the medical man find the Metric System with its decimal sequence and interrelation so useful in his laboratory. For their part the Canadian Manufacturers' Association (as representing practical men) sent in last year a strongly worded resolution protesting against any such change, pointing out, inter alia, that a special British Committee appointed by the British Government to study this subject in relation to British trade, including exports, reported absolutely against any such revolutionary step.

It is quite apparent that the introduction of a new set of units of measurement must create confusion, since existing production on the present English units must last and continue in use a great many years. Instead of simplicity then, the Metric System will simply make matters worse, and history teaches us that even fifty years of compulsion in France herself has not brought about a complete use of the Metric System and that in the Netherlands the new system was not generally used even eighty years after its adoption. The situation is being closely watched and carefully studied.

The financial statement, together with statistics showing the complete activities of this service, will be issued in a separate report.

## Gold and Silver Marking Act.

Mr. W. J. Ryan, Inspector of the Gold and Silver Marking Act, reports, for the year ending December 31, 1919, that the conditions that exist to-day among the manufacturers and dealers in all kinds of jewellery and silverware, and also their kindred lines has vastly changed from those of five years ago; and such changes cannot be said to be to the detriment of any one in the trade.

The manufacturers were taxed to their utmost in their endeavour to fill the greater portion of the demands made upon them, while the retailer was complaining of the lack of goods to gratify the demand of the public for luxurious articles, while the wages of all, especially that of the working jewellers were increased.

The prospects for the coming year appear to be very good, providing that the manufacturers can get material (gold and silver) to keep their establishments going.

The continuous demand of the public for articles of gold and silver, and the difficulty of importing such articles continually increasing, has already put the manufacturer at his wits end to cope with the situation.

The conditions mentioned has had unsettling effects in some respects, however, especially among the working jewellers. The high prices of, and big demand for jewelry seem to lure many into the manufacturing, especially into the making of rings, which requires very little capital for plant; in fact all their capital is required for material.

Your inspector was obliged to bring six of these new men in business into court for contraventions of sections 7 and 8 of the Act. It is a common infraction of the Act for new men in the business to omit application of a registered trade mark, and to make goods inferior in quality, as was the case with those brought into court, and convicted on the assay of the Royal Mint.

There were also seven retail dealers brought into court under section 14 , they having made use of printed matter, representing gold-plated articles to be of gold-filled quality and guarantecing to wear a length of time; they were also convicted and fined.

In conclusion, sir, I beg to say that owing to the scarcity of gold, there is likely to be a tendency to manufacture more gold-filled and gold-plated goods, and consequently it will be necessary for your inspector to continue his scrutiny of such lines and be more rigorous in the enforcement of such sections of the Act governing such lines.

Crude Petroleum Bounties.
Mr. J. C. Waddell, Supervisor of Crude Petroleum Bounties, reports for the calendar year ended December 31, 1919, as follows:-

The crude petroleum production of the oil-fields in Western Ontario has been for some years about 200,000 barrels annually.

In the year 1919, 220,000 barrels were produced This poduction compared with the production of 1918 shows a decrease of about 68,000 barrels. This decrease is found principally in the new oil-fields in Moza township, Middlesex county, the decrease in this field being 63,000 barrels for the past season; the other field which showed marked decréase is Tilbury, which showed a decrease of about 7,000 barrels for the year.

It is very satisfactory to know that the old Lambton county oil-fields have increased their production by some 5,000 barrels. Petrolia and Enniskillen show an increase of 4,600 barrels, and Oil Springs an increase of 500 barrels. This shows great stability, as the Petrolia oil-fields are now entering on their 58th year of oil production.

The following is a summary of the oil districts, showing the increase or decrease in the production of 1919, as compared with the year 1918:-

| Petrolia and Enniskillen. | Increase a | bout | 4,600 barrels |  |
| :---: | :---: | :---: | :---: | :---: |
| Oil Springs. |  | " | 500 |  |

By Districts.

The average price paid per barrel during the year was $\$ 2.871 / 2$.

## Binder Twine.

Mr. J. C. Waddell, Inspector of Binder Twine, reports for the calendar year ended December 31, 1919, as follows:-

During the year at different periods, I have inspected the twine in all the factories, and have found the twine companies filling large orders and running to full capacity. I have carefully inspected the twine and have much satisfaction in reporting to you that all times I have found the manufacturers keeping their twine up to the standard called for in the binder twine regulations.

I have also inspected twine in all the large centres throughout the Dominion, and have found the twine to be of first class quality, and up to the standard in length, strength and uniformity, and fully complying with all regulations as required. In no ease have I found any twine not up to standard, hence have not had a cause to make a seizure during the past season.

The amount of binder twine manufactured in all the factories for the past year is 16,750 tons.

The firms manufacturing binder twine are as follows:-
The Brantford Cordage Co., Brantford, Ontario.
The Consumers Cordage Co., Montreal, Que.
The Consumers Cordage Co., Dartmouth, N.S.
The Plymouth Cordage Co., Welland, Ontario.

## DEPARTMENTAL CHANGES.

Upon the creation of the Department of Health, the administration of the Adulteration Act, the Proprietary or Patent Medicine Act, the Commercial Feeding Stuffs Act and the Fertilizers Act were transferred to that department from the Department of Trade and Commerce. This was effected by Order in Council of the 23rd of August, 1919.

Respectfully submitted,
F. C. T. O'HARA, Deputy Minister.

## CANADA, THE WEST INDIES AND SOUTH AMERICA <br> The Roral Mall Sten Packet Company

Contract No. 9.
T. \& C. File No. 24215.

Tote 156.-Canada and the West Indies or South America, or both, steam service between-

```
1920-21 . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . $340,666 66
1921-22. . . . . . . . . . . . . . . . . . . . . . . . . . . 340,666 66
```

Contractors.-The Royal Mail Steam Packet Company, of London, England.
(Canadian representative: John Allsop, 59 Granville St., Halifax. N.S.)
(Freight and passenger agents: Pickford and Black, Halifax, N.S.)
Contract Dated.-Scptember 11, 1919.
Duration of Contract.-November 1, 1919, to October 31, 1920. (This has been continued by Order in Council until October 31, 1921.)

Service and Ports of Call.-Commencing from St. John, N.B., sailing thence to Halifax, N.S., and sailing thence to Georgetown, British Guiana, every fourteen days:-

Calling at the following islands: Bermuda, St. Kitts, Antigua, Montserrat, Dominica, St. Lucia, St. Vincent, Grenada, Barbados, and Trinidad, and returning from Georgetown to St. John, calling at all the aforesaid islands, in reversed order.

This itinerary may be subject to any change which may be mutually agreed upon between the minister and the contractors.

Specd required.-11 knots.
Subsidy.—£ $\mathfrak{7} 0,000$ ( $\$ 340,666.66$ ) per amnum, based on payments of $£ 2,692$ 6s. 2d. ( $\$ 18,102.56$ ) for each complete round voyage, payable on the last day of each month.

Canadian Trade Commissioners.-To be carried free.
Mails.-To be carried free.
Government Railway Clause.-Included.
Freight charges from St. John to Halifax.-The contractors are required, at their own expense, when so required by consignors, to pay the freight charges by rail from St. John to Halifax on butter, cheese, and fruit intended for shipment by the contractors' steamships.

Delay at Ports.-The contractors must make every reasonable effort to avoid undue delay at Canadian or West Indian ports.

Development of Trade.-The contractors must use their utmost endearour tc develop the cargo and passenger trade between Canada and the British West Indies by means of reasonable advertising and regular solicitation through agents.

Through rates of Freight．－The contractors must use their best endeavours to arrange through rates of freight between inland points in Canada and the various ports of call referred to in this contract in the British West Indies and Central and South America．

Transfer by connecting lines．－As the design of this agreement is to give regular fortnightly communication both ways to all the ports previously mentioned，arrange－ ments must be made for the transport of freight and passengers on all voyages south bound and north bound by transfer to the lines of the contractors＇steamers conducting the insular service from and to Trinidad，and at the rates obtaining for the direct service．

No discrimination．－No diserimination of any kind as regards freight and passenger rates may be made in favour of any merchant，shipper or importer in any one of the British colonies referred to herein，as against any other merchant，shipper or importer in the same colony．

Through Bills of Lading．－－Through bills of lading must be issued from any Cana－ dian point of shipment to any port in Central or South America，which is a regular port of call for any of the steamships employed or controlled by the contractors on other services，and which make regular connections with the service herein contracted for．

Of United States Origin.-Automobiles, mining machinery, fruit jars, canned meats, washing powder, ammonia, agricultural implements and tractors.

## PACIFIC OCEAN SERVICES

CANADA AND AUSTRALIA OR NEW ZEALAND

Union Steamship• Company of Nef Zealind, Ltd.
Contract No. 27.
T. \& C. File No. 25921.

Fote 15s.-Canuda and Australiz or New Zealand, or botlr, on the Pacific Ocean, steam service between-

```
1920-21. . . . . . . . . . . . . . . . . . . . . . . . . . . . . $ $130,509
1921-22. . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 130,509
```

Contractors.-The Union Steamship Co., of New Zealand, Ltd. (Canadian address: Canadian Australasian Royal Mail Line, 440 Seymour street, Vancouver, B.C.)

Contract Dated.-July 13, 1920.
Duration of Contract.-August 1, 1920, to July 31, 1921.
Service.-Sailing approximately every four weeks.
Ports of Call.-Vancouver, B.C.: Victoria, B.C.; Honolulu, in the Sandwich islands; Suva, in the Fiji islands; and Auckland, N.Z.

At the contractor's option, each voyage from Canada to New Zealand may be extended to a port or ports in Australia. The Australian port of call is Sydney.

The call at Suva is conditional upon the Government of Fiji also continuing their contract for a like period and on the same terms as heretofore, and also upon their maintaining the same charges for light and other dues levied on ships employed in the service.

Speed required.-Duration of voyage is not to exceed 20 days, including one day's detention at Honolulu.

Subsidy.-£26,816.18.1 per annum.
Provided that the contractors shall be entitled to receive such subsidy as the Government of New Zealand and Fiji may pay towards the service; and also the Government of Australia, should the service be extended to that Commonwealth.

Doductions from cubsidy.- $£ 30$ are to be deducted from the amount of subsidy payable on each clain for every complete period of twenty-four hours by which the time occupied in conveyance of the mails between Auckland and Vancouver has exceeded twenty days.

Preference to Canadian Shippers.-No discrimination as regards freight or passenger rates is to be made against Canadian ports, railways, merchants or shippers. Canadian merchants and shippers are to have preference at all times for the carriage of their goods over other merchants and shippers, as far as regards the Canadian connection.

Freight and Passenger Rates．－Freight rates from Vancouver or Victoria to New Zealand shall not exceed the current rates charged on similar cargo to New Zealand ports hy Cnion S．S．Co．of N．Z．Limited Mail Steamers from San Franeisco．

Passenger rates from Vancouver or Vietoria to Auckland shall not exceed pas－ senger rates during the same period from Auckland to Victoria or Vancouver，and return fares from Canadian ports to New Zealand ports shall not exceed return fares in the opposite direction during the same period．

Mails．－To be carried free．
C＇anadian Trade Commissioners．－To be earried free．

## VANCOLVER AND NOORTHERN BRITISH COLUMBIA PORTS

## The Unig Stenishhip Co. of British Columbla, Ltd.

Contract No. 18.
T. \& C. File No. 25501.

Votp 163.-Tancouror and Northern parts of British Columbia, steam service beturen-

```
1920-21.. . . . .. . . . . . . . . . . . . . . . . .. .. .. $24,500
1921-22. . . . . . . .. . . . . . . . . . . . . . . . . . . . . . 24,800
```

Coutractors.-The Union Steamship Company of British Columbia, Ltd., Yancouver, B.C.

Date of Contract.—June 15, 1920.
Duration of Contract.-April 1, 1920, to March 31, 1921.
Serrice and Ports of Call.-Regular sailings throughout the sear from Vancouser to Anyox (Granby Bay), on Observatory Inlet, making-
(a) Two calls each way each week at Campbell River, Port Hardy and Quathiasca Core.
(b) One call each way each week at Alert Bay, Sointula, Beaver Cove, Shushartie Bay, Namu, Bella Bella, Bella Coola, Swanson Bay, Butedale, Prince Rupert, Port Simpson and Ocean Falle.
(c) One call each week at Wadhams, Hartley Bay, Port Essington, Arrandale, Kincolith, Mill Bay, Anyox, Claxton, and, weather permitting, at Suquash.
(d) One call one way every two weeks during summer and every four weeks during winter at Smith's Inlet.

SESSIONAL PAPER No. 10a
(e) One call one way every four weeks at Kitimat.
(f) During the summer season one call one way each week at Oceanic, China Hat. Lowe Inlet, Rivers Inlet, Schooner Passage, Kumeon and Alice Arm, and every two weeks in winter.
(g) Wuring the summer seaton only one call one way every two weeks at Kimaquit.

Inder the present service to Bella Coola by the steamer making that place the terminal, one call per week suffices. If calls are made by the steamer operating through to Prince Rupert calls must be made each way each week. It is understood and agreed that the two calls each way each week at Port Hardy are conditional upon the Gorermment float being installed at that port; otherwise one call each way each week will be sufficient.

Speed Required.-Not stated.
sulsidy.-\$24,800 per annum, payable quarterly in July, October, January and April. (In addition to this, $\$ 9,200$ per ammu is paid by the Post Office Department.)

Mails.-To be carried free. The contractors further agree to carrs the mails to and from all ports at which they call, whether such call be stipulated in the agreement or not.

Gorernment JFhares.-Steamers must call whenever possible.

From 1907 to 1915 , inclusive, and during the quarter ended March 31,1916 , the service was performed by the Victoria Steamship Company, of Baddeck, N.S., and their proportion of the subsidy shown above for 1916 was $\$ 1,475$.

## CHARLOTTETOWN, PICTOL AND NEW GLASGOT

Vote 166.-Charlottetown, Pictou and New Glasgow, steam service between-

The Eastern Transport, Ltd., of New Glasgow, N.S., offered to perform a week?y service between the above-named ports, with the steamer Eastran, for an annual subsidy of $\$ 2,000$. The contract was never completed, howerer, as the company substituted for the Eastran an inferior vesscl, the Trusty, with which an irregular service was performed. No subsidy has been paid yet, and no traffic returns furnished.

\section*{HALIFAX, SOUTH CAPE BRETON AND BRAS DOR LAKE PORTS}

Hexdry, Ltd.
Contract No. 66.
T. \& C. File No. 25480.

Tote 173.-Halifax, South Cape Breton und Bras d'Or Lake Ports, steam service between-
1920-21. . . . . . . . . . . .. . . .. . . .. . . .. . . . . . . . . \(\$ 6,000\)

Contractors.-Messrs. Hendry, Ltd., Halifax, N.S.
Date of Contract.-April 13, 1920.
Duration of Contract.-From the opening to the close of navigation in 1920.
Service and Ports of Call.-Passengers and freight shall be conveyed between Halifax and St. Peter's by the steamers Margaret and Strathlorne, and shall be transshipped at St. Peter's to and from the Arcadia for the purpose of proceeding to or from the under-mentioned points in the Bras d'Or lakes, and on the east coast of Cape Breton. The Arcadia's services shall be as follows: (a) Four round trips each month from St. Peter's, N.S., to Sydney, through the Bras d'Or Lakes, calling at all ports on the east and west sides of the lakes at which freight is offered, or is to be delivered, including Grand Narrows, Iona, Baddeck, Whycocomagh, Little Narrows, Nyanza, Boularderie Centre, Boularderie, Marble Mountain, West Bay, Washabuck Centre, Johnston's Harbour, Trish Cove, Big Pond, East Bay, Castle Bay and Grand Narrows, extending each trip from Sydney to North Sydney, Glace Bay, Port Morien, Mainadieu, Louisburg and Gabarous.

11 GEORGE V，A． 1921
Through tickets for passengers and through bills of lading for freight shall be issued between Halifax via the Margaret and Strathlorne，and the above－mentioned ports in the Bras d＇Or Lakes and on the liast Coast of Cape Breton．

If，during the early spring and late fall，the steamers Strathlorne and Margaret have their full complement of freight and are unable to carry the additional freight required to and from the Arcadia，the contractors agree to supply an additionai steamer between Halifax and St．Peter＇s，for the purpose of earrying the surplus of the Arcadia＇s freight．

The calls at Mainadieu are to be conditional upon the weather permitting．Calls at Glace Bay shall not be made unless，in the opinion of the Minister，it is safe for the steamer 1 rcadia to call at this port．

Government Wharves．－Steamer must call whenever possible．
Subsidy．\(\$ 6,000\) per annum，parable in four instalments of \(\$ 1,500\) each．
Mails．－To be carried free．

between-
```

1920-21
\$4,000
1921-22. . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 4,000

```

Contractors.-The Halifax and Inveruess SS. Co., Ltd., of Halifax, N.S.
Date of Contract.-April 18, 1920.
Duration of Contract.-From the opening to the close of narigation in 1920.
Serrice.-Weekly. Twenty-six trips shall constitute a full season's service, although the contractors shall be required to make sueh additional sailings as weather conditions shall permit.

Ports of Call.-Halifax, Port Mulgrave, Port Harkesbury, Port Hastings, Port Hood, Mabou, Margaree, Grand Etang, Chetieamp, and Eastern Harbour, calling once every two weeks at Harre aut Bouche, Cape George and Pleasant Bay, and calling at Inverness, Broadcove Marsh and Margaree Island whenever there is a reasonable quantity of freight or number of passengers to be landed or embarked, weather permitting.
- (b) Calls shall be made at Chimner Corner when the wharf is completed, and when there are passengers or freight to be taken on or put off at that place.
(c) One call shall be made during the autumn of the present year at Ballantyne's Cove, N.S.
(d) Through bills of lading shall be issued by the Strathlorne from Halifax to all ports in the Bras d'Or Lakes, and on the Eastern Coast of Cape Breton, called at by the Arcadia during the present season.
(e) On all trips north the captain of the Strathlorne shall advise the agent of the contractors at Margaree from Mulgrave or Mabou the approximate hour of his arrival at Margarce, and on south bound trips he shall similarly advise the agent at Margaree froin Grand Etang.
(f) When weather conditions at Margaree are such as to prevent boats or lighters coming out to the steamer, the agent shall hoist a red or white flag within a reasonable time of the steamer's announced arrival, so that the steamer may not be unduly delayed.
(g) On arrival off the port of Margaree the steamer shall anchor and give notice of her presence by whistle or other suitable means. If boats do not come off from the shore within half an hour after anchoring. the steamer shall be at liberty to hoist her anchor and proceed on her royage.

Government Wharves.-Steamer must call whenever possible.
Subsidy.- \(\$ 4,000\) per annum, payable in instalments of \(\$ 2,000\) on July 1 and on completion of the service.

Mails.-To be carried free.

SLPERVISION OF SUBSIDIZED STEAMSHIP SERVICES
Iote 1:G6.-Erpenses in comection with the superrision of Subsidized Steamship sirvices-

By Order in Council of April 10, 1s12, Mr. Wr. E. Tupper, of Digby, N.S., was appointed Supervising Oticer of Sulsidized Steamship Services. His salary is \(\$ 2,640\) per annum, and he is allowed the usual travelling and other contingent expenses. The title of this position has becn changed to "Inspector of Subsidized Steamships."

In December, 1916, Mr. Tupper enlisted for active serrice overseas. He returned to Canada in 1918, and resumed his position as supervising officer on January 1. 1919.

The Inspector's Ammual Report is as follows:-
Digby, N.S., February 5, 1921.
F. C. T. O'Hara, Esq.,
Deputy Minister, Trade and Commerce,
Ottawa.

Dear Sir,-I beg to submit my report on Subsidized Steamship Services for the year ending December 31, 1920.

During the season twenty-six serrices were inspected.
The services were, with very few exceptions, well performed. Captains carried out their duties faithfully and conscientiously; passenger accommodations and freight capacity of steamers in practically every case were found adequate to requirements, and. taking into consideration the nature of several of the services, the food was of good quality and the meals well serred.

Compared with the rear 1919, it is considered that a marked improvement was effected in the quality of several of the services. This was noticeably the case in respect to the following:-

C'harlottetown, Tictoria and Hollidoy's Wharf.-In 1918 the ss. Harland, built especially for the route, was sold to the contractors for the Pictou, Montague, Murray Harbour and Georgetown service; in consequence of which the department was compelled to sanction the employment of a less adaptable boat. In 1920, however, the original owners repurchased the Harland, and she is again performing the serrice for which she was originally built.

\section*{SESSIONAL PAPER No. 10a}

Pictou, Montague, Murray Harbour and Georgetown.-During 1915 and 1919 this service was performed by the Harland. Although possessing adequate freight capacity and excellent passenger accommodation, this steamer, built for river service only, was unadapted to "outside" work. Last year the contract was awarded the Georgetown Steamship Company, Pictou, N.s., which placed the ss. Magdalen on the route. After being acquired by the contractors this steamer underwent extensive alterations and repairs, and is giving excellent satisfaction.

Petit de Grat and. I.C.R. terminns at Mulgrave.-At the close of the season of 1919, Mr. William Leslie, who had operated this service for a number of years, finding that there was insufficient passenger and freight traffic on the route to warrant a continuance of the service with so large a boat, failed to renew the contract. The LaHave Steamship Company, Ltd., West LaHave, N.S.. having tendered for and received the contract, placed the ss. Tussle on the route. The contractors were required to effect considerable improvements in respect to the passenger accommodations before the steamer was accepted by the department. The Tussle has since proved a rery suitable boat.

Mulgrave and Guysboro.-In 1919, owing to the extreme scarcity of suitable tonnage (a situation which is proving of considerable embarrassment to the department, , a contract was awarded for the performance of this service to the ss. Elaine. This steamer later proved inadequate. In 1920, however, the contractors procured the ss. Westport 111. The passenger accommodations on this boat were completely remodelled, and she has since been furnishing a most satisfactory service.

Sydney and the East and West Coasts of Cape Breton.-Previons to the year 1920 this service had been partially performed, for many years, by the ss. Weymouth, a steamer not only very old and unseaworthy, but absolutely inadequate to meet the demands of the route. Last year the contract was awarded the Coastal Steamship, Company, Ltul., Sydney, C.B., which placed the ss. Bras d'Or on the route. This steamer was built for the service, and has not only ample carrying capacity, but by reason of the commodiousness and excellence of her passenger accommodations, may be considered superior to any boat of her class subsidized by the department for service in the coastal waters of the Maritime Provinces.

Magdulen Islands and Mainland.-This service has been unsatisfactorily performed during the la-t two years. Further, it may be stated that in riew of the fact that the reasons responsible for the unfortunate conditions have been so thoroughly discussed, further allusion to the subject in this report is considered umecessary. It may be expedient to say, however, that it is my firm opinion that the satisfactory performance of this service depends primarily upon, first: the procuring of a steamer, the general dimensions and construction of which shall follow closely those of the ss. Lady Sybil, the boat which so admirably performed this service from 1909 to 1915 , inclusive; second, that the Magdalen [-land merchants shall use their utmost endearour to order their winter supplies at the earliest possible date, consistent with the somewhat arbitrary nature of their business, thereby allowing a margin of time for shipments to be transported to islands before the closing of narigation.

The trade depression of last year has been felt very keenly by the great majority of steamship companies operating subsidized coastal services. In view of the fact that merchants doing business at outports were purchasing only necessary lines in staples, freights were naturally very light. As, however, we are looking forward to greater stability in prices in the near future, freight receipts should show a healthy increase during the coming season.

I have the honour to be, sir,
Your obedient servant,
(Sgd.) T. E. TUPPER,
Inspector Subsidized Steamships.

\section*{SOME CLALSES COMMON TO ALL CONTRACTS}

Nome-Some of the principal sections common to all contracts, and as such luerembefore freguently referred to, read as follows:-

\section*{Proof of Performonce of Service to be Furnished.}

The contractors shall furnish and establish at their own expense the necessary agents required for the efficient performance of this contract, and shall with diligence as soon after the completion of each vorage as may be, furnish to the mini-ter full and complete copies of the manifests of the cargoes and list of passengers carried on each voyage, duly certified hy the proper officer's of customs, and also such other documents, information and evidence as may be reasonably required by the minister to thow the volume, extent and value of the trade carried on by the said steamers and the full performance on their part of services, requirements and conditions of this contract. in order to enable him to judge as to whether the terms of this contract have been or are being fully and faithfully carried out and emplied with, within the true intent and meaning thereof, and his decision in that respect shall be binding. final and conclusive; and the furnishing of such certificates, documents and evidence as hereinbefore specified shall be a condition, precedent to the payment of the subsidy horein provided for, or ans portion thereof, and if in the opinion of the minister, all the terms of this contract have not been fully complied with by the contractors, he may deduct from the subsidy otherwise payable such portion thereof as he may deem fit and proper, taking into consideration all the circumstances comected therewith. and the contractors shall at all times during the continuance of this contract well and faithfully abide by and conform to all such requirements as may be made by the minister with regard to the said steamers in the performance of this contract.

\section*{Financial Statements}

It is further understood and agreed that the contractors, whenever so required. whall furnish the minister with such financial statement or statements as he may desire from time to time respecting all revenues derived from and all expenditures in connection with the ronduct of the service herein provided for

\section*{British Subjects}

It is further understood and agreed by the contractors, that two-thirds of the total number of officers. engineers, stewards, erew or other employees whatsoever upon the -teamsips engaged in the performance of the service herein contracted for, wall be British subjects, but the non-observance of this clause shall not eonstitute a riolation of this contract in such individual cases as may from time to time be approved by the minister in writing.

\section*{Equipment of Steamers}

The steamers to be employed as herein speeified, shall at all times during the continuance of this entract be fully seaworthy, well-officered. mamed, rictualled, anupped, provided and furnished, having regard to the service which the contractors have herely undertaken to perform; and shall have ample and suitable accommodation for the passengers, mails and freight to be earried over the route specified: and shall at all times carry boats and life-saving appliances in compliance with the law, and shall be in all respects to the approval of the minister.

\section*{Carriage of Mails}

The contractors shall during the performance of this contract, consey on each and every trip of the steamers performing the aforementioned services, both on outward and homeward royages, all such mails as shall be tendered to the proper officers or persons in that behalf on the said steamers by or on behalf or under the direction of the postal authorities of Canada, or those at the terminal port or ports of call herein referred to, and shall deliver all such mails at their proper destination at the terminal port or ports of call above referred to; and the expenses of carrying such mails from the post offices or railway stations to the steamers and from the steamers to the post offices or railway stations at the terminal ports and at the ports of call shall be borne by the contractors, who will be subject to all general and special regulations now or hereafter existing during the continuance of this contract in comection with the postal service. For the conveyance of all such mails no payment shall be made or required over or beyond the amount of subsidy herein mentioned or provided for.

\section*{Accommodation for Mails}

The said steamer shall be provided with sufficient and convenient accommodation and protection for all such mails, to the satisfaction of the Honourable the Pustmaster General of Canada for the time being, and the contractor shall further take all reasonable and necessary precautions for the protection of such mails, while upon the said steamers or while in the contractor's charge or custody, from loss, danage or injury, in any way, and the contractors shall be responsible for any loss or damage thereto cansed by negligence or want of proper care or accommodation on the part of the contractors, their agents or servants or on the part of the officers, employees or crew on board the said steamers, and this without regard to any question as to the legal liability of the Postmaster General to the owners of the articles of mail matter comtained in such mails for damage or loss sustained in transit.

\section*{Definition of term " Mails"}

The expression "mails" for the purpose of this contract shall be deemed to mean and include all boxes, bags, baskets or packets of or coutaining letters, post-cards, newspapers, parcels, books, or printed papers, and all other articles which under the Post Office Act and postal regulations for the time being in force are transmissible by post in Canada, without regard to place either of origin or destination, and also all empty bags, empty boxes and other receptacles, stores and articles used or to be used in carrying on the post office service, or which shall ordinarily be sent by or to or from the offices.

\section*{No Letters except II. M. Mails to be Carried}

The contractors shall not, nor shall any of their agents or servants, or officers or credws of the said steamers receive or nermit to be received on board of the said steamers any letters for conveyance other than those contained in Mis Majesty's mails, or which are or may be privileged by law, nor the mails of any other country, except such as are specified by the Postmaster General of Canada for the time being.

Government officials to be carried Free of Charge
The Honourable the Postmaster General of Canada, or the Honourable the Minister of Trade and Commerce for the time being, or any inspector or officer of the Post. Office Department or the Department of Trade and Commerce, who may in the execution of his duts travel in the said steamers, shall be carried free of charge.

\section*{Proper acconts to be Fept}

The contractors shall keep full and proper accomes of and in connection with the working of this service, and shall keep such accounts separate and distinct from any other arcounts of or comected with other branches of their business; and in any contingency which, in the opinion of the minister, may render such a course necessary, the contractors shall allow any oftheer or officers maned by the minister free access to such accounts and all books, papers and documents connected therewith.

\section*{Substitule for Disabled Steamers}

It is mindersteod that if the said steamer shall be ber peril of the seal or other unavoidable casualty, lost, destroved or temporarily disabled from performing the boyages lowein agreed to be performed according to the true intent and meaning of these presents, the coutractors may in such case as soon as reasonably may be, having regard to the circumstances, replace the said steamer by another of equal class, speed. equipment, character and capacity to the satisfaction and approval of the minister in rase the said steamer has been only temporarily disabled, and continue the service herein contracted for with such substituted or repaired steamer with as little delay as possible muder all circumstances.

\section*{Frright and Passenger Tariffs-Proof of Performance of service to be Furnished}

The contractors shall carry on each steamer running under this contract, according to its capacity, on all voyages, all the freight and passengers which may be reasonably offered or obtained, and at tariff rates, both as to passengers and freight, which may be from time to time approved by the minister; and the contractors shall furnish to the minister such documents, information and evidence as may be required by the minister to show the volume, extent and value of the trade carried on by the said steamer, and such customs certificates. documents and evidence as may be necessary or as may be required by the minister to prove the performance of the service herein contracted for, and to emable the minister to judge as to whether this contract is being carefully and faithfully carried ont and performed and the furnishing of such certificates, documents, information and evidence, as hereinbefore specified, shall be a condition precedent to the mament of the subsidy herein provided for or any portion thercof.

\section*{Doductions from Subsidy-Time-tables to be frumished-Docling Disabled Steamers}

Provided howerer, that it is the true intent and meaning of these presents that mo amonnt or instahment of subsidy shall be payable or be paid at any time, unless it appears to the satisfaction of the minister that up to the time of such instalment becoming due, as herein stipulated, the service herein described and defined has been fully and faithfully performed, and that all provisions and stipulations as to freight and freight rates and dates of sailing have been in all respects faithfully observed and carried out, according to the truc intent and meaning of these presents; and it is understood and agreed to be a further condition of these presents that the contractors shall at least two weeks prior to the first sailing under this contract furnish to the minister time-tables showing the proposed sailings, and upon the same being approved by the minister, they shall be duly advertised in such mamer as he may direct; and it is also agreed that in case either of the steamers herein named, or a substituted -teamer sanctioned by the minister, does not sail from a terminal port as herein specified within of the date fixed by such time-tables, there shall be dedueted from the amount of sulsidy payable for sueh royage a sum equal to one-tenth of the amount otherwise payable for the performance of such voyage. and so in proportion for

SESSIONAL PAPER No. 10a
further delays or failure to sail from surch terminal port. Provided, however, that the minister may authorize any vessel to said either at an earlier or a later date than that specified in such time-tables should he for any reason deem it advisable to do so; it being understood and agreed that, in the event of any of the said steamers being at any time so disabled as to be obliged to be docked for repairs, the failure to perform the terms of this contract owing to such accident and for the time reasonably occupied in the repair of the damaged steamer, shall not be taken as a default or breach of the stipulations of this contract, or subject the contractors to deductions as above from the amount of this subsidy, if any, payable for any voyage delayed in consequence of such docking for repairs, but there shall be no claim for, nor payment of any subsidy in respect of any voyage not actually performed.

\section*{Freight and Passenger Rates to be Approved by the Minister}
(Inserted in contracts for ocean services only)
The contractor shall at least three weeks prior to the first sailing under this contract, furnish to the minister a schedule of the freight rates proposed which schedule shall be subject to the approval of the Minister, and after being approved by him shall not be changed except with his consent; and the Minister may at any time, if he deem it advisable, fix the maximum rates to be charged between the different ports, on both east and westbound trips, on any article or class of goods, and the contractors shall carry between the ports hereinbefore named, on all voyages of the said steamships employed under the terms of this contract, all passengers or freight that may be offered or that can reasonably be procured, at rates which shall not be in excess of such maximum rates as fixed by the Minister, should he deem it advisable to so fix such maximum rates, and in no case shall any discrimination be made as regards rates, or otherwise directly or indirectly, against Canadian merchants, or shippers, who shall always have precedence for their freight and goods over all other merchants and shippers; and it is agreed and understood that the freight rates on eastbound trips, sailing from or as hereinbefore provided, on through bills of lading from any place in the provinces of Ontario and Quebec, or from any Canadian points farther west, shall in no case be greater than from the same place to via any United States route or port; and on the westbound trips the rates from to any place in Ontario or Quebec, or other Canadian points farther west, shall be as favourable as via any United States route or port to the same place; and it is further understood and agreed that the said steamers shall not carry between the ports of or and aforesaid, on any voyage run under the terms of this contract, either deals or lumber or timber to a greater extent than fifty per cent of the total quantity of the cargo carried on such voyage and such quantity only in case other Canadian products are not offering or cannot be obtained. Provided, however, that in the event of other cargo not being obtainable, satisfactory evidence of the fact being furnished to the Minister, then the contractors shall be allowed to make up the balance of the cargo with deals, boards or timber.

\section*{Publicity of Tariff Charges}

The freight and passenger rates charged by the contractors over said route may at any time be required to be approved of by the Minister, whose decision shall be final, and the said freight and passenger rates shall be made available at all times to the public at the head office and the agencies of the contractors.

\section*{Calls at Foreign Ports}

The steamer employed in carrying out the provisions of this contract shall not on any of its trips call at any foreign port not specified in this contract.

\section*{Carrying of nitro-glycerine or dangerous articles}

The contractors shall not convey or permit to be conveyed in any steamer while emplosed in this service any nitro-glycerine or any other article which in the opinion of the Minister shall be considered dangerous.

\section*{Subsidy subject to Vote of Canadian Parliament}

It is conditioned, declared and agreed that the payment of subsidy, as hereinbefore stipulated, is subject to the amount specified being provided for the purpose by a vote of the parliament of Canada, and that if no amount is voted for the purpose, or if any amount voted has become exhausted in payment thereof, and no further sum is voted for the purpose, this contract or agreement shall terminate and become void and of no effect, and the party of the first part shall not in consequence be held liable to damage.

\section*{Minister's Right to Terminate Contract}

It is declared to be the true intent and meaning of these presents, that the Minister shall have the right at any time during the continuance of this contract, upon 30 days' notice in writing to the contractors, their successors or assigns, to terminate this contract, and evers matter and thing herein contained, if it shall appear to the Minister that there has been any breach on the part of the contractors, their successors or assigns, of any of the corenants, agreements, stipulations or provisions herein contained and entered into on the part of the contractors; and it is declared and agreed that the Minister shall at all times be the sole and final judge as to whether there has been any such breach, and his decision shall be absolute, final and conclusive.

\section*{Assignment of Contract}

This contract shall not, nor shall any right or interest therein be assigned without the consent in writing of the Minister to such assignment having been first obtained.

Canadian Members of Parliament not Admitted to Share in Contract
It is a condition of these presents that no member of the House of Commons of Canada shall be admitted to any share or part of this contract or agreement nor to any benefit to arise therefrom.

\section*{Changes in Contract}

The minister may authorize any change or changes in the terms of this contract as may not be consistent with the rote providing for the payment of the subsidy.

\section*{Minister to be final judge as to full carrying out of contract}

The minister shall at all times be the judge as to whether the terms of this contract have been or are being fully and faithfully carried out and compiled with within the true intent and meaning thereof, and his decision in that respect shall be binding, final and conclusive.

\section*{Towing}

No towing shall be undertaken by the vessel performing the service specified in this contract, if such towing might interfere in any way with the regular performance of said scrvice, except for the purpose of saving life or assisting vessels in distress, or performing other work of great importance, without the permission of the minister first having been obtained.

\section*{Transportation of Trade Commissioners}
(Inserted in contracts for ocean services)
The Canadian Trade Commissioners and their wives, children and servants, or Canadian Commercial Agents, shall be granted free transportation, meals included, with first-class accommodation and free transportation for their household effects, upon any steamships employed by the contractors in the performance of this contract when requested so to do by the Minister, and when the said Commissioner or Commercial Agent is travelling upon his official duties or being transferred from one official post to another.

\section*{Government Railway Clause}
(Inserted in contracts for Atlantic ocean services)
It is hereby agreed by the contractors that as the aid herein expressed and provided for by the Canadian Government is for the express purpose of encouraging the development of Canadian trade and the transportation of Canadian goods through Canadian chamels the Company accepts the aid on these conditions, and agrees that all freight booked or carried by the said steamships from a port in the United Kingdom and during the time these make Halifax or St. John their terminal port, shall, when not otherwise expressly routed by shippers or consignees, be delivered to the Canadian National Railways at Halifax or St. John for shipment to final destination in Canada, provided that the rates demanded by the Canadian National Railways shall not be in excess of the rates charged by any other railway company from said ports to final destination in Canada.
(a) Contractors are to hand over to the Canadian National Railways at Halifax pessengers for points in the Maritime Provinces or the Province of Quebec, providing the route of such passengers is controlled by the contractors and that they are not otherwise routed. It is further agreed that the contractors through their agents in Canada shall see that they lave all such freight for export as may be secured lyy them for a port in the United Kingdom at which the subsidized line may call delivered to the Canadian National Railway at Montreal.

\section*{Calls at Government Wharies}

\section*{(Insented in contracts for local services)}

In consideration of the subsidy herein stipulated the contractors agree to call at all Government wharves when such is practicable and when such wharves are available.

\section*{Handling of perishable products}
(Inserted in contracts for Atlantic ocean services)
The handling, loading, stowing and unloading of any fruit or perishable products carried by the said vessels shall be subject to and under the supervision of any cargo inspector or other officer appointed for that purpose, should the Minister of Agriculture for Canada deem it advisable.
