Not printed.
233. A return to an Order of the Senate dated 7th March, 1913, for a copy of all papers, letters, petitions, contracts and other papers relating in any way to the purchase of land at Le Pas for terminus of Hudson Bay road.—(*Senate*).....*Not printed.*

DEPARTMENT
OF
PUBLIC PRINTING AND STATIONERY
ANNUAL REPORT

FOR THE FISCAL YEAR ENDED MARCH 31, 1912

PRINTED BY ORDER OF PARLIAMENT

OTTAWA

PRINTED BY C. H. PARMELEE, PRINTER TO THE KING'S MOST
EXCELLENT MAJESTY

1913

*To His Royal Highness, Field Marshal, Prince ARTHUR WILLIAM PATRICK
ALBERT, Duke of Connaught and Strathearn, K. G., K. T., K. P., &c., &c.,
&c., Governor General and Commander-in-Chief of the Dominion of Canada.*

SIR,—

The undersigned has the honour to present to Your Royal Highness the Annual Report of the Department of Public Printing and Stationery, for the year ended March 31, 1912.

I have the honour to be,

Sir,

Your Royal Highness's most obedient servant,

LOUIS CODERRE,
Secretary of State.

1st March, 1913.

DEPARTMENT OF PUBLIC PRINTING AND STATIONERY.

OFFICE OF THE KING'S PRINTER AND CONTROLLER OF STATIONERY,

OTTAWA, 28th February, 1913.

To Hon. LOUIS CODERRE,

Secretary of State.

SIR,—

I have the honour to submit herewith the Annual Report of this Department for the fiscal year ending the 31st March, 1912. The details are, as usual, grouped under their proper heads, as Reports of the several departments under the Superintendent of Printing, Superintendent of Stationery, and the Accountant, respectively. These statements are so complete that they furnish very full information respecting the work of the department during the year, so that lengthy comment is unnecessary. It is not too much to say that all branches of the Bureau have put forth every effort to discharge their full duty, and in the face of many difficulties have succeeded in giving Parliament and the various departments of the Government a reasonably good service. The volume of work, as was to have been expected, shows a steady increase, and the Printing Branch, by the addition of new plant, has been placed in a position to do more and better work at a smaller cost. The Stationery Branch has also been able to give a service that may be fairly considered satisfactory.

As I pointed out in my last Report, one of the greatest hindrances to the efficient and economical management of the Bureau is the building in which the department is housed. The conditions are worse now than they were a year ago, from the fact that the operations which have to be carried on have sensibly increased in that time; in fact, the congestion has become so acute already that some immediate steps must be taken to secure temporary storage room outside. One of two things should be done as soon as possible, in the public interest: either extend the present building, or erect a new building, especially planned after the most modern ideas with a view of securing the greatest convenience and economy in the operation of a large printing plant, as well as the handling of very large quantities of stationery and office supplies by the Stationery Branch.

It is obvious that the management and efficiency of the Printing Bureau must closely concern all branches of the public service. It goes without saying that it is highly important from every point of view that the operations of the Printing Bureau should not be hindered or hampered from lack of space or by the occupaney of a building never properly planned for the economical and

3 GEORGE V., A. 1913

efficient handling of the work, in respect to the stationery as well as the printing. In my opinion, it would be poor policy to spend money on any extension of the present Bureau. No extension that could possibly be made would overcome the defects in the original structure or give a building that would be modern and up-to-date. The public printing and stationery have increased four-fold in the past twenty years, and that rate of increase is likely to be maintained for many years to come. After graphically describing the unsatisfactory conditions existing in the Bureau from lack of space, the Public Service Commissioners in their Report, among other things, say:

“The Commissioners have considered the question of enlarging the present building and have come to the conclusion that such a course would not meet the situation. At present the whole arrangement of the building is so inconvenient that in order to fit it with modern conveniences an immense sum would have to be spent on reconstruction. In addition to this no possible extensions would be adequate to meet the requirements of even five years hence and give an efficient and economical service.”

The fact that a new Printing Bureau is required is so generally recognized that it would be useless to enlarge on the subject further. The details of the Report tell a story of pretty general increase in the business of the department in all its branches. The cash clearances increased to the tune of \$673,382.62, the figures being:

1911-12.....	\$4,266,784.90
1910-11.....	3,593,402.28

The Expenditure by Letter of Credit cheque was.....	\$2,117,001.90
“ Bills of Exchange was.....	36,973.84
“ Application on the Auditor General was....	64,979.08
“ Application on Accountant of Contingencies was.....	6,648.57
Making a grand total of.....	\$2,225,603.39
and a monthly average expenditure of.....	185,466.95
Total amount of wages paid.....	\$649,930.11
making a monthly average of.....	54,161.67

Amount of Printing, etc., turned out for Parliament and the Departments of the Government increased by \$34,844.47,

the figures being, 1911-12, \$1,165,455.03
1910-11, 1,130,610.56

The amount of work given outside was comparatively the same as the previous year, although on the face, it shows an increase of \$32,548.73. This is accounted for by the printing outside of part of the Voters' Lists to the amount of \$31,740.61, which occurs only every four or five years.

SESSIONAL PAPER No. 32

The figures are as follows:

Outside Work 1911-12.....	\$292,219.11
“ 1910-11.....	259,670.38
Increase of.....	\$ 32,548.73
Printing of Voters' Lists.....	31,740.61
Net increase of.....	\$ 808.12

The total of expenditure for wages, printing and binding supplies, etc.,
for last year amounted to.....\$1,164,939.92
for 1910-1911 amounted to..... 996,478.22

An increase of \$168,461.70, thus for the first time bringing the expenses of the Printing Branch over the million dollar mark.

The amount of Stationery, etc., supplied to Departments and Parliament was increased by \$153,511.50,

the figures being, 1911-12.....	\$774,561.30
1910-11.....	621,049.80
	\$153,511.50

The amount of Stationery, etc., purchased during the year was increased by \$160,576.21,

the figures being, 1911-12.....	\$701,942.95
1910-11.....	541,366.74
	\$160,576.21

The expenses in connection with the purchase of Stationery, etc., for the year were as follows:

Freight, express, etc.....	\$ 7,282.69
Wages.....	30,287.19
	\$ 37,569.88

The Customs duties in Stationery, etc., purchased, amounted to \$7,642.91. This charge is not proportioned over the total purchases, but is added to the cost of the importations.

The stock of Stationery, etc., on hand was again reduced this year.

Stock on hand March 31, 1911.....	\$194,690.66
“ “ 31, 1912.....	174,423.29
Reduction of.....	\$ 20,267.37

3 GEORGE V., A. 1913

The profit on Stationery, etc., issued during the year amounted to \$7,138.19, which sum was transferred to the credit of Casual Revenue Account.

The printing of the Voters' Lists for the last General Election cost \$75,720.36, the detail of which follows:

Printing performed in the Bureau.....	\$ 30,050.24
“ outside the Bureau.....	31,740.61
	<hr/>
	\$ 61,790.61
Office Supplies.....	331.27
Salaries, living expenses and travelling.....	13,598.24
	<hr/>
	\$ 75,720.36

The revenue of the Canada Gazette increased by \$5,261.46:

1911-12.....	\$ 22,056.26
1910-11.....	16,794.80
	<hr/>
	\$ 5,261.46

The number of copies printed for the last number of the fiscal year 1911-12 was 2,000. This is an increase of 275 copies over last year.

The number of paid subscribers increased from 250 to 258.

The free distribution numbered 1,742 copies.

The receipts derived from the sale of Parliamentary Publications to the Departments and to the Public show an increase of \$999.76:

1911-12.....	\$ 13,323.60
1910-11.....	12,323.84
	<hr/>
	\$ 999.76

The amount of accounts for Intercolonial and Prince Edward Island Railways printing, which is audited at the Bureau, shows an increase of \$8,049.69:

1911-12.....	\$ 104,026.24
1910-11.....	95,976.55
	<hr/>
	\$ 8,049.69

The amount of accounts for Government Newspaper Advertising, which is ordered and audited at the Bureau, increased by the sum of \$22,142.60:

1911-12.....	\$ 166,224.26
1910-11.....	144,081.66
	<hr/>
	\$ 22,142.60

SESSIONAL PAPER No. 32

A matter of great inconvenience to the Accountant's Branch, in the collecting of payments for the Printing and Stationery Accounts, is the lack of sufficient funds on the part of several Departments to carry them through the year. These Departments usually run short of funds after the first six months, the result being that the Bureau has to carry them for the rest of the year, till the appropriation for the next Fiscal Year becomes available. This goes on year after year with pretty much the same Departments. At times the unpaid accounts reach so large a sum that it seriously impairs the Bureau's Advance Account of \$200,000, and besides necessitates, month after month, reporting the same Departments as in arrears in the regular statements to the Auditor General. The most inconvenient part is, that it is extremely difficult to collect all the outstanding amounts, before the date set by the Auditor General for the closing of the year. Last year, notwithstanding the fact that the time for closing was considerably extended, two Departments failed to pay their accounts in time. The obvious remedy for this state of affairs would be an appropriation sufficient in all cases to enable the various Departments to meet their necessary expenditure for printing and stationery promptly as the accounts are rendered and audited.

I wish, in conclusion, to bear testimony to the growing spirit of co-operation on the part of the officials of the Departments whose duties bring them into close relations with the Printing Bureau. There are a hundred and one ways in which such officers may contribute towards making the work of the Bureau more economical and efficient as well as more pleasant, and it should be gratifying to them to realize that they cannot help the Bureau without at the same time helping the Departments which it is their first duty to serve.

I have the honour to be, sir,

Your most obedient servant,

C. H. PARMELEE,

King's Printer and Controller of Stationery.

ACCOUNTANT'S BRANCH.

OTTAWA, November, 1912.

CHARLES H. PARMELEE, Esq.,

King's Printer and Controller of Stationery.

SIR,—I have the honour to submit the following report of the transactions of this branch of the Department, for the fiscal year ending March 31, 1912. Complete details of the financial operations of the Department, will be found under the following heads:—

1. Statement of Receipts and Expenditure, showing total cash clearances for the year.
2. Letter of Credit Account.
3. King's Printer's Advance Account.
4. Printing Branch Account and comparative statements.
5. Stores and Distribution Branch Account and comparative statements.
6. Expenditure on Appropriations and detail of same.
7. *Canada Gazette*, comparative statement of Revenue and Expenditure.
8. Casual Revenue Account.
9. Audit of Interecolonial and Prince Edward Island Railways Printing Accounts.
10. Government Newspaper Advertising Accounts.

Respectfully submitted,

J. A. FRIGON.

Accountant.

9. RAILWAY PRINTING AUDIT.

The amount of accounts audited at this Department during the fiscal year ending March 31, 1912, for printing, binding, lithographing, etc., for the Intercolonial and Prince Edward Island Railways was \$104,026.24, showing an increase of \$8,049.69 over the fiscal year 1910-1911. These accounts being paid by the railway for which the printing is done, the amount is not included in the statement of receipts and expenditure of this Department.

The number of accounts audited was 18,000, audit notices issued 800, and there was considerable amount of correspondence in connection therewith, the number of letters, sent and received, being 800.

Below is a statement, showing increase in the amount of the accounts audited at this Department, for printing, binding, lithographing, &c., for the Intercolonial and Prince Edward Island Railways.

SESSIONAL PAPER No. 32

10. GOVERNMENT NEWSPAPER ADVERTISING.

The total amount certified by this department for government advertising during the fiscal year ending March 31, 1912, was \$166,224.26, the details of which are set forth in a statement on page 20. These accounts being paid by the several departments for which the advertising is done, the amount is not included in the statement of receipts and expenditure of this department.

The number of advertising accounts audited was 9,679; circulars issued, 8,086.

There was, moreover, a considerable amount of correspondence in connection therewith.

Below is a statement of the total amount of advertising accounts, audited by this department from the year 1876 to the fiscal year ending March 31, 1912, inclusive.

PRINTING BRANCH.

OTTAWA, November 28, 1912.

C. H. PARMELEE, Esq.,
King's Printer, &c., &c.,
Ottawa.

SIR,—I have the honour to submit a report of the work executed for Parliament in the Printing Branch of the Department, and also the departmental work during the fiscal year ending March 31, 1912, contained in the following tabulated statements:—

1. Annual reports.
2. Supplementary reports.
3. Routine Parliamentary work
4. *Canada Gazette*.
5. House of Commons and Senate Debates
6. Statutes.
7. Voters' Lists.
8. Pamphlets and miscellaneous book-work.
9. Letterpress departmental work.
10. Summary of letterpress departmental work.
11. Plates contained in annual and supplementary reports.
12. Books bound.
13. Summary of books bound.
14. Pads made.
15. Summary of pads made.
16. Making and stamping of prepaid Post Office envelopes.
17. Die stamping of note headings, letter headings and envelopes.
18. Loose leaf work.

Respectfully submitted,

FRED. BOARDMAN,
Superintendent of Printing

3 GEORGE V., A. 1913

OTTAWA, August 8, 1912.

APPENDIX A

DOMINION PAROLE OFFICER'S REPORT

To the Honourable

CHARLES J. DOHERTY, K.C., D.C.L., LL.D.,

Minister of Justice.

Ottawa, Ont.

SIR,—I have the honour to submit to you the annual report on the parole system for the fiscal year ending March 31, 1912.

ITINERARY.

During the year I visited six penitentiaries, interviewing 881 prisoners. I also visited five reformatories in the provinces and interviewed 86 lads in custody. Also, I visited 22 jails in the provinces and had 67 interviews with prisoners. The total number of interviews for the year is 1,034. During the year I visited 422 prisoners on parole, and I am pleased to be able to report that I found them doing exceptionally well and busily employed in industrial work. Very few of the men have had occasion to be idle during the year, in fact we have found an abundance of employment for the men released on parole. Prisoners released from the penitentiaries generally have employment pre-arranged for them before release and a very small percentage indeed are they who fail to take up with the avocations provided for them by their friends. In a few cases I have found it necessary to re-arrange the employment and environment to assist and make it more helpful to the prisoner in his effort to regain his social status. During the year very few have been reported sick and unable to earn their way and in every case of disability reported, they have been relieved from the funds for the helping of paroled prisoners.

PAROLE FIGURES.

I beg to call your attention to the large number of men having completed their paroles during the past year. At the beginning of the past fiscal year 1,387 were reporting on license—848 prisoners were released on parole during the year. At the close of the past year only 562 were reporting on license. Altogether 3,780 sentences have been completed on parole since the inception of the Act. The total number of paroles granted during thirteen years operation is:—Penitentiaries, 2,521; jails, reformatories and provincial prisons, 2,058—making a grand total of 4,579 paroles issued. From a careful analysis of these figures it is gratifying, when so many have completed their sentences and are now enjoying good citizenship, that of the entire number paroled, only 237 can be regarded as delinquents, making the percentage of failures 5.17% on the whole system. The percentage of those who have been returned by subsequent conviction during the thirteen years is only 2.18%. The percentage of those whose licenses have been cancelled for non-compliance with conditions of license is only 3%; revealing beyond the shadow of a doubt that there is a responsive cord, found among men who have been lost to society and the state, by their anti-social act, which vibrates and responds to sympathy when mercy is extended from the gracious hand of the Crown.

FISCAL YEAR'S FIGURES.

Of the 848 released on parole during the past year, 463 were extended to prisoners in the reformatories, provincial prisons and jails of the Dominion; 385 to prisoners in the seven penitentiaries. From this number there have

3 GEORGE V., A. 1913

been 15 licenses cancelled for non-compliance with conditions, or 1.8%. 21 licenses were revoked for subsequent convictions, or 2.5%, making the total percentage for delinquents or failures for the fiscal year, 4.3%.

I also beg to submit to your consideration the report of Colonel Sherwood, Commissioner of Dominion Police, embracing the figures of the entire parole system from the inception of the Act in 1899-1900 to the fiscal year ending March 31, 1912, giving the exact situation :

Paroles granted from penitentiaries.....	2,521
Paroles granted from prisons, jails and reformatories.....	2,058
	—4,579
Licenses cancelled.....	137
Licenses forfeited.....	100
Sentences completed.....	3,780
Sentences not completed.....	562
	—4,579

At the close of each month Colonel Sherwood, sends to me a list of all delinquents, *i.e.*, those who have failed to report to the constituted authorities, or those who have been returned to prison by subsequent conviction, or by having their licenses cancelled for non-compliance with conditions of license, steps are immediately taken on receipt of each report to locate any prisoners who have failed to report and if satisfactory answers are not forthcoming the licenses are revoked. I am pleased to be able to say that the percentage of delinquency in reporting is very small. The men invariably report to the authorities as specified in their license, and the chiefs of police, sheriffs, magistrates, or those who are authorized to receive reports, have been very punctual in notifying the office of the Dominion Police, who have the responsibility and supervision of the reporting of prisoners at large. Sometimes I have known prisoners to report for a number of months and then lapse in their visits to the authorities. It is not generally due to a falling into temptation but it can rather be attributed to a weakness of human nature in growing weary in well doing.

I am pleased to be able to report that the system is working satisfactorily to all who are in a position to judge of its utility and operation.

PENITENTIARIES.

Industrial schools and reformatories.....			51
Common, city and provincial jails.....			262
Grand total...			840

SESSIONAL PAPER No. 34

NOTE.—The divergency of eight in our figures from those of the Dominion Police is due to the fact that the Dominion Police record the date at which the license is granted from the Secretary of State Department, while we record the parole as issued from the date of discharge from the institution.

GENERAL COMMENT.

The parole, as a vital test of a restored capacity for a permanent citizenship is of supreme value to a community, when fairly inaugurated and fully tried out. If found to be a failure in any individual application, the whole system should not be condemned. Any movement in the known world embracing reform principles without its faults and failures is yet to be introduced, yet there are some who condemn an entire system because of a local failure or a fault, which assumed attitude is entirely wrong. It is always the one who has broken a parole and gone astray who attracts attention. The only true test of a system is to be taken from the total results, and when figures reveal and demonstrate that 95% at least, receive great benefits from the operation of the parole law, it is absolutely an injustice to take from the 3% who have partially failed to report and have consequently been returned to prison on the basis of a failure to comply with conditions of license, or the 2% who have totally failed, having committed offences and having been convicted and returned to custody for criminal offences, as a criterion of the parole system.

In re-entering society, the paroled prisoner should not be placed in a false position, supported by concealment or deception, where a discovery of misrepresentation would add to any prejudices already existing in a community against a convict. I have always felt it best in recommending men to a position to have the head of the firm, understand fully that the individual has been in trouble, also the cause of his weakness, and the possibility of his amendment, and it is only fair, to the employer as well as to the man, that an understanding should be arrived at before the individual is placed in a situation. Should a paroled prisoner be placed in a situation without any knowledge whatever given to the employer and he should afterwards find that the man had been under a conviction for a crime and had served a portion of his sentence, the very fact in itself is enough to make the employer suspicious and to resent deceptions of this character. It is infinitely better for the prisoner to make a clean breast of his past if he desires to redeem himself, and there are thousands of men in business to-day who would put themselves out to assist a man in his reformation, if they are satisfied that he is in earnest and sincere in his endeavour to rehabilitate himself. This is where some have failed in the past, being anxious to hide their past life, they have sought out positions in disguise, only to reap in sorrow that which they did for the best.

It is of little advantage to restrain criminals by punishment unless you inculcate within them the principles of discipline and self-control.

The person declared to be a criminal has come under social condemnation. He is more than an unfortunate, he is an offender. He is also more than a diseased social unit. To call criminalism 'moral insanity' is neither good morals nor sound science. A cult of scientists full of mystical phrases, are exceedingly dangerous to the well-being of society when they begin to confound moral will with disease, and regard crime as a malady, and that crime alone has an absolute bearing on the physical nature of man. Wherever we find criminal law and organized society, we find the assumption of moral reliability. Crime springs from an evil passion and carries with it its moral desolations. It is more than a disease. We do not condemn a sick man—we sympathize. It is more than an abnormal physical function. We do not punish the colour-blind or paralytic. The very judgments everywhere within the pale of our civiliza-

tion passed upon the criminal involve primarily and pre-eminently the exercise of conscience. The criminal represents an unconformity to social law and moral ethics, revealing not only weakness but waywardness, which calls for moral restraint and government.

Whatever theory of punishment may be the truest, the underlying principle is one of conscience. We understand that crime is an act which the government stamps with condemnation. It is more than a vice—it may be less than a sin. Criminal law whether as a statute or a custom represents the re-action of the social conscience against whatever is felt to be injurious to the public good. Whenever a person does what reveals him to be anti-social, harmful or dangerous, he is declared to be a criminal, and, consequently, subjected to some form of punishment. In this declaration speaks what may be called corporate conscience of humanity.

It is the moral sentiment of mankind which demands certain acts as criminal. It may be an imperfect judgment, but it is a judgment pronounced by conscience. It may be a false and cruel judgment, as when witchcraft was punished by the death of the culprit, but, notwithstanding this, it had embodied in it a declaration of moral theories. Public theories respecting what constitutes a crime fluctuate with the growth and decay of our moral standards.

A release on parole may be defined as a conditional release extended to a convicted prisoner for the purpose of aiding in the completion of his reformation and his final restoration to citizenship, generally extended in the community he offended.

The parole system is a graduated movement in which, from the first step forward, the criminal must be trained to have a thorough appreciation of, and be fitted for, the use of his freedom; also he should be made to comprehend the right society has to expect from him in his newly acquired relation to the community, and of the full concurrence and co-operation of the released criminal in his effort to better his condition, should from the inception of a parole, be imperatively required.

As there is no romance about the ugly monster crime, there should be no romance indulged in as regards a parole for the criminal. The culprit has been an actual personal exemplification of a capacity for a criminal offence, so his release should be conditional on a practical manifestation of his determination to change the tenor of his life.

In the very inception of the subject of a parole, we are supposed to find the basis of operation on the presumption that the prime object of all punishment, or rather enforced confinement, constituting the deprivation of liberty (the modern bulk of imprisonment as it now consists), is the protection of society against the law-breaker, and any system for the reconstruction and the rehabilitation of the convict to encircle the situation must be in a position to stand scrutinizing from every view-point.

Society cannot realize why a man, undeniably a law-breaker, who has perhaps been a recidivist criminal, should be placed on a par with the good citizen who has never violated the law—and concludes that when we grow zealous to secure the right of the convict through his conduct and industry to redeem himself, that we should be certain to fully guarantee the rights of the community from which he has outlawed himself by his anti-social act.

In considering the subject, and giving all weight to the advanced and charitable humanitarianism of the age, in its worthy efforts for the reformation of the criminal, the parole system should strenuously resist the influence of any mawkish sentimentality, which, neglecting to encourage honesty and virtue, would have us indulge in a sentimental sympathy for the perverted and immoral person, the violator of law and order in our communities.

The criminal act carries with it more than immorality, nevertheless it is its immorality which involves punishment. Punishment to be punishment at

SESSIONAL PAPER No. 34

all and serve its purpose, must penetrate to the springs of moral life. If preventative the punishment is inflicted with an eye to the greater moral strength and ideals. The very word reform does not have a reference, primarily, to economic habits, but to moral capacities. The benefit which flows to the convict from industrial training arises largely from what is carried over into the moral realm of his life and adds to his true manhood. If retributive, then punishment indicates the majesty of the moral as well as the criminal law. If administered in vengeance or vindictiveness it destroys every design for the moral uplift of the prisoner from the human and divine view-point of life.

Probably all these elements must be included in the widest and truest system of punishment, but the dominant note will grow more and more humanitarian in the future than it has been in the past. The higher we rise in our national civilization, the more the emphasis will rest on the helpfulness and reform of our penalogical systems, rather than in retribution, but surely the suffering that acts as a deterrent and vindicates the law must also educate, and educate for the best of the prisoner or everything is lost. We are not satisfied if the prisoner comes out simply better educated to earn a living, but he must come out qualified to live a better life. Punishment to have a salutary effect on the prisoner must be felt to be something more than a forced seclusion from the busy world for the benefit of others. To deter from wrong-doing even those who witness it, punishment must mean something more than a suffering inflicted in a spirit of vengeance. A writer has aptly said: *'True reformation comes only with the acceptance of punishment as the fruit of the act.'* Only as prisoners may be made to feel that what they suffer has a moral significance can we have any hope for their reformation and rehabilitation as social units, and only as on-lookers see this aspect of the question can we feel sure that crime has been prevented in a community, and that society has been protected. A man must be tutored by suffering to see himself in his true light in order that he may become his best-self. The law is fully vindicated only when the convict is reformed. The vicious are deterred from criminality by the punishment of an associate only as far as they are morally strengthened by it. The protection of society is fully realized where the convict comes forth from the prison with the thing he lacked—moral fibre and moral force, to enable him to resist temptation. And yet there are scientific men who hold that criminalism has no moral bearing in the national life. In penalogical discussions I have heard thoughtful men allude to the Mosaic law, not only as if it were all antiquated, but as if every body knew it were so. But is the law of Moses no longer in good standing?

Moses taught that if a man puts out a neighbour's eye, neither riches nor social status should enable him to go scot-free from punishment. Much of the Mosaic law is embodied in our laws to-day. If Moses taught that the value of an eye cannot be expressed in money or by imprisonment, is it not a true principle still? When the rich man to-day who has influence and friends goes free of punishment although he has practically put his neighbour's eye out, (in fact put him down and out of the running of life,) is it a better type of law? I often wonder if the modern judge or magistrate has any right in equity to say 60 days, or 30 days, or \$50, for the value of an eye or a nose, and I doubt greatly, in coming in contact with divergency of sentences, if the modern judge has as clear a conception of equity as the old time Moses. If Moses taught that the rich bully shall not compound his felony with money (a universal principle now in vogue), why has he been relegated by modern penologists as a 'has been'?

Some teachers of modern thought have so spiritualized matters that they have banished all uncleanness once attributed to materialized man, reducing the soul to a mere function of the brain, producing a moral code which leaves nothing really moral in human conduct. The venerable, awful words: 'Duty,' 'Justice,' 'Righteousness,' although they may be included in the new vocabulary, are so stripped of their old meaning and so degraded from their

original theories that the sanctities they represented are juggled about as cheap conveniences in the new system of criminology. Instead of feeling the stateliness and steadiness of the operation of the law, translating the organisms upward, our moral life has been brought down to the level of animal processes. Following the same thought there has grown up a movement which evaporates from the word crime in all its vital meaning, and reduces the offender to the station of an irresponsible patient whose conduct is simply the outcome of a twisted brain fibre. The criminal is merely an 'abnormal man' in their estimation. How clear this term makes everything? Who is criminal because he has a pointed head, round eyes, scant beard and protruding ears? From the outside view-point this theory of crime accounts for much there is found in moral life of to-day, without any reference as to what makes up the real man, it contents itself with measuring certain nervous re-actions of our bodies, calling them 'time rates of thought,' when, in truth, they are not thoughts at all but mere modes of motion. These measurements claim that conscience is purely an animal function rather than a moral sentiment. So this new theory in criminalism relieves the criminal of moral responsibility and merely labels him as a 'defective organization.' In the words of a modern writer 'the criminal is an anthropological monster,' and presents the traits of racial regression. This statement is rather severe on all our ancestors at least, but let it be granted, even as a racial regression the criminal does not cease to be a moral problem.

The Canadian governments are spending some money for the industrial education and the moral training of prisoners in the penitentiaries and reformatory institutions, and when they cut their wisdom teeth they will spend much more. The industrial and moral education of the prisoner is destined to become one of the greatest factors in prison administration, in aiding in the reformation of the inmates. In considering questions involved in prison management in these times, the fact should not be lost sight of, that in the so-called prisons visited by the great Howard and other reformers a century ago, the occupants were prisoners, not convicted of a crime and incarcerated because of a conviction and sentence, but they were generally people charged with crime and held for trial, or debtors. The usual result of a conviction for crime in those days, death was the penalty. We can understand this fact when accompanied by the knowledge that over two hundred known criminal offences were punishable by death, and the authorities were not slow in the discharge of their gruesome duties, and so numerous were the offences punishable by death that there was little occasion for prisons as we understand them now. The transition from the jail of a hundred years ago to the penal colony, and then to the established penitentiary of to-day need not be dwelt upon. It is enough to say that the present day conditions of the inmates of our prisons (except in a few of the city or county jails) is one of luxury and happiness compared with the inmates of the prisons one or two hundred years ago. In saying this it does not follow that all has been done for the benefit of the convict that is possible or best for himself, or for society at large. His treatment is still a matter of grave concern and deep interest and importance. We have, on one hand, to consider the best interest and welfare of society in the treatment of the convict and the best interests and welfare of the convict himself. Many, if not all, of the acts we brand as criminal are such crime because of the necessity of the preservation of society, that is, man in civilization is contra-distinguished from man in a state of nature; and society's sole right to imprison one of its members is derived from the right of self-preservation to society itself. During the time of incarceration of the convict, it is both wise and beneficial that such treatment be adopted or such a course of discipline and management inaugurated as will result in making him, if at all possible, a better member of society when his term of imprisonment is come to an end. There is occasion for grave doubt, to

SESSIONAL PAPER No. 34

say the least about it, that society has a right to imprison or hold in imprisonment any of its members merely for the sake of reforming him; particularly in the British Empire where the fundamental principles of free and responsible government is founded on the fact that all subjects are born with certain unalienable rights, namely: 'Life,' 'Liberty,' and the 'Pursuit of Happiness,' but there can be no question but what such measures for the reformation of character may be taken, either by experience, or upon reason, as may be deemed best calculated for that purpose, during the period of imprisonment adjudged by the laws of the land to be justified by the crime committed. A scheme of imprisonment or of prison management when the duration of the incarceration is dependent on the reformation of the convict is unworkable, because of the practical impossibility of judging from the prison view-point when the cure has been effected or the reformation taken place. That good conduct should be adequately rewarded goes without saying, but, that the condition of being reformed should be a pre-requisite to the ending of the imprisonment, is open to many objections. Especially is this difficulty found in countries where the indeterminate sentence system has been inaugurated. But the least of these objections grows out of the fact that there is no definite test of reformation that can be relied upon as a sound basis of operation during the period or under the conditions of incarceration. It is not a question whether a man has resolved to do right while under restraint but whether, under conditions of freedom and the temptations of the open world, he can resume his place and live a proper life. A premium on hypocrisy ought not to be a part of any treatment of the convict, yet, if the modern sentimentalist, would banish all punishment from the criminal code and work purely on reformatory methods, gain the right of way or hold the ascendant voice, then look out for an unlimited crop of criminals for the future generations to care for. Inability or unwillingness to restrain self and the great desire to make a living by any other means than work, or the lack of systematical training in youth to apply one's energies to individual work and responsibilities, are probably the strongest factors in compelling crime to-day. Probably the largest portion of chronic criminals is produced by a lack of home-training and discipline in some form or other in the early life. The unwillingness to be controlled exists, to a greater or less extent, in every one. Self-control is usually the result of a series of acts of obedience to authority and is a habit resulting from a training to obey. Without attempting to go into a careful analysis, my intention is to emphasize the need of adhering strongly to the principle of disciplinary training in our penal institutions. That is, to wit: if we hope to have influence over the men for their ultimate good and restoration to society on their release; and the institution failing in this respect will miserably fail to produce ultimate results in the transformation and redemption of vital character. I would also emphasize the fact that the prison is the proper place to supply the lack of obedience and self-control which the home-life had so seriously and thoughtlessly neglected, and which is always found wanting in the life of every criminal. A course of discipline involving compulsory teaching to obey, to control self, and to work, if not the largest element in the foundation of character, has a most important place in the re-construction of men, and these characteristics are absolutely necessary as a fundamental basis in a good citizenship.

It must not be inferred from the prominence I have given in this year's report to the subject of discipline, that a wise moral and religious training is not essential in the re-construction of criminal life, but I believe there can be but little hope for moral and religious improvement of the man if the other essentials are neglected, and that, if the disciplinary and industrial principles are not inculcated into the life by the institutional treatment, it makes the reformation almost an impossibility, and result in the loss of religious and moral efforts for their good.

Idleness is one of the best promoters of crime. Take the very best man your community can produce and place him in enforced idleness, surrounded by prison walls for a year or two, and I would not give very much for his morality when he is discharged. Do we not sometimes expect too much from the man who has fallen from the estate of his manhood and has had the misfortune to commit a petty crime, in placing him for a year or two in some prison where no employment exists and where enforced idleness is the general rule? If idleness has a demoralizing effect on a man of good habits, how much more so is it to those who are viciously inclined?

While the prison discipline should be strict, yet it should be just and humane. A prison should not be a pleasure resort, rather the convict should be made to dread the prison, not for its brutality or cruelty, but for the hard work and strong discipline administered; particularly when the prison treatment has failed to accomplish its object and the convict returns for a second or third term of incarceration. Life in any prison, spent in comparative idleness or ease, is of no direct benefit to the criminal, because it is plain that such a life incapacitates him for maintaining himself when released, and society, when such treatment exists, can expect nothing but a repetition of the crime and imprisonment from those thus dealt with. It is not of so much importance as to the nature of the work, but that the very principle of industry should be transfused into the life and character of the convict while in custody. One of the results of hard work, which is of great importance, aside from the argument above mentioned, is the natural result of restraint and the repression, through the channel of industry, of evil passions, as well as the great benefits to health and happiness accruing from industrial systems.

A clearer view of the moral aspects of crime will lead to greater success in efforts for the reformation of the criminal in the future than in the days when a prison was simply a place of detention, and punishment managed on the old system or theory that the criminal was simply an abnormal animal. The convict can be reformed only upon the principle that he is a spiritual as well as a physical being. We now have proper ventilation, hygienic food, sufficient exercise, strong and humane discipline, and general good management, all of which go to make the penitentiaries pleasant places for one to visit, but if this were all contained in our treatment of the prisoner very few prisoners would leave such an institution reformed men. To make the institutions what they are by intention, needs the close association of noble lives who can impart moral fibre and force to delinquent humanity, whose influence will re-create the personality of the prisoner. When the convict is brought into contact with prison officials who represent the highest type of manhood, then, and not till then, can we expect to master the greater problems of prison reform. To impart this higher type of living, most needed to the life of the convict, is for the officials to possess it in an overflowing abundance. The supreme importance of the truth, reflecting the moral aspect of crime, lies in the emphasis which is placed on the absolute necessity of the higher type of manhood through all grades of the service of our penal and correctional institutions. Public sentiment needs education in this direction.

To those who are conversant with and have studied the older systems of punishment, especially where vengeance and repression were the dominant factors, will find in comparison with modern movements an extreme divergence of opinion. We have some ardent advocates to-day, who would entirely eliminate any mode of punishment whatever in the treatment of the delinquent class. They would banish all our penitentiaries and jail and reformatories, and adopt systems which have never been tried out. While the old and tried out systems of punishment, where vengeance and repression have so signally failed to restrain the convict, are to be avoided, yet to veer to an extreme opinion on the other side would be, in result, just as disastrous as the former, probably more so.

SESSIONAL PAPER No. 34

The supreme test of all efforts will be found in the final analysis of the results. All systems will have to be tried out and carefully analysed before a clear basis of operation can be established in reform work. During the past decade or two it has been demonstrated without a shadow of doubt that industrial methods, strong and healthy discipline, accompanied by a parole, produce good habits and create moral fibre, and very excellent results have accrued in the after-life of thousands who have found their footing through the systems of our penitentiaries, and are now occupying good positions in the social life of the Dominion. It is also very gratifying to note that the recidivist class of criminal is receding in the penitentiaries and that the number of repeaters are not increasing, but gradually becoming less. This is not so much the result of a former treatment of the criminal but more the result of an auxiliary treatment by the various prison aid societies, and the Salvation Army, who not only interest themselves in the prisoner, but meet him and look after his temporal needs by obtaining employment and finding a suitable environment for him which enables him to redeem himself.

I would not close this year's report without paying a warm tribute to the self-sacrificing persons engaged in prison-reform work, representing various prison aid associations and the secretaries of the Young Men's Christian Associations, for their persistent and untiring efforts to influence men who are fallen to live better lives, and I have found a most hearty co-operation in the parole system, not only from the various organized societies, but from the public at large, and I find there are many of our business men who are interested enough in prison reform to give the prisoner employment at the crisis of his life when a little practical kindness and sympathy go a long distance in the re-habilitation of our fallen fellow citizens.

Respectfully submitted,

W. P. ARCHIBALD,

Dominion Parole Officer.

APPENDIX B

WARDENS' REPORTS

KINGSTON.

KINGSTON, April 26, 1912.

Inspectors of Penitentiaries,
Ottawa.

DEAR SIRs,—*Re* Annual Report, I enclose statistical tables for the year ended March 31, 1912.

Yours truly,

J. M. PLATT,
Warden.

3 GEORGE V., A. 1913

ST. VINCENT DE PAUL.

ST. VINCENT DE PAUL, April 25, 1912.

The Inspectors of Penitentiaries,
Ottawa.

DEAR SIRs,—Enclosed please find the annual reports and statistics for the fiscal year ended the 31st March last. I hope that you will find them all correct and satisfactory.

I beg to call your attention to the fact that on account of the unexpected death of the Chaplain, the Reverend L. O. Harel, we have no report from him.

On account of my recent appointment to the wardenship of this institution, I am unable to make any report on the past fiscal year.

Yours respectfully, '1

G. S. MALEPART,

Warden.

SESSIONAL PAPER No. 34

DORCHESTER.

DORCHESTER, N.B., April 30, 1912.

Inspectors of Penitentiaries,
Ottawa.

SIRS,—I have the honour to submit my annual report, together with crime statistics and other reports in connection with this penitentiary, for the fiscal year ended March 31, 1912.

* During the year there has been a decrease in the prison population. On March 31, 1912, the total population was 220 as against a total of 255 on March 31, 1911.

The work on the new boundary wall was carried on during the summer and fall, and about 900 feet is now completed, along with two thirds of the foundation. Included in the 900 feet is the new gateway and two watch towers. It is intended to proceed with this work the coming season. During the winter a large quantity of stone and gravel has been prepared for this purpose.

Under Instructor McPherson, the farming operations have been carried forward energetically with many indications of improvement, and with the infusion of new blood in the farm stock, I can see a brighter future for the farm at this penitentiary.

On April 1, 1911, Mr. John Hebert was promoted to the position of storekeeper and warden's clerk, and is performing the duties of those positions in a satisfactory manner.

I regret that on account of failing health, Mr. N. A. Burden was compelled to resign, after serving for nineteen years as guard at this penitentiary, the duties of which position he performed to the entire satisfaction of his superiors.

The discipline has been good, and the officers have been faithful in the discharge of their duties.

In conclusion, I desire to express my sincere thanks to yourselves for the courtesy and assistance extended to me, and also thanks to the general staff for the respect and devotedness accorded me in the discharge of my duties.

Respectfully submitted,

A. B. PIPES,
Warden.

STONY MOUNTAIN.

STONY MOUNTAIN, April 25, 1912.

The Inspectors of Penitentiaries,
Ottawa.

SIRS,—I have the honour to submit my annual report, together with crime statistics and other reports in connection with this penitentiary, for the year ended March 31, 1912.

		85
Remaining at midnight, March 31, 1912.....	†183	

The daily average for the year was 171 against 163 for the previous year.

A large amount of building work was accomplished during the year.

Up till the time cold weather set in, 528 feet had been added to the wall, the east wall (328 feet) being completed and made ready for coping—the south-east bastion and guard stand were also completed and 200 feet of the south wall erected. It is reasonable to expect that the boundary wall will be brought to completion this season, when it will be advisable to proceed immediately towards the erection of new farm buildings, as it is impossible to increase our crop acreage and other farming operations, until this is done.

I would again beg to recommend, as on former occasions, that the remuneration to guards in our penitentiaries be increased; and that a scale of increase in pay be adopted, which in itself, would be the reward for length of service and faithfulness to duty. The daily routine of the guard's life is not only tedious but he must ever be on the alert and close to his post of duty. At best he has only brief intervals for rest and diversion, and this even on the day most sacred to rest.

The question has been raised by one of our wardens that 'it is difficult to find men qualified and otherwise suitable, willing to take a position on the staff at the present rates of remuneration, and the temptation to increase their remuneration by illegitimate means has proved too much for several of the officers during the year.' I feel most decided, in my opinion, that any guards found

*Including one at Selkirk Asylum.

†Including five at Selkirk Asylum.

SESSIONAL PAPER No. 34

stooping to practices intended to increase their remuneration illegitimately, deserve no such leniency as mere discharge from duty, but should be summarily tried and when guilty punished severely, by a term of imprisonment.

As mentioned in my report of 1901, I would again strongly recommend that the carbine Winchester rifles supplied to guards for duty on the wall, be replaced by magazine weapons shooting buckshot. The modern 'riot gun' is, in my opinion, the very best weapon to prevent the escape of convicts and does not carry with it the same element of danger to the surrounding neighbourhood.

I have often recommended that a building be erected close to the penitentiary, to be used as a gymnasium and recreation and reading room for the guards. A convict inured to hard labour daily, has an advantage over a guard, in the case of a scuffle, should the guard not be in the best physical and muscular trim. A gymnasium would not only provide the best means for exercise in off hours, but would give a manly form of recreation, and with a good reading and recreation room properly conducted would naturally redound to the discipline, and *esprit de corps* of the entire penitentiary staff.

I cannot overlook mention of the readiness shown by the Winnipeg chief of police, Mr. McPherson, and his deputy, Mr. Newton on all occasions in assisting us in the handling or guarding of convicts in transit, in fact in every way they can.

The officers of the Salvation Army are worthy of the highest praise in the splendid work they are ever ready to perform in offering their good services towards the reformation and uplifting of all classes of convicts.

Respectfully submitted,

A. G. IRVINE,

Warden.

3 GEORGE V., A. 1913

BRITISH COLUMBIA.

NEW WESTMINSTER, B.C., April 30, 1912..

SIRS,—I have the honour to submit my report for the year ended March 31, 1912, together with statistical and other statements.

I have again to report a large increase in prison population. At the close of last year there were 258 prisoners within the walls of the penitentiary; the end of this year found us with 329—an increase of 71, which is the actual net increase for the year, the number of insane convicts in the provincial asylum being the same. The number received during the year was 181; as against 145 during the previous year. Of these, 77 were received during the four months, November to February, inclusive.

Five convicts escaped during the year. Two of these got away from the provincial asylum to which they had been transferred, and three from the penitentiary. Of the latter, one escape was due to carelessness and the officer responsible was dismissed. The other two who escaped risked their lives. A defective cartridge gave them time to get partial cover and they consequently escaped the bullets sent after them. One of them was retaken.

The increase in prison population has made it necessary to provide further cell accommodation in advance of the completion of the east wing. Accordingly we began in July last to prepare the site for a building 145 x 45 feet and 25 feet from floor to plates, to be used eventually as an industrial building, but in the meantime to hold 192 temporary cells. The close of the year found this building almost ready for occupation, and it will be occupied before this report reaches you.

It being necessary to push the construction of this building, work on the yard wall was suspended for about six months, and the close of the year found it three or four days short of completion. Before work was suspended, however, the wall was completed except that a part was 12 feet high only, so that we were able to remove some 1,400 feet of the old 12-foot wooden fence, and to make some progress in the work of remodelling the road approaches and laying out the grounds. A large quantity of the old fence material has been used in the construction of the new building and temporary cells and in building a temporary kitchen for the convicts therein confined. In remodelling the road approaches and grading the brickyard, some 4,000 cubic yards of earth have been removed, the greater part being wheeled for a considerable distance and used to widen the road along the bank of the glen.

The whole upper floor of the administration building has been thrown into one room, which is now the chapel, the old chapel being much too small for the congregation.

Discipline has been fairly well maintained. The number of convicts punished was 40.65 per cent of the total number in confinement, against 32.20 per cent last year, but a large number of the offencées entailing punishment were in connection with 'trafficking.' This was not due to an increase in the practice, but to the fact that, since the number of keepers was increased and a chief keeper appointed, it has been possible to do more to detect and suppress trafficking. Tobacco, sometimes in considerable quantity, has been found and confiscated and several officers have been discharged.

SESSIONAL PAPER No. 34

The old standing difficulty of obtaining competent and trustworthy officers continues to keep the staff below the desirable standard of efficiency; but, on the whole, I think I am fortunate in having so many on the staff who are faithful in the performance of their several duties and loyal to the service.

The substitution of electric power for steam, noted in my last annual report, came just in time and has proved most useful.

The improvement in the pipe connection between the reservoir on the grounds and the laundry and bath-room has resulted in an appreciable saving, our payments for city water being \$322.76 less than last year, notwithstanding the considerable increase in prison population.

I am pleased to be able to repeat and emphasize what I have said in former reports of the readiness of the Chaplains to assist discharged and paroled prisoners in obtaining employment, and of the good work done by the Salvation Army representatives in the same direction.

Respectfully submitted,

JOHN C. BROWN

Warden.

The Inspectors of Penitentiaries,

Department of Justice,

Ottawa.

3 GEORGE V., A. 1913

ALBERTA.

EDMONTON, ALTA., May 20, 1912.

SIRS,—I have the honour to submit my annual report embracing detailed reports from the various departments of the Alberta penitentiary for the twelve months ended March 31, 1912.

I am pleased to report a very satisfactory year in building operations, the east wing cell block is about complete, and we will be using it this winter, it will be much safer and better in every way than the temporary cell house. It is a fine piece of work and will be a credit to the Department. The warden's house is well under way.

Our brickyard has been very successful and has turned out about one million brick, supplying all our needs and leaving about four hundred thousand on hand. We have built a permanent kiln that will hold two hundred and fifty thousand. If this proves a success I will ask leave to build three more kilns. We use clay for mortar, and our own brick, so the cost is very light, and in the end there will be a great saving in lumber.

Our farm has been very successful and we have a good supply of potatoes and other vegetables, enough for use until the new ones come in and some to spare. The coal mine has supplied all our needs, also the officers. We have sunk a shaft in the yard to the coal about one hundred and ten feet and will be taking our coal from there next winter, this will be a saving and will be safer for convicts working in the mine. I regret to say that we had two escapes from the coal mine. One was recaptured and the other has never been heard of. We also had two attempts to escape by climbing over the fence. They were both wounded by the guards and failed to make their escape.

The conduct of the prisoners has been good and the instructors have been very successful in getting good work done.

I regret to say that over two-thirds of our police staff has left us on account of the greater opportunities for advancement and higher wages offered elsewhere. I find it hard to get good men to take the position. At present we have temporary men on duty that cannot qualify for the permanent staff. The discipline has been good and well maintained.

Not one complaint has been received from the female ward and the matron deserves great credit for her good management and the large amount of work turned out from her department.

In conclusion I wish to thank my officers one and all for their hearty support.

Yours respectfully,

M. McCAULEY,

Warden.

SESSIONAL PAPER No. 34

PRINCE ALBERT.

PRINCE ALBERT, SASK., April 2, 1912.

SIRS,—I have the honour to submit my first annual report for the year ended March 31, 1912, together with statistical and other statements.

The prison opened on the 15th May, 1911, and on the 16th I received 36 convicts, on transfer, from the Alberta penitentiary. We have received 30 since, making a total of 66 inmates during 10½ months.

During the 10½ months we have been in operation we have only received 30 convicts, this tends to show that Saskatchewan is comparatively free from serious crimes.

There was one escape. The convict was away 4 months but was finally recaptured at Grand Island, Nebraska, U.S.A., and returned to the prison.

There have been no deaths or serious accidents during the year.

Two female convicts were received during the year and transferred to the Alberta penitentiary.

Our per capita cost is large compared with the other penitentiaries. This is on account of our opening up the prison. A complete equipment had to be furnished which necessarily increased the per capita cost. It will take probably two or three years before we can compare favourably with the other penitentiaries.

Considerable work has been done during the year. We have put up two stables, ice house, blacksmith shop, considerable amount of work setting up brick-plant, additions and improvements inside the prison, put down ties and track from the brickyard to the clay pits and towards the railway siding, and got out necessary timbers from bush for brickyards and sheds.

Warden's residence.—The brick work is completed, roof on and shingled, first flooring laid throughout the building, concrete floor in basement three-quarters finished, concrete stairs to basement finished, all brick work back plastered inside, ground floor walls have been strapped, papered and sheeted ready for metal lath, outside woodwork completed ready for paint.

We constructed ten bed rooms and a reading room for the officers in the west wing of the prison. This was necessary as the officers could not get lodgings anywhere within a mile and a half of the prison.

Farm.—We cut and put up 123 loads of wild hay, cropped 50 acres to oats and harvested same, threshed out 1,500 bushels, brushed off 30 acres and got them ready for this season's crop, making a total of 80 acres ready for the seeder this season. We brushed off an additional 25 acres. This requires to be cleared of stumps and roots before we can crop it.

We had three acres of vegetables, a poor crop, as it was put in too late in the season.

A road was graded 66 feet wide through three of the river lots on the north side of the building. We also cut and put up 100 cords of wood for the brickyard.

The conduct of the convicts has been very good, no serious breach of the discipline has occurred.

The instructors of the various trades are all busily engaged and are doing good work.

The discipline has been good and the officers on the staff have been faithful in the discharge of their duties.

3 GEORGE V., A. 1913

There have been considerable changes in the staff during the year. It is almost impossible to get good men to do the work for the salaries paid them.

Inspector Dawson, Mr. Adams, architect, and Mr. Creighton, auditor, were with us three weeks at the opening of the prison and instructed the new staff in their various duties.

I desire to express my thanks to the general staff of the institution for the respect and devotedness which they have accorded me in the discharge of their duties.

Respectfully submitted,

F. W. KERR,

Warden.

The Inspectors of Penitentiaries,

Ottawa.

APPENDIX C.

SURGEONS' REPORTS

KINGSTON.

To the Warden,—

SIR,—I herewith submit my annual report of the medical department of the Kingston penitentiary, for the year ended March 31, 1912.

The general health of the prisoners has been about the same as in previous years, and we have been entirely free from any contagious disease. The number of deaths has been smaller than it has been for some years; only seven being registered on the death roll by the hospital overseers.

The sewage works have been operated satisfactorily, and the premises surrounding the works have been kept free from unpleasant odors, whilst the various sewers have been flushed regularly, thus preventing any contamination which might arise from these parts.

The general heating of the prison has been up to the usual standard, and comfort in this important matter appeared to prevail everywhere. Certainly, in very cold weather one might feel a certain chilliness, but taking it all in all, there have been no justifiable complaints regarding the heating operations. The prisoners are kept as comfortable as possible in this regard. It is not only in the dormitories, but in the various industrial departments, that the required comfortable temperature prevails. When the prisoners are kept warm, there is a likelihood that, disease due to variation of temperature, is lessened.

The ventilation and cleanliness of the dormitories, various work shops, and other departments, have been the aim of those in charge, and the closets have been kept clean and sanitary and in good working condition. Much care has been taken in the preparation of the food supplied the prisoners, and in quantity and quality they have been well served. The kitchen is kept clean and sanitary, and the cooking utensils and the dishes used in the distribution of the meals, have been kept as bright and clean as it is possible to make them. There can be no possible chance of any infection in consequence of the care taken in these matters.

It is much to be regretted that, so many prisoners so far advanced in years that mental and physical decay has begun, should continue to be sent to the penitentiary. If provision elsewhere could be provided, such as in a home for incurables, the provision would be in line with advanced penology. Until that is done, these old cripples whose crime perhaps is the one act in their lives, and no doubt often committed to secure the shelter which a prison affords, will continue to be a constant source of annoyance no matter in what part of the prison they may be placed. These men are continually seeking relief in vain, in medicine, to alleviate the infirmities due to the advancement of years. In like manner youths of tender years are being frequently committed to prison, when the repression of their criminal tendencies could be better effected by a term in an industrial school, or by some system of penalty as breathes a benignant air, and which would have a tendency to appease, rather than inflame, those on whom it is imposed. Being incarcerated, long before they have reached the years of maturity, they do not stand the prison air well, and are liable to droop and pine away. Health, a long life, and a useful one, might be the result of milder methods administered to this class of juveniles. The moral and physical health certainly should be considered, and punishment in such cases should have a tendency to modify ideas and disarm passions.

3 GEORGE V., A. 1913

The sanitary and heating arrangements of the hospital are complete in every particular, and the sick have been made very comfortable. In the matter of cleanliness, all care has been taken to have everything in first-class order, and the sick have been attended to carefully. Many minor operations were performed during the year, and were very successful. There were five hundred and eighteen prisoners treated in the hospital during the year, and it was the care given that prevented a larger number of deaths. The hospital is kept up to date, as far as possible, in its equipment, and is always kept in a condition ready for the reception of patients. It has been completely renovated and painted, and with flower pots in which plants with rich foliage, decorate the windows and corridors, the wards are as inviting to the sick as it is possible to make them. The dispensary patients which usually number up in the thousands, have been supplied with the usual stock prescriptions which are prepared in large quantities by the hospital overseers. The regular administration of these stock prescriptions, prevents many entering the hospital, who otherwise would seek admission.

There were one hundred and forty seven officers on the sick list during the year, all of whom received my attention at their homes, day and night, as required. It is a pleasure for me to make the statement that, officers on the sick list are always most anxious to return to duty, and on that account, always co-operate with me in every regard, as to my instructions for their recovery.

There is no suicide recorded on the books; this is a rare occurrence in prison. Seneca and the Stoic philosophers say of convicts who prefer death to imprisonment, and of those who commit suicide,—‘The death of a criminal is no punishment, but is for him, as for every other mortal, only the end of all earthly troubles, cares, and suffering. In vain, does the multitude of suicides show us daily that death is no evil, and therefore no punishment, for the men who thus abridge their days, manifestly prefer death to the endurance of the evils of life.’

Insane Ward.—There were forty-two in this ward at the end of the fiscal year. As will be seen by the returns of the hospital overseers, the admissions to, and discharges from, the ward have been above the average in number. The ward has been kept in a very sanitary condition, and the health of the inmates has been very good. Two of the deaths recorded on the books, were from this ward.

Female Ward.—The number in the ward is becoming small, and at the end of the year, only eight remained. The inmates have been comparatively free from sickness. One of them added to the population within the prison walls, by giving birth to a daughter on February 29 of this year. She was received here August 4, 1911.

Isolation Ward.—This ward has been re-opened for the reception of the incorrigible class who are a menace to prison discipline, but who can be detained without danger to their health. The cells are well lighted and ventilated, and the large yard affords them ample space for exercise. There were fifteen inmates in the ward at the close of the year.

The usual returns of the hospital overseers are transmitted herewith.

DANIEL PHELAN,

Surgeon.

H. W. WILSON,
Hospital overseer.

ST. VINCENT DE PAUL.

ST. VINCENT DE PAUL, April 1, 1912.

To the Warden,—

SIR,—I have the honour to submit to you the report of the medical department for the fiscal year 1911-12.

Nothing extraordinary has occurred during the course of the year, and although there were more patients treated at the hospital than in the past, the great majority of those patients made but a very short sojourn, a few days only.

There were no serious accidents among convicts.

Only two prisoners died during the year:

Daniel Glass, suicide.

Philipp Furlong, rupture of the stomach.

I gave 12,115 consultations at the dispensary, and 103 patients were admitted to the hospital from the 1st day of April, 1911, to the 31st day of March, 1912.

Yours sincerely,

DR. AD. ALLAIRE,

Surgeon.

D. O'SHEA,

Hospital overseer.

DORCHESTER.

DORCHESTER, N.B., April 26, 1912.

To the Warden,—

I have the honour to submit my annual report for the year ended March 31, 1912.

During the past year the health of the convicts has been fairly good. No epidemics. There were three deaths. One being caused by apoplexy, one from broncho-pneumonia, and one from diarrhoea,—the patient being a feeble old man. Two insane cases were transferred to Kingston. One on April 10, and one on October 10. I consider the sanitary conditions of the prison good, and the food served to the prisoners is of good quality, abundant, and nourishing. The convicts seem satisfied in this respect.

I very much appreciate the courtesy of the staff shown me during the year.

Respectfully submitted,

D. D. McDONALD, M.D.

Surgeon.

D. D. McDONALD, M.D.
Surgeon.

MANITOBA.

To the Warden,—

STONY MOUNTAIN, MAN. April 6, 1912.

I have the honour to submit report of the medical department of Manitoba penitentiary, for the year ended March 31, 1912.

The statistics for the greater part of the year are taken from the records of my predecessor, Dr. R. W. Neill, whom I succeeded on November 28, 1911.

Since taking charge I find the health of the prisoners fairly good. Although a considerable number have presented themselves for treatment most of their complaints were for minor ailments, only a few being of a grave character. During the year there was one death, due to tuberculosis; and one convict committed suicide by hanging himself in his cell. Four insane patients were transferred to Selkirk asylum. Only one accident of a serious nature occurred; a convict by falling from a ladder, sustained a fracture of the leg.

With regard to ventilation, heating, food and sanitation in general the conditions are satisfactory.

The health of the officers has been fair with the exception of one who died from nephritis, and one who, on account of tuberculosis, was obliged to leave the service. Amongst the officers 250¼ days were lost on account of illness.

Statement of cases treated at dispensary and in hospital are appended.

Respectfully submitted,

J. A. McGUIRE, M.D. *Surgeon.*

SESSIONAL PAPER No. 34

ALBERTA.

EDMONTON, ALBERTA, April 1, 1912.

To the Warden,—

I have the honour to submit my annual report for the year ended March 31, 1912.

The health of the convicts on the whole, has been good, and although I regret to report five deaths, three were caused by tuberculosis, one by typhoid fever and one by rheumatic endocarditis. when patients become very sick the shadow of the barriers and their environments have a very depressing effect which is not conducive to recovery. We had one operation for appendicitis with recovery, on a female convict.

The sanitary conditions are good considering that we are still occupying temporary cells for the large majority of the convicts.

Contagion in the shape of measles got in the institution, but we only had six cases in all.

The health of the officers was good, and very few days were lost on account of sickness.

Respectfully submitted,

ALEX. FORIN,

Surgeon.

SESSIONAL PAPER No. 34

SASKATCHEWAN.

PRINCE ALBERT, SASK., April 1st, 1912.

To the Warden,

SIR,—Herewith I beg leave to submit the first annual report of the medical department, for the fiscal year ended March 31, 1912.

Fortunately there has been no contagion in the prison, due in a large degree to the care expended in keeping the hygiene and sanitation as perfect as possible. This requires the more attention here on account of the temporary cell blocks with the bucket system in vogue.

There has been, however, considerable sickness both amongst the officers and convicts especially during the winter, but comparatively little of a serious nature.

All the convicts have been duly vaccinated except the very latest arrivals.

There has been the usual difficulties attendant on the opening of a new institution in connection with the water and sewerage systems and in this and other connections I would recommend:—

First,—That a large concrete sanitary well be constructed as an accessory water supply.

Second,—That the septic tanks and filtration system be overhauled as early as possible in spring.

Third,—That a bake oven of sufficient size be constructed as soon as possible.

Fourth,—That a building be provided that would be suitable for an isolation hospital in case of emergency.

Fifth,—That the medical department be more thoroughly equipped and at as early a date as possible. Further I would suggest that one or more isolation cells be provided, so that cases of hysteria and malingerers could not annoy their fellow-convicts at night.

The usual statistical tables are appended.

FRANK W. FOURNEY, B.A., M.D.,

Surgeon.

APPENDIX D

CHAPLAINS' REPORTS

KINGSTON.

KINGSTON, April 1, 1912.

To the Warden,—

SIR,—I hereby beg to present my report for the year ended March 31, 1912.

On that date there were on my register the names of 298 prisoners: 294 males and 4 females, 22 less than a year ago. They are classified according to their religious beliefs as follows:

Church of England.....	91
Methodists.....	93
Presbyterians.....	64
Baptists.....	20
Lutherans.....	10
Congregationalist.....	1
S. Army.....	2
Jews.....	6
Mennonite.....	1
Greek Catholic.....	3
Catholic Apostolic.....	1
Quaker.....	1
Universalist.....	1
No creed.....	2
Unknown, insane.....	2

 298

During the past year the services on Sundays and holy days, as well as the week day classes, have been regularly held; and all the other manifold duties, such as visiting the sick, and having private interviews with prisoners, have been, I hope, faithfully performed.

Also during the year as in other years, several ministers and laymen have on my invitation delivered sermons and addresses at our afternoon services. Two of our visitors being the member of parliament for Kingston, Mr. W. F. Nickle, whose interesting address on Canada, its past history, its present and future prospects was well received; and Mr. F. Hoag, the mayor of Kingston, who spoke encouragingly on the progress of the country, and argued that there was a good living within the reach of every man who strove to do the right.

Our choir has also been helped on several occasions at our sacred concerts by musicians from Kingston, both singers and players, who have become like old friends in this respect, as they have been present at our services a good many times. I believe these changes do a great deal of good, and are much enjoyed by the prisoners.

The sending of youths to the penitentiary is no doubt a very serious matter and the public regards it as such. The public, however, I imagine, holds some very erroneous views on the question, and it may be asked what is to be done? I feel that the subject should be placed fully and properly before the public and should be written up for that purpose.

3 GEORGE V., A. 1913

In connection with the matter of youthful depravity, the premier, it may be remembered, dropped some remarks which certainly deserve the serious study of the people of this country. He said 'that parents did not seem to have as much influence over their children as they used to have.' These words should be taken to heart, for they set forth, in a great measure, the reason why so many youths go astray. For character for good or for evil is formed in the home. The responsibility lies mostly with the parents.

Respectfully submitted,

A. W. COOKE,

Protestant Chaplain.

KINGSTON, June 20, 1912.

To the Warden,—

SIR,—The past years like its predecessors has been characterized by satisfactory results through the exemplary behaviour of the catholic convicts, during their attendance in the chapel, at the morning and afternoon services on the Sundays and Holy Days of the year.

I feel it is no exaggeration to say that the majority of them have laboured to adorn their souls with Christian virtues, which are the natural fruitage of a Christian life, the only offering truly worthy of our great God.

Many times during the past twelve months communications have come o hand from men who have been released either on 'parole' or by expiration of sentence, which have strengthened me in the belief that my feeble efforts had not fallen on barren soil.

In 1911, we had four deaths, registered 83 new-comers, struck off the names of 66 who had been released, leaving a total of 191 men and 4 females with which we begin the new fiscal year.

My thanks are due to all the officers of the institution for courtesies shown and for ever ready co-operation with me in the discharge of my duties.

Respectfully submitted,

M. McDONALD,

Roman Catholic Chaplain.

SESSIONAL PAPER No. 34

ST. VINCENT DE PAUL.

Owing to the death of the Reve'd L. O. Harel, on the 13th day of April, 1912, there is no report from the Roman Catholic chaplain.

ST. VINCENT DE PAUL, April 4, 1912.

To the Warden,—

SIR,—I have the honour of presenting my report for the year ended March 31, 1912; being my seventeenth annual report as chaplain of this penitentiary.

3 GEORGE V., A. 1913

With the exception of a case of suicide by a young man, while mentally deranged, the year has not been marked by anything of unusual occurrence. The conduct of the men in chapel has, as usual, been good. The library continues to fill an important place in the lives of the prisoners.

Thanking you, sir, and the staff generally, for the courtesy and support extended to me in the exercise of my duties.

I am,

Yours faithfully,

JOHN ROLLIT,

Protestant Chaplain.

SESSIONAL PAPER No. 34

DORCHESTER.

DORCHESTER, N.B., April 1st, 1912.

To the Warden,—

SIR,—Herewith is submitted to you my sixth annual report, showing the record as taken from my register, which is carefully kept, with every possible regard for exactness. The report covers the fiscal year, ended March 31st, 1912.

I think I can say without doing violence to that significant word 'modesty,' that I have discharged the ever recurring duties of the year, with diligence, and with the consecrated desire to declare the 'whole counsel of God.'

It is a matter of very special satisfaction to me, to note an unmistakable increase of interest in religious matters, among the men and women, under my spiritual care and attention. I have this conviction from the fact that I have an increased number of men who are ready to converse with me on the vital points of practical religion, and also the increased average in the attendance at the Wednesday Bible class, which is an optional service.

There were on my register, at midnight, March 31, 118 prisoners. Four females are included in the above number.

The total number in custody on the corresponding date of one year ago, was 137.

The following is the list in tabulated form:

In custody, April 1, 1911.....	137
Admitted during year.....	47
	<hr/>
Total.....	184
Less discharged during year.....	64
Less died during year.....	2
	<hr/>
In custody, March 31, 1912.....	118

Registration by creeds:

Church of England.....	45
Baptist.....	32
Methodist.....	19
Presbyterian.....	17
Lutheran.....	2
Salvation Army.....	1
Unitarian.....	1
Stundist.....	1
	<hr/>
Total.....	118

It is my privilege to record two observations of the ordinance of the Lord's supper during the year.

3 GEORGE V., A. 1913

It will be noted that death laid claim to two of our number during the period included in this report. One who died in August last. The body was forwarded to relatives. Also one who died in March, in this instance the body was interred in the prison cemetery, brief but impressive services were conducted.

I am again prompted to make mention of the very excellent conduct of the prisoners in all chapel exercises conducted by me.

The new warden has brought large administrative powers into the office, and is giving me a large measure of hearty co-operation for which I record my sincere appreciation.

Unfailing courtesies have been shown me, by the matrons, and chief keeper, my appreciation is here recorded.

Believing that the gospel of Jesus Christ is the one and only sovereign remedy for the ultimate restoration of the criminal classes, I face the incoming year with the well defined purpose of sounding out the imperishable truths of that gospel.

Respectfully submitted,

BYRON H. THOMAS,

Protestant Chaplain.

DORCHESTER, N.B., April 1st, 1912.

To the Warden,—

I have the honour to submit my annual report.

At the end of the fiscal year, on March 31, I had 102 male convicts under my spiritual charge.

No females. Last year I had 117 male and 1 female, total 118 convicts.

It was my sad duty to register one death in the course of this fiscal year.

Divine service has been regularly held in the prison chapel, and as a rule attended by the convicts with proper attention and devotion. The holy sacraments have been frequented quite often by a certain number of them. Christmas and Easter devotions were performed by such large number and in a measure that was noteworthy.

I generally have a number of men under a course of instruction in preparation to their first communion.

I have the consolation to think that the Master has blessed to a vast extent my humble efforts to bring those poor souls nearer to Him, by the fact that we have clear evidence of what appears to be earnest efforts to reform their lives on the part of some of them at least.

In conclusion, I must again express my sense of gratification to you and the officers with whom I came in contact in the discharge of the duties of my office, for your civility and gentlemanly demeanour towards me.

Respectfully submitted,

A. D. CORMIER, Priest,

Roman Catholic Chaplain.

SESSIONAL PAPER No. 34

MANITOBA.

STONY MOUNTAIN, April 3, 1912.

To the Warden,—

I herewith submit my fifth annual report.

The monotony of the past year has been greatly relieved by the visit of our late governor general, Earl Grey. This visit will long be remembered for the encouraging words and kindly manner of His Excellency.

Our services have been conducted regularly throughout the year. A splendid interest being maintained and excellent order at all times.

I have been encouraged by the number who have shown evidence of reformation. Some have gone out and are making good. The letters I receive from some of these are most hopeful.

I greatly appreciate the help given by the Salvation Army. Their meetings have all been helpful and interesting. Their prison-gate officer has also proved helpful in securing employment for those needing it, and helping them to start life afresh in honest toil.

I am still hoping that conditions will soon be brought about so that proper classification will be made and the indeterminate sentence put into use, that those suffering from mental and moral disease, which manifest themselves in crime, may be so treated that these people shall not be lost to the nation, but restored to useful citizenship.

The movement of prisoners for the year has been as follows:

Number on register, April 1, 1911.....	101	
Received during year.....	58	
		159

Discharged:—

By expiration of sentence.....	18	
“ parole.....	28	
“ transfer to other penitentiaries.....	2	
“ transfer to Selkirk asylum.....	3	
“ deportation.....	3	
“ death.....	1	
Committed suicide.....	1	56
Remaining on register, March 31, 1912.....		103

Respectfully submitted,

S. W. L. STEWART,

Protestant Chaplain.

3 GEORGE V., A. 1913

STONY MOUNTAIN, MAN., April 8, 1912.

To the Warden,—

SIR,—I have the honour to report that I have at the present time 75 convicts confied to my care.

May I be permitted to draw your attention to the very large proportion which constitute convicts of foreign nationalities. Forty-three out of these seventy-five, belong to what is commonly called in this country, foreign element. This is an abnormal proportion, which should cause the federal authorities to be more exacting in the choice of their immigrants. This would be to the benefit of all, for if we suffer from the coming in of a certain number of undesirable immigrants, the countries that send them to us, do not benefit by it, and are misjudged by the inhabitants of this country, who, wrongly it is true, nevertheless base their opinion of the people of these countries upon what they see of those who come here.

For purposes of statistics, I may say that I have under my charge, Englishmen, French Canadians, Scotchmen, Irishmen, Americans, Frenchmen, Belgians, Austrians, Germans, Poles, Italians and Greeks.

Respectfully submitted,

ARTHUR BELIVEAU,

Roman Catholic Chaplain.

SESSIONAL PAPER No. 34

BRITISH COLUMBIA.

NEW WESTMINSTER, April 1, 1912.

It is a matter of regret that the foregoing figures show an increase of fifty-five in the number of prisoners under my charge.

The temporary chapel to which I referred in my last report was completed during the year, and it is now possible for all the men to attend the service.

At the present rate of increase in prison population, the increased seating accommodation will be absorbed during the next twelve months. I merely

3 GEORGE V., A. 1913

point this out so that the present chapel may not be regarded in any other light than that of a temporary makeshift.

My work as chaplain varies but little from year to year; preaching the word, visiting the sick, exhorting and counselling the well, all the time giving out sympathy and kindness, and in a firm but gentle manner striving to be of some real assistance to the men.

In the light and shadow, the encouragement and disappointment that are ever blending in this work, which is pre-eminently one of faith, one cannot help speculating 'What shall the harvest be.'

I have to report one death during the fiscal year.

I am convinced that the great majority of the men value the privilege of attending chapel. In no other way can I account for the conduct of the men in chapel which will compare favourably with that of any congregation in the country.

It is impossible to speak in other than the highest terms of the services rendered by the choir.

The sacrament of the Lord's supper was dispensed once during the year. The attendance was encouraging, and the demeanour of the men suggested appreciation of the solemnity of the occasion.

The question of segregation and classification appears to have been lost sight of for the present. I trust it is only for the present.

No one can engage in this work without feeling that there must be some better way than the present of dealing with our young delinquents and first offenders.

I take this opportunity to tender my sincere thanks to the staff of the penitentiary for their kindness and courtesy.

Yours respectfully,

ALBERT EDWARD VERT,

Protestant Chaplain.

WESTMINSTER, B.C., April 22, 1912.

To the Warden,—

DEAR SIR:—I herewith submit the report for the year ended March 31, 1912. At the beginning of the year there were 97 catholics enrolled, at the end of the year 113. During the year 19 were paroled, 4 deported, 3 were sent to the insane asylum, one escaped. Amongst the new-comers received since I am in charge, I have remarked that the greater number of them had a very poor knowledge of their religion, others were catholic in name only, but I may say that a good number of them show good will for the better.

Yours respectfully,

ED. MAILLARD,

Roman Catholic Chaplain.

SESSIONAL PAPER No. 34

ALBERTA.

EDMONTON, ALTA., April 18, 1912.

To the Warden,—

I have the honour to present to you my annual report for the year ended March 31, 1912. At the close of the year ending March 31, 1911, there were one hundred and twenty-five male and three female prisoners under my care. During the past year there were admitted sixty-two male and seven female prisoners and during the same period there were discharged sixty-seven males and three females. Two males and one female died during the same period and eighteen males were transferred to the Saskatchewan penitentiary. This leaves a total at the end of March this year of one hundred males and six females.

Religious services in which I have been assisted by the Church of England clergyman and the commanding officer of the Salvation Army in Edmonton, have been held regularly every Sunday and pastoral visits have been made during the week as required. The Women's Christian Temperance Union still continue their good work among the female prisoners on Sunday afternoons with gratifying results.

Two hundred and fifty volumes have been added to the library and apparently the prisoners do a great deal of reading. We are hoping to be in the new chapel before very long with all its increased accommodation and convenience. Mention should be made of the valuable services of the organist and leader of the choir.

In conclusion allow me to thank you and all the officials for your uniform kindness, courtesy and assistance in all my work as chaplain.

D. G. McQUEEN,

Protestant Chaplain.

To the Warden,—

DEAR SIR,—I beg herewith to submit to you my report for the year ended March 31, 1912. At the end of March 1911, there were 71 male convicts under my care. During the year there were admitted 26 male and 2 female convicts. Since March 31, 1911, 36 male convicts have been discharged and 2 died.

The divine services have been held every Sunday and on the feasts of obligation from 8 a.m. to 9.

A choir practice takes place every Thursday afternoon followed by a special instruction on religion given to those most in need. All the convicts have been provided with books of catechism as well as prayer books in their own language; English, French, Polish, Italian and Spanish. The Ruthenian convicts have been attended to several times by a priest of their rite. In conclusion, I wish to thank you, as well as the deputy warden and all the officers, for your kindness and courtesy.

Yours truly,

A. DARIDON, O.M.I.,

Roman Catholic Chaplain.

3 GEORGE V., A. 1913

SASKATCHEWAN.

PRINCE ALBERT, SASK., April 2, 1912.

To the Warden,—

SIR,—I beg herewith to present to you my report for the year ended March 31, 1912:—

	Male.	Female.	Total.
Convicts received from opening of prison on 15th May, 1911 to March 31, 1912.....	42	1

Divine service has been held regularly every Sunday. The behaviour of the convicts in the chapel has been good. There have been three celebrations of the holy communion since the opening of the penitentiary.

I desire to thank the warden and all the other officers of the penitentiary for their kindness and courtesy.

Respectfully submitted,

JAMES TAYLOR,

Protestant Chaplain

SESSIONAL PAPER No. 34

PRINCE ALBERT, SASK., April 2nd, 1912.

To the Warden,—

SIR,—I beg to herewith submit the annual report of my labour as Roman Catholic chaplain of this penitentiary for the year ended the 31st March, 1912:—

	Male.	Female.	Total.
Convicts received from opening of prison, 15th May, 1911 to 31st March, 1912.....	22	1	23
Total ministered to during year.....			23
Discharged by:—			
Expiration of sentence.....	1	0	1
Transfers.....	0	1	1
			2
Total under my charge 31st March, 1912.....			21

According to the duties of my office I have conducted catholic service every Sunday, besides on the holydays falling within the year and have been edified by the attention and devotion exhibited by the prisoners under my charge. I have observed the beneficent effect of religious influence upon the generality and trust that when the more backward of them become better acquainted with the practices and usages of our holy religion they will be induced to lead a better life and become useful citizens of the commonwealth. I can with truth say that but five have a conversant knowledge of their religion. The others, however, have shown such a marked willingness to learn that I have been much encouraged in my work.

I would like to add that I have received nothing but kindness and courteous treatment at your hands as well as at that of the deputy warden and in fact from all members of the staff for which I here express my most sincere thanks.

Respectfully submitted,

REV. E. PASCAL, O.M.I.,

Roman Catholic Chaplain.

APPENDIX E

SCHOOL INSTRUCTORS' REPORTS

KINGSTON.

To the Warden,—

I have the honour to submit the report of the school in this penitentiary, for the year ending March 31, 1912.

The total number enrolled during the year was 75; of this number 30 passed out capable of reading, writing, and arithmetic; 5 retired at expiration of sentence, present attendance, 40.

The studies of these are as follows:—

Reading in Part I.....	15
Reading in Part II.....	13
Reading in second book and writing.....	7
Reading in third book, writing and arithmetic.....	5

H. W. WILSON,

School Instructor.

LIBRARY RETURNS.

Protestant library.....	311		7		
Roman Catholic library.....	300		7		
Total.....	5,310	275	105	480	51,871

The number added includes magazines bound during the year.

3 GEORGE V., A. 1913

ST. VINCENT DE PAUL.

ST VINCENT DE PAUL, April 1, 1912.

G. S. MALEPART, ESQ.,
Warden.

SIR,—I have the honour to submit you my annual report for the year ended March 31, 1912.

During the year thirty-three pupils were admitted to school, and nine were attending school at the closing of the year. They were given lessons in reading, writing, spelling and arithmetic.

Eighty-nine convicts were supplied with books, slates, &c., to study in their cells.

In conclusion I beg to express thanks to my superiors for their assistance in the discharge of my duties.

Yours respectfully,

D. O'SHEA.

English School Instructor.

To the Warden,—

SIR,—I have the honour to submit you my annual report for the fiscal year ended March 31, 1912.

During the year twenty-two convicts were admitted to follow the French course. At the end of the year the attendance was nine, and they were taught spelling, reading, writing and arithmetic.

The conduct of the convicts has always been exemplary, their attendance very regular, attentive to lessons and have made sensible progress.

Mr. O'Shea and I have supplied eighty-nine convicts with books, copy-books, slates, slate pencils, &c., to study in their cells.

I beg to express my sincerest thanks to my superiors and other officers for the assistance given me in the discharge of my duty.

Yours sincerely,

G. J. RENEULT,

French School Instructor.

SESSIONAL PAPER No. 34

DORCHESTER.

DORCHESTER, N.B., April 20, 1912.

To the Warden,—

I have the honour to submit my annual report for the year ended March 31, 1912.

At the beginning of the year the school was attended by fifty-two pupils.

The present attendance is forty-seven, divided as follows:

Reading, writing and arithmetic.....	25
Reading and writing.....	6
Reading only.....	16

Four were reading in the sixth English reader; two in the fifth, one in the fourth, twelve in the third, twelve in the second and sixteen in the first.

I am pleased to state that good progress has been made by the pupils, and their conduct has been satisfactory.

In conclusion I beg to express my sincere thanks to yourself and other officers for the assistance given me in the discharge of my duties.

G. B. PAPINEAU,

School Instructor.

LIBRARY RETURNS.

	Total number of volumes in library.	Number added during year.	Average number of convicts who used books.	Total number of issues during the year.

Librarian.

3 GEORGE V., A. 1913

MANITOBA.

STONY MOUNTAIN, MAN., April 1, 1912.

To the Warden,—

SIR,—I have the honour to submit my annual report for the fiscal year ended March 31, 1912. Of the 27 pupils on the register during the year 11 were Austrians, 4 Russians, 2 Italians, 3 Finlanders, 4 Canadians, 1 Belgian, 1 Hungarian and 1 German.

The attendance at the close of the year was 11, classified as follows:

First Reader, Part I.....	3
First Reader, Part II.....	3
Third Reader.....	5

All are given lessons in arithmetic and geography. One hundred and sixty-one convicts are at present supplied with school books and slates for the purpose of studying in their cells. The conduct and industry during school hours has been most satisfactory and I am pleased to say that they all show a great desire to learn. My monitors also deserve thanks, for their help.

In conclusion I beg to express my sincerest thanks to yourself and others, for the assistance given me, in the discharge of my duties.

Respectfully submitted,

J. H. DAIGNAULT,

School Instructor.

SESSIONAL PAPER No. 34

BRITISH COLUMBIA.

NEW WESTMINSTER, B.C., April 1, 1912.

To the Warden,—

I have the honour to submit my annual report for the fiscal year ended March 31, 1912.

At the beginning of the year the school was attended by forty-one pupils. The average attendance has been forty-six. Total number enrolled during the period twenty-seven. Twenty-four passed out, leaving a present attendance of forty-nine.

Classified as follows:

Arithmetic, spelling and writing.....	10
Reading, spelling and writing.....	20
Reading and spelling.....	16
Reading (only).....	3
Total.....	49

Four are reading in the fourth reader, sixteen in the third reader, fourteen in the second reader and fifteen in the primers. One hundred and sixty-four are supplied with slates and books for the purpose of studying in their cells.

I am pleased to state that most of the pupils who attended school during the year have made good progress. All take every opportunity to improve themselves by careful attention while at school, as well as by studying in their cells.

In concluding, I must thank the warden and other officers for the kindness shown me in the discharge of my duty.

Respectfully submitted,

R. J. ROBERTSON,

School Instructor.

JOS. LATOUR,

Farm Instructor.

SESSIONAL PAPER No. 34

DORCHESTER.

DORCHESTER, N. B., April 29, 1912.

To the Warden:

SIR,—I have the honour to submit herewith my annual report for the year ended March 31, 1912. The spring of 1911 opened early and seeding commenced on the marsh on May 1, and continued without interruption from bad weather until finished. The summer was dry throughout. Crops, with the exception of roots, were not up to the average. Late summer rains helped the root crops, and potatoes and turnips yielded well. The season was favourable for outside work and a large amount was done towards farm improvement. The cattle pasture was cleared of brush and rubbish, and 640 rods of wire fence was erected enclosing nearly the whole of the pasture, replacing an old wooden fence that was completely rotten. The work of breaking in rough land commenced the previous year was continued and nearly the whole of it underdrained. In this field over one half mile of stone drains were put in and the field will be used for oats this summer. We also started to tile drain another field but were stopped by frost. We hope to get it finished this spring in time for a root crop. Nearly all farm work during the winter was done by ox teams. The horse teams were employed hauling stone and gravel, and general freight from the railway siding. Cattle and horses are in good condition.

ANDREW McPHERSON,
Farm Instructor.

SESSIONAL PAPER No. 34

BRITISH COLUMBIA.

NEW WESTMINSTER, April 1, 1912.

To the Warden:

SIR,—I have the honour to submit my annual report for the year ended March 31, 1912.

The crops this year were fully up to the average, the potato crop was especially good, giving us abundance for our own use.

The new ground, which I reported upon as being cleared in my last report, came fully up to my expectations in production.

I am pleased to say that the re-stocking of the piggery has given us enough pork for the use of the prison.

Owing to the large increase in our prison population, and with every indication of a further increase, it is desirable that more land should be placed under cultivation so as to supply all the farm products required for the prison in the event of a partial failure of any crop. We should otherwise be compelled to purchase our farm products in the open market, to meet that failure.

R. DYNES,

Farm Instructor.

SESSIONAL PAPER No. 34

SASKATCHEWAN.

PRINCE ALBERT, Sask., April 1, 1912.

To the Warden:

SIR,—I have the honour to submit the farm statement of this penitentiary, for the year ended March 31, 1912.

Owing to the prison only being opened and the first convicts received on May 16, we were behind hand in getting our crops in and in consequence we did not realize a first class crop. This applies to our farm and to the vegetable garden.

We broke up and cropped 50 acres in oats and harvested the same, threshing out 1,500 bushels. We brushed off 30 acres and got them ready for next season's crop, making a total of 80 acres to be cropped next season. We brushed off an additional 25 acres but these will not be available for the next season as we have to break them and remove the roots.

We made a start with a piggery, purchasing eleven small pigs. Out of these we have butchered four and turned them over to the steward's department. We are keeping four for breeding purposes and the other three are in good condition for butchering when required.

We graded a 66 ft. road through three river lots and built a fence along it.

One hundred and twenty three loads of wild hay were cut and stacked.

We cut and hauled out 100 cords of four foot wood ready for the brickyard. We also have about 75 cords in long lengths in the bush.

We graded about 700 yards for track from the brickyard to the clay pits and towards the siding on the hill. We kept the east and west boundary fences in repair. These fences are very old and it is almost impossible to further repair them. I would ask that they be replaced by either a barbed wire or a Page fence.

Respectfully submitted,

F. W. DICKENSON,

Deputy Warden.

REPORT
OF
THE MILITIA COUNCIL
FOR THE
DOMINION OF CANADA

FOR THE
FISCAL YEAR ENDING MARCH 31
1912

PRINTED BY ORDER OF PARLIAMENT

OTTAWA
PRINTED BY C. H. PARMELEE, PRINTER TO THE KING'S MOST
EXCELLENT MAJESTY

1912

[No. 35—1913.]

*To His Royal Highness, Field Marshal, Prince Arthur William Patrick Albert,
Duke of Connaught and Strathearn, K.G., K.T., K.P., &c., &c., &c., Governor-
General and Commander-in-Chief of the Dominion of Canada.*

SIR,

I have the honour to lay before Your Royal Highness the annual report of the Militia Council for the fiscal year ending March 31, 1912.

I have the honour to be,

Sir,

Your Royal Highness's most obedient Servant,

SAM HUGHES,

Minister of Militia and Defence.

November 21, 1912.

War Games	39
-----------	----

ANNUAL REPORT OF THE MILITIA COUNCIL

Year Ending March 31, 1912.

1. The Militia Council present, herewith, their report on the work of the Militia during the twelve months ended March 31, 1912.

2. The report on the training during the period under review, which was published a few months ago as an Interim Report, is appended hereto for purposes of reference. (Appendix E.)

MILITARY POLICY.

3. The one object to be sought is preparedness for war,—the possession of the power to mobilize at short notice a force of adequate strength, well trained and fully equipped, with added means for maintaining it in the field, during the continuance of hostilities, undiminished in numbers and efficiency.

4. Peace expenditure imposes limitations, and, in Canada, there are special difficulties to be overcome. Effort, however, is being concentrated on essentials, and in certain directions progress has been made; but much remains to be done before from a military point of view, the situation can be regarded as entirely satisfactory.

DEFENCE.

5. In the scheme of defence a few re-adjustments have been made, but no important changes have been introduced.

6. In general terms, the first line of defence consists of the troops which have been allotted to mobile field formations (divisions and brigades).

7. Of the second line the first portion includes troops, fighting and administrative, required for duty on lines of communication, troops told off to garrison coast defences and to protect certain vulnerable points of strategical importance, and a few units which are held in reserve available for general purposes.

8. The first portion of the second line would be required to mobilize at the same time as the first line; but the second portion, consisting of reinforcements, would not be taken in hand until a later period.

MOBILIZATION.

9. As regards mobilization, the general scheme is assuming definite shape. It depends for its success on decentralization, on the delegation of authority and responsibility. Divisional and district commanders will be given as free a hand as possible, and they will not be required to adopt a uniform system. Their work will be supervised and their endeavours co-ordinated; but it is recognized that their arrangements must accord, and vary, with local conditions.

10. The actual preparations which it is possible to make in time of peace are, of course, controlled and restricted by political and financial considerations, and they relate, mainly, to the completion of the ranks to war establishment, the provision of horses and transport, and the supply of war outfit.

11. The peace strength of the Militia is, as compared with its war establishment, relatively low; and there is no organized reserve whence to draw the difference. In circumstances rendering necessary a general mobilization it is safe to assume that the ranks will at once be filled by volunteers; but among their number will be men who have never trained.

12. There is in force no system of "horse registration", in the usual acceptance of the term; but divisional and district commanders have received instructions which will facilitate arrangements for the provision of remounts and transport. The instructions under reference rely on powers conferred by the Militia Act, and they pre-suppose close co-operation between the civil and military authorities.

13. As regards war outfit, there are stores which, after more or less delay, can be obtained on emergency by local purchase. But there are others of a kind which cannot be improvised; at short notice they can neither be obtained by contract nor bought in sufficiently large quantities in the open market. Therefore, they should be kept in store in time of peace. If they are not, mobilization will be arrested, or the troops will be compelled to take the field improperly equipped. Lack of funds has, so far, impeded even the gradual accumulation of reserves, and it would be wrong to attempt to conceal the fact that there are serious deficiencies. It is, however, satisfactory to note that as regards the supply of arms and ammunition good progress has been made.

INTERDEPARTMENTAL COMMITTEE.

14. By maintaining close co-operation between the Militia and the Naval Service the Interdepartmental Committee continues to display its usefulness.

15. Regarding the regulation of traffic at defended ports the respective responsibilities of the two services have now been definitely settled, and other questions of joint interest have from time to time come under discussion.

16. The Committee has been re-constituted; it now consists of—

The Director of the Naval Service,

The Chief of the General Staff, and

The General Staff Officer for Mobilization.

INTELLIGENCE AND CORPS OF GUIDES.

17. The work of the Intelligence Division is progressive.

18. The recent attachment of Intelligence Officers to the General Staff at the headquarters of divisions and districts appears to be giving satisfactory results.

19. Instructional tours for officers of the Corps of Guides were held at Petawawa, Levis and Aldershot, and at one or other of them an opportunity was afforded for the attendance of every officer of the Corps in Eastern Canada.

20. Whilst the numbers present at training were fewer than in preceding years, the quality of the work done and the interest displayed by those who took part in it showed marked improvement.

21. Results were sufficiently encouraging to warrant the organization of a mounted company in the 2nd Divisional Area, and of mounted sections in the 1st and 5th.

SESSIONAL PAPER No. 35

SURVEYS.

22. The field work of the Survey Division consisted of topography, and the running of transit traverses and level lines for the control of the topography. The office work consisted of the reduction and plotting of field notes, the compilation and preparation of sheets of the regular one-inch series, and the preparation and lithographing of various maps for field days, manœuvres and training purposes.

23. The general field work continued from May 3rd to November 29th, 1911. Two transit parties were employed during the season, the total period being equivalent to one party for $39\frac{1}{2}$ weeks. These parties ran 1,588 miles of traverse, cheaply and expeditiously. In addition to the above, 555 miles of railway were traversed by a party of two employed for 11 weeks, and 230 miles of bicycle and perambulator traverse were run by a party of three employed for 12 weeks.

24. Four level parties of two each were employed during the season, equivalent to one party for 82 weeks. They ran 2,400 miles of levels, mostly in very rough country.

25. The topography, which was partly in the vicinity of Kingston and partly in the Eastern Townships, covered an area of 1,331 square miles. The topography of two sheets was completed, and progress was made in that of nine others. The work was carried out by two permanent employees, four non-commissioned officers and men of the Royal Engineers and one temporary employee. This branch of the work was in charge of an officer, whose headquarters were part of the time, at Sherbrooke, P.Q., and afterwards at Kingston, Ontario. The field sheets, as completed, were examined on the ground by this officer or one of the permanent employees; the accuracy of the topography has been thereby increased.

26. A separate party, under an officer, completed the survey of the Petawawa training area. They were in the field for $39\frac{1}{2}$ weeks and did 138 square miles of topography.

27. During the year four topographical sheets of the regular 1" to 1 mile series were prepared for lithographing and three were issued.

28. In all 61 sheets of the 1" to 1 mile series, covering an area of 19,100 square miles, have now been completely surveyed. Of these, 31 have been issued, 24 are in the hands of the lithographers, and 6 are in course of preparation.

TRAINING.

EDUCATION OF OFFICERS.

Instruction in England.

29. Officers of the Permanent Force attended instructional courses in England as under:—

Staff College	2
Ordnance College (Advanced Class)	1
Gunnery Staff Course	3
School of Military Engineering	8
Physical Training Course	1
Ordnance Machinery Course	2

Staff College.

30. Two vacancies at the Staff College, Camberley, are allotted to officers of the Permanent Force, annually. At the present time there are four officers preparing to compete for the qualifying examination for entrance to that institution.

Officers' Long Course.

31. The conditions under which officers of the Active Militia may take the "Long Course" have been changed, with effect from November, 1912.

32. The course formerly consisted of two portions, the first of which was taken at a Royal School of Instruction; the second, lasting three months, at the Royal Military College. The entire course will now be taken, annually, at the Royal Military College; it will last seven months, November to May, and the Syllabus has been amended. The qualifications necessary before attendance have been altered so as to require a candidate to be in possession of a certificate from a Royal School of Instruction, and it is hoped that the new course will provide for officers a useful military education, theoretical and practical.

33. The possession of a "Long Course" certificate has, also, been made obligatory in the case of a candidate for a commission in the Permanent Force (except administrative services and departments).

34. During the year 1911-12 eleven officers were granted certificates, and at the end of the fiscal year there were five attending the course which was then in progress.

Preparatory and Refresher Courses.

35. A "Preparatory Course" is held at the Royal Military College, annually, from January to June, for the benefit of candidates from the Permanent Force preparing themselves for the entrance examination to the Staff College. Four officers were attending the course at the end of the fiscal year.

36. In conjunction with the above, there is a "Refresher Course" of three months (January—March) for the military education of officers of the Permanent Force, or selected officers of the Active Militia. Five officers attended this course during the spring of 1912.

Artillery Staff Course.

37. Three officers successfully completed the course, which commenced in January, 1911.

Staff Tour.

38. A Staff Tour was held at Kentville in the autumn for the Permanent Force officers of the Halifax Garrison, and smaller regimental exercises were held in the other divisional areas. It is hoped that in future it will be possible to hold at least one staff tour in each divisional area each year.

War Games.

39. War games were carried out in the various divisional areas under the direction of the General Staff Officers. These exercises are not of an advanced nature; they are intended to provide elementary instruction in tactics for officers both of the Permanent Force and of the Active Militia.

EXAMINATIONS.

Staff College.

40. One officer underwent (and passed) the qualifying entrance examination to the Staff College.

SESSIONAL PAPER No. 35

Promotion Examinations.

41. The examination of officers of the Permanent Force in subject "c" (practical), previously conducted under arrangements made from Militia Headquarters, was handed over to the officers commanding divisions and districts, and will be held by them from time to time as required.

42. The semi-annual written examinations were held in May and December. Sixty-five candidates, officers of the Permanent Force, presented themselves for examination in one or more subjects or subheads. The papers for these examinations continue to be set by the War Office, and they are looked over and marked in the same way as those of officers of the regular army.

Tactical Fitness.

43. An examination in the practical portion, Part II, was held at Petawawa in August, 1911. Two officers of the Permanent Force were examined and qualified.

Lieutenant-Colonels, Active Militia.

44. The examination of lieutenant-colonels of the Active Militia before promotion to the rank of colonel is similar to that for majors of the Permanent Force, but modified in accordance with the regulations. The papers are looked over in Canada. Two officers underwent this examination, and one succeeded in passing.

Literary Examination.

45. Five candidates presented themselves for the Literary Examination for appointment to the Permanent Force, held in May, 1911, of whom none passed.

Royal Military College.

46. Seventy-six candidates presented themselves for the entrance examination to the Royal Military College, 1911, of whom 51 were successful in passing.

CANADIAN OFFICERS TRAINING CORPS.

47. Regulations suggested for the Canadian Officers Training Corps have been issued to all universities. The general principles of the scheme have been accepted by McGill, but a unit has not yet been organized. It is hoped that during the next college year a contingent of at least one infantry company will be formed at McGill, and that other universities will follow.

INSTRUCTION IN UNIVERSITIES.

48. At McGill University, Montreal, there is a voluntary course of lectures in military subjects. The course is spread over a period of two years.

At the Nova Scotia Technical College, Halifax, the course comprises only thirty lectures, but it is obligatory. Each student attends weekly lectures during one year; in addition, physical and military drill is carried out on two afternoons a week during the same year. The attendance at the College is small, but the Nova Scotia Department of Education is to be congratulated upon the fact that instruction in military subjects is made obligatory.

PERMANENT SCHOOLS.

49. The system of instruction at the Royal Schools of Instruction for cavalry and infantry was re-organized, with effect from 1st January, 1912. By providing for preliminary instruction at local headquarters it has been considered feasible to reduce the minimum length of time required at a permanent school before qualification. Officers and non-commissioned officers of the Active Militia may now qualify for each rank in two weeks, provided they have attained a certain standard of knowledge before going to the school. The syllabus of instruction has been revised accordingly.

PROVISIONAL SCHOOLS.

50. Provisional Schools are specially authorized, when necessary, to suit the convenience of officers and non-commissioned officers who are unable to find time to attend the permanent schools.

INSTRUCTIONAL CADRE.

51. An Instructional Cadre of cavalry and infantry non-commissioned officers has been organized to assume the duties of the instruction of the Active Militia. These non-commissioned officers are selected from units of the Permanent Force after a special course in instructional duties and, on passing a qualifying examination, they are posted to the Cadre.

52. At present the establishment of the Instructional Cadre is 101. This allows of one non-commissioned officer to every two regiments of cavalry or battalions of infantry, but as more instructors become available, and as they may be found useful or necessary, the establishment may be increased to meet requirements.

53. Detailing certain non-commissioned officers to perform the duty of instructing the Active Militia leaves the Permanent Force more free to perform its own necessary training, and prevents the interference of the one duty with the other to the extent which formerly obtained, while the absence of non-commissioned officers on instructional duty does not now deprive the permanent units of the non-commissioned officers required to carry on their own regimental work. The system also ensures better instruction for the Active Militia.

54. Provision has also been made for the non-commissioned officers of the Instructional Cadre to revert to regimental duty, periodically, to prevent them losing touch with practical work.

INSTRUCTION AT LOCAL HEADQUARTERS.

55. The organization of the Instructional Cadre has rendered it possible to instruct squadrons and companies at local headquarters in a way which has never before been feasible. One non-commissioned officer is detailed to one or two regiments for the whole of the non-training period, i.e. from October to May, and is available to conduct classes whenever desired. In this way officers, and more especially non-commissioned officers, should be able to obtain sufficient instruction by means of "preparatory classes", before attending a permanent school, to ensure their qualifying at the school in two weeks time.

56. It is hoped that it will also be possible to collect classes of non-commissioned officers and men for preliminary instruction and squad drill before going into camp.

CERTIFICATES.

57. The following table shows the number of certificates issued from all schools of instruction.

SESSIONAL PAPER No. 35

RETURN OF CERTIFICATES GRANTED BETWEEN APRIL 1st, 1911, AND MARCH 31st, 1912.

MUSKETRY.

58. The musketry training for 1911 has been reported on in the Interim Report and the report of the Inspector General. (See Appendix E.)

59. Special volunteer courses of musketry were organized at Toronto and Hamilton, at which forty-four officers and non-commissioned officers presented themselves for examination. Of these, thirty-seven qualified as Musketry Instructors.

60. Arrangements are being made for a course of the Canadian School of Musketry at Calgary, Alta., during July and August, 1912, for the purpose of accommodating officers and non-commissioned officers from British Columbia, Saskatchewan and Alberta.

SIGNALLING.

61. The training in signalling carried out during 1911 has been reported on in the Interim Report and the report of the Inspector General. (See Appendix E.)

LIBRARIES.

62. During the year reference libraries were established, one in each divisional area and military district. These libraries receive an annual grant from the Department for the purchase of books; they also receive an issue of official publications. They are intended to provide officers, both Permanent Force and Active Militia, with military literature, and to encourage them to study their profession.

63. Smaller libraries of a more technical nature have been established at the Schools of Gunnery for the use of officers and non-commissioned officers, attending these schools; also, small libraries for officers' messes of the various units of the Permanent Force.

ORGANIZATION.

64. During the past year the Militia has expanded and its organization has improved.

65. The re-organization of the Militia on a divisional basis was effected from the 1st April, 1911. The four commands in Eastern Canada were re-constituted so as to form six divisional commands providing six infantry divisions and four cavalry brigades.

66. The headquarters of the several divisions are as follows:—

- 1st Division, London, Ont.
- 2nd Division, Toronto, Ont.
- 3rd Division, Kingston, Ont.
- 4th Division, Montreal, P.Q.
- 5th Division, Quebec, P.Q.
- 6th Division, Halifax, N.S.

67. An officer was appointed to the command of each division, the staff of which consists of

- (a) General Staff.
- (b) Administrative Staff.

68. The fortress of Halifax is commanded by a selected officer who is assisted by a staff, the whole being under the General Officer Commanding 6th Division.

69. The military districts of Western Canada, Nos. 10, 11 and 13 remain for the present, as heretofore.

SESSIONAL PAPER No. 35

70. The establishment of a Permanent Army Service Corps School of Instruction was authorized in April, 1911, the headquarters of the school being at Halifax, N.S., with branch schools at Quebec, Kingston and Toronto. Provision was made for an officer of the Permanent Army Service Corps to be appointed Commandant and for the necessary instructional staff. A Veterinary School of Instruction has, also, been authorized.

71. A Canadian Postal Corps has been authorized, and a Staff Orderly Service has been organized at Militia Headquarters.

72. The following new corps and changes were authorized in the several divisional commands and military districts:—

Infantry Brigades renumbered.

1st Divisional Area:—

24th Regiment Grey's Horse, 4th Squadron authorized.

2nd Divisional Area:—

7th Battery, Canadian Field Artillery, disbanded with a view to re-organization.

Mounted Company, Corps of Guides.

3rd Divisional Area:—

56th Regiment re-organized.

No. 5 Company, Canadian Army Service Corps, re-organized.

The Governor General's Foot Guards placed under the Adjutant General for purposes of command, discipline and administration.

4th Divisional Area:—

17th Duke of York's Royal Canadian Hussars, 3rd Squadron authorized.

4th Eastern Townships Cavalry Brigade authorized.

64th Regiment disbanded with a view to re-organization.

6th Divisional Area:—

Re-allotment of units to 16th, 17th and 18th Infantry Brigades.

7th Regiment Canadian Garrison Artillery organized as a Brigade of Field Artillery.

No. 10 Military District:—

29th Light Horse authorized.

27th Light Horse, 3rd Squadron authorized.

Conversion No. VI Field Ambulance into Cavalry Field Ambulance authorized.

No. XXI Field Ambulance authorized.

No. 11 Military District:—

British Columbia Horse, increase four squadrons to form two 4-squadron regiments.

No. 13 Military District:—

103rd Regiment, increase 6 to 8 companies authorized.

21st Hussars, increase 2 to 4 squadrons authorized.

Independent Squadron, Light Horse, Pine Lake, authorized.

73. In Eastern Canada, six 18-pr. batteries of field artillery, three field companies of engineers and two army service corps companies are about to be added to the establishment of the six divisions, and four cavalry brigades now in process of being organized; but to complete total requirements, there will still be needed (disregarding ammunition columns and supply parks) thirty-six batteries of artillery, three field troops and four field companies of engineers, fourteen army service corps companies and five field ambulances, namely:—

In the 1st Divisional Area:—

- 7 field (18-pr.) batteries
- 1 field company
- 2 army service corps companies
- 1 field ambulance.

In the 2nd Divisional Area:—

- 4 field (18-pr.) batteries
- 2 howitzer batteries
- 2 army service corps companies.

In the 3rd Divisional Area:—

- 2 field (18-pr.) batteries
- 2 howitzer batteries
- 1 field troop
- 3 army service corps companies
- 2 field ambulances.

In the 4th Divisional Area:—

- 4 field (18-pr.) batteries
- 2 howitzer batteries
- 1 field troop
- 1 field company
- 2 army service corps companies.

In the 5th Divisional Area:—

- 1 field (13-pr.) battery
- 7 field (18-pr.) batteries
- 2 howitzer batteries
- 1 field troop
- 2 field companies
- 3 army service corps companies
- 2 field ambulances.

In the 6th Divisional Area:—

- 1 field (18-pr.) battery
- 2 howitzer batteries
- 2 army service corps companies.

PERMANENT STAFF AND FORCE.

74. During the year 40 officers were appointed to the several branches of the Permanent Staff and Force, as follows:—

PERMANENT STAFF.

78. The following are the changes in personnel of the Permanent Staff at Militia Headquarters and in the various Divisional Commands and Districts:—

Headquarters' Staff:—

Colonel W. G. Gwatkin was appointed General Staff Officer for Mobilization.

Colonel Henry Smith was appointed Judge Advocate General from the Branch of the Adjutant General.

Colonel G. C. Jones (Lieut.-Colonel, P.A.M.C.), whose appointment expired, was re-appointed Director General of Medical Services.

Lieut.-Colonel C. E. English, R.C.A., vacated the appointment of Inspector of Garrison Artillery.

Lieut.-Colonel H. E. Burstall, R.C.A., was appointed Inspector of Horse, Field and Heavy Artillery, from Inspector of Horse and Field Artillery.

Lieut.-Colonel W. R. Ward, C.A.P.C., whose appointment expired, was re-appointed Assistant Paymaster General.

Lieut.-Colonel H. C. Thacker, R.C.A., vacated the appointment of Director of Artillery.

Lieut.-Colonel H. C. Thacker, R.C.A., was appointed Inspector of Coast Defence Artillery.

Charles Greville-Harston, Esq., was appointed Chief Inspector of Arms and Ammunition, with the rank of Lieut.-Colonel.

Major W. B. Anderson, R.C.E., was appointed Director of Military Training, *vice* Major (Temporary Lieut.-Colonel) P. E. Thacker, L.S.H. (R.C.).

Captain A. H. Borden, R.C.R., was appointed Deputy Assistant Adjutant General.

Captain A. H. Borden, R.C.R., vacated the appointment of Deputy Assistant Adjutant General.

Captain L. G. VanTuyt, R.C.E., vacated the appointment of Staff Lieutenant.

Lieut. and Brevet Captain C. B. Costin, R.C.R., was appointed Deputy Assistant Adjutant General, *vice* Captain A. H. Borden, R.C.R.

Divisional Staff:—

Lieut.-Colonel J. Galloway was retired retaining rank.

1st Division:—

Colonel W. E. Hodgins was appointed Officer Commanding from District Officer Commanding Military District No. 1.

Lieut.-Colonel C. W. Belton, P.A.M.C., was appointed Administrative Medical Officer, from A.M.O., Military District No. 1.

Major A. H. Macdonell, D.S.O., R.C.R., was appointed Assistant Adjutant General from Chief Staff Officer, Western Ontario Command.

Major L. W. Shannon was appointed Deputy Assistant Adjutant and Quartermaster General from District Staff Adjutant, Military District No. 1.

Captain G. C. W. Gordon-Hall (Yorkshire Light Infantry), Canadian Militia, was appointed General Staff Officer, 2nd Grade.

2nd Division:—

Colonel (Temporary Brigadier General) W. H. Cotton was appointed Officer Commanding from Officer Commanding Western Ontario Command.

SESSIONAL PAPER No. 35

Colonel T. D. R. Hemming was appointed Assistant Adjutant General in charge of Administration, from District Officer Commanding Military District No. 3.

Lieut.-Colonel J. A. Grant, P.A.M.C., was appointed Administrative Medical Officer from Principal Medical Officer, Western Ontario Command.

Lieut.-Colonel J. Galloway vacated the appointment of Deputy Assistant Adjutant General.

Lieut.-Colonel J. T. Fotheringham vacated the appointment of Administrative Medical Officer.

Major L. T. Philips (King's Royal Rifle Corps), Canadian Militia, was appointed General Staff Officer, 2nd Grade.

Major C. C. Bennett was appointed Deputy Assistant Adjutant and Quartermaster General, from District Staff Adjutant, Military District No. 11.

3rd Division:—

Colonel T. Benson was appointed Officer Commanding from Officer Commanding Eastern Ontario Command.

Colonel G. H. Ogilvie was appointed Assistant Adjutant General in charge of Administration, from District Staff Adjutant, Military District No. 12.

Lieut.-Colonel H. R. Duff, P.A.M.C., was appointed Administrative Medical Officer, from Principal Medical Officer, Eastern Ontario Command.

Lieut.-Colonel J. E. Chinic, R.C.R., vacated the appointment of Chief Staff Officer.

Lieut.-Colonel D. D. Young, R.C.R., vacated the appointment of Deputy Assistant Adjutant-General.

Lieut.-Colonel A. T. Shillington, A.M.C., vacated the appointment of Administrative Medical Officer.

Major G. V. Horden (King's Royal Rifle Corps), Canadian Militia, was appointed General Staff Officer, 2nd Grade.

Captain E. E. Clarke was appointed Deputy Assistant Adjutant and Quartermaster General, from District Staff Adjutant, Military District No. 1.

4th Division:—

Colonel A. Roy, M.V.O., A.D.C., was appointed Officer Commanding from Officer Commanding Quebec Command.

Colonel J. C. MacDougall, R.C.R., was appointed Assistant Adjutant General in charge of Administration, from Chief Staff Officer, Maritime Provinces Command.

Lieut.-Colonel J. A. Fages was appointed Deputy Assistant Adjutant and Quartermaster General.

Lieut.-Colonel C. E. English (Royal Artillery), was appointed General Staff Officer, 2nd Grade.

Lieut.-Colonel J. W. Bridges, P.A.M.C., was appointed Administrative Medical Officer, from Principal Medical Officer, Quebec Command.

5th Division:—

Colonel O. C. C. Pelletier was appointed Officer Commanding, from Officer Commanding Military District No. 7.

Lieut.-Colonel K. Cameron, A.M.C., vacated the appointment of Administrative Medical Officer.

3 GEORGE V., A. 1913

Lieut.-Colonel C. F. Winter was appointed Assistant Adjutant General in charge of Administration, from Deputy Assistant Adjutant General, Quebec Command.

Major W. Robertson (Royal Engineers), Canadian Militia, was appointed General Staff Officer, 2nd Grade.

Major J. D. Brousseau, P.A.M.C., was appointed Administrative Medical Officer, from Administrative Medical Officer, Military District No. 7.

Captain E. W. Pope, R.C.R., was appointed Deputy Assistant Adjutant and Quartermaster General, from District Staff Adjutant, Military District No. 7.

6th Division:—

Colonel (Temporary Brigadier General) C. W. Drury, C.B., A.D.C., was appointed Officer Commanding, from Officer Commanding Maritime Provinces Command.

Colonel W. M. Humphrey was appointed Assistant Adjutant General in charge of Administration, from District Officer Commanding Military District No. 8.

Lieut.-Colonel G. LaF. Foster, P.A.M.C., was appointed Administrative Medical Officer, from Principal Medical Officer, Maritime Provinces Command.

Captain A. H. H. Powell, R.C.D., was appointed Deputy Assistant Adjutant and Quartermaster General, from Deputy Assistant Adjutant General, Maritime Provinces Command.

Captain R. J. F. Hayter (Cheshire Regiment), Canadian Militia, was appointed General Staff Officer, 2nd Grade.

Military District No. 10:—

Major F. L. Vaux, P.A.M.C., was appointed Senior Medical Officer, from Principal Medical Officer.

Military District No. 11:—

Major E. C. Hart, P.A.M.C., was appointed Senior Medical Officer, from Principal Medical Officer.

Captain F. W. J. Moore, R. of O., was appointed District Staff Adjutant, *vice* Captain C. C. Bennett, transferred.

Halifax Fortress:—

Major W. B. Anderson, R.C.E., was appointed General Staff Officer, 3rd Grade, from Deputy Assistant Quartermaster General, Maritime Provinces Command.

Captain W. W. P. Gibsons, R.C.R., was appointed Deputy Assistant Adjutant and Quartermaster General.

REGULATIONS.

79. During the year the Regulations for the Corps of Guides were revised.

80. The usual report on the examination for admission to the Royal Military College of Canada for the year 1911-12 was published, also the annual report of the Militia Council.

81. The Establishments of the Canadian Militia, including Permanent Force, for the year 1911-12 were promulgated in May, 1911.

82. The following Regulations were issued during the twelve months ended 31st March, 1912:—

SESSIONAL PAPER No. 35

- Procedure in regard to the Conduct of Correspondence, Divisional and District Offices, 1911.
- Instructions for the Care and Preservation of Q.F. 13-pr. and 18-pr. Equipment, 1911.
- Short Guide to Officers of the Cavalry and Infantry joining the Canadian Militia, English.
- Short Guide to Officers of the Cavalry and Infantry joining the Canadian Militia, French.
- Standing Orders, Royal Military College, 1911.
- Courses of Instruction, 1912, English.
- Courses of Instruction, 1912, French.
- Catalogue, Library Books, etc., 1911.
- War Establishments (Provisional), Canadian Militia, 1912.
- The Organization of Voluntary Aid in Canada, 1911.
- Instructions for Training for City Corps and Corps Training at Camps of Instruction, 1912, Active Militia, English.
- Instructions for Training for City Corps and Corps Training at Camps of Instruction, 1912, Active Militia, French.
- Extracts from Reports of Royal School of Artillery, etc., 1911.
- Pay and Allowance Regulations for Canadian Militia, 1912. (Supplement to Canada Gazette.)
- Infantry Training, 1911, French.
- Advantages of the Permanent Force, 1912, English.
- Advantages of the Permanent Force, 1912, French.
- Memorandum *re* Militia and Defence Estimates, 1912-13.
- Instructions for Practice (Canada), Horse, Field and Heavy Artillery, Central Camp, Petawawa, 1912.
- Instructions relating to the Provision of Horses and Transport on Mobilization.
- List of Military Books issuable to
- (a) Permanent Force, and
 - (b) Active Militia.

COMMISSIONS.

83. The number of commissions in the Active Militia issued during the period under review was 333.
84. Thirty-eight warrants were issued to specially qualified non-commissioned officers of the Permanent Force and Active Militia.

MEDALS.

85. The number and description of medals issued during the twelve months ended 31st March, 1912, were as follows:—

Colonial Auxiliary Forces Officers' Decoration	31
Long Service Medal	134
Long Service and Good Conduct Medal (Per. Force)	8
General Service Medal	87

COURTS-MARTIAL.

86. The number of non-commissioned officers and men tried by courts-martial during the year ending 31st March, 1912, was 102.

CORONATION CONTINGENT.

87. In accordance with an invitation extended by the Imperial Government to the Government of the Dominion of Canada to send a body of troops as representatives of the Canadian Militia at the Coronation of Their Majesties King George V. and Queen Mary, a detachment, composed of representatives of the several units of the different branches of the service was concentrated at Quebec, commencing on the 23rd May, 1911. The Contingent sailed from Quebec on the 2nd June and arrived in England on the 9th idem, proceeding at once, by rail, to London, where they were quartered at the Duke of York's School.

88. On the 22nd June, a detachment, consisting of eight officers and 40 men, took part in the "King's Procession", the remainder of the troops being stationed at different points on the route of the procession.

89. On the 23rd June, two mounted escorts, composed of four officers and 24 men each, were ordered to be furnished in connection with the Royal Procession through the city, the balance of the troops being disposed of as on the day previous.

90. On the 30th June, the Coronation medals were presented by His Majesty to the officers, non-commissioned officers and men.

91. On the 2nd July, the Contingent entrained for Liverpool, and arrived at Quebec on the 9th idem.

92. The composition of the Contingent was as follows:—

Staff of Contingent.....	7 officers	
Subordinate Staff	4 warrant officers,	3 n.c.o.
Staff-Mounted Troops	3 officers	
Subordinate Staff	1 warrant officer,	1 n.c.o.
Staff-Dismounted Troops ..	4 officers	
Subordinate Staff	1 warrant officer	
Cavalry	10 officers,	84 n.c.o. and men
Artillery—		
Horse	2 officers,	16 n.c.o. and men
Field	5 officers,	25 n.c.o. and men
Heavy	1 officer,	19 n.c.o. and men
Dismounted Troops—		
Garrison Artillery	2 officers,	46 n.c.o. and men
Engineers	1 officer,	23 n.c.o. and men
Infantry & Departmental	1 officer,	417 n.c.o. and men
Band, Royal Canadian		
Regiment.....	1 warrant officer and	41 n.c.o. and men
Attached Officer	1	
Total, all ranks..... 719		

CADET CORPS.

93. Cadet Corps have continued to increase in number in all the provinces during the year under review.

94. On the 31st March, 1912, there were 506 gazetted Cadet Companies and Squadrons, organized into 266 Corps, with a total membership of 20,240 Cadets.

95. During the year there have been 128 new companies formed and 31 dormant companies disbanded.

96. The following table shows the distribution of Cadet Corps in the various Provinces, Military Divisional Areas and Districts:—

SESSIONAL PAPER No. 35

Military Divisional Areas, etc.	Companies		Strength, 31st Mar., 1912		
	Formed	Dis-banded	Corps	Com-panies	Cadets
1st Divisional Area, Ontario.....	8	1	19	23	920
2nd Divisional Area, Ontario.....	9	3	32	54	2160
3rd Divisional Area, Ontario.....	9	2	32	52	2080
4th Divisional Area, Quebec.....	9	..	58	181	7240
5th Divisional Area, Quebec.....	25	16	10	24	960
6th Divisional Area { Nova Scotia New Brunswick P. E. Island }.....	29	7	69	77	3080
Military District No. 10, Manitoba and Sask'w'n.	9	..	23	35	1400
Military District No. 11, Alberta.....	2	1	6	9	360
Military District No. 13, British Columbia.....	28	1	17	51	2040
Totals.....	128	31	266	506	20240

97. The above figures include only those officially gazetted Cadet Corps which are active. Those Cadet Corps which were dormant have been either re-organized during the year, or, where this was not found possible, disbanded.

98. From January, 1912, an ever increasing number of Cadet Corps is being formed throughout the Dominion, chiefly on account of the special inducement offered to the boys in the shape of the approaching Cadet Corps' Camp this summer.

ORGANIZERS AND INSPECTORS OF CADET CORPS.

99. Officers have been appointed Organizers and Inspectors of Cadet Corps for each Divisional Area and District (except in the 3rd Divisional Area, for which one is to be appointed shortly), whose duties are to superintend and organize the Cadet Corps in their Divisional Areas and Districts, in addition to Physical Training in the Public Schools, for which each of these officers holds special qualifications.

100. These officers will take up the work of their appointments in the latter part of April of this year, and it is confidently expected that their appointment will act as a stimulant to all Cadet Corps and Physical Training matters throughout the Dominion, and that, as a result of their work, there will be, at the end of the year 1912-13, a considerable increase in numbers and efficiency.

CADET INSTRUCTOR COURSES.

101. Courses of military instruction for the qualification of male school teachers as Cadet Instructors were held during the summer vacation throughout the Dominion at military centres, at which a total of 238 teachers obtained qualifying certificates.

102. Applications have been received from 950 male school teachers to attend the course this summer.

CORPS OF SCHOOL CADET INSTRUCTORS.

103. On the 31st March, 1912, there were 94 officers in the Corps of School Cadet Instructors.

104. The establishment of this Corps has been increased and the number of school teachers qualifying and applying for commissions is also greatly increasing.

REGULATIONS FOR CADET CORPS, 1912.

105. The "Regulations for Cadet Corps" have been re-written, in which numerous amendments have been included. A course of training for mounted and dismounted Cadets has been laid down, which is of a more practical and more interesting nature for boys than formerly; chapters on Training, Discipline, Organization, Inspection, Stores and Procedure, and Cadet Instructors, with numerous appendices, have been included.

INSPECTION REPORTS.

106. The reports of the Inspecting Officers on the Cadet Corps for the past year have been satisfactory and show that a certain degree of efficiency has been attained. These inspections were made on the work done by Cadet Corps during the Cadet Corps' Year, which commenced 1st July, 1910, and continued to 31st June, 1911.

RIFLE SHOOTING.

107. The Governor-General's Challenge Shield was won last year by the Municipality of Joliette, P.Q., with a percentage of 3.41. The Cadet Corps to hold the shield is No. 74, 1st Cadet Battalion, 83rd Regiment, which is the only Cadet Corps in the town of Joliette, P.Q.

108. The Canadian Cadet Team of representative Cadets from the Dominion, attending the Empire Day matches at Bisley, England, in competition with Cadet Teams from the United Kingdom and the Oversea Dominions, did very creditably, both as a team and in individual matches.

109. The grants from the Strathcona Trust fund have had a beneficial influence in some of the provinces in encouraging rifle competitions amongst Cadets and in assisting to defray the expenses of Cadets proceeding to and from the Government Ranges.

ARMAMENT AND AMMUNITION.

HORSE AND FIELD ARTILLERY

110. Consequent on the receipt of Q.F. 13 and 18-prs. guns, all 12-pr. B. L. Equipment has been withdrawn, and is available as a reserve for saluting purposes.

111. Twenty-four Q.F. 13-pr. guns (6 batteries) and 64 Q.F. 18-pr. guns (16 batteries), with ammunition, have arrived from England during the year.

The allotment of the above is as follows:—

Q.F. 13-prs.—

Two batteries to Royal Canadian Horse Artillery and four batteries to Canadian Field Artillery.

Q.F. 18-prs.—

Fifteen batteries to Canadian Field Artillery and one battery to Royal Military College, Kingston, Ont.

SESSIONAL PAPER No. 35

112. There are now six batteries of Horse Artillery (13-prs.), 24 of Field Artillery (18-prs.) and two batteries of 5-inch B.L. Howitzers.

113. In addition to the above, there are a number of Q.F. 18-prs. and Q.F. 4.5-inch Howitzers under order from England.

HEAVY ARTILLERY.

114. There are at present three B.L. 60-pr. and three Q.F. 4.7-inch batteries with ammunition columns allotted to the Divisional Artillery. It would be more satisfactory if the Q.F. 4.7-inch were replaced by B.L. 60-prs.

HALIFAX, N.S.

Coast Defence.

115. Provision has been made for 6-pr. sub-calibre guns for use with 9.2-inch, and it is hoped that they will be received shortly.

116. Alterations in the dispositions of the fixed armament of the fortress are now under consideration.

SMALL ARMS.

117. The output of rifles, bayonets and small arm ammunition has been maintained, in accordance with the requirements of the Department.

118. The manufacture of Ross rifle, Mark III, will commence very shortly.

119. The Standing Small Arms Committee has been reconstructed and takes the place of the Committee and Sub-Committee hitherto existing.

120. Lieut.-Colonel Greville Harston has been appointed Chief Inspector of Arms and Ammunition.

121. By courtesy of the United States Government, the above-mentioned officer visited the Frankford Arsenal, with a view to witnessing the manufacture of small arm ammunition.

DOMINION ARSENAL.

122. An average monthly output of 750,000 rounds of .303-inch small arm ammunition was maintained throughout the year, and this could be increased if necessary.

123. The manufacture of .303-inch, Mark VII, ammunition and shrapnel shell for Q.F. 18-pr. will commence shortly. A considerable amount of miscellaneous stores were also manufactured for the Department.

124. The demands for ammunition and stores, having increased so much, the present available space in the Arsenal is quite inadequate for the needs of the future. It has, therefore, become necessary to select a new site for the Arsenal and danger-buildings outside the city.

CORDITE.

125. A quantity of cordite has been manufactured by the Canadian Explosives Company (a branch of Nobels) in Canada, for use with .303-inch, Mark VII, ball cartridge. The subsequent tests showed that, though difficult to make, the ballistic qualities of the cordite were well up to specifications and gave very satisfactory results.

126. The manufacture of cordite for Q.F. 18-pr. ammunition will, it is hoped, commence shortly.

VEHICLES AND STORES.

127. All the limbers and wagons, with stores complete, for Horse and Heavy Artillery Equipment have been manufactured by the Ottawa Car Company.

128. In addition, a number of lorries, carts and numerous stores of M.D. pattern have been manufactured during the year.

ENGINEER SERVICES.

129. The administration of Engineer Services in the various divisional commands and districts has, on the whole, been satisfactorily carried out, though the branch has suffered seriously through a shortage of officers. In some cases officers of junior rank have had to be placed in charge of important works whilst in Military District No. 13 the Engineer's duties had to be performed by the District Engineer of Military District No. 11, owing to there not being another officer available.

130. All military properties, buildings, rifle ranges, etc., throughout the different divisional commands and districts have been maintained and kept in a state of good repair. In addition to ordinary services coming under the category of "Incidentals" consequent upon fair wear and tear, many other larger works have been undertaken and completed.

131. It might be mentioned that much of the contemplated work was necessarily retarded owing to the Estimates for the year being only partially voted until very late in the season.

132. In very many cases it has been found preferable to have services carried out by day-labour under the superintendence of the Royal Canadian Engineers, it having been found that a great saving is thus effected as compared with carrying out by contract, and, where practicable and advisable, this system is adhered to.

133. The new system of construction of Drill Halls of standard design will facilitate the work in connection with these buildings very much.

134. Four Standard types of Drill Halls have been designed to cover the requirements of the majority of places, as follows:—

Design No. 1.—	Headquarters and 1 or 2 Companies.
Design No. 2.—	“ and 2 or 3 “
Design No. 3.—	“ and 4 to 8 “
Design No. 4.—	“ and 8 to 16 “

The accommodation provided in all the above designs can be arranged to suit the requirements of all arms of the service.

135. The work of construction of rifle ranges is progressing satisfactorily. The difficulty of securing sites which come within the regulations for danger areas is still a serious one, but much progress has been made in this direction.

136. The following new Rifle Ranges have been constructed:—

Winnipeg, Manitoba	30 targets
Belleville, Ontario	6 “
Farnham, Quebec	18 “
Nelson, British Columbia	6 “

137. The following is a list of Armouries, Military buildings and large works constructed by the Department of Militia and Defence during 1911-12:—

SESSIONAL PAPER No. 35

Drill Halls and Armouries.

- Morinville, Alta.—Armoury, completed.
 Pincher Creek, Sask.—Armoury, completed.
 Forest, Ont.—Drill Hall; construction; jointly completed with municipality.
 Paris, Ont.—Armoury; purchased by Department of Public Works and altered and repaired by Militia Department.
 Montreal, Que.—Building purchased as an armoury for the 4th Field Company, Canadian Engineers.
 65th Regiment—Drill Hall, Montreal; constructed by regiment, Militia Department contributing a portion of the cost.
 Kentville, N.S.—Old Court House purchased for armoury purposes.
 Sherbrooke, P.Q.—Old Court House purchased for Armoury purposes.

Extensive Alterations and Repairs.

- Metcalfe, Ont.—Drill Hall; reconstructed.
 Windsor, Ont.—Drill Hall; new Engineer fixtures installed throughout.
 Cobourg, Ont.—Armoury and Gun Shed; extensive repairs.
 Kingston Drill Hall—New asphalt floor.
 Winnipeg—Old Examining Warehouse fitted up to accommodate 90th Regiment.
 Victoria, B.C.—Drill Hall; floor renewed.
 Chatham, Ont.—Armoury; construction of retaining wall, McGregor's Creek, to protect Drill Hall.
 Charlottetown, P.E.I.—Drill Hall; large extension.

Military Buildings and Works.

- Montreal—New Magazine and Explosive Store Building.
 Ottawa—New Magazine and Explosive Store Building.
 London, Ont.—New Magazine and Explosive Store Building.
 Ottawa—Four buildings for officers, n.c.o.'s and men attending School of Musketry, Rockcliffe.
 Quebec—Additional story to Ordnance Stores.
 London, Ont.—Addition to Ordnance Store Building.
 Halifax, N.S.—Conversion of Dillon property into Married Quarters.
 Montreal—Construction of Wagon Shed and Harness Room for 4th Field Company, Canadian Engineers.
 Levis, Que.—No. 1 Fort—Installation of Hot Water Heating System.
 Montreal—Construction of Fence around old Military Cemetery, Papi-neau Avenue.

LANDS ACQUIRED.

138. The following lands were acquired during 1911-12:—

- Montreal—65th Armoury Site.
 Montreal—4th Field Co. Canadian Engineers Armoury Site.
 Chateauguay, Que.—Site of Monument.
 Bathurst, N.B.—Rifle Range Site.

Saskatoon, Sask.—Drill Hall Site.
 Province of Saskatchewan—Four Townships; Remount Depot.
 Province of Alberta—Three Townships; Remount Depot.
 Kamloops, B.C.—Site for Rifle Range.
 Nictaux, N.S.—Site for Rifle Range.
 Collingwood, Ont.—Site for Rifle Range.
 Kentville, N.S.—Armoury Site.

EXPENDITURE.

GENERALLY.

139. The Expenditure under Votes was \$7,558,284.10. In addition, there was the following authorized by Statute:—

Pay of Inspector General and Military Members of Militia Council	\$ 21,600.00
Aid to Civil Power	714.67

140. Compared with the previous year, there is an increase of \$791,947.48, for which the following Votes were mainly responsible, viz.:—

Annual Drill, to the extent of	\$ 79,375.00
Construction of buildings and works and repairs, to the extent of	187,490.00
Permanent Force, to the extent of	101,402.00
Warlike Stores, to the extent of	196,784.00
Coronation Contingent, to the extent of	134,835.00
New Rifle Range, Ottawa, to the extent of	71,835.00

141. There were small increases in the expenditure under some of the other Votes, but in others again there was a decrease (in Customs Dues, for instance, of \$32,511), leaving the net increase as stated.

142. Of the sums voted by Parliament, \$621,125 lapsed, owing, as regards construction of buildings and works, to a portion of the Votes not becoming available till too late to finish the works undertaken; and, as regards Annual Drill, to the Militia not turning out for training up to the expected strength.

143. The uncertainty in respect of funds also affected the expenditure at the Dominion Arsenal, of the Vote for which \$63,209 lapsed.

145. The amount voted for Customs Dues was \$56,931 in excess of requirements.

146. Of the sums voted for construction of Armouries and other Military buildings and works, \$222,678 lapsed, which is approximately two-thirds of the total amount.

147. Taking the Votes in their order, the following remarks are submitted:—

ALLOWANCES TO ACTIVE MILITIA.

148. This is for Command Pay, Drill Instruction, Care of Arms and Postage to Officers of the Active Militia. It also includes gratuities to Trumpeters and Signallers.

149. The expenditure was not so heavy as in the preceding year, although the Vote was a little larger, in expectation of a larger number turning out to train, which would cause a larger expenditure for Command Pay and Drill Instruction.

150. The number, however, was no larger than in the preceding year, and, owing to delay in carrying out inspections of equipment in some localities, the

SESSIONAL PAPER No. 35

allowance for Care of Arms was not paid certain Corps before the accounts of the year were closed, and in consequence \$26,132.60 lapsed. (See statement, page 39.)

ANNUAL DRILL.

151. Full particulars of the numbers trained in each Camp, District, etc., are given in the Interim Report (see Appendix E).

152. The number trained, viz., 45,061, all ranks, with 9,004 horses, was about the same as in the previous year, but the expenditure was \$79,375 greater, owing to slightly higher rates of Efficiency Pay earned, more expenditure on Camp Grounds, and payment of belated transport claims belonging to previous year.

Efficiency Pay.

153. The following statement shows the number of men in the Militia who received Efficiency Pay, and the amounts paid, during training 1911-12 :—

Arm of Service	Number Paid			Not qualified	Total trained	Cost.
	1st rate 20c p.d.	2nd rate 40c p.d.	3rd rate 50c p.d.			
Artillery, Engineers and Departmental Corps.....	2,980	2,040	2,377	423	7,820	\$ 38,216
Cavalry and Infantry.....	6,563	10,714	11,245	2,652	31,174	135,837
	9,543	12,754	13,622	3,075	38,994	174,053

154. The following statement shows the numbers qualified during the last three years :—

Year	Number Paid			Not qualified	Total trained	Amount paid
	1st rate	2nd rate	3rd rate			
1909-10.....	11,625	7,721	10,816	4,032	34,194	\$128,590
1910-11.....	11,295	11,670	13,233	3,314	39,512	170,151
1911-12.....	9,543	12,754	13,622	3,075	38,994	174,053

155. The average amount paid to each man for Efficiency Pay in above years was, therefore :—

Year	Artillery, Engineers and Dept. Corps	Cavalry and Infantry
1909-10.....	34c per diem	30c per diem
1910-11.....	38c per diem	34c per diem
1911-12.....	34c per diem	36c per diem

3 GEORGE V., A. 1913

156. In 1913 a new system of Efficiency Pay will come into effect, a flat rate of 15c per diem being given to all Corps in the place of the three rates as shown above.

157. Qualification for Efficiency Pay in the Cavalry and Infantry will depend upon scores made at Musketry practice, and in the Artillery, Engineers and Departmental Corps upon certificate of Inspecting Officer.

158. To cover the decrease in rate of Efficiency Pay, the rates of Regimental Pay have been correspondingly increased.

CADET CORPS.

159. The amount voted for Cadets was \$50,000, but only \$35,946.68 was expended, due mainly to the fact that when the money was wanted most, viz., in June and July, only a part of it was available. School teachers take the opportunity to qualify as Cadet Instructors at the Military Schools during the summer holidays, and the number allowed to attend in 1911 was limited owing to the uncertainty about funds at that period.

160. Besides this, the amount expended on instruction of Cadets was less than estimated.

161. This expenditure is made in the form of an Allowance to School Teachers who have qualified as Instructors, at rate of \$1.00 for each Cadet instructed, up to 50 Cadets; 75 cents from 50 to 100 Cadets, and 50 cents each Cadet over 100.

162. Particulars of the work done in connection with Cadet Corps and the number of School teachers who qualified as Instructors during the year, will be found elsewhere in this Report.

CLOTHING.

163. The amount expended for Clothing, under Clothing Vote, was \$475,175.09. In addition, \$110,468 was expended out of the large Vote of \$1,300,000 for a reserve stock and to outfit new Corps, making the total \$585,643.09.

CUSTOMS DUES.

164. The amount voted was \$200,000, but only \$143,068.63 was expended, as against \$180,579.63 in the preceding year.

DOMINION ARSENAL.

165. The expenditure at the Arsenal was \$236,790.03, about \$15,000 less than previous year. For output, &c., see report of the Superintendent. (Appendix D.)

ENGINEER SERVICES.

166. The amount voted was \$380,000, which was all expended except \$601.20. The amount expended in the previous year was \$353,965.64, including \$54,235 of money voted in Public Works Estimates and transferred to Militia Department and expended under the supervision of the Royal Canadian Engineers.

GRANTS TO ASSOCIATIONS AND BANDS.

167. The expenditure under this head does not vary much from year to year. Following are the particulars of expenditure for the year:—

SESSIONAL PAPER No. 35

Dominion Rifle Association	\$ 15,000.00
Canadian Artillery Association	6,000.00
Provincial Rifle Associations	11,600.00
Local Rifle Associations	12,357.98
University Rifle Associations	699.72
Bands of Active Militia Corps	8,100.00
Military Institutes and Clubs	1,500.00
Prizes for Local Rifle Associations	974.60
Sundry grants	38.14
	<hr/>
	\$56,270.44

MAINTENANCE OF MILITARY PROPERTIES.

168. This Vote covers expenses for heating and lighting the Armouries and Drill Halls, also rents of buildings and lands for the use of Active Militia, and sundry expenses for water, telephones, &c. The amount expended was \$80,936.65. For the previous year it was \$79,960.64.

ORDNANCE, ARMS, EQUIPMENT, LANDS, ETC.

169. The amount voted for the purchase of Ordnance, Arms, Equipment, Lands, &c., was \$1,300,000. This amount was first voted by Parliament in 1903-04 and has been voted annually ever since, excepting in 1906-07, which, being a nine months' year, only three-fourths of the amount was granted.

170. In 1911-12 there was expended under this head:—

46 eighteen-pounder limbers-wagon; 92 eighteen-pound- er wagons—ammunition	\$243,726.94
Paid War Office on account of thirteen and eighteen- pounder guns purchased	366,151.46
Sundry other Ordnance	24,618.62
7,000 Ross Rifles, Mark II *****	175,000.00
6,000 Ross Rifles, Mark II **	161,400.00
500 Rifle Chests	3,625.00
1,800 Ross Rifles fitted with Mark II Sights	9,197.47
Spare parts of Ross Rifles	19,125.83
20,000 Scabbards	25,052.25
Services of Chartered Accountant	210.00
Inspection of Small Arms and Scabbards	20,422.33
Inspection of Limbers, Wagons, etc.	3,399.02
Harness and Saddlery	6,572.05
12 Motor Cars	11,419.20
Small Arms Committee	6,004.63
Reserve Clothing	110,467.66

Lands purchased:—

For Dominion Arsenal, Quebec	\$ 20,000.00
For Petawawa Camp Site	16,838.17
For Farnham	10,746.06
For Sundry	2,510.66

	<hr/>	50,094.89
Purchase of Old Court House, Kentville, for an Armoury		2,521.90

Construction of new Rifle Ranges:—

Belleville, Ont.	\$19,951.62	
Nelson, B.C.	17,043.65	
Winnipeg, Man.	12,827.00	
Farnham, Que.	8,771.89	
Sundry—small	658.75	
		59,252.91
		<hr/>
		\$1,298,262.16
		<hr/>

HEADQUARTERS AND DISTRICT STAFFS.

171. The amount expended under this head was \$187,077.84, an increase of \$29,458.77, compared with the previous year, for the most part due to the appointment of seven General Staff Officers loaned from the Imperial Army for employment in the Divisions and Districts in instructional work.

PERMANENT FORCE.

172. There was an increase of \$101,402.06 in the cost of the Force, compared with the preceding year, the cost for 1911-12 being \$1,946,633.73 and for 1910-11, \$1,845,231.67. This was largely due to an increase in the numerical strength of the Force, which in 1910-11 was:—

At beginning of year	2,854, all ranks
At close of year	3,079, " "
and for 1911-12:—	
At beginning of year	3,079, " "
At close of year	3,118, " "

173. For cost of pay and maintenance by Corps and at the various stations, see accompanying statements, pages 42-49.

ROYAL MILITARY COLLEGE.

174. The Royal Military College cost \$134,948.85 to maintain, an increase of \$7,912.81, compared with the previous year, due to an addition to the Subordinate Staff of a dozen Non-commissioned Officers and Men for a riding school and to a larger number of Cadets attending the College, there being 117 in 1911-12 and 105 in 1910-11.

175. The revenue from the College for fees, &c., paid by the Cadets amounted to \$34,286 for the year, making the net expenditure \$100,662.

SALARIES AND WAGES.

176. There was a slight increase in the amount paid for Salaries and Wages, the figures standing:—

1911-12	\$155,644.83
1910-11	153,017.93

This was due to a higher rate of wages paid in a few cases. The estimated amount required for the year was \$167,000, but the requirements fell short of the estimate and \$11,355.17 lapsed.

SESSIONAL PAPER No. 35

SCHOOLS OF INSTRUCTION.

177. There was a decrease of \$9,939.21 under this head, the expenditure for 1911-12 being \$70,041.16, and for 1910-11, \$79,980.37. The amount asked in the Estimates was \$80,000, and that amount would have been expended had the money been available when wanted; but, owing to delay in getting the necessary funds, a number of Schools were cancelled and \$9,958.84 lapsed.

CORONATION CONTINGENT.

178. There were 719 Officers and Men of the Canadian Militia sent to London to take part in the Coronation Review. The estimate of cost, including clothing, was \$155,000, but the actual expenditure was only \$134,835.48, transport having been effected at less than estimated and a less quantity of clothing required than was expected.

MILITARY BUILDINGS AND WORKS.

179. The total of the Votes under this head was \$330,500, but, as the greater part of the money was not available till late in the year, many of the works were not undertaken, and, as regards those that were, only a portion of the Vote was expended in many cases. The total expenditure amounted to \$107,821.63. Particulars of the works undertaken are given elsewhere in this report.

STATEMENTS.

180. Following are statements showing:—

- (1) Expenditure for the year by Votes (General Statement).
- (2) Amounts expended in each Division and District for drill instruction, care of arms, postage, &c.
- (3) Expenditure for training by Camps, Divisions, &c.
- (4) Strength of Permanent Force at the various stations, and expenditure for pay, allowance, and supplies.
- (5) Particulars of expenditure for pay, &c., of officers, by Stations.
- (6) Particulars of expenditure for pay, &c., of officers, by Corps.
- (7) Particulars of expenditure for pay, &c., of n.c.o's and men, by Stations.
- (8) Particulars of expenditure for pay, &c., of n.c.o's and men, by Corps.
- (9) Particulars of expenditure for provisions and supplies of officers, n.c.o's and men, by Stations.
- (10) Numbers attending Schools of Instruction, and cost.
- (11) Expenditure under Votes during past ten years.

† In addition \$123,000 was expended for purchase of a new site for barracks and rifle range, Winnipeg, from moneys received from sale of old rifle range, and, also, \$17,500 for an Armoury for 4th Field Co. Canadian Engineers from an appropriation voted under the Department of Public Works estimates and transferred.

* A separate appropriation of \$75,000 was voted for purchase of lands for a Rifle Range, expenditure on which is included in this amount.

APPENDICES.

181. Appended are the following:—

Report of the Director-General of Medical Services for the year 1911-12.
Appendix 'A'.

Report of the Commandant, Royal Military College, 1912. Appendix 'B'.

Report of the Board of Visitors, Royal Military, College, 1912. Appendix 'C'.

Report of the Superintendent of the Dominion Arsenal, 1911-12.
Appendix 'D'.

Interim Report of the Militia Council on the Annual Training for the season of 1911, including the Report of the Inspector-General.
Appendix 'E'.

E. F. JARVIS,
Secretary,
The Militia Council.

APPENDICES

APPENDIX 'A'.

OTTAWA, March 31, 1912.

*From the Director-General, Medical Services, Canadian Militia.
To the Adjutant-General, Canadian Militia.*

SIR,

I have the honour to submit my report upon the Medical Services for the year ending March 31, 1912:—

GENERAL ORGANIZATION.

1. The organization of the Medical Services to meet the requirements of the mobilized Field Army has been continued. There are still, however, certain medical units deficient, Field Ambulances being required as follows: First Division, one; Third Division, two; Fifth Division, three; the recommendation for the formation of these units has not been approved for the coming year.

2. I am glad to report that there is very little trouble in procuring excellent medical officers, provided we can supply them with places in interesting units. There is, however, difficulty in persuading medical men to be detailed to units other than medical, for the training is not sufficiently attractive. It is hoped that this will be overcome, because of the very great importance of the Regimental Medical personnel in active service; we are only commencing to realize this in the Canadian Militia.

3. The administration of the Divisions and Districts is now carried on by two officers; one is an officer of the Permanent Army Medical Corps, and the other is an officer detailed as his staff officer from the Army Medical Corps. The latter receives no pay and, if he does not happen to go to camp, is in receipt of no financial return for the work he is called upon to do. This seems hardly just.

MEDICAL STORES.

4. Owing to no money being available, practically no medical stores have been purchased; orders have now, however, been given and when received will bring the equipment for the Field Army almost up to scale.

EDUCATION.

5. The examination for promotion to rank of Lieut.-Colonel Army Medical Corps, having proved so successful, it has been decided to adopt the same procedure for the rank of Major. The papers for these examinations are sent from Headquarters and are based upon a practical strategical and tactical scheme; uniformity is thus assured and no promotions are made, except of those qualified.

6. Two classes in the Principles and Practice of Medical Strategy and Tactics were held at Ottawa, each lasting one month. The first, in April, was attended by all the Administrative Medical Officers of Divisions; the second, in March, was attended by five officers of the Permanent Army Medical Corps and two of the Army Medical Corps.

SESSIONAL PAPER No. 35

7. It is hoped that other classes will be held at the Central Laboratory of Military Hygiene during the year.

CONVENTIONS.

8. I had the honour, with Major Drum, without expense to the public, of attending the Canadian Medical Association Meeting at Montreal in June and reading a paper before the Section of Preventive Medicine, and also at the Symposium on Typhoid Fever. I also attended the meeting of the Canadian Public Health Association at Montreal in December. It was decided at the latter meeting to form a section of Military Hygiene; this section will hold its first meeting in Toronto in September next.

9. The Annual Meeting of the Association of Medical Officers of the Militia was held at Ottawa in February, under the Presidency of Major LeBel, A.M.C., Quebec. Great development was shown by this Society, and during two days' meeting the interest never flagged. Lieut.-Colonel A. T. Shillington, A.M.C., Ottawa, was elected President.

PERMANENT ARMY MEDICAL CORPS.

10. The Permanent Army Medical Corps has many functions to perform, and its present limited establishment cannot begin to be able to meet the demands made.

11. Its first function is the administration of the Medical Services of the Militia, both Active and Permanent. This demands an office and clerical staff in each Division and District. It also supplies the personnel for the office of the Director General at Headquarters.

12. Its second function is the care of the sick of the Permanent Force, the Active Militia (cases sent from Camps of Training), the Canadian Naval Service and the Cadets at the Royal Military College. To perform this, there are six dieted hospitals and two non-dieted ones. Two of these hospitals are very large buildings, rather old-fashioned and difficult to care for and administer.

13. Its third function is the receiving, distributing and repairing of all Medical Stores. There are Medical Stores in each Division and District and a Central Medical Stores at Ottawa. In a year's time each Divisional Stores will carry the complete medical equipment for that Division, valuable stores amounting to over \$21,000.00.

14. Its fourth function is to supervise the sanitation of camps and barracks. It has, therefore, to provide for the personnel of the Central Laboratory of Military Hygiene and other local and temporary laboratories.

15. Its fifth function is instructional; it must provide schools and instructors for the Active Militia.

16. Its sixth function is to provide medical personnel at certain camps, such as Petawawa, MacNab's Island and York Redoubt, and also at camps for which no Army Medical Corps' personnel is available.

17. Its seventh function is to look after its own administration, being divided up into so many small detachments increases this work very materially. There is almost as much clerical work connected with a detachment of five men as that which numbers 100 or more.

18. To perform these functions we have a total authorized establishment of 101 of all ranks. The work cannot be done under these conditions.

HEALTH OF THE PERMANENT FORCE.

19. The decline in the incidence of sickness, remarked upon in previous reports, is continued for the period now dealt with. The following table depicts, in figurative form, the improvement in the health of the officers and men that has taken place:—

	Ratio per 1,000 of strength.
<i>Years.</i>	<i>Admissions.</i>
1906	769.09
1907	709.90
1908	777.07
1909	689.34
1910	639.50
1911	576.42
1912	499.51
Average ratio	663.69

20. The introduction of the system of treating the milder cases of sickness in barracks will, to some extent, explain the reduction in the admission rate shown above, together with the improved sanitary conditions under which soldiers live.

21. This marked diminution in the numbers admitted cannot but prove a valuable asset to the Permanent Force by adding to its efficiency and curtailing expenditure in the maintenance of hospital beds. The interest shown by both officers and men in sanitary matters, and the facilities afforded by the Central Military Laboratory of Hygiene for the analysis of water and pathological specimens has, without question, also been largely responsible for this low rate of sickness.

22. The principal causes of sickness, in order of their importance, were:—Diphtheria, 9; Enteric fever, 8; and only one admission for Tuberculosis. The improved admission rate for this last disease has been remarkable, the average for the past five years being seven. Admissions for Alcoholism remain in the same as for the last report, but a gratifying decrease in venereal diseases can be reported, —122 cases having been admitted, as against 154 for period 1911.

23. Forty-two cases have been dealt with by operative treatment, thus effecting a reduction of wastage by returning men to duty that would, otherwise, be invalided and their services lost to the country.

CANADIAN NAVAL SERVICE.

24. The naval ratings that have been treated at the military hospitals at Halifax and Esquimalt are shown at table 4. The diseases call for little comment. Of the 50 admitted, three were for Pneumonia, and a like number for Rheumatic Fever.

TABLE 1.

25. A general statement of admissions, deaths, and discharges medically unfit, of the Permanent Force, during the year ended March 31, 1912:—

I have the honour to be, sir,

Your obedient servant,

G. C. JONES, *Colonel,*

Director General Medical Services.

3 GEORGE V., A. 1913

APPENDIX 'B'.

KINGSTON, June 19, 1912.

*From the Commandant, Royal Military College,
To the Secretary Militia Council, Ottawa.*

SIR,—

I have the honour to submit the following report on the Royal Military College for the year 1911-12:—

STAFF.

1. The following changes have taken place on the staff of the College during the past year:—

Major C. N. Perrean, Royal Dublin Fusiliers, has succeeded Captain H. A. Kaulbach, The King's Own, as Staff Adjutant, taking over the Musketry instruction of the College.

Captain K. Blair, Royal Artillery, and Lieut. E. F. Dawson, Royal Engineers, have been succeeded by Captain M. V. Plummer, Royal Artillery, and Lieut. F. A. Heymann, Royal Engineers, as Instructors in Military Subjects.

Major H. R. Hopwood, 33rd Queen's Own Light Cavalry, has been attached to the General Staff Branch of the College. in succession to Captain A. F. C. Williams, 31st Duke of Connaught's Own Lancers, for instructional work.

OFFICERS' COURSES.

2. The Staff College course, consisting of four candidates, joined at the beginning of January and their examination commences next week. The candidate prepared at the College last year was successful and is now at Camberley.

3. The Refresher course joined with the Staff College course and remained here for three months; six senior officers of the Permanent Force attended. Having regard to the value of the course to these officers and the amount of work there is to be done, I urge strongly that they should join at the beginning of November in future, extending the course to five months. The work which they do is for the most part entirely new to them. I am of opinion that every officer of the Permanent Force should undergo this course, and we shall probably be able to take a similar number each year.

4. The Long Courses of three months each, in the autumn and spring, were attended by eight and five candidates, respectively, all of whom qualified.

5. The practical portion of the Militia Staff course was attended by sixteen officers in August last, fourteen of whom qualified.

RIDING ESTABLISHMENT.

6. We now have our full complement of horses in the Riding Establishment. The result is that from the time of joining the College the Cadet receives instruction in riding and horse-mastership. We shall not, however, derive full benefit

SESSIONAL PAPER No. 35

until a covered Riding School is provided. The regular course of instruction cannot be carried on during the winter months in the open, and consequently much valuable time is lost.

STRENGTH.

7. The number of cadets when the College opened last August was 118. During the year two cadets have been withdrawn at the request of their parents.

DISCIPLINE.

8. The conduct and discipline of the cadets has been very good. One cadet has been rusticated for irregular conduct at an examination. Seven cadets were rusticated for a month at the commencement of the year for misbehaviour on the night of the closing last year.

EXAMINATIONS.

9. The results of the examinations are satisfactory, on the whole. Of thirty-one cadets in the senior class, twenty-seven have qualified for Diplomas.

10. In the 2nd Class, one cadet has failed, and in the 3rd Class, five. These gentlemen will need to repeat the year's course.

MUSKETRY.

11. Our rifle shooting has continued to improve. The miniature ranges, which we now have had for two years, enable us to carry on instruction and practice during the cold weather with most satisfactory results.

12. During the past twelve months our Musketry record is as follows:—

	Marksman.	1st Class.	2nd Class.	3rd Class.
Senior Class	4	8	11	8
2nd year	11	9	11	9
1st year	17	17	11	(2 not classified)
Figure of merit—				
Senior Class				131
2nd year				135

13. In the "Daily Mail" Cup, fired last year, the R.M.C. was 57th in the Empire and 3rd in Canada.

14. We were 3rd in the 2nd series of the Canadian Rifle League competition, and 5th in the Gallery Miniature Rifle competition.

15. A scratch Royal Military College Tyro team won the Osler Challenge Cup at the meeting of the Ontario Rifle Association. For the first time the College won the match against Sandhurst on the 24th May.

SPORTS.

16. We have been very fortunate this year in our outdoor games. We hold the Intermediate Dominion Championship, the Intermediate and the Junior Intercollegiate Rugby Union Championships, the Intermediate Intercollegiate Hockey Championship, the Intercollegiate Lawn Tennis Championship, and won every match but one during our week's cricket tour.

ACCOMMODATION.

17. I am glad to say that the new dormitory building is in process of erection and the repairs to the wharves and bathouses are nearly completed. It is hoped that the new model and gun sheds, for which the money has been voted, will shortly be taken in hand.

18. Officers' Quarters are urgently required. Too much of the time of members of the staff is wasted in going backwards and forwards to Kingston. The advantages of having them quartered at the College are obvious.

19. It is also very desirable that officers attending courses, Staff College Refresher, Long, &c., should be provided with quarters on the spot.

20. Quarters are also required for the subordinate staff (assistant Instructors).

21. The extension of the educational buildings is a matter for the immediate future. We suffer from the want of a library, suitable draughting room, laboratory, dining accommodation, general lecture room, &c.

22. The covered riding school, to which I have previously referred, is urgently required. A covered skating rink is also badly needed.

COMMISSIONS.

23. Applications for commissions in the Active Militia for those gentlemen of the graduating class who are not candidates for commissions in the Imperial Army and Permanent Force have already been made.

24. The following gentlemen will be recommended for commissions in the Imperial Army and Canadian Permanent Force:—

Imperial Commissions.

Gentleman Cadet	S. F. C. Sweeny.....	Royal Engineers.
"	" M. W. English.....	Royal Field Artillery.
"	" A. B. Boggs.....	Indian Army.
"	" M. S. Stewart.....	Army Service Corps.

Canadian Permanent Force Commissions.

Gentleman Cadet	W. M. Miller.....	Royal Canadian Engineers.
"	" F. M. Hutchinson.....	" " "
"	" J. P. Edwards.....	" " "
"	" D. H. Williams.....	" " "
"	" H. St. G. Bond.....	" " "
"	" R. K. Robertson.....	Canadian Ordnance Corps.
"	" E. J. Renaud.....	" " "
"	" A. L. Lindsay.....	" " "
"	" S. T. Wood.....	R.N.W.M. Police.

DIPLOMAS.

25. The following are awarded diplomas:—

With Honours.

Gentleman Cadet	S. F. C. Sweeny.
"	" R. K. Robertson.

SESSIONAL PAPER No. 35

Diplomas of Graduation.

Gentleman Cadet	W. H. E. Schmalz.
"	" W. M. Miller.
"	" T. A. H. Taylor.
"	" A. M. Lacey.
"	" F. M. Hutchinson.
"	" J. P. Edwards.
"	" D. H. Williams.
"	" R. M. Haultain.
"	" L. V. M. Cosgrave.
"	" H. St. G. Bond.
"	" G. B. Latimer.
"	" A. B. Boggs.
"	" A. H. Helmer.
"	" R. D. Sutherland.
"	" C. M. P. Fisher.
"	" E. J. Renaud.
"	" H. C. V. Macdowall.
"	" H. A. Thompson.
"	" H. J. Woodman.
"	" S. L. Gunn.
"	" W. M. Pearce.
"	" A. L. Lindsay.
"	" M. W. English.
"	" S. T. Wood.
"	" M. S. Stewart.

PRIZES.

26. Sword of Honour for Conduct and Discipline, Battalion Sergeant-Major S. F. C. Sweeny.

His Royal Highness The Governor General's Medals:—

1st, Battalion Sergeant Major S. F. C. Sweeny.....	Gold Medal.
2nd, Sergeant R. K. Robertson	Silver Medal.
3rd, Corporal W. H. E. Schmalz.....	Bronze Medal.

Class Prizes:—

1st Class.	Sergeant R. K. Robertson.
2nd Class.	Gentleman Cadet W. B. McTaggart.
3rd Class.	Gentleman Cadet H. S. Matthews.

Military Subjects:—

1st Class.	Corporal W. H. E. Schmalz.
------------	----------------------------

Military Engineering:—

1st Class.	Corporal W. H. E. Schmalz.
------------	----------------------------

Tactics and Reconnaissance:—

1st Class.	Sergeant T. A. H. Taylor.
------------	---------------------------

Artillery:—

1st Class.	Corporal W. H. E. Schmalz.
------------	----------------------------

Drills, Exercises and Practical Work:—

1st Class.	Gentleman Cadet R. M. Haultain.
------------	---------------------------------

Military History:—

2nd Class. Lance-Corporal E. H. de L. Greenwood.

Military Administration and Law:—

2nd Class. Lance-Corporal E. H. de L. Greenwood.

Field Sketching and Map Reading:—

2nd Class. Gentleman Cadet H. E. J. Vautelet.

Civil Engineering:—

1st Class. Sergeant R. K. Robertson.

Surveying:—

1st Class. Gentleman Cadet D. H. Williams.

Physics:—

1st Class. Gentleman Cadet W. M. Miller.

Chemistry:—

1st Class. Corporal D. H. Williams.

Mathematics and Mechanics:—

2nd Class. Gentleman Cadet W. B. McTaggart.

Geometrical and Engineering Drawing:—

2nd Class. Gentleman Cadet C. H. B. Garland.

French:—

2nd Class. Gentleman Cadet H. E. J. Vautelet.

French:—

3rd Class. Gentleman Cadet J. O. J. St. Laurent.

English:—

3rd Class. Gentleman Cadet I. R. R. Macnaughton.

Best essay written during the year on Artillery presented by Canadian Artillery Association:—

1st Class. Company Sergeant Major L. V. M. Cosgrave.

Silver Medal presented by the "Alliance Française de Paris" for the highest aggregate in French throughout the course:—

1st Class. Battalion Sergeant Major S. F. C. Sweeny.

Ontario Cups (best shot in each class):—

1st Class. Sergeant R. K. Robertson.

2nd Class. Gentleman Cadet D. H. Storms.

3rd Class. Gentleman Cadet C. R. Fessenden.

Quebec Cups (championship shooting):—

1st. Gentleman Cadet S. E. Lovelace.

2nd. Lance-Corporal R. S. P. MacIvor.

3rd. Gentleman Cadet J. A. Turner.

Artillery Challenge Cup and Silver Medal, won by Sergeant J. P. Edwards.
Company Musketry Shield and Silver Medal, won by "D" Company; Company Sergeant Major J. N. Gwynne.

Revolver Challenge Shield and Silver Medal, won by Gentleman Cadet G. B. Schwartz.

Riding Challenge Cup and Gold Medal, won by Gentleman Cadet S. T. Wood.
Gymnastic Bowl and Silver Medal, won by "A" Company; Company Sergeant Major B. A. Rhodes.

Dundonald Challenge Bowl and Silver Medal, won by "B" Company; Company Sergeant Major J. P. Edwards.

Dummy Thrusting, Cup and Silver Medal, won by Corporal W. M. Pearce.

Holt jumping Challenge Cup and Miniature Cup, won by Gentleman Cadet S. T. Wood.

Bayonet Fighting Silver Medal, won by Sergeant C. M. P. Fisher.

SESSIONAL PAPER No. 35

Tennis Singles, Challenge Cup and Silver Medal, won by Company Sergeant Major B. A. Rhodes.

Squash Racquets Cup, won by Gentleman Cadet C. G. Carruthers.

Handicap Squash-Racquets prize, won by Gentleman Cadet J. Galt.

Jumping on Numnahs, Cup, won by Gentleman Cadet B. H. J. Le Blanc.

Boxing, Novices, light, Gold Medal, won by Gentleman Cadet B. H. Mackenzie.

Boxing, Novices, heavy, Gold Medal, won by Gentleman Cadet H. O. D. Wilkins.

Boxing, Featherweights, Gold Medal, won by Gentleman Cadet K. L. McCuaig.

Boxing, Lightweights, Gold Medal, won by Gentleman Cadet L. Drummond.

Boxing, Welterweights, Gold Medal, won by Gentleman Cadet J. Galt.

Boxing, Middleweights, Gold Medal, won by Gentleman Cadet J. K. M. Green.

Boxing, Heavyweights, Gold Medal, won by Gentleman Cadet C. R. Godwin.

Special Prize, Canadian Rifle League Competition, 2nd Series, Small Purse, won by Lance-Corporal R. S. P. MacIvor.

Canadian Rifle League Marksman's Certificate, won by Lance-Corporal R. S. P. MacIvor.

Canadian Rifle League Marksman's Certificate, won by Gentleman Cadet J. A. Turner.

Canadian Rifle League Marksman's Certificate, won by Sergeant R. K. Robertson.

Canadian Rifle League Marksman's Certificate, won by Battalion Sergeant Major S. F. C. Sweeny.

Osler Cup for Tyro Team at "Ontario" Rifle League Competition, Miniature Cups, won by Sergeant R. K. Robertson and Gentleman Cadet J. A. Turner.

Cross Country Running, Cup, won by Gentleman Cadet L. Greene.

Cross Country Running, Challenge Shield, won by "B" Company (Company Sergeant Major R. M. Haultain).

I am, sir, your obedient servant,

(Sgd.) J. H. V. CROWE, *Colonel, General Staff,*

Commandant, Royal Military College.

APPENDIX 'C'.

REPORT OF THE BOARD OF VISITORS, ROYAL MILITARY COLLEGE,
1912.

OTTAWA, July 7, 1912.

*The Secretary,
The Militia Council.*

SIR,—I have the honour to forward, herewith, report of the meeting of the Board of Visitors, Royal Military College, held in the month of May last.

I have the honour to be, sir,

Your obedient servant,

ERNEST F. WÜRTELE, *Lieut. Colonel,*

Chairman, Board of Visitors.

REPORT.

The Board assembled at the Royal Military College, Kingston, Ont., at 4.30 p.m. on the 1st May, 1912.

PRESENT.

Chairman.—Lieut. Colonel Ernest F. Würtele, Commanding 15th Infantry Brigade.

Members.—Lieut. Colonel H. S. Greenwood, R.O.; Lieut. Colonel A. H. Macdonnell, D.S.O., Assistant Adjutant General, 1st Division; the Right Rev'd C. L. Worrell, Bishop of Nova Scotia; the Rev'd Canon Dauth, Vice Rector, Laval University, Montreal.

Secretary.—Lieut. Colonel J. S. Dunbar, Assistant Adjutant General, Militia Headquarters.

The Chief of the General Staff was unavoidably prevented from attending.

For two days the Board made careful inspection of the buildings and the grounds and instituted inquiries into the various departments of the institution, and beg to submit the following report:—

INSTRUCTIONAL STAFF.

1. Captain H. A. Kaulbach, The King's Own Royal Lancaster Regiment, vacated the appointment of Staff Adjutant and has been succeeded by Major C. N. Perreau, Royal Dublin Fusiliers.

2. Captain W. K. P. Blair, Royal Field Artillery, has been replaced by Lieutenant M. V. Plummer, Royal Field Artillery, as Assistant Instructor in Military Subjects, and Lieutenant Heyman, Royal Engineers, at the beginning of the year, took over the duties of Assistant Instructor in Surveying and Signalling, in place of Lieutenant E. F. Dawson, Royal Engineers.

SESSIONAL PAPER No. 35

3. The candidate for the Staff College, who was prepared at the Royal Military College in 1911, passed successfully and is now at Camberley. Four candidates for the next course at the Staff College have been under instruction at the Royal Military College since January.

4. Eight officers of the Permanent Force also underwent a "Refresher" course of three months.

5. It is absolutely essential that Major Robertson, who is now General Staff Officer, 5th Division, should be replaced at once by another General Staff Officer, 2nd Grade, and that another Royal Field Artillery Officer be appointed Assistant Instructor in Tactics, Artillery, Topography, &c. The establishment of General Staff Officers provides for two, but at present there is only one, which is altogether inadequate for the important and extensive work he has to do. Even with the services of Major Hopwood, of the Indian Army, which have been placed at the disposal of the College, the number of General Staff Officers is insufficient. It should be borne in mind that, beginning next November, still further extra work will be placed on the College staff, as all officers undergoing a "Long" course, which will last seven months, will take it at the Royal Military College.

6. An Assistant Professor in French, as, also, another in Mathematics, are also badly needed, for both these professors have to instruct the Staff College Officers in addition to their ordinary cadet work.

7. The fact, too, that the number of cadets has largely increased must not be lost sight of. From all the above facts, it is obvious that the College is at present under-staffed, both in officers and civil professors. The Board, therefore, strongly urge that the Staff be increased before next term, so as to enable it to be in a position to properly cope with the increasing demands upon it. In this connection, the Board consider it advisable to invite the attention of the proper authorities to the fact that at West Point there is an instructional staff of 106 for about 500 cadets, apart from the "Military Staff" of the institution. The result of this is that the ordinary classes do not consist of more than about 10 cadets, who are thereby enabled to receive individual instruction. Under the present inadequate staff at the Royal Military College, the classes have to average 40. The disadvantage to these cadets, as well as to their professors, as compared with West Point, cannot be too strongly pointed out.

SUBORDINATE STAFF.

8. The Board recommend that local warrant rank be given Staff Sergeant Harvey, Corps of Military Staff Clerks, and Quartermaster Sergeant Vokes. The former replaced Lieutenant Hennessy and is acting as Quartermaster and Paymaster. Quartermaster Sergeant Vokes is Foreman of Works and Assistant Instructor in Military Engineering. Both these non-commissioned officers are very favourably reported upon by the Commandant and their services merit recognition.

ATTENDANCE.

9. The number of cadets upon the roll this year is the largest in the history of the College. One hundred and eighteen cadets joined at the commencement of the term, of these two have since been granted their discharge at the request of their parents.

ENTRANCE EXAMINATIONS.

10. Sixty-five candidates entered for the Entrance Examinations which were held 13th-18th May. The syllabus for these examinations was the same as last year, including a paper on "General Knowledge".

SYLLABUS OF INSTRUCTION AT THE COLLEGE.

11. The time devoted to the study of Tactics was increased during the year. Military History was also taken up, and a course of lectures given to the 2nd Class on Waterloo and Jackson's Shenandoah Valley Campaign. A further course of Military History lectures was given to the Senior Class.

12. The Commandant has again suggested that an alternative course be given in the third year to cadets who do not propose to enter the engineering profession, civil or military. As a matter of fact, the number of cadets who enter nowadays to take up Civil Engineering as a profession is well below 50 per cent., yet 400 hours of the time of the graduating class during their final year is allotted to it, while 384 hours in addition are devoted to Military Engineering in that year. Such an alternative course would enable those cadets who intended taking up the profession of Civil Engineers to go much further into the subject, while those who did not so propose would get a more thorough grounding in languages and military subjects.

COURSE OF STUDIES.

13. The hours devoted to the different subjects during the past year were as follows:—

Mathematics	664	hours
Geometrical Drawing	104	"
Military Engineering	280	"
Artillery	198	"
Tactics	921½	"
Military History	26	"
Reconnaissance	80	"
Field Sketching and Map Reading	165	"
Military Administration and Law	551½	"
Surveying	337	"
Civil Engineering	396	"
Physics	182	"
Chemistry	112	"
English	1721½	"
French	264	"
Draughting	8	"
Infantry	182	"
Musketry	64	"
Gymnastics	270	"
Signalling	57	"
Stables and Equitation	393	"
Workshop	63	"

14. The Board suggest that, if possible, more English should be taught and Political History introduced. They also recommend that the present system of having outside examiners for the non-military subjects be abolished.

WAR GAME.

15. A series of inter-company war games was played during the year, in addition to exercises with officers' courses.

SESSIONAL PAPER No. 35

COMMISSIONS.

16. Twelve of last year's graduates received commissions in the Imperial Army and Permanent Force, while the remainder are being appointed to the non-permanent Militia, as vacancies occur in units in the district in which the graduate lives

PERSONNEL.

17. The cadets were seen at Battalion and Company Drill under their own non-commissioned officers, and they presented a very creditable appearance. They were steady in the ranks, the "March Past" was very well done and all the movements were carried out with precision. Some 48 cadets also gave a remarkably good display of "free gymnastics" and "vaulting the horse". The general physique of the cadets is good. The following table shows the average increase in measurements of the cadets at the date of the Board's visit:—

Class	Age Years	Height inches	Weight lbs.	Chest inches	Arm inches
1st.....	17 2-5	3-5	9 1-4	1 1-2	1
2nd.....	18	11-20	9	3-4	7-8
3rd.....	19 1-12	11-20	17	9-10	1 1-4

EQUITATION.

18. Owing to the non-construction of a covered riding school, as recommended by last year's Board, it is impossible to carry on a systematic course of instruction in equitation. From December till well into April, i.e., for the greater part of the College year, the instruction in riding is carried on under great difficulties out of doors on frozen ground or ice and the thermometer below zero, and the course must necessarily be delayed in consequence. The site exists and the Board repeat their strong recommendation that a covered riding school be constructed before the fall. The Board, also, recommend that two more remounts be purchased to bring the total up to twenty-two. The stables and the grooms' quarters were found clean and in good order.

DISCIPLINE.

19. The Commandant reported that, with one exception, the discipline of the cadets had been all that could be desired. This instance was more of a practical joke than anything else.

MESSING.

20. The messing arrangements carried out by the Canadian Permanent Army Service Corps continue to give every satisfaction. Some of the meals were sampled by the Board and found to be of good quality and well cooked.

CLOTHING.

21. Khaki has been introduced and will in time take the place of the blue undress. All the cadets interviewed by the Board stated it was not popular. The

3 GEORGE V., A. 1913

Board are of opinion that the blue serge should be retained in addition to the khaki. It is more distinctive and attractive, especially when the cadets are visiting other cities, or when outside the enclosure, when it is not compulsory to wear tunics.

MUSKETRY.

22. The Miniature Range under the gymnasium has been considerably improved, and very good work was done on it during the winter months. With the addition of a "Solano" target, this range will be complete. Work having been commenced on the new dormitory building, the old rifle range has had to be closed. A new range should, if possible, be built in the College grounds. Proposals and estimates for one along the shore of the Cataragui have been prepared.

THE FOLLOWING TABLE GIVES THE CLASSIFICATION OF MUSKETRY FOR 1911-12, TRAINED SOLDIERS' COURSE.

CLASS CLASSIFICATION.

Class	Marks-men	1st Class Shots	2nd Class Shots	3rd Class Shots	Figure of Merit	No. in Class	No. Fully Exercised	Per cent of Points Obtained	Best Shot in Class.
1st.....	4	6	11	10	131	32	29	39.1	Sergt. R. K. Robertson } Equal. Sergt. T. P. Edwards } Gentleman Cadet D. H. Storms.
2nd.....	11	9	11	7	135	39	36	40.5	
Total.....	15	15	22	17	133	71	65	39.8	

COMPANY CLASSIFICATION.

COMPANY	Marks-men	1st Class Shots	2nd Class Shots	3rd Class Shots	Figure of Merit	No. in Co.	No. Fully Exercised	Per cent. of Points obtained	Best Shot in Company.
"D".....	4	3	6	4	147.2	18	16	42.7	L.-Cpl. R. S. P. MacIvor. Gentlemen Cadet H. E. Mathews. Gentleman Cadet D. H. Storms. Cpl. A. B. Boggs.
"B".....	4	7	6	1	142.7	18	18	42.6

"C".....	..	2	7	7	113.2	17	14	33.8	

Best Shot in College..... Gentleman Cadet D. H. Storms,

Best Shot in Class..... 1st Class—} Sergt. R. K. Robertson } Equal.
Sergt. T. P. Edwards }

2nd Class—Gentleman Cadet D. H. Storms,

24. The Recruit Class of 47 members fired a complete recruits' course on the Miniature Range, 14 of whom have been classified as marksmen.

25. The College Team was placed 57th in the "Empire" match and third in Canada, with a score of 768, as compared with 725 the previous year. It, also, took third place in the 2nd series of the Canadian Rifle League Competition and fifth place in the Miniature Rifle Competition.

26. A scratch College Tyro team won the Osler Challenge Cup for best aggregate at the Ontario Rifle Association Meeting.

RECREATION.

27. The Board desire to record their disappointment at the non-erection of a covered skating-rink and drill-hall, for which, it is understood, provision was made in the 1911-12 estimates.

28. The boat-houses and wharves are being reconstructed. The Board again recommend that a special grant be given for the purchase of suitable rowboats; at present there are none at the College. The old lugger is still afloat and no more. The Board strongly recommend that it be replaced. In athletic competitions the R. M. C. was very successful during the year. It won the Intermediate

SESSIONAL PAPER No. 35

and Junior Championships and the Intermediate Dominion Championship at Football, the Intermediate Championship at Hockey, the Intercollegiate Championship at Lawn Tennis, and also won all the Cricket Matches but one played on tour. The Board recommend that new Billiard Tables be procured; those in use are completely worn out. The location of the present billiard room in the basement is unsuitable. The want of a proper library and reading room is still most marked.

HEALTH AND SANITATION.

29. The health of the cadets at the date of the Board's visit was found to be very satisfactory. With the exception of two cases of measles, and three of mumps, there were no infectious diseases during the year. The ventilation of the class-rooms during the winter months requires attention. The classes are much larger than they used to be, and the class-rooms, unless properly ventilated, must be unhealthy. The pumping, filtration and sterilizing plants continue to give satisfaction. The sanitary arrangements and bath-rooms appear to be adequate and good. The sewage system, however, requires to be renewed.

HOSPITAL.

30. The hospital was found in a satisfactory condition and very clean.

WORKSHOP.

31. The workshop was found in good order.

KITCHENS.

32. The kitchens and pantries in the main building, hospital and grooms' quarters were clean, tidy and well kept. If more modern ranges were installed in the main kitchen, it would be an improvement.

LIBRARY.

33. The Board repeat their recommendation of last year that the library be enlarged and a map-room be provided. As it is at present, it is far from being satisfactory.

LABORATORY.

34. The laboratory in the top story of the main building requires to be enlarged. It is so restricted that practical experiments can only be done by the professors and not by the cadets. There was also an apparent shortage of textbooks on Civil Engineering, Chemistry and Physics. Uncertainty exists as to who should requisition for them.

OFFICES.

35. The several offices were visited and found tidy and in good order. The books of the Acting Paymaster and Quartermaster were examined and all found to be satisfactory.

LANDS AND GROUNDS.

36. The grounds and tennis court were in good order and clean, but those near the new stables and grooms' quarters still require to be levelled and graded. This was pointed out by the Board last year. The old wooden sidewalks within the

3 GEORGE V., A. 1913

inner enclosure have been replaced by concrete ones and are a decided improvement. Those in the outer enclosure still remain to be done.

HOLIDAYS.

37. The holidays remain the same as in previous years, viz., a little over two months in summer, two weeks at Christmas and four days at Easter.

GUN SHED.

38. The Board were pleased to learn that the unsightly old gun shed was soon to be demolished and replaced by a modern one, which will also be used as a model shed.

GUN PRACTICE.

39. The Board again suggest that the cadets of the 1st Class attend Petawawa Camp for gun practice towards the end of August when the Permanent Force are in Camp.

ACCOMMODATION.

40. The necessity for immediate increased accommodation in the Educational Building cannot be too strongly urged. With the increase in the number of cadets, officers undergoing courses, etc., more class room is required. The dining-room, also, is now much too small for the present requirements; it is so much so, that the staff and officers on course have to take their meals in one of the recreation rooms. As pointed out by last year's Board of Visitors, a draughting-room, a library, laboratory and general lecture-room, are also very urgently required, and the present Board strongly recommend that they be provided in the new Educational Block, the construction of which cannot be started any too soon if the College is to be put in condition to meet the increased and ever increasing demands upon it. For the third year in succession, the Board desire to again urgently press the necessity for accommodation within the College grounds for the Instructional Staff and for the officers attending the Staff College and Long Courses. Under present conditions, much valuable time is spent in going to and from Kingston, and the advantages of having all the professors and students resident within the College domain are so apparent that it is confidently hoped that provision will be made in the estimates at a very early date for the construction of suitable quarters.

PAY AND PENSIONS.

41. The Commandant has many claims upon him as such and the Board strongly recommend that he be given an entertaining allowance.

42. The necessity for an early decision as to the pay and pension or retiring gratuity of the members of the Civil Staff cannot be too forcibly brought forward. As regards their pay, the Board beg to repeat the recommendation made in 1909, which was as follows:—

First Grade:—\$2,800 to \$3,500 per annum—Professors of Mathematics, Mechanics and Astronomy; Civil Engineering and Architecture; Physics and Chemistry.

Second Grade:—\$2,000 to \$2,500 per annum—Professors of French and English.

SESSIONAL PAPER No. 35

Third Grade.—\$1,500 to \$2,000—Assistant Professors; Instructors in Mathematics, Chemistry and Civil Engineering.

The Salaries to advance, with the approval of the Commandant, by yearly increases of \$100 until the maximum is reached.

43. As regards pensions for the Civil Staff, the Board strongly urge that steps be taken to provide some fixed gratuity or retiring allowance. The Professor of Civil Engineering, who is now in his 60th year and who has had a long service at the College, enquired as to the conditions under which he might retire, but the Board were not aware that any provision had been made to meet such cases. They therefore, recommend as follows:—

Retirements.

44. A member of the superior staff of the Royal Military College, not otherwise provided for, may be retired to promote the efficiency of the staff, under the following conditions:—

(a) If he has reached the age of fifty years, and the duration of his service has been 10 years or more, he shall receive an annuity, for life, of fifty per cent. of the annual salary which he was enjoying at the time of his retirement, with an additional two per cent. of such salary for each year's service over and above ten, but the maximum annuity shall not exceed seventy per cent. of the salary at time of retirement.

(b) If he is under fifty years of age on retirement, with at least ten years' service, he shall receive an annuity—as before described—less two per cent. of salary for each year he is under fifty.

(c) If the duration of his service has been less than ten years, he shall receive for each year's service a gratuity of one-tenth of his annual salary at the time of retirement.

(d) In case of voluntary retirement, with the approval of the Government, the gratuity will be as previously stated herein, but the annuity will be subject to a reduction of 20 per cent. if the retiring member of the staff has not reached the age of fifty.

(e) The widow of a member of the staff, to whom she has been married at least ten years before his retirement, shall receive one-half of the allowances which would have gone to her husband if he had retired at the time of his death or which he was enjoying at that time.

(f) Annuities shall be paid in monthly instalments clear of all taxes and deductions, whatsoever, imposed under any Act of Parliament of Canada.

45. The Board further recommend that the Pension Act of 1901 be so amended as to provide that the time spent by a cadet at the College shall count towards pension, should he become an officer of the permanent staff or force of Canada. At present, time in the Civil Service is allowed to count, as, also, half the time served in a non-permanent unit. This appears to the Board to be somewhat inconsistent, as, in the latter case, twelve days' drill in the year entitles an officer to count six months towards pension, whereas the three years spent at the College do not count at all.

VISITORS.

46. At the end of 1911, Their Royal Highnesses The Duke and Duchess of Connaught paid a visit to the College, when the latter presented Gentleman Cadet J. O. Leach with the Royal Canadian Humane Society's Medal for saving life in the Georgian Bay.

47. Major Holman, D.S.O., of the Commonwealth of Australia Forces, was attached to the College for one week before Easter.

3 GEORGE V., A. 1913

48. The Chairman and Members of the Board desire, in conclusion, to express their sincere thanks to the Commandant and Staff for their valuable assistance during their visit.

ERNEST F. WÜRTELE, *Lieut.-Colonel,*
Commanding 15th Infantry Brigade.
Chairman Board of Visitors.

H. S. GREENWOOD, *Lieut.-Colonel, R.O.*

A. H. MACDONNELL, *Lieut.-Colonel,*
A.A.G., 1st Division.

CLARE L., *NOVA SCOTIA.*

G. DAUTH, *Vice-Rector, Laval University,*
Montreal, P.Q.

J. S. DUNBAR, *Lieut.-Colonel,*
Assistant Adjutant-General,
Secretary, Board of Visitors.

APPENDIX 'D'.

REPORT OF THE SUPERINTENDENT DOMINION ARSENAL.

QUEBEC, August 2, 1912.

To the Secretary, Militia Council.

SIR,—I have the honour to report upon the operations of this establishment for the fiscal year ended 31st March, 1912.—

APPROPRIATION ACCOUNT.

1. The appropriation voted by Parliament and expenditure during the year were as follows:—

Amount of appropriation for fiscal year ended 31st March, 1912	\$300,000.00
Amounts refunded, as per Balance Sheet (p. 79)	30,206.33
	<hr/>
	\$330,206.33
Amount of expenditure for the fiscal year ended 31st March, 1912, as per Balance Sheet (p. 79)	\$266,980.21
Amount in Treasury to credit of appropriation on 31st March, 1912	63,226.12
	<hr/>
	\$330,206.33

EMPLOYEES AND PAY ROLL.

2. Average number of employees, 346. Total amount of salaries and wages paid, \$146,513.77.

AUDIT OF BOOKS.

3. No independent inspection of the books has been made since 1910. This should be done annually.

COST OF PRODUCTION.

4. The cost of .303" Cartridges, compared with the previous year, has again been reduced.

PROFIT AND LOSS.

5. The estimated profit on the year's work, as compared with the cost of importing, amounts to \$71,924.26, which is equivalent to 12.9 per cent. on gross capital, and a slight increase in comparison with last year.

, RATES OF PAY.

6. Wages were increased by about 5 per cent.

RECOMMENDATIONS.

7. A site for the removal of the Arsenal was purchased during the year. The existing premises are congested, and it is impossible to make satisfactory progress under these conditions. Funds are required for the erection of new buildings and removal of machinery.

STATEMENTS.

8. The following Statements are submitted:—

Balance Sheet.

Capital Account.

Statement of Indirect Expenditure.

Statement of Liabilities and Assets.

Production Statement.

Statement showing cost of manufacture, compared with cost of importing from England.

SESSIONAL PAPER No. 35

SESSIONAL PAPER No. 35

APPENDIX 'E'.

INTERIM REPORT OF THE MILITIA COUNCIL FOR THE DOMINION
OF CANADA ON THE TRAINING OF THE MILITIA DURING
THE SEASON OF 1911.

*To His Royal Highness, Field Marshal, Prince Arthur William Patrick Albert,
Duke of Connaught and Strathearn, K.G., K.T., K.P., &c., &c., &c., Governor-
General and Commander-in-Chief of the Dominion of Canada.*

SIR,—I have the honour to lay before Your Royal Highness an Interim Report on the training of the Militia of the Dominion of Canada, during the season of 1911; to be embodied at a later date in the Report of the Militia Council for the year ending March 31, 1912.

I have the honour to be, sir,
Your Royal Highness's most obedient servant,

SAM HUGHES,
Minister of Militia and Defence.

February 7, 1912.

REPORT.

The accompanying report briefly outlines the general scheme of training carried out by the Canadian Militia during the season of 1911. Appended is the report of the Inspector-General on the results of that training.

GENERAL REPORT.

1. The training of the Canadian Militia for 1911 was carried out in accordance with a Memorandum issued for their training early in the year.

2. In the preparation of this Memorandum particular stress was laid on the importance of practical field training and of tactical exercises as against mere drill training.

3. There is no doubt that in the past sufficient time has not been devoted to field training, and while valuable time has been expended in arriving at mechanical accuracy in drill movements, the necessity of tactical training has been somewhat lost sight of.

4. The work outlined to be carried out this year at Camps of Instruction was intended to bring home to all ranks the fact that their proper work at training camps lies in perfecting themselves as far as time allows in their field duties, such as marching, scouting, transmitting information, the services of protection on the march and when halted, skirmishing, fire-tactics, attack and defence, field-engineering, map-reading, &c.

5. It is hoped that the foundation has been laid for a systematic and progressive training along these lines for the future. Great interest was displayed by all ranks in this portion of their work, which it is hoped will be further recognized and developed in the coming training season.

6. For the first time general staff officers were present at many of the camps to supervise, direct and assist in the training. Their services in the future, not only at these camps, but throughout the year in the divisions and districts, will, without doubt, be of great benefit to the Militia.

7. While it has already been stated that the scheme of training for 1911 was based on the greater necessity for field training, it was found that the training programme could not at many of the camps be properly carried out owing to the limited ground available. This had already been anticipated, and partially met, by dividing the units into two camps,* so as to provide more training room and to allow more time for musketry. Even with this assistance the training grounds were quite inadequate, with the exception of Petawawa and those in western Canada.

8. To carry out proper field training for the Active Militia, sufficient and suitable training grounds are indispensable, and it is hoped may shortly be available.

9. It must further be appreciated that one of the great difficulties encountered in making the training each year more progressive is the fact that a very large percentage of the rank and file are first-year men, and, consequently, much time has to be spent in elementary instruction, during which time men with previous training should be carrying out more advanced work. Until some method can be evolved which will ensure a much larger percentage of men carrying out their obligations entered into on enlistment, progressive and more advanced training, and, consequently, efficiency for war, must suffer.

10. Arrangements were made for composite batteries from the heavy artillery brigades to carry out 16 days' continuous training and gun practice at Petawawa. This was attended only with partial success, owing to the difficulties encountered in getting men away from their employment. As in the case of the field artillery, it is very necessary for these batteries to put in a portion of their training, if possible, the whole of it, at Petawawa, where manœuvre, gun practice and fire tactics can be combined. Twenty-two horses for twelve drills at local headquarters were authorized for each battery, and much benefit derived therefrom.

11. A course for the personnel of ammunition columns was arranged for at Petawawa. The results, as regards attendance, were far from satisfactory, some three officers in all responding.

12. For the first time, Telegraph detachments of the Canadian Engineers were trained. The units were concentrated at Petawawa and 16 days' training carried out.

13. It has been recognized that city corps have been much handicapped in not devoting the proper amount of time to field training. To partially overcome this, efforts were made this year for certain units of city corps to carry out three to five days' training at Camps of Instruction. Some corps were able to make arrangements to do this, and the results obtained were satisfactory, although even this period of field training is altogether too limited for these corps. It is hoped that next year arrangements can be made by which all city corps will be able to carry out a certain number of days of their training under canvas. The necessity for this is obvious.

14. The Army Service Corps carried out their training in administering at the various Camps of Instruction. With the advent of the Divisional Organization their rôle as divisional transport and supply columns and parks requires development, and their training in this direction must be considered at once, and a commencement made during the next training season.

15. On the first occasion for four years the four arms of the Permanent Force were concentrated at Petawawa for training. The necessity for such training being carried out annually, and the various arms being given an opportunity of acting

* As at Niagara, and Aldershot, N.S.

SESSIONAL PAPER No. 35

in co-operation, was apparent. The training of the Permanent Force at a central camp annually is essential to its efficiency, and if not so trained its duties in relation to the Active Militia as regards instruction cannot be properly carried out.

SPECIAL REPORT—ARTILLERY.

16. The remarks on the training of the artillery are to be found in "Extracts from the Reports of the Royal School of Artillery", published as a separate pamphlet.

SPECIAL REPORT—ENGINEERS.

17. The Field Works' store at Petawawa, containing bridging material, and spars taken from the Artillery Range clearing, proved very satisfactory, and did away with the necessity of these companies carrying much heavy equipment into camp.

18. Ground was allotted for field works, and all types of earth works were constructed. Derricks, shears, gins, were erected, and several types of bridges.

19. The Field Troop, being a newly organized unit, was given more preliminary work, but was attached to the field companies, and got the advantage of their experience.

20. The mounted work made good progress, and the mounted drill carried out with hired local pattern wagons (with double interval) was quite satisfactory.

21. The Telegraph Detachments were taken through the syllabus laid down for these units, and in 16 days did most efficient work.

22. The number of detachments (3) enabled the instructor to train them as a Divisional Telegraph Company. Only one detachment (3rd Field Company) had qualified operators. It was found that unless these detachments have their operators trained before coming to camp, it is impossible to teach an operator in 16 days. Other operators had to be borrowed from the Royal Canadian Engineers, otherwise much valuable time would have been lost.

23. It was also found that, when any speed was required, six horses were necessary with the cable wagon on ground such as Petawawa.

24. A great advantage in having as many of the Engineer Units train at Petawawa as possible is the fact that a great saving in instruction is made, and the bridging spars and training equipment is available without transport.

SPECIAL REPORT—CORPS OF GUIDES.

25. Camps of Instruction were held at Lévis, Petawawa, Aldershot, Kamloops and Calgary.

26. There was a further falling off in the attendance of officers at camp, and the numbers were somewhat lower than last year. However, the quality of the work done and the interest displayed by those who did attend, showed marked improvement.

27. The time has now arrived when mounted companies may usefully be organized in those Commands where the officers appear best qualified to undertake the necessary instruction.

SPECIAL REPORT—MUSKETRY.

28. The scheme for musketry training for 1911 was practically similar to that of 1909 and 1910—i.e., preliminary instruction by means of tripods, sub-targets, rifle machines, miniature shooting (where possible), and as much target practice as circumstances permit.

29. The necessity for progressive preliminary instruction in musketry to individuals is better appreciated, and less difficulty in carrying it out was experienced during this season than in the past.

30. As in previous years, owing to limited range accommodation and the short training period, very little shooting beyond 100 and 200 yards was possible at the Camps of Instruction. At Goderich, gallery practice at 25 yards was carried out, as no service range was available. The construction of new ranges at Farnham, being only partially completed, it was necessary to limit the practices to ten shots at 100 yards.

31. A large percentage of the recruits attending camp this year, as in the past, have practically no knowledge of the rifle on arrival, and, as a consequence, advanced musketry training is impossible, and, if attempted, would be a waste of time.

32. It is hoped that the erection of squadron and company armouries, and the provision of at least one rifle range per regiment will be possible in the near future. When this is an accomplished fact, it is believed that it will be comparatively easy and inexpensive to do a great deal toward training recruits before the annual Camps of Instruction.

33. In the city regiments, shooting at ranges beyond 200 yards is largely practised, but very little attention is given to shooting at moving and vanishing objects.

34. Judging-distance practices have been carried out at Camps of Instruction, but, owing to the short time available, very little instruction can be given; however, it is gratifying to note that the Rural Militia as a rule are fairly good judges of distance. In the City units there is very little knowledge of this important subject.

35. The musketry returns of the Permanent Force are not yet available, but those to hand indicate a fair degree of efficiency.

36. The number of officers and non-commissioned officers capable of imparting musketry instruction is increasing through the efforts of the Canadian School of Musketry, and it is hoped, by the organization of special courses at different centres of population, to afford an opportunity to qualify a still larger number during 1912.

37. A small permanent Musketry Staff has been authorized which, when not engaged at the Canadian School of Musketry, will be available for instructional duty in the different divisions and districts.

38. In 1910 authority was obtained for the attendance of qualified Cadet Instructors at the Canadian School of Musketry. Since that date sixty have availed themselves of the privilege, of whom fifty-five qualified. It is believed that these gentlemen will, owing to their close touch with the youth of the country, be in a position to bring about results which will more than justify the expenditure on their training.

SPECIAL REPORT—SIGNALLING.

39. The signalling, with very few exceptions, has been quite satisfactory, and great improvement is looked for next year with the new system of training, especially in the rural corps.

40. The corps training at local headquarters have done excellent work, and commanding officers no doubt are taking more interest in signalling, as this year many units have presented signallers for inspection for the first time.

41. The standard of efficiency in signalling of most Cavalry and Garrison Artillery regiments is not what it should be, and as signalling is most important in these branches of the service it is necessary that this matter should receive special attention during the coming year.

SESSIONAL PAPER No. 35

42. No. 8 Section, Canadian Signalling Corps, St. John, N.B., attained the highest figure of merit in the Dominion this year, and is closely followed by the 38th Dufferin Rifles, of Brantford, Ont. These two units deserve great credit, as they have attained a very high standard of efficiency in signalling.

43. The following is a table by Divisions and Districts, showing the classification of Signallers inspected at the Annual Inspection, 1911:—

Division or District	Classification			Total.
	1st Class	2nd Class	Trained	
1st Division.....	17	25	81	123
2nd ".....	53	69	97	219
3rd ".....	37	45	78	160
4th ".....	35	22	89	146
5th ".....	12	47	32	91
6th ".....	95	36	164	295
M. D. No. 10.....	1	41	13	55
" No. 11.....				
" No. 13.....	2	9	23	34
Totals.....	252	294	577	1,123

N. B.—Column "Trained" includes semaphore signallers trained at Annual Camps 1911.

44. Permanent Force.—The efficiency of the Permanent Force is much the same as last year.

45. The classification test this year gave the Signallers an idea of what a Signaller is supposed to be able to do, and know, and it is hoped that next year an officer will be placed in charge of the Signallers at each station to assist them and impart instruction in map-reading.

46. It was found that many of the Signallers knew very little about the use of the compass, also the setting and reading of a map, which is most important for a Signaller to know.

47. More attention must be given to the use of the lamp and heliograph, also station discipline. The latter is essential in order to obtain good results.

48. Corps trained at local headquarters.—The units trained at local headquarters this year have greatly improved, both in numbers trained and in efficiency.

49. The 38th Dufferin Rifles, Brantford, Ont., obtained the highest figure of merit of corps trained at local headquarters.

50. The only corps that have fallen back this year are those in the 4th Divisional Area, and it is hoped that advantage will be taken of the evening classes that are to be held during 1912.

51. Rural Corps.—Corps training at annual camps show a marked improvement, as many signallers are now able to take tests on the lamp and heliograph in addition to the flag and semaphore.

52. A detail from each unit in camp is trained in signalling as follows:—

1st-year men.—In semaphore only, up to and including the sending of simple messages.

2nd-year men.—In semaphore and small flag, including simple messages and station work.

3rd-year men.—All the above, and, in addition, the lamp.

53. With the above system of instruction, in many cases good results have been produced. Where signallers are carried on the regimental staff and kept together during the year they improve rapidly and give great value to the corps. Unfortunately, in many cases they are recruited at haphazard without much regard to the work they are to do, and consequently are of little or no value as signallers.

54. Commanding officers of rural units should take steps to see that their signallers are, as far as possible, recruited from the same locality and kept together in camp, and, if possible, trained a little during the year.

55. More advantage should be taken of signallers on field days; it is only by this means that signalling efficiency is developed. The signallers of the 77th Wentworth Regiment and Governor-General's Body Guard obtained the highest figure of merit, respectively, of corps training at camps in the Dominion this year.

56. No. 8 Section of the Canadian Signalling Corps obtained the highest figure of merit this year, being first, of all corps in the Dominion.

57. The system has been to hold evening classes in the cities for signallers of the local corps and day classes for signallers of rural corps. This is not satisfactory, as it is impossible for many signallers in the country to leave their business to attend.

58. As the staff of assistant-instructors has been increased from two to seven, it is the intention next year to hold an evening signalling-class at the headquarters of any rural or city unit that has its signalling section properly organized, and give a bonus of \$15 to all who obtain certificates. Heretofore, signallers received nothing for their time given attending evening classes, and naturally did not take the required interest in the work, with a result that about 50 per cent. drop out before the termination of the classes, which is very discouraging to the assistant-instructors.

59. Special courses of training. Petawawa.—A special course of training was held at Petawawa during the month of August, and was attended by eight officers and six non-commissioned officers from all parts of Canada.

60. The object was to train officers and non-commissioned officers in the more advanced work in signalling and communication in the field, and also to secure uniformity in the inspection of corps and in the examination of signalling classes.

61. This course, it is considered, proved very satisfactory, and those attending received an excellent training in combined work, as the Permanent Force was in camp at the time. It is only this way that signallers can see the importance of signalling and how difficult it is to keep up communication in the field.

SPECIAL REPORT—MEDICAL SERVICES.

62. A further endeavour was made this year to train the ambulances on broad lines. Provision was made at each camp for the care of the sick sufficient to meet the demand.

63. The ambulances were thus free to carry out the schedule laid down for field training, or such modification of it as the local authorities deemed advisable.

64. The most important medical training was at Farnham, where No. VI Cavalry Field Ambulance, and Nos. II, IV, V and VII Field Ambulances were concentrated.

65. Much useful work in medical tactics was done under Lieut.-Colonel Bridges, Permanent Army Medical Corps, who was specially detailed for this duty.

66. During the inspection by the Director-General an elaborate scheme of medical tactics, involving much work, was carried out most satisfactorily.

67. At Sussex, No. I and No. VIII Field Ambulances were able to do concerted divisional training. It is to be much regretted that circumstances prevented

SESSIONAL PAPER No. 35

No. IX Field Ambulance from going to Sussex from Charlottetown and taking part in the valuable training.

68. At the first Niagara camp full advantage was not taken of the presence of a sufficient number of Field Ambulances to do co-ordinated divisional work.

69. With few exceptions, the training of the Regimental Medical Services in 1911 has been a failure.

A very large number of regiments went to camp without any stretcher-bearer section, and sometimes when the section was there its training was most perfunctory, and no attempt was made to follow the schedule.

70. The importance of the medical service detailed to regiments cannot be over-estimated. Especial attention will be directed towards this service during 1912.

71. Little training was done at Petawawa with the Permanent Army Medical Corps. It is hoped, however, to enlarge on this considerably. At present the available personnel is only sufficient to care for the sick and to carry out the heavy sanitary work of the camp.

SCHOOLS OF INSTRUCTION.

72. The usual Qualifying Courses were carried out at the Royal Schools of Instruction during the year. Provisional Schools of Instruction were formed at the following places:—

Cavalry—

Edmonton Alta.
Vernon, B.C.
Kamloops, B.C.

Artillery—

Montreal, P.Q.
St. John, N.B.

Infantry—

Three Rivers, P.Q.
Ottawa, Ont.
Toronto, Ont.
Kingston, Ont.
Brantford, Ont.
St. Catharines, Ont.
Port Arthur, Ont.
Kenora, Ont.
Fort Francis, Ont.
Winnipeg, Man.
Calgary, Alta.
Edmonton, Alta.
Vancouver, B.C.

Canadian Army Service Corps—

Montreal, P.Q.
Ottawa, Ont.
Toronto, Ont.
Hamilton, Ont.
Guelph, Ont.
Kingston, Ont. (Cookery).

Winnipeg, Man.
 Calgary, Alta.

Engineers—
 Toronto, Ont.

Medical—
 Ottawa, Ont.
 Halifax, N.S.

MILITIA STAFF COURSES.

73. Classes in the theoretical portion of the Militia Staff Course were held at Montreal, P.Q.; Quebec, P.Q.; Toronto, Ont.; Ottawa, Ont.; Kingston, Ont.; Hamilton, Ont., and Halifax, N.S. The practical portion of the course was carried out at the Royal Military College, Kingston.

74. Fifteen officers attended and all passed the final examination. Fourteen certificates were granted.

75. A special Militia Staff Course was held at Winnipeg in the autumn, lasting for a period of five weeks.

Eight officers attended and passed the theoretical portion.

Seven officers attended and passed the final examination.

Twenty-one certificates in all were granted during the year.

CITY CORPS.

76. The following city corps carried out a portion of their training at training camps, viz.:—

21st Regiment

24th “

6 days at Goderich Camp.

3rd Regiment

5th “

65th “

3 days at Farnham Camp.

Composite Regiment from—

79th Regiment

90th “

100th “

4 days at Sewell Camp.

RETURN SHOWING NUMBER OF OFFICERS AND MEN OF THE ACTIVE MILITIA TRAINED DURING THE YEAR 1911.

77. The following return shows the number of officers and men of the Active Militia trained during the year 1911:—

ANNUAL REPORT OF INSPECTOR-GENERAL

1911

From,—

*The Inspector-General,
Canadian Militia.*

To,—

*The Secretary,
Militia Council.*

OTTAWA, January 27, 1912.

SIR,—I have the honour to submit for the information of the Hon. the Minister in Militia Council, my report for 1911, upon the training and efficiency, suitability and sufficiency of equipment, and the readiness and fitness of the Military Forces of Canada for war, together with the condition of the fortifications and defences of the country.

INTRODUCTORY.

2. The great extent of Canada, and the simultaneous training of a large part of the Forces, renders observance of the whole by one individual an impossibility during any one year. Hitherto, the Chief of the General Staff has undertaken a part of the duty, but, owing to his absence in England during the main training season, the duty fell upon the Adjutant-General, who inspected many of the camps in the East, while those in the West were taken by myself.

3. Besides the actual training of a large number of units, I have personally inspected all the large armouries, the Ordnance and Army Service Corps stores, rifle ranges, Divisional and District offices, as well as the quarters, barracks and personnel of the Permanent Corps throughout, save those at Vancouver and Victoria, B.C.

4. The Fortresses at Quebec, Levis and Halifax were also seen by me.

5. Abridged or full reports of all the foregoing have been made as they occurred.

6. Full opportunity for the training of the whole of the Active Militia was again arranged for, there being no curtailment in the vote, and to which was added a sum sufficient to enable a large portion of the Permanent Corps to be brought together at Petawawa for a month, under the immediate supervision of the Chief of the General Staff.

7. In the matter of training and efficiency, our forces, being divided into two classes, viz., the Instructional or Permanent, and the Active Militia or Non-Permanent, I will deal with their respective merits, each under its own denomination, and by arms and departments of the Service.

ADMINISTRATION.

(Divisional and District Offices.)

8. All offices of this description were visited by me, and many of the records inspected, as well as the system of administration inquired into.

9. It was plainly visible that efforts were being made to meet the requirements of decentralization, but, in doing so, many minor matters which so materially

SESSIONAL PAPER No. 35

affect a true knowledge being in possession of the Divisional or District Commander, such as qualification of officers, attendance at training, and a number of other records of a similar nature, had either been lost sight of, or were not up to date, and the information without value.

10. Another important point is the necessity for having all offices occupied by officers in charge of departments of a Division, located in the same building, which is not the case at present; consequently, the necessary combination for capable administration is not present, and delays as well as lack of information on the part of the Officer Commanding is often the result.

ROYAL SCHOOLS OF INSTRUCTION.

11. One of the most important parts of our organization are the various Schools of Instruction, and it is very questionable if they are generally fulfilling their purpose. The doubt arises from the following difficulties which at present appear to nullify their usefulness:—

12. The easy opportunity of qualification afforded by Provisional Schools is the main factor.

13. The long journeys entailed in reaching, for instance, that at Kingston for Field Artillery, it being the only one of its kind in the Dominion; or that at Winnipeg, which caters for the whole of the Cavalry and Infantry of the West, is a further detriment.

14. It is also doubtful if that sympathy between teacher and pupil, so necessary to successful instruction, exists in all cases, or that instructors take sufficient pains to prepare and make their lectures and schemes interesting.

15. In so far as the actual instruction in drill is concerned, no fault can be found.

16. That the knowledge necessary to an officer or non-commissioned officer can be obtained at a Provisional School, is ridiculous to suppose, and if those aspiring to rank and responsibility are not able to devote the time required for a course at the school of their own arm, then our prospect of military efficiency becomes a doubtful issue.

17. Again, the education of officers and non-commissioned officers cannot be complete without practical instruction in interior economy, which is only to be obtained through living in barracks or camp, and which at present is not in all cases possible; for example, I would draw attention to the conditions at the Royal School of Infantry, Quebec.

18. The reason given by officers and non-commissioned officers for their preference of the Provisional School, is the saving of time which their private business or calling demands, but if their military responsibilities were distinctly understood by them in the first place, viz., that in their hands are placed the subsistence, health and lives of others, during periods of training or service; that a military organization is a large business concern in which system, energy and knowledge are the requisites, and that the real object of the Force is the preservation of the country, I am sure that the intelligence and patriotism of the Canadian would rise to meet the emergency.

19. The distribution of these Schools is also open to question; that at Fredericton could, with advantage, be combined with the one at Halifax, and thus assure the increased interest and better instruction which a large garrison naturally provides, as well as lessen the cost of the upkeep of an additional station.

20. If schools of all arms were maintained at large centres, such as Halifax, Quebec, Montreal, Kingston, Toronto, London, Winnipeg, Calgary and Esquimalt, the interest, convenience and efficiency of all concerned would be greatly increased.

21. Another important point in connection with our Military Schools, is their instructional equipment and quarters.

22. During my inspections of these institutions, conditions were apparent under both these headings, which militate against proper instruction and study, through the absence of comfortable and adequately equipped lecture or class, and individual rooms.

23. There is an alternative for the provisional and permanent system, viz., the Perambulating School, the advantage of which would consist in its moving from place to place for fixed periods, and providing at each a course upon the same lines as given at a permanent school. Such a school, however, would have its limitations in the matter of practical demonstration of military training and administration, and there is doubt of even its ability to fully meet the requirements.

PERMANENT UNITS.

24. In the maintenance of the Permanent Units up to their respective establishments, difficulty is found, arising mainly from the abundance of employment that exists in all walks of life.

25. But few Canadian born enlist, the majority of recruits obtained being immigrants from Great Britain, most of whom have had previous experience, and are, therefore, a desirable type.

26. At present the Force is some 372 officers and men under strength, a condition which in such garrisons as Halifax, Quebec, and Esquimalt, where the duties of preserving and maintaining military properties are greatest, seriously affects efficiency.

27. The efficiency of most of the combatant units has been greatly improved by the month's experience of combined training at Petawawa in August last, particularly "Lord Strathcona's Horse (Royal Canadians)," and No. 2 Company, Royal Canadian Engineers, which, for the first time, had the opportunity of taking part in such work.

28. The "Royal Canadian Dragoons" may be considered as in good order; the practice of "hogging" the horses' manes in this unit cannot, however, be commended; it is neither ornamental nor useful.

29. The recent field training given to "Lord Strathcona's Horse (Royal Canadians)" at Petawawa, was of great advantage, but its usefulness as an instructional corps is lost to a great degree, through delay in the organization of the second squadron, and for the same reason a number of officers are idle.

30. The "Royal Canadian Artillery", though under-manned, maintains a high standard of efficiency.

31. The "Royal Canadian Engineers" are fulfilling their duties satisfactorily, in so far as fortress requirements and works and repairs are concerned, but I cannot think their association with similar units of the Active Militia, from an instructional point of view, is as close as it should be.

32. The headquarter companies of "The Royal Canadian Regiment" are well in hand and efficient, but weaknesses appear in the administration of the outlying companies which require attention.

33. A change of stations and personnel, at regular intervals, might produce good results.

34. The musketry of the Permanent Force has been carried out in accordance with the syllabus laid down in Musketry Regulations, 1909, which is of a most practical character, embodying preliminary training, grouping, bulls-eye shooting, and field practices.

35. Owing to the many demands on the Permanent Force during the summer months, in connection with the training of the Active Militia, very little time is

SESSIONAL PAPER No. 35

left for rifle practice, but, with a few exceptions, the musketry has been as well carried out as circumstances permitted. The interest displayed by the young officer, however, does not always appear as keen as it should be.

36. In the matter of gun practice of the Artillery, similar conditions and remarks obtain as in the preceding paragraph, except as contained in the last sentence.

37. The condition of the various permanent units of the departmental corps varies.

38. Those of the Medical and Pay Corps appear well administered, supervised, and provided both in personnel and materiel.

39. In the Ordnance, weaknesses are apparent, arising principally from the fusion with the old Civilian Stores Branch, and consequent introduction of many individuals who had not been educated up to the higher qualifications necessary to the administration of so technical a department, and are now possibly too advanced in years to apply themselves to new conditions arising from reorganization under military regulations. A handicap is also placed upon the Corps through want of proper storehouses and fittings, consequently congestion and untidiness prevail at a number of the depôts, which must interfere with the heavy duties entailed at certain periods annually.

40. Among the personnel are many in all ranks possessed of capability and zeal; others again whose duties are only performed perfunctorily, while owing to the want of barracks or quarters near-by the several stores and offices, the officers and men are obliged to live in private houses, scattered about, and lose the advantages of military association and discipline, so essential to the soldier, besides being difficult to supervise or assemble in case of emergency.

41. The Army Service Corps has not yet acquired the efficiency necessary to its importance, because of its hurried organization and feverish anxiety to at once undertake duties in which a thorough grounding had not been obtained, with the result that its personnel contains a number who fail to comply with many of the essentials of the Corps.

42. This Department of the Permanent Service, involving so many important factors in the general efficiency of a military force, should be sound in its organization, and fully capable of educating similar units of the Active Militia, and others whose duties bring them in contact.

ACTIVE MILITIA.

(General.)

43. As has already been stated, provision was made for training the whole of the Militia in 1911, either at Camps of Instruction or local headquarters, but unfortunately a large number failed to take advantage of the opportunity.

44. The weakness in units was almost entirely confined to the Infantry Arm at Camps of Instruction, in substantiation of which a comparison between the authorized establishment and actual strength will be found under the heading "Infantry", para. 103.

45. Various explanations of this shortage are given, such as smallness of pay, the necessity for a certain standard in musketry, and the general prosperity which made the demand for labour abnormal; the latter may be taken as the real cause of the falling off.

46. The weakness in the rank and file, however, is not really of so much moment, but it is the shortage in officers, and the lack of qualification in both officers and non-commissioned officers which is to be deplored, and which reduces the efficiency of our Force; a condition which permeates more or less the various branches of the Service, though mainly, as already noted, that of the Infantry.

47. In commenting upon the absence of knowledge found among officers, it is only fair to report that there are some who have spared neither time nor money to fit themselves for their immediate, as well as higher duties, and I should be unjust in failing to acknowledge the sacrifices made, also the enthusiasm shown by those officers who have passed the examination for the "Tactical Fitness" or the "Militia Staff Courses" or who are now preparing for similar ordeals. They may be comparatively few, but the example has been set, and the hope is that it may have a large following.

48. The shortage in the establishment and qualification of officers are not the only weaknesses that strike one at Camps of Instruction, though bad enough; but what is even worse is the number absent with or without leave from training, or on trivial excuses from parades and duties.

49. In connection with the upkeep of establishments, I cannot forbear drawing attention to the vicious custom, that has more than once come under my observation, viz., the publication in local newspapers of advertisements containing inducements of a picnic variety with a view to enrolling men for camps, the result being that the "loafer" class is in evidence on the assembly of the unit.

50. Again, the eye has been constantly offended with the lack of uniformity in the dress of officers, and for no apparent reason than the desire to flatter individual vanity, by appearing in a dress different from his companions, or suitable to complexion or proportions.

51. The same disparity was observable in units, though such was attributable in many instances to the want of proper clothing in Ordnance Stores for issue, or changes in the regulations, or where corps were not yet entitled to receive the latest pattern.

52. The introduction of the new service uniform has proved a boon to non-commissioned officers and men, and gives great satisfaction, being both serviceable and smart, if properly worn.

53. A definite mode of wearing the straw hat should be prescribed, at least regimentally, in order to ensure uniformity, and officers should be obliged to provide themselves with a distinctive service dress to assimilate with that of the men.

54. On the subject of hats, that of the "Stetson" pattern appears a useless commodity, and an article for abolition.

55. A general disregard exists amongst Infantry units of the necessity for having their equipment assembled ready for use when required, consequently it is lying about in boxes, forgotten and uncared for.

CAVALRY.

56. A vital necessity for the training of the mounted branches is room, but in few camps is such to be found; therefore, until adequate training grounds are available, no substantial improvement in advanced training can be expected in Cavalry.

57. The quality of the horses brought to the several camps in 1911 was generally fair, but not equal to what would be produced if the pay was somewhat increased, as was shown in the West, where a special increase had been granted for the Artillery and Army Service Corps units. However, conditions in localities differ, and much depends upon the character of the squadron officers as to what class of animals owners will entrust them with.

58. In the matter of efficiency, the units in the West show to better advantage generally than those in the East, their superiority being in riding, horsemanship and keenness, although in the 2nd, 4th and 6th Divisions are to be found units whose efficiency maintains them in the first rank.

SESSIONAL PAPER No. 35

59. The tendency is still strong in the direction of training on the lines of Cavalry proper, and neglecting that of the role assigned our troops, and for which they are armed and equipped, viz., "Mounted Rifles".

60. In classifying the efficiency of the 33 units, a fair estimate may be obtained from the following:—

Good	16
Fair	13
Indifferent	4

61. The saddlery at camps I found none too well looked after, but this condition generally arises from lack of care previous to arrival, owing to the absence of proper storage facilities.

62. All units are now furnished with the "Colonial" pattern, which seems to give general satisfaction.

63. The equipment in possession of Cavalry units may be considered as suitable, save that issued for the purpose of carrying the rifle.

64. Carelessness in the enlistment of so-called farriers and shoeing-smiths was evident at some of the camps, for on examination many were found devoid of the least technical knowledge of their trades.

ARTILLERY.

(Field.)

65. That the Field Artillery is our most efficient arm, is generally conceded, yet though individual enthusiasm, careful instruction, together with the advantages afforded by increased length of training, and the use of the Petawawa Camp site, place the majority of units on a higher plane, there are still a few confined to the limited training areas of the extreme East and West, who fail to maintain the general average.

66. Were larger manœuvre areas available in the latter sections, results equally good might certainly be looked for from the local batteries.

67. All the brigades, save two, trained well up to their establishments, three being complete, and five of the ten brigades, with three individual batteries of other brigades, can be reported in thoroughly good order; the remainder, for the reasons already assigned, lack the standard necessary for so high a stamp of efficiency.

68. The advantage of the concurrent training and gun practice is thus strongly accentuated, and if similar accommodation to that given at Petawawa was afforded, the units to whom that camp is now inaccessible would gladly accept this mode of training, rather than do their twelve days' training in one place, and four days' practice at Petawawa, with an interval intervening, and the result that it is very often impossible to get the detachments for the latter together again.

69. The absence of four brigade commanders from Petawawa Camp must be reported as unfortunate, for that being the only ground that admits of the exercise of fire tactics under active service conditions, it would appear imperative that the tactical commanders should be present with their units throughout.

70. Another evidence of apathy occurred in connection with the training provided for the officers of Brigade Ammunition Columns, and for which every facility was given; only two attended.

71. The system of attaching an officer instructor to each brigade, and a sergeant-instructor to each battery, proved very beneficial.

72. The horses brought for training, except in the 3rd Brigade, showed an improvement over last year, although, generally speaking, but few were up to the requirements for active service.

(Heavy.)

73. Progress is being made in the training of the Heavy Artillery, whose units are beginning to realize the necessity for more practical experience.

74. Of the six batteries, one composite and one complete carried out the sixteen days' course at Petawawa; the remaining did twelve days at local headquarters and four days at Petawawa, but, as in the case of Field Batteries, this latter disconnected mode of training can never produce the necessary standard of efficiency.

75. The City Corps system of training, hitherto adopted for Heavy Artillery, has not permitted the acquisition of a knowledge of camp discipline, duties, or interior economy; nor of riding, driving or horsemanship, all so important in the full development of this arm, but under improved conditions these deficiencies will no doubt soon be remedied.

(Coast Defence.)

76. The training of the Coast Defence branch of Artillery cannot be claimed to have been entirely satisfactory.

77. Under the present distribution of the training syllabus, much time is wasted, and until the several units can be brought together at or near one of the forts, for the full period, no real proficiency can be hoped for.

78. The officers appear interested, as a rule, and the men are generally of good physique, intelligence, and of the proper stamp, so that under a revised system decided improvement should be in order.

ENGINEERS.

79. The progress made in the organization of new units for this arm is slow, the difficulty being in procuring officers and men with the necessary technical knowledge upon which to build the military structure.

80. Individuals of this type are particularly busy men, and allege they cannot afford the time required for training in camp. Such conditions, from a military standpoint, are unfortunate, as the deficiency of this branch, ever increasing in importance, cannot be too strongly deprecated.

81. Desirable officers for this arm should be obtainable from cadets of the Royal Military College.

82. Two field companies are now in progress of formation, viz., one at Kingston, Ont., in connection with the Science Department of Queen's University; the other at North Vancouver, B.C., with possibilities for one each at Winnipeg and Calgary; but in the 1st and 5th Divisions no units exist, nor can I learn that there is any likelihood of their organization—a very serious drawback in the development of the present scheme of mobilization.

83. The efficiency of existing units has certainly improved during the past season, as three of the five were sent to Petawawa Camp, and there enabled to obtain a much more extensive training under competent instructors than had hitherto been available in the restricted areas of their local camps.

84. The unit now most lacking field work is No. 4 Company at Montreal, which has always been permitted to train at local headquarters.

85. At Petawawa also were concentrated the several Telegraph Detachments, and to them was opened a broader and more technical instruction than heretofore.

86. The one omission in the training at Petawawa was the fact that more opportunity was not given to Engineer units to work with other arms.

SESSIONAL PAPER No. 35

87. Complaint is made, and I think with reason, that the period of training of field companies of this branch is too short, and that an extension from twelve to sixteen days is necessary.

CORPS OF GUIDES.

88. This corps, on a basis of reorganization, has made material progress during the last year, its training being of a more advanced character, and upon stricter lines. Its officers now, I think, fully realize the importance and highly technical cast of their duties, and, with very few exceptions, are most enthusiastically responding to the requirements.

89. The selection of officers for this service entails the most careful scrutiny on the part of those from whom the recommendations emanate, as in no other branch does "dead wood" so materially mar efficiency as in the Corps of Guides.

90. Hitherto, in the eyes of many, little or no thought has been given to its value and responsibilities, consequently it has been looked upon as a comfortable refuge for such as desired rank and uniform without the attending sacrifices.

INFANTRY.

91. In reporting upon this, the strongest arm of our Force, I shall have to deal with two distinct headings, in so far as the method of their training is carried out, viz., the "City" and the "Rural" Corps.

(City Corps.)

92. Necessity may appear to warrant, in a measure, this difference, but while City Corps can for the most part be kept up to strength, well drilled and properly regulated in interior economy, no one will think of asserting that this can ever become an efficient element of defence without field training; consequently, the step that was initiated in the scheme for 1911, viz., that of a few days in camp for these units, is certainly one in the right direction, and it is hoped will be further elaborated.

93. Few units of the City Corps, however, were represented in recent camps, but these deserve enumeration and were as follows:—

1st Division at Goderich, Ont.—

24th "Kent Regiment" of Chatham, Ont., in full strength for six days.

21st "Essex Fusiliers" of Windsor, Ont., in partial strength for four days.

4th Division at Farnham, Que.—

3rd "Victoria Rifles", 5th "Royal Highlanders", 65th Carabiniers, "Mont-Royal" of Montreal, in partial strength for three days.

No. 10 Military District at Sewell, Manitoba—

79th "Cameron Highlanders", 90th "Winnipeg Rifles", 100th "Grenadiers" of Winnipeg, one Company each for three days.

94. Although the proposition of recruiting in City Corps is more easy than in the Rural, it must not be presumed that it follows that all the first named are up to strength; many find difficulty in so doing, and are often obliged to enroll immature youths in their ranks to make a respectable showing in point of numbers.

95. Neither is the drill and interior economy of many up to the mark; a smattering of squad and arm drill, and into the ranks the recruit goes, dubbed as an efficient soldier, before he knows, in a military sense, his right foot from his left.

96. Further, in the matter of the system of administration, weaknesses and

neglect are often met with in the enrolment of men, the record of attendance, the keeping of clothing and equipment ledgers and the conduct of correspondence.

97. There are City Corps against whom all the foregoing charges may assuredly be brought, and whose value to the country is nil; on the other hand, there are those whose strength, drill, administration and enthusiasm are most praiseworthy, and against whom but one weakness can be charged, viz., that of inexperience in field training.

98. In order, however, to reach the stage of efficiency referred to, requires, under present conditions, many sacrifices and much labour on the part of the leading officers of units, and the complaint from them is strong and continuous, that owing to the work entailed they cannot in justice to their own affairs properly fulfil the responsibilities of their appointments.

99. As the most desirable and energetic of our officers are found among the successful business and professional men, it would seem very necessary that something be done towards encouraging their connection with the Militia by lightening their duties, and no better scheme in that direction presents itself to me, than the provision of paid adjutants and sergeant-majors.

100. In dress and smartness of appearance, the units of the City Corps are as a rule very creditable, and all maintain at least one good band, many two, and in a few cases three; the two latter would appear an extravagance when allowed at the expense of the small establishment of the rank and file.

101. The relative efficiency of the total number of City Corps (41) may be considered as under:—

Good	15
Fair	21
Indifferent	3
Disorganized	2

(Rural Corps.)

102. Coming to the Rural Corps, a similar classification of efficiency for the year 1911 to that given to the Cavalry and City Corps may be of interest, and stands as under, the total units numbering 58:—

Good	8
Fair	29
Indifferent	18
Disorganized	3

103. The establishment authorized for the year's training of the Rural Infantry was:—

	Officers. N.C.O.'s and men.	
Establishment	1,459	16,825
The number trained	1,019	11,558
Leaving untrained	440	5,267

bearing out my previous remarks upon the meagreness of the attendance.

104. That any great degree of efficiency has been attained at the several camps, I cannot conscientiously report. The time available is no doubt too limited, but even as it is, much better results would be apparent if officers and non-commissioned officers were able to instruct, command and administer. That these qualities

SESSIONAL PAPER No. 35

are lacking is only too obvious, and until remedied no improvement can possibly be looked for. Intelligence is not the element wanting, but as I have already pointed out, the absence of a full appreciation of the importance of the duties assumed is the root of the evil.

105. Proper qualification of the officers would soon bring about that of the non-commissioned officers, the ignorance of whom is naturally, under present conditions, mainly due to the lack of example and supervision of their leaders.

106. Touching upon the subject of administration, there are a few units in which a very good system prevails throughout, and where both regimental and company records are practically complete and up to date, but I regret to say that in the majority of regiments many of the requisite books are missing, and a lack of method in the care of those in use. Defects were most apparent in the Regimental Order Books, Record of Officers' Services, Digest of Services, Duty Roster and Register of Correspondence, while in the companies, little was known of the Section Pocket Book or Roll Book, and Service Rolls were anything but well kept.

107. Arms are, in many instances, not properly cared for during camp, and often arrive in a dirty state from lack of accommodation and facilities for care at local headquarters.

ARMY SERVICE CORPS.

108. The services of supply and transport, allotted to the Canadian Army Service Corps, are being attended to with zeal and method by nearly all its units, but there are two or three in which evidence of these qualities is not visible.

109. The duties that fall to the lot of this Corps are by no means a sinecure, but rather downright hard work, devoid of all glamour or excitement.

110. Doubtless owing to this fact, more or less difficulty has arisen in the organization of the many new units that are necessary to complete the several Divisions, for in all parts of Canada excellent material can be found in a combination of the business man and the mechanic of the city or town with the farmer in the country.

111. A recent regulation, whereby some of the most experienced and capable senior officers of the Corps were transferred to the "Reserve", thus losing the effect of their enthusiasm and ability, has had a tendency to reduce its efficiency, but it is hoped that the mistake will soon be remedied; the Force cannot afford to lose the continuous services of such officers.

ARMY MEDICAL CORPS.

112. Since its inception, the Army Medical Corps has made steady progress, and each year received commendation for its increasing efficiency and spirit.

113. It has had advantages in the form of equipment and encouragement that have not fallen to the share of other branches; but, on the other hand, it has had the determination and enthusiasm to learn its job, and then put into practice the knowledge attained, thus justifying the confidence placed.

114. From a technical standpoint, there are perhaps weaknesses in the medical administration not apparent to the ordinary soldier, but in matters of sanitation, organization and better care of the sick, great strides have certainly been made, as the much reduced returns of the sick in camps clearly show.

115. The two general hospitals recently organized appear to work satisfactorily, and three field ambulances have been added to the Corps during the past year, appearing in camp with a fairly strong personnel.

116. Additional units are still needed, and their ultimate organization probable.

117. The regimental sections of Stretcher Bearers cannot be termed effective, and so far the experiment appears to have been a failure.

SIGNALLING.

118. Progress and increased efficiency in this branch may, I think, be safely reported as the result of the year's training in all arms except the Cavalry and Garrison Artillery, who do not yet seem to appreciate the importance of it in connection with their respective requirements. There also appears much diffidence among the units of the 4th Division, which, it is hoped, will disappear in the coming year.

119. The interest in signalling is evidently growing, as many units, hitherto more or less indifferent about taking it up, have now sent men to the several classes.

120. No better evidence of the progress made can be presented than the comparisons given below of the results of the years 1910 and 1911.

	1st Class.	2nd Class.	Trained.	Totals.
1910.....	150	135	592	877
1911.....	258	300	585	1,143

121. Of the regimental units, the 38th "Dufferin Rifles" of Brantford, Ont., has obtained the highest figure of merit.

122. In addition to the courses at local headquarters and Camps of Instruction, a special course was given at Petawawa during the training of the Permanent Corps in August last. The object of this course was to train officers and non-commissioned officers in the more advanced work, and to ensure uniformity of system in the inspection of corps, and examination of individuals.

123. The attendance of this course reached eight officers and six non-commissioned officers, coming from all parts of the Dominion. It lasted a month, and very satisfactory results were obtained.

124. The condition of the Canadian Signalling Corps, now numbering thirteen sections, may, for the most part, be reported as good.

125. No. 8 Section, St. John, N.B., is rated as the most efficient.

MUSKETRY.

126. The Musketry in Camps of Instruction was, as a rule, carried out in accordance with the plan laid down in "Instructions for Training, 1911".

127. As a large percentage of recruits are sent to camps entirely ignorant of the rifle, much time is necessarily expended in preliminary instruction. This part of the work appeared to be well carried out, and full use made of the different apparatus supplied.

128. Owing to the lack of range accommodation, and the short training period, very little practice beyond 100 and 200 yards was effected, and this, while satisfactory in a measure, cannot be considered sufficient training commensurate with the need.

129. The provision of squadron and company armouries where preliminary musketry instruction could be carried out by means of sub-target guns and gallery shooting during the winter months, and increased range accommodation, which larger camp sites would give, are here again presented in a marked degree.

130. In City Corps there is an improvement, but the results are still far from satisfactory. A small percentage of certain units can be rated as first-class marksmen, while the majority are indifferent, or without any knowledge whatever of the weapon with which they are armed beyond the handling of it on parade.

131. The preliminary musketry of recruits in many city units is lacking in system, or practically neglected altogether, and men are frequently allowed on service ranges before they understand the first principles of aiming or pressing the trigger. The musketry of City Corps has the semblance of bulls-eye shooting in

SESSIONAL PAPER No. 35

preparation for Provincial and Dominion prize meetings, while practice at moving or disappearing targets is not encouraged, or only carried out in a few units by a very small number of enthusiasts.

132. And, again, very little, if any, attempt is made to carry out or interest men in "Judging Distance", a branch of training in which officers and non-commissioned officers are particularly deficient.

133. As shown under the heading of "Rifle Ranges", many of the units training at local headquarters are without ranges, and consequently are practically untrained in Musketry.

134. Better supervision of the preliminary instruction, which can be carried out on miniature ranges in all city armouries, is the first step towards ultimate efficiency, followed by the provision of field ranges at large centres, and the final assistance of the Dominion and Provincial Associations through emphasizing in their programmes of matches the importance of Active Service Competitions.

DISCIPLINE.

135. In the observance of discipline by the Active Militia, there exists a decided laxness; not owing to the commission of serious crimes, or the exhibition of rank insubordination, but rather in the evasion of duties and responsibilities, the performance of which cannot be avoided without disjoining the whole structure of military efficiency.

136. Here again appears the example of the officer, for if he shirks or slights regulations or orders by not showing promptness in the acceptance and compliance with such, how can he enforce obedience, or expect it from those under him?

ARMAMENT AND EQUIPMENT.

137. In commenting upon this subject, I must note that the recent arrival and probable early distribution of the latest Heavy, Field and Horse Artillery guns, the partial issue of the improved Government rifle, and a quantity of new "Web" equipment, has somewhat relieved our most urgent needs, but very much more requires to be done in the same direction before we can feel satisfied that we are, at any rate, as well provided as "the other fellow".

138. For Cavalry, the much vexed question of an effective mode of carrying the rifle is still undetermined, a circumstance much to be regretted.

139. Respecting the care of armament and equipment in possession of units, conditions are varied, and consequently so are the results.

140. In the Artillery and Engineer units, for which caretakers are, as a rule, provided, the condition and care can safely be classed as good. In units of the same arms which have not paid-caretakers, a much less satisfactory report must be made.

141. In units of the Cavalry, Infantry and Departmental Corps, classed as "City Corps", or quartered in the larger armouries, stores of every description are generally well kept; but in the Rural Corps, which labour under such disadvantages from lack of storage facilities, little can be looked for, and that little is easily found.

142. While the existing Engineer units are fairly well provided, the equipment necessary for new units is wanting for Field Troops, Companies and Telegraph Sections, to which should be added a certain quantity of bridging necessities.

143. Of equipment for the Army Medical Corps, there appears a supply, either on hand or under order, sufficient for the mobilization of six divisions.

144. In Signalling equipment, that in stores or in possession of detachments is enough for present purposes.

145. The provision of more water carts of some description seems an absolute and an urgent necessity, in order that means may be provided for furnishing water

to men when at drill in Camps of Instruction. Under present conditions, water has to be hawked about in pails by fatigues detailed for the purpose, a most unsoldierly practice, as well as loss of training to a number of men.

ARMOURIES.

146. Perhaps the most urgent need of our Militia is Armouries for the Rural Corps, both as means of providing a home as it were for non-commissioned officers and men, and the care and protection of the arms and equipment for which the commanders of units are responsible.

147. In connection with the large majority of City Corps, comfortable and adequate quarters are either provided or being arranged for, and the consequence is that comparatively little trouble is experienced in keeping up the strength of these units, and their stores can be maintained in good order and safety; but in the case of the unfortunate Rural Squadron or Company, very few have a place to rest "their heads", and resort has to be made to a small room on the top flight, or a shed, the cost of which to the commanding officer is generally more than his allowances. Space is lacking for a proper arrangement of his arms, equipment, etc., or the cleaning of them, so everything is piled practically in a heap, and the military pride attending order and system is lost, with the result that interest fails, the unit trains much under strength, accurate accounting is impossible, besides the risk of the loss of the whole outfit by fire.

148. Buildings to meet the requirements need not be expensive, and generally sites can be procured from municipalities free of cost.

149. Another point in favour of the provision of this accommodation, would be the effective aid given to the development and maintenance of the present scheme for mobilization, having due regard to the establishment of fittings and equipment to meet war strength requirements.

150. In conjunction with other inspection duties, I was able to include nearly all the existing Government armouries in the Dominion, and found them, more or less, adequate and in good order, and the caretaking staff generally capable, but the introduction of a civilian element thwarts the original intention of the employment of trained and deserving soldiers.

CAMP SITES.

151. No material progress can possibly be made towards real efficiency without the aid of camp grounds of large area, and these are needed in the worst way. The question has been annually referred to for many years, but much has yet to be accomplished.

152. In my peregrinations during the past two years, I have seen all in use, both Government owned, or hired for the purpose, and only one, viz., that at Petawawa, is if anything like sufficient area and under Militia control.

153. At Sewell, Man., and Calgary, Alta., ample and suitable grounds are available, belonging to the Interior and Indian Departments, respectively, from which the right of using during the training season might reasonably be effected.

154. At Aldershot, N.S., and Lévis, Que., the camp sites are in the hands of the Militia Department, but both are so limited as to be of little use. Additional land adjoining could no doubt be obtained in each case, but if not enough, or too expensive, then each of these Provinces contains wild or vacant lands that would serve the purpose, and might be acquired in the same manner as that of Petawawa.

155. The remaining sites belonging to the Militia Department are Sussex, N.B., Three Rivers and Farnham, Que., Kingston, Niagara and London, Ont.

SESSIONAL PAPER No. 35

156. None of these are of the least use for anything but drill purposes, nor is it likely that more ground can be obtained in their respective neighbourhoods, the country being too well settled.

157. The only recourse, therefore, that appears in the latter cases, is the provision of a site of proper magnitude in each divisional area or large district.

158. The longer action is delayed, the more difficult it will be to obtain land, and in the meantime money is being spent on training that does not yield its full value.

RIFLE RANGES.

159. In the provision of rifle ranges, much has been done of recent years, and there are now fifty of what might be called Government ranges. Forty of these are in good order, and meet the requirements of the local units, except perhaps at Toronto and Hamilton, Ont., and Lévis, Que., where the facilities available are inadequate to meet the necessities of both Militia and the many local Cadet Corps. The remaining ten require repairs to a greater or less extent.

160. In a few localities are to be found ranges provided and supported by Civilian Rifle Clubs, but these are generally of a makeshift character, and limited in use.

161. The following important centres are still unserved, viz.: Chatham, Peterborough, Windsor and St. Catharines, Ont.; Bury, Waterloo, Joliette and Rimouski, Que.; Regina, Saskatoon, Moose Jaw, Edmonton, Medicine Hat, Macleod and Vernon in the West; and the urgency of their needs in this respect cannot be too strongly advocated.

162. The weakness of our largest and most complete ranges, is the lack of facilities for practice at unknown distances and varied targets.

BARRACKS AND STOREHOUSES.

163. The condition generally of barracks, stables, storehouses and magazines is not good. Of the two first named, those at Halifax, Quebec, St. Johns, London, Winnipeg and Esquimalt, are in fair order, and with a few changes could be made sufficient for the troops allotted; but if the present force is to be retained at Kingston, new barracks and stables with an infirmary are indispensable.

164. At Toronto, the situation has for years been congested and unsanitary, and although a new site has been purchased, and the money voted for the erection of a new establishment, no real steps have been taken towards an alleviation of the situation.

165. For new buildings at Montreal, a similar condition prevails, while at Calgary, the centre of a large and rapidly increasing force, the absence of buildings to house the already authorized and partially organized squadron of the "Lord Strathcona's Horse (Royal Canadians)" gives rise to complaint and dissatisfaction.

166. Much also is required towards the provision of store buildings and magazines.

167. In the important centres, I find Halifax, St. John, N.B., Quebec, Ottawa, London, Winnipeg and Esquimalt, fairly well served, but in Montreal, Kingston, Toronto and Calgary, the opposite obtains, notwithstanding the fact that stores of immense value are contained in the buildings at these stations, with more or less doubt as to their safety.

FORTRESSES.

168. Two of these have been inspected by me during the year, viz., those at Quebec and Halifax, in which both the armament and works were found in good order. The works at Lévis are not yet complete.

MOBILIZATION.

169. In case of mobilization, we would at once face a dilemma regarding the provision of horses and vehicles.

170. Some years ago, with a view to meeting this contingency, the enlistment of transport wagons and teams was carried out with fair success, but the annual financial outlay thus incurred was evidently considered not worth the inadequate service assured by this means, and the scheme has been abandoned.

171. A substitute in the form of a record of all available horses fit for military purposes is supposed to be in operation, but so far I have been unable to find such in the course of my inspections.

172. The question of mobilization stores is also a very important item, and one that should receive attention at the earliest date possible.

173. I shall not pretend to dilate upon the subject here, but later on will endeavour to place my views in a more concrete form before the Hon. the Minister in Militia Council.

BOOKS.

174. I am obliged to take up the question of the manuals and books of record, prescribed by regulations, for use in the training and administration of the Militia.

175. Having already made references in this report to the defective and absent records, for which officers commanding units are responsible, it would be well to provide against the common excuse offered in such cases, viz., "not procurable but on requisition."

176. Whether this statement is generally correct, I am not prepared to say, but the list of books (educational and record) though extensive, should be kept on hand for distribution when required, thus enabling Officers Commanding Divisions and Districts to enforce more attention to this part of the interior economy of corps in their respective commands than at present can reasonably be insisted upon.

MILITARY TRAINING IN UNIVERSITIES.

177. The Military Training in Universities, inaugurated some three years ago, has not made the progress that was hoped for.

178. Small classes have been formed at McGill from which a few qualified, and this winter lectures on military subjects are again being given at the same University, but with only a fair attendance; and a similar course at Toronto. The main object, however, that of qualifying large numbers of the best educated men of the country to become officers of the Militia, has not materialized.

179. In reporting this failure I must give credit to the Science departments of both Toronto and Queen's Universities, for the provision by the former of a section of the 2nd Field Company of Engineers, and by the latter, a complete company of the same arm, now being organized.

180. That our universities can do yeoman service by developing the spirit of patriotism, was proved beyond question in the example of the company furnished

SESSIONAL PAPER No. 35

from the Toronto University in the strenuous times of 1861 and 1866, and many of whose members died in action, while others have since been foremost in the efficient maintenance of the Militia Force.

CADET CORPS.

181. As my duties do not cover the inspection of Cadet Corps, any knowledge I may have acquired of their condition, has been obtained through the records kept at the headquarters of divisions and districts, together with what has been picked up from natural cursory inquiry.

182. The organization is evidently increasing rapidly, is showing steadiness and smartness in drill, and developing both interest and skill in musketry.

183. In connection with musketry, I gather that there is a marked improvement in the interest taken by Cadets, and the Dominion and the Provincial Rifle Associations are to be commended for the efforts made to encourage their attendance at prize meetings.

184. Any encouragement given this service naturally redounds to the advantage of the Militia Force.

185. The Cadet Instructors are also doing a great deal in the same direction by qualifying themselves at the School or Schools of Musketry, and thus becoming fit to train those in their immediate charge.

186. The appointment of special officers for supervising the training of these corps seems a necessity in view of their rapid development.

RIFLE ASSOCIATIONS.

187. Wherever Government Ranges are installed, the interest in musketry is maintained and fostered through Rifle Associations (Military), and the several Provincial organizations led by that of the Dominion.

188. In many places, Civilian Rifle Associations are established, which, where regular ranges cannot be found, furnish their own, but although this class of association was instituted with a view to encouraging the youth and early manhood of the country to become proficient with the rifle, they have not in my experience fulfilled their object. It would appear better to allot the money spent upon such organizations towards the similar development of Cadet Corps.

SUMMARY.

189. It may be thought that this report bears harshly upon the condition of our Militia Force, considering the difficulties that face it in nearly every direction, and it is, therefore, perhaps incumbent upon me to state the basis upon which my remarks are founded, viz., the personal experience of many years' service in the Permanent and Active Militia, both under peace and war conditions, during the last two of which, I have been enabled to inspect and ascertain the constitution of the personnel of every unit in the Dominion, as well as the immediate surroundings and appurtenances of nearly all.

190. I am not arrogating to myself the discovery of new defects, but simply repeating and affirming, with possibly more detail, the views annunciated by General Sir John French, and my predecessor, Major General Sir Percy Lake.

191. And now I should like to enlarge a little further on the situation.

192. The main obstacles to our efficiency present themselves in two forms, each the opposite of the other, viz., lack of money on one hand, and the profusion of it in the form of successful enterprises on the other. The former militating against the provision of armouries, armament and equipment, rifle ranges and

3 GEORGE V., A. 1913

training grounds, and so placing obstacles in the prosecution of effective training in its full significance; the latter preventing individuals from sparing the time necessary to fit themselves for the military duties they have assumed, or desire to undertake, owing to the pecuniary loss likely to follow neglect of their private affairs, if present opportunities are ignored.

193. Under these circumstances, it cannot be wondered that in the Active Militia at least, serious thought is not given to the consequences sure to follow the neglect of preparation for what personal observation and history prove inevitably fall to the lot of the successful and unguarded, be it an individual or a nation.

194. In the maintenance of a Force for the defence of our possessions, its necessity is at once conceded; that the cost of our present one is far less than any similar organization in the world, can be proved beyond doubt, while the conviction that we have more to lose than any other country daily obtains increased strength.

195. In the face of this last named fact, is it not imperative that we possess a military force adequate to bear the first brunt of conflict, or at any rate cause the invader to stop and think on the threshold?

196. Can it be truthfully asserted that such is our present state, or that the object is not worthy of a whole hearted and determined effort to gain so desirable an end, in so far as energy, intelligence and money permits?

197. Have not the plaudits awarded for a church or ceremonial parade lulled us into the belief that we are fit and capable for any military strain coincident with invasion, and in the continuance of that assumption, are we not encouraging a rude awakening some day, to find ourselves far short of such a consummation, with the result. irreparable loss?

I have the honour to be, sir.

Your obedient servant,

W. D. OTTER, *Colonel*,

(*Temporary Major-General*),

Inspector-General.

REPORT
OF THE
DEPUTY MINISTER OF LABOUR
FOR THE
FISCAL YEAR ENDED MARCH 31,
1912

DEPARTMENT OF LABOUR,

OTTAWA, June 20, 1912.

To the Honourable T. W. CROTHERS, K.C., M.P.,
Minister of Labour.

SIR,

I have the honour to submit a report on the work of the Department of Labour for the fiscal year ending March 31, 1912.

The financial year 1911-12 proved to be one of abounding prosperity throughout the Dominion. The immigration was greater than in any previous year, and the western crop yield was unprecedentedly high. All lines of industry were active. A time of such marked activity has always a strong tendency to stimulate wages and to give an upward trend to prices, and is usually characterized by an increased number of industrial disputes. This, too, has been the case, the number of strikes recorded being somewhat higher than for the past few years. Fortunately, however, with one important exception, the disputes have not been of a serious character, the exception being that involving the western coal mines; a prolonged contest, affecting approximately 7,000 workers.

The immigration returns for 1911 showed a total immigration for the calendar year of 351,000, as compared with an immigration of 311,084 for 1910, a quite remarkable increase for the period; of the immigrants 175,000 came from Great Britain and 130,000 from the United States. From the trend of events during the present spring, the tide of immigration will rise higher yet, reaching, it has been predicted, not less than 400,000 for the year 1912. The upward tendency of wages, which began in 1909, continued throughout the year and was accompanied by an increase in the cost of living, this being especially marked in the case of farm products. The census of the Dominion, taken on June 1, 1911, showed a population of 7,192,338 persons, as against 5,371,315, the population shown by the census of 1901. Business failures for the year 1911 were reported by Bradstreets at 1,399, as

3 GEORGE V., A. 1913

against 1,459 in the year 1910, again an excellent showing for the past year. The foreign trade for the fiscal year 1911-12 showed an increase, in round figures, of \$100,000,000 over the year 1910-11, the total of imports and exports for the Dominion for the year being between \$800,000,000 and \$900,000,000.

The year showed great progress in railway construction, the demand for construction labourers being so heavy that, with a view to easing the situation in this respect, certain immigration regulations were relaxed. The railway mileage of Manitoba, Saskatchewan and Alberta was increased during the year by 1,459 miles, or from 8,650 to 10,109. The contract for the first section of the Hudson Bay railway was awarded during the year, and the successful tenderer was authorized in December to proceed immediately with the construction. In the building trades the activity was greater than ever before, and the building permits of the twenty-seven largest cities of the Dominion showed an increased value for the year of nearly \$30,000,000 over the preceding year.

Many of these matters bear intimately on the work of the Department of Labour, both as to the statutes administered and as to the various departmental publications. The past year has presented no specially notable feature. The different branches of work have proceeded on the usual lines and in the case of statistical enquiries considerable advance has been made.

INDUSTRIAL DISPUTES.

The record of proceedings under the Industrial Disputes Investigation Act, called for by the terms of that statute, is printed, as last year, as an appendix to the present report and under separate cover, this for the greater convenience of the Department in forwarding copies to the numerous correspondents who request information as to these matters. The number of industrial disputes generally reported for the calendar year 1911 is somewhat above the figures reported for the previous year, being ninety-seven as against eighty-four. The strikes were, as stated, chiefly of the smaller order, and the record of the year as to actual loss of time and other matters would have been particularly pleasing but for the prolonged western coal strike. The strike total for the year 1911, however, though higher than for the few years immediately preceding, is very much below the record of nine or ten years ago; in 1902, for instance, the total for the year was 123, and in 1903 the figures stood at 160. Having in mind the large increase of population during the intervening period, the present record would seem to show some improvement of feeling as between employers and employees. Of the ninety-seven disputes of the past year the building trades were responsible, as usual for a larger proportion than any other single group of industries, disputes in the building trades having totalled thirty for the year; the groups of industries coming next in order were the metal workers, clothing trades and transportation industries. The coal mining industry, however, as has been stated, included the greatest industrial strike of the year, that, namely, of the western coal mines, the severest industrial struggle in Canada for many years. This dispute belongs to an industry falling within the scope of the Industrial Disputes Investigation Act and is therefore treated in the report of proceedings under the Act. It is here mentioned only in passing to indicate its significance and bearing in con-

SESSIONAL PAPER No. 36

sidering the statistics for the year. The strike, it will be remembered, was the result of a failure to renew a working agreement expiring on March 31, 1911. A week or two after the strike had started the miners called for a Board and an inquiry took place; the strike continued in the meantime and the Board proved unable to bring the parties together. The struggle ended only in November, and the mines, when reopened on November 20, had been closed for practically eight months. It is interesting to record that the conferences which resulted in a settlement of the dispute were inaugurated by personal efforts on the part of the Honourable Robert Rogers, Minister of the Interior, who, being in the vicinity of the dispute, induced the parties to start negotiations anew. There was, during the year, no other single strike of particular magnitude. The strike of coal miners at Springhill, N.S., which had been in force from August, 1909, was formally closed in May, 1911, having continued for practically twenty-two months. This struggle is also mentioned more fully in the appendix giving the proceedings of the Industrial Disputes Investigation Act. Of the ninety-seven strikes and lockouts beginning in 1911, forty-two, practically one-half, took place in Ontario and nineteen in Quebec. But one strike was recorded in Nova Scotia. Four strikes occurred in New Brunswick, six in Manitoba, thirteen in Alberta, and ten in British Columbia. None were reported in Prince Edward Island or Saskatchewan. Two disputes extended over more than one province.

COMBINES INVESTIGATION ACT.

The Combines Investigation Act, enacted in 1910, and with the administration of which the Minister of Labour is charged, did not during the year call for active departmental work. It will be remembered that in February, 1911, an order was received by the Minister from the Honourable Mr. Justice Cannon, of Quebec, for the establishment of a Board in the case of the United Shoe Machinery Company, this process being in accordance with the requirements of the statute. A Board was duly established under the chairmanship of the Honourable Mr. Justice Laurendeau, of Montreal. Various judicial proceedings, which are mentioned in the report of proceedings under this Act for the fiscal year 1910-11, prevented the Board proceeding immediately with the investigation ordered, and it was not until November that the Board took up the inquiry, evidence being then taken at the cities of Montreal, Toronto and Quebec. It is understood at the date of writing that the investigation has been closed, but that the findings may not be presented to the Minister until the autumn.

There were no proceedings under the Act during the year with regard to any other case than that of the United Shoe Machinery Company, but the Department was in receipt of much correspondence, largely from the United States, as to the nature of the Act, and so far as possible the information desired was forwarded. A formal statement on the subject is contained in the present report.

SPECIAL DEPARTMENTAL REPORTS OF THE YEAR.

Special departmental reports appearing during the year have related to wholesale prices in Canada and to labour organization in Canada.

3 GEORGE V., A. 1913

The Wholesale Prices report for 1911 is a continuation of the inquiry discussed at some length in the annual report of the Department for 1910-11, which drew attention to the intimate bearing of the inquiry on the important question of the cost of living. The inquiry has excited the widest interest, as evidenced particularly by correspondence reaching the Department and by reviews in the newspaper press. The Department has now printed three volumes on wholesale prices, namely: (I) Wholesale Prices in Canada, 1890-1909; (II) Wholesale Prices in Canada, 1910; (III) Wholesale Prices in Canada, 1911. The increased interest in the subject covered by these several reports is perhaps but a natural consequence of the continually increasing cost of the general commodities of life. The commodities included in the departmental inquiry numbered, it will be remembered, 230 in the case of the earlier reports and has been increased in later reports. For the 1911 report the number stood at 261.

The index number, which the Department has been able to maintain as the result of its prices inquiry, and which has been published monthly in the *Labour Gazette* as part of a monthly article on retail prices, has become a feature of prices reports and is printed regularly by leading journals in Canada, as Sauerbeck's index is printed in English journals. The departmental index number, which stood at 124 for the 261 commodities included in the inquiry for 1910, reached 127.2 for the year 1911. These index numbers, it will be understood, are percentages of the average prices prevailing during the decade 1890-1899, this being the period selected by the Department as the standard of comparison throughout its investigation into wholesale prices. The statement, therefore, is equivalent to saying that wholesale prices were approximately 24 per cent higher in 1910 than in the closing decade of the last century, and that they rose during 1911 to a point over 27 per cent above that basis. An indication less specific than the above, though interesting in its way, of the extent of the rise in prices during 1911 may be obtained by noting that of the articles for which monthly price statistics are published in the present report and in the similar report for 1910, and which are therefore available for immediate comparison, 124 showed an advance during the past year while 67 remained stationary, only 82 showing declines.

The report on labour organization in Canada represented an effort in a different direction. In the report it was aimed at placing before the public in concise and definite form a statement showing details on the subject which had not been previously brought together. This report is of necessity largely statistical in character but includes a general statement as to methods of organization, and considerable general information. As the report shows, the relations as to labour organizations between the United States and Canada are closely interwoven, and the statistics printed include sufficient information bearing on this international aspect of the subject to permit a comprehensive view of the whole. The report was freely and favourably reviewed in the press and many letters have been received from both employers and employees expressing appreciation of the publication. The report becomes incidentally a labour organization directory for the Dominion and it will probably be considered desirable to publish it annually, revised to date.

SESSIONAL PAPER No. 36

TECHNICAL EDUCATION ROYAL COMMISSION.

The work of the Royal Commission on Industrial Training and Technical Education, appointed in 1910, was discussed in some detail in the departmental report for 1910-11. The general work of inquiry on the part of the Commission was brought to a close about the end of 1911. The Commission had, during the late summer of 1911, returned from Europe and the Commissioners had conferred carefully together as to the report to be presented. The preparation of the report was, after conference with the Minister, referred to Dr. J. W. Robertson, chairman of the Commission, with the assistance of Mr. Thomas Bengough, secretary of the Commission, the Commissioners generally to be called together for conference or other purposes, as occasion might require.

The inquiries of the Commission had been very extensive in character and much information and material had been gathered. The preparation of the report was therefore a task of considerable magnitude. At the close of the financial year it was understood that the report was well in hand, but some time would yet elapse before it could be formally laid before the Minister.

The publication of the *Labour Gazette* proceeded during the year without a noticeable departure to record. Mention has already been made of the public interest manifested in the index figure or price record now printed monthly in the *Labour Gazette*. The regular reports printed in the *Labour Gazette* also of strikes and industrial accidents and its statements on industrial conditions are commonly quoted at length in the daily press.

FAIR WAGES AND INSPECTION WORK.

The work of the Fair Wages branch continues to be of special importance. During the year the officers charged with the work prepared 290 schedules for different Government contracts. This brings to a point well over 2,000 the number of schedules which have been prepared by the Department since the passage of the Fair Wages resolution in 1900. Naturally the majority of the schedules have been prepared at the instance of the Department of Public Works, but other Departments figure in the record of the past year as follows: Railways and Canals, 54; Marine and Fisheries, 41; Militia and Defence, 28; Naval Service, 10; and Interior, 1.

The year has been remarkably light as to grievances arising out of the application of the fair wages principle and a few cases reported have been satisfactorily adjusted.

In some other respects the work of the branch has shown a tendency to marked development. Representations have been received from time to time by the Minister urging that an officer of the Department of Labour charged with the duties of preparing Fair Wages Schedules, &c., should be permanently located in Western Canada. These representations were made on various occasions by the Executive Committee of the Trades and Labour Congress of Canada, which has for many years waited on the Prime Minister and Minister of Labour to present resolutions passed at the annual convention of the Congress held in the month of September, and resolutions to the same effect have been passed by various Trades and Labour Councils in Western Canada, copies of which resolutions have been usually forwarded to the Minister. The continued and increasing development of Western Canada has made

more urgent the necessity for action along the lines indicated; moreover, the addition to the duties of the officers in question of certain responsibilities in the nature of inspection of railway construction work, &c., particulars of which are explained below, has required a certain reorganization of this branch of the service of the Department. Shortly before the close of the fiscal year 1911-12, therefore, it was decided to transfer to Western Canada one of the officers charged with this work, and Mr. J. D. McNiven, who had for several years performed excellent service as a Fair Wages officer, having had under his special care in this respect Ontario and Western Canada, was recently removed to Vancouver, B.C. This change made necessary the appointment of a new officer to continue throughout Ontario the duties previously performed by Mr. McNiven, and Mr. W. D. Killins was recently appointed. These changes did not come actually into effect during the year 1911-12, but so shortly after its expiration that they are properly mentioned here. Mr. Victor DuBreuil will, as in the past, perform similar work for Quebec and the Maritime Provinces.

This branch of the work of the Department has been much extended during the last year or two. The skill and experience which these officers have acquired in their investigations for the purpose of preparing Fair Wages schedules have frequently enabled them to perform service of marked usefulness to the public by the adjustment of differences between employers and employees; the good offices of the Department have been used on many such occasions without the public having been made generally aware that friction existed. In addition, the natural growth of the Dominion, and particularly the great expansion of Western Canada, has led inevitably to a large growth in government works, and the Fair Wages schedules called for by the various Departments of the Government show a tendency to continual growth, as shown above.

A further matter which may be here conveniently mentioned is one bearing on the increased duties falling on the officers of this branch. On various occasions the Minister of Labour has had representations made to him respecting the severe conditions under which, as it has been alleged, men engaged in railway construction have performed their work. Complaints on the subject have proceeded particularly from labour organizations and from the consuls and vice-consuls of those countries from which come immigrants who have been chiefly employed in this work. It has been explained that it is frequently impossible to procure accurate information, if any information at all, concerning men who are believed to have been employed in certain construction camps and who have fallen ill, or have in some cases become deceased. It has been stated that the possessions of a person deceased have not infrequently been frittered away in ineffective efforts looking to identification of the owner, or have disappeared otherwise.

The difficulty proved on inquiry by the Department to be very real, and one with which, it seemed to the Minister, a practical effort should be made to deal. After a discussion of the matter with the Chairman of the Transcontinental Railway Commission it was arranged that the Department of Labour should frame special regulations for the protection of workmen employed on railroad construction, copies of which were to be supplied to the contractors or sub-contractors controlling any section of work of any railway constructed by the Dominion Government.

SESSIONAL PAPER No. 36

Copies of the regulations and forms connected therewith are printed in the present report; the regulations, it will be noted, provide in effect that the employer shall cause the form to be filled out in the case of every employee, with all the information which is thought necessary for the purpose of identification, with names and addresses of relatives or friends, &c.; and in the event of the person concerned falling seriously ill or dying, the form relating to him is to be immediately forwarded to the Department of Labour. The form was prepared on the understanding that trouble of the nature indicated will arise chiefly in the case of immigrants of recent arrival and not well conversant with English; and when the person concerned comes from a country which is represented by consuls in Canada, the Department of Labour will immediately forward to the consular office concerned the information which has been reported. Where, however, the information shows the person ill or deceased, no matter of what nationality, to have relatives or friends in Canada whose addresses are clearly given, then the Department of Labour will communicate the information received to the parties interested.

These forms have been on application distributed in large numbers to the contractors and sub-contractors along the construction camps of the Transcontinental railroad, the Department of Labour having received the largest measure of assistance from the authorities of the Transcontinental Railway Commission. At present the regulations, &c., apply only to railway construction work performed for the Government of Canada, but it is thought the advantage to both contractors and workmen will be such that it may become possible later to extend the system to other construction work.

It should be added that the officers of the Department of Labour will be required to visit from time to time the chief points of railway constructions, with a view to reporting generally on conditions prevailing in the camps; also to inquire specially into the working of the regulations in question.

SPECIAL INQUIRIES UNDER WAY.

During the year much effective work was done on an inquiry into wages, the report resulting from which, it is believed, will be of the highest value to the public. The two questions of cost of living and rates of wages are intimately related and the inquiries which the Department is conducting on the two topics are proceeding side by side. The reports will be companion volumes and will be mutually helpful in throwing light on the somewhat intricate subjects dealt with in their pages respectively. The Department has already necessarily accumulated much information as to rates of wages but had not previously found it possible to undertake the collection from each important centre in the Dominion of wages rates in all lines of industry. The Department is endeavouring, moreover, to carry the inquiry back for a decade so that it may establish a basis for further comparison as in the case of the wholesale prices inquiry.

A further important report now well under way and which may be ready for publication during the coming summer is one showing the strikes of a decade in Can-

3 GEORGE V., A. 1913

ada. The decade concerned is that for 1901-10. The information needed for this report has been collected from month to month during the decade in question for the purposes of the *Labour Gazette* and for the furtherance of the work of the Department in so far as the latter has touched the settlement of disputes. By bringing together the figures for this period it will be possible to present the precise situation of Canada in this respect and permit apt comparisons with other countries printing similar reports, points on which the Department is frequently requested to furnish statements.

I have the honour to be,

Sir,

Your obedient servant,

F. A. ACLAND,
Deputy Minister of Labour.

I.—THE LABOUR GAZETTE.

Previous issues of the present report have described in detail the work of the Department in connection with the issuing of the *Labour Gazette*, the official monthly journal of the Department. It will be unnecessary to repeat the reference to this work, which during the past year was carried out on very much the same lines as previously.

The *Labour Gazette* is issued each month in both French and English. Its regular features are a monthly article on industrial and labour conditions for the Dominion as a whole, and in the more important industrial centres; a monthly statistical record of trade disputes in existence throughout the Dominion; a monthly statistical record of industrial accidents; a monthly reprint of immigration and colonization statistics; a quarterly record of changes in wages and hours of labour; a monthly statement of the proceedings under the Industrial Disputes Investigation Act; annual reviews of legislation affecting labour passed by the Dominion Parliament and by the legislatures of the several provinces; annual reviews of building operations; labour organization, and industrial disputes, &c.; annual reports of conventions of important labour and industrial bodies; a record of industrial agreements; and generally a current review of industrial conditions touching on such subjects as technical education, welfare work, conservation, public health, co-operation, profit-sharing, benefit associations, &c., &c. A reproduction monthly of the various fair-wage schedules inserted in Government contracts, reviews of the more important blue-books and official reports received by the Department, and a monthly account of legal decisions affecting labour throughout Canada, are also given, and a highly important feature also is a monthly statistical statement as to the course of prices. The last mentioned feature has been enlarged during the past year by the addition of a monthly summary of the course of wholesale prices, the Department's record of wholesale prices having previously been published only annually, while the record in the *Labour Gazette* previously was limited to a monthly table of retail prices in the various cities. In general terms, the *Labour Gazette* contains, as will be seen, information in so far as space permits, on all matters of special importance in the world of industry and labour, the information being gathered as before from a variety of sources, more particularly from the official correspondents of the Department resident in each centre of over 10,000 inhabitants.

II.—COMBINES INVESTIGATION ACT.

The Minister of Labour is charged with the administration of the Combines Investigation Act, a measure which received the royal assent on May 4, 1910. Briefly, the object of the Act is to place at the disposal of the people a readier and, it is believed, a more effective means than had been available in Canada of disclosing and of remedying the abuses of combines which may be formed, whether as corporations, monopolies, trusts or mergers, or in the looser forms of agreements, understandings, or arrangements, for the purpose of unduly enhancing prices or of restricting competition to the detriment of consumers or producers.

The Department received much correspondence during the year from persons who had become interested in the new statute. Publicists in the United States, interested in following the legislation in various countries on this subject, were particularly desirous of receiving details of the operation of the Canadian Act. The Act, it will be remembered, provides that a board may be established on the order of a Superior Court judge after a preliminary inquiry under stated conditions. The first order directing the establishment of a board was received in the Department on February 27, 1911, and a Board of Investigation was on that date established by the Minister of Labour. The order was issued by the Honourable Mr. Justice Cannon of the Superior Court, Quebec, under date of February 25, 1911, and related to an alleged combine on the part of the United Shoe Machinery Company of Canada in respect of the manufacture and sale of boot and shoe-making machinery; the original application under the Combines Investigation Act for the establishment of a Board of Investigation was made before Judge Cannon at Quebec, on November 10, 1910.

The establishment of the Board was completed on March 16 by the appointment of a chairman, and was composed as follows, namely: the Honourable Mr. Justice Charles Laurendeau, of the Superior Court, Montreal, chairman; Mr. William J. White, K.C., Montreal, appointed on the recommendations of the persons named in the judge's order as being concerned in the alleged combine; and Mr. Joseph C. Walsh, journalist, appointed on the recommendation of the applicants concerned in the matter. Judge Laurendeau was appointed on the joint recommendation of Messrs. White and Walsh.

In the meantime certain procedure had taken place looking to an appeal against the establishment of a Board of Investigation. On March 1, the Minister of Labour received a certified copy of an inscription in appeal against Judge Cannon's order on various grounds, and generally to the effect that Judge Cannon had not been competent to grant such order.

The Minister of Labour requested the Department of Justice to take all such steps as might be possible to permit the Board to proceed with the investigation ordered, and the Department of Justice is understood to have taken such action accordingly.

On March 21 the Board held a preliminary meeting for organization.

On March 22, pending the hearing and decision of the Court of Appeal, a petition was filed on behalf of the United Shoe Machinery Company for the issue of a writ of prohibition, enjoining the Board of Investigation from proceeding with the investigation ordered. The case was argued on March 23, before Mr. Justice Bruneau, and on April 1, a judgment was given permitting the issue of a writ prohibiting proceedings by the Board until June 15.

SESSIONAL PAPER No. 36

The appeal in question was considered by the Court of Appeals during the first week of May. A motion was made on May 5, before the court, for the dismissal of the appeal. This motion was granted by the court on May 16, the court holding that an order made, under the Combines Investigation Act, was not subject to appeal. The Department was informed that it was the intention of the United Shoe Machinery Company to apply to the Judicial Committee of the Privy Council for leave to appeal from the decision of the Court of Appeals of Quebec. In connection therewith, steps were taken by the Department of Justice to oppose the granting of the application in question.

COURT OF APPEALS DECISION.

The reasons for the judgment of the Court of Appeals of May 16, above referred to, were given by the Honourable Mr. Justice Cross, as follows:—

“COURT OF KING’S BENCH (IN APPEAL); UNITED SHOE MACHINERY COMPANY, APPELLANT;
AND DROUIN ET AL, RESPONDENTS; CROSS—JUDGE.

“This is a motion to quash the appeal. It is made on behalf of the persons who are named as respondents, and substantially on the grounds that the so-called judgment is not a judgment of court in any action or matter pending between the appellant and themselves, and in any event is not a judgment from which an appeal to this court is competent.

“The order appealed from is an order of a judge of the Superior Court directing an investigation under the Combines Investigation Act (9-10 Ed. VII., chap. 9, Canada). An investigation such as that Act provides for is not entered upon without having been directed by an order of a judge. It has been so directed, and the present appellant, having been named in the statement accompanying the application for the order as being one of six persons or companies believed to be concerned in the alleged combine, has brought up this appeal from the order, as if it were a party defendant, against the respondents who made the application under section 5 of the Act, as if they were parties plaintiff.

“The order in question is one, the original of which is not required by section 8 of the Act to be transmitted to the Registrar of Boards of Investigation—an officer of the Department of Labour of the Government—thereafter to be acted on by the Minister of Labour. The prothonotary of the Superior Court—who appears to have acted as a clerk to the judge—has nevertheless sent up to us upon this appeal a copy of the order, as if it were a record in that Court instead of in the Department of Labour. The order papers which the judge had before him have also been sent up to us, apparently by courtesy of the Minister of Labour.

“I consider that the order from which it is sought to appeal is not properly speaking a judgment of a court or judge. It does not decide any matter in issue between parties or make any adjudication against anybody, but nearly has the effect of opening the door to the investigation provided for in the Act.

“It is of the nature of those judicial acts referred to in the treatise of Poncet ‘Des jugements’ at No. 6 where the writer says: ‘Cela posé, le bon sens nous fait voir avec la même certitude que les actes ‘inobligatoires’ ou simples ne peuvent mériter la qualification propre de ‘jugements,’ car qui dit ‘jugement’ dit la fixation des rapports qui ont existé ou doivent exister entre les parties et la déclaration des droits que ces rapports ont produits ou doivent produire entre elles; en d’autres termes, on ne peut donner à un acte judiciaire de magistrature le nom caractéristique de ‘jugement,’ qu’autant qu’il en résulte une action à l’une des parties contre l’autre.’”

“To guard against ill-considered or meddling procedure, the Act has provided the requirement that an investigation shall be entered upon only after a judge who

3 GEORGE V., A. 1913

has heard the applicants has become satisfied that there is reasonable ground for it and has ordered it.

"It has been pointed out for the appellant that there is no declaration in the Act, that such an order shall be final and without appeal, such as is sometimes introduced into Acts which treat of the Proceedings of Executive Government, and it is argued that as the order is that a judge of the Superior Court, article 72 of the Code of Procedure applies and establishes the right of appeal. But from what has been said it is clear that the order here in question is not one of those decisions mentioned in article 72, but properly speaking is not a decision at all.

"It is to be remembered that the authority upon which the judge acted is that conferred by the Act which is a Dominion Statute. By section 3 the Minister of Labour is given the 'general administration' of the Act. The action which he can take is to be taken by virtue of there having been transmitted to his Department an order of a judge of the Superior Court—he need not act upon the order of any other Court.

"Where actions are about to be instituted or are pending there are numerous instances of judges' orders upon such incidents as permitting a married woman to plead, granting leave to sue '*in forma pauperis*,' fixing security, ordering the breaking open of doors, &c., which are not treated as judgments' or 'decisions' either interlocutory or final.

"We recently held at Montreal, in *Donaldson vs. Defox*, that a judge's leave to an applicant to proceed under the Employer's Liability Act was mere '*ordonnance préparatoire*' and not a judgment from which an appeal lay '*de plano*.'

"In France, it has always been recognized, in determining the question of the existence or non existence of the right of appeal, that a distinction was to be made between mere orders regulating procedure (*jugements préparatoires*) and interlocutory judgments (*jugements interlocutoires*).

"The former were not considered to be judgments properly so-called and there was no right of appeal from them, whereas from interlocutory judgments there was a right of appeal. The difficulty frequently experienced in deciding whether particular orders were to be considered of the one kind or of the other was what led to the enactment of the rules contained in article 452 of the Code of Procedure of France.

"This fact makes it manifest that there are orders of a judge which are not to be regarded as judgments or decisions of a nature to be subject to appeal. Reference may be made to what is said in the matter in *Dalloz*, Rep. Verbo '*judgment*' at Nos. 706 to 722, and in the same work, Verbis '*jugements d'avoir dire droit*,' Nos. 24 and 58, where many illustrations are given; and to *Fuzier-Hermann*, Rep. Vo. '*judgment*,' Nos. 3173 and 3174.

"The cases cited in the treatises just referred to relate in general to incidents of pending suits. It is, however, to be remembered that here there is no pending suit.

"If action is to be taken upon the order, it will be taken before quite another person, to be selected by the Executive Government. The order in question is consequently more of the nature of a '*fiat*' of the Attorney General, or of a justice's act in '*backing*' a warrant or any of those cases in which a judge is called upon to do an act in virtue of some Act of Parliament and which does not relate to the judicial determination of some right.

"It would not be successfully contended that a warrant of arrest was bad because the magistrate did not hear the person against whom it was directed before deciding to issue it.

"From such acts of a judge, there is, generally speaking, no right of appeal to an appellate court or in fact to any court of law except as may be specially given by apt enactment.

SESSIONAL PAPER No. 36

"Under a different system of law, there would be ground for saying that, in making the order here in question, the judge acted administratively, as the licensing justices in *Lord Mayor and of Leeds vs. Ryder* (1907), A.C. 420, were considered to have acted in granting renewal of certain liquor licenses.

"But, in applying our law of pleading and procedure to this matter, it is unnecessary to decide whether the judge in making this order acted judicially or administratively.

"The judge of the Superior Court is clearly designated as being the person who is to grant or refuse the order. Having made that designation, the Act straightway thereupon provides that the order itself and the related papers shall be transmitted to a department of the Executive Government there to be acted upon as the Act authorizes. That is a statutory scheme which is repugnant to the idea that another court can act in appeal from the order of the judge designated in the Act. His action is like that of a judge in making a recount of votes under the Election Act.

"The right of appeal is a substantive right and its existence, if it has any, should be clear.

"I not only cannot find that there is any clear right of appeal, but having regard to the special nature of the subject of this Act—as it was held appropriate to do in respect of the Election Act in *Theberge & Landry* and *Moses & Parker*—I consider that there is a clear legislative intent that there shall be no such right of appeal as is here sought to be exercised.

"The persons who are made to figure as respondents upon this appeal, appear to have done nothing else than to make the application provided for by the preliminary part of the Act. That did not have the effect of raising an issue between themselves and this appellant. I conclude that there is no pending suit, no judgment, no parties in issue and no appeal. In fact it cannot be said with certitude that we have any proper evidence of the existence of this order, because the prothonotary who has certified the copy which has been sent up to us was not custodian of the original of it.

"In view of what has been said it is apparent that the appellant's motion for a *certiorari* to the prothonotary of the Superior Court to add a document to the record is unfounded. The custody of such documents is not in the Superior Court but is assigned to the registrar named in the Act. We cannot order the prothonotary to send up papers which are in Government custody. Besides, in view of the tender of the document made at the hearing of the motion before us the appellant's objection ceases to have any effect.

"A few words may be added in reference to the argument made on behalf of the appellant to the effect that, though section 6 of the Act provided for hearing the application only and not an adverse party or a party supposed to be adverse, it was nevertheless a fundamental common law right of any party, who might be affected by a decision, to be heard, and that the appellant had therefore a legal right to defend itself and to be heard even though the Act does not say so. With the proposition stated in these general terms no fault is to be found. In the quite recent case of the Board of Education vs. *Rice*, 27 T.L.R. 378, it appeared that a statutory duty rested upon the Board of Education to decide 'questions' respecting administration of the Education Act and upon an action by way of '*mandamus*' to enforce the decision of such a 'question,' in the opinion expressed in the House of Lords it was said in relation to this duty of the Board: 'It will, I suppose, usually be of an administrative kind; but sometimes it will involve matter of law as well as matter of fact or even depend upon matter of law alone. In such cases the Board of Education will have to ascertain the law and also to ascertain the facts. I need not add that in doing either they must act in good faith and fairly listen to both sides, for that is a duty lying upon every one who decides anything.'

3 GEORGE V., A. 1913

"But the proceeding before us is not in the nature of a demand to have any judicial or public authority commanded to hear the appellant or to perform any other statutory duty. What the judge purports to have done in this matter can indeed be seen to come within the next following observation of the Lord Chancellor in the case just cited which is: 'But I do not think they are bound to treat such a question as though it were a trial.'

"However well founded it may be as a proposition of law, the argument does not help the appellant on the question now before us, and I refer to it now merely to show that it has not been overlooked.

"The existence of a duty to hear before deciding does not of itself impress upon the decision the character of a judgment, and it is scarcely necessary to add that if it were established that this order was bad in law that would not make the matter an appealable one.

"Upon the whole, I would quash the appeal at the instance of the persons named as respondents other than Brunet who withdrew from the proceedings at the hearing.

"It appears to me that the persons named as respondents might appropriately have ignored the appeal as being a matter to which they were not properly parties, but, as it constitutes a sort of a menace of trouble to them, they have an interest sufficient to justify the motion.

"We are unanimous in the opinion that there is no right of appeal to this court in this matter."

FURTHER APPEAL PROCEEDINGS DISALLOWED.

At the request of the Minister of Labour the Department of Justice continued to use efforts to remove all impediments to the investigation originally ordered by Judge Cannon, and the Deputy Minister of Justice proceeded to England to oppose the application of counsel representing the United Shoe Machinery Company for leave to appeal to the Privy Council. On July 12 the Department was informed that the application for leave to appeal to the Privy Council had been refused. Under these circumstances the writ of prohibition effective until September 15 now alone restrained the Board from proceeding with the investigation under the order of Judge Cannon. It is understood that the grounds on which special leave to appeal was asked were as follows, namely:—

(1) That the Combines Investigation Act is a recent Act, founded on novel principles, and the inquiry in connection with the United Shoe Machinery Company of Canada was the first investigation held under the Act, and it is of great importance that the general principles on which the Act is to be interpreted and administered should be decisively settled.

(2) That such an investigation throws a heavy burden on the persons accused of being concerned in a combine; and the methods and details of their business would be exposed to hostile competitors; and that the issue of an order for an investigation appears to remove the matter from judicial check and to place the persons involved in the hands of administrative departments.

(3) That the most crucial question arising under the Act is whether an order for an investigation is subject to appeal.

(4) That the reasons given by Mr. Justice Cross attach too little importance to the consideration that an order for an investigation under the Act is a final judicial Act involving important modifications of the ordinary civil rights of Canadian traders by subjecting these rights to curtailment by administrative departments.

(5) That the injury suffered by the petitioners by an investigation, no matter what the result might be, would far exceed the amount ordinarily justifying an appeal to the Privy Council.

SESSIONAL PAPER No. 36

So far as the Department is informed, no reasons were given for the refusal to grant leave to appeal, the Lords of the council merely stating that they would not advise His Majesty to grant such leave.

THE INVESTIGATION PROCEEDS.

The investigation before the Board commenced on November 17, and sessions of the Board were subsequently held in the cities of Montreal, Toronto, and Quebec, evidence being taken from numerous persons. The final session of the Board is understood to have been held on March 28, 1912. Argument by counsel for the respective parties was heard during May. Shortly before the date of writing, the Department received word from the Chairman of the Board stating that owing to the fact that one member of the Board had been compelled to go to England for the summer, it would not be possible to bring the proceedings to a formal close until the autumn months when, no doubt, the report will be laid before the Minister.

The Department had no part in any proceedings taken during the year with reference to any other combine or alleged combine, and had not been informed of any application made under the terms of the statute for the establishment of a Board of Investigation.

III.—WORK OF THE FAIR WAGES BRANCH OF THE DEPARTMENT— RAILWAY INSPECTION DUTIES.

The work of the Fair Wages Branch of the Department has proceeded along the usual lines, showing, however, evidences of considerable expansion, in keeping with the general progress of the Dominion and growth of population. The officers charged with the work of preparing Fair Wages Schedules prepared during the year 290 schedules for insertion in different Government contracts, thus bringing to a figure well over 2,000 the number of schedules of this nature which have been prepared by the Department since the Fair Wages Resolution was passed by the House of Commons in 1900. The schedules have been distributed among the various Departments of Government as follows, namely: Public Works, 156; Railways and Canals, 54; Marine and Fisheries, 41; Militia and Defence, 28; Naval Service, 10; Interior, 1.

Towards the close of the financial year it became evident that the increased work pertaining to Fair Wages Schedules and additional duties which fall naturally to officers who had been charged with the same might require a certain reorganization or expansion of this branch of Departmental service. While no changes took place within the fiscal year it will not be out of place here briefly to record what has occurred since the close of the fiscal year and before date of writing. Representations have been frequently made to the Minister as to the desirability of having located permanently in Western Canada one of the Departmental officers associated with the Fair Wages work. The growth and activity of Western Canada have made action along this line yet more desirable, and shortly before the close of the fiscal year the Minister decided that Mr. J. D. McNiven should be given headquarters at Vancouver, there to undertake necessary work for the Department, including the preparation of Fair Wages Schedules and other necessary duties. Mr. McNiven had for several years performed the duties of Fair Wages Officer. Mr. McNiven left for Vancouver early in May. This change made necessary the appointment of a new officer, and Mr. W. D. Killins was appointed to perform throughout Ontario the duties which had been previously performed by Mr. McNiven. Mr. Victor DuBreuil continues to perform the duties of this branch of the service for Quebec and the Maritime Provinces.

Duties of inspection have frequently fallen to the Fair Wages officers as a result of inquiries which have been made into grievances laid before the Department, and the duties of inspection have now been placed more definitely on these officers. The Minister has on various occasions received representations as to the alleged severity of conditions attaching to the labour of men engaged in railway construction. Such representations have proceeded sometimes from labour organizations and sometimes from consular representatives in Canada of those countries from which Canada receives immigrants who are chiefly employed in this work. After careful consideration and inquiry and in consultation with the President of the Transcontinental Railway Commission, it was decided that the Department of Labour should frame special regulations for the protection, as to certain matters, of workmen employed on railway construction, copies of such regulations to be supplied to the contractors or sub-contractors controlling the work of any section of any railway constructed by the Dominion Government. The regulations provide in effect that the employer shall cause the form connected therewith to be filled out in the case of every em-

SESSIONAL PAPER No. 36

ployee with the information thought necessary for the purpose of identification, &c., and in the event of the person concerned falling seriously ill or dying, the form relating to him to be immediately forwarded to the Department of Labour. The regulations and form were prepared on the understanding that trouble of the nature above indicated will arise chiefly as to immigrants of recent arrival and unable to speak English: when the person concerned comes from a country represented by Consuls in Canada the Department will immediately forward to the Consular office any information which has been reported. Where, however, the information shows the person ill or deceased, no matter of what nationality, to have relatives or friends in Canada whose addresses are clearly given, then the Department of Labour will communicate the information received to the persons indicated.

These forms have been, on application, distributed in large numbers to contractors and sub-contractors in the construction camps of the Transcontinental Railway, the Department of Labour receiving the largest measure of assistance in these matters from the authorities of the Transcontinental Railway. The officers of the Department of Labour will be required to visit from time to time the chief points of railway construction with a view to reporting generally on conditions prevailing in the camps, also to inquire specially into the working of the regulations in question.

TEXT OF REGULATIONS.

The regulations governing these matters and the identification form dependent upon the regulations are here printed:—

Special regulations of the Department of Labour for the protection of workmen employed in railway construction.

The following regulations of the Department of Labour shall be observed on all railway construction work which is performed for the Government of Canada:

1. All contractors, sub-contractors or other employers (all superintendents or foremen in cases where work is carried on by day labour) shall be required to take down and keep a careful record of the full names of all men employed (if possible on a printed form,* copies of which may be had on application to the Department of Labour), their nationality, place of birth, age, latest local address in Canada, and home address, if any, elsewhere; also the name and address of their nearest relative or representative to be communicated with in case of death, serious accident or illness.

2. The books or documents containing such record shall be open for inspection by any officer of the Department of Labour at any time it may be expedient to the Department of Labour to have the same inspected.

3. In the case of the death or serious illness of, or any serious accident to any workman, the employer (or superintendent or foreman, as the case may be), shall at once make an inventory of the man's effects, ascertain the amount of money due him for work or otherwise, and forward a statement of the same to the Department of Labour in Ottawa, along with (a) the record above mentioned, showing the workman's full name, nationality, place of birth, age, local address in Canada, and home address, if any, elsewhere, and the name and address of the workman's nearest relative or representative who should be communicated with; and (b) particulars of such accident, illness, or death, as the case may be.

* The form for use by contractors, sub-contractors or others in the keeping of such record is printed on the reverse side of this sheet.

Identification Form.

NAMES, ADDRESSES, ETC., OF WORKMEN EMPLOYED IN RAILWAY CONSTRUCTION WORK.

(To be forwarded to the Department of Labour, Ottawa, in case of death, serious accident or illness, along with an inventory of the workman's effects and a statement of the amount of money due him for work or otherwise.)

Name of contractor or sub-contractor, firm or company by whom the workman is employed.....
.....
Workman's full name.....
Date employed.....Age.....
Nationality.....
Place of birth.....
Full address in Canada.....
.....
Full home address, if any, elsewhere.....
.....
Full name of relative or representative to be communicated with in case of illness, accident or death.....

Fair Wages Complaints Investigated by the Department of Labour during the Fiscal Year Ending March 31, 1912.

The Department of Labour received during the past fiscal year sixteen complaints arising for the most part out of alleged non-compliance with conditions inserted in public contracts for the protection of labour. One of these complaints had not been disposed of at the end of the year. Two complaints which were received prior to the commencement of the fiscal year were also dealt with, in one of which an investigation had been made during the previous year but the matter had not been disposed of. Thirteen of the complaints were made the subject of special investigation by officers of the Department. The complaints related to the following subjects, namely: rates of wages, hours of labour, neglect to post up the Fair Wages Schedules, the employment of workmen other than metal lathers to perform that class of work, importation of stone from the United States, and the sub-letting of railway construction work under false pretences.

The workpeople affected, classified according to their occupations, are as follows: bridge and structural iron workers, carpenters, bricklayers, masons, stone-cutters, machinists, blacksmiths and helpers, metal lathers, railway construction labourers, builders' labourers, and ordinary labourers. Complaints were received from the workmen employed by the Department of Militia and Defence, at the Dominion Arsenal, Quebec; from the employees in the shops and yards of the Marine and Fisheries Department at the Quebec Agency; and from the workmen employed by the Board of Harbour Commissioners, Montreal.

Taking into consideration all complaints either settled or filed during the year, one had to do with work carried out in the Province of New Brunswick, eleven with work in the Province of Quebec, four with work in the Province of Ontario, one with work in the Province of Manitoba, and one with work in the Province of British Columbia.

Nine of the complaints related to work performed for the Department of Public Works, three to work performed for the Department of Marine and Fisheries, three to work performed for the Department of Militia and Defence, two to work per-

3 GEORGE V., A. 1913

formed for the Transcontinental Railway Commission, and one to work performed for the Harbour Commission of Montreal.

Of the thirteen complaints investigated by the Department during the fiscal year nine were shown to have been well founded and the matters complained of were adjusted, two were reported groundless, in one case the complainant refused to substantiate his claim, and in the other case the workmen on whose behalf the complaint had been made could not be located. Of the remaining five complaints, one was referred to the Transcontinental Railway Commission, one to the Department of Marine and Fisheries, two of the Department of Public Works,—one of these being declared not well founded,—and the other had not been disposed of at the close of the fiscal year.

A complaint against the contractors for the construction of the Red River Bridge at Winnipeg regarding the rate of wages paid to bridge and structural iron workers had been investigated by an officers of the Department during the previous fiscal year, the result of the investigation being that the claims of the workmen concerned were reported as well founded. The contractors, however, took exception to the statements embodied in the officer's report and accordingly a further investigation was conducted by an officer of the Transcontinental Railway Commission. His findings were substantially the same as those of the officer of the Department, namely, that 40 cents per hour should be paid for competent structural iron workers in the City of Winnipeg, and the working day should consist of nine hours. The matter was left in the hands of the Transcontinental Railway Commission.

In connection with the contract for the construction of the Quebec Customs House, complaint was made that the contractor had hired workmen from Levis, and further that he was paying labourers only 15 cents per hour which was lower than the rate provided for in the Fair Wages Schedule of the contract. The Department of Public Works, to whom the matter was referred, stated that the contractor could not be compelled to hire workmen from Quebec City and requested that an officer of the Department of Labour should investigate that part of the complaint respecting wages. This was accordingly done, the result being that the contractor promised to pay the rate of wages stipulated in the Fair Wages Schedule and to keep the Schedule posted up in a prominent place, which had not been done previously. It was subsequently ascertained that the Fair Wages conditions were being lived up to, and the matter was declared closed.

A copy of a resolution adopted by the City Council of Port Arthur, Ont., was received in the Department asking that an investigation should be made into the system of sub-contracts on railway construction work in order that ignorant labourers should be protected from exploitation. The work in question was that of the construction of the National Transcontinental Railway north of Lake Nipigon, and the particular case to which attention was directed was that of a gang of eight men who were hired by an agent at Duluth on the supposition that they were to receive \$2.50 per day. Upon arrival at their destination they were persuaded to accept station work, and after working seven months they were over \$1,300 in debt, having been charged exorbitant prices for supplies. On the request of the Transcontinental Railway Commissioners one of the officers of the Department was instructed to investigate these charges. The sub-contractors stated that the men's loss was due to their incompetence and produced statements of earnings by other gangs who made a profit on their work as well as some who had sustained a loss. The exorbitant prices for supplies were explained as being caused by the expenses of transportation. As the officer was unable to locate any member of the gang referred to the charges could not be proven, and no further action was taken.

The United Brotherhood of Carpenters and Joiners, Montreal, lodged complaints in connection with the non-compliance of the Fair Wages conditions of the contract

SESSIONAL PAPER No. 36

for work on the Central Post Office building in that City. One complaint was to the effect that the contractor was paying from 20 to 25 cents per hour to his workmen, thus violating the terms of the Fair Wages Schedule which called for 30 cents per hour; the other complaint was that the contractor had neglected to post up the Fair Wages Schedule. An officer of the Department visited Montreal and investigated these matters, the result being that the contractor promised to comply with the Fair Wages conditions of his contract. The matter was accordingly declared closed.

Complaint was made by the Central National Trades and Labour Council, Quebec, that the contractor for the construction of the Quebec Customs House was working bricklayers, masons and builders' labourers ten hours per day instead of nine hours as set forth in the Fair Wages Schedule of his contract. An investigation was made by one of the officers of the Department, in the course of which he pointed out to the contractor the fact that the Fair Wages Schedule called for a working day of nine hours. The contractor stated that the Fair Wages conditions should be immediately complied with. The matter was thus satisfactorily adjusted.

Complaint was made by the Montreal Branch of the Journeymen Stonecutters' Association that the rates of wages in Montreal were higher than those provided for in the Fair Wages Schedule of the contract for the erection of Postal Station 'C,' and that the hours of labour specified were not those prevailing in the district. It was subsequently stated that the stone used in the construction of the above mentioned work had been imported from the United States. In the course of the investigation it was found that the current rate of wage and working day hours for stonecutters in the City of Montreal were the same as those stipulated in the Fair Wages Schedule of the contract, namely, 40 cents per hour, eight hours per day. The officer was informed that the stone was imported from Indiana but was cut in Montreal, the Fair Wages conditions of the contract being complied with by the sub-contractor for that part of the work. No action was therefore necessary.

An investigation was made into a complaint lodged by the National Union of Carpenters on behalf of the carpenters employed by the Harbour Commissioners of Montreal. The complaint was to the effect that the workmen concerned were being paid at a rate lower than the current rate for that class of labour in Montreal. A request was made that the rate should be increased to 30 cents per hour. In the report of the officer of the Department it was stated that the demands of the men were reasonable and it was recommended that the increase asked for should be granted. The finding of the officer was transmitted to the Board of Harbour Commissioners.

Complaint was made by the Quebec Branch of the Journeymen Stonecutters' Association of North America that the stone used in the construction of the Quebec Custom House was being cut at a place outside Quebec City—St. Marc des Carrieres—and the workmen were being paid the rate of wage prevailing in that locality, namely, 31½ cents per hour, whereas the rate paid in Quebec City was 40 cents per hour. It was found on investigation that the sub-contractor in Quebec for this work had been unable to fill certain orders and had been authorized to give the extra work to a firm at St. Marc des Carrieres. It was further found that the last mentioned firm had paid the stonecutters according to the Fair Wages Schedule of the contract. The complainants having failed to substantiate their claims, the matter was declared closed.

Request was made by the National Trades Council for an investigation by one of the officers of the Department relative to the rates of wages and conditions of employment of workmen employed by the Department of Marine and Fisheries at the Quebec Agency. The Department of Marine and Fisheries expressed the wish that an investigation should be conducted by an officer of the Department of Labour.

3 GEORGE V., A. 1913

This was accordingly done and a report presented making certain recommendation. Copy of the report was then transmitted to the Department concerned.

An investigation was made into the rates of wages paid to and the nature of the work performed by the workmen employed in the Dominion Arsenal, Quebec, by the Department of Militia and Defence, the workmen concerned claiming that their wages were too low and asking that an increase might be granted them. The matter was referred to the Department of Militia and Defence, and on request of the latter a list of wages current in Quebec was prepared. The Department of Militia and Defence stated that any increase decided upon by the Department of Labour should be given the workmen concerned.

Complaint was made by the St. Marc Branch of the Journeymen Stonecutters' Association of violations by the contractor and sub-contractor for the armoury at Levis, Quebec. It was alleged that the sub-contractor was not observing the Fair Wages conditions of his contract in that he was paying stonecutters at rates varying from fifteen to thirty cents per hour and working his men nine hours per day, whereas the Fair Wages Schedule stipulated forty cents per hour and eight hours per day. One of the officers of the Department made an investigation and reported that the contractor was not complying with the Fair Wages conditions of his contract regarding the posting up of the Fair Wages Schedule; also that the complaints against the sub-contractor were well founded. The matter was referred to the Department of Public Works by whom the contract was let. The Department of Labour was later informed that the Department of Public Works had insisted upon a strict compliance with the Fair Wages conditions of the contract.

An investigation was made by one of the officers of the Department into a complaint forwarded by the International Association of Machinists on behalf of certain machinists employed by an Ottawa firm in the execution of contracts awarded by the Department of Militia and Defence. The complaint was to the effect that the Fair Wages conditions were not being lived up to by the Company. The investigation showed that the Company was paying its machinists at rates ranging from twenty-one to thirty cents per hour, the average being $24\frac{1}{2}$ cents; also that overtime was paid for at the regular rate. The report of the officer recommended that the minimum rate of wages of machinists employed on Government work should be 25 cents and that the average rate should be $27\frac{1}{2}$ cents; also that the custom prevailing in Ottawa in regard to overtime should be observed, namely, time and a half between 6 p.m. and midnight, double time between midnight and 7 a.m. and for work performed on Sundays. The Department was subsequently informed by the Company that the minimum wage paid to its machinists had been fixed at 25 cents per hour. Exception was taken by the complainants to this statement, the difference being in the main one involving the proper definition of the class of workmen concerned. It was proposed that one of the officers of the Department of Militia and Defence should co-operate with the Fair Wages Officer in an endeavour to ascertain how many employees were entitled to the minimum wage of 25 cents per hour previously recommended. The Department of Labour was informed on behalf of the members of the International Association of Machinists that they had secured an increase of ten per cent.

The United Brotherhood of Carpenters and Joiners of America lodged a complaint that the contractor for the construction of a wooden lighthouse tower on Hog Island, Chippewa, Ontario, was not complying with the Fair Wages clause of his contract providing for the payment of rates of wages generally accepted as current in each trade for competent workmen in the district where the work is carried on. It was stated that the rate for carpenters in that locality was 40 cents per hour and the working day eight hours, whereas the contractor worked his men 9 and 10 hours per day and paid from 30 to 35 cents per hour. An investigation was made by an officer of the Department who reported that the claims were not well founded and

SESSIONAL PAPER No. 36

that the contractor had been living up to the Fair Wages conditions of his contract. The result of the investigation was communicated to the complainants and the matter was dropped.

In connection with a contract for the construction of a lighthouse on St. Helen's Island complaint was made that the contractors were paying the carpenters employed on the work at a rate of 25 cents per hour instead of 35 cents, the latter being the current rate for that class of labour in Montreal at that time. The matter was referred to the Department of Marine and Fisheries with recommendations from the Department of Labour as to the rate which should be paid to carpenters on the work in question.

A complaint was received from the United Brotherhood of Carpenters and Joiners of America, St. John, N.B. that the contractor for the new Armoury building in that place was paying carpenters \$2.50 per day whereas the current rate for that class of labour was \$3.00 per day. Complaint was also made that the contractor had failed to comply with the Fair Wages conditions of his contract regarding the posting up of the Fair Wages Schedule. On inquiry it was found that the rate for carpenters at the time the contract was let was \$2.50 per day. It was understood, however, that the matter was settled satisfactorily to all concerned.

In connection with the construction of an Examining Warehouse at Vancouver, B.C., complaint was made that the carpenters employed on the work were being paid 50 cents per hour and working eight hours per day, whereas the current rate was 53½ cents per hour. It was also stated that carpenters were working nine hours instead of eight hours as provided for in the Fair Wages conditions of the contract. It was pointed out that at the time the Fair Wages Schedule was prepared the current rate for carpenters in Vancouver was 50 cents per hour. On being asked for a statement regarding wages and hours the contractors stated that they had never worked carpenters more than eight hours per day and that they were then paying \$4.25 per day. These facts were communicated to the complainant and no further action was taken.

A complaint was made by the International Brotherhood of Blacksmiths and Helpers on behalf of certain men employed on Government work in the blacksmith department of an Ottawa firm. It was alleged that they were being paid at a rate lower than the rate prevailing in the district for that class of labour, also that straight time was paid for overtime. An investigation was made by an officer of the Department, the result of which was that a recommendation was made for the payment of a rate of wage not less than 27 cents per hour for blacksmiths and 17½ cents per hour to all blacksmiths' helpers employed by the Company in the execution of Government contracts. A further recommendation was made that overtime should be paid for at a rate of time and a half, this being the custom of the trade in the City of Ottawa. The men concerned went out on strike. Shortly afterwards a meeting was held in the House of Commons at which representatives of both employers and former employees were present. At this meeting it was decided that the parties themselves should endeavour to effect an amicable settlement. No further action was therefore taken by the Department.

Complaint was received from the Wood, Wire and Metal Lathers' International Union, Montreal, Quebec, that the work of metal lathing on the old Post Office building in Montreal was being done by carpenters, bricklayers and masons. This complaint had not been disposed of at the end of the fiscal year.

Following is a tabular statement covering the various grievances investigated.

TABLE SHOWING NATURE AND RESULTS OF INVESTIGATIONS MADE BY THE FAIR WAGES OFFICERS DURING THE FINANCIAL YEAR ENDED MARCH 31, 1912.

I.—COMPLAINTS RECEIVED PRIOR TO THE BEGINNING OF THE FISCAL YEAR 1911-12 AND INVESTIGATED DURING THE YEAR.

Complaint received.	Locality and Public Work.	Department affected.	Subject of Investigation.	Disposition.
Oct. 20, '10	Winnipeg, Man., Construction of Red River Bridge.	Transcontinental Railway Commission.	That the contractors were violating the terms of the Fair Wages Clause of their contract respecting the rates of wages and hours of labour of structural iron workers.	This complaint was investigated and reported upon by an officer of the Department during the fall of 1910. The contractor, however, took exception to the rate named as the current rate for structural iron workers. A further investigation was then made by an officer of the Transcontinental Railway Commission. His findings were substantially the same as those previously submitted, and the matter was left in the hands of the Commission.
Mar. 28, '11	Quebec, Que., Construction of Customs House.	Public Works.	Alleged payment to labourers of a rate lower than that specified in Fair Wages Schedule of contract; also that labour was being hired from Lewis.	Investigation was made by an officer of the Department who reported that the contractor had promised to comply with the Fair Wages conditions of his contract. The Department of Public Works, under whose direction the contract was let, reported that it could not compel the contractor to hire Quebec workmen. The matter was therefore declared closed.

II.—COMPLAINTS RECEIVED SINCE THE BEGINNING OF THE FISCAL YEAR 1911-12, AND INVESTIGATED DURING THE YEAR.

May 8, '11	District north of Lake Nipigon, Ont., Construction of National Transcontinental Railway.	Transcontinental Railway Commission.	That men were hired to work by day labour and were then induced to take sub-contracts under conditions which often resulted in the men not only having nothing for their work but being in debt as well.	Investigation was made by an officer of the Department who reported that he had been unable to locate any member of the gang on whose behalf the complaint was made. No further action, therefore, could be taken by the Department.
June 12, '11	Montreal, Que., Alterations to Central Post Office.	Public Works.	That the Fair Wages conditions of the contract with respect to rates of wages and the posting up of the Schedule were being violated.	Investigation was made by an officer of the Department, the result of which was that the contractor promised to adhere to the Fair Wages conditions of his contract.

SESSIONAL PAPER No. 36

June 14, '11	Quebec, Que., Construction of Customs House.	Public Works.	That the Fair Wages conditions of the contract were being violated in that the contractor was working certain employees longer hours than those stipulated in the Fair Wages Schedule.	Investigation was made by an officer of the Department who reported that the contractor had stated that he would immediately give orders to have the Fair Wages condition complied with.
June 19, '11	Montreal, Que., Construction of Postal Station "C."	Public Works.	That the current rate of wages for stonecutters was higher than that embodied in the Fair Wages Schedule; also that the stone used in the work was imported from the United States.	Investigation showed that the complaint was not well founded, the rate of wages of stonecutters specified in the Fair Wages Schedule being the current rate for that class of labour. The stone used was imported from Indiana but was cut in Montreal.
June 28, '11	Montreal, Que., Work undertaken by Harbour Commissioners.	Board of Harbour Commissioners.	That the rates of wages paid by the Harbour Commissioners to carriers were less than the current rates in Montreal for that class of labour.	Investigation was made by an officer of the Department. In his report it was recommended that an increase should be given carpenters employed by the Harbour Commission, to whom the matter was referred.
July 3, '11	Quebec, Que., Construction of Customs House.	Public Works.	That part of the work having been sub-let to a firm in Ste. Marie des Carrières, the stonecutters were being paid the local rate.	Investigation was made by an officer of the Department, who reported that the complaint was not well founded, the sub-contractors for the cutting of the stone paying the workmen the rate of wages specified in the Fair Wages Schedule.
Aug. 10, '11	Quebec, Que., Workmen employed in shops and yards of the Marine & Fisheries Department.	Marine and Fisheries.	Regarding rates of wages and conditions of employment.	At the request of the Department of Marine and Fisheries an investigation was made by an officer of the Department of Labour. Certain recommendations for increases were embodied in his report, copy of which was transmitted to the Department concerned.
Aug. 16, '11	Quebec, Que., Workmen employed in Dominion Arsenal.	Militia and Defence.	Regarding rates of wages.	Investigation was made by an officer of the Department into the nature of the work performed in the Dominion Arsenal, also as to the rates of wages prevailing in the City of Quebec. A revised list was then prepared and submitted to the Department of Militia and Defence.
Aug. 16, '11	Levis, Que., Construction of Armoury.	Public Works.	That the terms of the Fair Wages clause of the contract were being violated with respect to wages and hours.	Investigation was made by an officer of the Department who reported that the complaint was well founded and also that the contractor had further violated the Fair Wages conditions of his contract in neglecting to post up the Fair Wages Schedule. The result of the investigation was communicated to the Department of Public Works by whom the contract was let. The latter Department wrote the contractor insisting upon a strict compliance with the Fair Wages clause of the contract.
Aug. 22, '11	Ottawa, Ont., Work in connection with certain Government contracts.	Militia and Defence.	Alleged violation of Fair Wages conditions in certain Government contracts.	Investigation was made by an officer of the Department. His report embodied certain recommendations regarding wages and overtime rates of machinists in accordance with the custom of the trade in the City of Ottawa. A difficulty then arose regarding the classification of the employees. It was understood that the matter was settled satisfactorily, the company granting an increase in wages.

TABLE SHOWING NATURE AND RESULTS OF INVESTIGATION, &c.—Continued.

Complaint received.	Locality and Public Work.	Department affected.	Subject of Investigation.	Disposition.
Nov. 10, '11.	Hog Island, Chippewa, Ont. Construction of lighthouse tower	Marine and Fisheries.	That the contractor was violating the Fair Wages clause of his contract in paying less than the current rate and working longer hours than those specified in the Fair Wages Schedule.	Investigation was made by one of the officers of the Department, who reported that the complaints were groundless. The complainant was unable to substantiate his claims, and accordingly the matter was declared closed.
Nov. 28, '11.	St. Helen's Island, Montreal, Que. Construction of lighthouse.	Marine and Fisheries.	That carpenters were being paid a lower rate of wage than that current in the City of Montreal.	The matter was referred to the Department of Marine and Fisheries under whose direction the contract was let, the Department of Labour submitting certain recommendations regarding the rate which should be paid carpenters on the work in question.
Jan. 15, '12.	St. John, N.B. Construction of armory.	Public Works.	That the contractor was paying a lower rate to carpenters than the current rate; also that he had not posted up the Fair Wages Schedule of his contract.	It was ascertained that the rate for carpenters at the time the Fair Wages Schedule was prepared was \$2.50 per day, whereas the rate at the time the complaint was made was \$3.00. The matter was referred to the Department of Public Works by whom the contract was let. It was understood that the matter was settled satisfactorily.
Jan. 23, '12.	Vancouver, B.C. Construction of examining warehouse.	Public Works.	That the rate for carpenters specified in the Fair Wages Schedule was lower than the current rate; also that contractor was working carpenters 9 hours instead of 8 hours per day.	It was ascertained that the contractor had been living up to the Fair Wages conditions of his contract regarding the hours of labour; also that he had been paying carpenters the current rate which was higher than that specified in the Fair Wages Schedule, the same having been prepared prior to the increase.
Jan. 31, '12.	Ottawa, Ont. Work in connection with certain Government contracts.	Militia and Defence.	That the Blacksmiths and helpers employed by an Ottawa firm on Government work were being paid less than the current rate provided for in the Fair Wages conditions of the contract; also that straight time was paid for overtime.	An investigation was made by an officer of the Department. His report contained recommendations regarding wages and overtime rates. The matter was understood to have been finally settled by negotiations between the parties concerned and others who were interested.

SESSIONAL PAPER No. 36

III.—COMPLAINTS RECEIVED DURING THE FISCAL YEAR 1911-12, BUT REMAINING UNDISPOSED OF AT THE END OF THE YEAR.

Mar. 26, '12.	Montreal, Que., Public Works, Work on old Post Office.	That metal lathing was being done by other classes of labour.	The investigation had not been entered upon at the close of the fiscal year.
---------------	--	--	--

IV.—WHOLESALE AND RETAIL PRICES—SPECIAL REPORT BY THE DEPARTMENT ON THE COURSE OF PRICES DURING 1911.

The Department has continued during the past year its current investigation into the course of Wholesale and Retail Prices, issuing in this connection during March, 1912, a special report dealing with the course of prices in Canada during the preceding calendar year. The report dealt largely with Wholesale Prices and was the third of the kind to be published by the Department. The first report it may be recalled, was published in 1910 and covered the twenty years 1890-1909 inclusive. In it the Department stated its intention of carrying the investigation forward currently and of issuing periodic reviews and analyses of the results. In accordance with this design a monthly summary of price fluctuations with an estimate of their relative importance now appears in *The Labour Gazette*, the official journal of the Department, while a special report in more detail is made at the close of each year. The report issued in March thus brings the survey of the subject by the Department from the beginning of 1890 down to date of December, 1911, i.e. over the past twenty-two years.

SCOPE AND ARRANGEMENT OF THE REPORT.

The original investigation covered 230 articles selected for their representative character. As explained in the first report, however, the list, though as complete as was possible at the time, was not regarded as final, and efforts have since been made to extend it. Six additional commodities were included in the annual report for 1910. To these have now been added twenty-four others. For each of the articles thus added a series of quotations was secured back to 1890 so as to ensure uniformity of statistical treatment throughout, especially in the matter of including them in the Department's index number, for which the base period is the decade 1890-1899. These historical tables are published in Appendix A of the report. The Department's index number for 1911 accordingly covers 261 articles.

The manner of quoting prices was the same as in the earlier reports except that for certain articles subject to rapid fluctuations (grains, live animals, butter, eggs, and fresh fruits,—twenty-five in all) weekly instead of monthly quotations have been obtained.

The arrangement of subject matter was the same as in the report for 1910.

RETAIL PRICES DURING 1911.

A new feature of the report is an Appendix giving a comparative view of retail prices throughout Canada during 1910 and 1911. Since the beginning of 1910 the Department has secured on the fifteenth of each month a return from the correspondents of *The Labour Gazette* (resident in each locality of the Dominion having a population of 10,000 and over, forty-nine in all) showing the current retail prices of some thirty articles which enter prominently into cost of living, together with a statement in each case as to rentals. It is thought that probably 80 per cent of the expenditure of the ordinary family is represented in these returns, while the localities selected are the most important industrially in the several provinces. The prices on the first of each quarter in the two years 1910 and 1911 reported in this way to

SESSIONAL PAPER No. 36

the Department were averaged and the results set forth in the table in the Appendix, with a brief analysis of the nature and extent of the changes shown as between 1910 and 1911. They amounted to about 5 per cent increase.

COURSE OF WHOLESALE PRICES.

Turning to the findings of the report as to the course of wholesale prices the following statement is made:—

'Wholesale prices in Canada reached during 1911 a general level higher probably than in any previous year within the present generation. The detailed statistical record of the Department of Labour on the subject goes back to 1890; within that period prices have only once approached a high point comparable with those of the past year, namely, in 1907, and as may be seen from the diagram which is published on the preceding page, the level is distinctly higher now than then. Looking to the period prior to 1890, prices ranged very high in the early 70's but were lower in the later years of that decade; in the decade 1880-90 they rose again, reaching a higher level than in 1890-1900. Accepting the findings of the most authoritative foreign index numbers as roughly applicable to Canada for these earlier years, it is safe to say that prices have been higher in Canada in the year just past than at any time since 1882-4 or possibly since 1872-3.

'The upward movement during 1911 which effected this result did not develop with any degree of strength during the first six months of the year. From the middle of June onward, however, the advancing trend became pronounced and continuous, each month showing a material gain over its predecessor, the year closing without appreciable check to the tendency and with November and December prices on the highest levels of the twelvemonth. Between January 1 and December 1, the average rise may be set down as approximately three per cent. How the level varied from month to month in the interval may be conveniently seen from the chart on the next following page in which the line indicates the course followed throughout 1911 by the combined prices of 261 articles, including the most important commodities of Canadian commerce, and selected as representative in so far as possible of all phases of production and consumption in Canada.

'Comparing the average level for the year as a whole with that of 1910, the Department's index number which was 124.0 for the 261 commodities above mentioned in 1910 was 127.2 in 1911. These numbers, it will be understood, are percentages of the average prices prevailing during the decade 1890-1899, this being the period selected by the Department as the standard of comparison throughout its investigation into wholesale prices. The statement, therefore, is equivalent to saying that wholesale prices were approximately 24 per cent higher in 1910 than in the closing decade of the last century, and that they rose during 1911 to a point over 27 per cent above that basis.

'An indication less specific than the above, though interesting in its way, of the extent of the rise in prices during 1911 may be obtained by noting that of the articles for which monthly price statistics are published in the present report and in the Department's similar report for 1910, and which are therefore available for immediate comparison, 124 showed an advance during the past year while 67 remained stationary, only 82 showing declines.'

CIRCUMSTANCES OF THE RISE.

Reviewing the circumstances attending the rise above mentioned the report states:—

'The year was one of general trade prosperity and industrial expansion in Canada. The heavy immigration movement, the very pronounced activity in rail-

3 GEORGE V., A. 1913

way construction and other building operations, the enlarged outputs of manufacturing establishments, and the increased volume of trade, foreign and domestic—in which fields the returns of the year uniformly indicated a marked advance over those of 1910—all united in causing an exceptionally keen demand for materials, with resultant enhancement in prices. In foodstuffs, at the same time, the unfavourable crop reports of the summer and autumn months worked similar tendencies. Grains advanced sharply, and though there was a decline in live animals and meats this was attributed to feed shortage and cannot be regarded as an alleviation in fundamental conditions. Moreover, imported foods, including sugar, were on decidedly higher levels. The financial tone was favourable, and the gold production the largest recorded. From a cost of living standpoint, therefore, notwithstanding declines in cotton, rubber, and a few important instances, the year must be regarded as having, through this double influence of crop shortage and accelerated consumption distinctly intensified the situation which had previously given rise to such widespread comment, though industrially and commercially it constitutes on the whole a very favourable record.'

FEATURES OF THE ADVANCE.

Some light in detail on the movements above referred to is thrown by a table of the Department's index numbers throughout 1911 for the various groups of articles into which the investigation has been divided. It may be noted, for example, that grains and fodder, dairy products, fish, fresh fruits and vegetables, miscellaneous groceries and provisions, hides, leathers and boots and shoes, metals, implements, fuel and lighting, house furnishings, drugs and chemicals, and liquors and tobaccos—all were higher in December than in January, animals and meats, textiles, and paints and oils being the only groups to show a contrary tendency. Fuller details, with charts by way of illustration, for each of these several groups are given. It is noted that the present high point is the culmination of a movement which began about the middle of 1909, previously to which a recession had been in progress following the financial stringency which occurred in the autumn of 1907. For the ten years previous to 1907, however, the tendency was one of rapid and all but continuous advance, following an almost equally rapid decline in the early nineties. Comments at some length have been made on these movements in previous reports. Compared with the low year, 1897, the rise shown by 1911 prices amounts to approximately 40 per cent.

V.—LABOUR ORGANIZATION IN CANADA—SPECIAL REPORT ISSUED.

An officer of the Department was occupied during the later months of the fiscal year in preparing material for a special report published in May, 1912, on Labour Organization in Canada, the general nature of which is set forth in the opening sentences of the introductory chapter. 'The aim of the present report,' it is there explained, 'is to present in concise and convenient form a statement showing the details of labour organization in Canada. The subject is one that has not perhaps in the past received the attention it has merit d. The extent and variety of interests concerned, and the elaborate system of organization which has been evolved, are little realized by the public in general, and are not closely appreciated, in all probability, by many of those who are themselves sometimes participating in the work here indicated formally in facts and figures. The information presented will be of particular value to employers and employees of all classes, but will also be of deep interest in other circles. Labour organization is to-day attracting a closer attention than perhaps at any previous time, whether in Canada or elsewhere. Associated with the question of labour organization, growing sometimes, in fact, out of it, are some aspects of those industrial problems which are becoming more and more the subject of research on the part of publicists, journalists and all students of affairs. The one matter bears closely on the other, and the facts which have been here assembled will be, it is believed, of material value from this point of view. It is not intended that this record should be considered as in any way either an advocacy or a condemnation of trades unionism. An effort is made simply to state freely and clearly the facts gathered, and thus to show as precisely as the limits of an official publication will permit the general situation in Canada to-day.'

The report is of necessity largely statistical, but includes a general statement as to methods of organization. As the report shows, the relations as to labour organization between the United States and Canada are closely interwoven, and the statistics printed include sufficient information bearing on this international aspect of the subject to afford a comprehensive view of the whole.

EXTENT OF ORGANIZATION.

Briefly, it may be stated that there are 1,741 local unions in Canada, of which 1,531 are international in character and the remainder are associated with central bodies having affiliation outside the Dominion. Ontario bulks largely in trade unionism, claiming over 600 local unions out of 1,741 in Canada. British Columbia comes second with 234 local unions, and Quebec is third with 205. The other provinces divide the honours as follows: Alberta 153, Nova Scotia 138, Manitoba 118, Saskatchewan 84, New Brunswick 72, Prince Edward Island 7. These figures as to provinces include all local unions whether international or otherwise; in Prince Edward Island there are respectively three international and four national bodies. The special strength of unionism is necessarily in the larger cities in Canada comprising between them about one-fifth of the local unions, proportioned as follows: Toronto 105, Montreal 95, Winnipeg 79, Vancouver 76. Other cities rank in number as follows: Hamilton 48, Ottawa 47, Quebec 42, Victoria 42, Calgary 40,

3 GEORGE V., A. 1913

London 35, Edmonton 33, St. Thomas 28, Fort William 28, Lethbridge 28, Port Arthur 27, Halifax 22, Moosejaw 21, Saskatoon 21, St. John 20. It is interesting to note in these figures the prominence taken by western cities and how far in some cases they have, relatively speaking, outstripped the older eastern cities in labour organization.

MEMBERSHIP.

The total estimated membership in Canada of trade unions is 133,132, the Canadian international roll reaching 119,415, the remainder belonging to purely Canadian unions. Of the latter class the membership is no doubt actually larger than these figures indicate, but precise reports have not been received. The international bodies represented in Canada show a total membership, mostly in Canada and the United States, of 2,340,865 members comprised in 27,418 unions; there is besides, it will be remembered, a considerable minority of trades organizations in the United States without branches in Canada, the membership of which in the United States will increase the total considerably. The total union membership in the United States is placed at 2,625,000 for 1910, a somewhat greater strength relatively than in Canada, having regard to the respective populations.

LABOUR ORGANIZATION ABROAD.

The report includes an interesting statement of the totals of trade union membership as to various leading countries of Europe, and including Canada and the United States, respectively, the figures being as follows:—

	Total Membership.	Percentage of Membership to total Population.
Austria.....	400,505	1·4
Belgium.....	138,928	1·8
Denmark.....	131,563	4·9
France.....	977,350	2·5
German Empire.....	2,638,144	4·1
Hungary.....	85,266	·4
Italy.....	167,256	·5
Netherlands.....	113,850	2·4
Sweden.....	148,649	2·7
Switzerland.....	110,749	3·1
United Kingdom.....	2,426,592	5·4
United States.....	2,625,000	3·0
Canada.....	133,132	2·0

Canada, it will be noticed, is less highly unionized than many European countries. Germany has the largest union membership, exceeding even the figures of the United States, with its greater population, but Great Britain shows the highest percentage of unions to population, Denmark being second, Germany third and the United States fourth.

The report serves also as a Trade Union Directory, including as it does the names and addresses of secretaries for 1912 of all Canadian trades organizations.

SESSIONAL PAPER No. 36

DISTRIBUTION OF REPORT.

A slight delay in printing prevented the issue of the report prior to the close of the fiscal year, but copies were distributed shortly after March 31. Notices in the press generally, and in many cases special articles, were given to the contents of the report. Many letters were received in the Department expressing appreciation of the value of the report.

VI.—STRIKES AND LOCKOUTS IN CANADA, 1911, WITH COMPARATIVE STATISTICS 1902 TO 1911.

The number of strikes and lockouts in Canada during 1911 exceeded the record in any year since 1907, and the loss of time occasioned by them to employees was greater than in any single year since the Department began its record in 1901. The total number reported of strikes and lockouts in Canada during 1911 is 100, the number in each of the past ten years having been as follows: 1902, 123; 1903, 160; 1904, 103; 1905, 87; 1906, 139; 1907, 151; 1908, 69; 1909, 69; and 1910, 84.

The dispute of the most serious nature was a strike of coal miners in Alberta and in the Crow's Nest District of British Columbia, which affected about 7,000 coal miners, and caused a loss to them of about 1,390,000 working days. This strike arose from the failure of the miners to reach an agreement with members of the Western Coal Operators' Association with regard to wages and conditions of employment, and lasted from April 1 to November 20. The agreement finally made was in the nature of a compromise and provided for an increase in wages amounting to from five to ten per cent. Apart from this single prolonged strike, there was no strike during the year involving very notable losses, and the miners' strike is chiefly responsible for the large increase in time lost. The total of strikes for the year was swollen by an increase of small strikes.

MAGNITUDE OF DISPUTES.

Of the ninety-seven disputes which began in 1911, five involved over 1,000 employees each, and ten affected from 300 to 1,000 employees. The total number of employees involved in trade disputes during the year was approximately 28,898, compared with 19,554 in 1910, and 17,302 in 1909.

LOSS OF TIME IN WORKING DAYS.

The loss of time to employees through trade disputes during 1911 was approximately 2,021,440 days, compared with a loss of about 718,745 days in 1910, and 872,000 days in 1909. While these figures are of necessity merely rough approximations, they serve to convey some idea of the extent of the loss suffered by the community through strikes and lockouts and to afford a fair means of comparing the different years.

TRADES AFFECTED BY THE DISPUTES.

Out of ninety-seven disputes which began in 1911, thirty occurred in the building trades, eighteen in the metal working trades, twelve in the trades connected with transport, and eleven in the clothing trades. No strikes or lockouts took place in the industries relating to agriculture, fishing, lumbering, printing and bookbinding.

LOCALITIES AFFECTED BY TRADE DISPUTES.

The strikes and lockouts of the year were distributed among the various provinces as follows: Ontario, forty-one; Quebec, twenty; Alberta, thirteen; British

* In this chapter the expression "Trade Disputes" refers only to disputes which involved a cessation of work on the part of not less than six employees.

SESSIONAL PAPER No. 36

Columbia, ten; Manitoba, six; New Brunswick, four; and Nova Scotia, one. One of the remaining disputes occurred in the provinces of Alberta and British Columbia, and the other extended through the provinces of Ontario, Manitoba, Saskatchewan and Alberta. No strike or lockout took place in Prince Edward Island.

CAUSES OF DISPUTES.

Of the ninety-seven trade disputes which began in 1911, forty-two arose from demands for higher wages, and questions of wages entered into nineteen other disputes, in seven of which a reduction of wages was the cause. Questions of trade unionism entered into eleven other disputes, and in nine cases the dispute related either wholly or partly to hours of labour. There were two sympathetic strikes during the year.

METHODS OF SETTLEMENT.

Of the one hundred disputes in existence during 1911, forty-two were settled through negotiations between the parties concerned, two by arbitration and seven by conciliation. In seventeen cases work was resumed on the employers' terms, and in ten places of the strikers were filled. In four cases the disputes were settled partly by negotiations and partly by the places of the strikers being filled, in two cases the demands of the strikers were granted without negotiations, and in three disputes some of the strikers returned to work, while the places of others were filled. In one work was resumed pending an investigation, and in three others work was resumed, the employer not being involved. The remaining nine disputes were either unsettled at the close of the year, or the method of their settlement was not reported.

RESULTS OF DISPUTES.

Of the one hundred disputes in existence during the year, thirty-four ended in favour of the employers and twenty-one in favour of the employees, while compromises were reached in twenty-four disputes. In three cases the employees were partially successful some of their number having been granted their demands. In two cases work was resumed, the employers not being concerned in the settlement, and of the remaining seventeen, four were unsettled at the end of the year, and the final results of thirteen were not reported.

STATISTICAL TABLES RELATING TO TRADE DISPUTES.

The following tables contain statistics of strikes and lockouts which were in existence in Canada during 1911, and during the previous nine years, in so far as they were reported to the Department.

In ten disputes during 1911, the number of firms involved was not reported; in six disputes the number of employees involved was not reported, and in four disputes particulars were not reported as to the methods of settlement and the results.

The following table contains a list of all the strikes and lockouts involving six or more employees, which were in existence in Canada during 1911, arranged according to industries and trades. In each dispute is shown the occupation of the work-people concerned, the locality in which the dispute occurred, the principal cause, method of settlement and result, dates of commencement and termination, approximate number of establishments and employees affected, and the approximate loss of time in working days.

CLASSIFIED TABLE OF TRADE DISPUTES IN EXISTENCE IN CANADA DURING 1911.

Occupation.	Locality.	Alleged Cause or Object.	Methods of Settlement.	Result.	Date of Commencement.	Date of Termination.	No. of establishments affected.	No. of employees affected.	Approximate loss of time in working days.

300 to 500...	8	9	9	4	6	9	9	6	2	5	67
200 to 300...	7	18	2	4	15	7	6	4	9	10	82
100 to 200...	15	13	10	15	14	18	7	12	10	17	131
50 to 100...	21	29	15	17	29	28	12	10	4	19	184
25 to 50...	28	34	23	17	32	28	7	11	15	15	210
6 to 25...	37	36	35	21	30	31	15	14	15	14	248
Unknown	4	1	2	1	5	2	5	17	37
Total	123	160	103	87	133	146	66	68	71	107	1,069

SESSIONAL PAPER No. 36

The following table shows the approximate number of employees affected each month by trade disputes which began during 1911.

NUMBER OF EMPLOYEES INVOLVED—1911.

MONTH.	NUMBER OF EMPLOYEES AFFECTED.		
	Directly.	Indirectly.	Total.
January	302	69	371
February.....	1,067	1,067
March.....	1,412	145	1,557
April.....	7,353	7	7,360
May.....	4,008	136	4,144
June.....	8,144	125	8,269
July.....	1,351	95	1,446
August.....	294	121	415
September.....	271	271
October.....	355	355
November.....	3,107	421	3,528
December..	104	11	115
Total.....	27,768	1,120	28,898

From the above table it may be seen that the trade disputes which began in June affected a greater number of employees than in those which began in any other month.

About 521 firms or establishments were affected by strikes and lockouts which began in 1911, so far as they were reported to the Department.

Of these 456 were directly affected, and 65 indirectly. The following table shows the number involved according to the months in which they began.

NUMBER OF ESTABLISHMENTS AFFECTED—1911.

MONTH.	NUMBER OF FIRMS AFFECTED.		
	Directly.	Indirectly.	Total.
January.....	4	4	8
February.....	3	3
March.....	12	12
April.....	19	19
May.....	182	6	188
June.....	170	170
July.....	16	16
August.....	9	3	12
September.....	5	50	55
October.....	3	3
November.....	30	2	32
December.....	3	3
Total.....	456	65	521

DISPUTES BY MONTHS 1902-11.

The following table shows the number of disputes which have occurred in each month during the past ten years, from which it may be seen that the greater number took place in the months of April, May and June:—

Months.	NUMBER OF DISPUTES.										
	1902	1903	1904	1905	1906	1907	1908	1909	1910	1911	Total.
January.....	8	6	9	6	12	8	7	4	2	4	66
February.....	5	12	5	4	6	3	6	3	7	3	54
March.....	12	22	9	6	8	8	5	4	5	10	89
April.....	20	23	20	8	13	28	9	7	11	6	145
May.....	27	29	23	11	28	31	14	11	15	24	213
June.....	18	23	9	12	14	20	6	8	10	20	140
July.....	7	15	6	13	8	15	3	10	12	7	96
August.....	6	11	6	8	17	12	6	10	5	4	85
September.....	9	7	3	9	15	8	2	2	3	3	61
October.....	4	6	8	3	3	7	2	4	2	3	42
November.....	7	3	2	3	12	3	2	3	5	10	50
December.....	3	3	4	2	3	4	2	4	3	28
Total.....	123	160	103	87	138	146	66	68	81	97	1069

The following table shows the number of disputes in the various industries and trades, during the year 1911, according to the month in which they began.

BY TRADE GROUPS—1911.

Trades.	NUMBER OF DISPUTES.												
	Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.	Total.

NUMBER OF EMPLOYEES AFFECTED BY TRADE GROUPS 1911.

The following table shows approximately the number of employees affected by trade disputes during 1911, according to their respective trades and industries, including those disputes which began in the previous year and continued into 1911.

Industry or Trade.	Approximate number of Employees.
Mining.....	9,769
Building trades.....	5,843
Metal trades.....	3,167
Woodworking trades.....	61
Textile clothing.....	943
Clothing trades.....	1,285
Food and tobacco preparation.....	373
Leather trades.....	300
Transport.....	4,987
Unskilled labour.....	425
Miscellaneous trades.....	402
Total.....	27,555

DISPUTES FALLING UNDER INDUSTRIAL DISPUTES INVESTIGATION ACT, AND OTHERWISE.

The next two tables indicate respectively the number of strikes and lockouts which have occurred since 1902 in mines, transportation agencies and other public utilities, which come under the operation of the Industrial Disputes Investigation Act, 1907, and the number of strikes and lockouts during the same period in other industries, in which 100 or more employees were involved.

3 GEORGE V., A. 1913

TABLE SHOWING NUMBER OF STRIKES AND LOCKOUTS IN MINES, AGENCIES OF TRANSPORTATION AND COMMUNICATION, AND OTHER PUBLIC UTILITIES IN CANADA 1902-1911.

DISPUTES BY PROVINCES 1911.

Of the 97 disputes which began in 1911, 41 took place in Ontario and 20 in Quebec. In Alberta there were 13, and in British Columbia 10, while more than one province was affected in two disputes. No strike or lockout was reported in Prince Edward Island. The following table shows the number of disputes by provinces according to the month in which they began:—

SESSIONAL PAPER No. 36

TRADE DISPUTES BY PROVINCES DURING 1911.

PROVINCE.	NUMBER OF DISPUTES.												
	Jan.	Feb.	Mar.	April	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.	Total.

Total.....	123	160	103	87	138	146	66	68	81	97	1,069

¹First dispute affected Ontario, Manitoba, Saskatchewan and Alberta; second, affected same provinces with the addition of British Columbia.

²Dispute took place in Quebec and Ontario.

³One dispute took place in Quebec, Ontario and Manitoba, and the other in Alberta and British Columbia.

⁴Disputes affected all the provinces except Prince Edward Island and Nova Scotia.

⁵Dispute took place in Alberta and British Columbia.

⁶One dispute took place in Quebec and Ontario, and the other in Manitoba, Saskatchewan and Alberta.

⁷One dispute took place in Alberta and British Columbia, and the other in Ontario, Manitoba, Saskatchewan and Alberta.

3 GEORGE V., A. 1913

LOSS OF TIME IN WORKING DAYS 1911.

The following table shows the number of working days estimated to have been lost by employees through trade disputes in each month during 1911. From this it may be seen that the greatest loss occurred in the month of June, the next greatest loss having been in the month of July.

Month.	Approximate loss of time in working days.
January.....	29,100
February.. ..	32,525
March.....	39,500
April.....	226,000
May.....	282,450
June.....	344,085
July.....	303,100
August.....	203,200
September.....	189,750
October.....	191,200
November.....	140,600
December.....	39,930
Total	2,021,440

LOSS OF TIME BY DISPUTES 1911.

The following table shows the estimated loss of time in each branch of industry or trade during 1911.

Trade or Industry.	Approximate loss of time in working days.
Mining.....	1,592,800
Building trades.....	285,904
Metal trades.....	32,633
Woodworking trades.....	557
Textile trades.....	18,123
Clothing trades.....	11,770
Food and tobacco preparation	673
Transport.....	61,193
Unskilled labour.....	6,330
Miscellaneous trades	11,467
Total	2,021,440

SESSIONAL PAPER No. 36

LOSS OF TIME BY DISPUTES 1901-1911.

The following table shows the approximate loss of time in working days through trade disputes in each year from 1901 to 1911, inclusive.

Year.	Approximate loss of time in working days.
1901.....	684,282
1902.....	163,125
1903.....	752,180
1904.....	278,956
1905.....	284,140
1906.....	490,400
1907.....	613,986
1908.....	718,443
1909.....	872,000
1910.....	718,745
1911.....	2,021,440

CAUSES OF TRADE DISPUTES 1911.

The principal causes of strikes and lockouts which took place in Canada during 1911 are set forth in the following table, arranged according to the months in which they began.

	Number of Disputes.												
	Jan.	Feb.	March.	April.	May.	June.	July.	August.	Sept.	October.	Nov.	Dec.	Total.
For increase in wages.....	1	1	4	3	15	11	4	...	1	...	1	1	42
Against reduction in wages.....	2				1	2					2		7

Total.....	123	160	103	87	138	146	66	68	81	97	1,069

METHODS OF SETTLEMENT OF DISPUTES 1911.

The following table illustrates the methods by which trade disputes were settled during 1911, according to the month in which they were terminated.

Method.	NUMBER OF DISPUTES.												
	Jan.	Feb.	Mar.	Apr.	May.	June.	July.	Aug.	Sept.	Oct.	Nov.	Dec.	Total.
Arbitration			1	1	3		1						2
Conciliation.....	1						1				2		7
Negotiations between parties concerned....		2	2	2	12	9	6	3			4	2	42
Places of strikers filled.....			1	2	2			1	1	2	1		10
Work resumed on employers' terms.....	3				4	3	2		1	1	2	1	17
Partly by negotiations, partly by filling of strikers' places.....					1	1	1	1					4
Demands of strikers granted without negotiations.....							1		1				2
Partly by resumption of work, partly by filling of strikers' places.....				1		1						1	3
Work resumed pending investigation.....								1					1
Work resumed, employer not concerned....				1					2				3
Unsettled, or not reported			2			2	1					4	9
Total.....	4	2	6	7	22	16	12	6	5	3	9	8	100

SESSIONAL PAPER No. 36

RESULTS OF TRADE DISPUTES 1911.

The following table shows the results of the strikes and lockouts which were in existence in Canada during 1911, according to the months in which they were terminated.

Results.	NUMBER OF DISPUTES.												
	Jan.	Feb.	March.	April.	May.	June.	July.	August.	Sept.	Oct.	Nov.	Dec.	Total.
In favour of employers.....	3	1	2	4	5	4	2	2	2	3	3	2	33
In favour of employees.....				1	9	3	3	2	1	...	2	...	21
Settled by compromise.....	1	1	1	1	6	4	5	1	1	...	2	2	24
Employees partially successful.....					1	1	...	1	3
No change, employer not concerned.....				1	...	1	2
Indefinite, unsettled, or not reported.....			3	...	1	3	2	...	2	...	2	4	17
Total.....	4	2	6	7	22	16	12	6	5	3	9	8	100

RESULTS OF TRADE DISPUTES 1902-11.

The following table shows the results of trade disputes in Canada, which have been in existence from 1902 to 1911, inclusive.

Results.	NUMBER OF DISPUTES.										
	1902.	1903.	1904.	1905.	1906.	1907.	1908.	1909.	1910.	1911.	Total.
In favour of employers.....	35	46	43	37	45	57	43	26	29	33	394
In favour of employees.....	46	45	24	24	41	33	12	10	23	21	279
Settled by compromise.....	33	46	28	15	23	39	9	15	14	24	246
Employees partially successful.....			6	...	6	3	...	4	5	3	27
No change (employers not concerned).....				1	3	3	2	9
Indefinite (unsettled, or terms unknown).....	4	10	9	10	22	16	5	14	13	17	120
Total.....	118	147	100	87	140	149	69	69	84	100	1,075

From the above it may be seen that the employers were successful in 394 disputes, while the employees were successful in 279 and partly successful in twenty-seven disputes and 246 resulted in compromises. Most of the disputes which were entered under the above table as 'unsettled' were terminated in the following year.

3 GEORGE V., A. 1913

CAUSES AND RESULTS OF TRADE DISPUTES 1911.

The following table contains analysis of the principal causes of the trade disputes which began in 1911, classified according to their results.

Causes.	RESULTS.						Total.
	In favour of employers.	In favour of employees.	Settled by compromise.	Employees partially successful.	No change, not employer concerned.	Indefinite, unsettled, or terms not reported.	
For increase in wages.....	13	11	11	2	5	42
Against reduction in wages.....	3	2	1	1	7
Delay in payment of wages.....	1	1
For payment of wages on legal holidays	1	1
For decrease in hours	1	1	1	3
For increase in hours	1	1
For increase in wages and shorter hours.....	2	1	3
For increase in wages, shorter hours and recognition of union.....	1	1
For increase in wages, shorter hours and other changes..	1	1
For increase in wages and recognition of union.....	2	2
For increase in wages and other changes.....	3	1	4
Against piecework system.....	1	1
Against employment of non-unionists.....	1	2	1	1	5
Against employment of non-unionists, and against discharge of employees	1	1
Against employment of persons other than non-unionists.	1	1	1	3
For discharge of employees and changes in conditions of employment.....	1	1
Against discharge of employees.....	1	1	2
Lockout on account of employees joining a union	2	2
Against conditions of employment.....	2	2	4
Sympathetic.....	1	1	2
Dispute between unions.....	1	1
Unclassified.....	2	2	5	9
Total.....	31	21	23	3	2	17	97

VII.—INDUSTRIAL ACCIDENTS IN CANADA, 1911.

The record of industrial accidents maintained by the Department during the calendar year of 1911 shows that 1,084 workmen were either killed or fatally injured, while 2,146 received serious injuries.

The first two of the statistical tables given below show the number of fatal and non-fatal industrial accidents occurring throughout Canada in 1911, analysed by months.

The next following table shows the record, by industries and groups of trades, of the fatal and non-fatal accidents occurring yearly since 1904. From this table it will be seen that the greatest number of fatalities occur in the steam railway service, and that the largest number of non-fatal accidents occur in the metal trades. This has been the case in each of the preceding years for which statistics are available. In the number of fatal accidents agriculture stood second and mining third, and in the number of non-fatal accidents the steam railway service stood second and agriculture third.

The information of greatest practical importance brought out by these statistics is that relating to the causes of the various fatal and non-fatal accidents. The entire return has been prepared with the primary object of revealing the circumstances from which danger most frequently occurs to workmen and in connection with which remedial measures are chiefly desirable. It may be noted for example, that during the year past 55 out of a total of 81 fatalities, and 137 out of 210 non-fatal accidents, occurred in the building trades were the results of falls, in connection with which it might be stated that two workmen were killed and 26 received serious injuries owing to the collapse of scaffolds. Under the heading of navigation, 77 out of 96 fatalities were drownings, and 15 out of 39 non-fatal accidents the result of falling material. In the steam railway service, 61 out of 178 employees met death as the result of being run over, and of the non-fatal accidents 53 out of 261 were caused by falling from trains. In the fishing industry, 19 fishermen were drowned; and in the metal trades 36 workmen were electrocuted.

The most disastrous accidents during the year entailing the death of two or more workpeople, and of which special mention was made in *The Labour Gazette*, were recorded under the heading of navigation, the worst being the foundering of the barque *Antigua* in the lower St. Lawrence on November 16, on which occasion twelve of the ship's crew were drowned. A second shipwreck occurred on July 25, when 11 sailors of the crew of the collier *Irwin* were drowned, the steamer foundering in a gale off Beaver Light, N.S. On August 21 a third disastrous shipwreck occurred when the tug *Albatross* foundered in a gale on Georgian Bay, on which occasion nine sailors were drowned. The Mining industry stood next on the list of industries in which the most disastrous single accidents occurred, on January 3, eight miners met death in a mine explosion at Florence, N.S. There were four other occasions on which six persons met death, two of which were recorded under navigation, one under railway construction and the other in the fishing industry. There were four accidents on each of which occasions five persons were killed while four persons met death on five other occasions. There were six accidents in each of which three persons met death, and 26 accidents in which two workpeople were either killed, injured to such an extent that death subsequently ensued, or drowned.

VIII.—THE DISTRIBUTION OF LABOUR GAZETTE AND OTHER PUBLICATIONS.

The *Labour Gazette*, with some exceptions, is mailed from the Government Printing Bureau, under the supervision of the Department of Labour, this work necessitating the preparation of a mailing list and its constant revision, also the enclosing and addressing of copies of the *Gazette* each month to names and addresses given on the mailing list. To expedite delivery, the copies of the *Gazette* are sorted and distributed into mail bags, suitably labelled, for their destination in the several localities throughout the Dominion.

In addition to copies of the *Gazette* mailed regularly each month to subscribers or as exchanges, &c., copies of the *Gazette* are sent out from time to time as samples. Single copies are also mailed from day to day in reply to requests for the same, or in connection with answers sent by the Department to inquiries on subjects which may have been dealt with, either in part or whole, in the *Labour Gazette*, but a limited number of all copies already issued is kept on file for the same purpose.

During the fiscal year 1911-12, copies of the individual numbers contained in Volume XI-XII of the *Labour Gazette* to the number 179,925 were distributed, 150,680 in English and 22,558 in French, also 5,035 copies in English and 1,652 in French of individual numbers of the *Gazette* of previous years or an average monthly distribution of 14,993.

In addition to copies of the *Labour Gazette* distributed there were mailed from the Department 180 copies of bound volumes of the *Labour Gazette*; 1,775 copies of the Annual Report of the Department; seven copies of the Report and Evidence of the Royal Commission appointed to investigate the cause of Industrial disputes in British Columbia; thirty-three copies of the Report of the Royal Commission appointed to inquire into influx of Italian Labourers into Montreal and alleged fraudulent practices of employment agencies; 73 copies of the Report of the Royal Commission appointed to inquire into dispute between the Bell Telephone Company and its operators at Toronto; 334 copies of the Report of the Royal Commission appointed to inquire into losses sustained by Chinese population of Vancouver, B.C., by riots, September, 1907; 337 copies of the Report of the Royal Commission appointed to inquire into losses sustained by the Japanese population of Vancouver, B.C., by riots, September, 1907; 271 copies of the Royal Commission appointed to inquire into the methods by which Oriental Labourers have been induced to come to Canada; 270 copies of Report of the Deputy Minister of Labour on mission to England to confer with British authorities on the subject of immigration to Canada from Orient; ninety-one copies of the Report of the Royal Commission appointed to inquire into the Industrial Disputes in the cotton factories of the Province of Quebec; thirty-eight Reports on methods adopted in Canada in the carrying out of Government Clothing Contracts, 1889; six copies of Report of the Investigation in England of alleged fraudulent practices to induce printers to come to Canada; 132 copies of the Report on the need for the suppression of the Opium Traffic in Canada, 1908; 53 copies of the Report by Deputy Minister of Labour, on Industrial conditions in the Coal Fields of Nova Scotia, 1909; 953 copies of 'Wholesale Prices in Canada, 1900-1909, inclusive,' 660 copies of 'Wholesale Prices, 1910,' 5,606 copies of 'Comparative Prices, Canada and United States, 1906-11,' inclusive; 520 copies of 'Wholesale Prices in Canada, 1911,'; 126 copies of the Report of the proceedings of the Special Committee of the House of Com-

3 GEORGE V., A. 1913

mons to which was referred 'Bill 21' an Act respecting hours of labour on Public Works, 1909-10; 204 copies of the Report of Special Committee of the House of Commons to which was referred 'Bill 2' an Act respecting Industrial and Co-operative Societies, 1906-09; 257 copies of Conciliation and Labour Act, 1906; 1,311 copies of Industrial Disputes and Investigation Act, 1907; 8,000 copies of Indices to Volume XI and other volumes of the *Labour Gazette*, and in addition to the distribution several reports, &c., communications in the nature of miscellaneous publication, documents, bills, circular letters, Acts of Parliament, copies of the *Hansard*, forms, and other matter of one kind and another were distributed to the number of 3,316, making a total in all of 203,693 separate communications or publications distributed by the Department through its Distribution Office, in addition to the correspondence of other branches of the Department, during the fiscal year ended March 31, 1912, or an average monthly distribution of 16,974 publications, &c.

The following table is arranged to show by months the number and nature of the publications, &c., distributed from the Distribution Office of the Department during the fiscal year, 1911-12.

IX.—THE CIRCULATION OF THE LABOUR GAZETTE.

The *Labour Gazette* is published in both English and French, which necessitates the keeping of separate mailing lists and the printing of all notices and forms in both languages. The number of paid subscriptions to the *Gazette* received during the past fiscal year was 6,777, the total paid circulation on the 31st of March, 1912, being 8,840. All subscriptions were promptly entered and remittances acknowledged. The customary subscription notices and renewal forms were forwarded from month to month and mailing lists corrected and revised as occasion required. In addition to maintaining the regular list of subscribers, many sample copies were sent out from the Department during the year.

In connection with the circulation of the *Labour Gazette* for the twelve months ending March 31, 1912, 6,812 letters were received and acknowledged, 4,903 of which had reference to subscriptions to the *Labour Gazette*, 401 to a change of address on the part of subscribers, and 1,508 to other matters.

For the same period, 27,794 pieces of mail matters were despatched from the circulation branch, representing 24,006 communications containing notices, accounts, or receipts for subscriptions; 1,493 other communications in connection with the circulation of the *Gazette* and 2,295 parcels.

During the fiscal year 1911-12 the average monthly circulation of the *Labour Gazette* was 14,248 copies, of which 9,478 were on account of paid circulation,* and 4,770 to persons on the free and exchange lists.

The following figures will show the total circulation of the *Gazette* as it was on the last day of each of the fiscal years during the period from 1900 to 1912.

TABLE SHOWING CIRCULATION OF THE 'LABOUR GAZETTE' AT THE CLOSE OF EACH FISCAL YEAR FROM 1900 TO 1912 INCLUSIVE.

Year.	Annual Subscriptions.	Free and Exchange Distribution.	Total Circulation.
1900-1	4,391	2,158	6,549
1901-2	5,648	2,722	8,370
1902-3	7,748	3,016	10,764
1903-4	7,361	3,553	10,914
1904-5	6,645	3,717	10,362
1905-6	7,547	3,987	11,534
1906-7	8,033	4,105	12,138
1907-8	9,033	4,320	13,353
1908-9	9,338	4,472	13,810
1909-10	9,426	4,778	14,204
1910-11	10,635	4,799	14,834
1911-12	8,840	4,713	13,553

* The actual number of paid subscribers at the end of the fiscal year, March 31, was 8,840.

FREE AND EXCHANGE LISTS.

Under the head of copies of the *Labour Gazette* sent as exchanges are included *Labour Gazette* sent to public departments of the governments both Federal and Provincial, in this and other countries, and to the publishers of trade papers and labour journals in exchange for their publications. On the free list are included copies sent to members of both Houses of Parliament, commercial agents, immigration agents, public libraries, boards of trade, libraries of educational institutions, local newspapers and the officers of organizations who supply from time to time information requested by the department. The following summary will show the number of copies mailed monthly on account of exchange and free lists:—

REVENUE OF THE 'LABOUR GAZETTE.'

The revenue of the *Labour Gazette* is derived from the sale of single and bound copies and from annual subscriptions. Single copies are supplied at the rate of 3 cents each, or 20 cents per dozen. Bound volumes of the *Gazette*, including the issues of each year, are sold at the rate of 75 cents per copy. The annual subscription rate is 20 cents, or when more than twelve copies are taken by the same person or institution 15 cents.

The following statement of receipts from subscriptions, and from the sale of single and bound copies of the *Gazette* during the fiscal year 1911-12 shows that the net revenue derived from this source amounted to \$1,397.95.

Statement of the Revenue of the Labour Gazette for the Fiscal Year ended March 31, 1912.

Amount received from subscriptions to <i>Labour Gazette</i>	\$ 1,340.15
Sale of single and bound copies.. . . .	76.22
Amount received up to June 30, 1911 for subscriptions to the <i>Labour Gazette</i> which has been held pending the identification of the remitters, and which is now being paid into revenue, as no claims have been presented for same.. . . .	1.90

X.—THE LIBRARY OF THE DEPARTMENT.

During the last fiscal year, there were added to the Library of the Department over two hundred books, aside from reports, &c., received from the government of various countries. These were upon subjects of general interest, although technical education was again especially dealt with. The indexing of several hundred pamphlets was also completed, necessitating the writing of nearly a thousand index cards. The Library now contains a fairly complete file of the official journals of all the important trade unions of the United States and Canada, the official organs of the labour bureaux of the world, and a large number of government reports and other publications on subjects relating to industrial problems, besides general works of reference and theory. A matter which received some attention during the year was the compilation of bibliographies on topics of current interest. These bibliographies do not claim to be complete, nor do they contain all that the Department possesses on the subjects, but are rather a selection of the more important material in order to facilitate research along certain lines. Incorporated in the present report are two such bibliographies which may be of interest, relating respectively to Employment of Women and Industrial Conciliation and Arbitration.

Employment of Women.

GENERAL WORKS.—*Annals of the American Academy of Political & Social Science*. Economic Function of Women. Vol. V, 1894-5, p. 361. Mason, O. T. *Woman's Share in Primitive Culture*. New York, 1910. *New Zealand Journal of the Department of Labour*, Industrial Position of Women, 1899, p. 489, Economic Position of Women, 1900, p. 971, *More Truth about Women in Industry*, 1905, p. 192. Schreiner, Olive. *Woman and Labour*. New York, 1911. Tuckwell, Gertrude. *Women's Opportunity*. *Woman's Trade Union League*, London, 1898.

CANADA.—Department of Agriculture. *Women of Canada* (prepared by National Council of Women of Canada). Ottawa, 1911. Census and Statistics Branch. *Wage Earners by Occupations*. Bulletin No. I, Ottawa, 1907. *Occupations of the People* Bulletin No. XI, Ottawa, 1910. Edwards, Mrs. Muir. *Labour Laws for Women and Children in Canada*. *Women's Industrial News*, London, October, 1911, pp. 117-127. King, W. L. Mackenzie. Report of, on methods employed in the carrying out of Government Clothing Contracts in Canada. Ottawa, 1900. Legislation with regard to Child and Female Labour in Canada. *The Labour Gazette*, Ottawa, Vol. 8, pp. 1100-1120. Reports of Ontario Bureau of Labour (Chapter on Ontario Industrial Statistics). Annual. Toronto, Ontario. Report of the Royal Commission on the Relation of Labour and Capital in Canada (Appendix E. Child and Female Labour). Ottawa, 1889. Report of the Royal Commission on the Dispute between the Bell Telephone Company of Canada and the Telephone Operators of Toronto. Ottawa, 1907. Report of the Royal Commission to enquire into Industrial Disputes in the Cotton Factories of the Province of Quebec (pp. 16-18). Ottawa, 1909.

GREAT BRITAIN.—Abbott, Edith. *Municipal Employment of Unemployed Women* in *London Journal of Political Economy*, Vol. 15, p. 513. Booth, Charles. *Life and Labour in London*, pp. 256-326. London, 1902. Bulley, Miss A. A. and Miss M. Whitley. *Women's Work*. London, 1894. Busbey, K. G. *Women's Trade*

FIFTH REPORT

OF THE

REGISTRAR OF BOARDS OF
CONCILIATION AND INVESTIGATION

OF THE PROCEEDINGS UNDER

THE INDUSTRIAL DISPUTES INVESTIGATION ACT, 1907

BEING FOR THE

FISCAL YEAR ENDING MARCH 31, 1912.

(Being an Appendix to the Annual Report of the
Department of Labour.)

PRINTED BY ORDER OF PARLIAMENT

OTTAWA

PRINTED BY C. H. PARMELEE, PRINTER TO THE KING'S MOST
EXCELLENT MAJESTY

1912

[No. 36a—1913.]

OTTAWA, June 19, 1912.

To the Honourable T. W. CROTHERS, B.A., K.C.,
Minister of Labour.

SIR,—I have the honour to submit a Report of Proceedings under the Industrial Disputes Investigation Act, 1907, for the fiscal year ended March 31, 1912.

F. A. ACLAND,
Registrar of Boards of Conciliation and Investigation.

DEPARTMENT OF LABOUR,

OTTAWA, June 15, 1912.

The Industrial Disputes Investigation Act, 1907, had been at the close of the past fiscal year in operation for five years, the measure having been in force from March 22, 1907. During the fiscal year 1911-12 there have been 18 disputes involving procedure under the statute and in 15 of these disputes Boards have been established. The record of the year brings to a total of 124 the number of disputes dealt with under the provisions of the Act during the period of five years. In 14 of these disputes the procedure has failed to avert the strike which in each case had been declared to be imminent; 4 of the 14 strikes in question took place during the fiscal year 1911-12. Of the 18 disputes referred under the Act during the past year three were adjusted by mutual agreement while communications looking to the establishment of a Board were passing between the Department and the respective parties. One further dispute figures in the record of the year, the proceedings having been continued over from the preceding fiscal year; this will explain why the statistical record places at 19 the disputes dealt with during the year while the number of applications received during the same year stands at 18. It may be added that correspondence took place as to numerous other disputes in connection with which no formal action was necessary.

The general interest in the proceedings under the Act, which has been noticeable from its inception, has not shown any sign of slackening during the past year. Requests have continued to reach the Department from many different points for information on the subject. It will be remembered that the report of the proceedings for the fiscal year ending March 31, 1911, was printed for the first time in the form of a separate appendix to the annual report of the Department, and occasion was taken to include in the report not only a complete statement of operations for the fiscal year then past, 1910-11, but a somewhat comprehensive review also of operations from the inception of the statute. Copies of the report thus issued have been found a particular convenience in providing inquirers with the information desired. The plan inaugurated last year of printing under separate cover the statement of proceedings under the Act has been continued for the year 1911-12 because of its various conveniences. The Act requires that all reports or minority reports made by Boards or members of Boards established under its provisions shall be printed in the *Labour Gazette*, the official monthly publication of the Department of Labour, and shall be included also in the annual report of the Department of Labour. The various reports of this nature received in the Department during the year have been accordingly printed from month to month in the *Labour Gazette* and are now included in the present report, the official statement being in each case preceded by brief explanatory remarks.

3 GEORGE V., A. 1913

The disputes dealt with under the Act during the year were distributed among different industries as follows, namely:—

Coal mining.....	2
Metal mining.....	1
Railways.....	10
Street railways.....	1
Commercial telegraphers.....	1
Telephone workers.....	1
Electrical workers.....	2
Boot and shoe making.....	1
	<hr/> 19

The various classes of railway labour concerned in the ten disputes in the above list credited to railways were the following, namely: section men, car men, machinists, boilermakers, telegraphers, telephone operators, tower men, station agents, maintenance-of-way men, coal handlers, cable men, repair men, hoist men, engineers, firemen, baggagemen, checkers, chuckers, yardmen, stores men, sleeping and dining car employees, accountants, freight handlers and freight clerks. Usually several of these different classes were represented in a single dispute. The number of employees concerned in the 19 disputes dealt with during the year was 37,626.

THE WESTERN COAL MINES DISPUTE.

Of the four disputes included in the above list, occurring during the year and in which a strike was not averted, the most important was that affecting the coal mines of Eastern British Columbia and Southern Alberta. In this dispute coal miners, numbering approximately 7,000, were concerned, and the strike resulting being prolonged for many months, a serious shortage of coal was threatened and was to some extent realized in the latter months of the year. The action taken by the Government in remitting the coal duties during the continuance of the strike no doubt contributed to lessening the severity of the inconvenience to the public. The parties concerned in the dispute, the Western Coal Operators' Association on the one hand, and the United Mine Workers' Association representing the employees on the other hand, did not in the first place avail themselves of the machinery provided under the Industrial Disputes Investigation Act and it is therefore not possible to state whether the application of the principles of the Act would have availed to render unnecessary the recourse to a strike. Operations at the mines had been conducted under agreement, which expired on March 31, 1911. For some weeks prior to this date negotiations had been proceeding at Calgary looking to the making of a new agreement under which work would be continued. The Department had drawn the attention of Companies and miners to the applicability of the statute and had submitted the apparent advantages, in the event of a new agreement not being reached prior to the termination of the old agreement, of recourse to the machinery provided by the Act; it must be added that both operators and miners had in various ways become fairly cognizant of the nature of the Act from its inception in 1907 and had each been at various times in touch with the Department as to the various phases of the statute.

SESSIONAL PAPER No. 36a

It will be of some interest to state briefly the facts on this point:—Since the passage of the Industrial Disputes Investigation Act, 1907, there have been three disputes between the Western Coal Operators' Association and the Miners (1) At about the date of the enactment of the statute in March 1907 the mining Companies and miners operating in this district were nearing the close of the then existing agreement. The nature of the law newly placed on the statute books had not become generally known when, on March 31, 1907, the working agreement expired. The enactment of the Act immediately prior to this date did not result in averting the strike, work ceasing from March 31, 1907. A week or two later operators and miners showed a disposition to test the machinery of the new law and a Board was established, the strike being however continued pending efforts that followed at conciliation and during the investigation. An agreement was brought about by the general efforts of the Board of Conciliation and Investigation and the efforts of the then Deputy Minister of Labour, who spent some time at the scene of the dispute. The strike had lasted about two months. The agreement concluded extended until March 31, 1909. (2) In March 1909 the situation resembled that of March 1907. Negotiations between the coal operators and the miners failed to bring about a renewal agreement. The nature of the Industrial Disputes Investigation Act was now generally known to both parties. An official of the Department had been moreover despatched to the scene of the dispute and made formal representations to both parties on the subject. Neither side appears to have endeavoured to cause the differences to be referred under the provisions of the Act; the Department at least received no request for a Board or for action under the terms of the statute. Work ceased from March 31, 1909. After the strike had lasted some weeks the miners called for a Board and an investigation followed. The recommendations of the Board were not definitely accepted by either party but conferences followed which resulted in an agreement being reached closely on the lines of the Board's report. The strike lasted from April 1 to July 1. The new agreement extended to March 31, 1911. (3) During March 1911 the impending lapse of the working agreement again caused negotiations between operators and miners. An official of the Department of Labour was present and by the Minister's instruction placed the good offices of the Department at the disposal of the contending parties, and was also authorized to assist in expediting procedure under the Industrial Disputes Investigation Act, should it be decided to refer the dispute for adjustment in this way. No action in this direction was however taken by the parties concerned until after the cessation of work brought about by the dispute. Work ceased as before from March 31. An application for a Board was later (April 13) made by representatives of the miners, and an enquiry occurred, the strike continuing however meantime. The report of the Board, accompanied by a minority report, was received early in July. The Board had failed to secure an agreement and made recommendations for settlement; these recommendations were not however accepted. The strike continued until, in October, the Honourable Robert Rogers, Minister of the Interior, being in the vicinity of the dispute, brought about a renewal of negotiations, which resulted in an agreement signed on November 17 and to continue in force until March 31, 1915; work was resumed November 20, 1911. The strike had in this case lasted nearly eight months. The matters in dispute were set forth with much fullness in the Board's reports, majority and minority, which are printed in the following pages. The questions at issue in the dispute were many, involving a general schedule of wages at a higher figure than had been previously paid but there is considerable ground for the view that the point on which it was most difficult to effect an understanding was the degree of recognition to be granted by the operators to the Union. Recognition, in a general sense, had been of course long since conceded by the operators and successive agreements had been

made between the mining Companies and the officials of the Union, but, on each occasion, various phases of the question of recognition had been mainly responsible for certain delay in reaching the agreement. This aspect of the dispute of last year is discussed at some length in the report presented by the Chairman of the Board (Rev. Dr. Gordon) on which was placed the task of attempting the adjustment of the coal dispute of 1911.

It is not of course possible to state whether or not the prolonged strike of 1911 in the Western coal mines would have been averted if the principles involved in the statute, those of conciliation and investigation, could have been given the free play which the statute intends, but in view of the repeated failures of the parties concerned to effect an agreement outside the terms of the statute, it is not perhaps unreasonable to conclude that, when the time comes to renew the present agreement March 31, 1915, the operators and miners will each incline more favourably to a formal reference of their differences under the terms of the Industrial Disputes Investigation Act. It may be added that the clause in the agreement of November 1911 provided for the reference of minor differences arising during the life of the agreement to a Committee consisting of the Commissioner of the Western Coal Operators' Association and the President of District No. 18 U.M.W.A., with an independent Chairman if necessary, such independent Chairman to be chosen by the other members of the Committee if possible, and if not possible then a Chairman to be named by the Minister of Labour. On several occasions since the conclusion of the 1911 agreement disputes of the nature in question have arisen and the Minister of Labour has been twice requested to name an independent Chairman and has complied with the request. So far as the Department has been informed the decisions of the Committee have been accepted.

THE COAL STRIKE AT SPRINGHILL.

A notable dispute which figured during the past fiscal year, and in which a strike had also been declared, was that of the coal miners employed at Springhill, N.S., by the Cumberland Railway and Coal Company. The strike here involved had continued for the almost unprecedented (in Canada) period of 22 months, commencing in August 1909, and closing only in May, 1911. The strike was one of a number which had occurred in connection with the coal industries of Nova Scotia, arising largely out of friction between rival trade organizations to which the employees belonged, this dispute, as in the case of that occurring in Western Canada and mentioned above, involving something of the question of union recognition; in the Nova Scotia dispute however the point at issue was not, as in Western Canada, as to the degree of recognition that should be conceded, but whether recognition of any kind should be granted. It is not necessary here to recite the precise circumstances; in earlier reports of proceedings under the statute the facts have been set forth fully. It was pointed out in a previous report bearing on the operations of the Industrial Disputes Investigation Act that disputes arising directly out of union recognition were peculiarly difficult of adjustment and have proved hardly susceptible to ordinary methods of conciliation. Inquiry into such disputes shows that agreement can be reached only by the abandonment on one side or the other of the matter of contention, there being no ground for a common point of view. This statement is sustained again by the result of the protracted struggle at Springhill when work was resumed without any agreement on the point mainly at issue,—that of union recognition. The strike at Springhill differs from that occurring in Western Canada in one important respect, the Springhill strike, declared in August 1909, did not begin until the matters in dispute had been passed upon by a Board of

SESSIONAL PAPER No. 36a

Conciliation and Investigation, the requirements of the Industrial Disputes Investigation Act having been thus formally met; whilst as the paragraphs above printed have made it clear, the dispute in Western Canada was not referred to a Board until some time after work in the mines had ceased.

The loss by enforced idleness in these two strikes alone reaches very large figures; other illustrations might be given were it necessary to illustrate further the important part played in trade disputes within the past year by this question of union recognition. Generally it may be remarked that the 98 strikes in all industries reported to the Department of Labour as having occurred during the calendar year 1911 include not less than 15 cases in which union recognition or some aspect of the same was an important factor. These cases are treated in the report of the Department proper.

PROCEEDINGS STAYED BY INJUNCTION.

A dispute which requires mention in these remarks because of the judicial proceedings to which it gave rise was that between the Montreal Street Railway Company and its employees. The application was made on behalf of the employees who alleged dismissals by the Company showing discrimination against employees who had been members of the local Union, then recently formed, of the International Street Railway Employees' organization. Objection had been raised by the Company as to certain points of procedure but the Company had named a member of the Board and the Board was fully constituted, as it is believed, under the terms of the Act. The application was received on July 15, 1911, and a meeting of the Board, duly established, was called for August 15. On that date the Chairman of the Board was served with a petition for a writ of injunction asking that proceedings before the Board should be forbidden by the courts as being *ultra vires*, the petition in question being presented on behalf of the Montreal Street Railway Company. On August 15 judgment was given on this petition, directing the maintenance of the *statu quo*. On October 27 the Chairman of the Board was served with a copy of a judgment of the Superior Court, Montreal, authorizing the granting of a writ of prohibition against further procedure by the Board until final judgment had been rendered on the point raised by the Montreal Street Railway Company, relative to the constitutionality or unconstitutionality of the Industrial Disputes Investigation Act 1907, under which the Board in this matter had been constituted. The court proceedings in the matter had not been further advanced at the end of the fiscal year, and at present date of writing, so far as the Department has been able to learn, the judgment of the court has not been rendered. In the meantime there was no interruption of work on the part of employees concerned in the application, and the danger of a strike, which the applicants believed to exist, appears to have passed away.

The question raised in the proceedings at Montreal, as to the constitutionality of the Act, is necessarily of the highest importance; at the request of the Minister of Labour the Department of Justice undertook the defence of the constitutionality of the statute and counsel was duly instructed in the matter. In the meantime, as the present report will show, procedure under the Act was not generally affected and the question of constitutionality was not raised in the case of any other dispute.

PROCEEDINGS UNDER THE ACT.

It will be interesting to glance in these introductory pages at the following points:

- (1) The more important adjustments effected under the statute;
- (2) The four several strikes which action under the Act did not avert or end;
- (3) The proceedings under the Act during the five years from March 22, 1907, to March 31, 1912.

Then will follow the statistical summaries and re-capitulatory tables and the formal statements called for under the Act containing the text of all Board reports received during the year.

SOME IMPORTANT ADJUSTMENTS.

A dispute which threatened serious public inconvenience concerned the Great North Western Telegraph Company of Canada and its telegraph operators, involving wages, hours and other conditions of employment, also alleging discrimination against certain employees on account of their connection with the Commercial Telegraphers' Union of America. The number of operators concerned in this matter was 200 directly and 1,100 indirectly. The report was signed by all three members of the Board, Messrs. Markey and Campbell each dissenting, on one point. The Department was subsequently informed of the acceptance of the Board findings by the Company and the employees affected.

The Board established to deal with a dispute between the Canadian Northern Coal and Ore Dock Company Limited of Port Arthur, Ont., and its employees, succeeded in bringing about a settlement effective for one year from the 1st of May, with provision for conference to renew an agreement for the ensuing year. The number of employees affected was given as 150 directly and 200 indirectly. The dispute concerned wages, compensation for overtime, and alleged discrimination on the Company's part against members of the Coal Handlers' Union. The agreement was reached by mutual concessions before the Board.

A joint dispute between the cities of Port Arthur and Fort William and their respective electrical employees resulted in the conclusion of an agreement between the parties for one year, to continue in force from year to year thereafter unless three months' notice of its termination was given by either party on or before April 1 of any year. The matters in dispute related to wages, hours, overtime, hours of payment, and alleged discrimination. The number of employees affected was given as 32 directly and 66 indirectly. In acknowledging receipt of the Board findings the City Clerk of Fort William stated that the same had been presented to the City Council at a meeting held on July 1 and that 'the members had expressed themselves as being entirely in accord with the award of the Board of Conciliation, and, as far as known, the terms of the award are perfectly satisfactory to the men. In acknowledging receipt of your report I was instructed to convey to your Department the thanks of the Council for the successful adjustment of this dispute between the electrical workers and this city.'

A dispute between the Pere Marquette Railway Company and its maintenance-of-way employees, to the number of 140, was settled before a Board by agreement on the several points at issue, which included wages, hours, and other conditions of employment. Following the publication of the Board findings a set of rules and rates of pay governing the Company's section foremen and section men in Canada was promulgated by the Company in the terms of the Board report. A letter was received in the Department from the employees'

SESSIONAL PAPER No. 36a

representative stating that 'the employees of said Pere Marquette Railway are well pleased and satisfied with the report of the Board.'

Three disputes, in connection with which applications had been made for the establishment of Boards, were settled whilst proceedings were under way looking to the establishment of such Boards. (1) One of these disputes grew out of a reduction in wages among the section men employed by the Michigan Central Railway Company, 1,200 to 1,400 in number. Whilst communications were passing between the Department and the parties concerned relative to the granting of a Board an officer of the Department of Labour proceeded to St. Thomas and conferred with the parties. As a result the Company restored the scale of wages which had existed prior to May 1, 1911, and announced its willingness to re-engage its former employees, of whom a number had ceased work by way of protest against the Company's action. (2) Some differences occurred between the Quebec Central Railway Company and its telegraph and station employees, to the number of 70, growing out of a demand on the part of the latter for the adoption of a new schedule of rules and rates of pay. An officer of the Department of Labour visited Sherbrooke to confer with the parties. Later the Department was advised that an agreement had been reached, the application under the Industrial Disputes Investigation Act being accordingly withdrawn. (3) The third dispute affected the Quebec and Lake St. John Railway Company and its carmen, to the number of 80 directly and 15 indirectly. The dispute concerned wages and conditions of employment. The Railway Company's properties were in the hands of a receiver. An officer of the Department visited Quebec to confer with the parties concerned and a settlement was later reached by direct negotiation. Proceedings under the Act were accordingly discontinued.

All the disputes referred under the Act during the year, with one exception, related to industries to which the Act primarily applies. The exception was that of a dispute between the John Ritchie Company, William A. Marsh Company, Gale Brothers, and J. M. Stobo, boot and shoe manufacturers of the City of Quebec, and their employees, 68 of the latter being affected directly and 875 indirectly. The reference was made to a single Board by consent of all the parties concerned, and the Board findings, dealing with the wages paid for certain classes of work, were accepted by the employing Companies and the employees affected.

FOUR STRIKES AFTER ENQUIRY.

The cases in which strikes were not after enquiry either averted or ended were as follows:—(1) A dispute between the Coal Mining Companies comprising the Western Coal Operators' Association, operating mines in southeastern British Columbia and southern Alberta, and their employees to the number of approximately 6,000. The particulars of this dispute are mentioned on a previous page. (2) A dispute between the Hudson Bay Mining Company, of Gowganda, Ont., and employees, members of Gowganda Miners' Union of the Western Federation of Miners. This dispute grew out of an alleged reduction of wages in the Company's mines, the number of employees affected being about 30. The employees, refusing to accept the Board findings, declared a strike in the month of June. Operations were resumed in the mines at the end of July. A number of the Company's former employees remained, however, on strike throughout the ensuing summer, fall, and winter months. The employees, in the absence of a formal settlement, represented the strike as continuing. (3) A dispute between the Grand Trunk Pacific Railway Company and machinists and boilermakers in its employ,

to the number of 300. The differences related to wages, hours, and conditions of employment, and the employees' demand for a schedule of agreement. On October 6 the company closed down certain of its shops. On October 10 the employees declared a strike. Shortly afterwards the Board made its findings. The employees signified their willingness to accept the award. The findings were not accepted by the Company, which claimed to be paying the same scale of wages as competing railways in Western Canada. The Company claimed to be unaffected by the strike and the employees represented the strike as effective and in the absence of any formal settlement continued to make such representations to the close of the fiscal year. (4) A dispute between the Alberta Coal Mining Company, Limited, at Cardiff, Alta., and employees, to the number of 80. The differences concerned related to wages and conditions of employment. After the Board findings had been communicated to the Company and employees concerned there was a cessation of work for a few days, following which the Department was informed by the Company that a settlement had been reached on the basis of the Board findings. The employees claimed that the Board findings were not accepted by the Company. Writing to the Department of Labour on January 13 Mr. George S. Montgomery, the Company's Manager, said 'We are satisfied that this is the proper way of settling disputes, and as far as we are concerned, we will do all in our power to see the law enforced.' The Company accepted the Report of the Conciliation Board and changed its scale of wages to conform thereto, which was only in minor points, and, as stated above, the business of mining coal has been resumed without any prospects of further trouble. In two cases Boards after establishment were prevented from effective work by circumstances of an unusual character. (1) In the case of a dispute at Port Morien, N.S., between the North Atlantic Collieries Company, Limited, and its employees, it proved that the Company concerned had gone into liquidation and operations had been discontinued. The Board reported formally on March 24, 1911, but obviously the reason for its establishment had ceased to exist. (2) The dispute between the Montreal Street Railway Company and its employees has been mentioned on a preceding page; in this case the Board was restrained by injunction from proceeding and the legal proceedings then commenced were not concluded at the close of the fiscal year.

FOURTEEN STRIKES IN FIVE YEARS.

Of the 124 disputes referred during the five years' life of the Act there have been, as previously stated, fourteen instances where the operation of the statute did not lead to agreement or otherwise avert the strike that had threatened. Four of these fourteen disputes concerned the railway industry, nine related to the mining industry, and the other one related to the street railway industry. In seven cases these disputes had to do in whole or in part with the question of alleged discrimination against or the recognition of certain labour unions. The fourteen disputes were the following:—

(1) Cumberland Railway & Coal Company of Springhill, N.S., and its employees; (2) Canadian Pacific Railway Company and its mechanical employees; (3) Nicola Valley Coal & Coke Company of Middlesboro, B.C., and its employees; (4) British Columbia Copper Company of Greenwood, B.C., and its employees; (5) Dominion Coal Company of Glace Bay, C.B., and its employees; (6) Cumberland Railway & Coal Company of Springhill, N.S., and its employees; (7) British Columbia Copper Company of Greenwood, B.C., and its employees; (8) Canadian Northern Railway Company and its carmen and steamfitters; (9) Grand Trunk Railway Company and its employees in train and yard service; (10) Winnipeg Electric Railway Company and its

SESSIONAL PAPER No. 36a

employees; (11) Coal Mining Companies comprising the Western Coal Operators' Association and their employees; (12) Hudson Bay Mining Company of Gowganda, Ont., and its employees; (13) Grand Trunk Pacific Railway Company and its machinists and boilermakers; and (14) Alberta Coal Mining Company of Cardiff, Alta., and its employees.

In No. 1, the strike lasted from August 1, 1907, to August 31, 1907, when the employees returned to work on the conditions recommended in the report of the Board. In No. 2, the strike lasted from August 5, 1908, to October 5, 1908, when the employees returned to work on the conditions recommended in the report of the Board. In No. 3, the employees went on strike on April 28, 1909, during the process of establishing a Board, and returned to work early in June on lines recommended by the Board. In No. 4, the strike lasted from June 28 to July 24, 1909; in this case several reports were put in by the members of the Board, and the settlement was on the lines substantially of the Chairman's recommendations. In No. 5, the strike lasted from July 6, 1909, to April 28, 1910, when the employees returned to work on the lines recommended in the report of the Board, with such modifications as had been made in the same by an agreement subsequently effected. In No. 6, the strike lasted from August 9, 1909, to May 27, 1911, when a settlement was effected by negotiation between the parties. It should be noted that the parties concerned in Nos. 1 and 6 are identical. In No. 7, the strike lasted from April 19 to May 11, 1910, when the employees returned to work on the conditions recommended in the report of the Board. In Nos. 4 and 7 they are also identical. In No. 8, the strike lasted from July 7 to September 27, 1910, when the employees returned to work on the conditions recommended in the report of the Board. In No. 9, the strike lasted from July 18 to August 2, 1910, when a settlement was effected through Government intervention. In No. 10, the strike lasted from December 16 to December 31, 1910, when the strike was terminated through the efforts of a committee of citizens. In No. 11, the strike lasted from April 1, 1911, to the middle of November, when a settlement resulted from negotiations resumed at the instance of Hon. R. Rogers. It is understood that in drawing up the terms of settlement the report of the Chairman of the Board was taken as a basis. In No. 12, the strike occurred in the month of June last. Operations in the mines were, however, resumed in the month of July. A number of the Company's former employees at the close of the fiscal year declared the strike to be in continuance, no formal settlement having been reached. In No. 13, the Company's shops at Edmonton and Rivers, Alta., were closed down on October 6, last, and on October 10 the employees declared a strike which the employees stated at the close of the fiscal year to be still effective, though this was denied by the Company which claimed to be unaffected. In No. 14 the strike occurred in December last. Following the communication of the findings of the Board to the parties concerned there was a cessation of work for a few days. A settlement was, however, reached on the basis of the Board findings.

STATISTICAL STATEMENTS.

SESSIONAL PAPER No. 36a

INDUSTRIAL DISPUTES INVESTIGATION ACT, 1907—STATEMENT IN BRIEF
FOR ONE YEAR.

TABLE SHOWING PROCEEDINGS UNDER ACT FROM MARCH 31 1911, TO MARCH 31, 1912.

Applications concerning disputes in mines and public utilities 18							Applications concerning disputes in industries other than mines and public utilities. 1	Total Applica- tions under Act	Total number of strikes not averted or ended.
Concerning mines and smelters.		Concerning transportation and communication. 13				Concerning civic employees. 2	Disputes referred by con- sent of parties concerned under section 63 of I.D.I. Act, 1907. 1	19	4

Disputes referred for adjust- ment under Act.									
Strikes not averted or ended.									

1.—The proceedings under the Act during this year include one case in which certain proceedings had taken place during the preceding year, viz.: a dispute between the Great North Western Telegraph Company of Canada and its telegraphers.

2.—At the close of the financial year results were still pending in connection with two applications, viz.: (1) application made on behalf of the employees of the Montreal Street Railway Company; and (2) application made on behalf of the railroad freight handlers and Railway clerks employed by the Canadian Pacific Railway Company at Winnipeg, Man.

SESSIONAL PAPER No. 36a

INDUSTRIAL DISPUTES INVESTIGATION ACT, 1907.

PROCEEDINGS 1911-1912.

A.—MINES, AGENCIES OF TRANSPORTATION AND COMMUNICATION, AND OTHER PUBLIC SERVICE UTILITIES.

1. Appointed by the Minister, under Section 8, Sub-section 1, of the I.D.I. Act, on recommendation from party concerned.
2. Appointed by the Minister, under Section 8, Sub-section 2, of the I.D.I. Act, in the absence of a recommendation from party concerned.
3. Appointed by the Minister, under Section 8, Sub-section 3, of the I.D.I. Act, on the joint recommendation of the two members first appointed.
4. Appointed by the Minister, under Section 8, Sub-section 4, of the I.D.I. Act, in the absence of a joint recommendation by the two members first appointed.

MINING AND SMELTING INDUSTRY.

1. COAL MINES.

DEPARTMENT OF LASOUL, CANADA.
STATISTICAL TABLES, XI., A.R., No. 6.

Date of receipt of application.	Parties to Dispute.	Party making application.	Locality	No. persons affected.	Nature of Dispute.	Names of Members: (C) Chairman; (E) Employer; (M) Men.	Date on which Board was constituted.	Date of receipt of report of Board.	Result of reference.
1911 April 13...	Western Coal Operators Association and employees, members of District No. 18, United Mine Workers of America.	Employees...	Eastern British Columbia and Southern Alberta.	6,000 dir., an indefinite number indir.	Concerning making of new agreement.	Rev. C. W. Gordon, D.D., (c) 4. I. Colth Macleod, (E) A. J. Carter (M) 1.	1911 April 21...	July 10. July 11. July 12.	The employees concerned in this dispute ceased work on March 31, 1911, on the termination of a two years' agreement with the employing companies. A Board was established by request of the employees on April 13. The Board's report was accompanied by a minority report by Mr. Carter. The Operators signed their willingness to negotiate an agreement along the general lines suggested by the Board in its majority report; the employees, on the other hand, accepting the minority report of Mr. Carter. The majority of the mines remained closed down until the middle of November, when a new agreement was signed by the parties concerned, effective to March 31, 1915.
Oct. 23....	Alberta Coal Mining Company Limited and employees.	Employer...	Cardiff, Alta.	80.....	Concerning wages and conditions of employment.	J. Norman Fraser (c) 3 O. Hannah (E) 1 Clement Stubbs (M) 1.	Nov. 27...	Dec. 12.	Report was signed by all three members of the Board, with slight objections noted by M.M. Hannah and Stubbs. After the award of the Board had been communicated to both parties concerned there was a cessation of work for a few days. The Department was later informed that a settlement had been reached on the basis of the Board's findings, and work resumed.

INDUSTRIAL DISPUTES INVESTIGATION ACT, 1907.

PROCEEDINGS 1911-12.

MINING AND SMELTING INDUSTRY

2. METAL MINES

Date of receipt of application.	Parties to Dispute.	Party making application.	Locality	No. persons affected.	Nature of Dispute.	Names of Members Board: (C) Chairman; (M) Employer (M) Men.	Date on which Board was constituted.	Date of receipt of report of Board.	Result of reference.
1911 May 25....	Hudson Bay Mining Company, Ltd., and employees, members Gowganda Miners Union No. 154 Western Federation of Miners.	Employees....	Gowganda, Ont.	30	Concerning reduction in wages	George Ritchie, K. C. (c) 4. Prof. John Sharp, Duncan J. McDonald (M) 1.	June 9.....	July 10.	Report of Board was accompanied by minority report signed by Mr. McDonald. The employees, being unwilling to accept the Board report declared a strike of which no formal settlement was reported. Operations were resumed in the company's mine at the end of July.

TRANSPORTATION AND COMMUNICATION.

1. RAILWAYS.

Date of receipt of application.	Parties to Dispute.	Party making application.	Locality	No. persons affected.	Nature of Dispute.	Names of Members Board: (C) Chairman; (M) Employer (M) Men.	Date on which Board was constituted.	Date of receipt of report of Board.	Result of reference.
1911 May 11.....	Michigan Central Railway Company and section men.	Employees....	St. Thomas, Ont.	1,200 to 1,400	Concerning proposed reduction in wages				The employees concerned in this dispute ceased work on May 1, on account of a proposed reduction in their rate of pay. Application was later made by the employees for the establishment of a Board. Whilst communications were passing between the Department and the employees an officer of the Department proceeded to St. Thomas at the Minister's request for the purpose of conferring with the parties concerned. As a result the Company restored the scale of wages which had existed prior to May 1, 1911, and announced its willingness to re-engage those who had ceased work.
May 17.	Canadinn Northern Coal and Ore Dork Company Ltd., and employees, members of	Employees....	Port Arthur, Ont.	130 dir., 200 indir.	Concerning wages and conditions of employment.	His Honour Judge John McKay (c). George F. Horrigan (M) 1.	June 2.....	June 10.	A unanimous report was presented by the Board in which it was stated that a settlement had been effected of all points at issue, an agreement effective

SESSIONAL PAPER No. 36a

May 17	Ceal Handlers' Union No 349. Quebec and Lake St. John Railway Company, and members of the Brotherhood of Railway Carmen of America.	Quebec, Que	80 dir. 15 indir.	Concerning wages and conditions of employment	Andrew Boyd (w) 1.	from May 1, 1911, to April 30, 1912, having been signed by both parties to.
July 1	Grand Trunk and Machinists, members of the International Association of Machinists	G. T. R. System.	2,000 dir. 6,000 indir.	Concerning demand for a new schedule of rules and rates of pay.	Hon. Mr. Justice J. V. Teetzel (c) 3. Hon. Wallace Nesbitt, K.C. (E) 1. J. G. O'Donoghue, (w) 1.	Whilst proceedings looking to the establishment of a Board were in progress, the Department was informed that a settlement had been reached on the various points at issue.
July 31	Grand Trunk Pacific Railway Company, and Machinists, members of the International Association of Machinists.	G. T. P. Ry. System.	150	Concerning wages, hours, and conditions of employment, also demand for schedule.	Dr. J. W. Sparling, (c) 4. Rev. J. L. Gordon (E) 2. Thos. J. Murray, (w) 1.	Report was signed by all three members of the Board, Mr. O'Donoghue, however dissenting in certain particulars. Department was informed that the findings of the Board were not acceptable to the employees concerned. No cessation of work however, occurred.
Aug 8...	Grand Trunk Pacific Railway Co., and boilermakers, members of the International Brotherhood of Ship Builders and Boilermakers, Iron Helpers of America	G. T. P. Ry. System.	150	Concerning wages, hours and conditions of employment, also demand for schedule.		A unanimous report was presented by the Board which was favourable to the employees concerned and was accepted on their behalf. The Company, in a letter dated November 2, declined to accept the Board's findings. On October 6, the Company's shops at Edmonton and Rivers were closed down and the employees concerned declared a strike in October 10, which was still in progress on March 31, 1912.
1911 Sept. 11	Canadian Pacific Railway Company and various employees, members of the Canadian Brotherhood of Railroad Employees.	Calgary and Medicine Hat, Alta.	6,500 dir. 6,500 indir.	Concerning alleged discrimination against members of Union.	John Anthony McDonald (w) 1.	Proceeding discontinued.
Nov. 14	Quebec Central Railway Company, and telegraph and station employees members of the Order of Railroad Telegraphers.	Quebec Central Railway lines.	70.....	Concerning demand for a new schedule of rules and rates of pay.		Pending establishment of Board, a settlement was arrived at.

The two applications here recorded are regarded as one in the tabular statement.

2. Honourable Walter Nesbitt, K.C., was at first appointed a member of the Board, but, being unable to act, withdrew on October 5.

Hamah, (E) ¹ ; Clement Stubbs (M) ¹	17 Apr.	21 Apr.	2 A unanimous report was presented by the Board making certain recommendations for the settlement of the dispute, which were understood to have been accepted by both parties concerned; a strike being thereby averted.
Apr.	18 Canadian-American Coal & Coke Company and employees, members of Frank Local No. 1263, U.M.W.A.	Employer...	Frank, Alta.	202	Concerning making of new agreement and recognition of U.M.W.A.	J. S. G. VanWart (C) ¹ ; W. S. Lane, (E) ¹ ; Clement Stubbs (M) ¹	29 June	1911 18 Feb.	4 Settlement arrived at by Chairman without Board being formally convened; settlement effective to March 31, 1911.
Oct.	26 Crow's Nest Pass Coal Company, Limited, and employees, members of District No. 18, U.M.W.A.	Coal Employees..	Fernie, B.C.	3,000	Concerning alleged breach of agreement and increased charge for special train	J. S. G. VanWart (C) ¹ ; W. S. Lane, (E) ¹ ; Clement Stubbs (M) ¹	Nov.	1911 18 Feb.	18 Board effected settlement which was understood to be acceptable to both parties concerned, a strike being thereby averted.
1911 Jun	16 North Atlantic Collier-ies Company, Limited and employees, members of Local Union, No. 2173, District No. 26, U.M.W.A.	Employees	Port Morion, N.S.	110 dir. 150 indir.	Concerning reduction in wages and conditions of employment.	Prof. Robt. Magill (C) ¹ ; Duncan G. MacDon-ald (E) ² ; Alexander McKinnon, (M) ¹ .	Mar.	23	23 During proceedings for establishment of Board, Company went into liquidation and mines were accordingly closed down.

SESSIONAL PAPER No. 36a

1911 Jan.	7	The Wetclaffer Silver Mining Company, Limited, and certain employees.	Employees....	South Lornain, Ont.	35 dir. 30 indir.	Concerning reduction in wages. George Ritchie, (C); R. F. Taylor, (E); Chas. H. Lowthian, (M).	1911 Feb. 20	25	A unanimous report was presented by the Board making certain recommendations for settlement of dispute. No resumption of work occurred.
H. TRANSPORTATION AND COMMUNICATION.									
I. RAILWAYS.									
1910 Mar.	17	Toronto, Hamilton and Buffalo Railways Company and its conductors, baggagemen, brakemen and yardmen.	Employees....	All lines of T., H. & B. Railway.	101	Concerning employees demand for increased compensation and improved conditions. J. E. Atkinson, (C); F. H. McGuigan, (E); J. G. O'Donoghue, (M).	6		Agreement was reached between parties concerned without Board having been convened. The terms of settlement of this dispute were understood to correspond closely to the terms of settlement of a similar dispute between the C.P.R. and its employees in train and yard service.
Mar.	17	Canadian Pacific Railway Company and its conductors, baggagemen, brakemen and yardmen.	Employees....	All lines of C.P. Railway.	4,300	Concerning employees demand for increased compensation and improved conditions. J. E. Atkinson, (C); Wallace Nesbitt, (E); J. G. O'Donoghue, (M).	31 June	22	Report of Board was accompanied by a minority report signed by Mr. J. G. O'Donoghue, member appointed on the recommendation of the employees. Upon receipt of these reports negotiations were resumed between the Company and the employees concerned which resulted, on July 21, in an agreement to continue in force until terminated by thirty days' notice in writing. The agreement was understood to be in some respects similar to, but in other particulars different from the terms of settlement proposed by the Board, and was said to correspond closely both in respect of rates of wages and rules to "standard" rates and rules existing on a number of the principal railway systems in the Eastern States.
1910 Mar.	17	Grand Trunk Railway Company and its conductors, baggagemen, brakemen and yardmen.	Employees....	All lines of G.T.R. System.	5,017	Concerning employees demand for increased compensation and improved conditions. J. E. Atkinson, (C); Wallace Nesbitt, (E); J. G. O'Donoghue, (M).	6 June	22	Report of Board was accompanied by a minority report signed by Mr. Wallace Nesbitt, K.C., member appointed on the recommendation of the Company. Upon receipt of these reports negotiations were resumed between the Company and the employees concerned for settlement of the differences in question. These negotiations were continued up till July 18, when a strike was declared of the employees concerned. Strike continued up till August 2, when it was announced that a settlement had been arrived at through Government intervention, the strike being declared off.

DEPARTMENT OF LABOUR, CANADA,
STATISTICAL TABLES, XI., A.R., No. 7.

MINING AND SMELTING INDUSTRY.
I. COAL MINES.

Date of receipt of application.	Parties to Dispute.	Party making application.	Locality	No. persons affected.	Nature of Dispute.	Names of Members: (C) Chairman; (E) Employer; (M) Men.	Date on which Board was constituted.	Date of receipt of report of Board.	Result of reference.
1909 Mar. 4.	Dominion Coal Company and employees, members of United Mine Workers of America.	Employees.	Glouce Bay, C.B.	3,000.	Alleged discrimination against certain employees, members of United Mine Workers of America.	Honour Judge Wallace, (c) 4. G. S. Campbell (e) 2. Daniel McDougall, (m) 1.	Mar. 22.	Apr. 16	The Board did not present a unanimous report, Mr. McDougall presenting the minority report. The Board found against the contentions of the men, and the latter refusing to accept the findings struck, on July 6. It was claimed by the Company that the output of coal from its mines had practically ceased to be affected during the winter months following, although a considerable number of workmen, members of the United Mine Workers of America, remained on strike at the end of March, 1910.
Apr. 13.	Nicola Valley Coal & Coke Company and employees.	Coal & Employees.	Middle-shoro, B.C.	150	Alleged discrimination against certain employees.	Honour Judge P. S. Lampman, (c) 3. Thos. Kiddie, (e) 1. Thos. Chas. Brooke, (m) 1.	May 7.	June 3. June 16. June 11.	The report of the Board was accompanied by a minority report signed by Mr. T. C. Brooke, the member appointed on behalf of the employees. The report was not accepted by either party, and whilst proceedings were pending for the establishment of a Board in this case the employees ceased work on April 28, and remained on strike until the month of June. On June 15, the Department was informed that an understanding had been reached between the management and the men.

SESSIONAL PAPER No. 36a

Apr. 26	Nova Scotia Steel & Coal Company, Ltd., and employees	Employees	Sydney Mines, C.B.	340	Wages and condition of labour and recognition of United Mine Workers of America.	His Honour Judge J. P. Chipman (c) 4 His Honour Judge MacGillivray (c) 2 D. McDougall (w) 1.	June 23	July 23	The report of the Board was accompanied by a minority report, signed by Mr. D. McDougall, member appointed on behalf of the employees. The report of the Board found against the claims of the employees. There was, however, no cessation of work, the threatened strike being averted.
May 8	Western Coal Operators' Association, comprising: Alberta Railway & Irrigation Company H. W. McNeill Company; Pacific Coal Company; Lethbridge Collieries Limited; Western Canadian Collieries, Limited; International Coal & Coke Company, Limited, and Hosmer Mines, Limited, and their employees.	Employees	Lethbridge, Colman, Lille, Bankhead, Hillcrest, Bellevue, Fushburg, Cammore, and Taber, Alta.; Hosmer and Frank, B.C.	2,100	Wages and conditions of labour.	Rev. Hugh Grant (c) 4. Colin Macleod (c) 1. P. H. Sherman (w) 1.	May 15	June 21	The report of the Board was accompanied by a minority report, signed by Mr. Colin Macleod, which was, however, in substantial agreement with that of the Board. The report was not definitely accepted by either party, but conferences between the employers and the employees followed its publication, with the result that an agreement was reached, closely following the terms of the award, effective to March 31, 1911. The employees, who had been on strike from April 1, resumed work on July 1.
May 10	Cumbarhard Railway & Coal Company and employees.	Employees	Springhill, N.S.	1,500	Wages and conditions of labour and recognition of United Mine Workers of America.	Hon. Mr. Justice Longley (c) 4. Chas. Archibald (c) 2. E. B. Paul (w) 1.	June 5	July 23	The report of the Board was accompanied by a minority note, signed by Mr. E. B. Paul, the member appointed on behalf of the employees. The Board's findings were substantially in favour of the Company. The award was not, however, accepted by the employees, and a strike was declared on August 9, which resulted in the closing down of the Company's mines until early in the month of March, 1910, when operations were resumed on a limited scale.
June 15	Canada West Coal Company and employees.	Employer	Taber, Alta.	300	Wages and conditions of labour.	His Honour Judge R. Winter (c) 3. Colin Macleod (c) 1. W. C. Simmons (w) 1.	July 3	July 19	An unanimous report was presented by the Board, making recommendations for the settlement of the dispute. An agreement based on the findings of the Board was subsequently signed by the parties concerned, effective from July 30, 1909, to March 31, 1911. The employees who had been on strike from April 23, returned to work on July 30.
Nov. 18	Edmonton Standard Coal Company, Ltd., and employees.	Employer	Edmonton, Alta.	75	Wages and dismissal of employees.	Geo. F. Cunningham (c) 3. Frank B. Smith (c) 1. Clement Stubbs (w) 1.	Dec. 2	Dec. 27	A unanimous report was presented by the Board making certain recommendations for the settlement of the dispute, which were accepted by the parties concerned, a strike being thereby averted.
Dec. 2	James W. Blain, contractor for output of Cardiff Coal Company, Limited and employees	Employer	Cardiff, Alta.	60 dir. 15 indir.	Wages and condition of employment.	Proceedings in connection with the application were discontinued in view of an agreement being reached by the parties concerned.

SESSIONAL PAPER No. 36a

Dec. 26.....	Kingston & Pembroke Railway Company and employees, members of Order of Railroad Telegraphers.	Kingston & Pembroke Railway system	19 dir. 1,600 indir.	Concerning wages and conditions of labour.	Hon. Judge (a) 4, J. L. Whiting, K.C. J. G. O'Donoghue, (a) 1.	Jan. 15.....	Proceedings unfinished.
Dec. 29	Great Northwestern Telegraph Company and certain Railroad Telegraphers on Michigan Central Railway system.	Michigan Central Railway system	75.....	Abolition of commission by commercial business on Michigan Central Railway System by Great Northwestern Telegraph Company, without due notice	Judge McGibbon, (a) 2, J. F. Mackay, (a) 2, J. G. O'Donoghue, (a) 1.	Feb. 8	Mar. 22..... A unanimous report was presented by the Board, making certain recommendations for the settlement of the dispute. The report was substantially in favour of the employees. The Company had refused to nominate to the Board and claimed irresponsibility on the matter. The inquiry, though not resulting in the agreement is understood to have modified the situation to such a degree that danger of the threatened strike was averted.

2. STREET RAILWAYS.

1908 May 8.....	Ottawa Electric Railway and its employees	Ottawa, Ont.	258	Concerning wages and conditions of labour.	Prof. A. Shortt, (a) 4, J. F. Henderson, J. G. O'Donoghue, (a) 1.	May 22.....	June 15..... Differences amicably arranged before the Board and strike thereby averted.
Sept. 3.....	Quebec Heat, Light & Power Company and its Street Railway employees.	Quebec, Que.	116	Concerning alleged wrongful dismissal of certain employees	Omer Brisset, (a) 1, W. H. Moore, (a) 2.	Oct. 6.....	The two members of the Board appointed respectively on the nomination of employing Company and employees presented a joint statement making certain recommendations for a settlement of the disputed points, which recommendations were accepted by both parties to the dispute as a settlement of the differences, a strike being thereby averted. Proceedings unfinished.
1909 Feb. 10.....	Manitoba Cartage Company, Limited.	Winnipeg, Man.	40 dir. 290 indir.	Concerning alleged discrimination against non-union employees with the Union.	Rev. Dr. C. W. Gordon, (a) 3, Prof. R. Cochrane, (a) 2, T. J. Murray, (a) 1.	Mar. 2.....	Proceedings unfinished.

B. - INDUSTRIES OTHER THAN MINES, AGENCIES OF TRANSPORTATION AND COMMUNICATION AND OTHER PUBLIC UTILITIES.*

1908 Dec. 17.....	The John Ritchie Company, Limited, and certain employees (lusters).	Quebec, Que.	300	Concerning introduction of certain machine and wages.	Dr. Chas. Cote, (a) 3, Felix Marcis, (a) 1, Z. Bérubé, (a) 1.	Dec. 31.....	Feb. 17..... An agreement was concluded before the Board covering all matters in dispute effective from February 12, 1909 to May 1, 1910, a strike being thereby averted.
----------------------	---	--------------	-----------	---	---	--------------	--

*Owing to inability of Mr. R. E. Finn to act as member of Board, Mr. J. G. O'Donoghue was appointed in his stead.

Owing to inability of A. Chatrian to act as member of the Board, P. J. Jolin was appointed in his stead.
These disputes were referred to a Board of Conciliation and Investigation under section 63 of the Act which provides that "in the event of a dispute arising in any industry or trade other than such as may be included under the provision of this Act and such dispute threatens to result in a lockout or strike, or has actually resulted in a lockout or strike, either of the parties may agree in writing, to allow such dispute to be referred to a Board of Conciliation and Investigation, to be constituted under the provisions of this Act, etc.

INDUSTRIAL DISPUTES INVESTIGATION ACT, 1907.

PROCEEDINGS 1907-1908.

Statement of Applications for Boards of Conciliation and Investigation and of Proceedings thereunder from March 22, 1907, to March 31, 1908.

A.—MINES, AGENCIES OF TRANSPORTATION AND COMMUNICATION, AND OTHER PUBLIC SERVICE UTILITIES.

1. Appointed by the Minister, under Section 8, Sub-section 1, of the I.D.I. Act, on recommendation from party concerned.
2. Appointed by the Minister, under Section 8, Sub-section 2, of the I.D.I. Act, in the absence of a recommendation from party concerned.
3. Appointed by the Minister, under Section 8, Sub-section 3, of the I.D.I. Act, on the joint recommendation of the two members first appointed.
4. Appointed by the Minister, under Section 8, Sub-section 4, of the I.D.I. Act, in the absence of a joint recommendation by the two members first appointed.

MINING AND SMELTING INDUSTRY.

DEPARTMENT OF LABOUR, CANADA,
STATISTICAL TABLES, A.R.,

1. COAL MINES.

Date of receipt of application.	Parties to Dispute.	Party making application.	Locality	No. of persons affected.	Nature of Dispute.	Names of Members of Board: (C) Chairman; (B) Employer (M) Men.	Date on which Board was constituted.	Date of receipt of report of Board.	Result of reference.
1907 Apr. 8	1 Cumberland Railway Employees & Coal Company and employees.	Employees...	Springhill, N.S.	1,700	Concerning employment of non-union workmen.				On April 1, employees went on strike. It was alleged by employees that they were under impression that the mines of Nova Scotia were exempt from provisions of Act. When it was explained Act applied to all Canada, employees returned to work April 8. Difficulty amicably settled. No Board constituted.
Apr. ...	1 Canada West Coal & Coke Company and employees.	Employees...	Tuber, Alta.	150	Concerning hours of labour.				On April 1, employer locked out employees. Employer alleged that this was done in ignorance of provisions of Act. When informed of provisions of Act by Department, mines were re-opened on April 18. Subsequently an amicable settlement was effected through intervention of Mr. J. D. Mc-Niven, Fair Wages Officer of Department. No Board constituted.

SESSIONAL PAPER No. 36a

Apr. 9	Western Coal Operators' Association and employees. Canadian American Coal & Coko Company.	Frank, Alta.	250	Concerning terms of joint agreement including wages, schedule and other conditions of employment.	Sir Wm. Mulock, K.C.M.G. (c) 4. J. L. Parker (s) 1. L. P. Eckstein (M) 1.	Apr. 22	May 20	Employees went on strike in the several mines while proceedings were pending in connection with the establishment of the Boards of Conciliation and investigation, in consequence, it was alleged, of misunderstandings which arose through ignorance of the provisions of the Act. The Deputy Minister of Labour left for Fernie on April 19, to explain to the parties the provisions of the law. While in Fernie, the parties consented to his intervention as a conciliator under the Conciliation Act, 1900, and an agreement was effected on May 4. The Boards convened at Fernie on April 30, but adjourned proceedings pending investigations by the Deputy Minister. On May 6, the Boards reconvened to receive from the parties a formal statement that the differences had been adjusted, a further cessation of work being thereby averted. An important feature of the settlement was the establishment of a standing committee of conciliation between the employers and employees, to which future differences were to be referred.
	Crow's Nest Pass Coal Company.	Fernie, Coal Creek, Michel, B.C.	1,800		Sir Wm. Mulock, K.C.M.G. (c) 4. J. B. Smith (s) 1. L. P. Eckstein (M) 1.			
	International Coal & Coke Company. West Canadian Coaleries, Limited.	Coleman, Alta.	370					
		Lille and Bellevue	350					
	Breckenridge and Lund Coal Company.	Landbrook, Alta.	125					
	H. W. McNeill Coal Company.	Chamorro, Alta.	300					
	Pacific Coal Company.	Bankhead, Alta.	400					
May 8	Cumberland Railway & Coal Company and employees	Springhill, N.S.	1,700	Concerning payment for work in counter levels and stone in pillar work.	The Hon. Mr. Justice Graham (c) 3. P. S. Archibald (s) 1. R. B. Murray (M) 1.	May 17	July 13	Board being unable to effect a settlement by conciliation, presented a report signed by the Chairman and Mr. Archibald. Minority report was presented by Mr. Murray. The recommendations of the Board were not accepted by the employees. The strike which was threatened prior to the application for Board on May 8 was averted for the time being but took place on August 1 continuing until October 31, when the employees returned to work on the conditions recommended in the report of the Board.

1 It is important to note in connection with these disputes that the Industrial Disputes Investigation Act was not assented to till March 22, 1907. It was some weeks later before copies of the Act were available for distribution. Its provisions in consequence were not fully known by the parties at the time these disputes occurred.

2 Applications for a Board were received also from the employers, parties to this dispute.

Murray, (C) 3. Henry Holgate, (E) 1 R. E. Finn, M.P.P., (M) 1.	July 22....	Aug. 12....	On June 29, employees went on strike, and when informed that provisions of Act applied, both parties agreed to refer the differences under the Act, and on- the differences returned to work. On the re- quest of the parties, proceedings were subsequently adopted under the Con- ciliation and Labour Act, and the settle- ment effected, the terms of which were made applicable to the Railway's employees at St. John, N.B., as well as at Halifax, N.S., and further cessa- tion of work was thereby averted.

TEXT OF REPORTS RECEIVED DURING 1911-1912.

In the following pages appears the text of the reports presented by Boards of Conciliation and Investigation, received by the Registrar during the financial year 1911-1912, also the text of minority reports received.

I. APPLICATION FROM TELEGRAPHERS, MEMBERS OF THE COMMERCIAL TELEGRAPHERS' UNION OF AMERICA, EMPLOYED BY THE GREAT NORTH WESTERN TELEGRAPH COMPANY OF CANADA.—BOARD ESTABLISHED.—STRIKE AVERTED.

Application received—March 3, 1911.

Parties concerned—The Great North Western Telegraph Company of Canada and telegraphers, members of the Commercial Telegraphers' Union of America.

Applicants—Employees.

Nature of industry concerned—Telegraphy.

Nature of dispute—Wages and conditions of employment; also alleged discrimination against the members of Union.

Number of employees affected—Directly, 200; indirectly, 1,100.

Date of constitution of Board—March 30, 1911.

Membership of Board—Honourable Mr. Justice J. V. Teetzel, Toronto, Ont., Chairman, appointed on the joint recommendation of the other members of the Board; Mr. Frederick H. Markey, K.C., Montreal, Que., appointed on the recommendation of the employing Company; and Mr. D. Campbell, Toronto, Ont., appointed on the recommendation of the employees concerned.

Report received—July 17, 1911.

Result of inquiry—Report was signed by the three members of the Board, Mr. Markey and Mr. Campbell each, however, dissenting on one point. The findings of the Board were accepted by both parties concerned.

The Minister of Labour received, on July 17, the report of the Board of Conciliation and Investigation to which had been referred for adjustment certain differences between the Great North Western Telegraph Company of Canada and telegraph operators in its employ, members of the Commercial Telegraphers' Union of America.

In the application for the establishment of the Board it was stated that the dispute related to rates of wages, working conditions, the dismissal of a number of men and general discrimination against them as members of the Union, and for acting on a committee representing the employees. The number of employees concerned was given as 200 directly and 1,100 indirectly.

SESSIONAL PAPER No. 36a

A Board was established by the Minister on March 20, and was constituted as follows:—Mr. Frederick H. Markey, K.C., Montreal, Que., member appointed on the recommendation of the employing Company; Mr. D. Campbell, Toronto, Ont., member appointed on the recommendation of the employees concerned; and the Honourable Mr. Justice J. V. Teetzel, Toronto, Ont., Chairman, appointed on the joint recommendation of the foregoing members of the Board.

The Board met in the City of Toronto on April 6, concluding its work on July 13. The General Manager of the Canadian Pacific Railway Company's Telegraph and other officials of that Company, as well as representatives of the Great North Western Telegraph Company of Canada and of the employees were present at the meetings.

With respect to the dismissal of the men and alleged discrimination against them as members of the Union, the Board found that eleven men had been dismissed on or about the 14th of February, 1911, three of whom had acted on a committee which had presented a schedule of wages and proposed rules to the Company, at the same time requesting a conference with the Manager for the purpose of considering the said schedule of wages and set of rules. This proposal had been refused and the dismissals had followed shortly afterwards. The Company agreed to reinstate the former employes with the exception of four, including the three who had acted on the committee; other reasons, the Company alleged, being responsible for their dismissal. The Board, however, with the exception of Mr. Frederick H. Markey, member appointed on the recommendation of the Company, thought the fourth member should be reinstated.

The employees submitted a set of rules which they had drawn up, and the Board after amending and altering them in certain respects recommended their adoption from the first day of August, 1911. Mr. D. Campbell, member appointed on the recommendation of the men, dissented from the Board's finding in one particular. With regard to the question of wages, the Board found that since the appointment of the General Manager in March last, an increase to the extent of over \$7,000 had been granted to the telegraphers; and as the General Manager seemed inclined to treat his employees justly the Board did not, therefore, recommend any further increase at the time. A system of percentage grading similar to that in use by the Canadian Pacific Railway Company's Telegraphs was asked for by the employees; this the Board recommended should be adopted in the cities of Toronto, Montreal, Ottawa and Quebec, the same to take effect on January 1, 1912.

The findings of the Board were accepted by both parties concerned.

Report of Board.

The text of the findings of the Board of Conciliation and Investigation in this matter is as follows:—

In the matter of the Industrial Disputes Investigation Act, and in the matter of differences between the Great North Western Telegraph Company of Canada, employer, and certain telegraph operators in its employ, employees.

As members of the Board of Conciliation and Investigation appointed to deal with the disputes between the Great North-Western Telegraph Company of Canada and its employees, we beg to report as follows:—

The matters referred to us were the following:—

1. Dismissal of a number of the employees, and also general discrimination against them for participating in membership of the Union, and for acting on a committee representing the employees.

2. A dispute as to rates of pay and working conditions.

The Telegraphers were represented by Messrs. S. J. Konenkamp, M. J. O'Neill and Charles Godwin, and the Telegraph Company was represented by Mr. George D. Perry, General Manager.

The Board met at the City of Toronto on the 6th day of April, the 25th and 26th days of May, the 15th and 16th days of June, and the 10th and 11th days of July, 1911, when the evidence of the aforesaid representatives, also James Kent, General Manager of the Canadian Pacific Railway Company's Telegraph; W. J. Camp, Electrical Engineer of that Company; J. F. Richardson, Superintendent of the Eastern Division of that Company, and G. D. Robertson, General Chairman of the Canadian Pacific Railway Company's Railroad Telegraphers; Charles E. Davies, Manager of the Great North Western Telegraph Company's office at Ottawa; Ernest Stainton, Chief Night Operator at the Company's office at Montreal; George Salloway, that company's Chief Operator at Montreal; and L. S. Humes, its Manager at Montreal; and, in addition to such evidence, the Board heard extensive arguments of the respective representatives touching the matters in question, and on July 12 and 13 the Board met for the final consideration of the evidence and arguments presented and the preparation of this Report.

ITEM 1.

Dismissal of a number of employees, and also general discrimination against them for participating in the Union.

On or about February 14, 1911, the following eleven employees were dismissed by the Company: W. F. Moore, Robert Dunn, W. H. Hartley, A. J. Thompson, A. R. M. Sterling, Joseph Manning, F. Carceau, C. A. Godwin, J. E. Montgomery, M. J. O'Neil and R. W. Ball.

These men were discharged by the Company by reason of the active part which they took as members of the Commercial Telegraphers' Union of America. Three of them, Manning, O'Neil and Godwin, were members of a Committee which presented for adoption by the Company a schedule of wages and proposed rules or working conditions, and who requested a conference with the late General Manager, for the purpose of discussing the said schedule of wages and rules. The conference requested was refused by the late General Manager, and shortly afterwards, to wit, on or about February 14, the said Committee and the others above named were discharged.

SESSIONAL PAPER No. 36a

At the first meeting of this Board, the representatives of the employees stated that they had not intended and did not now intend to demand from the Company a recognition of the said Union, or any other Union, or to require anything to be done which would prevent promotion of employees on their merits.

No reason other than their action in connection with the Union as above stated was advanced for the dismissal of these men, and this Board is of the opinion that the reason given for such dismissal was insufficient.

The Company, through its General Manager, Mr. Perry, stated to the Board that it would, upon application being made by them, reinstate all the said employees, except O'Neil, Godwin, Manning and Hartley, as to the reinstatement of whom they showed other objections, and this Board, having considered these objections, nevertheless recommends that the Company should reinstate the said Joseph Manning, from which recommendation, however, Mr. Markey dissents.

ITEM 2.

(a) Working Conditions or rules.

The employees submitted a set of rules, which the Board has very fully considered, and, having amended and altered the same, unanimously recommends that the following rules shall govern the telegraphers employed by the Great North Western Telegraph Company of Canada, and shall be adopted and take effect on August 1, 1911.

RULES AND WORKING CONDITIONS.

The following rules shall govern the telegraphers employed by the Great North Western Telegraph Company of Canada, and shall be adopted and take effect on August 1, 1911.

ARTICLE 1. Employees assigned to regular service will be classed as telegraphers within the meaning of these rules.

ARTICLE 2. Telegraphers' rights of promotion in each office will be governed by merit, fitness and ability, and where these are sufficient the senior telegrapher will be given the preference.

ARTICLE 3. When a vacancy occurs, the same will be filled by the appointment of the senior telegrapher in that office, who, in the opinion of the proper authority, is capable of filling the position.

ARTICLE 4. A list of all telegraphers employed at Winnipeg, Toronto, Ottawa, Montreal and Quebec will be kept on file at the Company's offices in said cities, showing the dates when said telegraphers entered the service of the Company; such list to be open to the inspection of all telegraphers whose names should appear thereon, and shall be subject to correction on proper representation from any such telegrapher at any time.

ARTICLE 5. In case of a reduction in the number of telegraphers employed, the senior telegraphers in their respective offices, if capable of performing the telegraph work required by the Company, will be retained in preference to

telegraphers junior to them. Any telegrapher in good standing whose services have been dispensed with on account of a reduction of the staff will be given preference of re-employment when staff is increased, if his merit and ability justify it.

ARTICLE 6. A telegrapher declining or being unable to accept promotion shall not forfeit his right to the same or any other position he may be entitled to under Article 2 when a vacancy occurs.

If a vacancy occurs when a telegrapher is on leave of absence (not exceeding thirty days) he will not be debarred from claiming the position to which he is entitled under seniority, and receiving the appointment on resuming duty, if his merit and ability justify it.

All vacancies shall be bulletined by the proper officer within ten days from the time such vacancy occurs.

ARTICLE 7. If a telegrapher be taken off his work for any cause, he shall be given a hearing by his chief Operator, when he shall be given particulars of the charge or charges against him, and shall have the right to have a co-employee of his own selection appear and speak for him. He shall have a right to appeal from the decision to the Superintendent, if one exists, and from the decision of the Superintendent to the General Manager; and if there is no Superintendent the appeal shall be direct from the decision of the Chief Operator to the General Manager. Should no decision be reached within fifteen days after the Division Superintendent or General Manager, as the case may be, has received notice of appeal, he shall receive his regular pay for time in excess of fifteen days until the decision is arrived at.

If the telegrapher is found blameless in the matter under investigation, he will be reinstated, and paid at regular rates for time lost, and necessary expenses while attending such investigation, if away from home.

ARTICLE 8. A telegrapher leaving the service of the Company will, on request to the Chief Operator in writing, as soon thereafter as practicable, be furnished with a certificate by him, stating term or terms of service, capacity in which employed, and whether discharged or leaving of his own accord. If discharged, cause of dismissal will be stated.

If detained by the Company more than five days waiting for such certificate, the telegrapher will be paid regular wages for all time in excess of five days. Unless otherwise requested, this certificate will be mailed to the telegrapher at his last place of employment.

ARTICLE 9. Where the words "Senior Telegrapher" or "Senior Telegraphers" occur in the foregoing rules, they shall mean senior telegraphers or senior telegraphers in length of service.

ARTICLE 10. At offices where four or more telegraphers are employed, the hours for work, except on legal holidays, shall be as follows:—

Nine hours shall constitute a day's work, beginning between 6 a.m. and 9 a.m. Eight hours shall constitute a day's work on split tricks or early or late night duty. Pay for overtime shall be computed on the basis of seven hours constituting a day's work.

SESSIONAL PAPER No. 36a

ARTICLE 11. On New Year's Day, Good Friday, Victoria Day, Dominion Day, Labour Day, Thanksgiving Day and Christmas Day, five hours, from 8 a. m. to 1 p.m., and from 1 p.m. to 6 p.m., and four and one-half hours, from 5 p.m. to 9.30 p.m., or from 6 p.m. to 10.30 p.m. shall each constitute a day.

As regards Rule 10, Mr. Campbell dissents as to the hours which shall constitute a day duty and split tricks and recommends eight hours and seven hours, respectively.

ITEM 2 (b) SCALE OF WAGES.

The employees submitted a minimum scale of wages for the Company's principal offices in which operators are employed at a fixed salary, and for the offices at Toronto, Ottawa, Montreal and Quebec proposed the adoption of a percentage grading, along the lines heretofore adopted by the Canadian Pacific Railway Company's Telegraphs in those offices on their lines.

The evidence of Mr. Perry shows that since his appointment, in March last, as General Manager of the Company, the wages of the telegraphers have been increased to the extent of over \$7,000; and that by such increase the wages of 106 operators or about half the total number employed have been augmented. Inasmuch as Mr. Perry has only been in charge of the affairs of the Company as General Manager for a short time, the Board is not disposed to recommend a further increase of wages at this time, feeling confident that Mr. Perry is inclined to treat his employees in a spirit of fairness. The board is pleased to note the mutual good feeling existing at present between Mr. Perry and the Company's employees.

The Board recommends that the minimum scale of wages for the future shall not be less than is at present paid the respective operators for the same class of service.

ITEM 2 (c). GRADING OF EMPLOYEES IN CERTAIN OFFICES.

The Board recommends that in Toronto, Montreal, Ottawa and Quebec Offices a system of grading of employees should be adopted, on the following lines, to take effect on January 1, 1912.

The basis for computing in each office the number of telegraphers to be paid specified wages on the present scale, shall be the minimum number employed in that office during any one month in 1911; and the percentage of any class shall not be required to exceed the percentage of such class ascertained on that basis. For example, assume that in any office there are fifty telegraphers, of whom two, or four per cent., are paid \$80 per month; five or ten per cent., \$75 per month; six, or twelve per cent., \$70 per month, ten, or twenty per cent., \$65 per month; four, or eight per cent., \$60 per month; four, or eight per cent., \$55 per month; and four, or eight per cent., \$50 per month, and the balance to make up one hundred per cent. are to be paid rates at the option of the Company; the percentage of any class ascertained on the above basis shall not be increased, notwithstanding that at the time this recommendation goes into force there may be

3 GEORGE V., A. 1913

then a larger number in that office in any class, or notwithstanding that at any time, by reason of increase of business the employment of a larger staff is required in any office; in other words, the Company shall have the right to add to the number in any class beyond the number to be ascertained as above without being required to readjust or add to the numbers employed in other classes.

In case the falling off of business in any office necessitates a reduction in the staff below the minimum to be fixed as aforesaid, the reduction shall be carried out under the provision of Rule Number 5.

Our work has been facilitated by all parties concerned.

All of which is respectfully submitted.

(Sgd.) J. V. TEETZEL, Chairman.

SESSIONAL PAPER No. 36a

II. APPLICATIONS FROM EMPLOYEES OF THE JOHN RITCHIE COMPANY, LIMITED, THE WM A. MARSH COMPANY, LIMITED, GALE BROTHERS, AND J. M. STOBO, BOOT AND SHOE MANUFACTURERS OF THE CITY OF QUEBEC.—BOARD ESTABLISHED.—UNANIMOUS REPORT BY BOARD.—NO CESSATION OF WORK OCCURRED.

Applications received—April 3, 1911.

Parties concerned—The John Ritchie Company, Limited, The Wm. A. Marsh Company, Limited, Gale Brothers, and J. M. Stobo, Boot and Shoe Manufacturers of the City of Quebec, and employees.

Applicants—Employees.

Nature of industry concerned—Boot and Shoe manufacture.

Nature of dispute—Wages.

Number of employees affected—Directly, 68, indirectly, 875.

Date of constitution of Board—April 24, 1911.

Membership of Board—Dr. G. W. Jolicoeur, Quebec, Que., Chairman appointed on the joint recommendation of the other members of the Board; Mr. Felix Marois, Quebec, Que., appointed on the recommendation of the employing Companies; and Mr. Joseph Alphonse Langlois, Quebec, Que., appointed on the recommendation of the employees concerned.

Report received—June 26, 1911.

Result of inquiry—A unanimous report was presented by the Board making certain recommendations for the settlement of the dispute. It was understood that the findings of the Board were accepted by the parties concerned.

The report of the Board of Conciliation and Investigation to which had been referred for adjustment certain matters in dispute between various boot and shoe companies of Quebec and their respective employees was received in the Department on June 26. The firms concerned in the disputes were the following, namely: The John Ritchie Company, Wm. Marsh & Company, Gale Brothers and J. M. Stobo, all of the City of Quebec. The boot and shoe manufacturing industry, not being a public utility, can be referred under the terms of the Industrial Disputes Investigation Act only by virtue of Section 63 of the statute, which requires the consent to such reference of both parties to the dispute. In the present case the matters set forth in the several applications received on April 3, were referred by joint consent of the parties to a Board of Conciliation and Investigation, and since the various disputes concerned the same industry, the Department corresponded with the various parties to ascertain the willingness of all concerned to have a single board established, the firms agreeing on a representative in common and the employees also nominating the same person. Under these conditions a Board was established, composed of

3 GEORGE V., A. 1913

the following gentlemen, namely: Dr. G. Will. Jolicoeur, Chairman, Mr. Félix Marois and Mr. Joseph A. Langlois, all of Quebec. Dr. Jolicoeur was appointed on the joint recommendation of Messrs. Marois and Langlois. The number of employees affected by the various disputes was placed at sixty-eight directly and 875, indirectly. The report received was unanimous, bearing the signatures of the three members of the Board, and dealt with the various disputes in turn.

It was understood that the findings of the Board were accepted by the parties concerned.

Report of Board.

The text of the findings of the Board of Conciliation and Investigation in this matter is as follows:

(Translation).

QUEBEC, June 24, 1911.

To the Honourable

W. L. MACKENZIE KING,

Minister of Labour, Ottawa.

SIR,—

In the matter of the Industrial Disputes Investigation Act, 1907, and in the matter of differences between the following firms: the John Ritchie Company, Wm. Marsh & Company, Gale Brothers and J. M. Stobo, boot and shoe manufacturers, Quebec and their employees.

After having heard the evidence of both parties in each case and examining the nature of the work of each of the employees concerned, also the methods followed and the prices paid in the boot and shoe factories in Montreal as well as in Quebec, we transmit the following report and the unanimous findings of the three members of the Conciliation Board established under your hand and seal on April 24, 1911.

First—CHARLES GARNEAU vs. THE JOHN RITCHIE COMPANY.

The dispute arose as a result of the introduction of a new machine for pressing heels. With the old machine the plaintiff worked for ten cents per case. The new machine requiring two operations instead of one, he asked twenty cents per case. After having heard the evidence and examined the working of the two machines we have concluded that the work is about the same: a little longer with the new machine, but on the other hand less dangerous. Charles Garneau should be paid twelve cents per case for the two operations on the new machine, or should he prefer, \$10 per week, if he accepts engagement by the week as his employer, J. Ritchie, offered him before going before a Board of Conciliation. We may add that everywhere else, or nearly everywhere else, this work is done by the week.

SESSIONAL PAPER No. 36a

This decision is to take effect from the day on which the matter was submitted to the arbitration of the Board composed of manufacturers and workmen, that is to say, from March 7, 1911.

Second—PHIDIME DROUIN, JOS. GOULET & ADJUTOR FORTIN vs. WM. MARSH & COMPANY.

The demand of the employees for an increase of \$1 per week, raising their respective salaries from \$11.50 to 12.50 per week, is granted and the increase is to take effect from April 1, 1911.

Third—GALE BROTHERS vs. FERDINAND BÉRUBÉ.

The employer Gale was paying Ferdinand Bérubé fifty cents per case for cutting the front of the heels and sandpapering them, and sandpapering and polishing the heels of children's and young ladies' boots and shoes. The employer Gale considers that excessive, inasmuch as F. Bérubé with his 19-year-old boy makes an average wage of \$38.75 per week, including even the five or six weeks that he does not work during the summer. The Gale firm being the only one in Quebec for this kind of work, our investigation was made chiefly in Montreal, where we were able to obtain information which justifies us in rendering the following decision: The employer Gale shall pay to F. Bérubé forty cents per case for heels and twenty cents per case for spring heels; this decision to take effect forthwith.

The price of forty cents per case for heels shall apply only to heels not more than one inch in height. Over this height, the price shall be fixed in the proportion of one inch one heel.

Fourth—HUBERT BONNEAU vs. J. M. STOBO.

In the settlement of this difference there were two questions in dispute: (1) the question of wages; (2) the upholding of Article 10 of an agreement existing between the employers and employees. After hearing the evidence, and in accordance with the information obtained here in Quebec and in Montreal, we decided the question without reference to this clause 10, which did not appear to us as having a direct bearing on this dispute and which would have hindered both parties rather than have been of use to either. We, therefore, decide that the employer, J. M. Stobo, shall pay to Hubert Bonneau, \$14.00 per week from November 1, 1910, and shall also give him the preference whenever there is work.

As you have already understood from our previous letters, the greatest difficulty in the settlement of these disputes is not so much in the re-adjustment of wages as in the attempt which we have made to bring the workmen and the employers together. A great deal of the present trouble, we believe, is due to the fact that the two associations have for some years looked upon each other as veritable enemies. We have, therefore, taken advantage of every opportunity

3 GEORGE V., A. 1913

that presented itself to point out to the workmen that they should respect the authority of the employer. Have we succeeded in reconciling them? We hope so, but much would still remain to be done. We have, therefore, in concluding our work, informed the two parties that we shall be at their service, if we are needed even after the Board has disbanded.

We shall likewise be ready, Sir, to give you any further information that you may require.

In conclusion we are glad to testify that all parties concerned in the settlement of these differences were ready to give us all the information requested.

Signed at Quebec, June 24, 1911.

(Sgd)

DR. G. WILL. JOLICOEUR,
Chairman.

FELIX MAROIS,
Representing the employers.

J. A. LANGLOIS,
Representing the Employees.

SESSIONAL PAPER No. 36a

III. APPLICATION FROM MEMBERS OF DISTRICT NO. 18 UNITED MINE WORKERS OF AMERICA, EMPLOYED BY THE COAL MINING COMPANIES COMPRISING THE WESTERN COAL OPERATORS' ASSOCIATION. EMPLOYEES DECLARED A STRIKE ON MARCH 31, 1911, ON THE EXPIRY OF A TWO YEARS' AGREEMENT WITH THE EMPLOYING COMPANIES.—BOARD ESTABLISHED.—AGREEMENT SUBSEQUENTLY CONCLUDED THROUGH GOVERNMENT INTERVENTION.

Application received—April 13, 1911.

Parties concerned—The Western Coal Operators Association and employees, members of District No. 18 United Mine Workers of America.

Applicants—Employees.

Nature of industry concerned—Coal mining.

Nature of dispute—Failure to agree upon the terms of a new working agreement to replace one which expired on March 31, 1911.

Number of employees affected—Directly, 6,000; indirectly, an indefinite number.

Date of constitution of Board—April 21, 1911.

Membership of Board—Reverend C. W. Gordon, D. D., Winnipeg, Man., Chairman, appointed by the Minister in the absence of any joint recommendation from the other members of the Board; M. Colin Macleod, Macleod, Alta., appointed on the recommendation of the employing Companies; and A. J. Carter, Fernie, B. C., appointed on the recommendation of the employees concerned.

Reports received—July 10 and July 11.

Result of inquiry—The employees concerned in this dispute ceased work on March 31, 1911, on the termination of a two years' agreement with the employing Companies. A Board was established on April 13 by request of the employees. The report of the Board was accompanied by a minority report signed by Mr. Carter. The Operators signified their willingness to negotiate an agreement along the general lines suggested by the Board in its majority report, the employees, on the other hand, accepting the minority report of Mr. Carter. The majority of the mines remained closed down until the middle of November when a new agreement was signed, effective to March 31, 1915.

The Minister received, on July 11, the report of the Board of Conciliation and Investigation to which had been referred for adjustment certain matters in dispute between the Coal Operators comprising the Western Coal Operators' Association and the workmen who had been employed in these mines; also a minority report signed by Mr. Carter. The Companies comprised in the Western Coal Operators' Association are as follows: Bankhead Mines, Limited,

3 GEORGE V., A. 1913

Bankhead; The H. W. McNeill Company, Limited, Canmore; Alberta Railway and Irrigation Company, Lethbridge; West Canadian Collieries, Limited, Blairmore; The International Coal and Coke Company, Limited, Coleman; Royal Collieries, Limited, Lethbridge; Chinook Coal Company, Limited, Lethbridge; Leitch Collieries, Limited, Passburg; Davenport Coal Company, Burmis; Crows' Nest Pass Coal Company, Limited, Fernie, B.C.; The Corbin Coal and Coke Company, Limited, Corbin, B.C.; Hosmer Mines, Limited, Hosmer, B.C.; Diamond Coal Company, Limited, Diamond City; Canadian Coal Consolidated, Limited, Frank, Alta.; Hillcrest Collieries, Limited, Hillcrest; and the Maple Leaf Coal Company, Maple Leaf. The miners concerned were members of District No. 18 of the United Mine Workers of America. The mines affected are located in eastern British Columbia and the southern portion of Alberta. The number of men concerned was placed at 6,000.

A board was established by the Minister on April 13, and was composed of the Rev. C. W. Gordon, D.D., Winnipeg, Man., Chairman, appointed by the Minister in the absence of any joint recommendation from the other members of the Board; Mr. Colin Macleod, Macleod, Alta., named by the operators; and Mr. A. J. Carter, Fernie, B.C., named by the employees concerned. At the time this Board was established the employees concerned had already ceased work on the expiry of a two years' agreement between the Coal Mining Companies and the United Workers' Association, to which very many of the workmen belonged. The coal miners being unwilling to resume work until a new agreement was reached, the mines in question were accordingly closed down.

The matters at issue related to wages and conditions of employment, the latter including the question as to the degree of recognition which should be given by the mine owners to the United Mine Workers' organization.

The Board entered upon its work of investigation in the middle of April. A short adjournment was made on May 12, after which the inquiry was resumed and carried to completion. The Board in its report expressed regret that its efforts to bring the dispute to a conclusion had been unsuccessful. The Board accordingly submitted its findings on the various points of difference regarding the wages which should be paid to the different classes of employees and the other conditions which should be put into effect between the Coal Mining Companies comprising the Western Coal Operators' Association and their employees.

The Western Coal Operators informed the Department of Labour on July 24 of their conditional acceptance of the majority report and their willingness to negotiate an agreement along the general lines suggested by the Board. The Board's report was later referred by the employees' organization to a referendum vote which was understood to have resulted in a majority against the acceptance of the Board's findings.

The mines, with few exceptions, remained closed down throughout the spring, summer and autumn months, resulting in a very considerable reduction of the domestic fuel supply in the Provinces of Saskatchewan and Alberta. The seriousness of the situation in this respect increased with the advent of cold weather. It was not, however, until the middle of November that a settlement

SESSIONAL PAPER No. 36a

was arrived at, operations in the mines being very generally resumed on the 20th of that month.

The settlement followed a series of conferences at Lethbridge, Alta., between the parties concerned, which were also attended by Honourable Robert Rogers, Minister of the Interior. The new agreement is to continue in force until March 31, 1915, the parties to meet in conference 30 days before its expiry to discuss renewal thereof.

In view of the threatened shortage of coal throughout Alberta and Saskatchewan due to the almost total cessation of mining operations, an Order in Council was passed on July 31 on the recommendation of the Minister of Labour, authorizing a remission of the customs duty on bituminous coal imported into Manitoba, Saskatchewan, Alberta and British Columbia east of the one hundred and twenty-second meridian, which remission continued in force until November 20. It was estimated that the importations of coal into Canada to which the remission of customs duty applied was in the neighbourhood of one million tons.

Report of Board.

The text of the findings of the Board of Conciliation and Investigation in this matter is as follows:—

BANFF, ALTA., July 5, 1911.

To the Honourable The Minister of Labour,
Department of Labour, Ottawa, Ont.

Sir:

In the matter of the Industrial Disputes Investigation Act and in the matter of differences between the Western Coal Operators' Association and District No. 18, United Mine Workers of America, your Board respectfully presents the following report:

Historical Sketch.—During the years 1909 and 1910 the Western Coal Operators' Association and District No. 18 United Mine Workers of America had been conducting operations under an agreement which terminated March 31, 1911. Under the terms of this agreement, a conference was held at Calgary, Alberta, thirty days prior to the date of expiration of this agreement, to negotiate a new agreement. The conference proved fruitless, the agreement lapsed on March 31, 1911, and immediately the miners throughout practically the whole district covered by the eighteen mines "ceased work."

The Department of Labour immediately offered a Conciliation Board; the parties finally accepted. The Board was constituted with Mr. A. J. Carter of Fernie, B. C., representing the United Mine Workers of America, and Mr. Colin Macleod, of Macleod, Alberta, representing The Western Coal Operators' Association, and Rev. Charles W. Gordon, D.D., of Winnipeg, as Chairman.

The Board re-convened at Lethbridge, Alberta, on April 26, continued in session until May 12, and adjourned; convened at Coleman, Alberta, on June 8, and finally adjourned in Banff, Alberta, on July 5, 1911.

The Board regrets its inability to present a unanimous Report, Mr. A. J. Carter, who represents the United Mine Workers of America, will present a Minority Report. The Board further deeply regrets that after the utmost diligence and care in the securing and weighing of evidence secured during the investigation, and after the most strenuous and prolonged efforts to harmonize the opinions and attitudes of the parties, that it is forced to report a failure in this respect, in that neither of the parties is prepared to accept the finding of the Board. It is, however, the conviction of the Board, that after due consideration of the equity and of the effect of this decision, the parties will come to an agreement upon the basis suggested.

The problems confronting the Board in dealing with this dispute were so intricate and varied, and the issues involved so vast and far reaching, that the time consumed was far beyond the expectation of any of its members. But having entered upon the task, it was felt that anything but the most thorough and exhaustive investigation would satisfy neither the Board itself, nor the Department, nor the country at large.

In conducting its work, the Board placed itself entirely at the disposal of the parties in seeking to possess itself of the fullest data upon every point. Every mine was visited, every witness called, every grievance probed as each party desired. Sworn documents taken from the Company's book were presented, pay-rolls were examined, mine officials and union officials were put on the stand. Sanitation was inspected; the cost of living; the cost of coal production; the tonnage output of mines; the selling price of coal; markets; the relation of coal companies to railway companies; these and all cognate matters at the instigation of the parties and on its own motion, the Board faithfully and fearlessly investigated. No information was refused by either party, no inquiry burked.

When it is remembered that in The Western Coal Operators' Association there are eighteen mining companies represented, working lignite, bituminous and anthracite fields, differing in methods of working and in character of seams, with a capital of \$40,000,000, and that in District 18 of the United Mine Workers of America there are eighteen locals, each with its own set of claims and grievances and all united in common aims, it will not be difficult to understand why the Board found it necessary to extend the time of its labours to such a length.

Throughout this investigation the Board has set itself to discover the causes of this perennial strife between the parties to this dispute, feeling that there must be some deep rooted reason, not for divergence of opinion simply—that is explicable and yields to reasonable negotiations—but for the spirit of hostility approaching to bitterness, and of distrust that clouds their every relation.

Many grievancés of the miners were reported arising from conditions of work, interpretation of agreement, discrimination, &c., &c., due in some cases to misunderstandings, in some to petty tyranny of subordinate officials, in some to mismanagement of mines, and in some again to unwise interference of Union officers. At this point the Board ventures the opinion that a stupid, tyrannical or unsympathetic pit-boss or foreman may work great injury in a mine and should be removed, and that a meddling Secretary of a Local Union can with the greatest ease keep a camp in a state of turmoil. His local should deal with him.

SESSIONAL PAPER No. 36a

The Board further made the discovery that in the mines best managed there were fewest causes of complaint. These grievances, while individually of comparative insignificance, cumulatively furnish a mass of inflammable material for strike conflagrations. They ought to be dealt with promptly and settled without delay.

But these grievances, while they account for local irritation, do not explain the phenomena of recurring strikes, persistent antagonism and suspicion, impossibility of mutual concession, &c., that have marked the relations between the parties during the past years. What is the cause? Minor grievances, annoying though they be, never appear at the meetings of the Scale Committee where agreements are discussed. Difference of opinion on a wage question is inevitable, but this yields to negotiation by reasonable men. What is the cause of this deplorable feeling? The effects are serious enough to concern thoughtful men all over the country. The situation has become intolerable. The question is not solely for the parties primarily concerned and their interests, vast though they may be, but for those constituting that Third Party. The People, with their immensely greater interests, who, unable to protect themselves from loss and suffering, are wholly at the mercy of those who at will let loose upon them this biennial flood of misery and strife. What is this?

A study of the Calgary conference sets forth one chief cause in clear light. For thirty days the parties sat in conference, so-called, unable to achieve a single step in advance. What blocked the way? The General Provisions of the Agreement, as they are called, and specifically the "Check-off." What is this "Check-off?" It is a plan by which the Company agrees to collect for the Union its dues, assessments, fines, &c., from the employees affected. This plan which seems to be peculiar to the coal mining industry, has found a place in practically all the Districts in the United States where the United Mine Workers of America are in existence, is recognized in the Statutes of Alberta, and has been in operation in all the mines represented in the Western Coal Operators' Association. Why then should the "Check-off" clause become the *bête noir* of every conference? Simply because in the "Check-off" is involved the principle of the "open" or "closed" shop, as also the development, if not the existence, of the Union.

A certain variety of "Check-off" clause the operators will accept, though grudgingly perhaps, but a particular form of "Check-off" the operators resolutely reject. And why? Because in this particular form of "Check-off" clause both the Union and the operators believe they see the closing of the door. At every conference both parties sit with their eyes upon that door. Let it move ever so little, open or shut, and the guns are out. And this in the face of the extraordinary fact that the Union frankly and fully concedes the "Open Shop," and the no less extraordinary fact that the operators frankly and fully concede to the Union the right to exist and develop itself among their employees. Thus the Union, professing the policy of the "Open Door," gently proceeds to close it a little and are surprised and grieved to find behind the door the whole body of the operators shoving as for dear life. Meantime, the Third Party, the People of Canada, gaze and suffer. If the shop is "Open," why bother about

the "Door." A little more sincerity on the part of both parties and a definite understanding upon the question would eradicate what, in the opinion of the Board, is a deep-rooted cause of this continuous strife, and would effectually remove the inability of the parties to rationally negotiate an agreement. Settle the "Open Shop" question, and with that right of the Union to exist and to exercise its proper functions, and there will be little difficulty in finding clear and adequate words with which to frame an acceptable "Check-off" clause with those clauses germane to it, viz., those dealing With Mine Management, Union Jurisdiction, Discrimination, &c., which now invariably awaken strife.

The Board, therefore, suggests that both parties frankly come out into the open in regard to the principle of the "Open Shop" and in regard to the right of the Union to exist and exercise its functions, and then there will be no difficulty in drafting the clauses named above. The operators must remember that a mine is not a hole in the ground with coal in it, but is an industry producing coal for the market in co-operation with labour, and the miners must remember that there are no coal miners unless mines are in operation.

On the question of wages the Board discovered wide divergence of opinion, but, as the investigation proceeded, certain striking features emerged upon the field of inquiry, and prominent amongst these, two in particular, viz., an abnormally low Day-Wage scale and an abnormally high wage for men engaged in pillar coal. Then, too, there was brought out into clear prominence the startling fact that out of the eighteen companies only four have paid any dividends, and these four only intermittently, while during the past two years probably two-thirds of the mines have been operated at a loss.

The Board came across the impression, not only among the miners but also in the community generally, that this was due in some cases to mismanagement and in others to collusion with railway companies. It is true there are instances of loss due to mismanagement and to unfortunate experiment, but this is true only in comparatively few mines. As to railway influence, the Board was unable to discover that such influence was used either to depress the selling price of coal or to increase the cost of production. There are instances where a railway company secures the lowest rate on coal, but this is to be accounted for by the common business custom of giving a better rate where the whole output of product is purchased and where the security is absolute. The Board is of the opinion that under present conditions most of the coal mines in this district cannot without loss increase the cost of production. It is obvious that this fact has a profound influence upon the question of wages. It is equally obvious, however, that in certain cases this influence must be steadily resisted. When the question, for instance, is one of a living wage, the ability of a mine to pay must be disregarded, from the simple consideration that while it cannot be shown to be an absolute necessity that a particular mine should be worked it is clearly evident that the wages a man receives must be such as to support himself and his family in decency and comfort as Canadian citizens.

In coming to a finding upon the wage scale the Board was governed by certain well defined principles:

1. A Living Wage is a necessity.

SESSIONAL PAPER No. 36a

2. In mines operating under the same Association and within the jurisdiction of the same Labour Union, uniformity should prevail, as far as possible.
3. In the same mining camp equalization of wages should be sought.
4. After passing the limit of the Living Wage the financial standing of the Company should be considered.

In the application of these principles to the Day Wage scale the Board found little difficulty. The rates for both Inside and Outside Day men are obviously too low. The Board, therefore, suggests the advance mentioned in the schedule below.

In approaching the Contract Rates the Board experienced more difficulty. Here a great variation was discovered in the wages paid for the same class of work in different mines. For instance, the average wage for contract miners steadily employed in the Alberta Railway and Irrigation Company's mines stands at \$3.54 per day, this being the lowest average in the district. Counting all contract miners in this mine the rate would be lower still. This low rate is partially accounted for by the fact that the character of the mining in these mines seems to demand less highly skilled labour. In other mines general averages for all contract miners for a year showed such variation as is indicated in the figures \$3.98, \$4.62, \$5.46, \$5.61 and \$6.00 per day. This variation is to be accounted for partly by a difference in the contract rates in different mines, but more by the character of the seam, and the method of working. The Board felt little difficulty in deciding that an average over a mine for contract miners of \$3.54 per day was too low, and hence the suggestion that the rates prevailing in the Alberta Railway and Irrigation Company's mines should be advanced three per cent. A higher advance might have been suggested had it not been that already a very substantial increase had been suggested in the Day Wage, which in this particular mine would effect a very considerable proportion in the pay-roll.

In considering the earnings of different classes of contract miners working in the same mine, the Board made another striking discovery, namely, that the miners engaged in Pillars earned wages far in excess of those earned in other kinds of work. The following table of average net daily earnings will illustrate these differences:

Pillars.....	7 37
Average earnings.....	\$ 5 20

In support of a claim for these high averages, two facts must be remembered; first, that this pillar work is recognized as more dangerous, and as therefore demanding more highly skilled men, and second, that it appears to be an established rule, though perhaps not invariable, that men who carry up the rooms have their turn at the pillars. But even with these facts in mind, the Board could not bring itself to justify rates of mining that resulted in such remarkable discrepancies between men engaged in the same mine as indicated in the figures, \$4.74 and \$8.80 for an average daily wage.

These discrepancies stand out more strikingly when the individual earnings are considered. In one mine whose general daily average net wage for the whole mine is \$5.61 per day, individual net daily earnings run up in one instance, to \$10.13 per day for the year, and in this same mine twenty men show daily net average earnings of \$6.72 to \$10.31, the lowest daily average in the same mine being \$4.01 per day. In another mine where the average net daily earnings for contract men for the year are \$6 per day, individual earnings of men steadily employed show a variation of from \$3 to \$17, \$19 and even \$20 per day. Indeed the records show a miner earning for four days a daily net average of \$44.72. In this same mine fifty-eight men received for the year 1910 net earnings of over \$1,000 each. These figures found in documents duly attested as being extracted from the Companies' payrolls impressed the Board not so much with the fact that unduly high wages were being paid, but that rates that permit such extraordinary variations in earnings in the same mine demanded readjustment. The Board, therefore, suggests that the rate for pillar coal be reduced. Hence, the differential in Pillars mentioned in the schedule below of 5 cents to 7 cents per ton as may be decided. So much for pillars rate. Now for Contract Rates generally.

SESSIONAL PAPER No. 36a

A strong plea was made for a general advance in contract rates throughout the district, but with the exception of the Lille Mine, where for a certain class of work the earnings are too low, and where a readjustment will mean advance, the Board could not see its way to yield to the demand for a general increase of the Contract Rates in the face of the high averages prevailing throughout the district, with the exceptions noted.

The Board might have considered an advance in the case of Michel with a daily average of \$3.96 for all contract miners, and of Fernie with a daily average of \$3.98 for the year 1910, though these rates can hardly be claimed as below a living wage, were it not for the peculiarly trying conditions of the Company operating these mines, and for the strong declaration of the newly appointed manager that by the introduction of new methods he expects to be able to increase the earnings of the men by ten per cent., at least.

The operators assert that the general result of the acceptance of the schedule of wages below would be an increase in Day Wages amounting to about \$280,000 and a reduction by pillar differential of about \$46,180 per annum over the district, a total net increase in the Companies' payrolls of \$233,820. But though this may appear a somewhat heavy increase, the Board feels that the wages will be more equitably distributed than formerly, the lowest wages paid being increased and the highest reduced.

The Sanitation of the various mining camps came under the careful investigation of the Board. In a number of camps Sanitation has received the careful consideration of the companies, but in regard to the sanitary conditions in others the Chairman found it necessary to call the attention of the local and Provincial authorities to the deplorable neglect of the ordinary precautions against disease, dirt and over-crowding. A company, giving but a perfunctory attention to these matters, lays itself open to the most serious condemnation and cannot hope to win and to retain the respect and cooperation of its employees.

The Board cannot but express its profound regret that nowhere could it discern indications of any sincere and earnest attempt on the part either of a company or of a local union to promote the social, moral and intellectual well-being of the workers in the mines. Earnest and intelligent co-operation here would surely be productive of the best results.

The Board further regrets that by the action of the parties in declining the suggested schedule of wages as a basis of settlement, it was prevented from offering its assistance in preparing an Agreement which could with little difficulty be prepared and which undoubtedly would do much to remove causes of grievance, clarify ambiguity in expression and altogether make for the harmonious co-operation of the parties in the working of the mines.

The Board is convinced, however, that with a clear and definite understanding and a sincere agreement upon the question of the "Open Shop" and with an acceptance of the suggested wage schedule an agreement can be made satisfactory to both parties.

The following is the schedule of wages suggested:

1. That the Day Wage scale be increased as follows:—

Ten per cent. advance up to \$3.00, inclusive.

3 GEORGE V., A. 1913

Eight per cent. advance from \$3.00 to \$3.50, the latter inclusive.

Five per cent. advance above \$3.50.

2. A differential of 5 cents to 7 cents per ton in all pillars presently without a differential; the application to be by mutual consent.

3. An adjustment of the Contract Rate at Lille mine so as to make the rate proportionate to the size of the seam.

4. An advance of three per cent. on Contract Rates at Lethbridge.

5. All other Contract Rates to remain unchanged.

I have presented the above as the Majority Report of the Board, Mr. Macleod being in full accord therewith, with the exceptions noted in his subjoined statement.

Respectfully submitted,

(Sgd.) CHARLES W. GORDON,

Chairman.

I concur with the award of the Chairman with the following exceptions:

(a) In clause one (1) of the schedule of wages the word "inclusive" should read "exclusive."

(b) In clause two (2) the figures "seven" should read "twelve."

(Sgd.) COLIN MACLEOD.

Minority Report.

The text of the minority of Mr. A. J. Carter in this matter is as follows:

BANFF, ALTA., July 6, 1911.

To the Honourable

The Minister of Labour.

In the matter of dispute between the Western Coal Operators' Association and its employees as represented by District 18 U.M.W. of A. which includes practically the whole of the men working in and around the mines operated by the several companies known as the above Association.

The details in connection with the work of the Board have been recorded by your duly appointed stenographer, therefore it is needless for me to outline the proceedings or dwell in any manner upon this feature of the Board's work. I feel, however, in order to emphasize the position taken by the Board in dealing with this dispute that it is essential to point out that all possible speed has been taken, consistent with the importance of the matter under consideration and keeping in mind the probability of getting the parties together with a view of making a mutual settlement, and that no undue delays have taken place. The Board convened at Lethbridge on April 28, and have visited in the meantime most of the camps affected under this dispute.

Before dealing with the matters of dispute that have been brought to the attention of the Board, I desire to briefly touch upon the actions of the Chairman,

SESSIONAL PAPER No. 36a

Rev. C. W. Gordon, after all evidence had been taken, in trying to arrive at a settlement, and also in the making of the report. It may be somewhat irregular, but I feel it a duty to the Department and the public to do so. On the twenty-sixth ultimo, in requesting the Committees to submit a statement of their relative positions, he stated: "That he had not up to that time understood the points of contention between the parties", and further emphasized his desire to have both parties submit statements showing clearly the points of contention, and outlining those particular things that each party insisted on having even at the expense of a continuation of the deadlock. In response to this request the miners submitted a full and detailed statement setting forth their demands. The operators' reply was impracticable and evasive in the extreme. On the first instant, a proposal regarding wages was submitted by the Chairman to the parties, which was rejected by both on the third. The Board then made an attempt to draft a report, but each of the other members refused to review, or argue on the evidence that had been placed before them, stating that they were agreed to sign a majority report embodying the suggestions contained in the proposal submitted to the parties by the Chairman on the first instant. This procedure was, in my opinion, most inconsistent and, compared with the statement made by the Chairman on the twenty-sixth that "this whole matter is too big a question to be settled in any but a thorough way, and, as far as I am able, I shall make it thorough," it would appear that the interests of the parties involved had become a secondary consideration to the operation of the mines at any cost. Not having had the privilege of reviewing their report, I am unable to say that I agree or disagree with them, with the exception of the matter of wages when, after going over the question briefly, I found I could not conscientiously accept the position taken by the Chairman in the aforementioned proposal.

The matters of dispute resolve themselves into four main questions as follows:

Day Wage Rates, being rates paid to all employees in and around the mines employed by the day.

Contract Rates, being prices paid for the actual mining of coal and work done in connection therewith by the miners.

Differential in Pillars, which is a claim by the operators for a less contract price on this particular class of work when compared with other contract prices, and is generally understood to mean a reduction from rates paid at present in most cases, and the General Provisions of the agreement between the two parties, being clauses governing the conditions of employment and the relationship to be maintained between the two parties.

In considering the evidence submitted, and the statements made by both parties, I would consider that the following would be a fair basis of agreement.

Day Wage Scale.—On rates below \$2.50 an advance of fifteen per cent; on rates from \$2.50 to \$3.15 inclusive, ten per cent; on rates above \$3.15 an advance of eight per cent, with the elimination of all twelve-hour schedules.

Contract rates.—Substantial advances at Michel, Lille, Canmore and mines at and around Lethbridge, with a general advance at all mines excepting where extraordinarily favourable conditions exist.

Differential on Pillars.—This cannot be considered as a general principle, and should be taken into consideration only with the conditions existing at the various mines.

General Provisions.—These contain some matters of vital importance to both parties, but, as the representatives of the miners only, submitted what they desire in this direction it is safe to assume that these matters would not long delay settlement providing the question of wages could be satisfactorily arranged.

In support of my position generally, I desire to offer the following arguments.

In dealing with the question of wages the Board was asked to make comparisons between the wages paid in this district and in the mining districts of Montana, Wyoming, Washington and Vancouver Island, and it is shown in practically every instance that the rates paid in this district, both contract and day wage, are much lower than the rates for the same classes of labour in the districts named.

Another point that has been forcibly shown in connection with this matter is the phenomenal advances that have occurred during the past few years in the cost of living. This necessarily curtails the purchasing power of the individual in every case where wages remain stationary.

Another important matter that was drawn to the attention of the Board, and one which appears to have been lost sight of by my colleagues, is the effect of the elimination or restriction of the blasting of coal on the wages of contract miners. When the present contract rates were fixed it is admitted that they were based on the understanding that men were allowed to blast their coal. In many of the mines shooting is now prohibited and this undoubtedly places the men in a very unfavourable position, compared with the advantages they enjoyed when permitted to blast the coal, and after the evidence by all witnesses on this matter, as to the relative opportunities from a wage standpoint, it would only be compensated in a fair and reasonable manner as they are in other districts when blasting is eliminated.

I find that there have been substantial increases in wages granted on this Continent to all classes of labour, during the past few years, and I am of the opinion that the men working in and around the mines are justly entitled to the same consideration. According to the evidence submitted, the miners have not received any material advances in wages, in fact a great majority have not received any increase since the present rates were fixed some years ago. It is apparent that the majority of the contract miners in the district are averaging less than four dollars per day, which according to the testimony of every company official should in their judgement be from \$4 to \$5 per day. It has also been freely admitted by all company officials who were examined that they have received substantial increases during the past two years, and this is a further argument in favour of the claims of the miners. At Coal Creek, Michel, Lille, Lethbridge and Canmore the conditions were most unfavourable to the men, and it was pointed out that in many instances it was an impossibility for the

SESSIONAL PAPER No. 36a

men to make a wage that would, at least, ensure them a decent living. In almost all the mines, owing to the nature of the winter's experience out in the West, it is an impossibility to give the men an opportunity to work regularly, even if other matters, such as steady trade, railway facilities, &c., are all favourable. It is, therefore, absolutely necessary that a man should have an opportunity of making a fair wage in order to withstand these contingencies. It is quite true that some mines show much above the average, but these are exceptional, and generally the class of work where these wages are obtained is of such hazardous and dangerous character that they are warranted to the fullest extent. This, however, is not uncommon in the mining industry, and it is a fact, that in practically every coal field in the world there are mines at which men earn more than the average wages, consequently I do not think that the men in this field be singled out regarding this particular feature, or that evidence on this point should be taken to prove that wages generally are exceptionally high. I desire to draw attention to one matter in connection with the averages that were submitted by one company. I refer to those of the Crow's Nest Pass Coal Company. In Coal Creek, the manner in which the Company endeavoured to place statements before the Board was misleading and were compiled in such form as to leave a wrong impression as to what the correct averages were for these particular mines. The method adopted was to show some of the averages of men who had worked under the most favourable conditions and leave out those who had worked under unfavourable conditions; again in Michel according to testimony, it had been the practice for two men to be loading on one contract check and all the coal sent out would be credited to one man, the other man being classed as a company man, and paid as such. Under this method whatever earnings over \$3 were credited to the contract miner would have to be divided between the two men in that place, and while the average would be shown as the full amount received by the contract miner, the actual wages would be less fifty per cent. of the amount above \$3. The adoption of this method of payment also clearly shows that the contract rates in such cases are not sufficient for the miner to make wages, hence the necessity for review.

In all cases the payrolls asked for were not submitted, but extracts given that would take up considerable time before any intelligent understanding as to the manner of compiling, or the information they intended to convey, could be reasonably arrived at, and, taking into further consideration that all documents have been kept at all times, almost exclusively in the possession of the Chairman, it has placed me in the position of being able to get only a slight knowledge of the facts they may contain. While the miners were not in a position to submit evidence contradictory to the statements of daily averages submitted by the companies, it was shown, in the case of the Crow's Nest Pass Coal Company that the daily averages submitted did not give any actual idea of the real earnings. In connection with this matter a letter was filed by the Ex-Secretary of Michel Local which was received by himself from the Crow's Nest Pass Coal Company, in connection with certain compensation claims, showing the average weekly amount earned by contract miners during 1909 to be \$12.36. This, I would like to point out, is made up in the manner prescribed by the

Workmen's Compensation Act, and should, under the circumstances, be much more reliable information on actual earnings than the other statements submitted by the Company.

In connection with the differential on Pillars, I find that this could not be applied as a general principle, as the conditions affecting the earnings of the men in this class of work vary considerably at the different mines, as the physical conditions of the same vary. It is true that in some of the mines exceptionally high wages are made under most favourable circumstances, but this does not apply generally. In some of the mines, the differential is already in operation, but this is not true of the majority, nor should it, in my opinion, be the case, and it may be pointed out that there are mines where no differential now exists that the men employed are making only low wages, in many instances even below the minimum rate for miners. In the case of the differential existing at Hillcrest, as a result of an award made by the Rev. Hugh Grant as Arbitrator, on July 7, 1909, it was clearly stated that such reduction was given, not on account of any principle of differential, but on account of the adverse conditions in connection with the outside haulage, and this in my opinion is not a justifiable method of determining prices to be paid in the mines, nor should it be taken into consideration in discussing the principle generally.

I have little to add to the statement already given covering General Provisions, but would point out that both parties insist on certain principles being embodied in the manner laid down by the respective parties. Possibly the most serious point of contention is the Check-off, which is practically an assignment on wages for dues, given by members of the United Mine Workers of America, and for the collection of which the companies are responsible. This is a principle which has been acknowledged in various forms since the Organization of the United Mine Workers of America, and I cannot see that the companies would be justified in refusing this at this time, or of imposing any worse conditions on the men than have existed previously.

One other very important matter in connection with the mining industry in this district, which is very noticeable, and which has a very detrimental effect on the welfare of both men and operators, is the overproduction. There are too many men available to meet the present demand for coal; consequently, it is impossible to insure the miners steady employment: I am of the opinion, though this may not be within the scope of my duty as a member of the Board, that the Government should take some measures to check the indiscriminate immigration into this coal field.

The operators have, in many circumstances, endeavoured to show that the mines were not on a paying basis, but have not during any part of the proceedings contended that they were unable to procure a higher price for their coal. I am of the opinion that an increase of eight to ten cents per ton on the selling price would meet the increases asked for by the men.

Respectfully submitted,

(Sgd.) A. J. CARTER,
Representative Employees.

SESSIONAL PAPER No. 36a

IV. APPLICATION FROM EMPLOYEES, MEMBERS OF GOWGANDA MINERS' UNION NO. 154 WESTERN FEDERATION OF MINERS, OF THE HUDSON BAY MINING COMPANY, LIMITED, GOWGANDA, ONT.—BOARD ESTABLISHED.—EMPLOYEES DECLARED STRIKE.

Application received—May 25, 1911.

Parties concerned—The Hudson Bay Mining Company, Limited, Gowganda, Ont., and employees, members of Gowganda Miners' Union, No. 154 Western Federation of Miners.

Applicants—Employees.

Nature of industry concerned—Silver mining.

Nature of dispute—Reduction in wages and increased charge for board.

Number of employees affected—30.

Date of constitution of board—June 8, 1911.

Membership of Board—Mr. George Ritchie, K.C., Toronto, Ont., Chairman, appointed by the Minister in the absence of any joint recommendation from the other members of the Board; Professor John Sharp, New Liskeard, Ont., appointed on the recommendation of the employing Company; and Mr. Duncan J. McDonnell, Gowganda, Ont., appointed on the recommendation of the employees concerned.

Reports received—July 10, 1911.

Result of inquiry—Report of Board was accompanied by a minority report signed by Mr. McDonnell. The employees, being unwilling to accept the Board report, declared a strike. Operations were discontinued in the mines for nearly a month and a half but were resumed with other workmen at the end of July.

The Minister of Labour received on July 10, the report of the Board of Conciliation and Investigation to which had been referred for adjustment certain matters in dispute between the Hudson Bay Mining Company, Limited, of Gowganda, Ont., and its employees, members of Gowganda Miners' Union, No. 154, Western Federation of Miners. A minority report was also received from Mr. Duncan J. McDonnell, member appointed on the recommendation of the employees concerned.

In the application for the establishment of this Board it was stated that the dispute in question related to a reduction of wages by the Company and an increase in the price for board, the employees demanding that the old scale of wages should be continued. The number of employees affected by the dispute was given as thirty.

The Board which was appointed to investigate the differences was composed as follows: Professor John Sharp, New Liskeard, Ont., member appointed on behalf of the employing Company; Mr. Duncan J. McDonnell, Gowganda, Ont., member appointed on the recommendation of the employees concerned;

3 GEORGE V., A. 1913

and Mr. George Ritchie, K.C., Toronto, Ont., Chairman, appointed by the Minister in the absence of any joint recommendation from the foregoing members of the Board.

The Board met on June 15, at the Company's mine about twelve miles from the village of Gowganda. At this meeting the Company produced the scale of wages in question and gave the following reasons in support of their action, namely, the extra cost of bringing supplies to the locality; that the property was not sufficiently developed to justify any further expenditure for the accommodation and convenience of the men; that the old scale of wages was too extravagant and higher than the wages paid at other mines around Gowganda; that the cost of the work done was not justified by the results shown; and that about eighty per cent. of the men working in the operating mines around Gowganda were getting wages on the new scale submitted by the Hudson Bay Mining Company. The employees, on the other hand, submitted the evidence of many witnesses and claimed that the remoteness of the locality, the loss of time and expense going to and returning from Gowganda, as well as the extra cost of such necessities as the men required, justified their contention that the old scale of wages should not be changed. The Board also visited the bunk-house which had been complained of and unanimously recommended that the same should be suitably enlarged and the roof mended. The day following the Board visited several of the mines in the district and found that the men were, on the whole, contented with their wages and condition.

The report was signed by the Chairman and Professor Sharp, member appointed on the recommendation of the Company, and was favourable to the contention of the Company; the Minority report signed by Mr. Duncan J. McDonnell, member appointed on the recommendation of the employees, being favourable to the men.

The Board findings were not accepted by the employees, most of whom went out on strike about the middle of June. The Mines were closed down for about a month and a half, when operations were resumed with other workmen. It was understood that the strike of the Company's former employees continued in force for months following and that some of the individuals concerned were still on strike on March 31, 1912.

Report of Board.

The text of the findings of the Board of Conciliation and Investigation in this matter is as follows:—

GOWGANDA, June 6, 1911.

To the Honourable

Wm. L. Mackenzie King, C.M.G.,
Minister of Labour,
Ottawa, Ont.

SIR:—In the matter of the Industrial Disputes Act, 1907, and in the matter of the differences between the Hudson Bay Mines at Gowganda and its employees.

SESSIONAL PAPER No. 36a

The Board of Conciliation convened at the Company's Mine, near Hanging Stone Lake, about twelve miles from the village of Gowganda, on June 15, 1911, in the presence of all the employees at the mine.

There were present Mr. Duncan J. McDonnell, a member of the Board appointed by the employees, Professor John Sharp, M.A., appointed by the Company, and George Ritchie, the Chairman.

The employees named Fred. J. Carroll to represent them before the Board. The Company named Horace G. Young to represent it before the Board, both parties consenting, and the members of the Board were duly sworn.

The Chairman briefly explained the scope and objects of the Industrial Disputes Investigation Act, and asked for the co-operation of both sides.

The Company then produced the scale of wages in question and adduced evidence in support of it, showing that the extra cost of bringing supplies to this remote locality, a distance of about sixty miles from the railway, amounting to \$1.60 per one hundred pounds, justified the reduction from the old scale of wages to the new scale, that the property was merely a prospect and not yet sufficiently developed to justify an expenditure for the accommodation and convenience of the men further than the buildings and conveniences at present existing; that the old scale of wages was too extravagant and higher than the wages paid at mines around Gowganda in a like state of development; and that the cost of the work done was not justified by the results shown; that about eighty per cent. of the men working in the operating mines around Gowganda were getting wages on the scale submitted by it.

On the other side the men submitted the evidence of many witnesses and showed that owing to the remoteness of the locality and the difficulty of ingress and egress, there being two portages and a trail, very swampy, of about fourteen miles, the loss of time and expense going to and returning from Gowganda (fare \$1.50 for both ways), the extra cost for such necessities as the men required for wearing apparel &c., amounting to about 38 cents per week, each man, as compared with Cobalt prices, justified their contention that the old scale of wages should not be disturbed. (See memo. of comparison between the old scale and the new scale herewith enclosed.)

The Board visited the bunk-house and heard evidence from the men showing that it was too small to accommodate twenty-six men; that the roof leaked, and the Board was unanimous in finding that the bunk-house should be suitably enlarged and the roof mended. There was no complaint about the food.

In the course of taking the evidence, reference was made to the Millerette Mine and the O'Brien Mine (Big Six), about three miles from Gowganda, and the Board deemed it advisable to visit these mines.

Accordingly, on the following day the Board visited the first of the above mines and took further evidence as to the scale of wages paid the men there. The Board next visited the O'Brien Mine and obtained the scale of wages paid to the men there, and it was shown that the men were content at these two places with their wages and accommodation although they worked ten hours per day.

The men further submitted the scale of wages paid the men at the Labrick Mine, the Boyd-Gordon Mining Company, the Calcite Lake Mining Company, the Powerful Mines, Limited, the Reeves-Dobie, Blackburn and Big-Six. Some of these are in operation and some are not, but all are referred to in the "Labour Gazette" under date of March, 1911, at page 985.

The scale of wages paid the men at Big Six is enclosed herewith marked "A". The scale of wages paid the men at the Millerette Mines is hereto annexed marked "B". The scale of wages submitted by the Hudson Bay Company and posted at the door of the bunk-house is hereto annexed marked "C". In this latter scale the wages of the blacksmith instead of being reduced to \$3.50 per day continued at \$4, and with this exception the scale marked "C" is what the Company contend for.

After securing such evidence as the Board deemed necessary, it convened on the evening of June 16, at Gowganda, and after considering the matter in dispute in all its phases, Mr. McDonnell contended very strongly that the old scale should be restored, Mr. Sharp contending very firmly that the new scale under the circumstance was only fair to the Company as compared with the wages paid by other mining operators.

A compromise was suggested by the Chairman to split the items in difference, but neither side would yield on any points and except as to the improvements in the bunk-house, which the Company agreed to remedy, the Board was unable to make an unanimous report.

All of which is respectfully submitted,

(Sgd) GEO. RITCHIE,
Chairman.
JOHN SHARP,
Member.

"A"

WAGE SCALE.

We make no charge for board, and the following amounts are what the men receive clear of all expenses.

	Per hour.	Per shift.
Drill runners, in shaft stope, or raise.....	\$.30	\$3.00
Drill runners, in drift or cross cut.....	.27½	2.75
Drill helpers, in shaft, stope or raise.....	.25	2.50
Drill helpers, in drift or cross cut.....	.22½	2.25
Topmen, muckers trammers.....	.20	2.00
Blacksmiths.....	.35	3.50
Blacksmiths' helpers.....	.22½	2.25
Carpenters.....	.32½	3.25
	and	
	.30	3.00

SESSIONAL PAPER No. 36a

WAGE SCALES—*Concluded.*

	Per hour.	Per shift.
Carpenters, helpers.....	.25	2.50
Axe men, general work.....	.22½	2.25
Pick and shovel, general work.....	.20	2.00
Firemen.....	.22½	2.76

From the above it will be seen that we are paying on the average about 25 cents per shift more than is paid for the same class of work by the majority of mines in Cobalt.

"B"

MILLERETTE SILVER MINING COMPANY, LIMITED

SCALE OF WAGES FOR MEN EMPLOYED AFTER OCTOBER 1, 1909.

Shifts are ten hours except at the Power Plant where twelve-hour shifts are worked. Overtime paid at same rate as regular time. One dollar per month deducted from each man for Medical Service. Seventy-five cents per day charged to each man for Board. Men will be charged full board unless absent for three successive meals or more.

OCCUPATION.

	RATE No. 6.		
	Per hour.	Per shift.	
Drill runners in shaft, stope or raise.....	\$.37½	\$3.75	\$3.00

(Sgd.) HUDSON BAY MINES, Ltd.,
Per H. G. YOUNG,
Manager.

Minority Report.

The text of the minority report of Mr. Duncan J. McDonnell is as follows:

GOWGANDA, ONT., June 22, 1911.

In the matter of the Industrial Disputes Investigation Act and in the matter of differences between the Hudson Bay Mining Company and its employees, the Board of Conciliation appointed to inquire into this matter met at the mine near Hangingstone Lake, Gowganda, on Thursday, June 15, at 2 o'clock, p.m. Those present included Geo. Ritchie, Chairman, who was appointed by the Hon. the Minister of Labour, John Sharp, appointed by the Company, and Duncan J. McDonnell, appointed by the employees.

The members of the Board being duly sworn then proceeded to take evidence. The Company was represented by H. G. Young, Manager, Arthur Pooley, foreman, and C. E. Cook, timekeeper. The employees were represented by Fred. T. Carrol, Nicolas King, Duncan Campbell, Alex. Chisholm, Thomas Temple, and others of the employees, who acted as witnesses.

Both parties consenting, H. G. Young presented the Company's side of the case, and submitted a wage scale introduced in the first instance by himself, without consulting the Company in the matter, and claimed as his reasons for doing so that the Millerette Mining Company were paying the same rate of wages and that the cost of freighting provisions into the Camp was high, also that the previous Manager (now deceased) did not run the mine upon an economical basis.

Arthur Pooley, the foreman at the mine, then gave his evidence and claimed that sixteen of the twenty-seven men affected still remained at the mine, stating that those who ceased work made no complaint, but asserted that in his (Pooley's) mind the new scale was too low and as proof he admitted that he made an advance of twenty-five cents per shift to some of the men, but that this change was not upheld by the General Manager.

After the Company's evidence had been given Fred. T. Carroll presented the employees side of the case, and proved that the new scale of wages which was posted on April 15, had been altered somewhat. Several employees were examined who gave evidence of the bunk-house being unfit for the men to live in, and also that all the employees were dissatisfied with reduction owing to the many inconveniences of the locality and demanded unanimously that the wages should be, at least, as denoted in former scale.

After all the evidence deemed necessary was obtained at the mine the Board then adjourned for the day after deciding to visit the Millerette mine which pays the lowest wage in camp.

Friday, June 16, the Millerette property was visited and upon inquiries being made it was demonstrated that the Millerette Mines, Gowganda, were paying slightly over the scale adopted by the Hudson Bay Company. The Board then visited the Miller Lake O'Brien and were tendered a copy of their wage scale, which showed they were paying a much better wage than the Millerette

SESSIONAL PAPER No. 36a

Mine, and not as H. G. Young had stated. The sleep camps, although not the best, bore a greater resemblance to human habitation than the shelter at Hudson Bay property.

The same evening (June 16) the Board met to consider evidence and after a lengthy discussion in analysing the situation, failed to arrive at a satisfactory conclusion. The Chairman suggested a compromise which neither of the other members would agree to. In my opinion the Company had no reason to introduce a reduction in wages as they were not by any means paying the highest scale in Gowganda.

The conditions under which the men live and work are far from being as they should be. The bunks are hard boards without even a common mattress whilst the blankets can speak and act for themselves. There is no "dry" accommodation for the miners and indeed taking the property as a whole it is not operated with any degree of consideration for the men.

The contention of the Company that cut was justifiable owing to prohibitive cost of mining is perfectly absurd, as the same argument would apply with more than equal force in favour of the men.

Under all the circumstances of the case, and taking into consideration the entire evidence, I am convinced the employees have not been fairly dealt with in the premises, and without any hesitation do state that the Hudson Bay Mining Company have been guilty of using their men unfairly, to say the least. Furthermore, I wish to conclude in this my report that, regardless of the findings of any individual member of this Board, the fact still remains that the Hudson Bay Mining Company have directly infringed Section 57, Chapter 20, of the Industrial Disputes Investigation Act, 1907, and are therefore liable in that respect.

All of which is respectfully submitted.

(Sgd). DUNCAN J. McDONNELL,
Gowganda, Ont.

V. APPLICATION FROM EMPLOYEES, MEMBERS' OF COAL HANDLERS' UNION NO. 319 OF THE CANADIAN NORTHERN COAL AND ORE DOCK COMPANY, LIMITED, PORT ARTHUR, ONT.—BOARD ESTABLISHED.—UNANIMOUS REPORT BY BOARD.—AGREEMENT CONCLUDED.

Application received—May 17, 1911.

Parties concerned—The Canadian Northern Coal and Ore Dock Company, Limited, Port Arthur, Ont., and employees, members of Coal Handlers' Union, No. 319.

Applicants—Employees.

Nature of industry concerned—Coal mining.

Nature of dispute—Wages and conditions of employment.

Number of employees affected—Directly, 150; indirectly, 200.

Date of constitution of Board—June 2, 1911.

Membership of Board—His Honour Judge John McKay, Port Arthur, Ont., Chairman, appointed on the joint recommendation of the other members of the Board; Mr. George F. Horrigan, Port Arthur, Ont., appointed on the recommendation of the employing Company; and Mr. Arthur Boyd, Port Arthur, Ont., appointed on the recommendation of the employees concerned.

Report received—June 19, 1911.

Result of inquiry—A unanimous report was presented by the Board, in which it was stated that a settlement had been effected of all matters in dispute, an agreement effective from May 1, 1911, to April 30, 1912, having been signed by both parties concerned.

The Minister of Labour received on June 19 the unanimous report of the Board of Conciliation and Investigation to which had been referred for adjustment certain matters in dispute between the Canadian Northern Coal and Ore Dock Company, Limited, of Port Arthur, Ont., and its employees, members of Coal Handlers' Union No. 319.

In the application for the establishment of this Board it was stated that the dispute in question related to demands on the part of the employees concerned for increased wages, and increased compensation for overtime, also that members of the Union should not be discriminated against, and that when an agreement was concluded between the parties it should remain in force for a period of one year. The number of employees affected by this dispute was estimated at 150 directly and 200 indirectly.

On May 19 the Minister of Labour established a Board of Conciliation and Investigation to inquire into the matters in dispute. The Board was constituted as follows: Messrs. Geo. F. Horrigan and Andrew Boyd, both of Port Arthur, Ont., members appointed on the recommendation of the employ-

SESSIONAL PAPER No. 36a

ing Company and the employees respectively; and His Honour Judge John McKay, also of Port Arthur, Ont., Chairman, appointed by the Minister on the joint recommendation of the foregoing members of the Board. The Board met on June 2 and continued to hold sittings from that date until June 16, when a settlement was effected of all matters in dispute, an agreement being signed by representatives of the Company and the employees concerned, this agreement to take effect from May 1, 1911, and to continue in force until April 30, 1912. Concessions were made on both sides, the men modifying their demands respecting wages and compensation for overtime, and the Company, on the other hand, granting the employees' demands that members of the Union should not be discriminated against and that the life of the agreement, when concluded, should be for a period of one year. The Company also agreed to reinstate the five men who were discharged in the month of May, 1911. It was arranged that on the fifteenth day of January, 1912, the General Manager, or other representatives of the Company, would meet with three employees or their representatives for the purpose of drawing up a new agreement to go into effect the first day of May, 1912.

Report of Board.

The text of the findings of the Board of Conciliation and Investigation in this matter is as follows:—

To the Honourable,
The Minister of Labour,
Ottawa, Ont.

In the matter of the Industrial Disputes Investigation Act, 1907, and of the dispute at the City of Port Arthur; between the Canadian Northern Coal and Ore Dock Company, Limited, employers, and the said Company's employees as represented by the Coal Handlers' Union, No. 319, employees.

The Board of Conciliation and Investigation appointed herein under the provisions of the above-named Act, and composed of Andrew Boyd of Port Arthur, recommended by the employees, George Francis Horrigan of the same place, recommended by the company, and His Honour Judge John McKay of the same place, appointed on the joint recommendation of the other members of the Board by the Minister of Labour as Chairman of the Board beg to report as follows:—

By mutual agreement we met on the second day of June A.D., 1911, subscribed and took the oaths of office and held two sittings on that date.

The Board met on the fifth and seventh days of June, 1911, endeavouring to bring about a settlement of the differences between the said Company and its employees, but did not then succeed in doing so.

On the eighth, ninth, twelfth and thirteenth days of June, 1911, evidence was adduced on behalf of the employees and at the close of the evidence a further effort was made to bring about a settlement.

3 GEORGE V., A. 1913

Two sittings were held on the sixteenth day of June, when a settlement was agreed upon in regard to all matters in dispute herein.

The Chairman drew up the agreement and it was duly signed in our presence by all the representatives who appeared before us for the respective parties herein, and a copy of such agreement is herewith transmitted.

The Board are unanimously of the opinion that the agreement effected is fair and reasonable under the conditions prevailing at the Cities of Port Arthur and Fort William.

The Board having concluded its labours agreed upon the above report.
All of which is respectfully submitted.

(Sgd.)

JOHN MCKAY,
Chairman.

ANDREW BOYD.

GEO. F. HARRIGAN,
Members of Board of Conciliation.

PORT ARTHUR, June 17, 1911.

Memorandum of Agreement.

Memorandum of Agreement made this sixteenth day of June, A.D., 1911, between the Canadian Northern Coal and Ore Dock Company, Limited, of the first part, and the employees of the said Company engaged as Coal Handlers, of the second part.

The said employees of the second part covenant and agree to and with the said Company of the first part that they will faithfully, honestly and diligently serve the said Company in the capacity of coal handlers at the Company's premises in the City of Port Arthur in the District of Thunder Bay, and obey the lawful and proper orders and directions of the Company's agents and superintendents for and during such reasonable hours as the Company may have work for the said parties of the second part to perform from the first day of May A. D., 1911, until the thirtieth day of April A.D., 1912, at the following rate of wages, that is to say: twenty-five cents per hour for dock work and thirty cents per hour for boat work during the season of navigation and one and a half time to be paid for work performed on Sundays, and for overtime, that is to say for work performed between seven o'clock in the evening and six o'clock in the morning, and at the rate of twenty-two and one-half cents per hour for work performed between the close of navigation and the thirtieth day of April, A.D., 1912.

The said Company of the first part covenants, promises and agrees to and with each of the parties of the second part that they will employ the said parties for such reasonable hours as they may have work for the said parties to perform as coal handlers during the said period so long as they perform faithful service

SESSIONAL PAPER No. 36a

at the rate of wages per hour hereinbefore set forth and pay such wages so earned each month to each of the said employees on the fifteenth day of each succeeding month.

The said Company of the first part hereby agrees with the parties of the second part that they will re-instate at once the five men discharged in the month of May, A.D., 1911, and that the members of the Union will not be discriminated against.

The said Company of the first part also covenants, promises and agrees to and with the parties of the second part that on the fifteenth day of January A.D., 1912, at the hour of three o'clock in the afternoon at the Company's office in the said City of Port Arthur the General Manager or other representatives of the said Company will be prepared to meet with three representatives of the said employees and consider, discuss and decide on the schedule of wages payable for the year commencing the first day of May, A. D., 1912.

In witness whereof the said parties have hereunto set their hands the day and the year above written.

(Sgd.) N. N. JORPLAND,
Superintendent of the Canadian Northern
Coal & Ore Dock Company, Limited.

ANDREW BOYD.

VI. APPLICATION FROM THE SECTIONMEN EMPLOYED BY THE MICHIGAN CENTRAL RAILWAY COMPANY.—SETTLEMENT EFFECTED THROUGH DEPARTMENTAL INTERVENTION.

Application received—May 18, 1911.

Parties concerned—The Michigan Central Railway Company and sectionmen.

Applicants—Employees.

Nature of Industry concerned—Railways.

Nature of dispute—Reduction in wages.

Number of employees affected—1,200 to 1,400.

The employees concerned in this dispute ceased work on May 1 on account of a proposed reduction in their rates of pay. Application was later made by the employees for the establishment of a Board. Whilst communications were passing between the Department and the parties concerned relative to the establishment of a Board, an officer of the Department proceeded to St. Thomas at the Minister's request for the purpose of conferring with the parties. As a result the Company restored the scale of wages which had existed prior to May 1, 1911, and announced its willingness to re-engage those who had ceased work.

On May 3, the Department of Labour was informed as a result of orders issued on April 28, by the Michigan Central Railroad Company, directing a reduction of ten cents per day in the wages of its Maintenance-of-Way Employees, a number of the sectionmen affected on the Company's lines in Canada refused to accept the lower rates of remuneration and had ceased work. On May 20, application was made to the Department of Labour on behalf of the sectionmen concerned, for the establishment of a board of Conciliation and Investigation under the Industrial Disputes Investigation Act, to which the matters at issue between the Company and its employees should be referred for adjustment. It was claimed on behalf of the employees that the reduction of wages had been made without proper notice, and in violation of the provisions of the Industrial Disputes Investigation Act in this respect. The application was not entirely in form and whilst communications were proceeding between the Department and the employees on these points Mr. E. H. Williams, an official of the Department, was instructed to proceed to St. Thomas, Ont., to confer with the parties concerned and to report on the circumstances of the dispute for the Minister's information.

As a result of interviews which Mr. Williams had with the officials of the Michigan Central Railroad Company, it was stated by the latter that the railway management had not been previously aware of the requirements of Section 57, of the Industrial Disputes Investigation Act concerning proposed changes in conditions of employment as to wages and hours. Later, it was announced by the Company, as a result of the information placed before them by the Depart-

SESSIONAL PAPER No. 36a

ment, that the rates of wages paid sectionmen before the change should be restored and the former employees reinstated if they so desired. The rates of wages restored by the Company's orders were \$1.65 per day for yard sectionmen and \$1.60 for sectionmen along the line. The scale of wages in question is that which had prevailed on the Michigan Central lines in Canada between May 1, 1910, and April 30, 1911. The number of employees concerned was understood to be between 1,200 and 1,400.

On May 27, a resolution in the following terms was adopted at a meeting of Michigan Central Maintenance-of-Way Employees in St. Thomas: 'Resolved, that we, the sectionmen employed on the Canadian lines of the Michigan Central Railroad, in meeting assembled, desire to place on record our approval of the Industrial Disputes' Investigation Act, 1907, as a means of satisfactory settlement of disputes without strike or lockout, and desire, further, to thank the Department of Labour for its prompt action in sending so capable an Officer of the Department to aid in restoring the very pleasant relationship existing previous to May 1, between the above Company and its sectionmen.

(Sgd.) JACOB MORS,
Chairman,

(Sgd.) F. CHINN,
Secretary.

VII. APPLICATION FROM ELECTRICAL WORKERS, MEMBERS OF LOCAL UNION NO. 339, INTERNATIONAL BROTHERHOOD OF ELECTRICAL WORKERS OF AMERICA, EMPLOYED BY THE CITIES OF PORT ARTHUR AND FORT WILLIAM, ONT.—BOARD ESTABLISHED.—UNANIMOUS REPORT BY BOARD.—AGREEMENT CONCLUDED.

Application received—May 27, 1911.

Parties concerned—The Cities of Port Arthur and Fort William, Ont., and electrical workers, members of Local Union No. 339, International Brotherhood of Electrical Workers of America.

Applicants—Employees.

Nature of industry concerned—Electrical work.

Nature of dispute—Wages and hours.

Number of employees affected—Directly, 32; indirectly, 66.

Date of constitution of Board—June 8, 1911.

Membership of Board—Rev. S. C. Murray, D.D., Port Arthur, Ont., Chairman, appointed on the joint recommendation of the other members of the Board; Mr. J. Dix Fraser, Port Arthur, Ont., appointed on the recommendation of the Corporations of Port Arthur and Fort William; and Mr. C. W. Foster, Fort William, Ont., appointed on the recommendation of the employees concerned.

Report received—July 3, 1911.

Result of inquiry—A unanimous report was presented by the Board, in which it was stated that a uniform agreement had been signed by both Cities and their electrical workers, the agreement being effective for one year from June 1, 1911.

The Minister of Labour received on July 3, the unanimous report of the Board of Conciliation and Investigation to which had been referred for adjustment certain differences between the Cities of Port Arthur, Ont., and Fort William, Ont., and employees of said cities, being electrical workers and members of the International Brotherhood of Electrical Workers of America, Local Union No. 339.

The matters in dispute which led to the establishment of this Board related to wages and hours, the number of employees affected being given as thirty-two directly and sixty-six indirectly.

A Board was established by the Minister on June 1, and was constituted as follows: Mr. J. Dix Fraser, Port Arthur, Ont., member appointed on the recommendation of the Cities of Port Arthur and Fort William; Mr. C. W. Foster, Fort William, member appointed on the recommendation of the employees concerned; and Rev. S. C. Murray, D.D., Port Arthur, Ont., Chairman, appointed by the Minister on the joint recommendation of the foregoing members of the Board.

SESSIONAL PAPER No. 36a

The first meeting of the Board was held in Port Arthur on June 13; subsequent meetings were also held in Fort William, the Board completing its work of conciliation and investigation on June 29. The points considered by the Board were discrimination, wages, date of payment, hours per day, overtime, and annual agreement. After a very thorough investigation on these points the Board drew up an agreement effective for a period of one year from June 1, 1911. This agreement was presented to the Councils of both cities and to the representatives of the employees. It was formally signed by both parties to the dispute, their differences being thus amicably settled and the threatened strike averted.

On July 19, a letter was received from the City Clerk of Fort William, acknowledging receipt of a copy of the findings of the Board in the above matter and stating that the same had been presented to the City Council at a meeting held on July 11. The letter of the City Clerk further stated that: "the members all expressed themselves as being entirely in accord with the award of the Board of Conciliation, and as far as known, the terms of the award are perfectly satisfactory to the men, and in acknowledging receipt of your report, I was instructed to convey to your Department the thanks of the Council for the successful adjustment of the dispute between the Electrical Workers and this city."

Report of Board.

The text of the findings of the Board of Conciliation and Investigation in this matter is as follows:—

PORT ARTHUR, June 30, 1911.

F. A. Acland, Esq.,
Deputy Minister of Labour,
Department of Labour,
Ottawa, Ont.

Sir:—The members of the Board of Conciliation and Investigation in the matter of the dispute between the cities of Port Arthur and Fort William and electrical workers, beg leave to submit the following report:

In the matter of the "Industrial Disputes Act, 1907", and in the matter of differences between the cities of Port Arthur, Ont., and Fort William, Ont., and certain employees of the said cities being Electrical Workers, and members of the International Brotherhood of electrical workers of America, Local Union No. 339.

The Board, composed of Rev. S. C. Murray, D.D., Chairman, Port Arthur, Mr. J. Dix Fraser, of Port Arthur, and Mr. C. W. Foster, of Fort William, took the oath of office before Magistrate Halling of Fort William.

The first meeting was held in Port Arthur, Tuesday, June 13, at four o'clock p.m. The documents were read, including clause of the Act bearing most directly upon the case, and methods of procedure agreed upon. The Board then adjourned to meet at Fort William the following day.

Meetings were held continuously, Wednesday, Thursday, Friday, Saturday, Monday, Tuesday and Wednesday, June 14 to June 21, inclusive.

All members of the Board were present at every sitting of the Board.

The City of Port Arthur was represented by Acting Mayor H. B. Dawson, in the earlier sessions, and by Richard Fox, Manager of the Electrical Department of the City of Port Arthur.

The City of Fort William was represented by Mr. A. L. Farquharson, Manager of Utilities for Fort William.

The employees were represented by Mr. John B. Pegg, of Fort William, and Mr. A. R. McRae, of Port Arthur.

Your Board decided not to place men on oath and to give all possible liberty in discussing points at issue.

The situation was somewhat complicated.

1. The employees in both cities were living under practically the same conditions, and were members of one union.

2. The schedule of wages in one city differed in almost every instance from the schedule operative in the other.

3. Men working under a specific designation in one city might be employed in part, in as many as three departments, while the men similarly designated by the other city might be serving in more than one department, though different from the departments in the former.

4. In order to substantiate their claims the employees usually quoted Western Wage Schedules, while in their defence the cities quoted Eastern Schedules, making it necessary to study a wide range of conditions in order to reach an intelligent basis.

5. While the employees had stated in their application for a Board of Conciliation that they "are willing to expurgate" certain clauses which involved recognition of their Union, it was pleaded that it had not been anticipated that the above expression would bar discussion of that point. Though contrary to precedent the point was re-admitted with the result that it was mutually agreed to substitute the word "Employees" for "Union" (see clause 1 of agreement). The points considered were discrimination, wages, date of payment, hours per day, overtime and annual agreement, in all which was involved the question of uniformity in the two cities.

Upon adjournment Wednesday, June 21, it was agreed to meet Friday morning at Fort William, June 23, and as far as possible interview parties to the dispute during the interval.

On Friday morning the Board met, reported progress and held conference with Mayor at Fort William, who assured the Board that he would advise his council to acquiesce in the finding of the Board should it be unanimous.

After discussion of the principal points now at issue—wages and hours—it was agreed to adjourn to meet at the call of the Chairman, and to spend whatever time was necessary in study of relative cost of living as compared with wages schedules, using the "Labour Gazette" for the former purpose in compiling comparative tables with a view to a fair and intelligent agreement, and also to further interview parties.

SESSIONAL PAPER No. 36a

The Board again met Tuesday morning, June, 27, reported progress, compared tables and made draft agreements as a basis for further discussion with parties to the dispute.

Wednesday, June 28, the Board met, reported progress, and completed the agreement, and returned to the parties.

A meeting of the employees was convened for Wednesday evening. Their representative, Mr. Foster, presented the agreement, which, after argument and presentation of statistical tables, was accepted by a majority of the men, and upon a second vote was accepted unanimously, and their representatives authorized to sign.

Thursday morning, June 29, the Board again met, made a final draft of agreement, ordered copies to be prepared for signature, and during Thursday afternoon and Friday morning had the agreements before the Council of Port Arthur, and the Mayor and Clerk of Fort William, and also the representative of the men and duly signed.

The dispute was thus, by an unanimous finding of the Board, amicably settled, and a uniform agreement for the two cities and their Electrical workers formally signed.

The agreement is as follows:

AGREEMENT BETWEEN CITIES OF PORT ARTHUR AND FORT WILLIAM AND ELECTRICAL WORKERS OF SAID CITIES.

1. That the Cities of Port Arthur and Fort William in the event of disputes arising between the cities and their employees with regard to wages, hours, or any other matter pertaining to the welfare of their employees, agree to confer with their employees through their regularly appointed representatives, and that such appointees shall not in any way be discriminated against in subsequent relations with the cities on account of having accepted such appointment from their fellow employees.

2. Scale of wages recommended.

Foremen.....	\$100.00	per mo.
First linemen.....	3.50	per day.
Second linemen.....	3 00.	
Wire chief.....	100.00	per mo.
Meter men.....	90.00	"
Cable men.....	4.00	per day.
Arc light trimmers and repairers.....	80.00	per mo.
Trouble men.....	90.00	"
Phone installers.....	90.00	" or
	3.50	per day.
Wire inspectors..	3.75	"

3. That employees be paid semi-monthly.

3 GEORGE V., A. 1913

4. That ten hours shall constitute a day—from seven o'clock a.m. to six o'clock p.m., with one hour at noon for dinner; or as may be mutually agreed upon between managers and men; and further that the ten-hour day shall continue throughout the year.

5. All time worked over regular schedule working hours, to twelve o'clock midnight, shall be paid at the rate of time and one half; after midnight, double time. Sundays and all Dominion holidays, including New Year's Day, Good Friday, Victoria Day, Dominion Day, Labour Day, Thanksgiving Day, and Christmas Day will be paid at the rate of double time. Should any of the above mentioned holidays fall upon Sunday the day observed by the Federal or Provincial Government will be observed.

6. That this agreement shall remain in force for one year, beginning June 1, 1911, and shall continue in force from year to year, from June 1 to June 1, unless notice in writing be given by either party on or before April 1, in any year, and if no such notice be given, then this agreement shall remain in force for the further period of one year beginning June 1.

Board of Conciliation:

(Sgd.) E. C. MURRAY,
Chairman.
J. DIX FRASER,
C. W. FOSTER.

We accept the above award.

For the City of Fort William:

(Sgd.) S. C. YOUNG,
A. McNAUGHTON, Clerk.

For the City of Port Arthur:

(Sgd.) H. B. DAWSON,
Presiding Officer.
J. McTEIGUE, Clerk.

For electricians duly elected to represent employees of Fort William and Port Arthur:

(Sgd.) A. McRAE,
JOHN B. PEGG.

All which is respectfully submitted.

S. C. MURRAY, Chairman.
C. W. FOSTER,
J. DIX FRASER.

PORT ARTHUR, ONTARIO,
June 30, 1911.

SESSIONAL PAPER No. 36a

VIII. APPLICATION FROM ELECTRICAL WORKERS, MEMBERS OF LOCAL UNION NO. 544, INTERNATIONAL BROTHERHOOD OF ELECTRICAL WORKERS OF AMERICA, EMPLOYED BY THE CITY OF EDMONTON, ALTA.—BOARD ESTABLISHED.—UNANIMOUS REPORT BY BOARD.—AGREEMENT CONCLUDED.

Application received—May 29, 1911.

Parties concerned—The City of Edmonton, Alta., and electrical workers, members of Local Union No. 544, International Brotherhood of Electrical Workers of America.

Applicants—Employees.

Nature of industry concerned—Electrical work.

Nature of dispute—Wages and conditions of employment.

Number of employees affected—35.

Date of constitution of Board—June 9, 1911.

Membership of Board—Honourable Mr. Justice H. C. Taylor, Edmonton, Alta., Chairman, appointed on the joint recommendation of the other members of the Board; Mr. Arthur W. Ormsby, Edmonton, Alta., appointed on the recommendation of the Corporation of the City of Edmonton; and Mr. W. Symonds, Lethbridge, Alta., appointed on the recommendation of the employees concerned.

Report received—July 5, 1911.

Result of inquiry—A unanimous report was presented by the Board, in which it was stated that a schedule of wages and a set of rules for each department concerned had been drawn up and accepted by both parties to the dispute, effective from April 1, 1911, to May 1, 1913.

The Minister of Labour received, on July 5, the unanimous report of the Board of Conciliation and Investigation to which had been referred certain differences between the City of Edmonton, Alta., and employees, being electrical workers and members of the International Brotherhood of Electrical Workers, Local Union No. 544.

In the application for the establishment of this Board it was stated that the dispute grew out of a demand on the part of the employees concerned for a change of wage allowance or remuneration of the employees, and a change generally of conditions surrounding their employment in and about the various utilities owned and operated by the City of Edmonton, namely, telephones, electric lights, street railway, and electric power. The number of employees concerned was given as thirty-five.

A Board was established by the Minister on June 2, and was constituted as follows: Mr. Arthur W. Ormsby, Edmonton, Alta., member appointed on the recommendation of the City of Edmonton; Mr. W. Symonds, Lethbridge, Alta., member appointed on the recommendation of the employees concerned; and the Honourable Mr. Justice H. C. Taylor, Edmonton, Alta., Chairman, appointed

3 GEORGE V., A. 1913

by the Minister on the joint recommendation of the foregoing members of the Board.

The Board convened on June 21, at the City Hall in the City of Edmonton, Working rules and schedules of wages were examined; and a new set of rules and a new schedule of wages were drawn up by the Board for each of the departments concerned, namely: telephone department, electric light and power, house and street railway electrical workers. The Board recommended that the rules and schedule above mentioned should remain in force from July 1, 1911, until May 1, 1913. After making some changes both parties to the dispute accepted the recommendations of the Board; the dispute being thus amicably settled and the threatened strike averted.

Report of Board.

The text of the findings of the Board of Conciliation and Investigation in this matter is as follows:—

DISTRICT COURT.

EDMONTON, June 30, 1911.

To the Honourable, W. L. MACKENZIE KING,
Minister of Labour,
Ottawa, Ont.

In the matter of the Industrial Disputes Act, 1907, and of a dispute between the City of Edmonton (Employer), and certain of its employees being electrical workers, (Employees).

The Board of Conciliation and Investigation, established under the provisions of the Industrial Disputes Act, 1907, to whom the above dispute was referred under the provisions of the said Act, having concluded their duties, beg to report as follows:

The Board convened at the City Hall in the City of Edmonton, pursuant to appointment, on Wednesday, June 21, 1911, and proceeded to enquire fully into the matters in dispute. Working rules and schedule of wages covering the different departments of the City concerned were fully gone into and a new set of rules and a new schedule of wages were drawn up by the Board who unanimously agreed to them. These were submitted to the parties interested and were accepted by them after some changes had been made, and we are pleased to report that the dispute herein has been harmoniously settled.

We attach hereto, duly signed, the working rules and schedule of wages as agreed upon.

All of which is respectfully submitted.

(Sgd.) H. C. TAYLOR,
Chairman.

A. W. ORMSBY,
For the City.

WM. SYMONDS,
For the Workers.

TELEPHONE DEPARTMENT.

WORKING RULES AND SCHEDULE OF WAGES.

1. The City does not object to any of the employees of this Department belonging to the Brotherhood of Electrical Workers or Union, nor is it the intention of the City to discriminate against any of the employees because of his connection with same, it being understood that the International Brotherhood of Electrical Workers will not, in any way, interfere with or limit the right of the City to discharge or discipline its employees. And nothing herein contained is to be understood as debarring any employee or any committee of employees of the City of Edmonton, affected by this schedule, from interviewing the management relative to any further difference or disagreement pertaining to the provisions herein.

2. Nine hours shall constitute a day's work in exchanges except during the months of November, December, January and February, when eight hours shall constitute a day's work.

3. All overtime shall be paid at the rate of time and one-half. Sundays and Dominion Holidays shall be counted as overtime.

4. Employees who are relieved from duty owing to inclemency of weather, except by their own fault or request, will be allowed one-half a day's pay after having worked two hours of such day. A full day's pay shall be paid only on working, at least, six hours of such day.

5. Employees shall be paid semi-monthly, payment to be made on or before the twenty-second of the month for wages due up to and including the fifteenth of the current month, and on or before the seventh of the month for wages due up to and including the last day of the preceding month.

6. "Foreman" means an employee having charge of five or more men.

7. Where carfare during working hours is deemed necessary by the City, same will be furnished to employees affected by this schedule. Where transportation is considered necessary by the City beyond the five-cent limit the City will furnish same to employees.

8. The foreman shall be held responsible for all tools belonging to the City.

9. Schedule of wages: The Board recommends that the position of city foreman is worth \$115 per month; cablemen, \$3.75 to \$4.50 per day; exchange linemen, $33\frac{1}{2}$ to $41\frac{2}{3}$ cents per hour; wire chief \$100 to \$110 per month; switchmen and assistant wire chief, \$85 to \$95 per month; inspectors, \$70 to \$100 per month; chief installer, $41\frac{2}{3}$ cents per hour; installers, 25 cents to $33\frac{1}{2}$ cents per hour; cable helper, 30 cents per hour.

10. Nothing herein shall be construed to reduce the pay of any employee now getting a higher rate of pay.

3 GEORGE V., A. 1913

The Board recommends that this schedule do take effect on July 1, 1911, and continue until May 1, 1913.

(Sgd.) G. S. ARMSTRONG,
Mayor.

A. CLUBB,
President, Local 544, I.B.E.W.
J. H. HELLIER,
Financial Secretary, Local Union

ELECTRIC LIGHT AND POWER.

Working Rules and Schedule of Wages.

1. The City does not object to any of the employees of this Department belonging to the Brotherhood of Electrical Workers or Union, nor is it the intention of the City to discriminate against any of the employees because of his connection with same, it being understood that the International Brotherhood of Electrical Workers will not in any way interfere with or limit the rights of the City to discharge or discipline its employees. And nothing herein contained is to be understood as debarring any employee or any committee of employees of the City of Edmonton, affected by this schedule, from interviewing the management relative to any future difference or disagreement pertaining to the provisions herein.

2. Nine hours shall constitute a day's work except during the months of November, December, January and February, when eight hours shall constitute a day's work.

3. At electric light line work the first five hours overtime worked between 6 p.m. and 11 p.m., shall be computed at the rate of time and one-half of the standard rate. Additional overtime at electric light line work or overtime starting at 11 p.m., or later, shall be computed at the rate of double time of the standard rate and shall continue until 7 a.m., except intermission for meals.

4. All time worked on Sundays and Dominion holidays at electric light line work to be paid at the rate of double time.

5. Employees relieved from duty owing to inclemency of weather except by their own fault or request will be allowed one half day's pay after having worked two hours of such day. A full day's pay shall be paid only on working at least six hours of such day.

6. Employees shall be paid semi-monthly, payment to be made on or before the twenty-second of the month for wages due up to and including the fifteenth of the current month, and on, or before the seventh of the month for wages due up to and including the last day of the preceding month.

7. Where carfare during working hours is deemed necessary by the City same will be furnished to employees affected by this schedule. Where transportation is considered necessary by the City beyond the five cent limit the City will furnish same to employees.

SESSIONAL PAPER No. 36a

8. All wires carrying a voltage of 650 volts or more shall be classified as high voltage wires.

9. When work is to be done on high voltage wires not less than two journeymen are to be assigned to the job except on "thawing machines." No apprentice shall be allowed to work on high voltage wires.

10. In case of trouble with high voltage wires and where work is hazardous, two journeymen or more must be sent out to repair the trouble. One man can be sent out to watch until another man can be obtained.

11. Schedule of wages:

Foreman, \$125 a month; sub-foremen and linemen 45 cents to 50 cents per hour; arc lamp trimmer and troublemen 42 cents per hour.

12. Nothing herein contained shall be construed to reduce the pay of any employee getting a higher rate of pay.

The Board recommends that this schedule do take effect on July 1, 1911, and continue until May 1, 1913.

SESSIONAL PAPER No. 36a

IX. APPLICATION FROM CARMEN, MEMBERS OF THE BROTHERHOOD OF RAILWAY CARMEN OF AMERICA, EMPLOYED BY THE QUEBEC AND LAKE ST. JOHN RAILWAY COMPANY.—PENDING THE ESTABLISHMENT OF A BOARD A SETTLEMENT WAS REACHED ON ALL POINTS AT ISSUE.

Application received—June 7, 1911.

Parties concerned—The Quebec and Lake St. John Railway Company and carmen, members of the Brotherhood of Railway Carmen of America.

Applicants—Employees.

Nature of industry concerned—Railways.

Nature of dispute—Wages and conditions of employment.

Number of employees affected—Directly, 80; indirectly, 15.

Whilst proceedings looking to the establishment of a Board were in progress the Department was informed that a settlement had been reached on all points at issue.

In the application received on behalf of the carmen employed by the Quebec and Lake St. John Railway Company it was stated that the matters in dispute related to wages and conditions of employment, the number of employees affected being given as eighty directly and fifteen indirectly. The application as received was not in the form prescribed under the Act and whilst communications were passing between the employees and the Department in respect of the correction of the same, and following a visit of one of the officers of the Department of Labour to Quebec a communication, under the date of June 20, was received from the General Superintendent of the Canadian Northern Quebec Railway in which the following statement was made: "Beg to inform you that Committee representing the men was met at Quebec on the fifteenth instant and a new schedule of rates and conditions arranged and agreed to."

X. APPLICATION FROM EMPLOYEES OF THE MONTREAL STREET RAILWAY COMPANY, BEING MEMBERS OF LOCAL UNION NO. 328 AMALGAMATED ASSOCIATION OF STREET AND ELECTRIC RAILWAY EMPLOYEES OF AMERICA.—BOARD ESTABLISHED.—PROCEEDINGS SUSPENDED PENDING DETERMINATION OF APPLICATION TO THE SUPERIOR COURT FOR A WRIT OF INJUNCTION DECLARING THE INDUSTRIAL DISPUTES INVESTIGATION ACT TO BE ULTRA VIRES.

Application received—June 19, 1911.

Parties concerned—The Montreal Street Railway Company and Employees, members of Local Union No. 328 Amalgamated Association of Street and Electric Railway Employees of America.

Applicants—Employees.

Nature of industry concerned—Street railways.

Nature of dispute —Dismissal of certain Employees and alleged discrimination against them as members of the Union.

Number of employees affected—Directly, 30; indirectly, 1,970.

Date of constitution of Board—August 11, 1911.

Membership of Board—Honourable Mr. Justice Thomas Fortin, Montreal, Que., Chairman, appointed by the Minister in the absence of any joint recommendation from the other members of the Board; Mr. J. L. Perron, K.C., Montreal, Que., appointed on the recommendation of the employing Company; and Mr. Charlemagne Rodier, Montreal, Que., appointed on the recommendation of the employees concerned.

The Board was restrained from proceeding by order of Court, pending determination of an application by the Company to the Superior Court for a writ of injunction declaring the Industrial Disputes Investigation Act to be ultra vires. On March 31, 1912, the Company's application in this matter had not been disposed of.

The application of certain employees of the Montreal Street Railway Company for the establishment of a Board of Conciliation and Investigation related to the alleged dismissal by the Company of certain employees and alleged discrimination against them as members of the Amalgamated Association of Street and Electric Railway Employees of America. The number of employees concerned was given in the application as 30 directly and 1,970 indirectly.

A Board was established by the Minister on July 19, Messrs. J.L. Perron, K.C., and Charlemagne Rodier, both of Montreal, Que., being appointed members of the same on the recommendation of the employing Company and the employees respectively. In the absence of any joint recommendation

SESSIONAL PAPER No. 36a

from the foregoing the Board was completed by the Minister on August 11 by the appointment of Honourable Mr. Justice Fortin of the Superior Court, Montreal, as Chairman.

On August 15 the Chairman of the Board was served with a copy of a petition for a writ of prohibition asking that the Board should be permanently enjoined from proceeding in this matter and the Industrial Disputes Investigation Act should be declared to be unconstitutional. On the same date judgment was given on this petition directing the maintenance of the statu quo. On October 27 the Chairman of the Board was served with a copy of a judgment by the Honourable Mr. Justice Charbonneau, of the Superior Court, Montreal, authorizing the granting of a writ of prohibition against further procedure by the Board of Conciliation and Investigation, until final judgment had been rendered on the point raised by the Montreal Street Railway Company, relative to the constitutionality or unconstitutionality of the Industrial Disputes Investigation Act, 1907, under which the Board in this matter had been constituted.

The judgment of Mr. Justice Charbonneau is in the following terms:

"The Court, after hearing the parties on the motion asking that a Writ of Prohibition be issued against the Defendant Board to prevent it from proceeding in the above mentioned matter;

"Considering that, among other means invoked by the Applicant in support of its request, it is alleged that the Industrial Disputes Act 1907 is unconstitutional and not within the power of the Parliament which passed it;

"Considering that, in spite of the opinion of this Court being against the claim put up by said Applicant on that point, it is in the interest of justice that this matter be further argued;

"Allows the issuance of the writ asked for, and declares that the statu quo order granted on August 15, 1911, by the Honourable Mr. Justice Pagnuelo, and since continued remains in force until final judgment."

The further proceedings in connection with the above mentioned petition had not been disposed of on March 31, 1912.

XI. APPLICATION FROM MACHINISTS, MEMBERS OF THE INTERNATIONAL ASSOCIATION OF MACHINISTS, EMPLOYED BY THE GRAND TRUNK RAILWAY COMPANY.—BOARD ESTABLISHED—NO CESSATION OF WORK OCCURRED.

Application received—July 18, 1911.

Parties concerned—The Grand Trunk Railway Company and machinists, members of the International Association of Machinists.

Applicants—Employees.

Nature of industry concerned—Railways.

Nature of Dispute—Demand for new schedule of rules and rates of pay.

Number of employees affected—Directly, 2,000; indirectly, 6,000.

Date of constitution of Board—October 11, 1912.

Membership of Board—Honourable Mr. Justice J. V. Teetzel, Toronto, Ont., Chairman, appointed on the joint recommendation of the other members of the Board; Honourable Wallace Nesbitt, K. C., Toronto, Ont., appointed on the recommendation of the employing Company; and Mr. J. G. O'Donoghue, Toronto, Ont., appointed on the recommendation of the employees concerned.

Report received—October 23, 1911.

Result of inquiry—Report was signed by the three members of the Board, Mr. O'Donoghue, however, dissenting in certain particulars. The Department was informed that the findings of the Board were not acceptable to the employees concerned. No cessation of work, however, occurred.

The Minister of Labour received on October 23 the report of the Board of Conciliation and Investigation to which had been referred for adjustment certain matters in dispute between the Grand Trunk Railway Company and its machinists, 'machinists' specialists and helpers, members of the International Association of Machinists.

In the application it was stated that the dispute grew out of the employees' demand for a new schedule of agreement with the Company, the number of employees affected by this dispute being given as 2,000 directly and 6,000 indirectly.

The Board was established by the Minister of Labour on September 30, and consisted of the Honourable Mr. Justice Teetzel, of Toronto, Ont., Chairman, the Honourable Wallace Nesbitt, K.C., of Toronto, Ont., nominated by the Company, and Mr. J. G. O'Donoghue, of Toronto, Ont., nominated by the employees. The Board met on October 14, in Montreal, and continued to hold sessions from that date until October 21.

In the report it was stated that the majority (Honourable Mr. Justice Teetzel, Chairman, and Honourable Wallace Nesbitt, the Company's nominee) find that owing to the system of payment prevailing on the Grand Trunk Railway,

SESSIONAL PAPER No. 36a

they do not see how it is possible for the Board to lay down any schedule or minimum rate without dislocating a system having for its basis merit and qualification of the individual workman, based on the foreman's judgment. Owing, however, to the increased cost of living it was felt that the rates of pay had not kept pace in all instances, and the majority recommended that master mechanics take up the matter with the foreman and increase the remuneration according to the qualifications of the individuals. The shop rules which had previously been adopted in May, 1907, were recommended by the Board as being fair and reasonable, with the modification of Rule 11, namely that a man with a grievance shall have a right of appeal to the Master Mechanic, and from him to the Superintendent of Motive power.

Mr. J. G. O'Donoghue, appointed on behalf of the employees, held that the men were entitled to a grievance committee and that a minimum rate on a par with that of other Canadian roads should be established; also that double time should be paid for overtime from midnight to six a.m., and that apprentices should share in the increases above mentioned.

The Department was informed that the findings of the Board were not acceptable to the employees concerned. No cessation of work, however, occurred.

Report of Board.

The text of the findings of the Board of Conciliation and Investigation in this matter is as follows:—

We, Mr. Justice Teetzel, J. G. O'Donoghue and Wallace Nesbitt, members of the Board of Conciliation appointed under the Industrial Disputes Investigation Act, 1907, and Amendments, in a dispute between the machinists in the employ of the Grand Trunk Railway Company, beg to report that we met on the fourteenth day of October, 1911, in the Board room, at the Grand Trunk Offices, in the City of Montreal, and subsequently in the Home Life Building on the nineteenth, twentieth and twenty-first days of October, 1911, and heard and conferred with the parties fully.

In May, 1907, a Board of Conciliation, consisting of Professor Adam Shortt and J. G. O'Donoghue and Wallace Nesbitt, investigated a dispute between the same parties. That Board and the parties unanimously agreed upon certain shop rules as being fair and reasonable, and also agreed upon a schedule of pay promulgated by the Grand Trunk at that time, as being under all the circumstances fair and reasonable. We have had the same rules fully discussed before us, and with the modification of Rule No. 11 so as to make the meaning clear, namely, that a man with a grievance shall have a right of appeal to the Master Mechanic, and from him to the Superintendent of Motive Power, we, the majority of the Board, adopt the shop rules of the Grand Trunk which were at that time adopted.

Owing to the system of payment which prevails in the Grand Trunk, and which has been fully explained to us, the majority of the Board do not see how it is possible for the Board to lay down any schedule of minimum rate without

dislocating the system which has as its basis the payment according to the merit and qualification of the individual workman based upon the judgment of his foreman. The evidence, however, satisfies us that owing to the increased cost of living since 1907, the increases which have been granted by the Grand Trunk since that time in the rates of pay of the men have not in a number of instances kept pace with the necessities of the men, while in other instances the rates of pay seem to be fair and reasonable.

The majority of the Board strongly recommend therefore that the Master Mechanics take up with their foreman, at the earliest possible moment, the individual cases in the various shops and round-houses, where the lower rates of wages obtain, and should make advances in pay according to the merit and qualification of the individual, so that the pressure of the increased cost of living will be relieved by an advance in remuneration.

The majority of the Board are glad to report that the Superintendent of Motive Power expresses himself as anxious to do everything possible to meet the wishes of his men. The system of individual merit, while productive of much good in its results, is open to the criticism that the less efficient do not obtain the advantages which would accrue to them under a general fixed minimum.

The majority of the Board award that the rules as aforesaid remain in force, and that in our opinion the rates of pay should be advanced in a number of individual instances.

Mr. O'Donoghue is of the opinion that the men are entitled to have their grievances presented through a Committee, and that a minimum rate, on a par with that in force on other Canadian roads, should be established. This would give to the men an increase of wages that would, in some measure, compensate for the increased cost of living. He is also of opinion that double time should be paid for overtime from midnight to six a.m., and that apprentices should share in the increase above mentioned.

Dated this twenty-first day of October, 1911.

(Sgd.) J. C. TEETZEL,

Chairman.

WALLACE NESBITT,

Representing the Company.

J. G. O'DONOGHUE,

Representing the Men.

SESSIONAL PAPER No. 36a

XII. APPLICATIONS FROM MACHINISTS AND BOILERMAKERS, MEMBERS OF THE INTERNATIONAL ASSOCIATION OF MACHINISTS AND THE INTERNATIONAL BROTHERHOOD OF BOILERMAKERS, IRON SHIP BUILDERS, AND HELPERS OF AMERICA RESPECTIVELY, EMPLOYED BY THE GRAND TRUNK PACIFIC RAILWAY COMPANY.—BOARD ESTABLISHED.—UNANIMOUS REPORT BY BOARD.—EMPLOYEES DECLARED STRIKE.

Applications received—July 31, August 8, 1911, respectively.

Parties concerned—The Grand Trunk Pacific Railway Company and machinists and boilermakers, members of the International Association of Machinists and the International Brotherhood of Boilermakers, Iron Ship Builders and Helpers of America.

Applicants—Employees.

Nature of industry concerned—Railways.

Nature of dispute—Wages, hours, and conditions of employment; also demand for schedule.

Number of employees affected—150 and 150 respectively.

Date of constitution of Board—October 12, 1911.

Membership of Board—Rev. Dr. J. W. Sparling, Winnipeg, Man., Chairman, appointed by the Minister in the absence of any joint recommendation from the other members of the Board; Rev. J. L. Gordon, Winnipeg, Man., appointed by the Minister in the absence of any recommendation from the employing Company; and Mr. Thos. J. Murray, Winnipeg, Man., appointed on the recommendation of the employees concerned.

Report received—October 28, 1911.

Result of inquiry—A unanimous report was presented by the Board which was favourable to the employees concerned and was accepted on their behalf. The Company, in a letter dated November 2, declined to accept the Board's findings. On October 6 the Company's shops at Edmonton and Rivers were closed down, and the employees concerned declared a strike on October 10, which was still in progress on March 31, 1912.

The Minister of Labour received, on October 28, the joint report of the Boards of Conciliation and Investigation to which had been referred for adjustment certain matters in dispute between the Grand Trunk Pacific Railway Company and its machinists and boilermakers respectively.

In the application for the establishment of these Boards, it was stated that the differences in question related to wages, hours, and other conditions of employment, the number of employees affected in each case being 150.

The Boards as originally formed were composed of the Rev. J. W. Sparling, of Winnipeg, Man., Chairman; the Honourable Wallace Nesbitt, K.C., of

Toronto, Ont., appointed on the recommendation of the employing Company; and Mr. Thomas J. Murray, of Winnipeg, Man., appointed on the recommendation of the employees. The Department was subsequently notified that Mr. Nesbitt was unable to act as the representative of the Company on these Boards; and, the Company failing to nominate a successor to Mr. Nesbitt, the Minister of Labour appointed the Rev. J. L. Gordon, of Winnipeg, Man., in his stead.

Prior to the appointment of the Rev. J. L. Gordon, the Chairman and Mr. Murray held meetings in Winnipeg, on October 2 and 3, and prepared a report of same, dated October 11, which was received by the Department, together with the final report, dated October 25. The final report in effect sustains the demand of the employees, and is signed by each member of the Board.

The findings of the Board were formally accepted on behalf of the employees concerned; the Company on the other hand declined to accept the award.

On October 6 the Company's shops at Edmonton and Rivers were closed down, and the employees concerned declared a strike on October 10 which was still in progress on March 31, 1912. The Department was, however, informed by the Company that operations in its shops were not affected by the continuance of the strike.

In correspondence with the Department it was claimed by the Grand Trunk Pacific Railway Company that the latter was paying its machinists the highest rates current in the West, namely: those of the Canadian Pacific Railway Company. The Department was also informed by the Grand Trunk Pacific Company that the latter had put into force the same rules as existed in the shops of the Grand Trunk Railway Company, including the amendments to the latter suggested by a Board established under the Industrial Disputes Investigation Act in the fall of 1911. The Company's claim as respects the rates of wages paid was disputed by the representatives of the striking employees.

During the fall and winter a further effort was made by the Department of Labour to bring about an adjustment of this dispute, which was, however, without result.

The text of the report prepared by the Chairman and Mr. Murray on October 11, prior to the appointment of Rev. J. L. Gordon as a member of the Board, is as follows:—

WINNIPEG, MAN., October 11, 1911,

F. A. ACLAND, Esq.,
Deputy Minister of Labour,
Department of Labour,
Ottawa, Ont.

SIR,—In the matter of the Industrial Disputes Investigation Act, 1907, and in the matter of the disputes between the Grand Trunk Pacific Railway Company and its employees, being members of the International Association of Machinists and of the International Brotherhood of Boilermakers, Iron Ship Builders and Helpers of America, the undersigned, two members of the Boards of Conciliation

SESSIONAL PAPER No. 36a

and Investigation, established under the provisions of the Industrial Disputes Investigation Act, 1907, to whom the above disputes were referred under the provisions of the said Act, beg to report as follows:—

Two Boards were established, one to deal with the dispute between the Company and its machinists and the other to deal with the dispute between the Company and its boilermakers, but as the matters in dispute are similar in each case, and as similar proceedings have been taken by the two Boards up to the present time, it is considered that both disputes may be dealt with in one report.

The Boards were composed of the Rev. J. W. Sparling of Winnipeg, Chairman, Thomas J. Murray of Winnipeg, appointed on the recommendation of the employees, and Wallace Nesbitt, K.C., of Toronto, appointed on the recommendation of the Company. Immediately upon the formation of the Boards it was found by the two members resident in Winnipeg, that the employees were considerably annoyed on account of the delays which had occurred in the granting and formation of the Boards. It appeared that the Boards had been applied for by the employees about August 1, but had not been granted until August 23. The formation of the Boards was not completed until September 5. The Chairman and Mr. Murray at once endeavoured to get into communication with Mr. Nesbitt, with a view to an early Session, hoping by prompt action to allay the feelings of disappointment and dissatisfaction entertained by the employees towards the Department of Labour resulting from delays. It was found that Mr. Nesbitt had gone to Northern Ontario and could not be communicated with. It was felt that if the breach between the Company and its employees was not to be widened the Board should take up the matter of investigation without delay, and representations were then made to your Department with a view to having the Company nominate another representative who could act immediately. Word was then received from your Department that Mr. Nesbitt had withdrawn from the Board, and that his resignation had been accepted, and the Company had been requested to nominate a substitute. A week later no nomination having been received from the Company, it was suggested to your Department that you appoint a third member under the provisions of the Act made for such a case. Then the Company withdrew the resignation of Mr. Nesbitt, and he was re-appointed a member of the Board. These negotiations occupied a period of two weeks and needless to say the further delay was very provoking to the employees. On September 18, the Chairman called a meeting of the Board to be held in Winnipeg, on October 2, feeling that the interval allowed would give the Company's representative every opportunity of being present. Your Department and Mr. Nesbitt were both notified of the meeting.

On October 2, the meeting called as above was held and there were present at this meeting the Chairman of the Board, Mr. Murray, the Committees representing both machinists and boilermakers and Mr. Robb, an official of the Company. Mr. Robb made it plain that he had not appeared in his official capacity, that he had no instructions or authority to represent the Company, that he could not bind the Company by any action of his, but that he was present simply because Mr. Murray had requested Mr. Chamberlain, the Vice-President of the

Company, to have some official of the Company present to meet the members of the Board.

Word had been received in the interval from Mr. Nesbitt to the effect that he could not be present at this meeting, but that he might be able to be present later on.

The representatives of the employees expressed themselves as ready and anxious to proceed with the investigation. After spending two days in going into some of the matters in dispute without being able to make any real progress, because of the fact that the Company was not represented officially, the Board adjourned. Before the adjournment the employees requested that we should make a report to your Department, but the Chairman did not feel inclined to do so without making a further attempt to secure the attendance of the Company's representative.

It was represented to the Board by the Committees of the employees that the latter were asking only for rates of pay and working rules similar to those existing on other Railway lines in the same territory. It was also represented to the Board by the Committees of the employees that Mr. Chamberlain, Vice-President of the Company, had stated that while the Company was willing to grant the same rates of pay as were being given by the other roads, the Company would not grant any set of working rules other than those to be granted by the Board of Conciliation, which it was expected would deal with the disputes now existing between the Grand Trunk Railway and its employees in the mechanical department, and that if the Board of Conciliation recommended anything more than the Company was willing to give in this regard, the Company would not accept the findings of this Board. The position taken by the employees was that if this statement of Mr. Chamberlain's correctly represented the attitude of the Company it was useless spending further time investigating the matter.

After the adjournment of the Board the representatives of the employees dispersed to their respective homes, stating that it was not their intentions to return before the Board until some reasonable assurance was given on behalf of the Company that the requests of the men would be considered by this Board on their merits, without reference to Eastern Disputes or the finding of the Board of Conciliation that may be appointed to deal with such disputes.

As the situation had begun to take on a serious aspect, and as it looked as though a strike might occur, the Chairman of the Board at once notified by wire both your Department and Mr. Nesbitt fully as to the situation. Since that time no official word has been received from Mr. Nesbitt. Word was, however, received from your Department to the effect that Mr. Nesbitt had again resigned from the Board.

In the meantime we understand that pursuant to an ultimatum served on the Company by the men, a strike has been declared. We understand that the men claim that prior to the strike a virtual lockout was declared by the Company.

We believe that had it been possible to investigate the disputes before a full Board, with representatives of both parties to the present dispute, it would have been possible to avert open hostilities, even if not actually to settle the differences. While the investigation made at the Sessions of the Board held on

SESSIONAL PAPER No. 36a

October 2 and 3, possibly did not get to the root of the difficulty, nevertheless, judging from the attitude of the representatives of the employees present, had the Company been represented on the Board and before the Board by someone in authority, we believe the two parties to the dispute could have been brought much closer together than they then appeared to be. We consider that the employees have shown great patience and forbearance in view of the many delays which occurred prior to and after the formation of the Board.

All of which is respectfully submitted.

(Sgd.) J. W. SPARLING,
Chairman.
THOS. J. MURRAY.

Final Report of Board.

The later report of the Board, under date of October 25, bearing signatures of all three members, is as follows:—

WINNIPEG, MAN., October 25, 1911.

HON. T. W. CROTHERS,
Minister of Labour,
Ottawa, Ont.

SIR,—In the matter of the Industrial Disputes Investigation Act, 1907, and in the matter of the disputes between the Grand Trunk Pacific Railway Company and the machinists and boilermakers in its employ.

The Board of Conciliation to whom the above disputes were referred, beg to report as follows:—

Two Boards were established, one to deal with the dispute between the Company and its machinists, and the other to deal with the dispute between the Company and its boilermakers, but as the matters in dispute are similar in each case, and as similar proceedings were taken by both Boards, it is considered that both disputes may be dealt with in one report.

The Boards as originally formed, were composed of the Rev. J. W. Sparling, of Winnipeg, Chairman, Thomas J. Murray of Winnipeg, appointed on the recommendation of employees, and Wallace Nesbitt, K.C., of Toronto, appointed on the recommendation of the Company. Later, owing to the resignation of Mr. Nesbitt, the Rev. J. L. Gordon, of Winnipeg, was appointed third member of the Board.

A very long delay occurred between the time of the application for the appointment of the Board, and the date when the work of investigation actually commenced, two months and a half. The views of the Board as to where the responsibility for delay should be placed, are fully set out in a report prepared on October 11, immediately prior to the appointment of the Rev. J. L. Gordon,

3 GEORGE V., A. 1913

which appointment resulted in postponing the forwarding of such report. It is now considered advisable, however, to accompany our present report by the earlier one.

Throughout these long delays the employees have shown a conciliatory and forbearing spirit, but apparently convinced that they would not be able to obtain an investigation, they decided, subsequent to the meetings of the Board, on October 2 and 3 (above referred to) to prepare for a strike. On October 4, the employees delivered an ultimatum to the Company asking for an acknowledgement of their right to a Schedule Agreement and a minimum wage, intimating that refusal means a strike, and asking for an answer by noon on the sixth. On the morning of October 6, there occurred what the employees claim was a lock-out. The shops at River and Edmonton, the two most important shops of the system were closed. The Company claims that there was no lockout, but that the shops were simply closed for repairs. No answer was given to the employees' ultimatum, and on October 10, a strike commenced.

On October 12, the Rev. J. L. Gordon was appointed the third member, and the real work of the Board at once commenced. The men were asked by the Board to facilitate the work of conciliation by returning to work, pending investigation of dispute, and the men agreed to do this providing that they were restored to their former positions 'without discrimination and without prejudice.' The Company was then asked by the Board to agree to the return of the men to work under these conditions, but up to this date the Board has received no answer to its request. The Rev. Dr. Gordon personally attended upon the officials of the Company, with a view to ensuring their co-operation in the work of investigation and conciliation, but while they acknowledged him as the Company's representative, they failed to give him any assistance.

Pursuant to notice given to all parties, the Board began its sessions on October, 16. The investigation showed that the more important requests of the men are as follows:—

1. A schedule agreement.
2. A minimum rate of wage.
3. Committee representation on grievances.
4. Nine hour day.
5. Definition of trades.

Generally speaking, the men asked for conditions similar to those in existence on other roads in the same territory.

The investigation extended over a period of five days. The inquiry assumed a wide scope, and information was gained from every available source. Employees of the Company engaged in each of the trades involved in the dispute, were called from points extending over most of the road. Witnesses were also summoned from the Canadian Pacific and Canadian Northern Roads, and expert opinions obtained on the various matters under consideration. The investigation was extended so as to include in a general manner the Canadian Pacific Railway Company and the Canadian Northern Railway Company, as well as the Grand Trunk Pacific Railway Company, and in a general way all

SESSIONAL PAPER No. 36a

other Canadian roads and many American roads. The Board took into consideration the fact that the Canadian Northern Railway Company and the Grand Trunk Pacific Railway Company are both new roads, that each is still to a large extent a road of extension and construction, that they extend practically over the same territory, and therefore the Board concluded that a careful comparison of the conditions affecting these Companies and their employees and the relations between them would enable the Board to arrive at a reasonably definite conclusion as to the fairness of the demands of the men. The Board had before it in detail the official answers given by the Company to the requests of the men and the written arguments advanced by the Company to show why such requests should not be granted. These answers and arguments were most carefully investigated and considered, and independent advice summoned before the Board.

As a result of its inquiries the findings of the Board are as follows:—

The number of employees involved in the dispute is approximately 300. Their requests are of vital importance; they have been conceded by nearly all the railroads in Canada and the United States, and unless some satisfactory settlement is reached at the present time, it seems almost inevitable that the differences involved in this dispute must recur in the future and become more acute with the increasing number of employees.

Omitting certain minor details which the employees do not insist upon, the requests of the men are, in the opinion of the Board, fair and reasonable. Similar conditions were granted by the Canadian Northern Railway Company and Canadian Pacific Railway Company nearly ten years ago, and have ever since been conceded. They were allowed by the Canadian Northern Railway Company when that road's staff of mechanics was much smaller than is the present staff of the Grand Trunk Pacific Railway Company.

The conditions asked for are almost identical with those now in operation on other roads in same territory. We are informed that similar conditions prevail on all other important roads in Canada, except the Grand Trunk Railway Company, and on at least eighty per cent of the American roads.

The Board can see no sufficient reason why the Grand Trunk Pacific Railway Company should be exempt from the necessity of granting to its employees an agreement and rates of pay such as are recognized as fair and reasonable by so many other roads. A number of the conditions asked for are already in effect on that portion of the Grand Trunk Pacific Railway under Government control, and apparently no difficulty or disadvantage to the Company accrues therefrom.

The men asked for a schedule Agreement such as other roads have. This involves no new principle. It has long been recognized that employees are entitled to have some voice in the decision as to conditions under which their services shall be performed and as to the rate at which they shall be compensated. Up to the present on the Grand Trunk Pacific Railway the rates and conditions have been arranged by the Company, without any consultation whatever with the men. Co-operation in these matters between the employer and employee

has worked out most satisfactorily on other roads, and has apparently tended to reduce friction and encourage harmony and contentment.

The Company, in its official reply to the requests of the men, has used as its chief objection the argument that the conditions asked for are impracticable, and would tend to produce friction. This objection is not sustained by the information laid before the Board. On the contrary, the Board considers, after a most thorough investigation, that the very opposite result would be achieved.

A minimum rate of pay is asked for. This is the system in operation on most railroads, including the Canadian Pacific and the Canadian Northern Railway Companies. The present sliding scale in operation on the Grand Trunk Pacific Railway tends to produce dissatisfaction and results in apparent injustice.

A difference was found in the statements before the Board as to the rate of wages actually being paid on the Grand Trunk Pacific Railway. The Company stated it was prepared to pay and was actually paying as high wages as the Canadian Pacific Railway Company. The employees, on the other hand, stated that such was not the case, that, about twenty-five per cent. of their number were in receipt of wages slightly less than the Canadian Pacific Railway Company's minimum wage, and that the remainder were receiving wages decidedly lower. By a careful examination of the pay sheets produced by the Company before the Board, it was found that the statements of the men were fully sustained and corroborated. The minimum wage asked by the employees is as low as the lowest minimum wage now paid west of the Lakes, and lower than some others now paid in some territory.

Committee representation is also asked for. The operation of this principle appears to be essential. It is almost in universal operation in Canada and the United States. In practice it is found to be a most satisfactory method of adjusting differences important and unimportant which continually arise between employer and employee, especially when, as in the case of a railroad corporation, the employee rarely comes in direct contact with the higher officials. He should have the right to appeal from decisions of foremen and minor officials to higher officers through a regularly constituted grievance committee. The Company claims no grievance existed. Undoubtedly grievances have existed but perhaps they have not been presented through lack of facilities or through fear of results to the individual.

The employees asked for a nine hour day. The present working day on the Grand Trunk Pacific Railway is ten hours, although on other roads in the same territory it is only nine hours. Also a nine hour day is in operation on that portion of the Grand Trunk Pacific Railway under Government control. The Company claim a nine hour day is impracticable. It seems to work out very well on other roads, and we cannot see how conditions are so different as to make it impracticable for the Grand Trunk Pacific Railway Company. Through the system of overlapping, such as is in operation on other roads, it is possible to have employees in the shops at all hours even with a shorter working day. The Company also claims that their employees do not desire a shorter working day, but careful investigation has failed to show convincing evidence in favour of

SESSIONAL PAPER No. 36a

this contention. Satisfactory information, however, was received showing that a reasonable shortening of the working day usually results in increased efficiency and improved social, domestic, and intellectual conditions.

A definition of trades is asked for. This is something also acceded to by most railroads. Much of the present friction seems to have resulted from lack of proper definition of the duties of various classes of employees. The complaint of skilled mechanics is that the absence of this provision results in general lowering of wages. In answering this request, the Company states that if granted, it would be necessary to dismiss many of the less skilled employees. The men hold that such a course would not be necessary, but that with proper definition of the duties of each, and with a reasonable minimum rate of wages, all present employees could be retained in the service without reduction in the wages of any. Your Board sees no good reason to dissent from this position.

The Board is of the opinion that the employees fully complied with the letter and spirit of the Industrial Disputes Investigation Act, before declaring a strike. Without attempting to make a finding as to whether or not there was actually a lockout in existence prior to the strike, the Board is satisfied that the employees were convinced as to the existence of a lockout for some days before the strike was declared.

All of which is respectfully submitted.

(Sgd.) J. W. SPARLING,
Chairman.

(Sgd.) JAMES L. GORDON,
(Sgd.) THOS. J. MURRAY.

XIII. APPLICATION FROM EMPLOYEES, MEMBERS OF THE CANADIAN BROTHERHOOD OF RAILROAD EMPLOYEES, OF THE CANADIAN PACIFIC RAILWAY COMPANY AT CALGARY AND MEDICINE HAT, ALTA.—PROCEEDINGS DISCONTINUED.

Application received—September 11, 1911.

Parties concerned—The Canadian Pacific Railway Company and various employees at Calgary and Medicine Hat, Alta., members of the Canadian Brotherhood of Railroad Employees.

Applicants—Employees.

Nature of industry concerned—Railways.

Nature of dispute—Alleged discrimination against members of the Union.

Number of employees affected—Directly, 6,500; indirectly, 6,500.

A Board was established in this matter on October 19, Mr. John Anthony McDonald, Halifax, N.S., being appointed a member thereof on the recommendation of the employees concerned. Further proceedings were, however, discontinued, owing to the failure of the employees to furnish the Department with certain required information.

On August 31, the Department received an application for the establishment of a Board of Conciliation and Investigation on behalf of certain employees of the Canadian Pacific Railway Company at Calgary and Medicine Hat, Alta. The application as received at that time did not conform in all respects with the requirements of the Industrial Disputes Investigation Act, and was accordingly returned for correction, being received in its amended form on September 11. The employees concerned were designated as clerks of all departments, freight shed foremen, checkers and truckers, station baggagemen, sleeping and dining car employees, storemen, agents and yardmasters, and car-checkers; being members of the Canadian Brotherhood of Railroad Employees. It was estimated that 6,500 employees were directly affected by this dispute, and an equal number indirectly. In the application it was stated that the dispute in question related to the dismissal of two employees for the sole reason that they belonged to the Brotherhood; also to alleged intimidation of and discrimination against other employees for the same reason.

A Board was established by the Minister on October 19, Mr. John Anthony McDonald, of Halifax, N.S., being appointed a member thereof on the recommendation of the employees concerned.

Further proceedings were, however, discontinued owing to the failure of the employees to furnish the Department with certain required information.

SESSIONAL PAPER No. 36a

XIV. APPLICATION FROM EMPLOYEES, MEMBERS OF LOCAL UNION NO. 213, INTERNATIONAL BROTHERHOOD OF ELECTRICAL WORKERS OF AMERICA, OF THE BRITISH COLUMBIA TELEPHONE COMPANY.—BOARD ESTABLISHED.—NO CESSATION OF WORK OCCURRED.

Application received—September 6, 1911.

Parties concerned—The British Columbia Telephone Company and employees, members of Local Union No. 213, International Brotherhood of Electrical Workers of America.

Applicants—Employees.

Nature of industry concerned—Telephones.

Nature of dispute—Wages and Company's attitude towards union men.

Number of employees affected—220.

Date of constitution of Board—October 6, 1911.

Membership of Board—John Harold Senkler, K.C., Vancouver, B.C., Chairman, appointed on the joint recommendation of the other members of the Board; Mr. William Henry Barker, Vancouver, B.C., appointed on the recommendation of the employing Company; and Mr. Charles Enright, Vancouver, B.C., appointed on the recommendation of the employees concerned.

Reports received—November 28, 1911.

Result of inquiry—Report of Board was accompanied by a minority report signed by Mr. Barker. The Department was not informed of the acceptance or non-acceptance by either party of the Board's findings. No cessation of work, however, occurred.

The Minister of Labour received on November 28 the report of the Board of Conciliation and Investigation to which had been referred for adjustment certain matters in dispute between the British Columbia Telephone Company and its linemen, installers, cable splicers and trouble men, etc., also a minority report bearing the signature of Mr. Wm. H. Barker, member appointed on behalf of the Company. This dispute related in the main to the employees' demand for increased wages and was also understood to involve the Company's attitude towards Union men. The number of employees concerned was given in the application as approximately 220. A Board was established on November 29, Messrs. Wm. H. Barker, of Vancouver, B.C., and Chas. Enright, of Vancouver, B.C., being subsequently appointed members on the recommendation of the Company and employees respectively. The Board was completed by the appointment of Mr. John H. Senkler, K.C., of Vancouver, B.C., as Chairman, on the joint recommendation of the foregoing.

The Board in its findings dealt with the subject of the cost of living on the Pacific Coast, and especially in Vancouver, and also pointed out that men work-

ing for the Telephone Company must be young, strong, and active, that their employment is an extra hazardous class of work, for which reason they are unable to obtain life insurance at anything like rates which they can afford to pay, also "that the Telephone Companies on the Pacific Coast, other than the Pacific Telephone Company which is apparently, so far as wages are concerned, bound by some arrangement with the British Columbia Telephone Company, pay a higher rate of wages than the latter two Companies." The report concluded, "Under the circumstances I cannot see that the men are acting unreasonably in asking for a further advance in wages of 25c per day." The report was signed by Mr. J. H. Senkler, Chairman, and by Mr. Chas. Enright, member appointed on behalf of the employees. Mr. Wm. H. Barker, in his minority report, said that "taking into consideration the facts as shown by evidence submitted, I have come to the conclusion that the employees of the British Columbia Telephone Company earn as much as the average skilled mechanic, owing to steadier work, and a raise in wages to them means demands for a raise all round or general dissatisfaction."

The text of the Report of the Board of Conciliation and Investigation is as follows:—

In the matter of the Industrial Disputes Investigation Act, 1907, and in the matter of differences between the British Columbia Telephone Company, Vancouver, B.C., and Local Union No. 213. International Brotherhood of Electrical Workers.

Report of Chairman.

While I feel that the contention of the B. C. Telephone Company, taken at the preliminary hearing of this Board, that a Board of Conciliation should not have been appointed by the Government upon the material contained in the Application to the Minister is very probably correct, still I and the other members of the Board felt that it was our duty to endeavour to effect some settlement between the parties and, with that end in view, we had several sessions for the taking of evidence and finally the Chairman had a meeting with the officers of the Company and endeavoured in every way to effect a settlement without the necessity of the Board making a report, but without success, the Company taking the position that as they are paying the same rate of wages to their journeymen as the other largest Telephone Company on this Coast does that they could not voluntarily raise that rate of wages.

At the outset the Company took the position that as the Lemieux Act was a Canadian Act, that therefore this Board of Conciliation had no right to take into consideration any conditions existing outside of Canada. I could not agree to this. In taking evidence as to the conditions existing in Seattle, Tacoma, Portland and San Francisco, we were considering conditions as they exist in places most similarly situated to those in Vancouver, and in my opinion was the only way in which the Board could with any accuracy arrive at a conclusion in regard to the conditions here as between the Company and the men.

SESSIONAL PAPER No. 36a

The Company, during the course of the proceedings did offer to pay the men for an extra hour at the same rate if the latter would agree to work one hour per day longer, but this the men flatly refused to do, and having regard to the manner in which the British Columbia Government has dealt with the eight hour question, I could not accept that as a fair settlement of the matter, and indeed I personally am of the opinion that eight hours per day is a long enough working day.

From the evidence that was brought before the Board, there can be no doubt but that the cost of living is higher in Vancouver than in any other place on the Coast, and higher than in other Canadian cities which we have had any evidence about.

In fact I am of the opinion that whatever the cause may be, the cost of living in Vancouver is higher at the present time than it was a year ago. There is no question that from the evidence, men working for a Telephone Company must be young, strong and active men, and that as an average, they cannot employ a man over forty years of age; that his employment is considered an extra hazardous class of work, and for this reason he is unable to obtain Life Insurance at anything like a rate which he could afford to pay; that his work is quite as hazardous, if not more so, than the electrical workers who from the evidence before us, received a minimum wage of \$4 a day, going up as high as \$5 a day.

Men employed on the B. C. Electric Railway Company in this City on similar class of work have wages of \$4 a day and besides, receive extra assistance by way of free car service, and a flat rate for light and heat.

The Telephone Companies on the Pacific Coast, other than the Pacific Telephone Company, which is apparently so far as wages are concerned bound by some arrangement with the B. C. Telephone Company, pay a higher rate of wages than the latter two Companies.

Under the circumstances, I cannot say that the men are acting unreasonably in asking for a further advance of wages of 25c. per day.

I must take the occasion to compliment the two parties on the eminently fair manner in which they have conducted their respective cases in this matter.

Dated at Vancouver, B. C., this 21st day of November, A. D. 1911.

(Sgd.) J. H. SENKLER,
Chairman.
(Sgd.) CHAS. ENRIGHT,
Member of Board.

Minority Report.

The text of the minority report in the above matter is as follows:

Vancouver, B. C., November, 22, 1911.

The Board of Conciliation and Investigation in the matter of dispute between The British Columbia Telephone Company (Employers) and Local Union No. 213, International Brotherhood of Electrical Workers beg to report:

That they have met and taken evidence, and have had letters, lists of wages, and other written and printed matter offered as evidence, including the Labour Gazette.

I find that a very large percentage of the Linemen and other employees are Americans, who have come here because there was work for them. That most—if not all—evidence submitted as to cost of living, was in comparison with American cities—principally Seattle.

While I thought it fair to take this evidence of conditions in another country, yet they are the nearest large towns, and conditions, perhaps nearer our own than those of towns and cities in the Dominion.

Yet this is a Canadian Act, to regulate conditions in Canada, and anyone coming here comes voluntarily, and is not compelled to stay, yet, perhaps, we must in some measure be governed by evidence given.

Wages paid by the largest Telephone Companies from San Diego to Seattle are the same as paid by the B. C. Telephone Company.

Cost of living is less in Seattle than Vancouver, likely caused by dull times and keener competition. Work is harder to get, so while living is some cheaper when work is scarce, it is as stated by one of the witnesses, "that living is mostly cheap where work is scarce."

Regarding the relative earnings of the employees and skilled mechanics, taking the testimony of the business agent of the Allied Building Trades—

Bricklayers average about.....	\$1,000	a year.
Carpenters " "	900	"
Painters " "	700	"
Plasterers " "	900	"
Structural Iron Workers.....	700	"

while by testimony given, the employees of the B. C. Telephone Company average \$1,000 or more per year.

Evidence showing that the labour of a lineman is hazardous; I do not think it any more so than that of the Structural Iron Worker.

SESSIONAL PAPER No. 36a

Carpenters and other skilled mechanics must own a costly kit of tools, while the tools necessary by linemen cost about \$15.

Increased cost of living has had much attention in the Dominion, Great Britain and other countries; it is the same, however, to all workers, and particularly hard on the unskilled laborer and cheaply paid clerks.

I was pleased to find that very friendly feeling exists between the B. C. Telephone Company and its employees. That in April, 1910, they voluntarily increased the wages of their employees, bringing them up to those paid by the large Telephone Companies in the Pacific Coast States.

The B. C. Telephone Company say they are willing to pay their men 47½ cents more per day if the men will work nine hours instead of eight. I think this is one way out of the difficulty. The men ask for twenty-five cents more, and the Company agrees to pay them more than that if they will work for it.

Taking into consideration the facts as shown by evidence submitted I have come to the conclusion that the employees of the B. C. Telephone Company earn as much as the average skilled mechanic, owing to steadier work, and a raise in wages to them means demands for a raise all round or general dissatisfaction.

While the cost of living here is some higher than in Seattle, it is not very much. I will not admit that Vancouver is the most costly place to live in on the Coast.

My judgment is, to leave the pay of the B. C. Telephone Company's employees to the Company.

Respectfully submitted,

(Sgd.) WM. H. BARKER.

**XV. APPLICATION FROM THE ALBERTA COAL MINING COMPANY
CARDIFF, ALTA. — BOARD ESTABLISHED. — EMPLOYEES
CEASED WORK.—SETTLEMENT LATER REACHED ON BASIS
OF BOARD'S FINDINGS.**

Application received—October 23, 1911.

Parties concerned.—The Alberta Coal Mining Company, Limited, Cardiff, Alta., and employees.

Applicants—Employers.

Nature of industry concerned—Coal mining.

Nature of dispute—Wages and conditions of employment.

Number of employees affected—80.

Date of constitution of Board—November 27, 1911.

Membership of Board—Mr. Norman Fraser, Edmonton, Alta., Chairman, appointed on the joint recommendation of the other members of the Board; Mr. J.C. Hannah, Calgary, Alta., appointed on the recommendation of the employing Company; and Mr. Clement Stubbs, Bellevue, Alta., appointed on the recommendation of the employees concerned.

Report received—December 12, 1911.

Result of inquiry—Report was signed by all three members of the Board, with slight objections noted by Messrs. Hannah and Stubbs. After the award of the Board had been communicated to both parties concerned there was a cessation of work for a few days. The Department was later informed that a settlement had been reached on the basis of the Board's findings, and work resumed.

The Minister of Labour received on December 12 the report of the Board of Conciliation and Investigation to which had been referred for adjustment certain matters in dispute between the Alberta Coal Mining Company, Limited, and its employees at Cardiff, Alta.

The application for the establishment of this Board was made by the Alberta Coal Mining Company, and stated that the differences in question related to the refusal of the Company to accede to the employees' demand for increased wages and improved conditions of employment. The number of employees affected by the dispute was given as 80.

A Board was established by the Minister on November 8, and was constituted as follows: Messrs. J. O. Hannah, of Calgary, Alta., and Clement Stubbs, of Bellevue, Alta., members appointed on the recommendation of the Company and the employees respectively, and Mr. Norman Fraser, of Edmonton, Alta., Chairman, appointed by the Minister on the joint recommendation of the foregoing members of the Board.

SESSIONAL PAPER No. 36a

The Board met at Edmonton on December 1 and completed its work of investigation on December 7, having in the meantime visited the Company's mines at Cardiff, Alta., for the purpose of investigating conditions there.

The report of the Board was signed by all three members, with slight objections noted by Messrs. Hannah and Stubbs. After the award of the Board had been communicated to both parties concerned there was a cessation of work for a few days. The Department was later informed, however, that a settlement had been reached on the basis of the Board's findings, and work accordingly resumed.

Report of Board.

The text of the findings of the Board of Conciliation and Investigation in this matter is as follows:—

539 16th Street, Edmonton, Alta.,
7 Dec., 1911.

To the Minister of Labour, Ottawa:

In the matter of "The Industrial Disputes Investigation Act, 1907," and of a dispute between the Alberta Coal Mining Co. (Employer) and Miners, Mine Labourers and Others (Employees).

We, the undersigned members of the Board, having carefully gone over the evidence submitted by both parties, and having made a thorough inspection of the mines of the above named Company, and having investigated the wages and conditions existing at other mines in this Competitive Field, make and submit to you the following findings and recommendations:—

That all the findings of the Board as reported on March 24, 1910, be carried into effect, together with the following provisions and further recommendations:—

1. General Increase on all Present Contract Prices for Narrow Work.

In comparing the present narrow work rates, with similar work paid for in this competitive field, and investigation of average earnings of miners engaged in this class of work at the Alberta Coal Company's mine, would recommend that the yardage rates remain as at present, except in the case of room turning and that this be increased to \$1.25 per yard for four yards.

2. Increase in Present Mining Rate.

Investigation shows that the average daily earnings of the contract miners at this mine are up to the age standard of this field. While it is true that

retail prices for coal have advanced during the past year yet from the statement of the Manager of the Alberta Coal Co., that owing to his Company being under contract they did not receive any advantage from this increased price, would recommend that the present mining rate remain the same.

3. Increase in Price of Timbering.

That the present price of timbering is reasonable, would recommend that they remain the same.

4. Payment for Removing Bone.

That the recommendations of the former Board in regard to this matter be carried into effect and would further recommend that the price paid be 42 cents per lineal yard where the bone is over four inches in thickness.

5. Payment for Laying of Track.

That as the payment for laying track is included in the mining price would recommend that this be continued, except that would recommend that the Company lay track in all main haulage entries, and lay all switches.

6. Increase to all Day Labourers of 25 cents per Day.

That the scale of wages, as per schedule attached, which has been submitted by the Company since meeting of the Board, be accepted with the following additions and changes: Timbermen \$3.25; Track-layer \$3.25.

7. Payment of Miners taken from Working Face to Perform Company Work.

That as the average daily wages for contract miners was found to be higher than the wages of underground day labourers, would recommend that when a miner is taken from his working place to perform Company work that he be paid at the rate of \$3.25 per day of eight hours, while actually engaged in such work.

8. Removal of Water from Working Places.

Would recommend that when practicable the Company remove the water from the working places, and when the miner removes the water from his working place that he be paid at the rate of \$3.25 per day of eight hours while actually engaged in such work.

9. Relative to Pay Days, etc.

That as it has always been the custom at this mine for wages to be paid once a month, and as the present arrangements for pay day does not give sufficient time to make up the pay-rolls and issue statements to employees prior to pay day would recommend that the pay day be on the 10th of each month,

SESSIONAL PAPER No. 36a

the pay periods to cover from the first to the last of each month, and that statements be issued to the employees at least three days prior to pay day.

In making the change in the date of pay day we would suggest that a special pay should be made covering the period from the 20th, (which is the present regular date for making up accounts) to the last of the month, and that payments for work done during this single period immediately preceding the change being made should be made on the 10th of the succeeding month, making the first regular pay day on the new date.

Further demands submitted to Board:

A. Recognition of U. M. W. of A. agreement with same and check off by assignment.

B. Minimum rate for deficient places.

Relative to Section A, it is clear that when the employees are organized more harmony between employer and employees should result, through the handling of matters in dispute through the employees' committees and representatives, than would otherwise result, and we would consider it advisable that such methods of handling disputes and grievances should be followed out.

B. In connection with the minimum rate we believe that some provision should be made in the case of a miner performing work which was not anticipated in the fixing of contract prices, through changes or deficiencies that would reduce his earning power, and as this principle is already acknowledged between the mine workers and operators in the coal fields of Southern Alberta, but as, also, the sum to be considered as the minimum rate is at present being made the subject of reference to an Arbitration Board between the Western Coal Operators' Association and District 18 of the United Mine Workers of America we would suggest that the decision in that case should be the basis of settlement in the present dispute.

(Sgd.) NORMAN FRASER,
Chairman of Board.

I agree with the foregoing reports with the following provisions:

1st. That the following be substituted for recommendation No. 2. As the miners at a number of the mines in this field have already received slight advances and as the market prices have been enhanced while the mining rates have remained the same, would recommend that the mining rate be increased 10 cents per ton.

2nd. That the following be added to recommendation No. 6, drivers, Spike Team, \$3.50 per day 8 hours.

In connection with the "Monthly Pay" it should be noted that while it now exists at the Alberta Coal Mining Co.'s mine, the employees at most of the mines in the vicinity, and practically all other trades are paid semi-monthly and my opinion in the matter is that this method should prevail throughout the Province.

3 GEORGE V., A. 1913

As, however, there is considerable agitation to have this made a Legislative matter it is possible that some change in this may be made by Legislative action in the near future, thereby avoiding disputes on this account.

(Sgd.) C. STUBBS,
Representative of Employer.

DAY WAGES SCHEDULE.

ALBERTA COAL MINING COMPANY.

Inside Labour—

Track layers.....	\$3.00 per day of 8 hrs.
Drivers.....	3.00 per day of 8 hrs.
Hooker-on.....	2.75 per day of 8 hrs.

Outside Labour—

Blacksmith.....	3.50 per day of 9 hrs.
Timber sawyer.....	3.50 per day of 9 hrs.
Box car shovellers.....	2.60 per day of 9 hrs.

SESSIONAL PAPER No. 36a

**XVI. APPLICATION FROM TELEGRAPH AND STATION EMPLOYEES
MEMBERS OF THE ORDER OF RAILROAD TELEGRAPHERS,
EMPLOYED BY THE QUEBEC CENTRAL RAILWAY COMPANY.
—PENDING THE ESTABLISHMENT OF A BOARD, SETTLEMENT
WAS ARRIVED AT BY PARTIES CONCERNED.**

Application received—November 14, 1911.

Parties concerned—The Quebec Central Railway Company and telegraph and station employees, members of the Order of Railroad Telegraphers.

Applicants—Employees.

Nature of industry concerned—Railways.

Nature of dispute—Demand for adoption of a new schedule of rules and rates of pay.

Number of employees affected—70.

Whilst proceedings looking to the establishment of a Board were in progress a settlement was arrived at by the parties concerned.

The application of the station agents and telegraph employees of the Quebec Central Railway Company grew out of a dispute between these employees and the Company, relative to the desire of the former for a new schedule of agreement covering rules and rates of pay to take the place of the schedule at present in force on this line. An officer of the Department of Labour proceeded to Sherbrooke at the Minister's request for the purpose of conferring with the parties and in the course of ensuing correspondence the Department was informed on November 20 that conferences were taking place between the operating officers of the Company and the employees for a settlement of the matters in dispute, and on November 30 word was received that an agreement had been arrived at, the application under the Industrial Disputes Investigation Act being thereupon withdrawn.

XVII. APPLICATION FROM STATION AGENTS, TELEGRAPH AND TELEPHONE OPERATORS AND TOWERMEN, MEMBERS OF THE ORDER OF RAILROAD TELEGRAPHERS, EMPLOYED BY THE MICHIGAN CENTRAL RAILROAD COMPANY ON ITS LINES IN CANADA.—BOARD ESTABLISHED.—NO CESSATION OF WORK OCCURRED.

Application received—December 12, 1911.

Parties concerned—The Michigan Central Railroad Company and Station agents telegraph and telephone operators, and towermen, members of the Order of Railroad Telegraphers.

Applicants—Employees.

Nature of industry concerned—Railways.

Nature of Dispute—Demand for the adoption of certain amendments to the existing schedule.

Number of employees affected—Directly, 115; indirectly, 3,000.

Date of constitution of Board—January 17, 1912.

Membership of Board—Mr. Peter McDonald, Woodstock, Ont., Chairman, appointed by the Minister in the absence of any joint recommendation from the other members of the Board; Mr. J. E. Duval, Montreal, Que., appointed on the recommendation of the employing Company; and Mr. J. G. Donoghue, Toronto, Ont., appointed on the recommendation of the employees concerned.

Report received—March 12, 1912.

Result of inquiry—Report of Board was accompanied by a minority report signed by Mr. Duval. As a result of the inquiry the Company granted an increase of wages and made certain modifications in its rules governing the employment of its station agents, telegraphers, etc. No cessation of work occurred.

The Minister of Labour received, on March 12, the report of the Board of Conciliation and Investigation to which had been referred for adjustment certain matters in dispute between the Michigan Central Railroad Company and the station agents, telegraph and telephone operators, and towermen, members of the Order of Railroad Telegraphers, employed by that Company on its lines in Canada; also a minority report by Mr. J. E. Duval, member appointed on behalf of the Company.

In the application for the establishment of a Board in this matter it was stated that the differences in question grew out of the refusal of the Company to adopt certain amendments to the existing schedule of rules and rates of pay, the number of employees affected being given as 115 directly and 3,000 indirectly.

SESSIONAL PAPER No. 36a

A Board was established by the Minister of Labour on December 26, and was constituted as follows: Messrs. Peter McDonald, Woodstock, Chairman; J. E. Duval, Montreal, Que., (named by the Company); and J. G. O'Donoghue, Toronto, Ont., (named by the employees). The Chairman was appointed by the Minister in the absence of any joint recommendation from the other members of the Board.

The Board met at Toronto on January 26; sittings were later held at St. Thomas, the final meeting, however, being held at the former place on March 6. The majority report of the Board, to which was appended a schedule of rules and rates of pay, was signed by the Chairman and Mr. J. G. O'Donoghue, member appointed on behalf of the employees, the minority report being signed by Mr. J. E. Duval, member appointed on behalf of the Company.

As a result of the inquiry the Company granted an increase of wages and made certain modifications in its rules governing the employment of station agents, telegraphers, etc. No cessation of work occurred.

Reports of Board.

The text of the majority report of the Board of Conciliation and Investigation in this matter is as follows:

To the Hon. T. W. CROTHERS,
Minister of Labour,
Ottawa, Ont.

In the matter of the Industrial Disputes Investigation Act, 1907, and of a dispute between the Michigan Central Railroad Company, employer, and its employees in the station, telegraph, telephone and signal department, employees.

The undersigned members of the Board of Conciliation appointed under the Act in this matter have the honour to report as follows:—

The Board met at Toronto on January 26, 1912, and took evidence as to the general outlines of the claims of the employees and the Company's defence thereto and concluded its sittings there on the same day and adjourned its sittings to St. Thomas, Ontario, where it met on February 2, 3, 7, 8, 13 and 14, 1912, and at Toronto on March 5 and 6, 1912.

The Company was represented by Mr. S. W. Brown, Detroit, and Messrs. H. Shearer, J. S. Graney and A. E. Evans, all of St. Thomas, Ont., and the employees were represented by Mr. D. Campbell, Toronto; Mr. D. Hoy, Fletcher, Ont.; Mr. J. H. Staley, Niagara Junction; and Mr. J. C. Culkins, Detroit.

A great amount of the time of the Board was taken up in the hearing of evidence and argument tendered by the employees and the Company upon the hours of labour, the cost of living and the different conditions and rates of pay by other railroads operating in same territory or territory contiguous to the Company's lines of railway.

After discussion, the Company and the Employees agreed upon the following Articles of the Employees' claim as amended and set out in the schedule annexed hereto, namely; Articles 2, 3, 4, 5; Sections 3, 4, 5, and 6 of Article 9, and Articles 10, 11, 12, 13, 14, 15, and 16. Article 17 of the proposed schedule was not pressed by the employees. On all other points it was found impossible to bring about an agreement between the parties.

Mr. J. E. Duval, the representative of the Michigan Central Railroad Company on the Board does not agree with the undersigned members of the Board upon all points and he has filed a minority report which is annexed hereto and expresses his views upon the matters at issue.

It is a matter for congratulation that so little difference of opinion really exists between the members of the board upon these questions.

The principal point of dispute between the Company and the employees was "Article 1" in which the employees asked to have telephone operators, levermen and station agents considered as telegraphers. The evidence given showed that the Canadian Pacific Railway Company included telephone operators and station agents in its schedule as telegraphers, and that the Grand Trunk Pacific Railway Company station agents performing telegraph duties of any duration as telegraphers in its schedule of "Rules and Rates of Pay Governing Agents and Telegraphers," which became effective on March 1, 1910, and it was also shown that the Cleveland, Cincinnati, Chicago and St. Louis Railway Company (including the Peoria and Eastern Railway), usually known as the "Big Four," by an award in arbitration proceedings held in March, 1910, included telegraphers, telephone operators, station agents and levermen as telegraphers. It was also admitted by the Michigan Central Railroad Company's representatives that the Company now paid its telephone operators the same wages as its telegraphers and that its tower or levermen are paid fifty dollars per month and upwards and that many of its station agents are promoted telegraphers who are sometimes required to do telegraphic work in the absence of the operators. In view of these facts the undersigned members of the Board decided to allow Article 1 of the Telegraphers' schedule as to telephone operators and to specify the certain tower or levermen and the specific agencies, which are included in "Article 1" of the Schedule annexed hereto.

The other main points of difference were as to the proposed increase of fifteen per cent in the wage scale and a reduction of two hours per day in the number of hours constituting a day's work. After giving these matters due consideration it was decided by the undersigned members of the Board to grant an increase of ten per cent in the total wage fund made up of the amount paid to those included in the Schedule of April 1, 1910, and the amount paid to those others now added by Article 1 of the annexed schedule—the said increase of ten per cent. to take effect on January 1, 1912, and be apportioned as may hereafter be agreed upon by the Company and its Telegraphers. It was also decided that no change should be made in the Company's schedule of April 1, 1910, as to the question of the number of hours constituting a day's work. It was not thought proper to grant a meal hour at midnight nor to raise the rate of pay for overtime from twenty-five to thirty cents per hour as asked for by the employees.

SESSIONAL PAPER No. 36a

All the evidence and arguments written and verbal submitted by the parties to the dispute have been duly considered and the undersigned members of the Board would recommend to the Company and the employees the schedule of conditions and the rates of pay hereunto annexed believing that these conditions and rates of pay, if placed in operation by the Company and agreed to by the men, would be fair and equitable as between the parties as a settlement of the dispute.

We beg to congratulate the representatives of the men and of the Company upon the very careful and efficient manner in which their respective cases were prepared and submitted to the Board and we also wish to thank them therefor, and to express our appreciation of the courtesy and good feeling which prevailed between them during the sittings of the Board.

All of which is respectfully submitted.

Dated at Toronto, Ontario, this sixth day of March, A.D. 1912.

(Sgd.) PETER McDONALD,
Chairman.

(Sgd.) J. G. O'DONOGHUE,
For the Employees.

In the matter of the Industrial Disputes Investigation Act, 1907, and of a dispute between the Michigan Central Railroad Company, Employer and its employees in the Station, Telegraph, Telephone and Signal Department, Employees.

Schedule of wages for Telegraphers referred to in the annexed report of the Board of Conciliation, dated March 6, A.D. 1912. This schedule to become effective January 1, 1912.

ARTICLE 1.

All employees performing Railway telegraph or telephone service of any character or duration (except train despatchers) also levermen and station agents as shown in Article establishing wage scale will be considered as telegraphers, within the meaning of this Schedule with the following limitations, namely;—

The tower men so added to the said Schedule shall be the following:—

At Windsor, Towers 1, 2, 3 and 4, 2 men each.

At Essex, 2 men.

At St. Thomas, 3 men.

At St. Appin, 2 men.

At Air Line Junction, 2 men.

At Yarmouth, 2 men.

At Welland Drawbridge, 3 men.

At G. T. R. Crossing, 2 men.

and also tower men at Fargo, Hagersville and Niagara Junction and that the following Agencies shall be added, Essex, Fargo, Ridgeway, Waterford, Hagersville, Welland, Niagara Falls, Bridgeburg and Charing Cross.

ARTICLE 2.

Section 1.—Telegraphers will be regarded in line for promotion and, where ability is sufficient, seniority will prevail. In making transfers and promotions seniority will govern, provided ability to fill the position is sufficient. Seniority will date from the last time of entering the service, and will extend over each Superintendent's Division. Transfers from one Division to another will be at the discretion of the General Superintendent, and will be made when a position cannot be filled on account of lack of ability among the Telegraphers on the division on which the vacancy exists. The Superintendent of the Division on which the vacancy exists or the Superintendent of Telegraph will be the judges as to the ability of the applicant. Temporary vacancies on any Division will be filled by transfer from the general list (extra) by the Superintendent of Telegraph. Telegraphers transferred from one Division to another will carry their seniority with them.

Section 2.—Vacancies will be promptly bulletined to all offices on each Division and will be filled by the Division Superintendent of Telegraph, in accordance with Section 1. A vacancy will be filled as soon as practicable. Applications for the vacancy must be filled six days after the issuing of the bulletin. When a Telegrapher is transferred or promoted and, after a fair trial, is found incapable he will take his place on the extra list, but will retain his seniority rights. Telegraphers declining to accept promotion or transfer to any position do not forfeit their rights to it or another position when vacancy occurs.

Section 3.—In the event of a reduction of Telegraphers, the men on the extra list will be laid off first, and the men last appointed to a regular position will be the first to be placed on the extra list. Appointment to a regular position will be governed by fitness and ability, according to Section 1, Article 2. The oldest man on the extra list shall be first considered.

In the event of any position shown in the Wage Scale being abolished, the Telegrapher thereby displaced will be entitled to the position held by the junior permanently located Telegrapher, provided his seniority entitles him to it and he is properly qualified.

Section 4.—A list of Telegraphers on each Division will be prepared according to seniority, posted in the telegraph office at Division headquarters, and revised annually.

Section 5.—Seniority will only be effective when vacancies occur, or new positions are created.

ARTICLE 3.

When new positions are created compensation will be arranged in conformity with positions of the same class as shown in this schedule.

SESSIONAL PAPER No. 36a

ARTICLE 4.

Telegraphers will not be suspended or discharged without just cause. When they consider they have been unjustly treated they will have the right to appeal to the Division Superintendent, General Superintendent and General Manager in the order named. In case a Telegrapher has been disciplined or discharged and after an investigation found not at fault he will be reinstated and paid for all time lost. Such investigation is to be held within ten days after the request of the party designated. Telegraphers may be accompanied by one or more co-employees from their department at any or all investigations if they so desire.

ARTICLE 5.

Telegraphers absent from regular duty on business of the Company, whether attending court or other assigned duties, will be allowed their regular pay and authorized expenses while away from home.

ARTICLE 6.

One hour will be allowed for meals for all telegraphers, working more than eight hours per day, when consistent, between the hours of 11.00 a.m. and 1 p.m. If less than one hour is allowed for meals, one hour over time pro rata, but not less than Twenty-five cents per hour will be paid.

ARTICLE 7.

Section 1. Where but one operator is employed twelve consecutive hours, including meal hour, shall constitute a day's work, except operators at Chicago GG & OW, Niles, Kalamazoo, Jackson, Jackson Junction, Z office, Car Shops, Bay City, Detroit F and St. Thomas, where ten consecutive hours, including meal hour, will constitute day's work. Where more than one operator is employed ten consecutive hours, including meal hour, will constitute day's work.

Section 2.—At stations where but one operator is employed and who works ten hours or more per day, such operators will, after a continuous service in the Telegraph Department of four years or more, be given fifteen days' vacation yearly under full pay or be paid in lieu thereof fifteen days' extra pay at the rate applying to their station. Vacations can be granted only up to the ability of the Company to provide relief, and applications will be granted according to the seniority of applicants; all applications to be filed during the months of January, February and March for vacations during the current year.

ARTICLE 8.

Section 1.—When Telegraphers are required by the Train Despatcher to remain on duty longer than the number of hours constituting a day's work, they will be paid overtime.

3 GEORGE V., A. 1913

Overtime will be based on the regular salary. The rate per hour will be determined by dividing the monthly rate by the number of hours required for the month's work, provided that the rate per hour will in no case be less than twenty-five cents. Allowance will be made for the actual time of service computed to the nearest five minutes.

Section 2.—When Telegraphers are called to the office by proper authority outside of their usual hours for duty, the compensation for one hour's work or less shall be twenty-five cents when the call is within three hours after the appointed time for relief, otherwise it will be fifty cents. If held more than one hour, overtime will be paid as per section 1.

Section 3.—Day Telegraphers are expected to report at an appointed hour on Sunday, but if held by the Despatcher for work they will be allowed overtime. Day Telegraphers are expected, however, to know that their relief reports for duty Sunday night.

Section 4.—When day Telegraphers are required to work Sundays, overtime as per Section 1 (this Article) will be allowed.

Section 5.—Night Telegraphers will be paid one day extra at the schedule daily rate for each Sunday they are required to work.

Section 6.—At three trick telegraph offices, the second and third trick men will be considered as night operators.

ARTICLE 9.

Section 1.—Telegraphers will not be required to scrub waiting-rooms, offices or outbuildings, clean or disinfect stock cars.

Section 2.—When Telegraphers are required to attend pumps they will receive five (\$5.00) dollars per month extra compensation.

Section 3.—When Telegraphers are required to attend switches or work interlocking levers in interlocking towers they will be paid five (\$5.00) dollars per month extra compensation. This extra compensation paid for attending to switches will include attending to the lamps pertaining to said switches.

Section 4.—Telegraphers required to attend pumps and switches will be paid seven (\$7.50) dollars and fifty cents per month extra.

Section 5.—Telegraphers will be allowed four (\$4.00) dollars extra compensation per month for taking care of six (6) switch or semaphore lamps, or less, and fifty cents for each additional lamp per month will be paid, it being understood that in cases where the Day and Night Operators share in the performance of the work the compensation shall be equally divided.

ARTICLE 10.

Section 1.—Regular Telegraphers transferred or promoted or extra telegraphers assigned to regular positions will be furnished free transportation for themselves, family and effects.

Section 2.—Regular Telegraphers transferred or promoted will not suffer any loss of pay on account of the time lost in making the transfer, but will be paid at the rate of the position left until they go on duty in the new position.

SESSIONAL PAPER No. 36a

ARTICLE 11.

Telegraphers will be granted leave of absence from time to time for the purpose of attending their meetings, provided such leave of absence does not interfere with the business of the Company and they will be granted the necessary transportation over the lines of the Michigan Central Railroad.

ARTICLE 12.

Telegraphers will not be discriminated against on account of their serving on Boards of Adjustment representing the Telegraphers, and will be furnished transportation over the lines of the Michigan Central Railroad, and relieved without unnecessary delay for that purpose.

ARTICLE 13.

In case Telegraphers are dismissed or should resign and should be reinstated or re-employed within one year they shall retain their rights; after one year they shall be considered as new men.

ARTICLE 14.

Telegraphers shall receive the same rate of pay as Agents or telegraphers relieved. Nothing in this Article shall be construed as meaning that Telegraphers shall suffer a reduction in their pay while temporarily relieving an Agent or Telegrapher.

ARTICLE 15.

Nothing in these Articles will relieve Telegraphers from responsibility under the rules.

ARTICLE 16.

These rules will be effective January 1, 1912, and will remain in effect subject to thirty days' notice by either party.

ARTICLE 17.

A net increase of ten per cent on the total wage fund of all those employees mentioned or referred to in Article 1 hereof is granted, this amount to be distributed as may be mutually agreed upon by the representatives of the Company and of the employees.

All of which is respectfully submitted by the Board of Conciliation at Toronto, Ont., this sixth day of March, A. D., 1912.

(Sgd.)

PETER McDONALD,
Chairman.

(Sgd.)

J. G. O'DONOGHUE,
Representing Employees

Minority Report.

The text of the minority report in this matter is as follows:

Toronto, March 6, 1912.

To the Honourable
The Minister of Labour,
Ottawa, Ont.

In the matter of the Industrial Disputes Investigation Act, 1907, and of dispute between the Michigan Central Railway Company, Employer, and its Employees in the Station, Telegraph, Telephone and Signal Department.

The material changes from the schedule of April 1, 1910, contained in the proposed schedule and the request for an increase of wages were strongly opposed by the Company, who urge that the conditions on its Railway are such as to materially relieve its employees of onerous duties which exist upon other Canadian Railways; that the wages earned as a whole are greater than upon other Railways in Canada; and that, therefore, there should be no change in the existing Schedule.

Notwithstanding the contention of the Company, I am prepared to accept the recommendation of the other members of the Board in the following:—Articles 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14 and 15 of the amended Schedule as set forth and attached to their Report, but disagree with their recommendation in Articles 1, 16 and 17 in the amended Schedule referred to, and would recommend in lieu thereof the following:—

ARTICLE 1.

“This Schedule applies to Telegraphers. A Telegrapher is defined as one who fills a position other than an official position in which ability to telegraph is a necessity.

“Nothing in this Article is to be construed as meaning that a Telegrapher is ineligible for promotion to any agency or any other position in the Company’s service, for which he may be considered fit.”

ARTICLE 16.

“These rules shall be effective on the first day of the month following their acceptance, and remain in effect for one year thereafter, and may then be terminated at the expiration of thirty days’ notice given by either party to the other.”

ARTICLE 17.

“A net increase of 10% shall be granted and added to the monthly rate on active positions, as shown in the Schedule of April 1, 1910, or an amount

SESSIONAL PAPER No. 36a

"equal to 10% of such monthly rates shall be distributed over said Schedule "as may be agreed to by the Company and a Committee representing its Telegraphers."

In support of the above recommendations, I would submit the following explanation:—

Article 1. As to Towermen and Signalmen: No evidence has been submitted which convinced me that signalmen, or towermen, whose duties do not require them to handle train orders or transmit messages, either by telephone or telegraph, and whose duties are confined exclusively to regulating the movement of trolley or steam cars crossing the tracks of the Railway, or the regulation of drawbridges permitting vessels to pass, or the operation of interlocking plants for yard purposes by mechanical appliances, should be included in the Schedule.

As to the proposed additional agencies: After carefully considering the arguments presented by both sides, I have come to the conclusion that it would not be to the interest of good railroad operation to include these Agencies in the Schedule. The Company claim that the positions are semi-official, and in a more or less degree confidential, (and as there was no evidence to the contrary), that to include these agencies would prevent the Company from advancing employees from other Departments to the positions of agents at stations named. Promotion to fill vacancies at these stations have been made from the ranks of the Telegraphers to a greater or less extent, and their omission from the Schedule I do not consider would work any material hardship to the Telegraphers as a body.

Article 16 is self explanatory. Change in date Schedule becomes effective, etc.

Article 17.—The evidence submitted not only disclosed that the present earnings of all employees covered by the Schedule of April 1, 1910, were higher than those of employees on other Railways in Canada, but that a very considerable increase in remuneration of employees has taken place since the year 1902. The average earnings for operators were shown to be for the month of October, 1902, \$45.28; for October, 1904, \$53.15; and for October, 1910, \$70.95—an increase in earnings for the operators per month of \$25.67, equivalent to an increase of 56.6 per cent over that for October, 1902.

Notwithstanding this fact, I would recommend an increase in pay to be applied and distributed as outlined in recommended Article 17, quoted above.

All of which is respectfully submitted.

(Sgd.) J. E. DUVAL.

XVIII. APPLICATION FROM MAINTENANCE-OF-WAY MEN AND PUMPMEN, MEMBERS OF THE INTERNATIONAL BROTHERHOOD OF MAINTENANCE-OF-WAY EMPLOYEES, EMPLOYED BY THE PERE MARQUETTE RAILWAY COMPANY.—BOARD ESTABLISHED.—UNANIMOUS REPORT BY BOARD.—SETTLEMENT EFFECTED.

Application received—December 29, 1911.

Parties concerned—The Pere Marquette Railway Company and maintenance of-way men and pumpmen, members of the International Brotherhood of Maintenance-of-Way Employees.

Applicants—Employees.

Nature of industry concerned—Railways.

Nature of dispute—Wages and hours; also demand for a schedule governing both the foregoing.

Number of employees affected—140.

Date of constitution of Board—January 20, 1912.

Membership of Board—Honourable Chief Justice Sir Glenholme Falconbridge, Toronto, Ont., Chairman, appointed on the joint recommendation of the other members of the Board; Honourable Wallace Nesbitt, K.C., Toronto, Ont., appointed on the recommendation of the employing Company; and Mr. J. G. O'Donoghue, Toronto, Ont., appointed on the recommendation of the employees concerned.

Report received—February 19, 1912.

Result of inquiry—A unanimous report was presented by the Board, making certain recommendations for the settlement of the dispute which were accepted by both parties concerned.

The Minister of Labour received, on February 19, the unanimous report of the Board of Conciliation and Investigation to which had been referred for adjustment certain matters in dispute between the Pere Marquette Railway Company and the maintenance-of-way men and pumpmen employed on the Buffalo Division of the road, members of the International Brotherhood of Maintenance-of-Way Employees.

The application was made on behalf of the employees concerned, and stated that the differences in question related to wages and hours and to the employees' demand that both should be embodied in a set of rules. The number of employees affected by this dispute was given as 140.

A Board was established by the Minister on January 8, and was constituted as follows: Chief Justice Glenholme Falconbridge, (Chairman), Mr. Wallace Nesbitt, K.C., and Mr. J. G. O'Donoghue, all of Toronto. Messrs. Nesbitt and O'Donoghue were appointed on recommendation of the company and employees respectively and the chairman on their joint recommendation.

SESSIONAL PAPER No. 36a

The Board met for the hearing of the parties on February 9, completing its work on the 16th of the same month. A set of rules and rates of pay was drawn up by the Board and was accepted by both parties to the dispute, an amicable settlement of all matters at issue being thereby reached.

The Department received from the Pere Marquette Railroad Company on March 6 a printed circular relative to the rules and rates of pay governing the employment of its section foreman and section men in Canada, effective from March 1, 1912. The rules and rates of pay in this circular are identical with those recommended by the Board of Conciliation and Investigation.

Report of Board.

The text of the findings of the Board of Conciliation and Investigation in this matter is as follows:

In the matter of the Industrial Disputes Investigation Act, 1907, and of dispute between the Pere Marquette Railway Company and its Maintenance-of-Way Employees,

We, The Honourable Sir Glenholme Falconbridge, Kt., The Honourable Wallace Nesbitt, K.C., and J. G. O'Donoghue, Esq., all of Toronto, the members of the Board appointed in the above matter, hereby report that the Board met for the hearing of the parties on the 9th day of February, 1912, and was engaged in conference with the parties on the 10th February and the 12th February and again met on the 16th February, 1912.

We beg to report that after hearing the parties and discussing the matter fully and after conference with both, it has been agreed that the following schedule of wages shall be paid:—

3 GEORGE V., A. 1913

SCHEDULE OF SECTION MEN ON THE L. E. & D. R. AND L. & P. S. LINES.

			2	62.50	-16½

The pump men are each to be paid the sum of \$40 per month.

The hours shall be ten hours per day.

It was further agreed that the Superintendent of the Pere Marquette Railway Company in Canada should promulgate a set of rules governing the trackmen in Canada, as follows:

SESSIONAL PAPER No. 36a

RULES AND RATES OF PAY, PERE MARQUETTE RY.

The following rules and rates of pay will govern the service of "Permanent Maintenance-of-Way Employees" on the Buffalo Division of the Pere Marquette Railway.

Sec. 1.—By "Permanent Maintenance of Way Employees" is meant employees who take their orders from the Roadmasters and Bridge and Building Master on such parts of the line as are open for traffic, and who have been in the Maintenance-of-Way service continuously for one year or more, or who have had one year cumulative service during the three years immediately preceding and same will hereafter be referred to as "Employees." Labourers in extra gangs unless those practically engaged all the year round will not be ranked as Permanent Employees.

Sec. 2.—Ten hours shall constitute a day's work excepting for Pumpmen. Twelve hours either continuous or intermittent shall constitute a day for a Pumpman.

Sec. 3. Section Foremen and Sectionmen travelling on orders of the Company to and from work after regular hours outside of their regular sections will be allowed straight time.

Sec. 4.—In computing time one hour will be allowed for 30 to 60 minutes; for less than 30 minutes no allowance will be made.

Sec. 5.—Employees will be promoted hereafter on the Buffalo Division in order of seniority provided they are qualified such qualification to be solely in the judgment of the Division Engineer.

(a) Employees refusing promotion become junior to employees accepting such promotion.

(b) Employees unable to read or write English need not be promoted.

(c) In the event of reduction in the number of men employed, those longest in the service shall have preference of employment, provided they are qualified in the judgment of the Division Engineer.

Sec. 6.—Employees suspended or dismissed or who consider that they have been unjustly treated will receive full and impartial hearings, and will be advised of decision reached within fifteen days of such hearing. Should investigation show suspension, dismissal, or treatment unjust, full time will be allowed and employee reinstated. Appeals from decisions must be made in writing through his roadmaster within fifteen days after being advised of such decision.

Sec. 7.—Employees taken off their regular sections temporarily to work on snow or tie trains or other work will be compensated for board and lodging expenses they necessarily incur.

Sec. 8.—The Company will keep Company's section houses in good repair; the cost of repairs other than ordinary wear and tear will be charged to the occupants.

Sec. 9.—Employees in the service over six months will be granted free pass three times a year to any point on the Buffalo Division and one pass a year over the entire system.

(a) Quarterly passes will be issued to employees living at flag stations and outside sections for marketing purposes.

(b) Half rate will be granted on household goods of employees when moving and remaining in the Company's service; when moved under agreement with or on the Company's orders, household goods will be carried free and free transportation for wife and family.

These rules will not take away any of the privileges that are now in effect with the employees. They will become effective and will remain in force until either party desiring a change gives the other party sixty days' notice.

We are very happy to report that the men after considerable discussion expressed themselves as thoroughly satisfied with the above arrangement in view of the conditions prevailing upon the railway, and that on the solicitation of the Board the Railway yielded to the payment of the above schedule of wages.

Dated this 16th day of February, 191

(Sgd.) GLENHOLME FALCONBRIDGE,
Chairman.

(Sgd.) WALLACE NESBITT,
For Ry. Co'y.

(Sgd.) J. G. O'DONOGHUE,
For the Men.

XIX. APPLICATION FROM THE RAILROAD FREIGHT HANDLERS AND RAILWAY CLERKS, MEMBERS OF WINNIPEG DIVISION NO. 177 BROTHERHOOD OF RAILROAD FREIGHT HANDLERS AND RAILWAY CLERKS, EMPLOYED BY THE CANADIAN PACIFIC RAILWAY COMPANY AT WINNIPEG, MAN.—PROCEEDINGS UNFINISHED.

Application received—March 11, 1912.

Parties concerned—The Canadian Pacific Railway Company and railroad freight handlers and railway clerks, members of Winnipeg Division No. 177, Brotherhood of Railroad Freight Handlers and Railway Clerks, employed at Winnipeg, Man.

Applicants—Employees.

Nature of industry concerned—Railways.

Nature of dispute—Alleged discrimination against members of the Union.

Number of employees affected—Directly, 220; indirectly, 230.

A Board was established in this matter on March 18, Messrs. Charles P. Fullerton and Thos. J. Murray, both of Winnipeg, Man., being appointed members thereof, the former by the Minister in the absence of any recommendation from the employing Company, and the latter on the recommendation of the employees concerned. On March 31, 1912, the Board had not been completed by the appointment of a Chairman.

CASES WHERE PROCEEDINGS WERE UNFINISHED AT THE CLOSE OF THE FINANCIAL YEAR.

In addition to the applications received and disposed of prior to the close of the financial year, the following applications have been received, concerning which proceedings were still pending on March 31, 1912:—

1. An application from the employees of the Montreal Street Railway Company, the number of employees concerned being estimated at 30 directly and 1,970 indirectly.

2. An application from the railroad freight handlers and railway clerks employed by the Canadian Pacific Railway Company at Winnipeg, Man., the number of employees concerned being estimated as 220 directly and 230 indirectly.
