## REPORT OF THE DEPUTY MINISTER.

The Honourable Sir George E. Foster, K.C.M.G., B.A, D.C.L., LL.D., M.P., Minister of Trade and Commerce, Ottawa.

SIR :-I have the honour to submit herewith the Twenty-second Annual Report of the Department of Trade and Commerce of Canada for the Fiseal Year ended Narch 31, 1914.

During the Fiscal Year 1914 the total trade of Canada, as was anticipated in my last Annual Report, exc-eded that of any previous fiseal year, the actual figures being 81,129,744,725, showing an increase over the year 1913 of $844,4-0,276$. During the same period the total imports were valued at $8650,746,797$, or 841,285595 less than in 1913 , but $\$ 91,426,253$ greater than for the vear 1910 , while the exports show an increase in valuation of $885,665,871$ over the year 1913 , and of $\$ 163,650,678$ over the year 1912. The total exports from Cinada in 1914 wre valued at $847,997,928$.

For several years, in presenting the Annual Report of this Department, it has been my privilese to make exceedingly optimistic observations as to the probable increase in the total trade for the ensuing year. In every case the increase each year has exceeded the most sanguine expectation. 'This year, however, iu view of the European War and the unprecedented disturbance in trade thronghout the wrld resulting therefrom, it is not possible to reach any conclusions as to future possible trade expansion, other than to observe that from the latest information available it would appear that the imports into Canada for the fiscal ye 1915 will show a considerable decrease notwithstanding the very large increase in the imports of coin and bullion (see page ix) compared with 1914 , but that the exports for 19 t 5 will probably equal if not excced the record figures of last year.

A statement will be fond on page viii which demonstrates the position Canada occupies among the principal countries of the world regarding the perecntage of inerease in total trade duing the decude 1904 to 1914, while on page ix will be found a statement showing the imports, exports and total trade of Canada for the monthe, seven months and twelve montls ended Octoher 31, 1912, 1913 and 1914, from which it will be observed that the total trade of Canada for the twelve months ending October 1914, shows a decrease, compared with 1913, but that the decrease is confined wholly to inports.

It might be of interest to point out for the information of the manufacturers and exporters of Canada that, as a result of the struggle on the continent of Europe, the export trade of Germeny and Austria-Hnngary which constituted almost 15 p c. of the total export trade wi the world, or 20 p . c. of the export trade of a'l except Britist Countries, has practically ceaved.

The Departm nt has issucd considerable information from lime to time in the Weekly Report relative to tho German Export Trade, which has since been reprinted in a special solume known as "The German War and Its Relation to Canadian Trade," copies of which may be had free of charge on application to the Department.

I have the honour to be, Sir,
Your obedient servant,
F. C. T. U'HARA,

Deputy Minister.

Angles, bearas, channels, gird. ers, tees and other rolled shapes or sections, not punched, drilled or further manufactured than colled, N.O.P.Cwt.
2 Anvils and vises.
Axles and axle parts, N.O.Y. and axle blanks and parts thereof, for railway, tram. way or other velicles. . .... Cwt.
Calls, steel, adapted fur nse on bearings of machinery or vehicles.
Bars, bands, hool, scroll or strip, sheet or plate, rolled iron or steel and cast steel, of any size, thickness or wilth, galvanized or coated with any material or not, and steel blanks for the manufacture of milling cutters, when of greater value than $3 \frac{1}{2}$ cts. per lb er iteel, rolled, whether in coils, bundles, rods or bars, comprising rounds, ovals, squares and flats, N.O 1'..."
Bars or sheets of steul for use in the manufacture of shovels
Bayonets, swords, fencing foils and masks.
Billets of iron or steel, weighing not less than 60 lbs. per lineal vard el -O Cwt.
Billets of stee], N.O.P......
Bridges or parts thereof : stractural work, columns, shapes or sections, drilled, punched or in any further stage of manufacture than as rolled or cast, N.O.P.
Bridges and tunnels crossing the boundary, materials to he used in Canada in the construction of.
Butts and hinges, N.O.P
Cart or wagon skeins or boxes. Lbs.
Castings, malleable irun
Castings, N.O.P
Cast scrap iron or steel. . ........ Tons
Chains, coil chains, chain links and chain shackles, of iron or steel, $\frac{5}{10}$ of an inch in diam, and over......Cwt,
Chain, malleable sprocket or link belting
Chains, N.O.P
1913.
