REPORT OF THE BOARD OF GRAIN EXAMINERS FOR THE WESTERN DIVISION.

WINNIPEG, April 17, 1916.

Board of Grain Commissioners for Canada:

DEAR SIRs:—I beg to inform you that, in accordance with your instructions, the Board of Examiners held an examination at Fort William of twenty-eight applicants for certificates of qualification to act as Inspectors and Deputy Inspectors of grain; the examination being held from April 4 to 6, inclusive.

Messrs. S. Spink, W. L. Parrish, G. V. Hastings and Geo. Serls, Chief Grain Inspector, conducted the examination, Messrs. W. L. Parrish and Geo. Serls attending at Fort William.

The examination was based on 102 samples of various grades and descriptions of grain, three marks being allowed for each correct answer to these questions, so that the maximum marks obtainable were 306, of which the Board decided 225 marks must be obtained by the candidate to secure a deputy inspector's certificate, and 255 marks to secure an inspector's certificate.

Twenty-eight candidates presented themselves for examination, of whom three qualified to receive an inspector's certificate and fourteen qualified to receive a deputy inspector's certificate.

I give you below the names of the candidates who successfully passed the examination:

COPY OF MINUTES OF WESTERN GRAIN STANDARDS BOARD MEETING.

WINNIPEG, October 2, 1916.

Board of Grain Commissioners for Canada.

DEAR SIR,—I beg to give the following report as to the proceedings at the annual meeting of the Western Grain Standards Board held in Winnipeg on the 28th September last:

President, Hon. W. R. Motherwell, M. McLaughlin, C. Johnson, W. F. Sirrett, C. B. Watts, W. H. Fairfield, K. Campbell, Wm. Lothian, J. W. Seallion, D. W. McCuaig, Peter Ferguson, H. J. Phin, J. I. McFarland, Wm. Carson, W. A. Matheson, A. R. Hargraft, James Riddell and C. N. Bell, Secretary.

In the absence of Mr. G. R. Crowe, Chairman, the meeting elected Hon. W. R. Motherwell to act as chairman.

Resolutions of sympathy were ordered to be sent to the families of the late Messrs. S. Spink, S. A. McGaw, George McCulloch and Senator Finley Young, all of whom died during the past year.

By resolution it was determined that last year's commercial standards for Nos. 4, 5 and 6 wheat be continued and that in the absence of sufficient samples from which to assemble quantities of these grades to be used as standard samples for distribution, such necessary samples be selected by a Committee which the Board appointed under the provisions of Section 88 of The Canada Grain Act.

The Board then selected and approved of commercial grades (in addition to the above) as follows:—

No. 4	Special	Minimum	Weight	54	pounds.
No. 5	"	"	"	51	"

No. 6 special minimum weight, 48 pounds. These commercial grades were established to meet the production of large quantities of grain shriveled during growth by rust, etc.

SESSIONAL PAPER No. 10d

The Board established the following further commercial grades, viz.:—

“Feed Barley” shall include all damaged barley weighing less than 42 pounds to the bushel, in the discretion of the Inspector.

All wheat not fit to be graded as No. 6 shall be graded “Feed” in the discretion of the Inspector.

C. N. BELL,
Secretary.

The Eastern Grain Standards Board did not meet during the year ended August 31, 1916.

PART III.—GRAIN SURVEY BOARDS.

REPORT OF THE MONTREAL SURVEY BOARD.

During the year 1st of September, 1915, to 31st of August, 1916, the Montreal Survey Board was not called upon to hold any surveys.

SESSIONAL PAPER No. 10d

CHAPTER II.

REPORT OF THE CHIEF INSPECTOR, GEO. SERLS.

To the Board of Grain Commissioners:

GENTLEMEN,—As Chief Inspector I herewith enclose my annual report for the crop year 1915-16.

WESTERN DIVISION.

This crop (1915) was the largest ever handled by the inspection staff, in fact, nearly double that of any previous crop. The total number of cars inspected being 354,039 against 122,832 for the crop year 1914-15.

As the harvest was later than the year previous, the heavy movement of grain did not start until the middle of September. It then came with a rush and continued up to the end of August. This necessitated the keeping of a large staff all the year.

The quality of the crop was good, 80 per cent of it grading into the contract grades.

EASTERN DIVISION.

In the eastern division the amount of work done was slightly in excess of the year previous, and under the careful supervision of Inspector A. A. Bowen, the deficit has been reduced considerably.

CHAPTER III.

REPORT OF THE REGISTRAR.—GEO. SERLS.

To the Board of Grain Commissioners:

GENTLEMEN,—As Chief Registrar I herewith submit my annual report on the work done by this department for the crop year 1915-16.

Owing to the exceptionally large crop, the work of this Branch was greatly in excess of all previous years.

The office staff at Winnipeg and Fort William were taxed to their limit to avoid delay in returning the registered warehouse receipts to the terminal elevator companies.

The totals for the year were registered 378,066,848 bushels, cancelled 367,484,316 against 110,534,871 bushels registered and 113,108,461 bushels cancelled for the crop year 1914-15.

The total bushels of each kind of grain registered and cancelled including the Canadian Government terminal elevators were:—

Registered wheat.....	284,878,452
" oats.....	76,919,110
" barley.....	9,823,803
" flax.....	5,380,877
Mixed grain.....	1,048,841
rye.....	15,704
Cancelled wheat.....	278,983,924
" oats.....	72,816,407
" barley.....	9,556,792
" flax.....	5,394,379
Mixed grain.....	717,991
rye.....	14,823

Owing to the stocks in the terminal elevators being so large on July 31, and the receipts unusually heavy for that time of the year, it seemed almost impossible that a weigh-up would be attempted. Therefore the usual statements of outstanding warehouse receipts of the different terminal elevator companies on July 31, were not prepared.

However conditions changed the latter part of August and the weigh-up started. Statements are being prepared as they are asked for by the Chief Weighmaster's staff.

SESSIONAL PAPER No. 10d

CHAPTER IV.

REPORT OF THE CHIEF WEIGHMASTER.—J. G. WHITE.

To the Board of Grain Commissioners:

GENTLEMEN,—Herewith I beg to submit my report for the year ending August 31, 1916.

SCALES.

There are in the elevators at Fort William and Port Arthur 166 scales, an increase of 10 over last year.

During the year the Mutual Elevator Company erected a 500,000 bushel house installing (3) 60 ton hopper scales. The N. M. Paterson Company, and Davidson and Smith's also increased their storage and each added a 60 ton scale to their equipment, and (5) platform scales were brought under my inspection.

There are at the Government Interior Terminals at Moosejaw, Saskatoon, and Calgary, (18) 60 ton hopper, (6) automatic, and (5) platform scales, and at the Vancouver terminal (3) 60 ton hopper, and (3) 5 ton automatic shipping scales, and (4) automatic bagging scales, making a total of (205) scales, an increase of (23) over last year under my supervision, and subject to my inspection.

(See detailed statement attached).

SCALE INSPECTION.

The above scales, with the exception of Vancouver inspected once, have all been subjected to a rigid inspection twice during the crop year of 1915-16, one inspection before the opening of navigation, and one before the movement of the new crop.

One of these inspections was carried out officially as Inspector of Weights and Measures for the Department of Inland Revenue, and for this inspection, certificates of verification were issued, and fees covering inspection were collected and remitted to the proper officers as follows:—

For Fort William and Port Arthur to R. McKay, Winnipeg.	\$ 845 75
" Moosejaw to D. J. McLean, Regina.	37 80
" Saskatoon to C. W. Johnston, Saskatoon.	37 20
" Calgary to J. W. Costello, Calgary.	37 80
" Vancouver to J. J. Dutton, Vancouver.	78 20
Making total collections of.	<u>\$1,036 75</u>

The above is the Annual inspection as provided for by regulation (13) of the Weights and Measures Act.

In addition to the Annual inspection, I have, as Chief Weighmaster for the Board, made a second inspection during the year of all Scales in the Elevators under my jurisdiction both at Fort William, Port Arthur, and the Government Interior Terminals. For this inspection there was no charge, it being made to insure the continued accuracy of the Scales. There was also a large number of special tests made where the accuracy of weights was questioned.

7 GEORGE V, A. 1917

SCALE REPAIRS.

A Scale Mechanic is still in the employ of the Elevator Companies at Fort William and Port Arthur, enabling me to keep all Scales accurate and in first class condition. The constant handling in removing the hand weights after each draft causes more or less wear on the weights, and arrangements are under way with the Elevator Companies to furnish the mechanic with a testing Scale, so that the weights may be tested more frequently. Any adjustments or alterations are made under my supervision, and the scales are fully tested before being allowed into use.

EASTERN SCALE INSPECTION.

The Inspection of Scales in the Elevators at the Bay Ports and Eastern Terminals is made semi-annually by Mr. A. A. Bowen, Inspector and Weighmaster for the Eastern Division, with headquarters at Montreal, who forwards to the Chief Weighmaster's Office for the information of the Board, a monthly report of all scales inspected or rejected by him, and an annual report covering all his inspections for the year.

WEIGHING STAFF.

The number of employees on the Weighing Staff on September 1, 1915, was:

Port Arthur and Fort William.. . . .	56
Increased during fall rush.. . . .	42
Total.. . . .	98
Laid off at close of navigation.. . . .	29
	69
Re-engaged, May, 1916.. . . .	21

At Edmonton.. . . .	1
At Vancouver.. . . .	2
Total.. . . .	115

The salaries of 10 weighmen at Western points are guaranteed by the Firms for whom the weighing is done.

Owing to the exceptionally heavy crop some of the Elevators were operated day and night, and extra men had to be added to the Weighing Staff to keep up with the work.

Since the commencement of the war (11) weighmen at the Head of the Lakes applied for and were granted leave of absence to enlist for active service. Most of them have been on the fighting line; (2) have been killed in action, and (3) are now in hospital from wounds.

A number of returned soldiers have been given employment on the staff.

SESSIONAL PAPER No. 10d

WEIGHING.

Receiving from cars :

During the crop year ending August 31, 1916, there has been weighed into the Fort William and Port Arthur Elevators 265,436 ears of grain from the West, approximating 354,705,000 bushels, not including transfer cars.

WEIGHING TO VESSELS.

From September 1, 1915, to August 31, 1916, there was weighed to vessels 1,849 cargoes, amounting to 330,563,660 bushels of all grades, 12,458,833 pounds of mixed grain, and 74,325 tons of Elevator screenings. The above does not include shipment by cars, details of which will be found in the report of the Statistician, but it is safe to say that over 700 million bushels were weighed at the Head of the Lakes during the last crop year.

LEAKING CARS.

The number of cars reported leaking on arrival at the Elevators for the year is shown by the following statement :

In all the above cases the shipper was promptly notified, which not only enabled him to obtain settlement, but also prevented these complaints of shortage being sent to the Chief Weighmaster for investigation.

In answer to requests from shippers, line Elevator Companies, Railways, and Grain Brokers, many thousands of reports on the condition of cars upon arrival, have been sent out involving almost continuous work of a clerk for this purpose.

SHORTAGES—VESSELS.

Of the year's shipments by vessels there was carried to American ports, 192,588,364 bushels; and to Canadian ports, 137,975,296 bushels.

The shortages reported on the out-turns of cargoes to American ports are much greater than the shortages reported on out-turns to Canadian ports.

These cargoes in both cases were weighed and loaded under close state supervision, with all spouts from scales locked on shipping bins and the keys in the possession of Government officials who are held responsible, not only for accurate weighing, but also for the delivery of the grain from the shipping bins to the vessel, and who promptly report any spill or accident that may occur during loading.

At destination these cargoes were weighed into the unloading elevators by the companies own weighmen, who frequently work long hours at top speed, and in most cases without check or supervision, and it is upon out-turns thus obtained that the reports of shortages are based.

Comparing the two systems it would appear that weights obtained under State supervision should be taken in preference to weights at unloading houses obtained as above noted.

There has been many complaints of shortages received. These together with all out-turns showing a shortage, beyond the natural shrinkage have been investigated, and in most cases it was found that the weights were correct, and that the vessels had received the proper amount of grain.

Three cases of shortages were accounted for by spills from the loading spouts, and settlement was made for 735 bushels of wheat covering these shortages.

SHORTAGES—CARS.

There were 265,436 cars unloaded at the lake terminals during the year, not including transfer cars. The percentage of complaints have been less than in previous years owing to a closer watch being kept for leaking cars, and the shipper being notified.

SESSIONAL PAPER No. 10d

All complaints received have been investigated and reported on. There were (14) adjustments secured amounting to 1,250 bushels, and adjustments of over 3,500 bushels made on cars mixed at unloading. A number of shippers were advised that carriers were responsible. There were many claims where the responsibility could not be placed, as the elevators gave credit for all the grain in the cars at unloading, and shortages may have been due to cars leaking and co-operated while in transit, and a great number of complaints of shortages were based on estimates of the amount the car should contain without the grain having been weighed, and investigation showed no grounds for the claim.

There is still considerable pilfering from the cars in the yards notwithstanding the efforts of the railways to suppress it.

The sweeping of cars carried out last season was discontinued, the amount of grain recovered not being sufficient to warrant the expense of keeping it up.

ANNUAL WEIGH-UP.

By direction of the Board, and in accordance with the provision of the Grain Act, the annual weigh-up, or audit of all grain in store in the terminal elevators at Port Arthur, and Fort William (excepting Ogilvie's) was carried out commencing on August 23, and finishing on October 13. The work was done by competent men selected from the weighing staff, under the immediate supervision of the chief, and assistant weighmasters, all the grain in the elevators being carefully weighed and transferred, and a true record of the weights so obtained at each elevator was forwarded to the Board. Owing to the exceptionally large amount of grain in store, and the great number of different grades, the work involved the weighing and handling of over ten million bushels, working most of the time from 7 a.m. to 10 p.m. Sundays included.

The grain in Ogilvie's elevator was not audited on account of there being over a million bushels in store, and only (2) scales of small capacity on which it could be weighed, and as in auditing this house it is necessary to elevate the grain twice, it was found impossible to carry out the weigh-up, as the men employed on this work were required to take care of the new crop arriving.

The Annual Inspection of Scales, and the weigh-up in the Government Interior Elevators at Moosejaw, Saskatoon, and Calgary, was done under my supervision commencing September 22 and finished October 2, and the records of the Audit were forwarded to the Board.

ORGANIZATION.

The Weighing Staff has been thoroughly organized.

In each Terminal there is a receiving weighman who has charge of the weighing of all cars taken in, and who issues Certificates of weight for the same. There is also a shipping weighman who has charge of the weighing of all grain shipped out, and in the larger houses where it is impossible for him to look after the weighing, and the grain in transit from the scales to the vessels, assistants have been put on whose duty is to check, and lock all spouts on the proper shipping bins, to be responsible for the sounding and clearing of all shipping bins, and to assist the weighmen in shaking out the scales between drafts, and to send in a special report on the loading of each cargo.

On the completion of a shipment, the weights of the Government Weighman and the Company's Weighman, are checked against each other, and with the scale tickets punched for each draft, after which the Government weights and the scale tickets are at once sent in to the Chief Weighmaster's Office, where the drafts and additions are again checked and compared with the punched tickets before certificates of weight for the cargo are issued.

The system and method of checking all work is complete. My assistant, Mr. Hollinshead, spends all his time in the Elevators, supervising the work of the men and instructing them in their duties. Every precaution is being taken to get correct weights.

CHAPTER V.

REPORT OF LICENSING AND BONDING FOR THE CROP YEAR 1915-16.

In accordance with the provisions of law, 3422 applications for licenses were received by this branch during the season ending August 31, 1916, an increase of 460 over the previous season. A gross revenue of \$18,115 was received in this connection, but this sum was reduced to \$17,990, as license fees to the extent of \$125 were refunded on account of eighteen applications having been withdrawn before licenses had been issued.

The following statement shows the revenue received from license fees during the last eight years:—

(B) LOADING PLATFORMS.

During the year 1915 the Board received a considerable number of petitions for the erection and extension of grain loading platforms. As a result, however, of war conditions, shortage of labour and light crops in many districts, the Board had to refuse many applications.

Orders were issued for the erection of grain loading platforms at the following points:—

SESSIONAL PAPER No. 10d

(C) TEMPORARY AGENTS AT FLAG STATIONS.

Under section 195 of The Canada Grain Act, the Board is empowered to order the railway to provide temporary agents at flag stations, whose duties are enumerated hereunder.

(1) To keep open for the use of shippers at all times during the day a car order book, as provided under this part, in which orders for cars may be entered, in accordance with the provisions of this part.

(2) When loading of cars is completed, to seal such car or cars.

(3) To provide shippers with the regular form of grain shipping bill, and

(4) When such grain shipping bill is properly filled out by the shipper, to hand it to the conductor of the train that picks up such car or cars, or place it where such conductor may get it.

Seventeen applications for the appointment of temporary agents were received by the Board during the crop year 1915-16, and by virtue of the above provision of law the railway companies were instructed to appoint temporary agents at the following points:—

(D) CARS OUT OF TURN.

By virtue of section 207 of the Canada Grain Act, the Board is accorded certain discretionary powers in connection with the supplying of cars for the shipment of grain at country points.

During the crop year 1915-16 the Board ordered 3,450 cars to be supplied out of turn for the relief of elevators in danger of collapse, for the shipment of seed grain and for grain in danger of deterioration, owing to climatic conditions and insufficient storage accommodation on the farms and at country points.

In addition to these, several hundred cars were ordered out of turn by travelling inspectors in the employ of the Board. Many applications were delivered by applicants direct to our inspectors and all deserving cases were relieved.

(E) COMPLAINTS.

During the crop year 1915-16 the Board dealt with 552 complaints as follows:—

<i>Re</i> Inspection and grading of grain.. . . .	51
Weighing of grain ex western points.. . . .	34
Shipments ex country elevators.. . . .	166
Sales of grain.. . . .	202
Sales of grain (future delivery).. . . .	52

(F) DEFAULTS.

1.—*D. C. McDonald, Russell, Man.*

Mr. McDonald was licensed and bonded to operate as a track buyer and country warehouseman at Russell, Man., during the season 1914-15. The amount of the track buyer's bond was \$5,000 while that of the country warehouse bond was \$6,600, the sureties in each case being the Employers' Liability Assurance Corporation, Limited, of London, England.

Claims to the extent of approximately \$10,000 were filed by six parties against the country warehouse bond. The Board fully investigated the various claims at a public session and on June 12, 1916, issued the following ruling:—

Evidence was adduced which showed clearly that the transactions involved did not come within the scope of a track buyer's bond. The evidence submitted indicated that the transactions were sales, with the price not fixed. Storage tickets were issued in accordance with The Canada Grain Act, and the grain was sold at a fixed price but no cash tickets were issued.

The question arises as to whether a transaction of this nature comes within the scope of a country elevator bond. This bond is to guarantee that the maker thereof will act as warehouseman in accordance with The Canada Grain Act.

The transactions in question were not in the opinion of the Board in accordance with the duties assigned to warehousemen under The Canada Grain Act; and therefore, the bond is not applicable.

Further claims against Mr. McDonald have since been received but it has not yet been determined whether they come under the bonds.

2.—*Charles E. Tainter, Taber, Alberta.*

Mr. Tainter was licensed and bonded to operate as a track buyer of grain during the season 1915-16.

His bond which was for the sum of five thousand dollars (\$5,000) was completed by the London Guarantee and Accident Co., Limited, of London, England.

It was on March 27, 1916, that the Board heard of the first claim, the surety company also being notified on that date that there was likely to be a default. In the meantime the Board, through one of its travelling inspectors, instituted inquiries regarding the operations of Mr. Tainter and thereby ascertained that outstanding accounts to the extent of \$10,000 were owing farmers in connection with track deals.

By arrangement with the various creditors, Mr. Tainter and the firm of Randall, Gee and Mitchell, Limited, of Winnipeg, the last mentioned agreed to settle the claims in twelve monthly payments. It was, therefor, unnecessary to further proceed against the surety company, under the bond.

3.—*E. E. T. Hinchliffe, Strassburg, Sask.*

Mr. Hinchliffe was licensed and bonded to operate at Strassburg, Sask., during the crop year 1915-16 as a country warehouseman and track buyer. His bonds which amounted to as track buyer \$7,500 and as country elevator warehouseman \$6,600 were completed by the Globe Indemnity Company of Canada.

A total of thirty-three claims were filed against the bonds and these were investigated by the Board at a public session held at Strassburg, Sask., on Wednesday, June 28, 1916.

After giving due consideration to the evidence and arguments adduced at that session, the Board issued the following ruling:—

Hinchliffe did not carry out his duties either as country elevator warehouseman or as a track buyer, in accordance with The Canada Grain Act, and therefore, the bonding company is liable.

SESSIONAL PAPER No. 10d

It is the opinion of the Board that the Globe Indemnity Company is liable for the whole amount of the country warehouseman's bond given to Hinchliffe, the amount being \$6,600, and that the said company is liable for at least part of the track buyer's bond.

With regard to the distribution of these amounts among individual claimants, full information has not yet been secured in some of the cases. Upon the receipt of information in such cases, the Board will give their opinion as to the distribution of the amounts.

IV.—B. C. Rogers, Ponteix, Sask.

Mr. Rogers was licensed as a track buyer of grain during the crop year 1915-16 and furnished the Board with a bond for \$5,000 signed in conjunction with the Employers' Liability Assurance Corporation, Ltd., of London, England, covering his operations as such.

On August 17, 1916, the Board received notice from ten parties for whom Mr. Rogers had been handling grain, that they had not received settlement and that Mr. Rogers had left town. The Board immediately took the matter in hand, called a public session at Ponteix on September 26, 1916, in order to fully investigate the various claims. At this session it was ascertained that most of the grain had been shipped by Mr. Rogers to the Spencer Grain Company, Ltd., of Winnipeg, also that the grain was handled through flat warehouses owned and operated by Mr. Rogers, and was not, as a matter of fact, bought on track. No evidence was adduced by any of the claimants to show that their grain was delivered or sold on track, consequently the Board is not yet in a position to make demand on the surety company for payment of any claims under the bond.

The Board has the case still under consideration, and is fully investigating the connection of the Spencer Grain Company, Limited, in the various transactions. Their decision therefore, will not be issued until such investigations have been completed.

5. Continental Grain Company, Limited, Winnipeg, Man.

This company operated as track buyers and commission merchants during the crop year 1915-16, and were licensed to operate as such. Their bonds which aggregated \$42,000 were completed by the Employers' Liability Assurance Corporation, Limited, of London, England.

The first intimation that this company was unable to meet its obligations was received by the Board on September 22, 1916. On that date Messrs. Fisher, Wilson, Batttrum and Hamilton, barristers, etc., of Winnipeg, Man., telegraphed the Board that William Broadbent & Sons were unable to collect a balance of \$6,727.47 due to them on consigned cars. Since then fourteen other claims have been received, eleven of which have been admitted by the surety company, and will likely be settled for in full at an early date.

The claims which have been approved and verified are those of:—

W. Wilson.. . . .	\$ 1,136 36
W. Innes.. . . .	1,227 49
J. J. Thiessen.. . . .	1,280 45
C. D. Lowen.. . . .	1,419 49
H. K. Friessen.. . . .	1,179 89
J. Fritchard.. . . .	1,213 36
Grenfell Milling Co.. . . .	745 99
Fred. Zubks.. . . .	810 02
J. Beattie.. . . .	1,266 11
W. Broadbent & Sons.. . . .	6,727 47
E. Dahms.. . . .	976 19
Total.. . . .	<hr/> \$17,982 82

The balance of the claims namely those of the Rathwell Farmers' Elevator Company, Ltd., C. E. Anderson & Company, Chippenfield and Richardson and the Acme Grain Company, Ltd., are still under investigation.

CHAPTER VI.

ELEVATOR TARIFFS.

FORT WILLIAM AND PORT ARTHUR—TARIFF OF PUBLIC TERMINAL
ELEVATOR CHARGES

FOR THE YEAR ENDING SEPTEMBER 1, 1917. EFFECTIVE 1ST SEPTEMBER, 1916.

Subject to the capacity of the elevator and the nature of its equipment, shipments will be received upon the following terms and conditions and under the provisions of The Canada Grain Act, 1912:—

RATES.

Elevation, not otherwise specified; receiving, elevating, cleaning, spouting, insurance against fire and storage for the first fifteen days—three-quarters of one cent ($\frac{3}{4}$ c.) per bushel.

Storage, not otherwise specified, including insurance against fire, for each succeeding day or part thereof, after the first fifteen days—one-thirtieth of one cent ($\frac{1}{30}$ c.) per bushel.

On grain carrying a return of other grain of commercial value, for first separation, computed on gross weight of car, an additional charge of one cent (1c.) per bushel.

For each subsequent separation, computed on balance for separation, a further charge of one cent (1c.) per bushel.

On mixed grains handled as mixtures; receiving, elevating, spouting, insurance against fire and storage for the first fifteen days—one and one-half cents ($1\frac{1}{2}$ c.) per bushel.

On mixed grains handled as mixtures; storage, including insurance against fire, for each succeeding day or part thereof, after the first fifteen days—two-thirtieths of one cent ($\frac{2}{30}$ c.) per hundred pounds.

On wheat carrying a return of screenings—an additional cleaning charge of one-half of one cent ($\frac{1}{2}$ c.) per bushel.

On tough grain, drying—one and one-half ($1\frac{1}{2}$ c.) per bushel.

On damp or wet grain, drying—four cents (4c.) per bushel.

On screenings: elevating, spouting, insurance against fire, and storage for the first fifteen days—two cents (2c.) per hundred pounds.

On screenings: storage, including insurance against fire, for each succeeding day or part thereof after the first fifteen days—one-tenth of one cent ($\frac{1}{10}$ c.) per hundred pounds.

On bulkheads, for their removal and other additional expense in handling and unloading car—three dollars (\$3) for each bulkhead.

For preparing cars for flax shipments—two dollars (\$2) for each car.

SESSIONAL PAPER No. 10d

Unspecified grain will only be received, stored and treated subject to special charges to be agreed upon at the time, subject to the approval of the Board of Grain Commissioners.

All charges for cleaning, drying, or other treatment will be computed on gross weights; for elevation and storage, on net weights. All charges accruing after issue of initial completed outturn and expense bill will follow the grain. All charges whatsoever must be paid before shipment.

Wheat Screenings.

On wheat carrying a dockage of five per cent (5%) or more, after deducting one and one-half per cent ($1\frac{1}{2}\%$) of the gross weight for waste, a return will be made for the balance of the screenings. No other returns for screenings will be made.

If disposition of screenings covered by outstanding returns is not received within thirty (30) days from date of unload they may be disposed of for account of whom it may concern.

No Grade and Condemned Grain.

All tough, damp, wet, condemned, heating, heated or fireburnt grain may always be refused. If received and stored it will be only under special contract and will always be at the owner's risk of deterioration.

Allowance for Invisible Loss and Shrinkage.

On all grain received deduction from the gross weight to cover invisible loss and shrinkage in handling will be made as follows:—

On wheat.. . . .	30 lb. per car.
On flax.. . . .	28 "
On oats.. . . .	50 "
On barley.. . . .	50 "

Wheat Screenings.

15. *On wheat* carrying a dockage of five per cent (5%) or more, after deducting one per cent (1%) of the gross weight for waste, a return will be made for the balance of the screenings, by paying one-half cent ($\frac{1}{2}$ c.) per bushel for cleaning. No other return for screenings will be made.

16. *If disposition* of screenings covered by outstanding returns is not received within thirty (30) days from date of unload, they may be disposed of for account of whom it may concern.

No Grade and Condemned Grain.

17. *All tough*, damp, wet, condemned, heating, heated or fireburnt grain will be received for treatment. If not treated it will always be at owner's risk of deterioration.

General.

Grain shipped from any of the Canadian Government interior terminal elevators, will be transferred through the Canadian Government elevator, Port Arthur, to steamers for one-half of one cent ($\frac{1}{2}$ c.) per bushel, including ten days' free storage.

Approved by Board of Grain Commissioners for Canada, Fort William, Ontario, September 18, 1915.

SESSIONAL PAPER No. 10d

COUNTRY ELEVATORS.

TARIFF OF LICENSED COUNTRY ELEVATOR CHARGES.

FOR THE YEAR ENDING 31ST AUGUST, 1917. EFFECTIVE 1ST SEPTEMBER, 1916.

Subject to the capacity of the elevator and the nature of the construction, all grain tendered must be taken into store upon the following terms and conditions, and under the provisions of The Canada Grain Act, 1912.

Maximum Rates. Receiving, elevating, spouting, insurance against fire, storing for the first fifteen days and putting into cars on track. No elevator shall charge more than one and three-quarters of a cent per bushel. Storage not otherwise provided, including insurance against fire for each succeeding day after the first fifteen days shall not exceed one-thirtieth of one cent per bushel.

Shrinkage for Stored Grain. No elevator shall take more than one-half of one per cent to take care of shrinkage and waste in handling, storing and transmitting the grain to a terminal.

No elevator shall take more than one per cent shrinkage on tough, damp and wet grain.

Shrinkage on Cash Grain. On street grain no elevator shall take a greater dockage than that shown by a proper test over a number ten sieve, except where grain contains foreign grain or seeds which cannot be taken out by a number ten sieve.

Dockage. No elevator shall take a greater dockage than that shown by a proper test over a number ten sieve, except where grain contains foreign grain or seeds which cannot be taken out by a number ten sieve.

Every elevator must be equipped with the necessary sieves and scales for making proper tests, and the elevator operator must make the tests in the presence of the owner of the grain when requested.

General. When tough, damp or wet grain is taken into store it shall be at the owner's risk, and the elevator operator shall have the right to ship it immediately to a terminal elevator for treatment.

The owner shall have the right to name the terminal elevator to which it shall be shipped.

RULES AND REGULATIONS FOR COUNTRY ELEVATORS.

1. In shipping or delivering any grain stored in a country elevator, the net weight on the ticket or tickets shall be final; unless an investigation by the Board of Grain Commissioners shows reason for the contrary. The shipper to be paid in case of short shipment up to the amount of his or her ticket or tickets for the full billing capacity of the car, at the same price as the car was disposed of.

2. All shipping bills for grain shipped through an elevator shall be made out by the elevator agent, and he shall advise such parties as the owner may instruct.

3. The elevator owner shall, on all grain shipped through the elevator, have the right to retain and hold the shipping bill until he receives a guarantee from the owner of the grain, another elevator owner, a licensed commission firm or individual, or any one else that the car may be sold to, that they will make proper adjustment as to the weight and grade. Upon receipt of storage tickets and lawful charges, the elevator owner shall deliver either the shipping bill to the party presenting the ticket or tickets, or a terminal warehouse receipt for the full amount of the grain called for in the ticket or tickets presented, up to the full carload.

4. The owner of grain in an elevator wishing such grain shipped to any point other than a terminal point, or where Government weights cannot be obtained, the owner of the grain must then accept the elevator weights at the shipping point as final, unless the owner of the grain proves the shipping weights are not correct.

7 GEORGE V, A. 1917

Provided however, that the owner of the grain can always demand an affidavit as to the actual grain shipped and delivered from the elevator operator and receiver of said grain respectively.

5. No owner or operator of a country elevator or warehouse shall sell, assign, mortgage, pledge or hypothecate any grain stored in such elevator or warehouse, for which graded storage tickets or "subject to grade and dockage" tickets or special bin tickets have been issued, and the owner or operator may be required by the Board to produce at any time proper registered warehouse receipts or bills of lading for such grain as has been shipped from the country elevator or warehouse, and for which there is still outstanding graded storage tickets, or "subject to grade and dockage" tickets or special bin tickets."

RULES AND REGULATIONS FOR STORING GRAIN IN COUNTRY ELEVATORS WHEN THERE IS
DISAGREEMENT AS TO GRADE AND DOCKAGE.

1. The ticket or tickets issued under and by virtue of these rules and regulations, must have incorporated therein, at the time of issue, the grade offered by the elevator owner or operator to the owner of the grain and the following words "Subject to Inspector's Grade and Dockage".

2. The owner of the grain can only demand the quantity that the storage ticket or tickets call for.

3. In case there is a dispute as to the weighing accuracy of the receiving scales, it shall be incumbent upon the owner of the elevator to prove that the scales are weighing accurately.

4. A proper sample must be drawn from each wagon load by the elevator operator at the time of delivery, in the presence of the party delivering same, and such sample must be drawn satisfactorily to both the deliverer and the operator.

5. Such sample must be placed in a receptacle satisfactory to the owner of the grain.

6. After the grain is delivered the sample drawn must be properly mixed in the grain taken into store, and shall deliver to the owner at his request, in not less than take out of the quantity mixed at least three pounds, and place it in a receptacle which must be numbered and sealed, and so made that it can be securely locked. The receptacle shall be supplied by the elevator owner, and secured by a padlock. The lock shall be provided by the owner of the grain, and he shall retain possession of the key. The receptacle and key shall thereupon be immediately forwarded to the Chief Inspector of Grain, Winnipeg, Man., all charges prepaid. After receiving the inspector's certificate, showing grade and dockage, the operating agent shall issue a storage ticket showing grade and dockage as given by the chief inspector, for the full amount of grain taken into store, and shall deliver to the owner at his request, in not less than carload lots, on track or at terminal point, the grade and quantity the storage tickets call for, after the owner has surrendered the storage receipts and paid or tendered all lawful charges against said grain.

7. The owner of the elevator shall, in all cases where grain is taken into store under the foregoing conditions, guarantee the grade and weight as specified in the storage ticket or tickets.

8. At the time of delivery of any grain where a ticket of this kind is being used, and it is agreed upon by the owner of the grain and the elevator operator that the grain is tough, damp or wet, and the elevator operator marks such ticket or tickets, "Out of condition, tough, damp or wet." then whatever grade such sample may receive from the chief inspector, it will still grade "tough, damp or wet."

9. If the elevator operator fails at any time to draw and preserve such samples in the manner stated, in the case of dispute the onus will be on the elevator operator to prove the proper grade, and not on the owner of the grain.

I, William A. Collier, of Harptree, in the province of Saskatchewan, farmer, make oath and say:—

1. That on or about the 30th day of December, 1915, I sold to the Co-operative Elevator Co., Ltd., at Viceroy, a load of wheat weighed over the company's scales. The weight, net, allowed to me was 51 bushels, and 50 pounds. The grain was hauled in an Adam's grain box, which holds quite 62 bushels of wheat. The box was practically full when I weighed, and verily I believe there were over 60 bushels of wheat in the said box when weighed. The said elevator was then in charge of Wm. Gill, and is now in charge of Merrill.

And I make this complaint pursuant to The Canada Grain Act.

I, Thomas William Bennett, Jr., of Willow Bunch, in the Province of Saskatchewan, Farmer, make oath and say :

1. That on or about the 10th day of January, 1916, I sold a load of wheat to the Co-operative Elevator Co., Ltd., at Viceroy. The grain was hauled to the elevator in open tank, and the tank was driven on the company's scales. There were 56 bushels in the tank. On the same day I sold to the said company another load of wheat hauled and delivered in a sleigh box of 43 bushels. The said tank was placed on a heavy set of sleighs and the grain in the grain box was hauled by a lighter set of sleighs. On the said occasion the tare of the tank sleigh was 25 pounds heavier than the tare of the sleigh with grain box. That I have weighed the said tank and grain box and the tank is 225 pounds heavier than the grain box.

That Gill was in charge of the said elevator on the said date, and Merrill is now in charge of said elevator as I verily believe. On the succeeding day I delivered a load of grain in said box over said scales, and on this last occasion the tare of the tank load of grain was 10 pounds lighter than the grain box load.

Sworn before me at the Town of Meyronne,

Statement of John A. Wright.

On the last Monday in March, Jim Gaudett and myself hauled a load each of wheat into town for Mr. Lowery, who was with us driving another load.

On reaching the Northern elevator, we found Agent Moore was down town, so I called to Gaudett and Lowery to come inside and investigate. I said this, as the farmers all round have been complaining of short weights, and I considered that the agent being away, this was a good chance to see if the scales were fixed.

I believe that the other two were in the scales house as soon as I and must have observed my every movement. As I have previously stated, I found a lead slug concealed between the big weight and the sliding beam; and this I showed to Gaudett and Lowery. I put the weight back, before the elevator man returned, and though I watched did not see him take it away. I wanted Lowery to stand by me, and I would at once report the matter, but Lowery did not want to make trouble for Moore. While in town with another load of Lowery's wheat I weighed it on Dabel's scale, and found the Northern elevator gave me two bushels short.

When I saw a few days after a mounted policeman in town, I determined that it was my duty to the public to report the matter, though I personally had suffered no loss.

PART II.—PUBLIC SESSION.

It may be noted that these complaints were forwarded to the Board of Grain Commissioners by the Royal North West Mounted Police, and the Board considered them of sufficient gravity to call a public session thereon. Public session was held in Assiniboia, Sask., on June 1, 1916.

PART III.—EVIDENCE SUBMITTED.

- (a) W. A. Collier vs. Saskatchewan Co-operative Elevator Company.
- (b) John N. Nelson vs. Saskatchewan Co-operative Elevator Company.
- (c) Thos. Wm. Benuett vs. Saskatchewan Co-operative Elevator Company.

Viceroy.

The evidence submitted to the Board by the complainants was not of a substantial nature, but a comparison of the loads would indicate that they did not get good weight at this elevator. The conditions at this elevator in regard to the weighing and operation were very lax and naturally unsatisfactory to all concerned. The elevator company was represented by their Superintendent, Mr. Cleveland, who stated that the man in charge of the elevator at the time the above complainants delivered their grain, had been dismissed by his company as being incompetent, and therefore he was willing, at the suggestion of the Board, to meet the complainants and settle the matter amicably. The Board agreed to this, and Mr. Cleveland reported at a later stage that the matter had been settled amicably to all concerned.

SESSIONAL PAPER No. 10d

(d) Gordon W. Spicer vs. Province Grain Company.

Evidence submitted by the complainant was in the nature of a comparison of loads, which in the opinion of the Board is of very little value, due to the fact that the oats in question were from different fields and grown by different parties. No weight per bushel of each load had been secured, and therefore a discrepancy in weight of the different loads could easily be accounted for by a different weight per bushel. The complainant also submitted the evidence that he had weighed particular loads on a scale owned by a Mr. Sharpe in town, and there was a discrepancy between the weights he had received from the town scale as compared with the elevator scale.

The Chief Weighmaster for the Board of Grain Commissioners, Mr. White, proved conclusively that the weights recorded on the town scale could not be relied upon as accurate on account of the construction of the scale, and the probability of an error that may exist on account of the elements, etc.

(e) Complaint of John Wright vs. the Northern Elevator Company.

This is a somewhat peculiar case. The complainant was not aggrieved. Mr. Lowery, the aggrieved, had to be brought by subpoena to give evidence. He was a most unwilling witness, and did not wish to prosecute the elevator operator, Mr. Moore. The complainant, Mr. Wright, swore that on or about the 27th of March, 1916, when he delivered a load of wheat at the Northern Elevator Company's elevator at Meyronne, he discovered a piece of lead in the slot between the beam and the poise of the scale. This was corroborated by another witness, Mr. Gaudett.

The operator, Mr. Moore, denied all knowledge of lead being there, and stated under oath that if it was there he was unaware of it.

In the cross-examination of Mr. Lowery, he stated under oath that Mr. Moore, the operator, had admitted to him that he knew the lead was there.

The Chief Weighmaster for the Board of Grain Commissioners, Mr. J. G. White, gave expert testimony on the effect that a piece of lead, as described in the evidence, would have on the weighing. He stated that he was very familiar with the type of scale used, and that the lead was not a part of the scale. Further, whatever weight was added to the poise the ratio of the centre is one to one thousand, and if there is one ounce added to the poise it would be one thousand times that on the platform.

PART IV.—RULING OF THE BOARD OF GRAIN COMMISSIONERS.

(a) W. A. Collier vs. Sask. Co-operative Elevator Co.

(b) John N. Nelson vs. Sask. Co-operative Elevator Co.

(c) Thos. Wm. Bennett vs. Sask. Co-operative Elevator Co.

As the complaints were settled amicably the Board dismisses these cases.

(d) Complaint of Gordon W. Spicer vs. Province Elevator Company.

In the opinion of the Board not sufficient evidence was submitted by the complainant to warrant any action being taken thereon, and therefore the case was dismissed.

(e) John Wright vs. Northern Elevator Company.

Mr. Moore, the agent of the Northern Elevator at Meyronne, Sask., was responsible for the proper use of the scales in the elevator. Sufficient evidence was adduced,

7 GEORGE V, A. 1917

in the opinion of the Board, to blame Mr. Moore, the operator, of having placed the lead between the beam and the poise for the purpose of securing extra weight. There was no evidence to show that the Northern Elevator Company was aware of the action of its operator, Mr. Moore.

It is therefore ordered by the Board of Grain Commissioners that the Northern Elevator Company discharge the said Mr. Moore from its employ forthwith.

("B") SHORTAGE ON THE STEAMER "BRITON," OCTOBER 12, 1915.

PART I.—COPY OF COMPLAINT.

BUFFALO, N.Y., October 18.

J. G. WHITE, Esq.,
Chief Weighmaster, Fort William.

Briton short twenty-seven seventy-seven bushels. Have requested elevator here to prepare affidavits in accordance with Mr. Bowen's request on Hartnell. Please investigate loading.

GRAIN CLEARANCE COMPANY.

PART II.—REPORT OF CHIEF WEIGHMASTER.

FORT WILLIAM, November 10, 1915.

(Our File W-273.)

C. BIRKETT, Esq.,
Secretary, Board of Grain Commissioners,
Fort William, Ont.

SS. *Briton*, October 12, 1915.

DEAR SIR,—The *Briton* loaded at the Western Terminal Elevator on October 12, B/L 115,000 bushels No. 1 Northern.

This cargo was discharged at Buffalo on October 16, as follows:—

Evans elevator.	28,040
Monarch elevator.	84,193
	<hr/>
	112,223 short 2,777 bush.

I beg to report that I have made a thorough investigation into the weighing and loading of the above cargo. The weigh-sheets and scale tickets agree, showing that (90) drafts, aggregating 115,000 bushels were weighed for the *Briton*.

Upon investigating the delivery of the grain from the scales to the shipping bins, I find that two drafts are shown on the weigh sheets as having been delivered from No. 6 scale to No. 6 shipping bin. The special officer's report, and the inspector's report both show that No. 6 shipping bin was not used during the loading. As the cover was locked on the spout leading to this bin, and the key in possession of the special officer, grain could not have been delivered to No. 6 bin without his knowledge.

The weighing of this cargo commenced at 17-40 K. and finished at 23-10 K., so that most of the work was done at night.

SESSIONAL PAPER No. 10d

No. 6 scale was in use receiving cars up till about 22 K. after which the above mentioned two drafts amounting to a little over 3,000 bushels were weighed on it, and it is evident that by some mistake or misunderstanding the spout was not placed for No. 6 shipper, and the two drafts in question were not delivered to the boat.

Orders were issued for 120,000 bushels. 115,000 bushels were weighed up. Mr. Irwin states that the captain was watching his water draft, and asked him to hold back about 3,000 bushels. There is no weighback shown on the weigh sheets.

After going carefully into every circumstance in connection with the handling of the above cargo, I can only come to the conclusion that the Western Terminal Elevator is responsible for the shortage.

I have the honour to be, sir,

Your obedient servant,

J. G. WHITE,

Chief Weighmaster.

PART III—REPLY OF WESTERN TERMINAL ELEVATOR CO., LTD.

FORT WILLIAM, Ont., Nov. 13, 1915.

Mr. C. BIRKETT,

Secretary of Grain Commissioners,
Grain Exchange, City.

Your letter of the 11th, file No. 5, with Chief Weighmaster's report on shortage on SS. *Briton* enclosed, received.

The writer personally took charge of the weighing on this boat after 10 p.m. and remembers having 6 scale set onto 10 belt for No. 7 shipper, when we commenced using 6 scale and to his knowledge was never taken off 10 belt for No. 7 shipper. There was no reason why we should do so, for before the writer went upstairs, the captain had advised me that he generally took 118,000 bushels but that he would take 115,000 bushels and go if we would finish him that night and it being a straight load of No. 1 Northern, the trimmers on the boat were keeping right up to the spouts.

We note the Weighmaster's report states that the weighman's report shows two drafts shown as from 6 scale to No. 6 shipper. It is a very easy matter for your weighman to take it for granted that the grain off 6 scale would be going to No. 6 shipper, the usual shipping bin grain off this scale is shipped through and on investigation or inquiring from our men to find it was going into 7 shipper and not change his figures showing two drafts previous as going to 6 shipper from 6 scale. Or possibly on asking what shipper we were going to send the grain off No. 6 scale to, he may have been told 6 shipper, and then this changed and sent to 7 shipper to save putting the other spout into the boat for the sake of two or three drafts, and your weighman still be under the impression it was going to 6 shipper. Or we may have told him 1 Nor. on 6 meaning 6 scale and he have taken it for 6 shipper, but at the same time he would not let it go to 6 shipper without the O.K. for this bin from your bin floor man, and which the bin floor man claims he did not give.

Mr. White must have misunderstood the writer when he states that the captain asked us to hold back 3,000 bushels, for he told the writer he usually took 118,000 bushels, but that he would take 115,000 bushels and go so that we would not have to hold any back. The writer is quite positive that 6 scale was never taken off 10 belt to 7 shipper and that all the grain weighed on 6 scale went to 7 shipper for the boat. We cannot see how from the information obtainable it can be taken for granted we are responsible for this shortage, and we do note that the boat unloaded in two elevators at Buffalo, and is there no possible chance of it having been to three elevators instead of two.

7 GEORGE V, A. 1917

We do not believe there was any mistake on our part made and that any of the grain weighed for the boat went anywhere else except to the shipping bins and the writer personally saw the shipping bins all shaken out at completion of loading.

If we thought for a moment that any of the grain weighed up for the boat did not go to it, we would have no hesitancy in adjusting this shortage, but under the circumstances do not feel that we are in any way responsible for same.

Yours truly,

WESTERN TERMINAL ELEVATOR CO., LTD.,

Per J. H. Irwin, Manager

PART IV—PUBLIC SESSION.

The meeting was held over until the return of the General Manager of the Western Terminal Elevator, who was in the Old Country.

On the 8th of May, 1916, the General Manager of the Western Terminal Elevator Co., Mr. Read, asked for a public session. The case was heard in the Chief Commissioner's office on May 22, 1916, at 2.30 p.m.

PART V.—EVIDENCE SUBMITTED.

The Government weighman at the Western Terminal Elevator sent in two documents in connection with the loading of this steamer. One is called a draft sheet, showing each draft, the number of the scale, and the number of the shipping bin, and the other is called the weighman's report.

The draft sheet shows that two drafts were weighed on No. 6 scale for No. 6 shipping bin, and the weighman's report shows that No. 6 shipping bin was used. The total weight of the two drafts is 3017-50 bushels.

The inspector in charge of the Western elevator also sent in report called the Inspector's Report, and this report shows that No. 6 shipping bin was not used. Further, No. 6 shipping bin was empty before the loading of the boat began, and it was empty after the loading of the boat was finished.

There was another report sent in by the special officer of the Weighing Department, whose work was not on the scale floor, but on the floor beneath. According to this report, No. 6 shipping bin was not used.

Taking these reports as they stand, and assuming that both sets of reports were correct as to No. 6 shipping bin, the result at first sight would be that two drafts were weighed into 6 shipping bin, but no grain was loaded on 6 shipping scale into the boat. This would account for the shortage except for the discrepancy in the amount of shortage reported, and the total amount of the two drafts, amounting to 240-50 bushels.

The matter does not end there, because the inspector and weighman report not merely that 6 shipping bin was not used for the loading of the boat, but that no grain was weighed into 6 shipping bin. The two officers state that no grain was weighed into 6 shipping bin.

The official weighman stated that he put No. 6 shipping bin on his sheets because he had been told that that shipping bin was being used by one or other of the elevator operators; either the manager or the weighman, he could not remember which. The Board were unable to ascertain who gave the information to the official weighman to the effect that 6 shipping bin was used.

SESSIONAL PAPER No. 10d

PART VI.—FINDING OF THE BOARD.

The Government Officials do not select the shipping bins that are to be used in any particular cargo. The selection must be made by the elevator operator. It is the function of the government employees to sound and report on shipping bins. The Board believes that either the manager of the elevator, or one of his employees, gave the information to the Government weighman that No. 6 shipping bin was to be used for the drafts mentioned at the same time the Board believes that the grain did not go into No. 6 shipping bin. As to whether the grain from No. 6 shipping scale went into the boat the Board has no official evidence. It has nothing but the word of the Manager of the elevator. The two drafts, did not, according to the evidence, go into 6 shipping bin but whether it went into 7 shipping bin and thus into the boat the Board cannot state.

It has been the practice at the head of the lakes when there was any serious discrepancy in the documents or any serious difficulty with regard to the issuing of the certificates, that a certificate would be issued on the understanding that in case of a serious shortage a settlement would be attempted and effected between the various parties.

The Board do not know and cannot ascertain whether there was any loss of grain in transit to Buffalo or whether there was a mistake in the weighing at point of unloading. The Board do not believe it to be possible to ascertain the cause of this shortage, but in view of the fact that the loading elevator has the duty of giving correct information as to the shipping bins to the official weighman, and in view of the fact that such information was not given in this case, the Board would recommend the loading elevator to consider the advisability of effecting settlement or compromise in the matter, since the loading elevator was not entitled to any official certificate of weight and had such certificate not been issued the outturn weights would have been accepted by the Board as the basis for a certificate.

Chief Commissioner.

COMPLAINT OF DR. T. A. PATRICK, YORKTON, SASK.

vs.

THE LAKE OF THE WOODS MILLING COMPANY, LIMITED.

PART I.—COPY OF COMPLAINT.

* YORKTON, SASK., December 1, 1915.

The Board of Grain Commissioners.

Fort William, Ont.

GENTLEMEN,—The partnership of which my tenant, F. A. Hooey, Yorkton and myself are members, hold storage tickets from the Lake of the Woods Milling Company's elevator at Yorkton for 1,138 bushels and ten pounds of wheat which we jointly own. At our request this wheat was shipped by the Lake of the Woods Milling Co. to the Canadian Government elevator at Port Arthur in car C.P.R. No. 59456, the

7 GEORGE V, A. 1917

company departing from our verbal instruction to the extent of consigning the wheat in their own name. This wheat is covered by the official weighmaster's certificate No. 141430, dated November 23, 1915, and we hold the Canadian Government elevator receipt Pro. 935, dated November 23, 1915, for this quantity of No. 3 Northern wheat.

On Monday last, November 29, we inquired of the company's agent at Yorkton for quotations on wheat of this grade, and being informed that he had none, we asked him to wire the company to sell the next day.

Since then we learn through the newspapers, that all wheat in store at the lake ports on Saturday last has been commandeered by your Board acting for the Government of Canada and will be paid for at closing prices on Winnipeg Grain Exchange on Saturday last. Assuming the correctness of the press reports it follows that our wheat was commandeered, and when commandeered became the property of the Government of Canada, who thereby became indebted to us to the amount of 98½ cents for each bushel, less charges.

To-day the agent at Yorkton read to us a letter he said he had received from the Lake of the Woods Milling Co. which stated in effect that his instructions to sell had been received; that owing to the action of the Government in commandeering the wheat, they had had difficulty in finding a market and had been able to sell for 96½ cents per bushel and instructing him to sell on that basis.

We have refused to accept settlement from the company contending:—

1. That the company must have been aware that property in this wheat had passed from us because of the action of the Government before the instructions to sell had been issued.

2. That the company, had it acted in good faith, would have so reported to us.

3. That the company could not and did not sell this wheat. We, therefore, formally complain that the Lake of the Woods Milling Company has, contrary to law, and in violation of the conditions on which it is licensed by your Board to carry on its business, endeavoured to cheat us out of the price which we are lawfully entitled to receive for our wheat, and out of a commission for selling the same, which commission they have not earned. And we formally give you notice that we claim settlement from your Board for this wheat, and

We further formally ask that an investigation of the Lake of the Woods Milling Company's action be made by your Board to the end that any fraudulent or unfair dealing which may appear may be formally dealt with by your Board.

Yours truly,

F. A. PATRICK,
(for Patrick & Hocey.)

PART II—REPLY OF COMPANY.

Winnipeg, Man., Dec. 14, 1916.

*Messrs. Board of Grain Commissioners,
Fort William, Ont.*

Gentlemen,—We have your letter of the 3rd inst., to which we did not reply, as we were waiting to hear from our agent at Yorkton. The circumstances of this case are as follows :

As per attached telegram we were instructed to sell the car in question, namely, No. 59456, on November 29.

Owing to the Government's commandeering of the wheat, there was no market here on the 29th of November, the Grain Exchange being practically closed on that date as well as the 30th of November.

SESSIONAL PAPER No. 10d

This was due to the excitement caused by the Government's action. We were not sure of the wheat commandeered, neither were we sure of the price which would be paid.

We, therefore, wired this party, as per attached telegram, that we sold the car at 96c.

You will notice from the attached card that prices on the 29th of November for 3 N. Wheat were 97c, equalling \$1.03½. We were quite unable to sell wheat at the Government's price, namely, \$1.04, no person being willing to buy unless it could be bought for a little less. We certainly do not think there is any cause for complaint, and are quite willing to pay the party in question the same price as paid by the Government, which we trust will be satisfactory to yourselves. Kindly communicate with this party along the above basis.

Yours truly,

LAKE OF THE WOODS MILLING CO., LTD.

C. S. Matheson, Mgr. Wheat Dept.

THE CASE HEARD.

The following is a copy of the statements made by parties at the hearing in Winnipeg:—

(See copy of evidence on file.)

Selling the Grain.

The Lake of the Woods Milling Company is not licensed to sell grain on commission under The Canada Grain Act. The Board of Grain Commissioners do not understand in what capacity the Lake of the Woods Milling Company sold the grain for Dr. Patrick unless it be that the Lake of the Woods Milling Company sold Dr. Patrick's grain as an act of charity or friendship, without making any charge therefor, and without pretending to make a business of selling grain on commission. If the Lake of the Woods Milling Company sold this grain on commission, the company was guilty of a gross violation of the law, but if the company does not desire to do this kind of business and obliged Dr. Patrick by selling his grain without charging a fee therefor, the Board are not aware of anything in The Canada Grain Act that would enable them to punish a company for so doing.

The Lake of the Woods Milling Company sold the grain for Dr. Patrick and reported the sale. Although the grain had in fact been commandeered by the Government of Canada, the company reported it had sold the grain, and also, although a price for the commandeered grain had been fixed by the Government, the company reported the sale at a price below that paid by the Government.

The Board held that the producer was entitled to the full price paid by the Government, and the Lake of the Woods Company paid this price.

It is the view of the Board of Grain Commissioners that if the Lake of the Woods Milling Company desires to act as commission merchants the company should take license under The Canada Grain Act, and that if the company is not willing to take license in terms of the Grain Act, it should not undertake, even as an act of courtesy or of charity and without fee, to sell grain in this way.

SHIPPING OUT OF GRAIN.

Dr. Patrick also complained that the Lake of the Woods Milling Company shipped grain out of their country elevator in their own name and not in his.

7 GEORGE V, A. 1917

If the producer of the grain tenders the storage tickets to the elevator and all proper charges upon the grain, the elevator operator should ship the grain out according to the instructions of the producer.

There appears to be a considerable laxity in this regard. Producers sometimes fail to give specific instructions with the tender of all the charges. On the other hand, elevator operators often fail to observe the rights of the producer in this regard.

In this case, Dr. Patrick does not appear to have tendered the charges when he gave his instructions.

This is not the only complaint made against the Lake of the Woods Milling Company, and an order will be issued to that company by the Board requiring them to direct their operators to conform with the provisions of The Canada Grain Act, and Rules and Regulations governing country elevators in regard to the shipping out of grain.

Chief Commissioner.

COMPLAINT OF P. M. FRIESEN, OF RUSH LAKE, SASK., IN CONNECTION
WITH OPERATIONS OF W. C. COCKEL, BUYER OF THE LAKE OF
THE WOODS MILLING COMPANY AT RUSH LAKE, SASK.

Rush Lake, Sask., February 29th, 1916.

PART I—COPY OF COMPLAINT.

*Messrs. Grain Commission,
Winnipeg, Manitoba.*

Dear Sirs:—The writer begs to draw your attention to W. C. Cockel, the grain buyer for the Lake of the Woods Milling Co., of this town, who has been buying wheat for the last two months on his own behalf, on a way down price. The wheat was stored in Crookshenk's coal shed near the track and reloaded into cars and bought by Mr. Cockel for his company for track price. As the cars were shipped in J. J. Hourigan's name, I take it for granted that Mr. Hourigan is complicated in that business, as Mr. Cockel paid the farmers with his own cheque as follows:

Trust account per W. C. Cockel.

I claim that these gentlemen were doing wrong to the farmers, taking advantage of them when they could not sell their grain in town. I would most urgently beg and request the Commission to investigate this matter, and for that matter will be pleased to render my services to the Commission. We have all the evidence right here in town, and the bank also can show you their transactions, which will prove my charges. I might further say that the manager of the bank is aware of this matter, and of course condemns it very strongly.

PART III. THE CASE HEARD.

The case was heard at Rush Lake, Sask., on April 26, 1916.

PART IV.—EVIDENCE SUBMITTED BY COMPLAINANT.

The complainant, Friesen, did not give evidence himself, but had as witnesses the following gentlemen: W. W. Van Niessen, J. Dueck, and H. D. Doerksen. Copies of affidavits filed with the Board by these three witnesses are attached hereinbefore.

1. Van Niessen stated under oath that he delivered 15 bushels of wheat to the defendant, Cockell, who placed same in the elevator pit, and paid him (Van Niessen) 90 cents per bushel for the same. The witness had reasons to believe that he should have been paid \$1.10 per bushel. He also protested against the grading of the defendant, stating that he delivered two loads from the same bin. The load that he delivered was graded 1 Northern, but the load delivered by one of his small boys was only graded 2 Northern.

2. John Dueck stated under oath that he sold to Cockell 133 bushels of grain, which was delivered to a coal shed at Rush Lake. He received 86 cents per bushel for the same, while he had reasons to believe that the street price on that date was 98 cents per bushel. He was compelled to sell the grain as he had to purchase some fuel, and had no money to buy the same.

3. H. D. Doerksen stated under oath that he delivered to the defendant 15½ bushels of grain, for which he received 90 cents per bushel. He had reasons to believe that the grain was worth \$1.08 per bushel. He stated that his grain was placed in the elevator pit.

PART V.—EVIDENCE SUBMITTED BY DEFENDANT.

Cockell, buyer for the Lake of the Woods Milling Co., Rush Lake, stated under oath that he made arrangements with Mr. J. J. Hourigan to weigh and purchase grain that he, Hourigan, would take from farmers, on account of the elevators being blocked. Hourigan also made financial arrangements whereby the defendant would issue cheques on a trust account in the bank, against the wheat purchased by him for Hourigan. The defendant stated further that he purchased in this way approximately 3,000 bushels, which were stored in a coal shed and then sold to the Lake of the Woods Milling Company's elevator at the market price, after the elevators had been relieved. He had received from Hourigan the sum of \$400 for his work in connection therewith. This works out at the rate of approximately 13 cents per bushel. The reason he states why such a big spread was taken was on account of the car situation and not knowing when they would be able to get the grain to the lake front. They did not hedge the grain in any way. He stated further that the first witness, Van Niessen, did not deliver his grain into the elevator pit.

SESSIONAL PAPER No. 10d

Mr. Hargrave, a traveller for the Lake of the Woods Milling Company, stated under oath that his company had no objections to their agents helping farmers out by weighing grain, coal, cattle, etc., if it was to the benefit of all concerned. He states that matters of this kind were left to the discretion of their agents.

PART VI—OPINION OF THE BOARD.

The evidence submitted goes to show that Cockell, the buyer for a licensed country elevator, weighed grain for the farmers, and through arrangements with an outside party, bought this wheat at a much lower price than it was worth. The farmers had to sell the grain to buy fuel.

The Board does not approve of any agent of a country elevator entering into other phases of the grain business, for which he is not licensed, and while the Board does not consider the case of sufficient gravity to ask for the discharge of the defendant, Cockell, the Board desires to warn the said defendant that if anything of a similar nature occurs again, the Board will take advantage of Section 176 of The Canada Grain Act, and ask for his dismissal.

Commissioner.

Commissioner.

"E"—COMPLAINT OF IVAN CROSBY vs. THE STANDARD ELEVATOR COMPANY.

PART I—COPY OF COMPLAINT.

WINNIPEG, February 10, 1916.
My 1677.
Your 500.

*Board of Grain Commissioners,
Fort William, Ont.*

DEAR SIRS,—Seeing that your Board is to hold a sitting in Winnipeg during the early part of March, I would like to submit the following case to you for your decision, as to where the responsibility for the loss claimed should be placed.

From the information I have received, Ivan Crosby stored 1,446.30 bushels of wheat in an elevator at Rowletta, operated by the Standard Elevator Company, and received storage tickets for same.

Mr. Crosby decided to ship the above grain to Randall, Gee & Mitchell, Commission Company, to handle same for him.

I am informed that the Standard Elevator Company agreed to load the wheat into a car for Mr. Crosby, providing that he would sign a release for any liability for grade or weight for the grain.

Mr. Crosby admits signing a paper, but says that he is not sure just what were the contents of it.

7 GEORGE V, A. 1917

Mr. Anderson, the manager of the Standard Elevator at Rowletta, furnishes an affidavit, containing a list of weights of the grain as he loaded it into C.P. car 114534, on September 4, 1914, amounting to 1,446.30 bushels. He also states in the affidavit the depth to which the grain was loaded at point of shipment.

The car was billed and consigned to Randall, Gee & Mitchell, at Fort William, and handled by the Grand Trunk Pacific Railway Company, and was unloaded at the Grand Trunk Pacific elevator at Fort William and outturned 65,800 pounds, making a gross shortage of 20,990 pounds.

Randall, Gee & Mitchell presented a claim to the G.T.P.R. for the loss claimed, but the claim was declined, on the ground that there was no record of leak or damage while the car was in transit; they also point out that according to the statement made by the elevator operator there were only about 58 inches of grain in this car at time of loading, and that it could not contain 1,446 bushels of 58-pound wheat.

The record taken by the Grain Inspector's staff, in passing Winnipeg, is given as 10, 14 and 12 inches below the wheat line, which is supposed to be 65 inches high, and the record given at destination is 54 inches deep.

I think your Board will agree with me that this is a very serious loss, and a very complicated case to deal with.

According to the requirements of the Grain Act, can a country elevator justly demand a release for the outturn of a car of grain, providing same is being consigned to a point where official weights are furnished?

There is certainly something wrong, what is the remedy?

Yours truly,

D. D. CAMPBELL,

Claims Agent.

PART II—REPLY OF STANDARD ELEVATOR CO., LIMITED.

WINNIPEG, February 1, 1916.

*Board of Grain Commissioners,
Winnipeg, Man.*

Re Car 114534 ex Rowletta.

GENTLEMEN.—We have your favour of the 25th ult. and note your remarks contained therein. We have looked up our records and find that this car was shipped on or about September 5, 1914, and that there was weighed into the car by our buyer 1,446.40 bushels. The owner of this car, Mr. Ivan Crosbie, did not desire our company to handle this car and demand the B/L for same at the point of shipment. The bill was handed over to him and he paid us the handling charges and also signed a release of our company against any further liability as to weights or grade.

We heard nothing more about this car until we received a letter dated June 11, 1915, which you will note is nine months after the shipment was made, and in this letter Mr. Crosbie says in part:—

"I loaded a car of wheat through your elevator last fall, and shipped *it myself* and when I got the settlement I was over 300 bushels short to what your agent at Rowletta said he put in it. Well, I put a claim to the G. T. P. Ry. . . . and I got an affidavit from your agent as to what went into the car and sent it to them."

You will note from this letter that Mr. Crosbie acknowledges that he took possession of the car at shipping point and shipped it himself, and that when he

SESSIONAL PAPER No. 10d

discovered that there was a shortage he obtained an affidavit from our buyer and then he himself put in a claim with the railway company. During this period you will note that Mr. Crosbie had never approached our company for payment but undertook to look after his own affairs and only when the G. T. P. Co. refused his claim did he write to us under date of June 11. We in reply to his letter stated that we did not consider ourselves liable and it appears he then placed the claim with D. D. Campbell and apparently his efforts were fruitless, so that at this late date he places the matter in your hands.

We have looked up our records regarding the standing of our Rowletta elevator for 1914 and find that it shows an overage of 29.40 bushels. We are, therefore, convinced that our buyer put all Mr. Crosbie's grain in his car, otherwise our elevator would have shown an overage to the extent of the shortage claimed by this party.

We do not think that you can consistently hold that we are liable in this case when you take all matters into consideration.

Yours truly,

STANDARD ELEVATOR CO., LTD.,

PART V—CASE HEARD.

The Board heard this case in the City of Winnipeg on Wednesday, March 8, and reserved judgment.

PART VI—APPLICATION FOR RE-HEARING.

WINNIPEG, MAN., March 9, 1916.

*Board of Grain Commissioners,
Winnipeg, Man.*

Re Ivan Crosbie vs. Standard Elevator Co.

DEAR SIRs,—I beg leave to ask your Board to reconsider the decision given last evening in regard to the above case, for the following reasons:—

1. The storage tickets issued in accordance with the Grain Act, guarantees delivery of the weight at any terminal in the Western Division.
2. Section 159, Clause 2, to my mind, is also very clear on this point.
3. Mr. Crosbie was not informed, before storing this grain, that if he wished to have his car consigned to another commission firm, he would have to sign a release, relieving the elevator company for the outturn of the car.
4. I stated that I was prepared to prove by Mr. Anderson's sworn statement, as to the depth to which this car was loaded, at the point of shipment, that the car would not contain 1,446.30 bushels, which was the amount of Mr. Crosbie's storage tickets.
5. I am still prepared to prove the above in the following manner:—

SESSIONAL PAPER No. 10d

I will arrange with the Western Canada Flour Mills Co., to hold a standard car, and I will agree to pay the company to have this test made, so that there will be no expense to your Board.

2. I will allow a depth of 60 inches instead of 58 inches, as is shown (as near as it can be computed), in Mr. Anderson's sworn statement.

3. I will allow the car to be loaded with 1 Nor. wheat, which is liable to weigh anywhere from 60 pounds to 65 pounds to the bushel instead of 58-pound wheat, as is given as the official weight of Mr. Crosbie's wheat as taken from the car at Winnipeg.

4. If this test is carried out it should prove conclusively that it was impossible to load 1,446.30 bushels in the car, and that in some way that cannot be accounted for, all of Mr. Crosbie's wheat was not loaded in the car in question.

5. That from the facts as stated above, it was a clear violation of the Grain Act, for the Standard Elevator Company to demand a release from Mr. Crosbie before they would ship his grain as requested, therefore they should be penalized for this offence.

There is some excuse for Mr. Crosbie not being conversant with all the features of the Grain Act, but there is none for an elevator company, and they should be compelled to live up to all conditions.

I would ask you to compare the case of J. B. Knotts vs. The Ogilvie Milling Co., in a similar case, when the car was loaded through the direct spout into the car from the farmer's loads, and the car was shipped to Woodward & Co.

Copies of letters attached shows the result of this case.

If your Board will agree to reconsider the case in question, I will be pleased to have your Board present to see the test made on loading 1,446.30 bushels into the car at the Western Canada Flour Mills Co., but if you find it impossible to be present, if you will name a committee of two or three to attend, and allow Mr. Adams, deputy weighmaster, to weigh the grain, and I would like to have Mr. Bell of the Standard Elevator and his solicitor present, so that they would have an opportunity to see the absurdity of the plea that they are trying to uphold.

Before making the test, I will stake my reputation that when the car is loaded, even with the heavier wheat, amounting to 1,446.30 bushels, that the car will be loaded nearer to 65 inches deep than to 60 inches.

Hoping that your Board will agree to reconsider this very important case again, I remain,

Yours truly,

D. D. CAMPBELL,

Claims Agent.

PART VII.—ADJOURNED MEETING.

The Board heard this case again in Winnipeg on Friday, the 28th of April, 1916, and reserved judgment.

PART VIII.—EVIDENCE SUBMITTED.

The evidence of the agent for Mr. Ivan Crosbie, D. D. Campbell, was to the effect that the agent for the Standard Elevator Company, Rowletta, could not have loaded into the car the amount of grain stipulated in the affidavit in Part IV.

His arguments were based on the standard measurements of the car.

7 GEORGE V, A. 1917

The Board had one of its officers at Fort William measure the car, and below will be found the actual measurements:—

Length of car—35 ft. 11½ in. and 35 ft. 11½ in.
Width of car—Center 8 ft. 6¾ in. B.E. 8 ft. 6 in. N.B.E. 8 ft. 6½ in.

Barley.....	6 ft. 9 in.	
Wheat.....	5 ft. 5½ in.	} North side.
Flax.....	5 ft. 10 in.	
Barley.....	6 ft. 9 in.	

The actual measurements of the car show that the standard measurements upon which Mr. Campbell bases his arguments to be practically identical.

PART IX—REPORT OF CHIEF WEIGHMASTER.

The Board had its chief weighmaster go into the matter thoroughly. His report follows:—

FORT WILLIAM, April 24, 1916.

R. MAGILL, Esq.,

Chairman, Board of Grain Commissioners.

Our file W-269.

Fort William, Ont.

Complaint of D. D. Campbell and Ivan Crosbie.

Dear Sir,—Re C. P. car 114534 No. 3 Northern wheat, ex Rowletta, Sask., unloaded at Grand Trunk Pacific elevator on September 14, 1914.

This car had an outturn of 65,800 pounds.

When inspected at Winnipeg the official weight per bushel was given as 58 pounds, and the depth of load as 10"-14"-12 below the line, which in cars of 80,000 pound capacity is 65 inches from the floor, and the above measurements would give 53 inches, which is slightly less than the depth taken at unloading.

The car arrived at the elevator with all seals intact, and there was no notation of leak.

At the request of Mr. Campbell, I investigated the unloading and weighing of this car, but could find no cause at unloading for the excessive shortage.

According to the affidavit, the elevator agent at Rowletta loaded 1,446.30 bushels, or a total weight of 86,790 pounds of wheat into car No. 114534, and that when loaded, the grain at the no brake end was to the line, which in this series of cars is 65 inches, about three inches below the line at the brake end, i.e., 62 inches, and 18 inches below in the centre—47 inches. These measurements give an average of 58 inches of load in the car, the inside measurements of which are 36' by 8' 6", and would equal 25½ cubic feet per inch in depth, or 58 inches in depth would equal 1,479 cubic feet of wheat in the car at loading.

A measured bushel contains 2,218 cubic inches. A cubic foot contains 1,728 cubic inches.

SESSIONAL PAPER No. 10d

Wheat weighing 58 pounds per measured bushel will weigh 45.18 pounds per cubic foot: 1,479 cubic feet at 45.18 pounds per foot would represent 66,821 pounds of load for a depth of 58 inches, or about 1,152 pounds per inch at loading. One inch per foot, or $8\frac{1}{2}$ per cent has been found a fair basis for settlement in transit, and would give 1,250 pounds per inch for 58-pound wheat at destination.

Had 86,790 pounds of 58-pound wheat been loaded into the car, the depth should have been approximately 75 inches.

I have the honour to be, sir,

Your obedient servant,

J. G. WHITE,

Chief Weighmaster.

PART X—RULING OF BOARD.

The Board of Grain Commissioners does not desire to express any opinion in respect to the release signed by the complainant.

The Board is of the opinion, however, that the agent of the Standard Elevator Co., at Rowletta, did not place into the car 1,446.30 bushels, and the Board of Grain Commissioners, therefore, is of the opinion that the Standard Elevator Company should make good to the complainant the shortage on this car.

Chief Commissioner.

CHAPTER X.

REPORT OF THE CHIEF ENGINEER—C. D. HOWE.

To the Board of Grain Commissioners:—

GENTLEMEN,—

VANCOUVER ELEVATOR.

During the year the Board's elevator at Vancouver, B.C., has been completed. The first car of grain received at this elevator on June 1, 1916. The elevator has a capacity of 1,250,000 bushels of grain, and can unload cars at the rate of 18 cars per hour. It has a shipping capacity to boats of 60,000 bushels per hour. This elevator is built on the property of the Government Dock at Burrard Inlet, B.C., and is arranged with galleries so that boats can be loaded on both sides of the dock. Four ocean vessels can be loaded with grain simultaneously from this elevator.

The elevator is equipped with a separate building for bagging grain in which grain can be bagged at the rate of 4,000 bushels per hour. By an arrangement with the Department of Public Works a belt conveyor is being constructed along the roof girders of the freight shed, so that the sacked grain can be transferred from the sacking building to any part of the freight shed and landed within reach of the boat slings. This part of the construction has not yet been completed, owing to the fact that the freight shed has only recently been completed. The completion of this sack conveyor will finish all work at present authorized for this elevator.

MOOSEJAW ELEVATOR.

During the year a plan and profile has been prepared for a connection from the Grand Trunk Pacific Railway to the Moosejaw Elevator. This connection has been constructed by the Grand Trunk Pacific Railway at the expense of the Department of Trade and Commerce. An expropriation plan for the right-of-way for this spur has been filed by this Department. Your Chief Engineer has been authorized by the Department to purchase as much as possible of the right-of-way at the rate of \$2 per front foot. He has been in correspondence with all the owners of this right-of-way and has arranged for the purchase of more than half of the property involved. After our efforts to purchase this property have been exhausted, the remainder will be paid for at a value to be determined by the Dominion Exchequer Court.

SASKATOON ELEVATOR.

During the year negotiations have been continuously under way toward purchasing the right-of-way from the Grand Trunk Pacific and Canadian Northern Railways to the Saskatoon Government Elevator. Some twenty owners have had to be dealt with. Settlement was easily arranged with all but one owner and recently this owner has been brought to terms. Final arrangements are now being made to transfer the property to the Crown. The purchase price of this property, viz.: \$5,500 has already been advanced and will be paid over as soon as the necessary documents are prepared.

7 GEORGE V, A. 1917

There has been considerable trouble with water in the basement of the Saskatoon Elevator and a system of surface drainage has been installed to do away with this trouble. Results have been successful, as no trouble has been experienced from water in the basement since the system was installed.

CALGARY ELEVATOR.

During the year a change of properties has been arranged between the City of Calgary and the Crown, the City leasing to the Crown for 99 years a strip of land to give the Canadian Northern Railway direct access to the elevator site and the Crown leasing to the city for 99 years a strip of land 33 feet in width extending along the west boundary of the property to provide a right-of-way for the city's street railway tracks. The documents covering this exchange of properties have been duly executed.

PORT NELSON ELEVATOR.

Advice has been received from the Department of Railways and Canals that the Hudson Bay Railway will reach Port Nelson during the season of 1917 and that pile foundations of the Board's elevator at that point will be constructed during the season of 1917. The Department of Railways and Canals has furnished this Department with plans of the new location of the piers and approaches, and such foundation data as is necessary to provide for the construction of the elevator. Revised foundation plans for this elevator are now under way and will be furnished to the Department of Railways and Canals in time to permit that Department to construct the foundations of the elevator during the season of 1917.

Plans for this elevator have been partially prepared by the Canadian Stewart Company, but such plans are now of no value as the new location and layout of the Dock structures will not permit the use of the plans that were prepared for the former location. The plans now under way provide for a working house of 500,000 bushels capacity, to which such storage can be added as may later prove to be necessary.

GENERAL.

A brochure is being prepared by the Chief Engineer, in co-operation with the General Manager of Government Elevators, to illustrate the methods of construction and operation of the Government Elevators and the business arrangements for handling the farmer's grain at these elevators. This brochure is being prepared by order of the Board and will be used as advertising for the Government Elevators.

SESSIONAL PAPER No. 10d

MEMORANDUM

SHOWING PROGRESS AND TREND OF WORK OF GRAIN RESEARCH LABORATORY, WINNIPEG.

Problems re Grading of Grain.

The laboratory has now completed a large number of careful milling and baking tests on wheat samples of three successive crops. These samples include the standards and averages of each year and a large number of individual samples of all the grades selected from various localities. As the result of tests of this character, accurate information will be available for the use of the Board as to the relative values of the different grades of wheat, and the milling and baking characteristics of the grain grown in different localities. In addition, a large number of tests have been conducted in order to ascertain the comparative values of different varieties of wheat, particularly with reference to Marquis and Fyfe. The character of the wheat now produced in the Western Provinces is very different from that grown a few years ago, due largely to the introduction of new varieties, and it was consequently of great importance to obtain accurate information as to the effects of these new types on the milling and baking qualities of the wheat. The work of the laboratory now in progress includes the accurate determination of the effect of each of certain factors, which cause the grain to be placed in a lower grade than would otherwise be the case, and includes the study of the effect of the presence of green or otherwise immature grains, bleached and weathered grains, slight frost, pink wheat, etc. For example, the Inspector grades wheat containing a small percentage of slightly frosted or bleached grain No. 3 Northern, and the question arises, to what extent does the presence of these imperfect grains, actually impair the milling and baking value of the wheat, and whether the grading down of the grain on account of this factor is really justified. The laboratory is endeavouring to supply definite answers to all of these questions.

Another problem which the laboratory is proposing to study next summer, relates to the proper commercial method of drying tough and damp grain. At present no grade 1° tough cannot be graded higher than No. 3°, but there are many reasons for believing that it would be perfectly feasible to have the grain so dried that there would be no real loss in the milling and baking values, and that consequently, there should be no reason for reducing the grade. The problem of the determination of the proper conditions for the commercial drying of tough and damp grain, and the relative values for milling purposes of the grain before and after drying is now receiving the attention of the laboratory.

Further, the Chief Inspector has forwarded to the laboratory from time to time, samples of grain showing unusual characteristics, so that doubt has arisen as to the proper grading of the particular sample. These samples have been milled and baked, and the results forwarded to the Inspector for his guidance in determining the proper grade in this and in similar cases which might arise in the future.

Also additional problems connected with the grading of flax have been conducted by the laboratory, and are now practically complete. The results will supply definite

7 GEORGE V, A. 1917

information showing the comparative values of the different grades as defined by The Canada Grain Act, thus supplying rational grounds for deciding if the present system of grading flax is equitable or not.

The above outline on the work of the laboratory with reference to the grading of grain indicates the nature of the problems to be solved, and the practical application of the results obtained. Every year samples of grain possessing unexpected peculiarities are met with in the Inspection Department, and the laboratory supplies the information necessary for the proper grading. This year's crop was particularly abnormal on account of the large amount of rusted grain and the laboratory was able to furnish the Chief Inspector with definite information regarding the value of grain of this character. In all cases, samples of the grain tested are preserved and the decision of the Chief Inspector filed, a precedent being thus established for guidance in future cases. By forwarding such samples to the different inspection points, accompanied by the decision of the Inspector, uniformity of grading will thereby be facilitated. Arrangements have been made by the Board for this procedure in future.

A further and more permanent application of the work of the laboratory arises from its forming a scientific basis for amending The Canada Grain Act. It has been amply demonstrated from the results of the laboratory tests that in very many cases at least, the grading is not fair and equitable, not because the inspection is not correct, but because The Canada Grain Act is faulty. The Chemist reports to the Board that the grades as now defined bear no definite relation to their actual milling and baking value, and are more or less arbitrary. After sufficient time has elapsed in order to secure adequate data, the results of the laboratory tests will be available to be used as a foundation for amending the Act, so that many present inconsistencies may be removed, and the methods of grading placed on a more equitable and scientific basis than is now possible.

As a further example of the practical application of the laboratory results, attention may be called to the fact that the Standards Board has requested the Laboratory, through the Board of Grain Commissioners, to have milling and baking tests conducted each year as soon as the new crop starts to come in, the results of which would be used as a basis for setting new standards for the commercial grades. In this way, the work of the laboratory should be of the greatest importance in helping to arrive at a method of grading the inferior wheats according to their actual worth.

But in order that the tests should be of value to the Standards Board, it is absolutely essential that the results should be reported at the earliest possible moment after the crop begins to move, since no unnecessary delay could be permitted in the setting of the standards. Also this is the season of the year which presents the best opportunity of studying the moisture problem, and if this work is to be carried on simultaneously with the work outlined above, an addition to the staff is absolutely necessary. If, on the other hand, the moisture problems were to be abandoned for the time being, in all probability, much of the work already accomplished would be lost, since continuity of the data obtained is an essential factor for the success of the investigation.

Problems re Moisture in Grain.

The laboratory has now conducted a large series of experiments preliminary to obtaining accurate data regarding the problems relative to moisture in grain. It was first necessary to determine the degree of accuracy with which the moisture in grain could be determined, and to report on the best methods for making the determination. Investigation showed that the moisture testers in use at the inspection offices were not reliable, and these were consequently replaced by more accurate apparatus. Repeated tests have shown that these instruments when properly operated can be relied upon to furnish uniform and accurate results at all the inspection points. These machines have now been placed in the inspection offices at Montreal, Fort William, Port Arthur,

SESSIONAL PAPER No. 10d

Winnipeg, Moose Jaw, Saskatoon and Calgary, and the conducting of the tests has been placed under the supervision of the Chemist who has been made responsible for the accuracy of the results. Experience has shown that it is absolutely necessary to inspect the apparatus and the actual conducting of the tests from time to time, in order to see that the instruments are being properly handled and that uniform and accurate results are being obtained at all the offices, and this is now a regular part of the work of the laboratory. Experiments have also been conducted during the summer months to ascertain the keeping qualities of grain in cars and in transit, carrying various percentages of moisture. These experiments were confined to cars en route to Port William and Port Arthur. Valuable information was obtained, but not sufficient to pronounce any decision as to the amount of moisture which the grain can safely carry. Plans are being made to continue these experiments next summer with more suitable apparatus for same and on a more extended scale.

The Chemist is reporting on the feasibility and cost of placing electrical thermometers in the elevator bins at Port Arthur in order to determine the maximum percentage of moisture which the different grades of grain can safely carry without going out of condition. When sufficient data of this character is available it should be possible to state the amount of moisture which could be allowed before the grain should be graded tough.

The practical application of this work is indicated by the brief outline here given. No definite application of the moisture results is at present possible, since the data secured so far is fragmentary and incomplete. It should also be stated that owing to the great complexity of the problems, and the many factors involved, a great deal of careful experimentation, involving the use of delicate and expensive apparatus must be undertaken before a definite answer can be given to the many questions arising from the presence of excessive moisture in grain, but it is only as a result of work of this character that a solution of these difficult problems can be hoped for.

In this connection attention should also be drawn to the proposed United States Federal inspection law for the grading of wheat, in which a definite percentage of moisture for each grade has been laid down, replacing the old method of deciding between tough and straight grade wheat by the mere feel of the hand, which is also now the practice in Canada. This decision has been arrived at as a result of scientific investigation carried on during a great number of years and conducted along similar lines to those proposed by this laboratory of ours. The new proposed grades are defined from a consideration of the results of many thousands of milling and baking tests which the United States Government has been carrying on for upwards of ten years. If the inspection system in this country is to be continued, the old arbitrary method of grading grain must eventually give place to some more rational means based on the results of scientific investigation.

Every effort is being made to make the results of the laboratory work known and appreciated by all who are in any way interested in the grain trade. That the efforts in this direction have not been unsuccessful is evidenced by the great amount of comment and discussion which the laboratory reports as published so far have called forth.

CANADIAN ATLANTIC PORTS AND AUSTRALIA AND NEW ZEALAND.

NEW ZEALAND SHIPPING CO., LTD.

Contract No. 46.

T. & C. File No. 15928.

Vote 148.—Steam service between Canadian Atlantic ports and Australia and New Zealand—

1916-17..	\$140,000
1917-18..	\$140,000

Contractors.—New Zealand Shipping Co., Ltd., of New Zealand. (Canadian address: 213 Board of Trade building, Montreal, Que.)

Contract Dated.—October 15, 1913.

Duration of Contract.—Close of navigation on the St. Lawrence in 1913, to the corresponding time in 1915. The service has since been continued under Orders in Council dated March 24, 1916, July 13, 1916, October 19, 1916, and December 14, 1916.

Service.—Monthly, sailing on or about the 20th day of each month.

Ports of Call.—(a) During the season of open navigation on the St. Lawrence, from Montreal to the ports, or any three of the ports, of Auckland, Wellington, Lyttleton and Dunedin, N.Z., and the ports of Melbourne and Sydney, Aus., calling at such other ports in New Zealand or Australia as the contractors may desire.

(b) During the season of closed navigation on the St. Lawrence, from St. John, N.B., calling at Halifax, and thence proceeding to the ports in New Zealand and Australia mentioned in paragraph (a).

Speed and Capacity Required.—10 knots, each ship to be capable of carrying 7,500 tons at 40 cubic feet to the ton.

Subsidy.—\$140,000 per annum, payable in monthly instalments of \$11,666.66. Under recent Orders in Council the subsidy is \$11,666.66 per voyage as a temporary arrangement.

Cold storage.—Steamers to be fitted with reasonable cold storage accommodation should occasion warrant.

Deduction for Short Cargo.—An average cargo of 5,000 tons on each monthly trip is to be carried throughout the year; and \$2 is to be deducted from the subsidy at the end of each year for every ton short of the total measurement or weight which should have been carried upon such number of sailings as may have been performed, based upon the said 5,000 tons per voyage.

Mails.—To be carried free.

Trade Commissioners.—To be carried free.

Interecolonial Railway Clause.—Included.

THE CANADIAN PACIFIC OCEAN SERVICES, LTD.

Vote 149.—*Ocean and mail service between Great Britain and Canada.*

1916-17..	\$1,000,000
1917-18..	\$1,000,000

Contractors.—The Canadian Pacific Ocean Services, Limited, Montreal, Que.

Contract dated.—December 13, 1916.

Duration of contract.—From the close of navigation on the St. Lawrence, 1916, until the opening of navigation in 1917.

Service.—Making one full round trip each week, or such less number of trips as may be approved by the Minister.

Ports of call.—

1. In Canada—Quebec or Montreal in summer, and St. John or Halifax in winter, at the option of the contractors.
2. In Great Britain—Liverpool; though the ports of Glasgow or London may be substituted with the approval of the Minister.

Mails.—To be carried free. The maximum quantity of mail matter shall not exceed 25,000 cubic feet per single trip; but if the mail matter should exceed this space, the contractors shall be paid for each additional cubic foot a sum proportionate to the sum allowed for the 25,000 cubic feet carried on that particular trip.

The contractors shall also convey between Great Britain and Canada such other mails as may be tendered to them by the proper Postal Authorities to and from Canada, more particularly described in the Canada, China and Japan mail contract, (see page 40), subject however to the same terms and conditions as heretofore mentioned relating to maximum stowage space.

Speed required.—All steamers are to run at their best available speed. It is understood that their respective rates of speed are as follows:—

SESSIONAL PAPER No. 10e

Should any of the steamships owned by the contractors, and named in the Canada—Great Britain Steamship Service contract dated May 7, 1914, be released by H.B.M. Admiralty, each of such steamships shall, as soon as possible, be used to replace one of the steamships named in the above schedule.

Subsidy.—\$11,363.63 for each round voyage, up to a maximum mail stowage space of 25,000 cubic feet, and proportionately for every additional cubic foot.

Cold storage.—The handling, loading, stowing and unloading of any fruit, butter, cheese, meats or other perishable products shall be subject to and under the supervision of a cargo inspector appointed for the purpose by the Minister of Agriculture, Ottawa.

Passenger and Freight Rates.—Passenger fares and freight rates from Canada to ports in the United Kingdom are not to exceed the rates from New York to the same ports on vessels of similar class. There must be no discrimination against Canadian merchants or shippers, or against immigrants to Canada, or against any Canadian port.

Intercolonial Railway Clause.—Not included.

Canadian Trade Commissioners.—To be carried free.

7 GEORGE V, A. 1917

Contract Dated.—September 11, 1913.

Duration of Contract.—November 1, 1913, to October 31, 1918.

Service.—Commencing from St. John, N.B., sailing thence to Halifax, N.S., and sailing thence to Georgetown, British Guiana, every fourteen days, following alternately the itineraries (a) and (b) given below:—

(a) Calling at the following islands: Bermuda, St. Kitts, Antigua, Montserrat, Dominica, St. Lucia, St. Vincent, Barbados, Grenada and Trinidad, and returning from Georgetown to St. John, calling at Trinidad, Grenada, Barbados, Antigua, St. Kitts and Bermuda.

(b) Calling at the following islands: Bermuda, St. Kitts, Antigua, Barbados, Grenada and Trinidad; and returning from Georgetown, calling at Trinidad, Barbados, St. Vincent, St. Lucia, Dominica, Montserrat, Antigua, St. Kitts and Bermuda.

These itineraries may be subject to any change which may be mutually agreed upon between the minister and the contractors.

Ports of Call.—As above.

Speed required.—11 knots.

Subsidy.—£70,000 (\$340,666.66) per annum, based on payments of £2,692 6s. 2d. (\$13,102.56) for each complete round voyage, payable on the last day of each month.

Canadian Trade Commissioners.—To be carried free.

Mails.—To be carried free.

Intercolonial Railway Clause.—Included.

Freight charges from St. John to Halifax.—The contractors are required, at their own expense, when so required by consignors, to pay the freight charges by rail from St. John to Halifax on butter, cheese, and fruit intended for shipment by the contractors' steamships.

Delay at Ports.—The contractors must make every reasonable effort to avoid undue delay at Canadian or West Indian ports.

Development of Trade.—The contractors must use their utmost endeavour to develop the cargo and passenger trade between Canada and the British West Indies by means of reasonable advertising and regular solicitation through agents.

Through Rates of Freight.—The contractors must use their best endeavours to arrange through rates of freight between inland points in Canada and the various ports of call referred to in this contract in the British West Indies and Central and South America.

Transfer by connecting lines.—As the design of this agreement is to give regular fortnightly communication both ways to all the ports previously mentioned, arrangements must be made for the transport of freight and passengers on all voyages south bound and north bound by transfer to the lines of the contractors' steamers conducting the insular service from and to Trinidad, and at the rates obtaining for the direct service.

No discrimination.—No discrimination of any kind as regards freight and passenger rates may be made in favour of any merchant, shipper or importer in any one of the British colonies referred to herein, as against any other merchant, shipper or importer in the same colony.

SESSIONAL PAPER No. 10e

Through Bills of Lading.—Through bills of lading must be issued from any Canadian point of shipment to any port in Central or South America, which is a regular port of call for any of the steamships employed or controlled by the contractors on other services, and which make regular connections with the service herein contracted for.

PACIFIC OCEAN SERVICES.

CANADA AND AUSTRALIA OR NEW ZEALAND.

UNION STEAMSHIP COMPANY OF NEW ZEALAND, LTD.

Contract No. 27.

T. & C. File No. 16490.

Vote 160.—Steam Service between Canada and Australia or New Zealand, or both, on the Pacific Ocean—

1916-17..	\$180,509
1917-18..	\$180,509

Contractors.—The Union Steamship Co., of New Zealand, Ltd.

(Canadian address: Canadian Australasian Royal Mail Line, 440 Seymour Street, Vancouver, B.C.)

Contract Dated.—July 12, 1916.

Duration of Contract.—August 1, 1916, to July 31, 1917.

Service.—Sailing every four weeks.

Ports of Call.—Vancouver, B.C., Victoria, B.C., Honolulu, in the Sandwich Islands, Suva, in the Fiji Islands and Auckland, N.Z.

If required by the Minister, each voyage from Canada to New Zealand shall be extended to a port or ports in Australia.

The call at Suva is conditional upon the Government of Fiji also continuing their contract for a like period and on the same terms as heretofore, and also upon their maintaining the same charges for light and other dues levied on ships employed in the service.

Speed required.—Duration of voyage is not to exceed 20 days, including one day's detention at Honolulu.

Subsidy.—£37,000 18s. 2d. per annum.

Provided that the contractors shall be entitled to receive such subsidy as the Governments of New Zealand and Fiji may pay towards the service; and also the Government of Australia, should the service be extended to that Commonwealth.

Deductions from Subsidy.—£30 are to be deducted from the amount of subsidy payable on each claim for every complete period of twenty-four hours by which the time occupied in conveyance of the mails between Auckland and Vancouver has exceeded twenty days.

Preference to Canadian Shippers.—No discrimination as regards freight or passenger rates is to be made against Canadian ports, railways, merchants or shippers. Canadian merchants and shippers are to have preference at all times for the carriage of their goods over other merchants and shippers, as far as regards the Canadian connection.

Mails.—To be carried free.

Canadian Trade Commissioners.—To be carried free.

Contractors.—The Canadian Pacific Railway Company, of Montreal, Que.*Date of Contract.*—April 13, 1916.*Duration of Contract.*—March 1, 1916, to March 31, 1917.

Service and Ports of Call.—Subsidy is paid for a mail service every two weeks in each direction all the year round, between Atlantic and St. Lawrence River ports in Canada, and Hong-Kong, China, via Halifax or St. John (in winter) or Quebec (in summer) and Vancouver.

On the voyages in each direction between Vancouver and Hong-Kong the steamers must call at Yokohama on every trip; and at Woo Sung (for Shanghai) on every east-bound trip, and at least once on each alternate westbound trip. They may also call, at the option of the company, at Victoria, Nagasaki, Kobe, Shimidzu and Manila: and at Amoy or other ports in China.

During the winter months the contractors are not to be held responsible for delays to mails in transit over the Intercolonial Railway between Halifax and Montreal, provided such delays are solely due to the management of the Intercolonial Railway, or resulting from causes beyond the control of the said railway or the contractors.

Annual overhaul.—Any of the steamships engaged in this service may be laid off for annual overhaul, provided that substitute steamers are approved of by the Minister of Trade and Commerce, at or before the time of such withdrawal.

Landing and embarking mails at Shanghai.—The contractors shall supply a small steam vessel at Shanghai for the purpose of landing and embarking mail to and from steamers lying at the anchorage at the mouth of the Woosung River.

Mails.—To be carried free.

Periods of Transit.—All mails conveyed under this contract shall be carried between Canada and Hong-Kong, in either direction, as expeditiously as possible under existing circumstances brought about by the war.

Canadian Trade Commissioners.—To be carried free.

Passenger and Freight Rates.—No toll or rate for either passengers or freight shall be charged which discriminates against Canadian passengers, merchants or shippers or against one or more of the Canadian ports on the Pacific Ocean, nor shall such rates for either passengers or freight be in excess of the rates charged on steamships of a similar class from United States ports on the Pacific Coast.

MAINLAND AND MAGDALEN ISLANDS.

MAGDALEN ISLANDS STEAMSHIP CO., LTD.

Contract No. 12.

T. & C. File No. 16142.

Vote 180.—Steam Service from the opening to the closing of navigation in 1917 between the mainland and the Magdalen Islands—

1916-17..	\$18,000
1917-18..	\$18,000

Contractor.—The Magdalen Islands Steamship Co., Ltd.

Date of Contract.—March 31, 1916.

7 GEORGE V, A. 1917

Duration of Contract.—From the opening of navigation in 1916 to the closing of navigation, 1917.

Service.—Semi-weekly until the closing of navigation at Pictou each year. From such closing of navigation the service shall be continued from some port in Cape Breton to such port or ports in the Magdalen Islands as the Minister may approve, until the closing of navigation at the Magdalen Islands. Calls at Grand Entry need not be made after the end of September in each year.

Ports of Call.—Pictou, Souris, Amherst Island, Point Basse and Grindstone Island, calling at Etang du Nord and Grand Entry once each week; such weekly calls to be made on alternate trips; calling once each month during June, July, August and September at Bryan Island. Whenever the weather will not permit of the landing of mails and cargo at Etang du Nord, the mails for House Harbour and Etang du Nord shall be landed at Grindstone Island, and the steamer shall remain there long enough to allow such mails to be carried to House Harbour and Etang du Nord and return; and in such cases the steamer shall call at Etang du Nord on the following trip. Calls shall also be made at such other ports or places en route as the Minister may from time to time direct.

Government Wharves.—Steamer must call whenever possible.

Subsidy.—\$18,000 per annum, payable in July and October, and on the close of navigation.

Mails.—To be carried free.

Contractors.—The Valley Steamship Co., Ltd., of Granville Ferry, N.S.

Date of Contract.—March 31, 1916.

Duration of Contract.—April 1, 1916, to March 31, 1917.

Service and Ports of Call.—A weekly service between St. John, N.B., Annapolis Royal and Granville Ferry, N.S., calling on all trips both ways at Victoria Beach and Littlewoods Wharf (opposite Goat Island), and when tide and weather will permit continuing such trips to Granville Centre, with the privilege on the part of the contractors of further extending the route to Bridgetown, N.S.

During the winter months, in case the ice will not permit the running of the vessel up the Annapolis basin and river, the trip from St. John shall be allowed to terminate at Digby.

Repairs.—The contractors have the right at any time to withdraw the steamer for a period of two weeks, and also in addition thereto for a period not exceeding 14 days, for the purpose of inspection or repairs, and may also replace it with another steamer subject to the approval of the minister.

Government Wharves.—Steamer must call whenever possible.

Mails.—To be carried free.

Contract No. 32.

T. & C. File 14373.

1916-17..	\$200,000
1917-18..	200,000

Contractors.—H. and A. Allan, of Montreal, Que.

Date of Contract.—February 9, 1912.

Duration of Contract.—From the opening of navigation, 1912, to the opening of navigation, 1917.

Service.—Not less than fifteen round voyages, or more than thirty round voyages, yearly between Canada and France, with not less than three of the following steamships: *Scotian*, *Ionian*, *Lake Erie*, *Corinthian*, *Sicilian*, *Pomeranian* and *Sardinian*.

The *Pomeranian* and *Sardinian* shall only be employed in the service upon obtaining the approval of the minister therefor, and then only during the season of closed navigation in the St. Lawrence river.

7 GEORGE V, A. 1917

Not less than three of the above steamships are to be employed, each of which shall not be less than 3,000 tons gross, with a carrying capacity of 4,500 tons for freight, and with such cold storage accommodation as the minister may require.

From May to November, inclusive, in each year, there shall be run not less than two full round voyages each month, and during the remaining months of December to April, inclusive, the remaining voyages shall be performed.

Ports of Call.—Terminal ports in Canada:—

During the season of St. Lawrence navigation, Montreal or Quebec.

During the season of closed navigation on the St. Lawrence, Halifax or St. John, at contractor's option, subject to the approval of the minister.

Ports of call in France, upon each eastbound or westbound trip: Cherbourg or Havre, or both, at the option of the contractors. Each eastbound trip may be extended, at the option of the contractors, to a port or ports in Great Britain; provided that the first port of call after leaving Canada shall be a port in France, and that the last port of departure for Canada shall also be a port in France.

Speed Required.—A minimum of 10 knots. The average speed of all the steamships engaged in the service in any one year shall not be less than $12\frac{1}{2}$ knots. And at the conclusion of each year's service, if the said average speed has not been attained there shall be a pro rata deduction in the total subsidy for the year otherwise payable of \$555.55 per knot for each knot (and so in proportion for each fraction of a knot) less than $12\frac{1}{2}$ knots, such deduction to apply to each voyage of the steamships engaged in the service.

Subsidy.—\$5,555.55 for each round voyage completed at an average speed of 10 knots, and \$555.55 extra for each knot exceeding 10 knots; provided that the total amount of subsidy claimed or paid for each year's service shall not exceed \$200,000.

Subsidy is payable quarterly, in July, October, January and April.

The average speed of all the steamships engaged in the service in any one year shall not be less than $12\frac{1}{2}$ knots; and at the conclusion of each year's service, if the said average speed has not been attained, there shall be a pro rata deduction in the total subsidy for the year otherwise payable of \$555.55 per knot for each knot (and so in proportion for each fraction of a knot) less than said average speed of $12\frac{1}{2}$ knots, such deduction to apply to each voyage of the steamships engaged in the service.

Freight Rates.—The rates charged for freight to or from any Canadian port included in this contract shall not exceed the rates charged by regular passenger steamers of the same class to or from New York, Boston or Portland, and the minister may at time revise the rates if he deem it advisable.

No discrimination of any kind shall be made against Canadian merchants or shippers, who shall always have precedence for their freight and goods over all other merchants and shippers.

Intercolonial Railway Clause.—Included.

Canadian Trade Commissioners.—To be carried free.

Mails.—To be carried free.

SOME CLAUSES COMMON TO ALL CONTRACTS.

NOTE.—Some of the principal sections common to all contracts, and as such hereinbefore frequently referred to, read as follows:—

Proof of Performance of Service to be Furnished.

The contractors shall furnish and establish at their own expense the necessary agents required for the efficient performance of this contract, and shall with diligence as soon after the completion of each voyage as may be, furnish to the Minister full and complete copies of the manifests of the cargoes and lists of passengers carried on each voyage, duly certified by the proper officers of customs, and also such other documents, information and evidence as may be reasonably required by the Minister to show the volume, extent and value of the trade carried on by the said steamers and the full performance of their part of services, requirements and conditions of this contract, in order to enable him to judge as to whether the terms of this contract have been or are being fully and faithfully carried out and complied with, within the true intent and meaning thereof, and his decision in that respect shall be binding, final and conclusive; and the furnishing of such certificates, documents and evidence as hereinbefore specified shall be a condition, precedent to the payment of the subsidy herein provided for, or any portion thereof, and if in the opinion of the Minister, all the terms of this contract have not been fully complied with by the contractors he may deduct from the subsidy otherwise payable such portion thereof as he may deem fit and proper, taking into consideration all the circumstances connected therewith, and the contractors shall at all times during the continuance of this contract well and faithfully abide by and conform to all such requirements as may be made by the Minister with regard to the said steamers in the performance of this contract.

Financial Statements.

It is further understood and agreed that the contractors whenever so required shall furnish the Minister with such financial statement or statements as he may desire from time to time respecting all revenues derived from and all expenditures in connection with the conduct of the service herein provided for.

British Subjects.

It is further understood and agreed by the contractors, that two-thirds of the total number of officers, engineers, stewards, crew or other employees whatsoever upon the steamships engaged in the performance of the service herein contracted for, shall be British subjects, but the non-observance of this clause shall not constitute a violation of this contract, in such individual cases as may from time to time be approved by the Minister in writing.

Equipment of Steamers.

The steamers to be employed as herein specified, shall at all times during the continuance of this contract be fully seaworthy, well-officered, manned, victualled, equipped, provided and furnished, having regard to the service which the contractors have hereby undertaken to perform; and shall have ample and suitable accommodation for the passengers, mails and freight to be carried over the route specified; and shall at all times, carry boats and life-saving appliances in compliance with the law, and shall be in all respects subject to the approval of the Minister.

SESSIONAL PAPER No. 10e

Carriage of Mails.

The contractors shall during the performance of this contract, convey on each and every trip of the steamers performing the aforementioned services, both on outward and homeward voyages, all such mails as shall be tendered to the proper officers or persons in that behalf on the said steamers by or on behalf or under the direction of the postal authorities of Canada, or those at the terminal port or ports of call herein referred to, and shall deliver all such mails at their proper destination at the terminal port or ports of call above referred to; and the expenses of carrying such mails from the post offices or railway stations to the steamers and from the steamers to the post offices or railway stations at the terminal ports and at the ports of call shall be borne by the contractors, who will be subject to all general and special regulations now or hereafter existing during the continuance of this contract in connection with the postal service. For the conveyance of all such mails no payment shall be made or required over or beyond the amount of subsidy herein mentioned or provided for.

Accommodation for Mails.

The said steamers shall be provided with sufficient and convenient accommodation and protection for all such mails, to the satisfaction of the Honourable the Postmaster General of Canada for the time being, and the contractor shall further take all reasonable and necessary precautions for the protection of such mails, while upon the said steamers or while in the contractor's charge or custody, from loss, damage or injury, in any way, and the contractors shall be responsible for any loss or damage thereto caused by negligence or want of proper care or accommodation on the part of the contractors, their agents or servants or on the part of the officers, employees or crew on board the said steamers, and this without regard to any question, as to the legal liability of the Postmaster General to the owners of the articles of mail matter contained in such mails for damage or loss sustained in transit.

Definition of term "Mails."

The expression "mails" for the purpose of this contract shall be deemed to mean and include all boxes, bags, baskets or packets of or containing letters, post cards, newspapers, parcels, books, or printed papers, and all other articles which under the Post Office Act and postal regulations for the time being in force are transmissible by post in Canada, without regard to place either of origin or destination, and also all empty bags, empty boxes and other receptacles, stores and articles used or to be used in carrying on the post office service, or which shall ordinarily be sent by or to or from the offices.

No Letters except H. M. Mails to be Carried.

The contractors shall not, nor shall any of their agents or servants, or officers or crews of the said steamers receive or permit to be received on board of the said steamers any letters for conveyance other than those contained in His Majesty's mails, or which are or may be privileged by law, nor the mails of any other country, except such as are specified by the Postmaster General of Canada for the time being.

Government officials to be carried free of Charge.

The Honourable the Postmaster General of Canada, or the Honourable the Minister of Trade and Commerce for the time being, or any inspector or officer of the Post Office Department or the Department of Trade and Commerce, who may in the execution of his duty travel in the said steamers, shall be carried free of charge.

7 GEORGE V, A. 1917

Proper accounts to be Kept.

The contractors shall keep full and proper accounts of and in connection with the working of this service, and shall keep such accounts separate and distinct from any other accounts of or connected with other branches of their business; and in any contingency which, in the opinion of the minister, may render such a course necessary, the contractors shall allow any officer or officers named by the minister free access to such accounts and all books, papers and documents connected therewith.

Substitute for Disabled Steamers.

It is understood that if the said steamer shall be by peril of the sea or other unavoidable casualty, lost, destroyed or temporarily disabled from performing the voyages herein agreed to be performed according to the true intent and meaning of these presents, the contractors may in such case as soon as reasonably may be, having regard to the circumstances, replace the said steamer by another of equal class, speed, equipment, character and capacity to the satisfaction and approval of the minister in case the said steamer has been only temporarily disabled, and continue the service herein contracted for with such substituted or repaired steamer with as little delay as possible under all circumstances.

Freight and Passenger Tariffs—Proof of Performance of Service to be Furnished.

The contractors shall carry on each steamer running under this contract, according to its capacity, on all voyages, all the freight and passengers which may be reasonably offered or obtained, and at tariff rates, both as to passengers and freight, which may be from time to time approved by the minister; and the contractors shall furnish to the minister such documents, information and evidence as may be required by the minister, to show the volume, extent and value of the trade carried on by the said steamer, and such customs certificates, documents and evidence as may be necessary or as may be required by the minister to prove the performance of the service herein contracted for, and to enable the minister to judge as to whether this contract is being carefully and faithfully carried out and performed and the furnishing of such certificates, documents, information and evidence, as hereinbefore specified, shall be a condition precedent to the payment of the subsidy herein provided for or any portion thereof.

Deductions from Subsidy—Time-tables to be furnished—Docking Disabled Steamers.

Provided, however, that it is the true intent and meaning of these presents that no amount or instalment of subsidy shall be payable or be paid at any time, unless it appears to the satisfaction of the Minister that up to the time of such instalment becoming due, as herein stipulated, the service herein described and defined has been fully and faithfully performed, and that all provisions and stipulations as to freight and freight rates and dates of sailing have been in all respects faithfully observed and carried out, according to the true intent and meaning of these presents; and it is understood and agreed to be a further condition of these presents that the contractor's shall at least two weeks prior to the first sailing under this contract furnish to the Minister time-tables showing the proposed sailings, and upon the same being approved by the Minister, they shall be duly advertised in such manner as he may direct; and it is also agreed that in case either of the steamers herein named, or a substituted steamer sanctioned by the Minister, does not sail from a terminal port as herein specified within of the date fixed by such time-tables, there shall be deducted from

SESSIONAL PAPER No. 10e

the amount of subsidy payable for such voyage a sum equal to one-tenth of the amount otherwise payable for the performance of such voyage, and so in proportion for further delays or failure to sail from such terminal port. Provided, however, that the Minister may authorize any vessel to sail either at an earlier or a later date than that specified in such time-tables should the for any reason deem it advisable to do so; it being understood and agreed that, in the event of any of the said steamers being at any time so disabled as to be obliged to be docked for repairs, the failure to perform the terms of this contract owing to such accident and for the time reasonably occupied in the repair of the damaged steamer, shall not be taken as a default or breach of the stipulations of this contract, or subject the contractors to deductions as above from the amount of the subsidy, if any, payable for any voyage delayed in consequence of such docking for repairs, but there shall be no claim for nor payment of any subsidy in respect of any voyage not actually performed.

Freight and Passenger Rates to be Approved by the Minister.

(Inserted in contracts for ocean services only.)

The contractors shall at least three weeks prior to the first sailing under this contract, furnish to the Minister a schedule of the freight rates proposed which schedule shall be subject to the approval of the Minister, and after being approved by him shall not be changed except with his consent; and the Minister may at any time, if he deem it advisable, fix the maximum rates to be charged between the different ports, on both east and westbound trips, on any article or class of goods, and the contractors shall carry between the ports hereinbefore named, on all voyages of the said steamships employed under the terms of this contract, all passengers or freight that may be offered or that can reasonably be procured, at rates which shall not be in excess of such maximum rates as fixed by the Minister, should he deem it advisable to so fix such maximum rates, and in no case shall any discrimination be made as regards rates, or otherwise, directly or indirectly, against Canadian merchants, or shippers, who shall always have precedence for their freight and goods over all other merchants and shippers; and it is agreed and understood that the freight rates on eastbound trips, sailing from _____ or _____ as hereinbefore provided, on through bills of lading _____ from any place in the provinces of Ontario and Quebec, or from any Canadian points farther west, shall in no case be greater than from the same place to _____ via any United States route or port; and on westbound trips the rates from _____ to any place in Ontario or Quebec, or other Canadian points farther west, shall be as favourable as via any United States route or port to the same place; and it is further understood and agreed that the said steamers shall not carry between the ports of _____ or _____ aforesaid, on any voyage run under the terms of this contract, either deals or lumber or timber to a greater extent than fifty per cent of the total quantity of the cargo carried on such voyage and such quantity only in case other Canadian products are not offering or cannot be obtained. Provided, however, that in the event of other cargo not being obtainable, satisfactory evidence of the fact being furnished to the Minister, then the contractors shall be allowed to make up the balance of the cargo with deals, boards or timber.

Publicity of Tariff Charges.

The freight and passenger rates charged by the contractors over said route may at any time be required to be approved of by the Minister, whose decision shall be final, and the said freight and passenger rates shall be made available at all times to the public at the head office and the agencies of the contractors.

Calls at Foreign Ports.

The steamer employed in carrying out the provisions of this contract shall not on any of its trips call at any foreign port not specified in this contract.

7 GEORGE V, A. 1917

Carrying of nitro-glycerine or dangerous articles.

The contractor shall not convey or permit to be conveyed in any steamer while employed in this service any nitro-glycerine or any other article which in the opinion of the Minister shall be considered dangerous.

Subsidy subject to vote of Canadian Parliament.

It is conditioned, declared and agreed that the payment of subsidy, as hereinbefore stipulated, is subject to the amount specified being provided for the purpose by a vote of the parliament of Canada, and that if no amount is voted for the purpose, or if any amount voted has become exhausted in payment thereof, and no further sum is voted for the purpose, this contract or agreement shall terminate and become void and of no effect, and the party of the first part shall not in consequence be held liable to damage.

Minister's right to Terminate Contract.

It is declared to be the true intent and meaning of these presents, that the Minister shall have the right at any time during the continuance of this contract, upon 20 days' notice in writing to the contractors, their successors or assigns, to terminate this contract, and every matter and thing herein contained, if it shall appear to the Minister that there has been any breach on that part of the contractors, their successors or assigns, of any of the covenants, agreements, stipulations or provisions herein contained and entered into on the part of the contractors; and it is declared and agreed that the Minister shall at all times be the sole and final judge as to whether there has been any such breach, and his decision shall be absolute, final and conclusive.

Assignment of Contract.

This contract shall not, nor shall any right or interest therein be assigned without the consent in writing of the Minister to such assignment having been first obtained.

Canadian Members of Parliament not Admitted to Share in Contract.

It is a condition of these presents that no member of the House of Commons of Canada shall be admitted to any share or part of this contract or agreement nor to any benefit to arise therefrom.

Changes in Contract.

The minister may authorize any change or changes in the terms of this contract as may not be inconsistent with the vote providing for the payment of the subsidy.

Minister to be final judge as to full carrying out of contract.

The minister shall at all times be the judge as to whether the terms of this contract have been or are being fully and faithfully carried out and complied with within the true intent and meaning thereof, and his decision in that respect shall be binding, final and conclusive.

SESSIONAL PAPER No. 10e

Transportation of Trade Commissioners.

(Inserted in contracts for ocean services.)

The Canadian Trade Commissioners and their wives, children and servants, or Canadian Commercial Agents, shall be granted free transportation, meals included, with first-class accommodation and free transportation for their household effects, upon any steamships employed by the contractors in the performance of this contract when requested so to do by the Minister, and when the said Commissioner or Commercial Agent is travelling upon his official duties or being transferred from one official post to another.

Intercolonial Railway Clause.

(Inserted in contracts for Atlantic ocean services.)

It is hereby agreed by the contractors that as the aid herein expressed and provided for by the Canadian Government is for the express purpose of encouraging the development of Canadian trade and the transportation of Canadian goods through Canadian channels the Company accepts the aid on these conditions, and agrees that all freight booked or carried by the said steamships from a port in the United Kingdom and during the time these make Halifax or St. John their terminal port, shall, when not otherwise expressly routed by shippers or consignees, be delivered to the Intercolonial Railway at Halifax or St. John for shipment to final destination in Canada, provided that the rates demanded by the Intercolonial Railway shall not be in excess of the rates charged by any other railway company from said ports to final destination in Canada.

(a) Contractors are to hand over to the Intercolonial Railway at Halifax passengers for points in the Maritime Provinces or the Province of Quebec, providing the route of such passengers is controlled by the contractors and that they are not otherwise routed. It is further agreed that the contractors through their agents in Canada shall see that they have all such freight for export as may be secured by them for a port in the United Kingdom at which the subsidized line may call delivered to the Intercolonial Railway at Montreal.

Calls at Government Wharves.

(Inserted in contracts for local services.)

In consideration of the subsidy herein stipulated the contractors agree to call at all Government wharves when such is practicable and when such wharves are available.

Handling of perishable products.

(Inserted in contracts for Atlantic ocean services.)

The handling, loading, stowing and unloading of any fruit or perishable products carried by the said vessels shall be subject to and under the supervision of any cargo inspector or other officer appointed for that purpose, should the Minister of Agriculture for Canada deem it advisable.

EXPLANATORY NOTE.

The publication of Part VII of the Annual Report of the Department of Trade and Commerce for 1916 has been postponed for several months beyond the usual time of issue because of delays in receiving the information necessary for its compilation. Since the outbreak of the war a number of countries have suspended publication of trade statistics, and the issuing of reports by certain other countries has been greatly delayed. It was in order to obtain as many returns of such countries as possible that the printing of Part VII was postponed. Much advantage was secured by the delay, as the report now appears with the latest statistics from several countries which would not have been available had publication been at the usual time.

In the cases of countries from which no returns have been received since the last publication of this report, it was impossible to do otherwise than reprint the statistics given in the previous volume.

Inasmuch as the trade of the whole world has been under abnormal influences for the past three years, and as late statistics from a number of countries are not available, it has been thought best not to bring up-to-date the table on page X, but rather to retain in it the last statistics of a pre-war period. Any other course would have destroyed the value of the statement for purposes of comparison.

COINAGE, WEIGHTS AND MEASURES.

To assist in arriving at a comprehensive understanding of the value of foreign currencies, weights and measures (as expressed in foreign trade returns, tariffs, etc.), as compared with those of Canada, tables have been prepared as follows:—

As regards those of Canada, the law provides that the denominations of money in the currency of Canada shall be dollars, cents and mills, the cent being the one-hundredth part of a dollar, and the mill one-tenth part of a cent.

That—The currency of Canada shall be such that the British sovereign (the pound sterling), of legal weight and fineness, shall be equal to four dollars eighty-six cents and two-thirds of a cent.

In like manner the law provides as respects weights, that the unit shall be the standard pound (avoirdupois) of 7,000 grains, one-sixteenth part of the standard pound shall be an ounce ($437\frac{1}{2}$ grains) one hundred pounds a cental, and two thousand pounds a ton, and that 480 grains shall be an ounce troy.

As regards measures—That the unit or standard measure of capacity, as well for liquids as for dry measures, shall be the gallon containing ten standard pounds weight of distilled water weighed with the water and air at a temperature of 62 degrees Fahrenheit, with the barometer at thirty inches, that the quart shall be one-fourth part of the gallon, and the pint one-eighth part of the gallon, and that eight gallons shall be a bushel.

This gallon, commonly known as the “Imperial gallon”, contains 277·274 cubic inches, or 353·036 cylindrical inches.

The standard measure of length is the yard, one-third part of which it is provided shall be a foot, and the twelfth part of such foot shall be an inch.

In many countries the Metric system of weights and measures has been adopted. A separate table of Canadian equivalents of these is given in order to avoid repetition, the word “Metric” being used in the general table in each case where the system is in vogue, as indicating a reference to that table.
