198. Return showing:—1. Whether the Government have taken cognizance of the following article published in the Montreal "Gazette" on November 1, 1915:—"Canadian Help Comes from Sale of Gift Flour. Foodstuffs not Needed by the English Poor were Bought for Belgian Relief.—Funds to Aid East Coast.—Hon. Walter Long Suggested to Canadian Government that \$750,000 be Allotted, and Latter Agreed.—(Special cable from the "Gazette's" resident staff correspondent.)
- "London, October 31,—'Canada's aid to the east coast towns of England, which are suffering through the war, is the subject of some misconception,' said Sir George Perley to-day. In a statement in the Commons, Hon. Walter Long said that the necessary funds for a Government scheme of help for hotel and lodging house keepers had been generously provided by the Canadian Government. This gave rise to the idea that the Dominion was taking a new step, but the fact is that no money is coming from Canada. Of the flour sent by Canada a year ago to relieve distress in England, very little was distributed, as poverty was in no way abnormal. Some 400,000 bags of this flour were transferred to the American committee for Belgian relief, which purchased them. The money paid for this flour being in the hands of the Local Government Board, Hon. Walter Long, as President of the Board, suggested to Sir George Perley that this might be utilized for the relief of the east coast towns where the season had been ruined owing to the lack of railway facilities and the disinclination of the public to visit the east coast because of the possibility of German naval or aerial raids. The Dominion Government acquiesced in this proposal, and the sum of \$750,000, part of the proceeds of the sale of the flour, has now been allotted for this purpose. Canada's generosity will therefore go to alleviate the distress of a large number of better-class people, who are direct sufferers from the war, instead of the destitute poor, for whom it was intended, but who, it develops, were not in need of it." 2. Whether the said article is accurate. If not, in what respect it is inaccurate. Presented March 20, 1916.—*Mr. Papineau*.
Not printed.
- 198a. Return showing:—1. Whether the Government is aware that the following extract from an article was published on the 12th January, 1915, in the Montreal "Gazette":—
- "Distress Caused in England by War is Negligible.—Comparatively Small Portion of Colonial Gifts Used for National Relief.—Much Went to Belgians.—War Office also took Large Share.—Salvation Army has Scheme Requiring Canadian Co-operation.—(Special cable from the "Gazette's" resident staff correspondent.)
- "London, January 11.—Very satisfactory evidence of the comparative absence in England of any distress caused by the war is furnished by a report on the special work of the Local Government Board arising out of the war, which was issued to-day as a White Paper. The action by Noel Kershaw, dealing with the disposition of the gifts from the Colonies, shows that only a small part of the goods allocated has been required for relieving the distress of civilians.
- "The following is the disposition of the 940,530 bags of flour received from Canada: To the local committees for the relief of distress, 90,474; to the Belgian Refugees Committees, 1,691; transferred to the War Office, 99,760; further offer to the War Office, 300,000; to the Belgian Relief Commission, 443,886; sold, owing to damage, 4,719." 2. Who had charge of accepting delivery and the shipping of this flour. 3. Whether the Government have any information of the shortage of 59,430 bags of flour, alleged in said article. If not, what became of the flour that was short. Presented March 20, 1916.—*Mr. Papineau* *Not printed.*

EXPLANATORY NOTES, PART II.

The term "Entered for Consumption" is the technical term in use at the custom-house, and does not imply that the goods have been actually consumed in Canada, but that they have passed into the possession of the importer and that duty has been paid on that portion liable for duty.

The value given for goods imported is the fair market value thereof, when sold for home consumption, in the principal markets of the country whence and at the time when the same were exported directly to Canada.

The term "The Produce of Canada" includes all imported articles which have been changed in form or enhanced in value by further manufacture in Canada, such as sugar refined in Canada from imported raw sugar, flour ground from imported wheat, and articles constructed or manufactured from imported materials.

The term "Goods not the Produce of Canada or Foreign Articles" applies to the exports of foreign goods which had been previously imported.

The value of "Goods the Produce of Canada" is their value at the time of exportation at the ports of Canada whence shipped.

The value of "Goods not the Produce of Canada" is the actual cost of such goods.

The initials N.E.S. mean "not elsewhere specified".

" N.O.P. mean "not otherwise provided for".

The expression "Ton" means two thousand pounds, and "Cwt" one hundred pounds.

The expression "Standard hundred", when applied to deals, means 2,750 feet board measure.

The expression "Ton", applied to square timber, means 40 cubic feet.

EXPLANATORY NOTES, PART III.

The term "Entered for Consumption" is the technical term in use at the custom house, and does not imply that the goods have been actually consumed in Canada, but that they have passed into the possession of the importer and that duty has been paid on that portion liable for duty.

The value given for goods imported is the fair market value thereof, when sold for home consumption, in the principal markets of the country whence and at the time when the same were exported directly to Canada.

The term "The Produce of Canada" includes all imported articles which have been changed in form or enhanced in value by further manufacture in Canada, such as sugar refined in Canada from imported raw sugar, flour ground from imported wheat, and articles constructed or manufactured from imported materials.

The term "Goods not the Produce of Canada or Foreign Articles" applies to the exports of foreign goods which had been previously imported.

The value of "Goods the Produce of Canada" is their value at the time of exportation at the ports of Canada whence shipped.

The value of "Goods not the Produce of Canada" is the actual cost of such goods.

The initials N.E.S. mean "not elsewhere specified."

The initials N.O.P. mean "not otherwise provided for."

The expression "Ton" means two thousand pounds, and "Cwt" one hundred pounds.

The expression "Standard hundred," when applied to deals, means 2,750 feet board measure.

The expression "Ton," applied to square timber, means 40 cubic feet.

SESSIONAL PAPER No. 10c

ANNUAL REPORT OF MR. G. O. BUCHANAN, SUPERVISOR OF
LEAD BOUNTY CLAIMS.

KASLO, B.C., January 10, 1916.

F. C. T. O'HARA, Esq.,
Deputy Minister,
The Department of Trade and Commerce,
Ottawa.

SIR,—I have the honour to report, that the price of lead in London, has ranged from £18 5s. on January 22, to £30 5s. on December 30 of the year 1915.

As these prices are above the limit at which bounty is paid, no claims for bounty have accrued during the year.

The only lead smelter in operation in Canada during the year has been that of the Consolidated Mining and Smelting Company of Canada, Limited, at Trail, B.C.

The receipts of lead in ore for 11 months, to November, 1915, have been 40,352,756 pounds. I estimate that the receipts for December have been 4,000,000 pounds, making a total for the year of 44,352,756 pounds, or some 7,000,000 pounds less than the receipts for 1914. More than one-half of this has been the output of the Sullivan mine. The low price of silver and the lack of smelting facilities for zinc, have combined to keep many of the mines in idleness.

In view of the long continued range of high prices, and the probability that these will continue until the end of the war, the office of the supervisor has been closed, and the salary reduced to a small retaining fee.

I have the honour to be, Sir,
Your obedient servant,

G. O. BUCHANAN,
Supervisor of Lead Bounty Claims.

ANNUAL REPORT OF MR. J. C. WADDELL, INSPECTOR OF
BINDER TWINE AND CORDAGE BOUNTY CLAIMS.

PETROLEA, ONT., January 31, 1916.

F. C. T. O'HARA, Esq.,
Deputy Minister,
The Department of Trade and Commerce,
Ottawa.

SIR,—As Inspector of Binder Twine I beg to hand you herewith my annual report for the calendar year 1915.

Having during the year visited all the factories and principal twine centres, I beg to report that I find all the twine conditions very satisfactory. The manufacturers have during the year manufactured a very large quantity of binder twine, a greater quantity than in 1914, and I find the twine to be of a high standard of quality, and to give good results.

The total output for the year amounts to fifteen thousand seven hundred and seventy-eight (15,778) tons, an increase of four thousand tons for the year.

The firms manufacturing twine are as follows:—

Consumers Cordage Company, Montreal and Halifax.
Plymouth Cordage Company, Welland, Ont.
Brantford Cordage Company, Brantford, Ont.
All of which is most respectfully submitted,

I have the honour to be, Sir,
Your obedient servant,

J. C. WADDELL,
Inspector of Binder Twine, etc.

SESSIONAL PAPER No. 10c

ANNUAL REPORT OF MR. J. C. WADDELL, SUPERVISOR OF CRUDE
PETROLEUM BOUNTY CLAIMS.

PETROLEA, ONT., January 31, 1916.

F. C. T. O'HARA, Esq.,
Deputy Minister,
The Department of Trade and Commerce,
Ottawa.

SIR,—As Supervisor of Crude Petroleum Bounties I beg to hand you here-
with my annual report for the calendar year 1915.

In making up the annual report of the oil production "crude petroleum" for
the year ending December 31, 1915, we find on comparing the figures of the
past two years, that the year 1915 has an increase in production of about 2,000
barrels. This speaks well for the Lambton County Oil Fields, as for something
over 50 years, or to be more correct as to date, since the fall of 1862, oil has been
produced continuously in this territory.

The showing of the figures, as indicated, is a source of satisfaction to oil
producers and drillers, as it goes to show the permanency of the field. It has
always been the opinion of oil men that when the drilling in of new wells ceased
that the production would greatly decrease; this has not been the case, as very
little if any drilling has been done for about three years, and we now find the
production larger than the previous year.

This really wonderful oil territory of Lambton County may still do better,
as a great deal of territory has yet to be tested, and as the price of crude oil is
higher than some months ago, drilling operations are likely to start again and
good results may be expected.

All of which is most respectfully submitted,

I have the honour to be, Sir,
Your obedient servant,

J. C. WADDELL,
Supervisor of Crude Petroleum Bounty Claims.

GOLD AND SILVER MARKING ACT, ADMINISTRATION OF.**ANNUAL REPORT OF MR. W. J. RYAN, INSPECTOR UNDER
GOLD AND SILVER MARKING ACT.**

TORONTO, January 31, 1916.

F. C. T. O'HARA, Esq.,
Deputy Minister,
The Department of Trade and Commerce,
Ottawa.

SIR,—I beg to report the operations of the Gold and Silver Marking Act as administered by the Department of Trade and Commerce for the year 1915.

There were fifteen offenders brought into court, all of whom were found guilty and fined. Classified there were: Departmental stores (2); retail jewellers (7); manufacturers' agents (2); auctioneers (2); druggist (1); travelling optician (1).

The departmental stores are prone to offend through their advertisements in the daily press by exaggerating greatly the merits of the articles advertised, and in many cases misrepresenting them. It is only in such cases where there is deliberate misrepresentation of quality that the Act is enforced.

In the case of the retail jewellers they were all prosecuted under section 8 for offering for sale wedding rings made by themselves and marked to be from two to three karats finer quality gold than they actually were.

The punishment meted out to the auctioneers that were brought into court and fined (\$400) and ultimately closed up by the municipal authorities will deter many such from coming into Canada with a quantity of inferior jewellery, silverware and watches, and renting a store previous to Christmas, and getting out immediately after the Christmas trade is over.

I am glad to report that the greatest offenders previous to the Act are now the greatest observers of its requirements, that is the manufacturers' agent, particularly the one who sold foreign-made goods. With them it was a question of price only. Now that they have to establish the quality of their goods in conformity with the Act, they find their trade restricted.

The manufacturers' agents who were convicted, were endeavouring to sell goods in Canada made in the United States, and bearing the reputable marks of Sheffield.

The enforcement of the Act has been greatly facilitated by the amendments to sections 13, 14 and 15 that were assented to April 15, 1915. Of the fifteen offenders brought into court, fourteen were tried summarily, as the Act now provides.

I beg to report in conclusion, that the sum of six hundred and twenty-five dollars (\$625) was paid in fines and remitted to the Receiver-General to form part of the Consolidated Fund of Canada as provided for in section 17 of the Act.

I have the honour to be, Sir,
Your obedient servant,

W. J. RYAN,
Inspector under the Gold and Silver Marking Act.

SESSIONAL PAPER No. 10c

INSPECTION OF CERTAIN STAPLE ARTICLES OF CANADIAN
COMMERCE INSPECTED UNDER PROVISIONS OF CHAP. 85
REVISED STATUTES OF CANADA AND AMENDMENTS
THERE TO.

Before proceeding to tabulate the inspection of the different commodities dealt with in this Act, it is deemed advisable to make reference to an important amendment to same, known as chapter 36 of the statutes of 1914.

It provides for certain markings on barrels, bags and packages of flour, cereals and feed, and the weights per bushel and bag for vegetables, and its provisions apply to all Canada.

With respect to *Feed* due provision is made to ensure that the purchaser shall get what he is paying for. The proportion of the different ingredients which go to make up the weight of the bag must be marked thereon.

Over 250 letters have already been written in response to persons and companies making inquiries about the application and scope of this Act, (Chap. 36).

The principal sections concerning flour, cereals and feed are as follows:—

“**164.** Every barrel or half-barrel of flour, meal, rolled oats or rolled wheat, packed for sale, shall, by painting or branding on one end thereof, be plainly marked:—

“(a) with the initials of the Christian name and the surname at full length of the packer or the person for whom such barrel or half-barrel is packed, and with the place of business of such packer or person; or, where such barrel or half-barrel is packed by or for a copartnership or incorporated company, with the firm name of such copartnership or the corporate name of such company and with the place of business of such copartnership or company; and,

“(b) with the brand and weight of the flour or meal therein contained; and,

“(c) with the tare of the barrel or half-barrel.”

“**164A.** Every bag, sack or similar package of flour, meal, rolled oats, rolled wheat, or feed shall be plainly marked,—

“(a) with the initials of the Christian name and the surname at full length of the packer or person for whom such bag or package is packed, and with the place of business of such packer or person; or, where such bag, sack or other package is packed by or for a copartnership or incorporated company with the firm name of such copartnership or the corporate name of such company and with the place of business of such copartnership or company; and,

“(b) with the brand and the weight of the contents of the bag, sack or package;

“(c) the provisions of paragraph (b) as to brand shall not apply to feed, but the composition of the feed in each container shall be stated.”

“**164B.** The provisions of sections 164 and 164A of this Act shall not apply,—

“(a) when flour, meal, rolled oats, rolled wheat or feed is, in the presence of the purchaser, and for his own use, weighed and put into the barrel, half-barrel, bag, sack, or other package; nor,—

“(b) when any of those articles is sold for export out of Canada, if the purchaser requests that the marks, or any mark, required by the said sections be not put upon the barrel, half-barrel, bag, sack or other package.”

“**175A.** Every person who sells, offers for sale, or has in his possession for sale, any bag, sack or similar package of flour, meal, rolled oats, rolled wheat or feed, which is not marked in accordance with the requirements of section 164A of this Act, shall be liable, on summary conviction, to a penalty of one dollar for every bag, sack or package not so marked; without prejudice to the civil remedy of any person aggrieved for any damage sustained by him.”

WEIGHTS PER BUSHEL AND BAG OF THE UNDERMENTIONED ARTICLES AS PROVIDED BY SECTION 337 OF CHAPTER 36, AMENDMENT TO INSPECTION AND SALE ACT, CHAP. 85, WITH PENALTY CLAUSE.

“**337.** A bushel of any article mentioned in this subsection shall mean, unless a bushel by measure is specially agreed upon, that number of Dominion standard pounds of such article which are shown in this subsection opposite the name of such article:

Description of Article.	Weight in Dominion Standard pounds.

18. Section 338 of the said Act is repealed, and the following is substituted therefor:—

SESSIONAL PAPER No. 10c

"**338.** A barrel of potatoes shall mean, unless a barrel of specified size, kind or content by measure is specially agreed upon, one hundred and sixty-five Dominion standard pounds of potatoes."

"**356.** Every person who sells or offers for sale by the bag any of the vegetables mentioned in subsection 2 of section 337 of this Act, shall, in case any bag of such vegetables sold or offered for sale by him does not contain at least the number of Dominion standard pounds required by the said subsection, be liable, on summary conviction, to a penalty not exceeding twenty-five dollars for a first offence, and for each subsequent offence to a penalty not exceeding fifty dollars."

FEES CHARGEABLE UNDER THE INSPECTION AND SALE ACT CHAP. 85.

FLOUR AND MEAL.

For such inspection and branding and marking the person who required the inspection thereof shall pay to the inspector for each and every barrel and half barrel of flour or meal so inspected and branded or marked the sum of two cents exclusive of the charge for cooperage, before such flour or meal is removed; and when any less quantity than one hundred barrels of flour or meal is offered for inspection at one time, the inspector shall be entitled to receive the full fees that would accrue to him on one hundred barrels.

As soon as any flour or meal is inspected, a bill of inspection shall be furnished by the inspector or deputy inspector without fee or reward, specifying neatly and legibly the quantity and quality ascertained by inspection, the gross weight of 5 per cent thereof, and the tare of 1 per cent thereof and the charges therefor, and the name of the mill at which the flour or meal was manufactured.

When the inspector in his judgment deems it necessary to strip or empty out the flour to find out if there is the proper weight of flour in any cask he shall be entitled to two cents for each barrel so stripped or emptied if it proves to be short weight in addition to the two cents per barrel for inspecting and branding

ANNUAL REPORT OF MR. ELZEAR COTE, CHIEF INSPECTOR OF
HIDES—QUEBEC.

F. C. T. O'HARA, Esq.,
Deputy Minister,
The Department of Trade and Commerce,
Ottawa.

SIR,—I have the honour to transmit my report for the year ending December 31st, 1915.

During the year I visited the following places the number of times set forth after each:—Victoriaville (1) to enquire into the necessity of appointing an inspector there; Levis (2) to enquire as to need for inspector at that place. At neither of these places did the business offering merit the appointment of an inspector. To investigate complaints I visited Ste-Marie de Beauce (1), St-Malo (6), Limoilou (3), City of Quebec to tanneries (24).

In addition to the 24 special visits, I also visited the Quebec City tanneries twice weekly to make tests.

Montreal I visited three times, once to inspect the methods of inspection there, and twice to investigate serious complaints made about faulty inspection.

This, sir, summarizes my transactions for the year above mentioned.

I have the honour to be,
Sir,
Your obedient servant,

ELZEAR COTÉ.
Chief Inspector of Hides.

COPY OF MINUTES OF WESTERN GRAIN STANDARDS BOARD MEETING.

WINNIPEG, October 25, 1915.

A meeting of the Western Grain Standards Board was held to-day at 10 a.m. in the Council Room, Grain Exchange building, Winnipeg, Man.

Present during different sessions of the board: G. R. Crowe, chairman; F. W. Sirrett, D. W. McCuaig, Peter Ferguson, C. Johnson, D. Horn, W. Carson, K. Campbell, Jas. Riddell, Wm. Lothian, W. A. Matheson, W. H. Fairfield, M. McLaughlin, C. B. Watts, R. J. Phin; George Serls, chief grain inspector; Fred. Symes, inspector, Fort William; Dr. Magill and J. P. Jones of the Board of Grain Commissioners; and C. N. Bell, secretary.

Minutes of the meeting held September 29, 1914, were read and confirmed.

6 GEORGE V, A. 1916

It was moved by K. Campbell and F. W. Sirrett that the following telegram of regret at the illness of Finley Young be sent him, viz.: "Senator F. M. Young, Killarney, Man.: Standards Board convey sincere regret your absence through illness. Trust your speedy restoration to usual health.—C. N. BELL." Carried unanimously.

On motion, Mr. K. Campbell was appointed vice-chairman to act in the absence of Mr. G. R. Crowe.

During the course of the morning and the afternoon, standard samples for the commercial grades of Nos. 4, 5, and 6 wheat were selected and adopted.

Moved by K. Campbell, seconded by W. H. Fairfield: "That all wheat not fit to be graded as No. 6 be graded 'feed' in the discretion of the inspector." Carried unanimously.

Moved by W. Carson and Peter Ferguson: "That feed barley shall include all damaged barley weighing less than 42 pounds to the bushel, in the discretion of the inspector." Carried unanimously.

On motion, a committee was appointed under the provisions of section 88 of the Canada Grain Act to meet and select other commercial grades of grain should climatic or other conditions make such further selection necessary, the said committee to consist of: Messrs. G. R. Crowe, chairman; S. Spink, W. A. Matheson, A. R. Hargraft, K. Campbell, D. W. McCuaig, James Riddell, T. A. Crearer, Hon. W. R. Motherwell, W. H. Fairfield, and Geo. Serls, chief grain inspector.

The meeting then adjourned.

C. N. BELL,
Secretary.

MEETING OF THE EASTERN GRAIN STANDARDS BOARD.

Meeting held in room 206, Royal Bank building, Toronto, September 28, at 2 p.m.

Present: Messrs. M. Brown, J. Carrick, Thos. Flynn, F. W. Hay, A. O. Hogg, J. T. Melady, H. L. Rice, C. B. Watts and D. B. Wood, and Mr. A. A. Bowen, inspector, by invitation.

Chairman.—On motion, Mr. A. O. Hogg was elected chairman.

Commercial Grades.—The Grain Standards Board then decided upon the following commercial grades, with the weights governing the inspection of such grades, as stated:—

WHEAT.

"No. 1 Commercial Wheat for sprouts" may contain not more than 10 per cent of sprouted wheat, and shall weigh not less than 56 pounds to the bushel.

"No. 1 Commercial Wheat for smut" shall weigh not less than 57 pounds to the bushel.

"No. 2 Commercial Wheat for sprouts" may contain not more than 30 per cent of sprouted wheat, and shall weigh not less than 55 pounds to the bushel.

"No. 2 Commercial Wheat for smut" shall weigh not less than 57 pounds to the bushel.

"No. 3 Commercial Wheat" may contain both smutty and sprouted grain, and shall weigh not less than 55 pounds to the bushel.

OATS.

"No. 1 Commercial Oats" shall be white oats not good enough in colour to grade No. 3 Standard, testing 28 pounds to the bushel, and may contain sprouted grain.

SESSIONAL PAPER No. 10d

On motion, Messrs. R. I. Braiden, Jno. Carrick, and Jno. Phillips were appointed with the grain inspectors to select 5 bushels of sample grain suitable for each of the above commercial grades of grain from which the board will select the standards.

The board then adjourned until Thursday, the 30th instant, at 1 p.m., in order to permit the above committee to prepare the samples.

September 30, 1915, 1 p.m.

Meeting held in Room 206, Royal Bank building.

Present: Messrs. A. O. Hogg, Murray Brown, John Carrick, Thos. Flynn, J. T. Melady, and C. B. Watts.

Commercial Grades.—The Grain Standards Board decided to strike a commercial grade for rye, to be known as “No. 1 Commercial Rye,” and to be of the following specifications:—

“No. 1 Commercial Rye” shall be rye not good enough in quality to grade No. 2 Standard rye, and may contain sprouted grain, and shall weigh not less than 54 pounds to the bushel.

The board then proceeded to strike the commercial grades, after which it was moved by Mr. J. Carrick, seconded by Mr. C. B. Watts, That the Commercial Grain Standards for the season 1915-16 as struck by the Grain Standards Board on September 30 be known as follows:—

WHEAT.

No. 1 Commercial Wheat for sprouts.

No. 1 Commercial Wheat for smut.

No. 2 Commercial Wheat for sprouts.

No. 2 Commercial Wheat for smut.

No. 3 Commercial Wheat.

OATS.

No. 1 Commercial Oats.

RYE.

No. 1 Commercial Rye.

And that the grain inspector be instructed to grant certificates for the above grades in white winter wheat, red winter wheat, mixed winter wheat, white oats and rye. Carried.

The grain inspector was instructed to have about 5 bushels of each sample mixed to correspond with those struck by the board, and to have Mr. A. O. Hogg, chairman of the board, pass upon the same before sending them out.

The meeting then adjourned.

October 1, 1915, 3 p.m.

Meeting held in Mr. A. O. Hogg's office, eighteenth floor, Royal Bank building.

Present: Messrs. Brown, Carrick, Flynn, Hogg, Melady, Watts, and Wood.

Commercial Grades.—Samples of the Commercial grades as submitted by the grain inspector after the bulk samples had been mixed, were examined and confirmed, with the exception of “No. 3 Commercial Wheat.”

On motion of Mr. Watts, seconded by Mr. Wood, Messrs. Hogg, Melady, and Watts were appointed a committee to strike a new standard for “No. 3 Commercial Wheat.” Carried.

6 GEORGE V, A. 1916

Specifications.—The specifications for the Commercial grades, as contained in the minutes of the Standards Board meetings held on September 28 and 30 were approved.

The meeting then adjourned.

October 8, 1915, 11.30 a.m.

Meeting held at the office of the grain inspector, 28 Front street east, Toronto.

Present: Messrs. A. O. Hogg, J. T. Melady, and C. B. Watts.

No. 3 Commercial Wheat.—The members present, composing the special committee appointed by the Standards Board on October 1, struck a new standard of "No. 3 Commercial Wheat," and the inspector was instructed to have the necessary samples supplied to the Grain Survey Board, Grain Inspectors, etc.

The meeting then adjourned.

TORONTO, October 8, 1915.

The above minutes of meetings of the Grain Standards Board, held September 28, September 30, October 1, and October 8, are hereby certified to be correct.

F. G. MORLEY,
Secretary.

A. O. HOGG,
Chairman.

REPORT OF THE MONTREAL SURVEY BOARD.

During the year 1st of September, 1914, to 31st of August, 1915, the Montreal Survey Board was not called upon to hold any surveys.

CHAPTER 2.

REPORT OF THE CHIEF INSPECTOR—GEO. SERLS.

To Board of Grain Commissioners:

GENTLEMEN,—As chief inspector, I beg to submit to you a report on the work performed by the Inspection Department for the crop year of 1914-15.

WESTERN DIVISION.

This crop was very much lighter than the year previous, the total number of cars inspected being 122,832, against 192,732 for the crop of 1913-14.

Of the above total the following number of cars were inspected at the various points, as follows:—

	Cars.
Winnipeg..	108,086
Calgary..	6,625
Superior..	1,387
Moosejaw..	3,385
Saskatoon..	2,111
Medicine Hat..	1,238

The harvest was unusually early, and the movement commenced the first of September. It came with the usual rush for a little over a month. At the end of October the receipts fell off, enabling the department to dispense with the temporary help taken on for the rush season.

The crop was of good quality, 75 per cent of it grading into the contract grades, and the condition was excellent.

During the year the Government elevators at Moosejaw and Saskatoon were opened, making it necessary to place inspectors at each of these points for the inspection of grain in and out of these elevators.

EASTERN DIVISION.

In the Eastern division the amount of work done was about the same as in previous years.

Owing to the small amount of grain to inspect at Kingston and Peterborough, these points were closed. Inspector McNeill, of Kingston, was transferred to Montreal, and Inspector Hurley, of Peterborough, to Toronto.

CHAPTER 3.**REPORT OF THE REGISTRAR—GEO. SERLS.**

To Board of Grain Commissioners:

GENTLEMEN,—As registrar, I beg to submit a report on the work done by the Registration Department for the crop year of 1914-15.

The work performed by the registration offices was naturally the same as in other departments, much lighter than the previous year; the difference being so great as to necessitate a reduction of the staff. The total bushels for the year being—

Wheat.. . . .	84,127,852—40
Oats.. . . .	20,183,349—30
Barley.. . . .	2,839,732—06
Flax.. . . .	3,379,017—29
Rye.. . . .	4,921—08

and total bushels cancelled—

Wheat.. . . .	85,541,052—50
Oats.. . . .	20,089,661—26
Barley.. . . .	2,966,995—08
Flax.. . . .	4,506,152—43
Rye.. . . .	4,601—28

The registration and cancellation of warehouse receipts of the Canadian Government elevators at Moosejaw and Saskatoon is done by the accountants at these two points, but all reports are forwarded to the Winnipeg office and checked. The same will also apply to Calgary as soon as they start to operate.

The usual statements were prepared, showing the outstanding warehouse receipts.

The Winnipeg office commenced on September 1 last year to make out a weekly statement for the Grain Exchange, showing the receipts and shipments by grade of each terminal elevator at Fort William and Port Arthur. This was found to be of great value to the trade.

CHAPTER 4.

REPORT OF THE CHIEF WEIGHMASTER—J. G. WHITE.

To the Board of Grain Commissioners:

GENTLEMEN,—Herewith is presented my report for the year ending August 31, 1915.

SCALES.

The number of scales reported in use in the terminal and hospital elevators at Port Arthur and Fort William under my supervision last year was 145. The National elevator has since been destroyed by fire, and rebuilt, installing one scale instead of two as formerly. The Ogilvie Milling Company have taken out four (4) receiving scales of 84,000 pounds capacity, and replaced them with four (4) of 120,000 pounds capacity, leaving 144 hopper scales; there are also added for my inspection ten (10) automatic bagging scales and two (2) platform scales, making 156 scales under my supervision at Fort William and Port Arthur.

My appointment as inspector of weights and measures having been extended to cover all Government elevators under the jurisdiction of the board, places the following additional scales under my supervision:—

- At Moosejaw.—Six 60-ton hopper scales.
“ Two 1,200-pound platform scales.
“ Two automatic bagging scales.

Making a total of 182 scales under my supervision, and subject to my inspection. (See statement attached.)

SCALE INSPECTION.

These scales, with the exception of Calgary (inspected once), have all undergone a rigid inspection twice during the past year. One of these inspections was made by me as inspector of weights and measures, acting under the authority of the Department of Inland Revenue, for which certificates of verification were issued, and fees amounting to \$810.75, covering Port Arthur and Fort William inspections, collected and remitted to R. McKay, District Inspector of the Winnipeg division; \$76, covering Saskatoon and Moosejaw, collected and remitted to C. W. Johnston, District Inspector of Saskatoon division; and \$61, covering Calgary inspection, collected and remitted to J. W. Costello, District Inspector of Calgary division; making a total of \$947.75 collected and remitted to the proper officers. The above is the annual inspection as provided for by regulation (13) of the Weights and Measures Act.

In addition to the annual inspection, I have, as chief weighmaster, made an intermediate inspection of all scales; for this inspection no charge was made nor certificates issued, but which was carried out to determine the continued accuracy of the scales.

These inspections have been most careful and exacting, both as to accuracy and sensitiveness, and further numerous tests have been made in elevators concerned in loading cargoes or unloading cars, where the accuracy of weights has been in ques-

6 GEORGE V, A. 1916

with these rules in the performance of their duties. Their work is under the supervision of my assistant, Mr. Hollinshead, who is thoroughly conversant with all matters pertaining to weighing, and spends all his time in the elevators seeing that the work is carried out according to instructions, and that the spouting and other equipment is kept in good order; also assisting in the investigation of complaints of shortages.

WEIGHING.

In view of the rules and regulations *re* shortages and overages, approved of and issued by the board in April, for the season of 1915, and in order that these measures should result in a working arrangement satisfactory to all parties concerned, every possible precaution has been taken to ensure the accuracy of cargo weights, and the certainty that all grain weighed for a boat was delivered on board.

The following orders were issued to elevator operators:—

1. That all covers must be locked on shipping bins when not in use, and the Government weighman to have charge of the keys, so that no grain could be run into them without his authority.
2. Before commencing to weigh for a boat, all spouts from the scales to the shipping bins to be used must be checked to the bins ordered, and locked on, thus assuring the delivery of the grain to the proper bins.
3. All storage or transfer spouts situated close to shipping spouts, to be fitted with covers or valves, which must also be locked, and the Government weighman to have charge of the keys.

These measures were adopted to assist in preventing both overages and shortages, and were promptly carried out by the elevator superintendents, who showed every desire to assist in safeguarding the weighing and loading of cargoes.

At the Canadian Government terminal elevator, all employees on the scale floor, both weighmen and helpers, have been placed under the control of the Weighing Branch, and a foreman put in charge to supervise the work, to oversee the weighing, placing of spouts, delivery of the grain to vessels, and the sounding of shipping bins, thus covering every feature of the work of weighing and loading.

In the seven larger elevators where from four to five shipping scales are in use, it is impossible for the Government weighman to see all scales shaken out and in balance between drafts, or to sound shipping bins for change of grade during the weighing of a cargo, without delaying the work of loading.

At the opening of navigation, special offers were placed at the following elevators: Canadian Northern "A" and "B" Eastern Terminals, Grain Growers, Consolidated, Western, and Grand Trunk Pacific, to assist the weighman in seeing all scales shaken out and balanced between drafts, and to sound all shipping bins before commencing to weigh; also at change of grade, and after the weighing is finished, and to send in a daily report covering all particulars of their work at the loading of each vessel.

Nothing that would strengthen and perfect the work of the weighing branch, either in the personnel or mechanical branches has been left undone, and while there has been a marked improvement in the out-turns from eastern ports of cargoes loaded at Fort William and Port Arthur, it is evident that this improvement is due more to the new bill of lading, and the rules promulgated by the board than to any other cause.

With both the scales and weighing under constant supervision, and the complete system of checking the work, unless mistake or accident is revealed in the investigation, the loading weights should be taken as correct.

SESSIONAL PAPER No. 10d

RECORDS.

The records of grain shipped by boat include:—

1. The weigh-sheets, upon which every draft weighed is recorded in pounds, and when finished, the total given in bushels.

2. The scale tickets, one of which is punched mechanically on the scale, at the weighing of each draft showing the exact amount and is numbered consecutively by the weighman, so as to identify it with the draft on the weigh-sheet, for which it is punched.

A new system of keeping track of these tickets has been adopted; special tickets have been printed bearing the name and a serial letter for each elevator. They are also numbered consecutively, and a record kept of the numbers issued. Those used in weighing a cargo must be returned along with the weigh-sheets, to the chief weighmaster's office, where the figures on the weigh-sheets are checked and compared with the weights shown on the ticket for the detection of errors, before the certificates of weight for the cargo are issued, and any ticket defaced, or spoiled, must be accounted for.

3. Weighman's report. The old form of dual report has been discontinued, and replaced by separate forms. The weighman's report showing the name of the vessel, date of loading, grade of grain, and quantity in bushels of each separate lot, the order in which each lot was weighed, and the shipping bins to which it was delivered. The time weighing commenced and finished and who sounded the shipping bins before and after weighing; also the name of the elevator, the elevator weighman, and the inspector on duty, and is signed by the weighman.

4. Inspector's report. The inspector's report shows: the name of the vessel; date and hours of loading; grade and quantity in bushels of each lot; the holds into which it was loaded; the storage bins from which it was drawn; who examined the holds of the vessel, and their condition before loading; who shook out the shipping spouts before and after; the number of the shipping bins used; the name of the previous vessel loading; also the name of the elevator, the name of the elevator foreman, the head trimmer, and the Government samplers; and is signed by the deputy inspector.

These two reports form a complete record of the entire movement of the grain, and one is a check against the other.

5. Reports of special officers, or assistant weighmen, previously noted, which is the record of the work done by them, and of any leaks or spills discovered.

6. Bin record. This is a record of all shipping bins used at each house concerned in the loading of a boat, showing the kind of grain, the holds into which it was loaded, the numbers of the shipping bins used, and the out-turn, showing over or short; also the name of the previous boat on which the same bins were used, and the out-turn of same, showing over or short, and the same records of the boats following, until all shipping bins used on a boat in question and the out-turns of each have been shown. This record is kept with a view to checking and verifying the sounding of shipping bins, and must agree with the weighman's and inspector's reports.

RECORDS—CARS.

The records of receiving and weighing grain from cars are: load lines, seal records, defective car records, leak reports, weigh-sheets, and scale tickets, which cover the handling of the cars from their arrival at the elevator until the grain has been weighed.

LOAD LINES.

The load lines, or depth of grain in the car before unloading, and the system of obtaining the depth, is only of value in detecting large leaks or losses, as, owing to the great number of cars arriving untrimmed with the grain very unevenly loaded, it

is difficult to get accurate measurements to an inch in all cases in the time in which this work has to be done, more especially during the fall rush when many of the elevators unload from 100 to 150 cars a day, and the employees, in addition to taking and recording the load lines, have to assist in the examination of cars for leaks.

While the system is not as perfect as desired, it is sufficiently reliable in placing responsibility and securing adjustments for large shortages.

SEAL RECORDS.

The value of keeping this record is shown by the fact that during the past year over 8,000 cars have been reported as arriving at destination with seals broken or missing; a summary of which is presented.

LEAK REPORTS.

The number of cars reported as leaking upon arrival from date of September 30, 1914, up to August 31, 1915, as shown by accompanying statement, is 3,855.

In all these cases the records were searched for discovery of the shipper, who was promptly notified.

CONDITION REPORTS.

The condition report conveys the following information: The car number, where unloaded, date of unloading, grade of grain, out-turn weight, depth of load, condition of car (whether leaking or not), and the seal numbers (if broken or missing).

There has been no record kept of the number of these condition reports sent out. They have been sent, on request, from railways, elevator companies, grain brokers, and farmers. It is safe to say that from six to eight thousand have been prepared and sent out during the past year, involving a large amount of clerical labour, as in each case the weighing and inspection records have to be searched to gather the required information, and the sending out of these reports have been of great assistance to shippers securing settlement of claims for shortage on cars.

SHORTAGES—VESSELS.

Shortages reported on vessels from opening to close of navigation, 1914, were reported on, and dealt with at a public investigation held by the board at Fort William on November 16, 1914, which was adjourned, and again continued in Toronto, in January, 1915.

Every opportunity was provided by the board for the fullest investigation into all cases of shortage reported during the season, with the result that the weights of the loading houses could not be questioned.

Since the opening of the present season of navigation, and the adoption of the new rules, the out-turns from unloading ports have been much better than under the old system. There have been few complaints received, but all out-turns showing shortage beyond the natural shrinkage have been investigated, and reported to the board. In a number of these cases which had been investigated by myself at the loading houses, and by Mr. A. A. Bowen at the unloading houses, the loading has again been investigated jointly by Mr. Bowen, and myself, and in all (but one case where the responsibility could not be placed) the loading weights were confirmed as correct.

A number of small leaks and spills have occurred during the loading of vessels, but owing to the close supervision kept over the work, these have been at once detected, and adjusted satisfactorily, as shown by the out-turns.

Approximately 103,000,000 bushels of grain has been loaded on 712 vessels at Fort William and Port Arthur during the year ending August 31, 1915, details of which are dealt with by the Statistical Department.

SHORTAGES—CARS.

There have been 90,790 cars unloaded at the lake terminals during the year, and many complaints of shortages have been investigated and reported. There were ten adjustments amounting to over 1,000 bushels of grain secured from the elevators;

6 GEORGE V, A. 1916

five cases where the elevators appeared responsible were referred to the head office, superintendents claiming no authority to make adjustments; twelve cases shippers advised to file claims against railway.

There were a large number of claims where the responsibility could not be placed further than showing that the out-turn was good for the depth of load at unloading, and may have been due to cars leaking, and coopered in transit. Other claims were based on estimates without weighing, or weighing on outside scales.

There has also been considerable pilfering of grain from cars in the yards, although the railways are constantly taking measures to suppress it.

There are also a great number of cars used by the railways that are in poor condition, and not fit to haul bulk grain, and this, in addition to poor coopering before loading, is probably responsible for many of the complaints of shortage.

CAR SWEEPING.

Complaints having come in that cars unloaded at the elevators were not being swept clean, by direction of the board a car sweeping gang was put to work in October, 1914, with instructions to sweep the cars after this work had been done by the elevator employees, and to report the number of the car, and the quantity of grain recovered; also a report on the condition of the car. From the fact that very little grain was recovered, it is evident that the movement resulted in a marked improvement in car sweeping.

The number of cars of the different railways were:—

Canadian Northern.. . . .	3,752
Canadian Pacific.. . . .	3,026
Grand Trunk Pacific.. . . .	2,746
Total swept.. . . .	9,524

The number of defective cars reported.. . . .	3,108
---	-------

This work was discontinued at the end of the year, but it was felt that the improvement in sweeping noted, and information *re* defective cars, justified the expenditure.

ANNUAL WEIGH-UP.

By direction of the board, in accordance with section 95 of The Canada Grain Act, the annual weigh-up or stocktaking of all grain in store in the sixteen terminal elevators operating at Port Arthur and Fort William was carried out, commencing on July 12 and finishing on August 13. The work was performed by a staff selected from the weighing department, under the immediate supervision of Weighmaster Hollinshead, all the grain in each elevator being systematically and carefully weighed and transferred, and a true record of the weights so obtained at each elevator was forwarded to the Board. The work involved the weighing and transferring of small lots, the total amounting to over three and a half million bushels.

The weigh-up at the Government Interior Terminal Elevators at Moosejaw and Saskatoon was carried out under my supervision, and the records forwarded to the Board.

ORGANIZATION.

The Weighing Department has been reorganized as separate and distinct from any other branch of the service under the Board, with its own offices and office staff, performing all clerical work in connection with weighing, and is responsible for keeping and systematic filing of all records and documents devised for the purpose of checking and verifying the accuracy of the work of weighing and handling of grain, and attends to all correspondence pertaining to weights.

The work of the weighing staff has been changed and improved by the introduction of a better system of records for checking and securing accurate work, and the weighmen recognize their responsibilities and are endeavouring to meet them by the careful performance of their duties.

CHAPTER 5.**REPORT OF LICENSING AND BONDING FOR THE CROP YEAR 1914-15.**

In accordance with the provisions of law, 2,962 applications for licenses were received by this branch during the season ending August 31, 1915, an increase of 108 over the previous season. A gross revenue of \$15,900 was received in this connection, but this sum was reduced to \$15,795, as license fees to the extent of \$105 were refunded on account of ten applications having been withdrawn before licenses had been issued.

The following statement shows the revenue received from license fees during the last seven years:—

Season Sept. 1 to Aug. 31, following.	No. Applications received.	Fees.
		\$ cts.
1908-9.....	1,808	3,616 00
1909-10.....	2,146	4,292 00
1910-11.....	2,111	4,222 00
1911-12.....	2,326	4,652 00
1912-13.....	2,579	5,158 00
1913-14.....	2,854	15,200 00
1914-15.....	2,962	15,795 00

The large increase in the amount of license fees received since the season of 1912-13 is accounted for by reason of the schedule sanctioned by Act of Parliament on June 6, 1912, as follows:—

Country elevator or warehouse.. . . .	\$ 5 00
Space.. . . .	5 00

Commission merchant.. . . .	5 00
Terminal elevator.. . . .	25 00
Hospital elevator.. . . .	25 00
Public elevator.. . . .	25 00

Previous to that date, the fee was \$2 in all cases.

*Space licenses are issued as a rule to independent dealers, who have leased special bin space in farmers' elevators, or independent elevators. Their operations for the most part are confined to purchasing wagon-load lots of grain offered for sale on street.

The enormous crop which is now being marketed has necessitated an increase in the elevator capacity, both at country and terminal points. According to information now possessed, about 175 country elevators, with a total capacity of approximately 5,250,000 bushels, have been erected in the West, within the last two or three months. In addition, the Government has built two terminal elevators, one at Calgary, Alberta, and the other at Vancouver, B.C. The former has a capacity of 2,500,000 bushels, and is now in operation, while the latter with a storage capacity of 1,250,000 bushels will be ready to receive grain about the end of the year. At Fort William and Port Arthur the storage capacity has been increased by 1,500,000 bushels, while the public elevators at Montreal will soon be in a position to store about 9,000,000 bushels.

TEMPORARY AGENTS AT FLAG STATIONS.

Under section 195 of The Canada Grain Act, the Board is empowered to order the railway companies to provide temporary agents at flag stations, whose duties shall be:—

- (a) To keep open for the use of shippers at all times during the day a car order book, as provided under this part, in which orders for cars may be entered, in accordance with the provisions of this part;
- (b) When loading of cars is completed, to seal such car or cars;
- (c) To provide shippers with the regular form of grain shipping bill; and
- (d) When such grain shipping bill is properly filled out by the shipper, to hand it to the conductor of the train that picks up such car or cars, or place it where such conductor may get it.

In view of the plentiful supply of cars provided by the railways last year, only one request for the appointment of a temporary agent was received, that being from Armilla Siding on the Canadian Pacific railway in Saskatchewan. The request was received on August 13, 1914, and Mr. J. Wilson was appointed on or about August 20, 1914.

LOADING PLATFORMS.

During the past season, seventy petitions have been received requesting the erection and extension of grain loading platforms. During the month of June, Commissioners W. D. Staples and J. P. Jones, and Stenographer J. Howe, spent twenty-five days in the West on cases in connection with loading platforms, and fourteen days in August were taken up with the same work. Most of the points from which petitions had been received were visited, and as a result new loading platforms were ordered at the following points:—

DEFAULTS.

Since last report, but one licensed grain dealer has defaulted, that being Mr. R. G. MacDonnell, of Macleod, Alberta, who was licensed as a track-buyer of grain during the season 1913-14, and bonded in the sum of \$5,000, the Employers' Liability Assurance Company, Limited, of London, England, being the surety.

The Board held an investigation in the City Hall, Calgary, on December 17 and 18, 1914, and arranged for settlement of the various claims as per the following statement, which shows the name of creditor, the amount of claim, and the amount paid by the bonding company. It will be noted that the creditors received settlement on the basis of 69.19 cents on the dollar, as the amount of the bond was insufficient to cover the total indebtedness of Mr. MacDonnell.

ELEVATOR TARIFFS.

FORT WILLIAM AND PORT ARTHUR—TARIFF OF TERMINAL ELEVATOR CHARGES

FOR THE YEAR ENDING SEPTEMBER 1, 1916—EFFECTIVE SEPTEMBER 1, 1915.

Subject to the capacity of the elevator and the nature of its equipment, shipments will be received upon the following terms and conditions, and under the provisions of *The Canada Grain Act, 1912*:—

RATES.

Elevation, not otherwise specified, receiving, elevating, cleaning, spouting, insurance against fire and storage for the first fifteen days—three-quarters of one cent ($\frac{3}{4}$ c.) per bushel.

Storage, not otherwise specified, including insurance against fire, for each succeeding day or part thereof, after the first fifteen days—one-thirtieth of one cent ($\frac{1}{30}$ c.) per bushel.

On grain carrying a return of other grain of commercial value, for first separation, computed on gross weight of car, an additional charge of—one cent (1c.) per bushel.

For each subsequent separation, computed on balance for separation, a further charge of—one cent (1c.) per bushel.

On mixed grains handled as mixtures; receiving, elevating, spouting, insurance against fire, and storage for the first fifteen days—one and one-half cents ($1\frac{1}{2}$ c.) per hundred pounds.

On mixed grains handled as mixtures; storage, including insurance against fire, for each succeeding day or part thereof, after the first fifteen days—two-thirtieths of one cent ($\frac{2}{30}$ c.) per hundred pounds.

On wheat carrying a return of screenings, an additional cleaning charge of—one-half of one cent ($\frac{1}{2}$ c.) per bushel.

On tough grain, drying—one and one-half cents ($1\frac{1}{2}$ c.) per bushel.

On damp or wet grain, drying—four cents (4c.) per bushel.

On screenings; elevating, spouting, insurance against fire, and storage for the first fifteen days—two cents (2c.) per hundred pounds.

On screenings; storage, including insurance against fire, for each succeeding day or part thereof after the first fifteen days—one-tenth of one cent ($\frac{1}{10}$ c.) per hundred pounds.

On bulkheads, for their removal and other additional expenses in handling and unloading car—three dollars (\$3) for each bulkhead.

For preparing cars for flax shipments—two dollars (\$2) for each car.

Unspecified grain will only be received, stored and treated subject to special charges to be agreed upon at the time, subject to the approval of the Board of Grain Commissioners.

6 GEORGE V, A. 1916

All charges for cleaning, drying, or other treatment will be computed on gross weights; for elevation and storage, on net weights. All charges accruing after issue of initial completed out-turn and expense bill will follow the grain. All charges whatsoever must be paid before shipment.

Wheat Screenings.

On wheat carrying a dockage of five per cent (5%) or more, after deducting one and one-half (1½%) of the gross weight for waste, a return will be made for the balance of the screenings. No other returns for screenings will be made.

If disposition of screenings covered by outstanding returns is not received within thirty (30) days from date of unload they may be disposed of for account of whom it may concern.

No Grade and Condemned Grain.

All tough, damp, wet, condemned, heating, heated or fire-burnt grain may always be refused. If received and stored it will be only under special contract, and will always be at the owner's risk of deterioration.

Allowance for Invisible Loss and Shrinkage.

On all grain received, deduction from the gross weight to cover invisible loss and shrinkage in handling will be made as follows:—

On wheat.	30 pounds per car.
On flax.	28 " "
On oats.	50 " "
On barley.	50 " "

TARIFF OF INTERIOR TERMINAL ELEVATOR CHARGES FOR THE CANADIAN GOVERNMENT ELEVATORS AT MOOSEJAW, SASKATOON AND CALGARY.

FOR THE YEAR ENDING AUGUST 31, 1916.

Subject to the capacity of the elevator and the nature of its equipment, shipments will be received upon the following terms and conditions and under the provisions of The Canada Grain Act, 1912.

RATES.

1. *Elevation*, not otherwise specified, receiving, elevating, cleaning, spouting, insurance against fire, and storage for the first fifteen (15) days—one-half of one cent (½c.) per bushel.

2. *On grain* unloaded from wagons, or teams, receiving, elevating, cleaning, spouting, insurance against fire, storage for the first fifteen (15) days—one cent (1c.) per bushel.

3. *Storage*, not otherwise specified, including insurance against fire for each succeeding day or part thereof, after the first fifteen (15) days—one-sixtieth of one cent (1/60c.) per bushel per day or one-half of one cent (½c.) per bushel for thirty days.

4. *On grain* carrying a return of other grain of commercial value, for first separation, computed on gross weight of car, an additional charge of—one-half of one cent (½c.) per bushel.

SESSIONAL PAPER No. 10d

For each subsequent separation, computed on balance for separation, a further charge of—one-half of one cent ($\frac{1}{2}$ c.) per bushel.

Special rates will be given for cleaning and sacking seed grain.

5. *On mixed grains* handled as mixtures; receiving, elevating, spouting, insurance against fire and storage for the first fifteen days—one-half of one cent ($\frac{1}{2}$ c.) per bushel.

6. *On mixed grains* handled as mixtures; storage, including insurance against fire, for each succeeding day or part thereof, after the first fifteen (15) days—one-sixtieth of one cent ($\frac{1}{60}$ c.) per bushel per day, or one-half of one cent ($\frac{1}{2}$ c.) per bushel for thirty days.

7. *On wheat* carrying a return of screenings, an additional cleaning charge of—one-half of one cent ($\frac{1}{2}$ c.) per bushel.

8. *On tough grain*, drying—one and one-half cents ($1\frac{1}{2}$ c.) per bushel.

9. *On damp or wet grain*, drying—two and one-half cents ($2\frac{1}{2}$ c.) per bushel.

10. *On screenings*, elevating, spouting, insurance against fire, and storage for the first fifteen (15) days—two cents (2c.) per hundred (100) pounds.

11. *On screenings*, storage, including insurance against fire, for each succeeding day or part thereof, after the first fifteen (15) days—one-tenth of one cent ($\frac{1}{10}$ c.) per hundred (100) pounds.

12. *On bulkheads*, for their removal and other additional expenses in handling and unloading car—two dollars (\$2) for each bulkhead.

13. *For preparing cars* for flax shipment when paper is required—one dollar (\$1) for each car.

14. *All charges* for cleaning, drying or other treatment will be computed on gross weights; for elevation and storage, on net weights, all charges accruing after issue of initial completed out-turn and expense bill will follow the grain. All charges whatsoever must be paid before shipment.

Wheat Screenings.

15. *On wheat* carrying a dockage of five per cent (5%) or more, after deducting one per cent (1%) of the gross weight for waste, a return will be made for the balance of the screenings, by paying one-half cent ($\frac{1}{2}$ c.) per bushel for cleaning. No other return for screenings will be made.

16. *If disposition* of screenings covered by outstanding returns is not received within thirty (30) days from date of unload, they may be disposed of for account of whom it may concern.

No Grade and Condemned Grain.

17. *All tough, damp, wet, condemned, heating, heated or fire burnt grain* will be received for treatment. If not treated it will always be at owner's risk of deterioration.

General.

Grain shipped from any of the Canadian Government Interior Terminal Elevators will be transferred through the Canadian Government elevator, Port Arthur, to steamers for one-half of one cent ($\frac{1}{2}$ c.) per bushel, including ten days' free storage.

Approved by Board of Grain Commissioners for Canada, Fort William, Ontario, September 18, 1915.

6 GEORGE V, A. 1916

TARIFF OF LICENSED COUNTRY ELEVATOR CHARGES.

FOR THE YEAR ENDING AUGUST 31, 1916.—EFFECTIVE SEPTEMBER 1, 1915.

Subject to the capacity of the elevator and the nature of the construction, all grain tendered must be taken into store upon the following terms and conditions, and under the provisions of *The Canada Grain Act, 1912*.

Maximum Rates.—Receiving, elevating, sprouting, insurance against fire, storing for the first fifteen days, and putting into cars on track. No elevator shall charge more than one and three-quarters of a cent per bushel. Storage not otherwise provided, including insurance against fire for each succeeding day after the first fifteen days shall not exceed one-thirtieth of one cent per bushel.

Shrinkage for Stored Grain.—No elevator shall take more than one-half of one per cent to take care of shrinkage and waste in handling, storing and transmitting the grain to a terminal.

No elevator shall take more than one per cent shrinkage on tough, damp, and wet grain.

Shrinkage on Cash Grain.—On street grain no elevator shall take a greater dockage than that shown by a proper test over a No. 10 sieve, except where grain contains foreign grain or seeds which cannot be taken out by a No. 10 sieve.

Dockage.—No elevator shall take a greater dockage than that shown by a proper test over a No. 10 sieve, except where grain contains foreign grain or seeds which cannot be taken out by a No. 10 sieve.

Every elevator must be equipped with the necessary sieves and scales for making proper tests, and the elevator operator must make the tests in the presence of the owner of the grain, when requested.

General.—When tough, damp, or wet grain is taken into store it shall be at the owner's risk, and the elevator operator shall have the right to ship it immediately to a terminal elevator for treatment.

The owner shall have the right to name the terminal elevator to which it shall be shipped.

RULES AND REGULATIONS FOR COUNTRY ELEVATORS.

1. In shipping or delivering any grain stored in a country elevator, the net weight on the ticket or tickets shall be final; unless an investigation by the Board of Grain Commissioners shows reason for the contrary. The shipper to be paid in case of short shipment up to the amount of his or her ticket or tickets for the full billing capacity of the car, at the same price as the car was disposed of.

2. All shipping bills for grain shipped through an elevator shall be made out by the elevator agent, and he shall advise such parties as the owner may instruct.

3. The elevator owner shall, on all grain shipped through the elevator, have the right to retain and hold the shipping bill until he receives a guarantee from the owner of the grain, another elevator owner, a licensed commission firm or individual, or any one else that the car may be sold to, that they will make proper adjustment as to the weight and grade. Upon receipt of storage tickets and lawful charges, the elevator owner shall deliver either the shipping bill to the party presenting the ticket or tickets, or a terminal warehouse receipt for the full amount of the grain called for in the ticket or tickets presented, up to the full carload.

4. The owner of grain in an elevator wishing such grain shipped to any point other than a terminal point, or where Government weights cannot be obtained, the owner of the grain must then accept the elevator weights at the shipping point as final, unless the owner of the grain proves the shipping weights are not correct.

SESSIONAL PAPER No. 10d

Provided, however, that the owner of the grain can always demand an affidavit as to the actual grain shipped and delivered from the elevator operator and receiver of said grain respectively.

RULES AND REGULATIONS FOR STORING BY GRADE AND DOCKAGE IN COUNTRY ELEVATORS.

Elevators that have a limited storage capacity, and not a sufficient number of bins to do special binning, so as to utilize to the fullest possible extent their storage space, shall receive and store grain under the following conditions:—

1. The owner of the grain can only demand the quantity that the storage ticket or tickets call for.

2. In case there is a dispute as to the weighing accuracy of the receiving scales, it shall be incumbent upon the owner of the elevator to prove that the scales are weighing accurately.

3. A proper sample must be drawn from each wagon load by the elevator operator at the time of delivery, in the presence of the party delivering same, and such sample must be drawn satisfactorily to both the deliverer and the operator.

4. Such sample must be placed in a receptacle satisfactory to the owner of the grain.

5. After the grain is delivered the sample drawn must be properly mixed in the receptacle in which it has been placed. The owner and the elevator operator shall then take out of the quantity mixed at least three pounds, and place it in a receptacle which must be numbered and sealed, and so made that it can be securely locked. The receptacle shall be supplied by the elevator owner, and secured by a padlock. The lock shall be provided by the owner of the grain, and he shall retain possession of the key. The receptacle and key shall thereupon be immediately forwarded to the Chief Inspector of Grain, Winnipeg, Man., all charges prepaid. After receiving the inspector's certificate, showing grade and dockage, the operating agent shall issue a storage ticket, showing grade and dockage, as given by the chief inspector, for the full amount of grain taken into store, and shall deliver to the owner at his request, in not less than car load lots, on track or at a terminal point, the grade and quantity the storage tickets call for, after the owner has surrendered the storage receipts and paid or tendered all lawful charges against said grain.

6. The owner of the elevator shall, in all cases where grain is taken into store under the foregoing conditions, guarantee the grade and weight as specified in the storage ticket or tickets.

7. At the time of delivery of any grain where a ticket of this kind is being used, and it is agreed upon by the owner of the grain and the elevator operator that the grain is tough, damp, or wet, and the elevator operator marks such ticket or tickets, "Out of condition, tough, damp, or wet," then whatever grade such sample may receive from the chief inspector, it will still grade "tough, damp, or wet."

8. If the elevator operator fails at any time to draw and preserve such samples in the manner stated, in the case of dispute the onus will be on the elevator operator to prove the proper grade, and not on the owner of the grain.

COMPLAINT OF THE MATHESON-LINDSAY GRAIN CO., LTD., VS. THE ESTEVAN GRAIN CO., LTD., RE THE IMPROPER USE OF SCALES IN THE DEFENDANT'S ELEVATOR AT HIRSCH, SASKATCHEWAN.

I.—COPY OF COMPLAINT.

Grain Commission, Fort William, Ont.

GENTLEMEN,—Enclosed please find copy of a letter addressed by the Matheson-Lindsay Grain Co., of Winnipeg, to Inspector of Weights and Measures, C. W. Johnston, of Saskatoon, *re* Grain shortage, which is a matter within the jurisdiction of your Commission.

I may say that Inspector Geo. Fyfe, of Saskatoon, inspected the Estevan scale in question March 9 last, and rejected it as showing a fast error of from 3 to 3½ pounds on 1,000 pounds of standards under load of 5,235 pounds.

Before taking any action for the use of a rejected scale, this department would be pleased to know whether it is the intention of your commission to proceed against the Estevan Grain Company in the matter of shortages.

I remain, gentlemen,

Your obedient servant,

GEO. W. TAYLOR,

Asst. Deputy Minister and Secretary.

C. W. JOHNSTON, Esq.,
Inspector Weights and Measures,
Saskatoon, Sask.

DEAR SIR,—We received your letter this morning and we were very glad to hear from you.

In connection with the scales in the elevator at Hirsch, Sask., we found out that these scales have been used by the Estevan Grain Company, for whom we have been financing, and they have not shipped anything like the quantity of grain they have taken into the elevator, and on investigating the matter we find that one of the members of the firm, Mr. W. H. Bennett, went down to the elevator last fall and broke the seal and told the buyer to go on and do business. This man does not seem to care what he does. The buyer was in Winnipeg and took an affidavit before a notary that he saw this man Bennett break the seal on the scales.

SESSIONAL PAPER No. 10d

We took this matter up with the inspector of scales in Winnipeg and he informed us that it was a very serious matter and that we ought to take it up with you. Evidently this Mr. Bennett has no use for Canadian laws, as he has already expressed to our traveller, and we think he should be punished.

The Estevan Grain Company are now at loggerheads with us and we are unable to get any settlement out of them. We are putting this matter before you as we do not believe the Canadian Government will stand for this kind of business. If you wish us to furnish you with an affidavit we can send it to you.

The Estevan Grain Company purchased this elevator from the Alameda Farmers' Elevator Company, and were told at the time that the scales were sealed.

Yours truly,

MATHESON-LINDSAY GRAIN CO.

T. S. MATHESON.

II.—STATEMENT RE HEARING.

The Board of Grain Commissioners held a public session in the town of Estevan on Wednesday, May 5, 1915.

The Matheson-Lindsay Grain Co., Ltd., were represented by: T. S. Matheson, president; R. J. Palmer, travelling inspector; Mr. Campbell, counsel.

The Estevan Grain Co., Ltd., were represented by: T. S. Hooper, president; W. H. Bennett, general manager; D. D. McCurdy, counsel.

The Inland Revenue Department were represented by: G. D. Fyfe, Inspector Weights and Measures; C. W. Johnston, Inspector Weights and Measures.

The following witnesses were heard, under oath, in the order named: G. D. Fyfe, for Inland Revenue Department; C. W. Johnston, for Inland Revenue Department; L. Zelickson, for Matheson-Lindsay Grain Co., Ltd.; R. J. Palmer, for Matheson-Lindsay Grain Co., Ltd.; W. H. Bennett, Estevan Grain Co., Ltd.; T. S. Hooper, Estevan Grain Co., Ltd.

III.—WITHDRAWAL OF COMPLAINT RE SHORTAGE.

Mr. Campbell, counsel for Messrs. Matheson-Lindsay Grain Co., Ltd., stated that his clients had withdrawn the complaint *re* shortage of grain. This had been fixed, and consequently it was withdrawn and they would only proceed with the charge *re* the breaking of the seal.

IV.—THE COMPLAINT RE SCALES.

It was proven to the satisfaction of the Board of Grain Commissioners that:—

First. The scales were sealed; and that,

Second. The seals were broken and scales used without an inspection by the Inland Revenue officers.

With regard to the question as to who broke the seals, the operator of the elevator, L. Zelickson, swore that he saw Bennett break the seals. R. J. Palmer's evidence was:—

"I asked Bennett if there was anything wrong with the scales. He said the scales were sealed up. I asked who broke the seals, and he said, 'I did.' I said he should not have done that but should have had the inspector from the Weights and Measures Department come down and look to it. He said, 'To H—— with the Weights and Measures Department. I am not going to pay \$50 or \$60 for that work.'"

Bennett swore that he took with him to the elevator a man called Lindskoog to adjust the scales; that Lindskoog told him (Bennett) that he (Lindskoog) broke the

6 GEORGE V, A. 1916

wire off the scales, and that he (Bennett) instructed the secretary of the Estevan Grain Co., Ltd., C. E. LeBranch, to report this matter to the Inland Revenue officers.

Neither Lindscoog or LeBranch were present at the hearing. Bennett stated that Lindscoog was employed by him in the construction of elevators.

V.—FINDING OF THE BOARD.

W. H. Bennett, as general manager of the Estevan Grain Company, was responsible for the proper inspection and proper use of the scales in the elevator. On his own evidence he was guilty of gross negligence in regard to the scales, and the evidence of the operator of the elevator to the effect that Bennett broke the seals himself was not rebutted.

It is therefore ordered that the Estevan Grain Co., Ltd., discharge the said W. H. Bennett from its employ.

Chief Commissioner.

B.—SETTLEMENT RE SALE OF CAR No. 306410.

JOHN WATSON & Co. vs. JOHN BRICKMAN—COMPLAINT RE SETTLEMENT ON SALE OF CAR No 306410, OATS, GRAND TRUNK PACIFIC, APRIL 12, 1913, EX PHILLIPS, ALBERTA.

The Board of Grain Commissioners has not held a sworn investigation into this complaint, but has written the following report from reading the correspondence and documents filed with the board. Such correspondence and documents are enumerated herewith:—

1. Copy of verbatim evidence taken by the court stenographer, Wetaskiwin, September 8, 1914, before His Honour Judge Lees.
2. Letter from J. Watson & Co., Camrose, Alta., to board, dated September 8, 1914.
3. Letter from Grain Inspector Symes, Fort William, to board, dated September 14, 1914.
4. Letter from Chief Inspector Serls to board, dated September 14, 1914.
5. Letter from Messrs. Rutherford, Jamieson & Grant, South Edmonton, solicitors for Brickman, dated November 23, 1914, with copies of statement of claim, statement of defence, and counter claim and reply verified by affidavit.
6. Letter from Chief Inspector Serls to board, dated January 29, 1915.

This car was unloaded on April 12, 1913, at Winnipeg, as No Grade No. 2 Canada Western Oats, Tough, and certificate was issued for the same.

The car reached Fort William on May 11, 1913, and was placed at Davidson & Smith's elevator on May 12, 1913, for unloading. It was found to be in such bad condition as to be impossible to be handled at No Grade No. 2 C. W. Oats, Tough. The inspector at Fort William, Mr. F. Symes, wired to the chief inspector, Mr. G. Serls, Winnipeg, stating that the car was damp, heated, and heating. The chief inspector, Mr. Serls, instructed the Fort William inspector to handle the oats as No Grade Rejected Oats, Tough, Heated and Heating.

SESSIONAL PAPER No. 10d

On the first certificate issued at Winnipeg, the word provisional was not stamped; a straight certificate was issued.

The correspondence in connection with this car in the office of the chief inspector at Winnipeg has been destroyed, but the chief inspector states that in cases of this kind the Fort William inspector notifies him of the condition of the grain upon arrival at the elevator, and sends him a sample. On receipt of the sample, the chief inspector informs the shipper or his agent of the circumstances, shows him the sample from Fort William, tells him the grade which he will have to give, gives him the privilege of calling a survey, and recalls the original certificate. If a survey is not called for, a new certificate is issued showing the changed grade.

The chief inspector states that it has not been the practice in the office at Winnipeg to retain correspondence in connection with reinspections or changes longer than one year.

The facts about the car then are fairly simple. The Winnipeg inspector judged the oats to be No Grade No. 2 C. W. Oats, Tough. Tough grain means grain containing such a high percentage of moisture that the grain cannot be put under any of what are called "straight" grades; and in accordance with section 115 of The Canada Grain Act, it must be designated "No grade." Section 115 reads: "All good grain that has an excessive moisture, being tough, damp or wet or otherwise unfit for warehousing, shall be entered on the inspecting officer's books as 'No grade,' with his notations as to quality and condition."

The oats, therefore, in this car contained an excessive moisture, were tough, and were unfit for warehousing. Such was the condition of the oats, though in other respects, the oats were No. 2 C.W.

The Winnipeg inspection took place on April 12. The car was then shipped forward to Fort William and did not reach Fort William until May 11.

There is nothing in the correspondence to show why a whole month elapsed before this car reached Fort William from Winnipeg. Such, however, was the fact; and at that season of the year oats that contained excessive moisture, that are tough and unfit for warehousing, are practically certain to heat if kept a month in the car.

When the car was placed for unloading at Davidson & Smith's elevator, the inspector found that the oats were heated and heating.

The inspector was bound in the ordinary course of his duty to note the condition of the oats, and to report the same to the chief inspector in Winnipeg. In doing this he did his duty. The storing of grain in the elevators at Fort William is a matter of first-class importance. If an inspector allowed a car of heated and heating oats to be unloaded into a bin containing tough oats, or straight grade oats, the law would be violated and the consequences would be disastrous.

It is to be noted that the Fort William inspector did not change the grade of the oats. He simply reported the condition of the oats to the chief inspector at Winnipeg. Upon receiving the intimation that the grain was heated and heating, and on receipt of the sample of the car from Fort William, the chief inspector at Winnipeg sent instructions to the Fort William inspector to handle the car, and handle it as heated and heating, while he himself, Mr. Serls, proceeded to recall the original certificate and issue a new one.

It is important and essential to notice that according to the original Winnipeg inspection, the oats were tough and no grade; and according to the Fort William inspector the oats were heating and heated. It is practically inevitable that tough grain, if allowed to remain in the car for a month at that season of the year, will heat, so that the two inspectors are in harmony; both inspections were correct.

The correspondence on reinspections and changes in the hands of the chief inspector at Winnipeg have not been kept longer than one year, and the correspond-

6 GEORGE V, A. 1916

once on this particular car was destroyed at the end of a year. There is, therefore, nothing on file in the Winnipeg office to show the steps the chief inspector took in recalling the original certificate and issuing a new one. The practice, however, is that he should notify the parties interested, intimate the change he contemplated, recall the original certificate, give an opportunity to appeal to the Survey Board, and if no appeal were lodged issue the new certificate.

It is important to notice, however, that whatever was done was done by the chief inspector for the Dominion. The Fort William inspector issued no grade on this car. The Fort William inspector simply notified the chief inspector for the Dominion of the condition of the oats in the car. The Fort William inspector in this did what he is appointed to do, and the grading of the car and the issuing of the new certificate were done by the chief inspector at Winnipeg.

Further, the chief inspector at Winnipeg controls Fort William inspection. There is no inspection at Fort William independent of and distinct from the Winnipeg inspection. The whole machinery of inspection at Fort William and Port Arthur is controlled by and governed by the Winnipeg inspection; is, indeed, part of the Winnipeg inspection.

The grain is graded in order to make storage possible in bulk. The Winnipeg inspection governs the storage of the grain in the terminal elevators at the head of the lakes. Grain is binned and stored on the Winnipeg inspection. Provision is made in *The Canada Grain Act* for certain classes of cases where reinspection is necessary. But whatever is done at Fort William with regard to inspecting grain into the elevators, is done subject to orders from Winnipeg; and whatever certificates are issued for grain going into the terminal elevators are issued from Winnipeg. Grain going out of the elevators is inspected at Fort William and Port Arthur, but the inspection there again is under the control of the chief inspector at Winnipeg. Samples and the grade are sent to the chief inspector for his approval, and the certificates issued are signed by him.

It is sheer nonsense to speak of any inspection either into the elevators or out from the elevators as being independent of or distinct from the inspection at Winnipeg.

Besides, as far as this particular car is concerned, the whole question turns upon not the grade but the condition of the oats. They were in bad condition at Winnipeg; they were kept in the car for one month in the spring; they were in still worse condition when they reached Fort William; the inspector at Fort William was bound to notify the chief inspector of the fact; the changed condition must be provided for if the oats were to be handled in any elevator at the head of the lakes; the original certificate issued could no longer be allowed to stand; a new certificate must be issued and it was issued by the chief inspector at Winnipeg.

The difference in value between tough oats and heated and heating oats is considerable. Had the car been shipped direct to Fort William and had it reached Fort William with the oats still tough, there would have been no trouble. The delay of a month, however, caused the oats to heat. The difference in value between the tough oats and the heated oats should fall in justice upon whatever party or company was responsible for the delay in shipping the car forward. The farmer could not be the cause of that delay, and it appears to the Board of Grain Commissioners that to charge the loss to him would be unfair. Watson & Co. purchased the grain from the farmer. It appears to the Board of Grain Commissioners that Watson & Co. cannot be regarded as the cause of the delay in handling of the car between Winnipeg and Fort William, and that it would be equally unfair to charge the loss to them. The Board of Grain Commissioners consider the difference between the oats as tough and the oats as heated and heating, being caused by the delay in handling the car, should be paid for by the railway company.

SESSIONAL PAPER No. 10d

The matter has gone into court as between the farmer and Watson & Co., and judgment has been given against Watson & Co.

Upon the issuing of a second certificate by the chief inspector at Winnipeg, Watson & Co. desired to pay the farmer on the basis of the second certificate. The judge, however, who tried the case, decided that Watson & Co. must settle with the farmer on the basis of the first certificate. The ground of the judge's decision was that the Winnipeg inspection was final, and that the inspector at Fort William had no right to change the grade at all.

The inspector at Fort William did not change the grade of the oats. The inspector at Fort William reported to the chief inspector at Winnipeg the condition of the grain, and the change in the certificate was made not by the inspector at Fort William, but by the chief inspector at Winnipeg; and both inspectors, in the opinion of the Board of Grain Commissioners, did what they are bound to do.

The Board of Grain Commissioners has no power to interfere with the judgment of the courts. It is open to Watson & Co., however, to accept the decision of the judge and then seek to collect the money from the railway company, or to appeal to a Superior Court.

Application has been made to the board to make Watson & Co. pay under the track buyer's bond in accordance with section 218 of *The Canada Grain Act* and related sections. The bond does not, in the opinion of the board, include such a case as this and further. the bond under which the trade between Watson & Co. and the farmer was done, has elapsed.

3.—DISCRIMINATION IN COUNTRY ELEVATOR RATES.

CLAIM OF MESSRS. SMITH, MURPHY AND COMPANY, GRAIN EXCHANGE, WINNIPEG, vs. THE GRAIN GROWERS' GRAIN COMPANY, LIMITED, DEALING WITH DISCRIMINATION IN RATES AT THE GRAIN GROWERS' GRAIN COMPANY'S ELEVATOR AT BINSARTH, MANITOBA.

Dealing with the order served upon the Grain Growers' Grain Company, under date of October, 23, asking them to appear here to-day and show cause why the maximum should not be reduced to $1\frac{1}{4}$ cents per bushel, instead of $1\frac{3}{4}$ cents per bushel as at present, in the opinion of the Board, the Grain Growers' Grain Company have, through their own evidence, as well as the evidence of various elevator owners, shown that the maximum rate of $1\frac{3}{4}$ cents per bushel for handling grain through a country elevator is not too high; therefore, the maximum rate remains at $1\frac{3}{4}$ cents per bushel for country elevators.

With reference to the question as to whether or not the Grain Growers' Grain Company have discriminated between its patrons at Binsarth, the Board are of the opinion that attaching any conditions to grain going through country elevators is a discrimination. A country elevator is a licensed public utility, which must treat all parties putting grain through it alike. It cannot charge one patron $1\frac{3}{4}$ cents per bushel and another patron $1\frac{1}{4}$ cents per bushel, and must not attach any conditions other than those provided for in *The Canada Grain Act*, and the rules and regulations governing country elevators, issued by the Board of Grain Commissioners.

6 GEORGE V, A. 1916

Section 222, of the Canada Grain Act, reads as follows:—

“The rate that may be charged for the cleaning or storing of grain in any country elevator shall be the same in all the elevators operated by any one person or company: Provided, however, that if it is shown to the satisfaction of the Board that a lower rate than that charged for cleaning or storing grain in the elevators of any person or company is necessary at any point in order to meet competition, the board may give written permission to charge such lower rates at that point as are in its opinion necessary to meet such competition, and at the same time authorize the ordinary rates at all other elevators belonging to such person or company.”

Under section 222, an elevator company must charge the same rate at all its country elevators, unless it gets permission in writing from the board to reduce its rates in order to meet competition.

The Grain Growers' Grain Company has not made application to the board for this permission at Binscarth. In the opinion of the board, when the rates are reduced by an elevator company at any particular point without getting the permission from the board, as provided under section 222, they will have to reduce the rate to the same scale all over their system.

4.—APPLICATION OF THE DOMINION MILLERS' ASSOCIATION *RE* EASTERN ELEVATOR TARIFFS.

(A)

GRAND TRUNK RAILWAY SYSTEM SPECIAL LOCAL FREIGHT TARIFF SHOWING CHARGES FOR
ELEVATION, STORAGE, ETC., ON GRAIN EX LAKE *in* TIFFIN No. 2 ELEVATOR.

ON DOMESTIC GRAIN.

See Notes 1 and 2.

From December 16 to August 31, both dates inclusive:—

Elevating grain from vessel to elevator, including (A) 20 days' free storage therein and loading into cars, but exclusive of shovelling grain in steamer— $\frac{1}{2}$ cent per bushel. Storage for each succeeding 15 days or part thereof— $\frac{1}{3}$ cent per bushel.

From September 1 to December 15, both dates inclusive:—

Elevating grain from vessel to elevator, including (A) 10 days' free storage therein and loading into cars, but exclusive of shovelling grain in steamer— $\frac{1}{2}$ cent per bushel. Storage for each succeeding (A) 10 days or part thereof—(A) $\frac{1}{3}$ cent per bushel.

ON EXPORT GRAIN.

(See Note No. 2.)

Elevating grain from vessel to elevator, including 30 days' free storage therein, and loading into cars, but exclusive of shovelling grain in steamer—(R) $\frac{1}{4}$ cent per bushel.

Storage for each succeeding (A) day (R)— $\frac{1}{50}$ cent per bushel.

(A) Advance.

(R) Reduction.

SESSIONAL PAPER No. 10d

NOTE 2.—Export charges apply only on traffic consigned through to British and foreign countries (except points in Canada, United States, Mexico, Newfoundland, and Islands of St. Pierre and Miquelon).

All other traffic will be subject to the charges for domestic grain.

CANADIAN PACIFIC RAILWAY TARIFF No. E-2476, CANCELLING No. E-1980, PORT
McNICOL ELEVATOR.

DOMESTIC GRAIN.

From 16th December to 31st August, both dates inclusive:—

Elevating from vessel to elevator, including (A) 20 days' storage therein and loading into cars, but exclusive of shovelling grain in vessel— $\frac{1}{2}$ cent per bushel.

Storage for each succeeding 15 days or part thereof— $\frac{1}{8}$ cents per bushel.

From 1st September to 15th December, both dates inclusive:—

Elevating from vessel to elevator, including (A) 10 days' storage therein and loading into cars, but exclusive of shovelling grain in vessel— $\frac{1}{2}$ cent per bushel.

Storage for each succeeding (A) 10 days or part thereof (A)— $\frac{1}{4}$ cent per bushel.

EXPORT GRAIN.

Elevating from vessel to elevator, including 30 days' storage therein and loading into cars, but exclusive of shovelling grain in vessel— $\frac{1}{4}$ cent per bushel.

Storage for each succeeding (A) day— $\frac{1}{50}$ cent per bushel.

ADVANCES IN THE PROPOSED TARIFF ON DOMESTIC GRAIN IN TIFFIN ELEVATOR No. 2.

There are four advances in the new tariff:—

1. The free storage period is reduced from thirty days to twenty during the period from December 16 to August 31.

2. The free storage period is reduced from thirty days to ten during the period from September 1 to December 15.

3. The rate for storage after the free period elapses is advanced from $\frac{1}{8}$ cent to $\frac{1}{4}$ cent per bushel.

4. And this higher rate is charged for each succeeding ten days or part thereof instead of fifteen days or part thereof.

ADVANCES IN THE PROPOSED TARIFF ON DOMESTIC GRAIN IN PORT McNICOLL ELEVATOR.

There are similar advances in the new tariff on domestic grain in the Port McNicoll elevator.

DOMESTIC GRAIN.

The Grand Trunk tariff for Tiffin No. 2 elevator states in Note 2 that "Export charges apply only on traffic consigned through to British and Foreign Countries (except to points in Canada, United States, Mexico, Newfoundland, and islands of St. Pierre and Miquelon). All other traffic will be subject to the charges for domestic grain."

According to Mr. Dewey, the railway companies mean by domestic grain any grain, whether grown in Canada or the United States, that is shipped through Canadian points and consumed either in the United States or Canada. Domestic grain, therefore, in the tariffs in question includes United States grain shipped through the elevators for consumption either in Canada or the United States.

(A) Advance, (R) Reduction.

6 GEORGE V, A. 1916

APPLICATION OF THE DOMINION MILLERS' ASSOCIATION.

The Dominion Millers' Association applied to the Board of Grain Commissioners to have these four advances on domestic grain disallowed. The application was limited to domestic grain, and by domestic grain the millers meant grain consumed in Canada. The Dominion Millers' Association consider that United States grain shipped through Canadian channels and consumed in the United States should be regarded as export grain; at all events the domestic grain, which is the subject of the application of the Dominion Millers' Association, is grain consumed in Canada.

And the Dominion Millers' Association applied for the disallowance of the advanced rates on domestic grain on the ground that the advanced charges would fall on the Canadian millers, that the milling industry in Ontario is not in a condition to bear any additional burden, and that to increase the charges on grain consumed by mills in eastern Canada while not increasing the charges on export grain or while reducing the charges on export grain, involves a discrimination in favour of the millers in foreign countries at the expense of Canadian millers and makes more difficult the manufacture of flour in Canada. The millers do not think it is a sound economic policy to make it easier to ship the raw material and to make it more difficult to manufacture the raw material into flour at home.

REASONS FOR THE ADVANCES ON DOMESTIC GRAIN.

The Grand Trunk and Canadian Pacific Railway Companies justify the proposed advances on domestic grain as follows:—

The main economic function of the two elevators concerned is to facilitate the transportation of the grain of the Northwest provinces of Canada to the export market, and any condition which makes it more difficult for the elevators to serve this function is detrimental to the interests of the country. Few millers in Eastern Canada have facilities for storing wheat, and the other millers use these transfer elevators for storage houses. The domestic grain, according to the railway companies, is kept too long in store in the elevators at Port McNicoll and Tiffin, with the result that the elevators are not able to handle the large volume of grain that must be exported as economically as is desirable and possible. Ships, accordingly, are delayed and the whole work of transporting the large volume of grain that must be exported is seriously interfered with. The rates, therefore, on domestic grain are not increased for the sake of additional profits to the elevators from the handling of domestic grain, but rather in order to limit the use of these elevators for storage purposes by eastern millers, and to confine the use of the elevators as far as possible to transfer purposes. The railway companies consider that these elevators should not be used for storage purposes, especially during those months when the export grain is rushed to market in large quantities. They consider that millers should provide their own storage, and that if the millers do not provide their own storage, they should not be encouraged by low elevator rates to store their grain in elevators primarily designed as transfer elevators, and they should not be permitted to put obstacles in the way of the rapid and economical transportation of the export grain.

PUBLIC ELEVATORS.

The two elevators in question are licensed as public elevators in the Eastern Division, and *The Canada Grain Act* defines a "public elevator" as "Every elevator or warehouse which receives grain for storage from the Western Inspection Division after such grain has been inspected under this Act." There is nothing in the *Canada Grain Act* that would authorize the prohibition of elevators operated under the license of a public elevator in the Eastern Division storing grain. So far as *The*

SESSIONAL PAPER No. 10d

Canada Grain Act is concerned, public elevators in the Eastern Division may be used for storage purposes, and their use for storage purposes is as legitimate as their use for transfer purposes.

Further, according to *The Canada Grain Act*, section 126, "No discrimination shall be made between persons desiring to avail themselves of warehouse facilities." Taking the proposed tariffs, it would appear that from the 1st of September to December 15, inclusive, the Ontario miller would be charged $\frac{1}{2}$ cent per bushel for elevation and 10 days' storage, whereas the exporter of grain to Great Britain would be charged $\frac{1}{4}$ cent per bushel for elevation and 30 days' storage.

There certainly appears to be a discrimination against the Ontario miller.

CONGESTION AT THE ELEVATORS IN THE PERIOD FROM SEPTEMBER 1 TO DECEMBER 15.

The railway companies argue that there is a congestion during this period and that this congestion is caused by the fact that domestic grain is held in store in the elevators by millers, and they argue that in consequence of this congestion the transportation of the export wheat is delayed.

It has not been proven to the satisfaction of the Board of Grain Commissioners that such congestion as has been experienced was caused by grain being held in store in the elevators by the Ontario millers. Indeed, the representatives of the railways include under domestic grain United States grain shipped to United States points. The domestic grain, therefore, which caused the congestion, was, in part, according to them, United States grain shipped to United States points; and it was not proved to the satisfaction of the Board that there were not other causes to which such congestion might be attributed, for example, conditions at Montreal and St. John, ocean tonnage, market prices, etc., and it was not proved to the satisfaction of the board that the adoption of the advanced rates would remove the congestion.

The board consider, therefore, that a sufficient cause has not been made out for all these advances on domestic grain.

Doubtless during the period from September 1 to December 15, the elevators are called upon to transfer a large volume of Canadian grain to the export market, and the exporting of Canadian grain is an important Canadian industry. It is most important that the elevators should be operated during that period in such a way as to facilitate the movement of the grain to the foreign market. The Board, therefore, approve of limiting the free storage during the period from September 1 to December 15, upon both domestic and export grain to ten days, but the board cannot approve of the other three advances proposed in the tariffs on domestic grain. It is therefore ordered that these three advances on domestic grain be discontinued from the 1st of September in so far as the Grand Trunk elevator is concerned, and from 8th of September in so far as the Canadian Pacific elevator is concerned.

The board further orders that as Note No. 2 in the tariff of the Grand Trunk elevator, I.C.C. 2078, is somewhat ambiguous, and as the tariff of the Canadian Pacific, No. 2476, gives no distinction between domestic and export grain, both companies be required to embody in the published tariff an explicit distinction between export and domestic grain.

6 GEORGE V, A. 1916

APPLICATION OF THE SCOTTISH CO-OPERATIVE WHOLESALE SOCIETY, LIMITED, FOR
PRIVATE COUNTRY ELEVATORS, ETC.

Messrs. Allan, Stewart, Paisley and Fisher, as representing the Scottish Co-operative Wholesale Society, Ltd., met the Board of Grain Commissioners to put before the Board the desires of their company in the matter of grain.

Speaking generally, their company desired to purchase or produce their own wheat on the prairies, preserve its identity in their own country elevators, preserve its identity in the terminal elevators, preserve its identity in the lake and ocean steamers and in the eastern elevators, and thus secure their own grain for their own mills in Scotland.

1. *Country Elevators.*

The Chief Commissioner read the following extract from a letter from the Department of Justice:—

“I beg to advise you that with the exception of that contained in section 152 of *The Canada Grain Act*, country elevators within the meaning of the Act are subject to section 157 thereof, which in my opinion precludes the owner or operator of such an elevator from refusing to store the grain of other persons so long as there is space to receive the same.”

On this interpretation of *The Canada Grain Act* it would be impossible, under present law, to give any license to the Scottish Co-operative Wholesale Society which would enable them to operate and own elevators in the West for the purpose of preserving their own grain and of enabling them to refuse grain offered to them for storage.

As to whether amending legislation could be secured from the Canadian Parliament, the chief commissioner intimated that it was unlikely that any legislation could be secured by any milling companies in Great Britain that would not be applicable to milling companies in Canada. Canadian mills operate elevators under license as public storage elevators.

But under existing legislation which the Board of Grain Commissioners must administer, the elevators of the Scottish Co-operative Wholesale Society must be open to the public so long as there is space. On the other hand, the chief commissioner pointed out that it was quite possible for the Scottish Co-operative Wholesale Society to keep their own grain intact and to maintain its identity so far as country elevators were concerned, by special binning in the country elevators.

2. *Terminal Elevators.*

With reference to maintaining the identity of grain, especially of the higher grades used by the Scottish Co-operative Society's mills, at the terminal point, the chief commissioner intimated that the Board of Grain Commissioners might be willing to lease special bins to the Scottish Co-operative Wholesale Society during the period of nine months in the year in the government elevator, and the chief commissioner agreed to put this matter before the board and have the board send a statement with regard to details and conditions to Mr. Fisher.

The chief commissioner pointed out that if the Scottish Co-operative Wholesale Society built or bought a small terminal elevator at the head of the lakes, and operated it under the regular public terminal license, there would be no difficulty found by them in preserving the identity of their own grain, because in fact, terminal elevators compete for business. Grain does not go to terminal elevators automatically or by gravitation, and if the Scottish Co-operative Wholesale Society did not solicit any other business than their own, they would not get it. Further, if they did not want

SESSIONAL PAPER No. 10d

to unload cars containing their own grain, but of lower grades than that milled, they could easily divert such cars to any other terminal elevator, so that the Scottish Co-operative Society would have no difficulty in maintaining the identity of its own grain at the terminal point.

3. *From terminal point to seaboard.*

The chief commissioner pointed out the possibility of shipping grain all water direct from Fort William to Montreal. Apart from this, eastern elevators as a rule are willing to preserve the identity of the cargo in order to get business, although from the point of view of *The Canada Grain Act*, the eastern elevators are not compelled to preserve the identity of the lot so long as they do preserve the identity of the grade.

The Board of Grain Commissioners for Canada would like to meet the wishes of the Scottish Co-operative Wholesale Society, Limited. If the Scottish Co-operative Wholesale Society were, after reviewing the whole situation, favourably disposed towards increasing their capital in Canada, the board would be pleased to consider any amendment to *The Canada Grain Act* which the Scottish Co-operative Wholesale Society may deem necessary to meet their wishes.

Chief Commissioner.

APPLICATION OF THE MANITOBA GRAIN GROWERS' ASSOCIATION FOR THE REDUCTION OF COMMISSION CHARGES ON THE SALE OF GRAIN IN GRAIN EXCHANGES.

On the 13th of November, 1914, the Board of Grain Commissioners received the following resolution from the Manitoba Grain Growers' Association:—

“That the secretary be and is hereby instructed to make application to the Board of Grain Commissioners for Canada to have a clause inserted in *The Canada Grain Act* providing that the maximum charge for selling grain on commission in any grain exchange west of Port Arthur should be 1 cent per bushel for wheat and flax, $\frac{1}{2}$ cent per bushel for oats, and $\frac{3}{4}$ cent per bushel for barley.”

The present commission charge is 1 cent per bushel for wheat, oats, barley and flax.

On the 14th of December, 1914, the Board also received the following resolution from Alberta:—

“That in the opinion of the shareholders of the Alberta Farmers' Co-operative Elevator Co., Ltd., in annual convention assembled, the commission for the handling of oats should be reduced to $\frac{1}{2}$ cent per bushel.”

In accordance with the original application, a meeting was held in the city of Winnipeg on December 14, 1914.

After hearing the evidence the chief commissioner, on behalf of the board, summed up as follows:—

“If this were only a matter of deciding whether the commission on oats should be one cent or one-half cent per bushel, it would be easy for the board to form a decision and act upon it. But as I see it, the real issue raised is a much bigger one; it is whether there should be an increased state regulation of the grain exchanges.

6 GEORGE V, A. 1916

"And that being the issue really raised, the Board of Grain Commissioners cannot refuse to send it forward to the Government. The Grain Growers' representatives, feeling that the commission charges upon oats and barley are too high, and being unable to obtain a satisfactory adjustment from the grain exchange, have come to the board and have asked for an amendment to *The Canada Grain Act*. This amendment really involves the State supervision or regulation of the grain exchanges.

"The board cannot decline to send this large issue forward, based as it is upon what appears to be an unduly high commission on oats and barley. Our conclusion, therefore, to-day is that if the dissatisfaction of the farmers continues with these charges; if, in other words, the grain exchange abides by the present commission rule, the board must send the whole matter to a higher tribunal than the board is empowered to be."

On the 5th of January, 1915, the board received the following letter from the Winnipeg Grain Exchange:—

"I beg to inform you that at a special general meeting of the Winnipeg Grain Exchange held on the 29th of December last, the by-laws, rules and regulations of the exchange were unanimously amended, changing the commission rate to non-members of the exchange for receiving and selling and accounting for on arrival, to arrive or for some future month's delivery, on oats from one cent per bushel to five-eighths cent per bushel; the rate of commission on oats to members of the exchange was also unanimously changed from one-half cent per bushel to three-eighths cent per bushel."

Copy of this letter was sent to the applicants, the Manitoba Grain Growers' Association, who replied on the 27th of January as follows:—

"I am directed by the Board of Directors of the Manitoba Grain Growers' Association to inclose you a copy of the resolution passed at the annual convention of the Manitoba Grain Growers, held in Brandon on the 13th, 14th, and 15th instant.

"I am directed to say that the resolution passed by the Winnipeg Grain Exchange, proposing to reduce the commission on oats to $\frac{5}{8}$ cent per bushel, effective September 1, 1915, does not meet the views of the Grain Growers' Association, and they intend to continue to press for a further reduction, until the discrimination in the commission charges on oats and barley, as compared to flax and wheat, is removed."

On the 2nd of February, the board answered this communication by the following letter:—

"I beg to acknowledge receipt of your letter of the 27th ult. with inclosure as stated, addressed to the chief commissioner.

"The Board of Grain Commissioners, at the session held in Winnipeg, stated that if the dissatisfaction on the part of the producers in connection with commission charges remained, the board would send the whole question to Parliament. The board notes the reduction offered by the Winnipeg Grain Exchange does not satisfy the farmers.

"The Board has no assurance that legislation can be obtained during the coming session, but in view of the fact that the producers are still dissatisfied, the board is prepared to recommend that an amendment be made to *The Canada Grain Act*, section 215, as follows: Proposed that subsection 2 be added to section 215 as follows: 'The charge for selling grain on commission shall be subject to such regulations and reductions as the board deems proper.'

SESSIONAL PAPER No. 10d

"The Board would like to hear from your association at an early date in connection with this matter."

This letter has met with the approval of the Grain Growers generally.

The Board of Grain Commissioners therefore recommends that the following amendment be made to *The Canada Grain Act* at the present session of Parliament:—

"Section 215 is amended by adding thereto subsection 2 which reads as follows:—

"The charge for selling grain on commission shall be subject to such regulations and reductions as the board deems proper."

The amendment recommended by the board has not yet been made by Parliament.

ORDERS ISSUED BY THE BOARD FROM THE 21ST OCTOBER, 1914, TO APRIL 18, 1915.

Date.	Order No.	Subject.	
March 11.....	27	Complaint.....	In the matter of the complaint of L. A. Cayford, Chauvin, Alberta, re undue dockage assessed by the Alberta Farmers' Co-op. Elevator Co., Ltd., at their elevator at Chauvin, Alberta. It is ordered that the Alberta Farmers' Co-operative Elevator Co. show cause to the board not later than the 25th day of March, 1915, why they should not refund all the assessed dockage over and above one-half of one per cent that they have taken on sound grain at their elevator at Chauvin, Alberta, since the 1st of September, 1914.
April 28.....	28	Elevator equipment.....	In the matter of elevator equipment for loading to steamers at Fort William and Port Arthur. It is ordered that all elevators at Fort William and Port Arthur shipped to steamers equipped with stationary spouts and turnheads must provide before the 15th of May, 1915, a slide valve to be placed in each spout leading to shipping bins, said slide valve to be fastened by lock and key, which key will be in the custody of the Government weighman. It is further ordered that all elevators at Fort William and Port Arthur, as outlined above, must provide fasteners on the short movable scale spouts on turnheads. It is further ordered that all elevators at Fort William and Port Arthur shipping to steamers equipped with Mayo spouting must be fastened by lock and key, provide covers for the shipping bins of which said key must be retained by the Government weighman.

Aug. 2.....	49	Loading platform.....	In the matter of the extension of the grain loading platform at Dummer, Sask. (C.N. Ry.). It is ordered that the present grain loading platform be extended to 100 feet in length, to take care of four cars simultaneously, by the 15th of September.
Aug. 24.....	50	Loading platform.....	In the matter of the extension of the grain loading platform at Lydden, Sask. (G.T.P. Ry.). It is ordered that the present grain loading platform be extended to 100 feet, to take care of four cars simultaneously, by the 1st of Oct., 1915.
Sept. 13.....	51	Complaint <i>re</i> delay to steamer.	In the matter of the delay to the str. <i>Glenfinnan</i> , Sept. 10th, also letter from Great Lakes Transportation Co., Ltd., dated 17th Sept., in reference thereto, copy attached. (Thunder Bay Elev. Co.) It is ordered that you file with the Board by the 24th inst. a full explanation of the cause of the delay, giving full particulars of quantities loaded on this steamer, as well as on the steamers <i>Graham</i> and <i>Sarnian</i> .
Sept. 18.....	52	Delay to steamer, complaint.	In the matter of the delay to the steamer <i>Glenlyon</i> , Sept. 17, also letter from the Great Lakes Transportation Co., Ltd., dated 17th September, in reference thereto, copy attached. (Canadian Northern Elevator Co.) It is ordered that you file with the Board by the 24th inst. a full explanation of the cause of the delay, giving particulars of quantities loaded on this steamer, as well as on the steamer <i>Doric</i> .

SESSIONS HELD BY THE BOARD.

The board held fifty-eight meetings for the year ended December 31, 1915, the majority of which were for the purpose of dealing with extensions to loading platforms.

CHAPTER 9.

REVENUE AND EXPENDITURES.

The following statement, which has been prepared by the chief accountant, Mr. Smith, Winnipeg, shows the receipts and expenditures for the crop years ended August 31, 1914, and August 31, 1915, for all the offices in the Eastern and Western divisions. The statement also shows the increases or decreases of the revenue and expenditure at each office for the year 1915, as compared with the year 1914.

EASTERN DIVISION.

It will be noticed that each of the offices in the Eastern division still show deficits, although the deficits are smaller than in the year 1914. The deficit in the Eastern division has been lowered approximately \$3,000.

WESTERN DIVISION.

In this year's statement there are large deficits shown where previously large surpluses were reported. The reason for this is the short crop of the crop year ended August 31, 1915.

(a) *Calgary*.—The receipts at the Calgary office are approximately the same as last year. The expenditures are a little higher, this being on account of the statutory increases in the salaries. The deficit at the Calgary office was increased \$358 for the crop year, ended August 31, 1915, over the previous year.

(b) *Duluth*.—There is a decrease in the revenue at the Duluth office of \$4,443.59. The inspection fees for the year 1914 were approximately \$6,000, while the inspection fees for the year 1915 dropped to \$1,628. This is the reason of the large deficit this year. It might be interesting to show a summary of the surpluses and deficits at Duluth for a period of the last eight years. These are given herewith:—

	Deficit.	Surplus.
Year 1907-8 deficit paid by Canadian Northern Railway.	
" 1908-9 surplus..	\$1,046 65
" 1909-10 "	313 65
" 1910-11 deficit.. . . .	\$1,505 61	
" 1911-12 surplus..	5,429 42
" 1912-13 "	1,877 32
" 1913-14 "	38 94
" 1914-15 deficit.. . . .	3,361 40	
Total.. . . .	\$4,867 01	\$8,705 98
		4,867 01
Total surplus on period of eight years...		\$3,838 97

It will therefore be seen that since the Duluth office was opened the inspection department has made a surplus of \$3,838.97.

(c) *Moosejaw*.—The increase in the revenue of the Moosejaw office is caused by the opening of the Canadian Government elevator at that point. Previous to the opening of the Canadian Government elevator there was an inspector and weighman at the Robin Hood mills. A surplus is shown at this point.

(d) *Saskatoon*.—An inspector and weighman were placed at Saskatoon for the opening of the Canadian Government elevator. For the year's work there is a deficit of \$512.

(e) *Medicine Hat*.—The salaries of the inspectors and weighmen at Medicine Hat are guaranteed by the milling companies at that point, and therefore if there is a shortage it is made up by them. The deficit this year was only \$16.80, which has been collected from the different companies interested.

(f) *Vancouver*.—The board has two weighmen stationed at Vancouver, whose salaries are guaranteed by the elevator and milling companies at that point.

On the year's work there is a deficit of \$4, which has been collected from the companies interested.

(g) *Keeewatin*.—The same remarks made in connection with Vancouver apply to this point. Instead of, however, there being a deficit, there is a surplus on the year's work of \$151.60, which reverts to the weighing department.

(h) *Kenora*.—The deficit at this point has been increased from \$137.50 to \$551.30, an increase of \$413.80. In connection with this office, below will be found a statement showing the surpluses and deficits at the Kenora office since it was opened. It will be noticed that the weighing department have received a surplus of \$1,285.55 for the six years' work:—

	Deficit.	Surplus.
Year 1909-10 surplus..	\$ 575 00
" 1910-11 "	335 85
" 1911-12 "	852 75
" 1912-13 "	210 75
" 1913-14 deficit.. . . .	\$137 50	
" 1914-15 "	551 30	
Total.. . . .	\$688 80	\$1,974 35
		688 80
Total surplus on period of six years.. . . .		\$1,285 55

(i) *Fort William and Port Arthur*.—The surplus of \$68,326.52 in the year 1914 was turned into a deficit of \$35,045.10 in the year 1915. By referring to the statement it will readily be seen how this has occurred. The inspection fees for this year are approximately \$42,000 lower, and the weighing fees are approximately \$54,000 lower. The expenditures are higher, but this is caused by statutory increases to the salaries of inspectors, weighmen, samplers, etc.

(j) *Winnipeg*.—The same remarks as to the inspection fees and weighing fees at Fort William and Port Arthur apply to Winnipeg. The inspection fees are \$40,000 lower, and the weighing fees \$6,000 lower than in 1914. A deficit of approximately \$24,233.95 in 1914 has been increased to a deficit of \$59,690.57.

GENERAL.

It is quite apparent that the cause of the large increase in the deficit for the year 1915, and the large reduction in the revenue in so far as the inspection and weighing fees are concerned, has been caused solely by the short crop.

For the Western division there is an increase of approximately \$16,000 in the expenditures, which is accounted for by the statutory increases given to the staff on September 1, 1914. The increases granted by the minister on that date approximated \$32,000.

SESSIONAL PAPER No. 10d

With regard to the expenses for the Board of Grain Commissioners proper, the increase in the salaries is caused by statutory increases, and by the organization of the statistician's department. Contingent and travelling expenses for the Board of Grain Commissioners have only been increased approximately \$500.

In conclusion, it might be stated that the following figures of expenditures do not include the different amounts paid by the Department of Trade and Commerce to the King's Printer for stationery and printing, supplied to the different offices under the board.

Saskatoon Elevator.

Moose Jaw Elevator.

Vancouver Elevator

Calgary Elevator.

CHAPTER 10.

REPORT OF CHIEF ENGINEER—C. D. HOWE.

To Board of Grain Commissioners:—

GENTLEMEN,—I beg to submit the following report of the work of the elevator construction branch for the current year.

Interior terminal elevators have been completed at Moosejaw and Saskatoon, in the province of Saskatchewan, and at Calgary, Alberta. An ocean terminal elevator is now in process of construction at Vancouver, B.C. The elevators at Saskatoon and Moosejaw were opened on October 14, 1914, and handled part of the crop of 1914. The elevator at Calgary was opened on September 1, 1915.

SASKATOON ELEVATOR.

The Saskatoon elevator has a total storage capacity of 3,500,000 bushels of grain. The elevator is of reinforced concrete construction throughout, and is fireproof. (See cut.)

The elevator working-house contains 110 concrete bins, with a total storage capacity of 500,000 bushels of grain. Cars are unloaded into the elevator in a reinforced concrete and steel track shed, the receiving capacity being eighteen cars of grain per hour. Cars of grain can be loaded out from the elevator at the rate of fifty-four cars per hour. The elevator can receive and ship grain at maximum capacity simultaneously. The elevator storage annex contains 150 bins, and has a total storage capacity of 3,000,000 bushels of grain.

The elevator is equipped with six hopper scales of 2,000 bushels capacity each. The cleaning equipment includes ten No. 9 Monitor receiving separators, two Monitor flax cleaners, two Richardson wheat and oats separators, and one No. 9 Monitor screenings separator. A Morris dryer with a drying capacity of 24,000 bushels of wet grain per day is installed in a separate building. Steam for drying purposes is furnished from a separate boiler-house, the boiler installation including two 100 horse-power marine type boilers.

The elevator equipment also includes two automatic sacking machines, each being installed in sacking rooms with a direct bag chute to cars. A Simplex screenings grinder for grinding elevator screenings into feed is installed in the elevator. This machine has a capacity of grinding from one and one-half to three tons of screenings per hour to any desired fineness. A complete dust collector system is provided, as well as a compressed air system for blowing dust out of motors.

The elevator is electrically driven, separate motors being provided for each machine. Fifty-four motors of sizes from 75 horse-power to 5 horse-power are used in the elevator. Electric power is purchased from the city of Saskatoon, and is transmitted to the elevator at 10,000 volts by means of an underground cable. A separate electrical sub-station building is provided at the site to house the elevator transformers, which transform the power from 10,000 volts, two phase, to 550 volts, three phase for power, and to 110 volts, single phase for lighting. The substation building also houses the elevator switch-board. Electric wiring is carried throughout the elevator in concealed conduit. The elevator has a complete equipment of interior telephones and signal bells and lights.

6 GEORGE V, A. 1916

The Saskatoon elevator is connected by direct spur trackage to the Canadian Pacific, the Canadian Northern, and the Grand Trunk Pacific Railways. About three miles of trackage is provided at the elevator site on which cars may be handled by the elevator car haul machinery.

The total cost of the Saskatoon elevator plant was about \$1,150,000.

MOOSEJAW ELEVATOR.

The Moosejaw elevator is a duplicate of the Saskatoon elevator in respect to buildings and equipment. (See cut.)

Power for this elevator is supplied by a Diesel oil engine installation, housed in a reinforced concrete building adjacent to the elevator. The installation consists of three Diesel oil engines of 250 horse-power capacity, each direct connected to a dynamo, and one oil engine of 150-horse-power capacity direct connected to a dynamo. The plant is equipped with fuel oil storage tanks of large capacity, and with a large circulating water cooling tank. Circulating water for the oil engines is pumped from a well in the power-house basement. The switchboard for the control of the power dynamos and the power and lighting circuits throughout the elevator is located in the power-house building.

The Moosejaw elevator trackage is at present connected with the Canadian Pacific Railway. A spur track is now under construction that will connect the elevator trackage with the Grand Trunk Pacific and Canadian Northern Railways. The total cost of the Moosejaw elevator was about \$1,250,000.

CALGARY ELEVATOR.

The Calgary elevator has a storage capacity of 2,500,000 bushels of grain. The working house, drier, boiler house and transformer house are practically duplicates of those at Saskatoon. (See cut.) The Calgary storage annex contains 98 bins with a total capacity of 2,000,000 bushels of grain. Power for the Calgary elevator is purchased from the city of Calgary.

The Calgary elevator trackage is connected by direct spur tracks to the Canadian Pacific and Canadian Northern Railways. Cars from the Grand Trunk Pacific Railway reach the elevator trackage by a transfer track between that road and the Canadian Pacific Railway, and thence over the Canadian Pacific Railway direct spur.

The total cost of the Calgary elevator was about \$950,000.

VANCOUVER ELEVATOR.

The ocean terminal elevator under construction at Vancouver, B.C., is located at the site of the public dock on Burrard inlet, now in process of construction by the Dominion Government Public Works Department. The elevator will receive grain from cars and will ship grain to boats by means of conveyor galleries extending along both boat slips of the dock. Four ocean liners can be loaded from these galleries simultaneously. The dock served by the elevator is 800 feet in length by 300 feet in width, of reinforced concrete construction, with two boat slips each 800 feet long and 150 feet wide.

The Vancouver elevator is of reinforced concrete construction throughout, and will have a total storage capacity of 1,250,000 bushels of grain. (See cut) Its receiving capacity for grain from cars will be eighteen cars, or about 20,000 bushels of grain per hour. Its simultaneous capacity for shipping grain to boats will be 60,000 bushels of grain per hour. Two ocean boats can be loaded simultaneously at the rate of 30,000 bushels of grain each per hour, or four boats can be loaded simultaneously at the rate of 15,000 bushels of grain each per hour.

SESSIONAL PAPER No. 10d

The elevator working house will contain ninety-one bins with a total storage capacity of 300,000 bushels of grain. Its equipment includes three 2,000 bushels capacity hopper scales (used for weighing grain from cars), three 10,000 pounds capacity Richardson automatic scales (used for weighing grain for bulk shipment to boats), two No. 9 Monitor receiving separators, a dust collector system, and a compressed air system for cleaning motors.

The elevator storage annex will contain eighty-eight bins and will have a total storage capacity of 950,000 bushels of grain.

The belt conveyor galleries will be of steel construction with concrete floors and galvanized metal sides and roof. Each gallery will contain two shipping belts. Large shipping bins are provided in the elevator working-house to equalize the flow of grain from the scales. Thirty-nine boat spouts are suspended from the galleries to deliver the grain to the boats. The floors of the shipping galleries are 72 feet above the top of the dock.

A separate building adjacent to the elevator working-house will contain the elevator switchboard room, the transformer room, the elevator general offices, the inspection office, and a large sacking room. The sacking room will be equipped with four automatic sacking scales of five bushels capacity each. Provision is made for the future installation of three additional sacking scales, the maximum sacking capacity of the plant being about 4,000 bushels of grain per hour. A shipping belt will convey grain in sacks from the sacking room to any part of the dock sheds. A car loading spout will permit the loading of sacked grain into cars direct from the sacking room.

The elevator will be electrically driven throughout, and includes in its equipment forty-two motors varying in size from 100 horse-power to 5 horse-power. Power from the elevator will be purchased from the Western Canada Power Company. The elevator electrical equipment also includes an inter-communicating telephone system and signal lights and bells.

The Vancouver elevator will have direct trackage connection to the Canadian Pacific Railway, and will have an interswitching connection with the Canadian Northern and Great Northern Railways. Trackage is provided at the elevator site to permit the placing of seventy cars of grain within reach of the elevator car haul.

All plans and specifications for the Vancouver elevator were prepared by this department. The total cost of this elevator will be about \$850,000.

The Vancouver elevator will be ready to receive and ship grain about January 1, 1916.

PORT NELSON ELEVATOR.

During the year plans have been started for the proposed elevator at Port Nelson, Hudson bay. These plans are about one-half completed, work on same having been suspended until final data from Port Nelson is received.

RULES AND REGULATIONS APPROVED OF BY THE BOARD OF GRAIN
COMMISSIONERS FOR CANADA, FOR SHORTAGES AND OVERAGES
ON CARGOES.

BETWEEN the elevators at Fort William and Port Arthur, on the one hand, and the Lake Carriers and the Grain Clearance Corporation, of Buffalo, on the other.

As there has been organized a Grain Clearance Corporation at Buffalo, N.Y., to deal with shortages and overages on both United States and Canadian boats from Canadian loading ports to United States ports on the basis that the boat will pay, or arrange for payment, to the Grain Clearance Corporation, an amount equal to one-sixth of a bushel per 1,000 bushels loading port value, and one-quarter of a bushel per 1,000 bushels at c.i.f. value at port on date of discharge, and 12 cents per 1,000 bushels for supervision.

The Board of Grain Commissioners approves of this method of dealing with shortages and overages for the season of 1915, and notify the terminal elevator operators at the head of the lakes and lake carriers accordingly.

With regard to overages, under section 120 of *The Canada Grain Act*, the Board of Grain Commissioners must seek to ascertain the causes of overages and shortages, and if in any particular case the liability for such can be ascertained and placed, the Board of Grain Commissioners will determine the liability for the shortage and ownership of the overage. The board agree that all other overages shall be given to the Grain Clearance Corporation.

ROBERT MAGILL,
Chief Commissioner.

J. P. JONES,
Commissioner.

FORT WILLIAM, Ont., April 28, 1915.

RULES AND REGULATIONS APPROVED OF BY THE BOARD OF GRAIN
COMMISSIONERS FOR CANADA, *RE* SHORTAGES AND OVERAGES
ON CARGOES.

1. Between the elevators at Fort William and Port Arthur, on the one hand, and the lake carriers and the elevators at Canadian eastern ports on the Great Lakes and the St. Lawrence, on the other.

2. Between the elevators at Canadian eastern ports on the Great Lakes, the carriers and the elevators on the St. Lawrence.

FOR THE SEASON OF 1915.

1. The loading elevators at Fort William and Port Arthur shall allow one-sixth of a bushel per 1,000 to the unloading elevators.

2. The lake carriers shall allow one-quarter of a bushel per 1,000 to the unloading elevators.

SESSIONAL PAPER No. 10d

3. The unloading elevators shall accept and guarantee the weight as given on the weight certificates issued by the Dominion Government at Fort William and Port Arthur.

4. Cargoes loaded by elevators at Canadian eastern ports and unloaded at Montreal and Quebec shall come under a similar rule, viz., the loading elevator shall allow one-sixth of a bushel per 1,000 to the unloading elevators, the carrier shall allow one-quarter of a bushel per 1,000 to the unloading elevator and the unloading elevators shall accept and guarantee the loading weight.

5. (a) All payments by loading elevators and carriers shall be in money.

(b) The loading elevators at Fort William and Port Arthur shall pay on basis of Fort William prices on date of shipment.

(c) The lake carriers shall pay on basis of c.i.f. at point of unloading.

(d) The loading elevators at the eastern ports shall pay on basis of either Fort William or Montreal prices, as arranged between the parties concerned.

6. Whenever a shortage or an overage can be traced in any particular case, the liability for the shortage and the ownership of the overage will be determined by the Board of Grain Commissioners.

7. The unloading elevators will receive all overages other than those mentioned in paragraph 6.

8. The operators of unloading elevators shall have the right to satisfy themselves as to the quantity of damaged grain in any vessel, if possible by actual weighing.

9. The operators of unloading elevators shall have the right to satisfy themselves that they have secured all the undamaged grain in each vessel unloaded.

10. The operators of unloading elevators shall have the right to examine the vessel for defective bulk-heads or for the leaking or mixing of grain resulting from that or any other cause.

11. The regulations hereby issued hold good only for the present shipping season, and they are in the nature of an experiment. It is not the intention of the Board of Grain Commissioners to render permanent any regulation which shows itself in actual working to involve an injustice to any elevator or carrier involved. The Board of Grain Commissioners invite the co-operation of the carriers and of the elevator operators in testing these regulations, with the view of reaching the best possible method of dealing with the perplexed matter of shortages and overages.

It is the opinion of the Board of Grain Commissioners that:—

(a) Where a vessel unloads at different elevators, the operators of the unloading elevators should pro rate the overage or shortage on the lot or the cargo.

(b) That the operators of unloading elevators should organize a clearing and insurance bureau to take care of shortages and overages, and distribute these throughout the season.

(c) That the operators of the unloading elevators should take every step that may be necessary to secure full and accurate knowledge of the results of these regulations, and especially that they should send the out-turns of each cargo unloaded to the Board of Grain Commissioners, and wherever possible should record and return the out-turn by hold.

ROBERT MAGILL,

Chief Commissioner.

J. P. JONES,

Commissioner.

RULES AND REGULATIONS APPROVED OF BY THE BOARD OF GRAIN
COMMISSIONERS FOR CANADA *RE* LOADING OF VESSELS AT FORT
WILLIAM AND PORT ARTHUR.

SHIPPERS.

1. It is the duty of the shipper or his authorized agent to place orders in writing with the manager of the loading elevators, showing the quantity and grade of grain ordered for each vessel and for each compartment of the vessel.

2. In the event of loading under release given by the shipper on account of any cause whatever, the inspecting officer is relieved from responsibility for damage which may be caused, or from loss arising from errors liable to occur in an inspection when a release is given.

3. To facilitate despatch in loading, it is the duty of the shipper or his authorized agent to place orders and to surrender the documents as quickly as possible.

TERMINAL ELEVATORS.

1. It is the duty of the terminal elevator to furnish the inspecting officer in charge of the elevator with a copy of the shipping orders received.

2. A list of bins, lofters, scales, and shipping bins to be used in loading the vessel should be given to the inspector in each case.

3. It is the duty of the terminal elevator to supply facilities to place over the rail or into the hatch of the vessel the quantity and grade of grain covered by the documents duly surrendered by the owner of the grain or his authorized agent.

4. The elevator is responsible for the acts of its employees and for the delivery of the proper grade and the proper quantity of the grain.

VESSELS.

1. It is the duty of the master of the vessel to have the vessel in proper condition to receive the grain, and the Board considers that the hatches should be numbered in relation to the holds.

2. It is the duty of the master of the vessel to supply facilities to take the grain away from the rail or into the hatch of the vessel.

3. The master of the vessel has the right or the duty to see that the grade O.K'd by the inspector, as well as the shipping bins containing the grade, are discharged into the compartments specified in writing by the shipper.

WORKING HOURS.

The board confirms the following agreement that has been reached between the representatives of the terminal elevators and the representatives of the vessels as to working hours.

The elevators will always be prepared to perform any of their services during ordinary business hours, which will be from 7 a.m. to 6 p.m. daily, except Sundays and legal holidays common to Ontario and Manitoba. Should any elevator happen to be

SESSIONAL PAPER No. 10d

running during other hours, or other days, it will extend its operations to cover any service which will not entail additional expense. If service is desired outside of the ordinary business hours, or on Sundays or legal holidays, it may be specially arranged for in advance upon the condition that whoever requests the service will pay all incidental thereto other than the ordinary cost of operation which the elevator will itself pay for similar services during legal hours.

The vessel shall have the right of continuing operations after business hours as defined hereinbefore for such reasonable limited time as may be required to finish loading them in progress and as may be determined at the time by the ship master and the elevator foreman.

INSPECTORS.

1. It is the duty of the inspecting officer to secure a copy of the orders for each shipment before he commences to inspect the grain for loading the vessel.

2. It is the duty of the inspector to see that the shipping bins to be used in each case and for each grade are empty before permitting the warehouseman to elevate grain into the shipping bin.

3. It is the duty of the inspector to grade the grain that is elevated into the shipping bin.

4. It is the duty of the inspector to confirm the shipping bill for discharge to the compartments or compartments specified in writing by the shipper to receive the grade of grain.

5. It is the duty of the inspector to see that all shipping bins used or specified for use in each shipment are empty after the vessel is loaded.

WEIGHMEN.

1. It is the duty of the weighman in charge of each house before commencing weighing for vessels to see that all shipping bins are sounded and empty by dropping an extension electric light into each bin, and to see that all spouts leading to the shipping bins from the scale or scales in use are properly placed, and slides open.

2. It is the duty of the weighman also to see that all spouts are in good order and free from all leaks of any kind.

3. After the vessel is finished loading, it is the duty of the weighman to see that the scale slides are properly closed and that all grain is out by sounding the shipping bins, and also to examine the spouts and floors to see if any leak has occurred, and that the shipping bins are locked.

INSPECTORS AND WEIGHMEN.

The above rules *re* duties of inspectors and weighmen are not substitutes for the rules and regulations governing these offices issued by the chief inspector and chief weighmaster. They are inserted here to emphasize the special duties of these officers in loading vessels, and they do not relieve the elevators from the responsibilities of delivering the proper weight and grade.

Chief Commissioner.

No. 20.—RATES on Grain by Vessel from Fort William and Port Arthur to Montreal, Georgian Bay Ports and Buffalo, for Season of Navigation, 1915. (April to December 13, 1915.)

Montreal.—Rates opened around 4.83 cents. In May dropped to 4.19 cents thence to 3.89 cents in June and 3.59 cents in July. In August rose again to 4.09 cents then to 5.21 cents in September. In October they advanced to 7.08 cents. There was not any through cargoes to Montreal during November therefore no rate quotations were given.

Georgian Bay Ports.—Rates opened at 1.61 cents per bushel then dropped to 1.21 cents in May and went as low as 1.16 and 1.09 in June and July respectively. In August they rose again to 1.18 cents and made a still higher advance in September to 1.94 cents. During October they rose to 3.65 cents and advanced to 4.48 cents for November.

Buffalo.—The season was evidently a little later in opening than the other ports, there being no quotations for April, while for May the rate quoted was .89 cent. In June they rose to 1 cent. In July they further rose to 1.58 cents. In August no rates were given. In September the high rate of 2.60 cents was quoted. This rose in October to 3.72 cents and advanced in November to 4.31 cents.

Other Canadian Ports (These are Ports between Georgian Bay and Lake Ontario, practically. Port Colborne for 95 per cent of cargoes).—The season opened with the rate at 1.75 cents. In May they dropped to 1.35 cents and went still lower in June, to 1.22 cents. In July there was a slight advance of 4 points making the rate 1.26 cents. In August another advance made them 1.27 cents, but in September they increased to 1.82 cents while in October they advanced to 3.27 cents thence to 4.21 cents in November.
