

RURAL MUNICIPALITY OF BRATT'S LAKE NO-129, SASKATCHEWAN

Glacial lake clays in which no water supplies are obtained
NOTE: Boulder clay underlies the lake clay throughout the municipality

Boundary of areas in which adequate supplies of water are obtained from beds and pockets of sand and gravel that occur in the boulder clay

NOTE:
The Marine Shale series underlies the glacial drift throughout the municipality but water obtained from it is too highly mineralized to be used

Flowing wells (These are usually designated as Flowing Artesian wells)

Wells in which the water is under pressure but does not rise to the surface (These are usually designated as Non-flowing Artesian wells)

Wells in which the water does not rise above the water table (These are usually designated as Non-Artesian wells)

Contours (interval 50 feet)
