FEDERAL ACTIONS ON OPIOIDS

····· As of September 2018

access to treatment

access

to harm

awareness

prevention

NEW

- Removed regulatory barriers to <u>allow nurses to transport controlled substances</u>
- Supporting the development of a national treatment guideline for injectable opioid agonist treatment

NEW

- Funding pilot projects on injectable opioid agonist therapies
- Improving access to treatment services through an <u>Emergency Treatment Fund</u> for provinces and territories
- Allowed the <u>import of medications</u> approved elsewhere for urgent public health needs
- Facilitated methadone prescribing and use of medical heroin
- Increased opioid agonist therapy in federal correctional facilities
- Increased access to, and availability of culturally appropriate treatment for Indigenous communities

NEW

- Providing enhanced funding through the Substance Use and Addiction Program
- Launching a drug checking technology challenge
- Approved more than 25 <u>supervised consumption sites</u>
- Enabled <u>establishment of overdose prevention sites</u>
- Facilitated access to naloxone
- Supported <u>legislation to protect individuals who seek emergency assistance for overdose</u>
- Authorized drug checking services at supervised consumption sites
- Launched pilot project to examine <u>needle exchange programs in federal</u> correctional facilities

reduction

- Continuing efforts to expand public awareness around stigma
- Pursuing aggressive restrictions on <u>opioid marketing</u> activities and providing new resources to enforce existing rules
- Supported the development of <u>opioid prescribing guidelines</u> and <u>national</u> <u>treatment guidelines for opioid use disorders</u>
- Updated opioid product monographs
- Informing Canadians about the <u>risks of opioids</u>:
 - Know More Campaign awareness tour for high school students across Canada
 - Opioid warning sticker/ patient handout
 - Summer festivals and post-secondary orientation activities and resources
- Continued implementation of a <u>national operational strategy</u> aimed at detecting, disrupting and dismantling criminal networks
- <u>Equipped border agents with tools</u> to intercept fentanyl and other dangerous substances at the border
- Working with international partners to reduce the illegal opioid supply
- Supporting education and training for law enforcement

- Coordinating <u>national data collection and publishing quarterly reports</u> on apparent opioid-related deaths and harms
- Publishing <u>quarterly reports on drugs seized</u> by law enforcement
- Supporting research and knowledge sharing
- Increasing our understanding of <u>Canadians' knowledge of the opioid issue, risks</u> and <u>willingness to act</u>

evidence

Together, We Can #StopOverdoses

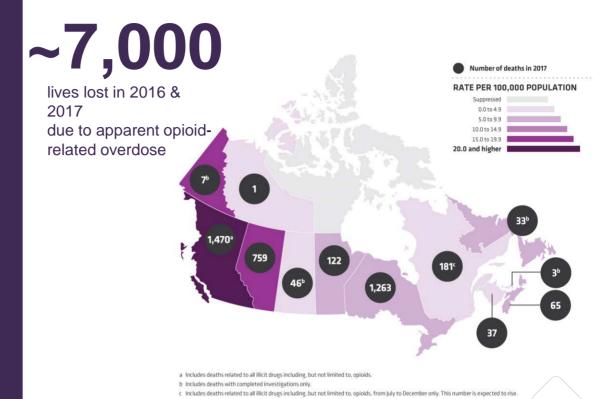

In response to this complex crisis, the Government of Canada is taking a comprehensive, collaborative and compassionate public health approach focused on:

- Prevention
- **Treatment**
- Harm reduction
- **Enforcement**

This approach is supported by a strong evidence base.

Going forward, we will continue to address the crisis by:

- working to increase access to treatment:
- supporting innovative approaches;
- improving access to public health data:
- intercepting illegal opioids at the border; and,
- addressing stigma related to opioid use.

increase in the number of opioidrelated deaths from 2016 to 2017

O/_ of apparent opioid-related deaths in 2017 occurred among men

Opioid-related deaths are now the leading cause of mortality among Canadians between ages 30 and 39

2016

2017

Percent of accidental apparent opioid-related deaths fentanyl or fentanyl analogues
