Abstract

The purpose of this study was to determine the effect of a 12-week training program on the physical fitness of sedentary individuals. The subjects were 20 men and 20 women, aged 20-30 years, who had not exercised regularly for at least 6 months. They were randomly assigned to either a control group or a training group. The training group performed a supervised aerobic exercise program consisting of 3 sessions per week, each lasting 30 minutes. The control group did not exercise during the study period. Physical fitness was assessed at the beginning and end of the 12-week period using a series of standardized tests, including a maximal aerobic power test, a 1.5-mile run test, and a 100-yard sprint test. The results showed that the training group had significantly higher maximal aerobic power, faster 1.5-mile run times, and faster 100-yard sprint times compared to the control group at the end of the 12-week period. These findings suggest that a 12-week supervised aerobic exercise program can improve the physical fitness of sedentary individuals.

The study was conducted in a laboratory setting. The subjects were informed of the purpose and procedures of the study and gave their informed consent. The study was approved by the Institutional Review Board. The training program was supervised by a certified personal trainer. The control group was instructed to maintain their usual level of physical activity. The physical fitness tests were performed under the supervision of a certified personal trainer. The maximal aerobic power test was performed on a treadmill at a constant speed of 1.5 miles per hour. The 1.5-mile run test was performed on a track. The 100-yard sprint test was performed on a track. The results of the tests were compared between the control and training groups using a two-tailed t-test. The significance level was set at 0.05. The results of the study are presented in the following table.

The following table shows the mean and standard deviation of the physical fitness test results for the control and training groups at the beginning and end of the 12-week period. The results show that the training group had significantly higher maximal aerobic power, faster 1.5-mile run times, and faster 100-yard sprint times compared to the control group at the end of the 12-week period. These findings suggest that a 12-week supervised aerobic exercise program can improve the physical fitness of sedentary individuals.

Introduction

Physical fitness is a state of well-being that allows an individual to perform daily activities with vigor and without undue fatigue. It is a result of regular physical activity and is essential for a healthy and active lifestyle. Physical fitness is composed of several components, including cardiovascular endurance, muscular strength, muscular endurance, flexibility, and body composition. Regular physical activity can improve all of these components and reduce the risk of chronic diseases such as heart disease, diabetes, and obesity. However, many individuals are sedentary, which increases their risk of these diseases. Therefore, it is important to identify effective ways to improve the physical fitness of sedentary individuals.

One of the most common ways to improve physical fitness is through aerobic exercise. Aerobic exercise is any activity that increases the heart rate and breathing rate, such as walking, jogging, swimming, and cycling. Aerobic exercise has been shown to improve cardiovascular endurance, muscular endurance, and body composition. However, the effectiveness of aerobic exercise may vary depending on the intensity, duration, and frequency of the activity. Therefore, it is important to determine the most effective way to improve the physical fitness of sedentary individuals.

The purpose of this study was to determine the effect of a 12-week supervised aerobic exercise program on the physical fitness of sedentary individuals. The study was designed to compare the physical fitness of a control group (no exercise) and a training group (supervised aerobic exercise) at the beginning and end of the 12-week period. The physical fitness tests used in the study were standardized and have been shown to be reliable and valid. The results of the study are presented in the following table. The results show that the training group had significantly higher maximal aerobic power, faster 1.5-mile run times, and faster 100-yard sprint times compared to the control group at the end of the 12-week period. These findings suggest that a 12-week supervised aerobic exercise program can improve the physical fitness of sedentary individuals.

DEFINITION OF TERMS

The following definitions of terms are described according to the first table in which they appear.

TABLE 1

Province

In these tables, the benefits are distributed according to the residence of the beneficiary as indicated on the cheque mailing address.

The beneficiaries living outside Canada appear in the category "Outside Canada".

Number of Benefits

Includes any benefit paid during the month, that is, benefits paid for the first time during that month as well as benefits which commenced in a previous month and are still being paid.

In order to obtain the number of beneficiaries, the number of combined pensions has to be deducted from the data shown in the "TOTAL" column.

Others

Represents the benefits paid by the supplementary cheques system and under international agreements on social security which cannot, at this time, be distributed by province, age, sex, etc.

Combined Pensions

Applies to a person who receives a Survivor's pension together with a Retirement or a Disability pension. As each of these benefits is already counted in its own category, combined pensions are not accounted for in the "TOTAL" column.

RÉGIME DE PENSIONS DU CANADA

DÉFINITIONS DE TERMES

Les définitions de termes suivants sont décrits selon le premier tableau dans lequel ils apparaissent.

TABLEAU 1

Province

Dans ces tableaux, les prestations sont réparties selon la résidence du bénéficiaire à l'adresse où le chèque a été envoyé.

Les bénéficiaires habitant à l'extérieur du Canada sont inscrits sous la rubrique "à l'extérieur du Canada".

Nombre de prestations

Comprend toute prestation payée dans le mois, c'est à dire les prestations versées pour la première fois pendant ce mois et les prestations qui ont commencé à être payée un mois précédent et qui continuent à l'être.

Afin d'obtenir le nombre de bénéficiaires, le nombre de pensions combinées doit être soustrait des données présentées dans la colonne "TOTAL".

Autres

Représente les prestations payées par le système de chèques supplémentaires et sous les accords internationaux de sécurité sociale qui ne peuvent présentement être distribuées selon la province, l'âge, le sexe, etc.

Pensions combinées

Il s'agit d'une pension de survivant à laquelle s'ajoute une pension de retraite ou d'invalidité. Étant donné que chacune de ces prestations est déjà comptée dans sa propre catégorie, on en tient pas compte des pensions combinées dans la colonne "TOTAL".

TABLE 2

New Benefits

Includes only benefits issued for the first time from the main computer cheque issue system. The month a new benefit becomes payable is determined to be the month in which the payment is first issued, which may be later than the effective month of that benefit.

The benefits paid by the supplementary cheques system and under international agreements on social security which cannot, at this time, be distributed by province, age, sex, etc., are not included.

TABLE 3

Gross Amount

Represents the expenditures from the main computer cheque issue system. Therefore, these amount are not taking into consideration over or underpayments, returned cheques and Journal Vouchers.

Benefits paid by the supplementary cheques system and under international agreements on social security are presented under the classification "others" and this information cannot, at this time, be distributed by province, age, sex, etc.

TABLE 5

Average Benefit Payments

Corresponds to the basic benefit paid to the beneficiaries for the current month divided by the number of benefits paid in the current month. Does not include benefits paid by the supplementary cheques system and under international agreements on social security as well as underpayments or other adjustments.

TABLEAU 2

Nouvelles prestations

Comprend seulement les prestations qui sont émises pour la première fois à partir du système informatisé d'émission des chèques. Le mois où une nouvelle prestation devient payable est le mois du premier versement, qui peut donc être postérieur au mois d'entrée en vigueur de la prestation.

Les prestations payées par le système de chèques supplémentaires et sous les accords internationaux de sécurité sociale qui ne peuvent présentement être distribuées selon la province, l'âge, le sexe, etc., ne sont pas incluses.

TABLEAU 3

Montants bruts

Représente les dépenses brutes provenant du système informatisé d'émission des chèques. Ces montants ne comprennent donc pas les plus ou moins-payés, les chèques retournés et les pièces de journal.

Les prestations payées par le système de chèques supplémentaires et sous les accords internationaux de sécurité sociale sont présentés sous la rubrique "autres" et ces renseignements ne peuvent présentement être distribués selon la province, l'âge, le sexe, etc.

TABLEAU 5

Paiement moyen des prestations

Correspond au montant de base de la prestation payés aux bénéficiaires pour le mois courant divisé par le nombre de prestations payées durant le mois courant. Ne tient pas compte des prestations payées par le système de chèques supplémentaires et sous les accords internationaux de sécurité sociale ainsi que les sous-payées ou autres ajustements.

TABLE 18

Division of Pension Credits

Pension credits earned by one or both spouses during years of cohabitation divided equally between them when the relationship terminates.

TABLE 19

International Agreement

Is an agreement on Social Security whereby two countries agree to provide equal treatment to the residents of both countries under each country's laws on social security.

Country of Agreement

The country with which Canada has signed an International Agreement on Social Security.

TABLEAU 18

Partage des crédits de pensions

Les crédits de pensions acquis par l'un des conjoints, ou par les deux lors des années de cohabitation, peuvent être répartis également entre eux lorsque la relation se termine.

TABLEAU 19

Accord international

Une entente par laquelle deux pays acceptent d'accorder aux résidents de l'autre pays signataire l'égalité de traitement lorsqu'il s'agit d'appliquer la loi pour la sécurité sociale propre à chaque pays.

Pays de l'accord

Le pays avec lequel le Canada a signé un accord international sur la sécurité sociale.

FAMILY ALLOWANCES

ALLOCATIONS FAMILIALES

FAMILY ALLOWANCES

DEFINITIONS OF TERMS

The following definitions of terms are described according to the first table in which they appear.

TABLE 1

Province

Represents the province or territory against which the Family Allowances payment was charged. Beneficiaries living outside Canada are shown under the last province or territory of residence in Canada where the account was maintained.

Gross Amounts

These are the gross expenditures from the computer cheque issue system. Therefore, these amounts are not taking into consideration over or underpayments, special or manual cheques issued, returned cheques and Journal Vouchers.

Net Amounts

Refers to the amounts paid for Family Allowances in the preceding month as recorded by the Finance division. Over or underpayments, special or manual cheques issued, returned cheques, and Journal Vouchers are taken into consideration in the net amounts paid.

Number of Children

These figures represent the number of children in respect of which Family Allowances payment was made in the month.

ALLOCATIONS FAMILIALES

DÉFINITIONS DE TERMES

Les définitions de termes suivants sont décrits selon le premier tableau dans lequel ils apparaissent.

TABLEAU 1

Province

Représente la province ou le territoire où le paiement des allocations familiales était imputé. Les bénéficiaires qui habitent à l'extérieur du Canada sont indiqués en fonction de la dernière province ou du dernier territoire de résidence au Canada où le compte était maintenu.

Montants bruts

Ce sont les dépenses brutes provenant du système informatisé d'émission des chèques. Ces montants ne comprennent donc pas les plus ou moins-payés, les chèques, spéciaux ou émis manuellement, les chèques retournés et les pièces de journal.

Montants nets

Représente les montants déboursés durant le mois précédent pour les allocations familiales, tels qu'enregistrés par la Division des finances. Dans les montants nets versés, on tient compte des plus ou moins-payés, des chèques spéciaux ou émis manuellement, des chèques retournés et des pièces de journal.

Nombre d'enfants

Ces chiffres représentent le nombre d'enfants pour lesquels des allocations familiales ont été versées dans le mois.

Number of Families

The number of families correspond to the total number of Regular, Agency and Foster accounts. (See also the definition of "Type of account" under table 2.)

Average Allowance per Family

Gross amounts paid in the current month divided by the number of families.

Average Number of Children per Family

Number of children divided by the number of families.

TABLE 2

Type of Account

Payable to regular applicants - all children in care of a parent are on one account. It considers Family Allowances paid in respect of a child whose parents are residents of Canada or deemed to be resident in Canada and who has at least one parent who is a Canadian citizen.

Payable to Child Maintenance Agencies - each child to whom Family Allowances are paid in respect of, and who is wholly maintained by a department of agency of the Government of Canada, or of a province, is on a separate account.

Payable to Foster Parents - all children to whom Family Allowances are paid in respect of, and who are wholly maintained by foster parents and residing in their private home, are on one account.

Nombre de familles

Le nombre de familles correspond au nombre total de comptes "Régulier", "Agence" et "Foyer". (Voir aussi la définition de "Genre de compte" sous le tableau 2.)

Allocation moyenne par famille

Montants bruts versés durant le mois courant divisés par le nombre de familles.

Nombre moyen d'enfants par famille

Nombre d'enfants divisé par le nombre de familles.

TABLEAU 2

Genre de compte

Payable aux bénéficiaires attitrés - tous les enfants entretenus par un parent figurent dans un compte. On considère les allocations familiales payées à l'égard d'un enfant dont les parents sont des résidents du Canada ou estimés être des résidents du Canada, dont un au moins est citoyen canadien.

Payable aux services d'entretien d'enfants - chaque enfant pour lequel des allocations familiales sont payées et qui sont entièrement entretenus par un ministère ou un organisme du gouvernement du Canada ou d'une province figure dans un compte distinct.

Payable aux parents nourriciers - tous les enfants pour lesquels des allocations familiales sont payées et qui sont entièrement entretenus par des parents nourriciers et qui résident à leur domicile figurent dans un compte.

TABLE 3

New Inscriptions

The data include only children in respect of which Family Allowances were paid for the first time.

When an account is already established for a family, a new birth is put under "Account already in pay"; when there is no existing account the new birth is put under "New account"; and new children other than new birth, such as immigrants, are listed separately.

Change of Address

There is a change of address when, in comparing the postal code of the previous month and the postal code in the current month, there is some difference in one of the postal code field. Does not consider change of address due to transfer of accounts between provinces.

Deaths Reported

Represents only the cancellations arising from receipt of notice of death of a child.

Children Attaining Age 18

These figures represent the number of children who ceased to receive Family Allowances payment because they reached age 18.

TABLE 4

Accounts Transferred

Considers only the mobility of the accounts between one province and another for administrative purposes.

TABLEAU 3

Nouvelles inscriptions

Les données ne comprennent que les enfants pour lesquels des allocations familiales ont été versées pour la première fois.

Lorsqu'un compte est déjà établi pour une famille, une nouvelle naissance est placée sous la rubrique "Compte déjà en paye"; lorsqu'il n'existe pas de compte, la nouvelle naissance est placée sous la rubrique "Nouveau compte"; et les nouveaux enfants autres que des nouvelles naissances, comme les immigrants, sont indiqués séparément.

Changement d'adresse

Il y a changement d'adresse lorsqu'en effectuant la comparaison entre le code postal du mois précédent et le code postal du mois courant, on se rend compte qu'ils diffèrent. On ne considère pas comme un changement d'adresse le transfert de comptes entre les provinces.

Décès signalés

Ne représente que les annulations faites après avoir reçu un avis de décès de l'enfant.

Enfants atteignant l'âge de 18 ans

Ces chiffres représentent le nombre d'enfants qui ont cessé de recevoir des allocations familiales parce qu'ils ont atteint l'âge de 18 ans.

TABLEAU 4

Comptes transférés

Ne considère seulement que la mobilité des comptes d'une province à l'autre pour fins administratives.
