Data in Many Forms...

Statistics Canada disseminates data in a variety of forms. In addition to publications, both standard and special tabulations are offered on computer print-outs, microfiche and microfilm, and magnetic tapes. Maps and other geographic reference materials are available for some types of data. Direct access to aggregated information is possible through CANSIM, Statistics Canada's machine-readable data base and retrieval system.

How to Obtain More Information

Inquiries about this publication and related statistics or services should be directed to:

Econometric Analysis Division,
National Accounts and Analytical Services,
Statistics Canada, Ottawa, K1A 0T6
(Telephone: 951-9161) or to the Statistics Canada reference centre in:

St. John's	(772-4073)	Winnipeg	(983-4020)
Halifax	(426-5331)	Regina	(780-5405)
Montreal	(283-5725)	Edmonton	(420-3027)

Octobre 1987

Chère lectrice,
Cher lecteur,

En janvier 1988, nous lancerons la revue L'Observateur économique canadien. Cette nouvelle publication incorpore les données les plus pertinentes et les plus largement utilisées de la Revue statistique du Canada, de Les Indicateurs conjoncturels ainsi que de l'Aperçu économique trimestriel et son supplément.

Il en résulte une publication mensuelle attrayante qui présente des données récentes et qui continue de vous fournir les analyses et les données dont vous avez besoin. De plus, cette publication vous tient au courant de la contribution de Statistique Canada en ce qui a trait au développement de l'analyse et du traitement des statistiques économiques.

L'introduction de cette nouvelle publication entraîne un retard dans l'envoi du troisième numéro de nos revues trimestrielles et nous nous en excusons. En janvier, nous vous ferons parvenir le premier numéro de L'Observateur économique canadien, qui remplacera le quatrième numéro de l'Aperçu économique trimestriel et de son supplément.

Par ailleurs, vous recevrez, en décembre, des renseignements supplémentaires à propos de L'Observateur économique canadien. À cette occasion, nous vous indiquerons comment nous convertirons votre ou vos abonnements à la nouvelle publication.

Nous sommes persuadés que vous saurez apprécier la qualité supérieure de l'information contenue dans L'Observateur économique canadien et vous encourageons à nous faire parvenir vos commentaires et suggestions concernant notre nouvelle publication.

Espérant le tout à votre entière satisfaction, nous vous prions d'agréer, chère lectrice, cher lecteur, nos salutations les meilleures.

Albert Meguerditchian, directeur
Division de l'économie internationale
et financière

October, 1987

Dear Reader:

Beginning in January, 1988, we will be introducing the Canadian Economic Observer. This new monthly publication incorporates the best and most widely used features from the Canadian Statistical Review, Current Economic Indicators, Quarterly Economic Summary and Quarterly Economic Summary: Statistical Supplement.

The result is an attractive and timely monthly publication that will continue to supply you with the analysis and data you need, as well as providing a gateway to keep you abreast of developments in Statistics Canada's coverage and analysis of economic statistics.

Introduction of this new publication has resulted in a delay in forwarding the third quarter issue of the quarterly publications, which we regret. In January, we will be sending you the first issue of the Canadian Economic Observer in lieu of the fourth quarter issue of the Quarterly Economic Summary and its Supplement. You will also be receiving additional information in December about the Canadian Economic Observer and about how we will be converting your current subscription(s) to this new publication.

We are confident that you will find the Canadian Economic Observer to be an improved source of economic information, and we encourage you to send us any comments or suggestions which you may have about our new publication.

Sincerely,

A. Megurditchian

Albert Megurditchian

Preface

The Quarterly Economic Summary: Statistical Supplement complements the description of the economic conditions contained in the "Current Economic Indicators" and "Quarterly Economic Summary" publications. The analysis provided by these publications is based mainly on data provided by the Statistical Supplement, including analytically useful transformations such as percentage changes, ratios, smoothed time series, etc. Because of this emphasis on analytical transformation of the data, the publication is not meant to serve as a compendium of source data on the macro-economy. Users requiring such a compendium are urged to consult the Canadian Statistical Review.

In tables containing percentage changes, monthly values are the percentage changes from the previous month, quarterly values are the percentage changes from the previous quarter, and annual values are the percentage changes from the previous year.

We are currently working towards an amalgamation of this publication with the Canadian Statistical Review early in the new year. More information will be soon sent to subscribers.

CANSIM Note

CANSIM[†] (Canadian Socio-Economic Information Management System) is Statistics Canada's computerized data bank and its supporting software. Most of the data appearing in this publication, as well as many other data series are available from CANSIM via terminal, on computer printouts, or in machine readable form. Historical and more timely data not included in this publication are available from CANSIM.

The numbers at the top of most columns identify the underlying series on CANSIM.

For further information write to CANSIM Division, Statistics Canada, Ottawa, K1A 0T6 or call (613) 990-8203:

(1) THESE INDICATORS ARE CALCULATED BY DISAGGREGATING RETAIL TRADE BY KIND OF BUSINESS (CATALOGUE 63-005), BOTH RAW AND SEASONALLY ADJUSTED, INTO COMMODITIES USING WEIGHTS BASED ON THE 1974 RETAIL COMMODITY SURVEY (CATALOGUE 63-526). NEW PASSENGER CAR AND TRUCK SALES ARE TAKEN FROM NEW MOTOR VEHICLES SALES (CATALOGUE 83-007).
(2) DEFLATION IS DONE BY COMMODITY USING MAINLY CPI INFORMATION (CATALOGUE 62-001).
