Other Characteristics, 1982**

Revised Estimates

The sample data for this report are weighted to control totals of total households derived from the Censuses of Canada. The original household control totals used for weighting the 1982, 1983 and 1985 to 1987 surveys were based on the 1976 and 1981 Censuses and Labour Force Survey sources. With the availability of the 1986 Census data, revised control totals for 1982 to 1987 have been produced.

The revised estimates in this report reflect the use of these new control totals and the adoption of a new weighting procedure (integrated weighting).

For more information on the new weighting procedure see the section on "Weighting" in the report **Household Facilities and Equipment, May 1988** (Catalogue 64-202).

The historical quintile tables (Tables 5 to 9) are not included in this package. They will be available after all data years have been released.

Users should reference these tables as: Source: Household Facilities by Income and Other Characteristics, 1982 (Revised Estimates).

et d'autres caractéristiques, 1982**

Estimations révisées

Les données fragmentaires pour ce rapport sont pondérées en fonction des données de contrôle du nombre total des ménages déduites des recensements du Canada. Les données de contrôle primitives du nombre de ménages, qui ont servi à pondérer les enquêtes de 1982, 1983 et 1985 à 1987 étaient basées sur les données des recensements de 1976 et 1981 et de l'enquête sur la population active. Les données du recensement de 1986 étant disponibles, on a pu produire des données de contrôle révisées pour 1982 à 1987.

Les estimations révisées dans ce bulletin traduisent l'utilité de ces nouvelles données de contrôle et l'instauration d'une nouvelle méthode de pondération (pondération intégrée).

Pour plus de renseignements sur la nouvelle méthode de pondération, voir la section intitulée "Pondération", dans **Équipement ménager, mai 1988** (n° 64-202 au catalogue).

Les tableaux historiques sur les quintiles (Tableaux 5 à 9) ne sont pas contenus dans ce paquet. Ils seront disponibles lorsque les données pour toutes les années seront publiées.

Les utilisateurs devraient référer ces tableaux comme: Source: Enquête sur l'équipement ménager selon le revenu et d'autres caractéristiques, 1982 (Estimations révisées).
