Ottawa, February 19, 1943.- The Dominion Bureau of Statistics issues today a report containing estimates of farm cash income for the calendar years 1940 to 1942.

CASH INCOME FROM THE SALE OF FARM PRODUCTS

Cash income from the sale of farm products in Canada increased sharply in 1942 and at \$1,083.1 millions exceeded the estimate for all previous years since this compilation was started in 1926. In addition farmers received in 1942 substantial supplementary income in the form of Dominion and Provincial Government payments which are not included in these cash income estimates. As compared with 1941, cash income was higher by \$184.2 millions. Sharp increases in farm income from the sale of live stock and live stock products were largely responsible for the record income of 1942 and new records were established in all provinces except Saskatchewan and Alberta. These two provinces, however, received the greatest share of Government payments made to farmers. Income in Ontario and Quebec was substantially higher in 1942 than in any other year for which records are available. In comparison with 1941 all provinces showed increased farm income with larger volume of production and higher prices for most products both contributing. The sale of dairy products was the largest single source of income to farmers and dairymen received a total of \$224.4 millions in 1942, almost \$60 millions more than in 1941. Income from the sale of hogs was second in importance at \$190.9 millions an increase of \$32 million over 1941. Despite higher prices income from wheat declined in 1942 as a result of reduced marketings. Sales of oats, barley and flaxseed, on the other hand, were sharply higher.

Cash Income from the Sale of Farm Products in Canada, 1926 to 1942  
 (Million Dollars)

1926 .....	952.2	1931 .....	442.8	1937 .....	640.7
1927 .....	929.6	1932 .....	377.4	1938 .....	647.8

		1936 .....	569.7	1942 .....	1,083.1

Although income from grain crops may not be greatly increased in 1943 over 1942, it is anticipated that further increases will occur in cash income from the sale of live stock and live stock products.
