AGRICULTURAL BRANCH

## SUMMARY

Cash income from the salc of farm products in the Prairie Provinoes during the first half of 1941 totalled $\$ 155,540,000$ as compared with $\$ 89,594,000$ in the corresponding period of 1910 and an avoragc of $\$ 76,305,000$ for the fivo yoars, 1936 to 1940. Of the increase of $\$ 65,946,000$ in income in the first half of 1941, $\$ 51,066,000$ was attributablc to groator salcs of crops, chiefly resulting from tho deferred markoting of the 1940 wheat crop, while an additional $\$ 14,880,000$ was received from the sale of live stock and animal products. Incroases in the volume of hogs sold, and highor prices for beef cattle, dairy products and oggs wore largely responsible for the risc in oash income from live stock.

The greatcst increase in cash income during the first six months of 1941 over the same period of 1340 occurred in Saskatchewan, whore the increase was $\$ 29,786,000$ or 87.7 por cont. In Alborta the increase was $\$ 26,617,000$ or 69.5 per cont. Cash income in Manitoba was up $\$ 9,533,000$ or 55.0 per cent over that of the first 6 months of 1940 . The foot that a larger than $220 r m a l$ proportion of the 1940 wheat crop was marketed during tho first 6 months of 1941 led to a more uniform monthly cash income for the crop year 1940-51 than would genorally be the casc. By months, cash income increased from a low of $\$ 20,298,000$ in Fcbruary to a high of $\$ 33,331,000$ for Junc in the Prairio Provinces as a whole.

In viow of the roduction which may bo expocted in deliveries of wheat during tho last six months of 1341, compared with the corrosponding period of 1940 , cash income during that period will probably be lower than a yoar proviously. Increased marketings of live stock and live-stock products during the balance of 1941 at somewhat higher prices will offsot to some extent the decline in incame from grains, but it appears probablo that for the calendar yoar 1941 , the total cash income of the Prairie Provinces will be approxinately the sane as that of 1940 .

Cash Income from the Sale of Farm Products in the Prairie Provinces,
