DOMINION BUREAU OF STATISTICS - CANADA
AGRICULTURAL BRANCH

Dominion Statistician:
Chief, Agricultural Branch:

R. H. Coats, B.A., F.S.S.(Hon.), F.R.S.C.
T. W. Grindley, Ph.D.

Beginning on May 29 for the Prairie Provinces and on June 12 for the whole of Canada, the Dominion Bureau of Statistics will release a series of weekly telegraphic reports on crop conditions. In the following pages are listed the correspondents whose co-operation makes such a project possible. In general, the provincial Departments of Agriculture sends a general summary, based in most cases on telegraphic advice received from their own fieldmen scattered over the province. In addition to these reports, wires are received from the officers of the Experimental Farms and Illustration Stations systems. Entomologists and plant pathologists of the Dominion Department of Agriculture also report in connection with their special fields and officials of western companies covering hail insurance have also kindly consented to report on hail damage.

The reports for the whole of Canada will be released from Ottawa at 4 p.m. E.D.S. time on the following dates: June 12 and 26; July 10 and 31, August 14 and 28. Additional reports for the Prairie Provinces will be released at the same hour on the following dates: May 29; June 6 and 19; July 4, 17 and 24; August 8 and 21; and September 5.

List of Correspondents for Telegraphic Crop Reports in Canada

Prince Edward Island

J. W. Boulter, Deputy Minister,
Department of Agriculture,
Charlottetown.

Dr. J. A. Clark,
Superintendent, Experimental Station,
Charlottetown.

R. C. Parent,
Supervisor of Illustration Stations,
Charlottetown.
