DOMINION BUREAU OF STATISTICS - CANADA  
AGRICULTURAL BRANCH

May 25, 1938.

DOMINION BUREAU  
OF STATISTICS

MAY 25 1938

Dominion Statistician:

R. H. Coats, LL.D., F.R.S.C., F.S.S. (Hon.)

Chief, Agricultural Branch:

T. W. Grindley, Ph.D.

The Dominion Bureau of Statistics will release a series of weekly telegraphic reports on crop conditions in the Prairie Provinces beginning on Tuesday, May 31, and extending until Tuesday, September 6. Seven telegraphic reports for the whole of Canada will be issued at fortnightly intervals beginning on Tuesday, June 7 and extending until Tuesday, August 30.

In the following pages are listed the correspondents whose cooperation makes possible such a project. In general, the provincial Departments of Agriculture furnish a summary, based in most cases on telegraphic advice received from their own fieldmen. In addition to these reports, wires are received from the officers of the Dominion Experimental Farms and Illustration Stations. Entomologists and plant pathologists of the Dominion Department of Agriculture also report in connection with their special fields, and officials of western companies covering hail insurance also kindly cooperate. Meteorological data for the Prairie Provinces are supplied by the Dominion Meteorological Service, Toronto, Ontario.

Correspondents for Telegraphic Crop-Reporting Service

Prince Edward Island

Dr. J. A. Clark,  
Superintendent, Experimental Station,  
Charlottetown.

E. L. Eaton,  
Supervisor of Illustration Stations,  
Charlottetown.
