Field Crop Reporting Series - No. 3 STOCKS OF CANADIAN GRAIN AT MARCH 31, 1967

Total stocks of the five major Canadian grains included in this report in all North American positions at March 31, 1967 are estimated at 1,373.3 million bushels, compared with 1,223.7 million at the same date in 1966, the record of 1,512.2 million set in 1957 and the ten-year (1957-66) average of 1,218.1 million bushels. This year's March 31 stocks, in millions of bushels, with last year's total and the tenyear (1957-66) averages, respectively, in brackets, are estimated as follows: wheat, 847.5 (750.2, 748.1); oats, 236.0 (247.1, 259.8); barley, 255.8 (191.7, 184.3); rye, 14.7 (16.0, 12.1); and flaxseed, 19.3 (18.6, 13.8). Data for these estimates were obtained from the Dominion Bureau of Statistics' annual March 31 survey of grain held on farms, from mill returns, and from information supplied by the Board of Grain Commissioners for Canada relative to grain in commercial positions at the close of business on March 29, 1967.

WHEAT AND RYE Total stocks of Canadian wheat at March 31, 1967 are estimated at 847.5 million bushels compared with 750.2 million on the same date in 1966 and the record of 904.4 million in 1957. An estimated 532.8 million bushels representing 63 per cent of the total were held on farms. Of the 314.7 million bushels in offfarm positions, 159.2 million were in country elevators. Rye stocks at 14.7 million bushels were 8 per cent less than last year's 16.0 million but 21 per cent above the ten-year average of 12.1 million. Some 53 per cent of the rye stocks this year was located on farms.

OATS, BARLEY AND FLAXSEED March-end stocks of oats in all positions, estimated at 236.0 million bushels, were lower than last year's 247.1 million but below the ten-year average of 259.8 million bushels. Barley stocks at 255.8 million bushels were also above the 1966 level of 191.7 million. Average barley stocks at March 31 for the 1957-66 period were 184.3 million bushels. Stocks of flaxseed at 19.3 million bushels were larger than the 1966 level of 18.6 million bushels. Average flaxseed stocks at March 31 for the 1957-66 period were 13.8 million bushels. Farm-held stocks accounted for 84, 70 and 56 per cent of total stocks of oats, barley and flaxseed, respectively.

FARM STOCKS Total farm-held stocks (includes marketable grain and quantities held for feed, seed and reserves) of the five major grains at March 31, 1967 are estimated at 928.5 million bushels compared with 811.3 million in 1966 and the record 1,018.3 million bushels in 1957. Average farm stocks for the 1957-66 period were 759.5 million bushels. This year's March 31 farm stocks of grain in millions of bushels, with last year's totals and the ten-year averages, respectively in brackets, are estimated as follows: wheat, 532.8 (450.4, 393.3); oats, 199.0 (218.8, 223.1); barley, 178.0 (125.0, 128.9); rye, 7.8 (8.3, 7.3); and flaxseed, 10.9 (8.8, 6.9).

 Note: Excluding Newfoundland for which data are not available.

 The contents of this document may be used freely but DBS should be credited when republishing all or any part of it.

About 75 per cent of all farm-held stocks of oats and 96 per cent or more of farm stocks of each of the other four grains were located in the Prairie Provinces. Distribution of farm stocks at March 31, in millions of bushels, for Manitoba, Saskatchewan and Alberta, respectively, are estimated as follows: wheat, 42.0, 377.0, 108.0; oats, 33.0, 60.0, 57.0; barley, 14.0, 63.0, 93.0; rye, 1.6, 3.5, 2.6; and flaxseed, 3.5, 4.6, 2.7.

STOCKS OF CANADIAN GRAIN AT MARCH 31, 1967

The following data on stocks of Canadian grain in Canada and United States as of March 31, 1967 have been compiled by the Dominion Bureau of Statistics and the Statistics Division of the Board of Grain Commissioners for Canada. Stocks of grain on farms are estimated from reports of the Bureau's crop correspondents while those in mill bins are estimated from monthly returns made by mill operators to the Bureau. Stocks in all other positions are those reported by the Board of Grain Commissioners as visible stocks at the close of business on March 29, 1967. It should be noted that the statistics on total stocks as presented in this report differ from the weekly visible stocks figures at March 29 by the inclusion of stocks on farms and millable stocks in mill bins.
