CROP-REPORTING PROGRAM, 1936-1937

The Dominion Bureau of Statistics has fixed the dates shown in the accompanying statement for the issue of its crop reports during the season, 1936-37. As in other years, the reports of the months of May, June, July, August and September will be issued at 4 p.m. Eastern Daylight Saving Time as specified, while all others will be issued at the listed hours Eastern Standard Time. The mentioned reports will be supplemented by seasonal press letters on the production of maple sugar, wool and tobacco. A bulletin early in December will give the full results of the annual survey of crop acreages and numbers of live stock and poultry taken in June. Early in February, the results of the December 1 survey of live stock and poultry will be released. On February 23, 1937, data on the values of farm lands, live stock and poultry and on the wages of farm help will be published.

The program for 1936-37 is essentially the same as for the past season. Series of fifteen telegraphic crop reports for the Prairie Provinces and six for the whole of Canada have been arranged to cover most of the growing season. These reports are based on the co-operation of the officials of Dominion and Provincial Departments of Agriculture and of a number of other correspondents in Manitoba and Alberta.

The following conditions will apply to the issue of the Reports:—

1. No access by the public will be allowed at any time to the rooms in which these reports are being compiled.
2. The final compilations and revisions will be settled personally by the Chief of the Agricultural Branch of the Dominion Bureau of Statistics.
3. A mimeograph of the results will be prepared under the direct supervision of the Chief of the Branch.
4. At the times and on the dates listed on the succeeding page, the reports will be available in a room at the Bureau for representatives of the press, of telegraph companies and others. At the same time the reports will be placed in the mails for all who are on the mailing list.

R. H. COATS,
Dominion Statistician.
