REPORT ON CONCENTRATED MILK PRODUCTS, CANADA, MARCH, 1930

Statistics of the production of the various items under the head of concentrated milk, for the month of March, 1930, have been prepared from returns furnished by the 25 firms engaged in their manufacture during the month.

The usual seasonal increase in production general to dairy factories is shown by the returns of concentrated milk products for March, the total for all items in that month amounting to 7,303,182 pounds, compared with 4,949,129 pounds in February. Of the principal items, evaporated milk shows an increase of over one million pounds, condensed milk an increase of 300 thousand pounds, and skim milk powder an increase of over 200 thousand pounds. The exports of concentrated milk also show increases, while decreases are recorded for all items of concentrated milk products held in cold storage warehouses at date of April, 1, compared with the same date in the preceding month.

Statistics of production, imports and exports and storage holdings are given in the following tables.
