CONCENTRATED MILK PRODUCTION, CANADA, MARCH, 1933

Statistics of the production of concentrated milk in Canada in March, 1933, are based on returns from the 28 firms whose factories manufactured during the month any of the various items included under the general classification of "concentrated milk", viz., condensed milk, evaporated milk, milk powder, etc.

Production.— The combined production of all items amounted to 5,031,005 pounds, compared with 3,954,912 pounds in the previous month and 6,134,111 pounds in March, 1932. The March schedule divided the items "condensed milk" and "evaporated milk", under the classifications of "case goods" and "bulk goods", and commencing with the present report, production will be shown in this form. The manufacturers have also been asked to furnish statements making the same divisions for the months of January and February of this year, and future reports will show the cumulative production of condensed and evaporated milk according to the above classifications.
