Chief, Dairy Factory Statistics Branch:	Florence A. Brown

CONCENTRATED MILK PRODUCTION, CANADA, JULY, 1934.

Statistics of the production of concentrated milk in Canada in July, are based on returns from the 31 companies whose factories manufactured during the month any of the various items classified as "concentrated milk", i.e., condensed milk, evaporated milk, milk powder, etc.

PRODUCTION.- The combined production of all items of concentrated milk in July totalled 10,545,946 pounds, an increase over July, 1933, of 2,052,657 pounds, or 24 per cent. Among the principal items, increases are recorded for evaporated milk and powdered milk, but a decrease is shown for condensed milk. For casein and sugar of milk large increases are noted.

CUMULATIVE PRODUCTION.- The total production of all items for the seven months ended July 31, was 56,047,257 pounds, compared with a total of 49,537,088 pounds in the corresponding period of 1933.

FOREIGN TRADE.- The total exportation was greater than in July, 1933, owing to the large increase in the export of evaporated milk - more than double the quantity exported a year ago. The imports of concentrated milk are small, amounting for all items in the month under review to only 2,044 pounds.

STORAGE HOLDINGS.- The holdings in storage warehouses at date of August 1, 1934, in comparison with a year ago, were greater for all items excepting skim milk powder, which shows a decrease of 754,115 pounds, or 39 per cent. Evaporated milk, the principal item, shows an increase of 3,519,084 pounds, or 43 per cent.

1. Concentrated Milk Production for July, 1934, with Comparative Statistics for June, 1934 and July, 1933.

Kind	July, 1934 Lb.	June, 1934 Lb.	July, 1933 Lb.
Condensed milk (sweetened):			
Case goods .....	439,467	692,019	552,353
