FISHERIES, 1920.

Preface

This Report is issued under an arrangement for statistical co-operation between the Dominion Bureau of Statistics and the Government branches having jurisdiction with regard to fisheries throughout Canada. These branches comprise: the Dominion Fisheries Branch of the Department of Marine and Fisheries, which exercises jurisdiction over the sea fisheries and over the inland fisheries of Manitoba, Saskatchewan, Alberta and Yukon Territory, and the Fisheries Branches of Ontario and Quebec, which have jurisdiction over the inland fisheries of their respective provinces. The inland fisheries of the Maritime Provinces are, from a commercial standpoint, comparatively unimportant; but their statistics, as in the case of British Columbia, are collected by the officers of the Dominion Fisheries Branch. The province of British Columbia has a Fisheries Branch, but it does not engage in independent statistical work.

Under the arrangement above referred to, the statistics of the catch, and of the products marketed in a fresh state or domestically prepared, are collected by the local officers of the Fisheries Branches, checked in the Department of Marine and Fisheries, and compiled in the Dominion Bureau of Statistics. In the case of manufactured fish products, schedules in conformity with those of other sections of the Census of Industry are sent by the Bureau to the operators of canneries, fish curing establishments, etc., the fisheries officers assisting in securing an expedition and accurate return. The grateful acknowledgments of the Bureau are tendered to the officers of the provincial Governments who co-operate in these arrangements.

R. H. COATS,

Dominion Statistician.

DOMINION BUREAU OF STATISTICS,
OTTAWA, September 7, 1921.

Note on the Canadian Fisheries.

Canada possesses the most extensive fisheries in the world, and the abundance, quality and variety of their product are unexcelled. The fertility of Canadian waters is indicated by the fact that the entire catch of salmon, lobsters, herring, mackerel, and sardines, nearly all the haddock, and many of the cod, hake, and pollock landed are taken within ten or twelve miles from shore.

The coast line of the Atlantic provinces from Grand Manan to Labrador, not including the lesser bays and indentations, measures over 5,000 miles, whilst the sea areas to which this forms the natural basin embrace: the Bay of Fundy, 8,000 square miles in extent; the gulf of St. Lawrence, fully ten times that size; and other ocean waters aggregating not less than 200,000 square miles, or over four-fifths of the fishing grounds of the North Atlantic. In addition there are 15,000 square miles of inshore waters, entirely controlled by the Dominion. Large as are these areas, they represent only a part of the fishing grounds of Canada. Hudson bay, with a shore 6,000 miles in length, is greater than the Mediterranean; the Pacific coast of the Dominion measures over 7,000 miles long, and is exceptionally well sheltered for fishermen; whilst throughout the interior is a series of lakes which together cover 220,000 square miles, or more than half the fresh water of the Globe, Canada's share of the great lakes of the St. Lawrence basin alone amounting to 34,000 square miles.

Of even greater importance are the abundance and general excellence of the product. The cod and the salmon have long disputed the primacy among these, though in recent years the heavy pack and the high price of lobsters have sometimes sent cod to third place.

The fisheries of the Atlantic coast may be divided into two distinct classes; the deep-sea, and the inshore or coastal fisheries. Deep-sea fishing is pursued in vessels of from 40 to 100 tons, carrying crews of from twelve to twenty men, who fish with hook and line, also in steam vessels of approximately 150 feet in length known as steam trawlers. The bait used is chiefly herring, squid and caplin, and the fish taken are principally cod, haddock, hake, pollock and halibut. The inshore or coastal fishery is carried on in small boats, usually motor driven, with crews of from two to three men, and in a class of small vessels with crews of from four to seven men. The means of capture employed by boat fishermen are gill nets and hooks and lines, both hand-lines and trawls; whilst from the shore are operated trapnets, haul seines and weirs. The commercial food fishes taken inshore are the cod, hake, haddock, pollock, halibut, herring, mackerel, alewife, shad, smelt, flounder, and sardine. The most extensive lobster fishery in the world is carried on along the whole of the eastern shore of Canada, whilst excellent oyster beds exist in many parts of the gulf of the St. Lawrence, notably off Prince Edward Island. The salmon fishery is the predominant one on the Pacific coast, but a very extensive halibut fishery is carried on in the northern waters of British Columbia, in large well-equipped steamers and vessels. The method of capture is by trawling, dories being used for setting and hauling the lines, as in the Atlantic deep-sea fishery. Herring are in great abundance on the Pacific coast, and provide a plentiful supply of bait for the halibut fishery. In the inland lake fisheries, the various means of capture in use are gill nets, pound nets, seines, and hooks and lines.

FISHERIES, 1920.

The total value of the product of the Canadian Fisheries during 1920 was \$49,241,339, compared with \$56,508,479 in 1919 and \$60,250,544 in 1918. These totals represent the value of the product as marketed, whether fresh, domestically prepared or factory-made.

The following table shows the quantity and value of the chief commercial fishes (those valued at \$100,000 or upwards) during the past five years, with a statement in the final column of the increase or decrease during 1920 as compared with 1919.

Fishing Conditions and Results, 1920.

The weather during the first four months of the year, especially on the Atlantic coast, was stormy and cold. Fishing operations were interrupted thereby, and much fishing gear was either lost or damaged. Two steam trawlers were lost entirely.

The outstanding feature of the year's results is a very large falling off in the aggregate catch of cod, haddock, hake and pollock. The shortage was not due to scarcity of fish, but rather to a poor demand at lower prices, which caused many fishermen to give up fishing altogether. The greater part of the four kinds named is split, salted and dried for consumption in foreign markets, which are also supplied by Newfoundland, United States, Norway, Great Britain and France. During the war years, with Great Britain and France completely out of the business and Norway largely so, prices rose to an abnormal level. The unsettled state into which the business of the world has been thrown, however, since the ending of the war and the landing of pre-war supplies by the fishing fleets of Europe, temporarily blocked the outlets for this product and caused prices to drop to a level at which fishermen found it unremunerative to continue operations.

The salmon catch on the Pacific coast fell short of that in the preceding year. This was largely due to the poor demand for the cheaper grades, pinks and chums. Since the war ended, it has been found difficult to get rid of large quantities of those cheaper kinds; packers therefore, did not pack as many as usual in the past season. The catch of salmon on the Atlantic coast, all of which was consumed fresh, was considerably less than that of the preceding year.

There was a great increase in the herring catch. Most of the increase, however, came from the Pacific coast in the opening months of the year.

The lobster fishery on the Atlantic coast gave good results throughout the season. The increase in the catch was common on all parts of the coast.

The mackerel fishery was not as successfully prosecuted as in the preceding year, owing chiefly to rough weather in the early summer, which evidently kept the fish from coming near the shore of Nova Scotia, in their usual numbers.

There was a decrease in the catch of halibut on the Atlantic coast, but on the Pacific coast, notwithstanding some interruption to the fishery, due to a shortage of refrigerator cars at Prince Rupert, the quantity landed was considerably greater.

The sardine fishery of the Bay of Fundy was again poor. Prices were so low as to make fishermen's operations unprofitable. This industry has not yet recovered from the slump in the demand for the canned product, which took place at the close of the war.

The smelt fishery, which has its chief seat along the south shore of the Gulf of St. Lawrence, resulted in a smaller catch than that taken in the preceding year.

Other and less important kinds of sea fish were produced in about their usual numbers.

The fisheries of Alberta, Saskatchewan and Manitoba were not quite so successful as in the preceding year. Fewer fishermen operated and winter fishing was delayed, owing to the late formation of ice on the lakes, while the lack of snow made it almost impossible for operators to reach the more distant points where the best winter fishing takes place. Prices were somewhat higher, however, than in the preceding year.

Summary of Production, 1920.

The following table gives a statement for the whole of Canada of all fish caught and marketed during 1920. For each kind the total caught and the value at the vessel's or boat's side is first given, this being followed by statements showing the form in which each kind was marketed and the value.

Agencies of Production:—Capital Equipment, Employees, Etc.

(1) Primary Operations:—

Capital.—The amount of capital represented in the vessels, boats, nets, traps, piers and wharves, freezers, etc., engaged in the primary operations of catching and landing the fish during 1920 was \$29,893,213. This compares with totals of \$31,493,152 in 1919 and \$29,887,734 in 1918. (Table 3).

Employees.—The number of employees engaged in these operations in 1920 was 57,197, compared with 67,804 in 1919 and 68,516 in 1918. (Table 4).

(2) Fish Canning and Curing Establishments:—

Capital.—The amount of capital represented in fish canning and curing establishments in 1920 was \$20,512,265, compared with \$23,200,874 in 1919 and \$30,334,129 in 1918. (Table 5).

Employees.—The number of persons employed in fish canning and curing establishments in 1920 was 18,499, compared with 18,356 in 1919 and 18,554 in 1918. (Table 6).

Details of Fish Canning and Curing Establishments.

Of the 940 establishments in operation in 1920, 481 were operated by individuals, 204 by partnerships, 248 by joint stock companies and seven by co-operative associations. The classification of establishments according to average number of employees shows that 655 establishments are in the group of those employing an average of five persons and over, and 222 in the group of those employing less than five. Sixty-three establishments report that no persons were employed during 1920, the work in these establishments being performed by the operators themselves.

Employees and wages.—In fish canning and curing establishments, employees on salaries numbered 651; employees on wages 13,137; and contract and piece workers 4,711; a total of 18,499. The amount paid to all employees was \$4,856,290, comprising \$759,176 in salaries, \$3,180,701 in wages, and \$916,413 paid to contract and piece-workers. In the canning factories of British Columbia most of the labour is employed under contract, the contractor engaging and paying his own help, and being himself paid by the factory according to the quantity of fish packed. For these contract workers and for the piece-workers no statistics of employment, other than number so employed, and amounts paid to them, are available. Table 7 gives numbers of employees and salaries and wages under the three classifications for 1918, 1919 and 1920.

7. Employees in Fish Canning and Curing Establishments in 1918, 1919 and 1920—Number and Salaries and Wages

Year	Employees on Salaries	Employees on Wages	Contract and Piece Workers		Total of Employees and of Salaries and Wages	
			no.	\$	no.	\$
1918.....	615	699,681	12,558	2,866,761	5,381	1,073,149

¹Exclusive of contract and piece-workers.

Time in Operation.—The classification of establishments according to time in operation during the year shows that 383 establishments operated less than 60 days; 304 from 60 to 119 days; 117 from 120 to 179 days; 66 from 180 to 239 days; and 70 establishments 240 days or over.

Fuel Used.—The total cost of fuel used during 1920 was \$581,520. The chief items were coal, with a value of \$344,863, and gasoline with a value of \$106,664.

Power Employed.—The power used in fish canning and curing establishments in 1920 was furnished largely by gasoline and steam engines. Of the former there were 580, with 3,211 rated h.p., and of the latter 168 with 2,799 rated h.p. Electric motors numbered 58 with 882 rated h.p. and water wheels and turbines 51, with 950 rated h.p. The engines, motors, water wheels, turbines and unspecified totalled 872 units, the total rated horse power being 8,053. The number of boilers in use was 328.

Miscellaneous Expenses.—Included under this heading are rent of offices, works and machinery; cost of purchased power; insurance; taxes; royalties and use of patents; advertising and travelling expenses; ordinary repairs to buildings and machinery, and other sundry expenses. The total amount so expended in 1920 was \$2,326,073.

SESSIONAL PAPER No. 17a

Value of Materials Used.—The total value of materials used in the preparation of products of fish canning and curing establishments was \$19,363,029, comprising \$14,347,089 for fish, \$456,013 for salt, \$4,229,490 for containers, and \$330,437 for other materials.

Value of Product.—The product of fish canning and curing establishments in 1920 was valued at \$30,900,147. This total comprises \$25,807,973, the value of fish canned, cured or otherwise prepared, and \$5,092,174 the value of fish marketed for consumption fresh. The following table shows value of product of establishments for the years 1918, 1919 and 1920.

10. Value of Products of Fish Canning and Curing Establishments in 1918, 1919 and 1920

Description of Establishment	1918		1919		1920	
	Fish marketed for consumption fresh	Fish canned, cured or otherwise prepared	Fish marketed for consumption fresh	Fish canned, cured or otherwise prepared	Fish marketed for consumption fresh	Fish canned, cured or otherwise prepared
Lobster canneries.....	\$ 642,820	\$ 3,510,640	\$ 495,636	\$ 5,304,681	\$ 552,727	\$ 6,329,861
Salmon canneries.....	145,715	15,315,299	1,620,866	14,751,631	156,843	13,433,007

Total	5,573,004	28,432,624	4,867,011	37,505,712	5,092,174	25,807,973

Classification of Establishments According to Value of Product.—The statistics show that 363 establishments gave value of product at less than \$5,000; 164 at from \$5,000 to less than \$10,000; 176 at from \$10,000 to less than \$20,000; 126 at from \$20,000 to less than \$50,000; and 111 at \$50,000 or over. Comprising the last group are 62 salmon canneries, 17 lobster canneries, two other fish canneries, three whale oil or fish oil factories and 27 fish curing establishments. In a number of the canneries, fish curing operations were carried on previous to and after the canning seasons. Eighty-three of the lobster canneries, seven of the salmon canneries, two of the clam canneries and five of the sardine and other fish canneries showed a product in 1920 of cured fish, in addition to the canned product.

Review by Provinces

The following tables (11-15) show by provinces; the total value of the fisheries; the quantity caught and landed and the value marketed of the chief commercial fishes; the quantity and value of all fish caught and landed and marketed; the quantity of sea fish taken off shore; and the capital equipment.

Fishing Bounty.

Under the authority of "An Act to encourage the development of the Sea Fisheries and the building of Fishing Vessels," the sum of \$160,000 is appropriated annually by the Department of Marine and Fisheries, and paid to fishermen of the eastern Maritime Provinces. The bounty is distributed under regulations made from time to time by the Governor in Council.

For the year 1920, payment was made on the following basis:—

To owners of vessels entitled to receive bounty, \$1 per registered ton; payment to the owner of any one vessel not to exceed \$80.

To vessel fishermen entitled to receive bounty, \$7.60 each.

To owners of boats measuring not less than 13 feet keel, \$1 per boat.

To boat fishermen entitled to receive bounty, \$6.10 each.

There were 9,671 bounty claims received, and 9,664 paid. In the preceding year 13,068 claims were received, and 13,061 paid.

The total amount paid was \$152,519.30, allocated as follows:—

To 612 vessels and their crews, \$53,577.80.

To 9,052 boats and their crews, \$98,941.50.

Part III, Table 2, shows in detail the payment of the bounty by counties for the year 1920.

Imports and Exports.

The value of fish and fish products imported into Canada during the fiscal year ended 31st March, 1921, was \$4,292,455, and of fish and fish products exported \$33,615,419. This is an increase in the value of the imports of \$240,573 over the previous year, and a decrease in the value of the exports of \$8,612,877. (See Part III Table 3, for imports and exports by kinds of fish and by countries.)

Historical Review.

The three tables following will afford a review of the fishing industry of Canada for the past several years. In the case of production, returns are given by provinces year by year back to 1870. In the case of the number and value of vessels, boats, etc., the review extends to 1880, and in the case of the number of employees to 1895.

GENERAL TABLES

I. FISH CAUGHT AND MARKETED, 1920—QUANTITIES AND VALUES.

II. AGENCIES OF PRODUCTION, 1920—CAPITAL EQUIPMENT, EMPLOYEES, Etc.

Part 1. IN PRIMARY OPERATIONS.

Part 2. IN FISH CANNING AND CURING ESTABLISHMENTS.

- (a) General Summary of Statistics.
- (b) Capital Invested.
- (c) Employees, and Salaries and Wages.
- (d) Number of Wage-earners by Months.
- (e) Classification of Wage-earners according to Daily Wages.
- (f) Time in Operation and Hours Worked.
- (g) Quantity and Value of Fuel Used.
- (h) Power Employed.
- (i) Character of Organization.
- (j) Classification of Establishments According to Value of Product.
- (k) Classification of Establishments According to Number of Employees.

III. SPECIAL TABLES.

- (1) The Salmon Pack of British Columbia, 1910-1920.
- (2) Fishing Bounties, 1920.
- (3) Imports and Exports of Fish and Fish Products, 1920.
- (4) Fish Landed in United States Atlantic Ports by Canadian Vessels, 1918-1920.

III. (3) Imports and Exports of Fish and Fish Products

STATEMENT showing the Quantities and Values of Fish and Fish Products Imported into Canada for Consumption during the Fiscal Year ended March 31, 1921.

Classification	Fiscal Year, 1921	
	Quantity	Value
	\$	
Fish and Fish Products--		
Fish--		
Anchovies, sardines, sprats, and other fish, packed in oil or otherwise, in tin boxes, weighing:		
Over 20 but not over 36 ounces each	box	10,004
Over 12 but not over 20 ounces each	box	51,048
Over 8 but not over 12 ounces each	box	181,236
8 ounces or less	box	3,703,410
Bait fish, fresh	lb.	33
Cod, haddock, and pollock--		
Dried	lb.	9,186,954
Fresh	lb.	1,111,052
Smoked	lb.	1,580
Wet salted or pickled	lb.	801,624
Halibut, fresh or frozen	lb.	2,617,947
Herrings, canned	lb.	75,271
Herrings, fresh or frozen	lb.	397,065
Herrings, pickled or salted	lb.	9,934,208
Herrings, smoked	lb.	147,691
Liver fish or fish eggs for propagating purposes	lb.	—
Lobsters, canned	lb.	195,919
Lobsters, fresh	lb.	—
Mackerel, fresh	lb.	50,374
Mackerel, pickled	lb.	2,964
Oysters, canned in cans not over one pint	can	297,555
Oysters, canned in cans over one pint but not over one quart	can	860
Oysters, canned in cans exceeding one quart	qt.	3,007
Oysters, fresh in shells	bbl.	2,941
Oysters, shelled in bulk	gal.	143,576
Oysters, prepared or preserved, n.o.p.	lb.	15,765
Salmon, canned, prepared or preserved	lb.	160,424
Salmon, fresh	lb.	1,572,832
Salmon, pickled or salted	lb.	330,334
Salmon, smoked	lb.	49,237
Seed and breeding oysters imported for the purpose of being planted in Canadian waters	—	8,523
Squid	—	45,750
Other fish--		
Dried	lb.	305,423
Fresh	lb.	974,643
Pickled	lb.	1,423,806
Preserved in oil	—	37,376
Prepared or preserved, n.o.p.	—	109,748
Smoked or boneless	lb.	16,756
Fish Products		
Ambergris	—	164
Fish oilful or refuse	—	60,639
Fur skins, undressed, the produce of marine animals	—	2,105
Oils--		
Cod liver oil	gal.	99,447
Seal oil	gal.	55,808
Whale and spermaceti oil	gal.	10,689
Other fish oil	gal.	35,624
Pearl, mother of, unmanufactured	—	30,843
Sponges of marine production	—	88,420
Tortoise and other shells, unmanufactured	—	26,271
Turtles	—	6,562
Whalebone, unmanufactured	lb.	600
Other fish and fish products	—	70,540
Total Fish and Fish Products	—	4,292,455

III. (3) Imports and Exports of Fish and Fish Products—*con.*

Préface

Ce rapport est publié en vertu d'une entente établissant la coopération en matière de statistique, intervenue entre le Bureau Fédéral de la Statistique et les différents services gouvernementaux ayant juridiction sur les pêcheries canadiennes. Ces services comprennent: la Direction des Pêcheries du ministère de la Marine et des Pêcheries, qui exerce sa juridiction sur les pêcheries maritimes, ainsi que sur les pêcheries fluviales et lacustres du Manitoba, de la Saskatchewan et de l'Alberta; et les Divisions des Pêcheries des provinces d'Ontario et de Québec, qui régissent les pêcheries en eau douce de leurs provinces respectives. Les pêcheries intérieures des provinces maritimes n'ont que fort peu d'importance au point de vue commercial; leurs statistiques sont colligées par le personnel de la Direction des Pêcheries du Dominion. Il en est de même pour celles de la Colombie Britannique. Cette dernière province possède une Division des Pêcheries, mais cet organisme ne s'occupe pas de statistique pour son propre compte.

En vertu de l'arrangement dont il est parlé plus haut, les statistiques du poisson pêché et des produits offerts en vente à l'état frais ou après une préparation sommaire, sont recueillies par les fonctionnaires locaux des services des pêcheries, vérifiées et condensées au ministère de la Marine et des Pêcheries, puis compilées au Bureau Fédéral de la Statistique. En ce qui concerne le poisson industriellement préparé et ses sous-produits, des formules similaires à celles en usage dans le recensement des autres branches de production sont envoyées directement par ce Bureau aux poissonneries, établissements de salaisons, de conserve de poisson, etc., les fonctionnaires des services des pêcheries s'assurant que ces formules sont consciencieusement remplies et promptement retournées. Les fonctionnaires des gouvernements provinciaux voudront bien accepter nos remerciements pour le concours qu'ils nous ont prêté.

R. H. COATS,
Statisticien du Dominion.

BUREAU FÉDÉRAL DE LA STATISTIQUE,

OTTAWA, 7 septembre 1921.

Notice sur les pêcheries canadiennes

On peut dire sans exagération que le Canada possède les pêcheries les plus vastes du monde et que l'abondance, l'excellence et la variété de leurs produits ne sont pas surpassées. La richesse des eaux canadiennes est démontrée par le fait que la totalité du saumon, du homard, du hareng, du maquereau et de la sardine, la plus grande partie de l'églefin et une portion considérable de la morue, de la merlueche et du merlan que l'on y prend, sont pêchés dans une zone qui ne s'étend pas à plus de dix ou douze milles du rivage.

Les rives des provinces de l'Atlantique, depuis Grand Manan jusqu'au Labrador, mesurent plus de 5,000 milles, à l'exclusion des anses et échancreures qui les dentellent, tandis que les étendues maritimes qu'elles embrassent comprennent: la Baie de Fundy, avec ses 8,000 milles carrés; l'estuaire du St-Laurent, au moins dix fois plus grand, et d'autres eaux océaniques représentant ensemble plus de 200,000 milles carrés, c'est-à-dire plus des quatre-cinquièmes des pêcheries du nord de l'Atlantique. De plus l'on compte 15,000 milles carrés d'eaux intérieures, sous le contrôle absolu du Dominion.

Mais ces vastes étendues ne représentent qu'une partie des eaux canadiennes. La Baie d'Hudson, dont les côtes s'étendent sur une longueur de 6,000 milles, est plus grande que la Méditerranée. Sur le Pacifique, le littoral canadien mesure plus de 7,000 milles; ses baies et ses fjords innombrables offrent aux pêcheurs une multitude d'abris très sûrs. Enfin, disséminés sur tout le territoire, s'égrenne une série de lacs, courrant ensemble une superficie de 220,000 milles carrés, soit plus de la moitié des eaux douces du globe; dans cette étendue, la part du Canada dans les grands lacs du bassin du St-Laurent, figure pour 34,000 milles carrés.

L'abondance et l'excellence du poisson sont un facteur de tout premier ordre. Pendant longtemps, la morue et le saumon se sont disputé le premier rang mais, dans les dernières années, le homard tant par son volume que sa cherté, a quelquefois relégué la morue au troisième rang.

On peut considérer la pêche dans l'Atlantique sous deux aspects distincts; la pêche hauturière (ou de haute mer) et la pêche côtière. La pêche hauturière est pratiquée par des navires de 40 à 100 tonneaux, montés par des équipages de douze à vingt hommes, qui pêchent à la ligne, et aussi par des chalutiers à vapeur d'environ 150 pieds de longueur. Comme boette, on emploie principalement le hareng, l'encornet et le capelan et l'on prend de la morue, de l'églefin, de la merlueche, du merlan et du flétan. Quant à la pêche côtière, elle se fait au moyen de petites embarcations, généralement automotrices, qui montent deux ou trois hommes et dans de petites barques, ayant de quatre à sept hommes d'équipage. Ces pêcheurs en bateau font usage de rets à mailles, de chaluts et de lignes à main, tandis que ceux qui pêchent sur le rivage se servent de pièges ou casiers, de scines et de nasses. Les poissons comestibles que l'on prend sur la côte sont: la morue, la merlueche, l'églefin, le merlan, le flétan, le hareng, le maquereau, le gasparot, l'alose, l'éperlan, le carrelet et la sardine.

Les plus importantes pêcheries de homard de l'univers se trouvent tout le long du littoral oriental du Canada, cependant que d'excellents bancs d'huîtres existent en maintes parties de l'estuaire du St-Laurent, notamment à proximité de l'île du Prince-Édouard.

La pêche du saumon prédomine sur le littoral du Pacifique, quoique de grands navires, bien équipés, se livrent à une fructueuse pêche du flétan, dans les eaux septentrionales de la Colombie Britannique, la méthode usitée étant la ligne de fond que l'on tend et que l'on relève au moyen de doris, tout comme cela se pratique dans les pêcheries en eau profonde de l'Atlantique. Le hareng est très abondant sur la côte du Pacifique et fournit une inépuisable provision de boette pour la pêche du flétan. Dans les lacs intérieurs, on pêche à l'aide de rets à mailles, d'éperviers, de scines et de lignes ordinaires.

DOC. PARLEMENTAIRE No 17a

LES PÊCHERIES EN 1920

La valeur totale de la production des pêcheries canadiennes, pour l'année 1920, s'élève à \$49,241,339 contre \$56,508,479 en 1919 et \$60,250,544 en 1918. Ces chiffres représentent la valeur du poisson mis sur le marché, soit frais, soit préparé par les pêcheurs ou dans les fabriques.

Le tableau suivant indique la quantité et la valeur des principaux poissons dont on fait commerce (ceux dont la valeur a atteint \$100,000 ou plus) pendant les cinq dernières années; la dernière colonne signale l'augmentation ou la diminution en 1920, comparé à 1919.

12 GEORGE V, A. 1922

LA SAISON DE PÊCHE EN 1920

Pendant les quatre premiers mois de l'année, le froid et les tempêtes ont sévi, spécialement sur le littoral de l'Atlantique, causant une grande perturbation dans les opérations de pêche; deux chalutiers à vapeur ont été entièrement perdus et une grande quantité d'agrès de pêche ont été soit détruits, soit endommagés.

Le fait le plus saillant qui se dégage des opérations de l'année, c'est la très importante diminution qui atteint la morue, l'églefin, la merluche et le merlan. Cette réduction est attribuable non pas à la rareté du poisson, mais plutôt à la stagnation du commerce et à la baisse sensible des prix, circonstances qui ont amené de nombreux pêcheurs à cesser leurs travaux. La plus grande partie des quatre espèces de poisson ci-dessus est ouverte, salée et séchée pour la consommation, surtout sur les marchés étrangers, lesquels sont également approvisionnés par Terre-Neuve, les Etats-Unis, la Norvège, la Grande-Bretagne et la France. Pendant la guerre, la Grande-Bretagne et la France avaient complètement abandonné la pêche et la Norvège aussi, dans une moindre mesure, ce qui eut pour effet de faire hausser les prix à un niveau anormal. Mais le chaos dans lequel est tombé le commerce de l'univers après la guerre et la reprise des opérations de pêche par les flottilles européennes ont temporairement supprimé tout débouché à ce produit et fait tomber les prix à un tel degré, que les pêcheurs ne se soucient plus de continuer des opérations si peu rémunératrices.

La pêche du saumon sur le littoral du Pacifique fut inférieure à celle de l'année précédente; on doit l'attribuer principalement à la diminution de la consommation des variétés les moins recherchées, telles que le saumon rose et le saumon bécard. Depuis la fin de la guerre, on a éprouvé des difficultés à se débarrasser de grandes quantités de ces espèces à bon marché; c'est pourquoi, les usiniers n'ont pas mis en boîte une aussi grande quantité que la saison dernière. Sur la côte de l'Atlantique, la pêche du saumon, lequel est exclusivement consommé frais, fut considérablement inférieure à celle de l'année précédente.

La pêche du hareng présente une grande augmentation, principalement sur la côte du Pacifique, où ce poisson fut extrêmement abondant dans les premiers mois de l'année.

Pendant toute la durée de la saison, la pêche du homard sur le littoral de l'Atlantique a donné de bons résultats; la pêche a été fructueuse tout le long de la côte.

La pêche du maquereau ne fut pas aussi bonne que l'an dernier, principalement à cause du mauvais temps qui régna au commencement de l'été, et qui éloigna les banes de maquereaux des rivages de la Nouvelle-Ecosse. On constate une décroissance dans la pêche du flétan sur la côte de l'Atlantique, mais au contraire, la quantité prise sur le littoral du Pacifique fut considérablement accrue, nonobstant une interruption des opérations de pêche, due au manque de wagons réfrigérateurs à Prince Rupert.

La pêche de la sardine dans la Baie de Fundy fut encore mauvaise; d'autre part, les prix étaient si minimes qu'ils décourageaient les pêcheurs. Cette industrie ne s'est pas encore relevée du rude choc qui lui a été porté par la cessation de la demande, qui se produisit à la fin de la guerre.

La pêche de l'éperlan, qui se pratique essentiellement le long de la rive sud de l'estuaire du Saint-Laurent, a été un peu moins fructueuse que celle de l'an passé. Quant aux autres espèces de poisson de mer, c'est-à-dire les moins importantes, on constate peu de variations.

Dans l'Alberta, la Saskatchewan et le Manitoba, la pêche n'a pas été aussi bonne que l'année précédente. D'abord, les pêcheurs étaient en nombre plus restreint, et puis la formation tardive de la glace sur les lacs, et enfin l'absence de neige ont contrarié sensiblement les opérations de pêche dans les régions les plus éloignées, qui sont précisément celles où la pêche en hiver est la plus fructueuse. Toutefois, les prix ont été un peu plus élevés que l'an dernier.

DOC. PARLEMENTAIRE No 17a

Résumé de la production, 1920

Le tableau suivant donne un exposé, pour l'ensemble du Canada, de tout le poisson pris et mis sur le marché, pendant l'année 1920. On y trouvera d'abord la totalité de la valeur des prises de chaque espèce aux navires ou vaisseaux; puis, un relevé indiquant sous quelle forme chacune de ces espèces a été mise sur le marché et sa valeur.

Moyens de production : Capital, pêche proprement dite, main-d'œuvre, etc.

(1) *Opérations préliminaires:*

Capital.—En 1920, le capital absorbé par les vaisseaux, barques, pièges, quais, congélateurs, etc., affectés aux opérations de pêche proprement dites et au débarquement du poisson, était de \$29,893,213, comparé à \$31,493,152 en 1919 et \$29,887,734 en 1918. (Tableau 3).

Main-d'œuvre.—Le nombre des employés engagés dans les opérations de pêche en 1920, était de 57,197 au lieu de 67,804 en 1919 et 68,516 en 1918. (Tableau 4).

(2) *Etablissements de préparation et de mise en boîte du poisson:*

Capital.—Les capitaux engagés dans les établissements de préparation et de mise en boîte du poisson s'élevaient à \$20,512,265 contre \$23,200,874 en 1919 et \$30,334,129 en 1918. (Tableau 5).

12 GEORGE V, A. 1922

Personnel.-- Le nombre des employés dans ces mêmes établissements de l'industrie poissonnière était de 18,499 au lieu de 18,356 en 1919 et 18,554 en 1918. (Tableau 6).

Autres données concernant les opérations des établissements industriels

Sur les 940 établissements en activité pendant l'année 1920, 481 étaient exploités par des propriétaires individuels, 204 par des sociétés en nom collectif, 248 par des compagnies en commandite et 7 par des sociétés coopératives. La classification de ces établissements par rapport à la main-d'œuvre qu'ils emploient, démontre que 655 d'entre eux font travailler une moyenne de cinq personnes et plus, tandis que les 222 autres emploient moins de cinq personnes. Soixante-trois petits établissements se sont dispensés de toute main-d'œuvre en 1920, leurs propriétaires suffisant au travail.

Employés, ouvriers, appontements et salaires.—Les employés et ouvriers des établissements industriels, en l'année 1920, s'élevaient à 18,499 personnes, dont les gains ont atteint \$4,856,290. Parmi ce nombre, 651 étaient des employés recevant des traitements ou appontements, 13,137 étaient des ouvriers ou journaliers et 4,711 travaillant à l'entreprise ou aux pièces; les premiers ont reçu \$759,176, les seconds \$3,180,701 et les derniers \$916,413. En Colombie Britannique, la majorité des ouvriers des fabriques de conserve de poisson sont placés sous un régime spécial, l'entrepreneur engageant et payant directement sa main-d'œuvre et étant lui-même payé par le fabricant selon la quantité de poisson mis en boîte par son équipe. En ce qui concerne ces derniers et les ouvriers aux pièces, on ne possède d'autres informations que leur nombre et le chiffre total de leur rémunération. On trouvera dans le tableau 7 le nombre et les gains des différentes personnes employées sous ces trois classifications en 1918, 1919, et 1920.

DOC. PARLEMENTAIRE No 17a

Durée des opérations.—Il résulte de la classification opérée au point de vue de la durée des opérations que 383 établissements sont restés ouverts pendant moins de 60 jours; que 304 ont travaillé entre 60 et 119 jours; 117 entre 120 et 179; 66 entre 180 et 239 jours; enfin 70 ont poursuivi leurs opérations pendant 240 jours et plus.

Combustible.—On estime à \$581,520 le combustible consommé en 1920 par ces établissements. Le charbon représente une valeur de \$344,863, la gazoline \$106,664.

Force motrice utilisée.—En 1920, les moteurs à gazoline et les machines à vapeur ont fourni la majeure partie de la force motrice. Les premiers, au nombre de 580 donnaient 3,211 chevaux-vapeur et les derniers au nombre de 168, produisirent 2,799 chevaux-vapeur. On comptait aussi 58 moteurs électriques représentant 882 chevaux-vapeur, 51 roues hydrauliques et turbines de 950 chevaux-vapeur. Les machines à vapeur, moteurs, roues hydrauliques, turbines et autres non spécifiées formaient en tout 872 unités avec un total de 8,053 chevaux-vapeur.

Frais généraux.—Le total des frais généraux s'est élevé à \$2,326,073 en 1920. Ces dépenses comprenaient le loyer de bureaux, d'usines et d'outillage, l'achat de force motrice, l'assurance, les taxes, les droits régaliens et l'usage de brevets, les dépenses de publicité et de voyage, les réparations aux bâtiments et à la machinerie et autres dépenses diverses.

Valeur des matières premières.—La valeur totale des matières premières utilisées dans les établissements de préparation et de conservation du poisson était de \$19,363,029 se décomposant ainsi: poisson \$14,347,089; sel \$456,013, récipients \$4,229,490, autres matières \$330,437.

Valeur des produits.—On évalue à \$30,900,147 les produits sortis des établissements de préparation et de mise en boîte du poisson. Dans ce total le poisson en boîte, séché, fumé, ou autrement préparé, entre pour \$25,807,973 et le poisson vendu frais pour \$5,092,174. Les chiffres des années 1918, 1919, 1920 sont indiqués dans le tableau suivant.

10. Valeur des produits sortis des établissements de préparation et de mise en boîte du poisson en 1918, 1919 et 1920

Classification des établissements par importance de leur production.—Les statistiques nous montrent que la production de 363 établissements était inférieure à \$5,000, que la production de 164 établissements valait entre \$5,000 et \$10,000; celle de 176 de \$10,000 à \$20,000; celle de 126 de \$20,000 à \$50,000 et celle de 111 atteignait \$50,000 ou plus. Dans ce dernier groupe, on trouve

12 GEORGE V, A. 1922

62 saumoneries, 17 homarderies, 2 autres établissements de mise en boîte du poisson, 3 huileries (de baleine et de poisson) et 27 établissements de séchage et salaison. Dans un certain nombre des établissements de mise en boîte, on se livre aux opérations de séchage et de salaison du poisson, soit avant l'ouverture, soit après la clôture de la saison de la mise en boîte; parmi ces établissements se trouvent sept saumoneries, sardineries et quatre-vingt-trois homarderies, deux établissements à mollusques. Cinq autres établissements ont ajouté à leur production de mise en boîte celle du séchage et de la salaison, en 1920.

Répartition par provinces

Les cinq tableaux qui suivent (11-15) sont consacrés à la production poissonnière dans les provinces; on y trouve: la valeur totale des pêcheries; la quantité de poisson pris et de poisson vendu, pour les espèces principales; la quantité et la valeur de tout le poisson pris et vendu; la quantité du poisson de mer pêché en haute mer et enfin la valeur du matériel de pêche.

11. Valeur des pêcheries, par provinces, de 1916 à 1920, par ordre de leur importance, en 1920

Primes

En vertu d'une "Loi pour encourager le développement des pêcheries maritimes et la construction des navires de pêche," une somme de \$160,000 est donnée en primes, chaque année, par le Ministère de la Marine et des Pêches, aux pêcheurs des provinces maritimes de l'est. Ces primes sont réparties et distribuées sur les bases fixées, de temps à autre, par décrets ministériels.

Pour l'année 1920, ces versements se sont effectués sur les bases suivantes:

Aux propriétaires de navires de pêche, \$1 par tonneau enregistré, avec un maximum de \$80 par navire.

A chaque membre de leur équipage \$7.60.

Aux propriétaires de barques mesurant au moins 13 pieds de quille, \$1 par embarcation.

A chaque pêcheur montant ces barques, \$6.10.

Il a été reçu 9,671 demandes de primes, dont 9,664 ont été admises. L'année précédente, le nombre de réclamations avait atteint 13,068, dont 13,061 admises. Au total, il a été versé \$152,519.30, se répartissant ainsi:

A 612 navires et leurs équipages, \$53,577.80.

A 9,052 barques et leurs équipages, \$98,941.50.

Le tableau 2, IIIe partie, donne le détail des primes payées en 1920, par comtés.

Importations et exportations

La valeur du poisson et des produits du poisson importés au Canada, durant l'exercice terminé le 31 mars 1921, est estimée à \$4,292,455, et celle des exportations à \$33,615,119. Ces chiffres prouvent une augmentation des importations de \$240,573, sur l'année précédente; tandis que nos exportations accusent une baisse de \$8,612,877 pour la même période. Le tableau 3, IIIe partie, contient les importations et les exportations de toutes les espèces de poisson, par pays.

Revue rétrospective

Les trois tableaux suivants présentent une revue rétrospective de l'industrie de la pêche au Canada dans les années passées. En ce qui concerne la production, les données sont établies par provinces et par année et remontent jusqu'à 1870. Quant au nombre et à la valeur des navires, barques, etc., les chiffres partent de l'année 1880. Enfin, le personnel occupé à cette industrie nous est révélé depuis 1895.

STATISTIQUE DES PÊCHERIES

GLOSSARY—VOCABULAIRE

FISH—POISSONS

English	Français
Albacore.....	Bonite
Alewivess.....	Gasparot
Bass.....	Bar ou achipan
Belugas.....	Beluga
Black cod.....	Cabillaud
Brill.....	Barbue
Caplin.....	Capelan
Carp.....	Carpe
Catfish.....	Barbotte
Caviar.....	Caviar
Clams and quahogs.....	Clovisées et mactres
Cod.....	Morue
Cod liver oil, medicinal.....	Huile de foie de morue médicinale
Dulce, crab, crockles, etc.....	Algues, crabes, bucardes, etc.
Eels.....	Anguilles
Fertilizer.....	Engrais
Fish bones.....	Osses de poisson
Fish offal.....	Entrailles de poisson
Fish oil.....	Huile de poisson
Fish skins.....	Peaux de poisson
Flounders.....	Carrelet
Fur seals.....	Phoque à fourrure
Gill bone.....	Osses de branchies
Glue.....	Colle
Goldeyes.....	Oeufs d'or
Greyfish.....	Roussette ou chien de mer
Haddock.....	Eglefin
Hair seals.....	Phoque commun
Hair seal skins.....	Peaux de phoque commun
Hake and cusk.....	Merluche et lingue
Halibut.....	Pélétan
Herring.....	Hareng
Lobsters.....	Homard
Mackerel.....	Maquereau
Maskinonge.....	Maskinongé
Mixed fish.....	Poissons divers
Mullets.....	Mulet
Mussels.....	Moules
Octopus.....	Poulpe
Oulachons.....	Oulachon
Oysters.....	Huître
Perch.....	Perche
Pickeral.....	Doré
Pike.....	Brochet
Pilchards.....	Sprat
Pollack.....	Merlan
Porpoises.....	Marsouin
Red cod, etc.....	Petite morue, etc.
Salmon.....	Saumon
Salmon roe.....	Oeufs de saumon
Sardines.....	Sardine
Scallops.....	Pétoncle
Seal oil.....	Huile de phoque
Sea weed.....	Varech
Shad.....	Alose
Shrimps.....	Crevettes
Silver Hake.....	Merluche argent
Skate.....	Raie
Smelts.....	Eperlan
Soles.....	Sole
Sprats.....	Sprats
Squid.....	Encornet
Sturgeon.....	Esturgeon
Sturgeon bladders.....	Vessies d'esturgeon
Swordfish.....	Espadon
Tomalley.....	Foie de hareng
Tom cod.....	Tacaud
Tongues and sounds.....	Languet et noues
Trout.....	Truite et noues
Tullibee.....	Tulibé
Whales.....	Baleine
Whale bone and meal.....	Faon et engras de baleine
Whale oil.....	Huile de baleine
Whitefish.....	Conon blanc ou ablette
Whiting.....	Conin
Winkles.....	Gorneaux ou littorines

GLOSSARY—con.—VOCABULAIRE—suite

GENERAL TERMS—EXPRESSIONS USUELLES

English	Français
Advertising.....	Publicité
Agencies of Production—Part 1: in Primary Operations.....	Moyens de production—1 ^{re} partie; pêche proprement dite
Agencies of Production—Part 2: Fish Canning and Curing.....	Moyens de production—2 ^{me} partie: préparation et mise en boîte du poisson
All other (Provincial, municipal, etc.).....	Toutes autres (provinciales, municipales, etc.)
All other sundry expenses.....	Toutes autres dépenses diverses
Amberrygris.....	Ambre gris
Anchovies.....	Anchois
And over.....	Et plus
Anthracite.....	Anthracite
Average number of hours worked.....	Nombre moyen d'heures de travail
Bbl.....	Brl ou baril
Bituminous.....	Bitumineux
Boats.....	Bateaux ou barques
Boilers.....	Chaudières
But under.....	Muis au-dessous
Canned.....	En boîte
Capital and employees.....	Capital et employés
Carrying smacks.....	Bateaux de transport de pêche ou semaques
Carrying smacks and scows.....	Bateaux de transport de pêche et allèges ou semaques
Cases.....	Caisse
Cash accounts and bills receivable.....	En caisse, comptes et billets à recevoir
Claught and landed.....	Pris et débarqué ou pêché
Clim and other canneries.....	Établissements à mollusques
Classification of wage-earners according to daily wages.....	Classification des ouvriers, selon leur salaire quotidien
Clerks, stenographers, salesmen, etc.....	Commiss., sténographes, vendeurs, etc.
Coal.....	Charbon
Coke.....	Coke
Comprises.....	Comprend
Contract labour and piece workers.....	Travail à l'entreprise et ouvriers aux pièces
Co-operative Associations.....	Associations coopératives
Counties.....	Comités
Crab establishments.....	Établissements à crabes
Crab traps.....	Pièges à crabes
Cwt.....	Qix
Days in operation.....	Jours en opérations
Dip or roll nets.....	Carrelets sur dévidoirs
Districts.....	Districts
Dried.....	Séché
Dry-salted.....	Salé à sec
First or slack.....	Poussier ou menu
Gas.....	Piège à unguille
motors.....	Moteurs électriques
on salaries.....	Emphyés recevant un traitement ou des appontements
wages.....	Ouvriers salariés
wages by months.....	Ouvriers au mois
wages prepared.....	Établissements
cash.....	Femme
gas.....	Engras
Fish.....	Poisson en boîte, séché, fumé, ou autrement préparé
Fishing.....	Poisson, pêché et mis en vente
Five person.....	Poisson vendu pour être consommé frais
Freezers and.....	Pièges tournants
Fresh and frozen.....	Agrès de pêche
Fresh or salted.....	Jetées et quais de pêche
Fuel used.....	Cinq personnes et plus
Fuel oil.....	Établissements frigorifiques et glacières
Gal.....	Frais ou salé
Gas.....	Combustible employé
Gasoline.....	Pétrole
Gasoline boats—row and sail.....	Gallon ou gall.
Gillnets, seines, trap and smelt nets.....	Gaz
Green-salted.....	Gazoline
Hand lines.....	Bateaux à gazoline, à rames et à voile
Home consumption.....	Fillets à mailles, seines, filets de pièges et à éperlan
Hoop nets.....	Salé vert
H. P. according to manufacturers rating.....	Signes à main
H. P. actually employed.....	Consommation domestique
Idle.....	Înes à cercles
Imports and exports of fish and fish products.....	V. maximum potentiel
In addition to quantities given in the table following were used by anglers.....	'Effectivement employés
In addition to these numbers there were also Columbia workers under the contract system to which we have no details of employment.....	—arrêté
Individuals.....	tations et exportations de poisson et des produits du poisson
Inland Fisheries.....	à quantités données dans le tableau, les agrès suivants étaient employés par les pêcheurs à la ligne
Insurance.....	plusieurs il y avait aussi dans la Colombie Britannique des ouvriers sous le système de travail à l'entre l'égard desquels nous manquons de détails
	· frieuses

GENERAL TERMS—con.—EXPRESSIONS USUELLES—suite

English	Français
Joint stock companies.....	Compagnies par actions
Land, buildings and fixtures.....	Terrain, bâtiments et agencement
Lb.....	liv.
Less than five persons.....	Moins de cinq personnes
Licensed canneries.....	Fabriques de conserve de poisson patentées
Lignite.....	Lignite
Lines.....	Lièges
Lines and sturgeon lines.....	Lièges et lignes à esturgeon
Live fish or fish eggs for propagating purposes.....	Poisson vivant ou œufs de poisson pour pisciculture
Lobsters canned and shipped in shell.....	Homard, en conserve, et vivant ou frais
Lobster canneries.....	Fabrique de conserves de homard ou homarderies
Lobster traps.....	Casiers à homard
Machinery and tools.....	Machinerie et outils
Male.....	Hommes
Marketed.....	Mis sur le marché
Materials in stock, fuel, etc.....	Matières premières en stock, combustible, etc.
Men.....	Hommes
Men fishing without boats.....	Pêcheurs sans embarcation
Mild cured.....	Mariné au lait
Miscellaneous expenses.....	Prises généraux
Months.....	Mois
No.....	Nombre
No employees.....	Nombre du personnel
Northern district.....	District septentrional
Officers, superintendents and managers.....	Admistrateurs, directeurs et gérants
Oil.....	Huile
Ordinary repairs to buildings and machinery.....	Réparation ordinaire aux bâtiments et à la machinerie
Other fish.....	Autre poisson
Other fuel.....	Autre combustible
Outside piece-workers.....	Ouvriers aux pièces au dehors
Oyster establishments.....	Parcs à huîtres
Partnership.....	Société en nom collectif
Pearl, mother of, unmanufactured.....	Nacre, non ouvrée
Per day.....	Par jour
Per week.....	Par semaine
Pickled.....	Mariné
Pickled or dried.....	Mariné ou séché
Pound nets.....	Fillets à enclos
Power employed.....	Force motrice employée
Power owned.....	Force motrice possédée
Power rented.....	Force motrice louée
Prepared or preserved.....	Préparé ou conservé
Proprietors who regularly perform manual labour in establishment.....	Propriétaires se livrant régulièrement à des travaux manuels dans leur établissement
Qty.....	Qtx
Rent of offices, works and machinery.....	Loyer des bureaux, usines et machinerie
Rent of power.....	Loyer de la force motrice
Rods and lines.....	Lièges et cannes à pêche
Rooms.....	Chambres—pièces
Royalites, used of patents, etc.....	Droits régaliens, usage de brevets, etc.
Sail.....	Voile
Sailing and gasoline vessels.....	Voiliers et chaloupes à gazoline
Salmon canneries.....	Fabriques de conserves de saumon ou saumonneries
Salted.....	Salé
Salmon traps.....	Pièges à saumon
Sardine canneries.....	Fabriques de conserves de sardines ou sardineries
Sea fisheries.....	Pêcheries maritimes
Seed and breeding oysters imported for the purpose of being planted in Canadian waters.....	Naissains et boues hultrières importées pour être déposées dans les eaux canadiennes
Shelled.....	Ecaillés
Shipped in shell.....	Expédié en écaille
Skates of halibut gear.....	Cablières à flétan
Small.....	Petit (m) ou petite (f)
Smoked.....	Fumé
Smoked fillets.....	Fillets fumés
Southern districts.....	District méridional
Spears.....	Harppons
Spermaceti.....	Spermaceti (blanc de baleine)
Steam engines.....	Machines à vapeur
Steam fishing vessels.....	Vaisseaux de pêche à vapeur
Steam trawlers.....	Chalutiers à vapeur
Steam vessels.....	Vaisseaux à vapeur
Steam vessels or tugs.....	Navires à vapeur ou remorqueurs
Taxes.....	Taxes
Time.....	Temps
Time in operation and hours worked.....	Durée des opérations et heures de travail
Ton.....	Tonne
Tonnage.....	Tonnage
Tortoise and other shells.....	Ecailles de tortue et autres écailles
Total amounts paid to.....	Montant total payé à
Total capital invested.....	Total du capital engagé
Total expenses.....	Total des dépenses
Total for province—quantity.....	Total pour la province—quantité

GLOSSARY--con. -- VOCABULAIRE--fin
