NOTE

The annual reports prepared by the Industry and Merchandising Division of the Bureau of Statistics are divided into 3 volumes, as follows: Volume I—The Primary Industries, including mining, forestry and fisheries; Volume II—Manufacturing; Volume III—Merchandising and Services. The volumes are made up of parts, and the parts in turn are subdivided according to the industries which they comprise.

Volume I consists of the following parts:

- Part I. Mineral Statistics;
- Part II. Forestry Statistics — Operations in the Woods;
- Part III. Fisheries Statistics.

Part III includes the following reports which constitutes the complete series on Fisheries Statistics of Canada. Individual reports are issued as the information becomes available; they are arranged in a form suitable for binding.

NOTA

La Division de l'industrie et du commerce du Bureau fédéral de la statistique répartit ses rapports annuels en trois volumes: I, industries primaires, — y compris extraction minière, forestage et pêche; II, fabrication; III, commerce et services. Chaque volume contient plusieurs parties qui se subdivisent elles-mêmes suivant les industries qu'elles étudient.

Le premier volume compte les parties suivantes:

- Partie I. Statistique minérale;
- Partie II. Statistique forestière, — forestage;

Partie III. Statistique des pêches.

Cette dernière partie, qui contient les rapports énumérés plus bas, constitue une statistique complète des pêches au Canada. Chacun des rapports, — publié sous un format facile à relier, — paraît au fur et à mesure que les renseignements deviennent disponibles.

BRITISH COLUMBIA
SEA FISHERIES DISTRICTS

BRITISH COLUMBIA FISHERIES DISTRICTS

District No. 1—shall embrace that portion of the coast and waters tributary thereto of the mainland inside of a straight line drawn in a south-easterly direction from Reception Point on Sechelt Peninsula through Thresher Rock Light to the most southerly point of Gabriola Reefs, thence in a westerly direction to the most northerly point of Valdes Island, thence in a straight line to the most westerly point of the International Boundary lying on the 49th parallel of North Latitude in the Gulf of Georgia.

District No. 2—shall embrace the coast and waters tributary thereto of the mainland from a straight line drawn due west from Cape Caution northward to the northerly boundary of the province, as well as the coast and waters of the islands opposite that portion of the mainland coast.

District No. 3—embraces the remainder of the province.

LES DISTRICTS DE PÊCHE EN COLOMBIE-BRITANNIQUE

Le 1er district comprend cette partie de la côte et des eaux tributaires, de la terre ferme, située en dedans d'une ligne droite tirée vers le sud-est, de la pointe Réception sur la péninsule Sechelt, en passant par le phare du rocher Thresher, jusqu'au point le plus méridional des récifs Garbiola; de là vers l'ouest, jusqu'au point le plus septentrional de l'île Valdes; puis, tout droit, jusqu'au point le plus occidental de la frontière sur le 49^e parallèle de latitude nord, dans le golfe de Géorgie.

Le 2e district comprend la côte et les eaux tributaires de la terre ferme, à partir d'une ligne droite tirée franc ouest du cap Caution en direction nord jusqu'à la frontière septentrionale de la province, et comprend aussi la côte et les eaux des îles situées au large de cette partie de la côte de la terre ferme.

Le 3e district comprend le reste de la province.

¹ Sans le flétan débarqué dans les ports des États-Unis.

Nota: La Colombie-Britannique n'a pas tenté de convertir les espèces débarquées en une forme type. Les chiffres des débarquements sont donc la somme des "entiers", "vidés, non étêtés" et "vidés, étêtés".

Note: In British Columbia no effort is made to convert species as landed to a common landed form. The landing figures are therefore the sum of fish in the round, gutted head-on and gutted head-off.

¹ Sans les Viscères. Voir renvoi 3.² Sans le flétan débarqué dans les ports des États-Unis (1958: 5,145,000 liv.; 1959: 6,997,000 liv.).³ On ne dispose pas de détails par district de pêche.

Nota: La Colombie-Britannique n'a pas tenté de convertir les espèces débarquées en une forme type. Les chiffres des débarquements sont donc la somme des "entiers", "vidés, non étêtés" et "vidés, étêtés".

TABLE 7. Number of Persons Engaged in the Primary Operations, British Columbia, 1958 and 1959¹
 TABLEAU 7. Personnel occupé aux opérations premières, Colombie-Britannique, 1958 et 1959¹

Men — Hommes	British Columbia Colombie-Britannique	
	1958	1959
Total number of men — Nombre total d'hommes	No. — nomb.	
	15,263	15,456

¹ The count of fishermen is based chiefly on a non-duplicating list of persons taking out licences to catch fish and shellfish for sale or for catching whales. Estimates are made for crews of fishpackers who are not required to take out licences. Men operating salmon traps are not required to take out licences and no estimate is made of the number of men employed working traps. — Le nombre de pêcheurs se fonde surtout sur la liste (corrigée du double emploi) des personnes auxquelles on a délivré un permis de pêcher, pour fins commerciales, les poissons, mollusques et crustacés, et de chasser la baleine. On établit des estimations quant aux équipages des bateaux collecteurs, lesquels ne sont pas tenus de se munir d'un permis. Ceux qui exploitent des pièges à saumon n'ont pas davantage besoin de permis, mais on n'évalue pas leur nombre.
