ADVANCE REPORT ON THE FISHERIES OF ONTARIO, THE PRAIRIE PROVINCES
AND THE YUKON TERRITORY, 1940

The present bulletin, containing advance report of the fisheries of Ontario, the Prairie Provinces and the Yukon Territory, for the year 1940, is issued by the Dominion Bureau of Statistics, in co-operation with the Dominion Fisheries Department and the Fisheries Departments of the provinces concerned.

ONTARIO

Production. - The total value of output of the Ontario fisheries in 1940, as marketed, was \$3,035,100, compared with \$3,010,252 in the preceding year. Whitefish is the species of first importance in the commercial fisheries of the province, with a value in 1940 of \$1,012,590, and following is trout with \$711,348. Other kinds of importance are pickerel, blue pickerel, perch, herring and tullibee.

The quantity of fish of all kinds taken by Ontario fishermen during the year was 279,620 cwt., with a value at the point of landing of \$2,560,362, compared with a catch of 338,473 cwt. and a value to the fishermen of \$2,514,579 in 1939. Blue pickerel with a decrease in catch of 40,391 cwt., or 66 per cent, and herring with a decrease of 17,242 cwt., or 32 per cent, are the kinds chiefly responsible for the reduction shown in the total quantity of output.

Capital Equipment and Employees. - The amount of capital invested in the fisheries of Ontario in 1940 was \$3,217,462, compared with \$3,218,766 in the preceding year. Comprised in the total for 1940 are: boats, \$1,308,072; nets and seines, \$1,520,838; piers and wharves and freezers and ice houses, \$384,434; and miscellaneous fishing material, \$4,118.

The number of men engaged in fishing operations during the year was 4,020, compared with 4,206 in 1939, a decrease of 186.

THE PRAIRIE PROVINCES

Production. - The marketed value of production of the fisheries of the three Prairie provinces, combined, was \$2,842,629, compared with \$2,564,508 in 1939. By provinces the values are as follows, with figures for 1939 in brackets: Manitoba, \$1,988,545 (\$1,655,273); Saskatchewan, \$403,510 (\$478,511); and Alberta, \$450,574 (\$430,724).

The chief commercial fish in Manitoba is the pickerel, but whitefish comes first in Saskatchewan and Alberta. For the three provinces as a whole whitefish leads with a marketed value in 1940 of \$904,920, while pickerel is second with \$686,190. Other kinds of importance commercially are: saugers, perch, tullibee, pike, trout and sturgeon.

The total quantity of fish of all kinds landed by the fishermen of the Prairie provinces was 451,795 cwt. with a value at the point of landing of \$2,003,975, compared with a catch of 469,562 cwt. and a landed value of \$1,653,358 in 1939. By provinces the figures for 1940 are: Manitoba, 307,426 cwt., \$1,554,536; Saskatchewan, 72,457 cwt., \$227,671; and Alberta, 71,912 cwt., \$221,768.

Capital Equipment and Employees. - The amount of capital invested in the boats, gear, etc. used by the fishermen of the three provinces was \$1,611,890, compared with \$1,521,840 in 1939. By provinces the figures for 1940 are: Manitoba, \$1,149,546; Saskatchewan, \$145,211; and Alberta, \$317,133.

The number of fishermen employed during the year was 8,165, distributed by provinces as follows: Manitoba, 4,205; Saskatchewan, 1,284; and Alberta, 2,676. In 1939 the total number was 7,382.

THE YUKON TERRITORY

The commercial fisheries of the Yukon Territory are of small importance. In 1940 the catch of the various kinds totalled 327 cwt., for which the fishermen received \$4,994. The fish is marketed locally by the fishermen. The value of the boats and gear used was \$5,044, while the number of fishermen was 29.

GENERAL TABLES

Statistics, by provinces, will be found in the following tables.

ONTARIO FISHERIES

1. Quantity and Value of Fish Caught and Marketed, Ontario, 1939 and 1940.

Kind of fish	Unit of Measure	1 9 3 9		1 9 4 0	
		Quantity	Value	Quantity	Value
Blue pickerel, caught and landed	Cwt.	61,575	\$ 369,450	21,184	\$ 182,182
