SHIPMENTS OF PREPARED STOCK AND POULTRY FEEDS
APRIL, 1949

In October, 1947, the Dominion Bureau of Statistics, in cooperation with the National Council of the Canadian Feed Manufacturers Association, commenced a Survey on a sample basis, of Shipments of Prepared Stock and Poultry Feeds, showing both Export shipments as well as Provincial destinations in Canada. The coverage of this Sample survey is approximately 83 per cent of the total 1947 production, reported by manufacturers classified under the Prepared Stock and Poultry Feeds Industry. In conjunction with this Shipments survey, figures were also collected on Inventories of Prepared Feeds at the end of each month, and the consumption of various grains used in making Prepared Feeds during each month.

It is in 1949 that this survey on Shipments commences to have real value, as there is a basis for comparing the current months with the corresponding months of the previous year. It will be several years, however, before sufficient monthly data is accumulated, with which to work out accurate seasonal trends in Provincial Shipments and Inventories.

Included in this publication are figures on shipments of Prepared Stock and Poultry Feeds to Newfoundland. It must be clearly understood however, that as there are no Newfoundland manufacturers of Prepared Feeds taking part in this survey at present, these figures represent only shipments to this province, by Feed manufacturers in other provinces, who in previous months had reported these shipments as Export Sales.

Table 1 shows the 1947 production of Prepared Stock & Poultry Feeds, showing separately the production in the industry proper, the production outside the industry, and the production of the firms included in the Monthly Shipments Survey, and is intended to be useful in indicating relationship in coverage.

Table 2 shows shipments or sales, of each particular feed, or concentrate, reported by the firms in the sample for the months, April 1948 - April 1949, without detail of provincial destination.

Table 3 presents the shipments of related groups of feeds, or concentrates, by provincial destinations, for the months, February 1948 - April 1949.

Table 4 and 5 show complete detail of feeds and concentrates shipped, by provincial destinations, for the months of March 1949 and April 1949.

Table 6 shows the stocks of prepared stock and poultry feeds held by all firms reporting in the Monthly Sample Survey, by main groups of feeds and concentrates, for the months of April 1948 - April 1949.

Table 7 gives the consumption of grains used in making feeds during individual months, by all firms reporting in the Monthly Sample Survey, for the months, August 1948 - April 1949.

Table 8 presents the stocks of milk, buttermilk and whey powder, held by all firms classified under the Prepared Stock and Poultry Feed Industry, for the months, June 1948 - May 1949.

SHIPMENTS OF PREPARED STOCK AND POULTRY FEEDS

Specifically for the use of our Agricultural Division, data are collected each month on the consumption of grains used in the manufacturing of prepared stock and poultry feeds, during individual months, from ALL firms reporting in the Month Sample Survey. It is thought that this information may be of use and interest to Feed Manufacturers, and, figures on the consumption of these grains are given in Table 7, immediately below.

Table 7. - Consumption of Grains Used in Making Feeds, During Individual Months, by ALL Firms Reporting in the Monthly Sample Survey, for the Months, August 1948 - April, 1949

SHIPMENTS OF PREPARED STOCK AND POULTRY FEEDS

Supplementary to the Monthly Prepared Stock and Poultry Feeds Survey, and specifically for use by the Department of Agriculture, data are collected each month on the stocks of milk powder, buttermilk powder and whey powder held by Feed Manufacturers. It is thought that the information may be useful to Feed Manufacturers also, and stocks of these items are given in Table 8, immediately following.

However, it must be stressed that the totals do not represent stocks held only by firms reporting in the Sample Monthly Survey of Shipments and Stocks of Prepared Stock and Poultry Feeds, although these particular firms account for a high percentage, but are approximately all stocks of milk powder, etc. held in the Prepared Stock and Poultry Feeds Industry as a whole.

Table 8. - Stocks of Milk Powder, Buttermilk Powder and Whey Powder Held by ALL Firms in the Prepared Stock and Poultry Feed Industry for the months, June, 1948-May, 1949
