Commencing in 1970, this survey includes micro-premixes sold to other than respondents within the survey. These data appear as additional items in Table 2. The additional items will increase the volume in Table 3 and cause comparability distortion with data previously published. However, the resultant data should provide the user with an improved framework of information on the commodities affected.

Table 1. Production, Shipments, Inventories of Dehydrated Alfalfa, Clover and Grass Meals

The production and shipments recorded in this table are compiled from information received from operators of Dehydrated Alfalfa Meal plants in Canada, (see December report for a list of contributors).

Table 2. Shipments of Micro-premixes, Macro-premixes and Supplements (formerly premixes and concentrates)

The data in this table provide the reported monthly shipments of micro-premixes, macro-premixes and supplements. They include both the quantity moving direct to the farm level as well as that going to the secondary or franchise operators (if any) for manufacturing complete feeds.

Table 3. Estimated Feed Equivalent from Micro-premixes, Macro-premixes and Supplements (formerly premixes and concentrates)

The data in this table represent the volume of complete feeds that could be produced from the micro-premixes, macro-premixes and supplements reported by manufacturers in Table 2. The estimates herein presented are prepared by the respective respondents in this survey.

Table 4. Shipments of Secondary or Complete Feeds

The details in this table show the shipments by destination of complete feeds that have been produced from raw ingredients and/or complete feeds produced from raw materials in conjunction with micro-premix as a base.

Table 5. Shipments of Other Animal Feeds

Shows only that volume of animal and pet feeds produced by feed registrants within this survey and would not be representative of the total national output of these commodities.

Note: Any queries relevant to this survey should be directed to:

A compter de 1970, les micro-prémélanges vendus à d'autres que les répondants figureront à la présente enquête et feront l'objet de postes supplémentaires au Tableau 2. Ces chiffres augmenteront le volume indiqué au Tableau 3 et rendront difficile la comparaison avec les chiffres déjà publiés. Toutefois, les résultats devraient fournir à l'utilisateur des renseignements plus complets sur les marchandises en cause.

Tableau 1. Production, expéditions, stocks de farines déshydratées de luzerne, de trèfle et d'herbe

La production et les expéditions du présent tableau sont tirées de renseignements fournis par les fabricants canadiens de farines déshydratées de luzerne (voir le numéro de décembre pour la liste des correspondants).

Tableau 2. Expéditions de micro-prémélanges, macro-prémélanges et de compléments (antérieurement prémélanges et concentrés)

Les données du présent tableau montrent les expéditions mensuelles déclarées de micro-prémélanges, macro-prémélanges et de compléments. Elles comprennent les quantités envoyées directement aux fermes et les quantités envoyées aux exploitants indépendants ou en franchise, le cas échéant, qui fabriquent les aliments complets.

Tableau 3. Équivalent estimatif des aliments tirés de micro-prémélanges, macro-prémélanges et de compléments (antérieurement prémélanges et concentrés)

Les données du présent tableau représentent le volume d'aliments complets qui pourraient être produits à partir des micro-prémélanges, macro-prémélanges et les compléments déclarés par les fabricants au Tableau 2. Les estimations sont celles des répondants de l'enquête.

Tableau 4. Expéditions d'aliments secondaires ou complets

Les détails du présent tableau montrent les expéditions par destination des aliments complets qui ont été produits à partir d'ingrédients bruts et (ou) d'aliments complets produits à partir de matières brutes, les micro-prémélanges servant de base.

Tableau 5. Expéditions d'autres aliments pour animaux

Il s'agit du volume des aliments pour animaux et pour oiseaux d'agrément, produits par les personnes enregistrées aux fins de l'enquête, ce qui ne représente pas la production nationale totale de ces marchandises.
