SYMBOLS

SYMBOLES CONVENTIONNELS

The following standard symbols are used in Statistics Canada publications:

Les signes conventionnels suivants sont employés uniformément dans les publications Statistique Canada:

.. figures not available.

.. nombres indisponibles.

... figures not appropriate or not applicable.

... n'ayant pas lieu de figurer.

- nil or zero.

- néant ou zéro.

-- amount too small to be expressed.

-- nombres infimes.

F preliminary figures.

F nombres préliminaires.

C revised figures.

C nombres révisés.

x confidential to meet secrecy requirements of the Statistics Act.

x confidentiel en vertu des dispositions de la loi sur la statistique relatives au secret.

Table 1. Production, Shipments, Inventories of Dehydrated Alfalfa, Clover and Grass Meals

The production and shipments recorded in this table are compiled from information received from operators of Dehydrated Alfalfa Meal plants in Canada, (see December report for a list of contributors).

Tableau 1. Production, expéditions, stocks de farines déshydratées de luzerne, de trèfle et d'herbe

La production et les expéditions du présent tableau sont tirées de renseignements fournis par les fabricants canadiens de farines déshydratées de luzerne (voir le numéro de décembre pour la liste des correspondants).

Table 2. Shipments of Micro-premixes, Macro-premixes and Supplements (formerly premixes and concentrates)

The data in this table provide the reported monthly shipments of micro-premixes, macro-premixes and supplements. They include both the quantity moving direct to the farm level as well as that going to the secondary or franchise operators (if any) for manufacturing complete feeds.

Tableau 2. Expéditions de micro-prémélanges, macro-prémélanges et de compléments (antérieurement prémélanges et concentrés)

Les données du présent tableau montrent les expéditions mensuelles déclarées de micro-prémélanges, macro-prémélanges et de compléments. Elles comprennent les quantités envoyées directement aux fermes et les quantités envoyées aux exploitants indépendants ou en franchise, le cas échéant, qui fabriquent les aliments complets.

Table 3. Estimated Feed Equivalent from Micro-premixes, Macro-premixes and Supplements (formerly premixes and concentrates)

The data in this table represent the volume of complete feeds that could be produced from the micro-premixes, macro-premixes and supplements reported by manufacturers in Table 2. The estimates herein presented are prepared by the respective respondents in this survey.

Tableau 3. Équivalent estimatif des aliments tirés de micro-prémélanges, macro-prémélanges et de compléments (antérieurement prémélanges et concentrés)

Les données du présent tableau représentent le volume d'aliments complets qui pourraient être produits à partir des micro-prémélanges, macro-prémélanges et les compléments déclarés par les fabricants au Tableau 2. Les estimations sont celles des répondants de l'enquête.

Table 4. Shipments of Secondary or Complete Feeds

The details in this table show the shipments by destination of complete feeds that have been produced from raw ingredients and/or complete feeds produced from raw materials in conjunction with micro-premix as a base.

Tableau 4. Expéditions d'aliments secondaires ou complets

Les détails du présent tableau montrent les expéditions par destination des aliments complets qui ont été produits à partir d'ingrédients bruts et/ou d'aliments complets produits à partir de matières brutes, les micro-prémélanges servant de base.

Table 5. Shipments of Other Animal Feeds

Shows only that volume of animal and pet feeds produced by feed registrants within this survey and would not be representative of the total national output of these commodities.

Tableau 5. Expéditions d'autres aliments pour animaux

Il s'agit du volume des aliments pour animaux et pour oiseaux d'agrément, produits par les personnes enregistrées aux fins de l'enquête, ce qui ne représente pas la production nationale totale de ces marchandises.
