# DOMINION BUREAU OF STATISTICS

Department of Trade and Commerce

Published by
Authority of the Rt. Hon. C. D. Howe
Minister of Trade and Commerce

Prepared in the General Manufactures Section Industry and Merchandising Division Dominion Bureau of Statistics Ottawa

In October, 1947 the Dominion Bureau of Statistics, in co-operation with the National Council of the Canadian Feed Manufacturers' Association, commenced a survey on a sample basis of Shipments of Prepared Stock and Poultry Feeds, showing export shipments as well as provincial destinations in Canada.

By 1950 the monthly survey on Shipments assumed real value since it formed the basis of comparing the current months with corresponding months of the previous year. It now enables the Bureau and those interested in a study of the Industry to evaluate, with a fair degree of accuracy the seasonal trends in provincial shipments and inventories. However, it was difficult to estimate certain individual commodities reliably because of insufficient coverage. Because of this the Bureau decided, after the publication of the December 1950 report, to again increase the coverage in the sample survey. On the basis of the annual 1950 Prepared Stock and Poultry Feeds Industry, the Survey is now representative of 84.5 per cent of the total. The information presented in the report has been changed somewhat and the table contents are outlined below.

Table 1 presents the total annual production of the Prepared Stock and Poultry Feeds Industry in Canada for 1950, together with an estimate of production for the calendar year 1951 and, as well, the production of the current month in 1952 and the cumulative totals for 1951 and 1952.

Table 2 shows the 1950 production of Prepared Stock and Poultry Feeds, showing separately (a) the production of the industry proper, (b) the production outside the Industry, (c) the total of these two groups, (d) the total of the firms reporting in the monthly sample Survey.

Table 3 is an index of the trend in the Shipments of Prepared Stocks and Poultry Feeds by principal commodities and by provincial destinations and export. Herein is presented the index for the current month, the previous month and the corresponding month of last year. The base is 1950=100.

Table 4 shows an estimated artificial Factor of Distribution of Shipments of Prepared Stock and Poultry Feeds by province of destination for 1950. The provincial distribution reported by firms in the sample Survey was correlated with the annual production of the Industry for 1950. This factor contains the means by which monthly production may be estimated, and you should refer to table 4 for direction.

Table 5 contains the inventories of those firms in the sample Survey, which maintain inventory records and voluntarily submit monthly data.

Table 6 (similar to Table 5). This section shows the quantities of grain used in making feeds by those firms which maintain the necessary monthly records.

Table 7 contains the Stocks of Milk Powder, Buttermilk Powder and Whey Powder held by all firms in the Prepared Stock and Poultry Feeds Industry Monthly.

# MONTHLY SHIPMENTS OF PREPARED STOCK AND POULTRY FEEDS AND CONCENTRATES 1951 - 1952

HUNDREDS OF THOUSANDS OF CWTS.

Table 1. Production of Prepared Stock and Poultry Feeds in Canada, 1950, together with estimated and comparable data for 1951. Current Monthly Production accompanied by cumulative totals, 1951 and 1952 reported in columns (3) (4) and (5) respectively.

<sup>(1)</sup> The data herein contained can only be used in indicating a trend in the holdings of reporting firms. This information bears no relation to shipments data appearing in other tables of this report.

Table 7. - Stocks of Milk Powder, Buttermilk Powder and Whey Powder Held by all Firms in the Prepared Stock and Poultry Feed Industry for the Months of Oct. 1951 - Dec. 1952.

|              |        | Powder     |       |
|--------------|--------|------------|-------|
| Months       | Milk   | Buttermilk | Whey  |
|              | cwt.   | cwt.       | cwt.  |
| 1951         |        |            |       |
| October      | 7,012  | 4,495      | 7,924 |
| November     | 6,548  | 4,831      | 7,815 |
| December     | 7,360  | 4,093      | 8,100 |
| 1952         |        |            |       |
| January      | 7,523  | 3,754      | 8,488 |
| ebruary      | 5,509  | 4,228      | 5,541 |
| March        | 6,383  | 4,020      | 4,693 |
| April        | 6,439  | 3,119      | 3,324 |
| May          | 5,429  | 2,922      | 4,071 |
| June         | 4,588  | 2,532      | 5,345 |
| July         | 6,809  | 3,005      | 5,876 |
| August       | 9,997  | 3,446      | 4,617 |
| September    | 9,030  | 3,781      | 5,178 |
| October      | 9,260  | 3,997      | 4,679 |
| November     | 10,919 | 4,893      | 5,133 |
| December (1) | 14,550 | 3,914      | 6,214 |

<sup>(1)</sup> These figures are subject to revision.

Supplementary to the Monthly Prepared Stock and Poultry Feeds Survey, and specifically for the use by the Department of Agriculture, data are collected each month on the stocks of milk powder, buttermilk powder and whey powder held by Feed Manufacturers. It is thought that the information may be useful to Feed Manufacturers also, and stocks of these items are given in Table 7, above.

However, it must be stressed that the totals do not represent stocks held only by firms reporting in the Sample Monthly Survey of Shipments and Stocks of Prepared Stock and Poultry Feeds Industry as a whole.
