|---|------------------|
| Dominion Statistician: | Herbert Marshall |
| Director, Census of Industry and Merchandising: | W. H. Losee |
| Chief, General Manufactures Branch: | A. Cohen |

The Dominion Bureau of Statistics presents herewith the first of a series of quarterly reports showing the current production of the main processed food items. All products listed are arranged to parallel as closely as possible the classifications as shown on the annual Census of Industry schedule, although it is to be noted that these data are compiled on a commodity basis irrespective of industrial classification. The figures relative to 1946 and 1947 published herewith are subject to revision, as an estimate had to be made for a few firms who failed to report.

In future publications, it is our intention to include data covering production during the years previous to 1945, and thus present a more complete picture of the long-term trend in the production of each item.

QUARTERLY PRODUCTION OF PROCESSED FOODS

NOTE: All 1946 and 1947 data are preliminary, subject to revision.
