QUARTERLY REPORT
ON
PROCESSED FOODS
JUNE, 1949

**DOMINION BUREAU OF STATISTICS
DEPARTMENT OF TRADE AND COMMERCE**

**QUARTERLY REPORT
ON
PROCESSED FOODS
JUNE, 1949**

Published by Authority of the Rt. Hon. C. D. Howe,
Minister of Trade and Commerce

Prepared in the General Manufactures Section,
of the Industry and Merchandising Division,
Dominion Bureau of Statistics, Ottawa

Quarterly Production of Processed Foods

All manufacturers of the main processed food items are asked to report their production quarterly, and the present release contains data, by quarters, for the years 1947, 1948 and the first and second quarters of 1949.

Although exact agreement between the **Quarterly**, and the Annual Census of Industry data is not possible, coverage in both series is now correlated, and the Quarterly may be considered as a useful indication of production, available considerably in advance of the more detailed Annual. To bring the historical quarterly data into line the 1947 Quarterly series shown in the present report has been revised to agree in total with the Annual. Although 1948 Annual totals are not yet available, it is thought that coverage in both series was approximately the same and that the 1948 quarterly figures, as well as those for 1949, will not be subject to important revisions at a later date.

In the final table of this release production of major items is shown in terms of volume indexes (1935=1939=100). In addition, the individual index numbers have been weighted to arrive at volume indexes for the following groups of items (a) Biscuits, Cocoa, Confectionery and Chocolate. (b) Other Canned Goods (c) Miscellaneous

This quarterly series does not include the pack of fresh fruits and vegetables, figures for which are collected at the end of each pack season and released separately.

Production Trimestrielle D'aliments Conditionnés

Tous les manufacturiers des principales variétés de denrées conditionnées doivent chaque trimestre, faire rapport de leur production, et la présente publication renferme des renseignements, par trimestre, pour les années 1947, 1948 et les premier et deuxième trimestres de 1949.

Bien qu'il ne soit pas possible d'établir la concordance parfaite entre les données trimestrielles et celles du recensement annuel de l'industrie, la matière des deux séries a été mise en corrélation et les données trimestrielles peuvent être considérées comme étant une indication utile de la production paraissant sensiblement plus tôt que les données plus détaillées annuelles. Pour que les données trimestrielles historiques soient conformes, la série trimestrielle de 1947 donnée dans le présent rapport, a été révisée et mise en harmonie avec les totaux annuels. Bien que les totaux annuels de 1948 ne soient pas encore disponibles, on croit que la matière des deux séries est à peu près la même et que les chiffres trimestriels de 1948, aussi bien que ceux de 1949, ne seront pas sujets à des changements considérables plus tard.

Dans le dernier tableau de ce bulletin, la production des principaux articles est exprimée en indice du volume (1935-1939=100). En outre, les nombres-indices particuliers ont été pondérés pour en arriver à des indices du volume pour les groupes de produits suivants: (a) Biscuits, cacao confiserie et chocolat (b) Autres produits en conserve (c) Divers;

Cette série trimestrielle ne renferme pas l'emballage des fruits et légumes frais, dont les renseignements sont recueillis à la fin de chaque saison d'emballage et publiés séparément.

QUARTERLY PRODUCTION OF PROCESSED FOODS

PRODUCTION TRIMESTRIELLE D'ALIMENTS CONDITIONNES

Note: All 1948 and 1949 data are preliminary, subject to revision.

Nota: Tous les chiffres de 1948 et 1949 sont provisoires et sujets a revision.
