Quarterly Production of Processed Foods

All manufacturers of the main processed food items report their production quarterly, and the present release contains data, by quarter for the years 1948, 1949 and the first quarter of 1950.

Although exact agreement between the Quarterly, and the Annual Census of Industry data is not possible, coverage in both series is now correlated, and the Quarterly may be considered as a useful indicator of production trends, available considerably in advance of the more detailed annual figures. Although 1948 Annual totals are not yet available, it is thought that coverage in both series was approximately the same and that the 1948 quarterly figures, as well as those for 1949 and 1950 will not be subject to important revisions at a later date.

Due to many requests, we are now showing, tables giving production by provinces of some of the main items in each food group.

In the final tables of this release production of major items is shown in terms of volume indexes (1935-1939-100). In addition, the individual index numbers have been weighted to arrive at volume indexes for the following groups of items (a) Biscuits, Cocoa, Confectionery and Chocolate, (b) Other Canned Goods (c) Miscellaneous on the quarterly volume indexes plus (d) Canned Fruits and (e) Canned Vegetables on the Annual.

This quarterly series does not include the pack of fresh fruits and vegetables, figures for which are collected at the end of each pack season and released separately.

Production Trimestrielle D'aliments Conditionnés

Tous les manufacturiers des principales variétés de denrées conditionnées doivent chaque trimestre, faire rapport de leur production, et la présente publication renferme des renseignements, par trimestre, pour les années 1948, 1949 et le premier trimestre 1950.

Bien qu'il ne soit pas possible d'établir la concordance parfaite entre les données trimestrielles et celles du recensement annuel de l'industrie, la matière des deux séries a été mise en corrélation et les données trimestrielles peuvent être considérées comme étant une indication utile des tendances, paraissant sensiblement plus tôt que les données plus détaillées annuelles. Bien que les totaux annuels de 1948 ne soient pas encore disponibles, on croit que la matière des deux séries est à peu près la même et que les chiffres trimestriels de 1948, 1949 et 1950 ne seront pas sujets à des changements considérables.

Pour répondre à de nombreuses demandes nous donnons ici, des tableaux de la production des principaux items de chaque groupe, par province.

Dans les derniers tableaux de ce bulletin, la production des principaux articles est exprimés en indice du volume (1935-1939-100). En outre, les nombres-indices particuliers ont été pondérés pour en arriver à des indices du volume pour les groupes de produits suivants: (a) Biscuits, cacao, confiserie et chocolat, (b) Autres produits en conserve (c) Divers sur l'indice trimestriel du volume physique plus (d) fruits en conserves et (e) légumes en conserves sur l'indice annuel.

Cette série trimestrielle ne renferme pas l'emballage des fruits et légumes frais, dont les renseignements sont recueillis à la fin de chaque saison d'emballage et publiés séparément.

- (1) Formerly this item included production of Maraschino cherries. Due to many requests Maraschino Cherries are now being shown separately and production of this item has been removed from fountain fruits. On the Annual reports production of this item is shown in pounds and in order to have a comparable figure production for the first quarter of 1950 is now being shown in pounds. As soon as figures become available data for 1948 and 1949 will also be shown in pounds.- Dans les éditions précédentes cet item comprenait les cerises maraschino. Afin de satisfaire à de nombreuses demandes, ces cerises sont maintenant compilées séparément et la production en a été déduite des "Fruits pour fontaines". Dans nos rapports annuels la production de cette denrée est donnée en livre. Afin que la quantité soit sur une même base, nous nous servons de la livre comme unité de mesure pour le premier trimestre de 1950. Dès que cela sera devenu possible nous publieront en livres les données de 1948 et 1949.
- (2) Formerly this item included production of glacé cherries. Due to many requests glacé cherries are now being shown separately & production of this item has been removed from Fruits, crystalized and glacé.-Cet item comprenait les cerises glacées dans les éditions précédentes, afin de satisfaire à de nombreuses demandes, les cerises glacées sont maintenant compilées séparément et la production en a été déduite de l'item "Fruits cristallisés et glacés.
