Vol. 45—No. 7

SOURCE AND CONTENT

Data for this report are collected by mail questionnaires from dairy factories, concentrated milk manufacturers, public and semi public cold storages, meat packers, wholesale grocers' warehouses and central warehouses of chain grocery stores.

Inventories are taken at manufacturers and wholesale level and firms are required to report all stocks held in their own establishments or in specially rented rooms elsewhere as at the opening of the first business day of the month.

Stocks of butter and cheese in dairy factories are obtained with the co-operation of the provincial governments.

STOCKS OF DAIRY AND POULTRY PRODUCTS

July 1, 1962

CREAMERY BUTTER:

At the opening of business on July 1, 1962 the stocks of creamery butter on hand in Canada amounted to 110,231,000 lb. Cold Storage Warehouses had in store 76,114,000 lb. while dairy factories held 33,862,000 lb. The summary total was lower than last year by 9.3 million pounds. The five year average 1957-61 of July 1 stocks is 90,547,000 lb. The June 1962 "into-storage" movement was 22.6 million pounds as compared with a similar movement of 23.7 million pounds last year.

CHEDDAR CHEESE:

The total stocks of cheddar cheese were 51,996,000 lb. consisting of 51,616,000 lb. Canadian and 380,000 lb. in transit. There were no stocks of imported cheddar cheese on hand on July 1, 1962. The summary total was lower than last year by 2.1 million pounds and showed an "into-storage" movement of 3.8 million pounds for June 1962.

CONCENTRATED MILK PRODUCTS:

Stocks of evaporated whole milk held by or for manufacturers amounted to 46,334,000 lb. which was a decrease of 9.3 million pounds from last year. The "into-storage" movement of evaporated whole milk for June 1962 was 17.3 million pounds. Stocks of the chief by-products, skim-milk powder, amounted to 30,392,000 lbs. a decrease of 7.0 million pounds from last year and an increase of 7.5 million pounds over last month.

EGGS:

The July 1, 1962 report shows 31,000 cases of cold storage eggs and 77,000 cases of fresh eggs. There were no shell eggs reported in transit. Frozen eggs totalled 7,044,000 lb. being 1.6 million pounds higher than the 1961 figures. The "into-storage" movement of June 1962 was 1.3 million pounds as compared with a similar movement of 390 thousand pounds during June 1961.

POULTRY MEAT:

The summary total of dressed and eviscerated poultry meat stocks at July 1, 1962 was higher than last year by 1.1 million pounds. An "out-of-storage" movement of 3.8 million pounds is shown for the month of June 1962. By kind, the dressed and eviscerated quantities in stock, the latter in brackets, were Chicken 512,000 lb. (3,151,000) lb., Fowl 778,000 lb. (2,262,000) lb. and Turkey 210,000 lb. (9,411,000) lb. These figures do not include estimates for firms whose reports were not received on time. There were no stocks of poultry meat reported in transit on July 1, 1962.

NOTE:

A number of poultry killing and processing plants and some storage premises not previously listed for reporting the stocks, have been added to the list of reporting firms since October 1961. Therefore current stock data are not fully comparable with data for the corresponding month last year. (See Footnote Page 8).

Average Net Weights per Carloads	<u>BUTTER</u>	<u>CHEESE</u>	<u>EGGS</u>	<u>POULTRY MEAT</u>
	lb.	lb.	cases	lb.
Domestic	35,000	38,000	600	25,000
Export	44,800	38,000	600	25,000

These average weights are in accordance with order of Transport Controller TCO4F.

CHAPTER 1

THE first part of the book is devoted to a discussion of the general principles of the theory of the atom. It is in this part that the reader will find the foundations of the theory, and the principles which govern the behavior of the atom.

The second part of the book is devoted to a discussion of the application of the theory to the study of the properties of the atom. It is in this part that the reader will find the results of the theory, and the principles which govern the behavior of the atom.

The third part of the book is devoted to a discussion of the application of the theory to the study of the properties of the atom. It is in this part that the reader will find the results of the theory, and the principles which govern the behavior of the atom.

The fourth part of the book is devoted to a discussion of the application of the theory to the study of the properties of the atom. It is in this part that the reader will find the results of the theory, and the principles which govern the behavior of the atom.

The fifth part of the book is devoted to a discussion of the application of the theory to the study of the properties of the atom. It is in this part that the reader will find the results of the theory, and the principles which govern the behavior of the atom.

The sixth part of the book is devoted to a discussion of the application of the theory to the study of the properties of the atom. It is in this part that the reader will find the results of the theory, and the principles which govern the behavior of the atom.

The seventh part of the book is devoted to a discussion of the application of the theory to the study of the properties of the atom. It is in this part that the reader will find the results of the theory, and the principles which govern the behavior of the atom.

The eighth part of the book is devoted to a discussion of the application of the theory to the study of the properties of the atom. It is in this part that the reader will find the results of the theory, and the principles which govern the behavior of the atom.

The ninth part of the book is devoted to a discussion of the application of the theory to the study of the properties of the atom. It is in this part that the reader will find the results of the theory, and the principles which govern the behavior of the atom.

The tenth part of the book is devoted to a discussion of the application of the theory to the study of the properties of the atom. It is in this part that the reader will find the results of the theory, and the principles which govern the behavior of the atom.
