Vol. 45—No. 8

## SOURCE AND CONTENT

Data for this report are collected by mail questionnaires from dairy factories, concentrated milk manufacturers, public and semi public cold storages, meat packers, wholesale grocers' warehouses and central warehouses of chain grocery stores.

Inventories are taken at manufacturers and wholesale level and firms are required to report all stocks held in their own establishments or in specially rented rooms elsewhere as at the opening of the first business day of the month.

Stocks of butter and cheese in dairy factories are obtained with the co-operation of the provincial governments.

## STOCKS OF DAIRY AND POULTRY PRODUCTS

August 1, 1962

### CREAMERY BUTTER:

At the opening of the first business day of August 1962 the stocks of creamery butter on hand in Canada amounted to 130,846,000 lb. Cold Storage Warehouses had in store 93,257,000 lb. while dairy factories held 37,484,000 lb. The summary total was lower than last year by 9.4 million pounds. The five year average 1957-61 of August 1 stocks is 107,921,000 lb. The July 1962 "into-storage" movement was 20.5 million pounds as compared with a similar movement of 20.7 million pounds last year.

### CHEDDAR CHEESE:

The total stocks of cheddar cheese were 56,601,000 lb. consisting of 56,297,000 lb. Canadian and 304,000 lb. in transit. There were no stocks of imported cheddar cheese on hand on August 1, 1962. The summary total was lower than last year by 4.4 million pounds and showed an "into-storage" movement of 4.4 million pounds for July 1962.

### CONCENTRATED MILK PRODUCTS:

Stocks of evaporated whole milk held by or for manufacturers amounted to 57,951,000 lb. which was a decrease of 13.3 million pounds from last year. The "into-storage" movement of evaporated whole milk for July 1962 was 11.7 million pounds. Stocks of the chief by-products, skim-milk powder, amounted to 39,622,000 lb. a decrease of 7.0 million pounds from last year and an increase of 9.3 million pounds over last month.

### EGGS:

The August 1, 1962 report shows 32,000 cases of cold storage eggs and 67,000 cases of fresh eggs. There were no shell eggs reported in transit. Frozen eggs totalled 7,736,000 lb. being 2.5 million pounds higher than the 1961 figures. The "into-storage" movement of July 1962 was 781 thousand pounds as compared with an opposite movement of 210 thousand pounds during July 1961.

### POULTRY MEAT:

The summary total of dressed and eviscerated poultry meat stocks at August 1, 1962 was lower than last year by 2 thousand pounds. An "out-of-storage" movement of 995 thousand pounds is shown for the month of July 1962. By kind, the dressed and eviscerated quantities in stock, the latter in brackets, were Chicken 513,000 lb. (2,914,000) lb., Fowl 751,000 lb. (1,839,000) lb. and Turkey 179,000 lb. (8,989,000) lb. These figures do not include estimates for firms whose reports were not received on time. There were stocks of 100,000 lb. poultry meat reported in transit on August 1, 1962.

### NOTE:

A number of poultry killing and processing plants and some storage premises not previously listed for reporting the stocks, have been added to the list of reporting firms since October 1961. Therefore current stock data are not fully comparable with data for the corresponding month last year. (See Footnote Page 8).
