## STOCKS OF DAIRY AND FROZEN POULTRY PRODUCTS

November 1, 1970

Source and Content

Data for this report are collected by mail questionnaires from dairy factories, concentrated milk manufacturers, public and semi public cold storages, meat packers, growers, wholesale grocers' warehouses and central warehouses of chain grocery stores.

Inventories are taken at manufacturers and wholesale level and firms are required to report all stocks held in their own establishments or in specially rented rooms elsewhere as at the opening of the first business day of the month.

Stocks of butter and cheese in dairy factories are obtained with the co-operation of the provincial governments; while stocks of poultry products are obtained with the co-operation of the Canada Department of Agriculture.

Beginning September 1, 1970, the data in this publication has reference to frozen poultry products only. Previously, fresh and frozen poultry products were reported and published in total only. Therefore, current stocks of poultry products are no longer comparable to those reported prior to September 1, 1970.
