Published by Authority of the Rt. Hon. C. D. Howe  
Minister of Trade and Commerce

---

Prepared in the General Manufactures Section  
of the Industry and Merchandising Division,  
Dominion Bureau of Statistics, Ottawa

STOCKS OF CANNED FRUITS AND VEGETABLES ON HAND  
(Including Honey)  
APRIL 1, 1950

The Dominion Bureau presents their report on the Stocks of Canned Fruits and Vegetables held by canners, wholesale dealers and chain store warehouses at April 1, 1950. The report is now sectionalized into: A - Canned Fruits, Pages 2-8; B - Canned Vegetables, pages 9 - 15; C - Other Canned Products, pages 16 - 22 and D - Honey, page 23.

Table 1, in each division, presents quarterly data over a two-year period, ending always with the current quarter. In the present report figures are included for 1948, up to the April 1, 1950 quarter. In addition, slight revisions in January 1, 1950 figures have been made in this report. The revisions were necessitated by incorrect reporting in this specific quarter.

Canned Fruits inventories decreased to 4,805,429 dozen containers at April 1, 1950 from 6,020,572 dozen containers held at January 1, 1950. There were approximately 1,800,000 dozen containers more than were reported one year previously at April 1, 1949, when 3,072,791 dozens were reported. The fruits participating in this increased inventory are reported in dozens of containers as follows: Peaches, 810,759; Pears, 477,846; Pineapple, 257,680; Applesauce, 174,308; Fruits for salads, 128,498 and Raspberries, 113,832. Major decreases in Fruits held, compared to April 1, 1949, were, Plums and Gages, 230,973 dozen containers and Cherries, 42,903 dozen containers.

Canned Vegetables inventories decreased nearly 5,000,000 dozen containers in the last quarter. On January 1, 1950, 21,314,806 dozens were reported compared to the April 1, 1950 figure of 16,582,702 dozens which holdings were still 2,000,000 dozens higher than were reported one year ago when 14,226,619 dozen containers were reported on April 1, 1949. Major increases in holdings, compared to the same quarter last year, appear respectively in dozens of containers as follows: Corn, 4,217,720; Peets, 123,367; Nacodine, 113,267 and Tomatoes 112,352. In the same period Peas had decreased 1,431,121 dozen containers and Green Beans were down by 722,880 dozen containers.

It may be noted that the reporting firms are required to show only the number of dozens of cans or other containers, specified according to sizes. This is done to expedite reporting and the conversion of the different sizes to net weight of contents is carried out in the Bureau. See Tables 5, 6, 7, of each respective section for the weights of products reported in Tables 1, 2, and 3.
