STOCKS OF CANNED FRUITS AND VEGETABLES ON HAND
(Including Honey)

April 1, 1952

The Dominion Bureau presents its report on the stocks of Canned Fruits and Vegetables held by canners, wholesale dealers and chain store warehouses, April 1, 1952. The report is now sectionalized into: A - Canned Fruits, pages 2-8; B - Canned Vegetables, pages 9-15; C - Other Canned Products, pages 16-22 and D - Honey, page 25. Beginning last quarter, Inventories of Vinegar, Mayonnaise, Sandwich Spread, Peanut Butter and Prepared Mustard are included on pages 23-24.

Table 1, in each division, presents quarterly data over a two-year period, ending always with the current quarter. In the present report figures are included for 1950, up to April 1, 1952 quarter. In addition, slight revisions in January 1, 1950 figures were necessitated by incorrect reporting in this specific quarter.

Canned fruits inventories decreased to 6,826,005 dozen containers at April 1, 1952 from 8,252,316 containers held at January 1, 1952. There were approximately 1,800,000 dozen containers more than were reported one year previously at April 1, 1951, when 5,002,649 dozens were reported. The fruits whose inventory showed major increases compared with April 1, 1951 are reported in dozens of containers as follows: Peaches, 939,894; Pears, 312,123; Apple Sauce, 181,977; Cherries, 146,874; Plums and Gages, 129,903.

Canned Vegetables inventories decreased approximately 4,500,000 dozen containers in the last quarter. On January 1, 1952, 17,272,414 dozens were reported compared with the April 1, 1952 figure of 12,583,878 dozens which holdings were about 800,000 dozens more than were reported one year ago when 11,773,540 dozen containers were reported on April 1, 1951. Major increases in holdings, compared with the same quarter last year, appear, respectively, in dozens of containers as follows: Peas, 1,446,630; Green Beans, 522,750; Beets, 339,266. In the same period Tomatoes had decreased 315,795 dozen; Corn by 1,068,372 dozen; and Mixed Vegetables by 161,173 dozen.

It may be noted that the reporting firms are required to show only the number of dozens of cans or other containers, specified according to sizes. This is done to expedite reporting and the conversion of the different sizes to net weight of contents is carried out in the Bureau. See Tables 5, 6 and 7 of each respective section for the weights of products reported in Tables 1, 2 and 3.
