Authority of the Rt. Hon. C. D. Howe
Minister of Trade and Commerce

Prepared in the General Manufactures Section
of the Industry and Merchandising Division
Dominion Bureau of Statistics, Ottawa

STOCKS OF CANNED FRUITS AND VEGETABLES ON HAND
(Including Honey)

October 1, 1952

The Dominion Bureau presents its report on the stocks of Canned Fruits and Vegetables held by canners, wholesale dealers and chain store warehouses, Oct. 1, 1952. The report is now sectionalized into: A - Canned Fruits, pages 2-8; B - Canned Vegetables, pages 9-15; C - Other Canned Products, pages 16-22 and D - Honey, page 25. Since the January quarter, Inventories of Vinegar, Mayonnaise, Sandwich Spread, Peanut Butter and Prepared Mustard are included on pages 23-24.

Table 1, in each division, presents quarterly data over a two-year period, ending always with the current quarter. In the present report figures are included for 1950, up to October 1, 1952 quarter.

Canned fruits inventories increased to 7,472,226 dozen containers at October 1, 1952 from 5,008,785 dozen containers held at July 1, 1952. There were approximately 300,000 dozen containers more than were reported one year previously at October 1, 1951, when 7,172,093 dozens were reported. The fruits whose inventory showed major increases compared with October 1, 1951 are reported in dozens of containers as follows: Peaches, 184,270; Pears, 107,386; Fruits for Salad, 154,592.

Canned Vegetables inventories increased approximately 14,000,000 dozen containers in the last quarter. On July 1, 1952, 9,298,102 dozens were reported compared with the October 1, 1952 figure of 23,668,724 dozens which holdings were about 3,400,000 dozens more than were reported one year ago when 20,212,533 dozen containers were reported on October 1, 1951. Major increases in holdings, compared with the same quarter last year, appear, respectively, in dozens of containers as follows: Tomatoes 1,722,502; Corn, 1,448,493; Green Beans, 900,193; Peas, 134,928; Mixed Vegetables had decreased by 278,127 dozen; Spinach by 169,481 dozen; Carrots and Peas by 154,650 dozen and Carrots by 106,605 dozen.

It may be noted that the reporting firms are required to show only the number of dozens of cans or other containers, specified according to sizes. This is done to expedite reporting and the conversion of the different sizes to net weight of contents is carried out in the Bureau. See Tables 5, 6 and 7 of each respective section for the weights of products reported in Tables 1, 2 and 3.
