The method of reporting was changed on January 1, 1941, from CASES to DOZEN CANS. This was done to accommodate the growing number of canners who keep their inventory records in dozen cans. Care must, therefore, be taken in making comparisons with figures for previous periods.

Dozen cans may be converted to cases on the following basis which gives approximately correct results. Canned apples 6 cans to the case.
 All other canned fruits & vegetables 24 cans to the case.
