REPORT ON THE STOCKS OF CANNED FRUITS AND VEGETABLES

ON HAND, OCTOBER 1st, 1947

The Dominion Bureau of Statistics presents herewith the report on the stocks of canned fruits and vegetables on hand, October 1st, 1947. The Statistics in the table below include the stocks held by canners, wholesale dealers and chain store warehouses.

Beginning with the April quarter, 1945, reporting firms are required to give both the number of the cans or other containers as well as the net weight of the contents. This was found necessary as the changes in the size of containers during the past few years has made comparisons difficult. In future the weight of the products reported will allow of a more correct evaluation of the stock position of canned fruits and vegetables. See tables 4, 5 and 6 for weights of the products reported in tables 1, 2 and 3.
