SOURCE AND CONTENT

This report contains data on the stocks of fresh, frozen and cured meats and stocks of lard and edible tallow held by meat packers and their sales' outlets by wholesale butchers, abattoirs and cold storage warehouses. Inventories are taken only at the wholesale level. Canned meat stocks are collected by the Census of Industry and Merchandising Division of the Bureau of Statistics, the latest available information appears on page 1 of this report.

Inventory statement forms are supplied to each firm with instructions to complete and mail in time to reach the Bureau not later than the sixth of the month. Firms are required to report all stocks in their own establishment or in specially rented rooms elsewhere as at the opening of the first business day of the month. By a special arrangement, made with the industry through the Meat Packers Council of Canada, the larger meat packers report total meat inventories regardless of where held and are also permitted to submit figures of their period-end inventory providing such inventory has been taken within three days prior to the month end. Cold storage warehouses are instructed not to report stocks held for large packers.
