## STOCKS OF FROZEN MEAT PRODUCTS

January 1, 1971

### Source and Content

This report contains data on the stocks of frozen meat held by meat packers and their sales' outlets, wholesale butchers, abattoirs and cold storage warehouses. Inventories are taken only at the wholesale level. Stocks of fresh and cured meats previously reported in this publication are no longer collected and therefore not available. Canned meat stocks are collected by the Manufacturing and Primary Industries Division of the Bureau of Statistics.

Inventory statement forms are supplied to each firm with instructions to complete and mail in time to reach the Bureau no later than the sixth of the month. Firms are required to report all stocks in their own establishment or in specially rented rooms elsewhere as at the opening of the first business day of the month. By a special arrangement, made with the industry through the Meat Packers Council of Canada, the larger meat packers report total meat inventories regardless of where held and are also permitted to submit figures of their period-end inventory providing such inventory has been taken within three days prior to the month end. Cold Storage warehouses are instructed not to report stocks held for these large packers.
