## THE WINE INDUSTRY IN CANADA, 1925

Ottawa, lovember $28 t t_{1}, 1926 .-$ A report on the Wine Industry in Canada for the calendar year 1925 is presented herevith. Returns were received from 24 individual plants distributed by provinces as follows: Ontario 21, Manitoba 1 and British Columbia 2. To prevent disclosure of information relating to individual establiskments, it has been found necessary to combine the statistics for Manitoba and Eritish Columitia and they are shown thraghout this report under the heading of "Other Provinces."

## Principal Statistics Compared

A comparative sumary of the principal statistics of the industry for the calendar years 1924-1925 is shown in Table. l. Compared with 1924 there was an increase in both quantity and value of wines mamufactured, amounting to 244, 418 gallons in quantity produced and to $\$ 251,524$ in the value of production.

Table 1. Principal Statistics Compared, 1924 and 1925.

## 2axwicis

The quantity and selline value of the principal products of the industry are given in Table 2, by provinissa for the cilendar year 1925. The total value of moducts increased by $\$ 299,409$ when compares with the Trevious year whilst the guantity of wines, femerated and unfermented, manufactured durins the year was Teater bir 244,418 gallons. Grape juice also shows decreased roduction but the value increased by $\$ 43,2: 50$. The average price of fermented wines which in 1924 Was $\$ 1.07$ Der gallon fell in 1925 to $\$ 1.06$ per Eallon.

The province of ontario produced 93.4 per cent of the total value and nearly 95 per cent of the total quantity of wines during 1925. The particular section fi Ontario enfaged in tre indusiry was that centred around the Niagara Peninsula are on account of favorable climatic conditions the growing of grapes is a well ascablished and successful industry.

Table 2. Wine Droduction, by Provincer, 1925.

| Ciasses of Products | Conadir |  | Ontario |  | Other |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Quantivy | Value | Quantity | Value | Quantity |  |
|  |  | \$ |  | - |  | 5 |
| Fermented wine Gal. | 1,388,265 | 1,468,503 | 1,328,270 | 1,371,543 | 59,995 | 96,760 |
| Unfermented mine | 4,280 | 15,355 | 3,230 |  | 1,050 | 2,100 |
| Crape juice |  | 115,509 |  | 115,509 | - | - |
| Syrups and fruit suice | 1,800 | 3,000 | 1,800 | 3.000 | - |  |
| All other products | 1,800 | 22,375 | 1,800 | 13,675 | - | 8,700 |
| 'Iotal value of products | - | 1,624,742 | - | 1,516,982 | - | 107.760 |

## CAEITAL INVESTMER

The amount of capital invested in the industry in $192 \%$ thons an ad:ence of 11.6 per cent over the preceding year. Fixed capital which includes lands, vildinss, fixtures, machinery and tools accounted for an investmeat of Pe 3,969 or 31.4 per cent of the total. Working capital wrich includes material Gadnished moducts on hand, stocks in process of mamfacture, fuel and niscellaneous suoplies together with cash, trading and operating accounts, etc.. totalled $\$ 2,020,974$ or 68.6 per dent of the total investment. Allocated eccording to provinces, Ontario supried $\$ 2,860,091$ or 37 per cent of the total for the Deminion, Manitoba and British Columbia supplying the remaining three rer cent. Tre statistics of capltal investment by classes are shown by orovinces is table 3 .

Table 3.- Capital Invested by Classes and Provinces, 1925.

|  | Fred Capital | Torking | Capital |  |
| :---: | :---: | :---: | :---: | :---: |

| er cent of total cajital | 31.4 | 40.3 | 28.3 | 100.0 |

## EMPLOMNENT STATISTICS

The statistics relatire to employmont are presented in a series of tables as fcllsws: Table 4 shows employment by classes, sex and remuneration. Table 5 shoms the number of persons employed by months and by sex and Table 6 , the operating time of plants and the hours of labour of employees. The number of perscns emplcyed on sularies and wages during 1925 is shomn in table 4 by sex, and remmeration for Canada and the provinces. More than 92 per cent of the employees and 94 per cent of the cost of salaries and wages are accounted for by the province of ontaric.

Table 4. Employees, Salaries and Nages, by Provinces, 1925.

| Classes of employees |  | Canada | Ontario | Other Provinces |
| :---: | :---: | :---: | :---: | :---: |
| Salaried emoloyees - |  |  |  |  |
| Male | No. | 47 | 45 | 2 |
| Feriale | No. | +13 | 13 | - |
| Wage-earners - ${ }^{\text {a }}$ |  |  |  |  |
| Male | No. | 101 |  | 12 |
| Temale | No. |  |  | - |
| Total wages | \$ | 122,061 | 110,899 | 11,162 |
| Total male employees | No. | 148 | 134 | 14 |
| Toial female employees | No. |  | 23 | - |
| Total salaries and wages | \$ | 246,746 | 232,509 | 14.237 |

Employment by Monthe.- The number of wage-earners employed in the industry in each month of the year is shown by sex in Table 5. The months of highest employment were October to December, whilst those of lowest employment were January to June. The avorage number a $^{\text {i males }}$ employed monthly fas 101 and of females 10 .

Table 5. Employment, by Months, 1925.

| Months | Tage-earners |  | Months | Wage-earners |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | $\begin{aligned} & \text { Mal es } \\ & \text { No. } \end{aligned}$ | $\begin{aligned} & \text { Females } \\ & \text { No. } \end{aligned}$ |  | $\begin{aligned} & \text { Males } \\ & \text { No. } \end{aligned}$ | Ferales No. |

| May | 93 | 11 | November | 117 | 10 |
| June | 94 | 10 | December | 120 | 12 |
| Total for yearAverage montrly employmer.t durine year |  |  |  | $\begin{array}{r} 1,208 \\ 101 \\ \hline \end{array}$ | $\begin{array}{r} 125 \\ 10 \\ \hline \end{array}$ |

Torking Time.- The statistics of morking time of plants and employees are pracented in Table 6. The average time that plants operated whether on full or part time was 245.8 days and the average of time olants were idle 58.2 days. The average working time of employees was 9 hours per day or shift and 51.6 hours per reek.

Table 6. Working Time of Plants and Bmoloyees, 1925.

| 5.560 | 231.7 |
| 3338 | 14.1 |
| 1.398 | 58.2 |
| 1,587 | 9.0 |
| 1,239 | 51.6 |

## FTEL OO1ENTMTCN

The quantity and value of the classes of f:ol consumed includine freight, duty etc. is shomn in Table 7 for the calendar year 192う. The total cost of the fuel consumed was 99,780 , an anount slichtly in excess of the cost in 1924, which as stated in Table 1 mas $\$ 9,078$. Coal mas the rincipal fuel and represented 74.6 nor cent of the total cost. Gasoline mas next in order to the value of $\$ 1,579$ * on 16.2 ner cent.

Table 7. Fuel Used by Kinds, 1925.

| Kinds of fuel used |  | Quantity | Cost Value at Torl: |
| :---: | :---: | :---: | :---: |
| Bituminous coal | Ton | 743 | 5,218 |
| Anthracite coal | Ton | 164 | 2,058 |
| Coke | Ton | 53 | 584 |
| Gacoline | Gal. | 5.653 | 1,599 |
| Oil (fuel) | Gal. | 450 | -125 |
| as | M.c.ft. | 37 | 59 |
| All other fuel | - |  | 137 |
| Total Cost of Mrel |  | - | 9,780 |

## 3OTR INETALTATION

Power installed in the wineries of the Dominion is shown by classes in 留able 8 accordine to (a) the number of units in each class and (b) the horsepower as rated by the mamafacturer. The total power units installed was 60 and the canacity horse-power 225 . Of this oower electric motors contributed 72 ver cent, stoam encines 22 per cent and internal combustion engines 6 per cent. The cost of electricit" purchaged during the wear was $\$^{4}, 482$ beins an average per rated horse-pomer of $\$ 17.15$. The mumber of boilers installed for any purdose was 5 With a total hoiler horse-power capacity of 145 .

Table 8. Power Installed, 1925.

| Classes of Power | No, of Units | Horse-Dower accordins to mamufacturers rating |
| :---: | :---: | :---: |
| Steam engines and turbines | 3 | 72 |
| Cil, gas and easoline enylnes | 3 | 19 |
| Zlectric motors operated by purchased nower | 54 | 234 |
| Fotal nower for manufacturing ourposes | 60 | 325 |
| Boilers installed for any purnose | 6 | 145 |

## COST OF MATERIALS

The cost value of all materials used in the industry in 1925 amounted to $\$ 781,307$ as combered with $\$ 612,521$ in 1924. The various materiols used are shomin by kinds, quantity and cost value delivered at the morks in Table 9. An increase of $\$ 168,786$ is shom in the total cost of materials used in 1925 when comparec mith 1924 or 27.5 per cent.

Table 9. Materiele Used Cy Yinds, \&uantities and Values, 1925

| Classes of liaterials | Urit of Measure | Guantity | Cost Vialue at worles \$ |
| :---: | :---: | :---: | :---: |

| Total Cost of Materials | - | - | 781,307 |

## $-5=$ <br> THS YIUR ITDETRY IN CATADA, 1925.

IMFORTS OF WINTS, 1925.
Imports of wines for consumbtion in Canada are shom by tmo orincival classes, sparkling and ncn-sparkling, in Table 10. The quantity and ralue cf such imports are further shown in the table by countries for the calendar year 1925. The total value of all wines importei curins 1925 was given as $\$ 1,294,830$ of mrich 53,458 dozen of all sizes were valued at $\$ 505,339$ were entered as sparking wines and 555,942 fellons worth $\$ 789,417$ as non-sparkling. France. Spain and Pertugal in the order ramed were the leading countries from witick non-sparking wines were importei during 1925, whilst France alcne vas responsible for 97 per cent of the quantity of soarcling wines improtez.

Table 10. Imports of Tines dy Classes, Countries, Guantity and Talue, 1925.
(calendar year).

| Countries from whick. Imported | Non-Sparki:ng Tines |  | Sparking Wines |  | Tctal value of Wines |
