THE AERATED WATERS INDUSTRY, 1938

Manufacturers of carbonated beverages in Canada reported a gain of over 16 per cent in the value of products in 1938 as compared with 1937. Output from these factories in 1938 was worth \$26,094,126 at factory selling prices compared with \$22,383,113 in 1937.

In 1938 there were 454 plants in Canada which were engaged chiefly in making non-alcoholic carbonated beverages. Of these, 169 were in Ontario, 145 in Quebec, 29 in Nova Scotia, 28 in British Columbia, 17 in New Brunswick, 22 in Saskatchewan, 22 in Manitoba, 18 in Alberta, and 4 in Prince Edward Island. Plants in Quebec and Ontario accounted for 80 per cent of the total production and 76 per cent of the employees. In addition, 10 breweries made carbonated beverages as secondary products; 5 of these were in Ontario, 1 in Manitoba, 2 in Alberta and 2 in British Columbia.

Capital employed in the industry was reported at \$18,879,487 including \$11,653,042 as the value of lands, buildings and equipment, \$3,502,276 as the value of materials on hand and stocks in process and finished products on hand, and \$3,724,169 as operating capital.

Employees numbered 4,569 including 1,218 on salaries and 3,351 on wages. Salaries amounted to \$1,877,518 and wages to \$3,283,287.

Production included carbonated beverages worth \$25,433,594 at the works, syrups and concentrates at \$2,423,372 natural mineral waters at \$105,872 and miscellaneous products at \$81,288.

In addition to the production of carbonated beverages in this industry, there was an output worth \$619,871 by firms in the Brewing Industry. Thus the total Canadian output of carbonated beverages amounted to \$24,103,465.

Imports into Canada of mineral and aerated waters were valued at \$62,792 during 1938 and exports for the same period amounted to \$6,177.
